INTERVENTION NOW LOOMS ON MEXICAN HORIZON

President much irritated by repeated raids, demands show of good faith on part of Carranza and Obregon in operating with expedition; relations will be broken.

Position of Administration as outlined after cabinet meeting is that de facto government must come squarely to "show down," and duplicity will cause quick military action.

Washington, May 9.—After the cabinet meeting today an outline of the administration's present position on Mexico was obtained from a high official source. It follows:

For the first time President Wilson is considering the possibility of actual intervention in Mexico.

Further raids into American territory by Mexicans will not necessarily force this step, but if the president becomes convinced that Carranza, Obregon and other members of the Mexican de facto government are temporizing and that they are insincere in their representations to the United States he will sever all relations with them and intervene in earnest.

All military activity in this country is now directed with a view of possible intervention. This policy will be continued and preparations for intervention increased until it is definitely established that Carranza is not only willing but able to assist the American forces already in Mexico.

President Wilson was greatly irritated over the recent raid into American territory and there are indications that some persons associated with Carranza are attempting to put obstacles in the way of the punitive expedition. It can almost be said that the president is wavering between

greater preparedness for intervention and immediate intervention.

THE ERULING PASSION.

Captain Dick Clayton of the English army, stationed in India marries Claire an English girl. Claire meets Prince Ranjit Singh, ruler of the native state. His heart is captured by the beautiful European girl and he determines to win her. A white girl in the Prince's harem has been poisoned by her royal master. This fact is betrayed by a servant, for which treachery he is blinded. The prince persuades Claire to elope with him. Claire disillusioned escapes from the household and seeks refuge in a native hut. The governor sends troops to put down a rebellion, and Luluah stabs the Prince. Claire is discovered by the governor.—Friday May 12th at Shadowland.

THE SINGING CONVENTION.

Most Successful of All Similar Occasions—Largest Crowd and Most Convenient Arrangements For Them.

It has come and it have went. President W. L. Doss has had the burden rolled away, and for the next fifty-one weeks will sleep the untroubled sleep that reflection on a great duty well performed invariably brings to the human conscience. We always feel like weeping with him, just before the meeting of the county singing convention, as he recites the multitude of his managerial woes and decants upon the utter unreliability of human promises—but we always check up our feeling just one jump short of the lachrymose deluge. By the hour of the actual beginning of the annual tune-fulness, he is keyed to concert pitch. So it is, we know he feels relieved when his official responsibilities ease

By which above token, the convention of last Sunday was the most generally attended, best enjoyed and arranged of any of like kind ever held in this city. The crowd was variously estimated at from 2,500 to 3,500 people. There seemed as many outside the tabernacle and on the streets as were inside the building, but believe 2,500 in evidence at one time, would cover the crowd.

The exercises began about 9:30 and continued until after 11 o'clock, at which time Dr. F. M. McConnell, who had been conducting a series of meetings at the tabernacle the two previous weeks, preached a very practical and pertinent sermon, soon after which, the crowd was dismissed for dinner, which was served on the court house lawn on tables. Some apprehension was felt that the crowd was larger than the provision made for its feeding, but owing to a much better arrangement than had prevailed heretofore, there was practically no waste nor obstruction. So soon as one was helped, he retired that another might be served, and ate wherever most convenient.

The crowd was in splendid good humor and came to enjoy themselves. The street between the court house and tabernacle was closed to all kinds of vehicles, so that all possibility of danger from autos was obviated. No cars were allowed near the entrances of the tabernacle, so that the usual element of noise which had proven so distracting on similar occasions, was pleasantly missing.

The afternoon was given wholly to class and congregational singing, which was much enjoyed. Some of the choruses were the best we have ever heard on convention occasions, the bass voices being singularly fine. All in all, the singing convention just past was the most successful from the point of attendance and generally expressed satisfaction that has ever occurred in Colorado. To President Doss, and his various committees much credit is due, and the Record hereby voices the same in the name of all who attended.

At a business meeting held on Saturday night, all the old officers were reelected.
W. L. Doss, President.
J. E. Stowe, Vice-President.
Earl Jackson, Secretary-Treasurer.
A. J. Smith, Chaplain.

THE FORD AGENCY.

Until further notice you will find A. J. Herrington with the Ford Agency at the Paramount Garage.

Rev. Guy B. Duff will leave the first of next week for Orlando, Fla., to attend the General Assembly of the Southern Presbyterian church. He will be gone about two weeks.

Mr. and Mrs. Guitler returned from Silver City, Wednesday night. They were accompanied by Mr. and Mrs. Hunt and daughter.

Mrs. Hulbert who has been the guest of her sister, Mrs. Pierce, returned to her home in Dallas Thursday.

Miss Nina Wright of Big Spring is the guest of her cousin, Miss Minnie Bellah, this week.

Mr. and Mrs. Rankin of Aspermont are visiting her sister, Miss McIntyre.

Isn't it about time to sell hot tamales for a "relief fund" for the punitive expedition?

SCHOOL CLOSES THIS WEEK.

The Graduating Class Being Larger than in Several Years—19.

The public schools closed here this week, after a successful term. Despite the fact that nearly every teacher had enough work for two, there has been good work done. If there is anyone who gives value received, it is the teacher. Working over hours, hearing complaints from morning to night and often times doing the work that should be done by the parents, she never eats idle bread.

Every teacher here this year has well earned her salary and deserves the thanks of the entire community.

The graduating class is the largest for several years, there being nineteen graduates, five boys and fourteen girls. They are:

ALFRED FULLER
HARRY RATLIFF
WILLIE DOSS
CARL CARMACK
PAUL TERRELL
LULU MAE DULANEY
SALLIE HERRINGTON
LONA HERRINGTON
MARY WATSON
MABEL EARNEST
PAULINE ROOT
ANNIE McMURRY
CLAUDIA SMITH
KATIE BUCHANAN
WINNIE CROCKETT
ETHEL DYAS
COURTNEY FORMWALT
EVA DAVIS
MADELINE SHEPHERD.

Instead of the usual graduating essays, etc., the class this year will give a play, The Lion Tamer, at the opera house, Friday evening.

On Sunday evening at eight o'clock at the Methodist church the baccalaureate sermon will be preached by Rev. J. W. Burkhardt, pastor of the Christian church at this place.

The graduating exercises will be at the High school building Monday night. The address will be made by Hon. H. P. Breisford of Eastland.

The honor pupils of the school are changed some from last year.

Miss Annie McMurry who has led her class all her school life, takes first honors in the senior class, with Miss Pauline Root second.

Miss Ruth Dorn again leads her class, the tenth grade, with Miss Lizzie Kirkpatrick second.

Joe Earnest again takes first honors with Stansel Whipkey second, in the ninth grade.

This first honors of the eighth grade went to a new pupil, Miss Myrtle Barber, with Miss Daisy Adams second.

In the seventh grade Miss Jewel Mitchell won first place and Master Ford Merritt second.

In the sixth grade Miss Julia Shepherd was first, with Miss Frank Ball Root in second place.

Lois Warren had first honors in the fifth grade, and the second place was tied by Myrtle Seale and Louise Wuljen.

Master Richard Pearson still leads having first place in the fourth, and Miss Eleanor Thomas again has second honors in that class.

Robert Whipkey rises to first honors in the third grade and Misses Leonora Ehrlich and Mabel Watson tied for second place.

Phelan Dorn took first place in the second grade and Miss Elizabeth Root second.

Little Miss Laura Louise Pearson carried off first honors in the first grade and Miss Lillian Pond the second.

The Record congratulates the ones winning honors and sympathizes with the ones who almost got there. It would be nice if everybody could be first.

Taken all in all this has been a most successful and satisfactory term of our public schools, and the pupils generally have made a great advance.

Supt. Judd has been painstaking and thorough in all the departments, and has so conducted the school, as to give almost universal satisfaction.

The entire faculty have been faithful and untiring in their efforts to do their duty as they saw it, and what more can be said of anyone, occupying a public position.

The Board has not yet announced elections for next term, of Superintendent, principal or teachers. But presume this matter will be taken up at once. If the same careful selection is made as was made last year, we will no doubt have another successful term.

BACCALAUREATE SERMON NEXT SUNDAY.

Rev. John Wesley Burkhardt, pastor of the First Christian church of this city, will preach the baccalaureate sermon before the graduating class of the Colorado High School next Sunday night at the Methodist church, at 8 o'clock. The public generally is cordially invited to attend this service.

Beginning on Monday, May 15th the skating rink will open in morning and night only, except Saturday. Ladies will skate free on each Monday, Wednesday and Friday nights, when accompanied by a gentleman. There will be no free session mornings as before.—H. C. Doss 5-19c

Mrs. Hunter Looney and Mrs. Chas. Mann returned from El Paso yesterday morning and report that the people of that city are quite uneasy over the prospects of border troubles.

Dr. J. W. Mickle has been absent all the week attending court at Amarillo where he was a witness in a murder case. The doctor returned home on Thursday morning.

E. B. Gamel the Coahoma farmer, came in Thursday morning and left a dollar for good luck. Gamel says he has 200 acres of cotton looking fine.

Mr. A. E. White purchased some of the Ed Womack cattle Monday.

Riverside school will close Thursday the 18th.

Quite a number from here attended the singing convention at Colorado Sunday; but still, there was a good attendance at Sunday school, after which Rev. J. B. Ray delivered an interesting sermon.

SINCE TAKING PERUNA

I can say my bowels are much more regular. My heart is stronger. My appetite is much better. My throat is much better.

Mrs. William H. Hinchliffe, 20 Myrtle St., Beverly, Mass., writes: "I have taken four bottles of Peruna, and I can say that it has done me a great deal of good for catarrh of the head and throat. I recommend Peruna to all sufferers with catarrh. I do not think I ever felt much better. I am really surprised at the work I can do. I do not think too much praise can be said for Peruna."

Those who object to fluid medicines can now procure Peruna Tablets.

JUDGE SMITH REFUTES THE CALUMNY.

The following letter from Judge W. R. Smith explains itself and the occasion for its writing.

Washington, D. C., April 20, 1916. Mr. M. Lester Chambers, Editor Tribune, Winters, Texas.

Dear Sir:—While I have not had the opportunity of knowing you personally, my knowledge of the Texas press in general renders me certain that no reputable editor or newspaper in our state would willingly misrepresent any man in public or private life. It is for this reason that I feel entirely free to call your attention to an editorial which appeared in your paper on the 13th instant headed, "Dale-Blanton."

I am confident that had you been correctly informed regarding my official record you would not have done me the injustice you have done in that issue of your paper. In that editorial you say "in 1914 Judge Blanton went to the Pecos River with a clear majority over Congressman Smith." This is not in accord with the facts. I went to the Pecos both from the East and from the West with a clear majority over Blanton and with a majority of 44 votes in his home precinct. Again you say, "Judge Blanton is a white ribbon pro from precinct to nation while Congressman Smith is an anti in the same proportion." No one familiar with my attitude on the prohibition question will attempt to substantiate that assertion. I have been a prohibitionist all my life, and have never at any time been on the anti side. I have supported prohibition for precinct, county, state and nation. I assisted in passing the Webb-Keyton bill giving the states complete jurisdiction over all intoxicating liquors immediately upon coming within their territorial limits thereby removing all obstructions to the enforcement of the state prohibition laws. In the last congress I supported the Shepard-Hobson resolution to submit an amendment to the constitution providing for nation wide prohibition.

These would be strange performances for an anti-prohibitionist; would they not?

You say "Judge Blanton believes in appointing to office men whom the people want while Judge Smith says it is none of their business whom he appoints," and that "Judge Blanton is opposed to gork barrel methods while Congressman Smith keeps his power that way."

This is manifestly so unwarranted by the facts that it seems to be unnecessary to enter a denial, when my years of service furnish a record so at variance with your assertion.

In conclusion, I respectfully ask that you kindly publish this letter. That the truth and the facts be told in this campaign is all I ask.

Yours very truly,
W. R. SMITH.

WHOOPIING COUGH.

"When my daughter had whooping cough she coughed so hard at one time that she had hemorrhage of the lungs, I was terribly alarmed about her condition. Seeing Chamberlain's Cough Remedy so highly recommended, I got her a bottle and it relieved the cough at once. Before she had finished two bottles of this remedy she was entirely well," writes Mrs. S. F. Grimes, Crooksville, Ohio. Obtainable everywhere.

ARE BREWERS TO DROP COLQUITT?

A leading brewer of St. Louis was in Dallas the other day and sensational rumors relating to Texas politics are afloat touching the object of his coming. It is said that the brewers have become convinced that recent developments have put Colquitt out of the running as a senatorial possibility, and that they are trying to get together on another candidate. There is much speculation as to who will fall heir to their support.—Waco News.

WILL MAKE EXTENSIVE IMPROVEMENTS.

The Watson Gin Company believes in giving its patrons the very best that money can buy and inventive genius devise. To this end they have begun such extensive and material improvements that when completed, will place this gin in the very forefront of such industries in West Texas. This gin turned out 2990 bales of cotton the past season, and expects to do much better than this record the coming season, judging from the present outlook and prospects.

The old machinery has been taken out and shipped back to the factory in exchange for the most modern outfit. The plant will consist of a battery of eight 70-saw gins, which at ordinary speed, within a day's run will gin 80 bales per day. About \$8,000 worth of new machinery will be placed; the building enlarged, and when ready for work next fall, the plant will represent an investment of something less than \$12,000.

W. E. Watson, resident manager of this industry, is a born gin man—and he looks the part. He has had long experience in the business and more than all else, has the gift of making friends. It goes without saying that the Watson Gin Company will do its share of the ginning business the coming year.

NEW USE FOR TOURING CARS.

The use of motor trucks and armored automobiles has already been demonstrated in actual warfare, but it remained for the American troopers now chasing Pancho Villa in Mexico, or guarding the border, to demonstrate the feasibility of putting ordinary touring cars to military use.

A few days ago an Overland touring car was driven north of Columbus, N. M., by United States artillerymen. A machine gun was mounted in the tonneau and targets were fired at, with the machine traveling and at a standstill. The test was reported to be very successful. It was found that a touring car was fully as logical and as feasible as a truck for the purpose. The demonstration proved that the vibration of a gun being fired does not swerve the aim a particle. In fact the car barely is shaken. The objection to cramped quarters was also conclusively dismissed when it was shown that four men could ride comfortably in the car with the gun.

The bandit raid upon Glenn Springs last Friday morning, may determine Governor Ferguson to call out the national guard to protect the section adjacent to the Rio Grande. His action will depend on the report of state ranger, Capt. Fox, whom he has detailed to make an investigation and report to Austin.

If the price keeps on going up, molasses will land among the luxuries.

KAISER WANTING ARMISTICE.

London, May 8.—A Rotterdam dispatch says that it has been learned on high authority that Emperor William Easter Sunday sent an autograph note to Pope Benedict, expressing the hope that the Pontiff and the King of Spain would be able to construct a scheme to bring about a conference of the belligerents for the consideration of armistice, hoping that eventual would be the result.

It is reported that envoys from the kings of Bavaria and Saxony have arrived at Rome.

MUST NOT DICTATE TO ENGLAND.

Washington, May 8.—A note from the United States to Germany was virtually completed and will probably go forward this afternoon, informing Germany that as long as the new instructions to her submarine commanders are observed, diplomatic relations will continue and that there will be no break as intimated in recent demands of this government.

It will specify that the United States cannot allow Germany to dictate its negotiations with England.

The note will be brief and will be made public as soon as possible after it is forwarded.

IMPORTANT NOTICE.

In view of the indiscriminate and dangerous shooting of firearms, which has prevailed within the corporate limits of the City of Colorado, and which came nearly resulting in the death of a little child this week, notice is hereby given to one and all, parents, guardians and children alike, that the law against such shooting will from this time forward be strictly and impartially enforced. Parents are requested and expected to admonish their children in this regard, and do all they can to keep firearms out of their hands. Everyone caught shooting within the corporate limits of the town hereafter will be dealt with as the law directs. If you want a predatory cat or dog killed, notify the marshal and he will do the killing for you. Better take due notice hereof and govern yourselves and kids accordingly.

WHAT THE DOCTOR KNOWS.

Kidneys Must Be Right To Insure Health.

Few people realize to what extent their health depends upon the condition of the kidneys.

The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot readily be brought back to health and strength.

When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health statistics, Bright's Disease, which is really an advanced form of kidney trouble, causes nearly ten thousand deaths in one year in the state of New York alone. Therefore, it is particularly necessary to pay more attention to the health of these important organs.

An ideal herbal compound that has had remarkable success as a kidney remedy is Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

The mild and healing influence of this preparation, in most cases, is soon realized, according to sworn statements and verified testimony of those who have used this remedy.

When your kidneys require attention get Swamp-Root at once from any pharmacy. It is sold by every druggist in bottles of two sizes—50c and \$1.00.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Colorado Weekly Record.

COUNTY TREASURER'S QUARTERLY REPORT.

Ending May 8, 1916.
In the matter of the Quarterly Report of J. E. Stowe, County Treasurer of Mitchell county, Texas, and the affidavits of the Commissioners of said County.

In the Commissioners Court, Mitchell county, Texas, May term, A. D. 1916, this 8th day of May, A. D. 1916.
We the undersigned Commissioners of Mitchell County, Tex. and J. H. Bullock, County Judge of said Mitchell County, constituting the Commissioners' Court of said county, and each one of us do hereby certify upon oath that on this, the 8th day of May, A. D. 1916, at a regular term of our said Court, we have compared and examined the quarterly report of J. E. Stowe, Treasurer of Mitchell county, Texas, for the quarter beginning on the 13th day of May, A. D. 1916, and ending on the 8th day of May, A. D. 1916, and upon finding same correct, have caused an order to be entered upon the minutes of the Commissioners' Court of Mitchell County, stating the approval of said Treasurer's report by said court which said order recites, separately, the amounts received and paid out of each fund on the said 13th day of March, since his last report in the Court and during the time covered by this report, and the balance remaining in each fund on the said 8th day of May, A. D. 1916 and have ordered the proper credits to be made in the accounts of said Treasurer, in accordance with said order as required by Article 867 Chapter 1, Title XXV, of the revised Statutes of Texas, as amended by an act of the 25th Legislature of Texas at its regular session.

And we, each of us, further certify upon our oaths that we have actually and fully inspected and counted the amount of money, in cash and other assets, in the hands of said treasurer, belonging to Mitchell county on this day and date and found the same to be as follows, to-wit:

Total cash on hand, belonging to Mitchell county in the hands of said Treasurer, \$8,933.10.

Assets in addition to the above amount of money as actually and fully counted by us, in possession of said County Treasurer.

Permanent School Fund invested in bonds \$1000.00.

Permanent School fund in land notes \$7856.00.

Total \$8856.00.

Assets \$17,789.10

ANOTHER VILLA RAID.

El Paso, May 7.—A detachment of nine American soldiers forming the patrol at Glenn Springs, Texas, was almost wiped out in a raid of Villista bandits across the border Friday night, according to reports received by Major General Frederick Funston today from Major O. E. Meyer of the Fourteenth cavalry at Marfa, Texas.

According to Major Meyer the raiders, numbering more than fifty men, set fire to the patrol camp and fired on the troopers as they tried to escape in the dark. Three were killed, two were wounded and four are not accounted for. The bandits then looted Glenn Springs, killing, according to the reports received by General Funston, the 10 year old son of Ellis Woods. They secured \$2,000 in cash in the town.

ERADICATION OF JOHNSON GRASS.

(By G. M. Garren, Agronomist, Extension Service, A. & M. College.)

There is no method of eradicating Johnson grass "while you wait." The quick, easy, inexpensive method has not yet been discovered. Its root, stock habits of propagation renders it very probable that such a method will never be discovered. However, it can be eradicated by any farmer who is willing to pay the price of "keeping everlastingly at it." Eternal vigilance is the price of agricultural liberty in the eradication of Johnson grass.

It is a great farm nuisance in any field especially where irrigation is practiced. Ordinary cultivation only sends the root stocks deeper into the loose soil and thereby renders eradication doubly difficult. The principle upon which its eradication depends is based upon the utter destruction of the root stocks. This principle can be applied by either direct or indirect methods. The direct, is the destruction of the root stocks outright; the indirect is not to allow the tops to grow and thereby starve the roots to death.

Practical ways of applying these methods as they have been gathered from men in the field working at the job, are here submitted.

First. Turn badly infested land into pasture or meadow so the grass can be grazed or mown. The lack of cultivation keeps the root stocks near the surface of the ground where they can better be handled by the direct method. At the same time, the grazing or the mowing is starving the roots by the indirect method. All are agreed that continual pasturing will kill it, but it will require several years.

Second. The manager of a big irrigation farm in Medina county reports that last season he sowed his badly infested land in Sudan grass. At the end of the season the amount of infestation had been so greatly reduced, he is going to repeat the sowing of Sudan grass on the same land the present season. He believes he will by this method, finally eradicate the Johnson grass. He is correct and will succeed. The very shallow cultivation required for Sudan grass and its frequent mowings, are applications of both the direct and indirect methods.

Third. Another farmer on an irrigation farm near San Antonio, Texas, that is very badly infested, claims that he can practically eradicate it in one season by frequent turnings of the land and the consequent exposure of the root stocks to the hot sun during the months of July and August. This method he claims, will destroy it all except a few isolated patches that can be easily handled. This is an application of the direct method. The objection to this method is, that a man loses the use of his land for at least two months. This objection can be partially overcome by grazing hogs on the freshly upturned roots.

In this instance and in all others, where there are only a few isolated patches to deal with, they can be destroyed by a heavy application of table salt. The salt will kill the roots and not permanently injure the land.

Fourth. In cultivated fields use long sharp sweeps that will cut the grass just beneath the surface of the ground. The few bunches left in the rows will have to be cut with a hoe.

BEST THING FOR A BILIOUS ATTACK.

"On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. Failing to get any relief from any other treatment, I took three of Chamberlain's Tablets and the next day I felt like a new man," writes H. C. Bailey, Editor Carolina News, Chapin S. C. TOO MANY LAWYERS.

Fully three-fourths of our Presidents and public service commissioners have been lawyers, and all of our judges. We are truly a government of the lawyers, and by the lawyers, and very largely for the lawyers. There should not be more than one lawyer to each 5,000 population in Texas, and this should be enforced by a licensing board composed entirely of laymen. This number is ample to settle all disputes in a righteous way, and it will not leave a surplus to stir up strife and to fill all the offices. It will cause many of our bright young men, who are attracted to the law because it is the recognized highway to political preferment, to choose farming, mechanics or some other useful occupation. I would suggest, too, that at least one branch of the legislature should be entirely free of lawyers. There should be a state attorney, paid by the state to defend as well as prosecute criminals, and no lawyer should be allowed to take a fee, either to prosecute or defend.—Geo. W. Armstrong.

What Would We Do Without Sugar?

HOW SUGAR CANE GROWS

We are so used to sugar that we are likely to forget to give it its proper place. Right now if somebody asked you what sugar was good for you'd probably say—"Oh! to put in coffee and tea and for making candies and desserts." That's it—we all think of sugar as a sweetener and overlook its value as a food.

The chemists classify sugar as a hydrocarbon—that name may or may not be interesting to us, but what is interesting is their statement that it has, as a hydrocarbon, equal food value with the starchy foods and by digestion largely adds to the fatty tissues of the body.

Why do we eat sugar anyway? Your first answer might be: "Because it is sweet and tastes good." Of itself the answer would be correct, but the more important fact is that the body craves sugar because it needs it. And when the body craves something it gives us an appetite for it. So primarily that's why we like sugar and things made with sugar and not just because they are sweet.

In view of the fact that sugar has gone up so tremendously of late these facts

are interesting because we find that instead of the luxury sugar having gone up it is the FOOD sugar that has raised its price. Yet—even though the price is up we have to have our sweet food just the same.

Certainly the makers of that delicious beverage Coca-Cola must have discovered that sugar is up, because one of the principal ingredients in making Coca-Cola syrup is fine cane sugar. Think of it!—they use an average of 80 tons of sugar a day—about 4 carloads. But unlike many manufacturers that company has itself borne the raise and so you and I pay just the same today for our bottle or glass of Coca-Cola that we've always paid. Incidentally, this phase of the situation is a good reminder of the benefits one gets from drinking a beverage as pure and good as Coca-Cola. Not only do we please our palates and derive wholesome refreshment from the drink but we also give our systems that bit of sugar sweetness that they crave and which is necessary to health and tissues. Is it any wonder then that Coca-Cola is so popular and so universally drunk that it has been called "the drink the nation drinks"?

From every section of the county and West Texas in general, come reports of most excellent conditions. The range was never better than now; cattle were never in better condition or come through a winter season so strong and healthy. Its the same story all over this section of the state, and there is every indication that the tide of immigration this fall will be heavy.

Mr. Home Hunter; if you ever expect to own a foot of land in West Texas, you had best get busy now. It will never be as cheap again as in this present good year of grace and prosperity. Those who have been waiting the last eight years for a slump in productiveness and price, have another wait coming. At the present price of cattle as well as in view of the future prospect, the land for grazing purposes alone will be worth more than it ever was. Considering the greater amount one man and one team can cultivate and the amount of stuff that it will produce, one acre of Mitchell county land is intrinsically worth more than two acres of the heavy land of the black belt, while the conditions of living in this country are growing easier and better every year. Better come now and grow up with prosperity.

How poor and utterly unreliable are the foresights of even the wisest. When war was declared on August 2, 1914, the experts and in experts concurred in the opinion that it could not continue more than ninety days at the longest. Many thought one big battle would settle the business. Nearly twenty months have elapsed since then and Europe has poured out in treasure and blood a far greater sacrifice than in all the wars that have preceded this one, and none can even conjecture the approximate time of its ending. Undreamed of resources have been brought to bear; unprecedented things have been done, so that the history of the past affords no index to future eventualities. If it is to be a war of attrition and exhaustion, the present outlook is in favor of the Entente Allies. But their present advantage may go to pieces within a few weeks.

What is the Colorado Chamber of Commerce doing toward getting our part of the western immigration which is bound to come this fall? It seems to us that some system ought to be planned by which our county could be gotten before home seekers, and inducements offered for them to locate here. There is no doubt that Mitchell is one of the best if not the very best farming county in West Texas, but there has been less done toward making this fact generally known, than in any county of the west. As a case in point, a shot time ago the secretary received a letter from the east asking about this county and requested that he be sent some reliable literature so as to give him an idea of the conditions, resources, etc. The secretary had no literature to send him, and had to depend on writing to the gen-

tleman. A number of inquiries are being received all the time. The Record receives almost every week, requests for sample copies, and three month's subscriptions, for the purpose of familiarizing the enquirers with the conditions in this county. We think it is high time that the Chamber begin to look after this matter and fall upon some plan to advertise the bully old county of Mitchell and get her before the prospective home seeker in her true light.

Sunday was the first anniversary of the sinking of the Lusitania off the Irish coast. A procession marched from the shore near the scene to the church bearing a banner on which was the inscription: "We hope the act may be forgotten in heaven but we can never forget it."

A life sentence was given Countess Georgiana Markievicz, one of the prominent figures in the recent Irish revolt. She was on trial convicted and sentenced to death, which was commuted to penal servitude for life.

The "Sunshine Special" of the new T. & P. service made its initial trip last Sunday night. It was somewhat late westbound, but the eastbound train Monday morning knocked the black out of the spot on the schedule. The westbound train at night will now arrive after ten o'clock, and that contingent of "jimmies-at-the-depot" who must have their Dallas Morning News or they can't go to bed, will have a dreary wait of it for the world's latest news. The same paper, just a few hours later would be stale, flat and utterly unbelievable; they must have their pabulum piping hot from the pot or not at all. There is one among this instantaneous group who doesn't believe a word of any news he may see or hear until he gets "my Dallas News" and sees it verified. When solicited once by an agent of another paper for his subscription he replied: "No-sir-ree. It takes me all day and part of the night to read the Dallas News and by the time I got to your paper the news would be stale."

This paragraph is written one week after the conference began between Generals Scott, Funston and Obregon. We said then that we placed about as much confidence in any promise Obregon or the Carranza government would make as we would in a rampant rattlesnake, and subsequent events have borne us out. Patience and forbearance cease to be virtues at a certain point, and if the United States government submits to the bragart demands of the crowd of brigands south of the Rio Grande this time, worse and more frequent insults and injuries may be expected soon. Why temporize with a pestilence.

Hon. E. G. Senter is now editor of the Waco Morning News and is making that paper a noticeable factor in Texas politics.

The Record learns that plans are being worked out for the new bank building to be erected on the corner of Second and Walnut streets, that involve a two-story structure costing completed something like \$15,000. The very last call in equipment, facility for transacting business and comfort will be expressed in the interior arrangements.

THE CONTRAST OF METHODS.

Following is the opening exhortation to the people of Kansas City delivered by the Irreverent Billy Sunday in his initial service having for its purpose the cleansing, elevating and purifying of that city:

"Come on, you forces of iniquity; come on, you traducers; come on, you triple extract of infamy; come on, you assassins of character; come on, you sponsors of harlotry; come on, you defamers of God and enemies of the church; come on, you bull-necked, beetle-browed, hop-jawed, peanut-brained, weazel-eyed, four-fishers, false alarms, and excess baggage. In the name of God I challenge and defy you."

Over against this cesspool of black-guardism and sacrilege, place the exhortations of the Lowly Nazarene: "Come unto me all ye that labor and are heavy laden and I will give you rest. Take my yoke upon you and learn of me, and ye shall find rest unto your souls. For my yoke is easy and my burden is light."

Sunday takes himself too seriously in assuming that he is the first black-guard and bilingsgate expert that has ever fouled the cloth and dragged down the sacred desk. His kind and ilk doubtless were numerous in the day of the apostles. And though the Master chose his immediate followers from the humble walks of life, more careful of the qualities of the heart than of the head, there is preminent in every line they wrote, in every word they spoke, the spirit of the greatest humility, reverence and refinement.

Sunday has discarded the weapons of love, service, sympathy and poverty and replaced them with the burglar's kit and the fishwife's vocabulary. If undisputed published accounts be true of the conditions of his and his large company's comfort before he signs a contract to visit a place, a traveling French opera bouffe troupe are a paragon of good behavior and acetic living beside them.

If the methods of Billy Sunday and the atmosphere his methods creates be the result of genuine Christianity, it is a more serious obstacle in the way of the unbelieving than all the open assaults made upon it by every alleged infidel and freethinker from the days of Voltaire down to the street efforts of the worst rascal. In all seriousness—how long would any community, no matter what its morals or spirituality, tolerate the weekly or daily burlesque by such a character? And if religion is not a thing of growth and contentment, then it is a frank failure. There is not, nor can there be anything about it but soundness and cleanness. Fungus growths have no connection with it.

We did not place the least confidence in any agreement that any Mexican representative might make with the United States government. Scratch a Mexican and you'll find Injun every time. The real Castilian is so hopelessly in the minority in Mexico that it is only through the influence of the church of Rome that they are able to stay in that country at all. We look for repetitions of the raids across the border, if not an attack upon General Pershing's expeditionary army. General Trevino evidently knew what he was talking about when he said Obregon was merely playing for time in which to get his troops in a position of advantage. It seems that his plan was to drive the Americans out if he could not bluff them out of Mexico. It is the only way he can make good his brags to the ignorant Mexican peons. As we see it now, the real trouble with Mexico is only beginning to show its head. Of course it would be awkward to have trouble break out just before our next presidential election, but we believe the position of the democratic party would be strengthened if the administration took hold of the matter with a firm and straggling hand. It would be better for this government to begin straightening matters out in Mexico under the paternal slipper of the Monroe doctrine, before peace is concluded among the warring foreign nations, which have large interests in Mexico, and they demand an accounting from your avuncular relative, Samuel.

ROGERS ITEMS.

School closes Friday night. Mr. Gressit has done good work and the school has been a success. There will be a good program which is gotten up by the school children and outside people. Everybody invited to be out early.
Farm work is continually going on. All are busy trying to get done planting while the season is sufficient to bring up the cotton and feed.
Brother Faulkner began his preaching at Rogers Friday and continues until Sunday night.
Our Sunday school is still alive and hopes are brighter than ever for a better one.
Several people from Rogers attend-

ed the convention at Colorado, Sunday and report a good time and an extra fine dinner.
Miss Norma Elliott of Loraine was visiting Mrs. Buckalew last Saturday and spent the night.
Miss Mae Williams of Fairview is spending this week with her sister, Mrs. Harry Pond.
The cemetery at Teville is growing, as there have been three funerals there in the last three weeks.
Mr. Homer Green spent Wednesday in town on business.
Mr. E. Smith, accompanied by Miss Norma Elliott attended the movies Saturday at Colorado.
Mr. F. L. Buckalew has gone into the hog business. He has the same stock as George Goodwin.
Mr. Earl Pond finished planting on Tuesday and said he would be the first one to finish chopping.

Oh, you malish! It sounded mighty fine and looked powerful brave to have your name called on parade by the adjutant and how you strutted before the admiring eyes of Lizzie and Bessie on the sidewalk! That was in times of peace. But now that the president of this great nation has called on you to go down to the border and become possible food for the Greaser's mauler bullet, the whole militia business looks like a darned farce.
San Antonio, May 6.—With the arrival of M. F. Ham and W. J. Ramsay, everything is in readiness for the opening of the big revival meeting here Sunday.
F. M. Bourn now takes his own rest and regalement under the shade of his own vine and shadow of his own tree. His two room brick home is both convenient to town and comfortable in its appointments.

CHURCHES, CLUBS AND SCHOOLS ENTERTAINMENTS, PARTIES AND SOCIETY'S DOINGS

THE CLUBS.

Hesperian.

Misses Dry were hostess for the Hesperian with Mrs. J. R. Collier leader. The lesson was a conclusion of the works of Poe—The Story of a Descent into the Maelstrom was told by the club and the questions asked by the leader.

Miss Dry gave a most interesting reading, which was highly enjoyed. Mesdames W. R. Lindley, Vivian Shropshire, Stoneham Beal, Pidgeon, Donaldson and Snavely were guests. Strawberry ice cream and two kinds of cake were served at the social hour. The meeting is with Mrs. W. L. Doss this week.

Tourist.

Miss Mildred Coleman was hostess for the Tourist. The lesson was on the life and writings of Longfellow. Misses Myrtle Maddin, Vivian Evander and Emmabel Morgan were guests. At the social hour ice cream and cake were served.

Merry Wives.

Mrs. Oscar Majors was hostess for the Merry Wives. The guests were Mesdames D. C. Byrne, A. J. Coe, M. K. Jackson, Sam Majors, Gaines of Clifton, Ariz., Misses Maddin and Humphrey. Ice cream and cake were served after a number of enjoyable games.

CENTRAL CIRCLE.

The Central Circle of the M. E. church had twenty-two present at the meeting with Mrs. Merritt Monday afternoon. Dues to the amount of \$12.25 were received. Besides the regular business they decided to hold an open meeting honoring their husbands and sweethearts on Mr. and Mrs. Cooksey's lawn, on the 18th.

Mrs. Morrow and Mrs. Hester were appreciated guests. The hostess served sandwiches, doughnuts and ice tea at the social session.

SCHOOL.

By Dorothy Burns.

When school is out. Most of the children go to the farm. Carrying their books on their arm. All promoted to higher branches. That's the time we leave for ranches. We go in the car and it's not very far. We all sing and are happy; For a very careful chauffeur is pappy. He likes to see us ride around. Play in the dirt and run on the ground. He likes to have us go in swimming. For it makes us healthy little women. We go to the round-ups and watch the branding.

Although we get very tired of standing.

We eat fresh fried rabbit And you ought to see us grab it. Then for a little while we roam, Get on our ponies and start back home

MEASLES.

night. And wake up in the morning almost ready to fight. Dot comes up with a tray. Although she has not long to stay. You eat it all up and drain your cup. And wish you had more. Although your throat is still sore. And then you let out a loud roar, Grape Juice! bring me some more!

And when you have the measles, And are feeling very tired and you get to coughing and get whoozy, Then up comes mama and Mrs. Moor for a game of parcheesi.

When you are getting over the measles You have to be very quiet and still. Don't let the draft blow on you. And for goodness sake don't sit on the window sill.

Then you go down stairs, putting your feet down just so, Don't get hot and run around. Don't get your feet on the damp ground You must sit in a chair, feeling like pins and needles were there; Then go in the dining room and try to eat.

Then you get wobbly on your feet; Then so dizzy gets your head, Makes you wish you were back in bed. —Dorothy Burns.

SURPRISED THEIR PASTOR

About four o'clock last Friday afternoon, the majority of the ladies of the Presbyterian church and a sparse sprinkling of the mere men, met at the home of Mrs. C. A. Pierce, whence they proceeded with the addition of several personal friends of the family of the manse, who were not of the Westminster communion, and preceded by a heavily laden wheelbarrow, propelled by that famous athlete, J. M. Thomas, to the recently built and occupied home of Rev. Guy B. Duff and family.

Rev. Duff himself was seen as the procession approached, spading in his garden, and only showed up after his wife had assured him of the peaceful mission of the crowd. On approaching the house, a lusty yell of "Rah! rah! Duff!" was given, which served to open the doors for the ingress of the callers. After being disposed on the inside, a couple of songs were given, one eulogistic of the "Little Gray Home in the West" and other extolling the family of the manse. To which expressions of appreciation Mr. Duff replied in his happiest strain.

A representative of the Record was on hand and in turn expressed a few sentiments regarding the new home and its inhabitants, after which the more substantial and material elements of the surprise were put in evidence. They were many, varied in their uses and immediately practical in their application. After a pleasant time spent in converse, the visitors were regaled with refreshments before departing. It was a pleasant occasion for both the family in the manse and the congregation.

MISSIONARY SOCIETY.

The young ladies missionary society of the Presbyterian church had a very interesting meeting with the Misses Coleman Tuesday afternoon.

The lesson was on Home Missions. Mrs. Wade Burleson, a former member, was an appreciated visitor as was also Mrs. Thomas Dawes. At the social hour Miss Roe sang. An ice and cake were served by the hostess.

A GREAT ORDINANCE DAY AT PLAINVIEW CHURCH.

Subject at 11 o'clock hour—The Supper of our Lord.

Paul says in 1 Cor. 11-23. "For I have received of the Lord that which also I delivered unto you."

Let us see from God's word what he received and how he delivered it unto the people.

1. Its institution. 2. Whose supper is it? 3. Where was it placed? 4. To whom was it given?

Let us have the answer from God's word and take no other.

A welcome awaits all who will come. Then at 3:30 p. m. we will bury with Christ by baptism three of His children at the usual place on the Colorado river. Come and be with us at these appointed hours. Come praying for this to be a great day, because of the presence of His Spirit.

MRS. W. R. SMITH ENTERTAINS.

Among the many social activities of the Texas delegation at the national capital, we extract the following notice of a recent function:

"Mrs. William Robert Smith was hostess at a tea at the Willard before her two daughters, Miss Frances and Miss Dorothy, returned to Roanoke, Va., to reenter Hollins School. Among the guests were Miss Gladys Holt of Midland and Miss Winifred Clayton of Big Spring, who are attending National Park Seminary; Miss Mary Belle Johnson of San Angelo, who is a student at Gunston Hall, and Miss Margaret Schuster of El Paso, who attends National Cathedral School.—Special Washington Cor. Dallas News.

MISS SMITH TO GIVE TEA FOR GRADUATES.

Miss Nellie Smith, daughter of Dr. and Mrs. W. R. Smith, of 1119 Williams street, is to give a tea Saturday afternoon, May 13, at the home of her parents, in honor of four of the girls of the May 1916, graduating class of the High school. Miss Nancy Edwards, Miss Mary Hardie, Miss Esther Rice and Miss Merle Dale. The hours are from 3:30 to 5:30 o'clock.—El Paso Times.

Free matinee at Shadowland from 3 to 6 o'clock, May 15th.

CHILD ACCIDENTALLY SHOT.

While playing out on the gallery of their home last Monday afternoon about 2 o'clock, the little four-year old daughter of Mr. and Mrs. McGill, the former of whom is a workman on the new hotel, was shot in the breast just above the region of the heart by a stray bullet, coming from somewhere seemingly in the neighborhood of the railroad embankment, which is south of the house where the family lived.

The little girl had just recovered from a spell of illness, and was for the first time out on the gallery playing with a little boy who lived in the same house. A scream from the little girl attracted the attention of her mother who ran out to see what was the matter. She found her child lying on the floor apparently dead. Medical aid was immediately summoned and it was found that the child was very seriously wounded, but at this time she has recovered from the shock and is reported doing well. Officers made a thorough search of the neighborhood, but failed to locate the origin of the shot. The little boy who was playing with the child at the time said he heard something pop as an auto passed near the house, and just as the child screamed.

The Record has time and again inveighed against the giving of target rifles and guns to children, and has pointed the moral it endeavored to teach by citing numerous local instances in which life has been lost by such things in the hands of irresponsible children and inconsiderate grown ups. It was only by the merest chance that the victim in the above instance was not your child. In this connection, attention is called to the statement in another column written at the request of the City Marshal and to which he will in future strictly subscribe.

Don't fail to attend the free matinee at Shadowland Monday May 15th from 3 to 6 o'clock.

Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Dr. Price's, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

There is no alum nor phosphate in

CARRANZA READY TO ATTACK U. S. TROOPS

Mexican Says a Clash is Sure Unless the Americans Leave

Gen. Jacinto B. Trevino, second in command to General Obregon, has left El Paso for the South. No explanation of his departure was forthcoming from Mexican officials. He left soon after General Obregon had received a code message from Mexico City. The Mexican war minister refused to divulge its contents.

He notified General Scott that Gen. Carranza has approved the suggestions made jointly by the two generals. That Carranza forces will attack General Pershing's men in a few days, unless the Americans announce their intention to withdraw from Mexico at once, is the opinion of Col. F. E. Trevino, brother of Gen. Jacinto B. Trevino, second in command to Gen. Alvaro Obregon.

Continued delay by General Obregon in signing the protocol with Maj. Gen. Hugh L. Scott gave color to the following statement made in Juarez by Colonel Trevino:

"No power on earth can prevent the constitutional troops in Chihuahua from attacking the Americans soon.

"General Obregon has been sparing for time to move his army northward and when the time is ripe he will strike. He was not authorized when he came to El Paso to enter an agreement that was not based on the immediate withdrawal of the punitive expedition."

This startling statement held a leading position in the Mexican war news with a report of the killing of forty-two Villa bandits by troopers of Maj. R. C. Howze's picked squadron of the Eleventh cavalry. The fight occurred at Ojo Azula, eighteen miles south of Cusuhultrachic.—Austin American.

RANGERS HAVE BEEN INCREASED.

Washington, May 8.—A new American expedition may cross the border pursuing the Brewster county raiders Secretary of War, Baker stated today that he had received a report from Gen. Funston saying that steps had been taken in that direction. Secretary Baker refused to talk further.

Three cavalrymen and a ten-year-old boy were the only known killed, according to last reports. Two American civilians are missing.

E. BARBER FOR COMMISSIONER.

Mr. E. Barber's name appeared in our announcement column last week as a candidate for Commissioner for Precinct 3, but too late for a more extended notice of his political ambition. Mr. Barber has been a citizen of Mitchell county and of his present precinct for a number of years and has enjoyed the reputation among his neighbors of being a competent and intelligent citizen, many of whom have united in urging him to offer himself for the office of commissioner for that precinct.

SMITH WANTS MORE TROOPS ON THE BORDER.

Washington, May 8.—Representative W. R. Smith of Texas conferred with Secretary of War Baker over the raid of Mexican Bandits upon Glenn Springs and Boquillas Friday night and lodged a complaint against inadequate military force in the Big Bend country. According to the Texas Representative, attention of the War Department was called to the repeated requests coming from that section of Texas about the small border patrol and the dangers of incursions from Mexican soil.

"I told Secretary Baker that while many false stories had emanated from the border country," said Mr. Smith, "there were some truthful statements being made and by persons who did not deal in fanciful observations. The people in the Big Bend country have been uneasy since the Columbus raid, and I have repeatedly laid this before the department. The department has given me assurances that the country would be protected, and these assurances I have passed on to the residents of the district."

SUGGESTED CONVENIENCE.

The feasibility of arranging for an auto service from Sweetwater to Colorado daily after the arrival of the "plug" train over the Texas & Pacific, and returning to Sweetwater the next afternoon, is being discussed. This arrangement would get the Dallas, Fort Worth and other eastern daily papers to Colorado by 7:30 or 8 o'clock at the latest, instead of after 10 o'clock. Were it known that passengers marooned by the plug at Sweetwater could come to Colorado, Loraine and Roscoe by auto, the Record believes a business to justify the trips would soon be built up. Arrangements could doubtless be made with the local paper agencies at Roscoe and Loraine, to bring out from Sweetwater the daily papers in time for delivery before dark. If such arrangement could be made, it would prove of great convenience to the traveling public as well as to the reading contingent.

SOLDIERS MAY BE ACROSS LINE

Alpine, May 8.—Fleeing through the wild mesa lands of northern Coahuila, the 70 or more Mexicans who raided the American settlement of Glen Springs and Boquillas last Friday, killing three cavalrymen and a nine year old boy, are believed to be heading into the interior today, many miles from the scene of their depredations.

A posse from Marathon and a detachment of 23 troopers of the 14th cavalry are said to have followed the trail of the Mexicans into Coahuila while other reports have it that the Americans have not forded the Rio Grande 95 miles from here, but are waiting at the river for reinforcements.

Capt. Casper Cole, is hurrying to Boquillas to take command while two companies of the 14th cavalry and a machine gun company are expected here or at Marathon this afternoon when they will head southward to the Big Bend country.

It is not known whether the new troops contemplate a long pursuit of the bandits into Mexico, or will be placed as an additional guard along the border.

Reports here say that there are

many bandits operating between Boquillas and Presidio, just south of the Rio Grande.

It is about a three days' march from either Marathon or Alpine to the Rio Grande and as the bandits already have a three days start, only a relentless pursuit will bring the Americans into contact with their quarry.

The two soldiers, privates Birck and Defries, wounded in the Glen Springs raid, have been taken to the hospital at Fort Bliss.

NOTICE TO LOCAL FARMERS' INSTITUTES.

Owing to the fact that organization was not perfected last Saturday of the County Farmers' Institute, a call is hereby made for the meeting of the locals at Colorado on Saturday, May 13th, at which time delegates will be selected to attend the meeting of the county institute on the following Saturday, May 20th, at Colorado.

A full attendance is urged, as it is important that the county and all local organizations perfect organization as early as possible that more cooperative work and better results may be obtained. Let's have a full attendance on both occasions.

COTTONSEED MEAL

Cottonseed meal is an important and valuable feed but if it is to be used to the best advantage, the feeder must know about its composition and feeding properties. Protein is perhaps the most valuable constituent of cottonseed meal and in fact is often used as a measure of its quality. Cottonseed meal sold in Texas must contain not less than 44 per cent protein. If an excess of hulls is present, so that the protein is less than 44 per cent, the excess of hulls must be shown on the analysis tag attached to the bag.

Sometimes a feeder buys cottonseed meal but is shipped cottonseed meal and hulls. To guard against this, the purchaser should examine the tag attached to the meal and refuse to accept goods unless as purchased.

Protein is used by the animal for building and repair of muscle and body organs, and an excess may be used for heat, energy or fat. The value of protein is in its ability to

build or repair muscle, since other portions of the feed, such as nitrogen, free extract, and fat, may be used for heat, energy or fat. When animals are fattened upon a mixture of cottonseed meal and hulls, the best fattening ration cannot be fed on account of liability to feed excess of protein. The ration may be improved in this respect by substituting milo or kafir for a portion of the cottonseed meal and increasing the proportion of concentrate.

Cottonseed meal has a high fertilizing value and is used extensively as a fertilizer. The feeder should endeavor to reserve a part, at least, of the fertilizing value by feeding the animals upon land afterward to be cultivated. If he can obtain \$10.00 of the \$30.00 per ton fertilizing value of the meal the effort should be worth while.

LAME BACK.

Lame back is usually due to rheumatism of the muscles of the back. Hard working people are most likely to suffer from it. Relief may be had by massaging the back with Chamberlain's Liniment two or three times a day. Try it. Obtainable everywhere.

BURIED TREASURE

The mayor of Bryan has received a letter from a man who wants assistance in gaining permission to search for two million dollar buried treasure in the Brazos bottom according to a press dispatch. If the man gets the permission to make search he should sell stock in the venture and get the treasure after all.—Temple Telegram.

What a thing to conjure with is buried treasure. The vision of quick riches has led many a man to destruction, causing him to forget the treasure that is plainly before the senses.—Ablene Reporter.

Yes sir, that's mighty right. You may select a fellow from whom you can not borrow 35 cents on the hypothecation of a twenty-dollar gold piece, arouse his cupidity and avarice with visions of "buried treasure," and he'll mortgage his home to raise money to give to some swindler with a map and pointers. Something for nothing is the bait at which the human fish nearly always bite.

We invite our country friends to come in and enjoy the Singing Convention with us. We also invite you and them to send us your laundry and have the most satisfactory work you have ever enjoyed.—The Laundry.

TYPHUS FEVER THREATENS THE ENTIRE STATE.

Active Measures Must Be Adopted to Prevent Spread.

Since January 1st, 72 cases of typhus fever have been reported in Texas, 26 of these during the month of April. The disease has been recognized in 11 counties, 7 of which were along the Mexican border, 4 in the interior as far north as Jones and as far east as Anderson counties. The epidemic has followed the lines of transportation from Mexico to the interior of the state and may be traced directly to recent arrivals. All cases so far have occurred in Mexicans with three exceptions.

With 1,100 miles of border, the four state quarantine stations with the assistance of the United States Emigration and Public Health Service can not prevent illegal entries. A legal entry is evidence of a clean bill of health, and in order to protect the public health of Texas, labor agents and those corporations employing Mexican laborers should demand of each employe such a certificate.

All jails and public buildings as well as chair cars, sleeping cars, street cars and all public vehicles should be disinfected and kept clean and free from vermin. The prevention of a general epidemic of typhus over the entire state may be accomplished only by the co-operation of all citizens and health authorities in the disinfection of each case of typhus and the baggage and clothing. The patient should be shaved and given a gasoline bath. The usual fumigation with sulphur is not sufficient and in a majority of cases the only safe method of disinfecting the baggage or clothing is to burn it. Peace officers and health authorities should keep a close watch over all transient Mexicans and every case of fever with an eruption occurring in this class should be isolated at once and considered suspicious. The health departments of the cities and towns should institute a clean-up campaign in the homes of the lower classes and push it with all vigor until such homes are rendered sanitary and made free from lice and vermin of all kinds.

Those desiring a formula for the destruction of lice or the fumigation of homes may secure the same by applying to the State Board of Health.

SOME FACTS ABOUT INDIA.

India has a population of nearly 330,000,000, a little over 220,000,000 are Indians, over 70,000,000 are Mohammedans, about 12,000,000 are Buddhists and 3,000,000 are Sikhs. India is a paradise of high paid officials. No country on the face of the earth pays so high salaries to the officials as the British Government in India. At the same time one must know that over 130,000,000 of Indians have hardly rice soup to drink once a day.

The salary of the Viceroy and Governor-General is about \$90,000 a year. Besides he needs a sum of \$700,000 for the maintenance of his palace and for his traveling expenses. The salary of the Minister is \$27,000 a year. The salaries of the Governors in India is about \$40,000 a year. Besides, each of these gentlemen needs a sum of \$100,000 a year.

The people of India spend annually a sum of \$150,000,000 directly and indirectly, for the maintenance of the British army in India. The people have also to pay nearly \$21,000,000 a year for the maintenance of the English Judges. The English Police Department in India costs the people nearly \$26,000,000 a year. At the same time for the education of 330,000,000 of people the Government does not spend more than \$16,000,000 a year. Under the heading of Home Charges, India spends from her revenue in England annually a sum of \$100,000,000 and over. There is not a single free school in the whole of India. There is one school on the average to seven or eight square miles. Only 10 per cent of the children of the whole nation are able to attend the schools. India has the largest number of poor people in the world, and the income per head per day is about half a penny, consequently, only the children of the well-to-do can attend the schools. We have not a single mining or metallurgical school in India. In fact, we have not a single technological institute in the whole country.

In the three native states of Baroda, Mysore, Indore, education is compulsory.

The greatest need of India today is industrial education. The foreign trade amounts to nearly \$1,700,000,000 a year. That means the raw materials of India go to the foreign countries and manufactured goods come to India. We have in India an army of at least 100,000,000 people who cannot spend more than 20c a year for their clothing. If a sickness visits the homes of these unfortunate people then death is sure to visit them, since poverty is so great that hardly one out of hundreds is able to pay for medicines and medical attendance. Should one visit the Indian cities and towns, he will see the most pathetic picture of poverty, distress and suffering of all kinds.

There are many Indians interested in securing European and American knowledge for their countrymen. If a few singletaxers could visit India and lecture about the doctrines of Henry George, they will find a great field to work. They will find that a number of native rulers will be glad to listen to them, and the Singletax system may be applied in certain states. If Singletax literature could be translated into half a dozen Indian languages, I am sure the Singletaxers of America would do the greatest service to the patriotic, intelligent statesmanlike Indian rulers as well as the general Indian public.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

I wish every suffering woman would give

Water affects flavor of Coffee

When you visit Eastern cities the difference in water affects you.

Difference in water also affects the flavor of coffee. A blend that makes good coffee when used with Eastern river water, will make poor coffee with Western water on account of alkali and mineral content present. Several years of experimental work has resulted in a blend of high grade coffees which overcomes the peculiarities of Western water and yields an exquisite cup of coffee.

Statesman BRAND Coffee

Colorado Mercantile Company

During the twenty years required to build the structure the pious Indian baffled the spies commissioned to discover the source of his treasure, but when his work was finished the Spanish commander summoned the miner before him and demanded that the location of the mine be disclosed. When the Indian refused to tell, he was tortured to death, carrying with him to the grave the secret which two hundred years of search have failed to reveal.

"One of the 'sights' of Parral is the palace of a multi-millionaire mine owner, once a humble peon. In this house, which is shut in by adobe huts and narrow streets, there are big drawing rooms and museums with luxurious carpets, over which the owner's fighting cocks are allowed to roam at will, it is said. Twenty pianos are among the most highly prized possessions of this simple, public-spirited native; the source of whose wealth is La Palmilla (little palm) silver mine, which he discovered many years ago.

"Parral was not always the chief city of this mining district. In 1580 the nearby town of Santa Barbara was the seat of government for a vast region equal to one-third the area of the United States today, exclusive of Alaska. The country over which it held sway embraced the territory now comprising Chihuahua, Coahuila, Sonora, Texas, New Mexico, Arizona, California and Colorado."

Mrs. C. M. Sparks, 511 Walnut st., Colorado, says: "I have used Doan's Kidney Pills off and on for the past couple of years and they have done me a lot of good. I used them for my back which was weak and ached. The kidney secretions were irregular in passage, also. Every time I have used Doan's Kidney Pills, which I got at Doan's Drug Store, they have always relieved me. I believe they are the best of kidney medicines and gladly recommend them."

TEACH THE KIDS.

Children should be taught from the beginning the great moral law of cause and effect, not to look for wealth without work, for honor without honesty. Teach them that character stands above surroundings and that esteem should be bestowed where it is due, whether for mental endowment or material wealth.

It is not all of morals to moralize, and less precept and more example is to be commended. The living realization, the quiet suggestion, the favorable opportunity, are the efficient teachers. Ignorance is responsible for a great deal of wickedness, but evil example and parental neglect are responsible for vastly more.

A sense of right and wrong should be cultivated early in a child's life, and much may be accomplished in this direction before the child leaves the mother's nursery training.

CALOMEL SALIVATES AND MAKES YOU SICK.

Acts Like dynamite on a sluggish liver and you Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel with 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

PARRAL IN VERY HEART OF RICH GOLD AND SILVER MINES

Washington—Parral, Mexico, which recently was the scene of tragic happenings in connection with the arrival of General Pershing's punitive expeditionary force, is in the heart of the fabulously rich gold and silver mining district of the southern republic, mines which were among the first discovered by the Spanish conquerors and which began pouring their streams of wealth into the coffers of the monarchs of Aragon and Castile as early as 1547. This town, which has a population of less than 20,000, has been the center of Francisco Villa's operations for several years. Its historical and commercial importance are set forth concisely in a bulletin issued recently by the National Geographic society, whose headquarters is in Washington, which says:

"Situated on the banks of the semi-dry Parral river, at the foot of the Sierra de la Cruz, Parral's whole history centers below ground, in the marvelously rich Veta Colorado (red vein) which runs from north to south through the Parral mining district, including Minas Nuevas, and Santa Barbara.

"As early as 1600, before the first permanent English settlement in the United States, there were seven thousand miners employed in this district, bringing from the depths of the earth the yellow metal destined to sustain in splendor, for a time, the opulent court of the then most powerful monarchy in Europe. From that day up to the present Parral has continued to enrich the world from its seemingly inexhaustible store of silver and gold, the only interruption having been caused by a rebellion of the oppressed natives who on one occasion flooded all the mines of the district and then deserted the city by the thousands.

"The richness of the ore in this section is shown by the fact that American mining companies, find it profitable today to smelt the tailings of refuse of the old Spanish works.

"One of the most interesting incidents in the early history of Parral centers about a time-stained church known as La Iglesia de la Virgen del Rayo, the favorite place of worship among the Indians of the district. In 1690 a devout native began the construction of the church, paying his helpers with hings of pure gold which he produced mysteriously once a week.

Mr. D. S. Hall, of Logansport, Indiana, and brother of our fellow townsman, M. T. Hall, is visiting the latter this week. They had not met before for more than thirty years, and to be sure, there is much to be told on both sides. We can vouch for the statement that they both enjoyed the reunion to the full.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

LIVESTOCK ACTIVITIES

V. W. Allen sold 200 yearling heifers, and one registered Hereford bull to J. S. Little of Amarillo, Tex.

D. H. Snyder shipped 300 cows from his Pecos county ranch. He put them on his ranch on the Colorado river.

Mr. Ellwood finished dipping his cattle on the Renderbrook ranch last week. He did not find any ticks. This part of Mitchell county is in the white.

Mr. H. C. Beal, one of the best known cattle men in this section, who has been living in Fort Worth the past several months on account of his health, came in this week. We hope he may be able to remain permanently.

John Arnett is in the city visiting relatives and friends. He reports the plains country in fine shape, and a lot of cattle changing hands. One bunch of cows and calves selling for \$95.00.

Joe Stokes shipped four cars of his Cole steers he had been feeding to the Fort Worth market. They are good stuff and ought to top the market when sold.

Will Morrison was in from Iatan Saturday. He reports conditions good and cattle doing fine.

Walter Stoneham was in from Sterling county Saturday. He reports grass good and the cattle fattening.

Mr. and Mrs. Ben Plaster were in town Sunday, taking in the singing convention. Mr. Plaster said he never saw the stock industry in better condition. The range is in good shape, and cattle are bringing good prices.

HOW MRS. HARROD GOT RID OF HER STOMACH TROUBLE.

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. Obtainable everywhere.

HENRY FORD SUED FOR \$100,000 LIBEL.

Washington, May 6.—Headquarters of the Navy League announced today that they had instructed attorneys to bring suit against Henry Ford for "libel and false statement." The suit against Ford is for \$100,000 damages. The Navy leaguers assert that the suit is brought as a result of a publication on May 1 of a full page advertisement in the Washington (D. C.) Herald by Ford, attacking the Navy League.

MRS. HOUSEWIFE.

When so many things are calling you in the spring-time do not attempt to do your own laundry. That is one thing that can be done better and cheaper without your help than with it. Do your spring sewing, housecleaning and gardening, but leave your spring laundry to us. We will do it nicely and promptly. Give us a trial this spring. Yours to help the housekeeper. THE LAUNDRY.

CEDAR POSTS.

We have on hand a big lot of fine fine cedar posts, all sizes and lengths. See us before you buy your posts. SCOTT & LAMBETH

NEW SADDLE AND HARNESS SHOP.

Would appreciate a part of your trade. Prices reasonable. Do all kinds repairing and new harness work. When in town come in and see me. TOM PAYNE.

The Strong Withstand the Heat of Summer Better Than the Weak. Old people who are feeble, and younger people who are weak, will be strengthened and enabled to go through the depressing heat of summer by taking regularly Grove's Tasteless Chill Tonic. It purifies and enriches the blood and builds up the whole system. 50c.

THE BRICK GARAGE

W. M. COOPER & SON, Props.

Chas. Morgan, the poo-bah, and high-cock-a-lorem of the Record's linotype machine, together with his wife, dog and a family of cats, are camping on the Concho this week, trying to fool the fish into the skillet. Part of the Record force spent last Friday and Saturday with them, and got gorged on fish the first day, and hit it for home. Mr. Morgan will remain a week or two longer. He says he has a hunch that there is a 40-pound cat fish in that identical hole, and he is determined to get him before he leaves providing his tobacco, and bait holds out. The machine is in charge of the amateur substitute and should you find a line reading something like this h rskvy cmfwg AwordARm hrafwod you need not be surprised. As none of us have had a vacation since Heck was a pup, we will run down the latter part of the week and eat Mr. Morgan's surplus catch.

A. J. Herrington has bought the interest of Tom McGuire in the local Ford agency and will hereafter represent the sales agency of that car alone in this community.

Now For a Year of Economical Buying

The Big Sale over with, and the January sales a thing of the past, we have now settled down to giving you a season of the most economical and satisfactory buying this community has ever witnessed. With new goods coming right along, with our shelves stocked with everything your heart could desire, with prices battered down until it is impossible to lower them even another penny, this store offers you wonderful opportunities in keeping with the year of prosperity that is before our country. It makes no difference whether you are a customer or not, whether you are ready to buy or not, we extend to you a hearty invitation to make this store your headquarters, to examine our goods, to make yourself as much at home here as you would be within the walls of your own house. We ask no more than this, for we know that your own good judgment will be your guide in the selection of your purchases.

You will be our welcome guest at all times, patron or not.

W. E. Hollingsworth, a railroad agent at Frisco, is here this week on a visit to his mother, Mrs. Hollingsworth, and brother-in-law, J. E. Stowe.

Call up R. B. Terrell for any plumbing, tin work, soldering or sheet metal work. He gets it done and at most reasonable charges.

The condition of Mr. M. George, who has been desperately ill the past week is not encouraging at this writing. The physicians diagnose his trouble as "auto-intoxication" or poisoning of the system by the retention of waste matter, which in the case of Mr. George is due to uric acid poison. His condition was exceedingly grave at one time, but he seemed to rally, while his mental delirium grew less violent. The Record extends sympathy to the family and hopes for Mr. George a speedy recovery.

Arrange to be a guest of Shadowland at the first episode of "The Strange Case of Mary Page."

Sterling Price, brother of R. P. Price a prominent cotton man of New Orleans, is here this week on business, and a visit combined.

J. R. Ledbetter left Wednesday night on a visit to friends at Paris and Cooper, Texas.

SERVICE

Our interest in you does not cease when we deliver your car. It only begins there. From coast to coast Chalmers Service covers the United States like a blanket. Whether in Maine or Texas, entour or at home, the Chalmers owner is protected by the great arm of Chalmers service.

Every manufacturer of motor cars realizes the existence of a certain responsibility to the consumer. It remained for the Chalmers Motor Company to analyze this responsibility and make it as tangible as the car itself.

Chalmers Service is bound in a leather book and included in the sale of every Chalmers car. One hundred half-hour coupons, good for fifty hours' free inspection and adjustment service, negotiable by any Chalmers dealer in the country, is the health insurance policy which protects the Chalmers car wherever it may be.

Service is intelligent co-operation between factory and consumer. Contrary to the popular belief it is not free repair work, but rather such inspection and adjustment as is necessary during the first few months of the life of a car to insure its perfect running.

The combination of Quality First manufacture and Universal Chalmers Service is embodied in the sale of every Chalmers Six-80.

Every Chalmers Owner is entitled to membership in the Chalmers Club and to receive the Chalmers Clubman free of charge.
