HAS ALWAYS BEEN FAITHFUL TO THE PEOPLE.

In view of the critical conditions surrounding our country at the present time, it would seem the worst possible time to make a change in the congressman for this district. Judge W. R. Smith has served the people for many years, is well known in Washington as a calm, level-headed man of excellent judgment, whose advice on questions of importance is in demand and carries weight wherever and whenever expressed; a man who has always been faithful to the interests of the people whom he serves and always will be faithful to the people whom he serves and always will be faithful because he is "built that way." MAKE FARM HOME ATTRACTIVE.

In the design and construction of the farm house the question of utility alone should not be the determining factor. The first thought should be the making of a home. The amount of money to be invested in the building of the home should not be determined by its relation in size to the balance of the plant, nor by the amount that is necessary merely to provide a shelter, but the amount to be invested should be that which the owner may reasonably afford without financially crippling himself too severely. The average city dweller in buying a house for a home does not proceed solely on the basis of what he can expect to secure in case it is ever desirable to place the house on the market. He is not likely to consider the purchase of a home as a financial investment but as a social one, which will enable him to secure for his family the comforts and conveniences that he could not secure in a rented house, and to have for his family a genuine home, a genuine home life. If he is able when the time arrives to dispose of his property to financial advantage, well and good; if not. he considers, and properly so. that he has made a good investment

DEATH OF WILLIE WARNER

Saturday morning Westbrook received one of the greatest shocks that it has ever known, when the word passed swiftly over the little town that Willie Warner was killed, and when the stinging words reached our ear over the telephone, we felt that a thousand shots had pierced our heart. Willie Warner was born March 28. 1895; he lived to be 21 years, 1 month and a few days old. At the age of four years the death angel robbed him of his darling mother. From then on to the time of his tragic end he passed over the rugged way of life by the side of his dear father, who has been both father and mother, and who care-

YOUNG GIRLS AND CARELESS PARENTS.

Some excitement was created at the Murphy tent show Saturday night when a citizen of the city appeared on the scene with a double barrel shotgun looking for one or more gay Lotharios, who were supposed to be connected with the show, and who were thought to be trying to entice two young girls to leave town with the theatrical force. The matter was all settled without a tragedy and it is said to have served a good purpose in the way of calling the the fact that the streets of the city are not good places at nights for young ones.-Brownwood News.

\$1,000,000.00 FOR A NEW STOMACH

It is said that one of America's best known multi-millionaires—a man who ruined his di-gestion in the pursuit of wealth—stated that he would pay a million dollars for a new stomach.

But, while surgeons have become very skillful in performing operations that were once considered impossible, nobody has stepped forward and offered to sell his stomach to that millionaire. Your stomach is worth more than a million dollars to you. It

is LIFE to you. This millionaire's stomach is so ruined by abuse that it can never be made "as good as new" by any medicine. But YOUR stomach, if properly aided NOW can be restored to its normal condition.

If YOU suffer from indigestion, "heartburn," gas in stomach, foul breath, sense of fullness after eating, sour stomach, and will act NOW instead of delaying longer, you can get PROMPT relief.

DR. THACHER'S Liver and Blood Syrup will set your stomach right, and do it quickly. It will stimulate and regulate your liver, which supplies bile to the stomach. It will thus provide the stomach with JUST WHAT IT NEEDS in order to do its wonderful work of digestion more perfectly.

It will lubricate your bowels, and cause them to move naturally and gently. It will get your whole digestive "Workshop" into working order, cleanse it, oil up the "machinery," strengthen it-and you'll be AMAZED by the change.

Your appetite will improve. Food will taste GOOD to you. There will be no more discomfort or pains. You'll feel STRONGER. Life will be better worth the living.

DO IT NOW-give your stomach the re-lief it is calling for, before you are like the onaire, whose stomach is now BEYOND REPAIR. Dealers sell 50c and \$1.00 bottles. THACHER MEDICINE COMPANY, Chattanooga, Tennessee.

A PROPHECY FULFILLED.

When the lack of confidences and business uncertainty hung like a cloud over this fair land, when industries closed down and labor was thrown out of employment, when want stalked abroad and fear held sway, The Industrial Record time and again urged the industrial captains to keep steering the boat. Building materials and all lines of manufactured products began to stack up and the operators feared for their disposal. It was then that this publication urged upon all the coming of a time when there would not be too much surplus.

The Record is vindicated. Today the lumber meas can not turn out enough lumber. They would have done well to have kept going steadily all through the hour of adversity. Even then they could not have been able to neet the strong demands now being

made upon them. The steel mills shut down, and now they are woefully behind with orders. It is estimated that if they do not receive another order it will take them perhaps a year to catch up, and then they will have to work to the very limit.

It was needful that all plants be kept in constant operation, but that inexplainable attribute called fear asserted itself, and the industrial captains being just men, fell before its disquieting influence. Now the progress of the country must be somewhat retarded as a result. It has only been a short tme since the close of the stringency, and even now prices in all commodities are increasing enormously. As an example bids were recently received for erection cf a \$250,000 addition to the Federal building at Oklahoma City. Plans were so drawn that the appropriation would easily have covered the cost, but owing to the great advance in all building materials, estimated at fully twenty-five per cent, the bids had to be turned down and the plans will be revised.

Practically all the brick yards closed down, and many plants deemed it advisable to dispose of their stock at less than cost. The tide has turned and the surplus is rapidly being taken up. This lack of confidence proved a disastrous economic waste. Wage earners unemployed were in want for a time, while now it is hard to find enough competent men to supply the demand. Conditions must adjust themselves. Industrial advancement can not be stopped. If it is checked, then it must gain its average. The uncertainty that prevailed was childish in formation but distressingly severe in practice. The with too many opportunities to go to the bow-wows, war or no war. Prosperity will ever be assured if only men will throw off that mortal fear that sometimes creeps in unaware to do its dreadful work .-- Industrial Review.

WHOOPING COUGH.

"When my daughter had whooping cough she coughed so hard at one time that she had hemorrage of the lungs. I was terribly alarmed about her condition. Seeing Chamberlain's Cough Remedy so highly recommended, I got her a bottle and it relieved the cough at once. Before she had finished two bottles of this remedy she was entirely well," writes Mrs. S. F. Grimes, P. Brooks as a man, as a citizen, as a Crooksville, Ohio. Obtainable everywhere.

The man is far greater than his platform, and in saying this I do not mean in any wise to cast reflection upon the declaration of principles this great man has given to the public. I hazard nothing in the statement that Dr. S. statesman, as a leader, and as a christian, at once takes rank with Woodrow Wilson, our peerless president. Indeed, they are men of kindred type. WHAT THE DOCTOR KNOWS. Kidneys Must Be Right To Insure Health.

Few people realize to what extent their health depends upon the condition of the kidneys. The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other

organs cannot readily be brought back to health and strength. When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health statistics, Bright's Disease, which is really an advanced form of kidney rouble, causes nearly ten thousand deaths in one year in the state of New York alone. Therefore, it is particularly necessary to pay more attention ate-and we will, if we do our duty-to the health of these important or- he will be a co-laborer and co-adjutor gans

But the chief purpose of this article is not to give a life sketch of this great good man, nor to eulogize him, but to urge cur people to rally to his standard to the end that his election may be gloriously achieved. He stands with Presidenl Wilson and other far seeing statesmen of our country on the vital problems that we confront, and with a greater aggressiveness for some of the reforms for which some of us long have toiled and wrought.
