GET RID OF CHILLS AND FEVER

Friday, August 25, 1916.

Chills and Fever, or Malaria, are caused by a germ. Millions of these germs are soon multiplied from the few that first find foothold in the blood of their victim.

To RID YOURSELF of these germs you must PURIFY your blood, strengthen the vital organs, and make yourself so robust, vigorous and healthy that they will be CAST OUT to STAY OUT.

The singing convention meets at has been widely known for many years as Rogers the first Sunday in September the "Best Chill Tonic." It has earned this reputation by helping countless THOU-SANDS of people, many of them living in the malarial sections of this country, to CLEANSE their blood and BUILD UP their strength so that the fever germs would be cast out of their bodies.

A vast multitude of people take Dr. Thacher's Liver & Blood Syrup to prevent Fever and Chills from attacking of rain and it was appreciated by all, them. It is a wise and profitable precaution. It PAYS to fortify yourself against malaria. Following the assembly of a Chalmers Six motor, it is taken to a large room where all motors are 'run in under electric power. When the first stiffness is taken out of the motor it

is removed to another department where it runs from four to six hours on its own power. In this department and in the tuning-up process which. immediately follows, all gear noises, oil and water leaks, generator and tappet poises and compression troubles are quickly attended to. When the motor leaves this room it is running as quietly as a well constructed watch and to the ear of the layman has reached perfect trim. But the trained experts in the new 'Silence Rooms' have yet to place their O. K. on the product. in each of the four sound-proof rooms is a dynamometer stand, on which a room is closed and the inspector spends fifteen minutes with each motor before making his decision as to its fitness. The slightest noise is easily located by these master mechanics in the confined space, and the motor either passes on to the final assembly or is sent back for further tuning up, according as his decision is made.

WOOED, WEDDED, DESERTED; CARNIVAL HUSBAND MISSING.

Last Monday night a couple arrived at Texico and registered as W. E. Norton and wife and were assigned a room. The next morning the young wife awoke to find that her newly wedded husband was missing. Investiantion proved that after his wife had kone to sleep Norton got out of bed, quietly stole out of the room and toarded the early morning train eastward bound.

To the hotel people and others the young wife recited a tale of wrong and betrayal that won for her the sympthy of all who heard it. She is an unsophisticated country girl, unused to the ways of the world. She left the paternal roof and accepted a place as waitress at a hotel in Elida, where the street carnival, with which Norton was connected, was holding forth. According to her story, she became acquainted with Norton, who was a patron of the hotel, and he at once laid siege to her heart with all the wiles and artifices known to a man of his character.

He told her of a fortune of \$20,000 which he had inherited, that was awaiting him to claim at Buffalo, N. Y., and drew beautiful pictures of the life of eisure, pleasure and happiness that would be hers, if she would consent to become his wife. She listened to his siren song and accepted him. They went to Portales, secured a license and were married. From there they went to Texico, where the carnival was amusing the people, and Monday, on some pretext he induced her to come to Clovis, where he abandoned her and left her to the cold mercies of the world

According to her statement she had \$20 in money when she married Norton, which he took charge of and carried away with him. She further said that she had a trunk full of clothing, but did not know what had become of it, and all the garments she had left were those she was wearing.

The young woman's parents are respectable people residing at Redlands, 25 miles south of Portales, and the girl was very reluctant to accept the advice of friends and return to her home and recite the story of her unwise marriage to her family. However, she finally consented, and as she was without means to pay her transportation. Earnest Huffman, foreman of Spring Lake ranch, magnanimously volunteered to convey her to her home

GAIN the Democratic candidate was chosen by a convention, but no platform was adopted this year. National Republican or The Whig party had three candidates. The election was on Nov. 8, and the vote, counted Feb. 8, 1837, was: Martin Van Büren of New York, 170; William H. Harrison of Ohio, 73; Hugh L. White of Tennessee, 26: Daniel Webster of Massachusetts, 14; Willie P. Mangum of North Carolina, 11. Richard M. Johnson of Kentucky was chosen vice president. Popular vote: Van Buren, 761,-549; Harrison, 736.656.

In the election of 1840 William H. Harrison, a Whig, defeated Van Buren, John Tyler of Vir. ginia was chosen vice president. In 1844 James K. Polk, Democrat, of Tennessee, defeated Henry Clay, Whig. George M. Dallas of Pennsylvania was chosen vice president.

The Record believes the nation at large and the South in particular, have been disappointed in Mr. Chas.

E. Hughes, candidate for the presiacney of these United States. Much in the way of original and vigorous thought was expected of him; a pursiew as comprehensive as the nation, and a spirit of tolerance and definiteness of purpose were conceded him by reason of his past positions of trust and honor. ECONOMY IS THE WORD AND IT'S DEFINED 3400 R.P.M.

It's cheaper in the long run to buy a car like the 3400 r. p. m. Chalmers-at \$1090 Detroit.

A low-priced car often doesn't pay.

Somewhat like the man who wanted to fence his farm and said he wouldn't spend more than a certain sum of money.

"Well, for that price I can build you a fence two feet high that will keep the pigs out," said the hardware man.

"Now, for just so much more I can build a fence three feet high that will keep the sheep out. And for this amount I can build a,5-foot fence that will keep anything out."

You had better pay a couple of hundred more, and get a regular car. Get a car that fulfills exactly every wish.

One that does a good workday on Monday; that takes you anywhere on Tuesday; runs you 200 miles on Wednesday; does the errands on Thursday; takes the family to call on Friday; one that's not only got the 5-year endurance, but gives you a feeling of pride as well.

That, sir, is my definition of Economy. This new 1917 Chalmers with the 3400 r. p. m. engine-the car that increased

Friday quite a crowd of young folks took dinner and supper and spent a pleasant day at Seven Wells. Leaving Westbrook at 9 o'clock they arrived at the Wells at an early hour, and spent the morning in climbing the bills, kodaking, feasting on watermelons and viewing the scenery which was quite interesting to those who had never visitd the Wells before. The afternoon was spent in rishing, wading, bathing and lounging under the shady trees. Q. D. HALL IS SHOT.

\$143 FOB A BALE OF COT FON.

The first bale of cotton brought to

This community was somewhat shocked last Friday morning by the intelligence that our fellowtownsman, Q. D. Hall had been shot by a tenant on his place near Dunn, in Scurry county, about 10:30. The wounded man was brought to his home in Colorado by M. C. Ratliff, who was in that vicinity at the time the shooting occurred, arriving about noon. He was shot twice, once in the neck and again under the shoulder, which latter bullet has not been extracted.

At this time, Mr. Hell is progressing nicely toward convalescence, and the gins. unless some unexpected complication intervenes, will soon be able to be eut again.

Inasmuch as there were no eve witresses to the shooting and no part of the conversation between the two men preceding it, nothing is definitely kown as to the cause leading thereto. J. R. Molett surrendered to an officer of Scurry county and his bond ixed in the sum of \$1.500, which was roadily given. The Record has not learned whether Molett will waive a preliminary trial and await the action of the grand jury or not. Molett had been a tenant on the Hall farm about

A GOOD SUGGESTION.

D. T. Bozeman, president of the county board of school trustees, asks the Record to urge again the importance of a full attendance of both county and district trustees on the occasion of the meeting on the first Monday in September. Earnest is in receipt of a letter from the Smithsonian Institute at Washington in reply to a letter from him describing the fossil tones recently unearthed in the creek bed on his place. The expert of that nstitution thinks from the description given him, the bones are those of mammoth, an extinct species of elephant, and are of no special interest unless their find might lead to the finding of an entire skeleton or the whole head. Referring to these old bones emphasizes the fact that there are some people who would not steal a red-hot stove in broad daylight, but would hang about the premises in the hope that it might cool off a bit before lifting it. Somebody or something, has stolen one of those fossil bones from Judge Earnest's office, and he asks the Record to state that it is

THE COLORADO RECORD.

Friday, August 25, 1916.

We Are Pleased to Announce that We Have Accepted the Agency for THE CELEBRATED NETTLETON SHOES

for Men, and have them in both high and low cuts at the extremely low price of \$6.00 and \$6.50 per pair. A visit to our shoe department will convince you that the most exacting and fastidious customer can be fitted comfortably and economically.

We also wish to announce that about September 1st we will occupy the eastern half of the new Earnest building soon to be erected on the lots immediately east of our present location. This will be a strictly modern building in every detail, complete in equipment and appointment, and we trust that this new store will be a credit to Colorado and Mitchell County.
