## SENIOR SENATOR WINS LANDSLIDE VICTORY.

Carries Every Section of the State and Every Large County.

United States Senator Charles A. Culberson swept the State in the senatorial run-off primary, receiving a majority of about 78,000 votes over former Governor Oscar B. Colquitt out of a total of about 267,000 votes cast.

Senator Culberson carried every section of Texas, North, South, East and West; carried each city of the State and each large county.

Totals of the Texas Election Bureau show Culberson 148,826, Colquitt 84,527, a total vote so far accounted for of 233,353.

Mr. Colquitt carried the counties of heavy German vote—Austin, Colorado, Comal, De Witt, Fayette, Guadalupe, Gillespie, Lavaca, Lee, Victoria and Washington. He also carried Archer (where there is a German settlement) Andrews, Bastrop Brewster, Callahan, Hardeman, Jim Wells, Kinney, Menard Medina and Somerville.

Senator Culberson not only carried his home county, Dallas, which is also the present home of Mr. Colquitt, but he carried Mr. Colquitt's voting box; carried Kaufman, Camp and Morris counties, where Mr. Colquitt formerly lived and also carried each of the home counties of the men who were active for Mr. Colquitt: with the single exception of Menard, the home of James Callan.

## COLORADO PUBLIC SCHOOLS OPEN SEPTEMBER 18.

We hope that every parent will see that his children enter school promptly on the first day and remain in regular attendance to the close of the school year. In Colorado there are too many boys out of school. Some are prompted to leave school to earn a few dollars. Boys, the best investment you can make is to apply your entire time for a few years toward obtaining an education. It can be shown by actual, true statistics that the boys who remain in high school till they finish, receive \$10 a day for each day thus spent. We hope to see more boys in school during this year. If you do not care to graduate, attend school and take such work as you need and desire. You will be allowed to pursue an irregular course. Quite a few pupils in the grades were conditioned in certain work. Parents should have seen to it that these conditions are removed. Children will not be allowed to pursue work in a higher grade until all conditions are removed.

We are assured by the State University that our affiliation will be materially increased during the ensuing year. So we earnestly and cordially welcome the return of all pupils to their respective classes.

We solicit the help and encouragement of all people interested in the public schools.

C. D. JUDD, Supt.

Doss Bros. advise that they have received their first allotment of the new Model 9 Dort Touring Cars. These cars are now on display at their showrooms and demonstrations may be arranged. The Dort line for 1917 is concentrated on a single chassis, which will be supplied in four different models; a Five Passenger Touring Car at \$695.00; a Cloverleaf Roadster at the same price, and a Sedan enclosed body job, and a winter top, prices to be announced early in the Fall. In discussing these latest Dort models, H. C. Doss of Doss Bros. expressed his enthusiasm for Dort construction and spoke briefly of the strong company which builds the Dort and its manufacturing ideals.

## MYSTERY AT DALLAS CLEARED

Dallas, Tex., Aug. 26.—The mystery surrounding the murder of William Humphrey, an aged merchant at Lisbon, Dallas county, on the night of last April 8, was cleared, police authorities stated today through the finding of a ring and other property in a trunk which is alleged to have belonged to Houston Wagner, a negro now under death sentence for the self-confessed murder of Miss Zola Cramer, a train conductor, on the campus of a local school building during the night of March 26th.

The wreck of the U. S. cruiser, Memphis in Santa Domingo waters this week, by a sudden ground swell, interests this community from the fact that Lee Mitchell is the radio operator on that vessel. Many lives were lost by the disaster, but as no word has come from Lee, the presumption is that he is all right.

W. L. Edmondson & Co. will remove to the Du'aney building, now occupied by H. L. Hutchinson & Co. immediately upon the latter removing to their new quarters in the Earnest building, about September 15th.

## A PROSPEROUS FARMER.

The Record was invited by County Demonstrator, Dulin, last Tuesday afternoon, to go out with several business men of the town and look over the crop of Mr. Dan Beeman, living six miles up Lone Wolf valley, which had been pitched and cultivated under the direction of the farm demonstrator. Although the only moisture this crop had received in almost seven months, was in the form of hail, it was a revelation to all who saw it.

Mr. Beeman's cotton was damaged considerably by two visitations of hail, which hurt the uniformity of the stand, but it now promises to yield from a third to half a bale to the acre. It has fruited heavily and not begun to open, so that rain now would improve it greatly. His dwarf maize could hardly be finer in a most propitious year. His June corn has been cut and shocked and will average one good, heavy ear to the stalk. His redtop cane is still growing nicely with promise of a good yield. He has an abundance of black-eyed and whippoorwill peas, while his field garden is unusually good. He has sold five wagon loads of cantaloupes and watermelons which had never made the acquaintance of rain.

But it is Mr. Beeman's bunch of hogs that is his pride. He has 72 head of all ages, crosses between the Poland-China and Red Jersey, which in the second and third generations are of a reddish gray and cream colors. He sold a number of them that day for 9c on foot. Mr. Beeman has about 150 bushels of old corn and quite a quantity of old maize heads on hand, which will run him for some time yet.

Several brood sows, a large flock of mammoth Bronze turkeys and literally a valley full of chickens of all sizes, make Mr. Beeman independent of high cost of living at home. All this demonstrates what industry intelligently directed will do for any man who has the will. He has put in his time stirring the soil instead of praying for rain and waiting for its coming. If he can do so well during such a protracted drouth as his section has experienced this year, imagine results when the seasons are good. Aside from the rewards of Mr. Beeman's industry and good land, this crop is a decided justification for the expert services of Mr. Dulin, our county farm demonstrator.

**BRIDGE CONTRACT LET.**

At a special term of the commissioners' court held on the 28th inst., bids for the construction of a steel bridge across the Colorado river in Cedar Bend, were opened. There were two bids, one from Newton & Company of Weatherford, Texas and another by Austin Brothers of Dallas, Texas. The bid of Newton & Co. was rejected by reason of its specifications, which were for a steel cable structure. The bid by Austin Brothers, was for a 70-foot steel span, pine floor bridge with steel approaches, at \$6,500, which bid was accepted by the court. The sand, gravel, stone and all hauling is to be furnished by the citizens of the Cedar Bend community, and put upon the ground.

## PRESS DAY STATE FAIR MEMORABLE OCCASION

E. J. Kiest, director in charge of the Press and Publicity division of the State Fair of Texas, announces that all plans and preparatory work in anticipation of the annual Press Day at the State Fair have been completed, and that the arrangements as provided guarantee the biggest and most pleasant event of this kind ever held in the South.

"I consider the annual Press Day at the Fair," said Mr. Kiest, "as a most valuable and interesting institution, and I am hoping, in fact we are all hoping, that we will have the honor of entertaining every Texas editor and newspaper man this year."

"Press Day is an institution conceived for the single purpose of promoting a 'get together' spirit among Texas publishers; to bring about a larger and better acquaintance; a closer personal fellowship; and to provide an opportunity for co-operative discussion of matters in which we are all interested."

"I consider that this meeting of right should be held in connection with the State Fair, for it is the State Fair that we are all trying to 'boost' and which, in its turn, is giving a powerful boost to everything that pertains to Texas and belongs to Texans."

"I believe I am well within the facts when I say that Press Day this year will have an added interest to every good publisher who is in attendance. We have several new things which we propose to do this year--and have found several new ways in which to make this occasion one long to be remembered."

## ATHLETIC GAMES DURING 1916 STATE FAIR SPLENDID

It is announced by J. J. Eckford, who is director in charge of the athletic division of the State Fair of Texas, that many important championship games have been arranged to be held at the State Fair this year. These games, principally football, will be contested by teams representing the foremost educational institutions of the Southwest, and some exceedingly close and interesting sport is looked for.

"Practically every day of the coming Fair," said Mr. Eckford, "will have its scheduled contest, and I am sure that these exhibitions of healthy manly sport will be of thousands of Fair visitors."

## COLISEUM ATTRACTIONS GREATEST OF STATE FAIR

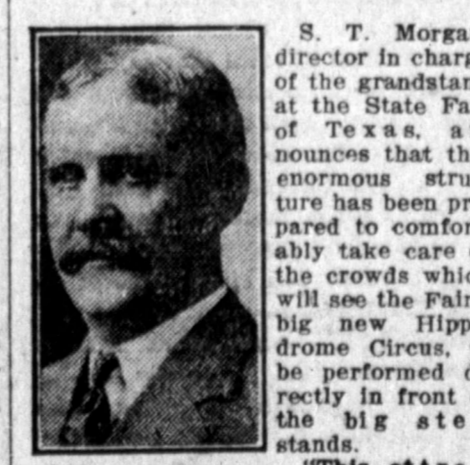

A collection of the greatest vaudeville acts that the world has to offer is promised visitors to the State Fair of Texas this year by A. A. Jackson, director in charge of the big Coliseum at the State Fair.

"This attraction will be staged in the Coliseum, and will remain there for the entire period of the Fair, October 14 to 29, inclusive," said Mr. Jackson recently, "and I am confident that Fair visitors will find it the most thoroughly enjoyable bill of vaudeville ever presented in any part of the South."

"For this show we have engaged several of the most famous and highest priced acts in the world today, and the balance of the bill will be rounded out with artists who are seldom seen out of the 52 theatres of the North and East."

"I feel confident in stating that the show in the Coliseum this year will totally eclipse any offering of previous years, and that never before has any State Fair presented such attractions."

## HUGE HIPPODROME CIRCUS IS STATE FAIR FEATURE

S. T. Morgan, director in charge of the grandstand at the State Fair of Texas, announces that this enormous structure has been prepared to comfortably take care of the crowds which will see the Fair's big new Hippodrome Circus, to be performed directly in front of the big steel stands.

"This attraction will be an innovation among Fair amusements," said Mr. Morgan, "and I am sure that it will be extraordinarily popular with Fair visitors. Some idea of the class of this event may be gleaned from the statement that twenty-five of the world's best circus acts have been engaged for its performance. This includes riders, gymnasts, tumblers, clowns, aerialists and all the other daring and skillful performers usually seen only in the world's best circuses."

## HUGHES ON MEXICO.

The loftiness of Mr. Hughes' tone in discussing the foreign relations of the United States under the Wilson administration cannot conceal the essential weakness of his criticism. He reflects with withering sarcasm on alleged debasement of the diplomatic service at the behest of merely partisan interests. He ventures on a single example; the dreadful fact that the Administration did not retain Mr. Herrick at Paris.

He does not allege that American interests in France suffered in an ascertainable way through the resignation of Mr. Herrick--who, by the way was a dignified and capable representative in a trying time. He does not point out any question which has arisen between the United States and France which has been unwisely or incapably handled. In fact, there has been no such question. He rests his case on the sole fact that Mr. Herrick left Paris.

Mr. Hughes' statement of the Mexican question is an elaborate bit of special pleading. He handles the subject, not like a Judge but like a skillful stage manager. The lights are focused brightly here--and turned down discreetly there, as suits the purpose of the partisan showman.

Mr. Hughes' whole argument--if such it may be called--upon Mexico weakens and breaks down through his failure to recognize one capital, underlying fact--the nature and extent of the responsibility of the United States for Mexico. What that responsibility is may be gathered from a single fact: that Mexico, with more than 5,000 miles of coast on two oceans has no navy and has never had one. Five gunboats, two "armed transports" complete the catalogue of her fleet. What does this mean? It means Mexico's security has been, since the days of President Monroe, guaranteed by the United States. There is no situation parallel to this anywhere in the world, where an "Independent Power" with a coast line measured by thousands of miles depends wholly on another Power for its defense.

Mr. Hughes' criticism of the Wilson policy with respect--for example--to Huerta is bottomed on the fiction that Mexico was as independent of the United States as is Brazil, or Argentina. In the light of actual Mexican dependence on us, and on us alone, for the very essentials which preserve sovereignty, the arraignment of President Wilson's "intervention" becomes childish.

Mr. Hughes walks with a light and catlike tread around the very difficult question of the recognition of Huerta. It would require the powers of a seventh son of a seventh son to discern what he really thinks about it, for his words give no hint. A prettier bit of rhetorical changeable silk we have not seen for many a day. The stern moralist may rest on his observation that Mr. Hughes does not palliate crime--"if crime were committed!" (The exclamation point is ours). The Blut und Eisen man of the world will not fail to note the approving mention of the fact that certain European Powers did recognize Huerta. Mr. Hughes fronts south by north. No matter which side of the question you approach, you will find him coming to meet you.

The specific criticisms of the Mexican policy of the Administration are not weighty. We are informed that the embargo was sometimes laid on arms and sometimes removed. Certainly. When you are playing chess sometimes you move your castle forward and sometimes you move it back. What of it? We are informed that the Vera Cruz affair was badly handled, but are not informed what Mr. Hughes would have advised, after a certain American naval officer had taken a certain stand to begin with. We are told that Mr. John Lind was unfortunately selected as a special representative. This comes with good grace from the political legatee of the Administration that sent Henry Lane Wilson to Mexico.

Mr. Hughes pours out his contempt upon the present Administration in view of the killing of American citizens in Mexico. One would infer from his observations that after the awful blundering of the Taft Administration's "diplomatic" in Mexico there was some twist of the diplomatic wrist which might have put all right and made American interests safe in a country which was wrecked and ruined before Woodrow Wilson entered the White House. Here again we have the shifty political showman with his "dissolving effect." And as a crowning stroke the Administration is held responsible for a certain position with respect to Villa which it never took because Mr. Hughes feels sure it would have taken it had certain things happened which never did and never will!

Will such stuff as this be taken seriously by the American public--even the most partisan portion of it?--St. Louis Republic.

STOP THOSE PAINS AT ONCE RHEUMATISM Neuralgia-Headache

The fame of this remedy has traveled from Snyder, Okla., to Boston, Mass. Read the following letter:

"I heard of Hunt's Lightning Oil from a friend of mine living in Snyder, Okla., R. F. D. No. 2. Her name is Mrs. Rowland—she writes: 'If you once use Hunt's Lightning Oil you will never be without it, and neither would I. It is invaluable for Rheumatic pains, especially for holding the heat with a flannel application.'—writes Mrs. B. H. Everett, 581 Massachusetts Ave., Boston, Mass. HUNT'S LIGHTNING OIL

THE CASEMENT TRAGEDY.

Chicago Tribune:—Lord Robert Cecil, a few hours before Sir Roger Casement was hanged, said that the only ground for a reprieve would be political expediency, and that in a land in which the law never was strained to punish a person it was impossible to strain it to let one off. . . . The Tory English mind thinks an Irish revolt is immoral and criminal. It cannot escape that way of thinking. If the Poles of Posen were to revolt against Germany, or if the people of Alsace were to revolt against Germany, the English would think the rebellion glorious. The Prussianized Poles have not written so much tragedy in history as the Irish, and the Alsations have suffered nothing if Ireland be considered as having suffered at all. But England would regard an Alsatian revolt as heroic, and it regards an Irish revolt as sordid, base, ignoble and dastardly. England will not admit guilt in Ireland. England will not confess that England has made Irish rebels. England could have stood before a supreme judgment bar and with truth have confessed that Casement was her creation; that she had made, formed and inspired him; that his acts were consequences of her acts; that the responsibility was hers and the guilt hers. England made him; England unmade him. Political expediency would have been a wiser guide than law. Great Britain needs Ireland as a contented part of the British Empire. Ireland's best hopes will be realized when she is a contented and self-governed part of the British empire. It is the English, not the Irish, who stand in the way of a settlement.

STATE FAIR DIRECTOR TELLS OF THIS YEAR'S BIG PLANS

E. M. Kahn

Among many prominent Texans who have given largely of their time and talents to the task of making the State Fair of Texas the biggest of all annual expositions, none is better or more favorably known than E. M. Kahn, who has been connected with the Fair for many years. In a recent statement concerning the work of this big institution this year, Mr. Kahn had this to say: "I believe firmly that the 1916 State Fair of Texas will entertain more people than have ever before visited any State Fair anywhere. I know—of this there can be no possible doubt—that they will see the greatest Fair ever assembled. "While it is now nearly two months until opening day, there are plenty of present indications to warrant the above statements, particularly in the sales of privileges and concessions, which sale has, at this time, reached the largest figure in the entire history of the Fair. "The dates selected for this year's Fair, October 14 to 29, will bring Fair visitors to Dallas at a most opportune time—just when the incomparable Texas climate is at its very best—and when they arrive here in Dallas, they will find just the finest kind of a welcome and entertainment provided for them. "I've seen a great many Fairs myself, and have had some small part in preparing them. I have absolutely no hesitation in saying that this one coming will eclipse any other that I ever knew about, and I am urgently inviting all my friends to drop everything on or about the 14th of October, and come to Dallas, for I know there will be pleasure and profit in every one of these sixteen days."

NEW STATE FAIR TURNSTILES TO HANDLE LARGE CROWDS

Wm. Doran

Hundreds of people have often wondered how the hundreds of thousands of visitors to the State Fair of Texas are so expeditiously passed through the turnstiles and for information on this matter, we have the following, from no less an authority than William Doran who for years has been director in charge of the gates and turnstiles at the State Fair of Texas. "It is a little confusing to even a close observer," said Mr. Doran, to find out how Fair crowds are handled at the gates, and for the information of those who care to know I would say that all possible speed in admitting visitors is secured through the use of the new automatic cash turnstiles with which all entrances to Fair Park are equipped. These turnstiles operate by placing a coin in the proper receptacle, and the number of entrants is automatically registered. There is, consequently, no confusion in making change or buying tickets, and we are able to pass crowds through at a rapid speed. I might say, in this connection, that we have made our plans for this year to take care of a million visitors, and I confidently expect the total of visitors to reach that figure."

MACHINERY EXHIBITS LARGEST IN STATE FAIR'S HISTORY

J. C. Duke

Many thousands of annual visitors to the State Fair of Texas, who go to Dallas particularly to see the newest and most improved specimens of farm implements, vehicles and machinery, will be rewarded this year by a bigger and better display than has ever before been seen at any Fair. J. C. Duke, director in charge of this department, states that there is every reason to believe that there will be more exhibitors in line this year than ever before, and that the exhibits will be more interesting and more valuable than formerly. Particular attention will be paid this year to tractors, as this is an item of farm machinery in which the farmer of the Southwest is vitally interested. It is stated that practically all of the manufacturers of the popular models have made application to the Fair management for space in which to exhibit their tractors. A feature of the tractor exhibits which is expected to be of much interest to Fair visitors this year will be the showing of the various belt operations possible on the good modern tractor. Farmers of this section had an opportunity recently at Dallas, to see and compare the draw-bar possibilities of the various machines, but the belt operations have never been jointly shown in this section. The Implements and Vehicles divisions will be complete with a showing of everything that is latest and best in those lines, and it is quite sure that the farmers of the Southwest can find much of profit in the exhibits in this department of the State Fair of Texas this year. The dates set for the Fair are October 14 to 29, inclusive.

HIGH PRICE OF PAPER MAY BANKRUPT SOME SMALLER DAILY PAPERS.

Washington, Aug. 1.—Charges that the price of news print paper has been forced up exorbitantly by a combination of manufacturers were made by publishers and denied by representatives of the manufacturers at a hearing today which concluded an exhaustive inquiry into the subject by the federal trade commission.

Frank P. Glass, vice president of the American Newspaper Publishers' association, told the commission he was "morally convinced" there was collusion among manufacturers expected to be able by October 1st to present legal proof of it. H. T. Dodge, president of the International Paper company, declared present high prices were due to an enormous increase in demand and insisted that the manufacturers were not making a fair return on their capital.

The commission undertook the investigation under direction of a congressional resolution and will begin work immediately drafting a report. Other witnesses today included J. H. Zerby, chairman of the White Paper committee of the National Editorial association and a representative of the Pennsylvania Associated Dailies and George E. Steele, secretary, and Timothy T. Ansberry, counsel for the News Print Manufacturers' association.

Mr. Glass said his association viewed the situation with extreme alarm and had recommended retrenchment in consumption by smaller editions, abolishing returns, and circulation inactivity. Increases of twenty-five to thirty-five per cent on contracts and sometimes a hundred per cent on emergency orders, he declared, had destroyed the profits of most newspapers, and already had driven some to the wall. One western paper, he said, reported an increase paper cost of \$250,000 annually. He claimed it was almost impossible for a publisher to get quotations except from the mill he usually dealt with.

Mr. Zerby charged favoritism in the sale of paper and declared present prices vary widely according to the whim of the manufacturer, the discrepancy run from two to six cents a pound. He added that while some publishers can hardly buy paper for cash, even at exorbitant rates, others have made two and three-year contracts at favored terms. He thought it apparent that manufacturers had

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. The Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. unitied to force publishers to deal only with the mill they were accustomed to patronize, which would force many of the smaller papers under 20,000 circulation into bankruptcy.

CALOMEL DYNAMITES A SLUGGISH LIVER.

Crashes into sour Bile, Making You Sick and You Lose a Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tonic which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless pleasant and safe to give to children they like it.

ONLY ONE DOLLAR

Many of the country newspapers are considering the feasibility of raising the subscription price from one dollar to one dollar and a half, in view of the present price of white paper. This temptation comes alike to all country papers. It seems almost impossible to print the paper one year for only a dollar, and frequently issue a paper of ten to twelve pages. Of course, all newspaper people understand the difficulty in making both ends meet under the present handicaps, but the untold do not. They know little and care less about the troubles of the paper man. They know they can get a much bigger paper than the country paper twice a week for one dollar, and use this fact as a standard by which to judge of the ability of the country paper, and see no reason why it should not do as well. They do not realize that the weekly and semi-weekly editions of the city dailies are merely by-products of their daily issues, and involve little more expense than the time, press-work and extra paper; whereas the country weekly stands the brunt of every item of expense going to make a newspaper.

Where a country paper has paid circulation of one thousand or more, it can better afford to increase its advertising rates a fraction of a cent the inch, than raise its subscription as much as 25 cents. The advertiser realizes that he is getting in return something vitally necessary to the success of his business, and the difference of a few cents per inch in his advertising expense is justified by his expectation of increased business. Particularly is this true where the

advertiser knows the people who take the paper read it. This is not so with people who only take the paper to read it. They care not whether other people read the paper or not, and can not see any reason for a rise in the price other than graft, pure and simple.

The policy of the Record in this matter is to let the price of subscription alone. A dollar is enough for a weekly country paper as reading matter. Make the paper more valuable as an advertising medium by making a paper that everybody wants to read. Put only good and live reading matter in it, written in an attractive style, and wheher people agree with its editor or not, is of little moment, just so they read what he says. When advertisers realize that the people read the paper, they will not object to paying a little more to get their business before them. A sliding scale of subscription will not work. It is quite an easy and successful matter to put it down, but another story to put it up again.

So, the Record will stay by its old price of one dollar on subscription and do all in its power to make itself a more valuable advertising medium by making it a welcome visitor in every home it enters and a source of entertainment, instruction and pleasure.

### You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you.

## GARDUI

The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

## FARMERS WANT EIGHT-HOUR DAY

ARBITRATION FAVORED IN ADJUSTING DIFFERENCES BETWEEN CAPITAL AND LABOR.

Farmers Pay the Freight and Want to Present Their View-Point in Controversy—Head of Texas Union Wires President Wilson.

Fort Worth, Texas—Henry N. Pope, president of the Texas Farmers' Union, today wired President Wilson favoring the eight-hour day, if it applied to farmers as well as industrial laborers, but protesting against any discrimination against the farming population in favor of any other class of laborers. Mr. Pope's telegram follows:

"The farmer stands for a fair and reasonable wage to both labor and capital engaged in handling the products of the soil from the time it leaves the hands of the farmer until it reaches the ultimate consumer. The contention that eight hours of labor should constitute a day's work we agree to, and that every laborer should receive such compensation as will enable him to support his family in comfort, we also recognize. If your plan contemplates eight hours per day for all those who labor, including the farmers, and a reasonable wage for the man who plows as well as those who work in industry then we are with you, but if in its application, it results in decreasing the hours of those employed in the cities and increasing the hours of those employed in the field, then we are opposed to it. The farmers of this state work from twelve to fourteen hours per day and the average compensation does not exceed two dollars per day. We have in this state nearly a quarter of a million women working as farm hands in the field from sunup to sundown for fifty cents per day, which is as much as the products of their toil will bear. If your plan is capable of giving them a full day's pay for eight hours labor then we are with you, but if it results in shifting either hours or dollars from those who labor in industry to the backs of those who follow the plow we are unalterably opposed to it. We are willing to give to labor engaged in transportation service as favorable working conditions and as fair remuneration as we ourselves receive. It is an accepted custom in increasing the wages of labor to pass the increase on to the consumer or producer. The men who pay the freight, therefore, have an equity in these disputes which cannot involuntarily be transmitted to others and the principle involved is too great to temporarily yield to intimidation. We believe the fundamental issues so far reaching the financial outlay of such gigantic proportions and the present application of the principle so limited in its scope that the subject should receive the most careful investigation and study where the farmers and all interests can receive a patient hearing and we ask that the entire controversy be turned over to a properly constituted committee for adjustment. It is the history of most economic reforms that they exhaust themselves before reaching the farmer and we want the farming interests directly represented in such fundamental controversies before this government commits itself to any definite policy temporary or permanent in which they are made a party." (Signed) HENRY N. POPE, Pres. 'dent Texas Farmers' Union.

### A TWICE-TOLD TALE

Of Interest to Our Readers.

Good news bears repeating, and when it is confirmed after a long lapse of time, even if we hesitated to believe it at first hearing, we feel secure in accepting its truth now. The following experience of a Colorado man is confirmed after three years.

J. W. Nunn, prop. Colorado Hotel, Elm Street, Colorado, says: "Some years ago I suffered terrible agony from my kidneys. Nothing did me any good until I read of Doan's Kidney Pills and got a box. I used them as directed and they soon cured me of the attack." (Statement given January 18, 1912).

#### Still Uses Doan's.

On November 4, 1915, Mr. Nunn said: "I am just as glad to recommend Doan's Kidney Pills today as when I gave my former recommendation. Whenever I use this medicine, I receive good results."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Nunn has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

### FACING THE PAYROLL

New York Commercial: Every man who employs others has to look the payroll in the face every week or month. It will not wait. Business honor, the law of the land and the maxims of the church give the wage earned, the first claim on the assets of his employer. Wages come even before taxes. The business man who is not paying his employes in full every pay day at once loses all credit the moment the banks and his creditors learn about it. The laborer is worthy of his hire, and withholding it is one of the sins that cry for vengeance.

All this is as right as it is true, but in these days of sentimental pleas for a most everybody the employer who has to meet the payroll is forgotten, that some of them made in the first sharpets agony of mind and spirit when trying to meet this primary obligation. Desperate sacrifices are often made to meet the payroll. Big corporations are favorite objects of attack and abuse, but the sacrifices that some of them made in the first six or eight months of the war should never be forgotten. The largest industrial corporation in this country or in the world paid wages at the full scale while its shareholders went without dividends. The management had to choose between reducing wages and passing dividends. Its workmen were employed and paid full wages while the shareholders got nothing. Among the tens of thousands of its shareholders were many who were dependent upon these dividends for the necessities of life. They included widows, orphans and persons incapacitated for earning a livelihood who, when their incomes were cut off, were in sorer straits than able-bodied workmen who could do other work or could make stronger appeals for help from the community which never pass unheeded. These poor shareholders—and some of them were poor indeed—hid their sufferings, and nothing was heard of that side of the struggle against what fortunately proved to be only temporary adversity.

When sudden disaster overtakes an employer of labor and the sheriff closes his doors in the middle of the week, his employes often gather in the streets and help the vilest abuse upon him because he owes them two

or three days' pay. They do not think of the weeks when their employer strained every nerve to meet the payroll. They deserve their wages, and always get them before other creditors are paid. Neither do employes show appreciation of efforts made to provide work for them in dull seasons when the employer often sells goods at cost or less for the purpose of keeping his operating force intact.

It is disheartening to find labor so antagonistic to capital and so unwilling to help in times of stress. This is the attitude of the well-paid and intelligent members of the four train crew brotherhoods who have officially repudiated the profit-sharing principle for which labor once clamored. In these days of unequal prosperity the rift between capital and labor has been widened by workmen who received wages twenty months ago when their employers could not afford to pay, and would not have paid except for sentimental reasons. They break agreements on which contracts have been based and care not if their employers are ruined by a strike.

### CAN HUGHES BEAT BRYAN?

Candidate Hughes has a record of six speeches in one day at Detroit, which is certainly campaigning with a vengeance. The people like to hear and see their candidates for the highest office in their gift for the purpose of gratifying their curiosity, but it is not wholly certain that a candidate assists his cause by too much cart-tail oratory. The feverish desire to talk direct to the people, and to impose upon them the music of his own voice, has seldom benefited a candidate for the more exalted political positions in this country. A presidential candidate should, of course, let the country know where he stands, and he should meet the people from time to time; but it is scarcely becoming the dignity of the high position to which he aspires to go about spellbinding from one ward to another of any city. If any one could have been elected by the sheer force of oratory William Jennings Bryan would have been returned by a vast majority of the voters of the country, because he is par excellence the country's chief orator; but a multiplication of speeches and the inordinate desire to be heard detracted somewhat from his potential forces, and rendered the people less interested in him. What Bryan could not accomplish by oratorical efforts need not be attempted by a less gifted man. —Memphis News Scimitar.

### WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building-tonic, free from alcohol or any harmful drugs. Try it. Scott & Bowne, Bloomfield, N. J.

A Removal Sale!

About September 15th, we will move our Colorado stock of merchandise into the Dr. Dulaney building now occupied by the Hutchinson Furniture and Hardware Co., and as cotton picking has begun earlier than common we expect that by Sept. 15th will be a very busy time with the farmers and the merchants and in order to accommodate you before this removal we have some matters of fact to relate to you.

We have just opened up a nice assortment of Gingham, Percales, Outings, Cotton Flannels and a number of other items that were all bought before any advance. There is also a heavy advance on the entire grocery line; Flour, Canned Goods, Coffees, Syrups of all kinds—all of same we have a liberal supply on hand. All of which if you buy from us before our move we offer you at the old price. In other words we will say to you. All our gingham and percales and all other items of same value which usually sold for 8c to 10c will have to sell for 12 1-2c. All 12 1-2 bolt goods of any nature will be worth 15c. Flour that we would sell you for \$3.50 is now worth \$4.50. So we urge you, do not put off for tomorrow what you can buy today, as one of the best slogans that the wise Solomon used to say so we say unto you, "Come ye, one and all for the greatest sale of value has been offered this fall. If you were going to New York tomorrow on a vacation you would not ride a mule. The chances are you would take the fastest express on the straightest railroad. We make trading a pleasure at our three stores. These low prices cannot last much longer. The mercantile business is going through the greatest change ever known. There is nothing at a stand still and we well know you are interested in getting every dollar for merchandise that it is possible to secure. We know beyond the shadow of a doubt that when you investigate the values that we are offering from day to day up to the date of our moving there is no question but what you will buy for the saving will be too great for you to pass it by. We hope to have the opportunity of showing you the merchandise. The same inducements will be offered at our Loraine and Roscoe stores up to the date of our moving in to our new place of business at Colorado.

We want your chickens, eggs and turkeys.

# SHORT CROP FALL

## Beginning Saturday

### Stock Consists of CLOTHING

The entire stock is of this season---nothing old, nothing carried over from last year. Parents, bring your sons to join this mighty Battle!---a man will be acknowledged all over the country to be the Greatest. This sale will surprise the citizens of Mitchell County with a mighty crash.

### WE GREET YOU AGAIN

WE again greet the good people of Colorado and Mitchell County from our remodeled quarters after the fire that put us out of business. We are now in a position to serve you better with a brand new stock of the latest lines than before. We are going to sell our stock regardless of cost, no matter how great the loss. You had better see them. Take into consideration the fact that this will be one of the best sales ever held in this section, will convey to you some idea of the wonderful bargains to be offered.

#### OUR SHOE DEPARTMENT IS OUR PRIDE.

We are proud of the shoe business we are doing in our locality, and we believe this business is coming to us, because we take such a pride in our shoe department. We take so much care in properly fitting our patrons---not only do we properly fit them, but we offer honest suggestions for the proper footwear for each and every one to use. Every patron of our Shoe Department has been the means of creating other customers for us, and if you are not one of our shoe customers, we are very anxious, indeed, for your business.

#### THANK YOU.

It gives us real pleasure to thank you for your patronage. We believe that any footwear you have ever bought from us will give you entire satisfaction, and hope when you need anything in our line you will come to us again. However, if for any reason you are not perfectly satisfied with your purchases, we ask as a favor that you report it to us at once, and we will adjust the matter to your entire satisfaction. Make this your shoe depot, and if you trade here we shall always make it our business to see that whatever you buy is entirely right.

#### IT TAKES LEATHER TO STAND WEATHER.

Have you ever seen a pair of shoes that were not made of leather that were quite as satisfactory to you as those that were. No shoes that contain substitutes for leather where leather ought to be used are ever just right. We sell Friedman-Shelby All Leather Line of footwear. No matter what style you buy---what price you pay---you will find the shoe is always made of leather.

A new and complete line of comforts and blankets will be offered you at 15 to 20 per cent under present market prices.

THE European war has certainly had the effect of raising prices on practically every line of merchandise in America. It was only a natural consequence and most anybody familiar with commerce and manufacturing could have foreseen what has happened. However, it is a known fact a large percentage of merchants, either through shortsightedness or for financial reasons, did not take advantage of the comparatively low prices of a year ago to contract for their future requirements. We were fortunate enough to have done so, and have already received approximately \$10,000 of new fall merchandise.

Our contracts cover practically all lines of merchandise affected by the war. Reliable fabrics are being consumed so rapidly by the warring nations that prices are mounting steadily upward with no relief in sight. The dye situation is too well known to require further comment. Suffice it to say that the commercial submarine Deutschland, which recently arrived at Baltimore, delivered some score tons of dyestuffs, which is the first shipment received from Germany (where practically all fast dyes come from) in many months.

Our foresight in buying in advance will benefit you as the following items will evidence.

Do you know of a mail-order house that has ever contributed one cent in taxes or otherwise toward defraying the expenses of this city?

Do you know of one that has ever contributed a cent toward our churches or our schools?

Do you know of one that has ever contributed a cent to the welfare of the community---money which never comes back?

If not, why do you continue to enrich people who never do anything for you or yours, and yet demand their pound of flesh in advance?

**YOU'LL COME! YOU'LL SEE! YOU'LL BUY!**

**NOW LISTEN!** This sale is without equal of comparison. Never was an effort more determined. Prices are forgotten. Rarely found are opportunities like this, and it should not be overlooked. You will surely regret it if you fail to take advantage of this wonderful sale. The startling reductions show that we are forced to raise this large amount of cash with a few short days.

We cannot see how any intelligent, economical buyer can pass unnoticed the surprising buying privileges put out on this paper. Remember not one item in our whole store will be reserved. The entire stock comes under the knife and prices will be cut right and left so that the purchasing power of a dollar will go a long way.

All new and fresh merchandise, right from the eastern markets, bought right and will be sold at reductions. On shoes the reductions run from 50c on up. We handle the FRIEDMAN-SHELBY shoes, every pair made from leather.

It is impossible for us to quote prices on everything in the house, and you are under no obligations whatever to purchase anything from our store unless you want to and get your money's worth. From the past we judge the future. Our growth in business is dependent upon you. Dress up on this sale. You can't do a better thing for your pocket book than to make an investment right now, for now is the time to buy the same goods for less money.

**Shop here first every day; if you don't find exactly what you need then go elsewhere and pay far higher prices**    *o o o*

This sale is not for one day and not a special sale for one or more articles. The entire stock will be on sale. All new and fresh merchandise, right from the Eastern markets, bought right and will be sold at reductions. On shoes the reductions run from 50c on up. We handle the Friedman Shelby shoes, every pair made from leather.

### IT'S TO OUR MUTUAL INTEREST

Get acquainted with us and with our brands of shoes. We will then know your wants in footwear, and we will then have what you want when you want it. We intend to give every customer his full money's worth, and if we have ever failed in doing so he is welcome to his money back.

### YOUR FEET ARE WORTH SAVING.

Ill-fitting shoes may become a very serious matter; they produce misshaped feet. This is particularly so in the case of a child, whose bones are so soft that damage is quickly done—and done almost painlessly. Give your children's feet some thought—and take care of your own good feet by wearing properly fitting shoes, and your feet will not give you trouble in your old age. Many older men and women suffer untold foot agonies that might have been prevented with a little care in earlier years.—Try us for shoe fitting.

### TAKE CARE OF YOUR SHOES.

Don't wear your shoes laced too loosely or they will get out of shape.  
 Don't buy shoes that are too short.  
 Don't keep your patent-leather shoes in a cold place.  
 Don't put vaseline or sweet oil on your patent leather shoes, it cuts off the finish.

ELECTING A PRESIDENT 9

Zachary Taylor, Democrat, Elected in 1848.

IN this election Zachary Taylor of Louisiana was opposed by Lewis Cass, Whig, of Michigan. The Democratic convention was held at Baltimore and the Whigs met at Philadelphia. The vote was 163 to 127. Martin Van Buren ran again on the Free Soil ticket. The popular vote was: Taylor, 1,369,101; Cass, 1,220,544; Van Buren, 291,263. Millard Fillmore was chosen vice president that year.

In the election of 1852 Franklin Pierce was the Democratic nominee and Winfield Scott the Whig candidate. The former was elected by a big majority in the electoral college, but by a scant popular plurality. William R. King of Alabama was elected vice president that year.

(Watch for the election of Buchanan in 1856 in our next issue.)

Judge Thos. L. Blanton's plurality in the July primary, as announced by the congressional convention last Saturday, was 1987.

What will Oscar B. butt into next? The very places we thought would prove his veritable strongholds, ditched him ingloriously. Consider Bexar and Travis counties.

The Record said some months ago that it would not be surprised if cotton sold for 25 cents before the first of next January. The fact that it sold one day last week at Houston for 16c, is a strong pointer to the fulfillment of that prediction. This is the highest price paid for the staple in forty years.

If the government furnishes the usual fish bait for those who are desirous of ridding the Jersey coast of sharks, there are several members of the Mississippi delegation in Congress who would make ideal fishermen.—Greenville (Miss) Times.

If Mississippi runs short, the steenth congressional district of Texas could help her out on shark bait, a little later on.

The republicans' teeth are on edge for President Wilson to make a failure in preventing a general railroad strike, whereby the industrial and commercial interests of the nation would be paralyzed, while the ma-

majority of the soldiers of the country are on the border. This is the only hope the republicans have of even a shadow of a campaign issue with which to go before the people. They try to dig a ditch and then push Mr. Wilson into it. But he's too canny a Scot to be so cheaply caught.

An educated man is a sort of spiritual knight who goes out upon his adventures to carry the torch that has been put into his hands so that other men may have the path illumined for them that leads to truth, justice, and liberty. A man proves his right to the title of being educated by being the friend of mankind, a helpmate to the human race, a light in the midst of darkness.—Woodrow Wilson.

Americans or other foreigners, to acquire public land, mineral lands, or water rights in Mexico, must first waive all rights as citizens of their own homeland, renounce all treaty rights of their country, and are to be considered to have only the same privileges as Mexicans.

The young man who wanders down the Jericho road is likely to fall among thieves. Hence the good counsel of the late Robert J. Burdette to young men: "Unless you are smarter and stronger than the thieves down Jericho way—and I guess maybe you are not; very few men are—why, you keep off that road. You stay in Jerusalem, and you'll have more money and less headache."—Western Evangel.

Before the election Colquitt boldly declared he would beat the Washington-Texas gang of politicians easily. Since the returns have come in he is cut in a statement that his fight was against the greatest odds in Texas history.

Peter Radford, erstwhile president of the Farmers' Union and still a copious contributor to the literary treasury of the Texas Economic League, did one thing last week that he would not so willingly depute to the confessed superior ability of another. He married.

G. W. Webb, up to Saturday, had registered the latest automobile in Mitchell county. The number was 476. Ten years ago, if some prophet had predicted the possession of 476 automobiles by the people of Mitchell county by this date, that prophet's hide would have been drying on the horselot fence within forty-eight hours. So fact and far do the old world move.

We do hate to see a man "blow up" as we use the expression. Stayers get the money, honor, credit and everything else that is worth while in this life. Don't be a quitter in anything lest you fall into the habit of quitting. What if our fathers who made a country out of this part of the State had quit? We have taken up their work and it is up to us to stand pat and make our country a greater country.—Post City Post.

The big life insurance companies that quit doing business in Texas when the Robertson law became operative, have been waiting and godless working for a repeal of that law or the substitution of a less drastic one like the proposed Gibson law, for which Governor James Ferguson vouched and

stood in the relation of sponsor. The vote in the July primary election for the retention of the Robertson law, must have convinced the big companies that if they wished to do life insurance business in the state of Texas, they would have to comply with the provisions of the Robertson law. At any rate, whatever light they may have seen, many of these big companies are making arrangements to re-enter the state and compete for business on the same basis with those companies which stuck to Texas when the Robertson law went into effect.

Editor W. F. Kellis of the Sterling City News-Record, announced last week the establishment of the News-Record family in its own bungalow home, with the proverbial vine, fig tree, traditional family cat, dog, lares and penates, all in proper place and full function. He has our hearty congratulations. The man who holds even a small part of God's good and fruitful earth, which he calls his own, must be a better man, citizen and neighbor than he who has no permanent material interest. Revolutions, strikes, economical upheavals and industrial disturbances have no place among people who own their homes and are in partnership with Mother Nature. A home of his own, is the most steadfast anchor man ever cast to the windward; next to children of his own, a home is the greatest hostage given to fortune. May Editor Kellis and the News-Record family enjoy, with an unbroken circle, the blessings, the comforts and independence of their castle, for many happy and prosperous years.

PLEASED WITH PROGRESS OF A. & M. CAMPAIGN.

Lubbock, Texas, Aug. 24.—At a meeting of the West Texas A. & M. executive committee, held in Lubbock after disposing of routine business and recommendation of a committee, as follows:

"We view with satisfaction the work of the West Texas A. & M. campaign in an effort to have the state establish an A. and M. college in the semi-arid region of West Texas, which resulted in having the state democratic convention at Houston incorporate the movement as one of the planks in its platform. We view with pleasure the sentiment which has been created throughout the entire state in favor of this much urgent need. We view with pride the splendid work and achievements of the A. and M. college at Bryan and heartily favor adequate appropriations for its support and maintenance by the 35th legislature.

The establishment of the West Texas A. and M. college is in no degree in opposition to the A. & M. College at Bryan, but is a peculiar need to meet the conditions, social and climatic, which obtain in the semi-arid regions of Texas. We note with pleasure the good will and kind expressions of the alumni of the A. & M. college of Bryan and the University of Texas and most heartily appreciate their offers of aid and support, since understanding the peculiar needs and requirements of West Texas."

The next meeting of the West Texas A. & M. campaign association will be held in Fort Worth, at a date to be named later.

MONEY AND MORALS.

New York boxmakers are on strike. There are 18,000 workers in this trade in New York. Three-fourths of the number are girls. Labor leaders and social reformers declare that it is the most immoral trade in Gotham; that the very atmosphere of the shops and the attitude of bosses and foremen are most dangerous to the girls who work there. Hundreds of girls are ruined. They are paid starvation wages. If the boss or the boss' son or the foreman wishes to take a girl out he threatens to discharge her if she refuses. New York sends missionaries to foreign lands every year. New York philanthropists contribute millions to the foreign missionary fund every year. New York politicians are greatly worried over the conditions which prevail in southern cotton mills. There are Pharisees today as there were Pharisees when the Nazarene walked the earth. There are hypocrites today and the Uriah Heeps of society are in evidence everywhere.—Fort Worth Record.

SECURES A. & M. PLANK.

Surely the principle which prompts West Texans to seek the establishment of an Agricultural and Mechanical College is as well defined as that one for which our forefathers fought when they declared "taxation without representation is unjust."

Just at present the people of West Texas are being taxed to maintain a magnificent school at Bryan—a school perfectly equipped to teach the young men of east and southeast Texas the down-to-the-minute methods of cultivation and conservation of the soils of those sections—a school which does not teach the young men of the semi-arid west how to gain a living from their home farms and ranches, where climate and soil are very different from the climate and soil at Bryan.

As a consequence, for many years the stockman or farmer of West Texas has paid his taxes into the state treasury for the maintenance of the school at Bryan, but has sent his boy to the Agricultural and Mechanical College of New Mexico or Arizona, in which states are to be found climate and soil conditions more nearly approaching those of West Texas.

His boy, being a non-resident of these states, does not get the benefit of the low tuition granted to New Mexico or Arizona youths. He pays a large sum for the education of this boy the latter travels a great distance to get this education and becomes more or less identified with another than his own state.

The principle is no less concrete to the voter of the eastern part of the state than to us western people. He must see that the benefits which he is reaping from the present institution are out of proportion to his investment of taxes.

He should (and many of them do) realize that justice demands that the people who inhabit west and north Texas have a right to equipment and methods of education which will fit them for the development of this vast territory.

There is no more reason that there should be an East Texas Agricultural and Mechanical College than that there should be a like institution in West Texas. There are exactly the same reasons for the establishment of a West Texas Agricultural and Mechanical College as there are for the existence of such an institution at Bryan.

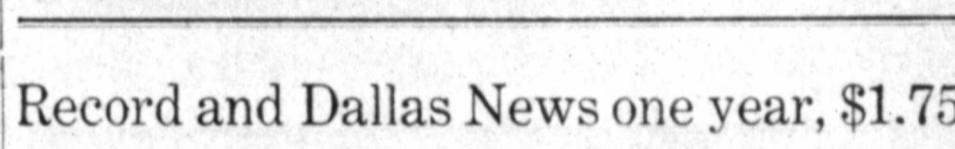

The people of Texas should not make of the request of the West a political issue. It is not a matter for political dickering. It is not a matter that calls for the raising of barriers of prejudice.

It is just a plea for simple justice, made by the farmers and stockmen of the semi-arid districts of Texas—a vast expanse of territory not yet developed—and the voter in the East who loves the Lone Star State, should be quite as interested in the establishment of this western school as are the people of our own section, and we believe a majority of them are.—San Angelo Standard.

What Would We Do Without Sugar?

We are so used to sugar that we are likely to forget to give it its proper place. Right now if somebody asked you what sugar was good for you'd probably say—"Oh! to put in coffee and tea and for making candies and desserts." That's it—we all think of sugar as a sweetener and overlook its value as a food. The chemists classify sugar as a hydrocarbon—that name may or may not be interesting to us, but what is interesting is their statement that it has, as a hydrocarbon, equal food value with the starchy foods and by digestion largely adds to the fatty tissues of the body.

W. L. Doss sells his good paint at before-the-war prices.

John T. Johnson of Sweetwater, was a business visitor to Colorado last Friday.

Auto chamois and sponges—Jno. L. Doss' Pharmacy.

C. P. Gary and wife returned last week from a trip to Brownwood, where Mr. Gary fully recuperated from a serious operation amid old friends and relatives. He begins to look like his former self again.

Fire and tornado insurance, bonds, tombstones, notary public, cheap homes, W. O. W. and W. C. applications, \$3; vacuum carpet cleaners, \$8.75; fireless cookers, \$12.50. For any or all, see E. Keathley.

The concrete sidewalk in front of the store building on Oak street owned by J. S. Johnson of Iolanthe, has been completed and adds greatly to the convenience and looks of that block. It was a needed work too long delayed.

Take your lame car to White's garage, it will be fixed promptly and fixed right.

T. G. Brennan reported that a fine cow, belonging to Lane & Smith was killed by stray bullet last week. This is another instance of a high-power gun in the hands of a fool.—Sterling City Record.

Although the wall paper market has "considerably riz," W. L. Doss still sells his at most reasonable prices.

Misses Jewell Mitchell and Lois Whiskey are visiting friends in Snyder this week.

Have White wash and clean your car.

Mrs. R. B. McDonald and children returned from their visit with relatives in San Angelo Sunday.

For anything in the furniture line, floor coverings, lawn furniture, swings ect., see I. A. Griffith.

Miss Omie Del Payne left Wednesday morning for a few days visit in Sweetwater.

Mr. and Mrs. W. J. Pritchett received the sad intelligence Monday evening of the death of their son Clifford's wife in Amarillo. She was buried there Tuesday.

We can now furnish Diamond and Putnam dyes in most colors wanted. Jno. L. Doss' Pharmacy.

Mr. and Mrs. Bruce Phenix of Loraine spent the day with relatives here Sunday.

Miss Maud Farmer visited her sister Mrs. R. E. Gracy and her brothers in Sweetwater last week.

Hawkes' crystalline lenses are as good as any made. W. L. Doss handles them.

Get your glass and putty from Jno. L. Doss' Pharmacy.

Mr. and Mrs. D. N. Arnett returned from the plains Saturday in their new Dodge.

Mrs. Keathley and sons came in safely Monday in their Ford from Breckenridge and other places where they have been visiting the past three weeks.

Miss Lottie Landers visited in Westbrook Sunday.

See John L. Doss' Pharmacy for superior line of toilet articles.

Mrs. E. A. Campbell and daughter, Miss Ruby, are the guests of Mrs. Bruce Phenix in Loraine this week.

J. O. Phenix of Kemp is the guest of his aunt Mrs. J. F. McGill.

Miss Thelma Grissett of Mineola is visiting her aunt, Mrs. J. R. Sheppard.

Prof. Thos. Dawes, graduate of Trinity College, London, England, teaches piano forte, voice, harmony and the art of teaching. Special terms to juniors. Fall term begins in September. Choral club opens September 1st.

T. J. Runyon is some pumpkins as a potato raiser himself. He brought one of the yam variety to town this week weighing six pounds. He claims he took one at random from his patch, but that's up to Tom.

Go to White's garage for oils, castings, tires and all supplies.

A. J. Herrington and family, accompanied by Will McElroy and wife, returned this week from an extended trip to Dallas, Hillsboro and other central Texas points. They bought a car of 1917 model Ford cars and brought one overland home with them.

At Jno. L. Doss' Pharmacy drugs are always fresh and prescriptions filled by competent druggists.

The commissioners' court held a special term on the 28th, and let the contract for building a steel bridge across the Colorado river in Cedar Bend.

Hot and cold drinks, fruit and candy at Ben Morgan's.

Silas Cranfield, living up Lone W. creek, lost a fine wule Sunday from blood poisoning. He sent for 'Doc' Dulin, the county demonstrator, but as the wule was dead when he reached it. Mr. Dulin is of the opinion that the malady was too deep seated for his first-aid remedies to reach it. Moral—its best to send for the doctor before the patient is dead.

#### Constipation the Father of Many Ills.

Of the numerous ills that affect humanity a large share start with constipation. Keep your bowels regular and they may be avoided. When a laxative is needed take Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. Obtainable everywhere.

#### STORAGE BATTERIES CHARGED.

The Brick Garage is now prepared to charge all kinds of storage batteries on short notice. It has also two new mechanics who are guaranteed to be "Honest-to-God" workmen from wheel-base to exhaust. Bring us your particular cases; no cure, no pay. W. M. COOPER & SON.

Mr. and Mrs. J. L. Doss and Sam Majors returned overland from Corpus Christi last Sunday about noon. Judge Coe and W. R. Mitchell returned a few days earlier by way of the old Tee and Pee railroad. Sam has some wonderfully hair lifting tales to relate as to the force of the storm and violence of the waves. He assures his hearers that everyone except himself lost their head and had all but the "very stuffin'" scart outen 'em." He stood firm in the teeth of the roaring elements and held down the mud sleds of the Nueces Hotel building. Sam came home a wiser and wetter man, content to take his baths hereafter in the creek and his steamboat excursions on the turged waters of the raging Colorado. So much for the experiences of foreign travel.

**Lax-Fos, a Mild, Effective Laxative & Liver Tonic Does Not Grip nor Disturb the Stomach.**  
In addition to other properties, Lax-Fos contains Cascara in acceptable form, a stimulating Laxative and Tonic. Lax-Fos acts effectively and does not gripe nor disturb stomach. At the same time, it aids digestion, arouses the liver and secretions and restores the healthy functions. 50c.

As we passed Fred Meyer's place of business one day last week, we slowed up, as is our habit, to pass the time 'o' day and stir him up a bit for the day's work. We noticed there was something unwonted about his appearance that he seemed anxious for us to notice out loud. It took several seconds to locate the trouble, and then it burst upon us with a shock. His hair had been scissored, pompadoured and slicked down, so that it put to blush the amateurish efforts of the most chronic mollycoddle in town. After reviving, we asked the whyness, the whenceness and whereforeness of the sacrifice. Expectorating with deadly accuracy at a fly crawling on the floor whetting his shoe knife a lick or so on the gunwale of his bench and slowly depressing the southwest corner of his weather optic, he oracularly said: "You just wait till I get a lick at you from the Judge's bench; I fix you!"

#### ART PUPILS WANTED.

Miss Ruby Conaway, graduate of Simmons College Art Department and now studying in Chicago, will open a studio at the beginning of school in the High School building, and will receive pupils in this department.

City realty is looking up apace in Colorado, several deals having already been consummated the past week, while as many more are hanging fire, but with every assurance of being made. Jas. Fulkerson and Mrs. Pugh sold to G. W. Christian, the home of the former and part of a lot belonging to the latter. N. T. Womack purchased the place on the hill belonging to Mrs. Sneed and will soon occupy it in order to send his children to school. E. Keathley, agent for Stone-wall Jackson, sold to Mrs. M. P. McCall the three lots just west of the home of R. P. Price. Other deals in the making are not sufficiently advanced to announce as finished transactions.

#### Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

H. G. Lucas and wife were in last Friday and had the Record come to them for the coming year. Mr. Lucas is manager of the Thompson ranch, more commonly known as the Earnest ranch, ten miles north-west of Iatan, and though a bit nearer Big Spring than Colorado, will make the latter place his market by reason of the better roads in Mitchell county. This ranch has lately been sold to Fort Worth parties one of whom is Wm. Copps, father-in-law of Mr. Lucas, the latter also being financially interested. We welcome Mr. and Mrs. Lucas to bully West Texas, as well as to Colorado's trade territory, and hope that they may stay long and prosper.

#### How to Give Good Advice.

The best way to give good advice is to set a good example. When others see how quickly you get over your cold by taking Chamberlain's Cough Remedy they are likely to follow your example. This remedy has been in use for many years and enjoys an excellent reputation. Obtainable everywhere.

#### PAY WHAT YOU OWE ME.

I am needing money to pay my own bills and urge all who owe me for work to come in and settle at their earliest convenience. Don't neglect this. FRED MEYER tfo

New filling station on the sidewalk at the Brick Garage, opposite the depot. Donald Sheaff in charge.

Mr. and Mrs. John Langley of Westbrook, leave Saturday night for Henderson county (that is somewhere down in East Texas) where they will visit relatives for some months. Mr. Langley wants it distinctly understood by his friends and neighbors, that he is not out of humor with the county, or that the somewhat tardy visit of the Rainmaker to this goodly corner of the vineyard, has anything to do with his going. Its about his regular time to go back and help dispose of the surplus good things to eat his son-in-law has a habit of accumulating. That's the real reason.

#### WEST SIDE SINGING CONVENTION.

The West Side Singing Convention of Mitchell County will convene at Rogers school house, ten miles northwest of Colorado, on the first Sunday in September—day after tomorrow—September 3rd. Everybody is cordially invited to be present on that occasion and bring along something where-with to stay the inner man. But the people of that community will do their own generous part in feeding all who may come. Let all who enjoy good singing and meeting with good people, go out next Sunday, with the assurance of a pleasant day.

#### Are You Looking Old?

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. Keep your bowels regular and your liver healthy and you will not only feel younger but look younger. When troubled with constipation or biliousness take Chamberlain's Tablets. They are intended especially for these ailments and are excellent. Easy to take and most agreeable in effect. Obtainable everywhere.

The Colorado Bargain House edits a good part of the Record this week. You may know it as genuine bargains to offer, when, at the present price of print paper, this progressive house takes two full pages in one issue. But just watch for its ad next week, if you want to see how it values the power of printer's ink, with an honest circulation.

A small wreck occurred in the local yards Tuesday afternoon when two freight trains collided, one being on the main line and the other on a siding. It appears the one on the siding was not in the clear, at any rate, the pilot on one locomotive was torn off and six cars of the other train were badly scratched along the sides and jerked off the rails. About one hour was consumed in rerailing the cars and resetting the torn-up rails. The railroad employees were greatly assisted by the local experts which usually adorn the business corners of the town and wonders how the "tarnation" this country keeps from going to the devil before they get a chance at saving it. We wonder ourself, at times.

#### ROGERS ITEMS.

A number of people from here attended church at Horn's Chapel Sunday. Did not have Sunday School as church was going on.

Mr. H. H. Pagett of Westbrook is doing some carpenter work for Mr. Fuller this week.

Mr. Walter Canthon has been doing some horse trading.

Miss Mae Williams of Fairview has been visiting her sisters Mrs. Buckalew and Mrs. Pond this week.

Miss Maudie Crose of Dallas is visiting her mother and father and will return to her home in a few days.

Farmers are making slow preparations for cotton picking as cotton is so slow opening.

Mr. R. C. Sanders and family have returned from a trip back east.

Mr. Lonzo Alhart has sold out and is making preparations to leave soon for Seminole in Gaines county, where he will make his home.

Mr. Pink Fuller of Riverside has been the guest of Walter Canthon last week.

Mr. and Mrs. Judson Felts spent Saturday and Sunday with Mrs. Felts' father and mother, Mr. and Mrs. Mints.

Wednesday night is set aside for meeting and organizing a program for the convention which will be held next Sunday. Everybody will be welcome and will be cared for.

Mr. Earl Pond is doing very well this week from a snake bite. He said there were other things he preferred playing with, rather than snakes.

Mr. and Mrs. Raney were visiting Mrs. Green Monday.

Mr. Homer Green has been about to lose two of his horses this week from eating mesquite beans.

All the standard magazines at Ben Morgan's.

Imboden of El Paso, special representative of the soils-Products Exposition, which will be held at El Paso from October 11 to 26, in conjunction with the celebration of the opening and dedication of the Elephant Butte Dam, National Dry Farming Congress and National Irrigation Congress, was a pleasant visitor to Colorado and this office this week. Mr. Imboden is interesting the various west Texas counties in having an exhibit at El Paso during that week. More than 150,000 visitors outside of Texas are expected at El Paso during that festival week, and the occasion would be a great opportunity for advertising any county. Aside from the numerous entertainment and educational features to be staged by the people of El Paso, the Mexican government has promised to clean up the city of Juarez and have it in tete with the finest band the republic can gather for the delight of all visitors.

**NOTICE TO COTTON RAISERS**

I now own and will operate the Gary Gin the coming season. This plant has been thoroughly overhauled and everything that can add to the ease, quickness and safe handling of cotton in the way of the latest improvements has been installed. It is now practically a new plant and up to date in every detail.

My business motto will be to "Give you Service and Satisfaction." Though I practically a stranger to the people of this county, I am no stranger to the gin business. All I ask is a chance to show you on a fair division of your ginning business. I guarantee to give you the same good service and accommodation as did Mr. Gary. I have greatly increased the capacity of the plant and can give you quicker service than it was able to do before. I especially want to hold a 1 Mr. Gary's old customers; therefore, bring me your cotton; tell me your wants and I will do the rest.

Yours truly,  
J. L. CASSELL.

**NEW LAMBETH GIN.**

Every cotton raiser in Mitchell county knows that Oce Lambeth is a thoroughly experienced and practical gin man. He knows the business and he knows a good plant when he sees it. He is now the sole owner of the new gin plant erected by Scott & Lambeth, and asks a share of the ginning business in Colorado.

The plant is the latest word in all things making for the quick, clean and thorough ginning and handling of cotton. It is a five stand 80-saw Munger special system, and leaves nothing desired in the ginning process. The entire plant has been tested out with absolute satisfaction and is now ready to handle all the cotton brought to it.

"Who's Guilty."

**THE CONCRETE GIN.**

This gin plant has been thoroughly renovated the past summer and every appearance added that experience has demonstrated necessary to the best method of ginning and handling cotton. It is now ready to serve the cotton raisers of this community in the ginning of U. S. cotton and will buy all the seed offered. I solicit a share of the ginning patronage on the basis of good service and satisfactory receipts.

"Who's Guilty."

A fairly good shower—at least it would be called a shower at any other time—fell in Colorado Thursday afternoon about one o'clock. We will not record it as a rain, but suspend the official record until next week when we hope to announce in red type that the entire area of Mitchell county and that of all the other bully counties of West Texas have received a real old fashion, downright, simon-pure chunk lifter and gully washer; that every hole, sink, arroyo swag and draw is brimming full of water, and that the thirsty grass and cattle are singing psalms of praise and thanksgiving.
