### ECHOS OF THE PAST.

Excerpts From the West Texas Stockman—Published 20 Years Ago.

The Record has time and again deplored the fact that there was not in existence a complete or even a partial file of any of the several newspapers published here prior to the establishment of the Colorado Record. The value of an unbroken history of the community as reflected in the weekly newspaper can not be estimated. The files of any newspaper constitute one of its most important assets. Much litigation could be prevented, more time and labor saved, associated facts and dates ascertained that would establish unrecorded parallel facts and dates, by mere reference to the files of a newspaper.

The Record has been anxious to get hold of all the copies possible of any newspaper published in Colorado prior to 1906, and will thank any person having such papers to bring them to this office. The favor will be reciprocated in degree and kind. There are possibly many such copies scattered in the store rooms, attics and other by-places of the homes of the county. We would be glad to see them, and after reading them and making notes of their contents, will return them. One such copy came into our hands the past week through the thoughtfulness of Frank W. Crawford who rescued it from a pile of cellar junk. It was in tatters, but from it we gleaned much of interest, some of which we pass on to Record readers.

It was the July 9th, 1896 and Sept. 7th, 1897 issues of the West Texas Stockman, published by Hector McEachin and R. L. Barnett. Glancing through its columns, many names of those living today appear; other names there are, of those who have "entered that low green tent, whose curtains never outward swing."

The ads of more saloons appear than of any other line of business.

John Vaughan had lost a "done" horse and opened a good well of "all kinds of water." Arnett & Caldwell were soliciting a share of ranch trade, while John Haley assured the unshaven public that no finer place than his could be found in West Texas. But Gus Bertner was claiming the same advantages on another page.

H. A. Wulfjen had just concluded a deal for 1500 head of the Barron cattle in Sterling county, paying \$16 for "earlings, \$20 for twos and \$25 for threes and fours.

Ben Plaster had moved here from Arizona and establishing himself in the cattle business. J. B. Slaughter was building a \$25,000 home in Fort Worth and preparing to move there. The Methodist church was about to undergo alteration and suffer repairs. Rev. B. H. Carroll had the Sunday before, preached "a powerful and uplifting sermon at the Baptist church."

Ben S. Van Tuyl was making a specialty of "fine thoroughbred Hereford bulks," while Sheriff McMurry had taken a certain "Rastus," a negro walf to Fort Worth, for robbing the local postoffice. Dave Mitchell was boniface at the old St. James hotel and T. A. Witcher ran the Pacific hotel. The latter was in Colorado last spring as a socialist street orator.

County Judge McCallum reported the scholastic population of the county as 523 as against 485 the year before. There were 33 negroes. The building of the central ward school house was being pressed on the people by J. S. McCall, W. T. Scott, A. B. Robertson, H. R. Smoot, as "a crying need."

W. T. Scott had bought \$20,000 worth of Fort Worth property, and Drs. W. K. Lewis and J. W. Pearson were exploiting a newly discovered tick vaccine. The dipping process was not then a proven success. A generous subscription had been made the Colorado Valley Railway, to be built from Colorado to Robert Lee. Judge Looney and Gus O'Keefe had begun to warn trespassers to keep off their lands. Vincent Vincent, "the Colorado Sheep Man" had given his views on the sheep problem to a Fort Worth newspaper man. They were not rosy.

The Stockman made the suggestion that "a mild laxative be given our town clock," from which we gather its present constipated condition is somewhat chronic.

Doctor Maurice Terrell was then acquiring his pharmaceutical accuracy from T. R. Cheatham, the "leading West Texas druggist." Doss Brothers entered to the retail as well as wholesale trade. Work on the Christian church was in progress. W. L. Delling

bought the old building which occupied the lot.

Mr. and Mrs. Geo. Root left that week for Galveston, where they would make their home. Misses Maud Hall, Lizzie Knott, Exie Crawford and Gertrude Cooksey had returned from a function at Sweetwater. Bert Simpson was rated one of the largest sheep owners in this section. He was holding 2300 in one pasture.

Charlie Lasky had shipped 1200 loaves of bread that week to various places for July 4th celebrations. John Haley was bringing vegetables to the editorial desk and F. M. Burns was leaving for northern markets charged with a multitude of special commissions. A crowd consisting of Brooks Bell, P. A. Hazzard, W. B. Crockett, H. Colvin, Harry Landers, Vincent Vincent, T. R. Cheatham, A. B. Robertson and H. C. Townsend, dropped in to report what "a high old time they had at the Champion picnic."

These are but a few of the main items we should like to mention and will mention in another issue. The following two items will give some idea of the improvement in the condition of the town since that time:

"A fence has been built around the trees west of the bank and the hog bath shut off."

"There is some talk of organizing a hunting party for the purpose of chasing the wild cats, panthers and other wild animals that may be lurking in the jungles of the Lapowski lot on Second street."

### SCHOOL OPENS.

The Colorado public schools were formally opened at the tabernacle Monday morning.

There is something about the first day of school that quickens the impulse of old and young alike, and causes them to be responsive on this day of days. This is true in Colorado, and last Monday morning was no exception for before the hour arrived the building was well filled with parents and children, waiting to hear the program of the year, of things that were of vital importance to them and theirs.

The program began with prayer, led by Rev. Mr. Doak, pastor of the M. E. church, which was one of heart-felt interest throughout.

Supt. Judd spoke on the outlook of the school and told of some of the things that would be expected of parents and pupils.

Timely talks were made by Dr. Phenix, W. W. Porter, Dr. Coleman, Mr. Ree, Mr. Keathley, Mr. Sandusky, and a former student of the school, Mr. Lettwich Shepherd, on the different phases of school work. Through them all the thought of the need of co-operation of parent and teachers in all lines of work, seemed to be the keynote.

Mrs. M. K. Jackson made a splendid talk on how the school may help the home, while Mrs. J. G. Merritt told of the work and aim of the Parent-Teachers Association.

The Colorado Choral Club, ever ready to assist at any and all times, gave a number that was highly enjoyed.

After the program and recess the pupils went to the school buildings for enrollment.

With few exceptions there will be the same teachers as last year. The different teachers are:

High school—Mr. C. D. Judd, Miss Foe and Mr. Bane.

Seventh grade—Miss McIntyre.

Sixth grade—Miss Mary Arbutnot.

Fifth grade—Miss Omeria Terry.

Fourth grade—Miss Ruby Campbell.

Third grade—Miss Lily Mae Boren.

Second grade—Miss Cleo Pritchett.

First grade—Mrs. C. D. Judd.

Colorado has always boasted of her love for her schools, and now the time is here to prove it by her works. Mr. Shepherd told us of a few of the things the school inspector found us deficient in and now it is up to the patrons to make up those deficiencies. First another high school teacher is needed and by the combined efforts of the patrons this can be secured and should be done at once. Also that the grounds showed neglect. This also can be remedied by all having their civic pride aroused enough to bear their part. These hindrances can be removed, ladies and gentlemen, will we do it?

The U. S. Public Health Service is the nation's first line of defence against disease.

# F. M. BURNS

The supposed attempt at burglarizing the store of I. A. Griffith last Sunday one week ago, was not the work of professionals, but the mischievous experimenting of kids, not more than a dozen years old. One of them told City Marshal Stell all about it. They really had no definite burglarious intent, but were just "seeing if they could get into a brick house that way." Their may be absorbing pastime but it will be hard for the law to determine just where juvenile experimenting leaves off and sure-enough burgling begins.

The nights are getting cool and you will soon be needing those blankets and quilts. Better send them to us to be washed before you begin using them, and be sure that all germs of last winter's colds, etc., are killed. There is only one right way to launder bedding and we do it that way.—Colorado Steam Laundry.

"Unc" Harry Ratliff and Lucius Maddin left Sunday night for Sherman, where they entered Austin College for the current session. Robert Smith and Hubert Arbuthnot left for the same place and with like purpose the day following. "Unc" Harry surreptitiously took along his antiseptic wall-paper "wascot" for minstrel purposes, not however, that he expects to be an "end man" in his class.

#### SCHOOL BOOKS AND SUPPLIES

Jno. L. Doss has just received a full line of the state adopted school books and school supplies. Supply your children's needs before the stock is broken.

The attention of the Colorado Chamber of Commerce, the Good Roads Association and the County Judge, is called, to the big meeting called for Midland on the 26th, for the purpose of discussing ways and means for a good automobile road from Fort Worth to El Paso. This is one of the most important moves West Texas has ever made. The Record has said, time and again, and now repeats it, that a good air line auto road from Fort Worth to El Paso, properly maintained, would be worth, to the country at large and the small towns in particular, as much as a short line railroad. Let Colorado be properly represented at this meeting.

The fact that the new bank building will be steam heated and provided with janitor service throughout, will make offices in the second story the most desirable ones in the city. As a rule an office building without uniform and regular heating and general janitor service, soon becomes a veritable rookery. No two tenants have the same ideas of sanitation, order or working temperature, while some tenants have no ideas at all about these things. It will be a service well worth the price of the rent.

#### Constipation the Father of Many Ills.

Of the numerous illa that affect humanity a large share start with constipation. Keep your bowels regular and they may be avoided. When a laxative is needed take Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. Obtainable everywhere.

The lack of rainfall during this month will very likely destroy all prospects for a fall turnip crop—no mean loss to any section. However, if we have rain within the next two weeks and old Jack Frost puts off his annual visit till the middle of November, a fairly good "greens" crop can be made. And turnip greens, with a due admixture of little turnips and fat pork, has always been one of the editorial besetting sins.

**Lax-Fos, A Mild, Effective Laxative & Liver Tonic Does Not Grip nor Disturb the Stomach.**  
In addition to other properties, Lax-Fos contains Cascara in acceptable form, a stimulating Laxative and Tonic. Lax-Fos acts effectively and does not gripe nor disturb stomach. At the same time, it aids digestion, arouses the liver and secretions and restores the healthy functions. 50c.

The Colorado Chamber of Commerce has agreed to finance the trip to Midland for about thirty boys of the Mitchell County Clubs. Caps have been provided for them and badges will be printed designating the county they represent. County Farm Demonstrator, Dulin, will accompany and have immediate supervision of the boys while en route and at Midland. Free entertainment will be furnished by the fair association during their stay. We understand there will be quite a creditable delegation from Colorado and Mitchell county.

## THE AD IS CHANGED

THIS week, but the quality of the service and HIGH GRADE of workmanship and the accessories we handle remains the same yesterday, today and so long as we run this Garage. We study and strive to please every patron, no matter how insignificant the job, how small the purchase.

### OUR LINE OF TIRES AND ACCESSORIES

is kept to the top notch of standard goods, time-tested and service-proven. There is a bankable guarantee on the line of these goods we handle. You take no chance, run no risk.

ANOTHER POINT.—Your car is as safe from mischief and molestation in this garage as when locked in your own garage at your home. So are the tools in your repair kit. Bring your car troubles here and tell the "captain" about them. He's paid to listen, then fix 'em.

## Paramount Garage

HARRY LANDERS, Proprietor

Mrs. Henthorne and Dulaney attended the meeting of the West Texas District Dental Association held at Plainview last week. They are loud in the praises of that section. The association was dined, ridden and shown everything in that section. Of course there was speech making all 'round and that was where Doctor Henthorne did himself and his conferees proud. He pulled his celebrated "Texas Brobdignagan Simile" to the effect that "if all the hogs raised in Hale county were one hog, it could root ten ditches the size of the Panama canal, at an 'Tirt of its proberls; that if all the girls of Hale county had but one mouth, it would take"—but the fire marshal broke up the riot just at this point of the saccharine simile.

#### STORAGE BATTERIES CHARGED.

The Brick Garage is now prepared to charge all kinds of storage batteries on short notice. It has also two new mechanics who are guaranteed to be "Honest-to-God" workmen from wheelbase to exhaust. Bring us your particular cases; no cure, no pay.

W. M. COOPER & SON.

Hawks' optician will be at W. L. Doss' drug store October 13th, for one day only. Better see about your glasses.

#### COKE COUNTY'S ONLY NEGRO HELD FOR BOOTLEGGING.

Robert Lee, Tex., Sept. 13.—A negro parson, the lone negro resident of Coke county, who was arrested for bootlegging by City Marshal Parish of Bronte and placed in the Robert Lee jail two weeks ago, is daily visited by large crowds of Coke county boys and girls, some of whom had never seen a negro—Coke county being free from negroes, except the "Parson," who says he has been in jail only once before. He has the distinction of being the only negro ever placed in the Robert Lee jail, and he is in "heaps o' trouble," as he will probably remain here, the interesting guest of Coke county, until the county court convenes.

#### Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This is a medicine that every family should be provided with. Colic and diarrhoea often come on suddenly and it is of the greatest importance that they be treated promptly. Consider the suffering that must be endured until a physician arrives or medicine can be obtained. Chamberlain's Colic, Cholera and Diarrhoea Remedy has a reputation second to none for the quick relief which it affords. Obtainable everywhere.

Take your tin vessels of all kinds to R. B. Terrell for quick and lasting soldering. He does it while you wait to take it home.

## At Last! The Real Thing in Motors

Ride in a Willys-Knight. You don't know the real thing until you've had this experience. Don't judge it by any other car. There's nothing with which to compare it.

The quiet powerful smoothness of the Willys-Knight motor is a thing to marvel at—it simply revolutionizes any previous notion you may have had about how smooth and soft a motor could be.

You can't possibly realize what it means until you try it. You simply wouldn't have anything else after you know what it means. See us today.

#### BUILDING NOTES.

The brickwork on the new bank building is nearing completion and the structure will soon be turned over to the carpenters and furnishers.

The Earnest building is having put on it the finishing touches in the way of paint, sidewalks, electric and toilet fixtures. Some of the intended occupants hope to begin moving in the latter part of this week.

The walls of the Lasky store buildings are going up apace and the front with its dark colored brick, black recess mortar joints and white stone paneling, presents a very promising, attractive appearance.

Mr. M. T. Hall is having his recently acquired home worked over with weatherboarding, a front gallery prefixed and an additional room attached, all greatly enhancing its comfort and appearance.

Work will begin probably this week on the bungalow home of Jerold Rior-dan on Silk Stocking Knob.

Marcus Snyder has finished up the addition to his home on the hill, and now has one of the prettiest little pieces in the city.

Sam Jordan has added two residences to the western part of the city. One of the converted buildings was the old city hall and fire station, the other was moved to its present site from another lot. Both are now dividend paying property.

The addition to the Whipkey Printing Co's. building (the old City National Bank building) will be commenced next week.

Besides these evident improvements, there are several more in contemplation and under estimate.

#### NOTICE TO EATING PUBLIC.

On and after October 1st, service at the Pure Food Restaurant will be on a Strictly Cash Basis. This includes everyone, banker and bum alike. Don't ask for credit, but if you do, be sure you ask before you eat. We use a club on those who ask it before, and a stomach pump on those who eat and try to stand us off. Nuf sed.

### Do You Suffer From HEADACHE? NEURALGIA?

"I have been subject to severe headaches for about seven years. My head would ache so badly at times that I could scarcely stand it. Doctors and headache medicines did no good. Hunt's Lightning Oil gave me almost instant relief. Have not suffered from those dreadful headaches since I found out about your wonderful liniment," writes Mrs. W. T. Dickson, Sherman, Texas.

#### MAKES PAIN VANISH

The affected part instantly warms and glows under its powerful penetrating effect. You can fairly see and feel it do the work. Simply rub it on and the pain seems to fade away. Inexpensive—25c and 50c a bottle.

## HUNT'S LIGHTNING OIL

CHARTERS & SADLER.

#### ART STUDIO.

Miss Ruby Conaway will open her studio in the central ward school building, September 18th. Lessons given in oil, pastel, water colors, charcoal, basketry and china painting. For further information phone 448.

#### Are You Looking Old?

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. Keep your bowels regular and your liver healthy and you will not only feel younger but look younger. When troubled with constipation or biliousness take Chamberlain's Tablets. They are intended especially for these ailments and are excellent. Easy to take and most agreeable in effect. Obtainable everywhere.

Keep Colorado Money in Colorado.

#### LORAINE LOCALS.

Miss Ethel Gregg and Mrs. Homer Wimberly motored to Westbrook Sunday and spent the day. They brought back Miss Annie Gregg and Miss Conaway.

Miss Maye Pope arrived Saturday and is ready for her work in school. Mr. Ernest Phillips has purchased the Wheeler residence in north Lorraine and will improve it some, and he and his family will make their home here.

Mr. and Mrs. Joe Jackson are expected in this week from Temple. Rev. Cecil Lawrence of Abilene held services at the Christian church, Sunday.

Mr. and Mrs. W. Sloan of Roscoe were Sunday guests of Mr. and Mrs. Alonzo Phillips.

The following ones partook of a sumptuous dinner: Mr. and Mrs. J. D. Ridens, Mrs. S. D. Ridens, Mrs. Abbey Walker and son, Mr. and Mrs. Thomas Ridens, Mr. Henry Hall, Mr. and Mrs. W. F. McCallum and daughter, Mr. Henry Ridens and Mrs. Boyd Ritchie.

Mr. Bob Adkins happened to the misfortune of losing his Overland car by fire on last Saturday. He was out about forty miles from here and running at the rate of fifteen miles, when the gasoline tank exploded and threw him out of the car and set it on fire, burning it up. Besides the loss of the car he had some brooms that he was selling, and some of his clothing and bed clothing destroyed. He had five hundred dollars insurance on the car.

The ladies of the Cemetery Association had dinner Saturday in the Higginbotham building. A nice sum was netted to help in the worthy cause.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative power that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

THE EIGHT HOUR BILL.

Here is the bill—translated into every day talk—passed by the Senate and House to avert the greatest industrial struggle that has ever threatened the country:

Beginning New Year's Day, eight hours shall constitute a working day for all employes engaged in operation of trains on interstate railroads. The pay is to remain at the present day rate. All "necessary" overtime work shall be paid for at the same rate

THE THING IS THE THING.

There is no business on earth, except perhaps the gentle art of house-breaking, that does not come, time and again, to the crossing of the ways of Right and Wrong. When the issue narrows down to doing the clean thing for the sake of cleanliness or the dirty thing for the sake of filthy lucre. Every business, and the newspaper business, as much as any, has to do with the public morals. It either aids and abets immorality by its silence or its advocacy of it, or it helps swell the moral force that combats immorality, by either pointing out the things that offend the decency of the community or openly opposes them.

Any one—individual or newspaper—that honesty strives to do the clean, decent thing, may expect to have the antagonism of something less than half of the community, and the antagonism of that per cent is presumptive evidence that the individual or newspaper is right. This is the law of moral gravity. The newspaper that would please the one class without inviting the contempt of the other, died aborning. It was never able to reach the pap of sustenance. It could have no excuse for existence. A character is as vital to a newspaper as to an individual, and if it loses this, it has lost its most valuable asset—an asset that can not be insured or bought at a supply house.

In pointing out things which the Record thinks detrimental to the best interests of Colorado and Mitchell county, it is but performing one of the functions of its business. A newspaper should be as great factor in education, as the school or pulpit. If the paper, preacher or teacher is mistaken in zeal to the confusion of judgment, the community will promptly rebuke it, him or her. But individual knocking will not rectify the mistake. It is public sentiment that determines the issue.

Nothing the Record says about any matter of public morals or well doing, has the least personal reference or application. It is the Thing, not the Person, at which rebuke is aimed. But persons are incidentally associated with the thing, just as good old dog, Tray, got the load of shot intended for the sheep-killer with which at that unfortunate moment Tray was playing.

The nation is again called on to sorrow with President Wilson through the visitation of death. His sister, Mrs. Annie E. Howe, died at her home in New London, Conn., last Saturday, the 10th. The president cancelled all political engagements for the first part of the week. The funeral of Mrs. Howe occurred at Columbia, S. C., on Monday afternoon.

If candidate Charles E. Hughes is looking for a "paramount issue" in his campaign, why does he overlook old Doctor Winjaybrine, the great specialist in this line.

CASH—STRICTLY—CASH. Gasoline at the Brick Garage is strictly CASH.—Donald Sheaf.

IN HIS NAME.

On September 25th, a local option election will be had in Tarrant county, to determine whether or not saloons shall continue in the city of Fort Worth—all other precincts of that county being now dry. Evangelist Ham is the big gun in the ranks of the prohibitionists, while Rev. J. Frank Norris is lending all the lurid eloquence and grandstand stunts in his bag-o-tricks, to the upholding of the former's hands. Ham has succeeded in getting himself "assaulted and knocked down" by what the fanatic of a righteous cause in bad hands, terms a "brutal" sympathizer with the Antis, and refused to have the blood and dirt washed off his clothing before going to preach. Some of his supporters are inviting a crown of martyrdom for him by claiming it would be no surprise if his life should be ended by an "assassin's hand."

All this gives Brer' J. Frank a chance to disport himself in his natural element of hysteria and over-reaching zeal. Personally, we have little confidence in and respect for, this method and spirit of dealing with the liquor traffic. The time is past when opposition to whiskey was in the keeping of unsexed women, long haired, miffed men and pantaletted children. It has been removed from the realm and activities of fanatical emotion and taken under the wing of sound business methods. When inebriety and its results, express themselves in the pay envelope more distinctly than in temperance-peddling, drunkenness and the saloon have received a most potent check. The methods of Revs. Ham and Norris do not fit the conditions of a town like Fort Worth. Made up of a large proportion of railroad people and skilled mechanics, its citizenship must be shown; convinced by concrete lessons rather than by the assertions of mantic frenzy. Any results for good attained by the momentum of overwrought emotion must sustain the depressing effects of an inevitable undertow. The collapse has no artificial stimulus to sustain it, and indifference, if not disgust, is usually the aftermath.

RETRENCHMENT?

The Record has been notified by the Fort Worth Record and Dallas News that the exchange list is hereafter abrogated; that if the country newspapers expect to stay in business ever so short a space, they must pay the sum of \$7.50 per annum for these big metropolitan dailies, just like any other millionaire. This too, in face of the fact that all country newspapers to get either of the above dailies must run about \$10 worth of advertising every year, say nothing of the nearly 200 cash subscriptions the Colorado Record sends every year to the Dallas Semi-Weekly News.

The country press, more than any other extraneous cause, has been a powerful factor in building up the Dallas News and other daily state papers, by clubbing arrangements with them. The clubbing concession helps the country paper to collect its own subscriptions from the fact that the big city paper cuts off its subscription the very day the time paid for, expires—much like the foreign mail order houses, whose motto is, "we know your address only so long as you pay in advance." In the clubbing arrangements, it is the country weekly, not the city paper, that always must make the concessions. There is nothing in this accommodation to the country paper beyond a reminder to the subscriber that his time is out with the Colorado Record because the Dallas Semi-Weekly Farm News has stopped coming his way.

Note the different spirit of the city dailies and the Farm and Ranch, which suffers quite as much or more than the former from the price and scarcity of paper (and the Farm and Ranch uses the very best print paper money can buy). Asked by wire if the country papers should be cut off the exchange list, by his business manager, Frank Holland, president of the company, promptly replied, "Do not cut off ANY of the country newspapers. They have always been our friends, and I think too much of them and their help to cut them off the free list. No matter what anyone else may do, let them know that we think as much of them in hard times as in good times and appreciate what they have done for us. They have sent us thousands upon thousands of subscriptions; have met with us, and I want them to know I value their friendship highly." That's the spirit of Old Frank Holland of the Farm and Ranch, and his success has been phenomenal.

The Fort Worth Record ceased coming to this office on September 1. We wrote the Dallas News when sending in the last budget of subscriptions, that if the Colorado Record were compelled to subscribe for the News in order to get it after running a ten-dollar ad, we could hardly be expected to rustle

subscriptions to its Semi-Weekly. But the joke of the matter is the displayed statement by the News to the effect that the country papers are cut off—"Not to save money but to save PAPER." It appears from the same statement, that a number of big dailies have gone into a combine to cut down their consumption of print paper below the amount the paper trust is willing to allot them. One gang trying to cut the throat of another. Well, if so, then so be it.

The editor of the Record has taken a keen and almost proprietary interest in the new City National Bank building from the excavation of the first spade of earth to the placing of the cornice, assuming that the several large pieces of stone were for that decorating purpose. So it was, when we saw a metal cornice being put around the top of the beautiful building, we were reminded, much against our inclination, of the country beau who topped a seven dollar pair of shoes, silk socks and a sixty-dollar suit of clothes with a 35-cent wool hat. Of course the metal cornice will look just as brave and rich while its face is covered with stone colored paint, but the inventive genius of man has not yet been able to make a paint that will not eventually peel off metal. However, as the Record is not paying the bills, it has only an aesthetic kick coming. On with the mortar!

A threat from foreign governments that they will look to the United States to pay them \$400,000,000 as indemnity for loss of lives and property of their subjects in Mexico, because of its sponsorship for the Carranza government, sounds like one of Great Britain's bluffs and will hardly go so far as has the latter in the matter of mail and other seizures. It may give the Mexican end of the commission something to think about, but Uncle Sam will hardly be disturbed by it.—Austin American.

A few years ago—not more than three or four—the shipment of one car of hogs from any West Texas county, was announced in the local papers as something in the nature of an accidental success, achieved haphazard. Today, the county that does not send several cars of fat hogs to market every week, is suspected by its neighbors of still using confederate money as legal tender, while its good women are yet knitting socks for the soldier boys in the trenches at Vicksburg. Nor are hogs the only mortgage lifters of this section. Old Pied and the Dominecker hen are on the job 265 days in the year, not mentioning turkeys and other festive birds. In the midst of this orgy of prosperity, Mitchell county is a star performer. The Record is now compiling the number of hogs in this county and the number of cars shipped during the current year.

What The War Is Doing For The Farmer

The European war is not an unusual evil; nor yet is it an unshared blessing for this country. We shall not attempt to go into the ethical side of the question at all, nor shall we discuss "war brides", munition plants or other similar phases of the situation. We shall look at the war purely from the standpoint of prices for raw products, either produced here in this country or imported from foreign countries. And

GATHERING SUGAR CANE

SUGAR CANE GROWING

amongst them those that have not gone up in price in spite of the war.

For example, here is a peculiar situation in regard to a beverage which is so universally liked that it has become almost a staple. The name of that beverage is Coca-Cola.

Now Coca-Cola, as you know, is really an agricultural product—a product of the soil. Cane sugar—the very purest and finest—constitutes a large part of Coca-Cola syrup. As you know, sugar has gone way up—every glass of Coca-Cola you drink makes some farmer's heart gladder.

So it is with the pure fruit juices that, combined, produce the inimitable flavor of Coca-Cola. Not so much in quantity as when you consider—a single glass of this delicious beverage, but enormous when the entire Coca-Cola output is considered.

Yet this product of nature—the farm—increased in cost though it has been to the makers, has not been raised one penny in price to dealer—or to you. The price at the soda fountain and in the bottle has not risen one iota.

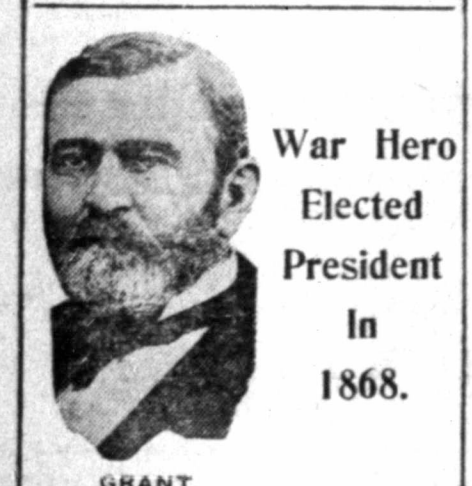

Now inasmuch as the rural population alone of America consumes millions of bottles and glasses of Coca-Cola every year, you and the other agriculturists of this country will not only be able to continue to please your palates and get delicious refreshment with this beverage at no increased cost, but you will be sending back to the farm bigger profits and more money at no greater expense to yourself.

ELECTING A PRESIDENT

GRANT.

WAR HERO Elected President In 1868. LINCOLN, having been assassinated, was succeeded in office by Andrew Johnson, who was vice president. The war had ended. Grant had returned a hero. The Republicans nominated the general, while the Democrats put forward Horatio Seymour of New York. The south, having been defeated, again participated in this election and supported Seymour. The election of 1872 was an exciting one. Horace Greeley, formerly a Republican, had disagreed with his party and ran on the Democratic ticket and the Liberal Republican ticket. Grant was again the Republican nominee. There were four other minor candidates. Grant received 3,597,070 votes and Greeley 2,834,079. (Watch for the election of Hayes in 1876 in our next issue.)

The withdrawal of the American troops from Mexican soil is one of the indispensable conditions upon which an amicable settlement can be achieved between the two countries, Louis Cabrera, Mexican minister of finance and a member of the joint commission, said.

The City Marshal of the town of Sweetwater, gave the "49 show" that was attached to the Van Syle carnival that recently edified this community, permission on its more recent visit to this city, to close the show once a day for 24 hours a day, and six days per week. If for one feature, why not for the whole aggregation? Lubbock has forbidden such amusements to hold forth within the city limits.

EDISON APPROVES WILSON. "Not since 1860 has any campaign made such a direct call on Simon pure Americanism. The times are too serious to talk or think in terms of republicanism or democracy. Real Americans must drop parties and get down to big fundamental principles. More than any other president in my memory, Woodrow Wilson has been faced by a succession of tremendous problems, any one of which decided the wrong way, would have had disastrous consequences. Wilson's decisions so far have not got us into any serious trouble, nor are they likely to. He has given us peace with honor."

DORT Full Cantilever Springs Full cantilever rear springs make the Dort the easiest riding car in its class. The Dort cantilever springs are full two inches wide, and extend 50 1/2 inches forward from the rear axle housing, where they are anchored by an ingenious arrangement, which allows them to move freely around the housing case. They are nearly one half the length of the entire 105-inch wheel-base of the Dort. No other car at anywhere near the Dort price affords springs of this length and quality. The proof is in the riding. ### DAUGHTERS OF THE KING.

Mrs. M. K. Jackson was hostess for the Daughters of the King last week. The devotional exercises were conducted by the class president, Mrs. Davis. She read and commented on the Sunday school lesson. The different committees made their reports. The social service committee made a plea for co-operation with the Parent-Teachers Association. It was decided to assess each member 25 cents for the China special work. The visitors responded as well as the members.

After the program an unusually interesting social hour was enjoyed by all. The hostess had the house made attractive with decorations of U. S. flags and conquest flags, with golden rods in profusion. She had prepared an acoustic on Rally Day. Each one was asked to make words from the letters in the words. Mrs. Annis proved the most skilled and was given a dainty picture of a child. The acoustic was:

Rally Day is coming,  
And the Master calleth thee,  
Like true Daughters of the King  
Let us pray and work and sing,  
Young and old to gather in,  
Do your best for Jesus,  
And your laobr He'll repay,  
Yours will be a song of triumph  
Rally Day.

A salad course with ice tea was served. Mesdames W. L. Doss, Doak, Barcroft and J. W. Person were guests. The next meeting is with Mrs. Van King.

### A SERMON TO WOMEN.

Sunday morning Rev. Mr. Doak preached a special missionary sermon on the women's work, by request of the district secretary to the Sweetwater district. As at this time the district is in the midst of its whirlwind campaign for new members. He read from the 16th chapter of Acts and from the 24th of Luke. Recounted the work in the home and foreign lands and paid a high tribute to women in their efforts to carry the gospel to every creature.

### OFF TO SCHOOL.

Colorado sends her share of students to the different schools this year.

Miss Alma and Mr. Harvey Phillips, Vance Phenix, Robert and Lettich Shepherd go to the State University.

W. Robert Smith Jr., Harry Ratliff, Herbert Arbutnot and Lucian Maddin go to Austin College.

Miss Lula, Mae Dulaney enters S. M. U.

Miss Ewell Gary to W. T. C. Misses Pauline Root and Lucille Henthorne to Kidd-Key.

Miss Winnie Crockett the Denton State Normal.

Misses Marion Adams and Madeline Looney, St. Mary's.

Lister Ratliff returned to Simmons. Miss Mary Roe, Reeves Coleman and Willie Doss go to Galveston to the medical department of the State University. Miss Roe and Mr. Coleman both enter the senior class, while Mr. Doss makes his debut.

Miss Frances Smith goes to Washington to a finishing and home economics school.

Miss Dorothy Smith returns to Hollins.

Cly Broadus will take a business course at Tyler and also do high school work there.

Miss Anna M. Curry goes to T. W. C. Miss Evander goes to Chevy Chase.

### EPISCOPAL CHURCH.

Services at All Saint's Episcopal church, next Sunday, as follows: Holy Communion, 7:30 a. m.; Morning Prayer 11:00 a. m.; Evening Prayer 8:00 p. m.; Sunday school 10 a. m.—G. C. Rafter, Rector.

### PRESBYTERIAN CHURCH.

Sabbath school at 9:45 a. m.—J. M. Thomas, Supt. We would like to see every member of the church at Sabbath school. See special advertisement in this paper.

Preaching at 11 o'clock. No preaching at night.

The pastor will begin a series of evangelistic services at Cuthbert Sunday afternoon to run through the week Young Peoples' Society at 7 p. m. All young people most cordially invited.

GUY B. DUFF, Pastor.  
Don't forget Billie Burk Monday matinee and night; also Mutt and Jeff cartoons.

### MISS LOONEY ENTERTAINS.

Miss Margaret Looney entertained with a six course dinner last Thursday complimentary to Misses Frances and Dorothy Smith, before they left for school.

The decorations were yellow and white. A picture show followed the dinner and afterwards dancing was enjoyed. The personnel of the party was Misses Frances and Dorothy Smith, Lois Prude, Margeret and Madeline Looney and Messrs G. B. Harness, Thomas R. Smith, Leftwich Shepherd and Earl Callaway. Mr. and Mrs. Marcus Snyder, Judge and Mrs. Looney and Mr. Etter of Sherman.

### DINNER PARTY.

Misses Lein and Irene Whipkey entertained with a dinner Friday, honoring Miss Dewy Hunt of Cuthbert, Ga., who has been the guest of her sister, Mrs. J. H. Guitar, this summer; and Miss Estelle Smith of Stephens, Ark., who will teach expression here again this year.

The decorations were red and white and the colors were carried out in the six courses.

The place cards were hand painted Harrison Fisher heads, ladies for the gentlemen and men for the ladies. The favors were red and white geraniums in buttonholes and corsage bouquets.

Covers were laid for Misses Dewy Hunt, Estelle Smith, Hazel McKenzie, Ruby Campbell, Lela and Irene Whipkey; Messrs Robert Shepherd, Lewis Majors, Harry Landers, Leftwich Shepherd, Wootton Jeffress and Lem Hunt of El Paso.

The party enjoyed a box party at the opera house after dinner and music and refreshments at home afterward.

### LAST PARTY BEFORE SCHOOL.

The younger set congregated at the home of Miss Daisy Adams for a farewell social evening before school opened. The time was spent in games enjoyable to that age, and in lamenting the fact that school was soon to begin.

### A PLEASANT EVENING.

The Younger set passed a pleasant evening with Miss Jewell Mitchell Friday. After many enjoyable games, partners were found for refreshments by the boys hunting for the names of girls hidden in various places. Chicken sandwiches and ice tea were served.

### VISITED CUTHBERT.

Saturday evening Mr. and Mrs. J. T. Davis, Mrs. Jackson and Mrs. Merritt went out to Cuthbert to an ice cream supper in the school house, for the purpose of raising money for a new parsonage at Westbrook. A splendid missionary program was given by the women of the missionary society. Mrs. Jackson made a speech, telling of the whirlwind campaign and explaining the work. She also invited the society to meet with the Colorado Auxiliary Sept. 28th, in an all day meeting at the church. Ice cream and cake were sold.

### MEETING AT CUTHBERT.

Rev. Guy B. Duff will begin a series of evangelistic services at Cuthbert next Sunday afternoon. The whole community is cordially invited to attend each and every service. The meeting will continue for a week or ten days. "Come with us and we will do thee good."

### WESTMINSTER LEAGUE.

### PROGRAM.

Baptist State-Wide Go-to-Sunday-School Day, Sept. 24.

The Baptists have all plans made for a record breaking Sunday school attendance next Sunday, and invite every stranger within the gates to meet with them. The pupils will go to their respective rooms to report and then all will assemble in the main building for the program. It will be as follows:

Song. Scripture in concert—Those on north side, Mark 1:14-20. Those on South side, Mark 1:35-39. Teachers and officers, Matt. 4:23-25.

Prayer. Thrice Welcome.—Richard Pearson. Song.—Jesus Loves Me—Beginners and Primary.

Praise Acrostic—Our State for Jesus—Primary Department.

Reading.—Praying and Giving—Leonora Ehrlich.

Song—Help Somebody Today. State Mission Facts.—Robert Shepherd.

Song.—Loyalty to Christ. Questions.—Supt. J. H. Greene.

### TEACHERS' MEETING.

The Christian Sunday school teachers held their meeting with Mrs. Burkhardt Tuesday evening with Mrs. C. T. Harness leader. On account of school, the time of meeting was changed from Tuesday to Friday evening. Mrs. Harness, Mrs. Pond and Mrs. Burkhardt were appointed to prepare programs. The next meeting will be with Mrs. Beckner, with Mrs. Leslie Crowder as leader. A delightful social hour followed the program. Homemade cake and punch were served.

### U. D. C. MEETING.

The U. D. C. Chapter met with Misses Dry Monday afternoon, with president Mrs. J. L. Shepherd presiding. After the business period a discussion on the Summer-Brooks controversy from the rights and wrongs of history, was led by Mrs. Dupree. A letter was read asking for a sketch of the life of the veterans here. This was turned over to Col. Mullin. At the social hour ice cream and macaroons were served, and the hostesses displayed their Southern hospitality by insisting on a second helping. The next meeting is with Mrs. Gustine.

### A UNIQUE PARTY.

Last week just on the full of the moon, Mrs. W. R. Smith and Mrs. P. C. Coleman conceived the idea of a picnic, strictly unique in every sense of the word.

A crowd of young people in search of a good time, was led out north of town in the shinnery. Just as the sun was departing and as the moon was making her appearance over the eastern horizon, they left their cars in the road and found their way over the wire fences and through the shinnery, until they reached a clean white sandy spot. There they paused to admire the wonderful scene, and fill their lungs with pure Texas ozone. Then cloths were spread on the sand and appetites were satisfied with all the good things that constitute a real picnic lunch.

### AID MEETING.

The Christian Aid Society met with Mrs. Ed Jones last week. After the study of Training for Service, the regular business was transacted. As usual they will have their Christmas Bazaar on the first Friday and Saturday in December. This will be held in the Colorado Mercantile building, where C. M. Adams now is. They are planning many nice things for it and hope their many friends will remember them.

Thomas Edison, the wizard of science and master of electricity, has only one diversion, which he indulges for one week annually. He selects a few intimates and goes fishing down on some lonesome creek. He is very strict about taking no other kind of tackle except bent pins, wrapping twine and birch poles. He doesn't believe in taking any unfair advantage of the fish. He doesn't even chew the good old regulation assafoetida and spit on his bait.

W. L. Doss has a big lot of wall paper—the best and cheaper grades, at most reasonable prices.

Widows of the late Yuan Shi Kai, about twenty in number, recently removed their belongings from the President's palace in Peking to his home at Changtehfu, in Southern China, where they intend to live permanently. It is said that thirty-five trains were required to transport the property.

### DEATH OF ROBERT M. WEBB.

Though his friends in Colorado had been apprised of his serious illness at his home in Fort Worth, and also that he had been taken to New York City for special treatment, news of the death of Robert M. Webb, at the latter place, last Saturday, was a shock to them all. Few men of no longer residence in a community, have made a greater impression upon its business, social and moral conditions, than did Robert Webb. His unusual industry, his civic pride and public spirit will long be remembered in Colorado.

Mr. Webb came to West Texas from New York state in the formative days of this section, primarily for the betterment of his health. He worked in the open for some time for his uncle, B. S. Van Tuyl, who was then in the

sheep and cattle business. He returned to New York and married, after which he came to Colorado and took over the electric light and power plant, adding soon afterward, the management of the Texas & Pacific Telephone Company and the Colorado Water Company, which positions he retained for about sixteen years, disposing of them in 1913, soon after which he removed to Fort Worth to engage in the life insurance business. About one year ago, he gave up the latter line of business to assume the duties of financial agent of the Broadway Baptist church of that city, in which work he was engaged when stricken with his final illness.

Aside from his active business life, Mr. Webb was devoted to his church, particularly to the work of the Sabbath School. Under his superintendency, one of the largest and most systematic and successful Sunday schools in West Texas, was built up in Colorado. His interest was not confined to the work in his own church, but he gave much of his time and experience to promoting the work in other denominations throughout the county, district and state.

One of the most enduring monuments in this town to Mr. Webb's devotion to his church and his ability to bring things to pass to the accomplishment of which he had set his heart and hand is the large and convenient Sunday school rooms annexed to the First Baptist church. He was told that it could not be done, but he acknowledged no such word in his lexicon of church work. Generous to the limit, he was always a friend in need.

Mr. Webb was about 51 years of age at the time of his death.

This writer shall always hold his memory in the most grateful remembrance for his refreshing visits and words of cheer while we lay helpless in a hospital. He was never too busy to run out for a brief visit on weekend and leave us a word of encouragement. We shall never forget him.

Mr. Webb was one of the best friends the Record ever had, not only as a patron, but with his kindly words of cheer and praise. He always worked hand-in-hand with the Record for a more beautiful, cleaner and better town, and encouraged the publishers with many kindly spoken words of praise.

The Sunday school, the church and a number of individuals, who were his warm personal friends, through all the years of his residence here had beautiful floral offerings sent.

His remains were taken to Poughkeepsie, N. Y., for interment.

To his wife and his relatives, the Record extends expressions of the profoundest sympathy.

Mrs. J. G. Merritt accompanied Mrs. Jameson of Loraine to Wastella Tuesday to organize a missionary society. The work was begun with seven members. Mrs. Merritt and Mrs. Jameson are under lasting obligations to these good people for their true hospitality, as they were received right royally in their homes, as well as encouraged in the work.

### SUNDAY SCHOOL ORGANIZED.

On last Sunday afternoon several members of the Baptist church accompanied Missionary Woods to Buford to assist in organizing a Sunday school. The house was well filled and a beautiful spirit of co-operation prevailed.

A union school was organized, and a committee composed of a member from each church was appointed to perfect the organization. Methodist literature will be used the first quarter and other literature will follow as they see fit. Mr. Keathley was unanimously chosen superintendent until they can get things to running and agree on one in their own community. This organization is a work in the right direction, as this is a progressive

community and their young people deserve to be educated on all lines. They have a splendid day school and we expect as much from their Sunday school.

A revival was begun last Sunday at the Mt. Zion (colored) Baptist church, by the pastor, Q. Burton. On next Tuesday, Rev. J. W. Bailey, national evangelist, employed by the white national board, will be here and join the pastor in the meeting. All their white friends are invited to attend and assist in these services, if only by their presence.

Don't be annoyed with scaly, itching skin when a few boxes will relieve you. We will give you money back if one box of Hunt's Cure doesn't give you relief.

**ITCHING SKIN DISEASE**

"I surely praise your Hunt's Cure for eczema. I suffered with eczema for ten years—the pains and itching were so great I thought lots of times I would rather die. I spent about \$1,000 for doctors' treatments and everything was no vain until I bought a box of Hunt's Cure and it entirely cured me. My skin is now as smooth as a baby's."

Rev. O. J. Hull filled his regular appointment in the Baptist pulpit Saturday and Sunday. At eleven o'clock Sunday he preached his farewell sermon to a full house. Some time since Bro. Hull was called to South side church in Abilene and as he felt that he could do a greater work there than here, he accepted. Bro. Hull has made many friends during his short stay here who regret to give him up and pray that God's blessings go with him.

work and we are delighted in the way in which they rendered their pieces. Mrs. Robinson has a great work mapped out for the fall and winter. Besides her church work some of her expressed wishes are—Placing a piano in the school; seating the auditorium with opera chairs, and repairing the auditorium in general. Her aim is to co-operate with the faculty so that their work will harmonize in a way that arouses a spirit in the school that will find expression in a number of ways. To do this she must have the hearty co-operation of patrons, teachers, friends and officers of the school. No doubt great good will result from this work.

Misses Jim Metcalf, LeRoy Gressett and Elmer Reed attended the singing convention at Coahoma Sunday.

Mr. and Mrs. A. R. Fowler and little son were visiting in Westbrook Monday and took part in the recital.

### EVER SALIVATED BY CALOMEL! HORRIBLE.

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate. Don't take calomel! It makes you

sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

### 25c MEN KILLED AND WOUNDED.

El Paso, Sept. 18.—Columns of government cavalry under Generals Ramirez and Marrera are pursuing Francisco Villa and his main bands, which attacked Chihuahua City Saturday, into the rugged Santa Clara canyon district, according to reports received today by General Gonzales in command at Juarez. Villa's forces in their attack on Chihuahua City numbered about 1,500 men and were opposed by a garrison in the city of 7,000. It is estimated that Villa lost 250 killed and wounded.

### DON'T LIKE CARNIVALS.

The Van Sickle Carnival Company has been traveling a rough road on the South Plains. The city authorities in Slaton shut down some of their attractions here, and Plainview refused to allow the carnival to unload there. Snyder also turned the nothing doing ear when the company checked in at that place. The next carnival that comes to the South Plains might just as well bill through without a stop-over. Slaton does not want any more carnivals.—Slaton Slatonite.

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill. ### BISHOP IS DENIED BOND.

Evans Was a Bachelor About Sixty Years of Age and Resided Near Royston. Was on Way to Angelo

Anson, Texas, Sept. 15.—Joe C. Randel, nominee for district attorney from this judicial district, who had just returned to his home at Hamlin, gave in substance the following as the facts developed in the murder of J. C. Evans at Longworth Thursday night.

Mr. Randel was in Roby at the time of the tragedy and on receipt of the news of the killing went to the scene and instituted an investigation.

W. P. Bishop, a young man, who claims Scurry county as his home, is held charged with committing the murder, and is in the jail at Roby and has been denied bail. Bishop was arrested at Sweetwater Thursday afternoon. He was dressed in a new suit. The clothes which he had formerly worn and his old shoes were taken in charge by the officers. The clothing and shoes had on them many blood spots. Bishop was in possession of a watch and papers identified as the property of Evans.

Evans was a bachelor about 60 years of age, living alone near Royston, where he owned a farm and was reputed to be well fixed financially. Bishop came to Fisher County several days ago and had been making his home with Evans. Evans, in company with Bishop, riding in Bishop's buggy, left Royston Wednesday for Sweetwater, where he intended to take a train to San Angelo for the purpose of having his eyes treated. The two men stopped at Roby where Evans drew some money at the bank. They arrived at Longworth about dark and camped just back of the hotel. The men ate supper at a restaurant that night, which was the last time Evans was seen alive.

About noon Thursday two young boys discovered a hole in a pasture a little more than a mile from Longworth, covered with new dirt. In digging into it with a stick they unearthed a human foot. They gave an alarm and the body which was taken out of the hole was identified as that of J. C. Evans.

The back of the head was split with an axe. The spinal column was cut in two just above the hips. The body was bent together and placed in a hole about the size of an ordinary wash pot, in a ravine. The trunk was covered with six or eight inches of loose dirt.

In the investigation the chain of circumstances indicate that Evans was knocked in the head while sleeping in his camp, the instrument being the sharp edge of an axe, and after the blow was dealt the body was hauled to a large shallow tank about 400 yards out of town. An apparent attempt was made to drag the body into water deep enough to conceal it, but the water had a depth of only 4 to 8 inches. The wire in the tank was very deep, prohibiting driving through it. When uncoiled the body of Evans was nude and a rope around his neck. Evans' clothes are still missing.

According to a statement by the restaurant proprietor where Bishop and Evans ate supper Thursday night, Bishop appeared for breakfast alone. When asked where the man was who ate supper with him the night before Bishop is alleged to have said he had taken the early morning train for San Angelo. The restaurant proprietor said that the man's clothing was bespattered with mud when he ate breakfast. He said Bishop explained that he had led his horse to the tank to water early in the morning and that the animal dug him in the mud.

An axe at the hotel where Evans and Bishop had camped was found to be stained with apparently fresh blood. Signs of an attempt to rub the blood off the axe were apparent. The handle here evidence of having been scraped with a sharp instrument with two gaps in it. A knife with two gaps in one blade was found on Bishop when arrested.

Three old buckets containing bloody grass and dirt were found immersed in the tank. The ground where Evans and Bishop camped was found to have been scraped over.

According to the evidence secured by Mr. Randel, Bishop on leaving Longworth Thursday morning drove to within 30 or 40 steps of where Evans' body was found buried, hitched his horse and went out into a field a short distance away and talked to a man about getting a job picking cotton. This man stated that Bishop, in returning to his buggy, walked to where he would have had a plain view of the grave.

Bishop then proceeded to Sweetwater where he was later arrested on a charge of committing the crime. The buggy driven by Bishop was blood stained, as was also some of the bed clothing found that had been in his possession.

Bishop denied emphatically that he had anything to do with the commis-

sion of the crime. He said that Evans had left the camp before daylight to catch a train for San Angelo. He explained that the blood on his clothing came from his horse's ear which had been injured.—Abilene Reporter of Sept. 16th.

### \$20,000 FIXED AS BAIL FOR WATSON BY JUDGE HARPER

#### Justice Overrules Motion of State That He Disqualify on Account of Bias.

Waco, Texas, Sept. 13.—Justice A. J. Harper of the court of criminal appeals admitted Watson to bail in the sum of \$20,000. Justice Harper overruled the motion of the State to disqualify himself from sitting on the case on account of bias and prejudice.

Justice Harper ruled that he would permit the wife of the defendant to give testimony as to what her husband said to her about the killing of Patterson, when he returned home a short while after the trouble had occurred. Justice Harper said this was done with the understanding that he might decide to take the record of the evidence back to Austin and invite the other judges of the court to assist in deciding the case.

"I shot at Mr. McKinnon and Mr. Patterson. They tried to shoot me. I was just pleading with him for three days more time, until my uncle came back from the hospital and we could adjust matters at the bank. He abused me and my boys and tried to shoot me, and I shot at them."

The above sensational testimony was given by Mrs. Watson. She said her husband came home terribly wrought up and excited after being down at the bank for about forty-five minutes, and after laying his pistol on the dresser made the above remarks to her. Mr. Watson, she said, remained at home until after breakfast the next day.

She testified that Mr. Watson had been in the habit of keeping his pistol in the dresser drawer. Mrs. Watson was unable to describe the kind of pistol it was, explaining that she was always so afraid of them that she did not know one kind of gun from another.

### SCHOOL GIRL AVIATRIX PREFERS OVERLAND CAR

Art Smith, the famous aviator who recently purchased an Overland Model 54-B, is not the only flyer who favors that line of automobiles.

In proof of this Winn & Payne, local Overland and Willys-Knight dealers, tells of a photo recently received from the Overland factory at Toledo, of Miss Ethelson, school girl aviatrix, which was taken during a recent exhibition at Edmonton, Alta., in Canada, where she became acquainted with the Overland cars, spending much of her time when not in the air, in one of these automobiles. Like Art Smith, Miss Stinson is also an expert on motors, as a bird man, or a bird lady in this instance, must be familiar with gasoline-driven motors. It was quite a compliment, therefore, to have Miss Stinson declare that she now understands why so many men were buying Overlands for their wives and daughters. "The car is so easy to operate," she said after one of her spins. "The electric control box and the other conveniences make it a real woman's motor car."

### PRESIDENT WILSON'S BUSINESS ABILITY.

President Wilson during the years of his administration has been placed in many trying positions and has had many important questions to decide, questions, on the correct settlement of which depended the welfare of the country. But perhaps none has given him the real work and worry as does the pending strike of railway employees and his efforts to avert that strike.

In his conferences with the representatives of the employees and the heads of the great railway companies involved in the threatened danger, a new phase of his character has developed. The republicans call him the "school teacher" and cite the fact that great students and educators are generally not practical in the commercial affairs of the world, but the president has fully satisfied the railway magnates that he is a business man and has presented the matter of avoidance of this strike before them in a thorough business-like manner. He has displayed no sentimental side of the subject, but has looked at it in purely a business way and so presented it to the men who are used to dealing with the biggest business questions that arise from day to day through-out every state.

Let the outcome in this case be what it may, let the merit of the issue be proven in favor of one side or the other, the fact will remain that President Wilson has the welfare of all the people at heart and is giving his best efforts to a settlement.

So many times has President Wilson expressed and proven his friendship and sympathy for the laboring interest of the country that the employees of the railroads have the faith

in him and are anxiously awaiting the outcome of his conferences with the real heads of the roads and these managers and presidents realizing the return of prosperity that has occurred under his wise administration can but have full confidence in his integrity and desire to not only avoid this strike but that he is looking at the question from their standpoint as well and does not want to see their business does not want to see their business. The outcome of the further conferences to follow this week will be looked forward to by the people of the whole United States with much interest but with a belief that the trouble will, by some means, be avoided. They, too, have full faith in the president.—Austin American.

## BUILD THE AUTO ROAD.

El Paso is heartily backing Judge Adrian Pool in his effort to establish an airline automobile road from Fort Worth to El Paso. It is one of the really big things that have been undertaken for the benefit of El Paso and deserves hearty support. The chamber of commerce yesterday endorsed the project and decided to send a delegation to the meeting to be held at Midland on Sept. 26 to plan for this highway.

Tourists have been going north out of Fort Worth and Dallas through Colorado and Utah, because of the poor roads between Fort Worth and El Paso. Judge Pool investigated and found that most of the tourists wanted to come this way, but were afraid to make an effort without better roads. He spent two weeks traversing the Texas and Pacific, meeting and talking the situation over with the authorities and leading business men between Fort Worth and El Paso. The result has been much enthusiasm and a call for a general meeting at Midland, Al. county judges between El Paso and Fort Worth have promised to attend; also the commissioners' courts and the chambers of commerce will be represented.

The road is fairly good east from Big Spring to Fort Worth, with the exception of some stretches of road in Eastland county, but west of Big Spring, a great deal of work must be done to make it satisfactory for automobile travel.

To put the road in shape and make this air line auto route passable all the year and keep it that way, will be one of the biggest things El Paso and western Texas could do for this section at the present time. Automobile traveling is becoming more general every year; it is healthful, more economical than rail road traveling and is growing in popularity. El Paso with its splendid advertising and its many attractions would be a Mecca for all such tourists if they could reach here easily. With a good road, hundreds of automobilists would visit here every week.

The towns between El Paso and Fort Worth would profit by these visits just as El Paso would profit. There would be money to spend for gasoline, tires, automobile repairs, food and lodging, and, not the least of all, there would be the actual contact of these visitors with the country and the advertisement they would give us on their return home from the first hand information gained on the trip.

El Paso and West Texas court acquaintance. The people who know us are our best friends and our best advertisers. It is those who have never visited us who give us our poorest advertising. We want the people to come and see; the result will be to our benefit. The automobile road is one of the best ways to get them.

Remember the date, Sept. 26, at Midland, Texas. The Colorado Chamber of Commerce is expected to send a good delegation, also our county judge is expected to be on hand.

### PERFECT CONFIDENCE.

Colorado People Have Good Reason For Complete Reliance

Do you know how—

To find relief from backache;  
To correct distressing urinary ills;  
To assist weak kidneys?

Your neighbors know the way—  
Have used Doan's Kidney Pills;  
Have proved their worth in many tests.

Here's Colorado testimony.

Mrs. C. M. Sparks, 511 Walnut St., Colorado, says: "I have used Doan's Kidney Pills off and on for the past couple of years and they have done me a lot of good. I used them for my back, which was weak and ached. The kidney secretions were irregular in passage, also. Every time I have used Doan's Kidney Pills, which I get at Doss' drug store, they have always relieved me. I believe they are the best of kidney medicines and gladly recommend them."  
Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Sparks had. Foster-Milburn Co., Props., Buffalo, N. Y. Adv

## WASTED WATER POWER WILL RUN RAILROADS

Trains of Future to Be Operated by Electricity.

Opinions expressed at the recent convention of the Railroad Master Mechanics in Atlantic City that the steam locomotive will be relegated to the scrap heap and all railroad trains will be operated by electricity in the comparatively near future are shared very generally by railroad men and engineers. Electrification of railroads has already made sufficient headway to demonstrate the desirability of its general adoption, and extensive equipment of many trunk lines for electric operation is being held back only until such time as cheap electric current, which in many sections must be water power, is made available by the passage of bills now before congress.

Fifteen years ago the late E. H. Harriman decided to operate the Central Pacific Railroad by electricity generated by water power. Engineers completed plans and told Mr. Harriman that by electrification of the Sierra Mountain division the road would save \$350,000 a year in coal bills and labor, but that the interest on the investment necessary to equip the division electrically and develop the water power would be about \$375,000 a year.

Last winter the Chicago, Milwaukee & St. Paul Railway began operating electrically a division of its line 112 miles long, crossing the Rocky Mountains in Montana and Nevada. Within a few months additional main line totaling 440 miles will be operated by electricity. On the 115 miles now in operation nine electric locomotives handle all the traffic, whereas twenty-four steam locomotives were formerly required to do the work. The electric engines pull heavier trains and make better time. The steam locomotives formerly averaged 114 miles in twenty-four hours. The electric trains make 200 miles a day. Less labor is employed and the repair bills are smaller. There are no cinders or smoke to annoy passengers. The electric engines do their own braking, the motors being converted into dynamos on the down grades, the train's momentum generating and putting back into the wires about fifty per cent. of the current used to pull the train uphill. Steam locomotives freeze up and lose power in cold weather. The colder the weather the better the electric engines work. It cost the Milwaukee road \$1,750,000 a year for coal to operate this mountain division with steam locomotives. Operated electrically, the power bill is about \$500,000 a year.

Harriman planned to build water power plants to generate electricity solely for the operation of the Central Pacific. The Milwaukee Railroad buys what power it needs from the Montana Power Company, which owns and operates several hydro-electric plants.

The Butte, Anaconda and Pacific Railway is operated by electricity at one-third the former cost of steam buying its current from a water power company.

As soon as Congress makes laws which guarantee the safety of investment in hydro-electric projects it is ascertained that many large water power

plants will be built in the South and West, which will supply current for operating a number of trunk line railroads by electricity.

Every engineer and railroad man knows and admits the wastefulness of using steam locomotives for hauling railway trains. There are in service on the railroads of the United States about 65,000 steam locomotives, with an aggregate capacity of between 50,000,000 and 60,000,000 horse power. These locomotives burn about 140,000,000 tons of coal and 30,000,000 barrels of oil annually. Their fuel bill amounts to something over a quarter of a billion dollars a year.

These locomotives actually use, on the average, only about one-fourth the power they are capable of generating. Probably two-thirds of the fuel they burn is wasted, in that it does not generate steam used to turn their wheels. To this economic waste must be added the loss of use of probably one-third of the rolling stock of all the railroads, now kept busy hauling fuel to be burned in the locomotives.

It is estimated that if all the railroads in the country were electrified and served by central stations all the traffic on all the lines could be operated with about 17,000,000 horse power of electrical current. More than three times this amount of power flows unused in the rivers and streams, a large proportion of which will be put to work for operating railroad trains, and for other useful purposes, as soon as Congress passes the kind of laws that will encourage water power development, instead of discouraging such enterprises as the present laws do.

Cheap power, and in large units, is vital to railway electrification. Some electrification has already been accomplished with current generated by steam plants. Where coal is cheap and the traffic is heavy this has been found economical.

Electrical engineers foresee the electrification of all the railroads in the country, to be brought about economically by tying up water power and steam plants into large generating and transmission systems.

There are wicked words and deeds and there are also meanly wicked words and deeds. The meanest kind of wickedness which we recall was during last week. A woman of comfortable and luxurious life said contemptuously of an excellent young girl, who was bravely making her way: "I have known her family for years. Our church helped them. They were on our charity list for a long time." Accepting for a moment the speaker's unchristian viewpoint, we credit her with the meanest act of wickedness which we have encountered in a long time.—Christian Register.

## DOES IT PAY TO BE SICK?

Let's forget about all the disagreeable and painful part of sickness, and ask ourselves if it PAYS to be sick.

Perhaps you are only HALF sick, maybe you are dragging yourself around with a "dead tired" feeling. Perhaps you wake up in the morning with a heavily-coated tongue, a bad taste in your mouth, and hardly any appetite. Quite likely you are bilious. Maybe you have dull aches and pains, CONSTIPATION, headaches.

You go about your daily duties. You tell yourself you will feel better to-morrow—but when to-morrow comes you feel just about the same. You try this and that remedy, without getting real relief. Or if you get some relief, it doesn't LAST! You soon feel just as bad as you did before.

DOES IT PAY to let yourself stay in this half-sick condition? Think of all the ENJOYMENT of life you are missing! You can't enjoy your food, or the society of your family and friends. You can't enjoy anything as you should, because your senses are dulled and your brain oppressed by the effects of a SLUGGISH LIVER.

Say, friend, does it PAY you to lug around that sluggish liver when you can promptly make it ACTIVE and so get rid of all those depressing, disagreeable symptoms—by letting

The nervous system is the alarm system of the human body.  
In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.  
To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutrient gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

## Business Notice!

I have bought the Hay, Grain and Storage business of W. W. Porter and respectfully solicit all his customers' trade together with other friends, who will find me supplied

At ALL TIMES with a Good Stock of  
**HAY AND GRAIN**  
Have plenty of storage room in connection.

## REMOVAL NOTICE

On the completion of the Earnest building and the removal of C. M. Adams, we will move to the quarters now occupied by C. M. Adams, where we will welcome all our customers and friends, with more room and greater convenience.

In the meantime we would call your attention to the fact that farm wagons are now to the fore. It is the most used farm accessory, and it behooves every farmer to have the best wagon made.

### The PEKIN and PETER SCHUTTLER Wagons

are the best wagons made—many of them having been in use 35 to 40 years and doing service today. The price is but little more than for an inferior wagon, while the service is three times as long and great.

## Good Bye Dirt!

Here Comes  
Richards'  
**Magic Washing Stick**

**RICHARDS' Magic Washing Stick**

is one of the most wonderful inventions of the age. It is absolutely unique. Never before has there been speed without harm. Never before have women had anything which REALLY made dirt disappear as quickly, as harmlessly, as EASILY as with this extraordinary dirt loosener. It does HOURS work in MINUTES. It positively will not fade colored clothes—shrink or harden woolen, and will not rot or weaken lace curtains so they tear easily, but keeps them STRONG besides absolutely clean.

3 Sticks for 25c—less than 2c a washing

Sold by all Druggists and Grocers everywhere. If yours doesn't handle it, show him this ad—he'll get it for you. Or send 2c in stamps to A. B. Richards Co., Sherman, Tex.

## WHY PAY AS MUCH

For an "Isaack's" suit or more from the average suit-ordering places, when Tom Hughes will furnish it made by one of the standard tailoring concerns of the United States, at prices that will surprise you. Fit, quality, style and perfect satisfaction assured, or no pay.

Of course Pressing, Cleaning and Repairing are still my main defense.
