So soon as the necessary blanks can be secured from the Houston tank, the actual benefits of this great measure will begin to accrue to the farmers of Mitchell county. The law provides for the organization of such association in every county; but if no association exists in the county where a farmer's land is situated, he can apply directly to the central state bank at Houston, which will handle his application.

Referring to the boards of directors and appraisers of the Mitchell county association, the Record believes a better selection in both cases could hardly be made, and particularly does this apply to the board of appraisers. All of them are practical farmers-attached to the glebe-who have been in this country long enough to become thoroughly acquainted with the potentialities and habits of the different classes of soil. They know the value of land based on its producing ability; they also know fairly well what certain kinds of land in the hands of certain kind of farmers will do under certain conditions.

The organization starts out under the most favorable conditions and with flattering promises of doing Cure. everything the federal government had in mind it would do if judiciously used.

A Kansas judge is quoted as saying that 50 per cent of all litigation is unnecessary and should be settled cut of court. The advantages of such a settlement, in time and money saved and in publicity avoided, are so apparent that it is to be hoped even the attorneys can be brought to see the wisdom of the course. In some instances they have been led to see it, and have even taken the initiative in naking an outside settlement possible, a fact which has not detracted from, but rather added to, their popularity and prestige.

Shake Off That Grip

When Spring comes, with its changeable weather and your exposure, it is best to clear away all the symptoms left after an attack of grip. That evil disease leaves you weakened, and when its victim attempts to "do his bit" he exposes himself to the risk of a second attack, for which he is less prepared, and which may have graver

There's Danger in Delay

April and May are pneumonia months. In this time a weakened system is a constant source of danger, for the pneumonia and grip infections are in the air, and after a long winter the body is so clogged with waste it cannot resist them. Fortify the health, remove the catarrh, and improve the digestion.

For Quick Relief

This reliable tonic is recommended to remove the waste from the body, counteract the catarrhal poisons and allay the inflammation that is catarrh, restore the regular appetite and tone up the entire system to resist disease. A well man is safe.

As a tonic after grip it has won many commendations, while its effectiveness in catarrhal conditions is unquestioned. Take no chances-Take Peruna Tablets are always ready to take. You may carry a box with you and ward off colds and chill. The liquid medicine in your

But the touchstone of his success is the FORD CAR. He received an even dozen of them last week, which were gobbled up as soon as unloaded. He is expecting another car this week; another is due on the 22nd and still another is contracted for on the 27th. And the attractive feature in all this is that every car is already spoken for. He has added to his Ford stock nearly \$2,500 worth of parts and every conceivable adjunct and accessory to automobiles. He now has lights for every brand of car made and can furnish as nearly anyline. His success with the Ford interests has been almost phenomenal. FROM The Colorado Bargain House

Lasts 13 Days

OUR SALE opened Saturday 9 minutes past 9 A. M., and brought many new customers in our store; and everyone took notice of our big stock we have on hand. This is a strenuous campaign, and is now on a footing to plant the seed that our store may grow to the largest store in Mitchell county. We have reduced the price on everything in the house for men, women and children, and guarantee every article that leaves the house-
