Joy Cometh In the Morning

An Easter Poem
By ADA MELVILLE SHAW

I buried my bulbs in the garden—
'Twas night of the year.
The sky was overshadowed with weeping;
The garden was drear.
I gave the brown bulbs to earth's keeping
And left them there somberly sleeping
Till day should appear.
The cold rain beat down on my garden.
Ah, pitiless rain!
My bulbs—would they perish ere waking,
My planting in vain!
The tempest swept on without breaking;
My faith for fair flowers was shaking.
I wept in my pain.
Gray dawn slowly crept o'er my garden;
I sought it with sighs.
Lo, there through the soft mold appearing,
Glad sight for sad eyes,
Green life to the daylight appearing!
O foolish heart, what of thy fearing,
Thy faithless surmise?
When springtime was warm in thy garden,
What splendor was there!
White chalices heavenward turning,
O royal cups fair!
Tall lilies, in golden hearts burning,
Beneath the glad sunbeams' fond yearning,
Their sweet incense rare.
Weep not o'er the tomb in thy garden,
(soul sore bereft!)
Though sorrow thy spirit is shaking,
Strong comfort is left.
The seals of the dread tomb are breaking:

Beneath their grim guard life is waking;
The darkness is left.

Eternity lighteth thy garden—
Look up, tear dimmed eyes!
Forget the lone night of thy weeping
In morn's sweet surprise.
Thy dear ones thou hast from their sleeping;
Death held them delayed in his keeping.
Lo, none but Death dies!

CAMPFIRE GIRLS OFFER AID.

Young Women to Assist Government in Every Possible Way.
More than 80,000 campfire girls throughout the country have offered their services to the country in getting ready for possible war.
The girls will be used in making surgical bandages, first aid, wigwagging, food distribution to troops and the making of hospital equipment. It is planned that the girls shall form groups who shall visit the workshops of the division at stated intervals for the performance of their duty.

A New German Super-Zeppelin.
If the Thurgauer Zeitung is to be credited, says the Scientific American, a new super-Zeppelin has recently been tried over Lake Constance. Observers on the Swiss shore report that the airship has four gondolas, under the foremost of which was suspended a small car, apparently intended to be lowered for observation purposes. It is stated that a definite armament is installed in chambers built in the sides of the envelope and that at the stern of the vessel was suspended an airplane which on being released flew away inland.

San Antonio, April 3.—General John J. Pershing announced today that the guardsmen called out in the southern department will proceed to their state mobilization camps immediately.

HOUSE APPROVES WAR RESOLUTION

Senator Lodge Urged Seizure of German Ships in United States.

Washington, April 4.—The House Foreign Affairs Committee today accepted the war resolution instead of its own and favorably reported the resolution for passage.

If it is not considered in the House today it will be made first business tomorrow.

Representative Shackelford, of Missouri, Democrat, and Representative Cooper, Republican, of Wisconsin, were the only members of the committee to vote against the resolution.

Senator Lodge, ranking Republican member of the Foreign Relations Committee, supporting the war resolution, declared that the United States should seize German merchant ships now in American ports, and use them to replace the ships which Germany has submarined.

Senator LaFollette, who yesterday forced the resolution over until today, was not in the Chamber when Sen. Hitchcock got unanimous consent to take it up.

In a brief statement Senator Hitchcock said the present time was "for action, not discussion."

Washington, April 4.—The senate tonight passed the resolution declaring that a state of war existed between the United States and Germany and authorizing President Wilson to take steps toward active participation in the conflict. The house is expected to pass the resolution tomorrow.

Berlin, April 3.—The press report of President Wilson's "state of war" message reached Berlin at 10 o'clock this morning. It is declared here that there would be no change in the German attitude even if Congress adopted President Wilson's views. Germany will not declare war nor take steps to wage war against the United States.

The submarine war will be continued as it has been conducted since Feb. 1, but this, declare the officials, is not directed more against the United States than any other neutral.

Washington, April 4.—War plans, military and economic and financial for aggressive hostilities against Germany were rushed forward today by the administrative branch of the government, and only await action by Congress on a war resolution to be put into execution.

Enactment of the resolution not later than Thursday was confidently forecast at the capitol after a delay of 24 hours had been caused in the Senate by Senator LaFollette's objection to its immediate consideration.

President Wilson and his Cabinet went over the war plans at a two-hour session and previously the National Defense Council, developed policies and details of momentous consequence to the nation. Meanwhile the War and Navy departments are going ahead with the more immediate preparations for defense.

Washington, April 3.—Universal compulsory military training legislation was launched in the Senate today when Senator Chamberlain introduced an amended bill providing for the training of about 500,000 men of 20 years of age and in the President's discretion many thousands more up to 25 years of age.

New York, April 4.—Two Mexicans whose identity has not been disclosed today were held by the Brooklyn federal authorities as spies after photographic films found in their possession were developed and proved to be excellent views of guns mounted at the new fortifications of this city.

President Wilson's message to Congress was a masterpiece of literature as well as of statesmanship. He asked congress to declare a state of war existing between this country and Germany and to pledge every resource of America to the upholding of the rights of American citizens and to the protection of the dignity of our flag. His recommendations as to help this country should extend to the Allies and the fullest co-operation with them, profiting by their two years and more experience in the field of actual warfare, shows the deep insight the man has into existing conditions.

PLAN AN AIR PATROL FROM EIGHT STATIONS

Dirigibles and Seaplanes at Each For Coast Work—Scout Boat Preparations.

A joint army and navy board is studying the Atlantic and gulf coasts preparatory to the establishment of eight aeronautic stations which, besides having two dirigibles and six or eight seaplanes each for aerial patrol work, probably will serve as bases for the new 110 foot coast scout boats, of which the navy will order more than 100 in a few days.

Sixteen dirigibles and a sufficient number of seaplanes already have been contracted for, and officers and men for the air service are being selected to be sent to the station at Pensacola, Fla., for training. A school dirigible for the station is about ready for delivery.

The eight stations will be distributed along the coasts to cover strategic areas to be determined by the board. Each will require six officers and forty men.

The only station site already definitely selected is that at Coco Solo, near Colon, canal zone, for which an appropriation of \$1,000,000 to establish a joint aviation and submarine base was asked of the last congress. The project is expected to go through at the coming special session. Funds for the other stations will also be sought at

that time, but the department has emergency appropriations sufficient to begin the work at once. The dirigibles are to be delivered within four months.

At present no stations for the Pacific coast are being prepared, although the chain of coast patrol bases will be extended along the entire coast line as rapidly as machines can be obtained and men trained.

The immediate plans require in the next four months the training in handling dirigibles of fifty officers and 850 men at Pensacola. Crews for the seaplanes are already under training, but their number will have to be increased largely without delay.

In providing boats to aid in the task of guarding the coasts navy experts would prefer a standard type 130 foot steel boat for patrol and submarine chasing work, but in the interest of speedy construction have determined on 110 footers with wooden hulls, so that builders of wooden boats can share in the work. Orders will be placed later for some small submarine chasers ranging from fifty to eighty-five feet in length.

Abilene, April 3.—Two attempts to blow up the Texas and Pacific bridge here were made under cover of darkness early this morning. Guards fired on three men who escaped. No trace of them has been found.

Just run over to Westbrook and learn more of the Westbrook Poultry Co.'s doings. Stop and see J. T. Wyandottes, the prettiest pen in Westbrook. Then call on R. M. Rembert and he would miss a train to get to tell you of his prize winning black Minorcas. Then Ellis Donaldson has both the Rhode Island Reds and Rhode Island Whites, and he thinks that he has the only birds. Then C. W. Crawford has as fine lot of S. C. White Leghorns as any one could wish to see. Bro. A. D. Leach would miss a sermon that he had worked on for a week, to get to tell you of the good points of his Buff Orpingtons. Manuel Berry is trying hard to boost a swell pen of Barred Rocks. Mr. Graham thinks that he has the best flock of Indian Games to be found anywhere. There are still other flocks of pure bred poultry that could be mentioned but enough for the present time.

Now, what I want was to say that Mitchell County has a large number raising pure bred poultry. Why not get together and form a Mitchell County Poultry Association, and have a fine show next fall. Everybody will enjoy it, and it will be profitable and a great pleasure to those who fancy pure bred poultry. Yes, we say profitable. As a demonstration, we will use Westbrook Poultry Club, which was organized last year, and most of the pens consisted of one cock and four pullets the first season. Mrs. Dr. Butler has sold \$16 worth of eggs; R. M. Rembert \$8; Bro. Leach \$6; Mr. Graham \$2; and get more orders than he could supply during this season.

The high cost of living is forcing some of us to study methods of economizing and to turn to the homely virtue of thrift. Emmett Hamilton, who has a large flock of Rhode Island Peds, sold since the first of February, \$48 worth of eggs; and Mrs. J. E. Lasseter has sold from her flock of Rhode Island Reds, since the 24th of January, \$45 worth of eggs. There are others who have done equally as well.

Mr. Editor, don't you think that it is worth while to raise chickens? We would like to have your opinion on the organization of a Mitchell County Poultry Association. Also we would like to hear from the "Sage of Teville," whom we know to be interested in thoroughbred poultry. And Eli, what stand are you going to take?

CALOMEL DYNAMITES

A SLUGGISH LIVER. Crashes into sour bile, Making You Sick and You Lose a Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious headache, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tonic which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless pleasant and safe to give to children they like it.

UNION ITEMS.

As I haven't seen nor heard anything from you since the last time, except through the columns of the Record (one of the best weekly papers published), I decided to give you a short scribbling myself.

The weather continues dry. Some of our people seem to be getting somewhat discouraged about rain, but why so the farming class? Eli thinks they are far in advance of what they were this time last year; because our land is better prepared for planting, consequently it is holding moisture better.

Let us all pick up new courage and be ready to face the storm when it comes; arrange for diversification in crops, and don't forget to (read the Record) and plant cane patches, and make our own syrup. Somebody in every locality can get a cane mill and operate it as a paying investment.

Some of our people went over to Shepherd school house last Sunday in order that we might be represented, especially at the dinner table. They report a good time; and said they got to see the president.

If you care to have a pretty lawn phone us for hose and we will deliver same promptly.—H. L. Hutchinson & Co.

AN APPRECIATED PUBLIC SERVICE

Manager Chas. Taylor, of the opera house is always on the qui vive for something to amuse, instruct or entertain his patrons and he holds that the best is none too good, and that the public will meet any efforts to give it clean, wholesome entertainment more than half way. The history of the very highest movie productions that Mr. Taylor has brought to Colorado, is proof of this statement, and he will announce soon some agreeable surprises for lovers of high class pictures, for later on in the summer.

His conception of the idea of having the local merchants pay for the film service for his Saturday matinees, giving complimentary tickets to their out of town customers and friends, was no sooner born in Mr. Taylor's brain than it was executed. The merchants took to the idea readily, and he soon secured enough from those he first solicited to pay for the film service. Now, after the success of the proposition is assured, he is besieged with solicitations to be allowed to subscribe.

The service is for out of town people exclusively, and the complimentary tickets are not honored at the night shows. This affords a pleasant and acceptable diversion for people who have come to town to trade and cannot stay for the night shows. They can get tickets from any of the subscribing firms—as many as they wish—and see the show in the afternoon before going home.

The scheme has proven a great success. It stimulates the business of the movie show; it gives free entertainment to the people who come to Colorado to trade, and it is a publicity factor for the firm giving the tickets. When the recent issue of tickets has been exhausted, doubtless Manager Taylor will issue another series giving other business firms an opportunity to share in the benefits which did not come in on the first series.

INSOMNIA.

Indigestion nearly always disturbs the sleep more or less, and is often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also take one of Chamberlain's Tablets immediately after supper, and see if you do not rest much better. Obtainable everywhere. Adv

110,000 CARS BEHIND.

Detroit, March 26.—The Ford Motor Co., is 110,000 cars behind its present orders. The company plans the production of the Ford truck sometime in the near future but since it is unable now to produce Ford cars in equal quantities with the demand has put the truck problem to one side temporarily. The company is erecting another plant to augment the present one and probably will be able to meet the demand for its product when this is completed.

A. J. Herrington says if you want a Ford better put in your order and get your car when you can. The dealer who has orders for cars can get them and without orders no cars will be sent. Put in your order now.

CARD OF THANKS.

We thank the people of Spade and joining neighborhoods, and also of Colorado, for their kindness and help which was extended to us in replacing our house and contents, which were destroyed by fire March 25th. May the good Lord bless each and every one of them.

MR. and MRS. R. J. RATLIFF.

GIRLS! HAVE A MASS

OF BEAUTIFUL HAIR SOFT, GLOSSY, WAVY

25-cent Bottle Destroys Dandruff and Doubles Beauty of Your Hair.

Within ten minutes after an application of Danedrine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danedrine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and coarse; just moisten a cloth with Danedrine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25-cent bottle of Knowlton's Danedrine from any drug store or toilet counter; and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danedrine. BUFORD LOCAL FARMERS' INSTITUTE.

The Buford Local Farmers' Institute will meet at the Buford school house, Friday night, April 13th. All interested are urged to come. I have on hand some valuable books from the state department at Austin, for free distribution to each family of the membership. Thos. W. Fields.

Mr. George W. Waddell, accompanied the remains of his son here last Friday morning for burial. This was the fourth visit Mr. Waddell has made to Colorado since his removal

from the county—each time to bring for sepulture at his old home, the sacred dust of some loved one. Mr. Waddell was one of the very first settlers of Mitchell county, having management of the big Estes cattle interests on the Champion, and known as the Champion Cattle Company. Mr. Waddell and his brother, W. N. Waddell, were no small factors in the cattle business of West Texas in its palmiest days. Mr. Waddell now makes his home at Edinburg, Hidalgo county, just 16 miles from the Rio Grande river. He met many friends of lang syne, when here last week.

JITNEY OF SEAS TO DEFEY U-BOATS

Motor Ship of 1,000 Tons to Be Built of Wood.

How to beat the submarine? That is the question which now confronts the shipping world. The destruction of U boats is a naval problem, to be dealt with so far as possible by naval forces, but naval measures are either unable to cope with the situation or are inadequate to meet the emergency, and it is necessary for shipping men to consider how commerce may be continued in spite of the menace.

The answer as conceived by F. Huntington Clark, mining engineer, of New York is that the only way to overcome the U boat is to defeat its object. Germany is now sinking tonnage faster than all the marine yards of the world can build it. This is the conclusion to be drawn from the February reports, say those who have studied the question.

The Clark plan is to build a new type of ship, one which can evade the submarine. "The American motor ship" is the name suggested. It would be a vessel of 1,000 tons burden, extraordinarily fleet and agile, for the answer to the submarine, says Mr. Clark, "is in a quick helm." The craft would be constructed of wood, fir from the Pacific northwest and Texas hard pine. When construction on a large scale once got under way the pieces could be saved at the mills and sent to the shipyards to be put together "like a cheap auto." While it might take six months to build the first vessel, in this way they could be turned out in four months thereafter.

Can Build Many "Sea Jitneys." Modern shipyards that are capable of turning out these "jitneys" exist already on the Pacific coast and in the Beaumont district in Texas, and their present capacity is 250,000 tons a year, easily enlarged.

The cost would be relatively small. A million tons, it is estimated, could be built for \$100,000,000, which is equal to one-half of one day's expenditure for the war. Crews would be small and marine insurance cheap.

The one difficulty in construction would be in duplicating the marine Diesel engine, which has made the German submarine a possibility, but it is believed that this could be surmounted by American skill and inventiveness.

The principle of these small freight carriers would be to divide up cargoes into thousand ton units. At the present time a U boat may bag a 20,000 or 30,000 ton cargo at one stroke. Under the contemplated plan the submersible would destroy only a thousand tons with each shot.

If the average U boat leaves port with fifteen torpedoes and makes the high average of 50 per cent of hits—an especially high average against a swerving, dodging mark—a total of freight it could send to the bottom would be between 7,000 and 8,000 tons. In comparison a U boat which has sunk one 30,000 ton ship may now have fourteen torpedoes left with which to pile up a total conceivably of 100,000 tons.

But this is not the only point at which the effectiveness of the U boat would be reduced. The motor ship would be essentially one of low visibility. A steamship with its column of smoke can at present be sighted at a distance of about thirty-five miles.

Invisible at Ten Miles. The motor vessel, on the other hand—not only because it is small, but because it has no pillar of smoke—could not be sighted beyond the curvature of the earth, or, to make a liberal estimate, ten miles.

Now, the submarine, lying in wait at any given station for a steamship and spotting her thirty-five miles away, would be able to move perhaps twenty-five miles toward the vessel's course to place itself immediately in front of her before she came up. On the other side of its station it would have the same margin. This gives one submarine, therefore, a patrolling radius of fifty miles.

But with a craft that the U boat could sight only ten miles away it is probable that it could not move more than seven miles, or the altitude of a right angled triangle, before crossing her path. This would give the submarine a patrolling radius of only four ten miles, or a net loss of thirty-six. As a result it would take more than three times as many submarines to establish a tight blockade.

One of the chief objections on the part of shipping men to undertaking this venture, it is believed, is the hope that the U boat war will soon be ended and they do not wish to undertake such a formidable expense and revolutionary expedient if it turns out that normal conditions on the sea can soon be resumed.

Administration of West Indies. Whether the United States army or navy shall administer the affairs of the newly acquired Danish West Indies is a question now up for administration consideration.

WHY CONSTIPATION INJURES.

The bowels are the natural sewerage system of the body. When they become obstructed by constipation a part of the poisonous matter which they should carry off is absorbed into the system, making you feel dull and stupid, and interfering with the digestion and assimilation of food. FOR MALARIA.

Why everybody should take McCroskey's Tonic: It acts on the liver, kidneys, stomach, blood and spleen, and removes all forms of malaria. I have tried it for twenty-one years in the Mississippi and Arkansas River bottoms for chills and fever, and by taking a course of purgative medicine and then following with McCroskey's Tonic, I do not care if you are so full of malaria that you are all bloated and yellow as a pumpkin and green around the mouth and eyes, it will take out the bloat, clear the skin, and build you up. McCroskey's Tonic will reduce the spleen when everything else fails, and breaks the chills when calomel and quinine will not touch it. It is sold in Colorado by W. L. Doss. Adv 4-27

COUNTRY ABOVE PARTY.

"We are being forged into a new unity amid the fires that now blaze throughout the world," said the President in his inaugural address.

"In their ardent heat, we shall, in God's division, purified of the errant humors of party and of private interest, and shall stand forth in the days to come with a new dignity of national pride and spirit.

"The thing I shall count upon, the thing without which neither counsel, nor action will avail, is the unity of America—an America united in feeling, in purpose and in its vision of duty, of opportunity and of service.

"I pray God I may be given the wisdom and the prudence to do my duty in the true spirit of this great people."

The President has seen the vision of the true spirit of the American people; will he have "the wisdom and the prudence" to make that vision a reality?

The immediate appointment of an advisory council of the ablest men of America, regardless of party alignments, will achieve that "new unity" of action which is so vital in these critical moments of the nation's history.

Thus will America, profiting by the lessons Europe has learned after fearful loss, bring to the helm her most skilled and efficient pilots. Such men will inspire this country with the utmost confidence and in event of hostilities will avert the muddling which otherwise must cost us thousands of our best and bravest.

The President is an authority on the history of our country. He knows well the bitter stories of incompetency that previous crises have uncovered. He knows the doubts and disappointments that have chilled even the most patriotic citizens. It is for him to profit by this knowledge.

This country today is the mightiest potential force on earth. If outside forces goad it into action, are those most fitted for the work to direct its vast energies, or are its blood and treasures to be poured out vainly until our bitter experience has called leaders to leadership?

Your country is behind you, Mr. President. Give it the strongest and the best as guides.—Leslie's.

ROADS TO SEEK HIGHER RATES.

Eight Hour Day Will Cost Railways \$50,000,000 a Year.

The agreement under which the railroad managers and the four brotherhood chiefs called off the threatened general strike will cost the railroad companies about \$50,000,000 a year. This was the estimate made by the conference committee of the railroads.

The railroad heads will ask the interstate commerce commission for the privilege of raising rates to meet the added expense.

The agreement, following the lines of the Adamson law, grants the 400,000 members of the brotherhoods the eight hour day with pay at the present rate for ten hours. Overtime will be paid for at the same rate per hour. The brotherhood chiefs in effecting the final compromise withdrew their demand for pay at the rate of time and a half for overtime.

The order also will apply to men employed in the switching yards, who recently were granted a nine hour day with ten hours' pay by arbitration.

In the passenger service the present mileage rate of pay will be retained.

Franklin K. Lane, secretary of the interior and head of the president's mediation committee, expressed the belief the railroads would be entitled to some increase in rates.

Supreme Court Causes Debate.

Immediately after the agreement was signed the announcement that the United States supreme court had upheld the Adamson law by a vote of 5 to 4 reached the federal mediators, the railroads' committee and the brotherhood chiefs. The decision caused spirited discussion among labor leaders because of the clause which denies the right to strike of railroad men, holding they are in the public service.

W. G. Lee, president of the Railway Trainmen, said: "I would hate to undertake, in the face of the decision just handed down, to question or interpret the action of the supreme court. If we are government employees or public employees, all right. But I don't believe we are."

"As to the ruling that we have no right to strike without submitting our demands to investigation, we'll interpret it for ourselves when we reach the occasion."

The final appeal to the railroad representatives, which resulted in the agreement, was made by Secretary Lane on the ground of patriotism. He declared the welfare of the country in the existing international crisis would be imperiled by a railroad strike.

At the successful conclusion of the hearings Secretary Lane expressed approval of the railroad heads for their action in relieving the government from embarrassment in the existing crisis.

"This is a magnificent thing you have done for the country," he said. "It will go down in history as one of the greatest things you ever did."

W. G. Lee said: "We are as good patriots as they are. We can climb down that same ladder. Nearly 400,000 men have won the eight hour day without sacrificing a cent of their money for it. We are now in a position to go back to our men with the greatest thing ever put over for labor."

W. S. Carter, president of the Brotherhood of Locomotive Firemen and Engineers, excused himself after signing the agreement. "Gentlemen," he said, "I received a message from my home in St. Louis that my oldest daughter is dying. I knew it was no time for me to leave, so I did not mention it then. You do not need me now."

CITIZENS' MILITARY TRAINING CAMP.

A recruiting office has been opened in the Chamber of Commerce at Dallas for the enrollment of Citizens for the Military Training camp to be held at Dallas June 16th, to July 15.

As fast as they can be completed anti-air craft guns, such as this one on the U. S. battleship Pennsylvania, will be put on all our dreadnaughts.

LONGFELLOW LOCALS The people of our community have witnessed this week one of the biggest sand storms since seven years back; but we are still in hopes that it will bring us rain. The general health of this community is good and we have lots of things to be thankful for. Our school has been a success, and there will be only two more weeks. Our people will meet Saturday to vote on our new school house at Longfellow. We are expecting to build a more comfortable building than we have, and can't get it before we need it. The singing at Shepherd Sunday was a great success. Lots of people and good singing, with plenty of dinner. What community can beat Shepherd feeding the people? Mr. J. L. Buckalew and cousin, were visiting Mr. and Mrs. F. L. Buckalew last Friday and Saturday. Mr. and Mrs. C. E. Jenkins and baby, were pleasant visitors of Mrs. S. E. Williams the later part of last week. On last Tuesday evening, at the home of Mrs. S. E. Williams, a small bunch was entertained by Miss Mae Williams. The crowd came together at an early hour, and were engaged in all kinds of funny games. This was given in honor of Miss Mae's birthday, and she did everything she could to show the guests a good time. Refreshments of lemonade and cake were served. The party was enjoyed by everyone, wishes for Miss Mae many such happy events. Miss Mattie Adcock of Roscoe spent the week end with her sister, Miss Ira Dee. She returned Sunday to Sweetwater where she is in school. Mr. John Williams of Abilene is visiting relatives here this week. The baseball game last Friday between Shepherd and Longfellow resulted in a victory for Longfellow. The score was 2 to 8. Miss Ruth Pickens was the guest of Mr. and Mrs. Judson Felts last week. The people of Longfellow are anxious to see a rain so that they can get busy and destroy the prairie dogs and jack rabbits. They are a great drawback, and unless we get rid of some of these pests our crops will be eaten up by them. Next Saturday, April 7, is trustee election. Every body should come out and vote. All the trustees except one, has resigned, and there are three to be elected. Come and vote. Mr. Bedford was visiting the homes of the people last week taking the scholastic census.

GREAT ADVANCEMENT IN WORK OF Y. M. C. A.

Texas Associations Have Given Much Help to High Schools Boys of the State. Plans are being perfected for a large extension of the work of the Young Men's Christian Association throughout the State. During the last few years, there has been increased interest in this special work for young men and boys. During the last two years, a most remarkable piece of work has been projected by the State Committee among the 20,000 High School boys of the state. Mr. J. L. Hunter, with peculiar fitness for this department of the work, gives his whole attention to work among boys, touching the cities where Associations are organized and helping the Boys' Department Secretaries in their work; but, it is said, that most of Mr. Hunter's attention is given to service among the boys in the communities that do not now or are not likely to have, Young Men's Christian Associations. To more effectively reach the boys of the small towns, the press reports indicate that at last State Convention, held in Marlin, the State Committee is considering projecting a work in the remote country districts through what is known as the County Work Department of the Young Men's Christian Association. We are informed that several communities are considering conducting campaigns for Young Men's Christian Association buildings and that this work of increasing the number of home-like buildings for the multitude of young men who are constantly moving to the large centers, is to receive more attention from the officers of the State Committee. In keeping with the spirit of the times, State-wide Efficiency Week is to be conducted in Texas, March 19 to 24. During this week, it's expected that not less than seventy-five to one hundred towns will be visited by some Association leader and the State Secretary, Mr. L. A. Coulter, with headquarters in Dallas, informs us that Mr. G. B. Bilheimer, the Field Secretary of the International Committee, will be present during the whole week and lend his assistance and leadership to making the week successful.

Advertisement for Willys-Overland Motor Cars. The Car That Built Overland. Big Four \$850, Light Six \$985. Prices Effective April 1st 1917. The Overland Big Four continues the famous 35 horsepower Overland which made this institution the second largest automobile concern in the world—in eight years. It is the same comfortable, roomy, powerful, rugged car that for years has outsold all cars which now sell for more than \$400. Its brand new body design makes it more attractive than ever. The wheelbase is 112 inches and it has long 48 inch cantilever rear springs. We believe it is the most comfortable, the easiest riding car to be had for the price—\$850. It is as clearly as ever the excess value car of its class. And the Overland Light Six is likewise the excess value car of its kind. Most of the body and chassis parts of the Light Six are the same as those of the Big Four. So the Six shares directly in the economies of the combined production of fours and sixes. These cars exemplify with great clearness the excess values made possible through the economies effected by our huge production of the most comprehensive line of cars ever built by any one producer. Ask us to show you the Big Four and the Light Six. Winn & Payne Local Dealers Phone 334. The Willys-Overland Company, Toledo, Ohio. WHAT IS LAX-FOS LAX-FOS IS AN IMPROVED CASCARA A DIGESTIVE LAXATIVE CATHARTIC AND LIVER TONIC LAX-FOS is not a Secret or Patent Medicine but is composed of the following old-fashioned roots and herbs: CASCARA BARK BLUE FLAG ROOT RHUBARB ROOT BLACK ROOT MAY APPLE ROOT SENNA LEAVES AND PEPPIN In Lax-Fos the CASCARA is improved by the addition of these digestive ingredients making it better than ordinary CASCARA, and thus the combination acts not only as a stimulating laxative and cathartic but also as a digestive and liver tonic. Syrup laxatives are weak, but LAX-FOS combines strength with palatable, aromatic taste and does not gripe or disturb the stomach. One bottle will prove LAX-FOS is invaluable for Constipation, Indigestion or Torpid Liver. Price 50c.

SAFE MEDICINE FOR CHILDREN "Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effectual in relieving coughs, colds and croup. Obtainable everywhere. Evacuating Noyon, the enemy carried off by force fifty girls from fifteen to twenty-five years of age.—Official French bulletin.
"Military necessity," of course.

"We are now," says the German War Office account, "getting the enemy out of their trenches." The enemy is quite willing—on the side of the trenches facing away from Paris.

In response to those who ask what the United States can throw into the scales of war in case of need, let us mention sailors, soldiers, ships, specie, solvency, sympathy and probably some civilization.

There are evidently more serious things doing down in Mexico than the rank and file of us know of. We have all along apprehended more trouble from that quarter than from any long range hostilities with our German neighbors, 4000 miles away.

Last year—1916, a protracted drouth was broken on March 31st. There was practically no more rain till the 12th day of October, when a fairly good rain fell from Abilene to El Paso. This was followed by another and heavier rain on October 14th, which was the last season-giving rain this section has had.

Every line of business is feeling the uplift in the prices of raw material. The price of dice has more than doubled. Grief will envelop those deft-handed gentry who in secluded places roll the bones to grunt and snap of fingers—"seven-come 'leven!" Plain dice now command 25c the pair; fancy varieties \$1 to 2c, while the loaded kind of gems have risen out of proportion.

Wimjaybrian, the Great Commoner himself and High Priest of Peace Propaganda, will preach the commencement sermon for the 1917 graduating class of Simmons College at Abilene, on the morning of May 31, at the First Baptist church in that city. The Record doubts if as many or even the same Colorado citizens will go to hear him on this occasion as did when he lectured at Big Spring a few years ago and collected one iron man per each.

It seems almost impossible for any important law to be enacted at Austin without a "joker" somewhere in it. Although we believe Governor Ferguson will veto the "bone dry" law, it nevertheless contains a fatal error. The amendment to the measure which would cut out the privilege of taking as much as half a gallon of liquor into dry territory for personal use, was left out of the bill, through someone's blunder, as finally passed. A very serious error also occurred in the bill appropriating \$2,000,000 in support of rural schools.

In the course of a discussion of one aspect of slavery last week, a friend hardly credited our statement that the institution of slavery in America was set up by our New England friends. A history was not handy at the time, but we quote for his benefit a few lines as we find them in the history of our country by no less an authority than our president: "In 1741 the community (New York City) was panic-stricken by the reported discovery of a plot among the slaves, instigated by renegade whites to burn the town and murder the white population. A number of both whites and negroes were tried, condemned and executed, fourteen of the latter being burned alive." The good Yankees not only had the institution of slavery, but coped with its rebellious moods with methods that would have done credit to Henry Morgan, buccaneer extraordinary.

STATE SOCIAL EXPENSES.

The celebrated "chicken salad and punch" case has been settled at last. The supreme court last week overruled a motion for a new hearing. This action of the superior court consigns to the limbo of forgotten and regrettable things, this economic pimple upon the constitution of the great commonwealth of Texas. With an average campaign cost of from fifteen to twenty thousand dollars and a salary of only \$4,000 "and no more," a governor of Texas must be a "certain rich man" in his own right, the tool of expectant friends, an overt grafter or the victim of criminal ambition, who expects to play even with the game. We doubt if the governor of the great state of New York has more social exactions or is called upon to travel more miles over his state, than the governor of the state of Texas. Yet the governor of New York has a salary of several times as much as the governor of Texas, supplemented by generous allowances for travel and upkeep of the social amenities.

Pertinent to the lack of revenue to meet these social duties, we recall a story told us some years ago by Col. Middleton, then living at Ennis, Texas. The story was told to him by General Samuel Houston himself, who lived neighbor to Col. Middleton many years at Huntsville:

The French nation under Louis Philippe was one of the first to recognize the new republic of Texas, and sent a duly accredited minister, of whose arrival and intended official visit, President Houston was notified only one day in advance. There was not a dollar in the State treasury and the farder of the new president itself was like Mother Hubbard's cupboard. But something had to be done to uphold the dignity of the new republic and make a favorable impression upon the French minister, who was in his own right, quite a wealthy man and a good liver at home.

The negro cook of General Houston was appealed to, who of his own means provided the price of a home-cured ham as the piece-de-resistance of the official spread.

At that time, the sum of \$4,000 without any extra allowances, had been amply withdrawn to provide for the presidential establishment, also had been a good horse and saddle for the presidential transportation over his vast domain. But times change mightily, and expenses change with them, still more mightily.

A great deal of high-priced white paper and ink are being used by alleged expert writers in advertising the inefficiency of this country's naval preparedness, and forecasting results in case of actual warfare. We recall the same condition at the outbreak of the Spanish-American war. Admiral Mahan, head of the naval board gave out a grave statement that the two torpedo boats that were alleged to be waiting off the coast of Brazil to sink the Oregon on its flying trip to Atlantic waters around the Horn, were almost a match for the entire American navy in themselves. But in actual test at the battle of Santiago, the Gloucester, which was the converted pleasure yacht of J. P. Morgan, under command of Lieut. Wright, met and sank both these "dreaded monsters" single handed, and within fifteen minutes after the first shot. The Gloucester did more effective work in that July 4th battle, than any of the battleships of Sampson's squadron. Theoretical fighting is a science that doesn't always pan out in actual conflict, where conditions arise instead of being made to order.

The policy of watchful and patient waiting has been that of the farmers of Mitchell county the past several months. They have long been fully up with their work and waiting for a proper season to plant their seed. A good rain any time before the 20th of April will be in ample time for a bumper crop, if followed by succeeding rains to keep up the growth of the plants. It is not the lateness of the rain, but the uncertainty of its coming that is wearing on the nerves of everyone. If we all knew it would rain and plenty, when it did come, on the 1st of May, we would adjust our needs and plans to that date. But the very uncertainty of the thing is the worst feature of a drouth. This paragraph is written on Saturday, March 31st, the first anniversary after the last big rain, in the superstitious hope that it may have some occult influence on the induction of a recurrence of a like blessing. If it rains before Thursday, April 5th, we'll add another paragraph of exultation and "I-told-you-so." If it does not, why, we'll let it stand without explanation or excuse.

Fish and Oysters served any style at Jake's.

It is remarkable, not to say marvelous, when we consider the small number of mistakes that creep into a country newspaper. The newspaper man wants to get at the facts in every case; but to do so he must depend on the word and knowledge of those who assume to know them. No newspaper would willingly and knowingly pervert facts in any case unless in ignorance or by criminal intent. When the representative of a newspaper goes to a man or to a woman, it is because the paper wants to get at the root of the matter and present it in an unbiased manner. When, under these circumstances, a newspaper—country sheet though it may be—asks bread, and a stone is given instead, at whose door is responsibility, does the burden rest? The Colorado Record is intensely human; it is gotten out, from whatever effort its critics may grant to be mental—the writing of the ink from the type, by intensely human beings, fallible in all things and lacking in much, except that modicum of human charity and that catholic creed that holds to the doctrine that

"Judy O'Grady and the Captain's lady
Are sisters—just under the skin."

Since we published the statement in the Record last fall as to the catching of 85 rattlesnakes and one coatiwhip in one den on Morgan's creek, there have appeared several other snake stories in the neighboring exchanges, but none of them numerically better than the Record's. Talking with Mr. Shurtleff one day last week on whose place the wagon load of snakes (86) was captured last fall; he said the "boys" had gone back to the same den and captured 75 larger snakes than those exhibited in town. Come on, ye snake artists of Coke, Nolan and Jones counties. Morgan Creek has yet up its sleeve snake stories that it dare not spring on a credulous public until better prepared than by the past performances of competing counties. Come across, Bro. George Cowan, of the Robert Lee Observer. We know your native habitat in old Mississippi, and how fruitifying it was of snakes and rabbits. There is a citizen of Colorado, Texas, today, who avers that he had a fox dog in Choctaw county, Mississippi, that could be depended on any morning to catch a "welch rabbit" before breakfast.

IT WAS TOUGH.

The Record has more kinds of advice on tap against becoming discouraged than it has of anything else. But a righteous kick now and then, comes not amiss, but only serves as a moral to point the tale of some more hopeful aspect of West Texas conditions. A lady who was reared east of the Mississippi river and injured to all the customs and habits pertinent to that habitat, told us last Tuesday that she had rather be back in old Tennessee with every handicap and alleged drawback, than live through another sandstorm like we had twice this week.

The Record admits that on both the days charged, sandstorms of more than average violence prevailed. We won't insult the calendar by consulting it as to verification of day and date. The bare fact is enough in itself, to justify any kick. It was something fierce, but that's one of the pleasant vagaries of West Texas—just when one is on the edge of "cussing and quitting," the fickle jade, Nature, like other female creatures, takes the other tack and eases us off into an ideal condition on the other extreme. We told this good Tennessee lady, that by the time she had been in West Texas five years, she would be writing back to her folks at "Pulaski Postoffice, Giles County" to come out and enjoy the matchless climate and ideal weather conditions of Mitchell county. But she stoutly maintained if ever she did, her letter would be dated from an insane asylum somewhere in Texas.

The Record would like to get the figures on the egg and chicken business of Mitchell county the past year—its expression in number of eggs produced, sold and hatched, and their equivalent in dollars. It would be astonishing to many.

The business men who believe that advertising pays, are not those who try to advertise enough at one time to stimulate their business for six months, but those who keep continually at it with a message of truth to the public. One can no more advertise enough at one time to meet the business conditions of the morrow than he can eat enough at one meal to satisfy his hunger of the next day or week. Its a mutual proposition.

ADAMS' STORE **MRS. B. F. MILLS** ADAMS' STORE

WASTED ADVERTISING MONEY

The following article is copied from the Inland Printer, and it should be of interest to our merchants just at this time. And the suggestion that the merchants have some one to look after this class of advertising should be food for thought, inasmuch as they, under present conditions, are almost forced to pay out large sums of money every year "to keep up with the other fellow."
"In every town every year hundreds and thousands of dollars are wasted by the merchants in buying space on hotel directories, room cards, telephone cards, barber shop mirrors, public thermometers and circus elephants. As a general thing this class of advertising—so called—is sold by itinerant solicitors who have no interest in the town except to get their money and get away. Merchants buy it because they have not the courage to be left out. They know it is of no value, but want to move with the crowd, and as a general thing, those storekeepers who are most exacting in newspaper advertising are most ready to hit on a directory card.
The merchant who will not protect himself should join an advertising club in which the members agree to refer all such advertising schemes to the executive committee of the club and if there be no advertising club, then the commercial club should take it up. Money wasted in this way in the name of advertising is a very distinct detriment to legitimate advertising."

TWO MORE CARS OF FORDS.

It seems that the advance in the price of some of the accessories does not stop the sale of Ford cars with A. J. Herrington. He has contracts for two more car-loads of Ford cars, and can hardly get them assembled before they are gone. Dry weather seems to cut no grass in the sale of Ford cars.
Owing to unforeseen conditions that will likely force an advance in the price of Ford cars, it is advisable to place your order early as possible to get in on the ground floor prices.
Herrington's stock of standard tires, casings, tubes and all other auto accessories, is among the largest in West Texas and offers a wide range of selection. His prices are as low down as first class quality can be placed. See him when in any kind of car trouble.

THE CLUBS.

The Hesperian met with Mrs. Sam Wulfjen. The lesson was on "The Rise of Silas Lapham."
Miss Ruby McGill told of Historic burying grounds in Boston. Mrs. Jackson, parks and boulevards. Mrs. Milburn Doss, commerce and industry, and Mrs. Merritt the story of the rise of Silas Lapham.
The committee that visited the Shepherd school made a good report. The club decided to give at least six volumes of Shakespeare to the public school library.

At the social hour nut fruit cream with whipped cream and angel food cake were served. The meeting this week is with Mrs. Jerold Riordan.

Mrs. Coleman was hostess for the Standard. This was the twenty-fifth anniversary and it was fitting that the meeting should be held with the first president.

The roll call was a reminiscence of the club and as six charter members were present many interesting things were related. Out of the twelve members death has claimed one, Mrs. M. B. Smoot, who organized the club. In fact her name is connected with all pioneer work in Colorado. She was a woman of noble impulses and endeavors, and when she was convinced of a work that was needed, nothing daunted her until it was completed. The literary clubs and the Baptist church here are monuments to her noble efforts.

The club has lost no members from resignation, only when they moved from the town.

Mrs. Sherwin read a most splendid paper on the work of the Standard club in the quarter century of its existence.

Officers for the coming year were elected. Their younger members were asked to share the responsibilities and honors. Mrs. Edwin Fowlkes was made president; Mrs. Marcus Snyder, Vice President and Mrs. Guita, Secretary.

Mrs. Hadens, formerly Miss Townsend, of Omaha, Neb., and Miss Frankie Riordan were guests at the social hour. Refreshments were served by the daughters of the house and Miss Roe.

Mrs. Shropshire was hostess for the Bayview. The lesson was Current Events and Henry V. At the social hour the hostess, assisted by her daughter served a two course luncheon. They will have no meeting this week but will meet with Mrs. Arbuthnot April 13th.

"The Little Girl Next Door" may be called sensational if by that term one means the exhibition of the unusual. The play throws a strong seachlight into the civic rat holes that were discovered by the investigation of the famous Illinois Vice Commission. It does it without being sordid or maudlin, as in the case of scenario plays based on the imagination. It is a dramatization of conditions as amazing as they are true, every incident bearing the stamp of authenticity by the records of that commission. At the opera house next Tuesday April 10th.

Take your chickens and eggs to Joe's Market for the highest market prices.

MISCELLANEOUS SHOWER.

On Monday afternoon the married ladies and young ladies Sunday school classes of the Baptist church entertained at the home of Mrs. Charles Taylor, with a miscellaneous shower for Miss Rhoda Hastings, who was married on the 4th.

The decorations were carnations and sweet peas.

Mrs. McKenzie greeted the guests and they were asked to register in a dainty hand painted bride's book.

Miss Mattie Conaway delighted those present with readings, as did Miss Hazel McKenzie with a vocal solo.

A knock was heard at the door and as the hostess opened it "Aunt Dinah" with a well filled clothes basket insisted on entering with it, as it was for the honoree.

The "Auntie" was none other than Mrs. Allan Sopér and the contents of the basket were gifts for the personal use and the home of the bride elect.

Mrs. Terrell acted as toast-mistress and Mrs. Frank Anderson and others gave toasts to the honoree.

Ice cream and cake were served.

CLASS PARTY.

The Philathea class of the Methodist Sunday school had their social meeting with Miss Wulfjen last Friday evening. Each member invited a gentleman guest. After all had arrived they were invited up stairs and given masks and as "Sousa's Band in Disgrace" played the grand march they soon found partners and the enjoyment began and continued throughout the evening.

A mock menu was served and as it failed to be satisfying, ice cream and cake were served.

Miss Dry is the teacher of this class and the social side of the character is developed as well as the spiritual.

Its about time for spring house-cleaning. Send us your curtains, blankets and quilts, if you want them done right. We are also prepared to do your linens in a manner that will please you and bring a word of commendation from your friends.—The Laundry.

CHRISTIAN LADIES' TEA

The ladies of the Christian Church will give a Package Tea at the home of Mrs. Ben Morgan, Tuesday, April 10th from four to six o'clock. Price 25 cents. Everyone invited.

HONORING STATE OFFICER.

On Tuesday evening the Evergreen Rebekah lodge gave a reception, honoring Mrs. W. L. Doss who was recently made Grand Warden. An invitation had been extended the Sweetwater, Loraine, Dunn and Snyder lodges and many responded to the invitation.

The hall had been made attractive with the lodge colors and cut flowers.

The program began by all singing America, and after readings by Misses Hazel Cook, Halley Roddy and Irma Quinney, Mrs. Doss made her report of the Annual Assembly. Mr. and Mrs. Farmer of Snyder made talks on the Assembly as they saw it. Other talks were made by different members for the good of the order.

Mrs. Green Delaney presented the honoree as Grand Warden. Mrs. T. P. Cooper, in behalf of the Evergreen lodge presented her a lovely bouquet of pink carnations.

Ice cream and cake were served and it was only when they were afraid they would lose their "beauty sleep" that they took their departure.

BIBLE STUDY.

The Missionary Society of the M. E. church met at the church Monday afternoon. The hour was spent with their regular bible study of the gospel by John. Mrs. W. P. Garvin was the leader.

EASTER LILIES.

Potted Easter Lilies in full bloom for sale at the Green House.

Mr. and Mrs. Henry Cook and baby Pauline, of Silver, visited Mr. and Mrs. DeGarmo, Thursday. Has just arrived at Charters & Sadler's.—TANLAC.

WILSON-HASTINGS.

Miss Rhoda Hastings and Mr. Clyde Wilson of Loraine were married at the Baptist parsonage Wednesday at 4 p. m. Rev. W. L. Williamson, pastor of the Baptist church, performed the ceremony.

The bride was dressed in a blue coat suit, with white accessories, and carried an arm bouquet of white carnations. She is a daughter of Mr. and Mrs. J. R. Hastings, and is loved by all who know her.

The groom is a prosperous young business man of Loraine.

They left for Sweetwater immediately after the ceremony, for a few days, after which they will go to housekeeping at Loraine, which will be their future home.

The Record, with a host of friends of both parties, wish them all kinds of happiness and prosperity, throughout the future years.

AYCOCK-HUMPHREY.

On Wednesday evening the home of Mr. and Mrs. Abe Dolman was a scene of beauty and happiness, when Mr. Bruce Aycock led Miss Annie Humphrey to the marriage altar.

The house was a perfect spring bower with its lilacs, carnations, sweet peas and ferns. An improvised altar was made in the corner of the front parlor, of white and green, while the entire house was fragrant with flowers. Carnations and sweet peas were in the living room, while lilacs were used in the dining room.

Miss Roe sang as a nuptial song, "As the Dawn," accompanied by Mr. Dawes. Miss Jeannette Earnest played the wedding march and also soft music during the ceremony, which was said by Rev. Guy B. Duff, pastor of the Presbyterian church.

Little Lucile Duff was flower girl and Master Thomas Dolman ring bearer, and preceded the couple as they entered from the living room and marched to the altar, where the words were said that made the twain one.

After the ceremony and congratulations the guests went to the dining room and registered in the bride's book, which was presided over by Miss Mabel Smith. After which ice cream and cake were served. The guests then went to the living room where the many handsome gifts were displayed.

The young folks cut the bride's cake amidst much fun and merriment. Miss Eleanor Coleman got the ring, Miss Mabel Smith the dime, Miss Jeannette Earnest the thimble and Miss Fannie Bess Earnest the button. The bride looked lovely in white georgette crepe with veil held in place with orange blossoms. She carried a shower bouquet of bride's roses and lilies of the valley. The groom wore the conventional black.

The bride's going away dress was a rose coat suit, with accessories to match. Her gifts to her flower girl and ring bearer were ring and gold hat pins to the young ladies.

The bride and groom are both well known and loved; and the Record joins their numerous friends in wishing them a happy and prosperous voyage on life's sea.

Mr. and Mrs. Aycock will live at the Aycock home near town.

MARRIED.

Miss Lona Herrington and Mr. Ed Jackson were married at the home of the bride's parents, Mr. and Mrs. A. J. Herrington, Sunday afternoon at five o'clock. The ceremony was performed by Rev. W. P. Garvin, pastor of the M. E. church.

This was a very quiet affair, only the families and a few intimate friends of the contracting parties being present.

Mr. and Mrs. Jackson left after the ceremony for Iolanthe, to visit the groom's parents, and will then be at home with Mr. and Mrs. Herrington, until they build their new home in North Colorado.

They are both well known here and have many friends who wish them a long life of happiness.

RED BIRD SHOWER.

On last Saturday afternoon the Young Ladies' Missionary Society of the Methodist church entertained at the home of Mrs. J. R. Collier, in a most unique and pleasing manner, with a Red Bird Shower, honoring Miss Lona Herrington, one of their most faithful members, and who was to become a bride on the following day. The receiving line was the missionary girls, the honoree and her mother.

Red birds were much in evidence everywhere; on the curtains, perched on chandeliers, pictures, and on nests in trees that were near the house. The children of the honoree's Sunday school class and a few larger ones were dressed to represent red birds. The whole program typified birds and bird lore.

Mrs. Barcroft announced the program with verses of bird poetry. Miss Ruby McGill gave the mocking bird as a piano solo. Miss Payne sang very sweetly "The Nightingale." Louise Wulfjen then read the Red Bird's Story, and Miss Payne sang "The Cuckoo." Then the story of the stealing of the girl away from the home nest was told by the birds: (Louise Wulfjen).

To-whitt! to-whitt! to-whee!

Will you listen to me?

Who stole Mrs. Herrington's girl away From the old home nest today?

(Barbary Collier).

Bob-o-link! Bob-o-link!

Now what do you think?

Some one stole a girlie away From an old home nest today.

(Virginia Stonerod).

Bob-white! Bob-white!

I don't think it's right

Who will go and help me To find the old thief?

(Louise Wulfjen).

To-whitt! to-whitt! to-whee!

Now listen to me.

Who stole that girl away, From the old home nest today?

(Lois Cromer).

Cluck, Cluck, said the hen, Don't ask me again,

I haven't a chick, that'd do such a trick Cluck, cluck, don't ask me again.

(Exa King).

Meow! Meow! cried the cat bird fierce

An old thief is surely near us.

Let us decide that, and anyway We'll hunt him up and scratch out his eyes.

(Rosalee Leslie).

Cuck-oo! Cuck-oo! Cuck-oo!

Let me speak a word too.

Now who stole that pretty girl? I'll help find the impish churl!

(Gressett Collier).

Caw! Caw! Caw! Caw!

I know what thief took away That girlie today.

'Twas Edward Jackson who stole that girl;

Nor does he think himself a churl. All is fair in love and war,

So their pleasures do not mar. He's not ashamed to tell his name

But thinks it should be Edward Fame. (Mary Jackson).

O, Miss Lona, come and see

The birds have builded a nest for thee

And laid the sticks so clever and nice

The very sight will dazzle your eyes;

And they have put in the most wonderful things

All wrapped in color like red bird wings.

Come with me and let me show

You just the proper way to go.

The nest is out here in a tree;

The red birds have just shown it me.

They are eagerly waiting to show it to you.

The love of your friends so loyal and true;

They will sing you a song and tell you a tale,

So come, go with me to the red bird's vale.

As they went down Lover's Lane, a colonial party was promanaging

and was willing to help find the nest.

They looked too cunning for anything in their quaint costumes. They were: Little Alice Hughes, Marvin Majors, Mary Hughes, John Thomas Merrett and Virginia Spalding, with Mildred Martin, Scott Spalding and Virginia Webb as little red bird escorts.

At the proper time the nest was discovered and was, of course, gifts for the bride elect.

After everything had been admired she was toasted by the missionary girls with more bird poetry, and responded in like manner.

Refreshments of heart shaped sandwiches tied with red ribbon were passed by the girls and each given a glass and told to pass to a fountain and receive the drink of the birds.

Little red, heart shaped, home made mints were also served.

Mr. and Mrs. Wes Allen and daughter Mrs. Thomas, left last Friday for their new home in Ochiltree county.

R. H. Looney, Chas. M. Adams and A. J. Herrington went out to Midland to attend the Scottish Rite Maunday Thursday ceremonies.

You Can Make Excellent Cake With Fewer Eggs

Just use an additional quantity of Dr. Price's Cream Baking Powder, about a teaspoon, in place of each egg omitted.

This applies equally well to nearly all baked foods. Try the following recipe according to the new way:

CREAM LAYER CAKE

Old Way	New Way
1 cup sugar	1 cup sugar
1/2 cup milk	1 cup milk
2 cups flour	2 cups flour
2 teaspoons Dr. Price's Baking Powder	4 teaspoons Dr. Price's Baking Powder
3 eggs	1 egg
1/2 cup shortening	2 tablespoons shortening
1 teaspoon flavoring	1 teaspoon flavoring

Makes 1 Large 2-Layer Cake

DIRECTIONS—Cream the sugar and shortening together, then mix in the egg. After sifting the flour and Dr. Price's Baking Powder together, two or three times, add it all to the mixture. Gradually add the milk and beat with spoon until you have a smooth pour batter. Add the flavoring. Pour into greased layer cake tins and bake in a moderately hot oven for twenty minutes. This cake is best baked in two layers. Put together with cream filling and spread with white icing.

PARENT-TEACHERS MEET.

The Parent-Teachers Association met at the high school building Tuesday afternoon. The most of the time was given to the school children in their tryout for the different things for the county inter-scholastic meet which is to be held here Saturday.

The fourth, fifth, sixth and seventh grades each had five in the spelling contest. The whole three hundred words were spelled and only six words missed out of the number. Four went down in the fourth grade, one in the fifth and one in the seventh.

In the declamation contest two Junior girls, Hazel Cook and Leonora Ehrlich; two Junior boys, Godfrey Spruill and Lee Jones, Jr., entered. Hazel Cook and Godfrey Spruill won first place.

Two Senior girls, Misses Hallie Roddy and Mattie Conaway, and three Senior boys, J. G. Keathley, Kirk Ratliff and Joe Pond, were in the race. The honors fell to Miss Roddy and to J. G. Keathley.

The judges for the occasion were Mesdames M. K. Jackson, J. L. Doss and Jerold Riordan.

The fourth and fifth grades added much to the occasion by their singing. They were all well trained and how the teachers with their crowded rooms and multiplicity of cares ever managed is a wonder to many, and which makes the teachers more appreciated.

Little Lela Watson of the fifth grade gave a reading which was also enjoyed.

Besides the usual business, a resolution was presented by the Hesperian club in regard to the sanitary condition of the grocery and drug stores. This was unanimously adopted and will be published when other organizations have the opportunity to sign it. Mrs. Jackson and Mrs. Earnest

both had splendid plans for making money for the library but they were set aside until a future meeting.

Dues were paid by a few and Mrs. Sam Majors was received as a new member.

The next meeting will be May, 1st.

ENTERTAINED HUSBANDS.

The Fidelia-Wesley class of the M. E. Sunday school, of which Miss Jo Dry is the efficient teacher, entertained their husbands Tuesday evening at the home of Mr. and Mrs. Sam Wulfjen. The rooms were fragrant with sweet peas. After enjoying 42, and old fashioned games, an advertising contest was entered into with much interest. Mr. Hasnal Anderson proved the best in this. Partners were secured for refreshments by the gentlemen guessing who the nose belonged to as it was seen through a hole in a sheet stretched across a door. Sandwiches, pickles, coffee, nut and celery ice cream and angel food cake were served. Those present were: Mr. and Mrs. Earl Jackson, Mr. and Mrs. Myrtle Vaughan, Mr. and Mrs. Vivian Shropshire, Mr. and Mrs. Pidgeon, Mr. and Mrs. Sam Wulfjen, Mr. and Mrs. Lambeth, Mr. and Mrs. Cooksey, Mr. and Mrs. Ballard, Mesdames Foyd Beall, Sallie Hall, Hooten, Spalding, Cassel, Grantland, Elder Crawford, Tom Stonerod, Webster, Mr. and Mrs. Bert Wulfjen and Misses Dry.

A PLEASANT EVENING.

Those who missed the entertainment at the high school building by Thomas Elmore Lucey, under the auspices of the Junior and Senior classes, Wednesday evening, missed a rare treat. The program was varied with drawing, singing and impersonations of noted characters of the literary world. The classes are to be congratulated on securing such high class entertainment, and while they did not rake much money what they did make will be cheerfully given to the library fund. They are all the better for having heard this noted poet, actor and humorist.

SOCIAL MEETING.

The Philathea class of the Baptist Sunday school of which Mrs. J. H. Greene is teacher, met in a social meeting with Miss Lela Whipkey, Wednesday afternoon. Notwithstanding the sand storm a large number were present and a pleasant hour was spent together socially. Most all had fancy work, and when they could not get to talk, they worked their fingers. Miss Smith and Mrs. Donnigen of Stephenville, Ark., were appreciated guests. Light refreshments were served.

The Merry Wives met with Mrs. Charters at Mrs. Lindley's. Her guests were Mesdames Lewis Adair, Bert Wulfjen, Baxter, Ralph, Cooksey and Blaphermick. The hostess served ice cream and cake. The meeting next week is with Mrs. Leslie Crowder.

THE FURNITURE MAN

POULTRY DEPARTMENT

with her other duties, the hen is not to be despised as a brooder. The hen may not always do the wise thing at the right time, but she is always there to do her best.

When the chicks are 24 to 36 hours old transfer the hen and her brood to a comfortable coop with a dirt floor. The coop should be protected from the cold in winter by a north wall and in summer from the sun, if possible by a tree or south wall. The coop should be 2 feet wide and as much as 30 inches long, well ventilated in summer. It is generally better to confine the hen in this coop for the first two weeks, giving the chicks privilege of running in and out. During this time the chicks like to spend most of the time under the warm mother hen where they sleep and grow. If she is permitted to chase over the yard she will often refuse to cater to the wish of the chicks and consequently they become chilled and stunted. Then begins that awful wailing which we so much dislike to hear, and which is a sure indication that something is wrong with the chicks. The well-cared-for chick is a contented chick and cheeps in a manner that is not irritating to the tender, but on the contrary, pleasant to hear.

As we are tempted to set too many eggs under one hen, so we impose on both hen and chicks by placing too many chicks under the care of one hen. In cold weather 12 or 15 chicks to the hen are enough and 20 should be the maximum at any time of the year. The more chicks per hen the more danger from crowding and chilling, also the more frustrated and careless becomes the hen. Again, a hen can unearth only so many bugs and worms and discover only a limited amount of choice morsels of food each day. This total is to be divided among the chicks. In this section this sort of food is scarce anyway and unless the shortage is supplied in the form of beef scrap or some description or plenty of butter milk or clabber milk, too many chicks per hen will certainly fail to find proper nourishment. It is well to remember that so-r milk, if kept before the chicks all the time successfully takes the place of all meat and bone feeds both for the chicks and hens. The chicks will put on more pounds of flesh for each pound of food consumed than any of our other domestic animals so it is economy to feed your spare milk to the baby chicks rather than to the pigs.

Beginning when the chicks are from 36 to 48 hours old, they should be fed four or five times daily for the first week. Only feed as much each time as the chicks will clean up in ten minutes. Feed on boards or in vessels and remove same after ten minutes. Rolled dry bread, rolled oats, cracker crumbs, well-baked corn bread, hard boiled eggs are among the more common feeds used the first week. When eggs are used do not feed more than one part egg to two parts bread crumbs. On the whole it is easier and better to feed all feeds dry. If preferred moisten feed slightly with sour milk but wet feeding requires extraordinary efforts in the way of scalding feeding boards and vessels.

Gradually substitute for the above feed some good commercial chick feed and reduce the feeding to three times daily. After the chicks are one

month old it is safe to feed in hoppers and leave the feed by the chicks at all times. The hen must not be allowed to eat the chicks' feed but must be fed her ration of whole corn or maize. Nothing is more important than that the chicks have an abundance of fresh water at all times. The water vessels ought to be scalded two or three times per week when the chicks are in good health and daily when any signs of sickness are noticed.

Mix two parts of bran, one part wheat shorts, one part corn meal and feed in hoppers dry, keeping before the chicks at all times after the first three or four days. If the chicks are not getting sour milk it will be necessary to add to the dry mash 5 to 10 per cent of meat scrap. Oil meal, cotton seed meal will help somewhat.

Where the chicks are not finding green feed on their range it can easiest be supplied in the form of alfalfa leaves or alfalfa meal added to the mash, say one part in the above.

Shade is very important for chicks, old and young. It is none too early now to plan to meet this need. Castor beans, sunflowers, various kinds of vines can be planted. Lilac bushes seem to grow well here and what looks better than a big lilac bush to the growing chicks when the summer sun is shining hot?

I have taken for granted that chicks are to be brooded in a yard apart from old fowls. That is of the first importance. Any questions not covered in this brief discussion will receive careful attention in the columns of the Record if directed in care of the Poultry Department.

WHEN IT WILL RAIN.

If Herrington cannot tell you just the day or the hour when this section will be blessed with a gracious downpour of rain, he can convince you of his abiding and steadfast confidence in the fact that it will come in good time for a bumper crop in Mitchell county and all West Texas.

His stock of Mitchell wagons, Case planters, cultivators and go-devils is evidence within itself, that Herrington is no whiner or quitter. He believes in doing the human part and leaving the other to a higher and wiser power than ours.

Never was the land of this county in such excellent shape for rain and planting. The weather-wise are of the opinion that some severe cold weather is yet due. If this be true; there is no need to waste seed and work by planting too early. There is abundance of time yet for the best crop ever made in Mitchell county. The part of wisdom is to go right along doing the best we can. All our fretting and worrying will not better things one whit nor bring the rains one moment sooner.

But for the benefit of the timid and those scarce of water, Herrington told us to say that a good rain was due in the course of natural evolution within the next 13 days and nights. But in the meantime, invites every farmer to get ready to improve the condition when it did come, by providing the very best of farm implements, wherewith to make hay when the sun did shine. Adv.

MOTHER! YOUR CHILD IS CROSS, FEVERISH FROM CONSTIPATION

If Tongue is Coated, Breath Bad, Stomach, Clean Liver and Bowels.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out of sorts, half sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhea, sore throat, full of cold, give a teaspoonful of California Syrup of Figs, and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company." Adv1

Goes To Memphis Reunion And Marches Three Miles In Big Parade—Gains Thirteen Pounds.

"If it had not been for that Tanlac, I couldn't have gone to the Confederate Reunion at Memphis on the 8th of October and marched afoot for nearly three miles in the big parade," said Frank B. Kendrick, who lives at 4800 Charlotte Avenue, Nashville, Tenn. Mr. Kendrick is one of Nashville's oldest and best known citizens.

As a member of Company 1, second Kentucky Cavalry, Basil Duke's Regiment, General John B. Gordon's command, Mr. Kendrick saw service throughout the Civil War, and was wounded four different times.

"During the winter," said Mr. Kendrick, "I suffered intensely with rheumatism, and when springtime came I went all to pieces. I had just about made up my mind that my end was not very far off. I looked like I was on the verge of a general physical decline, and I had about despaired of ever walking again. I am seventy years of age, have fought a good fight and have proven my record, and was ready to go. But since I got hold of Tanlac I have set my head to found out ninety years, and from the way I feel now I believe I will do it. Before I began taking this medicine I was rapidly losing what little strength and flesh I had, and was so weak and debilitated it was all I could do to walk from the bed to a chair, and even that required great exertion. I had no appetite at all, couldn't sleep to do any good and was awfully nervous. My flesh seemed to dry and I suffered a great deal with headache.

"I doctored and doctored, but did not show any sign of improvement. I attributed my failure to get relief to my old age and declining physical powers. But I made a bad guess, because after taking Tanlac two weeks I felt better and younger than I had felt in years. I am now on my ninth bottle, and am actually thirteen pounds heavier than I was before I began taking Tanlac. My clothes were too large—now they are too small, and I guess I will have to buy clothes that will fit me comfortably. To make a long story short—the medicine just seemed to fill me with new life and energy and put me right on my feet. I have a fine appetite now.

"As I told you before, I can now walk anywhere, and have thrown my cane aside, because I don't need it any more, except for bad eyesight. I spent four days in Memphis at the Reunion, and just tramped around all over town with the boys. All around were men who gave out during the parade, but at the end I was right there, and didn't feel the least bit tired. I just got back a few days ago, and am awfully glad to tell you what Tanlac has done for me. If I had the money I would buy every soldier a bottle of Tanlac, because I believe it would add years to their lives.

Tanlac is sold in Colorado W. L. Doss, and in Loraine by Garland & Elliott. Adv.

HISTORY REPEATS ITSELF

Maxwell Passenger Car Development Paralleled by Maxwell Truck.

That the Maxwell One-Ton Truck recently announced as Walter's E. Flanders' latest achievement, will revolutionize the truck industry was the positive statement by T. J. Toner, the Director of Sales of the Maxwell Motor Company.

Mr. Toner has been in the automobile business from its early days and has been associated with Mr. Flanders for the past ten years. He is an authority on the development of the motor car business and can recount many interesting and picturesque phases of it.

"Early in the year of 1908," said Mr. Toner, "the entire motor world was startled by the news from Detroit that a newly organized company called the E. M. F. Mortor Company would produce a 30 H. P. fully equipped automobile for \$1200.00. Bear in mind that in those days all other similar cars were selling at prices from \$2000 to \$3000. Walter E. Flanders, the organizer and president of the E. M. F. Co., said he would build 20,000 cars the first year—an unheard of quantity—and through that big volume he could cut the selling price in half.

"Immediately there was a storm of ridicule. Manufacturers derided the idea and some of the best posted journals hooted the plan as that of an impractical dreamer. And then they went on to prove mathematically that even if 20,000 such cars could be built in a year, they could not be sold.

"Of course, the cars were built, as

everyone now knows, and they were sold. How was it done? By concentrating on one model, by more efficient automatic machinery, by the economies of quantity purchases, by big newspaper advertising.

"We are now confronted with the identical situation with respect to the Maxwell Truck. There is no such thing at present as big truck production. We do not know of any truck builder who has an annual production of as many as 6000 vehicles. Consequently prices are high.

"We are entering the truck field as the world's biggest producer. We shall build perhaps 20,000 during the first year. And the price we have fixed \$795 is about one-half of that quoted by the makers of similar trucks. The Maxwell truck is bound to win instant success. It is a real truck, through and through, and has a tremendous market to fill. Already we have orders on hand for thousands and our dealers say they could at once dispose of all we could manufacture in two years.

"Watch the Maxwell Truck. It is going to fulfill our prediction exactly as its predecessor did."

SPRING.

Spring is looked upon by many as the most delightful season of the year, but this cannot be said of the rheumatic. The cold and damp weather brings on rheumatic pains which are anything but pleasant. They can be relieved, however, by applying Chamberlain's Liniment. Obtainable everywhere. Adv.

SPEAKING OF "BONE-DRY"

Juarez, Mexico, March 30.—General Murgia, commander of the northeastern military zone, has issued a decree ordering all who sold liquors to be shot without a trial. Reports from Chihuahua City are that three saloon keepers had been executed for violation of this decree, which became effective March 23rd.

Easter Gifts

The very pleasant Easter custom of sending Easter cards to our friends or of making them simple and inexpensive gifts is a good one, provided we do not carry it to an extreme. The springtime is a busy season when every one is weeding out one's possessions rather than seeking to add to them; hence numerous large gifts would prove a burden to the recipient. Eggs have always been associated with the day as symbolic of the resurrection. Bonbonnières of this shape or candy eggs are always popular.

Flowers and growing plants are especially appropriate to the day. Easter lilies being always in demand. A corsage bouquet of violets or of lilies of the valley is a pretty gift to a girl. The man who makes it must be careful to have it sent to the house of the girl in time for her to wear to church on Easter morning. Neckties or scarfs are suitable gifts to make to a man who is a relative or friend, provided one knows his tastes.—Florence Howe Hall in Chicago News.

After the Grip—What?

Did it leave you weak, low in spirits and vitality? Influenza is a catarrhal disease, and after you recover from the acute stage much of the catarrh is left. This and your weakness invite further attacks.

The Tonic Needed is Peruna.

First, because it will assist in building up your strength, reinvigorating your digestion and quickening all functions. Second, because it aids in overcoming the catarrhal conditions, helping dispel the inflammation, giving the membranes an opportunity to perform their functions.

Thousands have answered the question after grip by the proper use of this great tonic treatment. You may profit by their experience.

Liquid or tablet form—both safe and satisfactory.

MAXWELLS HOLD MANY RECORDS.

Remarkable Performances Prove Car Has Extraordinary Qualities.

That the Maxwell Car holds more records than any other regular stock automobile in the world, was the statement made by C. E. Stebbins, assistant sales director of the Maxwell Motor Co. Mr. Stebbins went on to explain that speed records made by the specially built racing cars did not interest the average prospective buyer, except as perhaps an item of sporting news.

"Maxwell Cars," continued Mr. Stebbins, "were never intended for race courses. They are built for that great body of conservative people who want a car that will run every day, all day, as fast as they care to drive and will do this at a low operating cost.

"Of course the Maxwell is generally recognized as the world's endurance champion. And well it has merited that title. Any stock car that can run for 44 days and nights without a motor stop, covering 22,022 miles of all sorts of city streets and country roads—without any repairs or adjustments—is worthy of a place in the Hall of Fame.

"Besides that record we have dozens of others, a few of which I will cite:

"The ascent of Mt. Wilson and Mt. Hamilton, Portland to Spokane, Pittsburgh to Philadelphia, Detroit to Indianapolis, Jacksonville to Tampa, and many other speed records are held by our stock cars. Then there are many economy performances including the 44 mile run in and around Detroit on one gallon of gasoline. In addition—the tests made by the Yale University and Prof. Gallup of Worcester Polytechnic Institute, prove surpassing economy, endurance, and all around efficiency.

"Of course it is well known that the Maxwell racing cars driven by Rickenbacher during the past year are the very fastest American cars ever built."

WONDERFUL STUFF! LIFT OUT YOUR CORNS.

Apply a Few Drops Then Lift Corns or Calluses Off With Fingers—No Pain

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezone and is a compound of ether discovered by a Cincinnati man.

Ask any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers.

This drug freezone doesn't eat out the corns or calluses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you. Adv. 3.

LOCAL HAPPENINGS
and
PERSONAL MENTION

Mr. and Mrs. Joe H. Smoot are visiting relatives of the latter in Montgomery, Alabama, the past two weeks.

Blooming Easter Lilies in pots, on sale at Mrs. Jim Smith's green house.

If wanting the Best Ice Cream go to W. L. Doss' and say Alta Vista.

Capt. R. A. Jeffers returned from Paul's Valley last Sunday night and reports the condition of his son, Prentiss as considerably improved. There will be no permanent injury to his eyesight, face or head. His most serious burns are on the arms and hands, which he can not use even in feeding himself. But the attending physicians are hopeful that he will not be deprived of the full use of either of them. It will be some weeks before he can be brought home.

Charters & Sadler have it.

Let us show you the beautiful new spring millinery we have in stock.—Mrs. B. F. Mills.

Miss Jennie Lively returned from a vacation at her home in Dallas, last Saturday night. She reports a pleasant time, but is glad to get back to West Texas.

\$100 Reward, \$100
The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Lillie's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Lillie's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address: J. J. CHENEY, P. O., Toledo, Ohio. Sold by all Druggists.

Alta Vista Ice Cream is the best made. W. L. Doss handles it in Colorado.

Just one year ago last Thursday night, the entire empire of West Texas was visited by a soaking rain. The Record meteorological expert predicted last Friday afternoon, that if a decided change did not occur within forty-eight hours from that time, a rain would inevitably come to this section. Subsequent events tested the dependability of that statement.

Tonight at the opera house, Helen Holmes in "Judith of the Cumberlands."

Mike Ratliff, in the spiritual custody of J. I. Rice, left last Saturday morning in Mike's Tin Sallee for several points in New Mexico. Of course, they are going on a trading expedition—Mike goes nowhere else except to Sunday school. We are looking for them to return with deeds to a good-sized slice of south-east New Mexico. What's left won't be worth retaking by the Germa-Mexicans when they start that war of conquest.

Listen to this, and put it to the test and it will do you good. The State Life Insurance Company will issue you a policy on the Ordinary Life or Twenty Payment plan and will Guarantee that if you should die within twenty years, they will pay to your beneficiary the full amount of your policy and also return to them every dollar that you have paid to the company in premiums. If you want one like this, see, write or phone me.—M. K. Jackson.

Pastor and Mrs. W. L. Williamson of Colorado spent several days in Abilene the early part of the week in attendance upon the meeting at the First Baptist Church and in visiting friends. They report Colorado Baptist affairs going smoothly. The Sweetwater Association Fifth Sunday meeting will be held with them the latter part of April. That was a fine record in the Sunday school of the First Baptist Church at Colorado last Sunday: 386 in attendance, and an offering of \$27.19 for Home and Foreign Missions.—Western Evangel.

If you want to know when it will rain keep up with Herrington's advertisements in the Record.

It matters not how ambitious other vegetation may be to don its vernal attire, it frequently gets nipped by old Jack Frost for its forwardness. Up to this date, April 1st, the mesquite trees have shown no disposition to "take 'em off" and assume the coolness and freedom of Teddybears.

'Gene Pond and Dick Sparks have been rusticated down on the Lane ranch the past several weeks, and incidentally building an up-to-date far home for Mr. J. D. Lane. The residence is being erected on the bluff near the big spring that has been a noted landmark in that section since the settlement of the country. This spring in itself, is a small fortune to the stock farmer of West Texas, and Mr. Lane knows just how to make most of its potentialities. We have given ourself a cordial invitation to go down and spend a week-end with Mr. Lane and Frank Smith, who also enjoys the prosperity of that favored section.

ADVANCE IN PRICE.

Prices of seven models of the Willys-Overland line are to be advanced on April 1, according to information just received by Winn & Payne, the Willys-Overland dealers in this city.

The Overland Eight Four touring car will sell at \$695, having been advanced \$30. The roadster of the same type will sell at \$680.

The raise in prices also affects the distinctive and popular Country Club model, which will sell at \$795.

The price of the Willys-Knight Four has also been advanced from \$1285 to \$1395, and the Willys-Six will sell at \$1425 after April 1.

The Overland light delivery wagons have also gone up in price, to \$730; express type at \$705.

The prices of the Overland Big Four and the Light Six touring cars will be advanced on May 1. Extended advertising campaigns which had been prepared on these models made it impossible for the new prices on these cars to become effective for another 30 days. The figures mentioned here are f. o. b. Toledo.

The "Seven Deadly Sins" to be shown at the opera house, commencing April 16th with "Envy," are high class pictures, and each one teaches a lesson and points a moral. Each picture is complete within itself.

Easter fires

Easter fires, established in honor of the sun, form a feature of Easter observance in some parts of Great Britain, where bonfires are quite common in early spring. Effigies of Judas were annually burned in Athens on Easter Sunday until the government prohibited it.

Fraser in "The Golden Bough" states that about 100 years ago the custom at Altheimberg, in upper Bavaria, was as follows: On the afternoon of Easter Saturday boys collected wood, which they piled in a cornfield, while in the middle of the pile they set up a tall wooden cross all swathed in straw. After the evening service they lighted lanterns at the consecrated candle in the church and ran with them at full speed to the pyre. The first to arrive set fire to the heap. No woman or girl might come near the bonfire, but both could watch it from a distance. As the flames rose the men and lads shouted, "We are burning the Judas!"

A VERY SERIOUS ACCIDENT.

What came very nearly being a fatal accident occurred last Thursday night between town and the Hale residence in southeast Colorado, when a span of young mules hitched to the rear of a farm wagon broke loose at the approach from the rear of an automobile driven by Sam Hale and also occupied by a young Mr. Hall.

When the car came up behind the team, the mules broke loose and started back, but were so close to the oncoming car that it was impossible for Mr. Hale to either stop the car or turn out of the road. His car struck the mules turning it over and catching both young men underneath. Mr. Hale sustained a fractured ankle and several bruises and contusions about the body. Mr. Hall suffered more extensive hurts about the face, one of his cheeks being laid open.

However, the injuries of both are assuming a more benign aspect and barring the injuring of Mr. Hale's ankle, both will be up and about again soon. But it was a close call from a fatal accident.

The Record contained several "lost" ads last week. Before Saturday night four of the articles lost had been restored to owners.

Mr. and Mrs. Jas. L. Allen came in from New Orleans last Monday, where they spent the winter months. The report gained currency some weeks ago, that Jim had gotten on the right side of the cotton market and made a clean-up of a half million dollars in the current coin of the realm. We were disappointed when he told us this rumor was a canard, as it has been one of our ambitious conceits in life to be acquainted with a genuine, simon-pure millionaire and be able to call him by his given-name in front of the postoffice or at the railroad station.

Dr. Henthorne attended the meeting of the Maxwell automobile dealers held at Dallas last week. He was inveigled into riding down with Hubert Toler in his car, and the Doctor avers that the remnant of his life is far too short to express his full thanksgiving over getting there and back alive and whole of limb and sound of mind. They left Loraine early one morning and arrived at Dallas in good time for early supper. He says, when they rose from the ground at Weatherford, they lit at Fort Worth in just 55 minutes by his stop watch. He couldn't enjoy his visit for thinking of coming back at the same speed.

The city election last Tuesday passed off without attracting any notice beyond a few citizens voting, ever he may do.

There were no opponents to the present incumbents of either aldermen or city secretary. F. M. Burns, J. T. Davis and R. O. Pearson were re-elected aldermen to succeed themselves and L. A. Costin continued as city secretary. This is quite a compliment to the efficiency and general appreciation of the present officers by the public.

Hubert Toler was exhibiting a new model Maxwell car of the sedan type on the streets this week. It is certainly a beauty and almost dust-proof. Its the very thing for a West Texas sand storm.

TO THE LIFE.

After reading Governor Ferguson's recall of the Texas National Guard last Tuesday morning, we fell into a kind of patriotic mood and came near wishing we were young enough to think of taking part in all this military activity. Just then the front door opened and an erect figure (though somewhat truncated and of squat aspect) kakhi-clad stood before our startled eyes. We looked again, and in that instant illumination broke upon us. It was our old friend, "Shorty Glisson" in the very flesh, looking as if he had just stepped out of one of Rudyard Kipling's barrack stories. Shorty is one of the most convincing arguments in favor of compulsory military training that can be adduced—and he likes the job. He declares he has to date killed as many of the enemy as they have killed of him.

Blair's Comedians have been the tent attraction here the past week. They have presented good bills each night and the general verdict is that it is a superior class of entertainment. Their bills tonight and tomorrow night are special features. See ad in another column.

Colorado City furnishes two recruits to Uncle Sam's navy the past week at the Abilene recruiting office—W. O. Davis and R. R. Smith. W. L. Alexander of this city also went later for the purpose of enlistment. They were all sent on to Dallas for further examination.

RUSSIA MAY SEIZE ALL OF ROMANOFF'S MONEY

Former Czar Would be World's Richest Man if he Retained his Wealth

The question now interesting students of economics is what will become of the vast property holdings of Nicholas Romanoff, erstwhile czar of Russia, and other members of the Romanoff family. The ex-czar is said to have held title to 680,000,000 acres of land and to have had a personal fortune invested in foreign stocks and bonds. How much of this will be seized by the state is a matter of conjecture.

The Romanoff holdings in America are said to be the largest of any foreign investor. The czar is said to own \$50,000,000 of the stock of the Pennsylvania railroad. The holding is not in his name, of course.

Much of the czar's cash is on deposit in the Bank of England. He is said to have kept from \$50,000,000 to \$100,000,000 on deposit there at all times.

His real estate includes the most valuable mineral lands in Russia, and into his private coffers every year flowed one-third of the gold and silver output of the empire.

It is hardly likely that Russia will permit the czar to retire as the richest man in the world. One of the first duties of the new minister of finance will be to devise means of transferring his wealth to the empire.

A proposal is said to have been made to turn over the czar's American securities in payment of Russia's purchases of munitions here and to guarantee that the army would be supplied to the end of the war. Such wiping out of Russia's debt to American manufacturers would raise the ruble to almost double its present value, financial students declare.
