A PLAIN STATEMENT OF A FEW FACTS.

About one year ago, the Consolidated Oil and Gas Company of Colorado, Texas, was organized for the purpose of exploiting this section of the state for the location of oil, gas or other mineral resources.

The promoters, not having sufficient financial strength of themselves for such an undertaking on a scale commensurate with its importance, solicited subscriptions to the stock in shares of small amount, in order that the greatest number should become interested and benefitted in the event of success.

From the very beginning of this promotion, the company was met in their solicitations, by indifference from those who were able to take stock and suspicion from those who felt they were not. There were not lacking those who were more than ready to cry "Graft" at the mere mention of an oil well in this section.

The company has been exceedingly jealous of its management of the funds placed in its hands by the small subscribers. Every dollar has been made to count for its utmost ability in work and in material. Not one dollar of indebtedness has been allowed to accumulate. Pay it today, not tomorrow, has been its watchword. No claims have been allowed to hang upon its flank, handicapping its efforts and sapping its strength.

The company has made no claim of doing anything beyond actual and visible accomplishment. We have asked every inquirer to come and see for himself.

Of course, it is but natural that the least sign of encouragement toward success, should be magnified and in some instances grossly exaggerated. These reports come not from any responsible member of the company, but frequently from over-confident and enthusiast friends of the enterprise. The wish in these cases, has been father to the imagination. The company has been everly careful in making reports of the progress of the work done, and very guarded in its utterances regarding what it thought of the "prospects." We wished to be CERTAIN OF OUR GROUND before making any kind of official statement, either to the shareholders or to the general public.

In view, therefore, of several published statements emanating outside the company, and for which the company is in no wise responsible, we wish to make the following plain statement of facts, just as they exist today at the well:

We own our own drilling outfit. The drill is now down 340 feet according to the log, which has been carefully kept from the beginning. After penetrating a stratum of blue shale mixed with slate, heavy salt water was encountered, which has risen to within 75 feet of the top.

There are unmistakable evidences of the presence of oil on and in the water baled from the well. But until the great volume and weight of salt water can be eased off and the well baled, can any estimate be made of the presence or quantity of oil, which can be seen and smelled in its more volatile state.

We have about 800 feet of pipe on the ground and drilling is going forward nicely. We hope to be able to ease off the salt water and bale the well shortly, when, we have good grounds for hoping, we can be able to give some encouraging news.

Published reports to the effect that "the flow is now about six or seven barrels a day" and that it is thought "when we get a little deeper oil will be found in paying quantities," are purely and wholly fictitious, having no foundation in fact at the present stage of development.

We shall deal fairly, openly and squarely with the shareholders and the public, as well in the development of this well. No other policy could be to our permanent interests, and keep both fully apprised of the progress of the work, with the positive assurance that NOTHING BUT THE ABSOLUTE TRUTH WILL BE TOLD.

INDICTMENTS CHARGE SEDITIONS UPRISING

Seven Men Arrested at Snyder and Taken to Dallas for Safe Keeping.

Dallas.—Seven men arrested at Snyder Friday out of eight who were indicted at San Angelo by the Federal grand jury on charges of seditious uprising were brought to Dallas for safe keeping. The men arrested were indicted under the Penal Code of the United States. They are said by the Federal authorities to be members of the vigilance committee of the "Farmers and Laborers' Protective Association of America."

The men arrested at Snyder are Bob Benton, B. E. Beeson, W. Y. Jones, Will Bradley and D. P. Childers. The men were placed in the Dallas County jail. They refused to make any statements.

Telegraphic reports also were received to the effect that twelve other men were arrested at Rotan in the same connection. Whether these men had been formally charged was not announced.

The Farmers and Laborers' Protective Association was organized, Federal officers here said, after it became apparent that the United States would be drawn into the world war, and it became more active after the actual declaration of war upon Germany.

"The organization was thought by its organizers to be secret in its operations," W. F. Allen, Assistant Federal District Attorney for the Northern District of Texas, said. "The Department of Justice and the United States Secret Service have had knowledge of it for some time. Credit for the first information of its existence belongs to a patriotic citizen of Lueders, Texas, Jones county, who had joined the organization because he was told that it was co-operating among farmers for their mutual benefit in purchasing supplies."

"The organization was spreading among certain elements. After our informant had been sworn to secrecy on pain of death, he was told to oppose military service and the laws of the Government, to kill officers who might have his fellow-members arrested, and to kill on sight any conscription officer or officer of the army who should give him a gun with which to fight. He then volunteered this information to officers."

"The scope of the organization has been limited. It was working fairly well in Taylor, Jones, Scurry, Coke and Haskell Counties in West Texas, but a state meeting at Cisco early in May broke up in discord. Though it had opened with 165 members present, only a handful remained when the purposes were fully disclosed."

"The United States Secret Service has been working constantly on the case since it was first reported. The Department of Justice has had representatives in the secret meetings making reports steadily. Thus the mystery of midnight parties that had bothered rural residents was ferreted out."

The obligation, Mr. Allen said, was never written out, the leaders declaring nothing must be placed on record, but the purport of it was given from memory before the Federal grand jury at San Angelo last week. Indictments were returned and Judge George Whitfield Jack ordered the arrests.

The Federal officials said many good men were inveigled into the organization on representation that it was for agricultural purposes. Promises of aid on the road to prosperity were given until the meeting places were reached. Then the real object of the association would be revealed, they said. The dues were only five per month and each member was told that regardless of whether he kept actively in touch with the or-

ganization and paid his assessments or not, he still would be bound by his oaths. The Federal officers have received reports of threats against the lives of men who refused to continue allegiance to the organization.

Although the officers here were of the opinion that the arrests made would end the organization, they announced that they will continue to watch actively for any further developments. The men being brought here will be held, they announced, until they make bond or are called to trial at San Angelo.

The penalty for the offense charged, in case of conviction, is a fine not to exceed \$5,000 and not more than six years imprisonment. The text to Sec. 6 of the United States Penal Code is as follows:

"If two or more persons in any state or territory or any place subject to the jurisdiction of the United States, conspire to overthrow, put down or to destroy by force the Government of the United States, or levy war against them, or to oppose by force the authority thereof, or by force to prevent, hinder or delay the execution of any law of the United States, or by force to seize, take or possess any property of the United States, contrary to the authority thereof, they shall each be fined not more than six years, or both."

Abilene, Texas, May 19.—Twelve additional arrests were made at Rotan today in connection with the investigation which is being made in this section of the state by State Rangers and Federal officers of alleged plots against the Government.

T. A. Hickey, editor of "The Rebel," a paper published at Hallettsville, in South Texas, was released on \$1,000 bond here this afternoon, to appear before the Federal Grand Jury here Oct. 1.—Dallas News.

ROBY MAN BACK IN RACE.

Austin, May 10.—Former Speaker J. W. Woods of Roby, Fisher county who has been in the city several days gave out the announcement that he will be a candidate in the democratic primaries next year for the office of attorney general. The former speaker made a strong race for the place in 1916.

Socialism is only another name for treason. Socialism and patriotism are opposite terms. The socialists of Russia propose to betray its allies for a peace that means the prolongation of a bloody war and the subjection of their country to German rule. Show me a socialist and I will show you a man whose views are opposed to the government under which he lives.—Sterling City News-Record.

NOTICE

THIS is to notify my customers that after next Saturday, the 12th inst., if your accounts are not paid in full up to May 1st I cannot accommodate you with any continuance of credit and will be compelled to demand the cash from those who are not paid up.

And from this date all accounts must be paid within one week after the 1st of each month if a continuance of credit is expected.

At the present prices of food stuffs, it requires twice the capital it did one year ago to carry the same stock of goods, and I cannot get the goods unless my customers pay promptly. I appreciate a prompt paying customer, but will be compelled to discontinue the accommodation of thirty days to those who do not pay promptly.

TO FARMERS OF MITCHELL COUNTY

On the 2nd day of June the Mitchell County Farmers' Institute will meet at the Chamber of Commerce at 10 a. m. in Colorado.

Read the program and study it, so that you will be prepared to help discuss it. If you can't say anything on the subject, if you have studied it, you will hear some one else talk, therefore you will know what he is talking about and you will know whether it will do or not.

Now listen, Mr. Farmer, you are not so wise but what you can learn something else about farming; and that is not all—you ought to learn the trade so that you can help others by giving your experience.

We hope that every local institute will send delegates, regardless of sex, for we will have some talks that the women will be interested in. We want to discuss the egg circle proposition. Come, tell us whether you want in or not!

There never was a better time for the farmers' co-operation than at present. We farmers are mean enough to set a price on our products, so let us have the nerve to do it. It is not fair to let the manufacturer set the price on his finished product and on our product too. Are you in favor of making him "tote fair"? If so let us hear from you.

We may have a time to out-bet the gamblers of the exchange, but there are more of us, and if we will lump our money together, we can out-bet them. You may belong to a church that does not tolerate gambling, but the government says this is good gambling, and the government belongs to a church and I guess it knows.

Just a word more about the egg circle and I will give you a rest. The consumer pays 25 cents for eggs and finds half of them bad. They tell us they will pay 50 cents if the eggs are all good ones. Now let us furnish them all good eggs and get the 50 cents. What do you say?
 J. H. RUSHING,
 Pres. Mitchell Co. Farmers' Inst.

It has been estimated from careful investigations that over ten per cent of our food is wasted by housekeepers.

A CHILD GETS CROSS, SICK AND FEVERISH WHEN CONSTIPATED

Look, Mother! If Tongue is Coated Clean Little Liver and Bowels.

If your little one's tongue is coated, it is a sure sign the stomach, liver and bowels need a gentle, thorough cleansing at once. When your child is cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine made by the "California Fig Syrup Company."

SOME RESULTS OF ORGANIZED EFFORT

Last Tuesday it was reported to the Social Service League that there was a case of distress in South Colorado. Mrs. Cromer, the committee on that side investigated and found a sick mother and seven hungry children. They had come in from San Angelo, the children walking, the mother and two babies and their worldly possessions in a donkey cart. They were on their way to Lubbock, where they had friends. Mrs. Broadus, the president, was notified, and immediately set things in motion to relieve the distress. Through the kindness of Mr. Sadler a collection of money, groceries and other necessities were contributed by the big hearted business men, and they were given a good supper and taken care of till the mother is able to travel when she and the little children will be sent on the train, and the boys drive the cart through.

This is one instance of how distress can be relieved through organized charities. Before this organization came into existence the county or a few in the immediate neighborhood, would have had to bear the burden but as it was, this deep distress was soon relieved and the burden equally distributed.

Mr. Winn of Winn & Payne, Overland dealers announced yesterday that he has secured for the automobile owners in Colorado, the motion pictures on the Knight sleeve valve motor, which will be shown at the opera house theatre.

"The picture is not technical," said Mr. Winn, "nor was it made from an engineering stand point. It is for automobile owners and tells in the language of the layman the history of the sleeve valve motor, its progress in Europe and in this country and wherein it differs from the Automobile motor as the average motorist knows it.

"In Europe every automobile owner know the Knight motor just as thoroughly as he knows anything else in connection with motor cars, but in America the motor is not so widely known. For this reason it has been deemed advisable to place before the owners what is known as the greatest advancement in automobile design in the last ten years."

This picture will be shown at the opera house Monday afternoon, at 3:30 free of charge. Also at night in connection with the regular show.

'Chamberlain's Tablets Have Done Wonders For Me.'

"I have been a sufferer from stomach trouble for a number of years, and although I have used a great number of remedies recommended for this complaint, Chamberlain's Tablets is the finest medicine that has given me positive and lasting relief," writes Mrs. Anna Kadin, Spencerport, N. The tablet form of this old reliable remedy makes it possible for you to check any illness at the very onset. It is a safeguard against coughs, colds and other catarrhal conditions, no matter what symptoms are manifest. Catarrh is an inflammation of the mucous membrane that lines the breathing apparatus and the digestive apparatus. PERUNA relieves catarrh. In tablet form it is **EVER-READY-TO-TAKE**. Its prompt action makes it invaluable for men and women exposed to sudden changes in the weather or compelled to be out in slush and rain. It will also be found most satisfactory as a tonic following an attack of illness.

JUNE FIFTH, REGISTRATION DAY

The President, on May 19, issued his proclamation setting June 5th as the day for registration for military service of all male persons in the United States between the ages of 21 and 30 years, inclusive.

In Mitchell county registration must be made to the presiding officers of elections whose names are as follows:

- Colorado, No. 1—J. A. Buchanan.
- Westbrook, No. 2—H. A. Lasseter.
- Spade, No. 3—A. R. Northcutt.
- Lander's, No. 4—J. D. Cozort.
- Cuthbert, No. 5—G. E. Goodwin.
- Car, No. 6—R. M. Jones.
- Lorraine, No. 7—R. T. Coffee.
- Iatan, No. 8—E. B. Gregson.
- McKenzie, No. 9—Jack Smith.
- Buford, No. 10—A. C. Gist.

The offices of registration must be opened at 7 a. m. and close at 9 a. m. County Judge J. A. Bullock, County Clerk W. W. Porter, Sheriff Cooksey and County Physician, Dr. T. J. Ratlig are constituted as a board of supervisors in the matter of registration and conscription.

This board is very important as it not only will have charge of the registration June 5, but will have charge of the selective draft feature later. This civilian board will say who shall and who shall not go to war, selecting the force from data placed on the registration blanks by the registrars. In this way only the cream of the nation's eligible men will be placed in the first army of 500,000.

After the conscription lists are compiled the board will wire its results to Governor Ferguson, who is head of the conscription work in Texas and the governor in turn will put the work in the hands of Adjutant General Hutchings. Then when the government gets ready to begin mobilization of the first 500,000 men, the war department will wire the governor how many men it wants from Texas and the adjutant general will wire Chairman Liston how many men it wants from Colorado. The board will then go carefully through the compiled lists, selecting the men most fitted for service.

Sheriff Cooksey has been instructed by E. H. Crowder, provost marshal general, at Washington, as follows:

"Those who, through sickness, shall be unable to present themselves for registration on the day named and those who expect them to be absent from the county in which they have their permanent abode, that they apply to the county clerk of the county in which they may be on the 6th day after the date of this proclamation, being May 25, for instructions as to how they may register on the date prescribed. In case such persons as, through sickness or absence, may be unable to present themselves for registration shall be sojourning in cities of over 30,000 population shall apply to the city clerk for information."

EVERYBODY SEES A CHANGE IN FATHER

Suffered Over Twenty Years And Spent Thousands of Dollars Tryin to Get Well—Troubles Overcome.

"My father has suffered from chronic stomach trouble for over twenty years and has paid out thousands of dollars on medicines and doctors," said G. W. Slayton, a well-known Cobb county farmer, who lives near Smyrna, a short distance out from Atlanta.

"We tried nearly everything trying to cure him, and he went off to the springs, thinking maybe the water would help him, but it just looked like nothing would reach his trouble. Then he tried dieting, and lived on liquid food until he almost starved—but even that failed to do any good and he just kept going from bad to worse.

"I don't guess there ever was a case as stubborn as his, and if there ever was a confirmed dyspeptic he was one of them, and I guess he would have been one yet if it hadn't been for this Tanlac.

"The first we heard of this medicine was when father saw an advertisement in the papers from parties he knew in Tennessee, who were friends of his and he knew what they said about it was the truth—so he got it right away and began taking it.

"Well sir, it acted just like magic—and everybody notices the change in father now—why, he is just like a different man, and sits to the table and eats like a farm hand. Only yesterday he ate pork and turnips for his dinner and ate so much we were actually afraid he was overdoing the thing, but he laughed and said nothing hurt him now, and that he was hungry and expected to eat and make up for lost time.

"Now, when a medicine will do things like that, I think people ought to know about it, and I want to say right now that I would not give one bottle of Tanlac for all the other medicines and health resorts in the country put together."

Tanlac is sold in Colorado by W. L. Doss and in Lorraine by Garland & Elliott. Adv

UNION ITEMS.

As time rolls on and many friends pass away, we are still here for some purpose. Are we all making valuable use of our time?—this is an important question.

Rev. Jackson filled his regular appointment at Union last Sunday, morning and night, with good attendance.

Messrs Claude Richardson, A. A. Dorn and Cliff Morrow motored out from Colorado Sunday. Come again; we are glad to welcome our townspeople.

Mrs. Pickens of the Plainview community is visiting her daughter, Mrs. O. R. McCreeless this week, in the home of E. M. McCreeless.

We will sell you a Go Devil with knives for \$19.00—Colorado Mer. Co. Growing crops are looking reasonably well under such unfavorable conditions generally. But let us face every condition with undaunted courage and surely success will crown our efforts in the end.

This section has been blessed with light rains recently and many sandstorms.

We have a complete stock of extras for New Perfection Oil Stoves—Colorado Mercantile Company.

Planting is still going forward with those who have sufficient moisture.

Some are beginning to talk dry planting, which is all right when it hits right. ELI

"Now I get me up to work,
I pray the Lord I may not shrink;
If I should die before the night
I pray the Lord my work's done right."

So great is the effect of cleanliness upon man that it extends even to his moral character. Virtue never dwelt long with filth; nor do I believe there ever was a person scrupulously attentive to cleanliness who was a consummate villain.—Rumford.

The southern orators who declared they would drink all the blood that would be shed in the civil war were careful to keep as far away from where the blood was shed as possible. Perhaps some of their successors can be found during the present crisis.—Exchange.

All talk of a conflict between classes and masses is a lie on the face of it. The immigrants and paupers of one generation are controlling factors of the next. But there is and always will be an implacable contest between organization and anarchy—between ignorance and intelligence—between efficiency and incompetence.—Herbert Kaufman.

This truth comes to us more and more the longer we live: that on what field or in what uniform or with what aims we do our duty matters very little, or even what our duty is, great or small, splendid or obscure. Only to find our duty certainly, and to do it faithfully makes us good strong, happy, and useful men, and tunes our lives into some feeble echo of the life of God.—Phillips Brooks.

"We have been young and now are old, yet never saw we the righteous forsaken," but quite frequently have we seen his seed when we thought a good licking with a plow-line would upkeep the tradition and reputation of their forbears. We confess readily, to being on old fogy and to the harboring of old fogy ideas. But there are some things that are fundamental; that will not change nor compromise. The Ten Commandments are among these unbudgable fixtures. They will not budge nor concede one iota to the importunities of the opportunist. The great law of Sinai says "Thou Shalt Not." The moral code is necessarily written in negative terms.

For a few hours last Friday afternoon, the sandstorm that prevailed from the south, didn't need credentials from even Amarillo, Texas or windswept Kansas. It was just about as thick and nasty as wind, drouth and sand can make conditions possible. We have seen as bad days in the early history of this section, when it was common to say that one "could not see a two-story building across the street." This fger was not so much in accord with the truth of the severity of the storm, as an effort to make it appear that the people of West Texas were more or less acquainted with houses of more than one story. It sounded well in print.

We publish this week in another column, a proclamation by President Wilson relating to the laws against the crime of treason and defining what treason means in letter and in spirit. Read it and be very careful as to what you say publicly. These be perilous times, and it behooves every patriotic citizen to do or say nothing that would tend to deter another from performing a duty he owes his country. If, possibly, you are without the provisions of the draft act, either by reason of age limit or physical disability, be careful to say nothing to deter or discourage others in meeting the crisis that now confronts our country in the spirit of the highest patriotic citizenship.

Knowledge comes, but wisdom lingers.

The overalls-barefoot foolishness that has seized upon some of our ordinarily intelligent communities is playing directly into the hands of William Hohenzollern. If the people of this country quit buying hundreds of thousands will be thrown out of employment and the country's vast resources will be set at naught from sheer inability to get in motion. The "Business as Usual" signs which appeared all over England at the beginning of the war had a basis on sound psychological facts. Prosperity is largely a state of mind. The wise and patriotic thing to do is to go on as usual, keep your head and talk prosperity.—Abilene Reporter.

No activity of a people so well and favorably reflects their progressive and prosperous condition as improvement in the school conditions. By this token, Mitchell county stands at the forefront among the progressive counties of West Texas in the improvement of its school conditions. Schools are being consolidated all over the county; the rate of taxation is being voluntarily raised for the purpose of issuing bonds wherewith to build better and more comfortable houses; libraries are being gathered in all of them; the interscholastic spirit of friendly rivalry is being promoted, and all in all, the general educational facilities of the county are being fostered with jealous care and discriminating judgment. The condition speaks well for all the school machinery—from county superintendent to trustees, teachers, pupils, and those who "pay the freight." There is likewise, a very noticeable increase of interest in all phases of school affairs on the part of the parents themselves. They now take an interest in knowing just what Johnny and Mary are being taught at school, and when the kid tells his daddy that roots of plants have little insects on them in order to make the plants bear, the old man no longer threatens to take his kid to a "cleaning in the back shed." The kid can now show his dad what he's talking about and prove it by his teacher.

BROAD VS. NARROW MEN.

Be free from opinion relative to any subject until you have definite knowledge upon which to base your opinion. Be fair to yourself by holding your opinion in abeyance until you know what you are doing. Don't take snap judgment. Don't form false impressions. Be open-minded and fair. Be open to conviction. Don't be prejudiced by the opinion of others. Have a mind of your own and use it. Strong minds are free from prejudice. Weak minds are led by the opinions of others. Strong minds form their own opinions based upon self-imposed research. Big men never judge until fair trial is given. Hence such men succeed because they know what they are doing. Pre-conceived judgment is guesswork and is usually wrong. Such practice leads to failure. Leaders in business are always open-minded men, unprejudiced and fair. The plodders, the parasites, the failures in life are invariably men of narrow minds, of small perspective of plant will-power, of prejudice. The big men dominate by virtue of the bigness of their minds, broadness of their vision, fairness of their hearts and firmness of their will-power. Never commend or condemn until you know. Investigate first with fairness and freedom from prejudice.—Leon M. Hatten.

The University of Texas will contribute 318 young men to the war. Practically the entire number was accepted for the officers' reserve training camp at Leon Springs, while two enlisted in the navy. Probably the first representative of this institution to reach Europe will be Neil Hall, a student of the department of Education, enlisted in a contingent of road construction engineers to be sent over immediately. He will be one of a group of 10,000 Americans who will devote themselves to engineering and maintaining the railroads of France.

COMMUNICATED.

Editor Record:

This is not intended as a reply to or a criticism of the "Protest" in last week's Record, but is simply an airing of the private and personal opinion of one reader of your paper. But as it seems to meet the approval of some others, will risk its consignment to the waste basket.

The principle that "without the shedding of blood there is no remission of sin" seems to have been proven in the history of all nations as sound doctrine politically and socially, as in the spiritual realm. It is the foundation stone of the Christian Religion. The blood of martyrdom has ever been the seed of the church. And every generation should be willing to pass on to posterity a richer heritage than it received, in both civil and religious freedom.

Every advance of the human race or betterment of its condition, has been secured with the weapons of carnal warfare. Consider the three great stages of human advancement since history gives us record. The first was ushered in by the siege of Troy and ended with the French Revolution. We have lived since that date under the civil and religious liberties its blood bought. Up to the time of the Trojan wars one part of the human race was held in complete vassalage by the other. Till the French revolution, privilege ruled.

The present conflict is between a pure democracy and an obsolete autocracy. Not only will the myth of "divine right of kings" be dissipated forever, but out of the melting pot will be evolved a democracy heretofore dreamed of, but never approached. There will be less necessity of government because the people as a whole will come to so well understand the relation of things, both as to individual and property rights, that but little government will be necessary. But this very knowledge will come through blood, tears and travail of spirit.

Think you, for a moment, these great forward and emancipating strides could have been taken and the

vantage ground kept, without the sacrifice of human life and the destruction of human accomplishments? God, in His omnipotence, could have wrought these mighty advances merely by the power of His word. But the race would have been impotent to keep the ground, because knowing nothing of the blood and sacrifice of its accomplishment, it would not have been prepared, fitted and hardened to appreciate and defend miraculously given liberties and blessings.

Sacred history is replete with baptisms of blood and fire, through which God's people have been caused to pass. They have been allowed to smite the enemies of Jehovah "hip and thigh," and in every conflict, where their own hands were clean, the Lord of Battles has abided with them.

The very liberties for which we today thank God; the security of our property rights and opportunity to render a just stewardship to the Lord himself, came not by quiescent acceptance, but by manly fight. And only a knowledge that we will fight again to retain them, stays the grasping hands of greedy neighbors.

It is hard to disassociate the physical "Slacker" from the spiritual weakling. In fact, so intimate is the connection, that the metaphor—"girding the loins" came in patriarchal days even to betoken a spiritual as well as a physical condition of preparedness and combativeness.

This is not a criticism of the "Protest" to President Wilson, in last week's Record, asking that the communicants of a large and eminently pious and right-living church organization, be absolved from military duty. They have every right to their opinion in the premises and the right of petition can never be abridged. I take issue with the expediency of such a protest at this juncture. The safety of the state and the perpetuity of any church should be well considered and evenly balanced. The church organization is but subsidiary to the stability of the government. The government comes first in every good citizen's heart and the perpetuity of the church and guarantee of

its liberties depends upon the stability of the government.

The "timid good" have ever been rather more of a handicap to any policy of national defense than a help. They are a recognized element of weakness and possible dissention and disloyalty. For this reason "those whose religious belief prevents them from bearing arms in defense of their country" are excepted from the draft act passed by the present congress. Only whole-hearted service is wanted.

Not only is every government founded on the principle that its subjects will yield their lives in defense of its existence, but the home itself is built upon the same principle. Death has been the merited portion of every violator of the sanctity of the home. And the man who would not seek redress for the spoilation of his home with a shotgun, would have scant sympathy in the community where he lives. We are told somewhere in the sacred book that "Jehovah is the God of battles; the Lord is His name." A B C.

The fact that rain has visited nearly every section around Colorado in season-giving quantities, is a source of great encouragement. Under the circumstances—in the face of a practical drouth for two years, the soil has held what little moisture it has received to a remarkably surprising degree, despite the prevalence of more wind the past few months than usually falls to the share of West Texas.

One of the most successful preparations in use for this disease is Chamberlain's Cough Remedy. S. W. No paper appreciates the interest of friends more than does the Record nor is more ready to reciprocate such favors. We want the news from the rural districts and we are always ready to meet the correspondent more than half way in the matter of getting it. But we want reliable news; not merely idle rumor, heresy or social gossip. It may possibly be of some neighborhood interest to read that "John was out with his best girl Sunday; look out Jim!" but to 98 per cent of the other readers of the paper its the verriest rot. Send us the news of general interest and we'll gladly publish it every time, if we know who is responsible for it.

Rooster Round-Up

THE time of year is now on us for you to get rid of your roosters if you plan on getting a good price for your eggs all through the summer. We do believe that if every family would dispose of their roosters, after 20 days we would not have any but infertile eggs, and we could count on getting 20 to 25 cents per dozen all through the summer. Infertile eggs is the only kind the producer can handle through the summer months satisfactorily to himself, his merchant and customers. No risk to anyone handling infertile eggs. We, knowing this to be a fact, will ask for your consideration and cooperation on this important benefit to us all.

We Wish to Make You the Following Liberal Offer

Every woman or man that will bring us their roosters, surplus hens, turkeys and eggs for the next seven days, BEGINNING SATURDAY, MAY 26, and ENDING SATURDAY, JUNE 2nd, and will register their names, will be entitled to a guess at the net proceeds we receive for the seven days on the chickens and eggs we receive from you at our three stores—the woman guessing the amount or the nearest amount will receive a \$10.00 costume of her own choice from either of our three stores; and if it should be a man that guesses the amount or nearest amount, he will receive a \$10.00 suit free of cost to him; and in case you decide that you want a better suit than the price named, you can get same by paying the difference. None allowed to make a guess only those who bring us chickens, turkeys and eggs. On this special occasion we will make you the following offer for your produce—

BEGINNING SATURDAY, MAY 26th, AND ENDING SATURDAY, JUNE 2nd

ROOSTERS, in trade	30cts. Cash 25cts.	TURKEYS, in trade	16cts. Cash 15cts.
HENS, in trade	16cts. Cash 15cts.	EGGS, in trade	25cts. Cash 25cts.

Bring us your produce. We all the time pay you the highest prices for same. Only one prize given away from our three stores.

ANNOUNCEMENT PARTY.

Wednesday afternoon Mrs. F. M. Burns was at home to her many friends from 4 to 6 o'clock, the occasion being to announce the engagement of Miss Marguerite Looney to Mr. Lester Thomas of Fresno, California, the wedding to take place June 12th.

Besides the pleasure of being in the beautiful and hospitable home of Mrs. Burns, every one was anticipating the real motive of the entertainment, as Cupid was suspected of having a part in it.

The guests arrived in groups and were greeted by Mrs. Burns and the daughter of the house, Miss Dorothy. Mrs. Prude introduced them to the receiving line, which consisted of the intimate friends of the honoree and several out of town guests—Mrs. Marshall of San Angelo, Mrs. Gary and Miss Gary of Big Spring; Mrs. Boren, Mrs. Perry, Mrs. Harp of Sweetwater; Mrs. John Walker and Miss Mary Walker of Brownwood.

After all had been received, score cards were passed, announcing the important event in a most unique fashion. The words were written backward, and after the game of solving it was finished, best-wishes were in order.

Miss Mary Walker delighted all with her singing. Her voice is one of rare sweetness and she gave songs in English and French, all of them love songs, in keeping with the occasion.

The young ladies of the house party served brick ice cream with a little pink heart frozen in the center, and little cakes were passed in baskets by little Fannie Bess Earnest and Annie Mary Lupton.

The honoree wore an old rose satin trimmed in beads and wore a large black hat.

This was a most delightful occasion as Miss Looney is one of Colorado's most popular young ladies and the only regret is that she is soon to leave Texas.

HONORING MISS BLANDFORD.

Saturday afternoon Mrs. Royall G. Smith entertained a crowd of young ladies honoring her sister, Miss Nora Blandford of Fort Worth, and Miss Mary Hardy of Sweetwater. The guests were the young ladies who had called on her sister. The young ladies brought their sewing and the time was spent in pleasant conversation and sewing. An ice course was served.

W. L. Doss has the exclusive agency for TANLAC.

DAUGHTERS OF THE KING.

Miss Rankin was hostess for the Daughters of the King last Thursday. The devotionals were led by Mrs. Merritt. The main topic for discussion was the recent district meeting at Snyder, led by those who attended. Mrs. W. L. Morrow was received as a new member. Mrs. Seal was a welcome visitor. Light refreshments were served.

Wash Away Skin Sores

To the many sufferers of skin disease D. D. D., the liquid wash, has become a household word. They know it is reliable and they can depend on it, they do not hesitate to recommend it to their neighbors. It has proved itself a remarkable remedy for all forms of Eczema. It is a germicide that is harmless to the most delicate skin, but still it is effective and quick in action. If you are a sufferer from skin diseases, including ulcers, pimples, scales, crust or Eczema in any form, this remedy will not disappoint you. It has stood the test and today is the master preparation for all skin diseases. Come in today and ask about our guarantee on D. D. D. Also about D. D. D. Soap, that keeps the skin healthy.

AT HOME.

On Thursday afternoon Mrs. J. D. Wulfjen, Mrs. Sam Wulfjen and Mrs. E. H. Winn, were at home from 4:30 to 6:30 at the home of J. D. Wulfjen, to their many friends.

The house was tastefully decorated in flags and red, white and blue draperies; the only flowers were carnations in the dining room.

As the guests arrived they were greeted by Mrs. Bert Wulfjen. Mrs. Barcroft introduced them to the receiving line, which was composed of Mrs. J. D. Wulfjen, Mrs. Sam Wulfjen, Mrs. E. H. Winn, Mrs. H. G. Towle of Snyder, Miss Jack Castles of Anson and Miss Ina Wulfjen.

During the time a musical program was given by Mrs. Royall Smith, Mrs. Oscar Majors, Misses Ruby McGill, Eleanor Coleman, Louisa Roe, Lela Whipkey and Lucile Henthorne. Miss Smith gave a most enjoyable reading.

Mrs. W. L. Doss then introduced them to the recruiting officer, Mrs. M. K. Jackson, who was in white, with the national colors as her adornments, and presided at the booth where all registered.

At the call of the bugle the officer announced in rhyme that there had been 150 registered for the various departments, but that one was different from any of Uncle Sam's departments, and announced that Miss Ina Wulfjen and Mr. S. H. Wallace wished to enlist together to fight life's battles, beginning June 6th, 1917.

After applause and best wishes the guests were shown into the dining room by Mrs. Pidgeon and Mrs. Earl Jackson, where a salad course and ice tea were served by four recent brides—Mrs. Lee Phenix, Mrs. Milburn Doss, Mrs. Urda Wulfjen and Mrs. Ed Jackson.

Mrs. J. H. Greene and Mrs. J. R. Collier gave the good-bye hand-shake to the guests as they left, with best wishes for another one of Colorado's sweetest and fairest daughters, who is so soon to leave, but have a happy home of her own.

STUDY COURSE.

The Methodist Missionary Society met at the church Monday for their regular mission study course.

Miss Jo Dry conducted the devotional services, reading the 11th chapter of John. The lesson was led by Mrs. Merritt, it being the third chapter of Our South American Neighbors.

GIRLS' LEMON JUICE IS SKIN WHITENER

How to Make a Creamy Beauty Lotion for a Few Cents

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier. Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. MISSIONARY MEETING.

The Presbyterian Missionary Society had a most profitable meeting with Mrs. Coleman last Thursday.

The foreign mission lesson was on Japan, led by Mrs. Maddin. Mrs. Abe Dolman led the lesson in "Living Christ for Latin America." Mrs. Teele of El Paso was a welcome guest. After the lesson ice cream and cake were served.

BIRTHDAY PARTY.

Miss Virgie Powell entertained twenty of her classmates last Thursday, honoring her birthday. The house was made attractive with cut flowers. A very pleasant time was had with games and music. Her teacher, Miss Omeira Terry was guest of honor. Ice cream, cake and fruit were served. Many dainty gifts were left as souvenirs of the happy occasion.

PRESBYTERIAN CHURCH.

You are cordially invited to attend all the services of the Presbyterian church. Sabbath school at 9:45 a. m. Young Peoples' Society at 7 p. m. Preaching by the pastor at 11 a. m. and 8 p. m. Every member of the church specially urged to attend every service. A loyal people makes a live church.

CLASS RECITAL.

Last Saturday afternoon Miss Whipkey's music class gave a recital at her home. Each pupil invited a guest. The program was well rendered and showed splendid training. The advance of the pupils having taken last year was specially noticeable. The program was rendered as follows:

- Song of the Thrush—Roxie Lee Smith and Miss Whipkey.
- Hello! Is this the Weather Man?—Robert Whipkey.
- Idle Hours—Jewel McDonald.
- Lullaby—Winnie Spalding.
- Return of Spring—Geneva Holt.
- Love's Echo—Margaret Davis.
- Danse Romantique—Sibbie McKinney.
- Polka de Concert—Zadie Mae Bills.
- Song Without Words—Juanita Whitmore.
- Humoresque—Mary Broaddus.
- Souvenir—Myrtle Barber.
- La Tipica Polka—Fannie Reese, Ima King, Mrs. Homer Nabors.
- Valse Ballet—Addie Watson.
- Love's Avowal—A. C. Beckner.
- The Nightgale in the Garden—Fannie Bess Earnest.
- Mazurka Brillante—Juanita Cook.
- In the Meadow—Fern McDonald.
- Scene de Ballet—Fannie Reese.
- Valse Bagatelle—Joe Earnest.
- (a) Joyous Peasant, (b) The Pixie's Good Night Song—Ed Jones, Jr.
- Mazurka—Lois Whipkey.
- Babbling Brook—Tye Williams.
- Lords and Ladies—Gladys Dorn.
- Grand Polka de Concert—Daisy Adams.
- Camp of Glory—Joe Earnest and Miss Whipkey.

MISSIONARY MEETING.

Mrs. Greenwood was hostess for the Baptist Missionary Society last week, with Mrs. Gustine leader. A large crowd was in attendance and an interesting meeting held. The topic for study was Home Base—the Working of Home Missions from the Home Land. The various phases of the work were discussed by different members. All present added their names to the army of Food Conservation. Mrs. Wilson, of Mangum, Oklahoma, was an appreciated guest. A fruit salad, wafers, olives and ice tea were served at the social hour. The next meeting is with Mrs. F. B. Whipkey.

GARY STERRETT DEAD.

The little three-months old baby of Mr. and Mrs. Lewis' Adair died last Friday morning, after an illness of only a few days. The funeral service was conducted Saturday morning by Rev. Guy B. Duff, and the little one laid to rest in the I. O. O. F. cemetery. While this little jewel was loaned only for a short time to the keeping of these fond parents, yet it was deeply enshrined in their hearts, and it was so hard to give it up. But the Master had called for His own, and in humble submission they yielded to His will. The Record joins their host of friends in extending sympathy.

YOUNG PEOPLE.

The Young People's Missionary Society of the M. E. church gave their pageant—a conversation over the telephone—Sunday evening at the church. Special music was also given and a free-will offering taken. This goes to send their delegate to conference at Chillicothe next week.

FOOD CONSERVATION.

The Food Conservation League met at the Chamber of Commerce last Friday. Reports came in that nearly every one approached were willing to become a member, and it was thought that by June 1, every woman in town would have been solicited.

Further plans were made for the patriotic demonstration June 14. The president was asked to select a committee on arrangements. Misses Coleman, Roe and Whipkey were selected to take charge of the music. The Farmers Institute has asked the League to have one hour on the program at their next meeting, June 7. The program will be prepared next week and it is hoped that a large crowd of the women will attend this meeting.

JOINT ENTERTAINMENT.

The pupils of Miss Smith and Miss Ruby Conaway will give an entertainment at the high school auditorium next Saturday afternoon at 3 o'clock. The public is cordially invited. Miss Conaway will also have on display her china and some pieces will be for sale.

PARENT-TEACHERS.

The Parent-Teachers Association met at the High school building Tuesday afternoon after school. The regular routine business was attended to. They decided to have a little special work done on the school grounds after school, and Mrs. Earnest, Mrs. Adams and Mrs. Shepherd were appointed as a committee to look after the matter. It was decided not to hold any meetings during the summer months.

The roll call was comments on the past year's work. All present expressed themselves as heartily pleased with the year's work. In fact the work has been remarkable under the crowded conditions. The affiliation has been restored and the school is in excellent condition.

The junior class sent in a \$10 check for their part of the library, which was gratefully received.

The program was on Economy. Mrs. Broaddus read extracts from the president's address, and concluded with a timely talk. Judge Bullock read a most excellent paper on Public Economy. He was asked to give it some time in the near future at the meeting of the Food Conservation League.

After the business and program, a social hour was indulged in, honoring the teachers who have been most faithful. Refreshments of ice cream and cake were furnished by Mrs. C. H. Earnest and Mrs. F. B. Whipkey.

ENTERTAINED.

Miss Marguerite Looney entertained with a five course luncheon Wednesday. The party consisted of a few old-time friends and those who are to be in her wedding on the 12th of June—twenty in number.

The table was a scene of beauty with pink and white carnations, and its trim decorations and with the happy party, the picture was complete. After luncheon, the girls were told of the coming event, and asked to be in the wedding. They were then invited to look at the trouseau, which was indeed a pleasure. This filled the time until it was time to go to Mrs. Burn's where the formal announcement was made, and they were all in the receiving line.

Y. W. A.

Miss Ruby Conaway was hostess for the Y. W. A. Tuesday afternoon. After a business period they spent the rest of the time in studying The Child in the Midst. Cream and cake were served at the social hour. The next meeting will be at the church in two weeks.

RED CROSS MEETING.

The Needle Work Guild and the Social Service League of Colorado have called a meeting of all members of both organizations for next Tuesday, May 29, at 5 o'clock at the Methodist church, for the purpose of deciding upon the best method by which they may aid in the work of the Red Cross.

MRS. VAN TUYL, Pres. Needle Work Guild.
MRS. BROADDUS, Pra. Social Service League.

CANTATA.

The ladies of the Christian church are preparing to give a cantata in the near future. Miss Smith is drilling the children and this promises to be the treat of the season.

ROGERS SCHOOL CLOSED.

The Rogers school, of which Miss Minnie Lawless is teacher, closed last Friday. The feature of the day was a ball game between Cuthbert and Rogers. The game went in favor of Cuthbert. The teacher served lemonade. At night an ice cream supper was given at Mrs. Mints' where Miss Lawless boarded.

This school has been such a success that the trustees offered the school to her again for next year.

A splendid program will be rendered at the school auditorium, June 5, Don't miss it—only 25c.

The irony of the statement that many golf links and beautiful lawns of the sentimental rich, will be plowed up and planted to some useful crop or vegetable, while millions upon millions of fine agricultural land all over the country are being held idle for speculation, is apparent to any thinking man. Right here under our very noses, enough farming land is being held for speculative purposes to feed two or more counties the size of Mitchell. The plowing up and planting of any lawn or pleasure field, in the face of a domain of land held by Ground Hogs, is not only a joke but a travesty. The government could take charge of this idle land and have it put to some purposeful use. There's no sense in destroying anything that has already been made, whether of practical use, pleasure or beauty, when there is more idle land in these United States held merely for speculative purposes, than comprise the combined area of several of the warring European countries.

DAN PHILLIPS FOUND DEAD.

While his family were attending church last Sunday, one of the little boys who had remained at home, had occasion to go to the barn where he found his father, Dan. L. Phillips, dead, but sitting upright. Help was summoned and Justice of the Peace Fred Meyer, called to hold an inquest, the verdict of which was that Mr. Phillips had come to his death by a pistol-shot wound self-inflicted.

Funeral services occurred Monday morning at 10 o'clock at the home just east of town, Rev. R. C. Pender of Abilene, conducting same. Interment was made in the Odd Fellows cemetery under the auspices of the Masonic order.

Mr. Phillips was a native of Ohio, born at Bowling Green, July 1861. He had been a resident of Texas since 1880 and of Mitchell county for 25 years. He was married to Miss Ella Gray, January 1893, to which union thirteen children were born, all of whom with his widow, survive him.

Mr. Phillips was an industrious and scrupulously honest man, believing that every advantage should be given his children in an educational way. His death was a great shock to the entire community. The Record extends deepest sympathy to the bereaved family.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

PAIGE
The Most Beautiful Car in America

YOU may be one of the thousands of people who have planned to buy a Paige Linwood "Six-39" this spring. If so, let us suggest that you place your order immediately.

There is a tremendous demand for these beautiful five-passenger models. Orders are pouring into the factory from all sections of the country, and it is a foregone conclusion that our "Linwood" production will fall far short of the demand.

Then, also, remember that the cost of manufacturing materials is steadily advancing. Each day it becomes more difficult—and consequently more expensive—to secure the steel, aluminum, copper and brass that are found in a car like the "Linwood."

Right now, you can buy one of these cars for \$1175. If you delay the matter too long, you may have to pay considerably more. Or, as we said in the beginning, it may be impossible to secure early delivery on a Linwood at any price.

TOLER & PETTY, Agents

MITCHELL COUNTY AGENT ACCOMPANIED BY COUNTY OFFICIAL AND OTHER PROMINENT CITIZENS, COMPETES FOR \$5,000 PRIZES.

Maxwell Car Makes 39.7 Miles on One Gallon of Gasoline, Carrying Four Passengers.

There have been record and record for economical gasoline consumption by various cars—every manufacturer claiming that his particular car could make more miles on the gallon consumption than any other car made.

Naturally, the Maxwell makers and agents wanted to be able to urge the same argument in the sale of their cars. To this end Mr. Hubert Toler of the Toler & Petty Agencies, arranged to make a test run. Two Maxwells and a Dodge carrying repairs, supplies, etc., were taken last Wednesday morning to a point 15 miles south of Sweetwater, on the Ballinger road, where the start was made. The course was from the starting point to Sweetwater, thence to Roscoe and toward Hermleigh. The larger part of this route consists of average roads for this section.

The car that made the test was driven by Mr. Toler himself, and occupied by Judge J. H. Bullock, County Judge of Mitchell county, Barna Haney, furniture dealer of Lorraine and A. H. Weston, editor Colorado Record. They were ordered by Mr. Toler to "sit tight and not rock the boat." The speedometer showed an average of 16 miles the hour traveling. The test car kept some distance in the lead of the others, and made the entire run without a single accident, hitch or delay of any nature.

The car driven by Mr. Toler was owned by A. B. Smith, living at Champion, south of Lorraine. Another Maxwell car, driven by Howard Miles and owned by J. F. Bennett of Lorraine, covered the same course on one gallon of gasoline, making the remarkable record of 36.5 miles. These cars were run under the identical conditions under which their owners run them every day, and the results show what the Maxwell car will do under average circumstances and in the hands of the average owners.

Just as it reached Pyron, the carburettor began to "spit" and Mr. Toler announced that the end had come. The place was accurately marked and the Dodge car which carried the test speedometer and came over exactly the very same ground, showed that the remarkable distance of 39.7 had been covered since starting.

Mr. Toler expressed himself as greatly pleased with the test run, although he would have liked to go the full forty miles.

The Maxwell people have offered prizes of various amounts of money, according to the population of the town in which the agency is located for the best records in these test runs, and everyone who knows of Mr. Toler's ability as a driver, believes he will come in with this record for a handsome prize.

It was certainly a fine performance for a customer's car, and no doubt, at the present price of gasoline, will stimulate the sale of the Maxwell cars. It means an economy of upkeep that will keep Maxwell cars on the road and going, when more expensive ones are laid up in the garage.

A PROCLAMATION.

By the President of the United States of America.

(Treason and Misprision of Treason)

"Whereas, all persons in the United States, citizens as well as aliens, should be informed of the penalties which they will incur for any failure to bear true allegiance to the United States;

Now, Therefore, I, Woodrow Wilson, President of the United States, hereby issue this proclamation to call especial attention to the following provisions of the Constitution and the laws of the United States:

Section 3 of Article III of the Constitution provides, in part: "Treason against the United States, shall consist only in levying war against them, or in adhering to their Enemies, giving them Aid and Comfort."

The Criminal Code of the United States provides:

Sec. 1. Whoever, owing allegiance to the United States, levies war against them or adheres to their enemies, giving them aid and comfort within the United States or elsewhere, is guilty of treason.

Sec. 2. Whoever is convicted of treason shall suffer death; or at the discretion of the court, shall be imprisoned not less than five years and fined not less than ten thousand dollars, to be levied on and collected out of any or all of his property, real and personal, of which he was the owner at the time of committing such treason, any sale or conveyance to the contrary notwithstanding; and every person so convicted of treason shall, moreover, be incapable of holding office under the United States.

Sec. 3. Whoever, owing allegiance to the United States and having knowledge of the commission of any treason against them, conceals and does not, as soon as may be, disclose and make known the same to the President or to some judge of the United States, or to the governor or to some judge or justice of a particular State, is guilty of misprision of treason and shall be imprisoned not more than seven years, and fined not more than one thousand dollars.

Sec. 6. If two or more persons in any State or Territory, or in any place subject to the jurisdiction of the United States, conspire to overthrow, put down, or to destroy by force the Government of the United States, or to levy war against them, or to oppose by force the authority thereof, or by force prevent, hinder or delay the execution of any law of the United States, or by force to seize, take, or possess any property of the United States contrary to the authority thereof, they shall each be fined not more than five thousand dollars, or imprisoned not more than six years or both.

The courts of the United States have stated the following acts to be treasonable.

The use or attempted use of any force or violence against the Government of the United States, or its military or naval forces;

The acquisition, use, or disposal of any property with knowledge that it is to be, or with intent that it shall be, of assistance to the enemy in their hostilities against the United States.

The performance of any act or the publication of statements or information which will give or supply, in any way, aid and comfort to the enemies of the United States;

The direction, aiding, counseling, or countenancing of any of the foregoing acts.

Such acts are held to be treasonable whether committed within the United States or elsewhere; whether committed by a citizen of the United States or by an alien domiciled, or residing, in the United States, inasmuch as resident aliens, as well as

Cincinnati Man Tells How to Shrive Up Corns or Calluses So They Lift Off With Fingers.

Ouch ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says freezezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezezone will cost very little at any drug store, but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezezone tell him to order a small bottle for you.

citizens, owe allegiance to the United States and its laws.

Any such citizen or alien who has knowledge of the commission of such acts and conceals and does not make known the facts to the officials named in Section 3 of the Penal Code is guilty of misprision of treason.

And I hereby proclaim and warn all citizens of the United States, and all aliens, owing allegiance to the Government of the United States, to abstain from committing any of the acts which would constitute a violation of any of the laws herein set forth; and I further proclaim and warn all persons who may commit such acts that they will be vigorously prosecuted therefor.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington this sixteenth day of April in the year of our Lord one thousand nine hundred and seventeen, and of the Independence of the United States of America the one hundred and forty-first. (Seal) WOODROW WILSON

A SYMBOL OF HEALTH

The Pythagorians of Ancient Greece ate simple food, practiced temperance and purity. As a badge they used the five pointed star which they regarded as a symbol of health. A red five pointed star appears on each package of Chamberlain's Tablets, and still fulfills its ancient mission as a symbol of health. If you are troubled with indigestion, biliousness or constipation, get a package of these tablets from your druggist. You will be surprised at the quick relief which they afford. Obtainable everywhere.

A LANDMARK REMOVED.

Another landmark of Colorado went the way of all grass last Friday night. "Sally," the old bay mare that adhered to the Arbutnot family for fifteen years, and served them faithfully, was knocked off the approach on the west end of the river bridge by a car driven by L. C. Dupree. He was trailing a lead car into town and did not see the mare on the bridge until just upon her. He applied brakes to his own car, but the trailed car ran into him and thrust his car upon the mare, which was hobbled, knocking her off the bridge, through the banister rail, and barely stopping in time to prevent going off himself.

The old mare had just been traded by the family to some parties going west, and she was making her way back to town from the camp just west of the river, when the accident occurred. The mare was at least 14 years old when she came into the possession of the Arbutnot family, and they had cared for her fifteen years more. She was a dependable, patient and kind animal—which can not be said of many humans.

NEARLY HALF INCH RAIN

Last Saturday afternoon between three and four o'clock old Jupiter Fluv. paid us a brief visitation with a precipitation of .41 of an inch. It did an amazing amount of good, freshening the grass and giving the gardens new life and strength. The field crops were also benefited; but on the following day a sandstorm prevailed throughout the afternoon, rapidly drying the ground of the moisture that fell the day before.

But the rainfall will come all in good time. Never think of becoming discouraged. It always has rained; it always will rain, and that too, in ample time to keep things moving toward accomplishment of the Father's good but comprehensive plan. We can see it only in selfish segments and disjointed fragments, and it is hard at times to realize that all things do really work together for good.

EASY TO TAKE—NO PAIN OR ACHE.

It's no longer necessary to bear the weakening sickness and terrible nausea that always follows a dose of calomel.

LIV-VER-LAX cleanses the torpid liver, and livens up the whole system by ridding it of the clogging poisons. Yet it works so gently and pleasantly that you hardly know you've taken it.

LIV-VER-LAX, being purely vegetable, is absolutely harmless, and does not tear up the system like calomel. And is guaranteed to be satisfactory, or the druggist will return your money. For sale at 50c and \$1 at W. L. Doss'. Adv

FREE OF CHARGE.

Any adult suffering from cough, cold or bronchitis, is invited to call at the drug store of W. L. Doss and get absolutely free, a sample-bottle of Boesche's German Syrup, a soothing and healing remedy for all lung troubles, which has a successful record of fifty years. A. Rogers, Clint Myrick, John Caldwell, George Candler, Dave Gressett and Coit Butler.

WHY THE POWER.

Although the average man who sits behind the wheel of his automobile is able to tell at what horsepower the motor of his automobile is rated, he is not familiar with the reason why. While the power curve in chart form is familiar to all engineers, the motion picture has stripped this subject of all technicalities and will illustrate a power curve of the Willys-Knight sleeve valve motor on the screen at the opera house, Monday, May 28.

"The picture," explained Mr. Winn of Winn & Payne, Overland dealers, under whose auspices the film is to be shown, "are directed to the car owner rather than to the technical man and therefore much thought was given to the preparation of a power curve chart so that it might be shown on the screen in a manner calculated to impress the average man."

"When the pictures have shown in interesting detail what the Knight motor is there appears on the screen a square frame, up one side of which are indicated by figures, various degrees of horsepower; along the bottom of the frame are figures indicating the number of revolution a minute, and the frame itself is charted. A mark appears at the lower left hand corner of the animated chart and becomes a small line as it slowly winds its way upward and across the screen, indicating the power development of the Knight motor."

"Thus the motion picture is able to give what is declared to be the most vivid description of the power curve ever developed."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Colon. It is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Just before 3 o'clock Monday morning, the fire bell at the station began to clang and it clanged long and loudly before the slumbering denizens of the burg were aroused sufficiently to appreciate the fact that a fire was in progress. Telephone information was to the effect that it was the State Bonded Warehouse involved, and it did look to be that structure at first, but proved to be a shack in Little Chihuahua, occupied by a Mexican family. Hose was laid, but the frail structure was consumed before the nozzle could be adjusted. Loss both as to building and contents—nothing to speak of.

SEE THINGS HAPPEN.

Automobile owners who have been content to sit back in the comfortable upholstery of their cars as they roll along the highways unmindful of the many little things that were happening under the bonnet, can see these things happen as they watch the moving picture screen at the opera house next Monday night, May 28th.

The pictures explain in detail the operation of the Willys-Knight Sleeve Valve Motor.

The positive action of the sleeve valves, which are opened and closed by connecting rods, is clearly shown.

Positive valve action, according to a quotation from the Scientific American is the object of all motor car designers, who seek to eliminate the use of such uncertain factors as cams and springs, by means of which the valves of motors are opened and closed.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL.

Starts Your Liver Without Making You Sick and Cant Not Salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver-Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver-Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver-Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness, and constipation, you have only to ask for your money back.

Dodson's Liver-Tone is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no billousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work. Take Dodson's Liver-Tone instead and feel fine, full of vigor and ambition.

WHAT IS LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA A DIGESTIVE LAXATIVE

CATHARTIC AND LIVER TONIC

Lax-Fos is not a Secret or Patent Medicine but is composed of the following old-fashioned roots and herbs:

- CASCARA BARK
 - BLUE FLAG ROOT
 - RHUBARB ROOT
 - BLACK ROOT
 - MAY APPLE ROOT
 - SENNA LEAVES
 - AND PEPSIN
- Lax-Fos the CASCARA is improved by the addition of these digestive ingredients making it better than ordinary CASCARA, and thus the combination acts not only as a stimulating laxative and cathartic but also as a digestive and liver tonic. Syrup laxatives are weak, but Lax-Fos combines strength with palatable, aromatic taste and does not gripe or disturb the stomach. One bottle will prove Lax-Fos is invaluable for Constipation, Indigestion or Torpid Liver. Price 50c.

BETTER GET IT NOW.

If you have any idea of getting a Ford car this summer, you had better get it while the getting is good.
 A. J. Herrington called us in last week and handed us the following telegram, which he had just received hot from headquarters:
 "Mail immediately to Dallas original copies of total bona fide retail orders referred to in our telegram that we may have three original orders on file, and take no more retail orders from any buyer except with the following notation on each order, viz: If the retail price mentioned on this order is increased before delivery of car or chassis, the purchaser may, at his or her option, pay such increase or have deposit returned and order cancelled."
 This is a pretty strong pointer that the price of Ford cars will be advanced in the near future, and in order to play as safe as possible, it will be the part of wisdom and prudence to make your order and deposit now—today. The sooner you do this, the greater chance you have of getting a car at the present prices.
 Herrington's stock of standard tires is among the largest and best to be found in West Texas. He will soon have a Free Air Service in connection with his business, and will preach to auto owners the gospel of full inflated tires for service and economy. Many car owners get only half the real value and service out of tires because of failure to keep them tightly inflated at all times. This service will be free, and the owners of Ford cars and those who buy tires of him are urged to come and get the benefit of this service. Adv.

The flag has an etiquette of its own, and the rules as issued by the Sons of the Revolution are in effect, as follows:
 It shall not be hoisted before sunrise, nor allowed to remain up after sunset.
 At sunset, civilian spectators should stand at attention, and uncover during the playing of the "Star Spangled Banner."
 When the national colors are passing on review or in parade, the spectator should, if walking, halt, or, if sitting, arise and uncover.
 In placing the flag at half-mast, it should first be hoisted to the top of the staff, and then lowered to position, and preliminary to lowering from half-mast, it should be first raised to the top.—The Liberty Nat. Bank of N. Y.
 "He who dissuades one man from enlisting," said Abraham Lincoln during our Civil War, "or induces one soldier to desert, weakens the cause as much as he who kills a soldier in battle." That was true then and it is true to-day. Anyone who is discovered persuading men not to volunteer for the defense of the country is an enemy of it and should be treated as such by the federal authorities.—N. O. States.
