WEST TEXAS REMINISCENCES (By An Old Timer)

CHAPTER II

(Continued from last week)

After the wounded men had been treated by a doctor who was with the Brownwood crowd, Lieut. Milligan concluded to stay at the ranch till morning, and get into Comanche for late breakfast.

By this time it was apparent that the outlaws had all left Comanche county. So, hearing that there was a part of the same outfit at Hamilton we left Comanche late one afternoon arriving near the town of Hamilton some time after dark. We hobbled our horses and lay down on our saddle blankets and slept till day light. We went into Hamilton for breakfast and on our arrival we learned that the sheriff had arrested six men, but was forced to turn them loose for lack of evidence. But as the rangers had plenty of power we took charge of them and took them back up to Comanche, where we had one other prisoner. We held them here, as well as I remember, two days, when thirteen of us were ordered by Capt. Waller to take them to Austin and turn them over to General Steel. Orders came late one evening to be ready to start next morning. We knew we were up against the real thing unless we were lucky. We knew there were 40 of the gang somewhere in West Texas; five of them had been killed at Comanche; two of the leaders had escaped and left the country, and we had seven prisoners. So there were about 30 that we might meet at any time. Our orders were to take them to Steel or kill them.

As a precaution we concluded that each prisoner's horse should be led by a ranger, and this scribe was ordered to take charge of the most conspicuous man in the bunch, a big, portly fellow, and riding a horse that looked like he could jump the moon. All went smoothly and without any excitement till we reached the little town of Liberty Hill, in Williamson county. We had about gotten over our dread of meeting any bad men, and decided to stop at the little town as it was nearly night and we all wanted to get a square meal at the little hotel, for supper and breakfast, and thought too, we might find some help to guard the prisoners through the night, as we had been sitting up with them at night, till we were getting somewhat tired. But no, they wanted none of the pie, but informed us that the men we had in charge had quite a number of friends living near Liberty Hill, and if they caught on we would have to scrap them or give up our prisoners. So we decided that if they got one they must get all, and we went to a hardware dealer and got chains and padlocks, and strung them like fish, and put them to bed on the porch.

Nothing went wrong during the night. After getting our breakfast we struck out for Austin, arriving there just at sun down on a Sunday evening. We looked up the sheriff to get him to put the men in jail, but he was full up and had no room, but sent us to the city marshal, who said he had the room then but would not have by the time he got through with the drunks on the streets. I don't think I ever saw as many men locked up in one town as were locked up in Austin at that time. So we had to go to a hotel for the night.

Next morning we reported to Gen. Steel, expecting to be released and ordered to report back to Capt. Waller, then somewhere north of Comanche. But instead he told us to hold the prisoners at the hotel till further orders were given, and to keep a close lookout for friends of the prisoners.

During the afternoon two of their friends appeared, and by 10 o'clock next day five or six more were in town. We received orders at noon to have everything ready to take the train at 2 o'clock the next morning for Clinton, and of course the news spread, and all hopes of anything being pulled off by these friends vanished, and they disappeared. General Steel had put one by them. He instructed us later on that we were to leave at two the next morning over the dirt road instead of the railroad.

We arrived at Clinton about 9 o'clock Friday evening. Clinton is on the south bank of the Guadalupe river, and when we arrived we found about 100 men at the south end of the pontoon, waiting for us. Some for one purpose and some for another. We called for the sheriff, and a man stepped up quietly and informed us that he was the man. We dismounted and showed him the prisoners. He had them all to dismount and other men to get on their horses. All this was done so quietly that but few knew what was going on. He then called to some one to take the boys to the hotel, so we were led off to the right to the hotel, most of the crowd following us, and they did not know, until we got to the hotel, that we did not have the prisoners, as it was very dark.

Thus ended our work for this trip. We stayed at Clinton until Sunday morning, when we started on our journey home. When we got to Gonzales we learned there was a hanging near Clinton Sunday night. On our return we found our company located at McGue Springs in Eastland county. We immediately moved up on Big Sandy, 20 miles north of where Cisco now is, and established headquarters, preparatory to work on the frontier.

AMERICAN TROOPS IN FIRST LINE TRENCHES

Artillery and Infantry Take Places With the French at the Front.

American troops are now in the first line trenches on the French front. The artillery fired its first shot at 6 o'clock on the morning of a recent day at a German working party, marking the first contact of the American and German troops.

The first shell case will be sent to President Wilson. The gun used to fire the first shot was one of the famous French 75s.

Standing in a little, almost deserted shell-wrecked village, well within hostile gun range, the Press correspondent watched the troops marching up in a driving rain over roads covered with sticky mud. The artillery had been firing all day and as a result the impression was given that there was considerable more activity on this front than there had been for some time.

It was soon after lulls in the firing and in the dark that the first machine guns, hauled by Missouri mules, the drivers swathed in ponches and with shrapnel helmets over their eyes, came up on the road beside a dark canal. There was a long line of these and then came some infantry, rolling kitchens giving off a savory odor of warm food.

Through another street paved with cobbles and its sides lined with gaunt skeletons of shell-wrecked houses came the sound of the tread of many hobnailed boots and in the darkness the dim form of men could be seen. The cautious flash of an electric pocket lamp disclosed that they were American infantry, packs on their backs, rifles slung on their shoulders, rain glistening on their helmets and coats, the wind whipping the bottom of their coats around their legs which were moving with machine-like precision. The Americans swung down the street apparently as proud as though on dress parade, notwithstanding that they had marched miles from the billets where they had been since coming from the instruction centers.

Finally from the rear came the whistled strain of a tune which all knew—Tipperary—and from many places in the ranks whistles and voices joined in. It lasted briefly, as an officer, ordered "Stop that noise." As the Germans were nearby, much depended on approaching the scene quietly.

The troops entered the trenches safely unit by unit, passing quickly to the places assigned them. The welcome of the French was hearty, every American was shaken by the hand and some were hugged and kissed on both cheeks as is their custom. The Americans settled down and at daylight, under low-hung dripping clouds, they got their first view of the German lines stretched away in the rolling terrain.

It has rained daily since and the troops are covered with mud. But they are standing up under it like the brave boys of Uncle Sam, was expected to do when they got to the "front."

TO SUBSCRIBERS OF CHAMBER OF COMMERCE

In view of the financial conditions surrounding our town and county at this time, rendering it impossible to carry out some plans which we had, that would have called for the expenditure of a certain amount of money, we, your executive committee, after consulting with quite a number of our subscribers, decided to ask for only half the amount you have been paying towards the support of the Chamber of Commerce, up to this time. It is our purpose to keep in touch with every interest we feel will be of service to our people, and hope it will not be a great while before we can carry out some plans we feel will be worth much to our town and county.

A SOLDIER BOY.

Camp Mills, Oct. 18.—Your letter came yesterday, and was very glad to hear from you, also very sorry that it has not rained yet.

It hasn't turned very cold up here yet, but the natives say that it may snow and get cold at any time now.

I went to New York City on the 7th of this month, but did not see anything except a lot of tall buildings, but not near as many people on Broadway as I had heard. I did not go to any shows while in the city because I could not get a seat at the ones I found.

I have heard some good music at the Y. M. C. A., at different times, for instance, Fritz Kriesler, the great violinist; John McCormick, the tenor singer; Brown Bros., saxophone sextette and some others whose names I have forgotten.

They organized a foot ball team out of these 456 or more Texas men and it hasn't been beat. They played the Missouri Signal Corps and won 18 to 0; also won over the Kansas Ammunition train 6 to 0. The average weight of the team is 175.

No, I haven't been swimming or fishing and haven't even been to the beach, because it is some 20 or more miles from this camp.

This island is evidently a great deal larger than you realize and we are about the center of it.

As for having time off, we don't have much. We don't have to work very hard but have to keep at it.

We expect to leave at any time, but don't know anything definite. I suppose you received my letter telling that we thought we would leave within 48 hours—well, we're not gone, but how soon we leave is not publicly announced.

I am very well pleased with the service so far, but haven't driven a truck yet. I guess we will get them "over there." They tell me that the life of a truck driver is pretty hard "over on the other side," but this is a pretty husky bunch of men, and I guess we can stand up to it for a while, at least.

We have gotten our rifles but no ammunition yet. We can't use any night shirts, bath robes, bed-room slippers, silk shirts, stiff collars, or anything like that very well in the army. In the first place we don't need them; second, we have no room to carry them because we are given a big blue duck bag to put our extra stuff in and there is not room for such articles.

The red cross has given each man in the 42nd division a sleeveless sweater, a muffler, one pair of wrist-lets and some few pairs of socks.

Greeting to everybody and much love to you, your warrior son, Lister.

The above is a letter from Lister Ratliff to his mother. Lister is with Truck Co. No. 4, Rainbow division, at Camp Mills, L. I., N. Y.

MITCHELL COUNTY LIBERTY BONDS.

Mitchell county purchased in the Second series of Liberty Bonds, the amount of \$13,000. This amount went through the following channels: Colorado National Bank, \$9,400; City National Bank, \$1,500; First State Bank, \$1,000; Loraine State Bank, \$1,100; through employees at T. & P. depot, \$200. Through the postoffice \$250. The Boy Scouts secured \$8,000, which went through the Colorado National Bank. The sales in the county were about \$20,000 of the First series of bonds. Much credit is due Postmaster Jno. W. Person, in rallying the Boy Scouts to secure the \$8,000 sold by them. When you consider the condition of this county, the above is a very creditable showing.

LORAIN LOCALS.

Alfred Nelson and son, Martin of Barksdale, spent a few days this week with D. K. Nelson and family. They were enroute from Deming, N. M. to Barksdale. Mr. Nelson is a brother to D. K. Nelson, whom he had not seen in over twenty years.

Miss Lillie Nelson went to Sweetwater Thursday where she has accepted a position as clerk with the Sweetwater Dry Goods Co.

Mrs. J. A. Falkenberry and children of Ralls are visiting her parents, Mr. and Mrs. Tom Davis.

Mrs. J. W. Perkins, who has been visiting relatives in Loraine, returned Tuesday to her home at Lamesa.

Miss Ethel Gregg of Big Spring spent Saturday and Sunday with home folks.

Miss Pearl Allen is visiting in China Grove community this week.

Professor Butler of Mineral Wells who has been visiting his sister, Mrs. R. G. Peach, left Friday night for Dallas.

Mrs. H. L. Holder and children left Saturday morning for El Paso to join Mr. Holder, who is already there. J. H. Preston and boys, who have been working at Paducah returned home Tuesday.

Mrs. J. R. Walker made a business trip to Roscoe Wednesday.

Mr. Stephenson of Valley View, and Miss Ella McCollum of Bauman, were married Tuesday afternoon at Colorado, and left Wednesday morning for Valley View, where they will make their home. Mrs. Stephenson is well known in Loraine and her many friends wish her well.

Lester Jarrett of Champion, was very sick last week.

Rev. A. R. Lawrence of Abilene was busy in Loraine Saturday.

Rev. Thurmond of Roscoe preached at the Christian church Sunday at eleven o'clock.

W. H. Swafford left Saturday night for Dallas, where he will get employment.

Claude Swan and family returned Friday morning from Trent, where they visited relatives.

Miss Ida Nelson who is teaching school at Wastella, spent the week end with home folks.

Mrs. M. Copeland spent last week with relatives in Trent.

The Loraine basket ball boys played the Colorado boys Thursday night at Colorado and won the game by a score of 25 to 18.

Grandma Watlington, who has been visiting her daughter, Mrs. Sallie Looby, left Friday for her home in Boston.

Tom Farris and Mr. Levy of Sweetwater were in Loraine Thursday on business.

Mr. Kuykendoll of Honey Grove was in Loraine last week on business. Rev. C. E. Jameson and family left this week for conference, where they will be assigned their future home.

A HUGE JOKE.

The Taylor County Times perpetrates the biggest joke of the season in trying to bring out Fred Cockrell of Abilene for governor. Cockrell could not carry a single West Texas county, except, perhaps, his own, and we think this doubtful. The Times says:

"Texas—the empire state of the nation—has been afflicted with small calibre governors for so long that it seems she possesses no real gubernatorial timber. Since the regims of James Stephen Hogg and Charles Culberson our governors have been conspicuous for their mediocrity, or for the mistakes they have made. It is high time the biggest, fastest growing and most important state of them all have a real big man, a man befitting the high office of governor of our great commonwealth, a man who knows the needs of our state and who has the ability and backbone to carry out his ideas of what our state needs in the way of legislation to free her from petty political domination, in the governor's chair."

Only a few months ago the Times had columns of flattery about one James E. Ferguson, saying he was just such a man as described above. This was along about the time of the locating of the A. & M. College. Now note the change. Why? Ferguson was the smallest man Tex-

as ever had for governor, but he is far ahead of Fred Cockrell.

The Times is eminently right, however about Texas needing, just at this time a big, broad, clean and level headed governor, and the Record believes the right man will appear in due time (if not already) and save the state from the political thugs and the whiskey ring.

\$30 PROFIT PER ACRE.

B. T. Biggs, who lives in Reeves county and has an irrigated farm, reports that from a 20-acre patch, fifteen acres of which was in alfalfa and five in cotton, he this year cleared on the rents alone, after all charges for water had been paid, just \$600. This brings the profits, after the water has been paid for for rents alone, to \$30 per acre. Just think what the renter must have made for his labor—\$90 per acre, or enough to buy a good farm.

ITEMS ON THE RUN.

Yes, I am still at my brother's home. I worked last week until Friday, when a good friend took me to see the Dallas fair; and I tell you if the world is as big every way as it is this way, and as-much in it, its a butser. Crops are very good in this section, which looks mighty good to me, but no better than west Texas when it is as wet as this is now. So let us West Texas people look forward to a better day, for surely it will come.—E. M. McCreless.

THE COLORADO NATIONAL BANK
COLORADO, TEXAS

FROM CAMP TRAVIS.

We publish below a letter written by Junius Merritt, at Camp Travis to his mother at Colorado:

"We have just received orders to go to Fort Worth. 2900 go tomorrow night, the rest of the company sometime Monday. I am in the last bunch. I expect I will freeze when we leave here, if we are not given some winter clothes. Don't know whether I want to go or not, but will be nearer home and where I know a few people.

Yesterday was a holiday in camp on account of the Liberty Loan. We had several speeches by the commanding general, Allen, and others, and all kinds of out-door sports, and a big fireworks display. The soldiers of the camp have subscribed for nearly \$1,500,000 in bonds.

We sure are being worked now. I spent a day digging trenches and both hands are blistered. If I ever cross over and dig a trench it will take more than one German to take it from me, if they are as hard to dig as this one was—they are sure worth fighting for.

We are having extended order drill now. That is the way they fight. The men are scattered but "so as to cover a larger front and all commands are given by signals. There is a lot of running in this drill and my knees and elbows are skinned all over from falling. We have to fall, no matter where we are when the command "down" is given. I don't know what we will do when we get our guns and can't use our hands to break the fall. It's just like summer here, now. It hasn't frosted here, but we have had some cold nights. Will write as soon as I know where I am to be stationed. —Junius.

SOLDIER BOYS REGARD Y. M. C. A. AS GODSEND

PROVIDES SUBSTITUTES FOR HOME LIFE—GOOD CHEER, SOCIABILITY, CLEAN LIVING.

Texas Boy Says Can't Resist Writing Mother and Home Folks With Materials Furnished.

One of the most humanizing organized activities of war time is the work of the Y. M. C. A. in army training camps, in prison camps and in camps behind the firing line. Wherever your boy and the other boys may be sent, that big organization will be close beside them with its tonic atmosphere of good cheer, sociability and clean living.

Can't Resist Writing Home. Any one of the 75,000 Texas boys in the cantonments, or any one of the "Summers" in France, would tell you the same thing—this Texas boy wrote to his folks at home:

"I feel as if you ought to know something of the work of this life-saver—the Y. M. C. A. Since the 'Y' shack was opened, the Mesa bar and Bill's place are pretty well deserted. If you have loved ones at home, you just can't resist the open ink bottles and the pens and paper. It makes you ashamed to think that the 'Y' is more interested in your loved ones than you are. It hands you out religion in doses a man can take. It tightens up the halter that gets loose when a man gets away from home. Who pays? I don't know, but whoever it is, God bless them. They are the fathers of thousands of boys."

Look to Y. M. C. A.

President Wilson, Secretary of War Baker and Secretary of Navy Daniels are looking to the Association to afford them wholesome recreation, opportunity for study, substitutes for home life and manifold other comforts and necessities. The Y. M. C. A. program is designed to do just this thing for our boys from the time they enlist right up to the firing line—for they must die clean or come back straight if the yearnings of hundreds of thousands of homes are to be realized. To provide these few touches of home, whatever be the money cost of doing so, is in reality an insignificant service compared to the sacrifice these men are making for us.

Texas to Help Generously.

Texas is expected to give more than the \$400,000 allotted as her share of the \$95,000,000 national Y. M. C. A. war work fund to be raised in the campaign from Nov. 12 to Nov. 19.

10-CENT "CASCARETS" BEST LAXATIVE FOR LIVER AND BOWELS.

Don't Stay Constipated, Headachy, Bilious, With Breath Bad or Stomach Sour.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from a cold, constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, bad cold, offensive breath and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery. A 10-cent box means health, happiness and a clear head for months. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too.

HONORS OF ATROCITY.

The Sultan of Turkey has graciously conferred on the German Kaiser the diamond star of the Itficher Order, Turkey's highest war decoration, and the Kaiser has decorated the Sultan with the star and chain of the Hohenzollern Order with diamonds.

The honors are even—the hero of the Belgian and Lusitania murders and is honored by the hero of Armenian massacres. No one will question the deserving of the honors or the respective fitness of the mutual donors and recipients.

But to the intelligence and conscience of the world a Liberty Loan button, showing that an American citizen has done his or her part in support of our Government, is a vastly more honorable decoration than the diamond orders of the Sultan and the Kaiser. It signifies only a simple patriotic duty done; but the diamond orders stand for colossal infamy and murder.

FOSTERS WEATHER BULLETIN.

Washington, Oct. 27.—Last bulletin gave forecasts of disturbance to cross continent Nov. 1 to 5, warm wave Oct. 31 to Nov. 4, cool wave Nov. 3 to 7. This will be a fierce winter-like storm with heavy rains in cotton states and rains or snows in northern sections and on Pacific slope.

An extended series of fierce storms will come into telegraphic touch in the far northwest not far from Oct. 27 and will continue on or near the continent till near Nov. 5. During this world-wide series of great storms a hurricane is expected on the Caribbean Sea and in the West Indies. A great cold wave is expected during last days of October and first days of November.

Next warm wave will reach Vancouver about Nov. 5 and temperatures will rise on all the Pacific slope. It will cross the crest of Rockies by close of Nov. 6, plains sections 7, meridian 90, Great Lakes and Ohio valleys 8, Eastern sections 9, reaching vicinity of Newfoundland about Nov. 10. Storm wave will follow about one day behind warm wave and cool wave about one day behind storm wave.

By end of Nov. 5 these great storms will have spent their forces and quit weather is expected on the continent till about Nov. 13, except that the tropical hurricane may continue near our eastern coast after Nov. 5.

November promises warm waves near 3, 13 and 25, with average temperatures between 3 and 13 and unusually cold between 13 and 15. A cold wave expected during five days centering on 16. Precipitation will be general and continue till near 20 when it will go to South America and India, except that rains and snow will continue on northern Pacific slope.

GAME LAWS SHOULD BE KNOWN

Hunters should familiarize themselves with the game laws of the state and be particularly cognizant of the seasons in which birds and animals may be taken:

Prarie chickens and plover may be hunted from November 1 to February 1; ducks and geese from October 15 to February 1, with a limit of a bag; quail from December 1 to February 1, 15 limit; doves from September 1 to March 1, limit of 15 a day; deer November 1 to January 1, three bucks a season limit; wild turkey from December 1 to April 1, with limit of three a season.

Hunters are permitted to hunt in their own county or adjoining counties without a state hunting license. To hunt outside of one's own county or adjoining counties if a bona fide resident of the state for six months last past, the hunter will procure from the county clerk a state hunting licence, fee for same will be \$1.75. The licence expires Sept. 1 of each year, following the date of issue.

I have leased my wood yard to Mr. Lambeth, as Mr. Connor has given it up. Mr. Lambeth informs me that he has ordered a full supply of good wood, just such wood as the public will require, and hopes to enjoy the liberal patronage that Mr. Connor and I have enjoyed for so long a time. Mr. Connor joins me in thanking the public in general for their patronage, and we commend Mr. Lambeth to one and all.

Respectfully,
W. W. PORTER.

SPECIAL NOTICE.

In reference to the above notice I wish to say that I have ordered a large lot of the best wood obtainable which will be arriving in a few days. I am going to sell this wood to my customers at the lowest possible price. And I propose to give full measure—if you buy a cord of wood you'll get a cord. I will have different kinds, so that I can suit any customer. I promise to give the best and most prompt service. I ask a continuance of the patronage accorded my predecessors, assuring you that I shall do all in my power to deserve and retain it. Thanking you in advance, I am,
Yours truly,
O. LAMBETH.

CLAIMS VS. FACTS.

Did you ever stop to think that there is a difference between Claims and Facts? It is a principle in law that a man is innocent until he is proven guilty. It is also a principle that a man in business a claim is FALSE or EXAGGERATED until it is proved to be CONSERVATIVE or TRUE. In some cases the work of proving is quite difficult. Cold Hard Logic and Cold Hard Facts, these and these alone will win.

Brag, talk and hot air, if you please, spell failure. In writing you regarding our After Supper Sale we are making our statements not on what we THINK but on what we KNOW we have done. In other words, we are giving you actual cold facts backed by the actual cold cash received.

"You say the world looks gloomy
The skies are grim and gray;
The night has lost its quiet—
You fear the coming day.
The world is what you make it,
The sky is gray or blue
Just as your soul may paint it,
It's not the world—it's you!
Clear up the clouded vision,
Clean out the foggy mind;
The clouds are always passing,
And each is silver lined.
The world is what we make it—
Then make it bright and true,
And when you say it's gloomy,
It's not the world—it's you!"

RESOLUTIONS.

The following resolutions were adopted by the Teachers' Institute held in Colorado last week:

We the committee on resolutions beg to submit the following:

Whereas, The School Board, the Superintendent and the faculty of the Colorado Schools, have tendered us the use of their building, be it

- Resolved; 1. That we express to our appreciation of same.
2. That we heartily thank the citizens of Colorado for their hospitality
3. That we thank the visitors for their addresses, readings, solos, etc., thereby adding much interest to the institute.
4. That we express to our Superintendent, Judge Bullock, our appreciation for his untiring and ceaseless interest manifested.
5. That we thank the committee that drafted the daily program for the one-teacher school.
6. Further, we extend to our absent fellow teachers, who are now enlisted with the colors, our heartfelt appreciation for the services they are rendering our country.
7. That we endorse the action taken by the legislature regarding

the University of Texas.
And that we encourage the buying of Liberty Loan Bonds in our respective communities.

FOR A WEAK STOMACH.

As a general rule all you need to do is to adopt a diet suited to your age and occupation and to keep your bowels regular. When you feel that you have eaten too much and when constipated, take one of Chamberlain's Tablets.

The first case of bootlegging occurred in dry Dallas last week, when a negro, Louis Harrell, who was arrested for selling liquor to B. M. Marnee of Lancaster and T. D. Quinn of Decatur. His bond was fixed at \$1,000.

Making the world safe for democracy is a good sentiment, but Lord Northcliff brings it a little closer home to us when he declares that the United States is in the war to make the world safe for the United States.
—Kansas City Journal.

We have arranged for a series of six interesting articles, "War Talks, by Uncle Dan," written by Mr. Howard F. Gross, president of the Universal Military Training League, of which this is the first. They tell in a graphic way why military training is of value, both to the nation and to the individual, and our readers will find them of unusual interest.

WAR TALKS By UNCLE DAN Number One

America Must Fight Hard or Germany May Win—Necessity for Military Training.

"Now, Billie," said his mother, "your Uncle Dan is coming tomorrow to spend a week with us on the farm, and if you want to know about the war, here's your opportunity. Uncle Dan is probably one of the best-informed men in the country." Billie clapped his hands and gave such a whoop that he awakened the baby, but what could you expect of a fifteen-year-old boy who is a living interrogation point and wants to know about war?

Uncle Dan arrived in due time and Billie watched for an opportunity. It came that evening after dinner when Uncle Dan had lighted a cigar and taken a seat on the porch.

"I'm mighty glad you came, Uncle Dan. I want to talk to you about the war. We have just put military training in our township high school, but we had a hard time to do it. The Joneses and the Greggs objected. They said the war wouldn't come over here, Grandma Jones said: 'They ain't no use to warrit, it will soon blow over.' Well, we put the training in just the same. You order heard Judge Brownell, the president of the school board, do the slackers up. He said unless we take off our coats and go to it, Germany may yet win, and if she does, she will take over the great British fleet as a war trophy and compel us to do what ever she wants to; that she could make us pay all the cost of the war; the kaiser could tax us as he pleased and that we couldn't help ourselves. He could make every one pay over a part of what he earns; that he could make the farmers pay rent for their own farms, etc. Now, Uncle, what do you think of that?"

"Well, my boy," said Uncle Dan, "all that Judge Brownell says might easily come true and may unless we go quickly to the aid of the allies with large numbers of men and help them break the German line. Unless we can beat the submarines, they may prevent us from getting enough food to the allies to keep them going. In that case Germany would win. As matters stand today, our greatest need is trained men. If we had had several millions of men with military training in our industries and on our farms when the war came, who could have been called at once for service, I do not believe the kaiser would have forced the war upon us. As it was, he had no respect for us, and now we are in it and must go through with it. But never again must we be caught so wholly unprepared.

"There is only one safe way," said Uncle Dan, "and that is to adopt permanently universal military training, apply it to every young man who is physically fit, say in his nineteenth or twentieth year. The training can be carried forward in the United States training camps that are now being established for training men called by the selective draft. As soon as these men vacate these stations, they should be filled by younger men, and this should be made the permanent policy of the country."

Billie's mother, Mrs. Graham, had overheard the conversation. She came out and said: "Really, Brother Dan, are you serious as to the dangers of our country? If it is as bad as that, it is high time for us to wake up and do something about it."

"Exactly," replied Uncle Dan. "It is better to wake up now than to be rudely awakened later. We may as well understand, sister, that this is our war and we must win it or God help America. Everything that we have or hope to have—our liberties, our blessings, our opportunities are all involved in the great issue before us. Nothing must stand between us and winning this war. It is a question whether the peoples' right or the kaiser's might shall dominate the world. If there ever was a holy war, this is it. We are fighting for world liberty. We are fighting for the freedom of humanity. We are fighting for the right of men to govern themselves instead of being governed against their will by a war-mad overlord. Perilous times are ahead of us. We must be prepared to make any sacrifice, to perform any service that may be required of us."

"Oh, Uncle Dan," exclaimed Billie, "may I bring my chum, Jimmie Collins, when we have our next talk? He is a bug on the war business and just crazy to see you."

"Certainly," said Uncle Dan, with a hearty laugh. "If we are to have more talks, I shall be glad to have Jimmie join us."

Billie clapped his hands and ran to the phone and told Jimmie to be over at seven o'clock the next evening.

WHAT IS GASOLINE?

Gasoline was originally used for cleaning gloves and ejecting hired girls through the kitchen roof, but has been taught a great variety of interesting tricks, such as running automobiles, aeroplanes, motor boats, windmills, street cars, hearses, cornshellers and bicycles. By the aid of gasoline, we can travel 150 miles an hour through the air, travel sixty miles an hour over land and six feet in the ground with the greatest ease. A gallon of gasoline can do as much work in an hour as a horse can do all day, and it don't have to be fed at night. It can run a Ford twenty miles and while doing this cause three runaways, a collision, a \$20 fine for speeding, a divorce suit and an inquest. A gallon of whiskey at a Saturday night dance can cause a great deal of trouble, but it is tame and kittenish beside a gallon of white water which is conducting a joy ride. Gasoline is a clear, nervous liquid, which is composed of speed, noise and trouble in equal parts. It is made of kerosene reduced to a more violent stage.—Ex.

EAT WITHOUT FEAR OF INDIGESTION OR SOUR, ACID STOMACH

Instant Relief! *Pape's Diapiesin* Ends Your Stomach Distress. Try It.

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in revolt; if sick, lousy and upset, and what you just eaten has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin to help neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women to-day know that it is needless to have dyspepsia. A little Diapiesin occasionally keeps the stomach sweetened and they eat their favorite foods without fear. If your stomach doesn't take care of your liberal lunch without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops fermentation and acidity and sets things straight, so gently and easily that it is really astonishing. Adv.

PEANUTS PAY FOR LAND.

William V. Dunnam, member of the Texas legislature, whose home is at Gatesville, Coryell county, arrived in Waco Tuesday on route from a visit to one of his farms located in Eastland county. Mr. Dunnam reports a remarkable condition of affairs in that section of the state. He says he bought his farm a year ago for \$22 per acre. He planted it in peanuts, and had an offer of \$27 per acre from an oil mill for the crop as it stood in the ground, permitting him to keep the hay. In other words, Mr. Dunnam was offered the original price on the land, plus a bonus of five dollars per acre, and the hay, within one year from the time he purchased it. Like the shrewd young man he is, he turned down the offer and sold his goobers for \$2 per bushel, netting him something like \$50 per acre.—Waco Times-Herald.

COLORADO BOY IN U-BOAT FIGHT

Washington—Though crippled by a torpedo, the United States destroyer Cassin, hunted for the English port, Admiral Sims cabled the Navy Department.

The crew was praised for its coolness and brave behavior.

An official statement gives the details of the engagement which was first announced last week, with the names of one gunner killed and five men wounded. The official announcement said in part:

The destroyer recently mentioned as being injured by a torpedo was the U. S. S. Cassin, commanded by W. N. Vernon, Lieutenant J. W. McLarrin, Lieut. J. A. Saunders, Lieut. I. R. Agrell, Lieut. R. M. Parkinson and Assistant Surgeon D. W. Queen.

While this vessel was on patrol station a submarine was sighted on the surface at about five miles distance. The Captain immediately proceeded at full speed toward the submarine with her crew at their battle stations. She searched the area for about thirty minutes, zigzagging back and forth when the commanding officer, Vernon, sighted a torpedo running at high speed near the surface about 400 yards away, headed to strike the Cassin amidships.

Realizing the situation, the commanding officer rang for emergency full speed ahead on both engines, put the rudder hard over and was just clearing the torpedo's course when it breached on the surface, turned sharply toward the vessel and struck the stern of the Cassin.

The Assistant Surgeon, D. W. Queen, who was on this vessel, was formerly a telegraph operator here and is a nephew of Mrs. F. B. Whipple. He was known in Colorado as Dudley Queen, and still retains his Masonic membership here.

Since leaving here he studied medicine and after taking the course he practiced in a New York hospital for some time, but desiring to return to Texas, he located at Temple, where he had a good practice, until he gave it up to join the navy in the capacity of surgeon.

The continued drought and frequent sandstorms have almost knocked the staying qualities from under this journalist. The high cost of living has restricted our diet to corn bread, hill rabbit and an occasional frost-bitten potato.

THE LAST FOURTEEN YEARS

The Abilene Times tells a good joke that some heartless sport turned on a reporter of the Dallas News, who was in Abilene covering the conspiracy trials. The sport told the visiting newspaper man about some fine mallards on Lytle lake, and the reporter slipped off down there and killed four before the season opened.

We acknowledge receipt of a complimentary season ticket to the Texas Cotton Palace at Waco, Nov. 3-18. In inclosing the ticket the management says: "Press day is Nov. 3, the opening Saturday and on this day we will entertain the editors and their wives at a luncheon at twelve o'clock at the Raleigh Hotel, to be followed by an automobile ride to the army camp and back to the Texas Cotton Palace Exposition grounds. There will be a foot-ball game in the afternoon and many other attractions. At night soldiers from Camp McArthur will give one of the largest military parades that has ever been witnessed in Texas. This is to be followed by the formal opening ceremonies in the new coliseum." We hope to be able to attend, but cannot be there press day. Probably about the 9th.

Now that the "Ember days" draw nigh and the north wind percolates through our attenuated summer britches, we feel that if a few back subscriptions were sent in, it would help matters powerful.—Sterling City Record.

The same might be said in our own behalf in regard to the subscriptions, but we would like for Bro. Kellis to tell us just what are "Ember days." Perhaps last Monday was one. If you mean a sizzling norther, direct from Amarillo, bringing with it all the sand that is loose between here and that windy place, why didn't you say so? Record's poetical editor is down east looking for another job, and we have to have things put up to us in plain language. Now if you had said the "melancholy days have come" we might have known what you were talking about, as everybody in this place are certainly melancholy all right. After this, Bro. Kellis, if you mean sandstorm, say so; and if you mean it is cold, and you have no fuel nor winter "unders" (in which condition the Record now is) say so in plain United States, and maybe some of our subscribers will take pity on you and come across.

—AND WACO'S DRY.

In 1887 at Waco Rodger Q. Mills said "Hell was so full of such men (prohibitionists) that their feet stuck out of the windows"—and now Waco is dry.

In 1888 the democratic convention at Waco nominated Rodger Q. Mills for congress on the "Heart of Oak" plank. Navarro, his home county repudiated this plank and its nominee—and now Waco is dry.

In 1912 the antis had a majority of 897—and now Waco is dry.

—THE WORM WILL TURN.

The list of West Texas papers advocating a division of the state grows larger every week. In the light of recent events the editors have been made to see the impossibility of a house standing when divided against itself. If the state is divided it will be because the politicians have given the West a black eye year in and year out. The West Texas A. M. matter was merely one of many such instances of Westphobia.

FENCE BETWEEN FARMERS AND 5 PER CENT MONEY

Scarcely a day passes but there appears in some Texas newspaper one or more complaints from farmers that they are prevented from borrowing 5 per cent money from the Federal Farm Loan Bank, giving their homestead as security, whereas they know farmers in every other State in the Union have no difficulty in obtaining money from Farm Loan Banks upon the same kind of security. It is true, of course, that some Texas farmers have been able to borrow money from the Farm Loan Bank at Houston, giving homesteads as security, but in such cases it was to cover the purchase price of the land only. Where the homestead has been paid for, no money will be loaned to enable the farmer to improve the place by erecting buildings or fences, or to clear it of timber or to drain it, although these constitute improvements. Our homestead law permits of mortgaging the homestead for improvements, but it is so difficult to make that sort of a lien stick that money lenders long ago declined to advance money for improvements on farm homesteads.

What is taking place is strictly in line with predictions made by The News at various times within the last three years. We foresaw that any farm loan legislation which the Congress would be willing to enact would not benefit many Texas farmers unless our homestead law should be modified. There were many to tell us that we were wrong in this. They felt that the constitutional admission of mortgages for improvements, as well as the recognition of liens for the purchase price, would enable Texas farmers to borrow from the Farm Loan Banks all that they needed, and that they would be in as favorable a situation as the farmers of other states.

Time has demonstrated that this faith was without adequate foundation. Thousands of Texas farmers have tried to borrow money to improve their places, to make them more habitable, to make them more efficient for production, and they have tried to borrow money to obtain necessary machinery, seeds, live stock, etc. Nothing doing! Their land constitutes excellent security, except for the curse which the law puts upon it. They see farmers in all of the States bordering Texas borrowing money on their homesteads at 5 per cent; why, they even see men in Texas, who own more than 200 acres of land, borrowing this 5 per cent money! And they are coming to realize very rapidly that the Texas homestead law, in its long reach, discriminates against and heavily handicaps them; that the homestead law, instead of promoting home-owning, is a positive detriment thereto.

SOMETHING NEW UNDER THE SUN.

The Hon. Henry Clark of Stephenville, Erath County, has announced as a candidate for governor and has issued a booklet setting forth his platform. He summarizes his main issues as follows: Effective Rural Credits, A Graduated Land Tax, The Valorization of Cotton, Equal Suffrage, Prohibition in all its forms.

The Hon. Henry Clark has sprung something new under the sun, he proposes to sell his campaign thunder for five cents per copy which if he succeeds in doing will be something that no man that we have any knowledge of ever did, or ever had the nerve, gall, or whatever classification it might take, of doing. We doubt if Mr. Clark ever gets out of his home county in the race for governor of Texas.—Lubbock Avalanche.

The Hon(?) Mr. Clark advanced this idea for exactly what the Avalanche and this paper is giving him—a lot of free advertising.

RAIN NEEDED.

The farmers are worried over the fact that no rain has fallen so far, this fall. They have their ground in fine condition for wheat, but want moisture. Many are sowing in the dust, while others purpose to wait until rain comes. Usually there are good rains in October, but this year there has been none. Some wheat planted early, after the late summer rains, is up. Unless rain falls soon the acreage to wheat on the Plains will not be as large as was anticipated.—Plainview News.

The above is applicable to every county in this section of the country, also to a considerable number further east.

Many a land owner in the Central West paid for his land with the profits of one crop. When a good crop is made, the yield is so much greater and the profits so much larger than farmers in less favored sections enjoy that a little matter of a drought now and then should worry no one.

Dallas can now send congratulations to Waco on a 50-50 basis.

The Record has put his auto in cold storage for the winter on account of the high priced gasoline. The filling stations are all in front of the grocery stores and as we owe all the grocers, how can we buy gasoline for cash, from them?

Robert Fitzsimmons, former champion heavyweight pugilist of the world, died at a hospital in Chicago one day last week, after an illness of five days of pneumonia.

THE GERMAN CHANCELLOR ADDRESSING THE REICHSTAG AUGUST 4, 1914

"We are now in a state of necessity and necessity knows no law. Our troops have occupied neutral Luxemburg and perhaps already have entered Belgium territory. This is a breach of international law. The wrong we hereby commit we will try to make good as soon as our military aims have been attained. He who is menaced as we are, and is fighting for his highest possession, can only consider how he is to hack his way through."

SPECIAL PRAYER.

Last Sunday was the day set aside by the President of the United States as a day of prayer for the soldiers. It was observed here by the different churches. The Baptist Sunday school spent the hour for their lesson having all the different rooms assembled in the main room and a special prayer offered for the entire army, and the ones who went from this county were specially remembered.

SEWING CLUB.

Miss Alene Davis was hostess for the little girl's sewing club at Mrs. J. R. Sheppard's last week. The time was spent hemming handkerchiefs for the war relief work, twelve being finished. Julia Shepherd and Mary Terrell were received as new members. The following officers were elected for the quarter: Alene Davis President; Laura Louise Pearson, Vice-President; Elsie Lee Majors, Secretary; Eleanor Thomas, Treasurer; Mary Terrell, Reporter. The hostess served hot chocolate and sandwiches. The next meeting is with Fannie Bess Earnest.

SENIOR '18 DRAMATIC CLUB.

The Senior '18 Dramatic Club met with Stansel Whipkey last week. Their books of study had not come, so the hour was spent socially. Miss Wilson, the director, honored with a reading. Miss Hallie Roddy also entertained with a reading. Miss Dorothy Lasseter and Stansel Whipkey gave piano and violin music. Refreshments were served moving picture style. The next meeting will be with Miss Dorothy Lasseter, Nov. 9. Papers will be given on the life, character and works of David Belasco.

J. B. Annis has been absent all the week in Dallas and points on the Denver road.

CAMPFIRE SLUMBER(?) PARTY

The Campfire girls enjoyed a slumber party at Mrs. J. R. Collier's on the Ledges last Thursday night. About five o'clock the girls, with bedding and lunches arrived and the fun commenced. They cooked their own supper and ate it on the spacious porch. After this they were invited in the house which was tastefully decorated with Hallowe'en emblems; and every known superstitious stunt was indulged in, not leaving out the visit of the long departed "Uncle Peter." At the conclusion of the various fetes the girls bobbed for apples and ate them before retiring.

The breakfast next morning was served cafeteria style, and the girls took a stroll over the bluffs before returning home, about ten o'clock. They were chaperoned by their Guardian, Mrs. Merritt, Mrs. Schroeder and the hostess. This will be one of the red letter days in the lives of the Campfire girls, due to the kindly interest of Mrs. Collier in their welfare.

STUDY COURSE.

The M. E. Missionary Society met at the parsonage Monday for their regular study course. The lesson was a very interesting one from 18th and 19th chapters of John.

MR. McDONALD IN SERIOUS CONDITION

C. M. McDonald of Westbrook, who sustained injury by a well derrick falling on him, was taken to the Temple Sanitarium. The X Ray findings showed that the fourth and fifth cervical vertebrae were fractured and the sixth was crushed. While the X Ray does not shadow the spinal cord, yet other tests prove that the cord is almost if not completely severed. The conductivity of the cord, when once severed, never regenerates, this sufferer will never recover. History of such cases show that these patients live from a few weeks to perhaps a few years. This is the diagnosis of the surgeons in Mr. McDonald's case; but let us hope that notwithstanding the serious condition of this case, that he will recover his wonted health. Everything that is being done for him that is possible, and he has every attention that loved ones can furnish. The many friends of the family in this county, sympathize with them, and hope for them a more favorable outcome of this deplorable accident.

Since writing the above Mr. McDonald has been moved from the sanitarium to his old home in Grimes county. His family were wired for and all are now down there with the older brother of Mr. McDonald.

HALLOWE'EN TEA.

The Junior Missionary Society of the M. E. church had a Hallowe'en tea with Mrs. Lambeth last Thursday. Mary Jackson, Isla Dorn and Marie Vaughan were dressed to represent pumpkins and greeted the guests as they arrived and introduced them to the receiving line of ghosts who told them all about the world they came from. Various games suitable for the occasion were enjoyed. Of course the fortune teller was there to tell their fortunes. Sandwiches, cake and tea were served. A nice little sum was realized, which will be applied to their conference pledge.

PREACHING AT BUFORD

Pastor W. C. Garrett, of the Baptist church at Colorado, will preach at Buford, at 3 o'clock Sunday afternoon.

WHO WASHES YOUR CLOTHES?

Do you know that clothes can be a means of spreading disease? In many localities where washwomen live the conditions are most unsanitary and dangerous to health—no sewerage, yards covered with filth and trash, flies in quantities and possibly several dogs, some cats and a number of dirty, unkept children. In some of these homes contagious diseases are prevalent, often without any physician's knowledge. Are you willing to have your clothes for several days in such homes as these? If so we have nothing more to say, but if you wish to protect your family and have your clothes not only clean, but sanitary, send them to us. The Laundry

DEATH OF THEO. H. ROE.

A Good Man and True, Has Passed to His Reward.

A man who was interested in every good work in Colorado for more than a quarter of a century, has passed into the great beyond.

Such were the thoughts in the minds of all who knew Mr. Theo. H. Roe, when the news reached Colorado of his death at his daughter's home in Taylor, last Wednesday evening.

The remains reached here Friday and were taken to the Presbyterian church, where the funeral services were conducted by his pastor, Rev. Guy B. Duff, assisted by the other pastors of the town.

The casket and altar were banked with flowers, the silent messages of love, from sympathetic friends. The stores were closed during the hour of the funeral.

The pall bearers were, W. A. Dulist, Dr. B. F. Dulaney, H. L. Hutchinson, Jerold Riordan, J. M. Thomas and R. O. Pearson.

Theodore Hart Roe was born at Marathos, N. Y., Feb. 2, 1849, died at Taylor, Texas, Oct. 24, 1917.

He came to Fort Worth in 1877, where he lived until coming to Colorado in 1891. He was married to Elizabeth Walker Dickson of Philadelphia, Pa., in 1880. To them eight children were born, five of whom are still living. Mrs. Anna Keith, of Richmond, Ky.; Mrs. Dickson Hardie, of Taylor, Texas; Mrs. Jeanette Currie of Austin, Texas; Miss Louisa Stewart Roe, who has made her home in Colorado with her father; and Dr. Mary Elizabeth Roe, who is now in New York City.

He united with the Presbyterian church when but a boy in his teens, and has always been actively engaged in christian work, living at all times for his Master and rendering unto Him his best service. He was ordained and installed an Elder shortly after coming to Fort Worth, and has served in that capacity ever since. He was prominent in the courts of his church, having served the church several times in very important official capacities. He was city secretary of the Y. M. C. A. at Scranton, Pa., for several years.

Upon coming to Colorado he engaged in the lumber business, which he carried on successfully here for many years. He went from here to Levinston, N. M., where he lived one year, but yearning for his friends in Colorado he returned, and lived here until a few months ago when his health failed him and he went to his daughter in Taylor, where he died. During his last period of residence at Colorado he was secretary of the Chamber of Commerce, and under his able management several business enterprises were launched and carried to completion. He was vitally interested in everything that pertained to the public welfare, and in every worthy cause for the upbuilding of his town or county, he was to be found in the front ranks. His place will be indeed hard to fill.

He was a Mason, Past Master, at Colorado; a York Right Mason, with Knight Templar membership at Big Spring. He was a faithful member and honored in the lodge, as he was in his church, and business world.

He was a man of generous impulses, and never forgot the hospitable ways of the pioneer. The stranger, even though a beggar, never failed to find help and encouragement if he sought it at his hands. He delighted in all kinds of neighborly offices. He had borne adversity bravely and enjoyed prosperity quietly. He had filed the various relations of life, as son, husband, father, brother, friend, and filled them well. Who can do more?

We can only remind these mourners that he is not dead, he is only sleeping—resting after a long and well spent life here; he cannot, and would not, if he could, return to us; we can, if we will, go to him. Behind the storm clouds always lurks the rainbow and when the storm is past it weeps upon the flowers of the land and the pearls of the sea. Darkness precedes the dawn and out of the blackness of night comes the sunshine and joy of the day. And so from the beauty of life take an inspiration and go forth to live as he lived, so that when the summons comes you may say as he did, "All is well."

Could all live the just and upright life that T. H. Roe lived, and die in his trusting faith, death could no longer be called the King of Terrors, for he inspired no terror there. Like Paul he could say "I have fought a good fight, I have finished my course, I have kept the faith; henceforth there is laid up for me a crown of righteousness, which the Lord, the righteous judge, shall give me at that day." So, "blessed are

PICTURE SHOW PATRONS WILL PLEASE READ.

I have just received notice from the government that on and after November 1, (tonight) I will be required to collect on every admission to my picture show, one cent for each 10c admission or fraction thereof. This money is a war revenue tax which I have to send to the revenue collector. In addition to this the film exchanges have added a considerable amount to every reel of film I buy. This is done so that they may pay their war revenue tax, which has been put on the films. Because of these matters, I am compelled to revise my admission charges, or close my show. This is to notify my patrons and the public in general that on and after Friday night Nov. 2nd my prices will be as follows: Children will be admitted for 9 cents AND the revenue tax, which will be 1 cent. Adults will be charged 18 cents admission and 2 cents revenue tax.

Considering the hard times, scarcity of money, etc., I regret very much to do this, but Uncle Sam says he needs the money and everybody is expected to do his bit. The law provides that the purchaser of the admission shall pay this tax, and not the proprietor of the show. So you can plainly see that I am favoring the public in every way I possibly can. I have always tried, and many have told me that I have, run a good picture show, giving them the best and latest pictures, and I would not like to have to close it. But if the public thinks they cannot support it under these conditions I will simply have to close. I thank you all for the patronage you have given me, feeling that I have always given you your money's worth, and again calling your attention to my prices—Children 9c and tax of 1c; adults 18c and tax of 2c—I remain yours truly, CHAS. COLORADO NEWS.

This Case Has a Hint for Many Record Readers.

A Colorado woman has used Doan's Kidney Pills. She has found them as represented. She wishes her neighbors to know. She publicly recommends them. No need to look further for a tested kidney remedy. The proof of merit is here and can be investigated. Profit by Mrs. Sparks' statement. Mrs. C. M. Sparks, 511 Walnut St., Colorado, says: "I have used Doan's Kidney Pills off and on for the past couple of years and they have done me a lot of good. I used them for my back which was weak and achy. The kidney secretions were irregular in passage, also. Every time I have used Doan's Kidney Pills, which I get at Doss' Drug Store, they have relieved me. I believe they are the best of kidney medicines and gladly recommend them."

DIED.

Mrs. J. L. Wyatt died at her mother's home at Lamesa, Texas, Friday, October 12, 1917, and was brought to Colorado for burial, Saturday at 4:30 o'clock.

She was born in Brown county, April 7, 1888. She was conscious to the last and asked that she might be laid to rest in the Colorado cemetery. Her remains were accompanied by her husband and children, Mr. Dolph Wyatt and wife and Mrs. Bettie Beal and son.

We miss thee dear wife and mother In everything we do, This world's so dark and lonely, Why couldn't we go too? Why couldn't we go with you Across the unknown sea? And bear your trembling body So soft and peacefully? Mother, we have always been with you You've taught us noble lessons In wisdom, love and truth; You've soothed our many heartaches, And kissed our aching brows— Oh, can it be, dear mother, That you must leave us now? Dear Jesus, why this parting? Why couldn't I go too, To dwell among the angels, With dear wife, and you? But no! I am unworthy, My work is not yet done. Her life on earth is finished, While mine is just begun.

HALLOWE'EN PARTY.

Little Miss Mary Lee Crowder entertained her school friends with a Hallowe'en party Wednesday evening. They all attended as ghosts and were chaperoned by Mrs. Crowder over the town and afterwards to the picture show.

Miss Pauline Hunter had six of her classmates with her for a slumber party Wednesday night, at her home north of town. A very pleasant time was had by all. The guests were, Misses Dorothy Burns, Lois Whipkey, Anna Mary Mann, Jewel Mitchell, Lillian Smith.

TAKING TRAINING.

Miss Leona Dyas left Thursday morning for Dallas where she enters the Baptist Memorial Sanitarium to take training for a nurse. Some time ago she asked the Baptist ladies if they could help her to enter. They immediately recommended her and through their influence she was enabled to enter so soon. She is a member of the Philathia class of the M. E. Sunday school and they remembered her with a shower of things for her personal use, and things due to a young ladies heart. Her many friends here wish her success in new undertaking.

MRS MAUDE DAVIS GAINED FOURTEEN POUNDS ON TANLAC

"It's the First Winter in Twenty Years I Haven't Had to Spend Half My Time in Bed," She Says.

"I actually weigh more than I ever did in my life, I feel better than I remember ever feeling, and my friends say they have never seen me looking as well as I do now." This remarkable statement was made a few days ago by Mrs. Maude Davis, 2704 Hickory street, Dallas, Texas, while relating her experience with Tanlac. Mrs. Davis is the wife of W. J. Davis, the well known special officer, and their many friends will be glad to learn of her complete restoration to health.

"I don't know how long," continued Mrs. Davis, "I have been afflicted with catarrh of the stomach and head but the trouble became acute twenty years ago and I just can't describe the suffering I have endured since that time until I got relief by taking Tanlac. My food would not digest, my stomach was all bloated up with gas and my heart would flutter so at times I would almost faint. I would spit up frothy-looking, stringy phlegm and had a constant dropping of mucus into my throat and my eyes were watery and pained me all the time. I was tired and languid and so dizzy at times I could hardly stand up. I suffered almost beyond endurance and had fallen off until I only weighed ninety-eight pounds. I had tried all kinds of medicines and had the very best treatment, yet I continued to suffer and grow worse and had become discouraged and despondent about my condition.

"But when I read about the good Tanlac was doing so many Dallas people, I had a new hope. I felt like it would help me too and it certainly has, even beyond my expectations. I just now realize what good health is, I never felt as well before, and this is the first winter in twenty years I have not had to spend fully half of my time in bed. I have taken five bottles of Tanlac and have not only gained fourteen pounds in weight, but all my troubles are gone, too. I never told my husband and neighbors I was taking Tanlac until my face filled out and my color got so good and now they are all talking about my wonderful recovery, and many of my neighbors are taking Tanlac and getting well too, since seeing what it has done for me. Tanlac has made my husband and I both happy by giving me my health, and I'm glad to give this statement because I know there are lots of other people who need just such a medicine as Tanlac to get them over their suffering and make them well and happy."

"PARSON" H. F. SMITH WRITES FROM ARIZONA

I promised before leaving Colorado to write concerning the work and wage conditions in this section.

I am located in Lowell, about one mile north of Bisbee, near the Junction Shaft, owned and operated by the C. & A. Mining Co., where I was hired as soon as I arrived, and went to the 1500 level and began work in the 142 slope. I almost melted the first few shifts, but the shift boss and old miners took a liking to me and began to tell me how to take care of myself, which I appreciated and have governed myself accordingly.

I find that there is plenty of work at different places, and men are scarce at almost every place, and wages are high. This work is not what I call slavish, 8 hours is a day's work. Of course there is danger in mine work, but not so much when a man is careful and watches his business. The Company pays \$5.10 per day of 8 hours for mucking; \$5.30 for miners. They keep plenty of good cold freestone water in large coolers; have electric lights all thru the main drift, but none in the cut-offs nor slopes. Each man furnishes his light in these.

A miner and a mucker is always supposed to work together when in a slope preparing to make a blast. No miner is allowed to blast when alone. They have large pumps to keep the mine clear of water, and they never stop, day nor night. We have waste barrels to throw all scraps and waste in, so as to keep the mines clean and sanitary. There is a railroad equipped with iron cars which hold about a ton each, which are pulled by large mules to the station. All the mines are timbered up with 12x12 studs capped with heavy timbers, overlaid with 3x12 plates, making the place as safe as can be under ground. The slope is floored with 3x12 laid with about a 75 degree angle so that muck can be raked down with all ease. Have large air pumps running day and night to keep fresh air in the mine.

The cage is composed of three sections, accomodating 12 men to the section. It is raised and lowered with a large cable, at the rate of 1500 feet per minute which seems fast to a new man. Should the cable break the cage would stop just at that moment, for it is equipped with safety dogs which are forced to catch with heavy springs.

The company carries \$4000 insurance on every man that works in the mines, free to him, and should he get hurt and cannot work for 14 days or more, they pay him \$2.55 per day and take care of him in their own hospital for \$150 per month.

The company pays off on the 5th and 20th of each month. There are men here from all over the world—all classes.

Board and room runs from \$30 to \$45 per month. I like the work fine and will say that if any one wants work of this kind, now is the time to come, for there is lots of work all over Arizona. The climate is ideal and the mountains are beautiful. The natives treat us royally.

Hoping this will be of use to some one who is looking for work, and praying God's blessing on all West Texas, I am as ever, the Record's friend—H. F. SMITH, Bisbee Arizona.

GIRLS! IT'S YOUR STEP THAT ATTRACTS!

Says Women Pay too Much Heed to Their Face Instead of Their Corns.

Watch your step! A brisk, lively step is what charms more than a lovely skin, but your high heels have caused corns and you limp a little. That's bad, girls, and you know it. Corns destroy beauty and grace, besides corns are very easy to remove.

Rid your feet of every corn by asking at any drug store for a quarter of an ounce of freestone. This will cost little but is sufficient to remove every hard or soft corn or callus from one's feet.

A few drops applied directly upon a tender, touchy corn relieves the soreness and soon the entire corn, root and all, lifts right out without pain.

This freestone is a gummy substance which dries instantly and simply shrivels up the corn without inflaming or even irritating the surrounding skin.

Women must keep in mind that cornless feet create a youthful step which enhances her attractiveness.

A large oil burning tractor and a heavy grader have recently been purchased by the county, and work has started on the road from there to Baird. The new right of way from Albany to Abilene is now being fenced, having been laid out by the engineer, and work will begin on this highway.

To the sheriff or any constable of Mitchell county,—Greeting.

You are hereby commanded to summon Edwin J. Bartlett by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 32nd Judicial District; to appear at the next regular term of the District Court of Mitchell County, Texas, to be held at the court house thereof, in Colorado, Texas, on the 3rd Monday in November, A. D. 1917, the same being the 19th day of November, A. D. 1917, then and there to answer a petition filed in said court on the 25th day of October, A. D. 1917, in a suit numbered on the docket of said Court, No. 3676, wherein Maude Bartlett is Plaintiff and Edwin J. Bartlett is Defendant; the nature of plaintiff's demand being as follows:

That Plaintiff is an actual bona fide inhabitant of the State of Texas and has been such for twelve months next preceding the filing of this petition and has resided in Mitchell county, Texas for six months next preceding the filing of this petition, and that the defendant's residence is unknown to plaintiff.

That on June 2, 1914, plaintiff was legally married to defendant in Colorado, Mitchell county, Texas, and continued to live with him as his wife until about August 1, 1914, but that on or about said August 1, 1914 and without any cause whatsoever on the part of plaintiff, the defendant with intention of abandonment, left her, since which time they have lived separate and apart, and that, at no time since said August 1, 1914, has the defendant in any way, offered to, or evinced any desire to return to or live with plaintiff.

That plaintiff during the time she lived with defendant as aforesaid, conducted herself with propriety, and managed the household affairs with prudence and economy, and at all times treated her said husband with kindness and forbearance. That your plaintiff is possessed of certain real estate to-wit: Lot No. 10, Block No. 73 situated in the town of Colorado, Mitchell county, Texas, as the same appears upon a map or plat of a portion of said town, a copy of which is now of record in Vol. 24, at pages 485-487 of the Deed Records of Mitchell county, Texas, which said property appears upon the records in the name of Maude Scott, which was the name of your plaintiff prior to her marriage to defendant. That the defendant does not now, nor has he ever had any interest of any character, in or to the same. Wherefore plaintiff prays the court that defendant be cited to appear and answer this petition and on final hearing hereof, she have judgment dissolving the marriage contract now existing between them, that said property above named be decreed to be the separate property of plaintiff, that her name prior to her said marriage be restored to her, for costs of suit and for such other and further relief, legal and general, in law and in equity, that she may show herself justly entitled to.

Herein fail not but have you before said court, on the first day of the next term thereof, this writ, with your return thereon showing how you have executed the same.

Witness my hand and official seal at my office in Colorado, Texas, this 25th day of October, A. D. 1917.

W. W. PORTER, Clerk District Court, Mitchell County, Tex. By W. S. Stoneham, Deputy.

I hereby certify that the above is a true copy of the writ now in my hands.

11-16c A. W. COOKSEY Sheriff Mitchell County.

If You Own A Car

Or ride in one often, your complexion is exposed to a severe test.

It has frequent sun baths. The dust, moreover, is actually forced into the pores by the speed of the car.

The result of such treatment is likely to give a harsh, leathery look to the skin of the face and neck.

A good cold cream is the best solution of the problem.

Apply it before going out and then dust the face with a good powder.

After a trip, smooth the cream over the skin. Let it remain on for a few minutes, then rub off with a soft cloth.

Artesia Face and Tan-nore are creams of the best for this very purpose.

In tubes and jars—25c and 50c. We keep it.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop Using Dangerous Drug Before It Salivates You! It's Horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards. Adv

THRICE-A-WEEK EDITION OF NEW YORK WORLD

Practically a Daily at the Price of a Weekly. No Other Paper in the World Gives so Much at So Low a Price.

The value and need of a newspaper in the household was never greater than at the present time. The great war in Europe is now half-way into its third year, and, whether peace be at hand or yet far off, it and the events to follow it are sure to be of absorbing interest for many a month to come. These are the world shaking affairs, in which the United States, willing or unwilling, is compelled to take a part. No intelligent person can ignore such issues.

The Thrice-a-Week World's regular subscription price is \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and Colorado Record together for one year for \$1.75.

Always Have PERUNA

Mrs. L. A. Patterson, 1399 Kentucky St., Memphis, Tennessee, writes:

"I have been a friend of Peruna for many years. I have used it off and on for catarrhal complaints and found it a very excellent remedy. I have a small family of children. Times are hard with us, but I can scarcely afford to do without Peruna, especially during the season of the year when coughs and colds are prevalent. We always recommend Peruna to our neighbors, for the benefit it has been to us."

SOME FARM

News comes from New Mexico, that Mr. Charlie Nichols, formerly of Colorado, is now running a large tractor in the Wilson Farms, near Mills, N. M. His salary is \$3 per day and board. This farm is the largest in New Mexico. They have 6000 acres in wheat at this time, and are breaking 1000 acres more. They raised this year 2000 acres in beans, the same in wheat and 2000 in other crops, such as corn, sorghum, millet, etc.—Some farm, that!

When C. A. O'Keefe paid his personal taxes to the city of Fort Worth it was found to be the largest amount of personal taxes paid to the city in 1917. The amount was \$7,603.90. Mr. O'Keefe made his fortune here at Colorado in the stock business.

MOTHER! YOUR CHILD IS CROSS, FEVERISH FROM CONSTIPATION

If Tongue is Coated, Breath Bad, Stomach, Clean Liver and Bowels.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out of sorts, half sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of California Syrup of Figs, and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company." Adv.

WESTBROOK ITEMS.

J. E. Skelton returned from Bisbee Arizona Tuesday of last week. Mr. Skelton is well pleased with Arizona, but doesn't know yet whether he will locate there or not. He was called home to the bedside of his father-in-law, Mr. C. M. McDonald.

Rev. L. Jackson left Monday to attend annual conference which will convene at Memphis.

J. M. Helton moved his household goods to Cuthbert last week, where they will make their home. Mr. Helton promised about two months ago to come back here if it rained. It didn't rain, so we lost another citizen.

Miss Iva Harper of Colorado, is spending her vacation with her aunt, Mrs. G. J. McKinney.

Ollie Bird is able to be up and around again after being confined to his room several days with a gripe.

Geo. W. Rogers is spending a week with relatives in Cuthbert.

Mrs. J. J. Moore returned Sunday from a visit with her parents, Mr. and Mrs. Jim Boatler at Stanton.

Mr. and Mrs. Ernest Smith returned from Childress Wednesday, after a stay of several weeks.

Mrs. J. E. Skelton and three children, Jack McDonald and three sisters, Misses Elon, Bettie and Bernice, left Sunday night for Bedias to be with their father, C. M. McDonald. Mr. McDonald was carried to the Temple sanitarium last Wednesday. After an X Ray examination it was found that he could not be benefited by an operation, so he was moved Friday to Bedias, his old home, and where his people lived. A telegram was received here Tuesday saying that he was resting well and some indications of improvement.

J. M. Byrd returned from Wichita Falls and Henrietta, Sunday. Mr. Byrd says that Westbrook is not the only place where the sand blows.

G. J. McKenney, W. H. Rogers and Mrs. Sam Smartt left Sunday for New Mexico, going through in their car.

Mr. and Mrs. J. T. Candler and son, George, returned from the Dallas fair Sunday.

Miss Agnes Hooper has accepted a position in the Conaway school as assistant teacher.

Griggs Butler of Abilene spent Sunday and Monday with home folks. Mr. and Mrs. J. T. Smith and children spent the day Sunday with Mr. and Mrs. Sheffield on the ranch.

W. W. Wade has recently returned from Bark Burnett.

Last week Judge James L. Shepherd was called to Spur in Dickens county, connected with a law suit about some boundary lines. A map of Dickens county was introduced in the court to settle some disputed point, and upon examination of the map Judge Shepherd found that it was one he had surveyed and made himself, just 31 years ago. He had Joe Stokes with him as chain bearer at that time. Another peculiar fact is that Judge Shepherd had not been in Dickens county these 31 years until called there last week.

AN OLD MAN'S STOMACH.

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain opium, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.

The government weather bureau predicted (probably) rain last Monday and Tuesday. It sure enough did rain, but it rained dirt instead of sky juice. The barometer stood at the rain and storm mark for two days, but not a cloud was in sight, not one even as big "as a man's hand." The barometer will forecast a dust storm to almost a certainty in West Texas, but it often rains here when it indicates "fair." The weather "pros" depend a great deal on the barometer for their forecasts but they do but little good in West Texas except to forecast dust storms.—Sterling City Record.

Mrs. Jim Smith visited the green houses last week in Dallas, to study the equipment and general conditions at this place, and was very much pleased to see that her green house here, and stock of growing plants compared very favorably with like institutions in larger towns than Colorado. This is an institution that our town should be proud of and encourage to the fullest extent. Mrs. Smith has built up a business, second to none west of Fort Worth. She handles cut flowers almost daily to towns on the T. & P. road from Ft. Worth to Weatherford, and no few orders come to her from the place.

BIG EVENT AT SAN ANGELO.

The big Race Meet and Carnival which will be held at San Angelo on October 30th to November 3rd, inclusive, will undoubtedly be the biggest event of its kind ever pulled off in West Texas. \$5,150.00 is offered in cash purses for the races, over 150 entries have already been made and additional entries are being made daily. The prizes offered in the goat roping and broncho busting contests are also quite attractive, and other numerous attractions will furnish most excellent programs daily. A large carnival company will exhibit on the streets of the city throughout the week. The railroads are offering reduced rates from many points in Texas for the occasion, and everything points to a great and gala week in San Angelo. The new St. Angelus Hotel will be opened for the occasion and which, in addition to the many other hotels, will offer ample accommodations to the visitors.

MAXWELL

Most Miles per Gallon Most Miles on tires

\$745

F. O. B. DETROIT

There are visions—now and then—in business and industry.

The Maxwell motor car is a wonderful vision that has been made real.

The fixed purpose of the Maxwell builders was in the beginning, and is now, to produce a car which would be, in the highest sense, efficient, durable, economical, comfortable and standard in equipment.

Many years experience in production on a vast scale has taught the Maxwell manufacturers two things.

One is that such a car as they have always made their aim—a car in which efficiency, durability, economy, comfort, beauty and standard equipment are all present—cannot be built for less than \$745 with materials at their present prices.

The other lesson is—that, for more than \$745, they could not give you anything more than the Maxwell now has—except greater size or luxuries, pure and simple.

In other words they are convinced—and they have convinced us—that they have found the great MIDDLE LINE where you get dollar for dollar in ABSOLUTE VALUE.

GIRLS! HAVE A MASS OF BEAUTIFUL HAIR SOFT, GLOSSY, WAVY

25-Cent Bottle Destroys Dandruff and Doubles Beauty of Your Hair.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and teraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine from any drug store or toll-et counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine. TAKE YOUR HOME PAPER AND THE PROGRESSIVE FARMER
 Realizing that this year, the next and the next maybe, the American farmer will be called upon to feed the major portion of the peoples of the Earth, we have arranged for our readers to also receive The Progressive Farmer. We recognize it as the South's leading exponent of the now vital doctrines of crop diversification and farm products conservation.
 So important have these problems appeared to our President that he has issued an appeal to the South to not only feed itself but have something more for our sorely needing friends across the Seas.
 As your patriotic duty equip yourself by using the advice and guidance of this standard farm weekly which sells for one dollar a year and may be had with our paper for the amount named below.
SEND US \$1.50 FOR BOTH PAPERS.

A Natural Fortification
 If you catch colds easily, if troubled with catarrh, if subject to headaches, nervousness or listlessness, by all means start today to build your strength with
SCOTT'S EMULSION
 which is a concentrated medicinal food and building- tonic to put power in the blood, strengthen the life forces and tone up the appetite.
No alcohol in SCOTT'S.
 The imported Norwegian cod liver oil used in Scott's Emulsion is now refined in our own American laboratories which guarantees it free from impurities.
