U. S. S. SAVINGS STAMPS ISSUED BY THE UNITED STATES GOVERNMENT

ALL ABOUT WAR SAVINGS STAMPS

W. S. S. WAR SAVINGS STAMPS ISSUED BY THE UNITED STATES GOVERNMENT

What Are They?

They are War Savings Stamps.

They are of two kinds—

United States Thrift Stamps (25c each).

United States War Savings Stamps (\$4.12 each).

Sixteen U. S. Thrift Stamps plus twelve cents in cash in December, 1917, or January, 1918, will purchase a War Savings Stamp, which when affixed to a War Savings Certificate is the guarantee of the Government and the people of the United States to repay on January 1, 1923, the full amount with interest at 4 per cent compounded quarterly.

The U. S. Thrift card is a pocket-sized card given free of charge to purchasers of U. S. Thrift Stamps.

The War Savings Certificate is a pocket-sized folder given to holders of War Savings Stamps.

War Savings Stamps are as safe at the United States.

Should I Buy Them?

BECAUSE—we are at war;

BECAUSE—the more we save, the more labor and material will be available for the use of the government and for the support of our army;

BECAUSE—we must have dollars as well as men in the fight for freedom;

BECAUSE—they establish the soundest and simplest basis of saving, which is the key to individual success

BECAUSE—there is no safer investment in the world;

BECAUSE—War Savings Stamps must increase each month in value.

HEAD AND NOSTRILS STUFFED FROM COLD.

"Pape's Cold Compound" Ends a Cold or Grippe in a Few Hours.

Your cold will break and all grippe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, and stiffness.

Hope we will have plenty of by the first of May, and that Kaiser will die with the itch, I am.

War Savings Stamps.

Security ever offered by a great government to its people. Any man, woman or child can obtain at any Postoffice or Bank a U. S. Government Thrift card to which to attach it. This starts you as an investor, and puts you behind

1918, the cost to the purchaser will be \$82.48, and on January 1, 1923, the Government will pay the owner of the certificate \$100-a net profit to the holder of \$17.60. This is based on an interest rate of 4 per cent compounded quarterly from January 2, 1918. The amount of War-Savings Stamps sold to any one person at any one time shall not exceed \$100 (maturity value), and no person may hold such stamps or War-Savings Certificates to an aggregate amount exceeding \$1,000 (maturity value).

If the holder of a War-Savings Certificate finds it necessary to realize cash on it before maturity he may at any time after January 2, 1918, up on giving 10 days' written notice to any money-order post office receive for each stamp affixed to his certificate the amount paid therefor plus 1 cent for each calendar month of purchase of each stamp. A registered certificate may be redeemed, however only at the post office where registered.

straightforward, and certain. The holder of the certificates can not lose and is certain to gain. He is buying the safest security in the world in the most convenient form in which the security of a great Government has ever been offered to its people.

Why You Should Buy Them.

The main reason for the purchase of War-Savings Stamps is because your country is at war. Your Country needs every penny which every man, woman, and child can save and lend in order to feed, clothe, arm, and equip the soldiers and sailors of America and to win this righteous war in defense of American honor and the cause of democracy throughout the world.

A single strand in the cables which uphold the great Brooklyn Suspension Bridge is not very strong, but thousands of these strands bound together

uphold one of the great thoroughfares of the world.

When our fathers and sons were called by our country in Texas in to take up arms in her defense, did not hear an individual soldier's name would not win the war. Each man was ready to do his part. The great army thus formed is going forward to face the fire of battle and to risk everything for the safety and security of our homes and our families, and for the very existence of our Country.

These are the men for whom you are called to save and lend your dollars.

A Country worth fighting for is a Country worth saving for.

To save money is to save life.

Buy War-Savings Stamps at post offices, banks, trust companies, or other authorized agencies, and strike a blow for our Country.

UGH! ACID STOMACH, SOURNESS, HEARTBURN, GAS OR INDIGESTION

The Moment "Pape's Diapepsin" Reaches the Stomach All Distress Goes.

Do some foods you eat hit back—taste good but work badly; ferment into acids and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapepsin helps neutralize the excessive acids in the stomach so your food won't sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is upset you usually get happy relief in five minutes, but what pleases you most is that it helps to regulate your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is positive in neutralizing the acidity, so the misery won't come back very quickly.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, head clears and you feel fine.

Now, make the best investment ever made by getting a large quantity of Pape's Diapepsin from any drug store. You realize in minutes how needless it is to suffer from indigestion, dyspepsia, sourness, flatulence, or any of the more possible—Add to your list, Farm, Aldine, Texas.

TRAINED NURSE ENDORSES TANLAC

Graduate of London, England, Says She Improved Rapidly After Taking Tanlac.

Mrs. Lena Bloomfield, a trained nurse residing at 3900 San Jacinto Street, Dallas, Texas, is but one among many in her profession who, after testing the merits of Tanlac, have come forward with unqualified endorsements of the "Master Medicine." Mrs. Bloomfield graduated in London, England, and for several years followed her profession in New York, Denver and Dallas. Her statement, coming as it does from one of such wide experience in relieving suffering, will be of interest to hundreds of this section who are seeking relief. In telling of the benefits she has derived from the use of Tanlac Mrs. Bloomfield said:

"Some time ago I had a severe shock that brought on nervous prostration and I suffered from awful headaches all the time. My stomach was out of order and most everything I would eat disagreed with me. I usually have a sunny disposition and try to be cheerful under all circumstances, but I had become so weak and run down and my trouble weighed on me so much I had gotten to the point where I felt depressed and despondent and had no desire to live or do anything else.

"A friend of mine recommended Tanlac to me and as I was anxious to find something that would relieve me, I got a bottle. My improvement was particularly noticeable when I was on my third bottle, when my appetite picked up and my flesh became much firmer. Those headaches are leaving me and I don't feel so tired as I used to be all the time. My sleep is refreshing, my stomach and nerves are stronger and I feel I owe much to Tanlac for what it has done for me and will continue to use it for some time because of the good it is doing me."

Tanlac is sold in Colorado by W. J. Doss, in Loaine by Garland and Elliott and in Westbrook by J. H. Board (Adv)

AMERICAN WOMEN OPERATE RED CROSS CANTEENS ABROAD

CARE OF U. S. SOLDIERS AND SAILORS ORGANIZATION'S FIRST AND SUPREME OBJECT.

MEAL COSTS ONLY 13 CENTS

Shower Baths, Barbers, Movie Theater—Everything Free Except Food—Work Near the Firing Lines.

First and supreme in the work of the American Red Cross, which will launch a Christmas membership drive for 2,000,000 more members in the Southwest Monday, Dec. 17, continuing until Christmas eve, is the care of Uncle Sam's own army and navy. The safety, health and comfort of the men who are fighting the country's battles 3,000 miles from home will at all times be the prime object of the organization's attention.

When French army officers were asked what the American Red Cross could best do to hearten the army and give the soldiers a concrete token of American co-operation they said: "Give us canteens and rest stations."

The Red Cross is accordingly establishing canteens at 11 important railway stations in France for the special use of soldiers on leave, who are constantly passing on their way to and from the front. The woman's bureau undertook to recruit 100 women to serve in canteens and rest rooms in France. Only women of robust health, between the ages of 30 and 50, were considered, and applicants were required to show that they had worked for the American Red Cross or in regular occupations requiring a high order of service and a capacity for self-sacrifice. Fifty-two of these women already are in France.

Serves 2,000 Troops Daily. The first of these canteens was opened in September and began immediately to serve large numbers of French soldiers and some American troops. It has been used by an average of 2,000 men daily. The first visitors were a troop of chasseurs who had been instructing the American troops, and on the same evening a large number of American engineers, leaving by train at 1 o'clock in the morning, were given a warm welcome.

There are 18 women who serve day and night. The menu includes soup, bread, meat, vegetables, salads, cheese, eggs, coffee, chocolate and tea. Arrangements for annual departure of trains have entailed between 300 and 400 men to canteen hours of much-needed rest in comfortable, clean quarters, with men can be so accommodating the showers and wash basins also are provided. Everything Free Except Food. The picture presented by the canteen when it is filled with soldiers described in a cable from J. H. Wood, American war correspondent in part as follows:

Back of a long porcelain-tiled counter women in white caps and aprons were pouring coffee, ladling soup and out sandwiches as fast as their artificial work. In front was an endless line of American and French soldiers, some with soup or coffee in one hand and sandwich and tobacco in the other, marching vigorously through the crowd for counter to seats at the tables in the big barber shop, a change sterilizer and bowl, movie theater. All is free except the food which there is a nominal charge. On the side of the railroad tracks a garden has laid out where, in addition, the French Government dispenses wine to its own troops. In waiting for trains the soldiers relax and eat. Everything is sold at cost, no allowance being made for the big overhead expenses. In addition, much is distributed free. A bowl of soup, which is quite different from the usual olive-flavored greasy hot water, costs 2 cents and other things are sold at proportionately low prices. Soup and coffee are both served in bowls.

Near the firing line the American Red Cross is establishing field canteens. Extending the work already begun by a branch of the French Red Cross, it will provide one of these canteens for every corps of the French army and later for the American army as well. A field kitchen is maintained there, from which the refreshing drinks are distributed along the front by wagons and light motor trucks. Four thousand portions—coffee, tea, cocoa, bouillon, lemonade, etc.—are sometimes served from one canteen in a single day.

15,000 NURSES ENROLLED

With the new X-ray method, an effective plan of treatment without surgical operation. Mrs. Rea Bros. are well known throughout the United States. Their plan is to secure in each community evidence of their good work so as to benefit them in securing more patients. The sick and those interested are invited to call. Married women must come with their husbands, and children with their parents. Hours 10 a. m. to 4 p. m.

Wm. Furguson in the San Angelo paper says: "The drouth has done its work in our neighborhood very completely. On the farm adjoining mine there were last June nine families, all hard workers. On the south Mr. Mohler and two hired families, on the east Mr. Carter on the Cummings farm; on the north Mr. Kolster on the Motl farm, on the west Mr. Schooley and Mr. Marchison on the Lee ranch, and on my farm my son Harvey, making nine families counting myself and Mr. Mohler. He and I are the only ones left, and I do not think we would be here if we could have gotten away. We could not sell our stuff, and so we had to stay and try to save it till it rains, if it ever does. Talk about your manless country, how is this for one?"

The Big Spring Herald says that the word "rain" is hardly ever spoken there now.

In the meantime Jim Ferguson declares that he is going to be Governor of Texas again in spite of high water and the constitution.

Comptroller H. B. Terrell has announced that on account of ill health he will not be able to make the race for governor this year as he had intended.

We wonder if the announcement of Gov. Hobby had anything to do with Mr. Terrell's health?

The opinion given by former Senator J. W. Bailey in a letter to Col R. M. Johnson, of Houston, that "if prohibition and suffrage should carry he believes inter-marriage with whites and blacks would follow," is an insult to every white man and woman in the United States.

It is mighty laud to write words of encouragement under present conditions of the country; but we want to say right here, that the people of this wonderful country are the bravest in adversity, the squarest in prosperity, the most cheerful under trying conditions and the quickest to react from calamity in the world. They are world beaters, and no people with their indomitable spirit can ever be downed.

The covered wagons are coming back. They may be seen now almost every day westward bound. If it would only rain the folks would come back in flocks, but we will admit that this is the biggest and longest "if" we have seen in many a day.—Rescoe Times.

They must all stop in Nolan county as very few have been seen westward bound in this county.

Some people who left Mitchell county, which is in the drought stricken Texas, last summer

Anthony Van... there another year... to insure the vestige of a crop has yet fallen. They are backing up their belief that the proper seasons will come, and are going back to place themselves in readiness for the same. It is to be hoped that they will in no wise be disappointed.—Palmer's Outlook.

THE NEED OF UNDERSTANDING.

Secretary Baker could hardly perform a more useful service at this time than to go before the Senate Committee on Military Affairs and make a detailed explanation of the general military policy of the United States and its relation to the Allies. There is much that he cannot tell, owing to the necessity of protecting certain military secrets, but there is much more that he can tell, and the country needs this information. Without it there can be no intelligent understanding of the war activities of the United States.

One of the commonest complaints is that if this country had been prepared for war the Allies might already be in a position to dictate the terms of peace. This complaint is born of sheer ignorance. If on April 6 we had had 2,000,000 trained and disciplined troops, equipped to the last button we should probably have had no more men in France than we have now. There has not been a day since the declaration of war that our soldier power has not surpassed transport power.

Col. Roosevelt frequently asserts that if we had been prepared there would have been no war. To believe this is to hopelessly misconceive the mind and purpose of the German government in making war upon the United States. From the point of view of the German General Staff it made no difference whether the United States had an army of 10,000 men or 10,000,000 men. Berlin was confident that with ruthless submarine warfare American troops could not be transported to France and that Great Britain could be starved into submission within a few months. The fate of the German Empire was staked upon this theory. Had ruthless submarine warfare been able to accomplish what the German General Staff expected of it, all the calculations would have been correct. The theory was excellent but it failed to work out in practice.

A prohibition election has been called for El Paso county for the 30th inst., and in all probability will carry there, although there will be a strong fight against it. John Barleycorn is doomed and the states, separately, will make the United States "bone dry" in a very short time, anyway. So mote it be.

Poor old John Barleycorn is on his last legs now. Within the next seven years the necessary two-thirds of the states will have ratified the national prohibition amendment and John Barleycorn will go into the scrap heap permanently. The history of the Decline and Fall of the Whiskey Empire covers a period of one hundred years first and last, but the real battle has been fought in the past three years. Nothing in all the world's history has been so remarkable as the march of the dry hosts. Even the destruction of paganism required centuries. We will live to see a better world, where whisky and kaisers rule no more.

See Mary Pickford at opera house next Monday.

Foster promises that we shall not have much more severe weather.

STATES' RIGHTS AND PROHIBITION.

There is going to be plenty of time for speculation as to the possible results of the voting in the States on the Prohibition amendment to the Constitution. Only 11 Legislatures will regularly meet in 1918; and, unless there are going to be a great number of special sessions called for the express purpose of acting on the amendment, we shall have to wait a full year longer for a decision. Of the 11 States whose Legislatures will meet next year six appear to be opposed to ratification, assuming that the votes of their delegations in Congress on the resolution of submission were fairly representative of public opinion at home.

Of the Congressional delegations of the six States referred to those of New York and Maryland voted two to one against the resolution when it came up in the House. The New Jersey delegation was even more overwhelmingly opposed. Massachusetts and Rhode Island voted against the resolution by bare majorities, while the Louisiana delegation was tied. If the Prohibitionists should carry the day in the Louisiana Legislature this would, doubtless, be hailed as a prognostication of victory for the amendment; and it should not be forgotten that the delegations in Congress of 36 states, a number sufficient for ratification, favored the amendment—many of them unanimously.

There was one question which received very slight consideration when the resolution to submit the amendment was debated in Congress, but which may affect the voting in the states decisively. The proposed amendment would prohibit the manufacture of intoxicants within the states and give the Congress and the various Legislatures concurrent power to enact laws for the enforcement of the prohibition. The delegation to Congress of authority to regulate the domestic affairs of the states would be a departure from precedent of revolutionary effect. It is not at all certain that the Southern States, the delegations of most of which were units in favor of the amendment, will stand for this invasion of local sovereignty when the case is clearly presented to them. And a jealous regard for States' Rights is not on exclusively Southern predilection. The possibility of a contest on this issue makes valueless all guesses on the fate of the prohibition amendment based on the recent votes of the Senators and Representatives in Congress.

The Record believes that had the bond proposition been thoroughly understood by all the voters, that it would have carried in the election last week. Very little publicity was given and there were several points not quite clear to many. The question was also clouded by several parties who opposed the bonds. The Record regrets the outcome very much and we have always stood for progress instead of retrogression. We know of nothing that would benefit this county more, and come nearer putting it on the map than good roads and especially the National Highway. And it seems to us that in a democratic government the majority ought to rule. But the law says two-thirds must vote for it, and that is all there is to it. It means that old Mitchell will be pointed out as slacker, back number, and a county not willing to do her part, not only to help build the State Highway, but declined to improve her own roads, and in so doing gave away, absolutely for a whim, over \$21,000 in cold hard cash.

PREFERS CHAMBERLAIN'S

"In the course of a conversation with Chamberlain's Medicine Co.'s representative today, we had occasion to discuss in a general way the merits of their different preparations. At his suggestion I take pleasure in expressing my estimation of Chamberlain's Cough Remedy. I have a family of six children and have used this remedy in my home for years. It is the only cough remedy on the market, as I have tried nearly every one. Earl C. Ross, Public Milton County Republican, Rescue, Ga. 'A house every \$30, always good shot.'

WHAT WEST TEXAS NEEDS.

The Dallas News suggests that it would help the situation in the drought stricken counties of the West if tractors were supplied for plowing. Many other suggestions are being offered. The plain facts are that West Texas needs rain. Give it plenty of rain and the people will do everything else that needs to be done. Without rain tractors and all the agricultural implements in the world will do no good. The West has been hard hit, about like the East gets it when there is too much rain, but there will be a change and the West will be back on the band wagon some day happy and prosperous. Unfortunately, droughts do not excite the same consideration that storms and floods create, and as a consequence the people who most need help get nothing, for they have to have before anybody gets into action. The majority of the people who are now in the section that has suffered the most from lack of rain are able to manage through some way if it rains in time for the 1918 crop.

About all the help the West has received was the special orders to rush empty cars out here to take the stock out of the country and the sending of feed for the stock that had to be paid for at high prices. Both helped and is perhaps all the assistance the West is entitled to. Anyway, it is about all that will be given, except some money put in the banks to be loaned on security that would get the money anywhere.—A. Stone Reporter.

The Clarendon News says: "To divide Texas is a wild-eyed, empty dream—and that is why it rambles so." The Panhandle has a number of wild-eyed dreamers.—Claude News.

There you go again. "Wild-eyed dreamers," eh? It is remarkable that these two newspapers that are so much opposed to a division of Texas are edited by men that are recent additions to West Texas. Neither of these new comers have gotten the material out of their systems. A few more months of this pure West Texas ozone will straighten them out, and they will see things entirely different. In the meantime, keep your eye on Texas division, and you will some day see something happen.—Lockney Bohcon.

The subject of the division of Texas still predominates in the editorial columns of the Panhandle newspaper. The only argument worth while we have read against the division of the state, is, that it will cost more to keep two governments than it does one, which may be fact. If a government of a new state of Panhandle cost as much as our present one it would certainly be expensive, but we believe the Panhandle is paying enough taxes to have a separate government and then have some left. The argument of one government being cheaper than two might be an argument in favor of Texas annexing Oklahoma, New Mexico and Louisiana. The one government plan is alright, but you can get too much territory in the one government.—Miami Chief.

Those Lorraine fellows want good roads as shown by their vote of 137 to 28. They insist, on another election, and if this cannot be secured, they propose to make Lorraine into road district No. 2 and vote the bonds like road district No. 1 did some years ago. We glory in their spunk.

LOONEY ANNOUNCES FOR GOVERNORSHIP

Austin, Jan 12.—B. F. Looney, attorney general of Texas, formally announced his candidacy for governor of Texas, subject to the action of the Democratic primaries next July.

The Liquor Traffic.

For more than thirty years I have fought the battles of local option and prohibition with my means and services. On the prohibition question I stand where I have always stood—for the utter annihilation of the liquor traffic in all of its conceivable forms now and forever more.

National Prohibition.

No question of State's rights is here involved for the simple reason that the States themselves expressly provided for the submission of federal constitutional amendments and when such amendments, so submitted, are ratified they become the action of the States themselves. Such an amendment with respect to the liquor traffic having been regularly submitted, both as a citizen and a candidate I favor its immediate ratification by our legislature at its first session.

Economical Administration.

The constitution provides that "the legislature shall not have the right to levy taxes or impose burdens upon the people except to raise revenue sufficient for the economical administration of the government.

Land Tenant Problem.

The increasing number of people who do not own homes is a pathetic situation, and presents one of our most serious problems, not only economic, but spiritual as well. Many remedies have been suggested of more or less merit, some visionary impracticable and unsuited to our conditions. I do not believe that in any one measure will be found the solution. It will require a number of co-operating measures designed to encourage a man to help himself.

At considerable length Attorney Looney gives his views on the Railroad Rate Situation, Control of State Educational Institutions, Public Free Schools, Judicial Reform, Public Office, Majority to Nominate, Tax Equalization, Labor, Reclamation of Lands, Etc. These are all planks in the platform and are fully explained in his announcement.

Don't miss the big circus for 1918 is coming Wood schedule time. A poll tax receipt ticket required. Do you

VELVET BEANS TO BE PROVIDED FOR CATTLE

In order to insure an adequate supply of feed for Texas cattle, the Food Administration has arranged for the purchase of about one hundred carloads of velvet beans from Alabama and other Southeastern States for distribution in this state, according to announcement made by C. A. Williams, assistant secretary of the State Cattle Raisers' Association.

These beans will be sold to Texas cattlemen at the purchase price plus the freight. Several carloads which were shipped to this State during the last month sold at \$38 per ton, but it is believed that the beans can now be had for \$32 per ton. The beans are shipped in bulk, about eighteen tons to the car.

According to stockmen and farmers from the Southeastern States who have recently visited Fort Worth the protein content of velvet beans is 18 to 20 per cent. They are fed in pods or ground into meal. Cattle eat them readily and it is the opinion of those who have investigated the matter that they will be fine for wintering cows and steers and also goats and sheep.

If the venture proves successful it is the general opinion of cattlemen of this city that a great step has been made in the direction of stock feed conservation.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop Using Dangerous Drug Before It Salivates You! It's Horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money. Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat any amount afterwards. Ask

CAMP TRAVIS NEWS BY PUBLICITY OFFICER

CAMP ITEMS OF PUBLIC INTEREST AND PERSONAL ITEMS ABOUT THE BOYS.

Willie B. Mathews has returned to duty from the base hospital, where he was confined with measles.

Barney Lee Autry, of the 2nd Caisson Co. 315th Ammunition Train, has returned to his duties after spending a few days on furlough. He reports a very good time.

Sgt. H. G. Simpson, Co. A, 315th Engineers, won't object to the Colorado folks knowing that he is now in Camp Lee, Petersburg, Va., attending the Engineers Officers' Training School.

Hq. Dept. 315th Supply Train reports that Corp. William C (Seedy) Davis says that he likes army life fine, and from his looks, he shows that it agrees with him. He is Chauffeur for Hq. 315th Supply Train. He also rides the motorcycle at times.

Albert C. Taylor of the 2nd Caisson Company, 315th Ammunition Train, has recently been promoted to First Class Private in this organization.

Tom Taylor of the 2nd Caisson Co., 315th Ammunition Train has recently been promoted to 1st Class Private.

The Mitchell county boys in Co. No. 1, 315th Supply Train are all getting fat and saucy. This applies especially to Corporal John D. Givens, who received a dislocated thumb in an indoor base ball game last week.

Ed Hallmark, Newton B. Haggerton and Russell Kidd are very enthusiastic over the show they saw at the Camp Travis Majestic theatre last night.

Corporal Herman Finley is wearing a smile a mile wide today. He received a letter from someone in Lorraine, and the conjectures are that thence come the smiles.

Private Jim Martin is becoming a regular night owl. He stayed out until nearly nine o'clock the other night.

K. K. Sadler has been transferred from Motor Co. No. 5 to the Signal Corps.

Walter Washburn, who has been breaking horses for the First Caisson Co., was thrown the other day, and had his leg hurt so that he limps like Herman Finley.

War as it is fought in this day and time makes demands upon callings that are as prosaic as it is possible to call to mind. The job of making previous training fit into the needs of the hour is one that demands the display of tact, diplomacy and constant vigilance. The Army uses talent and skill, brawn and muscle in enormous quantities. The man who is detailed to keep sanitary the camp where the soldiers live is doing his full part in the fight to make the world safe for democracy and is entitled to just as much credit as any soldier in the case for freedom.

While war means destruction, destruction can be made complete, in a material way, only through construction of the forces that are used to such an end. Constructive training, therefore, as well as intensive training is given practically every man of the selected draft now at Camp Travis. When peace comes and the boomings of war are heard no more, peace and civilization will reap profits from much of the training that the soldiers of the National Army are now receiving.

Soldiers will become citizens better fitted to meet the responsibilities that good citizens must ever shoulder. Men who entered the Army without a trade, or a fixed calling, will as a result of the instruction they are now receiving return to their peaceful pursuits equipped to create wealth from raw material. They will be able to aid commerce, to build enduringly, to think orderly, to act quickly and to perform quickly. Soldering in other words, is no longer a one idea profession. Rather it is like a great power plant, with every piece of machinery kept in perfect condition, each piece functioning with precision making for maximum results.

The Army, for instance, will teach thousands of young men telegraphy. Thousands of others will learn of electricity in other ways. They will be able to operate telephone exchanges, to manage lighting plants, to harness the very air so that it will serve the purposes of mankind. Others will return to civil pursuits trained to be machinists of the better kind; others will be harness makers and saddlers. The study advantages that follow a knowledge of typography, will come to those who learn map making, while those who learn to operate printing companies in the future look in vain for competent managers and conduct such enterprises. Ask out those who today

this country will be less acute as a result of the training now being given in the Army. Literally thousands and tens of thousands of young men are becoming familiar with internal combustion engines and tractors propelled by gasoline and other volatile fluids. The automobilist of the future who finds his choo-choo won't chug-chug will pay in good fortune if an ex-soldier should happen along. But the greatest good to the future that thus far has come from the army training is the physical upbuild of the men of the selected draft. Chests are no longer sunken, but reflect the lung expansion that outdoor exercise has caused to take place. Lassitude and inertia have been routed by the red corpuscles that have been started in the blood by healthful living. Eyes that were ashen have become bright and minds that were slow have been quickened by the work that has already been done at Camp Travis.

Uncle Sam believes that the way to reach a man's fighting elements is through his stomach and that an empty stomach results in a poor soldier. The food given the men at Camp Travis is plentiful, substantial and prepared in a way that causes it to be relished by the whetted appetites. The supply of food has always been plentiful and the supply of clothing has kept pace with the actual needs. The soldiers are being cared for, without being coddled and the cases of complaints on the two principle things that soldiers need—clothes and food—are few indeed.

YOU'RE BILIOUS! LET "CASCARETS" LIVE! LIVER AND BOWELS.

Don't Stay Headachy, Constipated, Sick With Breath Bad and Stomach Sour.

Get a 10-cent box now. You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil? Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermented food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret at night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.

A nation-wide campaign for economy in the use of coal in steam plants has been undertaken by the Fuel Administration. The Bureau of Mines is conducting the campaign, with the help of the American Society of Mechanical Engineers.

ROAD BONDS DEFEATED BY 3 VOTES

Last Saturday was road bond election day and about one-third of the county voting strength came out to the polls.

The vote, as canvassed by the commissioners court, stands:

Box	For	Against
Colorado	172	74
Westbrook	22	18
Spade	3	5
Landers	5	4
Cuthbert	12	10
Car	(no election)	
Lorraine	137	28
McKenzie	00	6
Burford	5	23
Iatan	1	5
Totals	357	183

This gives a vote of 540. The bonds had to have two-thirds majority and as they only secured 357, it fell short just three votes. There were at least 25 men in Colorado who favored the bonds, who failed to vote.

It was a cold and disagreeable day and many people failed to go to the polls, otherwise we believe the bond issue would have carried easily.

Some time ago in the Fort Worth courts was tried the case of the Swenson Land & Cattle Co. vs. The Matador Land & Cattle Co. Much of the testimony was that of experts, covering every survey made of the land since it was first patented. Judge C. L. Clark of the state land office was there with every map of that territory in his department. The field notes of Major Wise, made in 1882, and those of Judge James L. Sheppard, also made many years ago were involved.

NOTICE SHERIFF

The State of Texas Mitchell.
Notice is hereby given in pursuance of a certain order of the Honorable District Court of Mitchell County, of the 10th day of January, 1918, by W. W. Clerk of said Court for the Thirty-two Hundred, Thirtieth and Thirtieth Sections, 88-100 Dollars and costs of order a judgment in favor of State Life Insurance Co., in cause in said Court No. 30 styled Missouri State Life Insurance Co. vs. J. A. Traylor et al, plaintiff hands for service, I, A. W. W. Sheriff of Mitchell County, Texas, did, on the 10th day of January 1918, levy on certain real estate, situated in Mitchell County, Texas, described as follows, to-wit: 320 acres, the south one-half section number Ten (10), in Township One North, Certificate Texas and Pacific Railway levied upon as the property of J. A. Traylor, and that on the 11th day in February, 1918, the 5th day of said month court house door, of Mitchell County, Texas, between the hours of 10 a. m. and 12 m., by virtue of said levy order of sale, I will sell described real estate at due, for cash, to the highest bidder, the property of said J. A. Traylor, and others.

And in compliance with this notice by public English language, once preceding said day of Colorado Record, a new Witness my hand, this 12th day of January, 1918.

125c A. W. 1.00 Sheriff Mitchell

It's no longer necessary to go into the details describing the practical merits of the Ford car—everybody knows all about "The Universal Car." How it goes and comes day after day and year after year at an operating expense so small that it's wonderful. This advertisement is to urge prospective buyers to place orders without delay as the war has produced conditions which may interfere with normal production. Buy a Ford car when you can get one. We'll take good care of your order—get your Ford to you soon as possible—and give the best in "after-service" when required.

It may be and is altogether probable that the factory will fill only present orders. Then turn over to the government. Better get your orders in now.
