THE RAINS HAVE COME.

Since last week's paper was published it rained on Thursday night, Friday, and Friday night and again on Saturday. This time it rained everywhere, even Iatan and Westbrook got good rains, McKenzie and Wulfjen Ranches, all over the county all over West Texas and practically all over Texas the rains have fallen.

The pioneer who once said Mitchell County was located not far from the once beautiful Garden of Eden was not far wrong. The fellow who said the frogs had all left the country didn't know. The chorus that they gave us after the big rain shows that they had faith in Mitchell County, and they had just "dug in" during the late two or three years of unslaked unpleasantness and waited for the big rains to start again before exposing their vocal chords to the prospective sand. Yes, the rains have come again, now just watch old Mitchell come back.

We have been a long time getting it, but it has arrived at last and the farmers are working from sun to sun. Let's build some good roads so that we will be able to market the bumper crop that we are going to make this fall.

The West is due for a big crop this year. It needs a big crop. A bumper yield in 1918 will again put the West on its feet and money in the pockets of the farmers and business men. It is the best place on earth, rain or shine.

The Slaton paper says:

The Slaton country had a rain Monday such as but few people have ever seen here, and the fellows who have been wanting to see a real rain over this section are now fully satisfied that it can rain here. Rain began falling at 12:30 o'clock and continued for an hour and a half in a downpour that was almost a cloud-burst. In all three inches of rain fell in town. Just west of town the precipitation was nearly a half of an inch more.

Of course you all know that Mitchell county is the greatest county on earth and when we can get an outsider to confirm it, it makes our head swell up. No, we are not broke nor even bent to hurt. The West has got a good deal of free advertising on account of the drouth, but not near so bad as pictured by the newsmongers. Yes, it's true that our crops have been short for the past two years, but notwithstanding this fact we are still all hunk-a-dora. Our four little banks in the county have something like a million dollars on deposit, and the whole population are getting three squares a day. We are carrying our part of the load and helping to lick the kaiser. Yes, when God made Mitchell county, He made it the garden spot of creation and peopled it with stalwart men and the handsomest women on this mundane sphere. Mitchell county is all right and her fair uncovered head will continue to lift itself above these western prairies that roll their billows of green toward the setting sun, unhumiliated and unbowed.

OZARK TRAILS ROUTED THRU THIS CITY.

The convention of the Ozark Trails Association at Miami, Oklahoma, on Friday adopted the Abilene route of the Ozark Trails from Lawton, Oklahoma, to El Paso. This intelligence was received from Secretary B. F. Bennett of the Abilene Chamber of Commerce, who is attending the convention.

Secretary Bennett was elected convention secretary. Mr. Morris of Seymour, was elected vice-president from Texas, and Mr. Whitaker of Haskell, was elected route manager for the Lawton-Abilene-El Paso route. Abilene and the towns along the Wichita Valley Highway, as well as towns between Abilene and El Paso along Highway No. 1, won a great victory at Miami. There was strong competition for the route, the northern line running through Clarendon, Texas, and Roswell, New Mexico. The Abilene route won out in spite of this competition and the victory was a great one.

The highway is of the utmost importance. It connects Fort Sill with Fort Bliss, and still another route from Abilene to San Antonio, now contemplated, would connect the two forts with Fort Sam Houston, Abilene being the hub of this system of highways, which may in time become a government military highway.

ANNUAL MEETING OF CHAMBER OF COMMERCE

On Monday, June 10th, the Colorado Chamber of Commerce held its annual meeting and elected officers. At this meeting the secretary and treasurer made their report. The following officers were elected:

Dr. P. C. Coleman, President.
J. H. Greene, Secretary-Treasurer
Executive Board—R. O. Pearson,
R. P. Price, H. L. Hutchinson, A. J. Coe and J. H. Greene.

The secretary's report was as follows:

During May 1917, the plans were perfected and the water pipe put in running up to the school houses.

During July, 1917, arrangements were made with the fire boys for the Chamber of Commerce to reimburse them for amount they expected to get from having carnivals come here, and thereby kept them out.

Feeling that the nightwatchman needed assistance, we furnished an assistant to better protect our town at night.

We donated \$35 to the band to make it possible for them to get an instrument needed by them.

Judge C. H. Earnest was sent to Mineral Wells to attend a good roads meeting.

We furnished able assistance in the fight against locating the West Texas A. & M. at Abilene, in that we furnished an attorney and helped to pay the expenses of the fight.

August, 1917, State Demonstration party entertained for the benefit of all who wished to attend lectures, etc.
Aug. 20, Mr. T. H. Roe resigned his position, made his report, which was examined and approved, and Mr. J. H. Greene was elected to fill his place for balance of year, at a salary of \$20.00 per month.

In October, the executive committee, with a few others present, decided to ask subscribers for only one half of the amount they were then paying, per month.

Met to consider a proposition from Mr. White of the West Texas Electric Co., to dam Lone Wolf creek.

We took no active part in the fight to put the road bond issue of \$70,000,000 over, but in the second drive we took an active part as a body and worked for the issue. However, we paid for the work of circulating the first petition.

In November we purchased \$500 worth of Liberty Bonds.

In January we co-operated with the Demonstration Agent and organized the Mitchell County Feed and Food Council, which secured seed, etc.

A proposition was presented to us by Judge R. H. Looney, to get a lease on land for Mr. McGraw of Ponca City Oklahoma, which we did, but Mr. McGraw failed to take hold.

We met with Co. Harvey at the Barcroft Hotel Feb. 9, 1918, and heard his proposition on the Ozark Trail, and agreed to do our part.

We secured a place and gave publicity to Food Administrator Owen's speech Feb. 27.

We appointed a committee to see about getting curved instead of 45 degree angles on Highway No. 1.

We sent County Fuel Administrator to the Administrators' meeting at Dallas.

April, 1918, we sent Judge C. H. Earnest to Little Rock, Arkansas, to assist in securing a consideration on the Bankhead Highway coming thru our city; also through our efforts the County Commissioners sent Judge J. H. Bullock to the same convention for the same purpose.

We sent Judge A. J. Coe to Abilene

Our Boys in France and Home Protection

The men on the firing line represent the pick of our American youth. One in four of our boys at home was sick, rejected because of physical deficiency. Many times the kidneys were to blame.

If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce of the Surgical Institute, Buffalo, N. Y., says that we should drink plenty of water daily between meals. Then procure at the nearest drug store, Anuric (double strength). The cost is 60 cts. This "An-uric" drives the uric acid out and cures backache and rheumatism.

If we wish to keep our kidneys in the best condition a diet of milk and vegetables, with only little meat once a day, is the most suitable. Drink plenty of pure water, take Anuric three times a day for a month.

Send Dr. Pierce ten cents for trial package.

BINGER, OKLA.—I had one knee hurt in which rheumatism developed. Afterward I hurt my back very badly loading wood. I sent for four packages of Anuric Tablets and had taken hardly two packages when they completely cured me. I have not had a twinge of rheumatism in my back or in my knee since. I know the Anuric Tablets did me more good than all the other medicines I ever took.

"I let a neighbor have one package of Anuric. He was down with his back, and it did him a world of good. My parents have known of and used Doctor Pierce's medicines for years."—W. B. PHILLIPS, Route 1, Box 72.

Whenever You Need a General Tonic Take Grove's.

EVER SALVATED BY CALOMEL? HORRIBLE!
Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bowels and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sell for a few cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not savorate.
Don't take calomel! It makes you sick the next day; it loses you a days work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

See A. J. Herrington's Motor Cultivator and Planter. It will work day and night.
Save food or go on short rations.

A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS
Give "California Syrup of Figs" if Cross, Sick, Feverish, Constipated

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

WAR SAVINGS CAMPAIGN, SAYS PRES. WILSON, BASIS OF GOVERNMENT'S WAR-TIME FINANCIAL PROGRAM

THE War Savings Campaign is the foundation on which the Government has based its entire war-time financial program. In the measure that the lesson of saving is learned and practiced by all the people, both President Wilson and Secretary William G. McAdoo have emphatically declared, in just that measure will the Government float the bond issues that may be necessary in the future.

The saving and investing of the War Savings Stamp quota is far from the only thing based on the War Savings Campaign. The future Liberty Loan bond issues and the floating of the Treasury's indebtedness certificates are wholly dependent for success upon the constant practice of economy through the medium of War Savings Stamps.

Texas are called upon to save and invest \$91,000,000 this year in War Savings Stamps and it is vitally necessary that this be done and that everyone practices to the utmost the principles of war-time economy which the Government is teaching with War Savings Stamps. Mr. McAdoo has declared. A single strand in the cables which uphold the great Brooklyn Suspension Bridge is not very strong, but thousands of these strands bound together uphold one of the greatest pieces of engineering in the world. In the War Savings Campaign one person is like the single strand, but all of the people saving and buying War Savings Stamps will make the Government's entire financial program a success, the Secretary of the Treasury has pointed out.

"No individual in this great country can now expect ever to be excused or forgiven for ignoring the National obligation to be careful and provident of expenditure, now become a patriotic duty and an emblem of patriotism," says President Wilson in his message to Texas people. "I suppose not many fortunate by-products can come out of the war, but if this country can learn something about saving it will be worth the cost of the war. I mean the literal cost of it in money and resources."

TEXAS cattlemen, barons of the Lone Star plains, are urged by James Callan, President of the Cattle Raisers' Association, not only to keep on feeding the "boys over there" bully beef, but to invest all they can in War Savings Stamps so the Sammys can feed the Huns bully bullets. "Although laboring under the most adverse and trying conditions in the history of Texas range country, you have not lost your courage nor your patriotism," Mr. Callan addresses Texas cattlemen. "An appeal is made to everyone to help to his ability in the purchase of War Savings Stamps. Help whip the Kaiser, cattlemen of Texas! Our boys are on the firing line."

W. A. FRASER, Sovereign Commander of the Woodmen of the World, is intensely interested in the War Savings Campaign. Several days ago, shortly after his return from Omaha, where he and Mr. Fraser were together a good deal, Louis Lipsitz, State Director of the National War Savings Committee, received the following telegram from the Woodman Sovereign Commander: "A War Savings Society in every Woodman of the World camp, every sovereign a member and the doctrine of personal economy practiced hand in hand with the great principles of woodcraft—that's my ambition."

Woodman of Texas: Chop down the trees of extravagance with War Savings Stamps; blast out the sumps of unnecessary expenditures with War Savings Stamps. Help make an open road which the Government needs if it is to travel the paths of victory. "The Woodmen of Texas have a vastly important part to play in putting Texas in the clear. Acquire War Savings Stamps; invest to the hilt. Save your country. Save yourself. The cry must not go up that 'the tree is falling.'"

THE Government looks to the women of Texas for much support in driving home the teachings of the War Savings Campaign. "To every Texas woman the Government has assigned the role of Joan of Arc," declares Mrs. Percy V. Pennybacker, former President of the National Federation of Women's Clubs. "The French maid saved the land of the Tri-color. Texas women are called upon to save with an economic hand that their funds, invested in War Savings Stamps, may perform their full office."

Let us one and all save—save and serve for the safety of our Lone Star lands fighting for us in Europe.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadorsville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak... I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few doses of Black-Draught."

Watch your step! A brisk, lively step is what charms more than a lovely skin, but your high heels have caused corns and you limp a little. That's bad, girls, and you know it. Corns destroy beauty and grace, besides corns are very easy to remove. Rid your feet of every corn by asking at any drug store for a quarter of an ounce of freezone. This will cost little but is sufficient to remove every hard or soft corn or callus from one's feet.

PLEDGE THE PRESIDENT.

The President has spoken. To all Americans, to every Texan, he has pointed out the National necessity of intelligent economy, the need for frugality in personal expenditure. Upon all he has urged the daily practice of the war savings lesson thru the medium of War Savings Stamps.

By proclamation he has set aside June 28th as National War Savings Day and has authoritatively summoned every man and woman to make, before, or on that day, his maximum pledge in War Savings Stamps, to the United States Government.

The summons of the Federal Government, directing attendance upon pledge meetings to be held in every school district in this county June 28

will soon be received by the adult males and females of this subdivision. Before the time comes to sign the Federal War Savings Stamp pledge card, which will be furnished every summoned person, each individual should definitely ascertain the greatest amount of money he can save and invest this year in War Savings Stamps. The time has come to pledge the President our investment in War Savings Stamps, there should be no individual in this county who will pledge less than his full limit. The response of our people in the actual pledging and investment in War Savings Stamps, wealth of the individual considered, will be the measure of our patriotism, the degree of our loyalty, the concrete expression of our respect for that great man who sits silently in the White House at Washington and directs so wisely and so well the destinies of the United States.

This county—your county and mine, your home and mine, must not fail the President.

In the meantime, let's get busy and insure ourselves by getting as many members for the Limit Club—owners of \$1,000 worth of War Savings Stamps—as we can. Malakoff, a little town of 750 people in Henderson county, has thirty-three Limit Club members—a matter of \$33,000. Now let's figure out how well we can do with a Limit Club in Mitchell county. Now that good rains have come, and the crop prospects are bright for the future, let us figure liberally on how much we can save and invest in the War Stamps for Uncle Sam, and to help win the war.

Colorado Gets Big Rain.

Colorado City got as much rain last Sunday in about two hours as fell there during the entire year of 1917, when the annual precipitation amounted to only 4.47 inches. Weekly rains had been falling for some time and that county is again coming to the front with good crops. Moisture is the only thing the west needs, land being rich and easily cultivated. Here is hoping that there shall be no further lack of rain in any of the counties of the west.—Abilene Reporter.

THE COMING THRIFT DRIVE.

It is not necessary to wait until June 28 to get into the war saving game. Indeed, it would be foolish to wait. The campaign which is to be held on that date is to obtain pledges for the full amount that you will buy during the year, and what you already have bought will help in the grand total. The patriotic citizens who are alive to the importance of the \$2,000,000,000 issue of government thrift stamps will get in the game immediately and thus be in good going condition when the campaign is launched.

But it is well to keep in mind the date and be prepared to pledge your maximum. More than that, every man who possibly can do so ought to enlist to work in the campaign itself. It is going to take a big force of solicitors to pledge up more than \$2,000,000 in a day, and there is no possibility of there being too many.

The war savings drive is the next big thing to be accomplished by the people in co-operation with the government. President Wilson has declared that it is the most important thing before the country at present. In many respects it is more important than any of the Liberty Bond issues, for it touches directly the question of releasing material, labor, shop room and transportation for the government's war uses. The leaders of the movement are now getting things in shape to make the drive a memorable one and they are determined to put it over in a fashion in keeping with the record already achieved in other campaigns here. Every man and woman who is watching what our boys are doing in France and whose heart is in the fighting will make every sacrifice of personal convenience or temporary neglect of business that might be required to take part in the campaign.

THE COLONEL'S LATEST

Not long ago Theodore Roosevelt made the extraordinary statement that during the first 11 months of its participation in the war the Government of the United States had shown far less efficiency than Russia. A little later he followed up this absurd assertion with the contention that the American force in France was of less importance than that of Portugal. Now he returns to the charge with the declaration that "the free nations stand at bay in the cause that is ours no less than theirs; and after a year of war the army we have sent to their aid is smaller than that of poor, heroic, ruined Belgium."

Just why the Colonel, who has four sons in the American army, seeks to belittle it and hold it up to ridicule is a mystery that can be explained only on the theory that he is at his favorite old game—playing politics. Of course, his statement is not true. Belgium's army is supposed to contain between 100,000 and 200,000 men. The number of American soldiers in France is known only to those possessing confidential information or our military resources, but it is generally supposed to be from 600,000 to 700,000 men. This splendid and rapidly growing army is regarded by the allies as their trump card. Americans have every reason to be proud of its size, its quality and its fighting ability.

Evidently the Colonel is peeved because the Administration does not, at the close of each day's business, notify him of the day's achievements, with permission to make the same known in all parts of the earth. What else can it be?

BARRY MILLER TALKS FOR GOV. HOBBY.

Judge Barry Miller of Dallas spoke in behalf of Governor W. P. Hobby to a crowd of several hundred enthusiastic citizens of Arlington and the vicinity on the public square Saturday afternoon. Among other things Judge Miller said:

"I am attempting to keep from the governor's chair in our state a man for whom every pro-German in Texas will vote. Did you know that when congress investigated the German-American Alliance it found that the alliance had been interested in the election of James E. Ferguson as far back as 1914?"

Could it be possible that the \$156,500 came from the German-Alliance, and as the secret was "written in blood" of course it could never be revealed.

Keep Faith With Your Boy "Over There"

When your boy was so little that all the world was a foreign country to him, he trusted you to take care of him. You sent him to school and to play and on your little errands, and with implicit faith he did your bidding.

Now we have sent your boy or your neighbor's boy out into a foreign land, into terrors that he cannot even know—and his faith has not faltered. He knows we will do our part if he does his. Pledge yourself to buy War Savings Stamps on or before

JUNE 28th National War Savings Day

Saving to help our sons is not to be called by the ugly name of duty or sacrifice. It is love's blessed privilege.

Are we keeping the faith? Are we scrimping and saving and giving to help our boys do this thing that humanity has asked of them, and to help them come back to us sane and whole? Are we doing not only our bit, but all we can?

Supporting The Newspapers.

Everything our government has asked since the war began has "gone over the top" in a most heartening fashion. Did you ever stop to consider why it is true? Several elements enter into the success of the various drives, but the biggest element is the publicity that has been given the various appeals. The publicity was chiefly through the newspapers. No bond issue would succeed without the papers. No Red Cross drive would win without the newspapers. Their space has been given freely and to them belongs the chief credit of success.

If there is a war necessity it is the press. It deserves by reason of this faithful support of all the people. It would be poor policy, not to say positive treason, to allow the newspapers to suffer from lack of patronage in these stressful days.

It is not dead easy for papers to run in these stressful days. War prices have been placed on everything that goes into the making of a paper. In most cases the same prices of subscription and advertising pre-

vail as did prior to the war. The problem of keeping tongue and buckle together was never so acute. —Western Evangel.

Science has shown that nasal catarrh often indicates a general weakness of the body and local treatments in the form of snuffs and vapors only irritate and do little if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building-tonic, free from any harmful drugs. It is helping thousands. Try it. Scott & Bowne, Bloomfield, N.J.

WAR SAVINGS STAMPS

21,000,000,000 Dollars!
This amount Congress appropriated the past year to carry out the great war of Democracy and Humanity. From the birth of our country's freedom in 1776 to 1917, 141 years, the cost of operating its government has been 26,000,000,000 Dollars. This sum includes all wars in that period. Now, in less than a year, this World War of Freedom has caused our government to raise a sum almost as great as that which maintained our country's freedom nearly a century and a half. 2,000,000,000 Dollars of this amount is to be in small sums, chiefly twenty-five-cent pieces. The annual saving of each American citizen is but \$50. It is evident that a great number have been unable to subscribe to Liberty Loan issues. To offer these people a chance to do their bit the government is issuing War Savings Stamps. 100,000,000 people in the United States to raise 2,000,000,000 Dollars means \$20 per person—means Four War Savings Stamps or Eighty Thrift Stamps to each man, woman and child. Don't fall below the average! Sacrifice something! Save something! Be loyal, unselfish! Help win the war!

DEATH OF LITTLE IRIS SÄDLER.

On last Friday night the spirit of Little Iris Sadler took its flight to the God who gave it.

While it was known that she was very sick, yet it came as a shock, and grieved the hearts of the friends of Mr. and Mrs. Sadler, when the news of her death was received.

She had been operated on a week before for appendicitis and the frail little body could not stand the shock, although everything was done that loving hands and skill could do to relieve her suffering, but all was in vain.

Death is always sad; yet when loving parents are called upon to give their all, it seems doubly so. We cannot understand the ways of Providence, indeed "now we see through a glass darkly; but then face to face, now I know in part, but then shall I know even as also I am known." And until that time, our trust must be in Him, who doeth all things well.

The funeral services were held at the home Saturday afternoon at four o'clock, conducted by their pastor, Rev. W. C. Garrett, assisted by Revs. W. P. Garvin and G. B. Duff, pastors of the M. E. and Presbyterian churches. The business houses of the city were closed during the hour of the funeral.

The little body was laid to rest in the I. O. O. F. cemetery, and the mound was a bank of beautiful flowers, the silent messages of love and sympathy from the friends of the family.

There is a Reaper, whose name is Death
And with his sickle keen
He reaps the bearded grain at a breath
And the flowers that grow between."

Little Iris was loaned to the fond parents for eight and a half years and her sweet little life while here, will always be a pleasant memory and heaven will be the sweeter by her being there.

Only waiting until the shadows
Are a little longer grown,
And the deep'ning twilight tells me
That the day of life has flown.
Only waiting for the summons,
Workman, lay thy tools aside;
What though futile seem thy labors,
All that's worthy shall abide.
Only waiting for the river,
And to reach the other shore.
Boatman! ply thy oar more swiftly,
One I seek who crossed before.
Waiting now—but then the rapture
Which shall all my being fill,
When I touch the hand now vanished
Hear again the voice now still.

The Record joins the host of Mr. and Mrs. Sadler's friends, as well as the little playmates and friends of sweet little Iris, in extending sincere sympathy to these loved ones, in this dark hour filled with grief.

ATTENTION WOMANS COBB CLUB AND VOTERS.

Mrs. P. C. Coleman, Colorado, Tex. My Dear Mrs. Coleman:—The Attorney General's opinion sustained us in the statement we had been making to women in towns of less than ten thousand population, that they did not have to register, however, should the election be contested and the matter taken to one of the higher courts the Attorney General's opinion might not be sustained, and since we are not leaving any loopholes for the opposing party to fight us through we will ask that you will have every woman in your club register at the county clerk's office, between the dates of June 26th and July 11th. However, if there are women who cannot register, they can still vote and there may be no trouble in the matter after the election.

With the best wishes for your club and its work, very truly yours,

CARD OF THANKS.

Through the columns of the Record we desire to express our sincere and heartfelt gratitude to the good people of Colorado, who so tenderly ministered to us during the illness and death of our dear little loved one. Especially do we wish to express our appreciation of the many tokens of love and sympathy as evidenced by the many beautiful floral offerings, and acts of kindness by loving and sympathizing friends who tried to lighten our burdens and lessen our sorrow. Also we wish to offer special thanks to the physicians who were so faithful and tender.

WOMAN'S PART IN THE COMING PRIMARY.

By Mrs. Nannie W. Curtis.
(The following article from the Home and State so forcefully sets forth our present situation that we call special attention to it and bespeak for it a very careful reading on the part of all women.)

Since there seems to be a disposition on the part of some to regard the prohibition question as settled in Texas it is incumbent upon some one to sound the note of alarm, and perhaps no one will see this duty more clearly than I do. The liquor question is not settled. In fact, we are in greater danger just now in regard to the next few years than we have been. The liquor men would need no other propaganda than to lull the people into inactivity until the brewers can elect a legislature that they can control; and in places where they know that the prohibitionists are in the majority they are seeking to bring out weak pro men that they can either dissuade or camouflage at the right time, so as to prevent their helping our cause in the Legislature. In this way they hope to prevent submission just as they did before; and then they, by the use of the same method hope to secure the repeal of the present State-wide law. Then they will hide behind the WOMAN'S BALLOT, and retard the suffrage movement if not entirely rob woman of her vote. Every woman that loves her family, every woman that longs for this war to end speedily and victoriously for the Allies, every woman who is not a profiteer either from drink or vice, should have her name properly registered (if in a town of 10,000 or more) and have in her possession the names of safe men for every office from Governor to Constable. Then she should see that nothing short of death or serious illness prevents her presence at the polls on election day, the twenty-seventh of July. Let us "go over the top" for Texas SAVED this summer. If we do not, by the methods the brewers are using they will defeat all that we have done, and then they will point to woman suffrage and say, "That is what woman suffrage has done. We told you women could not be trusted." Oh, women of Texas, let not this charge be laid at your doors!

I am urging the women to call mass meetings at once in every county, and I think the preachers can do this as no one else. If they will agree to point out our danger there are always women who can take up the detail work and organize at such meetings a WOMAN'S DEMOCRATIC LEAGUE with a county chairman who will see that precinct chairmen are found, and these in turn will appoint strong committees who will see that every woman is registered in her district; that every woman is provided with the names of the men to vote for; that she knows how to mark her ballot correctly. Each precinct should hold one final meeting before the primary and see that all this is done. Then the county league should have a final meeting with all precinct committees in time to supply and need, or do any necessary thing that may arise before election day. Second, there should be an auto committee to see that every woman has an opportunity to vote.

If this plan is followed we can elect just whom we want. The plan rarely or never fails when worked. I do not know whom you would want for your State chairman, but I shall not be uneasy if the counties are organized on this plan. The Christian women must save the day if it is saved, and as the preachers read the church papers and can be trusted to bring important matters to their people, I am taking this method of starting the matter. I am trying now to gather information from all reliable sources concerning the men who are safe for all the State offices, and I shall be glad to submit my findings to any who may want them. In regard to the county offices, the women of each county should prepare a list of the men aspiring to office, and see that the right men are chosen. If there are not enough of that kind, then select a woman and support her to the last hour until you have elected by safe majorities good, clean people.

This is our testing-time. Let the women rise now for State and civic righteousness. This election is as much a matter of making the world "safe for democracy," so far as Texas

is concerned, as the battle line "over there." When this war is over and we face the bruised and crippled army that will return to us, when our boys come back sick or weak or wounded, we shall need a safe country where no liquor or vice shall tempt them in their weakened condition, a place as clean and sweet as mother can make home, where their maimed bodies and shattered nerves may be restored. The liquor traffic is looking with greedy eyes for a new harvest of gain when that time comes.

CHOLERA MORBUS.

This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Eneyart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief."

CEMETERY WORKERS.

Quite a number of business men have volunteered their services to chop weeds at the cemetery after six o'clock. Cars will be provided to take the workers out. All willing to help in this work bring a hoe and be at Burns' store Friday at 6 o'clock sharp.

Takes More Than Cheap Talk to Make Good Congressman, Says Author of Suffrage Bill, in Speaking in Hudspeth's Behalf

"I say to you frankly that he didn't state a single issue pending before the people of Texas today; that he stood for or was opposed to. But he stood for an hour and a half before an audience of about a hundred and forty people in this court room

and told them about devastated Belgium and bleeding France. If I had come to this court house with the intention of supporting Cobb for congress, I want to say to you frankly that I would not support a man for congress who seeks to use the

trenches in the front lines as a canal upon which to sail his political ship. I wouldn't vote for a man for congress who sought to use the widows' and mothers' tears as a vehicle in that trench line upon which to sail that boat. If he told a single reason

why he should be elected to congress except that his grandfather administered the oath to Jefferson Davis as president of the Confederacy, I didn't hear it."—From the speech of Hon. Alex Collins, prominent San Angelo attorney.

Declaring that it takes more than cheap talk to make a good congressman, Charles B. Metcalf, representative from Tom Green County, and author of the suffrage bill, told the voters of San Angelo at the Hudspeth rally that Claude Hudspeth is the only man who should be considered. His speech follows:

"Ladies and fellow citizens: I have been enjoying myself. Four years ago I went to Austin to represent this district. One thing I am radical on is to do a few things, rather than try to do a whole lot of things and getting nothing done. When I got to Austin it seemed to me that in many cases the people all over the state of Texas neglected to take seriously the electing of proper men to represent them in the legislative body. Being a man who wanted to get something done, I was interested in finding out how many other men there were in that legislature ready to get something done; something besides talk.

Talk is Cheap.

"Talk is cheap, and it is the same in the United States congress. There are men elected there who are not efficient, and it is because people discriminate between those who are efficient and those who are inefficient. It happens that a man who is a nice little speech maker can get a crowd together and tell them lots of nice little things they want to hear, and he gets the people by his promises, and he may be able to make a thousand promises and not be able to deliver one. Talk is cheap.

Votes for Efficient Men.

"Whenever I vote for somebody to go to the United States congress, I want to vote for somebody that is efficient and can get something done. I have known for 12 years the honorable gentleman who will address you tonight, in the state legislature. So far as the district is concerned, I don't think there is a man, woman or child in this district that has not had something done for them by Claude Hudspeth. (Applause.) And when he undertakes to do something, he gets it done. There is where I was attracted to him. He accomplishes something.

Hudspeth Accomplishes Things.

"When he was a cowboy on the range and went to rope a steer, he roped the steer. When he undertook to do things in the legislature he came nearer getting it done than anybody down there. I have served four years in that body. He was in the Senate and I in the House. I found out I couldn't do anything in the house by myself—that can't be done in the United States Congress. That is one faculty Claude Hudspeth has beyond any man I saw in Austin in my four years. He goes to work with people and accomplishes things, and that is one reason why I want the people of this district to send him to congress. (Applause.) Because I know when he gets there, if there is anything in reason or right that we need in this country, he is going to

get it for us. (Applause.)

"I had a great deal of pleasure in serving in the legislature with him for that reason. If I wanted anything for my people in this district that my people approved of, I would go to Claude and say: 'Claude, this is a good thing for west Texas,' and he would say: 'Let's get it.' He has his peculiar manner and style.

Hudspeth Dependable.

"There were no four or five men in the Texas senate while I was there that were able to carry a measure through like he could. (Applause.) I would rather have Claude Hudspeth elected there to carry any measure through, and I am sure he advocated good measures—I am sure I did and he was the one to carry them through. There was no promise to do a thing and not doing it. I am going into details about the measures we advocated down there, or the measures we passed. But I want to say that I don't believe there is a man in congress who will and can better carry out the will of the majority of his people.

"Being a democrat and having always been a Democrat, I think that is the true man to go to the legislature and to congress. Have your platform and be able to accomplish something. I believe in democracy, and democracy means the rule of the people. The majority of the people rule, and the majority of the people's wishes ought to be respected. Legislative matters are matters of policy. If it is honest do it—if it is dishonest don't do it. And I say that Claude Hudspeth has always been of a frame of mind to carry out the will of the majority of his people.

Hudspeth No Song Singer.

"We have a whole lot of serious things to do in Washington, and I hope the people of this district will not fail to send a man there who will do things, and who will not promise a whole lot of things out here in the huskings that he knows he can not do. I have been disgusted with candidates for congress promising things that they know they couldn't do, and that the people know can't be done, and know that the candidate making such promises was falsifying. Hudspeth will not sing you a nice smooth song; he will tell you what he will do and you can count on his doing it, and I hope we will put him up a solid vote in this country and send him to congress from this district." (Applause.)

COLLINS SPEAKS FOR HUDSPETH

Honorable Alex Collins, a prominent San Angelo attorney, spoke as follows:

"Fellow citizens: Which includes every man, woman and child within the sound of my voice. It is a pleasure to me tonight to say a few words for my personal friend, Claude Hudspeth. Claude Hudspeth was born in west Texas. He is a typical west Texan. He knows the desire of West Texas and he has always to the best of his ability carried out the desire

and wishes of his senatorial district. He is a man who does things and does them now.

"My friends, Mr. Metcalf says he believes in efficiency. It reminds me of a little story I heard a Methodist minister tell over at Winters the other night. I was over there making an assault with the intent to get some of the young men to enlist in the Texas cavalry troop. They were as slow as syrup in the winter time, and this young minister jumped up with his eyes shining and said: 'You young men remind me of a story I heard. A few years ago there was an old gentleman going down the street leading a dog, and the old gentleman had a stick in his hand. He met a typical West Texas boy (there are no others like him) and the boy said to the old fellow: 'What are you doing?' and the old gentleman said: 'I am out exercising my dog.' The boy said: 'Why don't you tie a tin can to his tail and get quick action?'

"My friends, it is the spirit of the man who was born and reared in West Texas to get anything that he wants and anything his people want. Mr. Metcalf stated that he didn't believe in voting for a man who went around over the country making grand promises. I want to say frankly that he did not hit Claude Hudspeth's opponent when he made that declaration because I sat in this court house for an hour and a half on last Monday night a week ago, and if his opponent made a single promise, if he told a single reason why he should be elected to congress, except that his grandfather administered the oath to Jefferson Davis as president of the Confederacy, I didn't hear it. (Applause.)

Plays on Tears.

"I say to you frankly that he didn't state a single issue pending before the people of Texas today that he stood for or was opposed to. But he stood for an hour and a half, before an audience of about 140 people in this court room and told them about devastated Belgium and bleeding France. He told the people of San Angelo about a nephew he had that had gone into the army. He held up the terrible troubles that the United States government and her allies are in now. If I had come to this court house with the intention of supporting Cobb for congress, I want to say to you frankly that I would not support a man for congress who sought to use the widows' and mothers' tears as a vehicle in that trench line upon which to sail that boat. (Applause.) I wouldn't vote for a man for congress who used the heart beats of the mothers of these United States, who used the pulsations and stinging hearts of the mothers to propel that political ship down that trench. (Applause.)

Cobb Endorses Hudspeth.

"This question is too serious to us

YEARS OF TROUBLE ENDED AND SHE HAS GAINED 15 POUNDS.

"My Friends Say I'm Looking Years Younger" She Says—Tanlac Brings Relief.

"When I began taking Tanlac I had been down in bed for three months and just think of it, I'm feeling as strong and healthy as I ever felt in my life," said Mrs. Mollie J. Lord, who resides at the East Denver High School, Denver, Colorado, in an interview recently. Mrs. Lord has lived in Denver for the past twenty-five years, her husband has been in charge of the East Denver School building for twenty-two years, and they are highly respected by all who know them.

"Years ago," continued Mrs. Lord, "I had an attack of bronchitis from which I contracted catarrh of the head and stomach. The trouble got a firm grip on me because for a long time I tried to make myself believe I didn't have catarrh, but at last I realized I was in a bad fix. My nose and throat were feverish and the mucus collecting in my throat would nauseate and almost choke me. My stomach got in such a bad condition I couldn't even eat potatoes or toast. In fact, everything would sour almost as soon as I had eaten it and the gas caused such a burning and fluttering around my heart that I was afraid I had heart trouble. Sleep seemed impossible for me. I would toss and roll in bed and have to jump up every little while so I could get my breath. My kidneys worried me constantly and my back hurt me so bad at times it felt like it would break in two.

"I doctored and took everything I heard of but kept getting worse until I just had to give up and go to bed. I never got any better until I began taking Tanlac and it certainly has been a godsend to me. I can tell from the way my clothes fit that I have gained all of fifteen pounds and I have not only gotten entire relief from the catarrh in both my head and stomach, but my

kidneys are also in perfect condition and I don't have any more pain in my back. I go to sleep as soon as I get in bed and sleep soundly all night long. My stomach never troubles me now and, oh, it's such a pleasure to be able to eat what I want without suffering afterwards. And since the gas has stopped forming all the burning sensation and palpitation of the heart is gone. My friends say I'm looking years younger and I can certainly endorse Tanlac in the highest terms, and expect to always have it on hand in case I should need it."

Tanlac is sold in Colorado by W. L. Doss, in Loraine by Garland and Elliott and in Westbrook by J. H. Board. Adv.

NEGRO ADJUNCT NAMED FOR FOOD ADMINISTRATION

With the designation of Rev. E. J. Howard, pastor of the African Methodist Church of Houston, as chairman of the Executive Board of the Colored Branch of Food Work in Texas, Administrator Peden has taken the first steps toward organizing the colored people of Texas into a definite group as food workers, with their own organization and officers. The colored section is linked with State headquarters in being a department of the Educational Division.

The Colored Section provides for a State Executive Board with headquarters in Houston, and Dr. Howard as chairman and W. L. Davis as secretary; a State Advisory Board consisting of the heads of colored colleges and fraternal organizations; and county deputies in all sections of the State where there is a considerable colored population.

National and Local Meat Business

The meat business of the country is conducted by various agencies—

By small slaughter-houses in villages—

By local Abattoirs or small Packing Houses in towns—

both

Using only a part of the local live stock supply

and

Furnishing only a part of the local demand for meat.

These slaughtering and distributing agencies fill a well defined but necessarily restricted place in the distribution of the products of live stock.

But only packers like Swift & Company, organized on a national scale, are able to undertake the service that is more vitally important, involving

An Obligation to the Producer To purchase for spot cash all the live stock the producer may send to market for slaughter.

CALL FOR ARMY CHAPLAINS

An urgent call has come from the Red Cross to the Federal Council of the Churches of Christ in America for twenty-five chaplains to be recommended at once for service in France. The Rev. Clyde F. Armitage secretary of the committee on Army and Navy Chaplains, reports that the Federal Council recommend twenty-five chaplains every month.

Experienced ministers of ability are desired. They must be loyal American citizens above draft age. If a man has a German name, or if either of his parents or grandparents was born in a country with which we are now at war he need not apply, for the Red Cross will not be able to secure passports for him in this service. Mr. Armitage stated. Further, all applicants must pass a physical examination and be willing to serve for at least one year. As no salaries are paid, allowance being made only for transportation, equipment, and monthly expenses, friends or the denominational war commission of the applicants are expected to furnish salary when the applicant's

private income is not sufficient to meet other expenses.

America is justly proud of its fighting men. They are the heaviest in the whole battle line. They do not give ground—they take it. They are not a swaggering set of bullies, but a "bully" lot of fighters who are going to leave a lasting impression in the German mind that democracy is the strongest force in the world, and that its citizens are the most virile, the most resourceful, the most tenacious that have ever strode upon a battle field. This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. CLARENCE E. GILMORE
FOR RAILROAD COMMISSIONER

Clarence E. Gilmore, of Wills Point, Van Zandt County, announcing his candidacy for Railroad Commissioner of Texas at the Democratic primary, says he is entitled to be considered as a candidate for reelection. That the Supreme Court of Texas held in the injunction proceedings instituted by him that the name of his opponent had no lawful place on the ticket as the nominee of the Democratic party, the committee had no authority to make the nomination and that he had the lawful right to make the race as a Democrat unopposed by such unlawful conduct. He calls attention to the fact that the opinion of the Supreme Court was not rendered until Saturday before the general election on Tuesday and that in contempt of the injunction his opponent's name had been certified to the various counties as the Democratic nominee, the tickets printed and distributed. Since but two days intervened, only fifty-two counties corrected the error, giving the voters a legal ballot and in these he received nearly two votes to his opponent's one, carrying practically all of them. He says he is sure the Democracy of Texas will not stand for such unlawful conduct and such contempt for the constituted authorities.

Mr. Gilmore is forty-five years of age, born and reared on the farm, owned and edited the Wills Point Chronicle for eighteen years and for the last six years has been actively engaged in the practice of law. He served three terms in the Legislature, during which time he was chairman of the penitentiary investigating committee, which made a searching investigation of the penal institutions of the state and aided in the enactment of wholesome prison reforms.

His practical business experience, his untiring energy and thorough study and understanding of every problem he deals with, and his study of problems which confront the Railroad Commission, equip him, he says, for the duties of this position.

His home people, who have known him longest, vouch for him absolutely.

Mrs. E. T. Chomer, 69 East 42nd St., Chicago, Ill., says: "Manalin best laxative on the market for liver and bowels, very good for indigestion and heart burn."

Mr. A. L. Sadler, of May, Texas, father of J. A. Sadler, spent the week here on a visit, called by the death of the little daughter. Mr. Sadler Sr., had some mighty nice words for the Record.

MR. BECKNER LEAVES.
I wish to thank the good people of Colorado for their patronage and kindness shown while engaged in the ice business here. We are not leaving Colorado on account of the drouth as many think; but first, on account of the bad water obtainable for boiler purposes, and second, on account of the apparent impossibility of getting the railroad switch extended to my plant.—A. S. BECKNER.

Miss Kate Partridge, of Pittsburg, is the guest of Mrs. Z. L. Hooton.

J. O. McClellan writes from San Antonio: "Enclosed find \$2 for which please send me one dollar's worth of the Record, and run the enclosed ad a dollar's worth. Certainly glad to hear that you have had rain in that part of the country, and do hope the farmers will make a fine crop this year. We have had splendid seasons this year, and the prospects very good here thus far. Corn is assured, and outlook good for other crops."

On June 28th Prove You Are A Loyal American

Will you greet the Fourth of July with a free conscience? Or will you spend the Fourth in shame-faced guilt?

June 28th has been set as National War Savings Day. Your country expects you on that day to pledge every penny you can, up to \$1,000, toward the purchase of War Savings Stamps.

The price of American citizenship is no longer cheap. A new hour has struck. The crash of war has ground all semblance of cheapness out of being an American. It is now a dear-bought honor. You must pay.

On June 28th Your Country Asks You to Balance Your Patriotic Cash Account

Every penny you withhold, that you are able to give, extends aid and comfort to the enemy.

No sordid legal summons will, for the present, compel payment. You are called to payment by the higher, more chivalric summons to volunteer on June 28th your pledge to purchase this year every dollar's worth of War Savings Stamps you can buy.
