

PASTE the KAISER WITH W. S. S. ON June 28th

Paste him in the eye with a War Savings Stamp—then paste him again and again. Don't think that you have already done your duty. Pershing's men "over there" don't go home after their first battle—they go after the Huns again—they keep on pasting the Kaiser.

Your government has officially set Friday, June 28th as

National War Savings Day

On that day every American is asked to "sign the pledge"—to invest in a definite amount of War Savings Stamps each month. Every real American will prove his patriotism by agreeing to regularly paste the Kaiser.

W. S. S. cost \$4.17 in June Worth \$5.00 on Jan. 1, 1923

Be ready to "sign the pledge" on June 28. Paste the Kaiser With War Savings Stamps.

Open Letter to Voters 16th District

STANDING ON RECORD OF PAST AND PROMISES OF FUTURE FAITHFULNESS TO CONSTITUENCY HUDSPETH ASKS SUPPORT.

To every voter in the 16th Congressional District:

As a candidate for the Democratic nomination for Congress from the Sixteenth District of Texas, I have been engaged during the past several weeks in a canvass of the district, and have personally met as many people as possible. I shall continue in this work until the end of the campaign, but owing to its great size, it will be impossible for me to meet everyone in this, the largest Congressional District in the State of Texas; and I am therefore addressing this letter to each registered voter personally, hoping thereby to interest him in this candidacy.

This letter will go to my friends, acquaintances and supporters, as well as to those who do not know me, and accompanying it you will find a folder containing the speeches of Hon. C. B. Metcalf, author of the Suffrage Bill, and Hon. Alex Collins, both of San Angelo, delivered upon the occasion of my speechmaking in that city on May 18th last. Your careful consideration thereof is earnestly requested, as well as of the resume of my San Angelo speech, as set out in this pamphlet.

I am a native Texan, born in Bandera, and have grown up and lived within the limits of the 16th Congressional District. I know its people and its people know me. I am a native Texan, born in Bandera, and have grown up and lived within the limits of the 16th Congressional District. I know its people and its people know me.

of law, and that has better equipped me for legislative work. For sixteen years I have represented you in the legislative halls of my native state—four years in the lower house and as a member of the Texas Senate from the 25th Senatorial District. During that time I have tried to aid in building up constructive legislation and get things for my people, and I believe that I have accomplished some thing in that direction.

I have always opposed legislation the effect of which I have felt was detrimental to your interests. In educational matters my record shows that I have always stood to the front in support of proper legislation, in aid not alone of the little country schoolhouse, but also of high schools and colleges, and I have rendered material assistance in procuring for my district agricultural experiment stations and normal schools.

Always, during my service as your representative and Senator, in accordance with my expressed promises, repeatedly made, I have ever tried by my vote to give expression to the views of the majority sentiment of my constituency, especially where that sentiment has been demonstrated at the polls. In such an instance there has been no difficulty, but at times other matters, where there has been no direct expression of your opinion, contending factions have made it difficult to determine the consensus of opinion on legislative matters, and on such occasions, keeping in view what I thought were your interests, and what I believed to be the wishes of the majority, I have voted my honest judgment and conviction without fear or favor. What would you think of a man who had done otherwise?

If chosen as your representative in the halls of Congress, I shall continue to vote your sentiments, and for your interests, and I shall ever be glad to hear from all of my people within the district, either personally or by letter, as to their wishes in any matter. In view of the other work that I have done in the past, I trust you can consistently and conscientiously support me as your National representative. Regardless of the charges that have been made my record will demonstrate that I have ever

in every effort to win this war, and that is the great, the paramount question before the American people today, and I pledge you my word that my every effort will be bent toward upholding the strong arm of our country in this the greatest crisis in its history. I contributed to the Democratic Campaign Fund in 1912 and 1916, and campaigned for President Wilson in 1916. My speech at San Angelo will show how earnestly I have supported him.

This letter is addressed not alone to you personally but also to the women members of your family.

Yours truly, CLAUDE B. HUDSPETH, (Political Advertisement)

MAMMA! DON'T YOU SEE YOUR CHILD IS SICK, CONSTIPATED

Look at Tongue! More Poisons from Liver and Bowels at Once.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," then look and see that it is made by the California Fig Syrup Co.

If you had a corner on the food market of a town would you be a John Dowling? Would you be able to resist the temptation to make big profits? A very human answer will be found this week at the Opera House, where the William Fox melodrama, "Cheating the Public," will be shown Friday.

CLEANSER YOUR HAIR MAKES IT BEAUTIFUL, THICK, GLOSSY, WAVY Try This! All Dandruff Disappears and Hair Stops Coming Out.

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will spend a few cents for a bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed. Adv.

"By virtue of the State Constitution, and in strict conformity therewith, this man has been impeached, removed from office, and debarred from holding public office in Texas forever hereafter.

"Largally and formally, as an aspirant to State political office, elective or appointive, he does not exist!" "As such, he is entitled to no recognition from any voter, any citizen, who supports his State government, respects its Constitution and obeys its laws.

"Under the Constitution and laws of Texas he could not be seated as Governor even if he were elected by every vote cast for that office.

"For this unchangeable reason the San Antonio Express takes no notice of Ferguson's activities in his so-called 'campaign.'

"The judgement of the court of impeachment there is no appeal, no right of judicial review as a matter of course. As for action by the democracy, the people, there is no political proposition pending to amend the State Constitution in this particular. There is not even any general talk of such a proceeding.

"The Constitution stands.

"The judgement of the court of impeachment stands.

"Ferguson cannot—this is no case of 'may not'—hold any office of honor, trust or profit under the State of Texas."

Has a man the right to run his business as he wishes, regardless of the effect on employees and the public? This interesting question is answered by the Fox melodramatic picture, "Cheating the Public," at the Opera House Friday Night.

Summer is here—buy an oil stove and keep cool. We have the New Perfection.—Colorado Mer. Co.

That fact alone is sufficient testimony to the excellence of this product.

For the Maxwell clientele is composed of that class of buyers who select carefully and who demand full value for their money in quality and in service.

Nor do they accept mere promises—being careful buyers they demand proofs.

Perhaps the very fact that we never have made a claim for this car that has not been backed up by proof in the form of official records, accounts in part at least, for the pre-dominance of Maxwells.

Another reason—and unquestionably a potent one—is the fact that there are no freak features, no inventions, no radical innovations in this product.

We do not attempt to invent new devices or to supplant tried and proven units with others of our own discovery.

Every unit in this Maxwell—motor, clutch, transmission, axles, steering gear, etc.—is of standard type—though designed and made a little better, we believe, by the Maxwell organization.

For five years this model has remained practically unchanged.

Refined in details, body design changed from time to time to keep pace with changing fashions—for Maxwell buyers demand style as well as efficiency;

But in all essentials of chassis design the present model is identical with that of five years ago—because that first Maxwell was right at every point.

250,000 owners endorse your judgment when you select a Maxwell Motor Car for yours.

## DOES THE FOOD ADMINISTRATION PAY? THE ANSWER

### A BRIEF RESUME OF HOW SUGAR AND FLOUR HAS BEEN KEPT WITHIN THE BOUNDS OF CONSUMER DURING YEAR ENDING MAY 31, 1918.

Does the Food Administration pay?

Here is the answer of the Food Administration:

"The chief job of the Food Administration is to feed the allies and our soldiers.

"Saving of money to the consumer is a secondary job. This money is saved through the elimination of speculation, through elimination of profiteering, and through stabilization of all food prices. In general, the Food Administration claims to have steadied all food prices by keeping the public informed of the presence of cheap and abundant foods, such as potatoes, and by urging conservation of less abundant foods, particularly those foods which can be shipped abroad. Two important foods may be taken as example. They are wheat and sugar.

"Herbert Hoover was appointed Food Administrator May 15, 1917. On that day flour sold at \$16.75 a barrel f.o.b. Minneapolis. One year later it sold for \$9.80 a barrel, or a decrease of 41 per cent. That reduction came in the face of the greatest world-wide wheat shortage ever known since the days of Jacob and Joseph.

"In May, 1917, the difference between the price the farmer got for his wheat and the price the wholesaler got for the flour was \$5.68 a barrel. The difference in May, 1918, was 64 cents a barrel.

"As for sugar, the average wholesale price for refined sugar is 7.3 cents a pound. One year ago it was 8.33 cents a pound, a decrease of 12 per cent. The margin between the price of raw and refined sugar has been decreased from 2.12 cents a pound to 1.3 cents a pound. And this in spite of the fact that sugar offered unprecedented opportunities for speculation. During the civil war sugar went to 30 cents a pound when there was no world shortage. The retail price of sugar is less than one-third that price, and there is a world shortage such as has never existed since the world began eating refined sugar.

"A rise of 1 cent a pound in the price of sugar costs the American public \$80,000,000. A rise of 20 or 30 cents a pound costs thirty or forty times \$80,000,000. Had the Food Administration not stepped in and saved the sugar situation, the American public would have been billions of dollars poorer today, or the poor would have gone without sugar while the rich would have eaten it all.

"So the Food Administration admits it pays the taxpayer. It admits that it has saved the consumer enough to oversubscribe all the Red Cross drives and possibly all the Liberty Bond drives as well. Speculators would have gotten those billions had the government not interfered."

### TEXAS IS PLACED IN SOUTHWESTERN ZONE FOOD ADMINISTRATION.

Administrator Peden, Federal Food Administrator for Texas, arrived June 9 from a two weeks' visit to Washington, where he attended a conference of State Administrators and later conferred with the different departments of the National Food headquarters. Monday night, June 10, he left for Fort Worth, Texas, to attend a special meeting of the Texas Cattle Raisers' Association, called by its president, James Callan, to discuss problems affecting the territory so seriously retarded during the drought and from which so many cattle were shipped to other pastures and sold to the packers.

As a result of the Washington conference the nation was divided into zones, and the zone in which Texas is placed consists of Louisiana, Mississippi, Arkansas, Tennessee and Iowa. This zone is called the Southwestern Zone, while its sister zone, the Southeastern Zone, consisting of Georgia, Alabama, Florida and Carolina. The problems of the zones are identical in many ways. Tuesday, June 11, the Southern Zone administrators met in Atlanta, while on June 15 the Southwestern Zone administrators met in Vicksburg. Administrator Peden was representative at the Vicksburg meeting by E. J. Wirt Steels, director of the zone, and H. Wirt Steels, director of the zone. The principal topic at the meeting was the question of loaning to farmers from the home-grown wheat.

THE STATE OF TEXAS: To the Sheriff or any Constable of Mitchell County, Greeting:

You are hereby commanded to summon Scott H. Rorabeck, the Unknown Heirs of Scott H. Rorabeck, Nancy VanPatten, the Unknown Heirs of Nancy Van Patten and the Unknown Heirs of A. St. John, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Mitchell County, to be holden at the Court House thereof, in Colorado, on the eleventh Monday after the first Monday in September A. D. 1918, the same being the 18th day of November A. D. 1918, then and there to answer a petition filed in said Court on the 11th day of June A. D. 1918, in a suit, numbered on the docket of said Court No. 3695, wherein C. M. Preston is Plaintiff, and Scott H. Rorabeck, the Unknown Heirs of Scott H. Rorabeck, Nancy Van Patten, the Unknown Heirs of Nancy Van Patten and the Unknown Heirs of A. St. John, are Defendants, and said petition alleging that on the 1st day of February, 1918, Plaintiff was lawfully seized and possessed of a certain tract or parcel of land situated in Mitchell County, Texas, known and described as follows: All of Lots Nine (9), Ten (10), Eleven (11) and Twelve (12) in Block No. Seventy-five (75) of the Town of Colorado, holding the same in fee-simple. That afterwards on February 4, 1918 the Defendants unlawfully entered upon and dispossessed Plaintiff of such premises, and withhold from him the possession thereof to his damages in the sum of \$750.00. That Plaintiff claims title to said property under the five years statute of limitations, he having had peaceable, adverse and exclusive possession thereof, cultivating, using and enjoying same, and paying all taxes assessed against same, and claiming title thereto as against the world under a deed or deeds, duly registered, i. e. a deed from John Jones and wife, Samantha Jones to James H. Backus, dated September 15th, 1910, and filed for record the 17th day of November 1910, and duly recorded in Vol. 30 of the Deed Records of Mitchell County, Texas, at page 518 thereof, conveying said property, and a deed from James H. Backus to C. M. Preston, dated September 22, 1910, and filed for record the 17th day of November 1910, and duly recorded in Vol. 30 of the Deed Records of Mitchell County, at page 519 thereof, conveying said property. Wherefore, the Plaintiff expressly, as required by law, pleads the five years statute of limitations. Plaintiff prays that the Defendants be cited to appear and answer said petition and that on final hearing he do have judgment for the title to and possession of said premises, for his damages and costs, and such other and further relief, general and special, legal and equitable, including a writ of possession as he may show himself entitled to.

Herein fail not but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

An increase of the naval enlisted strength to 131,485 men to man the fighting ships now in commission and those building will be a minimum requirement by July 1, 1918, Secretary Daniels says.

The present enlisted permanent strength is 87,000 men.

#### Cincinnati Authority Tells How to Dry up Any Corn or Callus so It Lifts Right Off.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezezone applied directly on a tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without a bit of pain.

A quarter of an ounce of freezezone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this. Adv.

### LEMONS MAKE SKIN WHITE, SOFT, CLEAR.

#### Make This Beauty Lotion for a Few Cents and See for Yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quart pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smooth and beautify the skin.

All druggists will supply three ounces of orchard white at very little cost and the grocer has the lemons. No. 5 Adv.

The Record man has had to abandon his cotton crop. It really became dangerous to work in the tall weeds on account of snakes.

Mitchell County has received the greatest amount of State and Federal aid for road building of any county in the west, if not in the state.

The careless worms have about ceased their depredations on the cotton, and as a general thing over the county has not done much damage. A few isolated crops probably having been severely injured.

\$140,000 for State Highway No. 1 looks mighty good for Mitchell County and ought to build a macadamized road with concrete culverts from one county line to the other.

The past seven or eight days has been extremely hot. The mercury has been playing around the 100 notch and on up to 105. Crops are deteriorating rapidly, and without rain within the week some of the early feed will greatly suffer. Cotton, where it has not been molested by worms, seems to be doing very well.

WAYS AND MEANS.

It is already evident that the revenue law enacted last October will yield considerably more than its framers calculated upon. Guesses at the excess run as high as a billion dollars. But if the highest guess is verified it will not prove that the measure is a good tax law. It would still be a bad tax law if it yielded double what the committees calculated. There was never any question of the ability of the United States to pay all and more than all the taxes the committees asked for. There was no valid criticism of the amount of war taxes imposed. The valid criticism was that in one of the most important particulars the tax was imposed by an unsound and unjust plan.

The United States is the only belligerent nation we believe, that does not tax war profits. Some countries have imposed a tax as high as ninety per cent on war profits. Great Britain has imposed a tax of eighty per cent. Not only belligerent nations but a number of neutrals have met the unusual expenses which world war imposes by the very obvious expedient of taxing profits that rise from war conditions. That expedient is so obvious that stiff war-profits are now the general rule.

To which rule the United States is an exception. Instead of imposing a heavy tax on war profits our law taxes all profits, utterly irrespective of whether they are due to war conditions or not. The fact that our tax produces a great deal of revenue does not touch the valid objection to the principle on which it is levied. In spite of the revenue it produces it is a bad law; in fact, from the point of view of an equitable distribution of tax burdens the more money a bad law produces the worse it is.—Saturday Evening Post.

There has been a deuced amount of camouflage worked in and around the woman suffrage question and we regret to say that here the Governor proved a weak sister. "What?" asked the Governor, "with 80,000 Texans in the army and more going, is more fitting than the wives, mothers and sisters of these men should have a right to vote?" Correct, but the Governor should have added "and I am going to try and help them get it." As woman suffrage now stands in Texas the women can mess around in party politics—which are not always precisely clean—but look you, when it comes to electing a school director or a town official or voting on some small local improvement they have no vote. You tell us, isn't it a joke! The women of Texas are supposed to know enough to help nominate a President, but they are not supposed to know enough to elect a dog-catcher. The blame is not Gov. Hobby's but we had hoped to hear him say that he would lend his help to correct this ridiculous new law.

This is exactly the thought put out by the Ferguson crowd. The Loraine News man knows, or ought to know better.

Gov. Hobby, or the extra session of the legislature under him, gave the women of Texas all he or they had power to give. Full suffrage can only come about through State or federal amendment, and an amendment could not have been submitted at an extra session of the legislature. Only a regular session has the power to submit an amendment to the constitution, so our ladies are lucky to have gotten this partial suffrage. As a matter of fact partial suffrage in this instance amounts to the same thing as full suffrage, for the primaries are Democratic and all Democratic nominees are elected in Texas.

"During the past year the action of the administration, taken largely thru the post office department, has been such as to render it a matter of some danger for anybody, and especially a newspaper, to speak the truth, especially if the truth be unpleasant to the administration," is a brief portion of Roosevelt's statement.

We cannot understand why Roosevelt is permitted to make such statements in times of war. What has he done for America? Hunting wild game in Africa has been no good to us. Giving the wrong command in the Spanish-American War and being saved himself by a negro troop, did not display any wonderful amount of gray matter in that cranium of his.

Breaking up a political convention and starting one of his own, because he did not get the nomination for president, showed conclusively that it was not America he had at heart. Trying to go to Germany, in a hurry, without trained men, to lick the Kaiser, would have been foolhardy.

He has been yelping about preparedness! What did he do about making preparations for the future when he was president?

We can say just one thing about Roosevelt. Roosevelt is one of the greatest publicists in the world. He can get more free advertising than Henry Ford, and all Henry has to do is to make a trip to Washington or change the style of the radiator or that Model T.

USE THE NEWSPAPER.

No business man in any town should allow a newspaper published in his town to go without his name and business being mentioned somewhere in its columns. This applies to all kinds of business—general stores, dry goods, groceries, furniture dealers, manufacturing establishments, automobile, mechanics, professional men and in fact all classes of business men. This does not mean that you should have a whole or half page or even a quarter page ad in every issue of the paper, but your name and business should be mentioned if you do not use more than a two line space. A stranger picking up the paper should be able to tell what business is represented in the town by looking at the business mentioned in the paper. This is the possible town advertiser. HER GRATITUDE SO GREAT IT CANNOT BE TOLD IN WORDS.

Gained 30 Pounds On Tanlac—Is Relieved From Trouble Of 25 Years Standing.

"Words of praise cannot express the gratitude I feel to Tanlac, for it has not only relieved me of troubles that kept me in misery for twenty-five years, but has built me up until I am thirty pounds heavier than I was when I started taking it," said Mrs. J. C. Bogardus of 4220 Clifton Street, El Paso, Texas, a few days ago.

"I have suffered since I was about twenty years old," she continued, "with a catarrhal trouble of the stomach and of recent years with rheumatism and it seemed my troubles were steadily growing worse.

"My food would sour on my stomach and the gas pressing against my heart affected my breathing greatly. I fell off until I only weighed seventy six pounds and was so weak and nervous I got but little sleep at nights. I was constipated and suffered terribly from headaches. The rheumatism affected my lower limbs mostly and I had such pains through my back and right side I simply could not look after my household duties.

"It surely was surprising to me the way Tanlac took hold of my troubles. My appetite got better and in a short time I was eating just whatever I wanted. My strength came back to me day by day and I soon overcame the trouble from constipation and the headaches. The pains in my back and side have left me and I don't even feel the rheumatism in my lower limbs any more. I now weigh one hundred and six pounds—more than I ever weighed before in my life. Many of my friends have spoken of my great improvement and asked what on earth I had been taking. Of course, I simply tell them 'Tanlac' for I think it the most remarkable medicine ever made."

Tanlac is sold in Colorado by W. L. Doss, in Loraine by Garland and Elliott, and in Westbrook by J. H. Board. Adv.

Self Defense DEFEAT BACKACHE AND KIDNEY TROUBLE WITH ANURIC.

Many people in Texas, as elsewhere, have suffered from rheumatism and kidney trouble and have found Anuric to be the most successful remedy to overcome these painful and dangerous ailments. The lucky persons are those who have suffered, but who are now well because they heeded Nature's warning signal in time to correct their trouble with that wonderful new discovery of Dr. Pierce's, called "Anuric."

To overcome these distressing conditions take plenty of exercise in the open air, avoid a heavy meat diet, drink freely of water and at each meal take Anuric Tablets (double strength). You will, in a short time, find that you are one of the firm indorsers of "Anuric."

JACKSBORO, TEXAS.—"I am more than well pleased with the Anuric Tablets. I was disturbed five to eight times at night and sometimes more. I was so well pleased with the first supply of Anuric that I went to town and bought two bottles. It is the only thing that ever gave me any relief for the kidneys and I want the world to know it. I think Anuric is the best medicine on the market to-day."—A. J. MILLER.

MITCHELL COUNTY WOMEN USE THE BALLOT

Vote For Hobby and Cobb—Two Constructive Statesmen

"I shall vote for that great constructive statesman, William P. Hobby, for Governor, and for reelective to the Supreme Court I shall vote for those two high minded gentlemen, Justices Phillips and Greenwood. Judges Spann of Temple, and Harvey, of Houston, both pets of Ferguson, are opponents of Justice Phillips and Greenwood. As to lieutenant governor let us beware for one anti and darling of Ferguson's heart, Mr. Moore of Palestine, is running against three pros, Messrs. Cowley, Henderson and Johnston. Mrs. Hortense Ward says to the women, 'The eyes of Texas are upon you!' Common gratitude demands that we vote for Governor Hobby if for no other reason than that he has given us prohibition and put the ballot into the toil-worn hands of the mothers of Texas.

"Let us be proud our Southland is waking up. The South, God bless her, has too long been the stronghold of sweet, silly women and too chivalrous, well-meaning moss-backy men, who for want of something better to say, have preached the gospel of 'protection' and home, (which is usually the kitchen) being woman's place.

"How often have I smiled pitily to hear those old frazzled out reasons given so loftily by some good feminine thing who neither read nor thought, or some nice narrow-minded fellow whose poor old wife was a broken down household drudge ready for the grave.

"Thank God for a good home, dear children and loving husbands and fathers to care for us! But, O Woman, Woman, who loves and thinks end toils so gladly for these precious ones, have you never learned that your roof is the blue heavens and the four walls you call home have been moved to take in all the world? We are going to have a housecleaning on a grand scale. From pole to pole we shall sweep the cobwebs from the sky and the morning stars shall shout together, 'Hallelujah!' From horizon to horizon we shall scrape up the dung heaps from the tortured old earth and burn them in a brimstone fire so strong and terrible it will suffocate the very devil himself.

"Listen, my sister; many things as the years roll on will we do with our ballots. But three things special ly will we do, abolish war, empty the whisky barrel and destroy the social evil. Not today, nor perhaps tomorrow, may this be done, but all things come to him who waits—and works.

MRS. P. C. COLEMAN Pres. Mitchell County Cobb Club.

UNION HAPPENINGS

Since my last writing this country has been almost completely revolutionized. Since we have had some good rains, and a fairly good prospect for a crop in this section, although we are needing rain now. But there is one encouraging feature, that is that we have learned to wait.

Mr. Emmet McCallum, who underwent an operation at Temple, reached his home several days ago and was doing well when last heard from.

Mr. A. A. Dorn was attacked a few days ago with appendicitis and has undergone an operation at the Colorado sanitarium. We hope to see Mr. Dorn back in his home quarters soon.

We think all of West Texas should feel proud of the Colorado Sanitarium and should give it every encouragement possible.

Mrs. Boswell and her son Charley were visitors in this section last Saturday and Sunday. Charley was arranging to leave for Camp Travis Monday. Charley was reared principally in this community, and has many friends here, who hated to give him up, but did so willingly, and he was willing to go in defense of his country. ELI

Texas is now on the water wagon and the song which the "kiddies" used to sing: "Texas going dry," will have to be changed, for she has gone and "done it." The thing that many have fought for for a long time has become a reality and the day of the open saloon in Texas is history. CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royso City, Tex.—Mrs. Mary Kilman, of this place, says: "After the birth of my little girl...my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me...but I got no better. I got worse and worse until the misery was unbearable...I was in bed for three months and suffered such agony that I was just drawn up in a knot..."

I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial. J. T.

## We Set Tire Standards

Why is it that United States Tires are setting new records for mileage and serviceability?

Why is it that the sales of these tires are constantly mounting by leaps and bounds?

The answer is found in the factories where United States Tires are made.

Standards of construction for these tires are higher than ever before known in the tire industry.

Makers of tire fabrics tell us that the standards we have given them for United States Tire fabrics are higher than any previously known.

Likewise through every process of construction from crude rubber to finished tires—we have set new and higher standards everywhere.

These standards work out on your car in the practical economy demanded by war-times.

United States Tires will raise any car to higher efficiency.

There is a type to suit every condition of service.

The nearest United States Sales and Service Depot dealer will cheerfully aid in selecting right tires for your requirements.

**United States Tires are Good Tires**

Four hundred more students have arrived at Camp Mabry to attend the School of Automobile Mechanics up which is being conducted for the War Department by the University. These are all drafted men and came to Austin from New Mexico. This brings the total number of men at the School of Automobile Mechanics up to approximately 1,000. The number will be gradually increased until there are 3500 men in the school with a possibility of reaching the 6,000 mark.

### CHOLERA MORBUS.

This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Eneyart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief."

A bill granting suffrage to the women of Louisiana was passed by the lower house of the legislature by a vote of 80 to 21. It now goes to the senate, where suffrage leaders claim they will obtain a proportionate majority.

## WAR SAVINGS STAMPS

21,000,000,000 Dollars! This amount Congress appropriated the past year to carry out the great war of Democracy and Humanity.

From the birth of our country's freedom in 1776 to 1917, 141 years, the cost of operating its government has been 26,000,000,000 Dollars. This sum includes all wars in that period.

Now, in less than a year, this World War of Freedom has caused our government to raise a sum almost as great as that which maintained our country's freedom nearly a half.

2,000 Dollars of this amount is to be in small twenty-five-cent pieces. The annual saving citizen is but \$50. It is evident that a citizen unable to subscribe to Liberty Bonds has a chance to do their bit for the war by buying War Savings Stamps. 100,000,000 stamps to raise 2,000,000,000 Dollars means Four War Savings Stamps each man, woman and child.

### ANOTHER PAGE FROM THE RECORD.

Mr. Ferguson's whole plea in his present campaign is based upon his statement that his impeachment was due to a conspiracy hatched by his enemies and that he did not have a fair and impartial trial. He charges that the senators who impeached him acted in collusion with "the University crowd" because he had vetoed the university appropriation. If this contention falls to the ground his whole case falls with it. It happens that the record of the impeachment trial before the senate absolutely refutes Mr. Ferguson's contention.

In the first place it should be noticed that at the time the senate voted on the article of impeachment the university appropriation bill had been passed by both houses and signed by Governor Hobby and so far as financial support was concerned the university was beyond Governor Ferguson's power. He could not undo the acts of the legislature and Governor Hobby. There was no need to remove Governor Ferguson in order to save the university, for its support had been provided for.

But the record makes Mr. Ferguson's contention absolutely untenable. One of the articles of impeachment was that Governor Ferguson had vetoed the university appropriation bill and that this act constituted official misconduct. If the senators were in collusion with the "university crowd," they certainly would have impeached him on that article. Instead, they did just the opposite. THE SENATE, BY A VOTE OF 24 NAYS TO 6 AYES, REFUSED TO SUSTAIN THAT ARTICLE, and one senator, who voted him guilty of other articles, refused to vote at all. THEREFORE, TWENTY-ONE OF THE TWENTY-SEVEN SENATORS WHO VOTED TO REMOVE MR. FERGUSON FROM OFFICE REFUSED TO SUSTAIN THE CHARGE THAT HIS VETO OF THE UNIVERSITY APPROPRIATION BILL CONSTITUTED OFFICIAL MISCONDUCT. Only six of the senators who voted to remove him voted also to sustain this charge. If there were any "university crowd" in the senate, there fore, it could not have been composed of more than six men, and those six men could not have impeached him.

### CALOMEL SALIVATES AND MAKES YOU SICK

Acts Like Dynamite on a Sluggish Liver and You Lose a Days Work

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and cannot salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

We may get a pleasurable idea of the efficiency of United States troops in action from the fact that at Cantigny, where they took the town and many prisoners, several German soldiers were so much impressed by the demonstration that they tried to surrender to an American newspaper correspondent, probably because, from his detached appearance, they concluded he was in command thereabouts.—New York World.

### WOMEN VOTERS ARE ADVISED TO REGISTER

Admitting that there may be a "shadow of doubt" as to the correctness of his previous opinion that it is not necessary for all women to register in order to vote July 27, Attorney General Looney in a statement to Robert Maud, Travis county tax collector, says it would "be a safer course for all tax collectors to provide for the registration of women who desire to register, and issue registration receipts to those who reside without, as well as to those who reside within cities."

## HOOVER EXPLAINS BREWING POLICY

CEREALS CONSUMED IN BEER TRIVIAL COMPARED TO NATIONAL DANGER IN FORCING GIN AND WHISKY BASIS.

Food Administration Head Says the Question Is Legislative. Hoover Life-long Believer in National Temperance.

Many church congregations in the State, when asked to go on a wheatless diet a week ago, adopted resolutions calling upon the United States Food Administrator to prohibit the use of cereals in the manufacture of beer. "You are probably aware," says Mr. Hoover, in a letter on the subject to Senator Sheppard of Texas, "that I have been a life-long believer in national temperance; on the other hand, as a purely administrative officer of the government, I have felt strongly that I should not enter into any contentious matters."

### Hoover Is Personally a Dry Advocate.

As a pronounced dry Mr. Hoover feels, from a national viewpoint, the complete extermination of beer would do more damage to constructive prohibition through the deliberate encouragement of whiskey and gin drinking, of which there is enormous supply still left in the country, than could possibly come from the small saving of wheat now consumed in America in the manufacture of beer. On this point Mr. Hoover says: "I wish to say emphatically that from a strictly food conservation point of view I should like to see the use of foodstuffs suppressed in all drinks, hard and soft. This is not, however, the whole story. We stopped distilling a year ago.

Beer Supply Short, Whiskey Enormous.

There is a long supply of whiskey, gin and other 20% and 40% distilled drinks in the country. We have reduced the consumption of foodstuffs in brewing by 30% and reduced the alcohol content of beer to 2 1/4%. If we stop brewing the saloons of the country will still be open, but confined practically to a whiskey and gin basis. Any true advocate of temperance and of national efficiency in these times will shrink from this situation, for the national danger in it is greater than the use of some 4,000,000 bushels of grain monthly in the breweries.

### Stop Passing the Buck—Appeal to Congress.

If the American people want prohibition it should prohibit by legislation to that end and not force the Food Administration to the responsibility for an orgy of drunkenness. It is mighty difficult to get drunk on 2 1/4% beer; it will be easy enough if we force a substitution of distilled drinks for it.

The Food Administration has gone as far as it can towards temperance without precipitating a worse situation. If the American people or congress will stop the sale of distilled liquors, the administration will find no difficulty in stopping brewing.

### HISTORIC PRECEDENTS

"Four thousand years ago Food Commissioner Joseph, in the land of Egypt, commandeered one-fifth of the wheat crop of Egypt each year for seven years and stored it in the cities nearest the wheat fields. His drastic action at that time saved the world from starvation.

"Two thousand five hundred years ago Nebuchadnezzar, King of Babylon, instructed that certain men whom he wished to have attached to his court be fed on king's food and wine to give them a well-nourished look. One of these men, named Daniel, persuaded his caterer that himself and friends could be better nourished on pulse and water, and requested that he make a test covering a sufficient length of time; the others to be fed on king's food and wine. The test showed that those who lived on pulse (lentils) and water were better nourished than those fed on king's food (luxury and wine).

"Two thousand years ago Bible history records the miracle of feeding five thousand with a few barley loaves and fishes. The people were commanded to sit in rows of 50 to the row, and the servers passed before each and gave to everyone his portion, so that all were served. It was an instance where a little food went a long way, and the fragments that remained were gathered up so that no food was wasted."—Hotel Monthly.

Monday evening while the big auto fire truck was going to the fire, at the rate of about 25 or 30 miles an hour, Mr. J. G. Keathley, attempted to board it, at the corner of the City National Bank. He secured a good hold but the momentum threw his legs back against the tool box and one of his legs was broken, between the knee and ankle. One bone was broken and the other fractured. He held on to the truck until arriving at the fire, where he got off and was taken to his father's home, where he had immediate surgical attention, and is now doing nicely. Of course it will be some time before he is able get about again.

## EVER WATCHFUL

A Little Care May Save Many Colorado Readers Future Trouble

Watch the kidney secretions. See that they have the abmer hue of health;

The discharge not excessive or infrequent;

Contain no "brick-dust like" sediment.

Doan's Kidney Pills are especially for weak kidneys.

Let a Sweetwater citizen tell you how they work.

M. E. Nix, W. Third St., Sweetwater, Texas, says: "I suffered with my kidneys from childhood, which trouble I seemed to have inherited. My kidneys were so weak I could not control the passage of the kidney secretions, especially at night. Nothing did me good until I read about Doan's Kidney Pills and got a box at the City Drug Store. They cured me and I have not had any trouble since."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Nix had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

## Tom Smith tells it that not long since he was on the train and noticed a sheriff on the train with two crazy men taking them to Terrell. He sat just behind them and overheard the first one ask the other why they were taking him to Terrell. "Oh they say I am crazy, I have a son in the war and brooding over the war caused me to lose my mind. You are not crazy why are they taking you to Terrell?" the second man replied, "Yes they say I am crazy too". The first man asked "what made you go crazy?" "Well, says the second man, I came out to Mitchell County two years ago and stayed until the sandstorms and drouth drove me back east where I made enough money to live on until May, when I came back and planted a crop, spent all I had and the worms came along and destroyed the crop, which is enough to run any man crazy. The first man looked at him very hard and said "your not crazy, just a d—m fool for ever coming back.

George Goodwin was in town Tuesday morning very much vexed. It seems that some one had turned their stock out and they got in his field and ate up his crop. When he went to take them up it seems that there is no stock law for Mitchell county. Mr. Goodwin said he was going to circulate a petition at once asking that the commissioners court order a county stock law election. The Record thinks Mr. Goodwin is mistaken. We were under the impression all the time that there was a county stock law, and we think so yet; at least we believe there is a state law that covers the case. If there is no county or state law to apply to loose stock, there should be one, and no doubt the court will order such an election.

Does any man really own his business? This interesting economic question is raised in William Fox's 1918 melodrama, "Cheating the Public," which is being shown here Friday Night.
