FRIDAY and AUG. 30-31

#### A BOX FROM HOME

Drawn by Gaar Williams, Division of Pictorial Publicity.

Food savings of millions of Americans during our first year of war enabled this government to send enormous food shipments abroad for our fighting forces and the Allied nations. Our savings in cereals—out of a short crop—amounted to 154,900,000 bushels; all of which was shipped to Europe. We increased our meat and fat shipments 844,600,000 pounds. This was America's "box from home" to our army abroad and the civilians and military forces of the Allied nations,

PREPARING YOUR

NEW REGISTRATION

Th following statement has been issued by the Governor:

"TO ALL CITY, COUNTY, AND STATE OFFICERS; AND COUNTY AND CITY COUNCILS OF NATION-

Official advices state that legislation extending the present draft ages will be enacted by Congress at an early date. According to plans of the Administration . immediately upon enactment of the new law and after e by the President of the reproclamation, the regestration will be effected. It cannot be ascertained at the present time with exact certainty just what ages will be rensubject to registration and draft, but it is safely assumed that a very large number of men, probably to or even greater than the er of men required to register the day of registration will be early

The Local Boards will have immediate direction and supervision of the self to support the nominees of this registration within their respective primary. jurisdictions. The actual registration will be made in the customary voting precincts in the jurisdiction of

Therefore I am calling upon every For Attorney-General-County and City Council of National Defense; Every Committee of Public Safety; every Public Spir- For Comptrollerited Organization, and every similar H. B. TERRELL of McLennan Co agency to communicate to the Local assist them in performing the work. For Sheriff and Tax Collector-W. P. HOBBY,

The local board has received the above instructions and it is expected that the new registration will be about Sept. i.h. or perhaps a few days ear-

in which they can serve the Board.

#### THE FOURTH LIBERTY LOAN

The compaign for the Fourth Liberty Loan will begin September 28 and close October 19. The result of the loan will be watched with keen interest in Europe, not only by our associates in the war against the Teutonic powers but by our enemies. It will be regarded by them as a measure of the American people's support of

The Germans know full well the tremendous weight and significance of popular support of the war by the FOR ATTORNEY GENERAL people at home backing up the Army in the field. As the loan succeeds our enamies will sorrow; as it falls short they will rejoice. Every dollar subscribed will help and encourage the American soldiers and hurt and depress the enemies of America.

The loan will be a test of the loyalty and willingness of the United States to make sacrifices compared with the willingness of our soldiers to do their part. There must be and will be no failure by the people to measure up to the courage and devotion of our men in Europe. Many of them have given their lives; shall we at home withhold our money? Shall we spare our dollars while they scare not their lives?

# Is Your Money Supporting the Government?

#### LEMONS WHITEN AND BEAUTIFY THE SKIN

#### Make This Beauty Lotion Cheaply For Your Face, Neck, Arms and Hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by queezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and whitener and beautifier.

Just try it! Get three ounces of two lemons from your grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage fish. Spearing is a very common way hands. It is marvelous to smoothen rough, red hands.

Less hot air. More War Savings a pound. Jack salmon, from the gulf, Stamps. Save or fight. It's up to is sliced and sold as steak.

To make good mashed potatoes out of old potatoes let them soak in water hook or in a seine, the usual way is to for an hour before cooking.

#### The Strong Withstand the Heat of Summer Better Than the Weak

Great Variety of Fish on Market to Tempt Appetite on "Meatless Days." :::::::::

and turtles, too. No form of meat is so cooling and healthful as fish, especially when the weather is extremely warm. Since we have formed the meat habit and can not change our ways too suddenly, why not eat more fish? The substitution of fish

for meat at this season means a great

saving of meat for a time when we may sorely need it. All of the following will be found on the Texas market: Spanish mackerel, pompano, red snapper, sea pike, redfish, speckled trout, flounder, sheephead, salt water cat, drum, salt water bream, croaker, halibut, buffalo, mullet, rock bass, striped sea pike,

junefish, jackfish, angel fish, black

#### Spanish Mackerel on Market.

bass and perch.

Spanish mackerel is on the market now-those wide, fleshy looking, aristocratic fish with a promise of a real dinner for a hungry man. While these delicately flavored fish are usually very scarce, it seems that there will be enough to supply the demand at 30 Its sharply pointed, reverse-spear shaped tail suggests the gamey nature of which it is abundantly supplied. Those on the market come from Louisiana. While they live in the warm waters near the tropics, they come north in large schools, feeding upon other fish, especially menvery numerous. A six-pound fish will

But the pompano is a favorite of the real connoisseur of the fine art of eating fish by the Fletcher method-tasting them as long as possible. There can be no better fish. They eat mollusks, small clams, crabs and shrimp. often root in the mud for their food,

a clean cut almost as good as the Pledge with Victory Bonds. scissors. It is best to use proper caution in removing him from the book. for his bite is vicious. They are very fast swimmers. The meat of the sea pike is solid and well flavored. Most anteed one year-J. P. Majors. of the supply on the market is from Point Isabel.

#### Red Snapper Is Toothsome.

The red snappers are an exceptionally good keeping fish. They are a deep water fish and are caught by hook and line far out at sea, and it takes several days for a gang of men to catch enough to pay for a trip to market. At present they sell for 25 cents a pound and the demand is second only to the speckled trout.

The salt water gaspergou is a favorite low-priced fish; it is probably the best fish for the money on the market. It is a favorite with the colcred people. Possibly it has more meat for the money than the salt water bream and there is little difference in the flavor.

The buffalo is too bony, but it is a fairly good flavored fish. They are more easily obtained than any other fish except the salt water cat, and the price is about the same-two pounds for a quarter. Mullet comes from Brownsville and is sometimes compared to mackerel.

#### A Beauty to Look Upon.

But we have not mentioned the speckled trout in a manner fitting its well deserved dignity and prestige among the denizens of the deep; here tan and is the ideal skin softener, is a beauty to look upon, a world of joy to angle for and a complete gastronomic delight to feast upon; happy is that man who finds the opportunity orchard white at any drug store and to tickle his palate with one of these gusto-exciting delicacies.

The sheephead is not pretty, but it has many of the qualities of a good it daily into the face, neck, arms and of taking them, but the gill net is the fastest. When rightly reduced to steak most all of the bones are removed. Adv2 They are very plentiful in all parts of the gulf. Halibut comes from California and the steak sells for 30 cents

Flounders can be found among the offerings. The meat is of excellent quality and it keeps well. While these fish can occasionally be taken on a spear them:

The flounder is a good example of inherited laziness. Nature surely intended that he should swim upright and be like other fish, but his habits of life changed him into a curiosity

#### Junefish Steak Excellent.

The largest fish on the market is the junefish; it weighs 95 pounds; but it makes excellent steak. This fish is of the large kind and there are no Equal parts of turpentine, kero pygmies and dwarfs in the family. The taken weighed 45 pounds. There are only a few examples of the smaller size taken. It is an immense fish with We use the best CENTEX lens in a large gaping mouth and ferocious eyes. It is sometimes called the black or mero de loaito, but is familiarly known as the black jewfish. In scien-Teach the children to buy thrift tiffic works it is known as garrups n'eri'n; it would seem that black grow, er is the more appropriate name.

Mr. Leland then took an old wellworn Bible out of his little bundle, said in a low voice, "Amen, bless de Lord." When the Psalm was ended Mr. Leland fell upon his knees, and poured out his feelings in such an outburst of reverential eloquence as was seldom equalled and surpassed by mortal lips. His host and hostess were so affected by his reading and prayer that they could do nor say no more than fix their eyes on their guest as though they felt he was something more than mortal man. He retired to a clean little pallet in one orner of the cabin, where he soon fell asleep. When morning came he was up exceedingly early; Aunt Dilcy soon had him a good, plain repast, after which he seated himself to read, telling his hostess that he felt too much fatigued to travel, and if she was willing he would rest

HOME BAKING WITHOUT SUGAR DISCUSSED.

Since the people of Texas and of America have been put upon a two pound a person a month sugar ration, effective August 1, the Food Administration in Texas has had many letters stating that in many sections of the country Home baking is being discouraged and that housekeepers generally where they lived until a few weeks think that they can not go on making bread, muffins and cakes in their bomes without sugar.

It is not the desire of the Food Adden, to discourage home baking, but, on the contrary, to encourage the use of syrup and other substitutes in the to mourn her departure. place of sugar. All breads, biscuits and muffins can be made without sugar, and many cakes, cookies and even pastries can be successfully made with syrup in place of part or all of the sugar called for, the administration points out.

The Food Administration is prepared to tell housewives where they can se cure recipes for the new cookery.

#### SEVENTY PER CENT FLOUR RULE IS EXTENDED.

The period for the operation of the 70 per cent flour rule governing bakers of all products except bread and rolls which expired July 31 has been extended to August 31. For this reason the United States Food Administration does not wish to issue licenses to new bakers for the manufacture of products other than bread and rolls until September 1.

The Food Administration approves the issuance of licenses to new bread bakers in territories where the population has increased and where there is an actual necessity for an increased bread production. The administration disapproves launching before September of advertising by bread bakers to increase their production.

On account of the 70 per cent sugar rule governing bakers, many small hotels, boarding houses and public eating places will ask for bakers' licenses to permit them to get an extra allot ment of sugar for their bakery products. The Food Administration decidedly disapproves of this subterfuge and requests that no applications for licenses be approved by State administrators until the administrators are thoroughly satisfied that the applicant uses at least three barrels of flour and substitutes in his bakery each month and has used this average for the past

few months. Small retail bakers using less than three barrels of flour and substitutes and therefore not under license should acofer syer on the same basis as med hakers, that is to say 70 per

This 750,000 tons of sugar and had some guson's \$156,000 loan, demanded the the war.

# Saving Sugar Saves Shipping

MERICAN families would have less sugar than the people of war torn France, if we depended entirely on our home-grown sugar stocks.

Approximately 75 per cent. of our sugar is shipped to our shores. We produce about 1,000,000 tons of sugar a year. Our imports from abroad amount to over 3,000,-

000 tons a year in normal times. The United States Food Administration asks each family to limit its use of sugar to two pounds per month per person for household use. The military situation demands that every available ship be placed at the disposal of the Army or Navy. When we save sugar, we save HER OWN SISTER DIDN'T RECOGNIZE HER SHE DECLARES

Mrs. J. D. Merrisn Now Well And Happy After An Illness of Three Year's Standing-Praises Tanlac.

"I improved so much after taking this Tanlac that my own sister didn't know me at first, when I went to visit her," said Mrs. J. D. Morrison of 314 Twenty-fifth street, Ensley, Ala.

"I lost my health three years ago and had stomach trouble of the worst kind," she continued. "I also suffered dreadfully from billiousness and constipation; I was feverish and restless most of the time and never knew what it was to get a good night's rest. I tried dieting and living on liquid foods until I was almost a nervous wreck. I starved, but nothing did me any good.

"I started taking Tanlac and by the time I had finished my second bottle, my appetite had increased until I was able to eat just anything I wanted. I had gained thirty-three pounds in Sugar supplies throughout the coun- weight-had gone up from sixty-six to ninety-nine pounds-and was feeling better than in a long time. I am now doing all my housework and even some of the washing. I feel that I owe my life to Tanlac."

Tanlac is sold in Colorado by W. L. Doss; Loraine by Garland & Elliott; in Westbrook by J. H. Board.

#### CONVENTION IN TOM GREEN COUNTY PRAISES COBB

ALEOTMENT FOR TEXAS CUT FLOM 18,900,000 POUNDS IN JULY TO 13,230,000 IN AUGUST.

If Public Does Not Observe Ration of Two Pounds to the Person, Many Will Go Without.

Texas has been on its tiptoes to meet the United States Food Adminisration sugar ration since April, when on the market today. he first steps were taken toward controlling the distribution of sugar on he certificate plan. The allotment for the State during July was 18,900,-00 pounds. Beginning with August 1, 1918, the allotment for the month of August is 13,220,000 pounds. This amount of sugar must take care of all

the requirements for every purpose. ugar certificate holders as follows: Non-essentials-Statement A: Fifty

er cent of the amount issued for July. or 950,000 pounds. Essentials-Statement B: Same as return in the afternoon.

n July, 450,000 pounds. Public Eating Places-Statement C: 32/3 per cant of July, or 310,000

of the June consumption, or 200,000 Retailers-Statement E: 66 2/3 per

Bakeries-Statement D: 50 per cent

ent of July, or 11,480,000 pounds. "We have issued to the retail merchants their certificates for August alotment," states E. L. Neville, director of the Grocery Division of the Federal ood Administration for Texas, "bu it is necessary, and we have notified jobbers, to only honor these certificates for August on a basis of 66 2/ per cent of the amounts the certifi-

cates call for. "The population of Texas, according to the United States census, is approximately 4,700,000, and as the government has requested the households to only consume on a basis of two pounds per person per month, it will take the allotment for Statements A, B, C and D, it will be readily seen that there is very little sugar left for preserving purposes.

"County Food Administrators are therefore urged to enlist the people of their vicinities to put up their fruits without sugar, and add the necessar; sugar when the supplies are increased Merchants are cautioned to closely watch their sales for preserving pur oses, as this privilege has been bused and its continued abuse may ead to the prohibition of sugar for reserving purposes whatever.

"A special form has been adopted by the Food Administration which retail merchants will use to secure the sigatures of all purchasers of sugar in wo and five-pound quantities. Copies of these certificates will be sent by the nerchant to his local food administrator, and the administrator will make check. If any consumer has purchased ugar in excess of the two pounds per person per month, they will be se-

erely dealt with. "The certificates the merchants take overing sugar sold for preserving puroses, should be turned in to the County Administrators."

Administrator Peden is determined that the distribution of sugar over the State shall be equitable, and to this end the administration has built up a pecial department, the members of hich are devoting long hours each ay to checking statements and mailing out certificates.

Out of the sugar allotment for August the first class to be considered exemptions. is the retail merchant who distributes to the home; next the manufacturers of essentials; third, the hotels and restaurants; fourth, the bakers; and last, the non-essentials. Non-essentials are seconds and thirds. As a result of this necessary restriction of their supply the manufacturers of non-essenials are using corn sugar and syrup, 1919. honey and other sugar substitutes.

MANUFACTURERS OF LESS ESSENTIALS MUST USE SECONDS AND THIRDS.

Owing to the acute sugar shortage, manufacturers of soda water, candy, soft drinks, syrup, confections, chewing gum, and other less essentials will be restricted to the use of Louisiana seconds and thirds, the better grades being held for other classes, such as retailers, bakers, hotels and the like.

Louisiana seconds and thirds are available for immediate shipment and manufacturers of less essential products should make application for them, through their regular channels of supply, otherwise they will experience considerably delay in receiving their supply of sugar.

EATING PLACES RELEASED FROM WHEAT PLEDGE.

Administrator Peden received the following message from United States Food Administrator Hoover, now in Europe, July 29, lifting the pledge made by public eating places in class 1 The cable reads:

"In releasing the hotels, restaurants, clubs and dining cars from their volform until the new harvest, I wish to congratulate you upon the patriotic example they set and thank them for the large savings made.

"The echo of their service has been heard in Europe and has pointed the way to democracy, the most service of has been a matter of personal inspiration to me to have the continued help so freely given of all the men and women who put through the "no wheat" which helped us to provide for the neessitles of the allies in spite of the

# TEXAS ASKED IN

ANTONIO RESULTS IN SENDING MESSAGE TO SECRETARY OF LABOR AT WASHINGTON.

Government is Asked to Raise Immigration Ean on Mexican Labor; Mexican Editors Entertained.

Food Administrator Peden has re turned from San Antonio, where he was present at a conference on the labor situation, the result of which was a message to William B. Wilson, secretary of labor, uring that for a period of 90 days the immigration laws as to Mexican labor be immediately suspended and the bars be let down

except as to the health requirements. The conference brought out the fact that a small group of Texans in Southern Texas alone required 40,000 Mexican laborers in addition to those they already have, and that the need is manifold over the entire State.

As an interesting climax to the request that the present restrictions on Mexican labor be removed, Mr. Peden had an opportunity to address the Mexican editors who were recently received in Washington by President Wilson. These editors were in San Antonio on their way back to Mexico after a tour of the United States In his address following a luncheon at the Gunter Hotel Mr. Peden read the message from the provost marshal general of the army to the Food Administration with reference to Mexicans of military age engaged in labor in the United States and the generous fulings provided for their military

Administrator Peden also wired Herbert Hoover, United States Food Administrator, requesting that Mr. Hoover take the matter up as a military necessity with the Department of now required to use only Louisiana Labor the need of additional labor at once in order that the farmer, who was urged to plant larger crops, may not be discouraged to do likewise in

#### A Fight For Life

It has been fight or die for many of us in the past and the lucky people are those who are now well because they heeded nature's warning signal in time to correct their trouble with that wonderful new discovery of Dr. Pierce's, called "An-u-ric." You should promptly heed these warnings, some of which are dizzy spells, backache, irregularity of the urine or the painful twinges or rheumatism, sciatica or lumbago. To delay may make possible the dangerous forms of kidney disease, such as stone in the bladder.

To overcome these distressing conditions take plenty of exercise in the open air, avoid a heavy meat diet, drink freely of water, and at each meal take Doctor Pierce's Anuric Tablets (double strength). You will, in a short time, find that you are one of the firm indorsers of Appric as are many of your neighbors.

TYLER, TEXAS .- "I am 53 years old, and for the last three years I have been afflicted with kidney trouble; no relief from the medicines took one small package of Dr. Pierce's Anuric Tablets and Anuric Tablets and the very first dose helped me, and I continued to improve. I took in all six packages. I am very glad to testify."—David Vilchez, 414 E. Social Street.

YOAKUM, TEXAS .- "After using different medicines for kidney and bladder troubles will say that I have given Dr. Pierce's Anuric Tablets a fair trial and was greatly benefited, and do hereby cheer-fully recommend Anuric to all persons suf-fering from kidney and bladder troubles." —HENRY ROTH, Route 4. Box 153.

Ask the draggist for Anuric (60c.), or send Br. V. M. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., 10 cents for trial package.

in Sweetwater.

### War Time Sweeteners

MERICA has several excellent war time sweeteners that will be used largely during the shortage in the sugar supply.

They are maple sugar, syrups, honey and molasses and may be used in preparing desserts and other dishes requiring sweetening. When a cup of syrup or honey is used to replace a cup of sugar the liquid in the

recipes should be decreased one-fourth. One-third of a cupful of sugar is equivalent to one-third of a cup of honey, about onehalf cup of syrup and about one-half cup of corn sugar.

One-fourth of a cup of sugar is equal to about one-half cup of syrup or one-third cup of corn sugar. One tablespoon of sugar is equal to one tablespoon of honey, about one and one-half tablespoons of syrup and one and onethird tablespoons of corn sugar.

Sugar may be saved by the use of raisins, dates, figs, dried pears and fruit pastes used on the breakfast cereals. Fruit marmalades, butters and jellies should be used to take the place of the ordinary sweetening at a meal and not as accessories to it. Fruits may be preserved without sugar. It may be added when sugar is more plentiful.

Preserving demands this year a thin syrup instead of a If sugar is used one-half of the amount may be replaced

by another sweetener. Drying is a means of preserving (without sugar) apples, cherries, strawberries and black caps.

When ready to use they may have added the needed sugar in the form of a syrup. When sugar is more plentiful fruit juices may be made into jellies or may be used as fruit juices with or without sugar, as beverages, fruit gelatins and frozen desserts.

Fresh fruits supply the place of sugar in the diet. They should be used freely. Desserts where sugar is scarce may be made of gelatins, junkets, custards, puddings and

These official picures will give the people of America their first opportunity of seeing our boys in action in France; to understand just what these months of preparation have brought about in combatting our common enemy; to enable the worker in the munition factory, the toiler in the field, in fact, every man, woman and child who is doing his or her part to visualize the results of their labor to the present time. They will show those who subscribeed to the Liberty Loans, Red Cross, Knights of Columbus, Y. M. C. A., Salvation Army and other campaigns just what their money has accomplished.

Every Ameicran will be intesely interested in seeing the baking of mountains of bread for the army, the making of millions of uniforms, the manufacture of tons of guns, the launching of thousands of airplanes into the air and thousands of ships into the sea.

You will thrill with a vital pride at sight of our Navy and our Army in in legions on to victory.

You will see our boys "over here" and "over there." The first line warfare. You may see your boy, or pected. your neighbor's boy, or your friend, behind the lines at work or play or local associations and individuals is marching down the treets of a little loked for.

This great Government picture has been secured by Mr. Taylor, and will be shown at the opera house some time this month. Watch for the date.

Mr. Taylor has secured this picture at a very heavy expense, and unless the public wil show their appreciation and come to see it, he will lose money on the venture. However he has determined to give this wonderful picture to the Colorado public, believing that it is patriotic to do so and that it will be patriotic for you to see it. At least it will do more to educate the public along war lines, what this country has done, and what it is capable of doing than all the reading you can do. Read the ads, and announcements at other places n these columns.
