War Board Announces Rules to Govern Weekly Papers in Making Paper Saving; Puts Them on Cash in Advance Basis

PUBLICATIONS OF FOUR AND EIGHT PAGES ARE TO MAKE REDUCTION BY ELIMINATING WASTEFUL PRACTICES AND LIMITING PRESS RUNS

All Contests and Special Editions Put Under Ban

ONE STANDARD SET FOR PAPER TO BE USED BY ALL PUBLICATIONS IN THIS CLASS—THE COUNTRY NEWSPAPER INDUSTRY TREATED AS A WHOLE

In place of asking the individual paper to make a forced reduction of 15 per cent in its circulation, the board has taken the industry as a whole and is demanding that an average reduction of 15 per cent of the total tonnage used by the country weekly press, be made.

This average reduction is to be secured by the enforcement of wasteful practices rules, and the adoption of these rules by the newspapers will be required.

The board has recognized the eight-page paper as a minimum in size, and does not ask that any publisher of a paper of this or smaller size, make any reduction in size, but that such newspapers must cut out all unpaid-for circulation, and stop all other forms of waste.

Questionnaires will go to all publishers of country weekly newspapers, and these must be filled out, sworn to and returned to the pulp and paper section of the war industries board at once. A second questionnaire will be sent to the publishers on November 2, which must be filled out, sworn to and returned at that time.

The whole thoughts of Mr. Donnelly and his associates in issuing the order to the publishers in the form in which it has been issued is to protect the business of each publisher, and while accomplishing that which is necessary in the matter of a reduction in paper consumption, to do it in a way that will be beneficial rather than harmful to the industry and this the order will undoubtedly accomplish.

The order issued by the war industries board follows:

To Publishers of Country Weekly Newspapers:

The priorities board of the war industries board has listed paper mills as an essential industry and has rated them in the fourth class for priority for coal, on the distinct understanding that the greatest possible economy in the use of paper be exercised, and that the reduction in the use of paper by the newspapers shall be 15 per cent. Each paper mill will be put upon the priority list for coal, conditional upon their signing a pledge that they will furnish no paper to any consumer who will not also sign a pledge in duplicate that he will observe all the rules and regulations of the conservation division of the pulp and paper section of the war industries board.

The war committee of weekly newspaper publishers feels that the necessary saving of 15 per cent should come out of the industry as a whole, and, in order to accomplish this purpose, made the following suggestions, which were accepted by the pulp and paper section of the war industries board and are to be effective September 1, 1918.

If by November 1, 1918, a saving of 15 per cent has not been made in the industry as a whole, the matter will be reviewed by the pulp and paper section and further curtailments will be necessary.

1. No publisher of a weekly, semi-weekly or tri-monthly newspaper shall use in its production any paper except newsprint, and of a weight on the basis of not heavier than 30 1/2 x 44-50 pounds.

2. NO PUBLISHER MAY CONTINUE SUBSCRIPTIONS AFTER 3 MONTHS AFTER DATE OF EXPIRATION, UNLESS SUBSCRIPTIONS ARE RENEWED AND PAID FOR.

3. No publisher may give free copies of his paper to anyone.

4. No publisher shall give free copies to advertisers.

5. No publisher shall accept the return of unsold copies from news dealers.

6. No publisher shall print extra copies for stimulating advertising or subscriptions, except not to exceed one per cent of his circulation with a

minimum of ten copies.

7. No publisher shall send free copies in exchange for other publications.

8. No publisher shall sell his publication at an exceedingly low or nominal subscription price.

9. No publisher shall sell his publication to anyone below the published subscription price.

10. No publisher shall offer premiums with his publication.

11. No publisher shall conduct voting or other contests for the purpose of obtaining subscriptions. Subscriptions obtained in this way will not be considered bona fide subscriptions.

12. No publisher may issue holiday,

industrial or other special editions.

13. Publishers shall procure paper and all other materials from the nearest available source of supply.

14. Publishers of papers of more than eight pages in size will reduce the pages in excess of eight pages 25 per cent.

15. Any publisher of a four or eight page paper will be considered to have fulfilled the requirements of this order if he immediately puts into effect paragraphs numbered 1 to 13 inclusive, and in addition thereto reduces to the lowest possible point all pressroom waste.

No newspaper may be established during the period of the war.

A sworn statement will be required from each publisher on November 1 as to how many of these rules have been put into effect by him.

NOTICE TO SUBSCRIBERS

SUBSCRIPTION PRICE RAISED TO \$1.50 AFTER NOV. FIRST

On and after November 1st, the Subscription Price to the Colorado Record will be raised to \$1.50 per year.

All who will pay up and renew their subscription between now and Nov. 1, may do so at the old rate of \$1.00. This applies only to those who live in the County—as the price is already \$1.50 to those out of the County. This gives you two whole months notice to get in on the old rate.

We have tried hard not to raise the price but the war, zone postage law, high price of print paper and high cost of living makes it necessary or else close the shop.

After November 1st we will also have to comply with the Government demand and require cash in advance for all papers mailed out.

Better attend to this at once and get in on the old price or have your name chopped off the list.

GOOD FALL OF RAIN

Not a Camouflage, but a Fairly Good RAIN

Monday evening the Heavens darkened, lightning flashed and thunder rolled and a fairly good rain fell over most of the County. It was one-third of an inch in Colorado. Tuesday evening the performance was repeated with more volume, and about 1/2 an inch fell in Colorado, seemed to pretty well all over the County. Sam Currey, Jim Bodine and A. C. Gist report a fairly good rain all round Buford; Tom Hammond and Feasters report about the same around Dunn. On east from Dunn to Lone Wolf Mountain, it rained harder. The hardest rain seems to have fallen from Shepherd school house east to Loraine. Roscoe and Sweetwater report big rains. South of Loraine was heavy. At Mc Kinzie, up to Seven Wells, it was spotted and lighter. John Lane, from the HS reports showers in places, pretty fair rain on HS and Ellwood ranches; heavy at Iolanthe and Sterling. The west half of the County seems to have been pretty light. Cool and cloudy all day Wednesday; the rain is not over—more is sure to follow. Mitch says this rain will make 1000 more bales of cotton in the County, late feed will come out, and with a late frost may make a pretty fair crop.

Plenty of rain from now on will make a wonderful difference and will save thousands of dollars for the Stockmen.

Again on Thursday morning a general rain set in and ran the gage in Colorado to over the inch mark. This last rain as we go to press, seems to be a general good rain all over the County.

The Loraine Editor reports a two-inch rain in all the Loraine and Roscoe country.

President Sets Sept. 12, The Day For Registration

President Wilson signed Man Power Bill Saturday Just After Noon

YOUTHS WILL BE CALLED LAST

18-Year-Olds Not to Be Called Until The Other Classes Are Exhausted

All Between 18 and 45 Must Register

WASHINGTON.—Thursday September 12, was the day set today by President Wilson as the date for the registration for the army draft of all men in the United States between the ages of 18 and 45, inclusive.

The President signed the man power bill immediately after Speaker

Clark and Senator Saulsbury, president protem of the Senate, signed the bill and it had been sent to the President by a waiting messenger.

In a proclamation issued immediately after signing the bill, President Wilson called upon all men affected to enroll on that day. It is estimated that 13,000,000 men will register. Men without dependents, in good health and otherwise qualified will be taken first. Youths in their 18th year will be placed in separate groups subject to a special educational program and will not be called until the other classes are exhausted. This does not mean, however, that calling will be long deferred.

All men, whether citizens or not, must register.

SUNDAY GARAGE CLOSING

The Garages and Filling Stations will be closed all day Sundays.

This is to comply with a request from the Government. Please notice your gasoline and oil and let us fill your tanks before ten o'clock Saturday nights. In case you are on the road and break down, we will get your car in but will make no repairs.

Conditions have made it necessary for us to sell for CASH ONLY. Please bear this in mind.

GERMANS WITHDRAW BEFORE THE BRITISH

BRITISH ADVANCE TO QUEANT-DROCOURT LINE, BUT LATER WITHDRAW.

London.—Substantial gains were made by the British in Picardy and Flanders Friday, those in Flanders being about equal in importance to those in Picardy. The French made some slight gains in Picardy and made fast their hold at important places where possession was disputed. Near Soissons the French appear to have won a small but valuable piece of ground, including the towns of Cuffies and Chavigny. Americans did not figure in infantry actions.

In Flanders the Germans have evacuated the strategically important town of Halleu, marking a retreat there of three or four miles on a front of probably the same length.

Southwest of Arras the British advanced about two miles on a seven-mile front Friday, this taking them right up to the famous Drocourt-Queant switch line. Here there was considerable fighting during the day, resulting finally in a retirement by the British from part of their gains. They had advanced from Bullecourt to Bioncourt, near Queant. They returned to Bullecourt. How much of the rest of the gain was given up, if any, the official communications do not state. The German statement says that "great British attacks southeast of Arras failed." The Drocourt-Queant line is rated the strongest defense position constructed by the Germans since the war began.

From the region of Quessant southward to Peronne the British made their big gain of the day in Picardy. They gained from two to four miles on a front of 15 miles, approaching to within the outskirts of Peronne.

From Marchelupt southward to the Oise river the French occupied themselves with clearing up odds and ends of former gains. North of Noyon they made fast their claims to the crossing of the unfinished canal leading from the Somme east of Hombleux to the Oise near Noyon. This crossing was effected in the region of Catigny and Beaurains.

COTTON ARRIVING

Up to Thursday morning Colorado had received 15 bales; Lambeth & Watson had ginned 15 bales. The Roddy Public Yards had weighed 15 bales. Cotton sold during the week at 32 to 33 cents. Seed market is \$50.00 per ton.

UNION NOTES

While I write, the rain is still falling after a fairly good shower which has already put new life into vegetation, and humanity, too. We feel very hopeful for plenty of rain in the near future. There are some feed crops in the County that it is thought will yet make some feed, with sufficient rain, but cotton crops in this section are a back number. The drouth has been so severe, that lots of our musket timber is dying for lack of moisture.

Since my last writing a fine girl baby has been born to Mr. and Mrs. M. T. Dorn, of Union community, arriving to bless their home, August the 24th, 1918.

Would Fill Salton Sea To Avoid The Drouths

Disappearance of Inland Sea Said to Be Cause of Lack of Rainfall

(Dallas News)

In a communication to the News, B. Cannon of Longview outlines the theory that the disappearance of the Salton Sea is in part the explanation of the drouth in west Texas. He recalls that forty to sixty years ago the Panhandle, New Mexico and Western Kansas were regarded as part of the great American Desert, but that a sudden change came. He calls attention to the recurrence of drouth with the disappearance of Salton Sea and advocates a Government investigation and the re-establishment of that inland body of water, saying:

"The Salton Sea can be refilled by a canal with control locks, so the Salton Sea will not rise enough to injure the irrigation farmers of Arizona. But a better plan would be to cut a large canal through the low sand ridges from the Gulf of California to that low, desolate region known as Death Valley, so arid that even horned toads cannot exist. The only investment a borax mine—a section so hot it would evaporate more moisture than flows in all the rivers in Texas. But to flood the whole region would necessitate reimbursing some irrigation farmers along the edge of the low lands in Arizona. It is absolutely certain that the moisture evaporated would fall in rains in all our arid sections, giving plenty in West Texas, Western Kansas, too, much in Oklahoma and Colorado.

The result would be the vast re-

gions suitable for farming in Arizona, New Mexico, Utah, Nevada, West Texas, Western Kansas, part of Nebraska, Western Missouri, with uplands of Oklahoma and table lands of Old Mexico, would become fine farming regions and lands now selling at \$3 would soon bring \$100 per acre.

With expenditure of a small amount the Salton Sea can be refilled and climatic conditions and floods of ten to twenty years past be restored. But a large navigable ship canal would be better so a sea level inland sea could be maintained and navigated.

I don't think that the Colorado and Gila rivers would be sufficient to supply enough water for the evaporation in Death Valley—would probably come half way like the Jordan River supplies the Dead Sea; where the rate of evaporation balances the inflow these results are not guess-work.

We have the Caspian and Dead Seas to prove it, so I can maintain my position in a lecture before and assembly of scientists with absolute proof from data of the past and existing conditions. Even the Great Salt Lake in Utah that many thought drying up was raised fifteen inches by rainfall on the watershed after Salton Sea was formed.

The Government can soon get data scientific and sure of the rate of evaporation and amount of water required to fill up Death Valley and keep it near sea level. What is required is irrigation; educating the people to see the advantages so we will not again have the present cry for relief of drouth sufferers."

SEEING THE LIGHT

Not everybody in Germany is walking in darkness. There are people who have begun to see the light that is reflected from Foch's counter-offensive, albeit they have as yet no influence with the Government and the High Command.

Inveighing against the defeatism which is "rearing its head in Cologne, Dusseldorf and elsewhere, even in Essen," the Cologne Volkszeitung administers a scathing rebuke to those who are complaining:

"Another defeat for us. We shall lose the war. We have nothing to eat, no clothes, no shoes. We shall starve and be utterly ruined."

This is a remarkably clear statement of fact expressed in the fewest possible words. What these Germans are saying is true. They have been beaten again. They will lose the war. They have nothing to eat, no clothes, no shoes. They will starve and be utterly ruined if this insensate struggle is continued much longer by their masters. That is inevitable.

As long as the German armies were operating on the offensive, it was easy to delude the German people with pictures of an ultimate German victory which was to provide abundant compensation for all their sufferings. Nobody could prove that the General Staff was wrong in its predictions of a strong German peace through a military decision. The superficial evidence was all on the side of the General Staff.

Whatever hardships the German people had endured, their own soil had not been invaded and occupied like that of the French. Their towns and cities had not been destroyed and their fertile fields devastated by a ruthless enemy. They had experienced none of those immediate terrors of war which had been the daily lot of a large percentage of the French for years.

Whatever privations had to be borne, the fact remained that the initiative still rested with the German Staff, that war was being fought in foreign territory and that the German armies were unbeaten if not unbeatable. To anybody acquainted with the German character it has long been evident that the German people would hold as long as the German armies held, and that the

German morale would not begin to break until the German troops were everywhere fighting on the defensive.

Nobody knows this better than the German High Command, and this explains the extraordinary measures that have been taken to minimize the successive defeats in the Marne salient and in Picardy. The moment the German people have lost the illusion of a victorious army, the Imperial Government will have quite a different situation to meet at home. That illusion is already beginning to fade.

FEW CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Save Your Hair! Make it Thick, Wavy and Beautiful—Try This!

The brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few week's use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp. WESTBROOK ITEMS

On Wednesday evening at 7 o'clock at the home of the bride's parents, Rev. and Mrs. A. D. Leach, Miss Annie Leach was married to Mr. Carl Morris.

The marriage service was read by Rev. W. E. Garrett, pastor of the Baptist church.

The bride looked her prettiest in a gown of sky blue taffeta silk, while the groom was attired in a suit of black.

Only relatives and a few immed-

iate friends were present.

Miss Annie is the youngest daughter of Rev. and Mrs. A. D. Leach, and her sweet disposition has won for her many friends.

Mr. Morris is the eldest son of Mr. and Mrs. R. M. Morris, and having been reared here, is widely known, and has scores of friends among both old and young.

Mr. and Mrs. Morris are now at home among their friends, who wish for them a life of much happiness.

Mrs. E. Hamilton and daughter, Miss Ramelle, left Saturday for Dallas, where they will make their home, Mr. Hamilton having gone several weeks ago.

J. R. Oglesby and sons, Aubrey, Frank and Albert, together with Henry Leach left Saturday night for Bisbee, Arizona.

W. R. Rogers and E. V. Bell left Wednesday for Alabama with a car of horses and mules.

Mr. and Mrs. J. S. Barnes have recently returned from a trip to Waco, going through in their car. They had a good view of the farming disappointing for a good output this fall.

W. E. Donelson came down from Big Springs Saturday, where he had been at work with a well drill.

Jim Oliver returned from a tour of the Eastern part of the state, Saturday.

Mrs. J. E. Skelton honored the bride of the week, Miss Annie Leach, with a miscellaneous shower, Saturday afternoon. Games and merry chats were the diversions of the afternoon. The bride was the recipient of many useful and beautiful gifts.

Bro. Hank, who has been absent for quite a while, will fill his regular appointment in the Methodist pulpit here, Sunday.

G. R. Roach came in from Fort Worth Monday to be with his baby, who has been sick for several days. Dr. C. L. Root, the attending physician reports the child real sick but not considered dangerously so.

Mr. and Mrs. Childress and children, who have been visiting Bro. A. D. Leach and family, returned home Monday.

Mrs. Sam Smartt and daughter, Miss Xenia, who spent the summer in day Westbrooke, returned to Colorado Friday to spend the winter, and Miss Xenia will attend the high school there.

The friends of Mr. J. A. Webb, who lived south of Westbrooke for several years, will regret to learn of his death which occurred at Ennis, Sunday, Aug. 25.

M. K. Jackson of Colorado, was attending to business on the streets of Westbrooke, Thursday.

Geo. Slaton of Colorado, was a Westbrooke visitor, Monday.

Westbrooke Auxiliary of the Red Cross, met Thursday and finished their number of garments for this quota, fourteen garments being completed this month.

Ollie Bird left Monday for Eastland to be gone for several days.

MAMMA! DON'T YOU SEE YOUR CHILD IS SICK, CONSTIPATED

Look at Tongue! Move Poisons from Liver and Bowels at Once.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask our druggist for a bottle of "California Syrup of Figs," then look and see that it is made by the California Fig Syrup Co." Adv9

MAJ. GEN. OMAR BUNDY

Maj. Gen. Omar Bundy, who has been in the thick of the fighting in France as commander of a division of Americans, has been selected to command the Fifth corps.

HUNS PUSHED OUT OF IMPORTANT POSITIONS

PARIS.—With the Marne and Picardy sectors now virtually all reclaimed, the wings of the present allied offensive are moving in a manner that bodes ill to the Germans.

In the north the wing on the Lys salient southwest of Ypres gradually is bending under voluntary retirements and the pressure of Field Marshal Haig's forces.

Following the fall of Kemmel Hill the allied lines have moved farther forward until it now rests almost upon the Estaires-La Basses road, less than seven miles southwest of Armentieres.

On the southern wing, north of Soissons, the French and American troops are continuing their progress, notwithstanding the violent opposition of the enemy. The villages of Leury and Crecy au Mont have been captured, and crossing the Ailette, a footing has been gained in the woods west of Courcy-le-Chateau through which passes the railroad line running from Chauny to Loan.

From Arras southward to the vicinity of Noyon, the British and French troops have made further remarkable gains.

Peronne, the last important town in German hands on the Somme river, has been captured by the British, who have passed on eastward and northward with steady strides. Bouchavesnes and Rancourt and the high ground adjacent to them also are British, and Field Marshal Haig's men have arrived at the outskirts of the St. Pierre Vaast Wood. Farther to the north other towns have been taken, including Bullecourt.

The Canadians and Australians were in the forefront of the maneuvers throughout this region and did gallant work. Considerably more than 2,000 prisoners have been taken by the British and a few guns also have been captured.

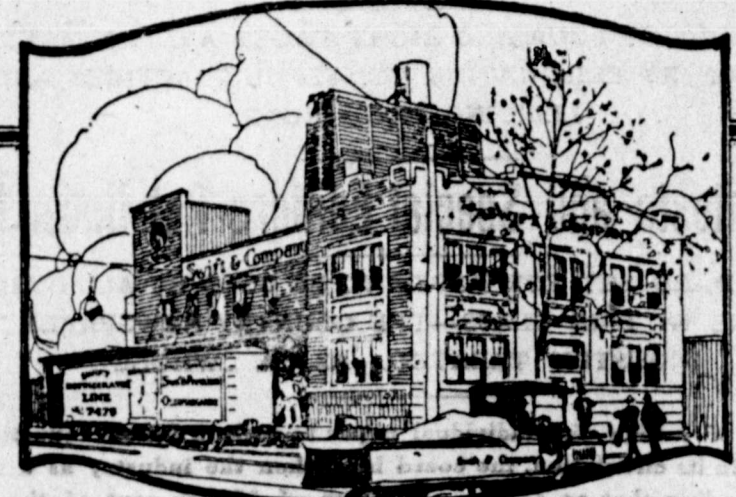

To the south, where the French are operating against the Germans along the Canal Du Nord, there have been violent artillery duels. Seven-

miles south of Peronne, at Epenancourt, the French have forced another crossing of the canal, and two miles northeast of Nesle they have captured the village of Rouy-le-Petit.

The German War Office admits the relinquishment of territory between Ypres and La Basses, declaring that the movement was for the purpose of shortening the German line and that it was carried out without the knowledge of the British.

Fonck Has Brought Down 50 Planes.

With American Army in France.—Lieutenant Rene Fonck, the leading French ace, has brought down since Jan. 1, 50 of the more than three score German aircraft he has destroyed. Of the 50 enemy machines vanquished this year, 32 have fallen before him in the same airplane, which

What is a Branch House?

The Branch House is the place in the packing organization where what the packing plant does for you is put where you can use it.

Both are the natural result of growth and development in the living thing they belong to.

Swift & Company Branch Houses are located in distributing centers all over the country. They are fitted out with refrigerating equipment to keep meat cool, sweet and fresh.

Each one is in personal charge of a man who believes in what Swift & Company is doing for people and wants to help do it.

They are directed by men who have spent years learning how to get better meat cheaper to the places where it is needed.

Meat is shipped to the branch houses direct from the packing plants in Swift & Company's refrigerator cars, in such quantities that it can be disposed of while fresh and sweet.

Your meat dealer comes here to buy your meat for you—unless someone else can treat him better than we can.

So you need the branch house in order to live well; and the branch house and the packing plant need each other, in order to be useful to you.

Remember The Pledge You Made on June Twenty-eighth

YOU PLEDGED THE PRESIDENT ON JUNE 28TH TO BUY WAR SAVING STAMPS TO THE FULLEST EXTENT OF YOUR ABILITY AS YOU SHOULD HAVE DONE. KEEP YOUR PLEDGE AND BUY WAR SAVING STAMPS NOW.

THIS WAR WILL BE WON when every person in the United States has a feeling of personal responsibility, and not until then. This is a war for you—for your wife—your mother—your children—a war to make tomorrow safe for them.

To win this war we must have money; that money must come from the savings of Americans—from you, from me—from John Smith, from Bill Patterson, from Annie Gray—it can come from nowhere else.

On June 28th you made a pledge to save hard in every way and from those savings to buy War Savings Stamps, so many every month until the end of the year.

Our boys are fighting for you and winning great victories—you must fight for them; fight your needless desires; fight your aversion to economy; fight your cravings for nonessentials; fight to save for those who fight for you. That's the square deal.

Fulfill your June and July Pledges NOW. Do not put it off another day.

Experience the Best Teacher

It is generally admitted that experience is the best teacher, but should we not make use of the experience of others as well as our own? The experience of a thousand persons is more to be depended upon than of one individual. Many thousands of persons have used Chamberlain's Cough Remedy for coughs and colds with the best results, which shows it to be a thoroughly reliable preparation for those diseases. Try it. It is prompt and effectual and pleasant to take.

Women, Prepare!

Thousands of women in Texas have overcome their sufferings, and have been cured of woman's ills by Dr. Pierce's Favorite Prescription. This temperance medicine, though started nearly half a century ago, sells most widely today. It can now be had in tablet form (60c a package) as well as liquid, and every woman who suffers from backache, headache, nervousness, should take this "Prescription" of Dr. Pierce's. It is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic. It's not a secret prescription, for its ingredients are printed on wrapper. Send 10c for trial package tablets to Doctor V. M. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

DALLAS, TEXAS.—"I was run-down. I took two bottles of Doctor Pierce's Favorite Prescription and it worked wonders for me. I was enabled to do my own work, and I would recommend it to any lady who is suffering."
—MRS. HANNAH ALICE NEWSOME, 2336 Louise Street.

KERENS, TEXAS.—"I am very glad to say I used Dr. Pierce's Remedies. Seventeen years ago I had woman's disease. I went to our family physician and he told me to get Doctor Pierce's Favorite Prescription, that it was as good as anything he could give me. A few bottles of Dr. Pierce's medicine cured me sound and well of woman's disease. I have also written to Dr. Pierce's Invalids' Hotel for advice which was always promptly given, without any charge."
—MRS. D. T. FAUGHN, Route 1, Box 93.

The Autumn days have come and there is lots of awe in them

No, Geraldine, straw hats should not be worn with raincoats.

One soldier from Eaden stated that he and one of his comrades had enough of war and hoped Eaden would be an independent republic after the war.

The Germans are advancing on Paris, but they have changed their route. They started to go to Paris via the western route, but they have about-faced and are now traveling on the eastern route. On the new route they will have to cross several oceans and mountains, but that will be much easier for them to do than to cross the American battle lines.

The Record is now sending 27 papers to 27 soldier boys in France. We never hear a word from them. If any of these boys should read this, we would like them to write the Record. If any of the Loraine boys read it, let them write Irene Garland as Loraine. Comrades, let us hear from you from France.

It is a masterly retreat. But as for the Allies, they have had enough of masterly retreats. The Germans are welcome to the exclusive enjoyment of them.

These canteens, which cheer the soldiers and sailors on their way to France, will be maintained until after the last of the American soldiers have returned from the war, in order to cheer them and show the appreciation of the civilian population for the work they have done.

Of all the perverse creatures on earth, the editor of the Colorado Record truly holds the record. It has been so dry around Colorado City for three years that the lakes have dried up, the creeks are running up hill and the grasshoppers are spitting cotton, yet the said editor Whipkey, can whip up a rattling good fish story anytime when the linotype runs out of copy. We hope he knows a land terrapin when he sees it. —Slaton Slatonite.

In commenting on our report last week of the scarcity of weather prophets in Mitchell County, the Roscoe Times says:

"If all the newcomers and also all 'the other kind' have left Mitchell county, and even if all the weather prophets are gone—which we cannot doubt, for Whipkey said so—then who in the Sam Hill is left in Mitchell county? But it will not be long after those September rains come, Whipkey, till there will be a few newcomers and plenty of the other kind, even in old Mitchell. A good soaking rain would make more people 'go out of their heads' than anything else we can think of just now, except an oil well, and we're going to have both at Reece this fall, maybe.

When the German troops throw up their hands and yell "Kamerad" the American soldiers reply, "You may be a comrad of Heinie and Fritz, but I'll be damned if your a comrad of mine."

The thirty-five and forty-year old fellows who have been expressing regret that the age limit prevented them from going into the army, are not looking so happy now as they did a short time ago.

Men's collars have again advanced in price. The everlasting gratitude of a nation should go out to some Washington board that could declare them non-essentials these days.

WILL MOONEY CONFESS?

There are some points of similarity between the McNamara and Mooney cases. When J. B. McNamara was accused of blowing up a building and murdering twenty-one industrious printers in Los Angeles, it was said of him that he was a "hero of labor in trouble, a man serving a cause," and an appeal went out for money to defend him. Two hundred thousand dollars poured in. A lawyer who had "dedicated his life to the sacred cause of labor" was secured, and for advising McNamara to plead guilty to avoid hanging received fifty thousand dollars. Parades were organized to impress the courts with McNamara's innocence. One parader carried a banner inscribed, "If McNamara is guilty so am I." Within a week McNamara confessed his guilt! Great efforts are now being made to show that Mooney is not guilty of the crime for which he has been convicted by the courts. There is a strong suspicion in some quarters that Mooney, too, is on the point of making a confession that will implicate some who are working so zealously for his acquittal.

Senator Phelan of California expresses the conviction that Mooney and his associates were "victims of their own cupidity and that they were misled by German money to perpetrate the preparedness parade crime." It has not been proven that Mooney received German money for throwing a bomb into the San Francisco preparedness parade, nor has it been established in court that the I. W. W. propaganda is financed directly by Germany, but Mooney and the I. W. W. crowd talk the same language and follow the same methods. A United States Secret Service agent who has been in constant touch with the I. W. W. for years, writing in the New York Herald, says, "I have not known any large sum of money paid to the I. W. W. from any German source, but I do know that every German, Austrian and other alien belonging to the organization that I have interviewed is willing to use any method within his power to block the accomplishment of American war aims." —Leslie's Weekly.

PRINTERS SHOW RESENTMENT

Printers employed on the Evening Capital Journal, Salem, Ore., refused to go to work on the morning of July 15, declaring that its editor, Charles H. Fisher had maliciously and persistently attacked organized labor in general and particularly that branch of union labor engaged in the manufacture of war munitions. Following is a sample of the editorials that have recently appeared in the Capital Journal:

"And now the commercial telegraphers expect the Government to bribe them to stick to their keys. Like every other branch of union labor engaged in industries affecting war work, they are for the kaiser unless all their most unreasonable demands are met. The shipyard and munition plant workers are a fair sample of the entire federation of labor. They are led by anarchists and I. W. W., as visionary and impractical as the Russian bolsheviki but lacking their honesty of purpose. What is needed—what must come soon—is the application of the 'work or fight' rule to union labor, and the sending of the men who refuse to work for a reasonable wage to the trenches at \$30 a month, where over

a million real American young men are now serving without a word of complaint. Next to the Kaiser the nation's most dangerous enemy is union labor and its irresponsible and unreasonable leaders."

Not until the war has ended and its history has been written, will laborers part in it be fully known. The International Typographical Union, like all the recognized trade unions in America is "doing its bit," both in men and money. Data furnished shows that on June 1, 1918, 4308 journeymen and 676 apprentice members of the organization were in war service. On the date named, the organization had about 7 per cent of its entire membership serving in the armies and navies of the Allies, and this number is continually increasing.

In addition to this service the members of the union have, as a body and by individual subscription, invested considerably over \$5,391,190.00 in Liberty bonds, and seventy-five members have given their lives that the liberty of the people may continue to exist. Of this number, sixty-seven were killed somewhere in France and are sleeping peacefully while the great guns roar above their resting places.

After giving the above facts, further comment is not necessary but it seems to us the statement "Next to the Kaiser the nation's most dangerous enemy is union labor and its irresponsible and unreasonable leaders" could more aptly be changed to read: "Next to the Kaiser the nation's most dangerous enemies are writers who abuse an editorial privilege by seeking to create class prejudice in times of war."

AT THE FOUNTAIN

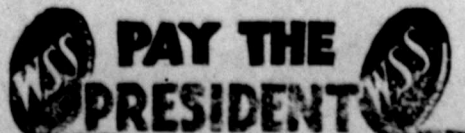

Here is a familiar scene in any Y. M. C. A. building at our army camps. Ice-cooled water "bubblers" quench the thirst of thousands of soldiers, and during a "run" on the fountains the "water line" often extends across the building. The Army Y. M. C. A. is the enlisted man's club, where he may read, write letters, buy stamps and post cards, have bundles wrapped free of charge, get money orders, play games, and meet his comrades for a social hour. The bubbling cold water fountain is one of the most popular advantages offered the soldiers by the Army "Y" in the Southern department, which is composed of Texas, Arkansas, Oklahoma, Louisiana, New Mexico and Arizona.

LEMONS MAKE SKIN WHITE, SOFT, CLEAR.

Make This Beauty Lotion for a Few Cents and See for Yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smooth and beautify the skin.

All druggists will supply three ounces of orchard white at very little cost and the grocer has the lemons. No. 5 Adv.

FOREIGN—

"Everything is going well," says Marshal Foch. "We have begun our action and we shall continue."

Samuel Gompers, president of the American Federation of Labor, and his party have arrived at an English port.

Montevideo, capital of Uruguay, has given the name of President Wilson to its most beautiful thoroughfare, a boulevard extending along the coast from Ramirez to Caracas.

"The German army and nation now face darker hours. May God protect the Fatherland," concludes an article by Lieut. General Baron von Ardenne in the Dusseldorf Nachrichten.

The British have recaptured large dumps of ammunition which they left behind last spring and which the Germans had not touched. They also have taken immense stores of German material.

The German empress, who has been ill for several days, has taken a turn for the worse, according to a message received in Amsterdam from Dusseldorf and forwarded to the Exchange Telegraph company.

On the Ussuri front, north of Vladivostok, the Bolsheviks have retired six miles before a general advance by all the allied forces, according to reports received in Shanghai and transmitted by Reuter's Limited.

DOMESTIC—

Henry Ford has received the democratic nomination for United States senator from Michigan.

The Texas Tariff bureau has moved its headquarters from Austin to Dallas and now has offices in the Union Terminal building.

Active steps will be taken by the Texas Bar association to prevent lawyers from accepting fees for giving legal advice and assisting registrants under the federal draft act.

Governor Hobby has issued an appeal to the people of Texas to come to the aid of the drought sufferers and to liberally contribute to the fund being raised in their behalf.

The Union State Bank of St. Louis, with deposits of \$1,800,000, did not open for business Monday, and it was announced the bank was in the hands of State Bank Commissioner Enright.

Liberty choruses will be organized in each school district of the state by the council of defense. The organization will take place as soon as the community council's are organized.

The traveling salesmen who cover Texas, of whom it is estimated there are more than 15,000, have commenced active work as salesmen for the

government in the war savings campaign.

General Calles, the military governor of Sonora, has issued a manifesto, ordering all civilians living in Nogales, Sonora to deliver their fire arms and ammunition to military headquarters.

Scattering returns from 26 out of 53 counties showed Dr. O. M. Landstrum maintaining his lead over Jeanette Rankin for the Republican nomination for United States senator from Montana.

Public eating places of district No. 1 are requested by Otto Herold, director of same for the food administration, to serve equal amounts of rye and white bread in order that a surplus of rye flour held by bakeries may be assimilated.

Final plans were perfected at Atlanta, Ga., at the closing session of Y. M. C. A. workers and laymen interested in the success of the drive for a \$133,500,000 war work fund, which will be sought in a nation-wide campaign during the week of Nov. 11.

The death of Senator Ollie James of Kentucky, is announced from the John Hopkins hospital at Baltimore. Death was due to an acute affection of the kidneys.

For the purpose of saving all the coal and reducing fuel waste in Texas to the minimum the government has decided to make a thorough inspection of all plants using coal, place them upon the proper rating and issue to them such fuel rations as will guarantee their operation.

Men of 18 to 45 years of age will be called upon to register between September 10 to 12.

Three ships in a week instead of two will henceforth be turned out at the Port Newark yards.

The number of prisoners taken by the allies since July 1 has passed the 112,000 mark, Gen Marsh said.

The government report shows that the volume of the commercial crop of early potatoes is a little less than last year.

Airplane ambulances to carry injured aviators quickly from the scene of an accident to a field hospital are to be provided at all flying fields.

The man-power bill bringing within the army draft all men from 18 to 45 years old, has been passed by the senate with a modified work or fight clause.

Finally the government has given the newspaper publishing industry a war standing by classifying its personnel as engaged in a needful occupation.

The Foreign Missionary Society of the Presbyterian Church, met with Mrs. Van Tuyl last week. The attendance was good.

The subject was 'Medical Missions' led by Mrs. Duff. Mrs. Dolman, who has been out of town for some time, was gladly received. They decided to study "Working Women of the Orient" the coming year.

At the social hour, the hostess served cake.

DEATH OF MRS. PANNILL

After a lingering illness of years, Mrs. Pannill passed to her reward last Thursday night.

The body was laid to rest in the I. O. O. F. cemetery, Friday.

Funeral services were conducted by Rev. W. C. Garrett, Pastor of the Baptist Church.

She leaves six children and many friends to mourn her departure. The three youngest girls were with her and did all that young children could do to care for and comfort her in her hours of affliction.

The Record sympathizes with the bereaved ones and commends them to He who promised to be a father to the fatherless.

DIED

Mrs. Jack Walker died at her home in the McKenzie community, Monday and was buried in the McKenzie cemetery Tuesday afternoon.

She had been sick with Typhoid fever for six weeks, and though everything was done for her that loving hands could do, Death clasped her in his grim embrace.

She had been married about a year and leaves a heart-broken young husband who is soon to serve his country. May God give him the "Peace that passeth all understanding."

LITTLE MINUTES

We are but minutes—little things Each one furnished with sixty wings. With which we fly on our unseen tracks;

And not a minute ever comes back. We are but minutes, yet each one bears

A little burden of joys and cares. Patiently take the minutes of pain; The worst of minutes cannot remain.

We are but minutes; when we bring A few of the drops from pleasure's spring

Taste of their sweetness while we stay;

It takes but a minute to fly away.

We are but minutes, use us well, For how we are used we must one day tell.

Who uses minutes has hours to use; Who loses minutes whole years must lose.

THE TEST THAT TELLS.

Is The Test of Time. Many Colorado People Have Made This Test.

Years ago this Colorado citizen told in a public statement, the benefit derived from Doan's Kidney Pills. The statement is now confirmed—the testimony complete. Instances like this are numerous. They doubly prove the merit of Doan's Kidney Pills. Can any Colorado reader demand more convincing proof? It's Colorado testimony—it may be investigated.

J. W. Nunn, Second street, says: "I suffered terrible agony from my kidneys and nothing did me any good until I read of Doan's Kidney Pills and I got a box. I used them as directed and they soon cured me of the attack."

STILL USES DOAN'S Almost four years later, Mr. Nunn said: "I am just as glad to recommend Doan's Kidney Pills, now, as I was some years ago. Whenever I use this medicine I receive the same good results."

Now comes the rumor that the Government has placed the barbers under the "work or fight" provision, classing the occupation as one of the "non-essentials."

Charters & Sadler The Druggists

With American Army in France.—In a splendid dash forward the American forces operating north of Soissons have pushed away ahead of Juvigny and have captured many prisoners. They have started the Huns on their probable retreat to the Chemin des Dames.

Our stalwart troops drove everything ahead of them, despite the fact that the Germans pitted their crack troops against our men. The Huns were everywhere unable to check our victorious onrush.

The sky is lit up with fires caused by the enemy burning his ammunition dumps and supplies as he retreats northward.

Our losses are small. Many prisoners were taken from the forces composing the enemy's rear guard and many Germans were killed.

Polius Served by Canteen Workers.

Dallas.—Labor day brought with it a surprise for the Red Cross workers at the Union station. When the morning team went down to the tracks to meet one of the trains, they encountered the smiling faces of 38 genuine French "polius" all in uniform, under command of several French officers. An officer who could speak English explained that the Frenchmen had been in America only two months and that one of them had spent 42 months at the front before coming to America.

Carranza Reaffirms Neutrality Policy

Mexico City—President Carranza in his address to congress Monday on the occasion of the convening of the 28th session of the legislative body dwelt at length on internal and foreign questions as they affect the republic. He declared it was the determination of Mexico to maintain the strictest neutrality in the world war and that neutrality upheld Mexico's right to sovereignty. He also defended the nationalization of oil lands.

Gompers is Given Rousing Reception

Derby, England.—Samuel Gompers, president of the American Federation of Labor, met with a rousing reception Monday morning when he arrived at Central hall for the annual Trades Union congress. It was not only a jubilee, but by far the most representative congress ever held by members of the British Labor party, upward of 800 delegates being present.

American Sergeant Captures 17 Huns

With American Army in France.—An incident of the fighting in Juvigny occurred during a reconnoitering tour by a sergeant. He remembered a shell hole in which there had been a German machine gun and made his way to it. The sergeant took the machine gun and drove out the Germans from a nearby quarry. The gun was placed in position and the Americans opened fire on the quarry, after which 17 Germans came out and surrendered.

5,000 Russians Sentenced to Death

Amsterdam.—An announcement by the Bolshevik government to the effect that 5,000 Social Revolutionaries who have been arrested and sentenced to death will be executed if the revolutionary party conducts fresh intrigues against the Soviet government is quoted in a Moscow dispatch to the Vossische Zeitung. Other dispatches to the same news paper state that all roads leading to Kremlin and also the main streets of Moscow are occupied by troops.

Belgian Town Taken by Americans

With the British Army in Flanders. For the first time American troops fought on Belgian soil Sunday. They captured Voormezele and were engaged in operations elsewhere in the same locality.

LARGE GAP MADE IN DROCOURT-QUEANT

THE BRITISH HAVE PENETRATED FAMOUS DEFENSE LINE ON SIX-MILE FRONT.

AMERICANS ALSO ADVANCE

Soissons Plateau is Captured as Result of the Americans and French Fighting.

With the British Army in France.—The British have pierced the Drocourt-Queant line. In a fierce battle which has been raging since dawn Monday and which will probably prove to be one of the most important of the war, Canadian and English troops, at last reports, had at one point driven in about five kilometers, or a little more than three miles, and were still going. The fighting was as furious as any since the war began and increased in intensity as the British battled their way forward, meeting the ever-growing resistance of the enemy who had put in every available man and was rushing up reserves at the rear.

Thousands of prisoners have been captured; the roads to the British rear are literally jammed with them. There has been fierce fighting in Drury (on the Arras-Cambrai road), which was taken by the British, and Mont Dury, which the Germans held in great strength, was taken by storm. The British went on after killing an enormous number of the enemy. The Germans died fighting here as elsewhere.

Cagnicourt wood and Cagnicourt have been captured, and Bois de Bouche, to the southeast, is reported also to have been occupied.

The break through this line takes the British into the open country and menaces the Hindenburg line from the rear and the flank.

HONOR THE FLAG.

There has at last been accorded the women of the United States an opportunity of showing their reverence and respect for the Stars and Stripes when the Star Spangled Banner is played or the uncased colors of our country pass in parade or review. It is now proper and fitting for the women to stand at attention at such times. Where before they remained seated, they must now stand erect, heels together, knees straight without stiffness; hips level, chest thrown out, arms hanging naturally at the side, facing the music or colors, head and eyes directly to the front, with the chin drawn in slightly. It is an opportunity that long ago should have been accorded the women of the country to show their love for the Red White and Blue. Also it is worthy of calling the attention of the civilian of today to the fact that when the flag passes in parade or he passes a flag in an army camp, or the Star Spangled Banner is played, he should remove his hat, holding it in the right hand against the left shoulder until the music is completed or the flag is passed. These things should be practiced and remembered. It is a fitting tribute to our colors.

MUSIC PUPILS NOTICE!

My regular class in piano music will be commenced with the opening of the public schools, but for the benefit of those who want to begin on the first of the month, I will start off any one who cares to commence now. I will teach, as heretofore, at my studio in front of the high school building, where all my former pupils will be gladly welcomed and as many new ones as care to take. Any one wishing to see me about terms, etc., will please phone 157, and I will call on you. While times are hard, and conservation is the word, it would be unjust to deprive your children of the advantages of an education in music. The price of everything else has advanced materially, but I will not increase my rates. This season's class will be conducted along the same lines and at the same rates as heretofore. I take this opportunity to thank all of my old patrons for their past favors, and ask that you send the children back to me this year. Many of my class has reached the critical stage in their music, where a year lost will mean a loss of all that they have acquired, besides losing interest. So I would urge that all who have started in music continue if at all possible. With my increased experience and necessarily a smaller class, I feel that I can do better work, and give more individual attention this year than ever before. Remember you can begin anytime after next Monday September 2.

Hoping to have your patronage and full co-operation, as I have had in the past, I remain, Yours truly, MISS LELA WHIPKEY.

RED CROSS ACTIVITIES

The local Red Cross Chapter is now open three times a week, Mondays, Wednesdays and Fridays, from 3 to 6 o'clock.

The Chapter is now concentrating their forces on the small cotton pads and more workers are needed and urged to come.

ST. LOUIS.—The Southwestern Division of the American Red Cross, composing the states of Missouri, Kansas, Arkansas, Oklahoma, and Texas, has been asked by the United States Government to furnish 1,000 trained nurses in the next eight weeks for service in military hospitals here and abroad.

Persons acquainted with trained nurses are asked to urge them to enter the Government service and to encourage young men to enroll for training in hospitals as nurses.

"The women of the Southwest have not hesitated to do their duty in an effort to win the war, and I know the women will meet this greatest of all demands made upon them," said Miss Lyda Anderson, head of the Red Cross Nursing Bureau of this division, today. "Our soldiers in the trenches look to the women to aid them in this war, and there is no greater calling for a woman than to give her service to her Country in this time of distress."

The total subscription to the American Red Cross War Fund in the Southwestern Division, including Missouri, Kansas, Oklahoma, Arkansas and Texas, has reached \$17,662,000, figures compiled on August 15, last show.

The American Red Cross has given \$25,000 to the Lord Mayor of London for use of London Hospitals.

At the request of General Allenby, Commander of the Allied forces which took Jerusalem, the American Red Cross has taken over two orphan asylums in that city. The institutions house 200 children. A report on what the American Red Cross is doing in Palestine shows that thousands of Armenian refugees are being cared for in addition to many homeless families in and near Jerusalem. Three hundred Russian refugees also are being cared for by the American Red Cross at Post Said, the report says.

The American Red Cross now is conducting activities in 142 cities, towns and villages in Italy, says a report to the United States Department of Labor, made public recently. Included in the activities are 45 work shops, where 3,094 persons are employed. In one month they produced 105,929 articles, which were given to refugees. Thirty kitchens are serving 130,728 persons a week, while 4,620 children are being maintained at summer colonies in an effort to rebuild their health. The American Red Cross also is supporting five orphan asylums and a number of schools.

The American Red Cross has in operation 700 canteen stations on the railway lines of this Country and at embarkation points, to furnish refreshments to enlisted men when traveling through the country, it was announced today.

Headquarters at St. Louis has sent us the following notice in regard to surgical dressings:

"Even though at the present there are to be no changes in surgical dressings or any quotas given, you will find it advisable during the summer months, owing to a shortage of gauze, to run your surgical dressings shop on a half time basis."

In compliance with this request the work room will be open the following days—Monday 4 to 7; Wednesday, 3 to 6; Friday 3 to 6.

Work has been resumed at the Surgical Dressing rooms, and it is hoped that all workers in this department will come out, as there is work of importance. The hours will be as follows: Monday 4 to 7; Wednesday and Friday 3 to 6.

GIRLS! IT'S YOUR STEP THAT ATTRACTS!

Says Women Pay too Much Heed to Their Face Instead of Their Corns.

Watch your step! A brisk, lively step is what charms more than a lovely skin, but your high heels have caused corns and you limp a little. That's bad, girls, and you know it. Corns destroy beauty and grace, besides corns are very easy to remove.

Rid your feet of every corn by asking at any drug store for a quarter of an ounce of freezezone. This will cost little but is sufficient to remove every hard or soft corn or callus from one's feet.

A few drops applied directly upon a tender, touchy corn relieves the soreness and soon the entire corn, root and all, lifts right out without pain.

This freezezone is a gummy substance which dries instantly and simply shrivels up the corn without inflaming or even irritating the surrounding skin.

Women must keep in mind that which enhances her attractiveness. Cornless feet create a youthful step

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, . . . and the pains were very severe. A friend told me I had tried everything else, why not Cardui? . . . I did, and soon saw it was helping me . . . After 12 bottles, I am strong and well."

TAKE CARDUI

The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

F. M. BURNS

THE WAR'S DURATION

It does no good to prophesy; none of us know. But the entire tone and disposition of all said and done over there shows that Germany and Austria are for themselves, and the only question before them now is how to get out of the difficulty the easiest and with the best grace. The whole world is against them; all the rest of Europe, all the rest of Asia, the whole of America, and such parts of Africa as are at all enlisted. This is not accidental; it is the natural and inevitable result of one-country and virtually one man seeking to boss the world. The thing is impossible. The world has all along insisted on bossing itself. True, it has had to lop off the heads of kings and pretenders, but it has not hesitated in the day of its necessity. Wilhelm is going into the discard; he can feel his feet slipping. He will follow Karl's advice and try for a real "peace offensive." That pair can't bear the idea of losing their crowns and starting up in some new line of business. It will come a bit hard we admit, but it will be the making of them if there's any stamina left to build on. A good many of us have found out by experience that what seemed the worst, turned out to be the better plan, and so it will be with Karl and Wilhelm, representatives of the Dark Ages, and here is all the rest of the world flooded with light and sweetness and bound for the promised land. The war's duration is beyond the ken of mortal, but the signs multiply that Karl and Wilhelm are preparing to throw up the sponge; the Lord hasten the day. —Editorial in Waco Times-Herald.

People Speak Well of Chamberlain's Tablets

"I have been selling Chamberlain's Tablets for about two years and heard such good reports from my customers that I concluded to give them a trial myself, and can say that I do not believe there is another preparation of the kind equal to them," writes G. A. McBride, Headford, Ont. If you are troubled with indigestion or constipation give them a trial. They will do you good.

Prof. Sousa is perhaps the greatest band leader in the world today. He is now a Lieutenant in the U. S. A. and showing unstinted patriotism. He says: "The greatest ambition of my life is to lead my band down the Wilhelmstrasse in Berlin, playing the Star Spangled Banner for the delectation of the Hohenzollerns—or what is left of them after the Americans finish the job they've undertaken. I'll be more than fully satisfied with my lifework with all the triumphs I've had, if I can accomplish that one thing."

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system. When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sold for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a days work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe. Adv.

11,000 PRISONERS SAY THEY HAVE ENOUGH OF WAR

With the British Army in France—German soldiers are harboring ideas of a change in the government of Germany after the war, according to expressions of many German prisoners.

THE 1ST AMERICAN FIELD ARMY

With the creation of the 1st American Field Army, the United States forces in France now stand on the same footing as the French and British. Each nation has its own army on the western front, the French under Petain, the British under Haig and the Americans under Pershing all three armies being under Marshal Foch as Commander in Chief of the Allied forces.

The American Army, as organized, is made up of 1,250,000 men. The Americans in France are rapidly approaching in numbers the British at the front. At the rate troops are being moved overseas it should not be many months before Pershing will have at his disposal enough additional corps for the formation of a 2nd field army.

No such American Army has ever before existed as that under Pershing. It is by far the largest ever commanded by an American General. The entire forces under Grant in various fields towards the end of the Civil War were estimated at fewer than 1,000,000. During the months of May, June and July, more than 800,000 Americans were sent overseas, 3,000 miles from home. It has been a stupendous undertaking, and as yet the United States is only beginning to make its strength felt in the winning of the war. Week by week new divisions are arriving in France at a rate that makes possible soon the doubling of Pershing's first army of 1,250,000.

GERMAN OVERLORDS LAUNCHED PLAN IN 1842 TO MAKE TEXAS FATHERLAND

Frederick Eby, Ph. D., professor of the history education in the University of Texas, brings to public attention the almost forgotten fact that as far back as 1842 an effort was made to make Texas a German principality. This plan, which had its origin with the nobility of Germany, met with disaster principally because the Texas republic was merged into the galaxy of states of the American Union. Shrewd Texas land agents also did much to thwart the ultimate plans of the German diplomats. Eby has found some interesting facts bearing upon the movement to make Texas a part of Germany among the documents that are in the archives of the library at the University. In speaking of that epoch in Texas history Eby said:

"Last year we were startled by the announcement that German diplomacy, among its other sinister and bungling intrigues had offered Texas as a bait to Mexico. The stupidity of the idea only succeeded in arousing our sense of the ridiculous. Few of the good citizens of the state, however, were aware that this was not the first occasion that the overlords of Germany had turned their crafty attention to Texas. Two generations ago our imperial domain began to excite the insatiable cupidity of Prussian junkerdom, and plans were actually entered upon to dominate the infant republic of Texas, and in time to make it a German feudalistic principality. Every citizen of Texas ought to be made aware of those historic facts, how the nobility of Germany insidiously formed a conspiracy to throttle liberty in this state, and to extend the paternalistic tyranny of Prussian militarism.

"In 1842 twenty-one of the nobles of Germany, and the Crown Prince of Prussia among them, formed an 'Adelsverein,' known officially in Texas as the German Emigration Society. In the prospectus of the society they bewail the emigration of so many of their subjects due to unfavorable economic conditions. Seeing it was impossible, or at least inadvisable to check the flow of population they decided to direct and to control it along their own lines and secure 'one place' where these emigrants might establish a 'new fatherland' in which they would find again a 'German habitat,' and maintain unbroken connections with their native land.

"After long and most careful investigation," we are informed, the Verein reached the decision that Texas was the 'one' land most favorable for such a colonial enterprise. The healthful climate, fertile soil, and ease of accessibility by sea to Europe had already attracted a large number of Germans. The formation of the Verein was all the more desirable because these emigrants in Texas were 'without support and protection,' had become scattered and some of them killed. Elaborate plans were made for the establishment of the new Germany. The Verein promised to supply gratis to each settler a farm house, tools, horses, pigs, cattle and whatever else might be necessary for their success. The German language, religion, customs and subsequent civil practices were to be strictly maintained. 'The morale and religious education of the children the Verein considered as a sacred duty' we read in the script. Schools, Churches, physicians and hospitals were to be established by these paternalistic autocrats. The colonists were admonished to play their role in the following language:

"The new Fatherland on the other side of the ocean will flourish most vigorously only when the Germans conduct themselves as they always do at home, industrious, patient, true to the good practices and law. The nobles, in forming this society, wish to do their part in contributing to the glory and welfare of Germany."

"How many thousands of Germans were brought to this country in this effort to 'Control' Texas and form a 'new Fatherland' it is impossible to say definitely; between 10,000 and 15,000 at least. But in spite of their sedition plans the enterprise failed most miserably. The agents of the Verein were duped by sharp land agents, and the association collapsed. The real reason, however, for its failure and destruction was the union of the infant republic of Texas with the United States in 1845.

"The plot of the junkers failed, but let no Texan forget that the autocratic territory of this imperial but thinly populated state will be the first plum to be plucked for German settlement by the ruthless hand of Potsdam.

"The facts here given are taken from works found in the library of the University of Texas."

FROM CAMP TRAVIS News About The Camp

There has grown up on the western edge of Camp Travis a mushroom village which in unique picturesqueness would do credit to the most imaginative writer of wild-west "movie" plays. The village consists of two rows of low frame buildings, all facing the east toward Camp Travis, each row extending over about four blocks. The streets are not noticeable for their straightness, the buildings seem to have been unable to come to an agreement as to any line or angle on which to arrange their buildings. Cooperation is in evidence to the extent that all are connected by a broad board walk, but the size, height and angle of the walk was left to the individual taste of the owners. Each shack has its own flaring sign and each one that is painted has its own favorite color, but some have not gone in for paint at all.

But the village is "wild west" in appearance only. It is composed entirely of cold drink stands, restaurants, vaudeville shows, shooting galleries, photography shops, skating rinks, etc. In the rear row are more substantial buildings the big new Salvation Army Hut, the Baptist Chapel, the new Methodist Soldier Church, a theatre and a hotel. But the gambling dens of the old west are notable for their absence, and the thirst emporiums handle nothing stronger than innocent Bevo.

It requires no pass-for a soldier from Camp Travis to visit "Parade Rest," as the village is called, and as a result the rookie can seek almost any kind of diversion he likes while not on duty. Also he is saved the expense of twenty cent carfare to San Antonio everytime he has a hankering to see a show or to attend a dance. The religious organizations at the village are having a phenomenal success, and are helping the new men soon to feel at home in the Camp. Practically everything a soldier desires can be bought at the village, and be it said to the credit of the proprietors, there is little evidence of profiteering. The young people from the city also entertain their soldier friends at the church buildings, and all in Parade Rest has become a very popular place with the Camp Travis men.

The village is under the observance of the city and military authorities at all times and nothing of detriment to the soldier is allowed to flourish.

THIS MAN SAYS HIS WIFE WEIGHED ONLY SEVENTY-SIX POUNDS

After Suffering Twenty-five Years She Takes Tanlac And Gains Twenty-nine Pounds—Not like Same Person.

"My wife has gained twenty-nine pounds and now we just set back and talk about the happy days Tanlac has brought us," writes L. A. Beaty of Selmer, Tennessee, in a letter dated July 18th, to the Tanlac office.

"I just want to say that I have no doubt that Tanlac saved my wife's life," his letter continues, "and now the future looks bright as silver dollars to us. Twenty-five years ago she was given up to die and I have been told every year since that time that she couldn't live. I have tried everything—traveled all over the country with her—and spent great sums of money, but nothing did her any good. She had run down to where she weighed only seventy-six pounds.

"I saw Tanlac advertised, bought it for her and she soon commenced to pick up, and now she weighs one hundred and five pounds, has actually gained twenty-nine pounds. I wish you could have seen her before she took Tanlac and then see her now, you wouldn't take her for the same person. Before, she couldn't do anything, but now she does all her household work and tends to her flowers and a yard full of chickens besides.

"I can prove what I say is true by my county officials and lots of other good people. You may know it makes me feel good to see my wife well and enjoying life after suffering for years and I honestly believe that Tanlac is the best medicine on earth. I'm just a walking, talking booster for Tanlac because of what it has done for us and I have been the cause of many others taking it. Later on I may tell you how I happened to pass an old friend's house and recommend it to him. He had given up, but he's O. K. today. This can be proven too. Well, I could write columns and then not tell half. But let me say again I believe Tanlac is the grandest medicine on earth and I will answer anybody's letter and tell them just what I have written you."

Tanlac is sold in Colorado by W. L. Doss, in Loraine by Garland and Elliott, and in Westbrook by J. H. Board. Adv.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Dr. J. C. Williams' Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHAMBERLAIN & CO., Toledo, Ohio. Sold by all Druggists. Take Hall's Family Pills for constipation.

LORAININE NEWS

MISS IRENE GARLAND, Editor and Manager

This Page of the Record will be devoted to News and Advertising of Loraine and East Mitchell County.

SALUTATORY

Because of the drouth and exceedingly hard times, Loraine finds herself without a newspaper, and feeling that our little city and the East Side of the County should have its share of publicity, arrangements have been made with the Colorado Record, the County seat paper (and one of the best weekly papers published in the West) to devote a page to our section of the County.

I have been selected as editor and manager of this department and it is my intention to devote a part of my time and energy to make it of interest, not only to the Loraine community, but to all of the Record's readers. I have had some newspaper experience and am going to do the best I can, but unless I have the help and cooperation of the people of this section, I feel sure my work will not be a success.

So, right now, in this first issue of our department I want to ask the people of Loraine, men, women and children, to help me in every way they can to gather the news. Remember this is your department and your paper, and as a public spirited people it is your duty to do all you can to make this department a success. Civic pride alone should prompt every citizen to do his utmost to build up our town and our part of the County.

I have made myself familiar with the Record's subscription list and find that it not only covers the County thoroughly, but with the splendid list of subscribers it already had in this end of the County, together with the News' list (which the Record has taken over) our section is better supplied with a local paper than it ever has been before. And as the Record has quite a circulation over the entire State, in other states and even abroad, we feel that Loraine should be fittingly represented in its columns.

I have full charge of this page, both as to news matter and advertising. Of course the Record, nor no other country paper can live on subscription alone, and Loraine advertisers are expected to use the columns of this page to exploit their business just the same as if it were their local paper printed in Loraine. I will be glad to talk with anyone about advertising, giving rates and any other information along this line.

I will also take orders for any kind of job printing. As the Whipkey Printing Co. has one of the largest and best equipped plants in West Texas, I can guarantee you first-class work and prompt delivery. Don't send your work out of the County, but let us stay together through these strenuous times and support our home institutions, and let us keep within our own County the money that it is necessary to pay out.

I want to pay special attention to the subscription list of Loraine and its rural routes. I have a complete list, corrected up to date every week, and am authorized to collect all subscriptions. Those who wish to pay their subscriptions, change the address, discontinue, or any other matters connected with the paper, will please telephone me (No. 47) and I shall be glad to attend to your wants and needs.

Again I want to ask the help and cooperation of every person in Loraine. With your assistance I can give you the Loraine local news and in addition you will get the County seat news and many other items of interest and importance which you would not get from a local paper published here.

Let us pull together to make this page a success—and we can do it.

Thanking you in advance for any assistance or business you may give me, I am

Yours very truly,
IRENE GARLAND.

Let us do our best to keep our trees alive until the rains come again. The trees were God's first Temples. Under the tree of Dornaremy, in France, Joan of Arc first saw her visions and heard her voices. Joyce Kilmer, whose poems were all so sweet and clean; that gallant gentlemen who recently paid the supreme sacrifice to his Country's cause, has described the trees as "looking at God all day and lifting their leafy arms to pray."

Save food or go on short rations.

Women And The Liberty Loan

The Womans Liberty Loan Committee, with Mrs. William Y. McAdoo as Chairman, is now operating in every State in the Union, and has a membership of a million women. This is the first instance in our financial history in which women have been accorded full privileges. In the third Liberty loan, \$656,707,365 were recorded as sold through women's Liberty Loan Committee. It is gratifying to know that even in matters of finance women are taking care of the work of the men who have answered the Country's call.

Refreshing showers fell in Loraine and vicinity Tuesday.

President Wilson has set aside Sept. 12 as Registration day, when all men from 18 to 45 must register.

In next week's issue will appear an article on our Public School, which will open the 1918-19 term about October 1st.

Labor day passed very quietly with no demonstration of any kind. The First State Bank and the Post Office being the only closed doors.

Sam M. Bullock is now permanent Mail Carrier on Route A, Loraine, Texas. Mr. Bullock is a brother of Judge Jesse H. Bullock of Colorado.

Jessie L. Pratt, Precinct Cotton Weigher, reports fifteen bales of cotton weighed up to Sept. 1st. The first bale was sold by Lee May, of Loraine, for 33 cents.

The Woman's Missionary Society will hold its next regular meeting at the home of Mrs. T. J. Davis, Monday afternoon, Sept. 9. Members are urged to attend and visitors will be welcome.

Rev. W. L. Moody will begin a series of revival services at the Methodist church, Sunday, Sept. 8, at 11 a. m. Everybody is invited to attend. Where two or three are gathered together, God is in their midst, and if we ever needed God's help, now is the time.

"Buy coal now" is the clarion cry of Dr. H. A. Garfield, United States Fuel Administrator. Buy now, then save to the utmost or go cold this winter. A fuel deficit can only be avoided by the most intensive conservation. The steel mills are demanding more coal. There must be coal for munition plants, shipyards, cottonmills, supply factories—however, the main reason which impresses upon us, is that transportation difficulty will be great.

In the midst of his grand "peace offensive," the "all-powerful" devouring Hun, the boasted alliance with "Gott" seems to be getting the walloping of his life and he is now on the run, and our boys will see that he doesn't stop till he has reached the Rhine. Twenty-two Nations are now on "Wilhelms" trail and it doesn't require spectacles to see that we will be in at the "death." Naturally they are crying "Peace, peace where there is no peace." What we shall do is to "Carry on" through sacrifice and tears till peace is guaranteed to our children's great grandchildren.

We might suggest that the German bands play "Run, Nigger, Run!" but we dislike to be so hard on the nigger.

Saturday afternoon August 31st, W. L. Edmondson and S. E. Brown called a mass meeting of the farmers in the vicinity of Loraine in accordance with the plans outlined at the meeting of West Texas bankers held in Sweetwater, August 23, 1918. A number of our best and most enterprising farmers responded, and the meeting was held in front of W. L. Edmondson's store.

In the interest of the community and in their own behalf the farmers were urged to remain on their farms, and with Government aid attempt another crop next year. Some interesting facts were presented by S. E. Brown, who quoted the Dallas News. Some helpful suggestions were offered by W. L. Edmondson, and plans explained by Judge O. E. Stevenson, County Demonstrator Dulin of Mitchell, and Shook of Nolan county. About seventy-five names were enrolled, all being splendid men and reliable far-

THE RAIN

Our people were overjoyed Wednesday when the rain began to fall drenching farms in this vicinity, continuing a penetrating rainfall all all night. The precipitation was heavier in some places than in others, but the average depth was about two inches, according to reports from farmers around Loraine. Fall gardens, grass and feed will be benefited, and "roughness" can now be planted to help out the feed situation. The rain lowered the temperature and, what is more, it seems to have put new life and hope into anxious, waiting hearts. Clouds continue to hang heavy, and prospects of more rain are promising. We still maintain that we have the finest country on the face of the earth. At any rate we have a set of farmers who are not afraid to stay at home and prepare for another crop next year. For industry, courage, tenacity and patriotism we challenge any country under the sun to match them.

Mr. and Mrs. R. T. Coffee and daughter, Miss Marie, returned Thursday from a visit to Brownfield, and other points on the plains.

Mrs. John Mahan and baby left Wednesday for Fort Worth where they go to be with Mr. Mahon who is employed there.

Mr. and Mrs. Tom Davis left this week with their household goods, for Frisco where they will make their home in the future.

Clyde Wilson left Monday for Ft. Worth where he will be employed in future. Mrs. Wilson will remain in Loraine for a while.

A. C. Pratt and family have returned from a few day's vacation spent at Lovers' Retreat, a delightful camp ground near Mineral Wells.

Mrs. W. L. Edmondson has as her guests this week, Misses Louise and Josephine Lawson, both charming musicians, of Martindale, Texas.

Mrs. White, who has been visiting her daughter, Mrs. Herman Philip, left Monday for Coahoma, where she will remain visiting friends for a few days.

Twilight service was held at the Cumberland Presbyterian church, Sunday, September 1st. Rev. J. L. Elliott delivering an earnest and soulful sermon.

Mrs. H. R. Looby was hostess to a number of Mike's friends Friday night. The usual cheerful spirits and general good time which attends youth, prevailed.

Friends of Mrs. W. F. Altman will be glad to learn that she is recovering and was removed to her home at Arlington, Texas, after a very serious operation in a Ft. Worth Sanatorium.

Rev. M. L. Moody and family spent last week fishing, and recuperating, on the Concho. Sister Moody thinks there is more real recuperation where the surroundings are a bit more comfortable.

Mrs. T. J. Davis is in receipt of a letter from her daughter, Mrs. Frank Miles, stating that she is very much pleased with the course in steno-graphic work which she is taking in Buford-Ried College, Dallas.

Mrs. Joe Jackson and daughter, Fern, leave this week for Mertzon, where Mr. Jackson is Supt. of the public school. While in town, Mrs. Jackson was the guest of her parents, Mr. and Mrs. J. M. Baker.

Mr. and Mrs. Arthur Miller of Plainview, visited relatives in Loraine this week. They were accompanied home by Mrs. G. Miller and daughters, who will make their home near Plainview, in future.

Dr. and Mrs. T. A. Martin have returned from a trip to Burk Burnett and other North Texas points. Dr. Martin reports all the country which they visited as in no better condition than that around Loraine.

Mrs. Miller and daughter Mary, have returned from a two months visit to Emporia, Kansas, she was the guest of her daughter, Mrs. William Rowland. They spent a few days in Plainview on their return trip.

Mrs. Malcolm Blakely and little daughter Juanice, are home again after a visit of several weeks to relatives and friends in East Texas, having met Mr. and Mrs. A. C. Pratt at Lovers' Retreat and returning with them.

Earnest Philip and family will leave this week for New Mexico. Mr. Philip has been in business in Loraine the past two years, and he and his family have made many friends who will, no doubt be here to welcome them back home when they return to Loraine.

Chaplain A. C. Miller, who was in Loraine on furlough, the guest of his mother and his sister, preached an excellent sermon from the pulpit of the Baptist Church Sunday morning. Chaplain Miller was Pastor of the Loraine Baptist Church in 1914.

Food will win the war—produce it.

The home of Mr. and Mrs. H. A. Clements was the scene of laughter and general good time, Friday evening when they entertained our young society set with an evening party.

These were hours when Father Time forgot he was old and hustled along very rapidly—which is always evidence of a successful party.

In honor of Allen Kuykendall, who on August 31 reached the age of nineteen, Mr. and Mrs. Pendergrass invited about thirty of his friends to a farewell party. Mrs. Pendergrass' charming qualities as a hostess are only excelled by her kind heart, and the young guests will not soon forget her efforts to make them happy. Young Mr. Kuykendall is a popular boy among young and old, a graduate of Loraine High School, and many happy returns of the day were showered upon him.

Miss Myrtle Hutchins entertained eight of her young friends with a slumber party Thursday night. It is futile to try to enumerate all that the bunch did, but anyway, they had lots of fun according to one of those present. A midnight feast of water-melons failed to dampen their spirits and as our girls are wholesome healthy American girls, the doctors have not been called as yet. They didn't sleep much, of course, not that that isn't what slumber parties are for, but sunrise found them away up on College Heights where they served a strictly Hoover breakfast to Misses Katie Lee Clement, Thelma Philip, Helen Stevenson, Jewel Coles, Bernice Clements, Alma Kate Philip, May White and Myrtle Hutchins. These little parties serve to keep our girls cheerful and happy and pretty, till the boys come home.

OUR SOLDIERS' CORNER

This column shall be devoted to our soldier boys of Loraine, who are upholding the cause of Freedom, of justice, of Humanity of God. They have turned from happy boyhood goals of sport, and home and love, to pit their strength against a horde of Huns—hot from Hell! and as the battle rolls it leads them where the very minds that fan their sun-browned faces, is rife with tales of slaughter, and war's foul trade is made the aim of man; where the soil of France is red with the rust of human blood, and salt with the brine of woman's tears; where the roaring guns are never silent.

Perhaps they may pay the supreme sacrifice for Liberty, yet could we wish for them "couch more magnificent?" Should the lilies of France be stained by your boy's warm blood, what grander epitaph can ever be written than "He died for His Country."

What can we do, or think, or say in times like these? One thing we can do is to send our khaki heroes frequent letters from home—tell him the little everyday incidents which occur around his home—tell him of his horse or his dog; where you have gone and what you have seen in your particular neighborhood. Incidents that were trifling once, are of vast importance to him now. They help to strengthen his morale, they help him to think clean thoughts and to live a clean life; we can crush down the fear that is ever stalking at our side and cheer our boys, encourage them, love them—and we can lift his eyes from death-charged guns to one who made a billion Suns, and help him think and dwell on God.

Will you help me to make this column a success? Will you please ring me (No. 47) when you have letters from your boy? These letters will be of interest to our whole community for they are our soldiers. I shall appreciate any favor shown me in giving correct addresses, transfers of any interesting bit of news of our khaki defenders.

It is the intention of the War Department to keep one million soldiers in the training camps of the United States.

All Universities and Colleges in the United States have been taken over by the Government for war training purposes.

The War Department has workmen employed in trying to perfect an armor to be worn by soldiers in battle. Such armor, as experiments prove practical, would lessen the casualties of broken legs and arms.

Writing friends in Loraine from her home in Dekalb, Texas, Mrs. Carroll M. Reese states that her husband is now in the service, having entrained at that place July 26 for Camp Travis.

Judge and Mrs. O. E. Stevenson have received a letter from their son Malven, stating that he had arrived safely overseas.

R. S. Garland writes to friends in Loraine that the greatest pleasure of our boys "over there" is the letters from home. He says: "I want you all to know we aren't merely "coffee cooling" but are getting some real experience." He has been over a large portion of France.

Cecil Hurd has been transferred from the border to Camp Bowie.

Dr. C. W. Stevenson is now located at Aframbro, Michigan, having been transferred from Camp Travis. Mrs. Stevenson is still in San Antonio.

Friends of Pinkney Hurd will regret to learn that he is suffering from a fractured ankle, which accident occurred several weeks ago. He is still in the base hospital at Camp Merritt, N. J.

Boyd Richey is in receipt of a letter from Andre Copeland who said he is getting along fine somewhere in France.

Claude Neely and Billy Pettitt have met "somewhere in France." Mr. Pettitt writes: "Maybe you think that was not a happy meeting, why! we fell on each others neck and wept." Both these soldiers were formerly employed by W. L. Edmondson and Company.

Below are given correct addresses of some of our boys. The addresses of all will be published as soon as the list can be compiled. Send them a card, let them know we are with them.

In the Casualty list for Sept. 2, appeared the name of David P. Land, of Loraine, Texas. Mr. Land is known here as "DeLand" and his many friends here will be delighted to know that he has been located in a Red Cross hospital with only a wounded hand, however, he will be under treatment for some time to come. He was reported missing in action July 30, but was located later.

EXPRESSION

My regular class in Expression and Physical Culture, will begin with the opening of the Loraine Public school, but I shall be glad to enroll any pupil who wishes to begin earlier, thereby giving a month's instruction before the opening of our school.

You cannot afford to neglect your child's education, even though the times are hard, and, it is interesting to note the revival of interest in Public speaking.

My aim and purpose is to give practical instruction for the building of the body, the voice, and the vocabulary; for training the memory and imagination, and for the general development of power and personality in the pupil. My work shall stand as my best recommendation. For terms or any information, telephone me, Na. 47—IRENE GARLAND.

As it seems necessary as well as being requested by our good friends and customers at our Colorado store, and the interest you have shown our friend Peach, since taking the business in charge, we have decided for the present to remain in business at the old stand, and have added to our stock a line of Gente' furnishing goods.

Hoping you will consider anything in this line, as well as in the grocery line, we are still your old stand-by in handling your produce, chickens, Turkeys, eggs and butter.
Peach will strive to please you.
