MORE ABOUT CALIFORNIA; HER CITIES, SCENERY AND PEOPLE

WHIPKEY GIVES RECORD READERS ANOTHER LETTER; TELLS OF HIS WANDERINGS ALONG THE COAST AND HIS VISIT TO GREAT IMPERIAL VALLEY

Since my last letter have returned from around the circle.

Went over to San Diego in the big auto stage, 123 miles in four hours, 15 passengers. Most all of the travel out of El Centro is by auto stage. They build big 15 and 20 passenger cars, use common truck wheels, and in addition they use the flange wheels and the Holtville line runs on the railroad and some go on the trolley line.

I went on up to Pasadena and Los Angeles. Have seen so much that I will not attempt to write of these cities and resorts now. I expect to again visit Long Beach, Santa Monica and Ocean Park, and perhaps go on up to Bakersfield, and will then have more to say about that country.

Los Angeles, as you know, lies fourteen miles inland from the ocean, and is the metropolis of Southern California. Long Beach, Santa Monica and Ocean Park are the leading summer (and winter) resorts, and of these places I shall try to write later on.

On my return to El Centro, after a week's rambling on the coast I find my purse almost depleted and have donned an 8-foot cotton sack, went down in the valley in the midst of two-bale Pima (long staple) cotton, picking at \$7.50 per 100 pounds and getting 200 pounds per day.

(Tell Andrew Cookey to come on out, the water (cooking) is fine.)

Foremost among the prominent citizens who have contributed largely to the upbuilding of the Imperial Valley is Harold Bell Wright, the well known author and writer. Mr. Wright has been a resident of the Valley from the early beginning, spending his winters on a beautiful ranch near Holtville. It was in the Imperial Valley that he laid the scenes for one of his successful novels, "The Winning of Barbara Worth," and the mural decorations in the elegant new Barbary Worth Hotel at El Centro, completed at a cost of \$250,000, illustrate incidents in the lives of the characters so graphically presented. I have not met Mr. Wright, but expect to visit his home before I leave the valley for good.

I feel that I must say something more about the wonderful Imperial Valley, though it is hard to paint a word picture that can convey even a small part of its wonders and beauties. Call into your mind your conception of the desert! A place of interminable sand, silent save for the howl of the coyote, devoid of all things growing except gnarled mesquite and scrubby greasewood, a land of heat, thirst and death! Such was Imperial Valley fourteen years ago.

At that time the only sign of human life on the desert was a mere handful of brave pioneers living in a single camp, who had faith in the visions of the Seer, who foresaw that this barren waste would become a vast Empire, the home of a prosperous and happy people. At this time not a seed had been sown, all effort being directed to the one thought—the leading of the waters of the great Colorado to the thirsty soil.

This was accomplished in the latter part of June, 1901, when a small temporary ditch was completed and water for domestic purposes gladdened the hearts of all. Thus was launched the greatest irrigation scheme of any age.

Now step forward fourteen years. As if by magic, water has spread over the land. Picture the present scene: Three hundred thousand acres made green under the cultivator's hand; the sky-line pierced by mighty trees which have virtually shot up, and by buildings man has as rapidly constructed. In the fields herds are lowing, feeding with the contentment of ages.

The mineral properties of the soil are naturally renewed by fertilizing sediment from half a dozen states, transported as silt by the Colorado

River, whose waters irrigate the Valley. While the North and East are still snowbound, Imperial Valley products are harvested and shipped, and the premium of high-market prices realized. Yields considered large elsewhere are small in this valley. Much is expected of the land, and the land fulfills expectations. Records are frail things here. From the first cotton ginned seeds were extracted. They were sown, leaped into life, flourished, and when October rolled around this cotton was picked, ginned and shipped, just as its parent product had been within the same season. Of course it was a world's record.

Fourteen years ago the Valley's census could be taken on the fingers of one hand; in 1910 there were 13,910 people in the Valley. Today this has been increased to 50,000. With 300,000 acres under canals and in a high state of cultivation, 165,000 more acres are being prepared for crops, and it is expected that 150,000 more acres soon will be brought under the canal system.

The hardest feature to overcome by a new comer, and especially a Texan, is the mixed population, together with that dare-devil scramble for the dollar, and the persistent idea of big I and little you. The women are more manish,—the Jew and Gentile (negro and white man) all sit in the same synagogue; no distinction of race or previous condition of servitude.

Everybody lives in the open, and every fellow makes up his own bed. The farmers here do everything on a big scale—work four to six horses abreast, and they are sure-enough horses. Hundreds of teams here are equal to Barnum and Bailey's show horses. I have seen them discing in newly sown alfalfa with nine big horses abreast.

Every man in the Valley owns an automobile, and the majority of them are big, fine expensive cars. Most of the transportation is done by auto trucks. They build wagon beds large enough to hold four and five bales of seed cotton and haul it to the gin, at one load.

Alfalfa is baled in the field and stacked in ricks a quarter of a mile long. I have seen plenty of maize and kaffir (they call it all corn) make two tons of heads per acre.

The Hindu and Japanese seem to predominate in this immediate section and have run the lease price of land up to \$40.00 per acre.

Labor is scarce and in the towns girls do most of the work—salesladies hotel and restaurant labor is all done by women. Many of them wear overalls and work in garages, barber shops and factories.

The Valley boasts of 52,000 milk cows, more than 25 big creameries, shipping more than a billion pounds of butter, and yet butter (creamery) in El Centro, is 75 cents per pound.

Nearly everybody has large droves of turkeys, and they have turkey buyers here like we do cotton buyers in Texas.

The Spanish influenza is bad here. The ban is on everything and nearly everybody wears masks. All churches, schools, theatres and places of amusement are closed, and yet there seems to be no check. More than 100 deaths to date.

I visit the great Slaten Sea further up the state, and it is well worth ones time to see it. The sea at present is 15 miles wide and 65 miles long. Old timers say it is gradually filling up with silt from the great water shed. Tradition has it that once a big two-story salt factory was there, but is now entirely sunk or covered up—anyway it is not now in sight. Some say the sea was caused by volcanic eruptions, others say it was formerly the bed of the Colorado river. Sometime ago the Record published an article about the gov-

WORLD WAR ENDS ARMISTICE SIGNED

HUNS' SURRENDER COMPLETE; GREAT OCCUPATION SIGNED AT MIDNIGHT MONDAY AND FIGHTING CEASED 6 HOURS LATER

The world war ended at 5 o'clock, Monday morning, November 11th, with red revaluation in Germany and with William Hohenzollern the former emperor, a fugitive from his native land. The armistice was signed by the German representatives at midnight, and hostilities ceased at once.

Thus ends the greatest war in the world's history, when right conquers might; when democracy tramples autocracy under foot and the War Lord (Kaiser) and his councilors flee from their own country to safety.

Following are some of the terms required by the Allies in their armistice with the Germans:

The strictly military terms of the armistice signed by Germany are embraced in eleven specifications which include the evacuation of all invaded territories, withdrawal of the German troops from the left (west) bank of the Rhine and surrender of all war supplies.

The terms also provide for the abandonment by Germany of the treaties of Bucharest and Brest-Lit-

ovsk. The naval terms provide for the surrender of 106 submarines, 50 destroyers, six battle cruisers, ten battle ships, eight light cruisers and other miscellaneous ships. All Allied vessels in German hands are to be surrendered and Germany must notify neutrals they are free to trade at once on the seas with the allied countries.

Among the financial terms included are restitutions for damage done by the German armies, restitution of cash taken from the national bank of Belgium and the return of the gold taken from Russia and Rumania.

The military terms include the surrender of 5,000 guns, half field and half light artillery, 30,000 machine guns, 3,000 flame throwers and 2,000 airplanes.

The surrender of 5,000 locomotives, 50,000 wagons, 10,000 motor lorries and the railways of Alsace-Lorraine for

(Continued on Page 7)

WEST TEXAS COMING INTO HER OWN; OPTIMISM EVERYWHERE

RAINS HAVE PUT EXCELLENT SEASON IN GROUND AND RECORD-BREAKING SMALL GRAIN ACREAGE SOWN BUSINESS MEN AND BANKERS OPTIMISTIC

Western Texas and that portion that was hit by the severe drouth is coming back and coming back fast.

Reports throughout these sections and reports to wholesale houses, the Grain Dealers' Association and the Texas Cattle Raisers' Association, all reflect this. They say that the recent rains have put one of the best seasons in the ground that West Texas ever had. Nearly every county reports that a record breaking acreage is being sown to wheat, oats and other small grains; that there will be winter pasturage and that the drouth and all its terrible after effects is fast forgotten. In many cases farmers who left West Texas when the drouth was at its worse are returning. These for the most part, however, have been land owners who have returned and started new crops. In some cases, tenants have returned.

But the big thing these reports show is the spirit of the people. The past few weeks have wrought a wonderful change. From being discouraged and downcast, they have taken on new life. With the rains and the excellent season in the ground a spirit of grim determination of optimism has swept the country and the farmers, bankers and business men are facing the future with confidence.

One of the greatest signs of future prosperity and present activity is that probably three times the acreage is being put in small grain than ever before. It is estimated by W. A. Dulin, county demonstrator, that about 2000 acres will be planted to small grain. Notwithstanding that last fall a large acreage was planted to wheat in Mitchell county which never even sprouted, many farmers are trying it again this year, and the prospects are much better for a stand.

There is abundant season in the ground to bring up small grain, and in fact a great deal of it is up and growing off nicely. Mitchell County will at least have some winter pasturage, and stands a good chance of a fine yield of wheat and oats in the spring.

San Angelo.—In Tom Green county a larger acreage in grain is being planted than last year. For instance it is estimated that 3,000 acres have been sowed in oats and that 2,000 more will be planted.

Childress.—Plans have been approved for sowing 8,000 acres of wheat which is one-third of the total acreage which will be 25,000. This is more than twice the acreage ever sown here.

Chillicothe.—The season for fall sowing is ideal and the big wheat raisers with his thousands of acres as well as the small farmer who must have good winter pasture, is taking advantage of it by putting in a much heavier acreage than usual.

Floydada.—Farmers are planting heavy crops of wheat. A large acreage will be planted—greater than last year or the year previous. Many farmers report wheat already up to a good stand and grazing cattle.

Memphis.—There is more wheat sown in Hall county this year than usual, and it is all up and looking fine.

Hamlin.—The farmers are making a great rush for the wheat fields. Already there are several thousand acres up and growing nicely. Probably this section will have more than 20,000 acres sown this season which is five times more than has ever been sown before.

Clyde.—The increased acreage sown to wheat is estimated by conservative men to be anywhere from 100 to 200 per cent over that of last year. Farmers are still sowing wheat.

Comanche.—The grain crop this year will probably be 50 per cent greater than that of the past two years, and the sale of seed has been estimated at five times that of the season of 1916-17.

Brownwood.—At this time the

farmers are sowing small grain. Wheat, oats, millet and barley are all being planted.

Panhandle.—A heavy acreage was sown to wheat last year but owing to continued drouths the yield was small. Quite a heavy acreage is being put in this year with prospects fine for a good stand.

Ballinger.—At least 30,000 acres have been sown in wheat and the oat acreage amounts to at least 50,000. This exceeds by 100 per cent acreage sown in grain in any previous year.

Anson.—A heavier acreage of small grain has been planted than ever before. Most farmers who are planting small grain this fall are doing so primarily for the pasturage.

Vernon.—Fifty thousand acres have been seeded to wheat in Wibbar county this year. This is the largest acreage in twenty-five years.

Dickens.—There has been a third more seed wheat and oats sown this fall than in two former years.

Tulia.—Already a large acreage of wheat has been planted, a great deal of which is up and looking fine.

Hamilton.—The acreage sown to wheat and oats this fall is the largest in the agricultural history of the county.

Sweetwater.—More than 12,000 acres of wheat, rye and barley have been planted within the last fifteen days, most of which is up and thriving.

Weatherford.—The largest acreage of wheat ever known in this county has been sown and much of it is already up large enough to afford grazing. Some fall oats has been sown.

Canadian.—As soon as the ground dried out sufficiently drills were started and Hemphill's wheat crop is in good shape.

Snyder.—Thousands of acres have been sown in wheat. Many fields are ready for pasturing and sowing is still in progress.

Abilene.—Because seed wheat is still being bought in large quantities, it is impossible as yet to estimate the acreage in this county. Up to the present enough grain has been sold in Abilene to plant 30,000 acres, and this will be largely increased.

Aspermont.—Nearly every farmer who could get seed is sowing wheat, and it is estimated that at least 10,000 acre will be put in.

Amarillo.—As nearly as can be ascertained the acreage sowed to wheat will be about 10 per cent less than of last fall, which was unusually large.

Baird.—There has been about six and a half cars of seed wheat sold in Baird. The acreage sown to wheat and other grain crops in this county is the largest ever known.

Throckmorton.—Farmers began sowing grain early this year in order to get a large acreage for winter pasturage. The prospects are now that there will be enough wheat pasturage to carry the stock through the winter.

Decatur.—Grain fields are largely increased in acreage over any previous year, and it promises a record breaking crop. The wheat acreage is the largest in the history of the county, and is looking fine.

Robert Lee.—Farmers throughout the county have purchased large quantities of seed wheat and other grain and at present the acreage in Coke county amounts to: oats 14,000 acres; wheat 4,000; rye 2,000 acres; barley 1,000.

Munday.—Some large tracts of wheat have been put in, and since the rains every farmer who can get the seed is planting some.

Paducah.—The purchase of seed wheat has been the greatest known in five years, between four and five cars have been planted, as compared with one and a half previously sown.

Gorman.—Much small grain has been sown, the acreage well above the average and large crops of wheat, rye and other small grains are in evidence

WAR PROGRAM FOR ALL PUBLIC EATING PLACES IN AMERICA

ANNOUNCEMENT MADE BY FOOD ADMINISTRATOR.

General Orders Issued Covering Every Phase of Cooking Service and Conserving Foodstuffs.

The "War Program for Public Eating Places of America" has been announced by the United States Food Administration.

Up to the announcement of a definite set of general rules governing public eating places, the program was somewhat nebulous and its application over the nation did not indicate so much a lack of uniformity as a variance in interpretation.

A clearly defined conservation program in public eating places is necessary in view of the fact that enormous quantities of food are dispensed in these places and various conditions are leading the public to patronize public eating places more than heretofore.

The program in many particulars is more strict than last year. It does not embody rationing. The plan is simply an appeal to the intelligence in public eating places of America to work out for themselves the means and manner of saving.

The twelve general orders which will govern all public eating places in food conservation after October 21 are as follows:

20 Per Cent Substitute. General Order No. 1: No public eating place shall serve or permit to be served any bread or other bakery product which does not contain at least 20 per cent of wheat flour substitutes, nor shall it serve or permit to be served to any one person at any one time more than two ounces of this bread, known as victory bread, or if no victory bread is served, more than four ounces of other breads (such as corn bread, muffins, Boston brown bread, etc.).

General Order No. 2: No public eating place shall serve or permit to be served bread or toast as a garniture or under meat.

General Order No. 3: No public eating place shall allow any bread to be brought to the table until after the first course is served.

General Order No. 4: No public eating place shall serve or permit to be served to one patron at any one meal more than one kind of meat. For the purpose of this rule meat shall be considered as including beef, mutton, pork, poultry and any-by-product thereof.

General Order No. 5: No public eating place shall serve or permit to be served any bacon as a garniture.

One-Half Ounce Butter. General Order No. 6: No public eating place shall serve or permit to be served to any one person at any time more than one-half ounce of butter.

General Order No. 7: No public eating place shall serve or permit to be served to any one person at any one meal more than one-half ounce of cheddar, commonly called American cheese.

General Order No. 8: No public eating place shall use or permit the use of the sugar bowl on the table or lunch counter. Nor shall any public eating place serve sugar or permit it to be served unless the guest so requests, and in any event shall the amount served to any one person at any one meal exceed one teaspoonful or its equivalent.

General Order No. 9: No public eating place shall use or permit the use of an amount of sugar in excess of two pounds for every ninety meals served, including uses of sugar on the table and in cooking, excepting such sugar as may be allotted by the Federal Food Administrators to hotels holding a bakery license. No sugar allowed for this special purpose shall be used for any other purpose.

Shall Not Burn Food. General Order No. 10: No public eating place shall burn any food or permit any food to be burned, and all waste shall be saved to feed animals or reduced to obtain fats.

General Order No. 11: No public eating place shall display or permit to be displayed food on its premises in any such manner as may cause its deterioration so that it can not be used for human consumption.

General Order No. 12: No public eating place shall serve or permit to be served what is known as double cream, or cream de luxe, and in any event no cream containing over 20 per cent of butter fat shall be served.

The general plan includes among other things the following interpretations: Sparing use of cereals. One portion of meat at a meal. Service of a few fried dishes as possible, to save fats.

One teaspoonful of sugar to a patron at one meal. No candles after meals. No icing made with cane or beet sugar on cakes.

Wide use of vegetables and vegetarian meals. Because of shipping space to carry coffee, economize in its use. Discontinuance of service of cheddar cheese as garniture. Ice to be served sparingly. Elimination of fourth meal. Elimination of meats at supper and use of substitutes.

Simple fare for lunches and banquets. Reduction in service plate and ware in public eating places and use of one plate instead of side dishes. Standard menu cards, with foods set forth in English.

Cafeteria system recommended as money, time and labor saver. Use of local and seasonable supplies. All waste foods to be saved to feed animals or for reduction to obtain fats. No food to be burned.

Prices to be adjusted to meet reduction in quantity of food served. Hotel, restaurant and public eating houses proprietors are reminded in this connection of Herbert Hoover's pledge to the allies:

"I have taken the attitude for the United States that whatever the war food program of the allies requires, we are prepared to meet; that the world food conference need not consider whether or not we have supplies—we are prepared to find them; that their sole anxiety must be to maintain the health and strength of their people and conserve shipping to transport the American army; that we, by the economy of our people, have the reserves in food to supply all necessities."

State of Texas, County of Mitchell—ss: I, T. W. Stonerod, Jr., cashier of above named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

Subscribed and sworn to before me this 13th day of Nov. 1918. T. W. STONEROD, JR., Cashier

Mr. J. T. Davis of Loraine was up Wednesday on business. He is fixing to go to South Texas on a big hunt, and incidentally to look at that country and compare it with California. He says he expects to move to California some day. He gave the Record man a big red apple, as fine as could be, which he vows he raised on his own trees at Loraine.

DANDRUFF, AND HAIR STOPS COMING OUT

Save Your Hair! Make it Thick, Wavy Glossy and Beautiful at Once.

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few week's use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment. A small trial bottle will double the beauty of your hair. Adv

"The goose that laid the golden egg" had something on the hen who is laying eggs at the present market price, but not so very much.

Grove's Tasteless Chili Tonic restores vitality and energy by purifying and enriching the blood. You can soon feel its strengthening, invigorating effect. Price 6c.

Notice By Publication of Final Account No. 138.

The State of Texas—To the Sheriff or any Constable of Mitchell County—Greeting:

T. W. Stonerod, Jr., Guardian of the Estate of Viola L. Thompson and Essie M. Thompson, Minors, having filed in the county court his final account of the condition of the Estate of said Viola L. Thompson and Essie M. Thompson, together with an application to be discharged from said Guardianship;

You are hereby commanded, that by publication of this writ for three successive weeks in a newspaper regularly published in the county of Mitchell, you give due notice to all persons interested in the account for final settlement of said estate, to file their objections thereto, if any they have, on or before the January 1919 term of said county court, commencing and to be holden at the court house of said county, in the town of Colorado on the third Monday in January, A. D. 1919, when said account and application will be considered by said court.

Witness: W. W. PORTER, Clerk of the County Court of Mitchell Co. Given under my hand and seal of said court, at my office in the town of Colorado, this 8th day of November, A. D. 1918.

W. W. PORTER, Clerk County Court Mitchell County, Texas.

By W. S. Stoneham, Deputy. I true copy I certify: A. W. COOKSEY, Sheriff Mitchell County, Texas.

NOTICE to Subscribers to the United War Works Fund.—The campaign ends this week. Call on or before Saturday at Colorado National Bank and sign pledge card. Also give names of your family subscribing.

W. P. LESLIE, Co. Chm.

Miss Annie Webb Blanton, one of the State's most successful educators, who has taught in every part of the State school system from the country school to the State University, and who was chosen by the people of the State in the recent elections to serve as our next State Superintendent of Public Instruction, endorses the Victory Boys' and Victory Girls' part in the United War Work Campaign.

Men's New Clothes are too high in price to buy. Let Tom Hughes, the expert tailor, fix up your old suit. Phone 406—He will do the rest.

If America gains nothing else from the war she will at least have a greatly increased knowledge of European geography.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: J. C. ORENEY & CO., Toledo, Ohio. Sold by all Druggists, etc. Take Hall's Family Pills for constipation.

FURNISHING BOOKS TO SOLDIERS

The American Library Association and the Army Y. M. C. A. co-operate in their plan to encourage good reading among soldiers. This is a corner of the Y. M. C. A. building in the Southern Department utilized as a library for the soldiers. "Foxy Grandpa" behind the counter is popular with the men, and each of the five hundred books in the little library are passed out on an average of twice each month. "Foxy Grandpa" has another responsibility. He presents a new khaki-covered New Testament to every soldier who asks for it, and a surprisingly large number of the men request the little book. In fact, most of the soldiers have made it a part of their equipment. They are furnished free by the Army Y. M. C. A.

I am still "doing any old thing" for an honest \$1, and may be found at my office in the Keathley Rooming House.—E. Keathley.

The Quinine That Does Not Affect the Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, Inc.

How Many Boys Will You Look After ?

"It keeps us human," said a soldier to Lord Northcliffe speaking of one of the great agencies. Fifteen cents a day per boy isn't too much to spend to "keep him human" and to bring him back the way he went away. And yet that's all it costs.

MORGANATIC OR MORMON- ATIC MIXED MARRIAGES

American Girl's Predicament When Missing Husband Turns Up

That some women seem fated to get into the wierdest sort of matrimonial mazes is demonstrated in "Daughter of Destiny," which is the title of Madame Petrova's first photoplay from her own studios. The feminine pawn in the fate game played on the diplomatic chess board which forms the background of the story, is a perfectly good and almost too beautiful to be true American girl by the name of Marion Ashley. Marion has no mother, but her father's affection for her does everything but steer her clear of the trou-

HOW TO FIGHT SPANISH INFLUENZA

BY DR. L. W. BOWERS.
Avoid crowds, coughs and crows, but fear neither germs nor Germans! Keep the system in good order, take plenty of exercise in the fresh air and practice cleanliness. Remember a clean mouth, a clean skin, and clean bowels are a protecting armour against disease. To keep the liver and bowels regular and to carry away the poisons within, it is best to take a vegetable pill every other day, made up of May-apple, sloop, jalap, and sugar-coated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets. If there is a sudden onset of what appears like a hard cold, one should go to bed, wrap warm, take a hot mustard foot-bath and drink copiously of hot lemonade. If pain develops in head or back, ask the druggist for Anuric (anti-uric) tablets. These will flush the bladder and kidneys and carry off poisonous germs. To control the pains and aches take one Anuric tablet every two hours, with frequent drinks of lemonade. The pneumonia appears in a most treacherous way, when the influenza victim is apparently recovering and anxious to leave his bed. In recovering from a bad attack of influenza or pneumonia the system should be built up with a good herbal tonic, such as Dr. Pierce's Golden Medical Discovery, made without alcohol from the roots and barks of American forest trees, or his Ironic (iron tonic) tablets, which can be obtained at most drug stores, or send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial medicine.

bles any modern mother could see without half trying.

Being beautiful, artistically inclined and wholly unsuspecting as most nice girls are, Marion first accompanies a famous Austrian artist to the altar, this being before Austrians were being dropped from the visiting lists of our best people. True to form, this foreigner has taken her for ulterior motives, to-wit:—to gain possession of certain diplomatic secrets her Ambassador father is supposed to possess. Besides being a spy hubby number one is a Lothario and a disciple of Bacchus. In his cups he kills a man, slips his ring on his victims finger, sets fire to the premises and disappears. The ring is found on the unrecognizable remain's finger and Marion thinks herself free.

Later, another lover, in appearance and fact a prince, claims Marion for his own, but because of State reasons contracts a side-door marriage with her. Morganatic they call such affairs—morganatic would come nearer the truth. So poor Marion has two husbands or none; dependent on the point of view.

A decidedly interesting situation that leads to highly sensational developments which, presented by Madame Petrova and her splendid company, makes a fitting climax in a story filled with heart throbs.

Will be shown at Opera House Friday and Saturday, Nov. 15th and 16th.

Greatly Benefited by Chamberlain's Tablets.

"I am thankful for the good I have received by using Chamberlain's Tablets. About two years ago when I began taking them I was suffering a great deal from distress after eating, and from headache and a tired, languid feeling due to indigestion and a torpid liver. Chamberlain's Tablets corrected these disorders in a short time, and since taking two bottles of them my health has been good," writes Mrs. M. P. Harwood, Auburn, N. Y.

Have that coat relined, and save money—don't put it off. TOM HUGHES, Phon 406. Expert Tailoring.

If you have a Liberty Bond you want to sell (any issue) see me—J. M. Thomas.

THE INFLUENZA.

The Federal health authorities estimated that there had been 76,000 deaths from influenza and more than 1,000,000 cases of the disease in the United States. Each day is adding to this total, and it is safe to say that the influenza fatalities have already exceeded the slaughter of 80,000 at the Battle of Cannae, famous in Roman history, while the million or more cases may be regarded much as the lists of casualties after a battle on the front line. Already more lives have been lost in the United States from this epidemic than the total deaths and casualties among our soldiers abroad. The story of the epidemic in the United States is but a repetition of its ravages in Russia, Germany Spain and Europe generally.

BAD COLDS? HEADACHY AND NOSE STUFFED

"Pape's Cold Compound" Ends Colds and Grippe in a Few Hours.

Take "Pape's Cold Compound" every two hours until you have taken three doses, then all gripe misery goes and cold will be broken. It promptly opens your clogged-up nostrils and the air passages of the head; stops nasty discharge or nose running; relieves the headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling. Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute. Adv.

L. L. Welch, who has been at Byers for some time, has returned to Mitchell county, and he says he's come back to stay; that it will take a greater drought than the one we've had to run him off again. Mr. Welch has the proper view and he is not the only one who will realize that it is not always true that "the best place is a little further on."

Clothes cleaned, pressed and delivered the same day. J. H. Greene & Co

Influenza disinfectant at W. L. Dow.

WHY DON'T THE FEDERAL GOVERNMENT BUILD ROADS?

Time of infinite value has been wasted in useless discussion and endless details on what to do in the way of highway building. For fear of being judged unpatriotic some public officials in different parts of the country have been afraid to go ahead in the building of highways for which money was available and the building of which they knew would materially strengthen the power of the nation to fight.

Because there has been no strong, dominant organization in the Government committed to the building of highways, such, for instance, as the Railroad Administration in the handling of railroads, this great question has been shifted back and forth from one bureau to another until no one seems to take the lead in handling a question of such great importance.

Every day since the opening of the war has increased the value of the highways for motor transportation, for war work as well as for peace, but pre-eminently for war. The expenditure of a billion dollars by the Railroad Administration for the expansion of railroad facilities will at the best merely delay the future breakdown of the whole railway system. Traffic is growing much more rapidly than railroads can possibly grow; much more rapidly indeed, than railways and highways and waterways can be expanded. It becomes therefore, of tremendous, all-compelling interest for the winning of the war that now, not next week or next year, there should be planned and carried out a broad national highway building program. We have reached a point where these highways must be built or controlled by the Federal Government, so far as main roads are concerned. The project is too vast for individual States, and the conflict of interests would at times prevent the adequate planning and construction of main highways which are essential. To States and counties may perhaps wisely be left the building of feeders or short lines, but the National Government, should, without any delay, by act of Congress establish a some organization in Washington committed absolutely to the building of highways and nothing else.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making You Sick and Cannot Salivate

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition. Adv.

Chamberlain's Cough Remedy.

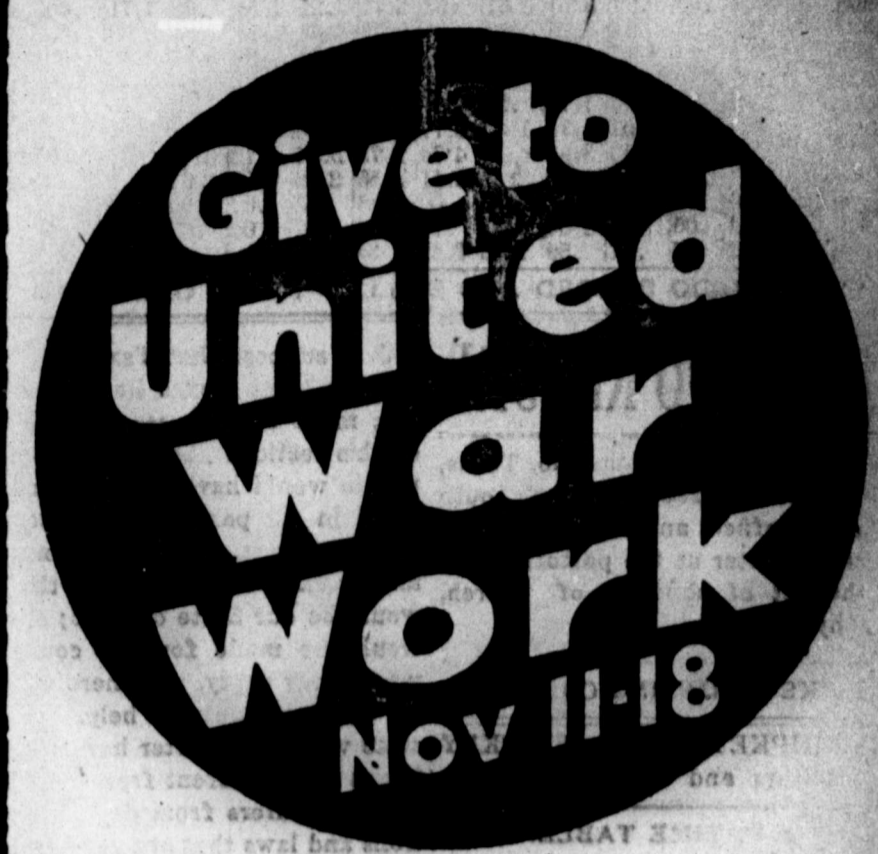

Do not imagine that because other cough medicines failed to give you relief that it will be the same with Chamberlain's Cough Remedy. Bear in mind that from a small beginning this remedy has gained a world wide reputation and immense sale. A medicine must have exceptional merit to win esteem wherever it becomes known. Adv.

Oil and Gas are now CASH at Miller's Garage.

Clothes cleaned, pressed, repaired, and alterations done properly by J. H. Greene & Co., also hats cleaned, trimmed and blocked.

Next year men's straw hats are to be greatly restricted in style and variety by government regulations. But next June is soon enough for us to be unhappy about it.

WRIGLEYS

We will win this war—
Nothing else really matters until we do!

Be patient here—Our Boys are getting

WRIGLEYS

over there!

A letter from Wiley F. Altman, of Arlington, orders the Record sent to him and says:

"We are all well and doing a very fair business for the time of year. With influenza, rain, Liberty Loan and War Savings Stamps to buy, and the high prices. But I guess it is alright; any way we are doing our best, and buying all the bonds and War Savings stamps we can. I like here very well, but not like I do old Mitchell County. I would like to see all the old Colorado friends and talk with you again."

Mr. Altman was in business at Lorraine for a number of years, and is now head of the Altman Mercantile Co., at Arlington.

CONFIRMED TESTIMONY

The Kind Colorado Readers Cannot
Doubt.

Doan's Kidney Pills have stood the test.

The test of time—the hardest test of all.

Thousands gratefully testify. To quick relief—to lasting results. Colorado readers can no longer doubt the evidence.

It's convincing testimony—twice-told and well confirmed.

Colorado readers should profit by these experiences.

G. W. Filler, 2001 East Ave., Colorado, says: Several years ago I suffered intense pains from weak kidneys. My back and sides ached and I had other trouble caused by kidney complaint. I read of Doan's Kidney Pills and used them. Two boxes of this medicine cured me entirely."

OVER THREE YEARS LATER, Mr. Filler said: "The cure I mentioned in my former endorsement of Doan's Kidney Pills has proven permanent."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Filler had. Foster-Milburn Co., Mfgs., Buffalo, N. Y. Adv.

History repeats itself. So does human nature under conditions of terrific strain. The Red Terror in Russia in its cruelty and heartlessness rivals the Reign of Terror in the French Revolution.

The Strong Withstand the Heat of
Summer Better Than the Weak

Old people who are feeble and younger people who are weak, will be strengthened and enabled to go through the depressing heat of summer by taking GROVE'S TASTELESS CHILL TONIC. It purifies and detaches the blood and builds up the whole system. You can soon feel its strengthening, invigorating effect.

L. A. COULTER, State Director United War Work Campaign.

When representatives of the Seven Agencies in Texas met to plan their joint campaign, L. A. Coulter was chosen as general for the job, because of his years of successful organization work. As State Secretary of the Y. M. C. A. he has put across many big undertakings. The smoothly working organization which he has completed in every county and community of the State speaks for the success of the campaign. He predicts a fifty per cent over-subscription of Texas' quota, which Director General Jno. R. Mott is asking of every state because of the largely increased size of the army and because of the increased needs of welfare work among the idle soldiers when peace comes.

ABOUT CROUP.

If your children are subject to croup, or if you have reason to fear their being attacked by that disease, you should procure a bottle of Chamberlain's Cough Remedy and study the directions for use, so that in case of an attack you will know exactly what course to pursue. This is a favorite and very successful remedy for croup, and it is important that you observe the directions carefully. Adv.

PLUMBING—I want to do your plumbing. Will do it right and at right prices. all water pipe work done promptly. I have spare stock and can afford to do your work reasonable.—H. L. Baker. Phone 25 water works.

Phone 406 for Cleaning, Pressing, Rushing Making and Dyeing. TOM HUGHES, Expert Tailoring.

WESTBROOK ITEMS

Monday Hon. W. P. Leslie, Bro. Garvin and Mr. W. L. Sandusky, of Colorado, came over and addressed the people of Westbrook on the United War Work. Outside of the school children only a few were present, but the meeting was enthusiastically carried on and \$136.00 was donated to this great cause. On account of influenza, some were unable to attend and we feel sure that the donations will be raised several dollars before the campaign closes.
The Westbrook people, like everyone else, were overjoyed on receiving the glad tidings of "Peace," Monday, and they celebrated the occasion in every way possible.

Table with 3 main columns: WEST BOUND (Read down), STATION, EAST BOUND (Read up). Includes train numbers No. 25, No. 1, No. 2 Nos. 26-22 and arrival/departure times for various stations like St. Louis, Memphis, Texarkana, New Orleans, etc.

MAMMA! DON'T YOU SEE YOUR CHILD IS SICK, CONSTIPATED

Look at Tongue! Move Poisons from Liver and Bowels at Once. Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

Why Compare Beef and Coal Profits?

Swift & Company has frequently stated that its profit on beef averages only one-fourth of a cent a pound, and hence has practically no effect on the price. Comparison has been made by the Federal Trade Commission of this profit with the profit on coal, and it has pointed out that anthracite coal operators are content with a profit of 25 cents a ton, whereas the beef profit of one-fourth of a cent a pound means a profit of \$5.00 a ton.

Swift & Company, U. S. A.

ROBUSTNESS

Nature has not been prodigal with everybody in the matter of robustness. Many, all through life, must stand guard and combat colds, coughs, bronchitis or perhaps more serious pulmonary ailments.

SCOTT'S EMULSION

has been helping to turn weakness into strength. For those who are delicate, with tender lungs, weak throats and a proneness to debility and anemia, the definite nourishing and tonic qualities of Scott's are of special value.

the same all the year round. No rain, no clouds, every day exactly alike. So they flood the ground for another crop as soon as one is harvested.

I gathered a box of oranges this week and will send them home sometime soon.

LETTER FROM COLORADO BOY.

Mrs. J. W. Nunn received a letter from her son Tom, this week. It was written from New York on the 9th. He said New York was mad with joy, and celebrating peace; every bell was ringing, whistles blowing, and every imaginable thing to make a noise.

MORE ABOUT CALIFORNIA

ernment having drained this sea, and that it was partly the cause of the drought in West Texas. That's all camouflage; it never will be drained; the present water level is 162 feet below sea level. Uncle Sam can do wonderful things, but he can never make this water run 162 feet up hill. It's a fine place to spend a week—salt bathing and to rest. It is flooding time again in the valley, and every man who will work at all is busy putting water all over the face of the earth.

THE OLD RELIABLE JEWELER

LOCAL DRAFT BOARD GETS TELEGRAM CANCELING CALLS

The local draft board has received a telegram from Major John C. Townes in charge of the selective draft in Texas, in which he cancels all calls for men now outstanding, including special induction calls and competent orders.

Calls for men for the navy have not been cancelled, but the local board of Mitchell County has no orders for the induction of men for the navy.

The board will complete the ledger for the September 12 registration and will prepare to carry out whatever orders may be received concerning the further work of the draft regulations.

Those of 37 years or over will not be classified, but those of 18 to 36 will fill out their questionnaires and return to local boards, and they will be classified as heretofore.

The local board received the following telegram from the department which explains itself:

"In entering upon what seems, in view of the mighty events of the day, to be the final work of this character to be done by the Selective Service System, I extend members of that System congratulations upon their truly great achievements of the past year and a half; achievements that have taxed to the utmost the time, the ability and the endurance of all those engaged in the work, and that have furnished the Army to which, in a large measure, must be given the credit for saving to the world both civilization and Government by the People.

To you, Members of that System, must come a sense of duty well done.

The country and the world knows that it owes to you a debt of thanks and gratitude which cannot be measured by words but only by the affection, the respect and the esteem, now yours of those among whom you live, and from whom you have taken that which was beyond pride.

In undertaking the completion of your work under the orders given, I bespeak of you the same interest and tireless energy which has characterized your work in the past.

E. H. CROWDER, Provost Marshal General. Major John C. Townes, Jr. Supervisor of Selective Service Law in Texas.

HER SON WRITES

In a letter to his mother, Will Schrolder says the monotony was broken for the boys recently when a whole carload of real sure enough American girls passed through their village. The boys all went falling over each other to get to them and he said there was some sure enough hand-shaking, and all could be done without a dictionary. He said that France was full of pretty girls, but they did not come up to the ones in the old U. S. A.

This was written the 13th of October and the boys were looking forward to peace and the prospects of getting home this time next year. He, like all others, says he enjoys the Colorado Record.

On a CASH BASIS. The Miller Garage is now on a Cash basis. Newt Miller says he has to pay cash for Oil and Gas and Parts, and he must have cash.

WORLD WAR ENDS; ARMISTICE IS SIGNED

(Continued from Page 1).

the use by the allies, and stores of coal and iron also are included.

In connection with the evacuation of the left bank of the Rhine it is provided that the allies hold crossing of the river at Coblenz, Cologne and Mayance with bridgeheads and a 30-kilometer radius. The immediate repatriation of allied and American prisoners without reciprocity is included.

The repatriation within 14 days of thousands of unfortunate civilians deported from France and Belgium also is required.

The right bank of the Rhine and that occupied by the allies becomes a neutral zone and the bank held by the Germans is to be evacuated in 19 days. The armistice is for 30 days, but the president spoke of the war as coming to an end in his introductory remarks to congress. The German troops are to retire at once from any territory held by Russia, Rumania or Turkey before the war, Allied forces are to have access to the end evacuated territory either through Dantzic or by the river Vistula. Unconditional capitulation of all German forces in East Africa within a month is provided.

Freedom of access to the Baltic Sea with power to occupy German forts in Kattegat is provided. The Germans must also reveal the location of mines, poisoned wells and like agencies of destruction and the allied blockade remains unchanged during the armistice.

These are the high spots of the terms as the president read them to congress. Germany's acceptance, he said, signaled the end of the war because it made her powerless to renew it. All ports of the Black Sea occupied by the Germans are to be surrendered and Russian war vessels recently taken by the Germans naval forces must also be given to the allies.

The president made it plain that the nations which have overthrown the military masters of Germany will now attempt to guide the German people safely to the family of nations of democracy.

Besides the surrender of 106 submarines the terms require all others to have their crews paid off and put out of commission and placed under the supervision of the allied and American naval forces.

The terms include the immediate evacuation of Belgium, France, Alsace-Lorraine and Luxemburg, which must be completed within 14 days after the armistice was signed. German troops which have not left within that time will become prisoners of war. Occupation by the allies and the United States troops will keep pace with the evacuation.

UPSET STOMACH.

Pape's Diapepsin at Once Ends Sourness, Gas, Acidity, Indigestion.

Don't stay upset! When meals don't fit and you belch gas, acids and undigested food. When you feel lumps of indigestion pain, flatulence, heartburn or headache you can get instant relief.

No waiting! Pape's Diapepsin will put you on your feet. As soon as you eat one of these pleasant, harmless tablets all the indigestion, gases, acidity and stomach distress ends. Your druggist sells them. Adv

Demobilization will mean demoralization. If an armistice is followed by arrangements for permanent peace then all armies in the field will begin to demobilize. The men will not be keyed up by the activity of battles, and in their leisure hours will be seeking other excitement, which will be furnished them by the most evil agencies unless we see to it that the best agencies are on the job. With peace comes a double need of games and entertainments, and especially of school-room work, for we will be cheating the boys and the women workers if we keep them during the long period of demobilization without offering them instructions that will fit them to re-enter civil life.

S. S. SNOWDEN WRITES

Our friend Sam Snowden and aforesaid a Colorado citizen, writes from Globe, Ariz., and says: "We are at last located, but had the misfortune on the way, to lose our darling boy. He was taken Oct. 28th. We got him to the Government hospital at Fort Apache, but it was too late, and we buried him in the Government cemetery. He was attacked with influenza and pneumonia and nothing could be done more than loving hands and good physicians could do. He was just fourteen years old. Of course our hearts are sad, but God knows best, and His will be done."

These people were well and favorably known in Colorado, and all their friends will sympathize with them in the loss of their baby boy.

I Owe My Life to PERUNA

Mr. McKinley's letter brings cheer to all who may be sufferers as he was. Read it:

"I can honestly say that I owe my life to Peruna. After some of the best doctors in the country gave me up and told me I could not live another month, Peruna saved me. Travelling from town to town, throughout the country and having to go into all kinds of badly heated stores and buildings, sometimes standing up for hours at a time while playing my trade as an auctioneer, it is only natural that I had colds frequently; so when this would occur I paid little attention to it, until last December when I contracted a severe case, which, through neglect on my part settled on my lungs. When almost too late, I began doctoring but, without avail, until I heard of Peruna. It cured me; so I cannot praise it too highly."

It Cured Me

Mr. Samuel McKinley, 3507 E. 12th St., Kansas City, Mo., Member of the Society of U. S. Jewelry Auctioneers.
