## COMING THEDA BARA IN CLEOPATRA

ENTRIES POURING  
 IN FOR BIG SHOW;  
 THRILLS CERTAIN

Everything Points to the Biggest Exhibition and Biggest Crowds in Fort Worth  
 March 10-15.

Fort Worth—That the Southwestern Exposition and Fat Stock show, which will be held here March 10-15, will be an exhibition of infinite variety is assured by the wealth of entries pouring in daily for livestock departments, for Rodeo, for poultry show, etc.

Never before in the history of the show has interest among the breeders of fine stock been so universal nor has there been early promise of such a magnificent and representative exhibit of the blooded cattle, sheep, hogs and horses of the Southwest.

Inasmuch as much territory in Texas has been freed of the tick during the past year, the exhibition of native cattle is expected to outclass any previous exhibition. And war-time efficiency has done much for fine stock in Texas. A concrete example of direct results will be seen here during the stock show.

From all over the country, distinguished riders have been writing to the stock show management, informing it that they will be on hand for the Rodeo and help Fort Worth show Cheyenne a few wrinkles about frontier day celebrations. For one whole week the old west of bucking horses and wild steers, of reckless riding and daredevil feats of the range, will hold sway in Fort Worth—and the veteran plainsmen of a past era will hark back to the times when Texas was wild and woolly, unshackled by the barbed wire fence.

Dairy cattle lovers from all

over the country are expected to come to Fort Worth during the show to see the magnificent array that will be on exhibit, as is assured by the fine line of entries already assured. Prize money has been doubled in the dairy divisions and this has been an incentive for breeders who hitherto have not patronized this show.

J. M. Jones of the Texas Experiment Station has been selected as superintendent of the sheep department of the show. He has been scouting far and wide and announces that he has lined up an array of sheep that will be representative—that will astonish even the veteran visitors to the stock show. Texas has made great progress in sheep raising during the past several years and the industry in this state will have competition from nearby states this show, it is understood.

Tom Frazier announces that there is every prospect for a much better showing of fancy hogs than for the past several years. There will be a great "clash of breeds" for the grand championship of the show, as several associations are offering additional prizes in hogs of certain breeds which carry off the blue ribbon.

Some very fine Horse Show classes, particularly in the saddle events, are being arranged for the Rodeo—the afternoon and night entertainment.

The management of the show is looking for an attendance from all over the Southwest, as the Fort Worth exhibition has moved forward into the position of one of the three big livestock shows of the country—and the Southwest has moved up into a commanding position in the production of fine stock.

### NOTICE TO SCHOOL PATRONS

Since quite a number of persons have now and others have had chicken pox, and the spread of the disease seems to be on the increase, the following sections of the State Sanitary Code is herewith submitted so that those who have the disease in their families may govern themselves in accordance therewith.

**State Sanitary Code.**  
 Section 15—Quarantinable for school purposes; barred from school twenty-one days. Persons suffering from measles, whooping cough, mumps, German measles and chicken pox, shall be required to be barred from school twenty-one days from date of onset of the disease, with such additional time as may be deemed necessary, and may be readmitted by the health officer attesting to their recovery and non-infectiousness.

Section 30—Children with contagious diseases shall not attend school. No superintendent, principal or teacher of any school, and no parent, master or guardian of any child or minor having the power and authority to prevent, shall permit any such child or minor, having any quarantinable disease, or any child residing in any house in which any such disease exists or has recently existed, to attend any public, private, parochial, church or Sunday school until the requirements of these rules shall have been complied with.

The above sections of the State Sanitary Code are submitted so that patrons may fully understand why children who do not have chicken pox, but who come from homes where the disease exists, are excluded until all danger is past. The School Board has instructed the Superintendent to enforce these regulations.

### ARBOR DAY AND WASHINGTON'S BIRTHDAY

Last Friday, Feb. 28, the Union or Dorn School Community celebrated the day as Arbor Day and Washington's Birthday. This school is being conducted this year by Miss Omiera Terry as principal and Mrs. R. D. Hart. The patrons give these teachers the highest praise for efficiency, and say it is one of the best conducted and managed schools in the county.

It being Arbor day the whole community turned out with teams and scrapers, and plows and hoes and shovels, and leveled up the yard, and set out trees and grass, thus beautifying and doing a lasting work to stand as a monument to the memory of these good people.

The good ladies of the community served a sumptuous dinner with no war restrictions, and all ate so heartily they could do no work after the room meal. But they were highly entertained during the evening with a splendid program of songs, recitations and impromptu speeches, one of these being by Judge J. C. Hall, the county superintendent.

The pupils all did so well and showed such careful training and advancement that the teachers received many compliments.

This community has one of the best school buildings in the county, being well equipped, and having an abundance of light and ventilation.

Pickens, Geo. Bynum and E. M. McClellan ate so much that they were made sick.

It was said that Judge Hall's speech equalled that of Wilson at the Peace Conference.

All together it was an enjoyable

day well spent, and let us hope it will be an incentive to other school communities to get together and improve their grounds, and make the school houses and play grounds as attractive and comfortable for their children as possible.

### INCOME TAX DUE.

Returns Must be Filed on or Before March 15th.

Work on the collection of \$6,900,000,000 has been begun by the Bureau of Internal Revenue. This is the estimated yield of the new revenue bill. The income tax provisions of the act reach the pocket book of every single person in the United States whose net income for 1918 was \$1,000, or more, and of every married person whose net income was \$2,000 or more. Persons whose net income equalled or exceeded these amounts, according to their marital status must file a return of income with the collector of internal revenue for the district in which they live on or before March 15th.

Here is what will happen to them if the don't: For failure to file a return on time, a fine of not more than \$1,000 and an additional assessment of 25 per cent of the amount of tax due.

For "willfully refusing" to make a return on time, a fine not exceeding \$3,000 or not exceeding one year's imprisonment, or both.

For making a false or fraudulent return, a fine of not more than \$10,000, or imprisonment for not more than one year, or both, together with an additional assessment of 50 per cent of the amount of tax evaded.

For failure to pay the tax on time, a fine of not more than \$1,000 and an additional assessment of 5 per cent of the amount of tax unpaid, plus 1 per cent interest for each full month during which it remained unpaid.

In addition to the \$1,000 and \$2,000 personal exemptions, taxpayers are allowed an exemption of \$200 for each dependent upon them for chief support if such person is under eighteen years of age and incapable of self-support. Under the 1917 act this exemption was allowed only for each dependent child. The head of a family, one who supports one or more persons closely connected with him by blood relationship, relationship by marriage, or by adoption, is entitled to all exemptions allowed a married person.

The normal rate of tax under the new act is 6 per cent of the first \$4,000 of net income above the exemptions, and 12 per cent of the net income in excess of \$4,000. Incomes in excess of \$5,000 are subject also to a surtax ranging from 1 per cent of the amount of the net income between \$5,000 and \$6,000 to 65 per cent of the net income above \$1,000,000. Payment of the tax may be made in full at the time of filing return or in four installments, on or before March 15, on or before June 15, on or before September 15, and on or before December 15.

Revenue officers will visit every county in the United States to aid taxpayers in making out their returns. The date of their arrival and the location of their offices may be ascertained by inquiring at offices of collectors of internal revenue, postoffices and banks. Failure to see these officers, however, does not relieve the taxpayer of his obligation to file his return and pay his tax within the time specified by law. In this case taxpayers must seek the Government not the Government the taxpayer.

News has just reached us of the marriage of Miss Frances Sanderson and Mr. Lloyd Winston at Tyler, Feb. 23. They are now at home in Cisco. Mrs. Winston spent two years here with her aunt, Mrs. Bob Gary, and has many friends who wish her a long life of happiness.

### PASSENGER ON FIRST TRAIN INTO FT. WORTH.

Grandma Cooksey, Now 88, Returns to Visit "Village" of Ft. Worth.

Tuesday's issue of the Star Telegram carried a splendid picture of Grandma Cooksey and a column write up of this splendid old lady, who is now 88 years old, and who was a passenger on the first train that ran into Fort Worth.

The Star-Telegram says: A country village; a few scattered stores and farm and ranch houses; plenty of cowboys and everything that is typical of life in the wild west.

A bustling, busy city; population of 135,000; tall buildings, automobiles, street cars; plenty of aggressive business corners and all that is typical of a real metropolis.

Such are the extremes that Mrs. Katherine (Grandma) Cooksey, 88, has experienced right here in Fort Worth.

When the first steam engine toiled across the plains to Fort Worth, many many years ago, it brought "Grandma" Cooksey. She stayed here a brief period and left.

She returned last week. And if you don't think Fort Worth has grown just ask her.

Mrs. Cooksey is from Colorado City. She is the mother of Mrs. H. M. Hall of 424 Broadway.

She declared that it had been so long since she had been in Fort Worth she couldn't remember very much how the "city" looked at that time; but in truth there wasn't much to remember.

The trip to Fort Worth was Mrs. Cooksey's first trip on a train but not her first trip across the country. She made a much longer trip on a previous occasion, and by ox cart too.

Born in Illinois, she was taken to Alabama by her parents when she was only one year old. When a girl, accompanied by her people, she began the long, tedious journey across the states into Texas.

"We crossed the Mississippi River in an old-fashioned ferry boat," said Mrs. Cooksey. "And I had heard the Mississippi didn't have a bottom, and I sure thought about that when I was going over."

Upon her arrival in Texas she went to Cherokee County. She was living there during the Civil War when her husband fought the four years as a Southern soldier. She later moved to Hill county.

As the wife of one who wore the gray, Mrs. Cooksey "fought" too. "Women nowadays," said Mrs. Cooksey, "don't know what war is. Why, during the Civil War the women had to raise the cotton, spin the thread, all with our own hands, and make soldiers uniforms. The wagons would make regular calls for the clothing, and we would have to have it ready, too."

"When we would make our Sunday clothes we would dye them with bark from the trees. And my! what a pretty shade we could get out of walnut leaves! It was just the thing for Sunday go to meeting jeans." But Mrs. Cooksey didn't use the

old-fashioned method of making clothes any longer than she had to. She says she bought the first sewing machine that came to Hill county. She paid \$90 for it. She also got a couple of yards of the first "store bought" calico that came to Hill county, paying \$20 a yard for it. She made her "Sunday dress" with it.

Mrs. Cooksey likes to talk about the Civil War and the part the women played in it.

She told of an amusing incident when thirteen Southern women raided a storeroom guarded by a 'Yankee' in order that they could get some sugar. "You ought to have seen that Yank run," laughed Mrs. Cooksey, "when he saw those women coming. And I was the captain of that company!" she added proudly. "His name was Smith. We tied him and helped ourselves to the sugar—it was the first we had had in weeks. We just took our time for the Yankee was over on the ground—hog-tied."

"Grandma" Cooksey, as she is widely known at Colorado City, says she is going "to stay young" and that she is not going to make any more carpets or spin any more thread to make her shoulders droop. She has given up this for knitting, which she did during the war.

She is healthy and hardy for a woman of her age, and really doesn't look as if she is much past the allotted three score and ten. And she acts much younger.

### WILL SOON RETURN.

J. R. Hastings received this week a nice letter from the commanding officer of the company in which his son, Monte, has been serving, a machine gun battalion. The letter says, in part:

"In a few days your soldier will receive his honorable discharge and start for home."

"He is bringing back many fine qualities of body and mind which he has acquired or developed in the military service. The Army has done everything it could to make him strong, fine, self-reliant yet self-controlled. It returns him to you a better man."

His return to civil life will bring new problems for you both to solve. The qualities he brings back will help you now as your encouragement helped him while he was away, and in your hands and his, rests the future of our country.

As his commanding officer, I am proud of him. He has done his duty well. I, and his comrades, will bid him goodbye with deep regret, and wish him every success after he returns home—that spot in every man's heart no other place can fill.

Sincerely yours  
 H. S. PURNELL,  
 Lieut. Col. Medical Corps.

DON'T GET "SKEERED."

The high winds and sand storms of the last two or three weeks have had their effect on the people of West Texas, as they always do. There is beginning to creep into the thoughts and conversations of the farmers, that they might not have a planting season after all. We ask the people to remember that February and March are always the windy and dry months, and that the rains that do the most good come before and after this period. We have had the former, and a splendid season was and is in the ground. And we will trust to providence for the spring rains in April and May. While it is true the high winds and sand storms are drying out the soil rapidly, it is principally on top, and there is plenty of moisture underneath. It may be that in some sections there is not enough near the surface to bring up the crops, without more rain, but we feel sure that we will get it in plenty of time to plant. A light rain at planting time, and a few showers to keep "her growing" is all that this country needs, and there is plenty of time before planting to get the surface season required. The old expression of "lets wait and see if it rains" is coming back into general use. Let us go ahead, prepare the land, get everything ready to plant, and the rain will be here on t'm all right. Do not loaf around waiting for the rain, and then get ready after it comes, but be in shape to take advantage of it at planting time if it does come. We are bound to make a crop this year—we just have to. There is no ifs and ands about it, and let's all keep a "stiff upper lip," do our part, and the good Lord will do His. We have suffered for three years, and while it is possible that there may be another year of it, it is hardly probable. We feel it in our bones that Mitchell is going to make a crop and a big one, and let us look forward to this end.

DEATH OF JAMES DOW.

James Dow died at Seminole, February 25, 1919. Mr. Dow was the father of Mrs. C. W. Simpson of our city, and formerly lived here. His son, James L. Dow, editor of the Lubbock Avalanche, writing of his father's death, says: "Our father has been an active worker in the Methodist church from the time we could remember, and nobody could convince us that he has not lived the life that he professed. He loved his church and christian people of every denomination, and his home was a favorite lodging place for the ministers, who traveled over the sparsely settled country, of which he was a resident, having occupied the position of a frontiersman most ever since coming to this country. He was conscious that he must soon go, up to the last time we saw him, and was anxiously waiting the call to his reward. We will all miss him, but we would not call him back if within our power, for we believe that he has fulfilled the mission of his life, and his passing is merely going from this world of troubles and cares to one of everlasting peace, joy and happiness.

We had intended all the while to write something this week about the weather, but when we got down to it we find the English language short of words to fully describe it. Since last issue we have had seventeen kinds of weather, including good, bad and indifferent, but most of it was in the superlative degree. Last Wednesday was ideal, warm and sun shining brightly, with the gentle zephyrs fanning the ozone laden with perfume from the prairie flowers; and the feathered songsters were pouring forth the round-de-lays of spring, causing one to have that feeling which would lure him to the banks of the Concho to dream of four pound trout. The day was so perfect as to cause the Abilene Reporter to say: "The beautiful west Texas days that always follow our sand storms make us forget the dirt and dust that we eat while the things are blowing. After all, West Texas has about as good a climate as any place on the face of the earth. All the coons are not up one tree of course, but that is true no matter where you go."

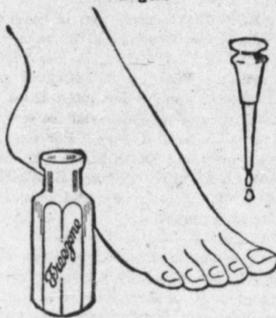

Harry Landers, in writing to his parents from France, sends this bit of verse, which he says the boys are all singing to the tune of "Goodbye Broadway." Goodbye trenches, Hello States We're coming back to stay. Goodbye whiz-bangs, Huns and cooties We don't like your way. Bully beef, we're full of you, We want no more hard-tack. So goodbye trenches, hello States Your soldier boys are coming back.

"SAVE A MILLION."

In the event the legislature passes a bill introduced by Senator Edward Westbrook of Hunt County, for a central board of control, the state would save \$1,000,000 annually, is the opinion of the author of the measure. The bill proposes to abolish all local boards of the various educational and eleemosynary institutions and place their duties in the central board. It also abolishes the state purchasing agent's department, the department of public buildings and grounds, and the office of state inspector of masonry. The central board will purchase all supplies for the state government.

The Record is published this week under the most trying circumstances and adverse conditions. We have no printer, and can get none at any price. We are working at night to try to keep up, and the result is the paper is only an excuse. The delinquent tax list and other ads force us to 12 pages this week, and it might look to an outsider that it is a paying proposition, but such is not the case. The high cost of all material in the printing business has simply put the newspaper business in the loosing class, and we will have to do just the best we can until prosperity comes. We are now running entirely on hopes—"Hope springs eternal in the human breast." "The wretch condemned with life to part, still on hope relies; and every pang that rends the heart, bids expectation rise." We had hoped to get about a million dollars oil money, or that Mitchell county would get up an oil boom, and would pull us out of the hole;

but all seems vanity and vexation of spirit. Yet, we "still on hope rely," and in the meantime will do the best we can, and give our readers as good a paper as circumstances will permit.

If all the oil companies which are being organized will drill, Texas will have over 2000 oil wells before the year ends.

Press dispatches bear the information that Joseph W. Bailey—our own Dear Joe—has been retained by the "hotel owners and operators" to fight the validity of the national prohibition amendment recently adopted. Joe got lots of oil money on him in the days of H. Clay Pierce's trouble, and now he is getting his share of booze money. And this is the same man who "stumped" the state of Texas for state wide prohibition in 1887.

Men care less for honor when most in want of bread.

All smoking tobaccos use some flavoring. The Encyclopaedia Britannica says about the manufacture of smoking tobacco, "... on the Continent and in America certain 'sauces' are employed ... the use of the 'sauces' is to improve the flavour and burning qualities of the leaves."

Tuxedo uses chocolate—the purest, most wholesome and delicious of all flavorings! Everybody likes chocolate—we all know that chocolate added to anything as a flavoring always makes that thing still more enjoyable. That is why a dash of chocolate, added to the most carefully selected and properly aged burley tobacco, makes Tuxedo more enjoyable—

**HOME WEDDING.**

Miss Claudia Smith and Mr. Joseph Pollack of Oklahoma City, were married Saturday evening at the residence of the bride's mother, Mrs. J. W. Smith.

Rev. W. P. Garvin, pastor of the M. E. Church, officiated, the ring ceremony being used.

Only a very few intimate friends and the family were present.

Before the ceremony Miss Eleanor Coleman sang "I Love You," accompanied by Miss Lorena Smith. Miss Smith then played the wedding march and the bride and groom entered from the back parlor and were met by the bride's pastor, who said the words that made them husband and wife.

The bride is the daughter of Mrs. J. W. Smith; was born and reared here and is known and loved by a large circle of friends.

The groom is a prominent business man of Oklahoma City, being the manager of the Pollack Trunk Co., at that and other places.

The bride wore a dark blue taffeta dress with black lace hat and black oxforbs, and carried an arm bouquet of American Beauty roses.

Immediately after the ceremony the happy couple left on the east bound train for Dallas, Oklahoma City, Kansas City and California, to spend their honeymoon.

The Record joins their many friends in wishing them a long life of happiness and prosperity.

Mrs. Mary Daniels has returned home, but is yet very feeble and not doing very well.

Mrs. Lee Jones is reported doing nicely but is yet in the sanitarium at Dallas.

Mrs. F. B. Whipkey is now in Waco and will be home next week.

**TELLS OFF ON RANGER.**

**Now Richest Oil Field Paid Preacher \$2.50 for Holding Meeting**

In an early day one of the churches at Ranger, now one of the richest oil fields in the United States, decided to hold a protracted meeting. They sent off about 100 miles for the "pasture" of another church to come and do the preachin'. He went, and put in ten days of hard work, and the following letter will explain the sequel. The Record received the letter this week from that same preacher; he tells about it as follows:

"This was long ago, I was not as old nor as wise in the ministry as I am now. I did some of the hardest work of my life, and at the close of the meeting they took up a dignified collection for the visiting preacher, and got the enormous sum of \$2.50. Now that they have struck oil those old skinflints should make it \$250.00. There was an old farmer there who finally raised it ten beans, which enabled me to get back home. Since that time I have passed through Ranger a number of times, but never had an inclination to stop."

We will gladly arrange delivery to suit your own convenience if you will call today and have us take your measure. You know the splendid style, fit and workmanship we always deliver.—Tom Hughes, Expert Tailoring.

There is a family at the Keathley Rooming House that needs attention. Mr. B. A. Wilson with his family, (wife and four children) moved here from Oklahoma and rented a room here. He secured employment, but was taken sick, and in a few days his wife and children were also sick. Mr. Wilson now has pneumonia and needs attention. Mr. and Mrs. Keathley are at present caring for this family but it is not right that they should bear all the burden. Of course this family has no money, but the man seems honest and willing to work and pay when he is able. What they need now is immediate attention.

**WORK AND STUDY.**

The Work and Study class of the M. E. Missionary Society met with Mrs. Garvin Monday afternoon. The lesson with the scripture bearing on it, in The Path of Labor, was interesting and inspiring. A good number was present.

**HESPERIAN.**

Mrs. W. P. Leslie was hostess for the Hesperian last week. The regular lesson was studied. At the business period plans were made for a tea at the Barcroft Tuesday, to help the Boy Scouts secure their tents. Tea will be poured from 4 to 6. **GIRLS! LEMON JUICE IS SKIN WHITENER**

How to Make a Creamy Beauty Lotion for a Few Cents

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whiter and beautifier. Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. **ECHOES FROM BRO. GARRETT'S OKLAHOMA MEETING.**

A letter from a member of the Baptist church at Gary, Oklahoma, to a Record man, says:

Sure would like to have been with you on your California trip. Our soldier boys from Gary have nearly all returned; most of them looking fine, but a few wounded.

We are having cold, windy weather but plenty of moisture, and wheat is looking good. We live on a farm joining town and have 130 acres in wheat. We are milking Holstein cows and selling cream.

Bro. Garrett is here; began a revival meeting at the Baptist church Tuesday night. He has six conversions already. He is a great evangelist, and is going to do a great work here. He is a good mixer and every one speaks well of him. The crowds are growing daily. We are going to attend every time we can. We have not had him in our home yet, but have invited him, and expect to have him with us for dinner Sunday. Wish you and Aunt Rose could be here that day. He says you folks seem like kin-folks to him. The Baptist pastor here, Bro. Paden, is a fine preacher, and one of the best men I have ever met.

Bro. Nichols from El Reno is expected to come over next week and help in the meeting.

Try our 50 cent beds; if we please you, tell others; if not, tell us. Thanks to those who have helped to make our business to date far exceed our expectations.—Keathley Rooming House.

**LETTER FROM EARL BURK.**

From Over There, Jan. 28, 1919. Dearest Mother:—I hope you are all well. I received your sweet and welcome letter last night and was sure glad to hear from you.

I landed over here four months ago today. In all of my travels over this

country and some that don't take my eye at all. I will tell you more about it when I come home, as you know how hard it is to write about what you have seen.

I got the box you sent me and was proud to get it for we sure had a time about ten of my friends and I enjoyed it to the utmost.

We had a big snow here the other day and it's still on the ground. It gets pretty cold here, especially at night.

Did you get the handkerchiefs I sent you? They were souvenirs of this country.

We are now running a bath house for the patients of the hospital. I like my work fine.

Let me hear from you soon. With much love, I am your soldier son, EARL N. BURK.

**A Coated Tongue? What it Means**

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order. PROF. HENRY METER says: "The liver is an organ secondary in importance only to the heart."

We can manufacture poisons within our own bodies which are as deadly as a snake's venom. The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation. A blockade in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take a pleasant laxative. Such a one is made of May-apple, leaves of aloe, jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

STOCKTON, CALIF.—"For constipation, sick headache, an inactive liver, indigestion and biliousness there is nothing to equal Dr. Pierce's Pleasant Pellets. I have tried other things but like the 'Pellets' best of any."—Mrs. F. Campbell, 203 S. Grant Street.

**Be It Resolved by the Legislature of the State of Texas:**

Section 1—That Article 16 of the Constitution of the State of Texas be amended by striking out and repealing Section 20 thereof and substituting in lieu of said Section 20 the following:

Sec. 20—(a)—The manufacture, sale, barter and exchange in the State of Texas, of spirituous, vinous or malt liquors or medicated bitters capable of producing intoxication, or any other intoxicant whatever except for medicinal, mechanical, scientific or sacramental purposes, are each and all hereby prohibited.

The Legislature shall enact laws to enforce this section.

(b)—Until the Legislature shall prescribe other or different regulations on the subject, the sale of spirituous, vinous or malt liquors, or medicated bitters, capable of producing intoxication, or any other intoxicant whatever, for medicinal purposes shall be made only in cases of actual sickness, and then only upon the prescription of a regular practicing physician, subject to the regulations applicable to sales under prescriptions in prohibited territory by virtue of Article 598, Chapter 7, Title 11, of the Penal Code of the State of Texas.

And the district courts and the judges thereof, under their equity powers, shall have the authority to issue, upon suit of the Attorney General, injunctions against infractions or threatened infractions of any part of this constitutional provision.

(d)—Without affecting the provisions herein, intoxicating liquors are declared to be subject to the general police power of the State; and the Legislature shall have the power to pass any additional prohibitory laws, or laws in aid thereof, which it may deem advisable.

(e)—Liability for violating any liquor laws in force at the time of the adoption of this amendment shall not be affected by this amendment, and all remedies, civil and criminal, for such violations shall be preserved.

## FOUNDED HALF A CENTURY AGO

National Prohibition Party Organized in Chicago by 500 Delegates.

### EARLY STANDARD BEARERS

Eighteenth Amendment Has Never Been Favored by Leaders Because of Odds of 10 to 1 Against Its Passage.

James Black.

The National Prohibition party is just fifty years old, its semi-centennial falling on September 1, 1919. It was born in Farwell hall, Chicago. The convention numbered about 500 persons from 19 states.

The formation of the party was probably first discussed in public at a Pennsylvania state temperance convention in 1867. Temperance leaders had failed to get much consideration from the Republican and Democratic parties and were feeling the need of independent action. The Good Templars, an order of total abstainers organized in 1851 at Utica, N. Y., were also working to this end.

The call for the Chicago convention originated May 29, 1869, in the grand lodge of the Good Templars at Oswego, N. Y., which appointed a committee to convene a national gathering to organize a political party favorable to prohibition legislation. This committee consisted of John Russell, Detroit, Mich.; Daniel Wilkins, Bloomington, Ill.; J. A. Spencer, Cleveland, O.; John N. Stearns, New York, and James Black, Lancaster Pa. At this convention the party was organized, a platform was adopted and a national committee was appointed, with John Russell chairman.

The first national nominating convention assembled in Columbus, O., on Washington's birthday, 1872. It named James Black for president and John Russell for vice president. Black was one of the founders of the National Temperance Society and Publication house, an organizer of the famous Ocean Grove (N. J.) Camp Meeting association and a prominent Good Templar. Upon his death in 1893 he left his "temperance library" of 1,200 volumes to the National Temperance society. Russell, the "Father of the Prohibition party," was a Methodist minister and a leading Good Templar. His newspaper, the Pentecostal Herald, was the first to advocate the formation of a separate political party for prohibition.

Notwithstanding the worthiness of the cause and the candidates, the public support at the election of 1872 was not enthusiastic. The total of the votes received by Black and Russell was but 5,607.

In 1876 Green Clay Smith of Kentucky and Gideon T. Stewart of Ohio were the candidates. They polled 9,737 votes. In 1880 Neal Dow of Maine, with H. A. Thompson of Ohio as running mate, appealed to the country. General Dow was widely known as the author of the Maine prohibition law, but he succeeded in getting only 10,366 votes.

**Candidates and Their Vote.**

The Prohibition convention of 1896 split the party over woman suffrage and money. The "free silver" minority formed a Liberal party, with Bentley of Nebraska and Southgate of Illinois as its standard-bearers. They polled about 13,000 votes.

The feature of the Prohibition campaign of 1900 was a tour of the country by the candidates and a corps of speakers by special train. In 1912 the Prohibition convention renominated the candidates of 1908. The candidates since 1884 and their vote are as follows:

1888, Clinton B. Fisk, New Jersey, and J. A. Brooks, Missouri, 249,945 votes.

1892, John Bidwell, California, and J. B. Cranfill, Texas, 270,710 votes.

1896, Joshua Levering, Maryland, and Hale Johnson, Illinois, 130,753 votes.

1900, John G. Woolley, Illinois, and H. B. Metcalf, Rhode Island, 209,460 votes.

1904, S. C. Swallow, Pennsylvania, and George B. Carroll, Texas, 259,205 votes.

1908, Eugene W. Chaffin, Illinois, and Aaron S. Watkins, Ohio, 253,231 votes.

1912, Eugene W. Chaffin, Arizona, and Aaron S. Watkins, Ohio, 208,923 votes.

1916, J. Frank Hanley, Indiana, and Dr. Ira Landrith, Tennessee, 214,340 votes.

The National Prohibition party, curiously enough, has been rather opposed to prohibition by constitutional amendment. In the last Year book (1916) we read:

"Although the Prohibition party may be said to be committed by platform declaration to the adoption of a national prohibition amendment, when placed in power, the program of the party has never contemplated agitation for a nonpartisan amendment to be enforced by administrations not favorable to prohibition. . . . The general opinion seems to favor admitting the desirability of the amendment as the end to be accomplished, at the same time emphasizing its impracticability as a method, and denying its necessity as a condition precedent to securing national prohibition. . . . The odds are so overwhelmingly against the ratification of an amendment that they cannot possibly be overcome through any reasonable expenditure of time, money and effort so long as the liquor traffic exists to fight for its life."

The National Prohibition party is certainly right about the apparent odds against the adoption by congress of a constitutional amendment and its ratification by the states. There have been 1,757 amendments to the Constitution proposed and 18 of them have been passed. Herein lies the marvel of the ratification of the eighteenth amendment in about thirteen months.

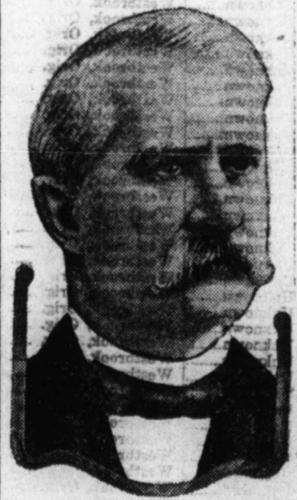

It has been figured that the chances against the passing of an amendment are 10 to 1. The case is put thus:

The chances against ratification are 2 to 1 in the house of representatives, and 2 to 1 in the senate, and therefore 4 to 1 in congress. That is: Should the measure pass either house by unanimous vote, the one-third opposition in the other house would block it in congress as a whole; in other words, the resolution must be supported on the two chances in each house, while if the opposition scores on its one chance in either house, the measure fails. The chances in the state legislatures are 6 to 1 against the resolution; hence, in the congress and the legislatures combined the chances are 10 to 1 against passage. In other words, the measure might pass both houses of congress unanimously, and be defeated as a whole by the one chance in the states. It might pass either house of congress and all of the legislatures unanimously, and be defeated by the one chance in the other house of congress.

#### St. John Makes a Stir.

John P. St. John was the first Prohibition party candidate to make a real stir in the political world. What he did in the campaign of 1884 was long remembered. St. John was born in Indiana and in the Civil war was lieutenant-colonel of the One Hundred and Forty-third regiment, Illinois volunteers. He was twice elected governor of Kansas on the Republican ticket and was defeated for re-election to this office in 1882 by anti-prohibition Republicans, who thought him too warm a friend of the temperance cause.

Frances E. Willard and a delegation of women presented an enormous petition to the Republican national convention, urging consideration for the prohibition forces. The story of that time was that the petition was not only laid on the table but thrown

John P. St. John.

on the floor, where it was found the next day, much the worse for wear.

Anyway, Miss Willard took her grievance to the Prohibition party. The Prohibition party offered the nomination for president to St. John, with William Daniel of Maryland for vice president. St. John accepted the nomination. He was an effective speaker and campaigner and he went out after blood—and especially Republican blood. He carried the war into New York, considered a "doubtful" state in the exciting struggle of that campaign between James G. Blaine and Grover Cleveland.

St. John jumped the Prohibition vote from 10,366 votes to 150,626 votes. What is more, he polled enough votes in New York to defeat the "Plumed Knight" in that state and, as it turned out, in the nation. The feeling of the time is indicated by the fact that St. John was burned in effigy in more than 100 cities.

#### PROPOSED AMENDMENT TO THE STATE CONSTITUTION, GIVING THE LEGISLATURE POWER TO GIVE OR LEND, OR AUTHORIZE THE GIVING OR LENDING, OF THE CREDIT OF THE STATE FOR THE PURPOSE OF ASSISTING CITIZENS, HEADS OF FAMILIES, TO ACQUIRE OR IMPROVE THEIR HOMES.

##### House Joint Resolution No. 19.

To amend Section 50, Article 3, of the Constitution of the State of Texas, to provide that the Legislature shall have power to give or lend, or authorize the giving or lending, of the credit of the State for the purpose of assisting citizens, who are heads of families, to acquire or improve their homes; authorizing the State to acquire, improve, sell or lease real estate or assist such citizens to acquire or improve their homes upon terms and conditions prescribed by the Legislature; authorizing the Legislature to create such agencies as may be necessary to carry out the purposes of this section; providing that obligations created under this section shall never be taxed; and providing that the Legislature shall have authority to provide a method of securing any deferred payments for lands purchased hereunder, and that such obligations shall be secured in addition to the usual liens by an annual assessment collected as a tax against the land; and providing that the Legislature shall have no power to relieve any person from any obligation entered into under this provision or any statute enacted thereunder; and providing for the classification of lands acquired under this Act, and limiting acreage sold to any one person where lands are classed as agricultural.

#### Be It Resolved by the Legislature of the State of Texas:

Section 1—That Section 50, of Article 3, of the Constitution of the State of Texas, be so amended that the same will read and hereafter be as follows:

Sec. 50—The Legislature shall have power to give or to lend, or to authorize the giving or lending, of the credit of the State in aid of or to any person, association, or corporation, whether municipal or other, or to pledge the credit of the State in any manner whatsoever, for the payment of the liabilities, present or prospective, of any individual, association of individuals, municipal or other corporation, whatsoever, except that the Legislature shall have the power to give or to lend, or to authorize the giving or lending, of the credit of the State for the purpose of assisting native born or naturalized citizens who are heads of families and who will become in good faith actual occupants, to acquire or improve their homes; and for this purpose the State is authorized to acquire, improve, sell or lease real estate or assist such citizens to acquire or improve their homes upon such terms and conditions and in such manner and subject to such limitations as the Legislature may from time to time prescribe. Provided that no land shall be acquired by the State under the terms of this amendment to the Constitution until the said lands are examined, and the value of said lands is appraised and ascertained as to its actual value for agricultural purposes, by a commission hereby authorized, composed of the Governor, Attorney General, Land Commissioner, Comptroller of Public Accounts and the State Treasurer; and their report shall be available to all prospective land purchasers. The Legislature shall have authority to create by law such agencies as may be deemed necessary to effect the purposes of the Act. Obligations created under this section shall never be taxed, and the Legislature shall have authority to provide a method of securing deferred payments for lands purchased hereunder, and in addition to the usual liens may secure the same by an annual assessment collected as a tax against the land; provided, however, the Legislature shall have no power to relieve any person from any obligation entered into with the State under this provision or any statute enacted hereunder. The terms of this Act shall not apply or be extended to any person who is

not a bona fide resident citizen of the State of Texas and who has not been such citizen at least two years prior to the extension of such aid, nor shall the terms of this Act ever be applied to any lands outside of the State of Texas. Provided further that all land acquired by the State under the provisions of this section for which the State may lend its credit shall be classified as agricultural lands or otherwise, and if classified as agricultural lands, then no more than 200 acres shall be sold to any one person under the provisions hereof.

Sec. 2—The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State of Texas at an election to be held throughout the State on the 24th day of May, A. D. 1919, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words: "For the amendment to Section 50, Article 3, of the Constitution of the State of Texas, providing that the Legislature shall have power to give or lend or authorize the giving or lending of the credit of the State for the purpose of assisting citizens who are heads of families to acquire or improve their homes," and all those opposed shall write or have printed on their ballots the words: "Against the amendment to Section 50, Article 3, of the Constitution of the State of Texas, providing that the Legislature shall have power to give or lend or authorize the giving or lending of the credit of the State for the purpose of assisting citizens who are heads of families to acquire or improve their homes."

Section 3—The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and existing laws of the State.

Sec. 4—That the sum of \$5000.00, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated, to pay the expenses of such publication and election.

Mr. A. L. Whirley, a new comer, moved out here, leaving his family back east, telling them he would write for them to come as soon as he got settled. Immediately after that big Wednesday sand storm he wrote: "You can come on now, I'm settled." Dr. Lee, another new comer says he has not yet been in a sand storm but spent about three hours trying to get his car out of where one had "lit."

## GIRLS! DRAW A MOIST CLOTH THROUGH HAIR DOUBLE ITS BEAUTY.

Try This! Hair Gets Thick, Glossy, Wavy and Beautiful at Once.

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few week's use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it surely get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents. Adv.

## DO YOUR EYES TIRE EASILY?

How long have you been wearing those glasses?

Eyes change with time, and glasses should be made to new prescriptions that the changes in the eyes may be accommodated.

Or maybe your trouble comes from lighting conditions. In that case properly fitted lenses will shield them from the harmful rays. Anyhow, if your eyes bother, you will be well repaid for attending to them.

# Liberty Bonds Do Not Sell or Trade Them

THE importance of holding Liberty Loan Bonds is as great now as it has ever been during any period of the Government's financing. The War is over, but its costs and the expenses of demobilization must be reckoned with as well as other demands for current and extraordinary expenses. To provide therefor the spirit of savings and thrift must be maintained.

If solicitation by advertisement or otherwise for the exchange of bonds for merchandise or other securities is permitted to continue, the foundations of actual thrift and economic savings, which have been created will be destroyed. Those who solicit the exchange or sale of bonds must appreciate that they are only shifting responsibilities and that eventually, if those responsibilities are centered in one section, it will mean that the other section will have to make up by the payment of heavy taxes what they have heretofore loaned.

In instances where it is absolutely necessary to realize on your Government bonds, any banker will be pleased to sell your bonds at the market price and pay to the owner the proceeds.

Do not sell your bonds unless it is absolutely necessary, and if you must sell, dispose of them through a bank or a reputable broker.

### Masquerade Party.

At the home of Mr. and Mrs. Thornton, Miss Luella Johnigan asked the young folks of Loraine to come masked and prepared for a good time.

There was quite a variety of dress make ups. Some were dressed as soldiers, others as navy boys, and of course the Red Cross was not left out. Miss Orene West and Miss Thelda Black were well dressed to represent the cause. Worth Bruce made a very fine model of Uncle Sam. Alphonso made a fine species of the wild west, accompanied by Miss Hutchins as cow girl. John Coffee with his dress and bonnet made a fine model of the gentle sex. Miss Pearl Templeton was dressed as Little Red Riding Hood. Miss Jewell Pierce was so dressed as to represent the ladies of Japan. Miss Katielee Clements as Martha Washington, and Otho Thompson as Chief Lone Wolf, won the prizes as being the best dressed to represent the character which they had chosen. Many others were well represented, which are too numerous to mention.

Various games which had been planned out, were enjoyed by all. Refreshments which consisted of chocolate and cakes, were served. At a late hour all departed, expressing themselves as having a great time.

### Hurd-Lerch.

Mrs. W. M. Hurd received a telegram from her son, Cecil, stating that he was married. His wife, Miss Cecilia Lerch, formerly of Ohio, came to El Paso, and they were married at the home of the bride's aunt in El Paso. Mr. Hurd lived in Loraine until he enlisted in the army, eighteen months ago. They expect to make their home in El Paso. We hope for them a very long and happy life. May their joys never be lessened by misfortune. Mr. Hurd is a graduate of the Loraine high school and is loved and admired by all of his many friends.

Corporal Chester Beights of Camp Travis spent the week with his father and mother. He does not know when he will be discharged from the army, as he is on the M. P. force.

On February 22, the Senate voted to allow all discharged soldiers to retain their uniforms, also allowing them five cents per mile from place of discharge. The House is expected to pass on it soon.

### No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

A late law has been passed by Congress giving all discharged soldiers a bonus of \$60.00. Application must be made to Zone of Finance, Lemon Building, Washington, D. C.

Mr. W. H. Hurd is visiting his wife and daughter this week.

### Necessity the Mother of Invention.

When necessity demands, the results follow. When the Germans hurled the deadly gas through the allied lines, necessity demanded an invention. The gas mask was the result. They were so perfected that gas became almost harmless. The gas balloon was never of any service so long as it was inflated with highly inflammable gas. Helium, which is practically non-inflammable, could never be secured to any extent until American demands led way to discovery. And so it is, when necessity demands, the results are obtained.

A pain in the side or back that catches you when you straighten up calls for a rubbing application of BALLARD'S SNOW LINIMENT. It relaxes the contracted muscles and permits ordinary bodily motion without suffering or inconvenience. Sold by all druggists. Adv

### Farewell Supper.

On last Wednesday evening Mr. and Mrs. C. H. Thomas prepared a rice supper as a token of appreciation for Miss Garland, while she was with us. Those present were Miss Garland, Mrs. Haney and children, the Misses Mann, Miss Bodine and Wyse Cooper. The evening was spent in pleasant conversation. Mr. and Mrs. Thomas expressed a deep regret in losing Miss Garland from our city, as well as does the entire citizenship.

### Forgot What He Needed.

From the Republican, Mt. Gillad, Ohio: The editor had an interesting experience some time ago, when a young gentleman came to this office and asked for a copy of the Morrow County Republican. He scrutinized it carefully when a copy was handed him, and then said: "Now I know!" "What is it you are looking for," we inquired. "My wife sent me after a bottle of Chamberlain's Cough Remedy, and I forgot the name. I went to several stores and the clerks named over everything in the line on the shelf except 'Chamberlain's.' I'll try again, and I'll never go home without Chamberlain's Cough Remedy." The Republican would suggest to the proprietors of stores, that they post their clerks, and never let them substitute. Customers lose faith in stores where substituting is permitted, to say nothing of the injustice to makers of good goods and the disappointment of customers.

### The Strong Withstand the Winter Cold Better Than the Weak

You must have Health, Strength and Endurance to fight Colds, Grip and Influenza. When your blood is not in a healthy condition and does not circulate properly, your system is unable to withstand the Winter cold.

### GROVE'S TASTELESS CHILL TONIC

Fortifies the System Against Colds, Grip and Influenza by Purifying and Enriching the Blood. It contains the well-known tonic properties of Quinine and Iron in a form acceptable to the most delicate stomach, and is pleasant to take. You can soon feel its Strengthening, Invigorating Effect. 60c.

The Government has asked all income tax to be paid by the 15th of March, but we feel like no more than 99 per cent of the people of West Texas will have this to bother about.

### Coming Back.

When Saturday afternoon comes nowa days, it seems like "old times" in Mitchell county. Many of our former citizens, as well as many new ones have come back to this part of the country on the prospects we now have. It is said in the good book "have faith and ye shall receive." There are no people anywhere who have more hopes or more faith in this country than those of us here. As you now pass along the highways and cross country roads, you will see almost every house occupied and the farmers in the field at work. This gives us good hopes again, with the season we now have and spring knocking at the door, it is altogether proper and fitting to believe that this fall our highways will again be crowded with wagons carrying products of the soil. The outlook at least is very promising.

Are you taking the Colorado Record? If not we want your subscription. This is the only paper in the county and it contains the news of all the county. Leave your subscription at the Loraine Mercantile Co. \$1.50 for 12 months.
