Cleopatra

Facts Concerning the Production of this Superpicture

It was photographed in California. It represents the co-ordinated playing of 30,000 people.

It took months to make and represents the expenditure of huge sums for the erection of Egyptian and Roman cities. It portrays the world's first naval battle—the battle of Actium

and the first great naval conflict ever filmed.

Eighty vessels were especially constructed for the naval bat-

tie scenes, and later burned to the water's edge. Miss Bara wears fifty distinctively different costumes. Before

and during the production ten seamstresses were constantly at work on Miss Bara's costumes. To match each costume the Siren of the Nile wears a complete

set of jewels—fifty dazzling sets of baubles.

2000 people who do not appear on the screen were active in the work of production-carpenters, masons, painters, hostlers, ship builders, and the like.

2000 horses were in the battle and desert scenes. 100,000 lunches were consumed by the armies of Rome and of

When we think that not a teacher has had any special training along

these lines, and that the pupils literally did the work by themselves, it makes their mothers indeed proud of them, and goes to show what could be accomplished if a trained teacher were provided.

All in all it was well worth the efforts the teachers and pupils put forth and should make the parents prouder of the school.

The pupils realized quite a nice display down town, using one of the little sum from the sale of candy, sandwiches, hot chocolate and little cakes, which they will apply to the

THE BEST BU IN TEXAS

That's What a Sutisfied Stockholder in Beaver Valley Oil and Refining Co. Says

DO YOUR STOCK SHOPPING EARLY

Delay of a day or two may mean that this refinery allotment is all gone. It is possible that you will always regret failing to buy when you had the opportunity. Thousands in Texas are making money out of oil investments. It's your turn now. Perhaps you have been undecided as between offers. We wouldn't ask you to buy on meager information. Ask us for full information, if you wish. We'll reserve a reasonable number of shares for you a few days THE PRICE OF THIS ISSUE IS \$1.25 A SHARE.

WHOOPIN 'ER UP AT CISCO

Our Board of Directors have approved plans for our 2,000-barrel refinery at Cisco. She's a sure 'nough refinery using a new but fully proven method. We are advised that a pipe line will be laid this year from the Ranger field to Cisco, which means that we can get our oil at a minimum cost. Refining is a big business. It pays huge profits. If we produce our own oil in sufficient quantities to keep the refinery busy, the refinery expert tells us that we can net about two million dollars a year. Figure it out for yourself what the profits ought to be to stockholders in a \$600,000 company.

A Texas Corporation. Capital \$600,000. All Common Stock and Non-assessable.

WHY ARE WE SELLING STOCK?

That's a perfectly natural question for you to ask. Why does the Cosden Company, the Sinclair Company, and enen the great Texas & Pacific Oil C. sell stock after it's a great producing company? Every big company wants each of its departments to take care of itself. There's nothing unusual about a big company selling stock. We have practically proven acreage in several counties. We also have production. Our directors have planned a great drilling campaign for this year. They want the oil producing department to take care of the drilling. Therefore they have offered a limited amount of the capital stock to build the refinery. It will be entirely separate from the producing department. But every dollar you invest in the company's stock shares in the net returns of every department of the company. Every net dollar that it makes from every source you have an interest in.

ANOTHER BEAVER VALLEY WELL SPRAYS OIL

Our Melvin No. 1, in the town of Ranger, sprayed oil last week before the tools got to the sand. Think of a well spraying oil while yet drilling in the lime! We have set the 6-inch casing and probably by the time you are reading this the well will have been drilled into the sand. We are not making any wild guesses on this well. You know what many wells are making at Ranger. This may be as good as the best of them. It surely is an oil producer. Look at your map. Find the 25-acre Hindman tract, a few miles northwest of Ranger. That's ours. Oil flowed over the derrick of a Texas & Pacific well that adjoins this tract. Just east of it is the big Whitson well. You can't tell. That tract might make us a million dollars in a year. We're going to drill on it right away. If you want Beaver Valley stock, we'd advise buying before that well starts, for, remember, it is an offset to the Texas & Pacific well.

Before Finding Relief By Taking Tanlac. "I spent at least two thousand

dollars on medicines and treatments before I finally got relief by taking Tanlac, "said Wiley Vesperman, of 4418 Bowser Avenue, Dallas, Tex. "I suffered with rheumatism in my

left arm and shoulder for seven years," he continued, "and at times I was so badly crippled up that I would just have to give up and go to bed. I also suffered terribly with indigestion, and what little I ate formed so much gas that I would belch up my sour, undigested food and would Weak kidneys allow impurities to become faint from dizziness. I could hardly sleep at night for the misery I was in and in the morning I would get up feeling so awful that I could hardly get around.

"But Tanlac has driven away every bit of the pain and misery, I never suffer from indigestion and can eat anything I want. My condition has improved so wonderfully since I started on Tanlac that I am able now to give all my time to my business, just like I did before that awful rheumatism got its hold on me. My wife is taking Tanlac, too, and she is just as enthusiastic about it as I am."

Tanlac is sold in Colorado by W. L Doss, and in Loraine and West brook by druggists.

Take no Chances! Move Poison From Liver and Bowels at Once.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and yor have a well, playful child again. Children simply will not take the time from play to empty their bowels, and hey become tightly packed, liver gets luggish and stomach disordered.

When cross feverish, restless, see if tongue is coated, then give this deliclous "fruit laxative." Children love it, and it can not cause injury. No difference what af's your little oneif full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. VIOLATIONS OF QUARANTINE

IT IS A MISDEMEANOR to violate the quarantine regulations in any respect, and any person so doing should be arrested, prosecuted and fined. It is not a matter of personal likes and dislikes, but the regulations must be enforced for the public good.

RULE 9-It shall be the duty of all persons infected with any contagious disease, or who, from exposure to contagion from such disease, may be liable to endanger others who may come in contact with them to strictly observe such instructions as may be given them by any health authority of the State, in order to prevent the spread of such contagious disease, and it shall be lawful for such health authorities to command any person thus infected or exposed to infection to remain within designated premises for such length of time as such authority may deem necessary.

PENALTY .-- Any person who shall violate any of the rules and regulations contained in the "Sanitary Code for Texas" * * * shall be deemed guilty of a misdemeanor and upon conviction shall be fined in any sum not less than \$10.00 and not more than \$1000.00. Sec. 10 of Chapter 30 of the General Laws of the First Called Session of the Thirty-First Legislature.

Article 478d, H. B. No. 139 Acts of 27th Legislature, reads as follows: Any physician who shall knowingly conceal any case of contagious disease, or who shall fail to report to the county or city health officer any case of contagious disease which he may have knowledge, shall upon conviction be fined in any sum not less than \$25.00 nor more than \$100.00.

All foods are flavored to make them palatable. All smoking tobaccos are treated with some flavoring for the same reason. But there is a big difference in the Quality and kind of tobacco flavorings. Tuxedo, the finest of properly aged burley tobacco, uses the purest, most wholesome and

delicious of all flavoringschocolate! That is why "Your Nose Knows" Tuxedo from all other tobaccos—by its delicious pure fragance.

Try This Test: Rub a little Tuxedo briskly in the palm of your hand to bring out its full aroma. Then smell it deep-its delicious, pure fragrance will convince you. Try this test with any other tobacco and we will let Tuxedo stand or fall on your judgment.

THERE IS A LIMIT.

One man can't do it all. The Record is still without a printer. > readers some good advice about West Texas, and the recent rains prove that what the Record said is wholesome. It is not often that we gamble, except in occasional flyer in oil of about two six-bits, but we are willing to wager old Speckle that the West produces a fine crop for the year 1919. The facts are, we are "feelin" good about things in general and West Texas in particular, and believe that the farmers are going to have one of their best years. After all it is to the farm that we must look for real prosperity. Oil wells are mighty good side-shows, but side-shows they are, and there is no getting away from that fact. The past year they came near being the whole show in the West, but time tells on the best well and sooner or later it becomes a nonproducer . Not so with the farm. The well cultivated and properly enriched farm grows better with age and from the farm comes the life of the people. We are for oil development first, last and then some, but we would not underestimate the overtopping importance of agriculture .-Abilene Reporter.

The concrete bridge across Lone Wolf on Second street is progressing nicely, but it will be some time yet before it will be opened to traffic. There is a big job of filling in to be done on both sides, which will take some time, after the concrete work is done. The East half of the concrete work is finished, and the forms removed. The west half will be poured next week. While we are not construction experts, it looks to us like a mighty good job. This work was badly needed, and when completed will add greatly not only to the highway but to Colorado, and the county. The Record began the agitation of this improvement two years ago, and we are glad to see the work nearing com-

TOBACCO DEALERS

GET A WARNING.

Tobacco dealers who raise the price on their wares excessively and blame the advance in price on the new revenue tax may face a severe punishment which carries with it a penalty of \$1,000 and a year's imprisonment, or both. District Attorney Odell (Dallas) said that a dealer may charge any price he wishes for cigars but that it is a violation of the federal statute to represent the difference between the old price and the new as th revenue tax which has to be paid unless such is actually the case. It was further pointed out that the actual revenue paid on each purchase is very slight.

There will be abundant time to give the experiment a fair test since the prohibition is by constitutional amendment. To all appearances this mandate by the American people against the use of alcohol is intended to be absolute and final. We have written it into organic law-into magna charta-in the form of the eighteenth amendment to the Constitution of the United States.

The experiment is a tremendous departure from previous tendencies of the American people. We are an individualistic pe ple, with a strong sense of personal liberty. Yet here we have set out to regulate pe onal habit, not by statute, but by constitutional amendment

And the manner of the pasing of this constitutional amendment is quite as remarkable as the amendment itself. Action on the seventeen previous amendments to the Constitution has taken between nine months and fortythree months, an average of about two years. The resolution providing for this eighteenth amendment was passed by congress December 17, 1917, On January 16, 1919, its ratification by the states is accomplished.

What has brought about this ratifieation so quickly? Obviously the National Prohibition party has had practically nothing to do with its accomplishment. The answer evidently is that the war has brought it about.

Prohibition is both an economic question and a moral question. The war set the American people to looking at

JAMES M. BAKER, secretary. The amendment was passed by the senate on August 1, 1917, and passed by the house on December 17 of the same year. It was passed by the senate with the house amendments on December 18. The vote in the senate was 65 to 20 and in the house 282 to 128.

Ratification by the States.

The next step was ratification of this amendment by the states through their legislatures. This called for affirmative action by thirty-six states within seven years. Mississippi was the first state to ratify, both senate and house taking action January 8, 1918. Three other Southern states followed in January-Virginia, Kentucky, South Carolina. Then came North Dakota. Other states followed in the order named, Nebraska being the thirty-sixth and completing the ratification.

Some of our allies got into the war the determination to fight. Doubtless much consideration of prohibition was a part of this slow process. So that when the opportunity came the states of the Union went over the top just about as the American marines and

Following is the full text of the prohibition amendment on which state legislatures are voting:

special war-time prohibition recently enacted by congress goes into effect. That law prevents the manufacture and sale of intoxicants for beverage purposes and remains in force until the demobilization of the nation's war in a hurry because they had to-Bel- armies is completed. Doubtless that gium and France to save their lives, emergency war-time measure will be Great Britain to save its national hon- effective over the several months that or. America took its time-a long time | will elapse after July1 until the con--and gradually worked itself up to stitutional bone dry act, now adopted,

becomes effective. Additional Dry Legislation.

During the year following ratification congress and the several states will be called upon to pass legislation to enforce the amendment and to provide penalties for violations. It is probable a large force of agents under the direction of the commissioner of internal revenue will have to be ap- | ? pointed to enforce the law. Each state will have to provide machinery for the enforcement of the law in addition to the machinery provided by the federal government.

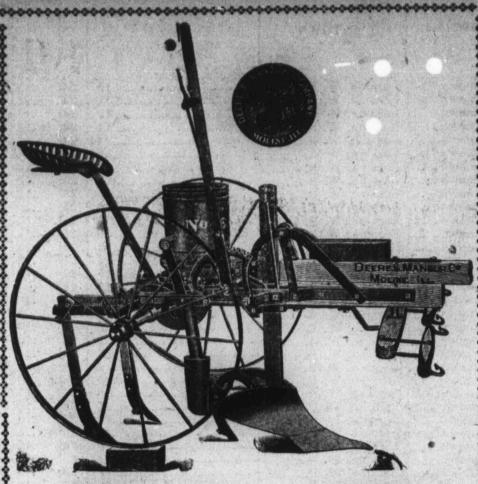

It is likely this additional legislation will be pushed through as fast as the days can push it. In some parts of bled, two-thirds of each house concur- the country at least they purpose to take full advaptage of their victory.

For example, in Illinois a forecast of the Anti-Saloon league is this: In addition to the "search and seizure tion when ratified by the legislatures act" an act rigidly restricting the banof the several states as provided by dling of liquor for medicinal, manufacturing, sacramental and scientific purposes; legislation covering doctors' prescriptions, which must be issued facture, sale or transportation of in- by a bona fide physician in writing, toxicating liquors within, the impor- dated, diagnosing the illness and the tation thereof into, or the exportation purpose of its use; all railroad recthereof from the United States and ords of liquor shipments must be all territory subject to the jurisdiction kept; drastic legislation regulating thereof for beverage purposes is here sale by druggists, with heavy penalty for violation.

The drys presumably will not confine their efforts to enforcing the law. They will doubtless take the question into politics of all kinds and make it an issue. They announce, for instance. didates for mayor to declare themselves on the strict enforcement of dry legislation. They will make it an oppose any aldermanic candidate who does not toe the mark.
