What is Virtue in a wife?

What is Hubby's Chief Fault?

Does he forget to kiss you when he leaves in the morning?
Does he neglect to tell you occasionally that he still loves you?
Does he fail to compliment you on a made-over hat or dress?
Has he reached the point of just taking you for granted—like his breakfast or the monthly bills?

AGRICULTURAL SHOW WILL BE A "GARDEN OF EDEN"

\$10,000 IN PREMIUMS FOR COUNTY AND INDIVIDUAL FARM EXHIBITS

Prospects for an Agricultural Show that will be the best ever held in Texas are most encouraging, according to President Jno. N. Simpson, of the State Fair of Texas, in speaking of the Victory Fair, to be held in Dallas in October.

From all sections of the State space reservations have been made for individual exhibits that will be made in great variety and in superior quality. \$10,000.00 in cash premiums are offered—\$5,000.00 each for County and Individual farm exhibits. Many choice specimens of cotton, grain, fruit, berries, vegetables, etc., will be shown.

The West Texas Chamber of Commerce, the Panhandle-Plains Counties, Rio Grande Counties, and counties in East, North, Central and South Texas, will all make splendid displays of the products of the farm, the orchard, the garden, and the ranch.

The \$500.00 special premiums offered by Dallas Cotton Exchange for best bale of 1919 Texas cotton; and the \$300.00 special premiums offered by Texas Land & Mortgage Company, are proving excellent magnets. The agricultural and horticultural displays at the Victory Fair will form a veritable "Garden of Eden" on Texas soil.

A few weeks ago we had a few words to say about some disgruntled would-be road boosters meeting in Oklahoma and telling lies on the Texas Bankhead highway. We just went to add that this bunk was published by a Texas editor. Wouldn't that jar you? A man supposed to have at least a thimbleful of brains. Of course we recognize it is Oklahoma propaganda to swipe the Bankhead highway from Texas. The poor ginks did not have to manufacture such rot as Texas roads being impassable in summer due to the heat. Any fool knows that to be a lie out of the whole cloth. Only failure to keep roads in repair would interfere with traffic on the Southern route, either in summer or winter, and the preparators could have found evidence of neglect sufficient to make a strong argument instead of using the "bunc" that put his article in the Annanias class. "Only cactus and sandhills are to be seen from Big Spring to Abilene." Well this poor gink must have passed through this section when booze was cheap and plentiful. When such dope is put out you can readily see that Oklahoma has no argument for "the scenic route" of the Bankhead highway, and hence resorts to cheap and untruthful statements to further their cause. They were fairly and honestly beaten at the Mineral Wells meeting, where the "all Texas" route was adopted, but they cannot go by the decision of these committees and pathfinders, but now show their petty spite by jumping on West Texas.

ACTS ON SENSITIVE NERVES

Scientific Explanation as to Why Blow on Jaw is Calculated to Cause "Knockout."

The knockout blow is scientifically explained as follows: When the lower jaw is struck on its point, especially with an uppercut, the bony portion of the ear inside is driven forcibly upward into the glenoid cavity of the skull, above and behind which is situated the delicate labyrinth of the inner ear.

The jawbone strikes hard upon the thin plate of bone that supports these sensitive organs and gives a shock to the semi-circular canals that is instantly transmitted by them to the bulb, producing dizziness, nausea and momentary paralysis.

This explains why a sideways blow on the jaw is more effective as a knockout than one delivered directly upon the point of the jaw. For the shock of a sideways blow is received in one glenoid cavity, that on the side opposite the one on which it is struck, while the shock of a blow in the center is divided between the cavities on the two sides.

PUBLIC SCHOOL FACULTY COMPLETED.

Since the article concerning the schools, published last week, was written, the seventh grade teacher has been elected. Miss Etta Goode will have charge of that grade.

We wish to urge again that as many patrons as possibly can come to the school on opening day, do so. And we hope that you will not be in a great hurry when you come. Come prepared to stay several hours, there are several things that patrons and teachers should understand alike, so that there may be uniformity of action in those things that are for the best interest of the children.

Within the next two weeks there will be a committee working the town to sell season tickets to pay for a lyceum course that has been engaged for the school for the coming term. This course consists of five numbers, sent out by the Dixie Lyceum Bureau and are commended to us as being high class in every respect. This course will cost five hundred dollars, and the numbers will appear as follows: The first comes in October, the second in November, the third in January, the fourth in January, and the fifth in February. It is the desire of the school authorities to place good, wholesome entertainment within the reach of the children. People will be entertained, so the wise thing is to provide that entertainment that will build up and elevate and inspire. If that kind is not provided, and young people are left to make their own choice, the probabilities are that something unwholesome may be chosen. Now, the school has made arrangements for this course, and we hope that the people will back it up with their support. This explanation is given so that the committee will not have to explain so much when they approach the people to sell the season tickets.

It may be that the school will take a few under this year. Whether we do or not will depend upon the number in the first grade. If there should be room for a few under in that grade, and we can not know this until after school opens, we will take a limited number. No child under six will be taken, if any are.

Children below the fourth grade will not be permitted to take books home at night. This may seem not to be the thing to do, at least some will think it is not, but under the law providing for the furnishing of books, the State Department rules that only those above the third grade may be permitted to carry books home for study. If the first, second, and third grade children are properly instructed at school and apply themselves diligently while at school, it is our opinion that they will do better work than if some one who is not prepared to teach attempts to teach their lessons at home. It is harder to unteach the thing that has been taught wrong than to teach it right in the first place.

The negro children will receive their books on Monday afternoon at the high school building. If books are lost or destroyed, the one to whom they have been issued must pay for same.

Very respectfully,
E. FRANK KING.

Death of J. R. Harrison.

On Sunday morning Mr. J. R. Harrison died at the home of his daughter Mrs. W. F. Robinson, after several weeks of failing health. He was 83 years old at the time of his death. He had lived in Texas, practically all his life, coming to this state with his parents from Alabama when he was but a few months old. He had been in Mitchell county since 1884.

He was a Civil War veteran, and was a member of the Church of Christ being the first man to be baptized into the church after its organization here. He was the father of six children, all of whom are living. He was the youngest of a family of fourteen children and the last to pass away.

The funeral services were conducted by Rev. W. L. Williamson of Big Spring, and the body laid to rest in the I. O. O. F. cemetery to await the resurrection morn. The Record joins the many friends of this family in words of sympathy. These six children have lost a kind and loving father and numerous grand children mourn the departure of "grandpa," but he had lived his life, had done his part, and is now resting over the river in the shade of the trees.

COTTON PICKERS NEEDED.

Estimates recently made by the Agricultural Bureau of the West Texas Chamber of Commerce indicate that not less than 50,000 cotton pickers will have to be imported into the cotton regions of West Texas to harvest the 1919 crop, now about ready to be picked. Meetings of farmers in various West Texas counties under the auspices of farmers' organization have been held and generally the farmers are refusing to pay more than \$1.50 per 100 pounds for picking, and this rate appears to be almost unform, though in some counties the farmers are offering \$1.25 per 100 pounds. In each instance the pickers are to board themselves, but farmers agree to board them at cost where desired. The West Texas Chamber of Commerce is now perfecting arrangements with the Chamber of Commerce of El Paso, San Antonio, Del Rio, Laredo, Fort Worth and Waco, by which those organizations will cooperate Labor Registration Bureaus, and the cotton picking labor will be registered in those cities under the auspices of the Chambers of Commerce. Counties desiring labor will take the matter up direct with the West Texas Chamber of Commerce, Stamford, Texas, or with the Labor Bureaus of the Chambers of Commerce in the cities indicated.

It is pointed out that since the crop is so large and prolific in West Texas equals better than \$2.00 in South and East Texas.

In most instances farmers will have to advance railroad fares to laborers, most of whom will be Mexicans. The West Texas Chamber of Commerce has taken up through its Washington office the matter of the non enforcement of the contract labor law as applying between the United States and Mexico in the matter of allowing Mexican labor to cross the border for strictly harvest purposes.

Orders for laborers should be placed immediately.

NOTICE!

All parents with children not quite scholastic age are asked to bring children to the little school house Monday morning and see if a way cannot be made so they may have the advantage of school.

SCHOOL BOARD.

Tom W. Frazier of Palestine came out this week on a visit to his brother Postoffice Joe Frazier. The first mentioned gentleman either did not like Colorado or Joe, one or the other, for he remained but one day.

FIRST BALE FOR 1919 IN MITCHELL CO.

First Bale September 8th—Last Year The First Bale Was August 30.

On Friday last, September 8th, Colorado received her first bale of 1919 cotton. It was raised by John Womack up near Cuthbert, weighed 463 pounds; was ginned by O. Lambeth free of charge, and was bought by the City National Bank for 30 1/2 cents per pound. A premium of \$45.50 was given, and the bale, premium and seed brought him about \$230.00.

Last year the Record published this on the date of August 30th:

We stop the press long enough to say that Colorado has received her first bale of 1918 cotton. It was brought in by Mr. Jackson, the same man who brought in the first bale last year and was raised on the Feaster farm north of Buford. Within two hours afterwards two more bales showed up from the same part of the county.

In our issue of September 6th last year we said:

Up to Thursday morning Colorado had received 15 bales; Lambeth & Watson had gined 15 bales. The Roddy Public Yards had weighed 15 bales. Cotton sold during the week at 32 to 33 cents. Seed market is \$50.00 per ton.

Tuesday of this week Mr. John Hale brought in the second bale which was turned over to Con. Harness at 32c, having been bought in advance. On Wednesday morning two more bales came in.

So the cotton season is on, and in two or three weeks everybody in the county, and all the hands that can be secured will be busy gathering, marketing, and handling the big cotton crop of Mitchell county.

NEW BUILDING.

Beal's Cash and Carry Store

THE WESTERN STAR.

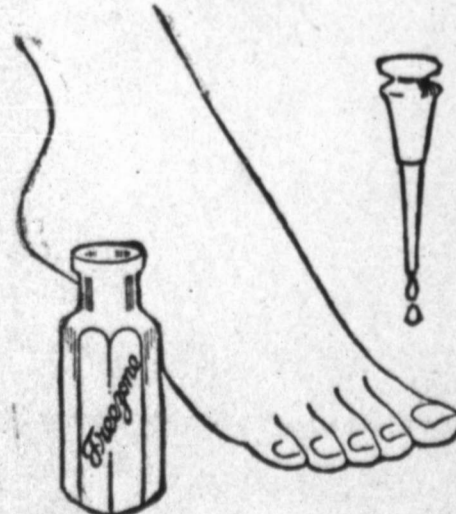

Guff Beal is here this week from Fort Worth, on a visit, and in a conversation with him he asked us to say for him that the Western Star Oil Company is in a very good condition. Mr. Beal is president of this company and many people in Colorado, all of them his friends, bought stock in the Western Star on Mr. Beal's judgment and management.

The well on the 50-50 basis on the one acre in the Burk-Waggoner field is a good well, estimated at 4,000 barrels. It is connected up with the pipe line, but the pipe lines are so crowded that they will take no oil. So it stands there with plenty of oil which cannot be marketed, and no one can tell how long this state of affairs will exist.

The Company is now putting down its second well, which was about 800 feet deep on the 4th of this month, the intention of the managers now is not to bring this well in at this time.

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful. Adv.

It would be perfectly useless, as the oil could not be marketed. As soon as the sand is reached, work will be suspended until the pipe lines can take the oil, when it will be brought in. Mr. Beal says more than fifty wells around them are now on the sand and just waiting before they will be brought in.

Mr. Beal advises his friends to hold their Western Star stock, as it should now be worth at least one and a half for one, and will easily go higher as soon as they can handle the oil and get it on the market.

Everybody here knows Guff Beal and feel sure that this company's affairs will be handled honestly and to the best interests of the stock-holders.

WEST TEXAS EXHIBIT

Telegraphic advises received from the Indiana State Fair at Indianapolis state that the West Texas agricultural and mineral exhibit at the Indiana State Fair is one of the big attractions there. Thousands of people are visiting the West Texas Exhibit, and many are indicating their desire to move to West Texas and locate. Over four thousand people registered at the West Texas Exhibit on one day for information about West Texas.

The general West Texas agricultural and mining exhibit will next be shown at the Kentucky State Fair at Louisville, and it is expected that great interest will also there be manifested. From Louisville the exhibit will be taken to Nashville and Kansas City.

Chester T. Crowell, publicity manager for the West Texas Chamber of Commerce, who has charge of the exhibit, states in a letter, that he considers the exhibit movement of vast importance to West Texas and that it will be the means of hundreds of people moving to this part of the State. The Canadian exhibit is located near the West Texas exhibit, but the West Texas exhibit has drawn much larger crowds than the Canadian exhibit.

More than 300 different agricultural and mineral products are included in the West Texas exhibit, representing all parts of West Texas, from Dalhart to San Saba, and from Fort Worth to El Paso.

Moving pictures of different parts of West Texas are shown at the exhibits.

HOSPITAL NURSE PRAISES TANLAC.

Gains Eleven Pounds And Is Feeling Fine Since Taking Tanlac.

"Tanlac did so much for me that I feel it my duty to tell others about this medicine," said C. M. Rhamey, a professional nurse living at the Hotel George, on Sixth street, San Francisco, Cal., recently. Mr. Rhamey has been nursing patients in the hospitals for the past eight years.

"Last February," he continued, "owing to an accident in which my leg was broken, I was confined to my bed for several weeks. I lost my appetite and could hardly eat anything to nourish me, consequently I lost weight. I took several different kinds of tonics, hoping they would help build me up, but they did me no good."

"One morning I read a statement by a lady in Los Angeles, who said she had gotten such wonderful benefits from taking Tanlac that I decided to try it myself. By the time I had finished half of my first bottle my appetite returned and I felt hungry for the first time in weeks. From then on I started right in to pick up and my appetite got better and better and I slept better at night. I have already gained eleven pounds and am feeling just fine; even my doctor has remarked how much better I am looking. I would never allow my name to be used in connection with a medicine before, but I have had such excellent results from using Tanlac that I take great pleasure in recommending it to anyone needing a medicine to build up the system."

Tanlac is sold by all druggists everywhere.

Unbounded and unprecedented prosperity seems to prevail over most of Texas. This week the Record received a letter from Granger in Williamson county, in which the writer says: "Crops are good. We are sure for a half bale per acre. Corn is as good as I ever saw it. We got 20 bushels of wheat and 75 bushels of oats. Everybody busy. Towns on boom, and prosperity reigns."

This is down in old Williamson county, where land is valued at \$150 to \$200 per acre. Yet right here in Mitchell county we can beat them on \$25 acre land. Cotton is three-quarters to a bale per acre, and we get 60 bushels of grain per acre.—Come to Mitchell county.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

GREAT CROPS IN MITCHELL

Mitchell county is going after oil, but the oil excitement is as nothing compared to the excitement over the county's record-breaking crops, according to W. H. Frec, cashier of the First State Bank of Abilene, who has returned from a visit at Colorado. A contract has been let for a test six miles south of Colorado, and blocks are being made up to the north and northwest, he said. But the main concern of the people of that section is to get the tremendous crop gathered—the oil boom can wait. "They are paying \$28 to \$32 a ton for head maize in that section and \$48 for threshed maize," Mr. Frec said. "One man told me he paid \$32 for a carload of head maize and would make some money on it at that."—Abilene Reporter.

Get the Deering Binding Twine—the best twine on the market—at H. C. Doss.

Lest you forget, we repeat, that Colorado has the finest water, more shady streets, concrete sidewalks, nice lawns, pretty girls, and the best people in the West. This year the county has the best feed and cotton crop in the world. Its schools are going to be better than ever. Come to Colorado.

HOW ABOUT IT.

Will Colorado have a football team this season? There are several ex-service men, who were football stars while in the A. E. F., and there are a good many ex-college players that have won their letter in football. With these former gridiron champions and a little "pep" behind them, there is no reason whatever that Colorado cannot turn out a good football team. The boys are very enthusiastic over the prospect for a winning team for the material that we have here will be hard to surpass.

When you speak of football, there are lots of people that have an idea that it is a brutal game, but just ask the fellow that has played or that has seen a good clean game of football. Football is much more interesting than baseball, and there are lots of baseball fans here, so it is very likely that they will acquire the football "Bug" when they see their first game.

The boys will run signals every afternoon just east of the passenger station. Come out and look them over, and acquire the football "Bug." The neighboring towns will have teams this season, and so will Colorado. To make the home team a winner requires lots of "pep," and if any of the business men have an employee that has ever played football, encourage him to come out and play.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

All Druggists

FARM HANDS ARE BADLY NEEDED HERE.

The crying need in this country just now is men to gather the immense feed crop to say nothing of the big cotton crop which will soon be ready for picking.

From all over the county comes pleas to the Chamber of Commerce for hands to gather feed. Unless labor is obtained soon some of the fine feed crop may be ruined. Cuthbert is one of several communities which are asking for help to get workers. Many maize, cane and feterita crops are now ready to be harvested, and if the weather remains wet, much of it will deteriorate if not entirely lost. It is said that some are offering \$3.00 a day and board for hands to cut maize heads, and some are offering \$2.50 a load.

The present labor shortage will be much more serious when the cotton begins to open, and unless something is done immediately to import labor, the crop is likely to be seriously damaged.

It has been suggested that the County Demonstrator and Chamber of Commerce get together and find out how many men are needed and what wages can be paid, and then send a Spanish speaking man to El Paso and get Mexicans to come into this country. There are hundreds of refugee Mexicans in that country who could, no doubt, be induced to come here by the lure of high wages.

Or failing this get into communication with some labor agency at El Paso, and find out if laborers can be had, and at what price. It will be impossible to get negroes from Central Texas, as they have no way can do there, and they have a natural antipathy to West, Texas. A few families might be obtained from the Northwest, and from certain districts in Arkansas, where droughts prevailed this year, but it is the general opinion that the Mexicans are the only safe proposition for labor in this country.

WESTBROOK ITEMS

Saturday another home was made sad when the death angel crept in and claimed for its own Mrs. Stenholm. Carrie Elizabeth Stenholm was born in Sweden, May 24, 1882 and died September 6, 1919 at Colorado, where she had been taken several months ago for treatment. She came to the United States 18 years ago. She resided in the state of Illinois for several years, and it was there that she met Mr. J. G. Stenholm to whom she was married eleven years ago in Fort Worth. From that time they have lived near Westbrook until she was called to her heavenly home. There were two children born to this union, one boy and one girl, both being dead. She had been a christian since early childhood and was a member of the Methodist church. She was patient and faithful through her long continued affliction. She was taken sick in February, and was confined to

her bed most of the time. She was perfectly reconciled to death and asked all to meet her in the next world. Her sweet voice is hushed; her familiar step will be heard no more, but her christian influence will live on forever. Her life is worthy of emulation. Her remains were tenderly laid to rest Sunday morning at Spade by the side of her two children to await the resurrection. Rev. H. W. Hanks conducted the funeral services. She leaves a grief stricken husband to mourn her death. The sympathy of the entire community goes out to him in this sad hour.

A letter from Sweetwater says that the boy, B. S. Cox, who was so seriously hurt here while swimming in the Colorado river, is yet alive but no hope for his permanent recovery. He was taken to the sanitarium at Abilene and an X-ray examination revealed a dislocated vertebra, which paralyzed him from the shoulders down. It is the general opinion of the physicians that he cannot recover.

STATE FAIR OF TEXAS DALLAS OCTOBER 6th 1919

TO WHOM IT MAY CONCERN. Attention of all persons to whom loans were made for the purpose of buying feed under the provisions of Chap. 4, Acts of Fourth Called Session, 35th Legislature, and Chap. 22, p. 27, Acts 36th Legislature, known as the Drouth Relief Acts, that said money, together with the interest thereon, will be due on or before December 1st. This money was borrowed from the State by Mitchell County, and we have to pay interest on it and account for every penny of it. Our county has been blessed with the most bountiful crops in its history and therefore, let us not forget to clear up all obligations, as they can be met this fall without hardship. In case this money is not paid when due, it is the County Attorney's duty under the law, and he has been instructed to proceed to file suit on the notes given for same, and to foreclose the liens given as security. This notice is given that this important matter may not be overlooked by any one concerned. Payment should be made to the Tax Collector.

PROMPT SERVICE IS OUR MOTTO.

SCHOOL TEACHERS AND THEIR SALARIES.

One man's dollar will buy as much on the open market as another's. What will the school teacher's dollar buy? It will not buy an ounce more than your's will buy. The scale of salaries which have been customarily paid school teachers has not been increased materially during the past ten years; yet the cost of living has advanced out of all proportion.—Plain-view Herald.

The public school teacher has always been the poorest paid person found among skilled labor. Their work has not been properly appreciated and there should be a change in public sentiment in reference to them. The only remedy can come through legislation that will give the people an opportunity to provide larger salaries through taxation. The Beacon is not an advocate of increase of taxes, but would rather see them lower, but when it comes to the teacher who has the forming of our children's character and the directing of their future we would favor more liberal tax measures in their behalf. There are some school districts that have reached the limit as fixed by law, and there is no way to raise teachers' salaries. They are underpaid, no one will deny, but the question is, how can we render assistance under present laws? We must either have a higher tax levy for the maintenance of our schools or a healthier sentiment that will cause men and women to dig deep in their pockets and pay the difference between a meager living and that of a well paid teaching force for all the schools of the state.—Lockney Banner.

The Colorado Independent school district seems to have solved the problem, or partly so. They had a special law passed by the legislature, applying to this district only, by which the School Board, sitting as a board of equalization, can raise the property valuation, but not the taxes. This district had long since levied all the school tax allowed by law (50c on the \$100), so that the taxes could not be increased, but this special law gives the board the power to increase the property valuation to any amount they see proper, and collect 50c on the \$100 of their valuation. This will increase the school money just in proportion to the amount the valuation was increased. This board has already had its sitting, but we have not been informed as to the amount that has been added to the property valuation, but our school tax will be considerably more this year than heretofore. So when you go to pay this school tax, if it looks big to you, don't kick, for the teachers who are educating your children must be paid, and "the laborer is worthy of his hire."

He stands for all one could ask for in the matter of good government, sound in his democratic views, a prohibitionist, and orator and possesses many other characteristics to recommend him to the people of Texas. He is going to be heard from later on, and the man that defeats him for governor will have to get up and run some.—Lockney Beacon.

Judge Poindexter the other day sneeringly referred to the present Democratic party as a "calico" party. Well, we figure that good old honest American calico has as much business in the Democratic party as the beer-spattered white aprons of the round gentleman of foreign birth behind the bar, who have been in the habit of undertaking to show us how to run our government before the dust of Europe is off of their feet.—Roscoe Times.

CARD OF THANKS.

It is with sadness and a broken heart I come to thank the good people of Colorado and the Spade community for their many kind deeds and words extended during the illness and recent death of my loved wife. Especially do I wish to thank the attending physicians who ministered and labored for eight long months without the hope of reward except that attained in another life. Mrs. Steinhelm suffered untold miseries but death came and she is now at rest. Being away from my mother country I will miss her more than tongue can tell; but through all the lonesome years to follow I will never forget the devoted kindness and help given by these good people, and again wish to thank one and all most heartily,
I am respectfully,
J. G. STEINHELM.

Ruprt Womack is no drouth resister. Last year while at its worst he hid himself away to Field, N. M. Now that this country again blossoms as the rose, he has returned to old Mitchell to stay, having come in this week and will run the Cuthbert gin. We take the following from the Melrose Messenger, published in New Mexico:

"Recently the Messenger published a brief interview from C. E. Womack in which the latter made the statement that he would make enough wheat on 40 acres to pay for 160 acres of land that he bought last fall. This little article was reproduced in a number of New Mexico, Texas and Oklahoma newspapers with the result that people have written in to question the truthfulness of the published statement. We have deferred replies to the inquirers pending the harvesting of the crop. Over in Oklahoma a bunch of fellows hooted at the idea of such a production in the presence of O. G. Simmons. This week we are prepared to meet all challengers of this statement, for Mr. Womack has now threshed his wheat and reports a yield of 781 bushels, which has a total valuation of approximately \$1,400. The original quarter section of land cost Mr. Womack \$900, which leaves him a nice little balance of 600 plunks, with which to pay his harvesting and marketing expenses. It might be added that Mr. Womack's wheat averaged only about 20 bushels per acre, while the greater part of the wheat in this section is averaging thirty bushels and better per acre.

Mitchell county beats the above all to pieces. Plenty of farmers here are paying for their 160 acres of land with their maize crop alone, and have their wonderful bale-per-acre cotton crop left for spending money. In several instances the rent from the farms (third and fourth) have paid for the land. Come to Mitchell county.

The Record has in stock almost a complete line of office supplies, rubber bands, daters, numbering machines, fountain pen ink, letter files, clip boards, carbon paper and all kinds of typewriter paper and tablets—almost everything used on the desk.

This is going to be one fall that the farmer will be able to dictate to the bankers and merchants.

Our old friend "Eli" (E. M. Creless) down in the Union community has been bragging all spring about his cantaloupe patch, and hinted a time or two that he might send us up a few to sample them. So we were agreeably surprised this week when the postmaster said come around to the back door for a package too large to come through the window, and handed out to us a big sack of fine melons. As another friend had just brought in some roasting ears, we feel like the H. C. of L. is being materially lowered. Eli has our prettiest thanks for the splendid melons.

Has West Texas come back? We would say she has.

J. T. Davis of Abilene spent a few days here this week looking after his property interests.

MARRIED.

Miss Stella Edna Welch and Robert Hal Bennett were married at the home of the bride's parents, Mr. and Mrs. L. L. Welch, who live a few miles south of town, Sunday afternoon at seven o'clock.

The ceremony was performed by Rev. W. L. Williamson of Big Spring, a former pastor of the bride.

It was a quiet but pretty home wedding. The house was decorated with wild flowers and greenery.

Mr. Clarence Welch and Miss Virginia Bennett attended the bridal couple, as the beautiful and solemn words were spoken. The bride's little niece, Lois Burdine, carried a sunflower with the wedding ring in the center. The bride was attired in a midnight blue coat suit, with accessories to match, and never looked lovelier or sweeter.

Just before the bridal couple entered, the bride's brother, Mr. Polk Welch sang Love Is Mine, with Mrs. Polk Welch at the piano, who afterward played the wedding march.

Ice cream and cake were served to the guests, consisting of the members of the families and Rev. and Mrs. Williams of Big Spring; Mr. and Mrs. R. E. Bennett and Miss Virginia Bennett of Lorraine; Mrs. and Miss Crockett, Mrs. and Miss Chambers of Colorado, and Mrs. Burdine and daughter of Lamesa.

Miss Stella is the daughter of Mr. and Mrs. L. L. Welch, one of the county's best families. She has been teaching school for several years, and is loved and admired by all who know her.

Mr. Bennett is a Lorraine boy, and has just returned from service with Uncle Sam. He is well and favorably known in that community, having practically grown to manhood there.

This happy couple will make their home at Lorraine.

May prosperity, happiness and contentment abide with them all thru life's journey.

Meeting Closed.

The series of meetings at the M. E. church, conducted by the pastor, Rev. W. P. Garvin, last week, closed on Sunday night. The christian people should be the better for having heard these true gospel sermons by the consecrated pastor; and the songs led by Miss Don Higginbotham, a sweet spirited christian young lady, who is known and loved here for her works sake. Every service was a feast and several young people consecrated their lives for Christian usefulness. The doors of the church will be opened Sunday for any others who wish to take the church vows.

DIED.

Saturday morning, after a prolonged illness, Mrs. J. M. Steinholt, passed away. The body was taken to Spade and laid to rest. The funeral services were conducted by Rev. H. W. Hanks. She was the wife of J. G. Steinholt, a prominent farmer of the Spade community. She was a quiet and unassuming little woman, but was respected and highly thought of by those who knew her. To the faithful and heartbroken husband the hearts of the people who knew of her intense suffering, go out to him in this sad, dark hour.

Colorado Boy Married.

Last Monday, Mr. Van Ellis of Colorado and Miss Bessie Grist of Cisco were married. The ceremony was performed at the home of the bride in Cisco, after which they came to Colorado to spend a few days with Mr. Ellis' parents Mr. and Mrs. J. L. Ellis. The happy couple will make their home at Loran, where Mr. Ellis holds the position as railroad agent. Van is well and favorably known here and his friends congratulate him on securing as his bride, so estimable young lady as Miss Grist is reported to be.

Central Circle.

The Central Circle of the M. E. Church met with Mrs. Chambers Monday. The regular business was transacted. It was decided to sell the Brown Christmas Novelties, and a committee appointed to secure them. Dues and offerings of \$6.40 were received. After business the hostess served salad, sandwiches and ice tea. The next meeting is with Mrs. Arnett.

PRIVATE SCHOOL PAINTING AND EXPRESSION

On Monday, September 22nd, Miss Dry will be centrally located, where she expects her old and any new under grade pupils in the mornings. Painting and Expression pupils are solicited for the afternoons. She is away taking special lessons, so as to be better equipped in each (the instruction in painting coming from Mrs. Greathouse of Ft. Worth, the State Chairman of the Art Department of the Federation of Women's Clubs). For further information phone 370.

Business Meeting.

The regular monthly business meeting of the Baptist Auxiliary was held at the church last Thursday. It was decided to pack a box for Buckner Orphans Home the last Thursday in October. Every friend of this great institution is invited to have some part in this. Either old or new clothing will be accepted.

As this is intercession month for the great \$75,000,000 campaign, all present covenanted together for prayer at nine o'clock each morning, and invite others to join, trying to enlist every woman in the church for private intercession. Learning that Miss Nancy Leo Swan, a missionary to China, is in Texas, and is soon to visit her sister, Mrs. G. W. Smith, it was unanimously agreed upon to invite Miss Swan to talk to the women while she is in our city. A cordial invitation is extended to the women of other churches to hear her when she arrives.

At the election of officers, all old officers were retained. They are: Mrs. A. L. Whipkey, President; Mrs. C. H. Lasky, 1st Vice President; Mrs. G. D. Adams, 2nd Vice President; Mrs. R. O. Pearson, Secretary; Mrs. J. E. Hooper, Cor. Secretary.

Rev. D. R. Hardison came in home this week after a very successful revival meeting held at Mertzon.

Misses Lula Mae and Elnora Du-laney leave Monday for Georgetown to enter the Southwestern University. A. E. Green is now ahead on large maize heads, pumpkins and kershaws. Six heads of his maize filled a buggy bed.

Mr. and Mrs. Ross Dixon returned this week from an extended visit to South Carolina.

Rev. and Mrs. W. L. Williamson of Big Spring, visited friends here a few days this week.

Miss Claudia Rogers of Dallas is visiting her sister, Mrs. J. W. Smith.

Col. C. M. Adams arrived home on Wednesday night from Selma, Ala. He reports the death of his uncle at that place, whom he went to see.

COLORADO'S CHAUTAUQUA.

Three Days and Evenings of Splendid Instruction and Entertainment.

The Radcliffe Chautauqua program given at the tabernacle here Saturday Monday and Tuesday, was more than worth the price asked, and those who missed these first class entertainments indeed missed a treat.

The first day and evening were given to Dr. W. T. S. Culp and the Fighting Yanks, a quartette of the first order, composed of returned soldiers. Every number was good.

Dr. W. T. S. Culp, is an orator of the first class, a veteran platform worker, a gifted thinker and educator who combines wit with wisdom, practical sense with eloquence. He is an apostle of sunshine, who lends his fine philosophy of life to the promotion of the community spirit.

The Radcliffe program for 1919 hails the dawn of a new day. The quickening of American ambition, following the war against autocracy, is to be seized while fervor is at white heat and shaped into a nation-wide crusade for education. Education and more education, education in health, honor and efficiency, so that no enemy without or within can deprive us of the right to happiness.

On Monday Miss Florence Besley, a Red Cross nurse and lecturer made an inspirational talk on Red Cross work. She told of its history in such a way that thrilled the hearts of all present; and outlined the peace program in such a manner that all could see the great necessity of keeping alive this institution with our hearts and dollars. Mr. Taylor, as an impersonator and reader, was encored again and again. Senior Bellino is an artist of the rarest type as an accordion player and was perhaps the star performer in the evening's program.

On Tuesday Miss Catherine Mason gave her famous lecture on Home Making, and after the program held a conference on community club work. Quite a good deal of interest was taken and the probabilities are that a Community Club will be organized.

The program was closed Tuesday evening, with Mr. Henry, who gave an interesting and educational on Un-preparedness, giving statistics of the illiteracy in the United States, and of the different states. This was followed with the Columbian Quartette. These four girls have embraced their art with fervor, and a rollicking quality was discovered in both their programs. Miss Bertha Muzzy, the director of this attractive quartet, besides lending her contralto voice to the vocal ensembles, is a reader of distinctive ability, and her selections gave her an opportunity to reveal the charm of her personality. Miss Theda Dwiggin, who contributed the lyric soprano quality to the vocal numbers has dramatic gifts to contribute in monolog form, of which humor was a feature. Miss Jennie Belle Perry, the mezzo soprano of the quartet, is a pianist of more than usual excellence. Both in technique and in feeling, her work proved a delightful surprise to her auditors. In Miss Watson the brilliant organization has a dramatic soprano.

All in all this was quite a treat for Colorado people, and was most heartily enjoyed by all who attended—so much so in fact, that a large number of leading citizens signed for the return next year.

AUXILIARY TO C. W. B. M.

The Auxiliary to the C. W. B. M. celebrated the 45th anniversary of the C. W. B. M. last Thursday, with a special program, at the home of Mrs. Crowder. Invitations were sent to every member with little bags of lavender and white, the C. W. B. M. colors. The decorations in the home were of lavender and white. Mrs. A. J. Coe was the leader of the afternoon. Mrs. R. P. Price conducted the bible lesson. The roll call was, blessings I have received during the fifteen years of the Auxiliary. Mrs. Sam Majors gave a history of the C. W. B. M. since the organization, 45 years ago. Mrs. Harness sang a solo and Mrs. Broaddus gave a poem appropriate to the occasion. The guests were then invited to the dining room which was decorated in lavender and white, where a cake with 45 candles was displayed, and beside it were the little lavender and white bags with the offering. These were opened and \$23.35 was found which goes to the College of Missions in memory of Mrs. Walden. This college is in Indiana and as its name implies is a college to train for Missionary Science. After the program cake and punch were served. Mrs. Chambers, Miss Chambers and Mrs. Bravis Coe of Dalhart were guests.

TEXAS MAN TREATED FOR CANCER.

Col. W. A. Poage, Member of State Legislature, After Giving Up All Hope, Says He Is Cured.

The recent death by cancer of an intimate friend caused Col. W. A. Poage, 180 Lyle Ave., Waco, Texas, member of the Texas State Legislature to make the following statement: "I feel that I am permanently cured of my cancer trouble. In August, 1917, came to your place in Kansas City suffering with a bad cancer on my face. I had almost given up all hope, for I had been treated by some of the best doctors in Texas, and had grown steadily worse under their treatment. I suffered a great deal of pain. Two weeks after you began to treat me, I grew better and in three months felt that I was entirely cured. The day I went to you was the best day of my life."

The above was written to Dr. O. A. Johnson, Suite 560, 1324 Main St., Kansas City, Mo., the physician who treated Col. Poage so successfully. Dr. Johnson is perhaps the best informed man in the United States today on cancer. He conducts a large institution for the treatment of cancer, in connection with which is also maintained a laboratory for scientific cancer research. Thousands of cases have been investigated and treated in the past twenty years. This treatment is entirely non-surgical. Purely medical measures only are employed; that is, external applications to destroy the cancer and internal medication to purify the blood.

Dr. Johnson has published a most interesting book called "Cancer Truths," being a statement of his theories and experiences in treating cancer. This book will be sent gladly to any cancer sufferer, or if you have a friend afflicted with that disease, get the book for him. Simply address Dr. O. A. Johnson, Suite 560, 1324 Main St., Kansas City, Mo.

MOUNTAINS OF MAIZE.

Piled High on City Lots and More in Sight—Harvest Not Half Over
Prices \$21 to \$25 Ton.

Colorado is the best maize market in the west, having paid this season all the way from \$32 per ton down to \$21, for maize in the heads.

The harvesting and threshing of maize has suddenly grown into a really great industry. This is due to the fact that the country has raised the greatest maize crop in its history and to the further fact that Colorado has been paying higher prices for it than most places.

The maize acreage this year is immense. The fact that farmers were compelled last year and this, to buy high-priced feed, induced them to plant a very large acreage in maize. Then the rains came in abundance, and the production per acre is unprecedented. As a result, the amount of maize raised in this vicinity is simply amazing.

Two threshers are running day and night trying to handle the grain as it comes on wagons. They were soon utterly swamped and maize came in at the rate of 50 to 100 tons per day—and still it came—until every warehouse was filled and it was then piled on the ground, mountain high.

Nearly all of this feed was raised in the Colorado country, yet lots of it was brought from Loraine, Hermleigh, Dunn, Ira, Vincent and Coahoma, on account of the superior market at this place.

When it is remembered that every farmer is saving enough of this feed to last him a year, or maybe two years, and that they are selling only their surplus, some not selling any,

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

one can begin to realize the immensity of the crop.

Some farmers are not selling at all but ricking it up in the fields. One farmer told us he had 10,000 bushels in piles in his field. "I have not forgotten the high prices I have been paying for feed the past two years," said he.

This maize crop is going to bring much money into the pockets of the farmers. The crop is yielding from one ton to two tons per acre. Some favored spots are yielding as much as three tons per acre. The general average over the country is perhaps about one and a half tons per acre.

It does not require much figuring to see that this means a lot of money. The price opened up at \$32.00 per ton, (one man here selling fifty tons at that price), then it dropped to \$28 and since has gone down to around \$20.00. That means that the farmers are realizing from \$25.00 to \$60.00 per acre for their maize. When it is remembered that the average farmer has from 25 acres to 100 acres in maize it can be seen that this crop this year, is a big money crop.

Nearly all of them will be able to store away enough feed for a year, pay their debts, and then have their cotton crops to play on. It is fine and we poor folks all appreciate it.

When you have an achy, stretchy feeling and you are dull, tired and discouraged it is a sign of approaching malaria or chills. You should act quickly to ward off an attack. HERBINE offers you the help you need. It destroys the malarial germ, drives out all impurities and makes you feel bright, vigorous and cheerful. Price 60c. Sold by all druggists. Adv.

\$4,000.00 IS OFFERED TO SHEEP AND GOAT RAISERS

VARIOUS NATIONAL BREEDERS' ASSOCIATIONS OFFER MANY SPECIAL PREMIUMS

Sheep and Goat Raisers will be given a total of \$4,000.00 at the Victory Fair at Dallas in October. There are also numerous special premiums in this department, including those of Swift & Company, who offer \$125.00 to be divided between fine wool breeds and muton breeds, and allowing \$25.00 for the Grand Champion wether in the Sweepstakes.

For the first time, this year cash premiums are offered by the American Cotswold Registry Association for Leicester, Karakules, and Karalines.

There are still large areas in Texas suitable for sheep raising which these premiums are intended to encourage. When it is realized that the people of the United States consume an average of only six pounds of lamb, as against eighty pounds of pork, and seventy-seven pounds of beef, it will be obvious that a large opportunity exists for raising muton and lamb, especially if the quality and flavor be improved. This, experts say, can be done by proper care and feeding.

The American Shropshire Registry Association, American Hampshire Sheep Association, American Oxford Down Record Association, American Angora Goat Breeders' Association, and J. V. Hardy, of Dallas, also offer special premiums.

THE COUNTRY NEWSPAPER

The average man can live in a big city all his life and never see his name in the paper, but the farmer and the average man and woman in any small town will see their names in their local county newspaper at least six or eight times a year, and always connected with some worthy cause, some faithful service, something that brings joy, all through life. The county newspaper is the newspaper that spreads happiness and content.

Don't you always want to read about the ball game you saw the day before? If you witnessed a fire you read the details of that fire with double interest. If you hadn't seen the blaze perhaps you wouldn't read the story at all. Why is it? It is because the things you know about are the things you like to read about. That is why the country newspapers have such a tremendous hold on their readers. They tell them about the comings and goings of their friends and neighbors, the people they know.

Nothing on earth is as interesting to the farmers and people living in

the small towns as is the news of their babies, the marriages of their boys and girls, their social and church events, the illness and deaths among their friends. Year after year the country newspaper records the history of its community.

Is it any wonder the country newspaper is the most powerful advertising medium on earth? Just as its power is great in holding its readers' interest, so is it helpful in shaping thought and powerful as an advertising medium. It turns the printed word almost into the spoken word.

No metropolitan daily, no magazine, no billboard, no farm journal—good as they all are—rings the bell with farmers and small town people as does their home town paper. It is an integral part of the community that cannot be filled by any other medium.

Visit some of the headquarters established by the various states here in New York for the returning soldiers and you will see how these boys from the farms and the small town papers. Watch these lads and you will realize that in these country newspapers you have an advertising medium that has no equal in the affections of the sixty millions of people who live in towns of 5,000 and less and on the farms.

You will see why the home town newspapers have more prestige and more pulling power with the farmers than all other publications combined. You will understand why ever farmer and his wife in America reads the local paper with an interest as intense as she would read a letter from her old home, or from a dear friend.

Visit these headquarters and you will sense why the Farmers' Club is always careful to see that the local editor is invited to all its affairs, why the county farm bureau leans upon the country newspapers for the support it needs, and why the county fair and other local activities are made successful by the country newspaper, and could not be successful without it.

Country America is a waiting market for everything that is made, and the quickest way to this market is through country newspaper advertising.

The above article was written by the American Press Association and addressed to the national advertisers of America. It throws some flowers

in the path of the country paper, but none that are not deserved. That the big advertisers are fast awakening to the fact that the country paper will reach the hearts of the people is demonstrated by looking over the pages of the better class of country weeklies, in which you see represented many of the national advertisers. This was not so a few years ago. Then the big advertisers tucked his ads away in the high class magazines, trade papers, etc. The government, at the very beginning of the war, realized their value, and they took advantage of it. Millions and millions of dollars worth of the best advertising in the world was received by it for which they never paid a cent. How would the bond issues, the red cross drives and the war work fund, ever been put across had the country papers refused to publish a line about them?

Even the Congress of the United States is greatly influenced by the tone of the country papers of this great country. Each community is represented, and as the papers usually reflect the sentiments of the community in which they are published, it is easy to determine the minds of the masses from the columns of the country town papers taken as a whole.

THE TEST THAT TELLS.

Is The Test of Time... Many Colorado People Have Made this Test.

Years ago this Colorado citizen told in a public statement, the benefit derived from Doan's Kidney Pills. The statement is now confirmed—the testimony complete. Instances like this are numerous. They doubly prove the merit of Doan's Kidney Pills. Can any Colorado reader demand more convincing proof? It's Colorado testimony.—it may be investigated.

J. H. Cooper, prop. of blacksmith shop, Oak St., gave the following statement November 4, 1915: "I have used Doan's Kidney Pills several times in the past for trouble with my back. From the results I obtained I think they are a good, reliable remedy. I purchased this medicine at Doss' drug store and I gladly recommend it to anyone suffering with their kidneys."

On April 12, 1919, Mr. Cooper said: "I can still recommend Doan's Kidney Pills as highly as I did when I endorsed them in 1915. Doan's certainly benefited me a great deal." Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Cooper had. Foster-Milburn Co. Mfgs., Buffalo, N. Y. Adv.

VERY BEAUTIFUL DISPLAYS IN ART AND TEXTILE

THIS DEPARTMENT OF VICTORY FAIR AT DALLAS PROMISES SPLENDID EXHIBITS

The Art and Textile Departments will display perfectly beautiful exhibits at the Victory Fair at Dallas in October, according to report just made by the Superintendent, Mrs. Fannie T. Howard, to W. H. Stratton, Secretary State Fair of Texas.

Liberal cash premiums are offered and entries are coming in rapidly. The facilities for displaying these beautiful things have been improved. The textile and china cases repainted. The art cases newly decorated. Electric lights inside the show cases will display the exhibits to best advantage on dark or rainy days.

An entirely new feature this year will be the collection of war relics. The classification of Basketry offers good cash premiums.

The Culinary Department offers many cash premiums for breads, cakes, jellies and preserves, canned fruits and vegetables, candies, pickles and other delicacies. Competition is open to all amateurs.

The embroidery, lace work, knitting and crochet, quilts, plain and fancy sewing are open to the world. A special classification covers old ladies' work. In Decorative Art many cash premiums are offered for painted china, pottery, glass and metal. Classifications for both amateurs and professionals.

The following departments are open only to the school children of Texas and exhibits must have been produced by the boys and girls: General Display of Manual Art, Drawings, Decorative Art, Plain and Fancy Sewing, Arts and Crafts, Fine Arts, and Domestic Science. Liberal cash premiums are offered.

All schools and teachers who have not yet reserved space, should do so at once. All entries in other departments should be made now. Write Mrs. Fannie T. Howard, Supt., care of State Fair of Texas, Dallas, Texas.

Now is the time to sow pertunips, but we are afraid there will not be many hog jowls to go with them.

\$75,000,000 TO BE RAISED IN SOUTH

BAPTISTS ANNOUNCE PURPOSES
TO WHICH VAST SUM THEY
SEEK WILL BE GIVEN.

STRENGTHEN CHURCH WORK

Special Effort of Denomination Along
General Lines Will Be Enlarged
And Made Stronger As Result
Of This Campaign.

Every general interest fostered by Southern Baptists will be strengthened and enlarged through the success of the Baptist 75 Million Campaign which is now well under way, and which will reach its climax in the final drive to secure this sum in cash and subscriptions during the eight days of November 30 to December 7. A period of five years will be provided for the final payment of these subscriptions but for the campaign to succeed, the sum of \$75,000,000 must be subscribed within the eight days. Many have expressed the belief that the subscriptions will run to \$100,000,000.

At a meeting of the Executive Committee of the Southern Baptist Convention the \$75,000,000 to be raised was apportioned among the general inter-

J. H. Anderson, Wealthy Knoxville Merchant, Who is Chairman of the Campaign in the Baptist 75 Million Campaign.

ests fostered by the Convention, as follows: Foreign missions, \$20,000,000; home missions, \$12,000,000; Christian education, \$20,000,000; state missions \$11,000,000; ministerial relief, \$2,500,000; orphanages, \$4,700,000; and hospitals, \$4,125,000.

The apportionment of this sum among the several states within the territory of the Convention has been announced as follows: Alabama, \$4,000,000; Arkansas, \$3,200,000; District of Columbia, \$200,000; Florida, \$1,000,000; Georgia, \$7,500,000; Southern Illinois, \$1,200,000; Kentucky, \$6,500,000; Louisiana, \$3,325,000; Maryland \$750,000; Mississippi, \$3,350,000; Missouri, \$2,935,000; New Mexico, \$250,000; North Carolina, \$6,000,000; Oklahoma, \$2,350,000; South Carolina, \$5,500,000; Tennessee, \$4,660,000; Texas, \$16,000,000; and Virginia, \$7,000,000.

Here is what this big sum of money will help Southern Baptists do for the Master, as set forth by the Campaign Commission:

"It will equip more adequately and multiply manifold the 1,099 missionary workers of the Foreign Mission Board, and the more than 2,000 Home and State Board Missionaries.

"It will enlarge and raise to a better efficiency the 132 Baptist schools in the South.

"It will go far towards meeting the expanding needs of the Southern Baptist Theological Seminary and the Women's Missionary Training School in Louisville, Ky., the Southwestern Baptist Theological Seminary and Women's Training School in Fort Worth, the Baptist Bible School in New Orleans, La., a Theological Seminary for the Negroes, and will provide a first-class college for boys and girls of the mountain region.

"It will increase greatly our hospital service to the sick, open wider our arms to the orphans and provide a strong support for our aged ministers of the gospel.

"It will put Southern Baptists in position to assume a considerable share in the reconstruction of war-torn Europe, and embrace many of the marvelous opportunities for service which thrust themselves upon us from all parts of the world, at home and abroad."

While \$20,000,000 of this sum will go to foreign missions and thus be expended in carrying the gospel and its blessings to other lands, the remaining \$55,000,000 will be expended at home in building up home mission work, educational and benevolent institutions and projects, of which there are a number in every state within the boundaries of the convention.

CONCHO'S MAMMOTH PECAN CROP.

The pecan crop this year on the South Concho river, according to "Uncle Sam" DeLong, is the heaviest he has seen in 40 years. He says many trees on his place have limbs touching the ground loaded with the edible nut. C. W. Runkle, who has a large pecan grove near town, says he has one tree that will produce 400 pounds. Mrs. Ada Douthit has several large pecan groves in her pasture and many trees are heavily loaded. While the writer was taking his customary walk and communing with Nature he counted several clusters of nuts that numbered from 6 to 8 in a bunch and one cluster with 10 large nuts. Owners of pecan groves are looking for help to gather this mammoth crop which will commence ripening about the first of October. South Concho pecan are known all over Texas and in New Mexico and Arizona for their large size, thin shell and rich flavor.—Christoval Observer.

Chamberlain's Cough Remedy.

This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. Wm. Scruby, Chillicothe, Mo., writes, "I have raised three children, have always used Chamberlain's Cough Remedy and found it to be the best for coughs, colds and croup. It is pleasant to take. Both adults and children like it. My wife and I have always felt safe from croup with it in the house." Chamberlain's Cough Remedy contains no opium or other narcotics. Adv.

We buy all maize or Kaffir that you can bring us.—Bush and Doss.

For the information of our readers in other parts of the state, who are not acquainted with the maize crop, we will state that one ton of maize heads will thresh out about 1500 pounds of grain. This grain weighs 50 pounds to the bushel. There fore a ton of maize heads is the equivalent of 30 bushels. Some fields in this country are producing as much as two tons per acre, and a few even more than that. That would be 60 bushels of grain and more per acre. One bushel of maize is almost equal to a bushel of Indian corn in feeding value. Sixty bushels of maize would easily be equivalent in feeding value to fifty bushels of Indian corn. Therefore a production of two tons of maize per acre is the equivalent of fifty bushels of corn per acre. We used to think that was an awfully good crop down in the black waxey. LEAGUE CERTAIN WILSON DECLARES

PRESIDENT IN OPENING SPEECHES OF TOUR VOICES HIGH HOPE.

"WORLD WAITS FOR US"

"Future Free From War if America Carries Out Her Pledges," Says Executive.

By Mount Clemens News Bureau.

Displaying a high confidence that his fellow citizens in the great majority agree with him in his desire to end war forever, and that they will see to it that the peace treaty with its league of nations inclusion is ratified by the senate, President Wilson is making a successful journey across the country on the mission he has undertaken for the purpose of laying before the plain people a report of his work in Paris and explaining what the league means.

Thus far in his travels, he has everywhere met with warm greetings, both in the great halls where he has spoken formally and in the little cross roads hamlets where his train has halted at times, and he has exchanged words with the villagers who pressed forward to greet him. He feels, and does not hesitate to say so, when chatting with his traveling companions, that the American people want no more of war and want to become part of the league so that there may be no more war.

He struck his key note when he said in his first address in Columbus, Ohio: "The treaty was not intended merely to end this single war; it is meant as a notice to every government who in the future will attempt this thing (what Germany attempted), that mankind will unite to inflict the same punishment. There is no national triumph to be recorded in this treaty. There is no glory sought for any particular nation. The thought of the statesmen collected around that table was of their people, of the suffering they had undergone; of that great throbbing heart which is so depressed, so forlorn, so sad in every memory it has of the five tragical years that have gone by. Let us never forget those years, my fellow countrymen. Let us never forget the purpose, high and disinterested, with which America lent its strength, not for its own glory, but for the defense of mankind."

"As I said, this treaty was not intended merely to end this war. It was intended to prevent any similar war. I wonder if some of the opponents of the league of nations have forgotten the promises we made our people before we went to that peace table? We had taken by processes of law the flower of our youth from every countryside, from every household and we told those mothers and fathers and sisters and wives and sweethearts that we were taking those men to fight a war which would end business of that sort, and if we do not end it, if we do not do the best that human concert of action can do to end it, we are of all men the most unfaithful—the most unfaithful to the loving hearts who suffered in this war; the most unfaithful to those households bowed in grief and yet lifted with the feeling that the lad laid down his life for a great thing, and among other things, in order that the other lads might never have to do the same thing."

"That is what the league of nations is for—to end this war justly, and then not merely to serve notice on governments which would contemplate the same thing Germany contemplated, that they will do so at their peril, but also concerning the combination of power which will prove to them that they will do it at their peril. It is idle to say that the world will combine against you; but it is persuasive to say the world is combined against you. The league of nations is the only thing that can prevent the recurrence of this dreadful catastrophe and redeem our promise."

A league of nations would have prevented the late conflict, the president asserted, exclaiming, "I did not meet a single public man who did not admit these things; that Germany would not have gone into this war if she thought Great Britain was going into it, and that she most certainly would never have gone into it had she dreamed America was going into it. And they all admit that a notice beforehand that the greatest powers of the world combined to prevent this sort of thing would prevent it absolutely."

Applause and cheers greeted each declaration of the president that wars might be avoided in future by the operation of the league. He pointed out other important features of the peace treaty. How it was the redemption of weak nations in giving them freedom which otherwise they never could have won; how it says "those people have a right to live their own lives under governments which they themselves choose," and how "that is the American principle, and I was glad to fight for it." That was the very heart of the treaty, he said.

He drew attention to the section of the treaty which is "a magna charta of labor," which shall dispose of the hours, conditions and remunerations of labor. "It forecasts the day," he said, "which ought to have come long ago, when statesmen will realize that no nation is fortunate which is not happy; whose people are not contented in their lives and fortunate in the circumstances of their lives."

"In conclusion, the president said he felt certain the treaty will be accepted, and was only impatient of the delay in waiting on America. "The only country in the world that is trusted today is the United States, and the world is waiting to see if its trust is justified."

Mr. Wilson's Indianapolis speech was like the one at Columbus, an explanation of the league, an appeal for its ratification, and a prediction that it was sure to come into being.

Mr. Robert Hal Bennett of Loraine and Miss Stella Welch of Colorado were married Sunday at the home of the bride, two miles south of Colorado, at seven o'clock, Rev. Williamson of Big Spring officiating. It was a very pretty home wedding. The house was prettily decorated in sunflowers and evergreens. The bridal couple was attended by Mr. Clarence Welch and Miss Virginia Bennett. A little niece of the bride, Lois Eloise Burdine, carried a big sunflower with the ring concealed in the center. The bride was becomingly attired in a midnight blue coat suit, with accessories to match, and the groom also wore a midnight blue serge. Just before the bridal couple entered, a brother of the bride, Mr. Polk Welch, sang, "Love Is Mine," Mrs. Polk Welch as accompanist, then followed the wedding march by Mrs. Welch.

After congratulations and viewing of gifts the guests were served ice cream and cake.

Miss Welch is one of Mitchell county's best girls. She has taught school in the county for several years and by her sweet and genial disposition has won many friends.

Mr. Bennett is one of Mitchell county's returned soldier boys, and has his share of friends, who will wish he and his bride "bon voyage" through life.

The out of town guests were Rev. Williams and wife of Big Spring; Mr. and Mrs. R. E. Bennett and Miss Virginia Bennett of Loraine; Mrs. Crockett and Miss Winnie Crockett, and Mrs. Chambers and Miss Chambers of Colorado; Mrs. Berdine and daughter of Lamesa.

The Third Quarterly Conference for the Methodist Church of the Loraine charge, was held at Loraine, September 10th. Good reports were made by the various officials. The charge is in good condition generally. The revival is in progress and will continue through the week. Rev. Hardy of Sweetwater, Griswold of Lubbock and C. E. Jameson of Hamlin have been present and preached during the meeting.

Chance for Rich Boys.
A rich man, whose son had been taunted by other boys, who said that the rich boy had no chance to become prominent in industry or science, got an educational expert to send out a letter to 50 rich men, asking them how they started out in business.

Of the 50 men selected as the foremost in business success, 24 were born poor, 17 were born in moderate circumstances, and nine were born rich.

When the returns were all in the rich father undertook to encourage his son and relieve him of the idea that he was to become one of "the idle rich," saying that, while he did not have as good a chance as a poor boy, he still had a chance, for nine out of the 50 successful men had been born rich.—Omaha World-Herald.

The Loraine Mercantile Co. extends an invitation to all to visit their store and see the new fall arrivals. Every line is complete and the prices are absolutely right.

The vacant houses are filling up fast and some have been sold to people who have come here to stay. Every train from the east is bringing new people as well as the old ones in to Mitchell county. The buzz of the threshing machines are heard from early until late, and soon the four girls will be going. Everybody is busy once more and prosperity and plenty is here.

Then come to the west and be numbered 'mong the best,
Where the sun shines all the time,
And cooling zephers blow.
Where golden pumpkins on the vine
And big sweetpotatoes grow;
Come work among the maize,
For cotton picking too.
For no one's feeling blue, 'cause
there's so much to do;
Come and get the Western way
Until you want to stay.
