COAST TO COAST U. S. FOR LEAGUE

MILLIONS ACCLAIM WILSON AS HE SPEEDS ACROSS THE LAND.

FEW ASK FOR CHANGES

Majority Feel That President's Guidance Should Be Held—He Regards Pact As Sure to Come Soon.

(By Mt. Clemens News Bureau)
Aboard President Wilson's Special Train—From the Capital at Washington to the far Pacific coast the President of the United States has journeyed on the most unusual expedition ever undertaken by a chief executive of the nation.

To discuss national questions, many presidents have toured the land; but Mr. Wilson is laying before America a question which affects the whole world—the question of whether or not we are to join in the League of Nations; whether we are to forget our former isolation and share with the other peoples of the earth the responsibilities of maintaining civilization and preventing, as he says we can do, future warfare.

Between the capital and the coast the president made fifteen speeches and half a dozen brief talks. All of 100,000 fellow citizens listened to him. Several millions had the chance to see him, and apparently everyone wanted to see him, from those who thronged the streets of the cities and towns where he stopped, to those who came to the railside or stood at little flag stations in remote places, knowing their only reward could be a fleeting glimpse and a wave of the hand.

He has met and talked to all types of citizens—to men big in the business, financial and professional worlds, to farmers and mechanical workers, to Indians and cowboys and foreign-born herdsmen and rangers, to soldiers and to mothers who lost soldier-sons in the late war.

What do they all tell him? Unanimously they say they want peace definitely settled, they want no more wars, they want the League of Nations, and most of the American people, it may be fairly said, tell the President they want the League just as it is, without the reservations or amendments which certain senators have insisted upon. The majority of citizens say to those who interview them on this tour:

"Woodrow Wilson guided us rightly before and during the war with Germany. We entered that war, everyone agrees, to end all wars. He says the league can do that. We want to do that, so let us keep on trusting him and get the league into operation as soon as possible. Forget politics."

Most Americans encountered on the tour have forgotten politics. Republican Governors and Mayors have introduced the President to his audience; the Major part of the local committees which have met him have been Republicans. They have all said: "We are nothing but Americans, Mr. President."

Mr. Wilson's arguments for the league, briefly summarized, are those:

There can be no peace, either now or in the future, without it. There can only be a regrouping of nations and a new "Balance of Power," which is certain to lead to war. There can be no war in the future, with the league in existence, because no single nation would defy the united rest of mankind, and if it did, it could be brought to terms by an economic boycott, and without the use of arms.

There can be no reduction in the cost of living until the league is established, for nations will not go ahead with peace time production until they know that peace is definitely assured and that production of war material is no longer necessary.

There can be wonderful prosperity, with the league in existence, for relations of labor and capital all over the world will be made closer and more friendly, and the worker will receive a fairer share of what he produces.

These declarations of the president, logically and eloquently put, have left his hearers thinking and thinking deeply. And then Mr. Wilson has pointed out, the people themselves, as differentiated from senators and politicians, seem to want just what the president wants, which is America for leadership.

Quite as unusual as the purpose of the cross country tour is the manner in which it is being carried out and the completeness of the arrangements on the nine car train which is bearing the party.

At the rear is the private car Mayflower, occupied by the President and Mrs. Wilson. Next is a compartment car for the secretary Tunahly, Ad-

miral Grayson, Mr. Wilson's Physician, four stenographers, the chief executive clerk and seven secret service men. Beyond are three compartment cars which house twenty-one correspondents, five movie men, and a telegraphic and a railroad expert. Then there is a dinner, a club car, and two baggage cars, one of them converted into a business office. The train was exactly on time at every stop between Washington and the Coast.

TO FARMERS OF MITCHELL CO.

I have been requested to call a meeting for the purpose of organizing to market the cotton crop. Meet at the court house at 3:30 p. m. Saturday, September 19, 1919. We hope all farmers and bankers will be present at this meeting.
W. A. DULIN, Co. Agent.

THE RAIN.

The rain came Monday morning and continued Monday, most of Tuesday, and was cloudy and gloomy Wednesday and Thursday, threatening to rain more all the time. The rainfall in Colorado was 1.03 inches. In some parts of the county it rained as much as two inches. Wednesday night the north part of the county got a good rain. It is the general opinion that not much damage was done. Some say it will help late cotton. It delayed farm work nearly all the week. Cutting the feed crop was practically stopped and no cotton at all was picked this week. Everybody is ready to go into the cotton fields and with a few days warm sunshine the fields will be "white unto the harvest" and full of hands harvesting the big crop.

COLORADO SCHOOLS OPEN.

Many parents attended the opening of the public school Monday morning. Superintendent E. F. King gave a brief history of the school since he took charge two years ago. He said it had better standing among schools and colleges than ever before, and the outlook was the best for years. He praised the patrons and the Board of Trustees for their faithful work and cooperation in the past, and asked that it be as generously given this year. It is Mr. King's ambition to see Domestic Science, Manual Training and a Business Course added to the school.

Talks were made by Messrs. Keathley, W. W. Porter, Judge J. C. Hall, Rev. G. B. Duff and President of the Board of Trustees, J. M. Thomas.

As all work and no play makes Jack a dull boy, the Board has secured a lyceum course for the winter months.

The text books this year are free and many a boy and girl are going to have to break the habit of marking, or defacing books in any way, as those that are damaged will have to be paid for by the one who injures it.

Nearly all the teachers are new ones (a list of which was given in this paper two weeks ago), but come with good recommendations and good training, and are worthy of the support and cooperation of the parents.

Now is the time for parents to see to it that their children are promoted next summer. If they are there all the time and do the work required of them, there will be few, if any, failures at the end of the school.

STATEMENT

We wish to make a statement to our friends and grocery customers and in doing so we first wish to thank our friends and customers for their trade, kind words and other courtesies extended; assuring one and all we appreciate not only your trade but your good will as well. Our motto has always been "a satisfied customer." Our business from the very start has been even better than we expected, and for all this we most heartily thank you.

Now a Statement

On account of the high cost of living, the high price of groceries, the scarcity of and unheard of high priced labor we are unable to continue our free delivery as it is now done. A delivery boy costs \$100 per month, car upkeep about \$25 and all this must be added to your groceries. We have adopted this plan: From October 1st we will deliver groceries in bills of \$5 or up. Come to the store or phone us and make your order \$5 or more and it will be delivered.

We expect to stay in the grocery business in Colorado and will sell just as low as can be done. We handle only pure fresh groceries and ask for your trade on a square, legitimate basis—Live and Let Live. We are ever ready to correct any mistakes or errors made and will do our best to merit your trade. Advertising costs money so read this ad and come to see us at the store.

James P. Billingsley.

James Pollard Billingsley was born near Alvarado, Texas, August 3, 1859. He was the son of William Billingsley and Arvena-Kirkland, the father having fought in the Civil War with the rank of Captain. He resided in Johnson County until 1881, when he moved to Forrester, Ellis county. In 1890 he was married to Miss Willie McKiddy, and to this union were born seven sons. In October, 1897, the family moved to Scurry County and settled near Dunn, where he lived until the time of his death, July 30, 1919. To the time of his death he was president of the First State Bank of Hermleigh, Texas. Twenty one years ago he was converted in a camp meeting at Dunn and immediately united with the M. E. Church, South. Since that time he was an active, devoted christian. The passing of this good man was an occasion of great sorrow to the entire community, and his loss will be felt in outer circles as well. Prominent in business and religious affairs, his influence was strong and far reaching. He was active in promoting every moral reform and political issue for the betterment of home and country, and all that this community owes to the efforts of this godly man will never be fully known until time shall pass into eternity and all things be revealed before the great Judge of all. Brother Billingsley was a man of very positive character and principle, but so quiet and unassuming in speech and bearing that the real depth of his soul was known only to his old and intimate friends. His last days, though shadowed by sorrow and misfortune, gave the best witness to his real character, for he bore everything with that sweet patience and absence of bitterness that bespeak true godliness. May God bless and comfort the faithful wife and five many sons who survive him, and may they look forward with renewed faith to that great reunion across the river.—HIS PASTOR.

GREAT STORM DAMAGE ON GULF COAST

(Tuesday's Dispatches) A dispatch from San Antonio says telephone communication was momentarily restored with Corpus Christi Monday afternoon, and it was learned several deaths by drowning are believed to have occurred there.

It is reported water reached second stories of some business buildings. It is reported that the downtown section is under martial law.

Brownsville suffered no material damage from high winds accompanied by the tropical hurricane which touched the Texas coast early Sunday. The hurricane itself apparently did not hit the lower coast country. Point Isabel escaped without serious damage. Many frame buildings in the lower Rio Grande Valley were raised by the wind. Weather men believe the hurricane curved out into the Gulf again.

Port Aransas, 25 miles from Corpus Christi on the upper end of Mustang Island was completely demolished by the hurricane, according to a wireless dispatch, which said "Port Aransas was completely demolished. Custom office and all records lost." There have been no positive reports of loss of life so far. Port Aransas had a population of 400.

The telegraph and telephone companies have taken up the task of untangling the wire system on the Texas Gulf coast section from Corpus Christi to Brownsville. Meagre reports do not mention any fatalities.

The last word from Brownsville was that it was still raining.

Galveston has apparently recovered from the effects of the storm which caused three feet of water in the business district from tidewater. The seawall saved the city from great damage.

Street car service, the only Galveston public utility affected by the edge of the storm has been resumed. The water is entirely drained from the streets. Business is returning to normal and merchants are replacing stocks of goods.

Vessel traffic over the coast and from the mainland is resumed. There was no damage to shipping or docks along the water front and no reports of any losses at sea have been received.

Fear is expressed of probable loss of lives around Corpus Christi Bay as much low land is there. Former residents of Corpus Christi say if water was six feet deep in sections of Corpus as reported, it is likely many houses were washed away in the lowland.

Ample warning had been given residents of Aransas Pass and Port Aransas and they made their way inland. It is pointed out that likely their residences have been inundated as these places lie lower than Corpus. No wire communications had yet been established up to noon Tuesday, and the companies could not say when the lines could be reestablished.

Wednesday's Dispatches. The death toll in Sunday's storm will reach between seventy-five and one hundred in Corpus Christi and surrounding towns along the coast.

175 refugees were rescued at Odum, after they were carried across Nueces Bay on wreckage, suffering terribly.

Military relief trains from Brownsville with five thousand rations and one thousand beds arrived. Another relief train is now at Kingsville.

With troops patrolling the main streets and relief trains headed that way, Corpus Christi began slowly emerging from the wreckage caused by the hurricane, bringing death to an unknown number of persons and doing property damage running into the millions.

Over 3000 are homeless by the storm, but the coming of the relief trains, it is expected the homeless will be taken care of.

Volunteers began the work of clearing the streets of wreckage. Removal of the debris will take some time, as houseboats, fishing craft and flotsam of every description are piled high in all the main thoroughfares.

Reports from Odum, said the mayor of Sinton reported the bodies of 21 storm victims gathered in a school house five miles from Sinton. Another report from Odum was that Dr. W. C. Reinhart said the number of dead there and at Port Aransas and Portland might reach 2,000, and "it is estimated from 200 to 300 bodies drifted across the bay" from Corpus and other points. There is no way of confirming this report.

"Have plenty provisions for 24 hours. Have plenty of beds for the present emergency. Seven thousand homeless in Corpus Christi. Send food like meat, potatoes, meal, that can be cooked."

THE NEW ORLEANS MEETING.

Mitchell County was not represented at this meeting, but County Agent Jno. C. Wells, of Howard County returned Thursday from New Orleans, where he attended the cotton conference. Mr. Wells said he was disappointed at the small attendance but that the interest on the part of those that were present was good and he thought ultimately good would come from the movement.

The meeting fixed the minimum price cotton should bring in September at a minimum of 36 cents and with a rise of one-half cent each month until it reached 40 cents per pound. This price to be obtained by a holding movement and financing through a cotton corporation with the county as a unit. The cotton seed question was left to each State to work out for itself.

Mr. Wells says the crops are very poor from a few miles east of Dallas as far as he went and all the delegates from the cotton States, which were all represented, reported sorry crops except those from West Texas. It is his opinion from what he gathered that there would be plenty of cotton pickers loose in a few weeks but there is some doubt as to whether they could be induced to come to West Texas for a job. Other states are paying from 75c to \$1.25 per hundred to have their crop picked.

LONGFELLOW LOCALS.

Rain is the most discussed subject this week. How much it is going to rain and when it is going to quit.

The farmers had just started to gather their mammoth feed crop however, if it clears up and don't rain any more, the crop gathering won't be postponed many days.

Mr. and Mrs. E. R. Smith left last Friday to visit relatives in East Texas.

Quite a number of young folks attended the party up in the Valley View community Saturday night.

Mr. Sam Smith, another overseas soldier has returned to his home after a stay of about 14 months in the service. We are glad to see his smiling face again.

D. L. Beemann is making syrup this week and is giving warning to everybody to stay away, who do not want to get stuck up.

Longfellow singing class had with them Sunday the Valley View class. We had a fine singing and Longfellow welcomes these singers back any time and all other outside singers.

Dan Beeman says he has cotton so high that he will have to make him a ladder to pick it--that is if the army worms don't pick it for him.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

COTTON CLASSING.

Twenty-five cotton classing and marketing offices operated by the A and M. College, the U. S. Bureau of Markets and local associations of farmers and business men are now in operation in Texas, giving practical aid to farmers in classing and selling cotton.

Each office is in charge of an experienced cotton classer who will grade and staple all samples of cotton brought or sent to him by farmers, furnish reliable market information and advise and assist in selling cotton for its full market value, grade and staple considered.

Farmers anywhere in Texas may send samples of cotton to our nearest office for classing. Samples should be drawn from both sides of the bale and identified by card or tag containing bale number and owner's name and address. Send by parcel post or express to our nearest office, addressed, "Cooperative Cotton Office."

Farmers interested in this service

are advised to consult their county agent or write to cotton classers in charge of the office nearest them.

400 QUARTS OF WHISKEY.

A Galveston man was arrested Monday by Federal agents when he called at the H. & T. C. freight depot to claim a car billed as sweetpotatoes and consigned to him. The contents of the car was found to have been mixed, containing sweetpotatoes and whiskey. Agents estimate the car contained 400 quarts of whiskey, deposited in layers in the center of sweetpotatoes in sixteen barrels. At prevailing retail prices, the whiskey is valued at between \$8,000 and \$12,000. It is being placed in government storage.

STATE FAIR OF TEXAS
DALLAS, OCTOBER 6, 1919

TO WHOM IT MAY CONCERN.

Attention of all persons to whom loans were made for the purpose of buying feed under the provisions of Chap. 4, Acts of Fourth Called Session, 35th Legislature, and Chap. 22, p. 27, Acts 36th Legislature, known as the Drouth Relief Acts, that said money, together with the interest thereon, will be due on or before December 1st. This money was borrowed from the State by Mitchell County, and we have to pay interest on it and account for every penny of it. Our county has been blessed with the most bountiful crops in its history and therefore, let us not forget to clear up all obligations, as they can be met this fall without hardship. In case this money is not paid when due, it is the County Attorney's duty under the law, and he has been instructed to proceed to file suit on the notes given for same, and to foreclose the liens given as security. This notice is given that this important matter may not be overlooked by any one concerned. Payment should be made to the Tax Collector.

With Pat Neff and Bob Henry both in the race for governor next year the average Wacoite will be between a bad fix and the Brazos river. Both aspirants have their domiciles in that city.—Willis Point Chronicle.

The above condition of affairs will not bother the Wacoites for minute. Bob Henry cannot carry a ward in the city, a precinct in the county, and we doubt if a county in the state.

Recently a Boston daily with a large circulation printed an article about the British government having an agent in New Orleans buying up Louisiana mules and shipping them to England for the purpose of raising more mules. This is no worse than an incident closer home.

Saved again! Last Thursday just as the Record came off the press the force was wondering about a watermelon, as the stock had been exhausted, and while we were meditating upon the singularity of this occurrence, Mr. John Person, our efficient postmaster came to our relief with a big "yaller meated" melon and saved the day.

Having failed in every other way to decoy back to East Texas citizens who have moved to the Plains, the East Texas newspapers are now trying to turn the trick by publishing glowing accounts of bumper crops of possums and persimmons.

This is the hardest argument we have to meet. Crops, climatic conditions, pretty women, and plenty of money, has no charms when possum and 'simmons are mentioned.

Mrs. A. L. Whipkey, who had been appointed as historian, and had written the history of the Mitchell county chapter, which had been sent to headquarters, received a letter from the headquarters department very complimentary, as to the beautiful and concise style in which it had been gotten up, so much so that they asked for an extra copy that it might be filed in their offices.

Mitchell County is justly proud of her Red Cross history, and it is hoped that interest will not lag, but that the membership will be kept up, so that more local work may be done.

YOU ARE URGED TO LAY IN COAL SUPPLY.

Persons who use coal as fuel had better be warned about their winter supply. Government warnings have been sent out, and all the mine operators are doing their best to advise consumers, so that the suffering this winter may be as little as possible.

"In view of the labor situation, permit us to suggest that you urge your customers to lay in their winter coal supply now. The miners are getting very restless and indifferent about work everywhere, and we anticipate a demand for a new contract this fall, coupled with demands for enormous increases in wages which it will be impossible to grant, with the probable result of a long shut-down of the mines.

"This advice is not dictated by self-interest, but out of consideration for our customers and the consumers of our coal. Two years ago we foresaw conditions and advised our customers to lay in their supply early, which advice was not heeded, with the results that there was much suffering during the winter, when we were not able to supply the demand.

"We feel sure that we will not be able to get through the coming winter without a great deal of trouble, of the character above mentioned, with the probable result that we will not be able to supply the demand unless our customers begin to lay in their fuel supply very soon."

Two cars of coal are expected in this week. Place your orders now so it may be unloaded from the cars into your bins. O. LAMBETH.

A Coated Tongue? What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order.

as deadly as a snake's venom. The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation.

A blockage in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take castor oil or a pleasant laxative. RETURNED MISSIONARY.

Miss Nancy Lee Swan, who has been in China the past seven years as a Baptist missionary, is home on a furlough. She is resting and visiting her sister, Mrs. Geo. W. Smith, but was kind enough to talk for the people here Sunday morning and evening. At the morning hour her talk was mainly to the children, and as she talked on the customs and religions of the people, she illustrated with flags, pictures and garments. Every one was benefitted and inspired by her talk as she told of how the gospel was the one thing needful to these people and how, when they had received it, it transformed their lives. At the evening hour quite a number from other churches were present. Miss Swan compared the work in China to some of Paul's experiences in the sixteenth chapter of Acts. She said only those who had received the Macedonian vision, as Paul caught the vision, could hope to endure the fight, and win souls for the Master; and as in Paul's time there were all classes to deal with. As in olden times Jesus was the only cure. Under the faithful efforts of the missionaries the work goes slowly but surely on. Miss Swan read her morning scripture in Chinese and sang in that language also.

Y. W. A. AT HOME.

On Monday from 4 to 6 the Y. W. A. was at home at the home of the President, Mrs. J. H. Smoot, for Miss Swan, a returned missionary. Besides the Baptist women quit a number of missionary workers from the other denominations were invited, particularly the young women. A time was spent in conversation, then Mrs. O. B. Price and Mrs. Ed Dupree gave a piano duet. Miss Byrd Adams sang a solo. More music was given by Mrs. Price, and then Miss Swan very graciously told of her personal work and experiences. She had many pictures of the "friends" as she called those who came to her weekly meetings for instruction, or heart to heart talks. Miss Swan is a fluent speaker, consecrated christian worker and missions in China will mean more to Colorado people by her visit here. She told of her dreams for the future, when the \$75,000,000 campaign came to avictorious end and foreign missions would receive the help so badly needed. After the talk ice cream and angel food were served. The guests are grateful to the Y. W. A. for a pleasant and instructive afternoon. Miss Swan left Wednesday for San Marcos to visit another sister and from there to Tyler.

PICTURE SHOW EVERY NIGHT.

Mr. Charles Taylor, manager of the Best Theatre, informs us that he has made arrangements to open his theatre every night in the week. He has secured some of the best and latest pictures on the market, and is going to give the people of Colorado the best show for the money, of any place in West Texas. He will have only three pictures a week, showing each one of them two nights, that is one picture will be shown Monday and Tuesday nights; another one on Wednesday and Thursday, and the third one on Friday and Saturday, with matinee Saturday afternoon. The following is his program for the balance of this month:

Friday and Saturday, Sept. 19-20, Plaything of Passion.
Monday and Tuesday, Sept. 22-23, The Racing Strain.
Wednesday and Thursday, Sept. 24-25—Eye for an Eye.
Friday and Saturday, Sept. 26-27, Bill Apperson's Boy.
Monday and Tuesday, Sept. 29-30, Day Dreams.

CONDITIONS IN WEST TEXAS SOUND LIKE FAIRY STORY.

Something revolutionary is happening in West Texas this year and effects of it will be felt in every part of the State. Imagine about one-half of the area of a state the size of Texas suddenly coming out from under the shadow of the mortgage. That is what is happening this year.

There are several reasons why this startling change has been possible. First there were the oil leases which brought some farmers as much as the original purchase price of their land and brought all of them very welcome sums. To many it meant as much as half of a normal crop. Then came a labor shortage during the fall of 1918, which forced them to plant wheat. Having gone in for wheat they thought they might as well gamble strong and they planted all the land they could obtain. It was not difficult to rent land either for cash or on the shares during the fall of 1918, for many persons had gone away to work in munition factories. Not only scores of renters left but men who had made first and second and even third payments on their lands. A man who wished to plant wheat during the fall of 1918 would get all the offers of land he could possibly consider. Then came a wonderful year. The wheat prospered. Kaffir corn and milo maize

ful crops. The cotton looks good for a half to a bale to the acre, while many individual farms will make well above the average. The cotton crop may not be as large as usual owing to the labor shortage at planting time, but it is in excellent condition and now beyond the stage where much damage is to be feared.

It is seldom that any section of any state can report that all of its various crops have done well. But that is the situation in West Texas. With cheap lands it means that the purchase price of the land can be made back off one year's crop. That will be quite generally true all over West Texas. That is what has continually brought homeseekers from all parts of the globe.

West Texas can probably wipe out all of its land notes this year. In eight counties of West Texas the writer has asked bankers what percentage of the notes against farm lands could be wiped out as a result of this year's crops. In each instance the reply was that all of the notes could be wiped out and that beyond any question 70 to 90 per cent of them would be. This would mean something revolutionary in the way of results. As one banker said: "It will simply stop these drouths." Of course land notes have no effect upon the weather, but this is what the banker meant: If you own your land you average up one year with another.

and feterita are also making wonder if you do well one year you buy an automobile and if you do very poorly another year you permit the car to remain in the garage because you lack the money for gasoline and tires. But if you owe money on your land, and have borrowed other money for your crops and have a large open account for supplies and a bad year comes along you go out of business. You have gambled and lost. The drouth "gets" you and you leave West Texas, like every other pioneer country, carries a heavy burden of land notes. Thousands and thousands of the farmers of West Texas moved out from East Texas or Central Texas and made payments on cheap lands. Many thousands of them paid off their notes in years gone by, but the number who still owe is larger than the number of those who do not.

Kansas and Nebraska have been through the same period of struggle to get free from land notes that West Texas is now going through. And when those states were heavily mortgaged, they also had "drouths." One bad year meant bankruptcy and departure to quite a number of them. It would have to be a five or six year drouth to chase the man who bought some land "on time" in West Texas away.

The crop situation in West Texas this year is like a fairy story. Wheat has come up to most sanguine expectations; maize is making a tremendous crop, which is now being harvested. This crop is so large that a market must be found out of the state for many car loads of it. Oats have done well. The condition of the cotton crop is probably better than in any part of Texas. It is no fable that West Texas can show a bale to the acre in good years. This year stands unrivalled in the memory of the oldest settlers.

What all this means in the way of business for the town can best be understood when the statement is made that thousands of the people of West Texas were glad to have flour sacks to use as raw material for clothing last year. They are about two years behind with their purchases of wearing apparel. They have made any sort of old wagon or patched up automobile serve their needs. The harness is worn out. They need mules and barns and new gates. The chickens were sold off when the feed supply failed. The same is true of the turkeys. These were always profitable and the farmers will restock with the best breeds. Houses need repairing and painting. In brief West Texas is two years behind with its normal buying and it has more money to spend than never before in the history of that section of the state.

The relief to the banks in consequence of these activities will readily be understood. Old notes are being paid and the way is being prepared for investments in those farm improvements which add directly to the value of the place as a "ging concern." Money will be available and seeking the borrower.

What the present condition means to the lumber and building trade is best set forth by the fact that many firms are not looking for any credit business at all. They can sell all the lumber they can get for cash. A thriving business has sprung up in West Texas for buying cottages that are not very desirable, tearing them down, shipping the lumber to some such point as Wichita Falls and building houses of modern pattern. The profit comes from the fact that the older houses have good lumber in them which is much cheaper than new lumber can be bought for today.

An interesting fact about West Texas farm lands is that they never show a decline in value for a period of five years. Let whatever obsta-

cles come that may, land values forge their way upward year by year. Last year much land could have been purchased in West Texas at a heavy sacrifice. West Texas is noted for its good years as for its bad years, but it has never had a good year to compare with this. The prediction is made by conservative men that this year will mark a great era in the whole section of the state because so many million dollars worth of land notes can be absolutely wiped off with the proceeds of one crop. Once that is done, they think the day of uncertainty for West Texas is over that a bad year will be merely a matter of casual comment, that there will never again be an exodus from West Texas to compare with that of 1918.—Fort Worth Record.

THE TEST THAT TELLS.

Is The Test of Time... Many Colorado People Have Made This Test.

Years ago this Colorado citizen told in a public statement, the benefit derived from Doan's Kidney Pills. The statement is now confirmed—the testimony complete. Instances like this are numerous. They doubly prove the merit of Doan's Kidney Pills. Can any Colorado reader demand more convincing proof? It's Colorado testimony—it may be investigated.

J. H. Cooper, prop. of blacksmith shop, Oak St., gave the following statement November 4, 1915: "I have used Doan's Kidney Pills several times in the past for trouble with my back. From the results I obtained I think they are a good, reliable remedy. I purchased this medicine at Doss' drug store and I gladly recommend it to anyone suffering with their kidneys."

On April 12, 1919, Mr. Cooper said: "I can still recommend Doan's Kidney Pills as highly as I did when I endorsed them in 1915. Doan's certainly benefited me a great deal." Price 60c at all dealers. A WARNING.

Messrs James Sproull, president, and J. A. Rountree, secretary, joined by the executive committee of the Board of Directors of the Bankhead National Highway Association, Inc. announce that no one has been authorized or has authority to authorize the publication of an official log and route book from Hot Springs, Arkansas to El Paso or from any other town or city using the name of the Bankhead Highway. No one is authorized to solicit advertising or collect money for said purpose and the public is warned against patronizing such solicitors. The executive officers have had more than a dozen propositions to issue an official log and route book, but have declined all offers from the fact that no official map, route or logging book could be issued until the route was officially settled from Washington to the Pacific. When this is done an official and authorized map showing all routes and a log and route book will be issued by authority of the Board of Directors and ratified by the Bankhead National Highway, Inc. All so-called official maps so-called route and logging books that use the name of the Bankhead Highway in anyway or in connection with any route are without authority.

PLAN FOR FARM HELP.

The farmers of Jones county, at Stamford and vicinity held a meeting for the purpose of planning and arranging further for labor to gather their cotton and maize crops. Both there and at Hamlin they have agreed to pay \$1.50 per hundred for cotton picking and have pickers board them selves. Laborers are receiving \$3 to \$4 and board in that county for heading maize. Men, women and children are working over time to save this enormous feed crop as all have a strong realization of days when no feed was made in that county.

If your child is pale and sickly, picks at the nose, starts in the sleep and grinds the teeth while sleeping, it is a sure sign of worms. A remedy for these parasites will be found in WHITE'S CREAM VERMIFUGE. It not only clears out the worms, but it restores health and cheerfulness. Sold by all druggists. Adv.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

Life

The simple lass.
 The broken working man.
 When life entered the door.
 Only a gutter bum.
 The woman who knew no shame.

By W. Alexander Imlay

She was only a simple girl from the country. She entered the big city in the hope of earning enough money to give her the clothing of the fashion plate ladies and movie queens. Perhaps she came with the intent of making herself useful in the world.

She got a job. It was work, if that constitutes a job? She slaved nine hours a day behind a counter or possibly she stacked matches in boxes—no matter she got the job.

And the salary, magnificent—\$10 a week. The clerks in Perkins' store back home only got \$6 but then she was ignorant as yet you see.

So she drifted along until one fine night she found herself hanging over

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes Into Sour Bile, Making You Sick and You Lose a Day's Work

Calomel salivates! It's mercury Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it. Adv.

the railing of the river bridge, pocketbook empty, hungry—contemplating a leap from the bridge—or worse.

Then there is the working man. He knows no trade for he grew up in untrammelled America where one is permitted to do as he pleases. An indulgent father had not insisted on him learning anything useful. His mother upheld him in idleness.

Possibly the father went broke. Possibly he never had anything. At least we find our hero at forty, discouraged, knowing no trade, on the bum.

A bad season strikes his section of the country. He has no money, no friends. Then we find him—where?

Riding the rods to a better land, in jail and out, a knight of the cinder trail.

The poor man comes one dreary night to a cold home. He is out of work. He knows no friends. His children are huddled around a stove in which the last embers are dying. A small girl of four weeps for food.

A mother in the next room—there are two rooms—lies in a bed of old blankets and ragged great coats. She is moaning in pain.

A little life is to come into the world before many hours have passed. There is no doctor, no provisions. There is no fire, no light.

In despair the man goes into the night stumbling against the cold wind seeking assistance in his trouble.

There is a gutter bum who has no knowledge of how loathsome he really is. Drunken, abused, kicked and cuffed he dodges all human beings.

Like a trounced dog he avoids people yet he must seek them. At last he decides that he is down and out. He goes down the street with longing in his heart. He longs to tell some one how he despises self.

He has reached the turning point. Will some one hold out a hand?

Ha! ha! he laughs. He knows the world.

Then there is the woman without shame. Christ had compassion on her kind but she has come to think that no one else had. Harpy like she plies her way about the streets of the great city.

Her cheeks are incarnadine. Her soul is as red as her painted lips. Her eyes are as full of guile as the misshapen mind.

Unloved, much caressed, hunted, a

prey upon society she comes to the last step down, then she finds gold in her heart. Does anyone else find it?

So they run through the annals of life. But here is what happened.

The simple girl went to a clean boarding house and after a few years made good. She blossomed into a flower of pure womanhood.

The workingman went to working man's hostel. He was given shelter and clothing with food as the lowly Nazarene commanded. He learned a trade and became useful. He became a producer.

The poor man sent his wife to a maternity home where she received good care. His children were sent food, clothing and fuel.

The gutter bum was offered a chance at self rehabilitation. He made good. He quit drink, got a job and was useful.

The harpy was sent to a rescue home and became a woman. She who was old only in experience again learned the simple love of a child. She was saved for the world.

Each was saved through the Salvation Army and its organizations for mankind.

HUDSPETH BILL GIVES BILLION FOR ROADS

A Federal appropriation of \$1,000,000,000 to construct new highways in co-operation with the several states is provided in an amendment to the federal good roads law introduced by Representative Hudspeth. The measure appropriates \$250,000,000 a year for the fiscal years of 1921, 1922, 1923 and 1924. Hudspeth's measure stipulates that when bonds have been voted by counties and the Commissioners Court have designated competent engineers to superintend the good roads construction, the Secretary of Agriculture who administers the fund, shall immediately set aside from the federal fund a sum equal to that voted by the counties; also that this fund shall be immediately available. A provision that applies particularly to Texas because of the large sums recently voted in that State of the highway construction provides further that the first State voting as much as \$75,000,000 in bonds for the construction of public roads shall be first in the distribution of the Federal fund.

Uvalde Bank is Selling Large Amount of Registered Treasury Savings Certificates

First State Bank 48-340 No. 271
Uvalde, Texas, Aug-16-1919
Federal Reserve Bank, Dallas, Tex. \$33,520.00
THIRTY THREE THOUSAND FIVE HUNDRED TWENTY DOLLARS
To Dallas Trust & Savings Bank, Co. Dallas, Texas
George E. Brashear, CASHIER

Residents of Uvalde, Texas, are demonstrating their financial wisdom by investing heavily in the attractive new Registered Treasury Savings Certificates. The above check represents sales made in a single day through the First State Bank of Uvalde of which George E. Brashear is Cashier.

This check for \$33,520 bought forty \$1,000 Registered Treasury Savings Certificates, or in other words, \$40,000 worth. The purchasers made \$6,480 by investing in August when the cost of each \$1,000 Certificate was \$838. They showed good business foresight. The price is only \$840 for September.

You can buy the new \$1,000 Registered Treasury Savings Certificates from banks and trust companies and the \$100 Certificates from first and second class postoffices as well as banks and trust companies. The \$100 Certificate is blue in color, the \$1,000 Certificate being maroon, and both are somewhat similar in appearance to the Liberty Bonds, although considerably more attractive. They are convenient to handle, may be cashed on ten days' notice if desired, in which event the interest to the date of cashing is paid in addition to the principal.

Buy your Registered Treasury Savings Certificates today. Have the satisfaction of owning one of these unexcelled securities. No one person can hold more than one \$1,000 Registered Treasury Savings Certificate or more than ten of the \$100 Registered Treasury Savings Certificates.

-W. S. S.-

Bankers Declare These Very Best Securities That Money Can Buy

Hundreds of banks over the Eleventh Federal District have already invested in the new \$1,000 Registered Treasury Savings Certificates and more orders for them are being received every day by the Federal Reserve Bank at Dallas. Bankers are practically unanimous in declaring these new \$100 and \$1,000 Registered Treasury Savings Certificates the best securities the Government has ever offered.

Individuals, corporations, cities, counties and school districts are also buying these Registered Certificates in large numbers. The State of Texas was one of the first purchasers, State Treasurer John W. Baker getting \$500 worth for each of two State funds. The law does not permit more than \$1,000 (worth, maturity value), to be held in any one name, but each member of a family or firm, each director in a bank or corporation may hold that amount.

The \$100 Certificates may be purchased at all first and second class postoffices and from all banks and trust companies, while the \$1,000 Certificates are obtainable from banks and trust companies only. Each Certificate is registered in the buyer's name when issued and the buyer's name is also inscribed on the face of the Certificate.

Bearing interest at 4 per cent, compounded every 90 days, and maturing January 1, 1924, these Registered Treasury Savings Certificates form an ideal investment. They are exempt from taxation, insured by the Government against loss and may be cashed on ten days' notice. War Savings Stamps of the 1919 issue may be converted into these Certificates if desired.

The cost price for the \$100 Registered Certificates is as follows: August \$83.80; September \$84.00; October \$84.20; November \$84.40; December \$84.60.

The cost of the \$1,000 Registered Certificate is only \$838 for August; September \$840; October \$842; November \$844; December \$846.

The Government will pay the full face value of these Registered Treasury Savings Certificates on January 1, 1924, or the amount invested with accrued interest if the holders want to cash them before that date.

Wise, invest in the new Registered Treasury Savings Certificates.
-W. S. S.-

Take Active Part in Fight Against High Living Cost.

Fight the high cost of living by avoiding waste, buying carefully, saving what you can and investing this saving in Registered Treasury Savings Certificates or War Savings Stamps. Work and save! This is doubly wise at this time as not only is the money being saved and put to work making interest, but dollars with low purchasing power now are being invested with a certainty that they will buy more later on.

The dollar today will buy less in groceries, clothing and other necessities than at any time since the Civil War. There is every indication, however, that prices will be more normal in a few years. The dollars invested in these new Registered Treasury Savings Certificates which have just been issued by the U. S. Government, or War Savings Stamps will not only buy more five years from now, but will bring the interest earned with them when returned to their owners. Save all you can and put the dollars you save to work for you. You will find you are making good progress this way in giving old "H. C. L." his death blow.

GREATEST OF ALL POWERS

Wealth, Ancestry, Genius, and Knowledge All Pale Before the Wondrous Magic of Beauty.

The magic of beauty is more potent than was that of Simon Magus or of Paracelsus. Beauty is a different thing from ornament, which may be the disguise of ugliness. It is a gift for which no artificial attractions can ever be a substitute. It is a power greater than birth, wealth, knowledge or genius.

People may be proud of their birth, but after all we are not our ancestors. The rich man may transmit his wealth to his offspring, but it may be all wasted in a single generation. Knowledge may be a satisfaction to its possessor, but has it not been said that "the more a man gaineth of knowledge the more he gaineth of sorrow?" Genius, although it wins admiration, may be an obstacle rather than an aid to success in life. Burns and Poe and Bandelair had genius, but it did not bring them any worldly advantage.

Beauty, on the contrary, is a key which opens all doors. It shines on the world like the sun, and its influence is universal. In Emerson's words, it is "its own excuse for being." To be beautiful is to be worshiped, adored, caressed, and adored. The plain, good people may protest against the injustice of a world which prefers beauty to virtue. But the fact remains—Rochester Post Express.

CONGESTION OF FREIGHT AT FORT WORTH

Warehouses, sheds and depots in the Fort Worth railroad yards are being packed tighter and tighter each day with household goods, tractors, machinery and other light and bulky freight. Unless freight is removed from all freight depots within forty-eight hours after notice of arrival is given the consignee, these goods will be removed to private warehouses.

Railroads have been unable to induce the consignee to accept his goods. This freight blocks up the warehouse and prevents merchandise and shippers from getting their freight into or out of the depots without great delay. It also prevents the movement into Fort Worth of a large number of cars of merchandise which are being held back. It is estimated that in the Katy yards alone there are now approximately 100 cars of merchandise which cannot be gotten into warehouse tracks to be unloaded.

SPECIAL AGRICULTURAL PREMIUMS AT VICTORY FAIR

HUNDREDS OF DOLLARS OFFER
ED BY ENTERPRISING
CONCERN.

Special cash premiums aggregating \$300.00 are offered for the best agricultural displays by the Texas Land & Mortgage Company, Ltd., of Dallas, divided as follows:

For the best county exhibits, first premium \$75.00; second \$50.00; third \$40.00; fourth \$35.00.

For the best and most diversified exhibit of corn, cotton, small grains, and any other farm products from one individual farm of 80 acres, or less in Texas, crop of 1919, first premium \$30.00; second \$20.00. For best display from farm over 80 acres, first \$30.00; second \$20.00.

The Dallas Cotton Exchange offers \$500.00 for the best bale of cotton grown in Texas in 1919, grades from middling to good middling to be considered as follows: 1 1/4 inch staple \$250.00; 1 1/2 to 1 3/4 inch staple \$150.00; 1 3/4 inch staple \$100.00. Bales intended for this contest should be shipped to Shippers Compress & Warehouse Company, Dallas, Texas, to arrive not later than Oct. 4, 1919. Notice of shipment should be sent to N. W. Nolley, Secretary Dallas Cotton Exchange, Dallas, Texas.

These special premiums are all in addition to the \$10,000.00 appropriated by the State Fair at Dallas—\$5,000.00 for county displays and \$5,000.00 for individual farm displays.

Now is the time to prepare samples for these contests.

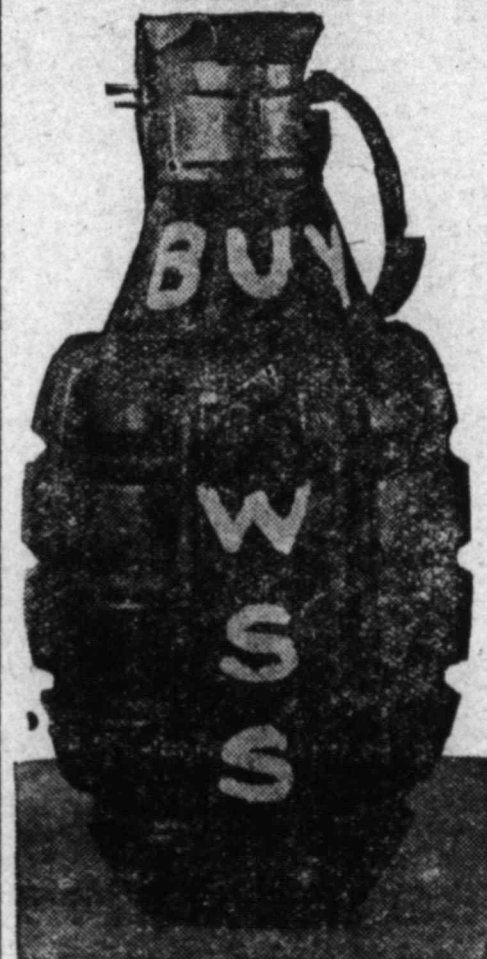

Chamberlain's Cough Remedy.

This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. Wm. Scruby, Chillicothe, Mo., writes, "I have raised three children, have always used Chamberlain's Cough Remedy and found it to be the best for coughs, colds and croup. It is pleasant to take. Both adults and children like it. My wife and I have always felt safe from croup with it in the house." Chamberlain's Cough Remedy contains no opium or other narcotics.

It's a Hand Grenade; Is Rarest Souvenir of Great World War

Hammering the Hun line until it bent and broke, bearing the Kaiser and his clans down to inglorious defeat, the American soldiers used one weapon in greater numbers than any other. It was a weapon they had never used before, one that had been obsolete for centuries—the hand-grenade—but when the brawny lads from the U. S. A. sent the old "eggs," as they were called, spinning into dugout and pill-box, the only Boches remaining on the ground were those ready to be buried.

Grenades were known to have been used five centuries ago. In 1427, at the siege of the Fortress of Casamaggiore on the River Po in Italy, the defenders used a primitive grenade, made of a glass bottle filled with powder. For a time, grenades were made out of heavy paper, then out of glass and then out of metal. With the close of the eighteenth century, the grenade began to be discarded and little use had been made of it until the Russo-Japanese war in 1904.

It remained for the Great World War to see the grenade developed into its present efficiency. The grenades used by the American doughboys were as carefully manufactured as their rifles. But the end of hostilities found a limited supply on hand and these were turned over to the Savings Division of the Treasury Department, the explosives extracted and they have been made over into savings banks.

Thus a weapon of war has been transformed into a "weapon of peace." Instead of being used to battle the Hun, it is now being used in the fight against the High Cost of Living and the arch-enemy, Thriftlessness. Any boy or girl can secure a grenade by purchasing a \$5 War Savings Stamp; any adult by investing in three or more War Savings Stamps, but these must have been bought after July 15, 1919. These hand grenades will be distributed through local banks and by a few merchants.

If you want a grenade, get busy. Make arrangements with your banker immediately. Only a limited number of these rare and unique souvenirs of the World War could be secured and when they are gone there will be no chance of obtaining one. You don't have to wait until the grenade is received to begin saving. Do that now. Then when the grenade arrives you will have that much of a start toward owning it. Ask your banker about it today.

Buy War Savings Stamps regularly. After you get your grenade, keep on buying. Don't let your "weapon of peace" remain idle.

Limit Baby Loans Money to Uncle Sam

Emil Vaughan Szaflir

While this tiny lad is ringing the bell he holds in his hand, Uncle Sam is working for him. The lad, only 18 months of age, is Emil Vaughan Szaflir of Beaumont. He is the son of Mr. and Mrs. Alex Szaflir and the grandson of Mrs. Eva Vaughan.

Shortly after Emil was born, \$1,000 worth of 1918 War Savings Stamps were bought for him and his parents and grandmother have now added \$1,000 worth of the 1919 issue of War Savings Stamps to them, so the beaming baby belongs to the Treasury Department's W. S. S. \$1,000 Savings Club for both years.

War Savings Stamps and the new \$100 and \$1,000 Registered Treasury Savings Certificates are ideal gifts for every one and especially for children of tender years. The baby does not understand that he is being given a present, no matter what it is—his little mind cannot grasp it. But when he becomes older and is told that Father and Mother, Grandmother or Uncle John gave him a Registered Treasury Savings Certificate or \$1,000 worth of War Savings Stamps or smaller amounts in the same securities, he will appreciate the gift far more than if it had been some toy which he had already destroyed.

The new \$100 and \$1,000 Registered Treasury Savings Certificates may be purchased for the baby and registered in his name and will thus be a reminder to him in years to come that, although young, he helped finance the Government when it was in need of help. Stake your children for the future! An investment in Registered Treasury Savings Certificates or War Savings Stamps means a college education or a start in business.

Sipe Springs Oil Money Is Going into Safe Investments.

Bringing in of new oil wells at Sipe Springs, Texas, naturally brought large amounts of money to many of its inhabitants and a goodly portion of this has already been invested in Registered Treasury Savings Certificates, which have just been put on sale by the U. S. Treasury Department. The State Bank of Sipe Springs and three individuals each bought a \$1,000 Certificate on the same day. On the first of August, enough \$100 and \$1,000 Registered Treasury Certificates were held in Sipe Springs to represent \$6 invested by every man, woman and child in the town and the surrounding township. This money is now safe, is earning interest for its owners and can be turned into cash, with the interest, if desired. The new Registered Treasury Savings Certificates can be gotten from banks and first and second class postoffices, so can Government War Savings Stamps.

WOULDN'T TAKE A FORTUNE FOR IT

All Her Friends Come To See What Tanlac Did For Mrs. Lynch.

"I wouldn't take a fortune for the good Tanlac has done for me," said Mrs. A. F. Lynch, of 144 Central St. Galesburg, Ill., recently.

"I suffered from stomach trouble for about five years," she continued, "and hadn't been able to eat a regular meal for several years, and during this time I suffered awfully with cramps, dizzy spells and terrible throbbing headaches. I was often troubled with gas on my stomach that bloated me up so I could hardly breathe. I also suffered with my kidneys and was so constipated that my condition alarmed me at times, for I just didn't seem to be able to get any relief from this trouble. I was never free from a dull, aching pain across the small of my back and got so weak and rundown that I was laid up for as much as a week at a time."

"Tanlac has done me a wonderful amount of good; I eat three meals a day now and am never troubled with indigestion, bloating or headaches. My kidneys don't worry me and I am not constipated now. My condition has improved so I can do all my housework. I am perfectly well in every way and people who have heard about my recovery come to see if all they hear is true, and it don't take me long to convince them of the facts."

Tanlac is sold by all druggists everywhere.

A letter from Dr. Root at the Laboratory of Surgical Technique in Chicago says to send him the Record. He will go to the Mayo Clinics at Rochester, in about ten days. In his postscript the doctor says "cotton up here must have all been hailed out—anyway none up yet."

Judge R. H. Looney after a two weeks sojourn in New York City, principally on Wall Street, returned home Tuesday morning. Judge Looney said the crowded condition and late trains all show the dislike of the public as to Government ownership of railroads. He reports it dry and poor crops east of Dallas and especially east of Texarkana. He says he found plenty of money in New York, and anybody can get it with the proper collateral. He spoke very complimentary of the financiers and said he had a good time and secured all the backing necessary to handle Mitchell county's five million dollar cotton crop.

FOR SALE.

I am offering my 76 acre crop for sale. 58 acres in cotton, making from a half to a bale per acre; 18 acres in Feteretta; all on sandy land, near Car school house. Will take Ford car in as part payment, but no blunderbus wanted. Write, phone or see B. F. CARTER, Iatan. 103c

TAKE

CARDUI

The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women! It should help. "I was taken sick, seemed to be . . ." writes Mrs. Mary E. Veste, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around. . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

MEXICO WILL EXHIBIT AT THE VICTORY FAIR

INVITATION EXTENDED BY DIRECTORS THRU CONSUL FLORES ACCEPTED BY PRES. CARRANZA.

The Republic of Mexico, for the first time in history, will make an official Government exhibition at the Victory Fair.

Mexican Consul Flores, of Ft. Worth and Dallas and W. H. Stratton, Secretary State Fair of Texas, originated the idea. Signor Albino R. Nuncio, of the Mexican Industrial, Commercial & Labor Department, made a trip all the way from the City of Mexico to Dallas, a few days ago to complete arrangements. Signor Nuncio is an expert in preparing displays for exhibitions. He had charge of the Mexican Government's exhibition at the Pan-American Exposition at Buffalo, N. Y. and at the Panama-Pacific Exposition at San Francisco, California.

The display at the Victory Fair will consist of agricultural, industrial, official, and artistic exhibits. Pottery, Indian Blankets and wicker-ware are among the commodities, in many different sizes, color combinations and unique designs that are made by the Mexicans and the Indians of Mexico, that will be shown.

The Dallas Trade Trippers, who visited Mexico recently, inspected their national museum of commercial and industrial arts. They are filled with admiration for the many interesting and handsome articles they saw there. Many of these, together with a famous Mexican art loan collection, it is planned, will be shown at the Victory Fair at Dallas in October.

One, or more, of their excellent Police, or Army Bands, may come. Secretary Stratton has sent a special request of this nature to President Carranza.

Twenty thousand square feet of floor space have been set aside for the Mexican Government exhibition. Advices have been received that thousands of representative Mexicans will attend the Fair. At this time an immense amount of business can be transacted between Mexicans and Texans and many cordial personal friendships will then be made.

Origin of Sea Serpent.

Professor D'Arcy Thompson, during the course of a recent lecture at the London Royal Institute, said that he had no doubt that the cuttle-fish was the strange beast which the ancients had named the sea serpent. They must have seen it during one of its playful gambols, and have mistaken its wedge-shaped tail for the head of the serpent, and the end of one of its enormously long arms for the tip of the serpent's tail.

No story of ogre, giant, or witch was more strange and terrifying than the cuttle-fish or octopus. Nevertheless, the cuttle-fish's "bone" had homely associations. It was used for pet canaries to pick at, and for lawyers to clean up parchment. It was also used to polish the doors of carriages.

ON GLORY'S TRAIL

By Billie Pierson

I went to sleep the other day—'twas quite unusual, by the way, for I believe that it is right to do one's slumbering at night. However, strange as it may seem I slept—and sleeping, dreamed a dream. (Here it is): I journeyed to a little town—a village of no small renown, a place of pleasure, pride, and joy for man or woman, girl or boy. It seemed that each one wished to do things only that were good and true, so it was natural to feel that living there would be ideal. The homes were all so clean and neat; no painted girls were on the street; the parks were free from dirt or shirk; no ragged bums were hunting work; no ragged children, dirty, rude, were seen to steal or beg for food; no grimy clothes, no rags were seen for everyone was neat and clean.

'Twas wonderful—then I awoke. Said I: "That dream was not a joke." How'er unreal it all may seem the dream I dreamed was NOT a dream. Salvation Army centers see this dream of mine a reality. The poor are helped, the hungry fed, the bum is given food and bed while factory girl, or bum or clerk—all who apply are given work. A home of rescue for the stray who's somehow lost the better way; all this and more these workers do to make a town ideal for you.

And now's a chance for you to do as you would have others do. Add dollars to the home campaign—your money won't be spent in vain.

Wood Visits in Ardmore
Lieutenant Colonel George Wood made a trip to Ardmore, Oklahoma, last week for the purpose of addressing the Rotary and Lions' clubs in a joint meeting with the Chamber of Commerce. The Ardmore boosters have raised their quota from \$10,000 to \$25,000 for the home service fund. They will build corps barracks with the money.

"UNTHINKABLE" SAYS DANIELS

Secretary of the Navy Nonplused at Criticism of Y. M. C. A.—Proved Heroism.

The war work of men in the uniform of the Red Triangle who followed the flag wherever it went proved their heroism and devotion on the battle front and were always present to serve and comfort the American fighting men, says Josephus Daniels, secretary of the navy, will remain an enduring monument to the Y. M. C. A. "It is unthinkable," he declared in a letter to the "Y" war work council, "that criticism of minor defects here and there should be allowed to cloud for a moment the splendid record made by this great association."

His letter, recently made public by the Y. M. C. A., follows in part: "Only those who were brought in intimate contact with it, and could survey the whole field, are able to appreciate fully the great extent and value of the Y. M. C. A.'s work for our soldiers and sailors. In camps and training stations, at home and abroad, at the fighting front, on transports and at naval bases, it cheered and aided our fighting forces. Its halls and huts were not only social centers, furnishing wholesome recreation and amusement, but were places for mental improvement and moral refreshment. They were bits of America set on foreign soil, reminding the boys of the homes from which they came."

"The men of the Red Triangle followed the flag wherever it went, and were there to serve and comfort our brave boys. They proved their heroism and devotion on the battle front, a number being commended for bravery, and several sacrificing their lives in the line of duty."

"It is unthinkable that criticism of minor defects here and there should be allowed to cloud for a moment the splendid record made by this great association. No big undertaking is ever carried out without some imperfections, and no organization engaged in such a stupendous work, employing so many men over a vast area, could expect to carry it through without making some mistakes. But so far as I have been able to determine, these have been few and hardly enough to be considered in comparison with the magnificent service rendered."

(Signed) JOSEPHUS DANIELS.

THE BANKHEAD.

Efforts will be made to have the Bankhead National Highway incorporated in the Townsend-Bankhead Bill which is now pending in the U. S. Senate, according to J. A. Rountree, secretary of the Bankhead National Highway Association, which has actively advocated for the past four years the building of this transcontinental highway, which starts at the steps of the capitol in Washington, traversing twelve southern and western states on to the Pacific coast. This highway is the only transcontinental highway that can be traveled 365 days in the year, and is the only highway that links the North, South and West together for this all year travel. A majority of the Senate and House of Representatives of the U. S. Congress live on the route or in the states which this highway traverses. It is the plan and desire of the Bankhead Association to secure an amendment to this bill which will insure the Bankhead National Highway will be one of the first highway built under this bill which directs that highways will be linked from state to state. This has been done in the case of the Bankhead, by the State Highway Commissions and the State Legislatures officially adopting and linking it in nearly every state, which it traverses. The Townsend bill provides for the establishment of a Federal Highway Commission to have control of all highway work of the government. It calls for appropriations of \$425,000,000 of which \$50,000,000 becomes available upon the passage of the act, \$75,000,000 for the fiscal year 1920, and \$100,000,000 for each of the succeeding fiscal years. Section five of this bill provides for a national system of highways at federal expense.
