PROSPERITY PREVAILS.

Peace, Happiness, Prosperity and Contentment Abound in Mitchell County in this Good Year

Prosperity, spelled with a big P, abounds in Mitchell County. The biggest crop in the history of the county is now being harvested. Maize cutting from one to two tons per acre; cotton promising a bale, with a good price; sweetpotatoes 150 bushels and selling at \$3.00; corn estimated at 40 bushels, etc. Everything that was planted grew and yielded in boundless profusion—some an hundred fold, and some a thousand fold. There is hardly a crop in the county but that will more than pay for the land on which it was grown.

Farmers are working day and night to harvest the crop. High prices prevail for labor and not nearly enough men to do the work.

Cotton is in fine condition; lots of it open but few pickers.

Business in the towns are picking up; and merchants are taxed to their utmost to get goods in stock to serve the greedy buyers.

Nobody looked for such unprecedented prosperity to come so quickly and nobody was prepared for it.

The last few Saturdays not a business house in town from barbers to banks, could wait on the trade. No one has help enough, and it cannot be secured.

The Record force is working from three to six hours over time and we are away behind with orders now, and the same condition prevails all over the county, with almost every business.

Last year when the west was getting such an array of criticism. When the writers in the daily papers in the east were telling of the awful conditions of the west. When they were picturing the people of the west as in destitute circumstances, unable to stay and unable to go. When they were writing column after column about the devastated condition of the west and predicted that its doom was forever sealed. That there would never be a day that people would ever think of coming back here to live, we thought they were doing us a grave injustice, but in place of that it was probably the very best thing that could have happened to bring this great rich, productive country into the eyes of the people. Every prediction that this country would never come back has fallen flat, and proves that the writers thereof knew nothing about the great west.

The drought was broken last fall and with one crop season this county has redeemed itself, and shows that no country in the world can come back and recover from a severe drought as rapidly as the great Colorado country, and Mitchell county in particular.

This is one year when the bankers will make their collections.

This is one year when the farmers can pay off their land notes and buy an automobile.

This year our people are handling 10 and 20 dollar bills, instead of 1s and 2s as heretofore; and in a few more weeks, every boy and girl, every Mexican and negro, will have their pockets full of money.

This is the year when the farmers and laborers can dictate to the banker and the merchant.

This is the year that everybody can pay their subscription to the Record, no difference how far behind they may be.

Old man Prosperity is here with a big P, and everybody is in the mad rush for what's in sight and grasping for more. Great is the West—Come to Mitchell county.

MITCHELL COUNTY MARKETING ASSOCIATION

The farmers of Mitchell County met at the court house on Saturday last, to organize and form a county cotton marketing association.

Mr. R. C. Morgan presided at the meeting, and after the object of the meeting was explained and considerable discussion was had; the organization was effected by electing officers.

A. C. Gist, President.
Jim Watson, Secretary,
W. J. Adams,
Sam Curry,
H. C. Hines.

These five men were made an executive committee or advisory board, and the business of the association turned over to them.

It is the purpose of the Association to secure a cotton classifier or grader and for the farmers to pool their cotton, and sell only in 100 bale lots. It is set forth that buyers can and will pay more for the cotton in 100 bale lots than by the single bale. The grader will grade each bale and advise the price that day on that grade, so the farmer will know just what he has, and what it is worth.

For the present Mr. Roddy will do the grading and the yard tickets will be held in the bank until 100 bales accumulate, when it will be sold if price is satisfactory. It is the intention to make two sale days a week, say, Wednesday and Saturday. The owners of the cotton need not be present on sale day as they already have the grade and price. Each man can go into the pool or not, just as he likes.

THE RAIN.

It has rained so much and so long since our last issue we have lost track of the days that it didn't rain; and we hardly know what to say, unless we use the same expression that Hiram Snyder did this week when he was run over by a bunch of mules.

The rainfall for the month, up to Wednesday morning as reported by E. Keathley, U. S. weather observer, was as follows:

15th.....	.34
16th.....	.69
19th.....	1.03
20th.....	1.35
22nd.....	.02
23rd.....	.13
24th.....	.11

Making a total of 2.67 inches so far this month, but was still raining when we went to press Thursday.

More than half the feed stuff is yet in the fields and but little cotton has been picked. Thousands of bales of cotton is now open waiting for fair weather. Farmers say the rain has done but little damage, except where feed had been piled on the ground to cure. So far cotton is not injured, and with a late frost the young cotton has been benefitted. Late June corn and late feed is making more to the acre than did the early crop, which is going some.

With favorable weather from now on, the largest crop will be harvested ever made in Mitchell county, and acre for acre, we believe as large a crop as was ever made in any one county in Texas.

L. L. Franks says he has gathered 1 1/2 bales off of three acres, first picking. D. L. Buchanan says he has 12 bales open ready for pickers. Everybody is waiting for sunshine, but at this writing it is dark and gloomy, with continued drizzles. The press dispatches report big rains all over the South.

BULLS FOR SALE.

I have for sale a full blooded registered Holstein bull. Strain from world's record stock. This bull's mother had a butter record under test of four pounds per day for seven days and his grand-dam a five and three-quarter pound test. He is good conditioned, not breechy, and easily handled. Must sell to avoid inbreeding. Price \$175.00. Also one Holstein bull calf, four years old, subject to, but not registered at \$50.00. 926p D. A. NEEL, Water Valley, Texas.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

LUNCH DOWNTOWN.

Come and eat lunch with the Senior Class of Colorado High School next Saturday at the Tom Hughes building. It will cost you only 25c. Proceeds will be used to buy a Victrola for the school.

'Possum and 'Simmons.

The o'possums and 'simmons got him this week. J. C. Stover, out on the Earnest place sold out his crop and returned to his home at Athens, Texas. Before he left he had the paper sent to his father, L. S. Stover at Athens, and the Record will bring him back before spring. Mr. Stover sold to C. E. Watson of Murchison who says the 'possum and 'simmon crop is not good in Henderson county this year.

Judge J. L. Shepherd of Cisco spent several days here this week on official business.

The cold, cloudy and rainy weather has put a stop to the harvesting of grain and cotton.

Liberian Hippos.

The Liberian hippos do not live in dense forests; they do not frequent the rivers. A small forest stream satisfies them, but they do not enter it, at least by day. They burrow into its banks, wherever there has been a washout, and in these burrows they sleep during the daylight hours. So it is very difficult to trace them. The first specimen that was seen could not be caught, because all the native carriers were sick, and the whole country was so flooded by rains that Schomburgk, famous hunter, could not camp therein. After trying various ways to capture the shiny little beasts, Schomburgk succeeded by digging pits whereby they were entrapped on their nightly strolls through the forest.—New York Herald.

To Remove Paint Stains.

To remove paint from cloth, says Popular Mechanics Magazine, lay a pad of blotting paper on the side of the material on which the paint fell, and rub the other side gently with a soft piece of flannel dipped in chloroform or benzol, both of which are paint solvents. As the paint dissolves it naturally passes into the most absorbent material in contact with it—which is blotting paper—not into the adjacent cloth. Deep stains can be completely removed by this method.

The Winning Team Helps.

Dean Harold Butler of the University of Kansas says it is remarkable how many people judge the university by the way its athletic teams win games. It is strange, but it has been true a long time, and probably always will be. For that reason, it seldom hurts a university to have a winning team.—Kansas City Star.

\$75,000,000 BOND ISSUE IS NOT ASKED Amendment Only Removes Inhibition and Sets Total, Says State Manager.

There will be no vote upon a \$75,000,000 bond issue for good roads November 2, and Texas will be done a vast amount of harm unless this mistaken impression is removed.

The proposed amendment merely removes the inhibition against legislative good roads bond issues. There is no thought and no possibility of the legislative burdening the taxpayers with an enormous bond issue at the next session.

Of course such a campaign even following the carrying of the present amendment would be premised upon the willingness of the people to see the bonds issued, for it must be borne in mind that the present proposed amendment does nothing but open the way for such a course, if the people want it.

The wholesale inhibition against State bond issues was a result of carpetbag administration following the Civil War. At the time the new State constitution was written the State had been plunged into debt through the tactics of unscrupulous lawmakers of the "scallawag" type.

At the present time we have a Highway Commission and a policy committing the State to good roads building, with no funds to carry it out. We are not able even to match the funds offered by the Federal government for highway construction.

Senator Sheppard has recently introduced a bill allowing \$400,000,000 more on a Federal highway construction program. Texas' share of this will be eight or ten million dollars, if Texas can match the Federal appropriations; otherwise the Lone Star State will get nothing, for the provision is laid down in the bill that States must cover the amounts dollar for dollar.

Much confusion has arisen over the \$75,000,000 figure used in connection with the bond issue amendment. This is merely the maximum set down in the amendment; this maximum covers, not a single legislative session, but the aggregate of all bond issues which can be voted by the Legislature under the provisions of the amendment, and will, of course, cover a large number of sessions of the Legislature.

TRAINED NURSE GAINS 22 POUNDS

"Tanlac is a Perfectly Wonderful Medicine," Says Mrs. Josephine Freeman.

Mrs. Josephine Freeman, of 647 Towne ave., Los Angeles, Calif., a graduate nurse who has practiced her profession for seventeen years, recently made the statement that she had not only been relieved of a case of stomach trouble of ten years standing by the use of Tanlac, but that she had also gained twenty-two pounds in weight.

"I feel that would be doing anyone a good turn by getting them to take Tanlac," said Mrs. Freeman. "For ten years I had been having trouble with my stomach. I suffered intense pains after eating and would bloat up with gas so that pressure around my heart would almost make me faint. I was so nervous I could hardly sleep and became so weak and run-down that I could hardly keep up my work as a nurse. I tried all kinds of medicines but nothing would relieve me.

"Finally a friend of my husband's who had been relieved of the same trouble by taking Tanlac, advised him to get a bottle. Soon after starting on it my appetite returned and my nerves became quiet. Now I can eat anything I want and never have the least bit of trouble afterwards; I sleep like a child and feel rested and refreshed on getting up in the mornings. I have gained twenty-two pounds on four bottles of Tanlac and feel strong and well again."

Tanlac is sold by all druggists.

From Medicine Lake.

Miss Omeira Terry, a popular Colorado girl, but who is now at Medicine Lake, Montana, writes, in part, as follows: "As these people out here say I 'wanta' get the home paper, for I 'gotta' know what the home folks are doing. Montana is a great country, and take my word for it, Medicine Lake is on the map. These last two weeks have been two of the most exciting ones of my life. When these people find out we are from Texas they say, 'Oh, you are from the East.' I wonder if they know the directions? If I am ever in the mood I may give you a 'writeup' on this country."

All right Miss Omeira, we would be glad to have your "writeup" any time you are in the mood. Not many people here know much about Montana and we are sure that a descriptive article from you would be enjoyed by all our readers.

The Big Boss returned last week from a trip east. He was mad about the low prices we had been making on groceries when he was away, but was pleased when we showed him the big volume of business, and we proved to him that the short profits were more than made up. Its better to make a small profit on a large amount of business than a big profit on a small amount of business. We are going to keep right on selling at close profits. The maize market in Colorado is holding up wonderfully. Last week and this \$18 was the average price, while towns all around us were paying \$12.50, and some of them had no market at all. Of course farmers are kicking at this price and many of them will not sell, saying they are going to hold for a better market. Of course we do not know the future any more than a cat does, but we predict that it will be many a day before maize will sell again above \$18. There are two reasons for this pre-

diction. One is that in the southern and western states, where this is the staple feed, big crops have been made and there is no market for it. When you go to sell maize in the north or east, they won't have it; they don't know what it is; they think it is no good for feed, and if they can get anything else they will not buy it. This is especially true in a corn country, where they feed corn all together and won't feed anything else unless absolutely forced to do so.

When you look at the market report and see corn down considerably under a dollar, and oats at 40 or 50 cents, you need not be surprised that maize goes to \$10 per ton. In fact under the conditions, \$18 is an exceedingly good price. We don't mean that that is all it is worth, nor is it as much as the farmer ought to get for it, but if it cannot be handled at a profit at this price of course the buyer will offer less. It costs the buyer considerable to handle this grain, and many of them are working on a margin so small that it is like walking on thin ice. By the time it is threshed, loaded on the cars, and in some instances spread out to dry or cure before threshing (causing an extra handling), the profits at the other end are mighty small. And if one car should be turned down on account of heating, or being shipped too green, the buyers profits for the season is lost. The farmers of this county have been exceptionally favored this season on their maize market from the fact that buyers placed some large orders early in the season

at a good price, which has enabled them to top all other surrounding counties as to prices.

NOT AN EXCUSE BUT STATEMENT OF FACTS.

"If you lost—Enough. Don't try to tell the victor why." In most instances the above couplet would be enough. This week, however, we desire to offer some excuse for the Record. A noted speaker once said: "Excuses are the sign of a weak character and some people make their conversations largely of excuses. Without doubt, the victor could tell you why you fall better than you could tell him. Come to think of it it is a mighty good plan to get the victor to give his version of the case. You may learn something you never thought of before."

This week we have practically turned the paper over to the advertisers and issue this edition principally for their benefit. The whole force is busy working over time on job work from Wichita Falls to Gorman and from Abilene to Pecos. We had hoped to secure a linotype operator and build the paper to 16 pages regularly but under prevailing conditions expert labor cannot be secured at any price. We ask our readers to remember that for the past three years, when everything was looking gloomy, we stayed by you and the town, the greater part of the time running at a loss, but giving you the best weekly paper in the west, notwithstanding. Now that business is picking up, we ask that you divide with us, by bearing with an occasional shortcoming of the paper, remembering that no clock, however good, can strike twelve every time. We try to cover the local field, and in fact that is all a local paper is supposed to do; at least that is what most of our readers want, and expect. However, as soon as we can obtain a linotype operator, we expect to improve the paper considerably, not only as to size but as to class. In the meantime, we know that our big hearted readers, many of them who have been with us for fifteen years, will allow us considerable latitude as regards the paper, until we can dispose of the rush of job printing which has swamped us for the past three weeks.

TRY IT!.. SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making You Sick and Cannot Salivate

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place. "Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition. Adv.

UNION HAPPENINGS

The general health of the community is good, and so is the crops. Weather unfavorable for harvesting and picking cotton, and has been the past week, but we stand ready soon as the weather will permit. The country seems to be filling up very well with help to pick cotton. Syrup making has been the order of the day for some time with a good many of our people. There has been id is still being made some fine ades of syrup; Mr. Formwalt and D. McCreeless having the best variety of cane (the Japanese). Mr. B. A. Donaldson has moved to estbrook to take charge of the okkeeping department at the gin at at place. We regret to give him up id hope he will come back. Rev. Hanks filled his pulpit yesterday at Union church. Had two good rmons and a Sunday school service.

but we were not overburdened with attendance. Eli.

Angie Collins Dead.

This death occurred Sept. 16th, in the home of Mr. Formwalt, of the Union community, while her mother, Mrs. Formwalt's sister, and the rest of the children were visiting the Formwalt family. This child was complaining when she came, and her sickness resulted in a case of typhoid fever, and terminated in death. She was the child of Mr. and Mrs. T. J. Collins. She was 13 years, 3 months and 2 days old. After being ministered to by loving hands and a skilled physician, God saw fit to pluck the beautiful flower from the family circle on earth to be transplanted in the garden city of the New Jerusalem, perhaps to stand as a guardian angel to beckon and say, Father, Mother, Brother, Sister, come this way, this is the way this is the place where we can form a family circle around God's throne, never to be broken. A beautiful funeral service

was held at the Formwalt home by Rev. W. P. Garvin of Colorado, and her remains were shipped to Carbon, Texas, for interment.

This tribute is by request of the Formwalt family and further prompted by an attachment formed after a slight acquaintance with the sorrowing ones, and in behalf of the people of this community I extend sincere sympathy to the bereaved family.

OZARK TRAILS CONVENTION.

The Ozark Trails Annual Convention will meet in Roswell, N. M., Oct. 1, 2, 3. Plans have been made to make this the greatest national convention for good roads ever held in America. It is the wish of Col. Harvey and other officials of the Ozark Trails Association to have a great relay run from all points on the different Ozark Trails to Roswell, N. M.

As secretary of the Military Branch of the Ozark Trails which runs from Lawton, Okla., via Abilene to El Paso, I have been requested to work up this relay run for the different towns on this route. After carefully considering the proposition, I have decided to ask each town to work up a large delegation consisting of one or more cars and to adopt the following schedule, consisting of a two days run with the exception of El Paso and near by towns which might be able to make the run in one day. All delegates be ready to start from a designated place in their respective towns at seven o'clock of the morning of Sept. 29th—Lawton, Rndlette, Burkburnett, Wichita Falls, Holiday, Dundee, Seymour, Bomarton, Coree and Munday.

The following towns are requested to leave at seven o'clock to take lunch in Snyder, Texas, and be ready to leave for Plainview at two o'clock p. m. All cars to leave the south side of the court house at Snyder, Texas, promptly at 2 o'clock, where the run will be made to Plainview to meet delegates from all other towns on the Ozark Trails routes—Weinert, Haskell, Stamford, Anson, Abilene, Merkel, Trent, Sweetwater, Roscoe, Lorraine, Colorado, Westbrook, Big Spring, Stanton and Midland.

Run from Plainview to Roswell, N. M., will be made on Sept. 30th. Please make a great effort to get several cars from your place. Some of the greatest highway builders and good road enthusiasts in America will be present at this great convention where you will come in contact with the real hospitality of the West.

THE PRESENT TEXT
BOOK SITUATION

While the present situation as to textbooks in Texas is far from satisfactory, Texas is faring better in this respect than are several other states. In the past whenever new adoptions of books have been made, difficulty has been experienced in securing a sufficient supply at the opening of school. This condition, therefore, is not a result of the free textbook law.

There are not now a sufficient number of books in the United States to supply the schools for the fall term. This situation is partly due to war conditions. Publishers, generally, hoping for lower prices, have permitted their stock to run down during the last two years. Paper mills followed the same course, but instead prices have soared. The book shortage has been made worse by the difficulty of securing trained workers. Most publishers have found it necessary to double their working forces at about twice the wages paid a year ago. The supply of cloth for binding is insufficient, and it has been found impossible to secure an adequate corps of workers for book-binding.

In Texas much of the delay has been due to the procrastination of certain trustees and school officers in the matter of requisition blanks and making bonds. Frequent notices and appeals of the Department of Education have been disregarded. In consequence, it was impossible for the publishers to ascertain early the number of books that would be needed. The depositories have endeavored to supply first the schools which would open early. But in many cases, they were forced to ship only a partial order, because of having exhausted the supply of certain texts. There have been frequent delays in transit. Sometimes boxes of freight have been left at junctions for a week or more. At times the congestion at the Dallas shipping offices causes delay of a number of days. The recent strike of New York longshoremen greatly delayed freight shipments by boat.

It may be of some small consolation to compare our situation with that of some of the other states. No books have as yet been shipped from Chicago to Oklahoma, Tennessee and Florida have made adoptions since those of Oklahoma, and in some cases cannot get a promise of their books before November or December. Kentucky made a late adoption and will have a longer delay than Texas while Oregon is in a worse situation than Kentucky. None of these states have free text books. Texas with this additional tax on the book situation is faring, comparatively, well. The schools of Chicago opened about two weeks ago, and as yet, have not been supplied with readers. In Arkansas the depository, with most of

the fall supply of books, was burned about a week ago. Many publishers are refusing to take further contracts.

The prospects for relief of the Texas shortage are good. Investigations made this week indicate that most of our schools will be supplied with the majority of books by the first of October. At the first of the week the Texas school book depository and the Southern school book depository were practically empty, the supplies having been exhausted. But both of these depositories expect large shipments this week. Ginn & Company report a shortage in algebras only. Nearly all of the independent districts and most of the large common school districts have been supplied with the basal books. Six car loads of the Ashley Histories and the Civics are expected this week. Other shipments daily expected are the Mental Arithmetics, the algebras, and the American and Texas histories. Most of the schools have been supplied with spellers, readers, and geographies.

The Language books may still be delayed several weeks. As this text has not been changed, the schools may manage for a short time, by permitting two or more children to use the same text, in turn. Reasonable allowance should be made for the usual conditions this year, and for delays resulting from the fact that the textbook bill did not become a law until June, and, therefore, its provisions could not be rigidly enforced. If, after allowance for reasonable delay, the schools are not supplied with books, each school should avail itself of the recourse which the law gives.

Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. Wm. Scruby, Chillicothe, Mo., writes, "I have raised three children, have always used Chamberlain's Cough Remedy and found it to be the best for coughs, colds and croup. It is pleasant to take. Both adults and children like it. My wife and I have always felt safe from croup with it in the house." Chamberlain's Cough Remedy contains no opium or other narcotics. Adv.

He has secured some of the best and latest pictures on the market, and is going to give the people of Colorado the best show for the money, of any place in West Texas. He will have only three pictures a week, showing each one of them two nights, that is one picture will be shown Monday and Tuesday nights; another one on Wednesday and Thursday, and the third one on Friday and Saturday, with matinee Saturday afternoon. The following is his program for the balance of this month:

Friday and Saturday, Sept. 26-27, Bill Apperson's Boy.

Monday and Tuesday, Sept. 29-30, Day Dreams.

Wednesday and Thursday, Oct. 1-2, Special Feature—The Unpardonable Sin.

Friday and Saturday, Oct. 3-4—A Lurker by Proxy.

Mr. Taylor says to ask you to cut out this program and stick it in your hat, or on the wall, so that you will know what is coming from time to time. Attention is called to the big advertisement of the Best Theatre on the first page of this paper. This ad will always give the program for the week—from Friday to the following Thursday nights. Read it and keep posted as to what is being shown at The Best.

SOUTH TEXAS' BIGGEST FAIR

The Eighth Annual South Texas Fair to be held at Yoakum, October 22nd to 25th, will be the biggest and best Fair ever held in South Texas. The Eighth Annual South Texas Fair ranks next to that of the State Fair held at Dallas.

Special features for each day are being featured on a more magnificent scale than any other fair ever held in South Texas. In the spirit of the fullest confidence in the extent of our preparation we most cordially invite the people of South Texas to accept this our hearty invitation to be present, so that you may enjoy to the utmost the benefits and pleasures that we have provided for you at the "PEACE FAIR" October 22nd, 23rd, 24th and 25th, 1919, YOAKUM, TEX.

When the Sells-Floto Super circus makes its appearance in Sweetwater on Friday, October 3rd, for two performances, afternoon and night, the thousands who will visit this big amusement enterprise will witness a real circus treat, for never before in the circus world, has so many acts of real merit been congregated under one circus banner. There will be a quarter million tons of elephant performing in the three rings by these mammoth pachyderms; three herds of them, and with this circus is the only elephant that ever carried its trainer mounted on its tusks while walking round the hippodrome track on its hind legs.

Swellings of the flesh caused by inflammation, cold, fractures of the bone, toothache, neuralgia or rheumatism can be relieved by applying BALLARD'S SNOW LINIMENT. Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful. Adv.
