Mr. J. H. Parker, out near Westbrook brought to this office this week a sample of maize heads and regular old fashioned corn that will compare favorably with anybody's crop. It was raised by Henry Berry, who is working the Parker farm and demonstrates fully the fertility of the soil and what can be raised in Mitchell County.

ANOTHER PRINTER GONE

The Record this week lost another Linotype operator, he left between suns. This is the third man to leave in the past three weeks. This cuts our force down to "Farmer" Simpson and ourselves and we will do the best we can until more labor can be secured.

Mr. and Mrs. F. M. Mills of Sioux Falls, So. Dak., and George Crawford, of Kansas City, Mo., were all here this week looking after their Mitchell County holdings. George Crawford and Mrs. Mills are brother and sister and also brother and sister of the late A. W. Crawford.

Come to Colorado.

STILL IT RAINS

Since our issue last Friday it has rained most every day. The rains have been light followed by foggy mornings and cloudy days. The sun seldom shines and when it does it is a sickly half-hearted shine. Everybody hopes old Sol will soon be regularly on the job. We do not know how long it will continue. The ground is thoroughly soaked and the fields are too wet for any farm work to be done this week. Roads in many places are becoming almost impassable with any kind of a vehicle. This rain is almost as disappointing as were the sand storms last spring, but the country came back with a whoop in spite of the sand storms and we are predicting that everything will yet work out for the best notwithstanding the excessive rainfall.

Thursday it looked like we might have fair weather but it may be rainy before this gets into print.

Some of our people still grin; but it's getting to be sort of a sickly-like grin. Needn't tell us; we know everybody wants to see some sunshine now, for our farmers are being seriously handicapped and stand to lose considerably on account of not being able to gather their crops. Not alone cotton, but feed stuffs are being damaged.

Ranchmen still are cheerful and do not anticipate much injury to the grass, even though the present spell should end in a killing frost. They say there is plenty of matured grass. Besides, there never was such a lot of weeds, and cattle are sure, almost, to go through the winter with a minimum loss and there won't be much feed to buy.

Question and Answer.

Kansas City, Mo., Oct. 20 '19
Colorado Record.—Dear Sir:—What is your subscription rate for one year? Will you kindly give me the oil news in Mitchell County, if there is any? I hear they are drilling near Colorado and any information would certainly be appreciated.
W. H. WHITCRAFT

The price of the Record is \$1.50 per year. It is worth \$3.00 but we sell it at half price. As to the oil news; for the benefit of Mr. Whitcraft and about 300 other eastern subscribers, will say that Mitchell county has five deep test drilling contracts let, practically all the lands are under lease, and all are waiting for machinery to arrive to spud in several wells. So far nothing is doing in Mitchell county oil circles except to wait until drilling begins.

No one any longer asks at a railroad station whether the train is late. The question is "How late is the train?"

Get your rubber stamps at the Record office.

COTTON

The bad, rainy weather has retarded the incoming of cotton; receipts so far are light compared with this date last year.

Thursday morning the receipts were as follows:

Lambeth Gin	488
Farmers Gin	426
Concrete Gin	230
Watson Gin	83
Total	1227

Cotton sold Wednesday as high as 38 cents.

Seed—Brisk demand, \$72 per ton. Feed, steady at \$17 to \$20 per ton. Butter, 60 cents per lb.

Eggs, 50 cents per dozen
Sweet Potatoes, \$3.75 per 100 lbs.

DIED.

Little Adelaide, the twelve year old daughter of Mrs. Morgan Stell died at the home of Mr. and Mrs. Arthur Dorn Saturday evening, and was buried Sunday at Union, beside her father. She was bitten by a spider on Friday and was brought immediately to town, and all was done for her that could be done, but to no avail. Mrs. Stell has the sincere sympathy of a large circle of friends in this dark hour.

An ill-won penny will cast down a pound.

END OF THE WORLD

Weather phphet Foster predicted the Corpus Christi Storms, also the severe hail storms in the West, he predicted excessive rains and now comes out with the prediction of great storms yet to come.

Foster did not tell why they were coming, but he says severe weather changes are caused by the movement of the planets. Some people think the planets are mere stars twinkling in the skies, while as a matter of fact they are great bodies of matter, just as the earth is a great body of matter, swinging around the sun, and the vibrations or electricity from these bodies not only cause the weather conditions but they are also causing the mental unrest that is now sweeping the country.

It is estimated that the planet Mercury travels 107,012 miles per hour, while Neptune travels a little over 12,000 miles per hour. The others travel at varying speeds. A very unusual thing is to occur on December 17, 1919, when Neptune,

Jupiter, Saturn, Mars, Venus and Mercury will swing around and pull on the same side of the sun at a given time. The earth will be in such a position at that time that it will be liable to receive a very great shock. Since no one was living on this planet that was here when all of these planets were in that position before there is no telling what the outcome will be. The moon could be flung away from the earth and become an independent planet, the Bible speaks of that, or a series of awful storms could occur. It might become so cold that the proverbial "brass monkey" would shiver for the lack of warmth from the sun. But whatever happens, it will be something very unusual. Everybody should be ready for any emergency.

Owing to a strange grouping of six mighty planets, such as not been in a score of centuries, the United States next December will be swept by the most terrific weather catylasm experienced since human history began.

It will be caused by the hugest

sunspot on record—A sunspot that will be visible to the naked eye.

Since man first began to make records of events no sunspot has been large enough to see without the aid of instruments. This one will be.

The sunspot that will appear December 17, 1919, will be a vast wound in the side of the sun.

It will be a gigantic explosion of flaming gasses, leaping hundreds of thousands of miles out into space. It will have a crater large enough to engulf the earth as Vesuvius might engulf a football.

Such a sunspot will be rich enough in electro-magnetic energy to fling our planet into a disturbance without precedent or parallel.

There will be hurricanes, lightning, colossal rains. It will be weeks before the earth will regain its normal weather conditions.

There will also be gigantic lava eruptions, great earthquakes to say nothing of floods and fearful cold.

He makes this startling prophecy with no desire to be merely sensational or alarming. It is merely because my study of the planets has revealed certain results with mathematical certainty, that I now say to you:

"Be warned in advance. Tremendous things are going to happen from December 17, to December 20, 1919, and afterwards."

Here are the simple, yet astounding facts that enable me to make this prophecy:

The planets in their orbits swing in great eclipses about the sun. They are linked to the sun, and to each other, by chains of electro-magnetic energy whose compelling forces counteract each other and hold each planet in its regular path.

Whenever two planets wheel into such positions, that they pull together on the sun—either in conjunction on the same side of the sun, or in opposition, with the sun between them—their united pull causes the sun's gasses to "explode"—to leap out into space in the whirling volcano we call a sunspot.

These sunspots in turn cause storms in the atmosphere of our earth—doubtless on other planets as well.

Two planets united are enough to cause a small sunspot and a small storm. Three cause a larger one—

four make a very great storm indeed.

But—on December 17, 1919, no less than seven planets will pull jointly on the sun. These will include all the mightiest planets, those with the most powerful pull.

Six of them—Mercury, Mars, Venus, Jupiter, Saturn and Neptune—will be in conjunction: grouped together in the greatest "League of Planets," ever known in the annals of astronomy.

They will be massed in the narrow limit of but 26 degrees, on the same side of the sun.

Directly opposite, coming into opposition with this gigantic league, will be the huge planet Uran and the six planets will pierce the sun like a mighty spear.

Our earth is outside the league at an angle of nearly 90 degrees—in perfect position to receive almost the full force of the monster electrical disturbance as it leaps into activity on what, to us, will be the eastern horizon of the sun's disk.

This means we shall get the full strength of the storm when the sunspot is at its worst, before the exploding gasses have had time to die down.

Such a close grouping of planets has never been recorded before. The whole solar system will be strangely out of balance.

What will be the outcome? My knowledge does not permit me to state, beyond the fact that the storms eruptions and earthquakes will be tremendous in their strength and scope.

Remember the date, December 17 to 20, and after.

Mrs. B. A. Donaldson came up from Sweetwater Wednesday and spent the day with homefolks. Mrs. Donaldson has been in bad health for several months and for the past three weeks has been taking treatment at Sweetwater. Her friends here are anxious for her speedy recovery that she may return home and be one of us again.

Mrs. Milie Van Horn and children left Wednesday night for Christoval. They got as far as Sweetwater and were forced to turn back on account of the heavy rains, which made the roads impassable from San Angelo to Christoval.

W. W. Wade, Dave Gressett, B. F. Davis and H. A. Lassetter spent the week-end at the Dallas Fair.

Mrs. Sam Smartt, of Colorado, is visiting her parents, Mr. and Mrs. T. Y. Pool.

Nature and the Indian

The Indian never liked work but he wanted his squaw to get well as soon as possible so that she could do the work and let him hunt, therefore he dug papoose root for her, for that was their great remedy for female weaknesses.

Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription" skillfully combined with other agents that make it more effective.

Women who are worn out, who suffer from pain at regular or irregular intervals, who are nervous or dizzy at times, should take that reliable, temperance, herbal tonic which a doctor in active practice prescribed many years ago. Now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription.

Send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

JACKSON, MISS.—"Dr. Pierce's Favorite Prescription is a good medicine and I have recommended it many times to women who suffer. This medicine was a great comfort to me after motherhood. The doctor seemed unable to give me any relief or help, but I had very prompt relief as soon as I started to take the 'Prescription.' It cured me of my trouble and restored me to a perfect state of health, and that is why I do not hesitate to speak a good word for Doctor Pierce's Favorite Prescription whenever I have an opportunity."—Mrs. K. Citation by Publication.

The State of Texas:

To the Sheriff or any Constable of Mitchell County, Greeting:

You are hereby commanded to summon Henry Dickson, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 32nd judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 32nd judicial district, to appear at the next regular term of the District Court of Mitchell county, to be holden at the court house thereof, in Colorado, on the 3rd Monday in November, 1919, the same being the 17th day of November, 1919, then and there to answer a petition filed in said court on the 3rd day of April, 1919, in a suit, numbered on the docket of said court No. 3707, wherein Rhoda Dickson Plaintiff, and Henry Dickson Defendant, and said petition alleging that plaintiff and defendant were married in Mitchell county, Texas, on or about December 26th, 1910 and lived together as husband and wife until about February 24th, 1915, on which date the defendant left the plaintiff with the intention of abandonment at which time he did abandon plaintiff and has since said date lived separate and apart from this plaintiff, at no time during said period avoiced in any manner any intention whatever of again returning to and living with her as her husband. Plaintiff alleges that during the time she and defendant lived together, as aforesaid she was kind, affectionate to him, doing all in her power to make him a dutiful and loving wife, always caring for the household affairs, and that regardless of this treatment on her part he violated his marriage vows with her, and without any fault on her part abandoned her as aforesaid. That during the marriage relations between plaintiff and defendant there were born to them three children, all girls, and being of the tender age of 8, 6 and 4 years; that plaintiff has cared for said children since their birth and is still ready, willing and able to care for them.

Herein fail not, but have you before said court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness W. W. Porter, Clerk of the District court of Mitchell county.

Given under my hand the seal of said court, at office in Colorado this the 1st day of October, 1919.

NATION FACES SUGAR FAMINE. MAY REACH 30c

Washington, Oct.—The price of sugar is destined to go to 25 or 30 cents a pound during the next year, and to become mighty scarce at that, unless the government speedily assumes control of its distribution.

Even under the favorable circumstances, the price is bound to go up, and may touch 15 cents during the winter, and for several months thereafter.

This is the opinion of the sugar bureau of the Department of Justice, which is endeavoring to stamp out speculation in the commodity, and keep retail prices within reasonable bounds.

The Department is urging the President to establish Government control of distribution under which the supply of sugar for the production of candy, soft drinks, and other luxuries would be strictly limited, and the price of sugar to the household regulated. Then under the amended food control act sugar profiteers would be prosecuted.

According to the Department of Justice there is not a pound of sugar today in the retail stores in the entire state of Indiana. This is because Indiana is in the twilight zone of war time sugar control between the best sugar supply of the East.

In Minnesota, the Dakotas, Montana, Utah and other States in the heart of the beet sugar belt, sugar is being rationed locally because of the shortage.

There are a multitude of reasons accounting for the shortage which has come about even under the regime of sugar equalization board created by the president to continue the control of the community of the Food Administration during the war. One of the most interesting organizations at the Department of Agriculture is that the royal commission purchasing Cuban sugar for England, France and Italy upsets the

board's calculations at an exceedingly unpropitious time.

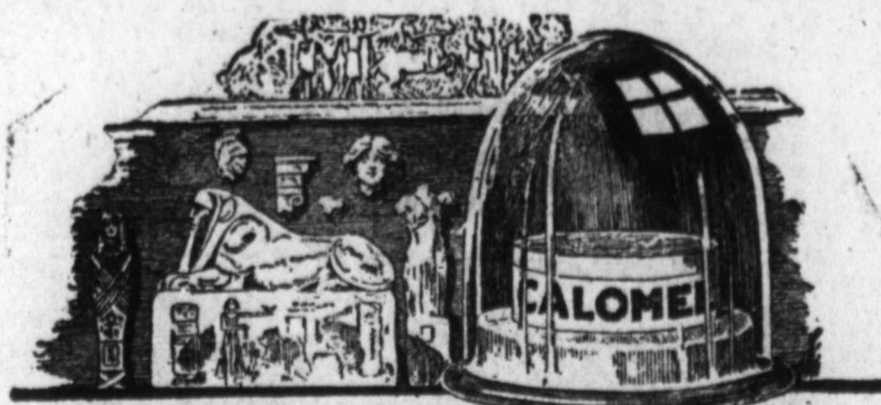

The royal commission had contracted for one third of the Cuban cane crop, but refused to take the entire amount last spring when it could have been supplied with convenience. Then when the marina strike had tied up shipping, glutted the warehouses with sugar and caused the refineries to shut down 50 per cent in production the royal commission insisted on taking all the sugar in sight, since the refineries have not been able to overtake the loss of production.

Another reason is that vastly greater quantities of sugar are being consumed in manufacture than ever before, and have been ever since the wartime rationing of the commodity was lifted. Commercial fruit canners are taking great quantities of confectionery and soft drinks are cutting still more deeply into the available supply.

Can Now Eat and Sleep in Comfort

If troubled with indigestion or sleeplessness you should read what Miss Agnes Turner, Chicago, Ill., has to say: "Overwork, irregular meals and carelessness regarding the ordinary rules of health, gradually undermined it until last fall I became a wreck of my former self. I suffered from continual headache, was unable to digest my food, which seemed to lay as a dead weight on my stomach. I was very constipated and my complexion became dark, yellow and muddy as I felt. Sleeplessness was added to my misery, and I would wake as tired as when I went to sleep. I heard of Chamberlain's Tablets and found such relief after taking them that I kept up the treatment for nearly two months. They cleansed my stomach, invigorated my system, and since that time I can eat and sleep in comfort. I am today entirely well." Ad

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

Take "Dodson's Liver Tone" Instead!

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel, just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is positively harmless and doesn't gripe.

SAYS CANCER WAS CURED IN SIX WEEKS.

Justice of Peace at Brownsville, Tex. Received Successful Treatment From Famous Cancer Specialist.

Valentine Gavito, Justice of Peace, Brownsville, Texas, after going to several doctors for relief of cancer in his nose, was advised to see Dr. O. A. Johnson, famous cancer specialist at Kansas City, Mo. He writes:

"About this time, a friend of mine recommended to me, Dr. O. A. Johnson, of Kansas City, Mo., as a specialist to cure cancer. On the 10th of October, 1914, I went to Kansas City, to see Dr. Johnson. On October 12th 1914, I commenced to take Dr. Johnson's treatment and in six weeks, I was discharged as cured by him. Since that time to the present day, there are no signs of the cancer returning. My present general health is excellent. When I went to Kansas City to see Dr. Johnson on October 10th, 1914, my weight was 165 lbs. Today my weight is 188 lbs.—a good gaining in weight for an old man of 68 years."

Dr. Johnson has published a remarkable book called "Cancer Truths," being a statement of his theories and experiences in treating cancer without the knife. Purely medicinal measures only are employed; that is, external applications to destroy the cancer and internal medication to purify the blood. This book will be sent gladly to any cancer sufferer from that dread disease, write for it today. Simply address Dr. O. A. Johnson, Suite 560, 1324 Main St., Kansas City, Mo.

Those Who See The Post-War Maxwell Want One

IT'S a great tribute to the keen minds and good taste that made the Post-War Maxwell so handsome, to find that so many who take one look at this car want one.

There have been, in other days, cars possessed of beauty that was only paint deep, but nearly all are "orphans" today. Not so with the Post-War Maxwell, because the major effort, the vast expenditure, the employment of superior brains, all have been devoted to a mechanical excellence.

Beauty came last with Maxwell executives; and it arrived last. But it's here now, and nearly everyone will say it's "liberally endowed with things that please the eye."

If it pleases you—take one ride. You will get a "feel" that you will remember many a day.

That delightful castering effect in steering which a new type front axle gives, that mental assurance you experience when you throw on the emergency (it's up on the transmission shaft), that troubleless electric system, that clinging-to-the-road feeling that a heavier rear axle supplies!

300,000 mighty good Maxwells are on the world's highways today. All the qualifications they possess and many more come with the Post-War Maxwell, and you pay only \$985 f. o. b. Detroit.

Sweetheart of Fighter is Kept by S.A.

Soldier Boy Leaves His Girl With Gospel Workers To Be Cared for in War.

She was just a little red-cheeked country girl who had come to the city to work. She hadn't come for any story-book motive, such as paying off the mortgage on the old farm. She was just a country girl who wanted to make a little money of her very own. There wasn't any chance at home. There was the butter and egg money, of course, but the family was large and there wasn't much to sell. So, like hundreds of other country girls, she came to the city to work.

She secured a position as nurse-girl to two children, not much smaller than herself—she was scarcely more than fifteen. But the wages she drew amounted to very little more than the butter and egg money back home. The children were not always kind and she could never do as she wished, but always what they desired.

Finds World Unkind.
A vague, hurt, longing came into her heart. She wanted to see mother and dad. She wanted to feed the baby chickens; to rub old Dobbin's nose; to hunt hen's nests; to ride to the pasture for the cows; she was just plain homesick.

One of her duties was to take the children to the park in the afternoon. This was rather pleasant, usually, but one day when the ache in her heart was the strongest, and the children were more unkind than usual, she awoke to the fact that she wanted companionship—some one with whom she could talk of the things she liked

to talk about, and then she saw him. He was a soldier boy and was sitting on a bench in the park near where the children were playing. He was a bit lonely too, and in a very short time the homesick souls were sharing troubles. Every day she met him there and then one day, he was called away. That day at the park he told her good-bye. But before he left, he took the girl to a Salvation Army home. The boy twirled his cap in embarrassment as the matron talked to him, but he looked her square in the eyes.

He Was Square
"I've treated her square," he said, "but she will get lonesome again and the next fellow might not be so square. So I am wanting you to care for her and look after her for me while I am gone."

The girl stayed at the home, and when the war was over, a big, browned fellow rushed into the home, calling, "Mary!"
Mary was there and the two were married in the home. Now Mary and the soldier-boy are living on the old farm, caring for mother and father, and just being happy. And when they go to the city, they never fail to visit the Salvation Army home, which, they say, meant home for both of them.

Neuralgia of the face, shoulder, hands, or feet requires a powerful remedy that will penetrate the flesh. Ballard's Snow Liment possesses that power. Rubbed in where the pain is felt is all that is necessary to relieve suffering and restore normal conditions. Sold by all druggists.

T. & P. CONSIDER BUILDING DOUBLE TRACK TO RANGER

The Texas & Pacific Railroad is considering the construction of a double track line between Fort Worth and Ranger, it has been announced. Heavier rails are being laid on the railroad line out of Baird for the big engines now being operated on that line.

So many fads and new fangled ideas are springing up on every hand that a person of normal mind can not keep track of all of them, or digest half of them. It is a day and age of fads and fancies, not to mention hallucinations and pipe dreams. Between Socialistic and Bolshevistic schemes, uplift dreams, sex hygienics, progressives, I. W. W.'s, single taxers, commission forms, town managers, tariff tinkering, new banking systems, trust-busting, moving pictures displacing the church, tangoing, slit skirts, apple day, orange day, mother's day and everybody else's day, except father's day and all of them more or less lemon days; and with the press of the country running wild with red ink over sensationalism, a plain, old-fashioned scribe like this one don't hardly know where he is "at," or whether he will have to dodge into an incubator with the chicks tomorrow or eat baled hay ground up in a patent cereal coffee machine and delivered in an aeroplane next day, or just naturally have to crawl into a hole and pull the hole in after him.

SAYS DOCTOR ADVISED IT

Memphis Woman Is Relieved of Twelve Years Trouble By Taking Tanlac.

"I have received more benefit from Tanlac than from any other medicine I have ever taken," said Mrs. C. R. Wreford, wife of the well known ex-steamboat captain, and who lives at 881 N. Seventh street, Memphis, Tenn.

"For ten or twelve years," she continued, "I suffered from an awful case of indigestion. I had been troubled with a weak stomach from the time I was a girl and often suffered terrible agonies from gas on my stomach, and twice I had terrible attacks of acute indigestion that nearly killed me. For weeks everything I would eat hurt me and even water would burn me like fire. Then I had an attack of the grip from which I recovered so slowly that I asked my doctor about trying Tanlac. He said, 'Yes, try it; for it can't do you any harm.'"

"I had no appetite at all and was eating scarcely anything, but after taking two bottles of Tanlac my appetite picked up and I continued to improve right along, eating most anything I wanted without any inconvenience afterwards. I have never had the trouble with my stomach like I did before taking Tanlac, and it certainly had helped me wonderfully and I can't help believing it is a great medicine. Tanlac is sold by all druggists.

SAN ANGELO FAIR AND CARNIVAL

After three years during a part of which time the grounds and buildings were patriotically turned over to "Uncle Sam" during the war, the gates of the San Angelo Fair and Carnival will again swing open for the eleventh annual session closing on Saturday, November 1.

For many months the Lone Star State and especially the great western portion of our state has been blessed with copious rains. The ranges throughout Texas are in better shape than ever before. The West Texas Farmer has a broader smile than ever. The merchant too, is happy in fact. All conditions favor the most comprehensive representation and largely attended fair ever held in San Angelo. We hope to double our record of attendance of former years.

This section of the state is the natural home of the stockmen and is being rapidly filled with that substantial class the stock farmer and in order to encourage better stock, the management of the Fair is giving special attention to the Live Stock Departments, the premiums offered being four times as much as last year.

The premiums in the sheep, goat and mohair department and practically every other department have been substantially increased. Especial attention will be paid to the sheep and wool departments during the Fair.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS chili TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

A man's best pal is his smoke

"Meet you after the movies"

—Ches. Field

NOTHING like following up a good show with a good smoke—Chesterfield.

No ordinary cigarette, this. Mellow as an old friend, but rich with flavor—the kind that goes right to the spot.

Our own buyers in the Orient select for us the choicest Turkish leaf. We blend with this several varieties of specially selected Domestic tobacco. This blending—by a secret method—brings out new qualities of flavor that other and less expert methods fail to find.

That's what we mean by "satisfy"—an entirely new kind of smoking enjoyment that you get in Chesterfields only—nowhere else; for the blend is a closely guarded secret. It can't be copied.

We Take Pleasure In Announcing An Early Fall Display of Ladie's Ready-to-wear, consisting of Suits, Silk and Serge Dresses, Coats, Skirts, Waists and Petticoats.

The styles are right, the materials are good, the prices are as low as could reasonably be expected; in fact, we believe you will find them lower here than elsewhere. We cordially invite you to call and inspect these lines.

We still have some Gingham at 25c, better at 30c and 35c; Brown Domestic at 20c, better at 25c and 28c; Bleached Domestic at 25c, better at 30c and 35c.

We still have some shoes we are selling at less than present wholesale prices, but sizes are broken. If you are lucky we can fit you and the children. Merchandise of all kinds is very high. The wholesale people say everything will be much higher. In spite of this you will find bargains all over the house. It will soon be school time. Bring the girls and boys in and fit them up for school. Then buy your winter's bill with the certainty that you can buy cheaper now than later.

AUTO TRIP TO CALIFORNIA.

Howard Cooper, son of Mr. and Mrs. W. M. Cooper drove from here to San Francisco, Calif., in his new model 1920 Maxwell and writes about his trip:

We drove to Grand Falls the first day and camped there for the night. The roads were pretty good but were awfully rocky around Grand Falls. The next day we drove to Van Horn and stayed there all night. Then we drove into El Paso about one o'clock the next day. The roads were awful bad from Van Horn to Serra Blanca. They were working on the roads and we had to make several detours. We stayed two days in El Paso and on the second night some one stole my spare tire rim and tube, so I had to buy another spare one before I left there. We only had one puncture between Colorado and El Paso. I picked up a nail at Barstow. We left El Paso Saturday afternoon about 1:30 and drove to Demming, N. M. for the night. It started raining on us about fifteen miles out of El Paso and rained every day until we got to Tucson, Ariz. We left Demming

Sunday morning and drove all day in the rain, the roads being awful slippery and full of chug holes. We only made about 10 miles per hour all day. I got stuck in the mud at a little place called Cayotte, N. M. about four o'clock in the afternoon and didn't get out until about seven. So we camped there for the night and from there to Douglass, which we made the next day. We struck the worst kind of roads. It had been raining then about three days and the roads were all covered with water. You couldn't tell whether you were in the road or not. We only got stuck about six times, but we always managed to pull out, which was more than some heavier cars managed to do. We passed all kinds of them stuck, and they couldn't get out. They had skidded off the road into the ditch so guess they had to stay there until it dried up. We were sure tired when we got into Douglas that night, and you couldn't tell what kind of a machine we had. It was covered with mud from end to end, and top to bottom. After leaving Douglas we hit some pretty good road, so the rain didn't

bother us so much. We went from Douglas to Bisbee, then to Tombstone. We struck the mountains at Bisbee and it was some climb getting out of there. We climbed up to about 7000 feet elevation, and then crossed the Continental Divide. When we got to the top we coasted down on the other side for 15 miles without turning the engine once.

We got into Tombstone about lunch time, and from there to Benson we hit a fine road, but from Benson to Vail the roads were awful. After we got to Vail, we hit the State highway and that is fine on into Tucson. Just before we got to Tucson we had our second puncture. We stayed all night at Tucson and drove to Florence, then to Phoenix, and then on to Buckeye, about 36 miles this side of Phoenix for the night. After leaving Buckeye we hit the Arizona Desert and it sure was hot. We drove through the Arizona desert all day, going from Buckeye to Salome, then to Quartzsite then to Ehrenberg. Here we had to ferry across the Colorado river which divides Arizona and California. They charge \$2.50 to take you across, and it is only

about 200 feet across the river. After crossing the river we drove to Blythe, Calif., which is about five miles this side of the river, and camped for the night.

The next day we got out across the California desert, and it was sure some desert. For 93 miles you don't see a sign of any kind of life. The sand is deep nearly all the way and there is only one track through the desert, so if you meet a machine one or the other has to get out of the road and the one that gets out is sure out of luck for he will get stuck sure as thunder. But we were lucky. There were six machines in our party so when we met a machine we would get out and boost it out of the way and then we would all drive by and go back and boost the machine back into the road again. We did that all day long and it took us from 7 o'clock in the morning until six o'clock that night to make 93 miles. We were sure glad when we reached civilization. We camped that night at Palm Springs and drove into Los Angeles the next day about 1 o'clock Saturday afternoon. We stayed there all night and left about 2 o'clock Sunday afternoon, getting here in San Francisco Monday night the 14th.

We were ten days on the road and used about 110 gallons of gas, and 5 gallons of oil from Colorado here. The tires stood up pretty good. I am still running them and they have gone over 5000 miles. The rocks knocked big hunks of rubber off all of them.

Well, Dad guess I'll not come back to Texas as I have been transferred out here. Hope you can come out next summer. J. C. is doing fine in school and likes it very much here. Love to all—HOWARD.

This has been a dreary week for the farmers and everybody in general. It has rained and rained and then some and just when the sun is going to shine again is the question. All farm work and business is at a standstill as the result. It is predicted that the damage will be great unless dry weather comes soon.

Texas has two automobiles to every hog. And another thing all the automobiles are registered while but few of the hogs are. Whatja think of that?—Texas Mesquiter.

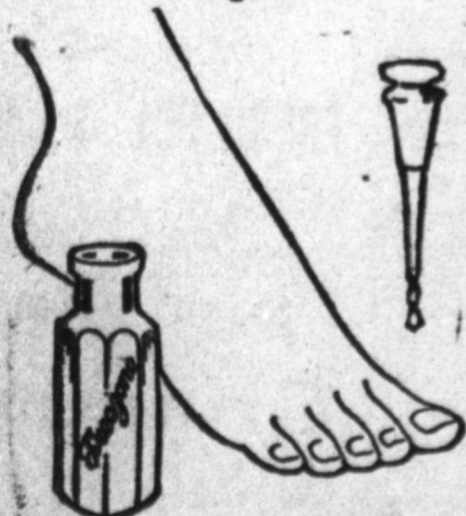

We think Brer Davis is not counting all the hogs. Lots of hogs ride in automobiles. It is practically worthless and are sometimes dangerous to folks who travel the public roads, but they are real hogs Brer Davis, and ought to be counted.—Koscoe Times.

An East Texas cotton picker asked a West Texas farmer here this week if his land was fertile. His reply was "Fertile" ain't the beginning of the word. Our farms are so fertile a feller kin raise the price of an ortomobeel in one season.

The Big Springs Herald and Midland Reporter are trying and have been trying for some time to get up an oil boom for their respective towns and have succeeded so far at least to be ahead of Colorado and Mitchell County. We have some four or five drilling contracts and am only waiting on the machinery to arrive to spud in. Our people here are too busy now harvesting the big crop to pay much attention to oil.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful. Adv.

CONDEMNED

Representative Blanton of Texas is getting enough publicity to do for the whole Texas delegation, and is also wasting more of the nation's money by his foolish attitudes. He is getting in the same class with Bob LaFollette.—Randall County News.

Blanton has become the laughing stock of the whole nation. He has been constantly in the limelight first one way and another ever since he was elected to Congress. He certainly believes in notoriety seeking, for to sum up his entire record in Congress, he has done nothing that would cause notice. To be real plain Blanton has made an ass of himself.—Lockney Beacon.

OUR ADVERTISING SPACE

Our space in the Record is a commodity, just the same as the merchant's goods are his commodity, and is for sale. We would no more think of turning down a cash sale of \$35 worth of our space, than would the merchant for \$35 worth of his goods. We have to have money to live, so does the merchant, and we have not heard of any of them turning down a customer just because he didn't happen to live in Colorado. We are for Colorado, first, last and all the time, but at the same time we are just like every other business man in town—we are after the dollar. Be consistent and see if we are not right?

THIS APPLIES EVERYWHERE

Last Saturday's mail brought the Record a handful of announcements, from the various wholesale paper houses with which we deal, that another advance in all kinds of printing October 15, would be billed at the new price. This is a hard blow to an already struggling institution like the Record. We do not pretend to understand the cause of it but this increase places printing paper prices higher than at any time during the worst stage of the war. A few more similar advances will force many small and some larger publishing and printing houses into bankruptcy and suspension. The Record is exerting every means at our command to hold on and keep the paper up to its average standard and in this work we ask the cooperation and cooperation of the public to the extent of giving us full patronage and support. We are engaged exclusively in the business of trying to give Mitchell county a first-class county paper and are constantly on the job six days out of each week, sending out as good a paper as the means at our command will permit. The quality of a newspaper depends entirely upon the volume of its patronage. The more patronage given the better the paper. The Record is putting every cent it makes back into the maintenance and advancement of the service of the paper. The assistance of one and all by subscribing and renewed subscription will help us out tremendously and will be duly appreciated.

"The adoption of the amendment separating the University and the A. & M. College and giving constitutional status to the latter institution does not add financial burdens to the tax payers, but does authorize these institutions to use their own property for needed permanent improvement. It will enable them to go forward in their work of advancing the cause of education in this state. It is the duty of every teacher in the state of whatever rank or station, as well as every other patriotic citizen to give his undivided support to the adoption of the amendment to the state constitution as submitted in house joint resolution No. 29, which is to be voted on November 4, 1919. A vote for the amendment is a vote for the school children and future citizens of our state."

Fort Worth Broker Here to Confer With Trustees. Says Hand-some Royalty for School.

That the Georgia School of Technology is likely to derive royalties on \$12,000,000 worth of oil lands was the statement in Atlanta Tuesday of John F. Cole, a leading oil man of Fort Worth, Texas.

Mr. Cole has just come back to Atlanta, which is his old home, from the Fort Worth oil fields. He is the junior partner of the oil and gas lease brokerage firm of H. N. Harris & Co., of Fort Worth, and has plenty of credentials as well as being personally known to many leading Atlantians.

Mr. Cole is here to meet and confer with Ex-Governor Nat Harris chairman of the board of trustees of Georgia Tech, who will return to Atlanta from Fort Worth, and with Ex-Congressman J. Randall Walker of Valdosta, who accompanied Governor Harris on his trip.

Governor Harris and Mr. Walker went to Texas a week or more ago to look at certain oil lands that were bequeathed to Tech by the late Mr. Julius Brown, a prominent Atlantian. While in Fort Worth they inspected the fields in the company of Mr. Cole. He returned to Atlanta a few days ahead of them and brings here the first definite news of the prosperous "gold mine" of Tech's.

That it may be a gold mine in truth, is what Mr. Cole says. The Tech lands, he says, consist of 4,500 acres in Mitchell county and adjoining counties. His firm has under lease 1,280 acres of the Tech lands in sections 81 and 87, in block 25 in Mitchell county. Within 900 feet of the Tech lands in block 81, he says, his firm is now broing for oil.

"We have every indication that we will strike oil," declared Mr. Cole. "The reports on our land are the same reports that were received of the land at Ranger, the most intensive oil field in America. And if we strike oil within ninety-one feet of Tech's lands, it means almost beyond certainty that we will strike oil in the Tech lands, too."

"To show you how strong I believe in the Tech lands, I will state that I am spending \$250,000 to develop them. It is my own money. I have never drilled a dry hole in my oil experience and in the last few years I have made \$50,000,000 on my original investment of \$10,000."

Mr. Cole's firm has a five-year lease on part of the Tech land. The smallest producer in his fields, he says, puts out 900 barrels every twenty-four hours, while the average production is between 900 and 8,000 barrels every twenty-four hours. This oil is now bringing \$3.25 per barrel at the well. If oil is struck on the Tech lands, the school will get one-eighth royalty on all production.

Mr. Cole offered comparative figures to show what may be the value of Tech's land if oil is struck. He showed a newspaper clipping to the effect that the Hog Creek company owned 4,500 acres of oil land in Mitchell county, Tex., and had produced 100,000 barrels of oil in the last few years.

Mr. Cole will leave Atlanta in the next few days to accompany Prof. E. L. Martin, of Atlanta, to Pascagoula, Miss., where Prof. Martin and other Atlantians are interested in oil lands.

FROM LORAINÉ

The following news item is from Loraine and should have appeared on the Loraine page but was crowded off

The Colorado B. Y. P. U. gave an interesting program at the Baptist church Sunday afternoon.

The subject was "Character Building," based on the first chapter of Second Peter. Those who discussed some phase of the chapter were: Mr. Conrad Watson, Misses Adams, Smith, Conaway and Davis.

Many good and helpful things were said on the importance of character and how to build in accordance with God's word.

A vocal solo by their pastor, Rev. Peace, was very much appreciated. Another interesting feature was a violin solo by Mr. Stansil Whipkey.

At the close of the program, they assisted the young people of Loraine in organizing a B. Y. P. U. The following officers were elected: President, Dennis Dunlap; Vice-president, M. F. Richardson; Treasurer, Miss Lillian Reeder; Secretary, Virginia Bennett; Choister, Mr. Owen Taylor; Organist, Miss Ora Coon.

On account of not having literature, it was decided not to have a program until the first Sunday in November. Time of meeting will be six p. m.

All the young people of the town are urged to take part in this organization and help to make it go.

Bronchial Trouble.

Mrs. A. E. Sidenberker, Rockfield, Ind., states: "For an attacks of bronchial trouble which usually assails me in the spring I find Chamberlain's Cough Remedy the only thing that gives me relief. After using it for a few days all signs of bronchial trouble disappears."

We call our readers' attention to the new advertisements in this issue of the paper, especially on the Loraine page, on which several new one appear. RED CROSS DRIVE GAINS MOMENTUM

ACTIVITIES OF EACH DAY OF NOVEMBER CAMPAIGN OUTLINED.

SCHOOL CHILDREN TO AID

Also Women's Clubs, Municipal Employees, Labor Organizations and Business Men.

That added momentum is being given by the Third Red Cross Roll Call by the approach of the opening day of the campaign, November 2, is indicated by hundreds of preliminary reports reaching Southwestern Division headquarters in St. Louis from Red Cross Chapters in the five States—Missouri, Kansas, Texas, Arkansas and Oklahoma—composing the division. The drive closes November 11.

An outline giving in detail the Red Cross activities that will characterize each day of the 10-day campaign, recently has been made public. The opening day as designated "Red Cross Sunday" and will be the occasion for sermons on the Red Cross that will be preached in churches throughout the United States. Special programs are to be held at morning or evening services.

On Monday, November 3, the Governor's proclamation in each State will be made public, mass meetings will begin and the first check of the progress of the campaign will be made at a workers' dinner in the evening. "Municipal Employees Day" has been set for Tuesday, November 4. On this day a proclamation from the Mayor of each city and town will be arranged for, while on the principal municipal building the Red Cross flag will be raised to be displayed throughout the remainder of the campaign.

Department store speeches will be made by "four-minute men" to be followed by lunch hour enrollment.

Wednesday, November 5, is to be "Women's Day," on which special tribute is to be paid to the work which women are doing in the Red Cross. Meetings of women's clubs, special exercises in Red Cross workrooms and Chapters will characterize the day, which also will mark the peak of the house-to-house canvass that is to be an additional feature of the campaign.

Homage to the support which the laboring man is giving to the Red Cross will be paid Thursday, November 6, which is "Employees' Day." Noon meetings will be held at factories and large industrial plants.

The school children of each city, town and county will be the central figures on Friday, November 7, when special exercises in the schools will be held. The following day is special feature day for business and fraternal clubs. On the second Sunday of the campaign, November 9, patriotic sermons will be preached. November 10 is "Button Day," when all not wearing Red Cross buttons, will be solicited, while on Tuesday, November 11, the first anniversary of the Armistice, final reports will be made, and the campaign will close.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. At Saloniki.

The veritable mountains of relief supplies turned out by the millions of chapter workers during the war made the American Red Cross one of the biggest "manufacturing concerns" in the world, with great warehouse space at scores of strategic points all around the globe.

One of the biggest distribution centers was at Saloniki, Greece, and in this picture Bulgarian prisoners of war are seen unloading a Red Cross cargo of 2,300 boxes from a French transport. At the right is seen one of the American Red Cross camions, fleets of which were used in rushing relief to points where the suffering was greatest.

STOMACH ON A STRIKE

"Pape's Diapiesin" puts Sour, Gassy, Acid Stomachs in order at once!

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and chest; belch gases and acids and eructate undigested food—just eat a tablet or two of Pape's Diapiesin to help neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, safest, most harmless antacid is Pape's Diapiesin, which costs so little at drug stores.

To hear them tell it, every married woman could have had any one of a dozen handsome wealthy men instead of the mutt whose name she bears.

Man's Adam's Apple.

"Scientists are inclined to accept the theory," says John Walker Harrington in Popular Science Monthly, "that man came by long descent from ill-formed, spineless things that came to life by chemical action, probably in some tepid mineral spring, and found their way to the ocean. Then came the fish, which, as soon as they got backbones, began to develop something like Adam's apples. A man without an Adam's apple would be a poor fish. From the primitive forms of the ancient seas are believed to have come the mammals, from which spring the human race. It is a long story."

NEW T. & P. STATION AT RANGER WILL COST \$100,000

Plans and specifications for the new Texas & Pacific passenger and freight station have been released and accepted by the company and work will start in the next six weeks. The proposed new structure, which will be 410 feet long and be built of brick, will cost \$100,000. The American Railway Express Company will have an adjoining building.

"Away to the cotton fields away, away." The lure of the cotton fields is calling to young and old as it has not called for many years. But the call has a very practical note in it this year. It resembles more the Eagle's scream than the soft notes of the field lark.

Keep Liver and Bowels Clean and Active with "Cascarets"

Sick headache, biliousness, coated tongue, sour, gassy stomach—always trace this to torpid liver; delayed, fermenting food in the bowels.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will have you feeling clear, rosy and as fit as a fiddle by morning. They work while you sleep. Adv.

Bedouins Resist Civilization.

The Bedouin tribes of North Africa are perhaps as impervious to the influence of modern civilization as any people in the world. Since the French took control of North Africa these wild tribes have been, supposedly, under military discipline and guardianship, but they have maintained their own tribal organizations and almost complete independence, so far as their actual lives are concerned.

They follow the traditions of Islam and their dwellings, their furnishings (which are few and far between) and their clothing date back to the days of the Bible.

MR. PROGRESSIVE FARMER.

April, 1883, I started Farm and Ranch. I believed then, although their number in Texas was not numerous, that the progressive farmers and livestock breeders would patronize a real farm and livestock paper, serving faithfully their interests at all times. I was not disappointed in my conclusions.

Many have become subscribers with that first issue have continued to read Farm and Ranch without missing a number. I value very highly their continued loyalty and faith in Farm and Ranch, and leave it to them, and to the many who have since become patrons and friends, to say if I have kept faithfully my promise to make the paper a powerful, consistent supporter of the best interest of the people whose patronage I have asked for and received.

Farm and Ranch was, at first, published only once a month, later twice a month. Now it is a big illustrated weekly. It has been, at all times, clean, interesting, instructive and reliable. In these I know I have not at any time failed.

Now, after thirty-seven years, always personally on the job, it is my ambition to have every man in Texas who has faith in farming in its different branches become a subscriber to Farm and Ranch.

Send me your subscription, and if, after reading Farm and Ranch each week for three full months you are not satisfied that you are getting even more than full value for the subscription price, write me and I will return the full amount immediately.

You who do not know Farm and Ranch, I refer to your neighbor who is already a subscriber.

On my proposition—your money's worth or every cent of your money returned—I ask your subscription.

The subscription price of Farm and Ranch is two (\$2) dollars for three years—156 copies. No subscription is taken for a less amount and time.

Please send your subscriptions direct to Yours faithfully,

You are hereby commanded to summon Thomas H. Kelley, H. C. Whipple, the Unknown Heirs of Jesse Pannill and the Unknown Heirs of H. Pannill, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Mitchell County, to be holden at the Court House thereof in Colorado, on the third Monday in November, A. D., 1919, the same being the 17th day of November, A. D., 1919, then and there to answer a petition filed in said Court on the 16th day of October, A. D., 1919, in a suit numbered on the docket of said Court No. 3714, wherein Martha A. Crawford is Plaintiff and Thomas H. Kelley, H. C. Whipple, the unknown heirs of Jesse Pannill, deceased, and the Unknown Heirs of H. Pannill, deceased are Defendants and said petition alleging, that Plaintiff as a lawful holder of a promissory note dated May 18th, 1912 for the principal sum of \$800.00 with 10 per cent interest from date, interest payable annually, payable to the order of A. W. Crawford, and containing stipulations for ten per cent a-

torney's fees, signed by Thomas H. Kelly and further reciting that same was given in renewal extension and substitution of notes 6 to 10, both inclusive, for \$144.00 each given by said Thomas H. Kelley to Will Stith in part payment for 110 acres out of Subdivision 32, of Will Stith's Subdivision of Secs. 2, 3, 10, 11, 14, 15, 22, and 23, Block No. 27, of the Texas & Pacific Ry. Co. surveys in Mitchell County, Texas, described by metes and bounds in the deed dated Feb. 20, 1907, and recorded in Vol. 23, p. 199 of the deed records of said Mitchell County, Texas, whereby Will Stith and wife conveyed said land to said Thomas H. Kelly, the vendor's lien being expressly retained in such conveyance to secure the payment of said notes, and of a deed of trust lien of even date to J. A. Buchanan, Trustee, to secure the said A. W. Crawford in the payment of said note, sues Defendants for a judgment for the full amount due thereon with the establishment and foreclosure of the said vendor's lien and deed of trust lien on said land as against all of said defendants, for her costs and general and special relief, and in the alternative sues in trespass to try title to recover said land and to rescind said executory contract of sale thereof created by such express retention of said lien and said notes and said substitute and extension note, charging that no equities exist which would make such rescission inequitable unless the defendants shall, within a time to be fixed by the court pay off and discharge said purchase-money indebtedness and the accrued interest thereon, interest on past due interest at 6 per cent from its annual maturity, said ten per cent additional as attorney's fees, and the costs hereof;

Herein fail not but have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

ALL BOW TO MY LORD TIGER

Natives of the East Most Willingly Accord Him Royal Rank—is Sacred From Attack.

Of all the animals deified in the East none is regarded with more awe than my lord tiger. Especially throughout Siam and Indo-China, the tiger is king. Shrines are built and sacrifices made to him; he is as sacred from the attack of the natives as is the white elephant of Siam.

If there are fewer tigers in this part of the East today, it is due largely to the efforts of western sportsmen who occasionally can persuade, bribe, or threaten a few natives to aid them in a hunt. Any such lack of respect on the part of the natives is, however, looked upon frowningly by their neighbors who seem to fear that the tiger will forget the exact individual who attacked him and remember only the community.

Native reverence goes so far as to allow a tiger to prowling undisturbed about a village night after night, attacking and sometimes killing those so unfortunate as to cross his path. In the day the sacred beast retires to his mountain domain, where he stays entirely hidden until nightfall.

It is obvious that the royal tiger rules entirely by fear. Awe-inspiring he is himself, and his supremacy is helped along by the attitude of the natives. To the tiger are attributed all manner of supernatural powers. It is held that he always knows and tracks down those who offend him; he can even turn himself into a human being, the better to seek out his enemies.

Maybe There is Cause For It That You Can Correct

Many who suffer from backache and weak kidneys are unnaturally irritable, fretful and nervous. Not only does constant backache "get on the nerves," but bad kidneys fail to eliminate all the uric acid from the system, and uric acid irritates the nerves, keeping one "on edge," and causing rheumatic, neuralgic pains. When suffering so, try Doan's Kidney Pills, the medicine so well-recommended by Colorado people. Read this Colorado resident's statement:

Mrs. W. C. Hargis, Ninth street, says: "About two years ago I was in bad shape with kidney and bladder trouble. The action of my kidneys bothered me the most, being irregular and I had terrible headaches and was terribly nervous. Doan's Kidney Pills were recommended to me, so I bought a box at W. L. Doss Drug Store. The first few doses of Doan's made me feel better in every way and after finishing one box, I was entirely relieved of bladder trouble. I always have a box of this medicine on hand and take a few once in a while to keep my kidneys normal."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hargis had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

NOTICE TO PATRONS OF THE RURAL DELIVERY SERVICE

On account of the office being reduced to third class from second class on July 1, 1919, the number of clerks has been reduced two thirds.

This has caused myself and one clerk with the assistance of a boy before and after school to have to do the work that heretofore been done by myself and three clerks and extra help during December.

It is needless to say that all fully know that business is greater in every line than it has been before in the past three years and the postoffice is no exception to the rule.

In view of the increased business and the reduction in help in the office I am compelled to discontinue delivery of mail to patrons of the rural delivery service through the windows of the postoffice.

The provisions of the postal laws and regulations do not contemplate this added service to rural delivery patrons except when it can be done without delay to service to those people who live in town and do not have the advantage of having their mail delivered every day. Therefore on and after Monday, October 27, 1919, all delivery of mail to patrons who receive mail by either Star or Rural route will be discontinued and we trust that no patron will ask that we make exception in his case. The only case in which exception will be made will be in the delivery of Registered and Special Delivery mail and Perishable matter.

We have made request upon the Department at Washington for additional help and they have advised us that an inspector had been detailed to investigate the matter. If after he makes a report, and if sufficient help is granted we will immediately withdraw the above restrictions.

I regret exceedingly to have to resort to this method but hope that all will fully understand the proposition we are up against.

To the patrons who live in town I should like to request that as much mailing be done before noon as possible. Nearly 33 per cent of the mail that leaves this office is posted after 5 o'clock p. m., and this causes congestion and is liable to cause delay in the dispatch of mail as we have to quit working before 7 o'clock p. m. in time to get the mail tied out and locked out ready for delivery to the mail messenger by 7 p. m.

Cooperation of the public is therefore especially requested until such time as sufficient assistance is granted in order to conduct the office in a more satisfactory manner.

The Season's Leading Style Favorites are all here in a complete showing of Autumn Wear for early buyers.

Distinction and exclusiveness, so much sought by well-dressed women, are presented at their best in the new Fall Fashions shown here. New and interesting style features will be seen in the models, fabrics, colors, and trimmings of these late style garments. Early buying is more advantageous this fall than ever, because of a possible garment shortage and higher prices later. Selection is now at its best, and what you buy now you will get a full season's use of if you get the best in quality, such as offered at this store.

F. M. Burns "The Store of Quality"

THEY ARE COMING

The Colorado Bargain House people are coming. Shaving is being put in the building and everything getting ready. A letter this week states that a big stock of new goods are now on the road from the markets and about November 1st or perhaps a little later this store will be opened to the Colorado public. Mr. Landau says it is almost impossible to get cars to move from Sherman but that he hopes to be here on time. They instructed the Record to have an ad for them each week until they got here and this is from Mr. Landau who says he will have a full stock and asks all his old customers to wait and see the goods and prices at this new store.

YOUR COLD EASED AFTER FIRST DOSE

"Pape's Cold Compound" Breaks Up a Cold in a Few Hours.

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery.

The very first dose opens your clogged up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffing! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drugstore. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!

NOTICE!

I will be in Colorado, Saturday, Nov. 1, to do any practice relative to Eye, Ear, Nose and Throat. Please keep this date in mind if you need such professional service. At Dr. Root's office one day only.

The New Styled Fall Suits

Fashion recognizes such a wide variation of new effects, varying from semi-fitted to loose belted, and with suit coats ranging from finger tip to knee-length, that every type of figure has a selection of pleasingly suitable models. And these are made still more attractive by the inclusion of elaborate braiding and embroidery buttons and fur trimmings.

New Autumn Dresses

Though a slight change is noted in the silhouette of the fall styles, suggested by draped effects, strictly speaking there is no radical departure from the straight lines of the familiar American model. Simplicity in cut has its contrast in a perfect riot of brodered, braided and buttoned novelties in trimmings; while a slight departure to French ideas is seen in the lines of the returning coat dress.

New Fall Coats and Wraps

These new fall outer garments run largely to coats and coat wraps, there being but few capes, while in furs some of the new garments are cape-like in effect. The new coats are full and loose with the line of the shoulders and arm-holes ample and free. Large pockets, narrow belts, choker collars frequently of fur are largely shown. Indicating a richness in the new coats which will please the woman who seeks elegance in her fall attire.

Keep your stomach, liver and bowels in good condition if you would have health. Prickly Ash Bitters cleanses and strengthens the organs and helps the system to resist disease germs. It is the remedy for working men. Price \$1.25 per bottle. John L. Doss, Special Agent.

THE HOUSE THAT HAS THE GOODS AND THE PRICE

The buzz of Loraine's four gins is heard from early until late and the 36 cents fleecy staple is rolling in for Loraine is one of the best cotton and grain markets on the T. & P. line. All the business houses report good business and can't keep in stock what is needed. All the stores have on extra help and then can't wait on the trade on Saturday especially. All the vacant houses are filled up and quite a number have been sold and some who rented have become permanent citizens. All of which insures a better town and better improvements in civic work and otherwise.

If you want to sell your land or buy land, see E. N. Ridens & Co.

Monday, November 3, is the date set for the opening of the Loraine school. The text books are arriving and will be ready for use at that time.

Pupils are asked to meet at the school auditorium at nine o'clock for classification and distribution of free text books.

Let all pupils bring their promotion cards or statements showing the work completed.

All are invited to be present at the opening of the school and especially we ask that you come prepared to give us inspiration for making the Loraine school what it should be. More than any other idea, we desire to impress upon your minds, patrons, and particularly pupils, that this school term will be largely what you make it. Loraine is known far and near for her broad vision and progressive spirit, so let us not lose sight of how vital a factor the public school is, in the life of a community. Let us see to it that our school measures up to that standard of excellence we maintain for ourselves in other enterprises.

There is a hearty welcome awaiting all who will visit us. Especially we urge the patrons to come often. It is impossible for one to be deeply interested in something with whose workings he is unfamiliar. So become acquainted with your children's teachers, they will appreciate it, and see for yourself what sort of work is being done.

No matter how efficient a faculty may be, it cannot accomplish the greatest good without the sincere cooperation of all concerned. During the past year, the writer has been delighted with the loyal and appreciative spirit manifested by the people of Loraine. We hope to enjoy a continuation of this hearty cooperation.

Let us each year, forgetting the things which are behind, press forward to a higher mark of excellence. A faculty meeting will be held at the school building at nine o'clock on Saturday, November 1.

Mrs. Joe Bennett and Miss Bernice Clements entertained with a shower for Mrs. Roy Baird Wednesday afternoon at the home of Mrs. Bennett. The rooms were decorated in pretty flowers and greenery. As the guests arrived they registered and wrote advice and good wishes for the bride, then social converse was in-

cluded in to the hearts content. In the midst of which a little fairy in the form of little Helen Larue Bennett came through the door drawing a snowy white wagon laden with many pretty and useful gifts for the honoree. After which the hostess served refreshments, chocolate and wafers.
