A quorum being present, the first matter to be before the body was a presentation of the proposition of affiliation by the business interests of Colorado with thet West Texas Chamber of Com-

That organization was represented by Mr. J. E. Farrow, a member of its executive staff, who went very fully into the plans, methods purposes and scope of work of this great body of West Texas business men. The entire details of the proposition were gone into and it was the unanimous vote of those present that it was an absolutely sound investment for Colorado and Mitchell County. Every member present subscribed for a membership. A committee composed

of Messrs Whipkey and Van Tuyl was appointed to call with Mr. Farrow and meet the business men not present so that the membership in Colorado would as fairly and fully as possible be representative of its buiness interest. New Testament. Hence we regard profitable? the New Testament as authoritative rather than the creed.

The New Hampshire Declaration of Faith was incorporated by Dr. J. M. Pendleton, 1867, in his "Church Manual"; and by Dr. E. T. Hiscox, 1890, in his "Standard Manual." Recently it has been adopted by the Southwestern Baptist Theological Seminary of Fort Worth. This confession of Faith has been gaining ground while other Baptist confessions have been losing ground.

The New Hampshire Declaration of

Faith, Article I of the Scriptures We believe that the Holy Bible was written by men divinely inspired, and is a perfect treasure of heavenly instruction; that it has God for it's author, salvation for its end, the truth without any mixture of error, for its matter; that it reveals the principles by which God will judge us; and therefore is, and shall remain to the end of the world, the true center of Christian union, and the supreme standard by which all human conduct, creeds, and opinions should be tried.

Let us define inspiration. It is not genius such as was exhibited by Shakespeare and other writers of beautiful literature. Genius is a natural qualification but inspiration, in the sense spoken of in regard to the scriptures, is supernatural throughout. It is not illumination. Every Chrisby the Holy Spirit to giash it truths of salvation. Spiritual illumsome Christians possess more

And yet from the human standpoint written by men. some of whom, were considered by their contemporaries as being unlettered. This treasure contains the sayings of God, the sayings of good men, the sayings of evil men, and the sayings of the tempter. The Bible makes no claim for the truth of the reported sayings of evil men, but rather claims to make a true report and sets about to refute the statement of error. Hence the responsibility rests upon teh erader to interpret. This treasure, that is the original writings of the authors, is perfect in the sense that it contains no mixture of error. This inspired record is perfect in the sence that it is complete and inspiration has stopped and there remains nothing that could be added that would increase its value. It is perfect in its power to transform the destinies of men and to those who accept its precepts it promises to create within them a new heart and to lead them in humility of mind before the judge of the earth as blameelss in His sight.

W. B. Yeary Cotton Marketing Specialist of the State Department of Agriculture has returned to Austin from an extended trip of inspection and investigation of cotton conditions over the State, and finds general dissatisfaction among the farmers and business men as to grade and price placed on the cotton by the buyers. Mr. Yeary states that "while the general market price is at the top for the season at interior points, the prices offered, generally speaking, are much below that paid for the staple in November. Men not satisfied with prices offered at home, have shipped to Houston and Galvesten, receiving from \$25 to \$85 per bale more for it than was offered at points of origin. In numerous cases their cotton is classed two grades below the actual grade: besides the price is cut heavily after the grades have been lowered. ## "No Rheumatics" is a Mighty Poor Reason for Wearing a Wooden Leg

TO sting or hot burnin' is a mighty weak-kneed recommendation for tobacco. But when tobacco is mild and cool, and yet as full of "fun" as a barrel of monkeys-well, that's another story-that's Velvet.

And 'cause why?

'Cause Velvet is brought up-not jerked up by the hair. It's raised as carefully as a favorite child. It's cured in the big fresh air. And it mellows away for two years in wooden hogsheads 'til it's smooth and rich as cream. The wonder would be if Velvet wasn't a whacking good pipe smoke.

"Let Nature mellow yo' tobacco an' that tobacco will shore mellow yo' nature," says Velvet Joe. And he's pretty nearly right.

TATURE-AGEING in the wood does more to make tobacco friendly than any camouflage you can cover it with—and don't you forget it. See, taste, smell, feel the "real tobacconess" in Velvet. Why, you can almost hear it. Velvet's the tobacco you can judge with your eyes wide open and specs on.

There's a whole lot in Nature's way of making good tobacco better. And it's all in Velvet.

Here's to a full pipe and a friendly one.

"I saw this ragged little fellow on one of the busiest business streets of Eriva... not far from the orphanage," said Dr. Littlefield. "He was wandering aimlessly about and no one was paying the slightest attention to him. I did not pose him; the picture shows just the way he stood when I backed him up against a nearby wall."

work ahead of you? Do you still cough a little, or does your nose bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong!

An old, reltable blood - maker and herbal tonic made from wild roots and barks, is Dr. Pierce's Golden Medical Discovery. This "nature remedy" comes in tablet or liquid form. It will build up your body and protest you from disease gerne which ir erywhere. One of the active impedients of this temperance alterative and tonic is wild cherry bark with stillingia, which is so good for the lungs and for coughs; also Oregon grape root, blood root, stone root, Queen's root,-all skilfully combined in the Medical Discovery. These roots have a direct action on the stomach, improving digestion and assimi-lation. These herbal extracts in the Discovery" aid in blood-making and are best for scrofula. By improving the blood they fortify the body against an attack of grip or colds.

Catarrh should be treated, first, as a blood disease, with this alterative. Then, in addition, the nose should be washed daily with Dr. Sage's Catarrh Remedy. Send 10c for trial pkg. of Medical Discovery Tablets or Catarrh Tablets to Dr. ierce's Invalids' Hotel, Buffalo, N. Y.

## CHALMERS

A car for those who have an eye for beauty and an ear for rhythm

O stand and look at a new Chalmers is to admire it. For it has a grace of line, an elegance of finish, a care for little details that compel your attention.

The new coach is low in appearance, and therein lies the secret of its beauty.

You can sit in the car and feel yourself at rare ease.

Start the engine, turn loose the power stream, accelerate it, play with it as you will, you cannot help but detect a smoothness, a perfect rhythm

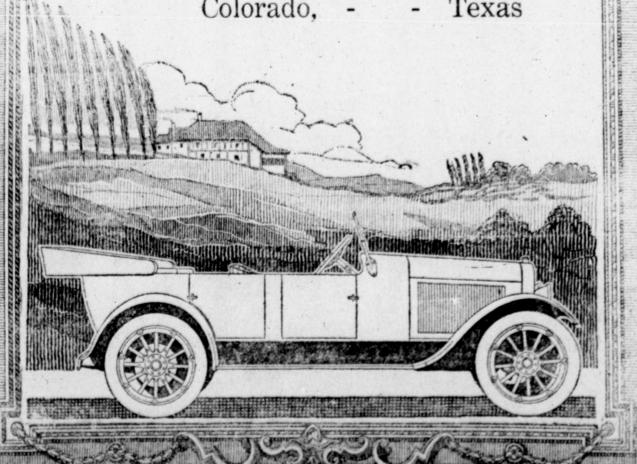

that is "easing to the ear. There are no engine throbs, no vibration, no

apparent effort. Hot Spot and Ram's-horn prevent them. Those two products of master intellects refine the gasoline, "digest" it, "break up the lumps," and make it easy for that magnificent engine to supply that rhythm of power which so quickly denotes a Chalmers.

Drive this car once, and you, too, will say Chalmers is one of the few great cars of the

"Two hundred thousand destitute Armenians and Tartars can now be reached in the districts of Karabagh, Shusha and Nakhichevan, in the southeast section of the Trans-Caucasus, and we are planning to extend our work there. The economic situation is so desperate and food supplies so scanty the Georgians have ordered 100,-000 ersons, mainly Russian refugees without employment, to leave the city of Tiflis. About 45,000 workers in the oil fields of Baku have been ordered by the Azerbaldjahese to leave the city because there is no work for them and

food is scarce. Around every station along the railway are gathered groups of hundreds of homeless people lying huddled together on the ground, the majority of them too weak even to try to help themselves. From time to time the stronger ones climb on freight cars and move elsewhere, always seeking better conditions, which do not exist. Two hundred and sixty-three thousand homeless refugees from Turkish Armenia thus are constantly milling about throughout Russian Armenia, making the relief work conducted by the Americans a problem requiring infinite

patience and organizing ability. "This is especially true in view of the existence of 248,000 destitute inhabitants of Russian Armenia who possess homes, but no food, as well as 150,000 Greeks, Russians, Persians, Syrians and Yezidis who have been

driven out of parts of Transcaucusta. ."One hundred and forty thousand Moslems, whose villages were destroyed in the course of five years of constant warfare, are helplessly encamped in the open around villages of their former enemies, begging infinitesimal quantities of flour, which they mix with dirt to give the illusion of nourish-

"These hundreds of thousands of suffering adults, mostly homeless and lacking every necessity of life, having nothing more to lose, are concentrated in a country as yet inadequately policed or governed. They constitute a fertile field for the seeds of Bolshevism or any form of anarchy, the spread of which once loosed would be impossible to predict.

"It is generally admitted in the Caucasus that the Americans of the Near East Relief already have saved the lives of at least 30,000 bables and children and of 500,000 adult refugees and destitute. This work still is continu-

COLORADO RECORD AND DALLAS SEMI-WEEKLY NEWS \$2.25

That quick, sympathetic action you get when you call on a Maxwell to pass the car ahead, to flatten More miles per gallon out a hill, to escape from the crowd in traffic has a story.

It's a story of steels.

You can analyze a Maxwell pound for pound with any car built and you will find it quite the equal in fine steels.

A Maxwell had to be made of fine steels. There was no other way.

Because it was built to deliver economic transportation. That meant no superfluous weight. It meant light weight.

But it also meant excessive strength.

Because a rare combination of strength with lightness had to be provided in its

Any metallurgist will tell you that the only answer was the very finest of steels.

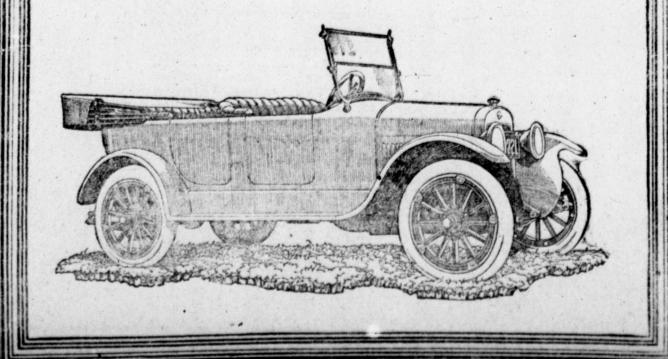

They never burden the Maxwell engine, so when you call for results you get them in a Maxwell.

That's one of many reasons why the friendly drift towards Maxwell continues to increase day by day.

Now there are nearly 400,000 of them on the roads of the world.

The demand so far exceeds the supply that only 60% of those who have set their minds on a Maxwell can succeed in possessing one this year.

### NEAR EAST RELIEF CAMPAIGN NEXT SUNDAY

As announced in the Record last week, the campaign for the relief of the near East sufferers, will be put on throughout Mitchell County next Sunday. There will be meetings at the following school houses or churches at three o'clock p. m. or when there are sabbath schools, immediately upon the close of the school

Cuthbert Church, Fairview School House, Rogers, Cedar Bend, Westbrook Baptist church; Union Chapel; Spade School House; Seven Wells, Looney Longfellow school house, Valley View, Buford, Sheppard.

There will be speakers at each of these places to present the cause. Everybody is specially urged to attend these meetings and do their best for the orphans who have no one but Americans to do for them.

Let every person in and around Colorado attend the mass meeting at the Methodist church Sunday night. Mitchell County has never fallen down on any thing yet, so lets go "over the top" in this drive and prove our humanitarianism.

### SCHOOL NOTES

(From Loraine Page)

Perhaps it should be announced that the school is progressing nicely and it probably is in the opinion of some, but in view of the fact that the writter is one of these most miserable of all people, a student awaitng the exams, which will be held next Thursday and Friday of this week, no announcement will be made to that effect until next week.

The high school girls met in the auditorium Wednesday morning, Mar. 10 for the purpose of organizing a track team. Thelma Reeder was very efficient.

Our Basket ball boys and girls in company with a crowd of "rooters" journeyed to Westbrook last Saturday and, as usual, brought us back the victory. The score for the boys game was sixty-three and twenty; for the girls game twenty-two and six. Both were in favor of Loraine.

The local try out in declamation. extemporaneous speking and spelling will be held at the Methodist Church, Friday night, March 19th. The presence of all will be greatly appreciated and we feel sure that it will greatly encourage the contestants.

A game of basket ball has been matched with the Big Spring girls and will be played on the Big Springs court, but we feel that circumstances. were against us that day and we mean to win out the defeat next Saturday. Since "rooters" are an essential part of every game we hope a goodly crowd will accompany the team next Saturday.

Games have been matched with the Colorado basket ball boys and girls to be played on the Colorado court Wednesday afternoon March 17th. These games will end the basket ball season and will determine the county championship.

## "VALLIS" America's Foremost Tractor

## ..Important Tractor Announcement.

Farmers of this and adjoining counties are invited to come and see the WALLIS Tractor and Plows demonstrated on MARCH 19,'20

Come and let us show you why the WALLIS is conceded to be America's Foremost Tractor. Why its 12 years of successful performance and an established company back of it, are your best guarantee of satisfactory service on your farm. The WALLIS is seasoned, tried and proven-no experiment.

Let us show you why, pound for pound. the WALLIS is the most powerful of all Tractors No needless weight; no complicated parts. Its dust proof and sand-storm tight. You will be interested in seeing the famous Wallis U Boiler Plate Steel Frame, which eliminates the beams, bolts and braces and enables us to eliminate from 1000 to 3000 pounds surplus dead weight giving you 747, of the power generated in the Wallis Motor Draw Bar Pull. The Wallis owners finds his Wallis always ready to negotiate the tough spots.

The working parts of the Wallis are mounted on Timpkin & Hyatt Roller Bearings and run in a bath of clean oil. The gears are made of cut and hardened steel, all machined to the thousandth part of an inch. The Crank Shaft is made of Chrome Vanadium Steel. Clutch Multiple Disc sensative to the touch. The Motor is a 4 cylinder. Valve in head. with machined combustion Chambers. Removeable sleeve cylinders and other quality features makes the Wallis extremely powerful.

Don't fail to see this demonstration. The Wallis solves the high cost of labor to the farmer.

## ATTENTION FARMERS!

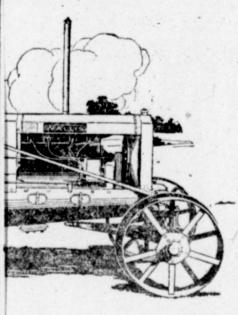

Cotton is King in Mitchell county. Look at the yield in 1919.

Good seed did a big part of it. Grade your cotton seed all up and do better in 1920. I have the machine and the agency to do the work. Get busy. Time is short. I have a special bargain for a short time. One sample at Loraine does fine work.

Call or write me at once for best cash prices
