**ABILENE BANKER WAS
SELECTED COUNCILMAN**

W. H. Free, cashier of the First State Bank of Abilene, and Paul Jones assistant cashier of the Farmers & Merchants National Bank, returned Sunday from Galveston where they attended the convention of the Texas State Bankers Association. Mr. Free was honored by being selected as one of the seven councilmen in charge of administration of the state bank section of the association. He represents District No. 7. The Association passed a resolution urging that school teachers be given more pay, and also passed a resolution against adoption of the bonus legislation as outlined. There was a very large attendance.—Abilene Reporter.
W. H. Free is a Colorado product, and his many friends rejoice to see his ability recognized and himself so honored.
People call that man a great thinker, who has the gift of expressing the thoughts which all of us think.

Dallas.—One of the most harmonious political conventions in the annals of Texas came to a close at the coliseum in this city Tuesday shortly after midnight, when the state democratic convention did those things that had been expected, and selected to do for the democracy of Texas.

A keynote of harmony and unanimity of the convention was sounded first by Judge Watkins in his speech accepting the honor of the chairmanship. Prolonged applause greeted the statements of Chairman Watkins that the convention stood squarely behind Woodrow Wilson and his administration, the league of nations, the enforcement of prohibition and the suffrage rights of women.

Most of Tuesday and a big part of the night was taken up with "marking time," awaiting the reports of committees and counting the complicated balloting for the election of six delegates at large out of twenty-eight candidates.

It was nearing the midnight hour when the wheels of the convention began to move to true form, and from then on things moved with veritable snap until the closing hour.

Postmaster General Albert S. Burleson was elected a delegate to the San Francisco convention from the tenth congressional district at a caucus of the district delegates after a three-hour fight against him. Most of the opposition was from women delegates on account of Burleson's attitude toward equal suffrage.

The convention, unanimously adopted, praised Woodrow Wilson and his administration and the Hobby administration. By almost a unanimous vote it sent an "uninstructed" delegation to San Francisco, but accompanied that resolution with one commending Mr. McAdoo most highly to the national convention. After a spirited discussion, the convention adopted a resolution, offered by Senator Davidson of Houston, candidate for lieutenant governor, recommending to the Texas legislature the enactment of a statute permitting women to vote in the coming primaries, whether they have paid their poll taxes or not, in the event the thirty-sixth state ratifies the national woman's suffrage amendment, or the enactment of a statute reopening the tax rolls prior to the primary election, so the women may pay poll taxes.

By unanimous vote the convention declared for an unimpaired league of nations and condemned the failure of congress to ratify it. It instructed the Texas delegation to vote against any candidate or platform plank for beer and light wine and to stand for a complete enforcement of the national prohibition amendment.

A resolution was adopted favoring a state tribunal which hereafter shall investigate and report to each succeeding legislature contributions and disbursements in all state campaigns.

Other resolutions adopted were: Condemning hoarding and speculation in foodstuffs, approving the right of collective bargaining, demanding frugal expenditure of government money, condemning the republican congress for lack of economy and for not revising the tax laws, commending the Texas legislature for ratifying woman's suffrage, asking the Louisiana legislature to ratify woman's suffrage, in favor of aid for crippled soldiers and for assistance in opportunity to secure homes to able-bodied former soldiers, favoring adequate appropriations for water ways and harbors, urging increased appropriations to aid counties and districts in building permanent highways, telegraphing the United States attorney general asking him to investigate the Red river boundary situation under federal receivership and protect Texas interests. This last was adopted after a question of its propriety had been raised by Railroad Commissioner Clarence Gilmore and after J. A. Kemp of Wichita Falls replied that no impropriety was involved and Texas interests would probably be greatly benefited.

The Delegation.
The following delegates at large were elected on the first ballot:
Cone Johnson of Tyler, Governor W. P. Hobby of Austin, Cullen F. Thomas of Dallas, M. M. Crane of Dallas, Marshall Hicks of San Antonio, T. M. Campbell of Palestine, Thomas H. Ball of Houston, Clyde A. Sweeton of Greenville, Hugh Nugent Fitzgerald of Fort Worth, J. A. Kemp of Wichita Falls, Barry Miller of Dallas, I. W. Stephens of Fort Worth, Mrs. Minnie Fisher Cunningham of Galveston, Miss Margie E. Neal of

Carthage, Mrs. W. E. Spell of Waco and Mrs. Jessie Daniel Ames of Georgetown.

The total vote cast was 1,247 out of a possible 1,409. Counties not reporting had a voting strength of 162 votes.

Contest for Delegates.
There was keen zest in the campaign for delegate at large—posts of honor sought by many more men and women than there were places to be filled.

The vote was taken by counties, each county voting for a selection of twelve names out of twenty-eight nominees.

Caucuses were called all over the coliseum and finally, after decisions were reached, the secretaries drafted a corps of assistants and spent hours listing and tabulating the votes.

At about midnight the calculations were completed and the selection of the sixteen delegates at large was announced.

Thomas B. Love of Dallas, was unanimously elected democratic national committeeman from Texas and given long and enthusiastic applause when he appeared on the platform. Cone Johnson of Tyler and Cullen Thomas of Dallas were also especially recognized in this fashion by the convention. Much applause was given Governor Hobby and each of the candidates for governor, and one of the greatest outbursts of the day came when the name of former Governor T. M. Campbell of Palestine was placed in nomination for delegate at large, after his home county had refused to send him to the state convention, as a result, it is said, of a purely local issue in Anderson county.

During the speeches of the candidates for governor came the most dramatic touch of the convention when Dwight Lewelling of Dallas withdrew from the gubernatorial race in favor of Pat M. Neff. Mr. Thomas and Mr. Looney were given demonstrations by their supporters.

During the speeches there were fewer flings at Mr. Bailey than some had thought would be the case. Mr. Lewelling spoke rather vigorously of the "political death" of the former senator and others referred to the absence of stretchers, the number of democrats not in hospitals, etc.

As to Poll Taxes.
When the Lynch Davidson resolution for women voting regardless of poll taxes was offered, Senator W. L. Dean of Huntsville said that all the women ask is to vote on equal terms with men; that they are not asking for special privileges. After some further debate for the resolution John W. Woods of Fisher county, former Speaker of the Texas house, expressed the same thought voiced by Senator Dean and added that some women had not been patriotic enough to pay their poll taxes. There was a voice from the crowd "Look out," and a number of hisses.

A woman near by shook her finger at Mr. Woods and said that there are a good many "men like you who won't give the women money to pay their poll taxes." The continuation of her remarks was lost in the wave of laughter, in which Mr. Woods joined.

It was 11:25 o'clock when State Chairman M. H. Wolfe of Dallas rapped for order. Governor W. P. Hobby and Mayor Frank W. Wozencraft and Dr. George W. Truett of Dallas, and Mrs. Percy V. Pennybacker of Austin, occupied prominent places on the platform.

The invocation was by Dr. Truett, who is pastor of the First Baptist Church of this city. He invoked divine blessings on the chief executive of the nation in this important hour of the country's progress, and on the chief executive of this state and those that are joined with them.
The address of welcome was delivered by Mayor Wozencraft.

Text of Platform Adopted
The following platform was adopted:
The loyal and intrepid democracy of Texas in convention assembled celebrates the triumphant vindication of its principles and policies over those foes and forces whose leadership stood for reaction in time of peace and inaction in time of war.

With unexampled unanimity and enthusiasm, from border to border, overwhelming endorsement has been registered, without equivocation, or reservation, of the patriotic purposes, lofty vision and epoch-making accomplishments of the democratic national administration, at home and abroad, amid the most perplexing problems in the history of the republic.

As the day approaches when he shall soon lay down the burdens of office, we send affectionate greetings to Woodrow Wilson, with the prayer that he may be granted lengthened years, and with the assurance that his name is written among the immortals because of all he dreamed and wrought for the betterment of the country and mankind.

But pride in national leadership and rejoicing because of partisan triumph are sobered by the sense of responsibility as we face the problems and perils of tomorrow.

Reaffirming our adherence to the time-honored fundamental declarations

**COLORADO BAND TO
BE RE-ORGANIZED.**

From time to time Colorado has had a first class band organization, and this has been kept up in a way all the past winter, but it has languished for lack of funds, and the for lack of new material. On next Monday night, at the K. of P. Hall (over Jakes) there will be a general meeting for the purpose of re-organizing and putting the band on a firmer basis. It is earnestly desired that every man or boy in Mitchell county that has had any experience in band music, any instrument, be at this meeting. Those who have their own instruments please bring them.

There is nothing of more importance than a good band organization to any town, and this county has an abundance of material to keep up a first class band if they will just get and stay together. Come to the meeting and see what can be done.

\$25.00 CASH PRIZE OFFERED
The Texas Products Manufacturing Company of Sweetwater are offering the above amount to the person suggesting the best name for their soap. The name must be short, and one that can be copyrighted and used as a trade mark. This contest is open to everyone and will close on June 10th, 1920.

Five judges will decide the winner on that date, and the same will be announced in the following issue of the Record. You might win it. Send your suggestion to Contest Department, Texas Products Manufacturing Co., Sweetwater, Texas.

HOW ABOUT MITCHELL?
Efforts will be made to have at least thirty West Texas county exhibits of agriculture at the Dallas State Fair, according to J. C. Wells, agricultural and exhibit manager of the West Texas Chamber of Commerce, who is already visiting counties and communities to interest them in the project. The organization will seek to have the several counties represented at the Dallas Fair combine

the best of their products for a general West Texas display at the Waco Cotton Palace to compete against those of any other section of the state for a prize to be awarded by the Young Men's Business League of Waco.

**THEY TOIL NOT
NEITHER DO THEY SPIN**

It is not necessary for some people to toil, nor has it been necessary for many people to spin, since the old time spinning wheel went out of style, but there is another way a person can spin,—such as just spinning around and getting nothing done; the latter is practiced entirely too much for the good of all concerned. No doubt the present generation would do better if they would toil more and spin less; It is the opinion of the writer that people should know that L. B. Elliott, who is making Abstracts for C. H. Earnest, can make you an abstract on short notice with just a little toiling and practically no spinning at all.

Straw Vote at Woodmen Conference Gives Neff Majority for Governor
If a straw vote taken by John K. Strecker, supreme representative to the Woodmen of the World conference of the Texas camps with Sovereign Commander W. A. Frazier at Dallas, is any criterion, Pat Neff will be the next governor of Texas. Out of 42 delegates present for the conference, coming from 25 Texas cities from Amarillo to San Antonio, 38 were qualified to vote in the July primaries. Of this number 29 were for Neff, 2 for Looney, 2 for Bailey, 3 for Thomason and 1 was a state department employe who would not commit himself.

We are authorized to announce the name of J. W. KAY for the office of Sheriff and Tax Collector of Mitchell County, subject to the action of the Democratic primary in July.

REVIVAL

The singing of gospel songs will be one of the attractions and helps of the revival. This man can sing. Come out and help him.

THE ROSE MAIDEN

On Thursday evening, at the M. E. Church, the Choral Society of Colorado gave a most pleasing rendition of the dainty and tuneful cantata, "The Rose Maiden," the music of which is by Frederic Cowen.

Those fortunate enough to be present showed quite a sincere enjoyment of the sweet singing of solos, quartettes, trios, duets and chorus, and words of appreciation and praise were spoken, not only for the singers, but for the director, whose careful training was evident. Especially was this shown in the manner in which, from the seat of the accompanist, he "carried" the voices of the chorus, in smooth, concerted rhythm.

Those singing solo parts were all in excellent voice, and much credit is due each. The beautiful bridal chorus, possibly the best known in the cantata, was especially enjoyed.

We who are so far from the centers of music, where the best in operas and oratorios may be heard, should be proud of the talent and willingness with which so commendable an offering was given. A Choral Society is a refreshing and elevating influence in a community, and should we be again favored, it is hoped all lovers of good music will avail themselves of the opportunity to show their interest and appreciation.

MARRIED.

Squire J. W. Nunn united in marriage on Sunday evening at his residence Roy P. Lindley to Miss Ida May Hammons. These people live about ten miles from Colorado and were accompanied by many of their friends in that community, who extended congratulations to the happy couple.

ANOTHER GOOD RAIN

On Tuesday night about 11 o'clock a heavy storm cloud rolled up from the northwest, and the wind blew, the lightnings flashed and the thunder rolled, and also the rain fell. The wind was terrific for a short time although we have heard of no damage done. The rain was not very heavy, being about .85 of an inch—just right for young cotton that is up, and just right for that which is about to come up. Probably seven-eighths of the cotton crop is in the ground, and as much as half of it up. With this shower, the cotton crop is almost assured, unless some calamity should happen. It is up to the farmer now to keep it properly cultivated to insure him a bountiful return. Old Mother Nature has done a wonderful part so far and you can depend on her to continue doing her duty. If the farmer will do his, he will be rewarded.

Still Another.

Before we could get the above in print, another trash mover fell Wednesday night, to the amount of 2.42 inches, making a total for this week of 3.27 inches; and a total so far this year of 13.07 inches.

We have not talked with many farmers, but the general opinion is that at least 25 per cent damage was done to the crops, by washing out and being covered up. Some, of course will have to replant, and the excellent stand, in some instances will be reduced.

Episcopal Church.

There will be services at the Episcopal Church Sunday morning at 11 and evening at 8 o'clock. Everybody invited.

BACCALAUREATE SERMON

Rev. D. R. Hardison, pastor of the First Christian Church, preached the baccalaureate sermon for the High School graduating class, at the M. E. Church Sunday evening.

The Juniors had tastefully decorated the church with the class colors, old rose and lavender, and ferns and cut flowers. The altar rail was entwined, as was also the balcony railing, with the lavender and old rose. A bank of large ferns was in front of the choir, and a vase of cut flowers was on the pulpit.

The music consisted of hymns led by the Choral Club, and a quartette by Misses Adams and Coleman, and Messrs Dawes and Pearce. The house was filled to overflowing with interested friends and relatives who were not only anxious to hear the message but to honor those in whose lives this was a red letter event.

The text was Nehemiah 4:6. He brought out the thought that the mind had to be willing before work could be done, and urged that the class continue to work and build their lives by the square and compass, the emblems of a master builder.

The members of the graduating class are: Jewell Mitchell, Juanita Cook, Dorothy Burns, Bessie Smith, Hazel Costin, Lois Whipkey, Anna Dean Smith, Ida Richardson, Lena Chesshire, Thelma Mann, Earl King, Maxwell Thomas, Ray Womack, Edwin Mooser and John Maxwell Prude.

The graduating exercises will be held at the high school auditorium Friday evening, an account of which will be given next week.

First Christian Church.

Next Sunday, June 6th, we meet at the City Tabernacle. Bible School will assemble at 9:45 a. m. Be on time and bring some one with you. Preaching at 11 a. m. and 8:15 in the evening. The seats and platform have been cleaned and every preparation made for your comfort. Meeting, rain or shine, for the following two weeks, beginning June 6. Tell your friends about it. Come for the Lord expects you to do your duty.
D. R. Hardison, Pastor.

Moonlight Picnic.

A party of thirty young people enjoyed a moonlight picnic at Seven Wells last Friday evening, honoring Miss Dorothy Smith of El Paso, but who was reared here and who is visiting the Misses Coleman, and other friends. The jolly crowd, the auto ride, the stroll over the rocks and cliffs, and the sumptuous feast made it an occasion long to be remembered by all who went.

Patients in Sanitarium.

The good that has been accomplished this week in relieving suffering and saving lives in having a sanitarium, has justified the effort put forth to build it. There are now eight patients in it and all are on the road to recovery. In one day this week, Tuesday, there were three operations, one of a most serious nature. Perhaps the life was saved by being able to get to a sanitarium quickly. Those there now are Mrs. Compton, Mrs. Allmond, Miss Bessie Evans of Loraine, Mrs. Milton Yater of Westbrook, Mrs. Jim Muns, Mrs. O'Neil, Paul Terrell and the nurse, Mrs. Davis.

Baptist Church.

John W. Pearce Pastor
Morning subject, "Preparation for Revival." Evening subject "With Christ After the Lont." The Sunday school begins at 10 a. m. There will be one continuous service till 11:30 a. m. The evening service will begin at 8 o'clock. Mid-week prayer service Wednesday evening at 8. Special revival services to begin on first Sunday in July.

That Colorado-Roscoe Ball Game.

Promptly as scheduled the Colorado high school base ball boys met a team from Roscoe on the Loraine ground on last Monday afternoon in the third game of a three-game series between these two teams. Oh, well, it was a good game, and the Colorado boys, as usual, came home with another bloody scalp swinging to their belt. Roscoe has a good team, but it is possibly a little too much inflated or was. The Colorado boys have not lost a series this season.

The game of ball on the Colorado diamond Wednesday evening between Loraine and Colorado's "town team" was a hum-dinger. At the end of the fifth inning the score was tied, 3-3, and the game had to be discontinued on the account of darkness.

OFF AGAIN.

Judge P. H. Looney, after resting up a month or so from his recent trip, is off again. He left Wednesday night going West. He will stop at El Paso a few days, and then go on to Southern California where he will visit his daughters. He will run up to San Francisco and take in the National Democratic Convention, and help nominate the next president. After this he will take in the Northwest, visiting Washington, Seattle, with a trip through Alaska. From here he will go as the spirit moves him, but he says he is going to put in the summer in sight of the snow clad peaks of the Rockies. Of course he arranged to have the Record sent to him at his principal stops so that he may keep posted as to Colorado doings, and keep in touch with the oil situation of Mitchell county. The Judge promised the Record to let us hear from him occasionally.

COAL! COAL! COAL!

I have lots of coal on hand now, and more ordered, but I advise you to buy now. Owing to freight conditions and general shortage of everything, coal will be hard to get in the fall. Better order it now.

O. LAMBETH.

T. C. Donnell and wife of Colorado were visiting friends in Roscoe the first of the week. The way these good people are going we are sure they are waiting for an invitation to move back to Roscoe. Special Steels Eliminate Useless Weight in a

MAXWELL

The reason the Maxwell engine is so responsive and yet thrifty, the reason the tires roll into big mileage is due largely to one fact: A Maxwell is burdened with no useless weight.

Special steels make this so. They are made to Maxwell's own formulae. No other steels in any car are just like them.

These special steels are of great strength and make possible the ideal Maxwell con-

struction of brute strength with light weight.

Obviously, they are high priced metals. They equal, pound for pound, the steels in any car built.

The wisdom of their use in the Maxwell becomes evident when one observes the rapid growth in public favor of this remarkable car.

Consider that nearly 400,000 of them are now in use; that 100,000 more will be added to this total in 1920.

ABRAHAM LINCOLN AT CHICAGO.

Chicago, May—The convening of the Republicans in Chicago, June 6 to nominate a candidate for President recalls afresh at this time the Republican convention opening here 61 years ago which nominated Abraham Lincoln. This was the second national Republican convention and the first of the many which have since been held in Chicago.

The convention assembled on May 16, 1860, and Lincoln was nominated on May 19, the third and last day. After his election feeling aroused by the slavery issue ran quickly into civil war.

Relics of the campaign of 1860, including the old painting of the 'rail splitter,' are preserved by the Chicago Historical Society. E. E. Wood, field secretary of the society, has just prepared what he regards as the most complete account of the events of the convention of 60 years ago. In this he calls attention to Addison G. Proctor, of Ann Arbor, Mich., who, Mr. Wood believes, is the only surviving delegate of the convention.

Chicago in 1860 was a prominent city of 110,000 not quite 25 years old. It had won the convention by the offer to build the largest assembly hall in the country and fill it at every session. Accordingly the "Wigwam" arose at the southwest corner of Lake and Market streets, occupying a space 100 by 180 feet. It was a temporary wooden structure costing a little over the estimated \$5,000. The balance was made up by charging 25 cents admission on its formal opening the Saturday before the convention.

It was a temporary wooden structure costing a little over the estimated \$5,000. The balance was made up by charging 25 cents admission on its formal opening the Saturday before the convention. It was a temporary wooden structure costing a little over the estimated \$5,000. The balance was made up by charging 25 cents admission on its formal opening the Saturday before the convention.

In view of the many days now spent in hearing delegates contests, this convention of 60 years ago offered something novel. There were no contested delegates. There were, however, some "contests" states. Whether to admit Maryland, Virginia, Kentucky and Texas was a question that occupied most of the first day and was still undecided when adjournment came for the day.

The next day the convention decided to admit the "border states." The platform committee then brought in its report. It was amended to include a reassertion of the 'self evident truths' of the Constitution. At adjournment little remained beyond choosing the candidates, and Mr. Wood characterizes that night as tumultuous one filled with band music and processions until almost day. Enthusiasm for Seward, well worked up in his behalf, was at high tide. Greeley telegraphed his paper that Seward's nomination appeared certain. Incidentally, remarked Mr. Wood, this convention was the first at which the telegraph was employed.

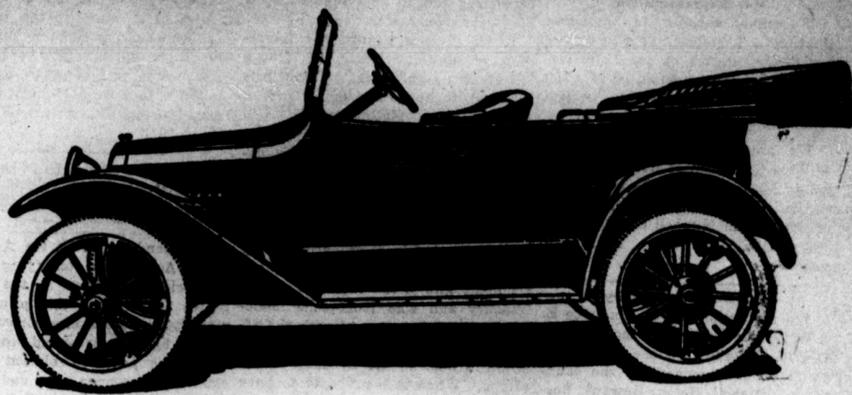

How Lincoln came into the nomination is now for many a familiar story with Lincoln next best at 102, and Seward led on the first ballot 173 1-2 233 necessary for choice. A few more votes came to Seward on the second ballot, bringing his total to 184 1-2, while Lincoln jumped to close quarters with 181. The taking of the third ballot showing Lincoln going strongly to the front.

As the figures were being compiled D. K. Cartten ((correct) of Cleveland, O., counting them up for himself, found that Lincoln needed only a few votes to win. The tabulation in fact at that moment was 231 1-2 for Lincoln and 180 for Seward, with 233 necessary for the nomination. Instantly Cartten was on his feet to announce the transfer of four Ohio votes from Chase to Lincoln.

The convention quickly broke into a scene of enthusiasm with few parallels in the long list of American political conventions. Further votes were changed to bring Lincoln's total to 354. The nomination was then made unanimous.

Choose a Car That Will Meet Unexpected Demands

"An Automobile should be looked upon as equipment for any transportation need," says Harrell and Madden local dealers in Chevrolet passenger and commercial cars.

"Too many people buy cars for some special purpose and then when they see the many other uses a car will serve, realize that their choice is not equal to their wants.

"The car that is bought just to run back and forth to the office soon becomes either a general business utility or the constantly used conveyance of the owner's whole family.

"The purchaser finds that his car is being subjected to wear far beyond his expectations. Unless he has chosen wisely as to equality, therefore, it will not stand up under the extra work.

"Continuous use over the best of roads puts a heavy strain on a car, and one can never tell when he will be called upon to travel over difficult road conditions or to climb some unusual grade.

"Such work calls for plenty of power and sturdy construction. To be certain therefore that his car will meet all his demands one should keep these two points in mind.

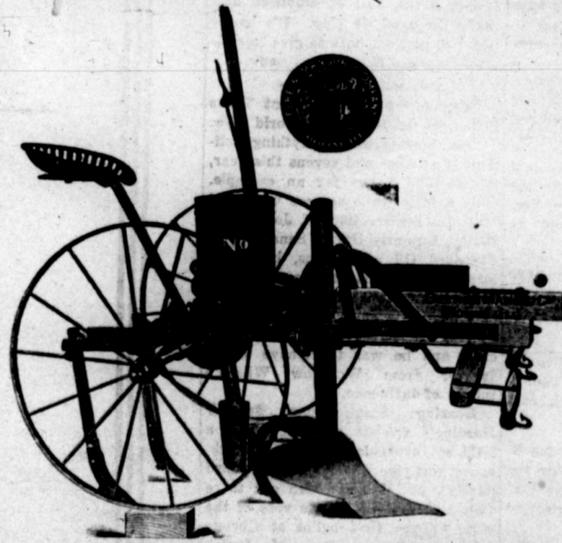

"Be sure that the motor in your car is of a type that affords the most power for every bit of gasoline consumed and that its reputation for performance has stood the test of time.

"Make certain that the whole chassis and body are so nicely proportioned that motor that they do not overtax it, that weight has been so distributed that strain on all vital parts is cut to a minimum."

Both branches of congress have passed budget bills with differences which are now to be composed by a conference committee.

These differences are not important save in one respect. The House bill creates a budget bureau which is attached to the Presidential office. The senate of McCormick bill will create the same kind of bureau which is made a part of the treasury department, where it obviously belongs. It is enough to say on this point that the President is already overworked. But it is additionally to be said that the duties involved properly belong to the Finance Minister of the Government, who is the secretary of the treasury and who from time immemorial has been charged with the office of lumping the estimates and sending them to the Speaker of the House. When it is proposed to have these estimates thoroughly sifted and co-ordinated and boiled down to the lowest possible needs of each executive bureau and department before being submitted to the House, why should the Government's Finance Minister then, of all times, be put aside?

It may thus be reasonably supposed that the conference committee will not be long in reaching an agreement on this chief point of difference. Then, as Chairman Good of the House Appropriation as Committee says, the greatest business enterprise in the world will at last have a chance to be conducted on business principles proved and practised everywhere else outside of Washington.

Mr. Dodson Warns Against Use of Treacherous, Dangerous Calomel

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's LiverTone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children they like it.

Commenting on the recent Texas Primaries the New York World says:

"As showing how everything political is at sixes and sevens this year, let us take Texas for an example. Only a little while ago we were told that the resurrection of Joseph W. Bailey, formerly United Senator with Standard Oil affiliations, had been attended by signs and portents that made his capture of the Democrat's organization a certainty. He was to control the delegation to San Francisco and he was to remove Texas forever from Woodrow Wilson's sphere of influence.

Hearing these things, Senator Harding's friends concluded that a field so favorable to Democratic reaction was ripe also for an Old Guard harvest, but Gov. Lowden got there first and will receive the vote of the state on the first ballot at Chicago Strange as it may appear, Mr. Bailey and his old-time Democratic party have met the same fate. At Saturday's primaries supporters of the present Administration elected 1,200 of the 1,400 delegates to the State Con-

vention and Mr. Bailey's contingent numbers exactly forty-nine.

The moral of all this is, that advocates of a return to the good old days who hope to make a showing in the finals should start early. Mr. Bailey does not seem to have advanced a foot from the place where Texas left him to his private law practice in 1913.

Courtland Smith of the American Press Association, testifying before a special committee in the United States Senate, says that print paper manufacturers are in a conspiracy to control both the price and production.

This is poor consolation to the country newspaper man and is just what we have claimed all the while. The question now with us is not how to reach the conspirators but how to get print paper.

Get Goodyear Tire Economy for That Smaller Car

Just as owners of the highest-priced automobiles get greater mileage and economy out of Goodyear Tires, so can the owners of smaller cars similarly enjoy Goodyear advantages.

The 30x3, 30x3½, and 31x4-inch sizes of Goodyear Tires are built to afford a money's worth in performance and satisfaction which only the utmost in experience, resources and care can produce.

This extraordinary money's worth begins not only with the merit of these tires, but also with the first cost, which in most cases is no greater, and sometimes actually is less, than that of other makes of the same types of tires.

Go to the nearest Goodyear Service Station Dealer for Goodyear Tires for your Ford, Chevrolet, Dort, Maxwell, or other cars taking these sizes. He is ready to supply you Goodyear Heavy Tourist Tubes at the same time.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag \$4.50

LEWELLING WITHDRAWS IN FAVOR OF PAT NEFF

The one surprise of the Democratic State Convention was when Hon. Dwight Lewelling publicly withdrew from the race for Governor in favor of Neff. Declaring that he was grateful that he had some part in the victory over Bailey, he still felt that the untiring and unsparring fight of Neff against Bailey entitled him to the nomination.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would run a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a leg-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

The meeting in Kansas City last Saturday of newspaper representatives of ten of the mid-west states, brought together men who were intensely interested in the news print game at this time. Men were there from New York and from Connecticut and from Chicago and from Washington, to tell what they had found to be facts after weeks of research. The general information was that there is no great immediate scarcity of newsprint, but that the larger dailies have so absorbed the surplus, together with their larger contracts, that the little man has a very poor showing to get newsprint at a living price.

We can suggest a storage plan for cotton that will beat the bonded warehouse farther than a big berth can throw a bomb. Build sheds or houses on the farm and store it in the seed. You do your corn and other products that way and keep the speculator and even the government in blissful ignorance of your stock on hand. Do cotton the same way and let the other fellow guess themselves hoarse. If you are out of debt this plan is a success to start with, and if you have outstanding obligations draw them in gradually until all are liquidated and then snap your finger in the face of the speculator. It can be done, as sure as you are born.

BOWELS AND DEMOCRATS

When Cleopatra vamped Antony they were wont to "wander through the streets, and note the qualities of the people." In those early days of which Brer. Shakespeare wrote there was not much difference in people as now, and if the drama depicted by Theda Bara decked in her scant costume gives us a correct line on Cleopatra we will have to assume that the dress making profession was usually on a strike, and that the cops were not making any arrests for abbreviated wardrobe effects. But the "qualities of people" were not so varied then as now, for those were the early days when Antony hoisted his glass and commanded: "Fill our bowels once more; let's mock the midnight bell." And Theda Bara leads us to believe that Cleopatra would lift her bowl, and defy midnight bells by dancing all night till broad daylight.

Quality in "bowels" excites the nation's politics, and it is said that Mr. Bryan will "force" a prohibition plank in the National Democratic platform. In consequence he has bourbon democrats squalling with rage that "the shirt of Nessus is upon me" because they do not want prohibition in their platform. And they would duck it if they could. The issue, in the opinion of Democrats at the Capital, evidently cannot be side-stepped and there is, in consequence, gloom in the "bowels" of the politicians.—Midland Reporter.

DEMOCRATIC CONVENTION (Continued from Page 1)

tions of the democratic party through its long history, we recognize that empty platitudes and ancient shibboleths will not meet the complex needs of humanity in these days of world readjustment to new conditions and reform of ancient abuses.

The democratic party stands for the rights of private property and will protect from confiscation and spoliation all capital honestly acquired and administered.

The democratic party declares that private monopoly in this republic is intolerable and indefensible, and we invoke all the power of government, in all its departments, to curb corporate greed, as it corners markets, hoards food supplies and speculates on the necessities of life at the expense of the consumers of the land.

We believe in an economic readjustment by which those of our citizens who toil with their hands to feed and clothe the world and meet the needs of our commercial and industrial welfare should receive a fair and liberal return for the products of their labor. Such returns should be sufficient always to provide better living conditions and opportunity to provident men and women to acquire their own homes.

We commend the democratic national administration for recognition of the rights and interests of our producers and laborers, and heartily indorse the right of labor to organize for the protection of its interests and the advancement of all fair and just demands, and approve the principle of conciliation, arbitration and collective bargaining as necessary and proper to secure cooperation and adjustment of controversies between employers and employees. Recognition by capital of these fundamental truths and suppression of conscienceless profiteers in its ranks, and continued efforts by organized labor to weed out "reds" and "radicals" who seek its control is the surest preventive of industrial unrest and incipient "bol-shevism," which is a menace to capital and labor and the public welfare.

The democratic party has unreservedly favored the league of nations as the one hope of the world to maintain the world peace and to terminate the insufferable burden of great naval establishments and military machines. It was for this that America broke away from traditional isolation and spent without stint her blood and treasure to crush autocracy as it sought to override the world.

We condemn the failure of the United States senate promptly to ratify the treaty with the league of nations unimpaired as a colossal crime against civilization. We but voice the demand of the best thought of the world in urging ratification of the treaty without delay and without reservation that impair its essential integrity.

Thus, and thus only, may the partisan purposes of paltering republican politicians at Washington be defeated and thus regain this nation's moral and spiritual leadership of the world.

The democratic party, throughout its history, has advocated simple, economical government, and while it justified vast expenditures made by the nation during the war as necessary for its protection and for speedy victory, it now demands that there shall be prompt return to frugal expenditures of money by every department of government, state and national.

The republican majority in congress, criticising war expenditures and promising, if elected, to bring the country back to a status of effective economy, has wasted time and energy for more than a year in vain and extravagant investiga-

tion, costing \$2,000,000, revealing nothing beyond the incapacity of republican politicians to cope with the gravest problems. It has repealed none of the war legislation, which harasses business, nor initiated a single constructive measure to help business. It has ragged against profiteers and the high cost of living, but has done nothing to check the one nor decrease the other.

We condemn the failure of the present congress to respond to the often-repeated demands of the president and secretary of the treasury to revise the existing tax laws. The continuance in peace times of taxes hastily devised under the pressure of imperative necessity to produce revenue for war purposes is indispensable and can only result in lasting injury to the whole people and the throttle of our economic life. The republican congress has persistently failed through political cowardice to make a forward step toward a readjustment of tax laws, which is denounced before the last election and is now afraid to revise before the next election.

With equal suffrage for our women by provision of federal constitution, we recommend the timely action of the Texas legislature in ratifying such provision, and we welcome the women of Texas to partial suffrage rights under state laws, and look with confidence to the day near at hand when women, alongside of men, shall exercise all of the duties and privileges of citizenship.

By constitutional amendments, state and national, the manufacture and sale of alcohol as a beverage, in any quality or kind, is prohibited.

We favor existing or any additional necessary laws, civil and criminal, to carry out the will of the people thus expressed and the enforcement thereof, without fear or favor.

Our delegates to the national democratic convention at San Francisco are instructed to vote as a unit against any platform, plank or candidate favoring violation or nullification, either in spirit or letter, of our constitutional provisions by authorizing the sale of beer and light wines, or otherwise.

The magnificent record of our soldiers and sailors in the great world war has reflected glory and honor upon our flag and people, placed our country in the forefront of the nations of the earth and transplanted the seeds of American ideals into every land.

A grateful nation should care for its wounded, disabled and incapacitated heroes with generous care and aid its able-bodied defenders in every proper way, especially by opportunities to acquire homes.

The democratic party stands for clean politics and fair elections. We heartily indorse the pending investigation by the United States senate of campaign expenditures by candidates for the presidency. We further favor a speedy enactment of additional legislation that shall minimize the power of money in all elections.

We favor creating a state tribunal, clothed with ample power, whose general duties shall be hereafter to investigate and make reports to each succeeding legislature of contributions and disbursements in all state elections, either on issues or the selection of candidates.

We heartily indorse the administration of Governor William P. Hobby, because of his fidelity to platform pledges, his loyalty to good government and its support of the nation during the world war.

The delegates to the San Francisco democratic convention from Texas are instructed to vote as a unit upon all questions coming before the convention.

THOMAS H. BALL, Chairman.

Added 50% To Tire Mileage

A Boston tire dealer, for three years, has gathered data on Miller Tires. And he reports as follows:

Users find their tire mileage increased from 50 per cent to 75 per cent.

Blow-outs have been eliminated.

Uniform mileage has been accomplished.

Only six tires in 1,000 come back for adjustment—only five Miller Cords in a year.

A Louisville dealer compared wear and mileage on 116 styles of tires which he repaired. The constant Miller supremacy has caused him now to handle the Miller Tires only.

A California stage line made million-mile comparisons with 21 leading makes. And the Miller won by long odds.

You owe yourself a comparison on your own car. The Miller is the tire of the day.

Over fifty years ago a young physician practiced widely in a rural district and became famous for his uniform success in the curing of disease. This was Dr. Pierce, who afterwards established himself in Buffalo, N. Y., and placed one of his prescriptions, which he called "Golden Medical Discovery," in the drug stores of the United States so that the public could easily obtain this very remarkable tonic, corrective and blood-maker. Dr. Pierce manufactured this "Discovery" from roots and barks—a corrective remedy, the ingredients of which nature had put in the fields and forests, for keeping us healthy. Few folks or families now living have not at sometime or other used this "Golden Medical Discovery" for the stomach, liver and heart. Over twenty-four million bottles of this tonic and blood remedy have been sold in this country.

OUTLOOK BEST IN YEARS.

San Angelo, Texas, May 23.—West Texas was thoroughly soaked Saturday and Sunday night by a slow rain that was still falling Sunday morning. At Mertzon, Barnhart, Big Lake, Ozona, Juno Comstock, Rock Springs, Carlsbad, Bronte, Robert Lee, Ballinger, Rowena, Miles, Christoval, Eldorado and other points almost three-quarters of an inch was received.

All moisture has soaked into the ground and insures fine summer range for livestock and excellent conditions for planting crops.

Only a week ago similar good rains fell and the outlook in West Texas is now the best perhaps in history.

The rains from 7 to 10 inches general all over West Texas and even upon the Plains. In the small grain sections the crop is estimated 80 per cent perfect. Farmers are working 16 hours a day getting the crop planted and it is estimated that by Saturday night 75 per cent of this county will be planted. There will be an increased acreage in cotton this year and Mitchell county expects a 35,000-bale crop for 1920. Two-thirds of the planted crop is now up to a good stand. Nobody has been in town this week and if the rain will stay off another week the Mitchell county crop and prospects will be 100 per cent perfect. Everybody is planning for a big future, the merchants report increased business over last year for the same month.

Last week we sent a printers wanted ad to the Dallas News which they refused to publish. Here is their letter:

"Referring to yours of the 20th submitting an advertisement of printer wanted, which you request us to insert Saturday and Sunday, sending you the bill, we regret to state we can not serve you in this instance, for the reason that at the present time there is such a scarcity of printers in Dallas that every newspaper publisher and job office is very seriously handicapped on that account. The situation is indeed serious, so you can readily understand that it would not be prudent for us to try to induce printers to leave Dallas when we ourselves are unable to get a sufficient number to carry on our business properly."

ANOTHER REASON.

The following clipping from the Estancia (new Mex.) News-Herald, constitutes another reason why Texas should be divided:

"J. L. Smith and family have returned from Texas, all affected more or less with malaria. They say they have had enough of Texas."

Doubtless many of the readers of the foregoing item would be surprised to know that looking for a case of malaria in West Texas would be about the same sized job as the fellow tackled who looked for a needle in the hay stack. But because malaria does not exist down in the "sticks," a lot of folks people the whole state with shaking, yellow-skinned, quinine-consuming creatures who perform their labors and transact business between chills and doses.

Hear the phonograph that baffled James Montgomery Flagg

Come in and test its marvelous realism for yourself

An audience of 2800 New Yorkers completely baffled! An Official Laboratory Model did it—actually rivalled Anna Case, one of the world's most brilliant sopranos, in a startling test at Carnegie Hall, on March 10th, 1920.

In our store, you can hear an instrument exactly like this famous Official Laboratory Model. You can test it for yourself—and see what a truly perfect realism it attains. We have equipped ourselves to give Mr. Edison's unique Realism Test.

The NEW EDISON
"The Phonograph with a Soul!"

The instrument used on March 10th, 1920, in Carnegie Hall, New York, was an exact duplicate of the original Official Laboratory Model on which Mr. Edison spent three million dollars in research work.

We, too, have an exact duplicate of this three million dollar original. We guarantee that it is capable of sustaining precisely the same test made on March 10th, in Carnegie Hall, New York City.

This guarantee will be given in writing,—if you wish.

Our Budget Plan puts this guaranteed Official Laboratory Model within your reach. It's a thrifty way of buying. Ask about it when you come to hear the Realism Test.

Mr. Flagg's Story
of the Miraculous Proof given at Carnegie Hall, New York, on March 10th, 1920.

"Miss Case draped her beautiful self against the phonograph. One of her song recordings was put on the instrument, and they, Miss Case and the phonograph, sang together. Then she stopped, and her other self continued. Then together again. "I looked away and then back again,—and it puzzled me to determine which was at the bet.

The Pianist

"Then the tallest pianist in the civilized world played a charming thing, accompanied by himself via the phonograph,—lifting his fingers away from the keys now and again. I could see him stop playing,—but I couldn't hear him stop.

The Dark Scene

"Then the big stunt of the recital. "Miss Case began singing with the phonograph. At a certain stanza the house was suddenly darkened. The song went on. I was shooting my eyes out like periscopes to detect the second when she would stop. I was sure I got it. Then she seemed to be back again. The flood of lights came on,—but no Anna! Only the phonograph singing away. It was quite wonderful,—and the audience applauded and laughed. Two girls behind me said 'Googracious!'"
Read what the New York papers say:
"The twin-ship between Miss Case's singing, and the reproduction thereof, proved so close as to be often indistinguishable."
—New York Globe.
"When the lights were lowered, it was impossible to tell when it was Anna Case, and when it was only her voice that was singing."
—New York Evening Sun.
"The voice in the fluffy pink draperies and the voice in the mahogany box seemed one and the same."
—New York Evening Mail.

A. J. HERRINGTON

SOUTHERN BAPTIST CONVENTION CLOSES

LARGEST RELIGIOUS ASSEMBLY IN COUNTRY PLANS FUTURE PROGRAM.

The seventy-fifth annual session of the Southern Baptist Convention, which has just recently closed in Washington, D. C., was marked by an attendance of over ten thousand, and was declared to be the most remarkable session of the convention in its history. Union Plaza of Washington has not been so crowded since war days as it was when the hosts of Southern Baptists bore down upon the gates of Liberty Hut, the Billy Sunday tabernacle, where the sessions of the convention were held. The attendance was so great that as many as three simultaneous overflow meetings were being held in different auditoriums of the city, Liberty Hut not being able to handle half the crowds. Texas, though on the Western outskirts of the convention territory, was represented by more than 1,000 delegates.

Texas Man Re-Elected President.

Dr. J. B. Gambrell of Fort Worth, Texas, was re-elected for the fourth consecutive year as president of the body, thus breaking a twenty-year precedent that no person shall serve the convention as president more than three years. His election is regarded as significant as indicating that Southern Baptists have not changed in their attitude respecting the Inter-church World Movement in declining to enter the movement. Dr. Gambrell has been the spokesman for the denomination in expressions concerning the Inter-church World Movement, and his re-election is recognition of his continued leadership among Southern Baptists.

Convention Addressed By Vice-President Marshall.

Vice-President of the United States, Thomas R. Marshall, in an address of welcome to the Baptists on behalf of the Government, pleaded for the fuller acceptance of Jesus Christ in the minds and hearts of individual men and women, and added that it was his conviction that peace would never come to the world unless founded upon the teachings and principles of the lowly Nazarene. In his address Mr. Marshall paid his respects to churches that had forgotten to preach the gospel and were trying to reform society by dabbling in politics and trying to reform the government. He declared that the true churches were the anchors of safety for the nation.

Letter From President Read.

During the proceedings of the Convention the following letter from President Wilson was read:

THE WHITE HOUSE
Washington, May 12, 1929.

My Dear Dr. Tupper:

It is a matter of genuine and very deep regret on my part that I cannot personally greet the members of the Southern Baptist Convention now gathering to hold the Diamond Anniversary Convention in this city. It would be a great pleasure to me, if I could meet the members personally and express my deep concern in all the great interests which they represent. It is of special significance and timeliness that a great Christian Convention should be held in Washington, because the nation now faces nothing less than the question whether it is to help Christian people in other parts of the world to realize their ideals of justice and of ordered peace. And I am sure that the nation will listen with the greatest deference to the utterances of the Convention.

Cordially and sincerely yours,
WOODROW WILSON.

Final Report on 75 Million Campaign
Dr. R. L. Scarborough of Fort Worth, Texas, General Director of the Baptist 75 Million Campaign, made his final report on the results of the drive. The official figures reached a total of \$93,610,000. The expenses of the campaign for raising this huge sum were remarkably low, being less than three-fourths of one per cent. Following the report a committee, consisting of one member from each state, and headed by Dr. F. S. Groner, of Dallas, Texas, was appointed to make recommendations for the program during the next four years of the five-year campaign.

Truett Addresses 10,000 From
Capitol Steps

The climax of the convention was reached in an address by Dr. Geo. W. Truett of Dallas, Texas, delivered from the steps of the east entrance of the Capitol, overlooking the spot where the presidential inaugurations are held. Dr. Truett spoke on Baptists and Civil and Religious Liberty to an audience estimated at ten thousand, which frequently cheered him during his references to the League of Nations and to President Wilson. "Standing in the shadow of the Senate Chamber," said Dr. Truett, "I declare that the moral forces of the country, without regard to political party, regard the delay on the League of Nations a national and world-wide tragedy. I can certify to men of all political parties that the moral forces of this country will not be silent until there is put forth a great league of nations that shall strive with all its might to put an end to the diabolism and horror of war. I thank God that that stricken man yonder in the White House pleaded and pleads yet that the Nation will take its part with others in bringing a new era wherein shall dwell righteousness and peace." In his address Dr. Truett recounted the fight Baptists have made and won for civil and religious liberty in America. "With the intelligent Baptist," declared the speaker, "religion is forever voluntary uncoerced, dictated by no power, civil or ecclesiastical."

Will Establish Hospital in New Orleans

Following a report on hospitals and sanitariums, which was prepared and read by Dr. F. S. Groner, the general secretary of the Baptist General Convention of Dallas, Texas, the convention voted to help establish a hospital in New Orleans to cost \$1,500,000.

Chattanooga, Tenn., was selected as the place for the convention next year. Dr. H. L. Winburn of Arkansas, will preach the convention sermon.

If the CHALMERS Engine Had Windows You Would See These Revolutionary Processes

THE great thing about a motor car, after all, is how it transforms the energy that nature stored away in gasoline into horsepower.

Chalmers today leads in this, and the automobile industry to a large extent has accepted the Chalmers principles by which power is wrung from "gas."

If the Chalmers engine had windows you would witness these two amazing processes. You would see the Hot Spot heat up and, like a hot stove sending up into steam water dropped on it, transform the raw, inferior "gas" of the day into a "vapor cloud."

You would see the instantaneous change from a "rainy liquid gas" to a so-called "dry gas."

Then you would look through Ram's-horn and note this "vapor cloud" being rushed at a velocity of one hundred miles an hour through easy air bends an equal but short distance to each cylinder.

You would see the explosions in the cylinders, how much of this "cloud" was converted into power, how little was wasted through the exhaust.

You would note, too, how even and smooth these explosions were, and how absent the element of vibration that raises so much havoc in a car.

You would understand clearly how such troubles as frequently fouled spark plugs, burned bearings, and scored cylinders are absent in a Chalmers.

Your conclusion would be identical with so many others: that Chalmers is one of the few great cars of the world.

A Flower Garden of Girls

—Beomes a reality when there are such lovely frocks from which "The Graduate," "The June Bride," "The Summer Girl," may choose.
—One may select cool, crisp, lightsome dresses, daintily refreshing as the softest whispering Summer Zephyrs, as rich in coloring as the iridescence. Lovely dresses whose exquisite embroideries lend an irresistible charm to that natural jaunty vivacity of youth. Fine imported and domestic Organdies, Voiles, Filmy Georgettes, Taffetas and Crepe de Chine have been made up into wondrous garments of transcending beauty and entrancing dress appeal.

Outfitting the Girl Graduates

—Graduation and all its ensuing festivities require that the feminine portion of the Class of 1920 be clad in all the frivolous and youthful niceties of the season. Frilly frocks for parties, lace lingerie, petticoats and cobwebby hosiery are some of the costume details every girl must have fresh and new for the occasion.
—Nothing could make a lovelier gift than something to wear at a time when a girl cannot have too much.

Footwear
Baby Louis Heel Pumps and Oxfords have arrived in black, and brown. One eyelet Oxfords and Pumps, made up in a good quality kid leather. All sizes.

Bathing Suits.
—We have now in stock a nice assortment of Bathing Suits in an array of colors and patterns—Cotton and Wool, all sizes, priced at \$1.25 and up.

C. M. ADAMS

NOTICE TO COAL USERS

The railroads have asked for an increase in freight rates of 30 per cent, which means about \$1.35 per ton on coal. You better get yours now before this rate is granted, and save \$1.30 on every ton you buy.—O. Lambeth.

If you lose your house and household goods by fire and have no FIRE INSURANCE, and your neighbor asks me for a donation, I will do as usual and donate something. Why not let me write you a FIRE INSURANCE POLICY which will PROTECT both of us. E. Keathley, Agent.

ANOTHER CANDIDATE FOR SHERIFF

By referring to the announcement column this week, you will see a new announcement for Sheriff and Tax Collector of Mitchell County. Mr. J. W. Kay casts his hat in the ring and asks the people of the county for their support. Mr. Kay is well and favorably known throughout the county, and it is unnecessary for the Record to introduce him to the public. He made this race about six years ago, and received a very liberal vote. He has taught school in this county for years. Mr. Kay asked us to say that he has in a big crop, and he will have to give most of his time to it, and may not be able to see all the people personally, but that he will appreciate any consideration that might be given to his candidacy.

SOLD OUT AND THANK YOU.

This is to announce that we have sold the Farmers Bakery to Mr. E. H. Hurd, who is now in charge, and for the present we will retire, and in so doing we wish to most heartily thank one and all of our friends and customers for their past liberal patronage and many courtesies shown to us. We have endeavored at all times to please, and again we say, thank you. We can fully recommend Mr. Hurd as a first class baker, and we hope that you will give him the splendid support accorded us. In retiring we might say that later on in the fall, we may open up a first class Kandy Kitchen. Respectfully

J. B. FARMER & CO.
Referring to the above, I wish to say that I hope to keep the Farmer Bakery up to its present high standard of efficiency, and even improve it if possible. I have had years of experience as a baker and will endeavor to please the most exacting public at all times. I have moved my family here and am a Colorado citizen, and ask for the continued patronage of the Farmer Bakery.
Respectfully,
E. H. HURD.

F. M. Bourn left Tuesday evening to spend the summer at Steamboat Springs, Colorado. Mr. Bourn has a sister, Mrs. T. C. Newton, at Mertzton whom he had not seen in 24 years. He wrote to Mrs. Newton offering to take her on his summer outing, and she came up this week, and they left Tuesday night to visit Mrs. Crawford in Colorado. Mr. Bourn came in and had the Record changed to his new address so that he could keep up with Joe Sheppard, Henry Doss and Jim Greene.

Best Remedy for Stomach Trouble.
"I am pleased to have the opportunity to say a good word for Chamberlain's Tablets," writes Mrs. Minnie Bertel of Moberly, Mo. "I think they are the best remedy for stomach troubles, biliousness and constipation I have ever used. I have taken them off and on for two or three years and they always relieve indigestion, tone up the liver and make me feel fine."
