ATTEMPT ROBBERY SATURDAY OF THE F. M. BURNS STORE

OFFICERS PREVENT BURGLARY AND ARREST SUSPECT AFTER CHASE

Charles Davenport, 28 years of age and who claims his home as being in West Point, Mississippi, was arrested on the charge of burglary early Saturday morning in the Ausley & Wright grocery and locked up to await action of the Grand Jury, which is to be convened in November.

While walking his beat at four o'clock Saturday morning, Dick Hickman, night patrolman, detected a noise from the front entrance of the F. M. Burns store and making a hasty investigation found that the building had been broken into. The officer went inside the store and frightened the would-be-burglar, who had just reached the cash register, through an upper window in the rear.

Hickman ran out on the street and to the rear of the building where he again encountered the man, whom he demanded to surrender. This Davenport refused to do, but ran through the alley north of 2nd St. to the rear of Ausley & Wright's grocery, where he smashed a window and took refuge inside the building.

The officer signalled for assistance and a guard was placed at the rear and front of the building. Meanwhile Sheriff Chesney was summoned. A messenger was sent to the home of Mr. Ausley for a key to the store and when the door was opened and the officers entered, they were greeted by the cry, "I have my hands up! I have my hands up!" This came from Davenport, who had taken refuge behind a row of boxes.

In a statement to the officers Saturday morning Davenport claimed that he came into Colorado Friday night on a freight train, and that his motive for breaking into the Burns store and attempting to rob the cash register was prompted by the desire to relieve himself of the embarrass-

IATAN WELL MAKES SHOWING

Second Well of Mitchell County To Make Good Showing of Oil

The Iatan well of the Colorado-Texas Company is in the sand at a depth of 1595 feet and is making an excellent showing of oil, according to reports confirmed by the Record Thursday morning. The sand was encountered Sunday. The log of this well compares in many respects with that of the Underwriters T. & P. No. 1, near Westbrook.

The well is reported standing 1000 feet in water and as soon as casing, to be eight inches in diameter, is lowered, a thorough test will be made. Reports from the well by various scouts and members of the drilling crew are of an optimistic nature and the general belief is that a good find has been made.

This well is in West Mitchell County, about one-half mile from the Howard county line and was spudded in only a few months ago.

The Underwriters T. & P. No. 1 continues to support every evidence of making a good pumper. Oil remains standing in the well at a depth of several hundred feet and work of cleaning the well preparatory for the test is practically complete. The preliminary survey for a pipe line running from this well south to the Texas & Pacific right of way has been made and the company plans to rush completion of this line and the erection of storage tanks, should the well test out the producer now contemplated.

The wells at Iatan and Westbrook are the only two in Mitchell county to be drilled to a sufficient depth as to denote a test, and the fact that oil has been found in both, makes very psychological the conclusion that a new field of most promising possibilities, has been found.

DOMESTIC ROW IS ENDED SERIOUSLY; MAN IS ARRESTED

W. H. WEISEN RECEIVES KNIFE WOUNDS; MURDER ASSAULT CHARGES PREFERRED

Charges of assault to murder were preferred against B. R. Morrow Saturday morning in connection with the difficulty between Morrow and W. H. Weisen Thursday afternoon at the Colorado Laundry, in which Weisen received two knife wounds alleged to have been inflicted by Morrow.

The difficulty is alleged to have been the culmination of family troubles between the two men, in which the wife of one played a part, according to statements made by them to officers investigating the case.

Weisen is an employee at the laundry and Morrow claims to have come to the city recently from Comanche. Weisen was stabbed once in the right side and once in the right thigh, neither of the wounds being regarded as serious. Dr. Root attended the wounded man and made five stitches in closing the two wounds.

Morrow was given an examining trial Monday morning and his bond set at \$750, in default of which he was remanded to jail. Sheriff Chesney stated Monday afternoon that Morrow expected to make bond in Smith County and that a form for incorporating the bond had been mailed to an address in that county given him by the prisoner.

WILL PUBLISH ARTICLE ON MITCHELL COUNTY

William Dee Little, of Dallas, special representative of Farm and Ranch, one of the leading periodicals of the Southwest, was in Colorado Tuesday and Wednesday collecting data for an article to appear in that publication early in September.

In company with Judge C. H. Earnest, Ben Van Tuyl and W. S. Cooper, representatives of Colorado Chamber of Commerce, Mr. Little made an inspection of some of the farms in the country east of Colorado and expressed himself as being highly pleased with conditions as he saw them. Especially was the journalist impressed with the outlook for an excellent cotton crop in those sections this year, expressing surprise at having found such excellent specimens in West Texas and outside the old recognized cotton belt of East Texas.

The story to be contributed to Farm and Ranch will feature a synopsis of the agricultural and live stock industries in Mitchell County, according to Mr. Little, and since he was shown some of the very best crops here to be found anywhere in the Southwest, the article no doubt will be interesting to agricultural enthusiasts throughout the country. Pure bred cattle and hogs, of which Mitchell County possesses some of the best in the country, will also be featured.

Mr. Little expressed surprise when informed that no boll weevils infested the cotton crops in this section. According to information obtained by the Chamber of Commerce the boll weevil cannot hibernate in this altitude and climate.

Mr. Little was formerly in the newspaper business, at Tulsa, Oklahoma, and attained an enviable reputation among the fraternity of that State.

He expressed deep appreciation for courtesies shown him by Judge Earnest, Mr. Van Tuyl and others of the city for their assistance to him in gathering the information about Mitchell County he desired.

TO THE MITCHELL COUNTY FARMERS:

The Mitchell County Cotton Marketing Association, met last Saturday, July 17th, and agreed to leave this body open to membership until Sept. 1st. Every farmer in Mitchell County is urged to join this Association.

WHISKY SELLS AT \$50 THE GALLON

ALLEGED VENDORS CONTRA- BAND WHISKY ORDERED HELD FOR INVESTIGATION

C. A. Downard and William Dinsmore, charged by complaint with having sold illicit whisky in Colorado on Sunday, July 18, were brought to Colorado Tuesday from Big Spring for an examining trial before J. C. Hall, who has concurrent jurisdiction in the cases.

According to a sworn statement filed with the court, Downard came to Colorado and negotiated the sale of one gallon of the contraband to a local citizen for a price of fifty dollars. The money was paid and the whisky delivered, the allegation states. Dinsmore, who is alleged to have been in partnership with Downard in bootlegging the whisky, is charged as an accomplice to the sale.

Downard was granted bond in the sum of \$1,500 for his appearance before the Mitchell County grand jury to be convened in November, in default of which he was remanded to jail. Dinsmore was allowed bond in the sum of \$500 for appearance also before the grand jury here, but likewise defaulted in furnishing surety for his release.

Dinsmore was returned to Big Spring Tuesday afternoon in custody of a deputy sheriff of Howard County where he is being held for Federal authorities on the charge of transporting contraband whisky. It is alleged that he shipped a trunk filled with whisky from Pecos to Big Spring shortly before the sale in Colorado. The shipment was consigned to "C. A. Swops," a fictitious name. Big Spring officers placed Dinsmore under arrest at the express office when he called for and received the shipment.

The State was represented by District Attorney E. L. Hill of Sweetwater, County Attorney Thos. R. Smith of Mitchell County and County Attorney J. E. Thomas of Howard County. The defense was represented by L. W. Sandusky, local attorney, who was appointed by the Court to represent the two men in the hearing.

In response to the question if he had not cut the price considerably in negotiating the sale of one gallon of whisky here, Downard stated that such was the case, but offered as his reason for this the assertion that he arrived in Colorado practically broke. "I had nothing but a \$20 bill and that gallon of whisky, and knew that I must make the price attractive in order to realize a quick sale," he said. Reports from some of the towns down in the Central Texas oil belt, where bootleggers are reported as having done good business for a time, indicate the price advanced to \$25 and \$30 per quart for the commodity.

The name of the party to whom the sale was made in Colorado was not made public.

Downard had just made bond at Big Spring and was leaving the jail when a warrant for his arrest on charges preferred in this county was received, according to Sheriff Chesney. The man, after five minutes of liberty, was again locked up pending advices from officers here.

CHAMBER OF COMMERCE ADDS MANY MEMBERS

150 New Names Added to Member- ship Roster; Chamber Will Con- tinue Drive for New Members

Many new names have been added to the Chamber of Commerce membership roster, according to a report of the committee recently appointed by the executive board of the chamber to conduct a drive for swelling the membership. A total of 150 members had been subscribed Wednesday afternoon for the ensuing year.

Practically every citizen of the city is joining the organization, according to the committee, who expect to announce a membership of 175 before the drive is completed. These citizens are also subscribing liberally to the treasury of the chamber and sufficient funds for the financing of

an extensive program during the year is assured.

The committee, composed of J. H. Greene, H. L. Hutchinson and W. S. Cooper state that it was desired to extend personally an invitation to every citizen of the city to join the Chamber of Commerce and that in case any one might be overlooked, his name will be enrolled upon application to the committee or at the bank of which he is a customer.

LETTER BOX ACCOMODATION DENIED COLORADO PATRONS

Requests made jointly by the Colorado Chamber of Commerce and the traffic department of the West Texas Chamber of Commerce to S. M. Gaines of Fort Worth, division superintendent of the Railway Mail Service, that a box for posting mail for outgoing trains be located at the Texas & Pacific passenger station have been declined by Mr. Gaines in communications received from him during the past few days by the local chamber.

In its petition for this service, the Colorado Chamber of Commerce sought to show the demand for this service, as evidenced every evening by the number of letters mailed on No. 26, which is scheduled to arrive in Colorado one hour and twenty-seven minutes after time for the closing the pouches at the postoffice. This necessitates that outgoing mail that could not be prepared in time for working and routing at the postoffice must either be mailed on the train or permitted to be held over 24 hours. A box at the station would relieve the necessity for citizens to wait in line for posting their letters on the train.

In a communication addressed to the secretary of the Chamber of Commerce under date of July 30, Mr. Gaines says: "There should be very little mail to deposit in the mail cars at Colorado, as the postoffice is such a short distance from the station that the mail can be closed at a late hour." Information showing that a period of approximately one and one-half hours passes between the time for closing the pouch at the postoffice and arrival of train No. 26, and that on some occasions from 20 to 40 letters are mailed on the train, many times left in care of the porter, has been filed with Mr. Gaines to meet the argument outlined above.

"I am sure that the Postmaster would consider it a reflection upon his office if the patrons discontinued depositing their mail in his office and instead placed it in the letter box," continued Mr. Gaines. It is by no means suggested by the Chamber of Commerce that such a policy be adopted, according to a statement made to the Record Monday, it being contended that no difference could result, in so far as patronage of the postoffice is concerned, whether the people had to continue waiting at the station to post letters or were given the accomodation afforded by depot letter box, the same as Big Spring, Sweetwater, Abilene, Stamford and other towns of West Texas.

Ed. P. Byars, manager Traffic Bureau, West Texas Chamber of Commerce, in a letter addressed to Mr. Gaines on July 29, stated:

It is our belief that the Colorado Chamber of Commerce have correctly stated the situation to you, and we feel that the Postoffice Department will take pleasure in taking care of their needs in this instance."

The matter of obtaining for patrons of the postal service in Colorado this needed service has been pending before the Chamber of Commerce for some time. No statement was given out by the secretary as to what course would now be adopted.

QUINNEY CITED FOR BRAVERY

COLORADO BOY IS CITED FOR BRAVERY BY THE AMERICAN AND FRENCH GOVERNMENTS

Gilbert R. Quinney of Colorado, has been cited for distinguished and exceptional gallantry during the fighting at St. Etienne, October 3-9, 1918, and received an official citation of this distinction last week from the War Department signed by General John J. Pershing. Quinney was also awarded the Croix de Guerre by the French government for distinguished bravery and gallantry in service during the same period.

Quinney enlisted in the Marine Corps at Fort Worth in April, 1917 and was trained at Paris Island. He was attached to Co. 82 of the 6th Railway Marines and crossed to Europe in October, 1917 and saw much of the fighting during the early stages of American entry into the war. He was returned to America in August 1919, and received an honorable discharge from the service August 13, 1919.

Young Quinney is an employee at W. R. Charters drug store.

POLITE BURGLAR LEAVES TROUSERS FOR VICTIM

Lem Bodine of North Colorado reports that there was a considerable burglar in the city Monday night, in that after having rifled his pockets of eight or ten dollars as he slept, the burglar returned the trousers to their former place near his cot, so that he might not be placed in the most embarrassing position of having to go into the house Tuesday morning when he awoke in his nightgown.

Bodine, driven from his room Monday night because of the heat, went out into the yard at his home and slept on a cot. Tuesday morning when he awoke he found a fishing pole nearby and an inventory of his pockets showed that he had been robbed. An investigation showed that sometime during the night a burglar had stealthily come to the fence near where he was sleeping, reached Bodine's trousers with the pole and then replaced them after appropriating what cash the pockets contained. A letter, yet unopened, in Bodine's pockets, was torn open by the burglar, who, after reading it over, it is presumed, returned it to the trousers pocket.

No arrests had been made at last report and so far as information given the Record went, there was no clue as to the identity of the prowler.

DEMOCRATIC COMMITTEE HAS OFFICIAL MEETING SATURDAY

The Democratic Executive Committee of Mitchell County was convened in Colorado Saturday afternoon for the purpose of canvassing returns of the primary election held Saturday, July 24. The official count shows no material change in the vote received by the various candidates, as published in the Record last week, and these were declared as the nominees in this county.

In the absence of the county chairman, J. A. Buchanan, who was absent from the city on business in New Mexico, Dr. P. C. Coleman, committeeman from Precinct No. 1, presided.

Paper files, Letter Files, Hooks, fountain pen ink, T. W. Ribbons and full office supplies at the Record office.

BAILEY SUES RECORD FOR \$100,000 DAMAGES

Gainesville, July 30.—A suit entitled Joseph W. Bailey vs. The Record Company, of Fort Worth, Tex., for \$100,000 was filed in District Court here today. It was alleged that false, slanderous and malicious publication of matter in regard to Mr. Bailey's alleged connection with the element opposed to prohibition had been made in the issues of The Fort Worth Record on April 22 and 29th last.

Mr. Bailey was the leading candidate of a field of four in the contest for the Democratic gubernatorial nomination at last Saturday's primary and will contest for the nomination with Pat M. Neff of Waco, at a run-off primary Aug. 28.

While no word has been received by the Record from Gainesville relative to the suit, report of it appears to be wide-spread. The first The Record heard of the suit was in the voluntary tender of services by leading attorneys of Texas, who express the opinion that the allegations do not show a basis for action.

LUMBER JACK OUT FOR JOB IN LARGE PANHANDLE FOREST

Anybody on the plains need a first class Woods Foreman? Any logging company doing business in this densely wooded section of the world has an opportunity to secure the services of a good man, according to a letter written by a Mississippi woodsman, and addressed to "Long Bell Lumber Company," as follows:

"Do you know a woods foreman or team foreman, if so I would like to have a job with the company if interested write me & state wages you would pay. Me I have had all kinds of experience in logging & running log camp & what do you log with ox teams or mules & horses or skidder. I have handled all kind age 36 married with family. Yours truly."—Hersford Brand.

We people who live here in Texas can hardly realize the dense ignorance that prevails outside the state as to just what Texas is like. The plains is certainly no place for a woodsman to secure a job.

TEN years ago you might have seen one or two automobiles waiting outside the station, when the weather was pleasant.

Today the square is crowded with them. And most of the cars you generally see there are moderate-price cars.

There is one tire, at least, that makes no distinction between small cars and large cars so far as quality is concerned—the U. S. Tire.

Every U. S. Tire is just like every other in quality—the best its builders know how to build.

Whatever the size of your car, the service you get out of U. S. Tires is the same. It isn't the car, but the man who owns the car, that sets the standard to which U. S. tires are made.

We come in contact with the small car owner every day and we have found that he is just as much interested as the big car owner.

TEXTBOOKS WILL BE ISSUED AT COURT HOUSE

Effective September 1, text books for use in the public schools will be kept by the county superintendent of public instruction and by him issued to the several school districts of the county, instead of the former plan providing that each district carry these books for distribution to the pupils.

This plan will be adopted in accordance with instructions recently issued by Miss Annie Webb Blanton, State superintendent of public instruction.

The county superintendent will be directed to have provided a suitable store room at the court house for carrying the text books and will issue them to the districts under his charge as needed from time to time. A surplus, representing 25 per cent of all books used in the schools of the county will be carried.

County Judge Hall, as ex-officio superintendent of instruction in Mitchell County, will have charge of the distribution of text books here and stated Monday that he would arrange for keeping them at his office, in conformity with direction of the State superintendent. The county superintendent will be required to execute a bond to protect the State from loss through his handling of the books.

Traveling Man's Experience

You may learn something from the following by W. H. Ireland, a traveling salesman of Louisville, Ky. "In the summer of 1888 I had a severe attack of cholera morbus. I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic and Diarrhoea Remedy and to take no substitute. I took a double dose of it according to the directions and went to sleep. At five o'clock the next morning I was called by my order and took a train for my next stopping place, a well man."

BILLIE AND GEORGE ARE RELEASED FROM CUSTODY

Billie Wendall and George Jones, the two boys placed under arrest in Colorado Monday of last week on charges of entering ticket office at the T. & P. station, were released later during the week at the suggestion of G. L. Jones, 558 South Quincy Street, Tulsa, Oklahoma, father of George.

The boys at first claimed that their homes were in El Paso, but a few days following their arrest admitted their homes to be at Tulsa. Judge Hall wired the father of George to ascertain if transportation would be furnished for returning the boys home. To this, Jones wired in reply: "Just turn the boys loose. They will come home."

The boys are said to have been ideal prisoners during the few days of their confinement and were placed in the "trusty class" being allowed the privileges of going outside the jail into the fenced enclosure at will.

Sheriff Chesney stated Saturday that the boys were given their freedom, with the suggestion that they return home and "turn over a new leaf," but stated that the suggestion that their pistol be returned was ignored and that the contraption, answering several descriptions of a gun, had been filed in the archives at the Courthouse.

RELATING TO TAXATION BY SCHOOL DISTRICTS

Senate Joint Resolution No. 17
Proposing an amendment to Section 3, of Article VII of the Constitution of the State of Texas by exempting independent and common school districts from the limitation of a total tax of one dollar on the one hundred dollars valuation for any one year, and making an appropriation therefor.

Be it resolved by the Legislature of the State of Texas:
Section 1—That Section 3 of Article VII of the Constitution be so amended as hereafter to read as follows: (Creating a new Section 3.)

Section 3—One-fourth of the revenue derived from the State occupation taxes and a poll tax of one (\$1.00) dollar on every inhabitant of this state, between the ages of twenty-one and sixty years, shall be set apart annually for the benefit of the public free schools; and in addition thereto, there shall be levied and collected an annual ad valorem state tax of such amount not to exceed thirty-five cents on the one hundred (\$100.00) dollars valuation, as with the available school fund derived from all other sources, will be sufficient to maintain and support the public schools of this State, for a period of not less than six months in each year, and it shall be the duty of the State Board of Education to set aside a sufficient amount out of the said tax to provide free text books for the use of children attending the public free schools of this State; provided, however, that should the limit of taxation herein named be insufficient to defray the cost of such text books, the general funds of the state and the Legislature may also provide for the formation of school districts by general or special law without the local notice required in other cases of special legislation; and in such cases, whether created by general or special law, whether created by two or more counties, and for the laws for the assessment and collection of taxes in all said districts and for the school or schools of such districts, the public school or schools of such districts are composed of territory wholly within a county or in parts of two or more counties; and the Legislature may authorize an additional ad valorem tax to be levied and collected within all school districts heretofore formed or hereafter formed, for the further maintenance of public free schools, and the erection and equipment of school buildings thereon; provided, that a majority of the qualified property tax-paying voters of the district voting in said election, shall not exceed in any one year one dollar on the hundred dollars valuation of the property subject to taxation in such district, but the limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts, nor to independent or common school districts created by general or special law.

Section 2—The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the state on the first Tuesday after the first Monday in November, 1920, at which election all voters voting in said election shall vote on the words, "For the Amendment to Section 3 of Article VII of the Constitution of the State of Texas, providing that the limitation upon the amount of school district tax of one dollar on the hundred dollars valuation shall not apply to independent or common school districts created by general or special law."

Section 3—The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and existing laws of the State.

Section 4—That the sum of Five Thousand and (\$5,000.00) Dollars, or so much thereof as may be necessary is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated, to pay the expenses of such publication and election.

RELATING TO THE MANNER OF COMPENSATION OF PUBLIC OFFICIALS

House Joint Resolution No. 7

A joint resolution of the Legislature of the State of Texas, proposing an amendment to the constitution of the State by adding to Article 16 thereof a new Section, to be known as Section 60; providing for the compensation of public officials.

Be it resolved by the Legislature of the State of Texas:
Section 1. That there is hereby added to Article XVI of the Constitution of the State of Texas, a new section to be known

as Section 60 of Article XVI of the Constitution of the State of Texas, which shall read as follows:

Section 60. Compensation of Public Officials: All State district, county and precinct officers within this State shall receive as compensation for their services a salary, the amount of which, the terms and methods of payment and the fund out of which such payments shall be made, shall be ascertained, declared and fixed by the Legislature from time to time; provided that the Legislature may make such exceptions as it may deem advisable.

This section shall supersede all other provisions of this constitution fixing and declaring the compensation of officers by salary, fees or otherwise and all provisions for salaries or other compensation for public officials, executive, legislative or judicial.

Section 2. The Governor of the State is hereby directed to cause to be issued his necessary proclamation for an election to be held on the first Tuesday after the first Monday in November 1920, at which election this amendment shall be submitted to the qualified electors of this State for adoption or rejection and shall make the publication required by the constitution and laws of the State. Said election shall be held under and in accordance with the General Election Laws of the State, and the ballots for said election shall have printed or written thereon in plain letters the following words:

"Official Ballot" "For the amendment to Article XVI of the Constitution of the State of Texas, adding thereto Section 60, providing for compensation of public officials." "Against the amendment to Article XVI of the Constitution of the State of Texas, adding thereto Section 60, providing for compensation of public officials." Those voters who favor such amendment shall erase by marking a line through the words "Against the amendment to Article XVI of the Constitution of the State of Texas, providing compensation for public officials." Those who oppose such amendment shall erase by marking a line through the words "For the amendment to Article XVI of the Constitution of the State of Texas, providing compensation for public officials." And the result of the election shall be published and declared according to the majority of the votes cast in such election.

Section 3. The sum of Five Thousand Dollars, or so much thereof as may be necessary is hereby appropriated out of any funds in the treasury not otherwise appropriated for the purpose of paying the necessary expenses of the proclamation and publication of this amendment and the election to be held hereunder.

C. D. MIMS, Secretary of State.

AUTHORIZING ONE AND ONE-HALF PER CENT AD VALOREM TAX BY CITIES AND TOWNS OF FIVE THOUSAND OR LESS POPULATION.

Senate Joint Resolution No. 12.

Proposing an amendment to Section 4 Article XI of the Constitution of the State of Texas, by increasing the total tax rate that may be levied by cities and towns having a population of five thousand or less than one-fourth of one per cent to not exceeding one and one-half per cent, and making appropriation therefor.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 4, Article XI of the Constitution be so amended as hereafter to read as follows:

Section 4. Cities and towns having a population of five thousand or less may be chartered alone by general law. They may levy, assess and collect such taxes as may be authorized by law, but no tax for any purpose shall ever be lawful for any year which shall exceed one and one-half per cent of the taxable property of the city; and all taxes shall be collectible only in current money, and all licenses and occupation taxes levied, and all fines, forfeitures and penalties accruing to cities and towns shall be collectible only in current money.

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the state on the first Tuesday after the first Monday in November, 1920, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words, "For the amendment of Article XI of the Constitution of the State of Texas, increasing the total tax rate that may be levied by towns and cities having a population of five thousand or less from one-fourth of one per cent to not exceeding one and one-half per cent of any one year."

Section 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election, and to have the same published as required by the Constitution and existing laws of the State.

Section 4. That the sum of Five Thousand Dollars, or so much thereof as may be necessary is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated, to pay the expenses of such publication and election.

THRIFTY PEOPLE HAPPY, SAYS PASTOR OF DALLAS PRESBYTERIAN CHURCH

"I am grateful for thrift lessons taught me in my boyhood, and have been observing them ever since," said Dr. W. M. Anderson, Sr., pastor of the First Presbyterian Church of Dallas. "It will help the cause of the Lord if we impress thrift thoughts upon the minds of the people just now. Thrift people are the happiest people, having no financial worries, they are prepared to work for the church. Are you able to save money? If so, you will succeed. The people should be informed as to Thrift and War Savings Stamps; they make saving easy and convenient."

LETTER FROM E. M. McCRELESS

I am now in what is understood to be the pine woods, but which is not literally the case, but is composed of pine, oak and hickory, and rich river bottom lands. The crops here are reasonably good, or considered so here, except for the dread of the boll-weevil which is already reported to be doing great damage.

I attended a District Masonic Conference at Rose Hill Lodge yesterday--It might well be called a high day, for me at least. The crowd was immense, and the dinner was not only sufficient, but bountiful and sumptuous. The conference closed at the noon hour and the evening was taken up by public addresses and conferring side degrees on those who were becoming new members. The services I think, are not only pleasant but instructive.

The locating of Public Highways across the different counties here is now going on, and creating general interest.

PLAN TO ENLARGE FARMERS' EXCHANGE

Probably the most important thing which is to come before the annual convention of the Texas Farmers Educational and Co-operative Union Aug. 10, 11, 12, is the increasing of the capital stock of the Farmers' co-operative Exchange at Houston from \$30,000 to \$100,000, according to D. E. Lyday, president.

During the first year of its existence, the exchange has been managed by S. M. Inman and handled on a commission basis, selling 20,000 bales of cotton for its membership and gaining for them about \$20 more a bale for the cotton than otherwise could have been secured. Mr. Lyday said:

"It is planned to let the Texas exchange handle other commodities, as well as cotton, as do the Farmers' exchange of Iowa, Kansas, Nebraska and Missouri. Exchanges in these states sell hogs, corn, and other commodities, according to Mr. Lyday, who points out the fact that during the past year they sold more hogs through exchanges than any other individual or commission in the world.

A system of grading by means of which the farmer will be able to get higher prices for his cotton and the spinner will more nearly secure his needs will probably be installed, it is announced. Heretofore the farmer has had to sell his cotton to a man who bought it in the bulk and assorted it into its more distinctive grades and profited in that way. In some cases he would get as high as \$50 more a bale than the price he paid for it. It is proposed that the farmer be given the advantage of this distinctive grading, which grows out of the inability of certain spinners to use cotton other than that of certain tinge or color and fibre length. Should this system be adopted, experts will be secured to handle this phase of the business.

Mr. Lyday said that an effort had been made to discourage co-operative stores throughout the State, owing to the number of such undertakings that had failed in the past and the fact that the union could offer no centralized assistance. Some are still in operation, however, he declares. He believes that in time they can be bound together into a State-wide organization. The union now has between 150 and 200 warehouses and as many gins in Texas.

Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION

The plans for the ensuing year should not be complete until you have taken out a membership card in the Chamber of Commerce. Practically every business and professional man of the city are members. Are you one of the few who are not?

Because both Bailey and Neff are advocates of policies that the Amarillo Tribune cannot endorse that publication will adopt a policy of "hands off" during the run-off campaign, unless the campaign shall develop issues that it believes of such vital importance as to justify a change of attitude.

Farmers of Mitchell County made an enormous crop of grain and feed crops last year, the best for several years, and as a result the acreage usually planted to these crops was considerably reduced this year. The acreage planted to cotton this year represents a very large per cent of the lands under cultivation.

The agricultural exhibit from Mitchell County to be shown at the Illinois State Fair at Springfield the latter part of this month, will be worth much in the way of advertising to people of that state the wonderful possibilities of West Texas. Farmers are urged to co-operate with the County Farm Agent in making this exhibit a truly attractive one.

Every patriot in Texas, man and woman should rally to the standard of Pat M. Neff and place him far beyond the reach of possible defeat. Every man who can talk, every woman who can use her gentle influence and every public journal and every believer in the preservation of the good name of Texas should now join hands without question and rally to the standard of Mr. Neff.

Reports from over the State show that Bailey was eliminated by the Democrats in county conventions Saturday. It was largely a repetition of the scene on the first Saturday in May at precinct conventions and the following Tuesday in county conventions when the repudiators of the Federal Farm Loan Act, the Federal Reserve Bank Act, the Eight Hour Law, the achievements of the Democratic Administration in peace time and in war, were themselves repudiated.

And now comes the news of a suit filed in the District Court of Cook County in which Joseph W. Bailey seeks to recover damages against the publishers of the Fort Worth Record for malicious falsifying upon the part of that paper in describing some of the characteristics of this "great man." We are not very much surprised. Bailey will file other suits and announce his purpose of stamping other of "some of the doubtful states" in the interest of the candidates of Cox and Roosevelt, if he considers that such would attend with strength to his vote hunting propaganda. The Record is surprised, however, that Bailey should file his suit at Gainesville, among those of his

former neighbors who in outspoken terms desire to remain Democrats, rather than fall for "Baileyitis." His campaign manager filed his suit for damages against Bob Shuler at Eastland, in the heart of the Central Oil district.

Now a word to the friends of political decency and good government in Texas. The way to whip Bailey is to attack him at every vulnerable point, and he is the most vulnerable political aspirant in American politics.

His attitude toward the National Democratic administration, his confessed employment by the Association Opposed to National Prohibition, his violent opposition to woman suffrage, his silence during the great war, when the very life of the world was involved, his refusal to advise his friends to buy Government bonds when our sons and brothers in France and Flanders were giving of their life blood for civilization, and his refusal based on the fact that they might lose a little money, his record here in Texas while he was a public official of the United States Senate, his residence of half a score of years outside of Texas and his general attitude concerning Texas issues, including his violent assault upon the Christian ministry and upon everything in general that does not square with his myopic political vision—these are sufficient to place him immediately on the defensive and for all time settle the question of his influence in Texas politics. Nothing can defeat Neff Aug. 28th except indifference of the voters failing to go to the polls.

PRIMARY AUGUST 28th

On August 28th there can be no doubt of the outcome. On August 28th we will vote to send Mr. Neff to the Governor's chair and Mr. Bailey back to his home in Washington. He can take his cemetery lot with him if he wants to, because he will need it. All of the friends of Mr. Thomson and Mr. Looney should now join hands with all the rest of us and place Pat M. Neff in the Governor's chair. It is now no longer a question of personal preference, but has resolved itself into a question of public morals and safe and sane government for the people. There never has been a more arrant demagogue running at large in America than J. W. Bailey. That many good men have been fooled or cajoled into voting for him is beyond question, but many of these same men voted for Jim Ferguson. Really, as between Jim Ferguson and Joe Bailey, we say: "Give us Jim." We know exactly what Jim will do, and we know of the limitations of his ability to perform, but these are unknown equations in J. W. Bailey.

Those who attended the military funeral at the cemetery Sunday afternoon were again reminded of the chivalrous patriotism of the American people during the recent titanic struggle. The young manhood of the Nation and the unlimited resources of America were thrown against autocracy with such visible force and determination that a menace threatening to soon hold every civilized Nation of the earth in its talons was crushed and the smaller peoples allowed to live and exercise their freedom with the same scope as the most powerful. Let us hold as hallowed the memory of those boys who followed the Stars and Stripes to Europe never to return.

Mitchell County has one oil well and drilling with favorable logging reports moving along fine at two other locations. And soon several wells are to be spudded in. A 40,000 bale cotton crop and the discovery of a new oil field in Mitchell County this year will mean an inflated pocket book for most every body.

THE OTHER FEATURE

The people of Colorado point with pride to the attractiveness of the residence sections of the city, made so by the many beautiful and well appointed homes, surrounded by beautiful lawns, shade and ornamental trees and shrubbery; they may well boast of possessing one of the best systems of concrete sidewalks and graded and surfaced streets of any other town of like size in the State; there is no egotism to prompt the assertion that they live among a citizenry possessed with every requisite denoting chivalry and genuine Western hospitality and where an unselfish desire to contribute toward reaching a higher plane for the church, the school and society is a fixed policy in the daily routine of them all. They are proud of their business blocks, in which are housed the best banks, stores and offices, representing an industrial and professional combination that means much to Colorado. They are proud of the distinction that Colorado is the hub from which radiates one of the best systems of macadam highways in West Texas, placing within easy access to the business and professional interests of the city the trade from an extended area. Indeed, all these, and others we might mention, are enough to cause the people of Colorado to feel proud of their city.

But there is another feature to this story, the scene for which is an open disgrace to the city. The principal business streets of the city, with special reference to 2nd street, along which are located the main business concerns of the town, present an aspect of the scavenger's dumping ground. Look along this street any time you may choose and you will be greeted with heaps of refuse, waste paper and other accumulations of waste that are contributing much every day toward making for your town the reputation of being insanitary, unkept and the living place of a people who have discarded every interest and attention for civic things about their premises.

The main thoroughfare of this city should not become the sewer into which this refuse is dumped. If such practice is not in violation of ordinances of the municipality, it should be. It is a practice that seemingly is growing from day to day and the sooner it is stopped the sooner will local citizens and tourists passing through the city commence to take pride in speaking of Colorado as being an example of civic attractiveness, rather than receiving an impression of negligence, as is now the case. And this condition is not confined to 2nd street. There are alleys in the city piled high with this refuse and it was only recently that in passing one of the alleys we detected an odor originating from this decaying refuse that was nauseating to endure.

That this condition is here no one, we believe, will deny. As to who is responsible for this condition, the Record will not be understood as suggesting that any particular person should be accused. Collectively speaking, the town is to blame. Even though we may not use the streets or the alleyways as a receptacle for refuse accumulating about the premises occupied by us, or may not throw old paper down promiscuously wherever we may be, the very fact that we are witnesses to these conditions and have not the pride sufficient to start a campaign against it, makes us a party to the offense.

The only solution to this question is to clean up and keep cleaned up. What do you say about it, men?

**THE "BRONCO" YEAR BOOK
SIMMONS COLLEGE, RECEIVED**

The Record has received a copy of "The Bronco," Volume XII, the annual year book issued by the Senior Class of Simmons College, Abilene and carrying many engravings, showing photographs of the faculty, the graduating class, college scenes on the campus and from the building and other features. It is a masterpiece

piece in typographical art. The edition contains 256 pages and was printed by the Abilene Printing Co.

"The Bronco" is but a mirror reflecting the achievements of Simmons College, which has long since received the merited distinction of being one of the principal institutions of learning in the Southwest. Simmons College is an institution of West Texas and an asset to the advancement of this great domain of which every citizen may well feel proud.

Entering Second Campaign

There has been no bitterness engendered by the political campaign in Scurry county. No mud slinging, no discreditable trickery. Certainly people have differed in choice for officers from governor on down the line, but now, in all cases of final nomination there is probably not a democrat in the county who will refuse to vote for those whom the majority have selected. In the matter of contested places the voters will still reserve the individual right to work and vote for his choice, but it will be done openly and fairly.

In the race for Governor the lines are apt to be closely drawn. The combined votes of Neff, Thomson and Looney were something like twice the number of votes for Mr. Bailey. The form in which the campaign was pitched made of it a battle of three against one. Mr. Bailey is the embodiment of his school of political thought and in the main the other three represented the other system of politics.

It is now believed that the main bulk of the votes for the three exponents of national politics as presented through the Wilson administration will go in the run-off primary to the candidate who represents the present administration. Some will, of course, go to Bailey, but the general feeling seems to be that with the public records of the two men before the country the progressive democrats will refuse to countenance a repudiation of the great achievements of the democratic party in the Nation and in Texas.—Snyder Signal.

ATTEMPTED ROBBERY

(Continued from page 1.)
ment of being broke. He had two pennies on his person when searched by the officers.

County Judge Hall visited the jail Saturday morning to confer with another prisoner and just as he was emerging from the bastille, Davenport called out: "Hey, are you the judge here?" To which Judge Hall replied: "Yes, I am County Judge." "Well," continued the prisoner, "I want to plead guilty. Sentence me today." The prisoner also gave a sigh of disgust when informed by the Sheriff that court would not be convened until November. "My God," he exclaimed, "Have I got to stay here that long?"

Davenport was given a preliminary trial before County Judge Hall Monday afternoon, and entered a plea of guilty to the charges preferred against him. He was granted bond in the sum of \$500 in default of which he was remanded to the custody of the sheriff.

In a statement to the court, Davenport stated that he left his home at West Point Miss. some three weeks ago, with California as his destination. He bought a ticket to Memphis, he said, but had ridden freight trains over the balance of the trip. He stated that he was in the army during the recent war and did service with the 75th Railway Artillery. He informed Judge Hall that his discharge papers were at home.

The prisoner stated that his father and mother were both living but it was his desire that they know nothing about the trouble he had gotten into here. They are poor people, he said, and did not own their home. The iron bars, two pieces of broken automobile springs, which he is alleged to have employed in forcing an entrance in to the store, were introduced at the examining trial. Davenport acknowledged them as be-

Why Brunswick Tires Win Preference

There are two main reasons—one, the name itself, which certifies superfine value—the other, that time tells the same story.

Thus reputation and performance unite in giving you all you expect—and more.

Yet Brunswicks cost no more than like-type tires. Many motorists would pay more readily, but the Brunswick idea is to GIVE the utmost, rather than to GET the utmost. And this has been true since 1845. You can appreciate what Brunswick Standards mean by trying ONE Brunswick Tire. It will be a revelation. You'll agree that you could not buy a better, regardless of price.

And, like other motorists, you'll decide to have ALL Brunswicks. Then you'll know supreme satisfaction from your tires—longer life, minimum trouble, lower cost.

Assistance Colorado Chapter Asked In Returning Mail

The Colorado Chapter of the Red Cross has been asked to aid in locating the owners of a large amount of unclaimed miscellaneous mail matter sent to France for soldier members of the American Expeditionary Forces according to announcements received recently from Southwestern Divisional headquarters of the Red Cross at St. Louis.

A huge mass of such mail matter has been returned for various reasons and has piled up in the office of the Adjutant General at Washington, D. C. Jewelry, clothing, fountain pens, safety razors, pipes, riding boots, belts, money, in fact nearly everything which could be sent through the mails, is contained in this collection.

All previous efforts to return portions of this mail to senders or to addresses have proved unsuccessful, Red Cross officials state, and it is hoped that persons who have reason to believe that their property may be among these articles will communicate with the Adjutant General of the Army at Washington, D. C., giving details by which identification of property may be made, that it may be returned to them.

35 CARS SAND-GRAVEL SHIPPED LAST WEEK

Shurtleff & Roddy, local sand and gravel contractors, report having shipped out of Colorado a total of 35 cars of this material for the week ending Saturday. The consignments for the most part were sand and shipped to various locations in Central and West Texas.

29 teams were employed steadily during the week in hauling the material from pits in the Colorado river adjoining the city on the west to a loading switch in the Texas & Pacific yards, a distance of approximately one mile. The company pays a price of \$1 per yard for delivery of the material f.o.b., Colorado, or 50c to drivers of teams belonging to them. The payroll for the week averaged \$308 per day, or \$14 per day for each team on the works.

Joe Roddy stated for his company that Colorado sand and gravel were in great demand throughout this entire section of the State, where construction work was in progress, and that they were then 200 cars behind in making deliveries. Sand and gravel for the paving contracts at Cisco and Eastland were shipped from here and Sweetwater is now using this material in making improvements to some of their paving. A contract calling for shipment of ten thousand yards of the material for the Switch Dam at Olden, Texas, was recently made.

In addition to those contract shipments, car consignments are billed out daily for various places, extending from Midland to Ranger and from Stamford to Winters. For the most part, however, shipments are made to Central Texas Oil fields where much activity is under way.

LETTER TO MOTORISTS

Dear Mr. Motorist: The next time you buy a tire you can save one-half the cost.

Not by getting a cheap tire, but by taking advantage of new principle in tire construction that will give you more mileage and better service than any tire you ever had before.

Business-men everywhere are figuring costs these days. Gasoline is expensive and tires are higher than they ever have been before. They feel it is time to begin cutting down expenses and they are doing it.

The largest business houses in the United States and more than 1,000,000 motorists have already taken advantage of the saving that Gates Half Sole Tire made possible.

These motorists are no longer throwing away their worn tires as they have been doing, but they are making them deliver double service. They are getting 10,000 to 15,000 miles out of the same kind of tires that have been going to the junk pile after only 5,000 to 6,000 miles.

The next time you buy a tire we can save you one-half the cost and we will guarantee to give you better tire service than you have ever had before.

Our shop is full of work—come in and let us show you what we are doing for others.

Yours very truly,
E. Z. Tire Company.

COLORADO SPEEDERS' LACK OF FORESIGHT HIS UNDOING

Someone in last week's Record came exceedingly close to saying that it is a lack of brains, especially the gray part of them, that causes the Colorado speeder to be so reckless. Now, it does look like sometimes that the writer referred to is not so very far wrong. To say the least of it, he and she are very short sighted. I say he and she because they are not all he's. However, the writer in question failed to point out the principal thing that would seem to indicate lack of brain, and that is what we want to call your attention to here and now.

It is not, as the writer seemed to think, that there is danger of killing a few people—no one would likely think much about it if you kill a few children and two or three old women who cannot get out of your way. No doubt you would say you didn't intend to smash a child nor to hit grandma, and you would probably be gently reprimanded and allowed to go right on with your speeding. Children and old women can be spared and have no right to be in your way anyhow. The idea of your having to run on the streets of Colorado slower than fifty miles an hour, or being forced to burn your lights at night to keep from killing a few people is absurd, the thing is not to be thought of. No body is going to make you slow down or burn your lights for any reason, that much has been demonstrated.

But, alas and alack! My dear young speeder this writer in his meanderings about town has, on several occasions, found signs of your recklessness that will not be tolerated in any self-respecting community. I have seen not fewer than three old hens and five fryers lying silent and alone in the middle of the street, grewsome witnesses of your heartlessness and lack of understanding of the public mind. The print of the foot of your automobile was firmly imprinted upon each of these martyrs of your fanaticism. Everybody knows that these creatures, who had inalienable rights, should have been sacred in your eyes, and you should have run into a ditch rather than violate said rights. We all know the "Artful Dodger" himself couldn't get out of the way when you round the corner at your usual rate of fifty to fifty-five miles an hour. Don't you know, dear friend,

that in these latter days no one nor anything has inalienable rights except the hen and her immediate family? And these rights of hers are to be protected from the town council to Congress, and while no one will say you nay if you run down several children or some that are not children, never entertain the thought for a single moment that you can keep on ignoring the rights of the hen with impunity. You will have laws enforced to the letter if you do, and if there is no law to get you, a special session of the State Legislature will be invoked to attend to your particular case. Don't you know that the old hen is as sacred in Colorado as the Egyptian bull was in Egypt in the days of old? You often hear it said, no doubt, that there is no such thing as true, disinterested friendship any more. Don't you know the reason? The hen. If there had been any such thing as the hen in those days, you would never have heard of the beautiful story of Damon and Pythias, you would only have read of a feud that eat anything Kentucky ever pulled off. Jonathan would have shot the arrow into David instead of shooting beyond him as a warning of danger. In their covenant it would not have been "The Lord be between me and thee," but rather "I will have thy blood," sayeth each. Also, when Ruth lived just across the street from Naomi, if either had had a hen, that tender scene enacted upon the plains that overlook the Jordan Valley where these two were the principal actors would never have been heard of.

Now, my dear young speeder and speederess, remember this and take warning: Your neighbor's hen and her family can scratch up all your mothers flowers, eat all your father's garden sass, perch on your front porch, but when you dare to lay your unholy hand, or your devilish gas wagon on so much as a toe of one of these, you array the whole community against you; you will have the whole law enforcement force after your scalp and your money, and life will be made one great, deep ocean of misery for you. While you are doing well, be careful. That unalienable rights stuff put into the Declaration of Independence, was just put there for effect. There aint no such animal watching over the destinies of men, they were only meant for the hen and her brood.

Kill every man, woman and child that can't sidestep your fifty to sixty miles an hour and you will probably receive expressions of sympathy that you were interfered with by people who were so careless. Don't show any lights at night, someone might find out who you are. You can go your way in peace for all these infractions of law and human rights, but woe unto you if you don't slow down when the sacred hen looms up in the middle of the street. There will be a policeman on every corner and that will make entirely too much expense for the town, besides your fun will be gone forever. If you could only look into the future and see the hand writing on the wall, you would heed this warning, but if you can't, the time is not far off when you will not be permitted to run more than thirty miles an hour on the main streets of this town, and besides, you will be made to burn your lights. Y. R. FRIEND?

HARDLY KNEW HER AT FIRST SIGHT

Mrs. White's Neighbors Are All Talking About Her Wonderful Recovery

"When my wife began taking T... she weighed only ninety-five pounds; now she weighs one hundred and forty-three and her wonderful recovery is the talk of our neighborhood," said Ben White, of 111 Crescent Ave., Peoria, Ill.

"Mrs. White has been suffering from stomach trouble and nervousness eighteen years," he continued, "and for a long time had been unable to leave the place. We spent all the money I could get for treatments and medicines but she never got any better. She was a complete nervous and physical wreck and I have seen her nearly die with cramps in her stomach and after eating she could hardly breathe for gas. Head-aches drove her nearly distracted and I have stayed home with her for weeks at a time, fearing she would never pull through, for she was getting worse all the time."

"After hearing so much talk about Tanlac I bought some for my wife and in just a few days she could eat and sleep better. She has now taken about twelve bottles and is the very picture of health. Why, some of her friends hardly know her at first sight now. She is as well and happy as a person can be."

Tanlac is sold in Colorado by W. R. Charters.

Twenty-five Hundred at Funeral

Snyder, Texas, July 28.—Twenty-five hundred people gathered on the courthouse lawn Monday to witness the military funeral of Henry Woodward, who died a year and a half ago in France. The services were under the auspices of Will Payne Post, American Legion which had about 75 members in line.

The sermon was preached by Elder J. S. Newman of Clifton. An oration was delivered by Mr. W. W. Hamilton, of Snyder.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Why Dr. PRICE'S "Cream" Baking Powder

is made with pure Phosphate

- Because our scientific methods of production make Dr. Price's Baking Powder the "Cream" of Phosphate Baking Powders.
- Because the use of this pure phosphate makes it possible to sell Dr. Price's "Cream" Baking Powder at about HALF the price charged when the powder contained Cream of Tartar.
- Because we knew there were thousands of women who would welcome, at this low price, a good, pure, wholesome baking powder, guaranteed by a name famous for quality for 60 years.

Contains no alum. Leaves no bitter taste. Never disturbs digestion. Here are the prices:

25c for 12 oz.
15c for 6 oz.
10c for 4 oz.

WHO HAS A HOUSE?

The Secretary of the Chamber of Commerce is very anxious to move his family here from Sweetwater and with them become identified with the permanent citizenship of Colorado, but so far his efforts to obtain either a residence or apartment have been futile. Information as to where either might be obtained would be greatly appreciated by Mr. Cooper.

H. B. Linam, formerly one of the successful farmers in the Spade Community, sometime ago sold his land and moved to Big Spring. This week he came over and bought the 160-acre Chamber farm, five miles north of Loraine in the Lonewolf Valley. Mr. Linam paid \$8,000 for his new home and now has one of the best farms in Mitchell County. Mr. Linam gets this year's rent out of the present crop.

Plain Arithmetic

EVER think about the wear you give your trousers?

You sit on them, wrinkle them, wear them hard—twice as hard as you wear the coat and vest of a suit.

An odd pair of trousers is one good way of doubling the life of a suit. And it's plain arithmetic that twice the length of wear means half the cost. And clothing costs are way up now; odd trousers are wise economy. We can supply you with

PANTS KING TROUSERS

closely matching your suits. They're all wool fabrics, finely tailored. They're priced moderately.

C. M. ADAMS

Mr. R. C. Harlow, a splendid, good farmer down on the Bert Wulf-jen place brought to this office this week two stalks, one with 36 bolls and the other 28 bolls. The stalks were of average height and Mr. Harlow said he had 130 acres of this cotton, 100 acres extra good, and as he got a good rain there last week it looks like this 100 acres was good for 75 bales at least. With a good rain in this County within the next week or so, the largest crop in the history of the West is assured.

Mr. and Mrs. T. W. Stoneroad and daughter left Tuesday for Colorado Springs, Colo., where they will spend several days vacation.

DIED

Mr. Joe Gill, of Loraine, died at the Colorado Sanitarium last Friday at 6:30 a. m. Mr. Gill was brought to the sanitarium about ten hours before his death. His condition was recognized by his home physician as inflammation of the brain, following and growing out of a middle ear abscess and consequently requiring the attention of a specialist. Accordingly Dr. M. E. Campbell, of Abilene, was summoned to the Colorado Sanitarium to see him. Dr. Campbell arrived in a few hours, but Mr. Gill's condition was too precarious to warrant any operation. Hence he was not operated on.

MITCHELL COUNTY CITIZENS TO VISIT BIG SPRINGS "GALA DAY"

Plans for sending a Booster Excursion from Mitchell County to the Big Spring celebration Saturday were perfected at a mass meeting held Wednesday afternoon. The plan was suggested under the auspices of the Chamber of Commerce and the delegation to go from here will be special guests of the Chamber of Commerce at Big Spring.

A committee appointed to complete the various features for the trip report that at least fifty automobiles, carrying streamers with the slogan, "Mitchell and Howard Counties—The Coming Oil Field," will form in line for the excursion. It is planned to leave the city from 2nd Street at 9 o'clock Saturday morning. Loraine has promised to send a representative delegation to join the boosters at Colorado.

It is urged that every citizen who owns an automobile offer his services and his car to the committee. There should be at least 100 automobiles in line for the drive to Big Spring. If it is impossible for you to go, it is very probable that some member of your family would like to take your place at the wheel of your car. Mitchell County citizens are going to the Howard County city as invited guests for this occasion and the larger delegation to take advantage of their hospitality the more will those Big Spring people appreciate our coming.

An attractive printed ribbon badge will also be furnished every person going. Be sure to get the streamers for your car, the badge for wearing and most important of all, be sure to arrange to go.

The committee having this in charge is composed of A. S. Sloan, Luther Watson, W. R. Charters and W. S. Cooper. They will be glad to render every assistance possible in the way of additional information supplying the streamers, etc.

Farmers Institute Was Organized Here Wednesday

Hon. Ed R. Kone, former Commissioner of Agriculture, was in Colorado Wednesday and addressed an audience of farmers at the tabernacle in the afternoon upon the subject of cotton marketing and plead for cooperation among the cotton producers in fixing the price and selling their commodity. Following the close of his address a County Institute was organized and those who comprised the membership pledged to send delegates to the State meeting to be convened later during the year. Judge Kone spoke at Loraine Tuesday afternoon and announced that a local was organized there, to be affiliated with the county organization.

DIED

Joe Gill, of Looney community, died Friday morning at the Colorado sanitarium after an illness of only three days, death being caused by an abscess in the head. He reached the sanitarium too late for medical skill to do any good. Mr. Gill had been a resident of Mitchell county for several years and was known by all as truly a good man, and his death came as a shock and brought sorrow to not only his wife and children, but to all his friends and acquaintances. Rev. W. D. Green conducted the funeral which was held at the Baptist Church, and interment was made in the city cemetery.

Methodist Notes

The Methodist Revival is now on. Much interested has already been manifested and up to Tuesday there has been fourteen conversions. Rev. O. P. Clark of Quanah, is doing the preaching, and Rev. J. C. Mann of Dallas, is conducting the singing.

Birthday Party

Mrs. Earl Zellner entertained a few of the "wee tots" on Wednesday afternoon, honoring her daughter Emma Louise, who had her second birthday. The guests were: Wynnedell Roland, Mary Glen Duren, Fern Jackson, Frances Tarleton, Bettie Nell Phillips, Charlie Reeder Jr, Roy Erwin Jr, James Jarrett, Cliffordine Reeder, and others. All had a delightful time in that merry childlike way. Ice cream and cake were served.

Baptist Notes

Dr. W. F. Fry, Bible teacher of Simmons College, was busy here Saturday in the interest of the College.

Rev. Scott and Rev. W. D. Green have closed a successful revival at Zellner. There were eight conversions and four baptisms.

Rev. Richardson reports good results at Blair where he has closed a Revival. He will begin a Revival at Champion Sunday.

The B. Y. P. U. are keeping up good interest and the ladies are doing some good work.

A New Window

Farris Drug Co. has a new window which is attracting much attention lately; it is a fine piece of cabinet work done by Grady Furlow which adds much to the store's appearance. Dainty things for Milady's toilet are artfully arranged in it, adding much to the sales of same. This firm is always up to the minute in everything. A few more nice windows in Loraine would add much to our city's appearance.

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

THEDFORD'S

BLACK-DRAUGHT

recommended very highly, so began to use it. It cured me. I keep it in the house all the time. It is the best liver medicine made. I do not have sick headache or stomach trouble any more." Black-Draught acts on the jaded liver and helps it to do its important work of throwing out waste materials and poisons from the system. This medicine should be in every household for use in time of need. Get a package today. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c a package. All druggists.
