AFTER FOUR YEARS. Colorado Testimony Remains Unshaken.

Time is the best test of truth. Here is a Colorado story that has stood the test of time. It is a story with a point which will come straight home to many of us. J. H. Cooper, prop. of blacksmith shop, Sixth and Oak Sts., Colorado, says, "I have used Doan's Kidney Pills several times in the past for trouble with my back. I think they are a good reliable remedy and gladly recommend them." Four years later Mr. Cooper said: "I can still highly recommend Doan's Kidney Pills." 60c, at all dealers. CITATION BY PUBLICATION. The State of Texas—To the Sheriff or any Constable of Mitchell County—Greeting: You are hereby commanded to summon Mary E. Murphy by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 22nd Judicial District, but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 22nd Judicial District to appear at the next regular term of the District Court of Mitchell County, to be held at the Court House thereof, in Colorado, Texas, on the third Monday in November, A. D. 1921, the same being the 21st day of November, A. D. 1921, then and there to answer a petition filed in said Court on the 19th day of October A. D. 1921 in a suit numbered on the docket of said Court, No. 2047, wherein W. A. Murphy is Plaintiff and Mary E. Murphy is Defendant and said petition alleging that plaintiff is and has been for a period of twelve months prior to exhibiting this petition and filing this suit, an actual bona fide inhabitant of the State of Texas, and has resided in said county, of Mitchell for at least six months next preceding the filing of this suit; and that defendant's residence is unknown; that on or about the 2nd day of May, 1921, plaintiff was lawfully married to defendant, then a single woman by the name of Mary E. Harrison; that they continued to live together as husband and wife until about August 1, 1921, when by reason of the hereinbefore allegations, it was impossible for plaintiff and defendant to longer live together as such man and wife, at which time plaintiff separated himself from said defendant, since which time they have lived separate and apart. That shortly after the marriage of plaintiff and defendant, and within about two weeks, the defendant left plaintiff without stating where she was going, and was gone about fifteen days when she returned. Upon being asked by the plaintiff where she had been she told plaintiff it was none of his business and that there were other men she liked equally as well as she did him; that plaintiff talked with her in an effort to get her to act as a wife should, but that thereafter and about August 1, 1921, she told him that she did not live with any one man long at a time, that she enjoyed travel and admitted to him that her moral character was bad and that she did not intend to mend her way of living. That plaintiff has several small children, boys and girls, and when defendant made those admissions and acted in the above manner plaintiff saw that it was impossible for them to further live together as man and wife and he therefore separated himself from her, since which time they have not lived together as husband and wife. That on such separation plaintiff left him and went away with another man. That such actions and conduct on the part of defendant renders their further living together as husband and wife insupportable. Wherefore plaintiff prays the court that defendant be cited by publication to appear and answer herein, and for judgment dissolving said marriage relations, and for such other and further relief, general and special, legal and equitable, to which he may show himself entitled. Herein fail not, but have before said Court at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same. Witness, W. S. Stoneham, Clerk of the District Court of Mitchell County. Given under my hand and the seal of said court at office in Colorado, Texas this 19th day of October A. D. 1921. W. S. STONEHAM, Clerk District Court Mitchell County, Tex. A True Copy I certify. W. J. Chesney, Sheriff. By C. E. Franklin, Deputy 1111c

NOTICE IN PROBATE. THE STATE OF TEXAS To the Sheriff or any Constable of Mitchell County—Greeting: You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Mitchell County, a copy of the following notice: THE STATE OF TEXAS To all persons interested in the persons and estate of Camen Puga, Santiago Puga, and Julia Puga, Minors, Ben Bernal has filed an application in the County Court of Mitchell County, on the 22nd day of October, 1921, for Letters of Guardianship of the Persons and Estate of said Minors, which said application will be heard by said Court on the 7th day of November, 1921, at the Court House of said County in Colorado, at which time all persons who are interested in said estate are required to appear and answer said application, should they desire to do so. Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same. Witness my hand and official seal, at Colorado, Texas, this 25th day of October, 1921. W. S. STONEHAM, Clerk, County Court, Mitchell County, Texas. 11-4c

COLORADO LAYS FIRST CLAIM TO SWEETWATER EDITOR (From Sweetwater American.)

Colorado, Texas, Oct. 20—The city of Colorado has the distinction of being one of the oldest towns in this section of West Texas. The city has had a newspaper for more than thirty years and during that time hundreds of young men have been graduated through the medium of the local press into positions on various large dailies of the State.

Among the number is found the name of the present editor of a daily newspaper in Sweetwater, whose experience in the newspaper game dates back to the time when Colorado was in her "swaddling clothes."

Having known him when he was a resident of Colorado, the writer, unlike some of Mr. Fore's readers, does not class him as an East Texas product. As was stated in the personal letter which the American received from this correspondent, Mr. Fore was city secretary of Colorado at one time.—Sweetwater American.

This land is of a sandy formation, especially adapted to truck and orchard culture and will be sold at an attractive price. This property will be even more valuable as the city, now building to the north, is extended further out. Graveled roads adjoin the property. If interested, see or address L. A. RECORD OFFICE HANDLING LARGE VOLUME BUSINESS

The mechanical department at The Record office is one of the busiest places in the city and is, no doubt, turning out a larger volume of commercial printing than any other shop in this section of the Southwest. It would be interesting to the public to visit this department any day of the week and take note of the number of orders coming and going out continuously from this bee hive of industry.

As an indication of the amount of commercial work on hand to be partly or completely finished this week, we ask that you note the following contracts:

- Minutes for Sweetwater Baptist Association.
- Minutes Floyd County Baptist Association.
- Minutes for Big Spring Baptist Association.
- Minutes for Dickens County Baptist Association.
- Minutes for Matador Baptist Association.

Twelve-page paper, "The Live Wire," for National Business College, Abilene.

Insurance policies and application blanks for patron at Seymour.

Minutes for Southland Baptist Association.

Warrants for Colorado Independent School district and also for rural school districts.

1,000 8-page folders for customer at Sweetwater.

Advertising matter and other printing for tent show at Big Spring and Sweetwater.

In addition to these contracts, there is a continual run of small jobs arriving in the shop every day and then, too, we must make up and get out the regular edition of the paper.

Our stock of Collars, Wagon Harness, strap goods and bridles is complete and will be glad to sell you a full set.—Colorado Mercantile Co.

JUDGE C. D. SPANN LOCATES IN MEXIA

In another column of this issue of The Evening News appears the professional card of Judge C. D. Spann, formerly county judge of Eastland county and district attorney in the Abilene district for many years. He also served as a legislator from the Ninety-Seventh Legislative District at the same time with our popular mayor, Judge De Leon Harp, and also with Major N. P. Houx. Judge Spann has an extensive experience as attorney in civil litigation as well as criminal, over many counties in central west Texas, and has many former friends and clients now in Mexia who have been glad to greet him in his new location. He is located in office 6, Nussbaum building, where he is giving special attention to legal matters pertaining to oil lands, titles and contracts, also a general practice for the public.—Mexia Evening News

Judge Spann made his home at Westbrook several months of this and last year, moving from there to Fort Worth in the summer.

If you want bargains in fall and winter suits, come in and let me show you. Klassy Kleaner, opposite skating rink.

Watch the entrance to the Colorado Bargain Store, next door to the Grubbs Garment Factory. Saturday if you desire to see the crowd. The prices those folks are putting on their lines of dependable goods are certain to bring people to town, and to that store.

Out Buford Way.

Out this way and maybe the Record was too when we drew a space on the first page last week.

No one real sick in the community and we're thankful for that, while on the street of the city Saturday evening we noticed in five minutes six permanently crippled folks go by, among them a little boy that seems to have had an attack of infantile paralysis. Had no use at all for his lower limbs, but seemed as happy as anyone else. We told our neighbor that we were not thankful nor appreciative enough with the big strong bodies God has given us, and we are not either.

We learn that our assistant teachers, Miss Porter and Miss Richburg, will board and live in the Sam Curry home during the school session, and we congratulate them on obtaining

country home. For we know they board in such a congenial and pretty way will be well taken care of.

We are informed that the trustees are having the sliding partition put in the big room at the school house, all the floors oiled and the house put in first-class order for the opening of school Oct. 31.

Prof. Claud Hooks sent word that he was going to stay at the Palmer home till he could move to his farm northeast of Buford. Perhaps from a former experience he knew he would be welcome.

Mrs. D. M. Stell and family visited in the McGuire home Saturday night and Sunday. Miss Jessie was a welcome visitor at Sunday school Sunday morning.

Several entire families, our Sunday school stand-bys were out of the community Sunday, some of them providentially so, but we missed all of them and expect them all to be in their classes next Sunday.

Bro. Leach has an appointment at that time and we expect everybody to come out and hear him and convince him that we want him as a pastor next year.

We have not heard from Bro. Walton since his return from conference so don't know what his announcements will be.

Yes, it happened again! Some more folks got married as per article in last week's Record. Mr. Earl Hunter and Miss Bonnie Smith were quietly married in town, surprised everyone and we think themselves a little bit. But we wish for them all the happiness that life affords.

Well it's hard to put in print just what's on the minds of our "street buyards." Cotton going down, down! and the unbranded farmers running over one another to give it to them. That's when they get most of their cotton, down market, because most "outsiders" won't sell on a rising market. They think the 'big buyards'

are going to just gradually raise it to 25 cents; never drop at all. Not so, brother. You can tell the world the Farm Bureau is setting steady in the boat, watch her come.

Crepe Myrtle, the South's most beautiful shrub found on the Capitol grounds at Washington, D. C., and all over the South. The blooms are more hardy and last longer than any other shrub. As an ornament they rank next to the Magnolia. Order a couple from Ramsey's Nursery, Austin, Texas. R. T. Manuel, agent.

Improve Your Digestion.

Whah is Yuh Been?

The following little story illustrates very nicely the extremely human tendencies under which the majority of us labor—

Rastus was very small and very black, and Rastus liked to ride. One day, in some miraculous manner he found himself owner of a fifty-cent piece. In the neighborhood was a merry-go-round which Rastus had often watched longingly, so just as soon as he had secured the fifty-cent piece he proceeded there immediately. His mother watched him ride until his money was all gone. When he returned she remarked as follows—

"Honey, yuh sho' is had a good time, ain't yuh? Yuh is been ridin' all mawnin', yuh is spent yo' fo' bits, but— WHAH IS YUH BEEN?"

Figuratively speaking, we are all spending a lot of money and time riding "merry-go-rounds," and each day when we try to find out how far we have gone we find that we have landed perhaps six feet farther back than we started. LET'S QUIT IT! Let's start a bank account and after a while, if we keep faithfully at it,

WE CAN OWN A MERRY-GO-ROUND OF OUR OWN!

When it comes to a question of the best place to begin, the place will be easily found. We are right in the heart of the business district.

BANKHEAD HIGHWAY IN REEVES COUNTY STARTED

The first dirt has been broken for the Bankhead Highway contract across District No. 2 of Reeves County, a distance of thirty-one miles, which will complete the highway across the county. W. E. Hamilton is the contractor and approximately \$272,000 will be spent on the road in this district. The highway engineer and the contractor have established headquarters at Toyah and work will be pushed forward at the greatest possible speed consistent with good road building.

The Lee Moore Construction Company of El Paso got the bid for the seven miles across the Jeff Davis County corner between Reeves and Culberson Counties at \$15,000. Completion of this work will make a good highway from Pecos to El Paso.

Contracts have been let for placing the highway in good condition over practically the entire distance from the Mitchell-Howard County line to El Paso.

RAILROADS WILL OPERATE IF PUBLIC ASSIST OFFICIALS

Dallas, Texas, Oct. 23.—Declaring any further reduction in rates was absolutely out of the question unless the railroads are permitted to make a corresponding reduction in wages, and that if the threatened strike materializes, the railroads will win if the public the railroads serve give the roads their moral and active support. J. L. Lancaster, president and co-receiver of the Texas and Pacific, who has just returned from Chicago, where he attended a conference of railway executives representing practically every important line in the country, today gave out the following statement:

"Between January, 1917, when through passage of the Adamson Act, the Government took charge of railway employees' wages, and July 1, 1920, when government authority made the last increase, labor costs of the railroads jumped from \$1,468,000,000 annually to \$3,700,000,000, an increase of \$2,232,000,000 annually. In the light of these figures, it is manifest that the recent twelve per cent reduction in wages authorized by the Labor Board in no sense meets or solves the problem of labor costs, and in no way makes it possible for the roads to make any reduction in their revenues, and any suggestion that this be done without a corresponding further reduction in wages, is out of the question. Right now, many roads are paying around forty cents an hour for unskilled labor, when similar labor is working alongside the railroads, and could easily be had by them at 20 cents an hour. Last year, the railroads paid unskilled labor alone, a total of over \$1,300,000,000, and regardless of how desirable it might be to pay this or that schedule of wages, it is evident such costs can not be paid out of railroad earnings unless the industries which use the roads are capable of meeting such charges. Working rules and conditions inherited from Federal control, and since upheld by the Labor Board, prevent economy operation of the railroads and add to the burden of the public which pays the bill, these rules and conditions preventing the roads from dealing equitably with labor costs in accordance with rapidly changing conditions and the great variety of local conditions which ought to control wages in different parts of the country. It is these rules and working conditions which the roads are seeking to have abrogated. In an effort to meet those cases where a hardship was evidently being worked on some particular commodity or industry, the railroads have made between four and five thousand reductions in freight rates during the past year, these reductions amounting on some roads to more than the wage reductions so far made while on many other roads, the reduction in wages allowed no net return on operation, but merely provided against a further accumulation of a deficit. In the crisis created by this impending strike, the officers of the Texas & Pacific Railway fully realize their responsibility to the public, and will do their utmost to meet the transportation needs of the communities we serve. Just how nearly this can be done if a strike of the magnitude threatened occurs, will depend on the extent to which we receive the active support and assistance of the citizens along our line in supplying persons to take the places of striking employees, and in fully protecting those who undertake to operate the property from interference by strikers and their sympathizers. Prompt and vigorous preparation should be made for the threatened strike, each community organizing for the purpose of assisting officers of the railroad in providing and maintaining necessary train service. With the full support that the public can give, the railways will be able to fill the places of employees who may strike, and if the public will make the fight theirs, as they should, by giving the railroads their vigorous, active, and moral support, the inconvenience suffered will be of short duration. Moral support alone will not win the fight, however. Vigorous, active assistance will be necessary, but if that is given, the fight can and will be won."

FUNERAL OF MRS. GILL.

The body of Mrs. Gill was brought here for burial from Abilene Sunday morning. She died at the home of her son with whom she had lived for years. The body was brought on the early morning train and carried to the home of her niece, Mrs. Green Delaney. The relatives came through in cars and the funeral was held at the cemetery, conducted by Rev. C. L. Browning, pastor of the Methodist church. Mrs. Alexander, Mrs. Harkrider, Mrs. Wheat and J. M. Radford accompanied the family from Abilene and at Sweetwater other friends and relatives joined them and many from here. Mrs. Gill was 63 years old. She lived here for years. Her children, one son, Claud and one daughter, Mrs. Victor Payne, were reared here and went with her when she moved to Abilene. They were known by all old time citizens and known for their devotion to their mother. Mr. Gill was a member of

the Methodist church and lived a quiet, unassuming Christian life.

THE RECORD AND GOLF.

The Record was glad to carry the letter from "A Golfer" last week, in which he expressed himself as believing The Record editor was attacking the merits of this national sport.

for the article. What we started to say was that it certainly was not the purpose of The Record to jump off the Colorado Golf Club nor any of its members, simply because of the fact they were playing golf.

Some few weeks ago, however, The Record did have something to say about the practice of local golfers to go out to the links and indulge the same on Sunday.

We plan accepting your invitation, A. Golfer, to don our old clothes and come out to the links some of these

times to imbibe some of the fascinations of the game, on condition that you, or some other of our friends advance to us the loan of a stick and explain the mysterious mystics of "Fore" "Teeing"—or is it "Te-e-ing" off, and, oh, well, we don't know what any other of those golf terms are.

Speaking of Grammar Sharps.

The Supreme Court decided a long time ago that the words "United States" were plural. But all these modern civilizationists and anti-state rights upstarts say the United States "is." It is miserable grammar and worse statesmanship and no old fashioned scholar, Democrat and Southern gentleman will ever talk about the "United States" in any such heathen manner.

The United States "is," regardless of any court decision. The States form a union of political divisions, and a union is a singular thing. States are plural when referred to as States but when the union of States is referred to as a Nation, a country, an entity, it properly takes the singular form.

Say, brother, if you miss hearing the sermon at the Baptist church next Sunday evening by the pastor, M. C. Bishop, you'll miss something sure enough. Subject "The Devil and The Church," or "God's Punishment For Those Who Serve the Devil."

Football will be popular this year because it has so much kick in it.

There's only one thing that'll mix with business and that's printer's ink.

"You Know Me, Al" A man in the mercantile business told us a while back that it was not necessary for him to advertise as he had been here a long time and every one knew he was here.

And, we wondered too, if that man died, if his friends were so many and so steadfast that they would die too, just for the sake of being near him so they could buy goods of him.

It's the service and the price and the fact that real business men are after business that brings business to them in this day and age.

Colorado continues "wide open," in so far as attention to traffic violations is concerned. There is hardly a day to pass but that some one of our speed demons rattle over the streets at a high rate of speed.

All the wild ideas of unbalanced agitators the world over, in their ignorant and pitiable quest for happiness through revolution, confiscation of property, and crime, cannot overthrow the eternal truth that the one route to happiness through property of government is over the broad and open highway of service.

Development of a potash field in Mitchell County would put this city and county on the map as nothing else, commercially, could do.

The Salvation Army campaign in this city and county should meet with the loyal aid and financial support of every citizen who believes in reaching out the hand of charity to those who need and deserve it.

The Colorado schools continue to do commendable work under the circumstances — circumstances that make the packing of the children in some class rooms very similar to the pecking of sardines in a can.

Second Street, Colorado, has now lost the distinction of being the roughest thoroughfare in the county.

It is not so long ago since the agitators were using the slogan, "No beer, no work." Now they have both and still they are not satisfied.

The man who first called it the "easy" payment plan was mighty careless with his adjectives.

We always thought the Irish wanted freedom until they began to insist on having a republic.

In 1916 Germany planned on making America pay for the war. Well, we are.

Th' feller that don't advertise may know his business, but nobody else does.

COUNTRY SCHOOLS MAKE THE MAN.

Nothing means more to the nation than good country schools, says County Judge J. C. Hall, student of matters pertaining to educational facilities.

It is because the rural districts furnish the nation's brain and brawn that it is so important that rural educational facilities be kept up to standard.

It is true that a large percentage of children reside in towns and cities but despite their super advantages, their country cousins get more out of the same advantages than they.

Rural schools in this section show a strong improvement over those of a few years ago, said Judge Hall, especially is this true, he said, of Mitchell and surrounding counties of which he has personal knowledge.

It is not the object of this editorial to belittle city schools. They are more able to take care of themselves than are rural schools by reason of a different system of employing and governing teachers; because matters of taxation are less unwieldy.

LEGIONAIRES TO OBSERVE THE 3RD WAR ANNIVERSARY

Indianapolis, Ind., Oct. 26.—Posts of the American Legion throughout the United States are arranging for celebrating the third anniversary of Armistice Day. The National headquarters of the Legion here has received information from the posts and from units of the Women's Auxiliary which indicates that interest in the proper observation of this new American holiday is widespread.

Large public meetings are being arranged in many communities and more than a thousand Legion posts will stage symbolic pageants. Plans have also been completed for large meetings in New York, San Francisco and Chicago, at which the audiences, by means of amplifiers used in connection with long distance telephone wires, will hear the addresses made at the burial services in Washington for an unknown soldier.

John G. Emery, national commander of the Legion, today issued the following statement to Legionnaires regarding Armistice Day celebrations:

"At eleven o'clock on the morning of November 11, 1918, an entire

world, weary and worn, bent under the disaster of the world's war, knelt in thanks to God. The guns ceased booming. The roar of their firing no longer smashed around the world in terrible thunder. A new note was in the air, high, clear and strong, a symphony of joy. A new hope was in every heart, a hope and a prayer that the fighting of nation against nation, of people against people had ended for all time.

Three years have passed. We are about to celebrate the third anniversary of that occasion when, for the last time, the runner dashed across the field of death and carried to the farthest outpost the order 'cease firing.' We want to go back in spirit and thought to that grand moment. We want to recall, in full, the purpose common to every one at that moment to do each his or her share to make impossible, ever again, such a disaster. Let us do this in celebrations that will include every American citizen.

"We want to recall the thrill that came to each of us, whether at the front or at home, in the knowledge that we had done our duty. We want especially to turn aside from the routine of daily life and to remember

the sacrifices of those whose pride is that they gave of their dearest and best, and of those among us, torn monuments to American ideals, to American principles, to American citizenship."

These are our heroes—our living and crippled, who gave of themselves.

T. & P. TELEGRAPHERS TO GO OUT ON STRIKE

Weatherford, Tex., Oct. 26.—The general committee order of telegraphers for the Texas & Pacific system at a meeting here today voted unanimously to strike with the four brotherhoods Sunday morning, J. P. Abney, division chairman, in making the announcement said the strike order would be mailed Thursday unless a settlement is reached by the railroad labor board at its hearings in Chicago.

The entire Texas & Pacific system would be affected, Abney said. Six hundred and fifty telegraphers are employed by the road.

The box supper at the school auditorium Saturday night was a grand success in every way. After a nice program was rendered by the school Judge Hall of Colorado auctioned the boxes off, which netted \$137.00. Mr. W. S. Cooper, editor of the Colorado Record, gave a subscription to the Record for one year. This was auctioned off and brought \$7.50, making a total of \$144.50 for the piano. During supper the basket ball girls and junior boys took advantage of the opportunity and sold hot chocolate and candy for the benefit of the play grounds. Amount taken from this is not known. Among

the out-of-town visitors were: Judge Hall, W. S. Cooper and Mr. and Mrs. Thos. J. Coffee of Colorado. The faculty, school board and patrons of the school express their sincere thanks to all those who helped in the work. Especially do they thank the people of Colorado who so generously assisted them.

Tuesday evening quite a surprise was given the new pastor, Rev. Dixon, when a crowd gathered at the home of Mr. and Mrs. I. W. Ramsey and marched to the parsonage with good things to eat. Bro. Leach made the welcome address to the new pastor and family and presented the gifts, responded to by Bro. Dixon. After an hour of social chat they were dismissed by prayer.

Missouri Lady Suffered Until She Tried Cardui.—Says "Result Was Surprising."—Got Along Fine, Became Normal and Healthy.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. M. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me. I saw after taking some Cardui ... that I was improving. The result was surprising. I felt like a different person.

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night. I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me ... My doctor said I got along fine. I was in good healthy condition. I cannot say too much for it."

Thousands of women have suffered as Mrs. Williams describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui if troubled with womanly ailments. For sale everywhere. E. S.

OVER the COFFEE CUP

"How's your coffee business, these days?"

A soap salesman, looking over my stock, tapped the stack of GOLD PLUME COFFEE cans on the counter.

"Best I've ever had—people just will have this GOLD PLUME COFFEE even if they have to go without something else."

"See that stack there—well that shipment came in this morning and by tomorrow it will be gone—never saw the like the way that coffee does sell."

"Every store I go into has the same story to tell" he says. "What's the big idea, any way?"

"Well," I tell him, "It's a different coffee, and its better."

"TOASTED, not roasted, to develop the flavor, it has a rich mild, mellow flavor, that just naturally PUTS A SMILE IN EVERY CUP. People will have it."

Uncle Walt's Story

HARD ON THE POETS

"I'M SCHEDULED to recite 'Anna bel Lee' at an entertainment to night," confessed the retired merchant. "I've been repeating the poem to myself almost constantly for several days, and know every comma in it, but I'm afraid that when I stand up to recite, I'll have forgotten every word of it."

"I hope so," said the hotelkeeper. "Such a poem as 'Annabel Lee' deserves better treatment than you are qualified to give it. You have a voice like a guinea hen, and you telescope your words, and you don't know any more about poetry than a porcupine knows about Paradise. If you'd stand up and recite a few pages from a mail-order catalogue I have no doubt you'd put the proper feeling into it, and move your audience to tears, but it's a crime for a man like you to mangle a beautiful poem, full of sentiment and melody."

"There ought to be a law against that sort of thing. Some of the best poems in the country have been ruined by common or garden elocutionists. Nowadays people smile when you mention 'Curfew Must Not Ring Tonight.' It has been recited so much by people with cracked voices that it has become a joke. Yet if you examine the poem calmly and impartially you will find that it has a great deal of merit."

"In the schools the pupils are permitted to recite some of our best poems, and the poems aren't fit for anything after it. The school authorities should prohibit this sort of thing, and prepare a volume of cheap asbestos poetry that is fool proof, that can't be injured, no matter what you do to it. There is plenty of punk poetry in the world, and a collection of this stuff would serve the schoolboy elocutionists just as well as the high class poetry that is so easily spoiled."

"When I went to school, about a hundred years ago, there was a tall, freckled, gangling boy, who talked through his nose, with a sort of whine that sounded like filing a saw. There was to be a school entertainment, and this boy was down for a recitation. The teacher never asked him what he was going to recite, but gave him the right of way. Teachers continue to make the same mistake, even as we go to press. They should choose the poems which are to be butchered to make a Roman holiday and select something that won't rip, ravel or run down at the heel."

"This boy stood up before the school and droned through Gray's 'Elegy.' Now, that's one of the best rhymes ever composed. It was written by a journeyman poet who put in seven years at it, in the time when they had ten-hour days. He wanted to leave behind him a poem that would stand the severest tests of the government inspectors, and he did. In my opinion there is nothing better in any language. It is rather melancholy, but it has a sort of doggone soothing quality that is a balm to the bruised spirit of a landlord when he finds that the receipts of his hotel don't equal the expenses."

"Time and again, when discouraged and played out, I have started to read that poem, and as soon as I get fairly into it, I seem to see that blamed gangling schoolboy, in his high-water garments, and hear him droning through those verses, making a noise like a sawmill on a wet day. It's more than forty years since he made a violent assault upon the Elegy, but it seems like yesterday. It's the same way with Hamlet's 'Soliloquy.' Every time I hear or see that gem I think of a fat youth who recited it in our school, and then I burst into tears."

"There's no sense in such a business, and congress ought to do something, doggone it."

ROADS PLAN TO OPERATE EVEN IF WALKOUT OCCURS

CHICAGO, Ill., Oct. 27.—In the event the threatened railroad strike is called the roads are prepared to do our utmost to move necessities, utilizing to the fullest possible extent all the man-power available.

Mr. Markham said the present transportation tangle was due to the fact that ninety nine public bodies have a hand in fixing the rules, income and expenses of the roads and that the railroads have no voice in the expenditure of more than 97 per cent of their operating costs.

The remedy, he said, "is to place once more into the hands of railway managements—under competent and broad minded supervision—the control of operating costs in such a way that responsibility may properly be fixed upon the managements for the operation of their properties."

The railroads, he said, have taken their share of losses in the present period of readjustment despite the fact that they were not permitted to profit as other industries had during the period of high prices, because their earnings were faced by the government.

With a consciousness of their obligation to the public service, he said, the managements of the railroads of the country have recently announced that they will ask the railroad labor

board for a further reduction in wages, the entire benefit of which they propose to pass along to the public in reduced freight rates. This puts the situation up to the public, which exercises the balance of control on the railroad labor board.

Proposed Reductions. "The cuts which the management propose are these:

"That wages of train service employees be reduced sufficiently to remove the remainder of the increase granted by the labor board's decision of July 20, 1920 (which would involve a further reduction in the wages of this class of labor approximately ten per cent) and a reduction of the wages of all other classes of labor which cost the railroads of the country last year more than \$1,300,000,000.

WHITE MAN KILLED BY NEGRO LAST SATURDAY

George Morse, a white man about 30 years old was shot and almost instantly killed at a negro hut near the oil mill Saturday morning about 1 o'clock, and officers are now searching for Abraham Johnson, a negro man, who is charged with firing the fatal shot, while Johnson's wife is in jail, being held until the inquest is complete Monday morning.

When the killing became known considerable excitement prevailed among the people, and numerous stories were soon afloat, one being that he had been murdered by white men and robbed, and another that Morse had done the killing, but none of the stories had any foundation in fact, and the cause of the killing as near as we have been able to obtain it from officers, including district Attorney Hill, was about as follows:

Friday night a number of white men repaired to a four room shack near the oil mill to engage in a gambling game with cards. The men no doubt had frequented the house before and thought that it was vacant but it developed that Johnson and his wife had been placed in the house a few days ago to pick cotton by the owner, Mr. Washam. When the white men got to the house no one was at home, which further led them to believe that it was vacant, and they entered and repaired to a rear west room and were soon engaged in the game. About 11:30 the game broke up, when Johnson and his wife returned to their home from the Carnival grounds and entered the gamblers broke and run, but in their rush to get away left a hat and sweater behind, and did not return until they satisfied themselves that it was not officers trying to arrest them.

Later in the night Morse returned to the scene with two other men who were wanting to get into the game, but they found the place darkened and woke Johnson, who told them they could not enter, and the men who were with Morse state that Johnson was apparently badly frightened, having gone through the previous experience. From the statements of those who were with Morse at the house, and the sworn statement of Johnson's wife before District Attorney Hill, Johnson did not intend to kill anyone, but fired to frighten the men away from his home, not knowing what they were up to, but shot through the window with a single barrel shotgun loaded with buck shot, the entire load striking Morse in the left side of the stomach, and he only lived about thirty minutes. He fell near where he was shot, and when the gun fired his companions left him and made a hasty retreat and did not know he had been killed until later in the morning.

The sheriff and police departments and District Attorney Hill did faithful work until the mystery had been unraveled, and when the chain of circumstances were gathered together they were soon on trail of Johnson and his wife, who walked six miles to a friends house east of this city and there Johnson left his wife and took his departure.

Morse was engaged in driving a jitney and was the son-in-law of Ben Jones of this city and a nephew of Mr. Fatwell of Maryneal.

He is survived by his wife and one child. Funeral will take place today at 4 o'clock p. m. under the auspices of the Oscar McDonald Post of the American Legion, of which he was a member. He served in France for about 16 months and was considered a splendid fellow by those who knew him best and much sympathy is expressed for his bereaved relatives over his tragic and untimely death.—Sweetwater Reporter.

One of the most interesting news stories carried by The Record today is the ad of the Colorado Bargain Store, next door to the Grubbs Garment Factory. Those people believe in printers' ink and in quoting prices that will attract.
