COLORADO, TEXAS, FRIDAY, FEBRUARY 24, 1922

WHIPKEY PRINTING COMPAN

DRILLING RESUMED AT AORRISON NUMBER TWO

the Morrison well has continued to flow by heads regularly about every twelve hours during the past week and speculation as to what the well would produce when drilled deeper into the gas sand is running high. The sand that is now producing has been drilled into only three feet up to Wednesday afternoon at 2:30 o'clock when drilling was resumed at 2946 feet. The well was drilled two feet Wednesday afternoon.

J. L. Vaughan, an official of the Underwriters Producing & Refining Company, stated Thursday morning just before leaving Colorado for the well that in all probability the Morrises would be given a nitro shot within the next one or two days, in case deeper drilling did not result in a gusher. W. J. Thomson, the costractor, stated Wednesday night while in the city that he believed the well would come in for a big producer if shot.

Drilling is progressing at Zilpha Morrison No. 1 and Smith No. 1 at each of these locations, the water materially, but A. C. Spaulding, UNDERWRITERS TO BUILD sbortage has handicapped operations contractor at the Zilpha Morrison well, has perhaps lost less time than any other contractor on account of water shortage. He is taking water from wells at the T. & P. well, one and one-half miles east.

CHAMBER OF COMMERCE ORDERS PARK IMPROVED

Judge C. H. Earnest, chairman of a committee reresenting the Chamber of Commerce, stated Saturday that he had been informed officially that the Chamber in executive session had endorsed the recommendations for improving an automobile tourists camp in East Colorado and

The plans are to construct a partially enclosed camp house, and pro- fining end of the business." vide free water, electric lights and fuel, together with such other conveniences as may be neeed. The grounds are immediately north of the D. H. Snyder home and the use of them is to be furnished free of cost by Judge Earnest | who owns the property.

The City Council has promised to furnish water free of cost on the grounds and cause the City Marshal to see that privileges intended for automobile tourists only are not

AN OLD TIMER.

If you dont like old Mitchell county is going then go back from whence you came. Old Mitchell county is going to be a big oil country, so if you want to be a Mitchell county booster let us all join in. Hurrah for old Spains with all the wonderful atmosphere which that nation inspires. The old Spanish scenes and the thousands of people that take part in the play are not to be equaled in any picture ever seen at Colorado.

Pola Negri, the graceful foreign star, takes the role of Carmencita, a flirtatious gypsy girl, and is mixed up in some quarrels with the officers of the Spanish army. She is imprisoned, and, while there she is into the interest of the latest type, a double arm of the latest type, a imprisoned, and while there she of the latest type, a double arm learns of the activities of a band spudder and will do the work. We and thirty six (26), twenty six (26), twenty six (26), twenty six (26), twenty six (36) in 15. S. & M. Addn. of smugglers. > The question for each man to settle is not what he would do if he had the means, time, influence and educational advantages; but is what he will do with the things he has. The moment a young man ceases to dream or bemoan his lack of opportunities and resolutely looks his condition in the face, and resolves to change them, he lays the cornerstone of a solid and honorable suc-

They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. Many such, however, have been completely restored to health by the use of Chamberlain's Tablets. These tablets strengthen the stomach, invigorate the liver and improve the digestion. They also cause gentle movement of the bowels. When you have any trouble with your stomach, give them a trial.

Very dry here. No rain since our last report but some appearances of rain now. No marriages or death to report this week.

Some excitement here about the oil boom and some of our folks are arranging to go over and see the sight this week.

OIL MAPS

Mitchell County Oil Maps showing producing wells and all locations, \$1.00 each anywhere in the United States.

L. B. ELLIOT COLORADO, TEXAS

A number of Abilene people spent few days the past week in Colorado City, visiting the new Morrison oil well and watching developments in general. Indications are that a big pool will be opened in the Westbrook

section of Mitchell county. J. E. Stowe, of Stowe & Toler, reports that the Morrison No. 2, which is located one-half mile southwest of the Morrison No. 1 and thirteen miles west of Colorado is flowing by head about 750 barrels daily and the state inspector has not yet allowed the driller to turn the well loose. As soon as storage tanks are built, which are expected school. to be completed Saturday, the well will be turned loose.

Mr. Stowe states further that leas- a religious circle, not only in Sunes in the neighborhood of the well day school, but in the prayer meetare going at from six to one hundred ing, in the place of public worship, dollars per acre and that the city of Colorado is literally full of oil scouts the different places where Christian for the big companies and other in- people are assembled, the question is terested people.

The T. P. No. 1 has been on the way?" Is it the way of blessing, the pump for fourteen months, making way of life, the way of peace, the eight to ten barrels per day and the way of salvation? Is it the way to Foster No. 1, at Iatan, in Mitchell win the favor of God, and to secure county, is also on the pump.

Other men from Abilene, who vis- to make men believe that religion is ited in Colorado the past week were a reality and the world an empty J. E. Brown and R. S. Field of the show, or are men sometimes con-Ed. S. Hughes Company .- Abilene vinced by the conduct of those who Reporter.

WILL BE FILED THIS YEAR

MORE INCOME TAX RETURNS

The Federal taxes' are here to stay. When all bills are paid for the war, we shall have paid 55 billion dollars, and it will take 55 years to pay for it, if we can raise 4 billion each year. It takes 3 billion to run the government and the other one billion to apply on the war debt.

Here are few of the new rulings and exemptions:

Single man (or woman) gets \$1, 000 exemption, same as last year. Married- man (or woman) gets \$2,-500 instead- of \$2,000 as last year. For each dependent or child, you are entitled to \$400. Last year only \$200 If the net income is over \$5,000

then only \$2,000 can be claimed as an exemption.

It must be remembered that it you have made \$2,000 or more, if married you must file a Return. However, your claim of exemption will be \$2,500. If you or your business has a GROSS income of \$5,000, that is you have taken in over \$5,000 but have paid all of it out and have nothing to show for it, you must file a return. These new rulings make nearly all business firms and most every individual prepare and file a

There are very few of us who understand the exemptions and laws which change each year. We can't keep up with them; therefore, if we prepare our own return without competent and intelligent advise and aid, we will over pay or our return will be incorrect in some way or

For Indigestion and Constipation.

> WACO, Texas, Feb. 25 .- Miss Hattie Conoway, a sophomore in Baylor University, is specializing in the study of piano along with her would have bearing-down pains as was not well at any time," says his b. V. Williams, wife of a well-hard farmer on Route 5, this place, kept getting headaches and having go to bed," continues Mrs. William describing the troubles from which she obtained relief through the use Cardul. "My husband, having head of Cardul, proposed getting it for many after taking some Cardul... that I was improving. The results a surprising. I felt like a different literary courses. Miss Conoway plans to take the Bachelor of Arts degree in June, 1924, at the seventy-ninth annual commencement exercises. She is doing her major literary work in the department of education of Baylor University.

Miss Conoway is the daughter of Mr. and Mrs. C. P. Conoway of Colorado, Texas. She received her preparatory school training in the Colorado High School, entering Baylor

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night, I was so hervous and cross. My husband said University in the year 1920-21. Like the majority of the first and he would get me some Cardui, which he did. It strengthened me . . My doctor said I got along fine. I was in good healthy condition. I cannot second year students, Miss Conoway finds it necessary to devote a large part of her time to studying the required courses. Besides her courses, Thousands of women have suffered as Mrs. Williams describes, until the found relief from the use of Cardui Since it has helped so many, yet should not hesitate to try Cardui to the state of the state she also has to spend a good many hours a day practicing piano, leaving her little time for the varied activities of the student life. She enjoys membership in the Calliopean Literary Society, one of the four organizations sponsoring oratory and debating in the University.

FACTS About Your Battery

GetFirstHand

Batteries will wear out-nobody can stop that, but in a good many cases the embarrassment would be less if the owner knew his battery had "one foot in the grave," and was apt to die any time. When anything like that happens we feel that we have failed in our effort to get your ear and tell you the facts-the condition of your battery. One of our most important duties is

to tell you-whether you own a Willard Threaded Rubber Battery or not-just how that battery stacks up.

Come in.

ANNOUNCEMENT

We have secured the agency for the New Series Good Maxwell, and have one of the new cars on display at our salesroom. This car has won instant favor with the public wherever shown, and is a car of such beauty and refinement that the price seems almost unbelievable. A demonstration in this new car will convince you that its good looks is only secondary to its riding qualities and performance. Motor is powerful and practically void of vibration, made possible by its special design light weight piston. This car has the wonderful range of speed and power heretofore unknown to the four cylinder car.

Our place will be the authorized Service Station for all Maxwell cars and all owners of Maxwell cars will receive very careful attention and we will be interested in your welfare and want you to have the best of service at the least expense.

Entertained 42 Clubs.

Mrs Blanks was hostess for the Harmony Club Wednesday and had as other guests the members of the Merry Wives club and a few outside friends. Before beginning the games the guests were reminded of the red letter day by being received by Colonial Dames. They were greeted by Mrs. Chambers and introduced to them. The hostess as Dolly Madison, headed the line, then followed Mrs. Barcroft as Martha Washington, Mrs. D. C. Byrne as Mrs. John Jay, Mrs. O. M. Majors as Mrs. Hamilton, Mrs. Everett Winn as Lady Ballimore, Mrs. Boyd Dozier as Beatrice Ross and little Alice Blanks as Martha, Custiss. Score cards with hatchets and clusters of cherries were then passed and several enjoyed games played. After this lunchcloths with hatchets and napkins with clusters of cherries were provided each table and the Colonial Dames served delicious refreshments of salad, tomato aspec, potato chips, hot buttered rolls, coffee and cherry tarts. On each plate was a favor of a red, white, and blue hatchet.

U. D. C. Meeting.

A very interesting meeting of the U. D. C. chapter was held in the home of Mrs. J. M. Thomas Tuesday afternoon with Mrs. Gustine hostess. While Mrs. Thomas is not a member of this organization, yet she is interested in it at all times. Besides the program on Southern Generals, Misses Ewell Gary and Elenor Thomas favored with musical selections. The hostess served chicken salad, saratoga flakes, celery, pickles white cake and coffee. Mrs. Russell f San Saba was a guest.

Young Ladies Missionary Meeting. young ladies missionary society of the Presbyterian church held the regular meeting with Mrs. Abe Dolman last Thursday. The subject was home missions. Work in the mountains, led by Mrs. Jerold Riordan. The next meeting will be with Miss Mildred Coleman and Mrs. Thomas will be the leader. All members urged to be present as it will be election of officers.

Entertained on Anniversary. The 1921 Study club entertained fine. Let us make next Sunday Go of music and readings were given by the members and then followed the ever popular game of 42. The decorations were in keeping of the day, flags and hatchets, with ferns as an appropriate background. The score cards were, tea pots for the ladies and minature hatchets with "I cannot tell a lie" on them for the gentlemen. At the close of the evening sandwiches, olives, osgood pie, tes and coffee were served.

Week of Prayer.

The Presbyterians observed last week as week of prayer for foreign missions. The meetings were held at the home of Mrs. J. E. Riordan. There was good attendance and interest. Africa was the country es-

Great Palistine Pageant Begun.

The Palestine Pageant gave the opening program in the First Baptist church on Thursday night.

Dr. Moore appeared on the platform in flowing orriental robes and a turban. A gay procession of Oriental people sang ancient songs and played upon strange instruments.

The Pageant will continue for one week. There will be an entirely different program each night. Forty characters in costume present scenes in Palestine, An Oriental wedding, street scenes in Jerusalem and the selling of a child-bride will be among the interesting things presented.

A howling, dancing, Jewish prayer and the Mohammedan call to prayer are most realistically given. A valuable collection of currioes will be on exhibition in the church. Furniture, rare tapestries, ancient musical instruments, coins of Bible times and many other things including genuine antiques from two to four thousand years old will be shown. Dr. Moore preceeds the dramatic program with nine short lectures on places and events in the

whether the structure extends east! of not. It is now down approximately 1,600 feet and drilling continues.

Interest grew during the week and a steady string of automobiles from Colorado, Sweetwater and other nearby points poured into the scene of events every day. So great has been the throng of eager people that an enterprising individual has opened a hamburger stand near the well and is doing a "land office" business in his "hot dog" sales.

derwriters Producing and Refining Company's second well on the Earl Morrison ranch, 12 miles west of this filed place, was today noon flowing naturally at intervals at the rate of 70 wherein barrels. There was no agitation and the oil was carrying no water.

Production is coming from sandy Company, are Defendants, and said petition alleging well, in the opinion of conservative

son No. 2 the first real oil well in West Texas outside the proven fields. It will result in a campaign of drilling not only in Mitchell County but elsewhere, good oil showings having been obtained in Glasscock,

mile from the Underwriters T. & P. No. 1, which since August, 1920, has been pumping from 17 to 22 barrels of oil daily from around 2.655 feet. The Colorado-Texas Petroleum Company's Foster No. 1 is also a producer, though not yet Clerk County Court Mitchell Co., Texas. as good as T. & P. No. 1.

Sterling City Record: Morrison No. 2, the second well of the Underwriters Company near Westbrook, in Mitchell County, blew in last Saturday evening, spraying the oil above the derrick. This well continues to flow by heads and is said to be good for at least 70 barrels per day. This is the second well to be Westbrook field, its first well havng been producing steadily on the pump for more than a year.

Foster Well No. 1, at Iatan, is on the pump and its high grade oil is being shipped to the refinery at El Paso. The pump plunger was lost in this well last week, which caused delay in production for several

MITCHELL COUNTY HOPES TO BE NEXT OIL FIELD

The Fort Worth Star-Telegram on Tuesday, Feb. 21, contained the fol-

Mitchell County citizens confidently expect their county to become the next Texas oil field as a result of the showing made in the Morrison ing no claims whatever. We simply Dear Sirs: No. 2, twelve miles from Colorado. know we have a good well that is Allow me to congratulate you up-The Morrison is flowing by heads making 250 barrels daily by heads on the last issue of the Record. It and making approximately 250 barbut we do not even know what it certainly is fine for a small town but we do not even know what it certainly is fine for a small town rels daily. It is the third well in the county, the others having shown for smaller production.

A Colorado delegation, comprising C. M. Adams, merchant, banker and former mayor of Colorado; W. S. Cooper , secretary of the Chamber of Commerce, and J. H. Greene, merchant, visited Fort Worth Monday and brought reports of the well and the ofl development in the coun-

"We are endeavoring to be as conservative as possible," Adams said in speaking of the development. "We think we are going to have an oil field. We know we have a good well but we are not trying to start any boom and we do not desire to do so until after we are certain we have an oil field. We desire to profit by the experiences of other towns and communities who have suffered from booms that were not backed up by the oil development expected. There are many encourging features to the Morrison well, however. Its behavior is similar to that of the Rogers well, the discovery well at Mexia. You recall that the Rogers twenty-five new subscribers to its flowed by heads and intermittently list this week. for many months and that many oil compaines became more or less dis-

munity.

couraged with prospects in that re- second. gion. It was not until the sensationpossibilities of the Mexia field were ly, I am, your friend,

> Fort Worth Record in its issue of Tuesday of this week said:

The bull wheel at the Morrison No. 2 well of the Underwriters' Production & Refining Ccompany early Saturday prevented the drill being punched down into the sand to increase the flow of the latest West Texas producer. The damage was expected to be repaired in time for resumption of drilling some time today. Thousands of persons visited the well Saturday and Sunday. As many as 200 automobiles were counted by one party between the well and Colorado, a distance of 11

The oil flowed lively for several minutes Saturday before swabbing was started. Five times the swabber was brought up, each time pushing the black oil far up into the derrick. On one occasion a jet of oil reached to within twenty feet of the crown block. The gas pressure was even much greater Saturday and seems to be increasing right along. The swabber was let down about 200 feet and each time brough up about fifteen barrels of oil. The five attempts to lower the oil proved ineffectual.

Officials of the company believed that when the drill is put down deeper the well will agitate itself and become a gusher. When the oil went over the top the sand was merely scratched. The well has a depth of 2,946 feet with the top of the sand at 2,826. There is a broken formation from 2,826 to 2,920 feet, and from 2,920 to 2,940 feet the pay is good.

The oil is unusually black and of low gravity. It has been brought to higher gravity by the swabbing process. It is said that the oil has an asphaltic base. The oil is allowed to flow into the pit where it is picked up with a pump and placed in two 500 barrel tanks just brought in from Ranger. Officials said that material for an 8,000 barrel tank is now on its way from the Ranger field

throngs near the well during the day all of yesterday. It is said that they MRS. MITCHELL COUNTY WELL PRODUCES 100 BARRELS

It is estimated by oil men that the Morrison well No. 2, twelve miles aorthwest of Colorado in Mitchell County, flowed 100 barrels of oil this morning. This well began flowing at 10:15 and flowed a full sixinch stream of oil for twelve minutes and continued to flow for forty-three

Drilling on this well is temporarly postponed, owing to repairs now being made on the bull wheel.

W. J. Vaughan, president of the Underwriter Producing & Refining company, said today that drilling would be resumed tomorrow.

Much interest in this well is being shown by oil men from all over the United States and owing to the favorable prospects of this well several new drilling contracts are expected to be closed in the near future.-Dallas News, Feb. 21.

All Roads Lead to Colorado. Leases and exchanges of land continues as plans are made to resume drilling in Morrison No. 2 Tuesday The failure to complete repairs caused- the postponement of drilling in the well today but assurances have been received that the well will be worked tomorrow.

Morrison No. 2 flowed without agitation for thirty-five minutes Sunday evening, the flow being estimated at 50 barrels. The estimated flow of the well without agitation is placed at approximately 135 barrels a day and it is thought that the well will produce in the neighborhood of 500 barrels a day, if pump- He might obtain scores of wealthy

SOME ASPECTS OF THE FARMERS' PROBLEMS

Now that the farmers are stirring. chinking, and uniting as sever before to eradicate these inequalities, they are subjected to stern economic leetures, and are met with the accusation that they are demanding, and are the recipients of, special privileges. Let us see what privileges the government has conferred on the farmers. Much has been made of Section 6 of the Clayton Anti-Trust Act, which purported to permit them to combine with immunity, under certain conditions Admitting that, nominally, this exemption was in the nature of a special privilege,-though I think it was so in appearance rather than in fact,-we find that the courts have nullified it by judicial interpretation. Why should not the farmers be permitted to accomplish by co-operative methods what other businesses are already doing by co-operation in the form of incorporation? If it be proper for men to form, by fusion of existing corporations or otherwise, a corporation that controls the entire production of a commodity, or a large part of it, why is it not proper for a group of farmers to unite for the marketing of their common products, either in one or in several selling agencies? Why should it be right for a hundred thousand corporate shareholders to direct 25 or 30 or 40

per cent of an industry, and wrong for

hundred thousand co-sperative

farmers to control a no larger propor-

tion of the wheat crop, or cotton, or

any other product? The Department of Agriculture is often spoken of as a special concession to the farmers, but in its commercial results, it is of as much benefit to the buyers and consumers of agricultural products as to the producers, or even more. I do not suppose that sayone opposes the benefits that the farmers derive from the educational and research work of the department, or the help that it gives them in working out improved cultural methods and practices, in developing better yielding varieties through breeding and selection, in introducing new varieties from remote parts of the world and adapting them to our climate and economic condition, and in devising practical measures for the elimination or control of dangerous and destructive animal and plant diseases, insect pests, and the like. All these things manifestly tend to stimulate and enlarge production, and their general beneficial effects are

It is complained that, whereas the to three months' time for commercial paper, the farmer is allowed six months on his notes. This is not a special privilege, but merely such . recognition of business conditions as makes it possible for country banks to do business with country people. The crop farmer has only one turnover a year, while the merchant and manufacturer have many. Incidentally. I note that the Federal Reserve Board has just authorized the Federal Reserve banks to discount expert paper for a period of six months, to conform to the mature of the bust-

The Farm Loan banks are pointed to as an instance of special government favor for farmers. Are they not rather the outcome of laudable efforts to equalize rural and urban conditions? And about all the government does there is to help set up an administrative organization and lend . little credit at the start. Eventually tal and carry all the liabilities themselves. It is true that Farm Loan bends are tax exempt; but so are bonds of municipal light and traction plants, and new housing is to be exempt from taxation, in New York, for

A LESSON FROM THE CLOCK.

A clock is a mechanical device which when properly adjusted and with but little attention gives us the hour, minute and second of the day.

Did you ever disassemble a clock or watch? Anyway, you know that it is made of many small parts, wheels, springs, etc. Each one of these parts has a part to play, and without it the device would be worth-
