COLORADO SENDS BIG DELEGATION TO SWEETWATER JUBILEE FRIDAY

SPECIAL TRAIN AND 200 AUTOMOBILES CARRY 800 BOOSTERS TO JUBILEE CELEBRATION; BIG STREET PARADE STAGED.

The city of Colorado maintained the distinction of being one of the foremost cities in all of West Texas by sending the largest delegation, the best band and the most enthusiastic aggregation of boosters to the jubilee celebration at Sweetwater Friday. It was a task well done and brought to this city much favorable publicity.

In keeping with this policy of not doing things by halves, the Chamber of Commerce will now go after location of the Texas Tech with confidence, backed by the co-operation of the entire citizenship.

Closing the stores, offices, banks, the post office and schools of the city, Colorado sent the strongest delegation of any other West Texas town to the jubilee celebration at Sweetwater Friday of last week. Three hundred and eighty-two members of the Colorado delegation went to Sweetwater on the special train leaving here at 12:15 Friday afternoon, while others variously estimated at from 400 to 600, drove to the jubilee city in automobiles. The Colorado delegation, was estimated to have been 800 strong.

The special train arrived at Sweetwater at 1:10 and immediately after detrainning a parade, headed by Dr. P. C. Coleman, was staged through the principal business district. The parade was more than two blocks in length, headed by the Colorado and Sweetwater bands massed. A large number of school children accompanied the boosters from this city.

The Dallas News, Fort Worth Record, Abilene Reporter and Sweetwater Reporter gave much publicity to Colorado in connection with the jubilee celebration. These papers estimated that this city sent 800 people to Sweetwater, which was claimed to have been the largest delegation there by odds.

Special trains were run from San Angelo, Big Spring, Lubbock and Snyder. The Big Spring delegation is said to have been the second largest attending the jubilee.

In an article carried in the Fort Worth Record Saturday morning, the following is said concerning the Colorado delegation:

"Colorado, which claims to have been the first town to charter a special train to bring its delegation to the jubilee, arrived at noon with 800. Dr. P. C. Coleman, head of the West Texas Chamber of Commerce West Texas A. and M. committee, which was instrumental in the securing of the college for this section, was the chief figure. Colorado was hurried somewhat in Sweetwater for its premier attendance, it being pibed for having depopulated the coming West Texas oil field town and leaving only the night watchman to guard the banks while the delegation was away. The Colorado delegation on arrival paraded the busi-

KEEN COMPETITION AMONG ATHELETS IS ANTICIPATED

The interscholastic league meet to be held at Colorado this year will be the occasion of some of the keenest competition among athletic teams ever witnessed in this part of the State, should predictions of Director General G. D. Foster be realized. According to Foster, no less than a score of fast teams, representing entries by as many schools of the county, will participate for honors during the field meet held in connection with the two day program.

In some of these events, Mitchell County contestants have already carried off honors at district and sectional meetings. It was the Colorado High school which won easily in the tennis doubles at the district league meeting at Abilene and teams entering in other field contests there were accorded mention of merit. Interest in the coming league meet

is to not to center around field sports, by any means, according to Foster. Entries in the several debating, declamation and reading events promise to prove equally interesting. Attractive prize awards will be hung up for winners in the several classes. The latter is being financed by the Colorado Chamber of Commerce.

CASING FOR SMARTT WELL ARRIVES HERE THURSDAY

Overdue some three days, the string of six inch casing for the Smartt well passed through Colorado Thursday morning for Westbrook, where it is being unloaded and rushed to the well. The casing was shipped out of Ranger the first of the week and should have arrived Monday night.

The delay has caused Mr. Sloan to lose the interim in landing the casing at 2906 feet preparatory to bringing the well in.

MAJOR ATTRACTIONS FOR MITCHELL COUNTY FAIR

The Donald McGregor Shows, among the largest in the Southwest, have been contracted for the three days of the Mitchell County Fair, to open at Colorado September 20th. R. H. Ratliff, secretary of the fair association, stated Wednesday. Included in the attractions is a ferris wheel, merry-go-round, fairy swing, honey moon trail, allrides, and varied minstrel and other carnival attractions.

Colorado should consider itself fortunate to obtain a contract from such a large company, Ratliff stated, because the Donald McGregor Shows, being large as it is and featuring only the best carnival attractions, is in demand in the larger cities and towns. These attractions will rank with those showing at the West Texas Fair at Abilene last year and other fairs of like magnitude, it is claimed.

The second annual fair here will greatly eclipse the initial fair held last year, according to Ratliff. Every department will be enlarged and improved and the management is already promising to show some of the best agricultural, livestock and fine arts exhibits ever exhibited in this section of the State. The fact that scores of boys and girls of the country, as club members working under the personal direction of W. A. Dulin and Miss Laceywell are preparing exhibits in poultry, livestock, fine arts, agricultural and garden products, etc., will add much to the quality and interest of the show.

The fair management will offer cash prizes aggregating not less than \$5,000, Ratliff stated. The second annual catalogue and premium list will be issued June 1st.

OCCUPANTS INJURED AS FORD SEDAN TURNS OVER

A Ford sedan, driven by Mrs. J. R. Sheppard, turned over at the corner of Oak and Fourth streets Tuesday morning. A party of ladies was in the car with Mrs. Sheppard when the accident happened but none of them were injured. The car was slightly damaged.

LIONS MEET THURSDAY TO BOOST SWEETWATER TRIP

In order that all members of the club attend the jubilee at Sweetwater Friday, the weekly luncheon of the Lions Club was held Thursday of last week, instead of Friday, the usual date. An interesting program was rendered. The club will meet Friday at noon and every member is expected to be present.

M. E. PASTOR UNDERGOES OPERATION AT TEMPLE

Rev. J. F. Lawlis, pastor of the First Methodist church at Colorado, had his right limb removed by surgeons at the Scott and White Sanitarium at Temple Monday. Rev. Mr. Lawlis left here several days ago for Temple where he has since been under treatment. Mrs. Lawlis is with her husband. The limb was removed above the knee.

The minister was confined to his bed five weeks before leaving for Temple and although under treatment of three leading physicians of Colorado, nothing could be done to relieve his condition. He was carried to Temple at suggestion of local physicians.

A telegram from Rev. Mr. Lawlis, announcing that he would go on the operating table, was read before the Sunday school at the Methodist church Sunday morning. A message of best wishes upon behalf of the congregation was telegraphed him in reply by T. W. Stoneroad, president of the board of stewards.

STATISTICAL COMMITTEE MEETS MONDAY NIGHT

The statistical committee on location of the Texas Tech will meet Monday night at 7:30 at the Chamber of Commerce. The meeting is important and every individual member is urged to be present.

COLORADO RANKS HIGH IN CAMPAIGN FOR TEX. TECH

"Colorado has a wonderful opportunity to locate the Texas Technological College, and should go after the school in real earnest," Dr. P. C. Coleman, president of the Chamber of Commerce, stated Monday. From every angle considered, the soil, water, climate, accessibility, and others to be considered by the board, there is not a single one found missing here.

Detailed information as to the requirements to be met in locating the college were received Monday from the secretary of the locating board at Austin. A careful study of these requirements Monday night by the Chamber of Commerce officials and later by members of the statistical committee, disclosed that Colorado stood high in the campaign with some fifty other West Texas towns and communities to obtain the school.

Some who are prone to be possessed of but little enthusiasm over the possibilities of locating the school here advance the statement that we do not have a large lake of water, nor is this city a railroad center. In the communication received Monday, the board states that water is, of course, an important item and must be furnished, but that it makes no difference as to where the source of supply is taken, whether from lakes, running streams, or deep or shallow wells. Converging railroads will have a very small part in locating the school. All of our State institutions, with the exception of the University of Texas, have been located in the small town and away from the city and railroad center.

Both the locating and statistical committees are working out the details of the duties assigned to them. The latter committee has already held two important conferences and is to hold another Monday night at the Chamber of Commerce. Subcommittees from the two general committees are working daily in order to bring before the locating board every argument we may offer as to why the school should be on a site near this city.

Colorado has the opportunity of obtaining an asset the material value of which may never be known. The initial cost of the property will be one million dollars and additional large sums will of necessity be expended by the State as the institution grows. Another trunk line railroad would be of small consequence when compared to the Texas College of Technology. The entire citizenship should lend the Chamber of Commerce and the two committees every assistance possible.

SCHOOL BOY LOSES 3 FINGERS IN EXPLOSION

The 12 year old son of Joe Creamer was painfully injured Tuesday afternoon when a dynamite cap with which he was playing exploded in his left hand, the concussion tearing away parts of his thumb, index and second fingers and badly lacerating the third finger and hand. The boy will lose the thumb and injured fingers, it was stated Thursday morning.

While returning home from school Tuesday afternoon, the Creamer boy picked up the cap and finding it easily manipulated into a whistle, carried it home. At home the boy obtained a match and ignited the cap, with disastrous results. It is not known where the cap came from.

MISS HERRINGTON BREAKS ARM IN FALL SATURDAY

Miss Sallie Herrington sustained a broken bone in her left arm Saturday night from a fall at the home of her parents, Mr. and Mrs. A. J. Herrington in North Colorado. Miss Herrington was passing from one room to another when she was tripped by some toys left on the floor by a child.

The District Court of Nolan County was convened Monday morning by Hon. W. P. Leslie, judge of 32nd Judicial District.

FIVE NEW LOCATIONS IN FIELD AS SMARTT NO. ONE TOPS SAND

DEVELOPMENT OF FIELD PLANNED ON LARGE SCALE; SMITH ONE AND MORRISON THREE TO BE DRILLED IN SOON.

Following on the heels of announcement Monday morning that Smartt No. 1 of Sam Sloan was standing 2900 feet in oil after the Morrison pay had been penetrated only twelve feet, five new locations were definitely made and several others tentatively announced. Oil men are of the belief that the Smartt well will prove up the largest producer in the field.

Two other tests, Smith No. 1 of J. F. Carey et al, and Morrison No. 3 of the Underwriters Producing and Refining Company, are within less than 300 feet of the Morrison pay and are expected in early next week.

Gas pressure in the Smartt well became so strong Thursday morning that the control head was opened and immediately the well commenced to gush, shooting oil above the crown block. Considerable excitement prevailed in Colorado and scores of automobiles loaded with citizens left for the field.

J. F. Carey reported at noon Thursday that the Smith test had encountered a good showing Thursday morning at 2685 feet.

The Smartt well drilled into the pay Saturday at 2956 feet and the crew continued to drill slowly until a depth of 2968 feet had been attained. By that time oil was standing 2900 feet in the hole and the gas pressure showed evidence of increasing hourly. Drilling was stopped and the well capped, pending landing of six and five-eighths-inch casing at 2906 feet, after which the well will be drilled in. Local oil men are of the belief this well will easily prove up the largest producer in the Mitchell County field should the pay be found as deep as in other wells in the vicinity.

The Smartt well is not by any means attracting all the attention of local oil men this week. Two other tests are nearing the Morrison pay and are expected to be drilled in next week. These are Smith No. 1 of J. F. Carey et al, in the Nat Smith survey five miles west of Colorado, and Morrison No. 3 of the Underwriters Producing and Refining Company. The latter is 560 feet north of Morrison No. 2, the largest producer in the field. Wednesday afternoon the Smith test was drilling at 2685 and the Morrison at 2670. Just which of the two will be drilled in first is problematical.

Rigs for the three of the new locations already made this week have been purchased through local dealers and at least that many more are expected to be contracted for before the end of the week. The rigs bought are for new locations in the Underwriters block. The Smartt well extends proven territory one mile in

ABE DOLMAN CARRIED TO SANITARIUM AT PARIS

Guy S. Caldwell of Paris, brother-in-law of Abe Dolman, arrived here Monday to be with Dolman who has been seriously ill for several days. Mr. Dolman was carried to Paris Tuesday night where he will be placed in a sanitarium for treatment. He was accompanied by Mrs. Dolman and Mr. Caldwell.

Caldwell is president of the Paris Morning News, vice president of the Chamber of Commerce and a leading business man of that city.

FOUR SCHOOL TRUSTEES TO BE ELECTED APRIL 7TH

H. L. Hutchinson, president of the school board, stated Monday that an election had been ordered for Saturday, April 7, to elect four trustees in the Colorado Independent district. The election will be held on Saturday following the municipal election ordered by the city council to vote on adoption of the general paving laws and to elect alderman and a city secretary.

INCOME TAX EXPERT AT COLORADO NAT'L. MCH. 10

The deputy internal collector, scheduled to spend two days at Colorado National Bank recently to assist citizens of this territory in making out income tax reports was detained in reaching Colorado. J. M. Thomas, active vice president of the bank, stated Wednesday that an expert accountant would be in the bank Saturday for this purpose and that his services would be offered to all needing assistance in filing these reports.

CIVIC LEAGUE SPONSORS CLEAN-UP CAMPAIGN

Announcement was made Tuesday morning that a joint meeting of officers of the Civic League and Chamber of Commerce had been called by the presidents of the two organizations to convene Thursday night to discuss plans of a proposed clean-up campaign here. The meeting was called at the suggestion of the League.

"The Civic League desires to have Colorado thoroughly cleaned up before the locating board for the Texas Technological College visits this city," Mrs. A. L. Whipkey, president, and Mrs. J. G. Merritt, secretary, stated in a communication addressed to the Chamber of Commerce Monday. "The town should be made clean and kept clean for both civic and sanitary reasons."

Other civic organizations of Colorado including the Lions Club, have suggested that a general clean-up campaign be inaugurated. At a recent meeting of the club, Mayor Looney endorsed the demand for a cleaner Colorado and pledged co-operation of the city in this work.

PRIZES BAND CONTESTS ANNOUNCED AT ANGELO

Prizes, aggregating \$2,000, to be offered by the West Texas Chamber of Commerce to bands entering the contests at San Angelo during the Fifth Annual Convention of the chamber, were announced Saturday by Walter E. Yaggy of San Angelo and Stewart L. Williams of Balinger, committee named by Porter A. Whaley to arrange details of the contest. M. S. Goldman, director of the Colorado Booster Band, stated Monday that the band here would enter the contest under one of the three classifications named. Goldman believes the band here one of the best in West Texas and will go to San Angelo expecting to bring home a prize.

The Colorado and Sweetwater bands, which were massed for the music at Sweetwater Friday, received much favorable comment from the thousands of visitors there. Miss Neff, daughter of the governor, who was with her father at the jubilee, stated the band was one of the best she had heard play in some time and at her request Mr. Goldman was presented to her to receive personally her message of congratulation.

BRICK WORK COMMENCED ON WALNUT ST. BUILDING

Brick work was commenced Monday on the Greene-Johnson building, on Walnut street. The building will be one story and modern throughout. It was learned Tuesday that the Chamber of Commerce had leased an office suite in the front of the building and would move from the present quarters in the Farmer building. The change will be made in order to obtain the advantage of having an office on the ground floor.

"The Chamber of Commerce has for some time desired an office where attractive displays of some of the staple products of the Colorado territory could be made," an officer of the chamber stated. "It would have been impracticable for us to have carried such displays in the present office, because of it being above the street and not easily seen by the public. The chamber has purchased new office equipment and will maintain one of the most attractive offices of the city. The county farm and demonstration agents will continue to office with the Chamber of Commerce in the new quarters."

We grant every human being on earth the right to his religion. If the Chinaman wants to worship his Joss, the African his snake, or if the Alaska Indian feels called upon to bow before his totem pole, let them go to it. If the Turk feels that Mohammed is his savior, let him alone. If the Catholic feels that the Pope is anything but a man full of sin and human errors, and deem it a sacred privilege to kiss his big toe, and that a priest can pray his soul out of hell, he is welcome to his belief if it makes him feel good. If a Methodist feels that his baby ought to be sprinkled by a preacher, or a Baptist thinks it best to be put under the water, we are contented and lose no sleep over what he believes about religion. If he is honest about what he believes and conducts himself as a good citizen, we respect him. But whenever he, or any of them, thru their organization, preacher, priest or pope, lay hands on our government and undertake to legislate away the rights, privileges and liberties given by God and guaranteed by basic law, we reserve the right to raise unshrined hell about it.—Bill Kellis.

SNYDER TRAIN KILLS FAMILY OF FOUR

SNYDER, March 4.—Mr. and Mrs. J. M. Whitehead, their son aged 17, and daughter, aged 5, were instantly killed at a railroad crossing six miles south of Snyder at 6:45 o'clock Friday night when a Santa Fe special train struck the automobile in which the family was riding. The Whiteheads had been to Sweetwater to attend the West Texas Technological College celebration Friday and were nearing their farm home near Snyder when the tragedy occurred. The special train was carrying the Snyder delegation from the celebration.

Superintendent Anton of the Slaton division of the Santa Fe, a member of the Snyder delegation, took charge of the situation immediately remaining overnight in Snyder to make a complete investigation of the accident.

Whitehead, who was 45 years old, was a farmer. His wife was but a few years younger than he. They were traveling in an automobile with the curtains up. The motor, framework of the car and the bodies of the two men were carried by the pilot of the engine until the train was brought to a full stop. The bod-

ies of Mrs. Whitehead and the girl were thrown clear of the tracks. The bodies were carried into Snyder on the train.

NEW MASONIC TEMPLE RECEIVES ENDORSEMENT

That the proposed new Masonic temple at Colorado is the only feasible solution of the problem to enlarge the hall is declared by a number of prominent Colorado citizens who are members of the fraternity. Since figures were submitted last week by a local architect, showing the condition of some of the walls and the roof of the old building and a comparison of the estimated cost of repairs with that of a new temple, the suggestion to repair the present structure is finding less support.

According to the estimate of the architect, it would require an expenditure of approximately \$12,500 to enlarge the old building and make needed repairs, while a new temple, constructed along the lines of the new Colorado National Bank building, two stories with basement and forty by ninety feet in size, would cost about twice that amount, including equipment in the hall.

Under the attractive plan to finance the project, as announced by Col. C. M. Adams of a committee named to raise the money, it is claimed that the proposed new building can be easily financed in Colorado. A prominent Mason stated Tuesday that other towns in this vicinity boasted attractive Masonic temples and since Colorado was not backward in its building and improvement program, it could not afford to do otherwise than encourage this great fraternity to keep pace with progress of the city.

C. F. HILLMAN INJURED AT SWEETWATER MONDAY

C. F. Hillman was severely burned from the waist down and on the face and head by flaming gasoline at the plant of the Sweetwater Refinery Monday morning.

He was welding a condenser tank and the heat ignited the fumes of gasoline that remained in the tank. Fire shot out of a two-inch hole therein and ignited Mr. Hillman's garments, which were oil soaked.

He was given prompt medical attention by Drs. Chapman and Dudgeon. Late reports from the bedside of Mr. Hillman were to the effect that he was resting easily and early recovery is expected. Incidentally he is the first patient in Sweetwater's new hospital.

The accident occurred about 9 o'clock Monday morning.

Another employe named Hecht was also slightly burned.—Sweetwater Reporter.

LIONS CONFER "SLEEPING" CHARGES AGAINST MEMBER

Members of the Lions club preferred charges against J. M. Thomas Friday, alleging that he willfully and maliciously slept and snored to the disturbance and embarrassment of other members of the Presbyterian congregation while the pastor, Rev. W. M. Elliott, delivered his sermon at the morning service. The charges were supported by the pastor, who was a guest at the Lions club and Jerold Riordan, prominent layman of the church.

In describing the offense, the pastor stated that Mr. Thomas was sleeping soundly in his pew when Jaamie Sherwin, another of the Presbyterian parishioners, came to the rescue, armed with a hymn book. Sherwin is alleged to have struck Mr. Thomas a wicked blow with the book, completely rousing him from slumber and restoring quiet in the church.

Charges of conduct unbecoming to a lion were also preferred against A. B. Blanks and E. H. Winn. Blanks was charged with showing the white flag and refusing to use his rifle when confronted with a large panther recently in the Davis Mountains. The panther was completely lost in the race between the big cat and Blanks, which began immediately they met and ended in camp, some miles away. Winn was brought upon the carpet before the lions for his alleged feat of such a small and harmless animal as the native badger. The charges were preferred by Blanks, who claimed that recently a badger chased Winn for more than a mile through a farmer's corn field.

Col. Adams, president of the club, almost became hysterical following announcement of the charges against the three club members. "Lions should be wide awake and brave, facing the inevitable, regardless of the danger," he roared, "and those who disregard the traditions of our great ancestry, whether it be sleeping on duty or showing of fear at the approach of inferior animals, will be summarily dealt with," he sobbed in a broken voice as he swished a gush of tears from his eyes.

Punishment of the three culprits was suspended on their promise to amend their ways and retrieve for the wrongs committed by becoming stronger lions than ever.

COLORADO MAN DECLINES DISTRICT MANAGER BERTH

W. S. Cooper, secretary of the Colorado Chamber of Commerce and news editor of the Record, stated Tuesday morning that he had definitely declined an offer from the West Texas Chamber of Commerce as manager of the San Angelo district. The post was offered Cooper last week by Porter A. Whaley, general manager of the organization.

"I appreciate deeply the offer made by Mr. Whaley," Cooper stated, "as the place offered me is an attractive one. My interests, however, are primarily with Colorado and I plan to continue to be identified with this city, believing that Colorado is just on the threshold of an unprecedented development, and is soon to become one of the foremost commercial centers of this section of West Texas."

Cooper came to Colorado from Sweetwater in July, 1920, to accept the joint position with the Chamber of Commerce and Whipkey Printing Company he has since held. At Sweetwater he was manager of the Terrell Publishing Company, publishers of the Daily Reporter. He has

23 SERIES STUDEBAKER LIGHT-SIX SEDAN \$1550

Hidden qualities largely determine the value and life of a closed car.

Beauty of line and finish and refinements are surface indications and important ones. But your satisfaction with a closed car depends to a great degree upon factors that are unseen—the in-built qualities that come from correct design, use of highest grade materials and careful workmanship.

The 23 Series Studebaker Light-Six Sedan is a quality car. It is built to endure—to give lasting satisfaction.

The Sedan body is substantially made. It will last for years and retain its beauty and comfort. Evidence of its hidden goodness lies in the fact that down under

the paint and varnish, the pillars, roof rails and supporting members are made from specially selected ash. Good ash is expensive but Studebaker uses it because it best combines the proper strength and weight.

Four wide-opening doors make it easy for all passengers to get in or out without inconvenience to each other. A high-grade heater affords summer warmth on cold, damp days. The wide windows give broad vision in every direction.

When you buy a Light-Six Sedan you are really accepting the judgment of 100,000 owners who have found the Light-Six chassis so satisfactory.

Studebaker quality is traditional.

CHAL DANIEL DRILLING BI GWELL IN TWO WEEKS

Chal Daniel, well known at Colorado and who drilled Le Sure No. 1 near Westbrook, announced that he would complete a test in two weeks on holdings recently acquired by himself and Bill Rowe in the Smack-over field. The current number of the National Oil Review, Fort Worth, published an interesting article about the activities of Mr. Daniel and the success he has made as a successful operator.

Daniel owns some valuable acreage in the Mitchell County field and is a frequent visitor here. He is of the belief that one of the largest oil and gas fields in the Southwest is due Mitchell County. Daniel was the discoverer of the El Dorado field, with his Buscy-Daniel gusher. He has scores of gusher wells to his credit in other fields of the Southwest.

FROM CUTHBERT

Everybody should have been with us Sunday at the West Side singing convention which met at County Line. It being the regular time to elect officers, O. L. Simpson was elected president; Russell Buecus, vice president; Mrs. Halley, secretary. The day was well spent in singing and eating. We certainly enjoyed having the singing visitors with us. We hope you will all come to Cuthbert the first Sunday in June.

Mr. and Mrs. Barney Autry are here from New Mexico. They are rejoicing over the arrival of little Roena Alice, some two weeks ago.

Mr. and Mrs. Welbourn and daughter are here from Snyder visiting the Womacks and friends.

The recent rains have put the ground in fine shape for farming but we are still suffering for lack of stock water, the farmers are all wearing a smile and are getting very anxious to plant.

Lon and Edd Strain have returned from their visit at Tahoka.

Steve Tillson came home Tuesday from South Texas.

Mrs. Ethel Caruthers left Sunday for Dallas where she will be under the care of a specialist.

Mr. and Mrs. J. Brown and children left in their car for California to visit for a couple of months.

Mr. and Mrs. Geo. Goodwin write that they are at home now and think they are going to like fine if it will only dry up so they can get out. They have good neighbors and feel like it will be all they expected.

Little Billy Berry has been sick the last week but is improving at this writing.

Glynn Bristow spent the week end

with the Shepherd girls. The young people surprised them with a party Saturday night.

Mr. and Mrs. Dave Peters are here until Mr. and Mrs. Ward Jenkins get back from Mission, Texas.

John and Warren and Miss Ruth and Grace Williams were over for the convention and visited in the John Womack home.

Spring hats are trimmed now. Husbands will be trimmed later.

COLORADO MUST WORK HARD

Now that the preliminaries of this city in inaugurating its fight to locate the Texas Tech here are over, it is up to Colorado to settle down to work and work hard to locate the school here. The preliminaries referred to were the organization of forces to direct the campaign for the great school and co-operation with all of West Texas in commemorating passage of the bill creating the institution by taking a big and commendable part in the jubilee at Sweetwater Friday. Both of these tasks have been done well. The two committees named by the Chamber of Commerce are already at work and this city certainly did itself proud Friday when it sent the largest delegation by odds to the jubilee. The city received much favorable comment by leading papers of the State because of the success of the part Colorado had in the celebration, and Dr. P. C. Coleman, veteran champion for the school, who has pioneered the fight since its inception, came next to the governor of Texas as the leading figure at the big jubilee.

The new school will mean much to the city obtaining it in a material way. The Texas Technological College will be the biggest institution in this State and the only institution of its kind west of the Mississippi River. Speakers at the jubilee banquet at Sweetwater Friday night declared the new school would soon rank in prominence with the Georgia Tech and the Boston Tech, two of the greatest institutions of learning in America. Colorado has an equal opportunity with any other contestant for this institution, and should go after it in dead earnest. The competition is going to be keen and there are two or three score towns in West Texas wherein the citizens are working overtime to place the merits of their city squarely before the locating board. The citizenship of Colorado ought to believe—and they do if they are good citizens—that they are living in one of the very best communities within the district affected by the bill and do everything within their power that is in keeping with fair play to land this college. Colorado is not seeking to locate the college upon the demerits of any other city, town or community of West Texas, but solely upon the merits of Colorado and that alone.

This campaign is going to cost money, of course, and this expense will be cheerfully met by the Colorado Chamber of Commerce. There are quite a few citizens of this city, amply able to contribute to the support of the chamber who for some reason are not doing so. The present membership is approximately 130 and it should be increased to 200. Support the Chamber of Commerce and thus support the various programs being supported by the chamber, including the fight for the

school, the Booster Band and other valuable assets.

Some twenty prominent men of Colorado have been named on the two committees directing the campaign to locate the school and they were named because the Chamber of Commerce realized them to be keenly interested in the welfare of this community. To each individual member of this committee has been given a responsibility and The Record believes they will discharge this responsibility with credit to the city and honor to themselves. An important meeting of the statistical committee will meet Monday night at 7:30 at the Chamber of Commerce. By all means be present, if a member.

It was for the Colorado Civic League to take the initiative in cleaning up the city before the locating board is to visit Colorado. The ladies comprising membership in this organization, realizing the importance of having the city spotlessly clean for that occasion, arranged a joint meeting with the Chamber of Commerce to work out a plan for making of the city a place of civic attractiveness. The Board will not visit Colorado until after the first of May and thus there remains ample time for owners of private and public property to do much in improving the good appearance of the city. There is plenty water available for growing attractive lawns and putting out trees and these, together with a clean city would doubly impress members of the board of the fact that Colorado is progressive, as well as sanitary.

In addition to making the city spotlessly clean and a place of beauty before the board visits Colorado, we should have our new court house and street paving well under way. These would demonstrate to them the further fact that we are building at Colorado a city of which the State would be proud and one well meriting the claim of being the best location for the school.

THE ECONOMIZING T. & P.

The T. and P. continues to practice economy in point of service afforded at the local passenger station and have economized to such a degree by pruning service to its patrons as to merit the general criticism of the people of Colorado and others who arrive or depart over its trains. The neglect the Texas and Pacific maintains for its Colorado passenger patrons is no new departure. It is a policy well followed for several months and even continued after protest had been made to the division superintendent at Big Spring.

Two of the outstanding features in the policy of the T. and P to practice economy at the Colorado passenger station is in the saving of wage payments to employees and of bills to the West Texas Electric Co. The baggage room continues to be in charge of a negro porter, of whom much complaint has been made to the Chamber of Commerce, and often not more than one electric light is allowed to burn in the large waiting room. This condition was called to the attention of the superintendent some weeks ago and he promised to properly light the building, make it more sanitary and otherwise improve conditions affecting patrons of the road, but he could see no cause for improving service in the baggage handling department.

The fact remains that the rotten service all about the passenger station is still in vogue. Tuesday

night as patrons of the T. and P. were waiting for trains to take them home from the West Texas Baptist conference there was a general discussion of the service afforded them by the railway company. One electric light in the waiting room stood out in the dismal shadows as a lone star in the night. A passenger who lives at Paris claimed the service afforded patrons of the T. and P. at Colorado was about the worst he had ever noticed.

Local citizens and traveling men who make Colorado support the claim that service of the T. and P. here is considerably below that maintained by the road at other towns in this section. At Sweetwater and Big Spring the superintendent is apparently much more considerate of the poor traveling public. The Chamber of Commerce has protested, but protests have not accomplished much in the past. The people of Colorado have a right to believe they are entitled to the same consideration as patrons of the T. and P. of other towns in West Texas. Why they should be denied this service is mysterious to The Record.

ONCE HER CAMERAMAN— IS HER DIRECTOR NOW.

Philip E. Rosen and Betty Compson, respectively director and star of "The Bonded Woman," at the Palace Theatre, were associated in the making of "The Miracle Man," generally conceded to be one of the best three pictures ever made.

At that time, however, Mr. Rosen was a cameraman, and his skill with the lens ably seconded George Loane Tucker's artistic direction. He directed with other companies for a year or so before being assigned to Miss Compson's company. Miss Compson's role in "The Bonded Woman" is one of the best of her screen career.

ELECTION NOTICE

Be it Ordained by the City Council of the City of Colorado, Texas: That, a City election shall be held at the City Hall in the City of Colorado, Texas, on the first (1st) Tuesday in April A. D. 1923, the same being the Third (3rd) day of said month, for the purpose of electing a Mayor, three Aldermen and a City Secretary for said City of Colorado, Texas.

Every person who has attained the age of Twenty-one (21) years and who has resided within the limits of said City for Six (6) months preceding the date of said election and is a qualified voter under the laws of the State of Texas, shall be entitled to vote at said election, and,

Whereas, a petition duly signed by One Hundred and Thirty-two (132) property tax-paying, qualified voters of the city of Colorado, Texas petitioning the Honorable City Council to call an election for the purpose of determining whether or not the said City of Colorado, shall adopt the terms and accept the benefits of the General Paving Laws passed by the Thirty-first (31) Legislature of Texas, having been presented to the Council.

Therefore, it is hereby ordered by the City Council of the City of Colorado, Texas, that an election shall be held at the City Hall in the City of Colorado, Texas, on the Third (3) day of April A. D. 1923, at the same time the general election for City Officers is held, at which election the following proposition shall be submitted:

Shall the City Council of the City of Colorado, Texas, be authorized to adopt the terms and accept the benefits of the General Paving Laws passed by the Thirty-first (31) Legislature of Texas.

All voters who favor the adoption of the general paving law shall have written or printed upon their ballot, For the adoption of the General Paving Law passed by the Thirty-First Legislature of Texas.

All voters who oppose the adoption of the General Paving Law, shall have written or printed upon their ballot: Against the adoption of the General Paving Law passed by the Thirty-first Legislature of Texas.

Only qualified voters who are property taxpayers of said City shall be allowed to vote on said proposition.

The manner of holding said election shall be governed by the laws of the State of Texas, regulating general elections.

The following named persons are hereby appointed managers of said elections, to-wit:

- J. D. Harrell, presiding judge.
- A. A. Dorn, assistant judge.
- Jack Smith, clerk.
- E. M. Baldwin, clerk.

By order of the City Council passed and approved the 12th day of February A. D. 1923.

TEXAS & PACIFIC RY. RECEIVES NEW EQUIPMENT

According to Assistant General Passenger Agent O. B. Webb of that road, who was in Colorado Tuesday, the T. and P. has received the first eight of a large number of new locomotives ordered the latter part of 1922, these eight now being in Marshall shops, where they are being given the finishing touches before being placed in service. Additional engines are leaving the locomotive works every few days, and it is expected the entire consignment will be on the line by April 1st, these engines being among the largest and heaviest ever operated in the Southwest, the freight charges from the locomotive works to Texas amounting to approximately \$50,000.00, and only one Eastern line being able to handle them to St. Louis account clearance requirements, due to their enormous size.

According to Mr. Webb, these are all super-heated oil burners, the passenger engines being of the latest Pacific type, with locomotive booster attached to trailer—a recent invention giving increased starting and accelerating power; these being the first of this kind operated in Texas, and being capable of a speed of 60 miles an hour with 12 steel Pullmans. These Pacific type engines are

also equipped with locomotive feed-water heaters, the feed-water being heated by a portion of the steam exhaust formerly admitted to the atmosphere; resulting in increased efficiency of the boiler and a saving of fuel, water being supplied to the boiler at a much higher degree of temperature than now obtained by use of injectors. Total weight of engine and tender is 466,000 pounds tractive power, with booster, 49,885 pounds, length over all, 82 feet. The tender has a capacity of 9,000 gallons of water and 3,200 gallons of oil.

Wanda Hawley Some Driver

Playing opposite Wallace Reid in some of his "speed" comedy-dramas did a lot for Wanda Hawley. During the filming of "The Truthful Liar" showing at the Palace Theatre next Wednesday Miss Hawley drove her own car, accompanied only by her maid, from Kernville, where her company had been "on location" to Los Angeles. The road was sprinkled with perils in the forms of washouts, bogs, boulders and detours. Nevertheless Miss Hawley made the distance over two hundred miles, in ten hours.

"THE BONDED WOMAN" NO ORDINARY PICTURE

"The Bonded Woman," Betty Compton's latest Paramount picture, claims distinction by reason of the fact that it has two leading men, John Bowers and Richard Dix being the two contenders for the favor of the heroine.

In this adaptation by Albert Shelby LeVino of John Fleming Wilson's story, "The Salving of John Somers," the interest of the spectator as well as his sympathy for both men is said to be maintained to the very end by the uncertainty as to which one Angela Gaskell will eventually marry. Much of the action takes place on the sea and there are two shipwreck scenes.

John Bowers, who plays the role of John Somers, played opposite Mary Miles Minter in "A Cumberland Romance" and has had important roles in such successes as "The Silent Call" and "The Sky Pilot." He recently finished the leading role of John Ridd in Maurice Tourneur's "Lorna Doone."

Richard Dix, who is seen as the other man, is appearing in his first Paramount picture. After several years on the stage Mr. Dix entered pictures in "Not Guilty" and was later seen in "Dangerous Curve Ahead." Others who have prominent parts in "The Bonded Woman" which comes to the Palace Theatre next Thursday and Friday are Ethel Wales and J. Farrel MacDonald.

BARBER AND TAILOR SHOPS PASS TO NEW OWNERSHIP

The tailor shop operated by J. H. Greene and Company in connection with their gent's furnishing store, and Lee Bros. barber shop, located in the Masonic building, have been purchased by E. B. Smith and Floyd Quinney. The two will be consolidated and operated in the room now occupied by the barber shop.

Gareth Hughes in Business Romance

A husband who doubts his wife's intentions at every turn is responsible for the plot and action of the new Metro feature, "I Can Explain" in which Gareth Hughes will be seen at the Palace Theatre for two days starting Monday, March 12. It is a film version of the South American story, "Stay Home," by Edgar Franklin, which ran as a continued novel in the Argosy-All Story Magazine.

When pretty Dorothy Dawson sets out to invest her own money in her husband's business she invokes the aid of the junior partner, Jimmy Berry, of the firm of Dawson and Berry. But their secret meetings in arranging the transaction arouses the jealousy of her husband, Howard Dawson, and he makes Berry accompany him to South America in order to get him away from his wife. But this only makes matters worse and leads to some of the most hilarious, as well as stirring situations in many a day.

"I Can Explain" is a George D. Baker production for S-L, released by Metro. The cast appearing with Mr. Hughes includes Grace Darmond, Bartine Burkett, Victor (Slim) Potel, Nelson McDowell and Herbet Hayes.

REX BEACH NOVEL AT THE BEST THEATRE

Next Monday and Tuesday brings to the Best Theatre a very popular story of Rex Beach's "The Iron Trail." As would be inferred from the title, the play concerns life on the railroads. The local is in the Alaskan wilds and of course would not be complete without the Royal northwest mounted police. The efforts of the railroad promoter against his crooked rivals form some super-thrilling scenes.

BEALL SNEED FIGURES IN THIRD SHOOTING AFFRAY

J. B. Sneed, famous once as the figure in the Sneed-Boyce feud cases, resulting in the killing of J. D. Boyce at Fort Worth and Al Boyce at Amarillo, was arrested at Paducah Tuesday morning after he had shot and wounded C. B. Berry. Berry was under charge of murder in connection with the murder of Sneed's son-in-law, Wood Barton, which occurred at Paducah a few weeks ago.

Sneed is well known at Colorado, especially among local cattle men. The Billy ranch in Kent County, formerly controlled by Sneed, was recently leased by Marcus Snyder of Colorado.

"BIRTH OF A NATION" RETURNING TO BEST THEATRE.

An announcement made by the Best Theatre this week is to the effect that this greatest play of all time is returning to Colorado, March 19 and 20. Many people have already reserved seats for the great production, even from Sweetwater and Big Spring as Colorado is the only town in this section of the country where "Birth of a Nation" is to be presented.

UNION ITEMS

As I haven't seen anything from this community for some time I presume no one has sent in anything, so I will send in a light sketch this week.

The health in the community is as good as usual except Grand ma Dorn who has been quite sick for some time but is now improving and we hope to soon see her restored to her usual health.

The monotony of our quiet community was broken last Saturday night when it was noted that Re. Phelan of Childress, one of our former and much beloved pastors would preach for us at Union Sunday which he did much to the delight and satisfaction of a few appreciative hearers. The sermon and the crowd didn't correspond. The crowd was small but the sermon was a master piece of human thought, well expressed and forcibly and yet effectually delivered. He was accompanied by Mr. and Mrs. Arthur Dorn and youngest son, Phelan. They are always welcome visitors back at their old home.

I will talk a little about the weather. Eli is far advanced in age and never saw finer conditions for preparing the soil for crops and the farmers generally are well up with their farm work and lots of new land being put in for cultivation and we think the whole country is standing pat for the Tech school to be located in Mitchell county as it is surely the leading agricultural county in the West, although one of our sister counties claims to have all the coons up one tree. In fact there are no coon at all in that county. I think when it comes to realities old Mitchell county can deliver the goods. Mr. Editor, can't you see the boy scout master and find out if he will allow a 74 year old boy to join. I see in that institution a fine opening to eliminate the practice of tobacco and cigar habit among the boys of our country. If the rising generation are not the hope of our country wherein does our hopes lie? ELI

Four Reasons Why You Should Buy Your Ford Car This Month

I. The unprecedented demand for Ford Cars throughout the winter months has taken the entire output of the Ford plants working at capacity, indicating that the demand this Spring will be far in excess of the number of Ford Cars that can possibly be built.

II. January was the tenth consecutive month in which retail deliveries exceeded 100,000 Ford Cars and Trucks. Requirements for February, the month when preparations are already under way for Spring business, called for 148,407 Cars and Trucks—more than 24,000 in excess of the number we can possibly produce.

III. Ford dealers in many parts of the country are already finding it necessary to specify future delivery dates on Ford Products because there are no reserve stocks to draw from.

IV. Your order placed now will protect you against delay or disappointment later on—it is the only way you can be assured of reasonable prompt delivery.

We consider it important to give you these facts, so that if you are planning to purchase a Ford Car, Truck or Tractor for use this Spring or Summer you can list your order at once and take advantage of our dealer's first opportunity to make delivery.

COMMISSIONERS' COURT TO RUSH CONSTRUCTION

Construction of the new Mitchell County court house is to be rushed, according to County Judge J. C. Hall who expects the building to be ready for use before the end of the year. Hall stated Tuesday that David S. Castle, architect, was busy drafting plans and specifications for the new building but that he, together with members of Commissioners' Court, were studying carefully every phase of the proposed new building in the hope of affording the public the best court house possible for the money invested.

The commissioners, in company with Hall and Castle, recently made an inspection of a number of court houses in West Texas, noting carefully the good features, as well as the bad ones, of each building. They inspected the Nolan County court house Friday while in Sweetwater to attend the West Texas jubilee.

"It will probably be April 1 before the court and the architect complete all preliminaries and are ready to advertise for construction bids," Hall stated. "We are working hard at the job, but at the same time working slowly and carefully in order to avoid mistakes. It is our determination to make the Mitchell County court house one that our citizenship may well be proud of."

Commissioners' Court is to be convened Monday in the regular March term. Discussion of plans and specifications of the court house is expected to take up much time of the session.

WESTBROOK ITEMS

P. M. Rawland was called to Ft. Worth on business last Saturday and returned Tuesday accompanied by Mr. Jackson and other operators with whom he is associated in the oil business.

It is reported by reliable authority that these operators will begin drilling a well in the near future northwest of Westbrook.

J. N. Stallings accompanied by his wife were in Ft. Worth a few days the first of the week.

The play given by home talent last Saturday night was attended by a large crowd and the entertainment was a success in every particular. Receipts were near \$100, which shows that the people here are at all times ready to attend a good clean play and help Westbrook.

J. R. Bassett spent a few days in Stanton the first of the week with home folks.

George Jefferies of Dallas came in this morning to spend a few days with his wife and children.

LeRoy Gressett left last Monday for California to begin training with the team he has signed up with for the coming base ball season. LeRoy has made a success at base ball and is drawing a large salary this season.

Tipton Gressett also left for Van Couver to report to his Uncle Sam as he is in the service.

Bud Gressett has gone to San Antonio to assume his duties as catcher for the San Antonio base ball team. We feel sure he will make good this year as he has always done.

I. C. Oliver has been very sick for several days and underwent an operation Tuesday. We are told today he was resting very well. We hope to soon see him up and going again.

Miss Ester Leach of Big Spring spent the week with Miss Bernice Ramsey.

W. M. Garrison was called to Eastland to attend the bedside of his wife. He has returned and reports his wife much better.

Miss Elon McDonald of Loraine was home on a visit Sunday returned Monday to assume her duties as teacher.

The Sam Smartt well drilled by Mr. Sloan has been drilled in and is a good producer estimated at four or five hundred barrels per day.

Henry Riley returned from an extended trip to points in California and will be on the ground in the Westbrook oil field to watch developments from now on as he has acreage and tools here.

RECENT RAINS SHOW STREET PAVING NEED

The recent rains have served to demonstrate most forcibly the need of paving in the business district, according to scores of local citizens. For several days the main streets of Colorado were topped with several inches of mud, making traffic difficult. Those to note the bad condition of the streets more than others, perhaps, were pedestrians negotiating the mud.

Water collecting in the vicinity of Second and Walnut streets does not drain off because of the topography of the gutters, which have no drainage and in most instances are clogged with paper and other refuse, causing water to collect in places several inches in depth. Reconstruction of the street level to allow proper drainage, and storm sewer connections would eliminate this trouble.

The citizens of Colorado are becoming more interested in the proposed paving as the election to determine whether provisions of the general paving laws of Texas shall be adopted approaches. It is believed that an overwhelming majority will be pooled in favor of the provisions in the election April 3. Adoption of this law would authorize the city to negotiate paving contracts in the business district, making assessments of approximately two thirds of the cost against abutting property. The payments would be extended over a period of five years.

There is higher priced Auto Oil, but none better than Supreme XXX handled by all leading garages.

There is little exciting news in the way of oil development this week as the coming of another rainy spell has caused the roads to the oil fields to be all but impassable. There are interesting things brewing as representatives of big oil companies are quietly visiting the field and are giving out no information. In view of the fact that these companies already have representatives here to report development it appears as though the higher officials are planning to decide on a development campaign.—Big Spring Herald.

WHY SUFFER SO?

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Colorado people recommend Doan's Kidney Pills. Ask your neighbor. Could you ask for stronger proof of merit?

Mrs. G. W. Donaldson, Concho street, Colorado, says: "A few years ago I was troubled with sharp pains in my back and when I did any hard work it affected my kidneys. I had such nervous spells that the least thing would irritate me. I had sleepless nights and I was annoyed by the irregular action of my kidneys. When morning came, I had a terrible drowsy feeling and no ambition to do anything. I am pleased to say that since I have been a user of Doan's Kidney Pills, the trouble has passed away."

JUBILEE NOTES FROM SWEETWATER REPORTER

Mascots were very much in evidence Friday. San Angelo had a big woolly Rambouillet ram whom the governor honored by having his picture taken with it. Then Big Spring brought a donkey, which was promptly captured by the Star-Telegram circulation man. Colorado had their diminutive, but big booster Roy Farmer in uniform and also a small Shetland pony.

Credit for the largest delegation in line is probably due to Colorado. W. S. Cooper, secretary of the Chamber of Commerce said there were 800 people in line. It looked like it. Snyder had about 400, Angelo and Lubbock about 250 each, with Lubbock possibly more, and 125 from Plainview. Big Spring claimed 300.

The parade of more than 5,000 school children and Boy Scouts led by Dr. P. C. Coleman on a spirited roan horse and the massed Colorado-Sweetwater Booster bands was easily one of the leading features of the day. More than 12 blocks long, it made a most impressive spectacle indeed, and reflects great credit on J. Stone Rives and the teachers and others in charge. Boy Scouts from Plainview, San Angelo and other points, as well as the school children from Mitchell, Fisher and other counties surrounding Nolan County.

A \$100 SOW

On Friday last Mr. H. C. Bristow at Cuthbert received here by express a fine Poland China sow weighing exactly 500 pounds. The sow was ordered by Mr. Dulin for Mr. Bristow and he was as proud of her as a man could be. Mr. Bristow stated that she was worth one hundred dollars.

WEST TEXAS CONFERENCE CLOSES TUESDAY EVENING

(BY REV. M. C. BISHOP)

There was held in Colorado at the Baptist Church on Monday and Tuesday of this week one of the greatest conferences of its kind ever held in this section of Texas. This conference was organized some two years ago and was held last fall at Stamford. The attendance this time was remarkable considering sickness and bad weather. Some of the outstanding men of the denomination were present. The regular program was carried out, as was published in last week's issue of the Record. Many of the scheduled speakers were absent but others took their places on the program. Dr. E. W. Vining of Dallas, our general enlistment man, was with us from first to last and brot us some great messages. His message on "The Budget Plan of Financing the Kingdom" was very fine and we all felt we should follow God's plan of financing His kingdom. He spoke again on "God's time is Man's Opportunity," which showed to us we could do all things when we are doing the right things. He said this generation should do the conquering and let the next generation do the developing.

Dr. E. C. Routh, editor of the Baptist Standard, spoke once. Showed that four things are necessary in the Christian service. Zeal, knowledge, consecration and concern. He used the first two verses of 10th Chapter of Romans as a text. His message was simply great because of its simplicity. Dr. Routh is recognized as one of the great religious editors of the South. He is a great preacher as well as editor. He often fills Dr. Truett's pulpit in Dallas.

Our own field secretary, Rev. Jeff Davis, of Abilene, was with us and was considered as the head of the conference. While others presided, he was the power behind the throne. He brought us a fine message on "Some Present Needs." Davis is a good preacher and is doing a good work as field man for this great Western section of Texas.

President J. D. Sandefer of Abilene, brought us one of his humorous, practical common sense messages. Dr. Sandefer is one of the outstanding laymen of Texas. Abilene regards him as one of the really great men of Texas. He is in constant demand as a speaker on many different occasions. He fills pulpits, delivers educational addresses and sometimes takes the stump in politics. Those who missed hearing him missed a rare treat. We are planning to have him again sometime soon to speak to our men.

The other speakers were too many to name in detail but will say each one on the program brought a good, helpful message. The laymen's meeting was good. Mr. O. B. Webb, assistant general passenger agent of the Texas and Pacific railway brought us a soul stirring message on "Doing the Work of the Lord," and showed how that we should be at the job all the time winning men to Christ. Many comments were heard about this speech. It did good.

Judge Rosser of Snyder gave us some helpful words on financing the kingdom. Our own J. H. Greene presided and made some timely observations concerning the laymen's place and work in the kingdom. He believes men should do something in the church as well as the women of the church.

There were seven Associations represented. In all there were more than 60 visitors. All seemed to have enjoyed the time spent in Colorado. The fellowship was great. It is good to come together from the different parts of the field and discuss our problems together.

We saved the women's part to the last of the report but not the least by any means. We were all keenly disappointed because the women from the field were not more in attendance. The leaders were in Ft. Worth at a meeting. The conflict was not known when this program was made out. But we all felt, after the women held their meeting and heard Mrs. Morrison and Mrs. Beckett of Big Springs speak that we were well paid for our disappointment. Mrs. Morrison is one of our really great women workers and brought a fine paper. Mrs. Beckett was a substitute but made good in a fine way. The brethren helped out in the program. We were disappointed because Dr. Pender of Abilene, failed to arrive and speak to us. His smiling, cheerful face, helps us all to behold it at our meetings. A Brother Winsett of Ranger a new recruit to the Baptist forces from another denomination, was with us and warmed us on evangelism. He had just closed a fine meeting in Big

Spring. Evangelist Baucom of Abilene was with us and helped in the music. We are all helped. The High school orchestra rendered some fine music for us.

It is fine to have an orchestra like this in any town. They make good music and should be encouraged in every way. They are always willing to play for church or other occasions. Here is an invitation to them to come and be with us again. The next meeting will be held at Abilene in connection with Simmons College. A program committee was appointed to arrange the program.

and her condition was much better.

"We have lived here, near Jennings, for 25 years, and now we have our own home in town. I have had to work pretty hard, as this country wasn't built up, and it made it hard for us.

"I WISH I could tell weak women of Cardui—the medicine that helped give me the strength to go on and do my work."

WITH THE CHURCHES

AT THE METHODIST CHURCH

The Sunday school superintendent should practice what he preaches in advocating that Methodists be prompt in attending the school. He failed to put in an appearance last Sunday for some unexplained reason. The place was well filled by that good fellow, G. D. Foster.

Rev. W. A. Smith, pastor of our church at Midland, filled the pulpit at each of the two services for the day. He preached two excellent sermons and the special music was greatly appreciated. Next Sunday Rev. R. A. Stewart, the presiding elder, will preach at 11 o'clock and 7:30. At 3 in the afternoon he will hold the second quarterly conference. Come to Sunday school and church next Sunday.

THE PRESBYTERIAN CHURCH

Sunday school at 9:45 a. m. J. M. Thomas, superintendent. Classes for all ages. Come. Several of our Sunday school people have been absent for a few Sundays. This ought not to be, this ought not to be. Come next Sunday. We would like to have a 100 per cent attendance.

Worship and sermon at 11 a. m. and 7:30 p. m.

We had fine services both morning and evening. Some of the members were not there. Come next Sunday.

Christian Endeavor at 3:30 p. m. Our society of Christian Endeavor is growing.

Sunday school at Horns school house every Sunday after noon at 3:30 o'clock. Jerold Riordan, superintendent. All the people in the community are cordially invited.

W. M. ELLIOTT, Pastor.

SUNDAY WITH THE BAPTISTS

We hereby summons you to appear at the First Baptist church, Colorado, Texas, at 9:45 o'clock on next Sunday morning for the purpose of studying the law of God, and also to remain for the 11 hour to hear the pastor deliver a charge to the laymen. The law of God requires that men, women and children shall appear at the house of worship on the Sabbath day. Whenever this law is violated the violator is punished according to the gravity of the offense. The Bible says: "Man, thou are without excuse." Of course, the women will come if the men will bring them. What is Sunday for if not to attend church? Come out next Sunday at both hours. Visitors are always received joyfully. Make this your church while in our city. Growing better in every way, day by day.

M. C. BISHOP.

FIRST CHRISTIAN CHURCH

We had good attendance last Sunday, although it was a cold day. Our men's class at the Palace Theatre increased 50 per cent. Also the entire school showed a material increase.

Do not forget the time of opening the Bible school 10 a. m. We were pleased to have the state field secretary, Jack Hupperty of Dallas, with us Monday. He is always a welcome visitor. He was helping to arrange for the coming district convention to be held in this church. We extend a sincere invitation to all to attend the morning and evening services. We begin at 11 in the morning and 7:30 in the evening.

D. R. HARDISON.

ALL SAINTS' MISSION

Reverend F. B. Eteson, priest in charge.

Church school every Sunday morning at 9:45 a. m. with J. B. Reese, supt. On Friday, March 9, there will be the following services:

Evening prayer and address 7:30

There will be no services save Church school, on March 11, as the rector will be in Big Spring. He will be with us on March 18th.

The Woman's Auxiliary will meet every Thursday afternoon at 3:30 to study Lenten study. "The Program Presented."

COOKING ROOSTERS

Some body brought Bill Kellis at Sterling City an old rooster and paid on subscription to his paper and Bill gives the following receipt how to cook him:

Take a rooster about seven years old and chop his head off with an ax. Don't try to kill him with a gun, for this can't be done in time to cook him. After your rooster is dead, pull the feathers out with a claw hammer. After you have cleaned him put him in a kettle of cold water and set on stove to boil. The next step is to get a ten-pound rock and place on the rooster to keep him in the pot. Boil until the rock becomes tender, which will be a sure sign that your rooster is ready to serve.

"DON'T GO HOG WILD ON COTTON," OFFICIAL SAYS

Texas Commissioner of Agriculture sends the following to The Record for publication:

Texas produces nearly one-tenth of the agricultural wealth of the Nation. Agriculture is the basis of this wealth, and it must be placed upon an enduring foundation, and made to pay, or poverty and bankruptcy will follow.

The soil is the basis of agriculture and must be preserved in order to sustain human life and perpetuate civilization. It can only be preserved by correct methods of farming, and by making farming pay. Good farming and good prices will make farming pay and insure business prosperity.

Stop erosion or washing of the soil by terracing, ditching and proper plowing; return as much plant food to the soil each year as the growing crops take out by planting legumes to put nitrogen in the soil; and by plowing under green crops to add humus to the soil; make good crops by enriching the soil and by proper cultivation.

You cannot plant legumes with cotton, but you can plant them with corn and on oat land after the oats are harvested. Be sure to raise enough feed crops to supply the farm, and the local markets. The last census report shows that Texas is spending \$60,000,000 a year for feed. It is not good farming to raise cotton to buy feed. Raise the feed, good live stock, and poultry and build up the soil.

All successful farmers grow their living at home, keep out of debt, and make cotton a surplus crop.

Diversified farming encourages self-reliance, prompts independence, and insures prosperity.

I am aware that cotton is the main money crop, but not the only money crop. Fruits, vegetables, live stock, poultry, eggs, and dairy products bring money, and help to make the cotton bring more money, and to keep that money in the locality where it is produced.

The surplus cotton is now used up and a crop of 11,000,000 bales this year ought to bring 25 or 30 cents a pound, but a crop of 12,000,000 or 13,000,000 bales might reduce the price below the cost of production, because the farmers are not properly organized or financed to make a big crop bring its real value.

While the writer was in Sweetwater last Friday we ran across our old boyhood friend, Tom Neill, who now lives at Trent. Thirty-five years ago Tom Neill and this scribe courted the same girl and stole water melons together. Tom was always considered uglier than we so we nearly always won his girl at the country dances and tag parties. Mr. Neill now lives at Trent in Nolan county and has grown quite wealthy, is an ex-county commissioner of Sweetwater and has out distanced writer in every way.

Rev. D. R. Hardison returned Thursday night from Sweetwater where he attended a West Texas conference of the Christian church Wednesday and Thursday of last week. Hardison acted as chairman of the sessions.

PROMINENT VISITORS IN CITY FOR CONFERENCE

Among the prominent visitors in Colorado Tuesday to attend the West Texas Baptist conference were O. B. Webb of Dallas, assistant general passenger agent for the Texas and Pacific; Editor Routh of the Baptist Standard, Dallas, and Judge M. E. Rosser of Snyder. They paid a visit to The Record office Tuesday afternoon and expressed surprise at finding such a modern and well equipped newspaper and commercial printing plant here.

Webb is past president of the Dallas Lions Club and stated that he had often heard of the club at Colorado. "From reports reaching me,

the Colorado Lions are doing big things," he said, "and I plan to pay them a visit before long. There is nothing I enjoy more than the roar of an active organization of lions."

COLEMAN GIVEN PEN USED BY GOV. NEFF

With a fitting address, Hon. A. B. Spencer of Crosbyton, president of the West Texas Chamber of Commerce, gave to Dr. P. C. Coleman one of the pens used by Governor Neff in signing the Texas School of Technology, the presentation taking place at the jubilee banquet at the Hotel Wright at Sweetwater Friday night. He also gave pens to Col. Louis J. Wortham, president of the Fort Worth Star-Telegram, and the Governor. The pen given Col. Wortham was another used by Neff in signing the bill, while the one presented the governor was to take the place of the ones he used.

As President Spencer delivered his address, praising the statesmanship of the three men thus honored, the applause became so great as to drown out any attempt he could make to speak for several minutes. The people of West Texas attending the jubilee demonstrated the appreciation of the services of Dr. Coleman in his fight for the school and his name was on the lips of thousands throughout the day.

Resolution of Respect

In the hour of deep sorrow occasioned by the sad death of our beloved member, Mrs. A. J. Coe, we, the members of the Woman's Christian Missionary Society and the Ladies Aid of the First Christian church, Colorado, Texas, desire to express our appreciation of her life and service and extend our sympathy to the family deprived of its wife and mother.

Therefore, be it resolved that we commend them to the care of the Heavenly Father and that a copy of these resolutions be sent to the family and furnished the Christian Courier and Colorado Record for publication and recorded in the minutes of these organizations.

Colorado Convention City May 4-5-6

It was definitely decided at a rally held at the Christian church last Monday night by Jack Huppertz, field secretary of Christian Endeavor in Texas, that the convention of Abilene district Christian Endeavor would be held here May 4-5-6. There was quite a number of members from the Epworth League present at the rally and Mr. Huppertz was delighted with the splendid spirit of friendliness existing between the two societies. He says that people from all parts of Abilene District are expecting great things of Colorado, therefore, we cannot fail them.

Colorado is being put on the map as a live wire in several ways; as a farming country, as an oil town, then why not as a Christian Endeavor town? Christian Endeavor in all the ways you can apply it. With the help of our friends; the Epworth League, the C. E. Societies of the Presbyterian church and the good citizens of Colorado, we believe we can make this a convention long to be remembered.

LEGION'S OFFICIAL PICTURE ON DISPLAY AT COLORADO

"Never Alone," the official picture of the American Legion was shown at the Colorado Drug Store from last Saturday to Wednesday evening. This masterpiece was painted by Peter Plotkin, one of the country's foremost artists. Prints have been taken of this painting and the proceeds derived therefrom will go to the American Legion. The painting is valued at \$50,000.

The American Legion picture committee has exclusive charge of this picture and is taking it all over the United States for exhibition purposes as well as giving the people of the country an opportunity to purchase copies of this masterpiece.

Everybody in Colorado and vicinity who were unable to get a print while the original painting was here can obtain one by sending fifty cents to the American Legion Picture Committee, Los Angeles, California, or H. L. Hutchinson, this city.

CENTER OF TEXAS GEOGRAPHICALLY NORTH OF BRADY.

Denton, March 8.—The number of people who can offhand give the geographical center of the state of Texas is undoubtedly a limited one. It is significant that this bit of information is contained in few libraries of the state.

Dr. F. M. Bralley, president of the College of Industrial Arts, had occasion recently to make use of the geographical center of Texas in work which he was compiling. Diligent search of the college library failed to reveal the information, even though the heads of departments were called to aid in the search.

In Austin, soon after, the president called at the state library in order to consult authoritative source of information, but his trouble availed him nothing. No one knew. Dr. Bralley, former state superintendent of schools, is well acquainted in the state departments, and there came to his mind an individual who in the past possessed a ready answer to all similar questions.

He was J. Walker, chief clerk of the land office, and—he knew. The geographical center of Texas is on a ranch about twenty miles northeast of Brady, in McCulloch county. Mr. Walker recalled the fact to mind instantly by virtue of the discussion waged years ago over the location of the Sattre University.

The mystery of Russian Women

Men who have traveled far say there is about the women of Russia a strange, baffling, indefinable charm.

Nara Alexieff, the heroine of Richard Washburn Child's novel, possesses this mysterious characteristic to a remarkable degree, and the conflict of her spirit with the stark brutality of revolution and pitiless intrigue makes an amazing romance.

Clara Kimball Young in
The Hands of Nara

Presented by Harry Garson

To the Ladies' Aid, the Church Supper Committee, the Cake Sale Committee and a Few Others

THIS newspaper is always ready to help you in every legitimate way. It stands for everything that is good in this community and it supports it liberally. BUT—it has only two sources of revenue—ADVERTISING and SUBSCRIPTIONS. Now when you send in a notice that there is going to be a rummage sale, a cake sale, or an entertainment for your benefit on a certain day at a certain place and the price of tickets is so much, it is pure advertising. That's why you send it to the newspaper. You want to advertise it to the people.

For years newspapers have been giving these notices to you free. Oftentimes these notices actually cost the newspapers from one to two dollars. Do you know that it costs at least \$4 just to set a column of news? That is just the composition. It does not include the cost of putting it in the forms, making up, printing, etc. And yet for years you have been asking the papers to give you this space free.

Do you know of any business that is giving things away free these days? Go down to the drug store and try to get an ice cream soda free just because you belong to some organization.

If the editor comes around to your sale you expect him to pay good old gold dollars for his ticket, his supper or his cake, don't you? And he has to pay that same kind of gold to the men in his office. They expect it on Saturday night. When you get something for nothing it is not generally appreciated. We don't say that is true in this case, but it is certain that the newspapers have for years been giving away their space free.

And it MUST stop. The printing business has been hard hit. While newspaper has come down a little in cost, it is still higher than before the war. Wages have gone up and hours per week have been shortened. Machinery has doubled and trebled in price.

It must be confessed that newspapers haven't for a long time been conducted on good business lines. It's the editor's fault. He doesn't blame anybody else. But since the war he has learned a few things. He knows that everything has gone up, and what's more, he has learned that his creditors expect him to pay his bills promptly and with real money. He has also learned that he is entitled to a living wage, the same as his men. He has been compelled to do business in a businesslike way.

It certainly isn't business to give your product away free. No other business does it, so why should a newspaper? This newspaper is willing to co-operate and help, and it will give a moderate amount of free publicity to entertainments and suppers providing advertising space is purchased. It's fair, isn't it? Put yourself in our place. You expect a full return for every ticket you sell. Why shouldn't an editor expect full return for his advertising space?

Think it over. We know that it is only necessary for our readers to peruse this little talk to see the justice of our contention. So in the future please don't ask us to insert such notices free, but pay for advertising space the same as you expect the people to pay for your tickets to your affairs.

In ALL fairness—look at it from both sides.
