### **COLORADO SCHOOLS ARE** PRAISED BY SUPERVISOR

Since the report sent us by the rado will take much pleasure in foot wall. reading this report.

E. FRANK KING, Supt. The report received from the department is as follows:

tate the transfer of students to any other school or college.

The regulations as prescribed by this committee are administered by the state department of education through high school supervisors. In the visits of the supervisors and in their reports to school authorities recommendations are offered in the spirit of co-operation and helpful suggestion, with the earnest desire dary education in Texas.

In order that the school may be end, the supervisor who recently visited your school makes the following recommendations:

1. That the Colorado public school be commended on the orderliness and good class work of the children and the cleanliness of the buildings.

fountains and toilets have been in- able records of progress. for a Cheikering grand piano.

3. That, if the Colorado Public Schools are to continue doing the same high class work, at least three other teachers should be added to the elementary grades. It is in these grades that the foundation is laid, and, in order that it may be laid well, the trustees should not only employ the best teachers available, but enough to limit the pupils per teacher to forty, preferably thirty, in num-

tained. A school continually change in Colorado for the meeting. ing teachers because of inadequate salaries is not very apt to progress as it should.

5. That the departmental system of teaching be adopted in the grammar school grades. It is the opinion of the surjeringendent, the supervisor, and others who are familiar They are: with this system, that it enables both teachers and pupils to do far better work than it is possible for them to do under the old system.

6. That new shades be provided Junior where necessary.

TEACHERS EXAMINATION COLORADO MAY 4 AND 5

Announcement was made at the office of Judge J. C. Hall Wednesday that a teachers examination will be held in Colorado on Friday and Saturday, May 4th and 5th. It was announced some time ago that no examinations would be held in May but the State Superintendent has had so many applications that it has been decided to hold the examination May 4 and 5th.

KNOW YOUR TALENT

THE first requisite in the life of the youthful, is to know his or her natural talent so that it may be intelligently developed and turned to profitable account.

Find the hole in which your peg fits without wabbling and keep it there. Do not move from pillar to post in quest of another, and you will enjoy more of what makes life valuable, glad as the years swing by that you have held firmly to your original intention.

Most of the failures in this work aday world are due to inefficiency, caused generally by shifting from one station to another and the woeful lack of fixed effort in the pursuit of a definite course.

#### IMPROVEMENTS ON THE TEXAS & PACIFIC RAILWAY

In addition to the big improvement work of ballasting the Texas Pacific track westward from Sweetwater a number of other improvements are now under way on the Rio Grande division. The large electrically operated turntable is now being installed at the T. & P. shops at El Paso. This work will be completed by June 1st at which time the work of installing a similar turntable at the shops in this city will be begun. After the installation of the Big Spring turntable one will be installed at Toyah.

These turntables are one hundred feet long, sufficient to accommodate the big engines now in use, and weighing one hundred and ten tons each.

Steel tanks with a capacity of 170,000 gallons each are now being installed at Monohans and Loraine to enable a larger supply of water to be available for the locomotives.

The work of drilling a test well seven hundred feet deep near the big spring is now progressing. Drilling on the first well started had to be stopped when the casing collapsed at about 285 feet. This well will be completed at that depth as it is said to be one of the best wells yet secured by the company-Big Spring Herald.

# Ford Weekly Rurchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership.

During the past fifteen years over 7,5000,000 Ford cars have been placed in the hands of retail customers—more than a million and a half of them within the past twelve months—and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford.

And now the way is open.

La lorda :

Under the terms of this plan you can selecct your Ford Car, set aside a small amount each week and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in one of the local banks where it will draw interest.

Think it over. Five dollars will start an account. The whole family can participate in it-father, mother, brothers and sisters each doing a little.

Why not start today. Stop in and talk it over with your local Ford dealer, He will be glad to fully explain the details of the plan and help you to get started toward the ownership of a Ford car.

Washington.-Charges that the fortune of more than \$800,000 which Charles Garland of Boston refuseds to accept as an inheritance from his father is being used to "bring together an interlocking network of: pacifist and revolutionary organizations of more or less extreme character," were made in a public statement by Samuel Gompers, president of the American Federation of La-

Along with the statement, Mr. Gompers made public a letter from the American Fund for Public Service, Inc., to which Mr. Garland turned over the bulk of his wealth, refusing to contribute to the Workers' Education Bureau, a labor federation organization, because the bureau was "not definitely committed to a radical program," in the way of "carrying on the struggle for the emancipation of their class in every sphere."

An investigation of the Garland fund, Mr. Gompers said, has served "to reveal to some slight extent the ramifications of revolutionary propaganda and revolutionary influence in the United States," and to link the American Fund for Public Service, Inc., with perhaps fifty or more of the leading pacifist, pro-Bolshevist and parlor pink organica-

Six Cities in Convention Race And Deficit is Cut to Three Hundred

Washington.-Preliminary discussion relative to the 1924 convention city of the Republican party, together with the making of plans to wipe out the remainder of the deficit incurred by the Republicans in the 1920 campaign and a survey of the general political situation constitute the outstanding developments of a series of conferences with Republican leaders concluded here by Fred-W. Upham, treasurer of the Republican National Committee.

Participants in the conferences with Mr. Upham included John T. Adams, chairman of the Republican committee, who returned to Washington after a trip abroad; Secre taries Weeks and Davis, Rush L. Holland, Assistant Attorney General, and others prominent in the councils of the party. Mr. Upham, during his two-day stay in the capital, also has had two conferences with President Harding.

From some of those who saw the Republican treasurer have develop-

That consideration now is being given to six cities, Chicago, Kansas City, San Francisco, Cleveland, Washington and Buffalo as the site for the 1924 convention.

That the deficit of approximately \$1,700,000 resulting from the 1920 campaign has been reduced to about \$200,000, and that steps have been taken which it is hoped by party leaders will wipe it out completely by June 1.

That party leaders expect that the fortunes of the Republican party in 1924 may turn largely on the general business conditions obtaining during the next nineteen months.

#### NEED MORE LOVE

TF THERE were more love in the world there would be less danger of war of every kind.

International difficulties could be avolded if all men loved God and followed His teaching. Industrial strife also would answer its death knell if every employer and employee followed the golden rule.

The principal of the school, Peter Mannicke, declares:

"Love of neighbor spreads its influnce over national boundaries. "Love of God towers above all dif-

ferences between peoples.' If one believes these assertions as we hope every one will-is he not bound to admit that the churches are devoting too much time to current worldly problems and too little to

#### HOW LONG TO STAY

AN INVITATION to have luncheon with a friend or to attend a formal luncheon is not an invitation to spend the entire afternoon. At least, in smart society nowadays, it is not considered necessary to remain more than a quarter of an hour after the meal has been concluded, nor is it courteous to remain more than three-quarters of an hour unless the hostess has especially requested her guests to do so. It may be that the hostess has some other social engagement for the afternoon, She may have calls to make or a tea to attend. If she is a busy woman, with professional or household duties to atyou to linger. In fact, sometimes busy folk invite their acquaintances to luncheon because, since they must take | time to lunch anyway, they lose no time that way. So usually, unless the hostess expects you to leave shortly after luncheon, she indicates this in her invitation. If she is giving a formal luncheon she indicates that there will be music or cards or something of that sort after luncheon. Otherwise it 

But except among persons with very crowded engagement books a dinner invitation means the entire evening. That is, in fashtonable society dinner guests usually remain until nearly eleven o'clock or later. It certainly is not very flattering to any one to hurry away from a dinner engagement to the theater or a dance when the meal has just been concluded. If a dauce occurs the same evening it is possible to "drop in" following the dinner but it would be far better to

abrupt in leaving the dinner party. Now, for folks who are not in so called fashionable society a lot depends on the habits and mode of livpersons who entertain. In certain suburban sections where it is taken for granted that most of the men have to catch early trains in the morning it is customary and in good form to leave after a dinner party fairly early. should always try to learn the custom in this matter as it is extremely bedtime of the persons who are entertaining you. Casual evening callers ought to be especially careful to leave

THE MEN'S BIBLE CLASS

The class reached a high mark in attendance, interest and enthusiasm Sunday at the Palace Theatre. 90 men present. A great class. "Pep and enthusiasm," remarked one man, are our first names."

Next Sunday arrangements will be made for special music. Don't miss it. We will help you and you can help the other fellow while you are getting a great benefit yourself. Get the other man and be there at 9:45 Sunday morning.

The Ford Sedan is accepted everywhere as the car for the family. A convenient car to drive, comfortable to ride in and it affords so much pleasure at such low cost that its use is practically universal.

Finer upholstery, adjustable window regulators and refinements in chassis construction have built up quality and yet the price has never been so low.

The demands for this car are so great that delay may prevent your getting delivery. List your order now. A small down payment-the balance on easy terms.

Ford prices have mover been so low Ford quality has nover been so high
