

### MITCHELL FAIR ASSN. TO INCORPORATE FOR \$20,000

Capitalization of the Mitchell County Fair Association was placed at \$20,000.00 by provisions of a resolution passed by the board of directors Thursday afternoon of last week, and shares of the proposed corporation which are to be placed on sale within the next few days will be of the par value of \$5.00 each. The directors designated the amount of capital stock after considerable discussion as to costs of purchasing grounds and making necessary improvements thereon.

A committee composed of J. H. Greene, Colorado; J. J. Ridens, Lorraine, E. C. Danner, Westbrook, W. C. Hooks, Buford, and U. D. Wulfjen, Colorado, was named to represent the association in purchasing the new fair grounds. This committee was authorized to select the grounds and consummate purchase of same.

J. J. Ridens of Lorraine, member of the directorate, in addressing the meeting, paid a tribute to the people of Mitchell County for the progressive initiative they have always taken in supporting programs for the advancement of the general interests of the county, and gave the prediction that the fair association would be a big success from the very start.

"The Mitchell County fair is not an institution to be fostered and claimed by the people of Colorado, but by every citizen of Mitchell County," Ridens stated. "Lorraine and the citizenship of that part of the county, those of the Westbrook section, and in every other part of our county, will actively support the fair or a fair and as their part will in building one of the very best fairs in West Texas."

The fair association will foster an annual queen's contest, the proceeds from which will be applied to funds of the organization, it was determined at the meeting Thursday. This interesting event of the fair each year will be closed the first night of the fair, with elaborate ceremonies attending the crowning of the queen.

Thursday, Friday and Saturday, September 18, 19 and 20, were named as dates of the third annual fair. The president and secretary were directed to obtain major attractions for the three days. Among the improvements already tentatively planned for the fair grounds will be a large general exhibits building, race track and ball park. Other improvements are to be added from year to year.

It is believed that the association be truly representative of the entire county, effort will be made to induce as many citizens of the several rural districts as possible to actively support the organization and have a part in management of the same. Friendly rivalry between the several committees and clubs is expected to stimulate much interest among exhibitors at the fair from year to year.

Application for chapter will be filed as soon as the necessary amount of stock is sold, which is one half of the capitalization. Subscriptions to stock will be accepted within the next few days, when all preliminaries are worked out. An order passed by the board Thursday prohibits any member of the directorate from accepting a commission on stock sales in the corporation.

### JONES COUNTY VOTES ROAD BONDS RATIO 25 TO 1

Citizens in the Anson precinct in Jones county voted a road bond issue at the ratio of 25 to 1 in an election Saturday. The issue was for \$200,000, to be paid by the State and Federal government in building a hard surfaced road across the county from east to west, passing through Anson.

### BUFORD FARMERS GUESTS OF LIONS CLUB FRIDAY

The Lions Club recently adopted the policy of entertaining a few citizens of rural districts at the weekly luncheons and last Friday a few citizens of the Buford and Long-bell communities met with the club. Friday of this week citizens of the Buford community have been invited to meet with the club.

### GOVERNOR NEFF WILL OPEN WOMAN'S MEET

Governor Pat Neff has accepted invitation to attend the Sixth District Federation of Woman's clubs convention, to open here April 10 for a session of three days, and will deliver the principal opening address of the convention. Confirmation that the governor would attend was received by Mrs. H. B. Broadus, member of the Mitchell County Federation, the first of the week.

Other prominent speakers, including women of national recognition in federation club work, are scheduled to attend the convention and deliver addresses. The Mitchell County federation, embracing 13 affiliated clubs, are working hard on plans for the meeting and believe the Colorado convention will be one of the largest and best ever held in the district.

It is announced that the sessions will be held in the new American Legion Memorial building, now nearing completion.

### COLORADO SPIRIT PRAISED BY T. & P. SUPERINTENDANT

A. E. Pistole of Big Spring, divisional superintendent of the Texas & Pacific railway, spent several hours in Colorado Tuesday on business. Mr. Pistole was profuse in his praise of the progressive programs being carried out by the citizenship of Colorado, speaking especially of the street paving and white way.

Mr. Pistole is co-operating with the city and civic organizations here in beautifying Tee Pee park, adjoining the passenger station on the east, and was here on business in that connection. He has furnished trees to be set out in the park and will furnish labor to care for the grounds. The city is furnishing water to the park.

### COLORADO BANKS OBSERVE TEXAS INDEPENDENCE DAY

The banks of Colorado were closed Monday in recognition of Texas Independence day, March 2, which fell this year on Sunday.

### AIR PRESSURE RUNNING DRILL AT CAREY TEST

Wellbore No. 1 of Humphreys & Carey, near Ira, is attracting considerable interest among the oil fraternity because of the strong air pocket picked up the first of the week. At a depth between 1,000 and 1,100 feet the crew opened one of the strongest air pockets yet found in the field. The pressure is estimated by J. F. Carey, who is drilling the test, at 2,000,000 feet. At any rate the pressure is strong enough to operate the string of tools with ease and air is being used to run the engine instead of steam.

Formation in the test is excellent, Carey stated while here Tuesday. He anticipates a good producer at this location, which is several miles from producing territory controlled by the Sloan and California interests.

### ASSESSOR FINDS MANY NEW HOMES IN COUNTY

Roy E. Warren, county tax assessor, stated Monday that he was finding scores and scores of new homes, in both town and country, as he is making his annual visit to property owners for the purpose of taking renditions of property for taxation. The number of new names to be added to the tax list this year will be larger than for many years. Warren had completed taking all renditions of property west of the Colorado river and expected to complete the list by May 1st.

### MITCHELL COUNTY BEST COUNTRY GEORGIAN FOUND

Messrs. G. A. Story and J. B. Story, brothers and recently of Atlanta, Ga., have located in Colorado and will become identified with the Cooper Chevrolet Company. G. A. Story stated Friday that they had traveled from Atlanta overland to California and return to Colorado and that this was the best country they had found.

The Storys will be in charge of an automobile repair station at the Cooper Chevrolet Company.

### VOTERS PLEDGING SUPPORT \$325,000.00 ROAD BONDS

As the campaign to vote \$325,000 in road bonds progresses, it develops that a number of voters who opposed the proposed bond issue voted down December 18th, will support the second attempt to finance permanent improvement to the Bankhead highway across the county. This is leading those who are actively supporting the campaign to believe the issue, to be voted upon March 22, will be authorized by a large vote.

The \$325,000 issue is especially finding new supporters in the east end of the county, where today many of the leading citizens who opposed the previous cause are enthusiastic in their support of the present plan. A like condition has been found to develop in every part of the county. Some of these voters have supported the present plan since its inception, while others have only recently arrived at the determination that to vote the bonds and accept the State and Federal aid is the practical thing for Mitchell County to do.

Objection to the previous issue is found to have been based upon two outstanding features. One was the belief that the amount asked for was too much and would involve the county too heavily in bonded indebtedness. The other objection, as expressed by many citizens, was couched in the belief that the \$325,000, proposed for lateral road construction, would have represented money unwisely spent, in view of the fact a gravel road is of very short life, unless adequately maintained. Doubt was expressed that the county would be able to properly maintain the system of lateral roads to be improved with the \$325,000 provided for that purpose out of the previous issue.

Apparently these objections to the former issue have been eliminated by the present one. It is certain that the latter one, has since no part of the present proposed bond issue is to be expended for lateral road improvement. It is exclusively for the Bankhead highway. As to the later, the amount of bonds sought being one-half the amount voted upon before, the tax rate necessary to create a sinking fund and retire the bonds will subsequently be 36 cents, rather than the estimated 72 cents, as in the previous cause.

Those citizens who have changed their attitude on the bond question, as between the first issue and the present one, have done so after thorough investigation of the merits and demerits either angle of the question may present. To vote the bonds, the county automatically becomes eligible for State and Federal aid totaling \$650,000, twice the amount local property owners will authorize, making of the Bankhead highway one of the best and most permanent thoroughfares in the State, eliminating for years to come any additional expense as to upkeep. To defeat the bonds, means that the county will continue to pay its proportionate share for maintaining the State Highway Commission from year to year, thus contributing thousands of dollars annually for public road construction in those counties which do vote bonds and meet the requirements for aid allotment, and receive nothing in return.

For the year of 1923, Mitchell County contributed \$17,500 to the State Highway Commission. During the thirty year period over which the proposed bonds are to run, the county would pay into the treasury of this department the sum of \$525,000, based on the same ratio of annual payments as the amount paid this year. This is considerably more than the million dollar concrete highway, made possible through aid allotment of two for one, will cost the county.

With the Bankhead highway improved with a permanent topping, the county could then divert the road and bridge tax of thirty cents to building and maintenance of the lateral road system over the county. Under present property valuations, this tax will bring in an excess of \$19,000 annually, which sum will be sufficient to finance a good system of public roads within a few years.

### ROUTE BANKHEAD HIGHWAY PERMANENT DESIGNATION

There will be no change in the present designation of the route of the Bankhead Highway in eastern Mitchell County and very probably no other place, according to a communication received Wednesday by F. F. DuBose, assistant State bridge engineer, from John Focht, federal engineer in charge of Highway improvement in Nolan County. This information was given to offset the claims of some that the Bureau of Public Roads might divert the route east of Lorraine.

The communication from Mr. Focht follows:

"In regard to the location of Highway No. 1 in Nolan County, I wish to advise that a couple of weeks ago we had two State and two Federal engineers here to make a preliminary investigation of the highway through Nolan County, and while they were doing this they took into consideration location of the road in adjoining counties, namely, Taylor and Mitchell. As you can tell from the map, it looks as if the best line would be to run the road right along the T. & P. railroad, but one who knows the country can tell that this location is absolutely the wrong one, for there are several big lakes along this line. We took the engineers over this location and explained to them about the lakes, and they realized that it was not a feasible location. We then looked over the present location of the road, and they told me that under the circumstances the present road was the best location, even if it was a little longer than down the railroad, due to the decided difference in drainage.

"In accordance with this information, and in instructions from the State and Federal engineers, we have begun our location of the highway. Our Commissioner's Court decided to begin the work in our county at the Mitchell county line and come back towards Escobedo. So we took as our starting point the end of the gravel road in Mitchell county on what is now called the main road, about one mile south of the T. & P. and three miles east of Lorraine."

### MOTORISTS INSPECT NEW CHRYSLER HERE TUESDAY

The classrooms of Hubert Toler on Second street, distributor of the Maxwell, Chalmers and Chrysler automobiles, was visited by a number of motorists Tuesday afternoon and evening to attend the initial showing of the new Chrysler in Colorado. Three types of the car, coupe, sedan and four passenger coupe were on the floor and all received like praise by the visitors.

Hubert Toler came over from Sweetwater and was in personal charge of the showing. Miss Lucile Henthorne, formerly of Colorado, gave several vocal numbers and refreshments were served.

### MITCHELL RURAL ROADS BEST FOUND IN TEXAS

J. B. McClung, assistant supervisor, rural school division, State Department of Education, who was here recently to inspect the rural schools in this county, stated that he had visited more than 800 rural schools in the State during recent months and found the public road system in Mitchell county the best he had traveled over. The supervisor also praised the rural public school system of this county, declaring it to be one of the best he had found anywhere in the State.

### FALLING HORSE INJURES CITY MARSHAL HICKMAN

T. A. Hickman, city marshal, has been confined to his home this week recuperating from injuries sustained Sunday afternoon when his saddle horse stumbled and fell, throwing the officer to the ground with considerable force. He is expected to be out again in a few days.

### BLAZE TAKES \$4,000.00 DAMAGE HERE SAT.

Fire of undetermined origin took a toll of about \$4,000 in property loss here early Saturday morning in the Jas. T. Johnson building on Second street. The flames, which were discovered at four o'clock, are supposed to have been started from a coffee urn in Harris' Cafe, owned by J. B. Harris, who recently purchased the business from Walker & Costin and came to Colorado from Rising Star. Harris' loss to stock and equipment is placed at \$2,000, with no insurance. Damage to the building is estimated at \$2,000, covered with insurance.

The Elite Confectionery and J. A. Buchanan's office, on ground floor of the buildings, were damaged by smoke and water. Some damage was done to walls in rear of the confectionery by the flames which were spreading to the adjoining room when placed under control by the fire department.

The building will be repaired and Harris will open his business again within the near future. He has purchased the Elite Confectionery from E. C. Robinson and will consolidate the two places.

### ENTHUSIASTIC MEETING IS HELD BY P-T ASSOCIATION

The usual enthusiasm and co-operation for accomplishing big things for the city and community dominated the March meeting of the Parent-Teacher Association, held Tuesday afternoon at the High school auditorium. The attendance was good and reports of officials portrayed active work in all departments during the month of February. The Treasurer reported \$108.60 raised during the last thirty days, which placed the grand total at \$990.89.

The Association elected Mrs. Jack Smith as delegate to represent the organization at the Sixth District Federation of Woman's Clubs to meet here April 10th; Mrs. V. V. Chappaline was elected alternate.

### 2500 RABBITS SLAIN IN ONE DAY NEAR VINCENT

The rabbit population in Vincent community, 25 miles northwest of Colorado, is 2,500 less today than it was Tuesday morning.

Determined to rid the community of these pests, farmers from over the countryside, armed with shot guns and carrying an ample ammunition supply, met at Vincent Tuesday morning and opened an aggressive attack upon the bunnies, in reprisal of the damage they did to growing crops last Spring and a safeguard against further damage this season. At sunset when the barrage was stopped twenty-five hundred of the animals had been accounted for.

Farmers of the county suffered considerable loss to their crops last Spring from depredation by rabbits. On several farms from five to twenty-five acres of young cotton was literally destroyed. The declaration of war on the pests is apparent, by general the county over, as the drive at Vincent was the third within the last few days. The fourth is to be started at Cuthbert Tuesday.

### HERRINGTON BUILDING ON WALNUT BEING REMODELED

The A. J. Herrington building on Walnut street is being remodeled into an attractive business building, with new brick and plate glass front. The large structure will have three openings on the front and will add much to improvement of that part of the business district. For the present Herrington will continue to use the building as a warehouse.

### CITY COUNCIL EXPECTED TO PASS BEGGING LAW

An important act of the city council, which is to be convened Monday in regular session, is expected in passage of the proposed law regulating begging within the corporate limits of the city. City Manager Costin is of the belief the proposed measure, which has recently been written and passed by the city attorney, will be adopted without opposition.

### BIG DEVELOPMENT SEEN BY ACTIVITY IN OIL FIELD

With the one new location reported this week, the total definite locations and uncompleted wells in the oil field is placed at 18, the largest number since development was started in the county four years ago. Several of these wells are near completion and will be added to the producer line up at an early date. Tentative location for additional tests in the field have been made and are expected to be announced within the week.

Chal Daniel, discoverer of the El Dorado field and who drilled LeSure No. 1 near Westbrook two years ago, has returned to Mitchell County after spending several months developing his holdings in the Smackover field, and will develop his holdings in Mitchell County. Daniel has made location for test on the W. D. Keynard subdivision of Section 15, Block 28, T. & P. Ry. Co. survey, and rig timbers have been unloaded on the ground. The Daniel location is immediately north of the Miller lease controlled by the Sloan and California Company interests.

Smartt No. 3, of the Sloan Oil Company will be spudded Saturday. D. J. Lewis contractor who will drill the test, stated Thursday morning. Lewis expected to complete stringing his tools and be ready to fire up today. Smartt No. 4, to be drilled by George Riener, and Smartt No. 5, to be drilled by Fred Childs for Sloan will be spudded at an early date.

J. F. Carey is drilling around 2-100 feet in Morrison No. 1 of Carey et al, and has the hole in excellent condition. Formation in this test is favorable, leading Carey to anticipate a good producer. He is drilling below 1,100 feet at Wellbore No. 1 of the Humphreys-Carey test on the Wellbore lease near Ira. This sector is scheduled for a thorough test by the Humphreys, Carey and Lee-Tex. Corporation interests and all of them are optimistic in the belief good production will be found north of the river.

M. E. Eddleman is shipping in tools for his Gist No. 1, three miles north of Colorado. Rig is up at this location.

Smartt No. 2 of the Sloan Oil Company is being put on pump and production turned into pipe line of the Rio Grande Pipe Line Company. Local offices of the company reported Thursday morning that the well was probably good for 200 barrels daily.

The California Company reports activities at seven of their wells in the field, with three uncompleted tests standing. Crews are drilling at three tests, pulling tubing at one, on a fishing job at another, underreaming at still another and rigging up to clean out the hole at one location. At Morrison No. 2 the crew is drilling at 2925 feet, at 2305 at Adams No. 5, and 2260 at LeSure No. 2. Tubing is being pulled from Morrison No. 4 at 3030 feet. Morrison No. 5 is standing cemented at 2850 feet. The crew at Miller No. 2 is fishing at 2960 feet.

At Butler No. 1 the crew is underreaming at 1566 feet. Abrams No. 3 is standing cemented at 3075 feet. Abrams No. 4, rigging up to clean out at 3111 feet.

The California Company is progressing with erection of oil well supply house at Westbrook. The company recently purchased 14 acres adjoining the townsite as location for depot and yards to furnish supplies for development of their holdings in the field.

### 45 RATTLES CAPTURED IN ONE DEN ON RIVER BANK

Nelson Vaughan and C. C. Pritchett captured forty-five rattle snakes out of one den on the Colorado River one day this week. Most of the reptiles were dispatched with guns, while others were captured alive.

According to G. D. Foster, director general of the Mitchell County Interscholastic League, the meet here soon will be of unusual interest. Scores of the rural schools are making big preparation to participate in both the field and literary events.

MITCHELL COUNTY PRAISED BY AGRICULTURAL EXPERT

Mitchell County is among the leading agricultural countries of West Texas, in point of quality and quantity produced, according to B. M.

Whitaker of Haskell, exhibit manager, West Texas Chamber of Commerce, who was in Colorado Thursday and Friday of last week on official business. Whitaker stated that his organization would send West Texas agricultural exhibits to a large number of the larger state fairs this fall and that he expected to collect a part of the products from this county.

Whitaker urged that this county send another exhibit to the State Fair at Dallas this year. "Your county certainly made a creditable showing at the Dallas Fair last fall," he stated "especially since that was your first attempt there. From the experience you have had together with the fine quality of farm, orchard and garden products grown by the farmers here, there is no reason why Mitchell County should not collect and show another creditable exhibit."

While here Whitaker conferred with H. L. Atkins, county agent, Miss Sealy, home demonstration agent, and officials of the Chamber of Commerce as to best methods to use in making selection of specimens for agricultural exhibits.

The visitor was a guest at the Lions Club at noon Friday and delivered an address upon the value of good roads to the county.

MRS. TOM BUCKNER DIES AT LAMESA, BURIED HERE

Mrs. Tom Buckner died at Lamesa Thursday afternoon and the body was buried at L. O. O. F. cemetery near Colorado Friday afternoon. Mr. and Mrs. Buckner formerly lived in Colorado, he having employment at the Cozy Cafe. They left here to make their home at Lamesa only a few weeks ago.

She was a daughter of G. W. Williams of Seven Wells community. Funeral services were conducted by Rev. M. C. Bishop, pastor of the First Baptist church.

THE BOY SCOUTS

The Second Sunday in February was given toward emphasizing the Boy Scout movement in America. Fourteen years ago it was launched. It has meant much for the betterment of the boys. A Scout master has a great opportunity in dealing with these young possibilities. They are impressing the ideals of Americanism on them in a fine way. They teach them to reverence God and old age.

32 BUSINESS CONCERNS TO HONOR BAND TRIP COUPONS

Thirty-two merchants and business concerns of Colorado have signed contract to co-operate in raising funds with which to finance proposed trip of the Colorado Booster Band to the Northwest this summer, which means that the excursion is assured. It was stated Tuesday that others were expected to enter the agreement to honor coupons on cash purchases and account payments.

The plan, as accepted by the thirty two concerns who have entered the co-operative plan, is to accept coupons in lieu of cash on cash purchases and account payments. The coupons, which were printed this week, are to be sold the general public at the par value of 5 cents each and will be honored by any one of the business men or corporations affected. The coupons are good on account payments only when bills are paid on or before the tenth of the month. Funds realized through sale of the coupons will be credited to the excursion fund.

A list of those entering the agreement to honor the coupons, as furnished The Record, follows:

- W. L. Doss, J. M. White & Co., Wines Dry Goods Co., F. M. Burns Dry Goods Co., E. H. Hurd, C. E. Jackson, Colorado Drug Co., City Market, C. M. Adams, J. H. Greene & Co., Cooper Chevrolet Co., A. J. Herrington, J. Riordan Co., Rockwell Bros. & Co., Price Bros., J. A. Pickens, Whipkey Printing Co., Hughes & Dorn, Klasy Kleaner, Colorado Bargain House, Berry-Fee Lumber Co., Dodge Garage, J. P. Majors, J. L. Pidgeon, Chero-Cola Bottling Co., S. L. Majors, Pond & Merritt, H. C. Doss, H. B. Broadbent & Son, J. L. Doss, Coca-Cola Bottling Co., R. L. Spalding.

Since the coupons will be accepted by those business men in lieu of cash or on account at face value, they will, in effect, cost the customer nothing. Instead of paying 100 cents on the dollar when making a cash purchase, or paying an account, the customer pays 95 cents in cash and 5 cents in coupons. A drive to sell the required number of coupon books will be inaugurated this week.

A committee composed of J. H. Greene, J. Lee Jones, Ed Jones, J. L. Pidgeon and M. S. Goldman is directing the sale of coupons and other preliminary arrangements for the trip.

The Cooper Chevrolet Co., and A. J. Herrington, are not to honor the coupons on car sales. The Whipkey Printing Co. is not to honor coupons on advertising account, but will on job printing and other sales from the office. J. P. Majors and S. L. Majors, jewelers entering the contract, will not honor the coupons on repair bills.

"THERE IS NO SUBSTITUTE FOR SAFETY"

Weak Nervous

"I was weak and nervous and run-down," writes Mrs. Edith Sellers, of 466 N. 21st St., East St. Louis, Ill. "I couldn't sleep nights, I was so restless. I felt tired and not in condition to do my work. I would have such pains in my stomach that I was afraid I would get down in bed. . . My mother came to see me and suggested that I use

CARDUI The Woman's Tonic

I felt better after my first bottle. I had a better appetite. It seemed to strengthen and build me up. I am so glad to recommend Cardui for what it did for me. I haven't needed any medicine since I took Cardui, and I am feeling fine."

Nervousness, restlessness, sleeplessness—these symptoms so often are the result of a weak, run-down condition, and may develop more seriously if not treated in time.

If you are nervous and run-down, or suffering from some womanly weakness, take Cardui.

Ford

\$490

ONE TON TRUCK

A complete Ford Truck with all-steel body and cab CHASSIS ONLY, \$370.00 Prices f. o. b. Detroit

The new Ford all-steel body and weather-proof cab on the Ford worm-drive chassis makes world's lowest priced complete one-ton truck.

A New Ford Steel Truck Body

The Ford Motor Company announces the production of a new all-steel body and steel weather-proof cab, mounted on the famous Ford one-ton worm-drive chassis, forming a complete haulage unit at the remarkably low price of \$490.

Steel flare boards and end gate with sockets permit the use of stakes and high side boards or the mounting of a canopy top.

making the body readily adaptable for general use. Screen sides and end doors may easily be installed.

This new body, built of heavy sheet steel strongly reinforced and riveted, is designed to stand up under the most severe usage. Loading space is four feet by seven feet two inches.

The weather-proof cab is fitted with removable, door-opening curtains.

HOW LARGE A COTTON ACREAGE BE PLANTED

The one problem of absorbing interest to Southern farmers is the outlook for the cotton crop of 1924. There seems to be a general belief that a large acreage will be planted. A decided increase in the price has almost always resulted in an increased acreage. In fact, this result can be counted on without fail under normal conditions. We planted the largest acreage in our history in 1923, but had the spring been favorable for cotton planting the acreage would have been much larger. It is probable that under favorable weather conditions the acreage planted in 1923 would have reached 40,000,000 acres. This increase along the northern border of the Cotton Belt, where boll weevils have done but little damage, would have been very much greater and there would also have been a larger increase in the old Cotton Belt had the weather been favorable for early planting.

But it is claimed by some that a shortage of labor and the difficulty of securing the necessary money for making the 1924 cotton crop will counteract the influence of high prices and hold the 1924 acreage to not more than that planted in 1923.

We believe the unfavorable weather conditions in the spring of 1923 had a much larger influence in reducing the acreage planted than will the shortage of labor and money in 1924. That is, if the spring of 1924 is favorable for planting, we believe the acreage planted to cotton will be greater than in 1923. We have ample labor to plant a larger acreage, although the shortage of labor may seriously interfere with the proper cultivation and the picking of a large crop. In other words, we have the labor to plant a larger acreage than we can properly cultivate and harvest. But in 1924 there is still another influence which will tend to keep down the cotton acreage in some sections. In those parts of the belt where a deficiency of feed crops were planted and the weevils were very destructive to the cotton there will be a disposition to plant more plunking to the limit on cotton. In these sections not so much cotton will be planted in 1924. Considering all the facts, including the urge to increase the acreage which always comes from high prices and also all the obstacles, including those mentioned and all others, we still look for as large a planting in 1924 as in 1923. And if the weather is favorable there will probably be a considerable increase in acreage.—The Progressive Farmer.

A WOMAN'S BACK

The Advice of This Colorado Woman is of Great Value.

Many a woman's back has many aches and pains.

Oftimes 'tis the kidneys' fault. That's why Doan's Pills are so effective.

Many Colorado women know this. Read what one has to say about it: Mrs. N. P. Beard, Colorado, says: "I use Doan's Pills right along when I do a little heavy housework. At such times I seem to get a catch in the small of my back and it causes me to feel tired and languid. I can always depend on Doan's Pills and just a few never fail to relieve me. I highly recommend this medicine to all my friends. Doan's have certainly proven to be a fine kidney remedy."

Price 60c, at all dealers. Don't simply ask for a kidney pill—get Doan's Pills—the same that Mrs. Beard had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. No2

Hotpoint HUGHES

SWEET POTATO BISCUIT

Hot and moist, sweet potato biscuits are a real treat. With a little butter and salt they are just what you need for a quick and easy snack. Use in sandwiches, soups and all occasions. Get them at once in your next grocery shopping.

No Time Wasted on a Hotpoint Hughes

Just place the food to be cooked in the oven. Set the thermometer at the desired cooking temperature and the pointers of the time control clock when cooking is to start and finish.

The range will do the rest. Just this one convenience has saved many hours during the day for American housewives all over the country. It can do the same for you.

There is a Hotpoint Hughes Electric Range designed for every household requirement. Come in at your convenience and let us demonstrate the one that suits you best.

If more convenient for you to telephone, then call us and we will send our demonstrator with prices, photographs and complete specifications. The advertisement is one of a series carrying a new recipe. They are valuable. Get them out and save for reference.

WEST TEXAS ELECTRIC COMPANY

**NOTICE OF ROAD BOND ELECTION**

The State of Texas  
County of Mitchell

To the resident property tax paying voters of Mitchell County, Texas

**TAKE NOTICE**—That an election will be held on the 22nd day of March, 1924, within Mitchell County, Texas, to determine if said County shall issue bonds and if a tax shall be levied in payment thereof, in obedience to an election order entered by the Commissioners Court, on the 11th day of February, 1924, which is as follows:

**BE IT REMEMBERED**, That on this the 11th day of February, 1924 the Commissioners Court of Mitchell County, Texas, convened in regular session, at the regular meeting place thereof, in the court house at Colorado, Texas, all members of the court, to-wit:

J. C. Hall, County Judge,  
U. D. Wulfjen, Commissioner of Precinct No. 1;

H. A. Lasseter, Commissioner of Precinct No. 2;

Jno. D. Lane, Commissioner of Precinct No. 3;

W. D. McAdams, Commissioner of Precinct No. 4;

being present, came on to be considered the petition of C. J. Martin and 110 other persons, praying that bonds be issued by said Mitchell County, Texas, in the sum of Three Hundred and Twenty-Five Thousand Dollars (\$325,000.00), bearing interest at the rate of not exceeding Five and One-half per cent (5½%) per annum, payable semi-annually, and the principal of said bonds to mature at such times as may be fixed by the Commissioners' Court serially or otherwise, not to exceed thirty (30) years from date thereof, for the purpose of constructing, maintaining and operating a concrete-paved Highway and Turnpike, running through said county from the Mitchell-Nolan county line to the Mitchell-Howard county line and known as the Bankhead Highway, or in aid thereof, in said County of Mitchell; and whether or not a tax shall be levied upon the property of Mitchell County subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity;

**AND IT APPEARING** to the Court that said petition is signed by more than fifty (50) of the resident property taxpaying voters of said Mitchell County, Texas, and

**IT FURTHER APPEARED** That the amount of bonds to be issued will not exceed one-fourth of the assessed valuation of the real property of said Mitchell County, Texas;

**IT IS THEREFORE CONSIDERED AND ORDERED** by the Court, that an election be held in said County, on the 22nd day of March, 1924, which is not less than thirty (30) days from the date of this order, to determine whether or not the bonds of said county shall be issued in the amount of Three Hundred and Twenty-Five Thousand Dollars (\$325,000.00) bearing interest at the rate of not exceeding five and One-half Per Cent (5½%) per annum, payable semi-annually, and the principal of said bonds to mature at such times as may be fixed by the Commissioners' Court, serially or otherwise, not to exceed thirty (30) years from the date thereof, for the purpose of constructing, maintaining and operating a Concrete paved highway and turnpike, running through said county from the Mitchell-Nolan county line to the Mitchell-Howard county line and known as the Bankhead Highway, or in aid thereof, in said county of Mitchell; and whether or not a tax shall be levied upon the property of Mitchell County subject to taxation, for the purpose of paying the

interest on said bonds and to provide a sinking fund for the redemption thereof at maturity.

The said election shall be held under the provisions of Article 627 to 641, inclusive, of Chapter 2, Title 18, Revised Statutes of 1911, as amended by Section 1, Chapter 203, Acts 1917 Regular Session.

All persons who are legally qualified voters of this state, and of this county, and who are resident property taxpayers in this county, shall be entitled to vote at said election, and all voters desiring to support the proposition to issue the bonds, shall have written or printed on their ballots, the words:

**"For the Issuance of Bonds and the Levying of the Tax in Payment thereof."**

And those opposed, shall have written or printed on their ballots the words:

**"Against the Issuance of Bonds and the Levying of the Tax in Payment thereof."**

For voting Precinct No. 1, held at Colorado, Texas, in the Court House thereof, A. A. Dorn, presiding judge.

For voting Precinct No. 2, held at the Methodist church in the town of Westbrook, J. C. Costin, presiding judge.

For voting Precinct No. 3, held at the school house at Spade, R. A. Hood, presiding judge.

For voting Precinct No. 4, held at Landers school house, W. E. Wimberly, presiding judge.

For voting Precinct No. 5, held at Bozeman's store in Cuthbert, W. C. Berry, presiding judge.

For voting Precinct No. 6, held at Car school house, G. W. Sweatt, presiding judge.

For voting Precinct No. 7, held at J. J. Riden's office in the town of Loraine, J. L. Pratt, presiding judge.

For voting Precinct No. 8, held at the store house in Iatan, E. B. Gregson, presiding judge.

For voting Precinct No. 9, held at the McKenzie school house, G. A. Brown, presiding judge.

For voting Precinct No. 10 held at the Buford school house, I. K. Gailey, presiding judge.

The manner of holding said election shall be governed by the general laws of the State of Texas regulating general elections, when not in conflict with the provisions of the Statutes hereinabove referred to.

Notice of said election shall be given by publication of a copy of this order in the Colorado Record and the Loraine Leader, newspapers published in the county, for four consecutive weeks before the date of said election, and in addition thereto, there shall be posted other copies of this order at three public places in the county, one of which shall be at the court house door, for three weeks prior to said election.

The county judge is hereby directed to cause such notices to be published and posted, as hereinabove directed, and further orders are reserved until the returns of said election are made by the duly authorized election officers, and received by the Court.

Given under my hand, with the Seal of the Commissioners' Court affixed, this the 11th day of February, 1924.

(L.S.) J. C. HALL  
County Judge Mitchell County, Texas. 314c

**NOTICE TO CONTRACTORS**

Sealed proposals addressed to J. C. Hall, county judge of Mitchell county, Texas, for the construction of paving the property owned by Mitchell County in Blocks 23 and 24 and fronting on Oak street, will be received at the office of the county judge until 10 o'clock a. m., March 19th, 1924, and then publicly opened and read. Detailed plans and specifications of the work may be seen for examination and information obtained at the office of the City Secretary, City Hall, Colorado, Texas. 3-14c

J. C. HALL, County Judge

**OIL NEWS CLIPPED FROM EXCHANGES OF THIS VICINITY**

**BIG LAKE, Texas.**—A million dollars will be spent by the California Company in development work on the Marathon fold during the current year, according to the latest reports. This company, it is understood, is a subsidiary of the Standard of California, and with a recent purchase now has leases along the fold in Terrell, Reagan, Crockett and Mitchell counties. A large amount of the production in the latter county is controlled by it.

The company's recent purchases in the Big Lake section consisted of 16 sections, 12 of which are located in Block 7, and consisting of Nos. 32, 33, 34 and 36. Sections 20 and 27, inclusive, Sections 13 and 14, in Block 8, were purchased for a consideration of \$7.50 an acre, this land being southwest from the producing territory of the Big Lake Oil Company. A section was also bought in Block 11.

A number of wells will be drilled in the near future by this company, it is reported, the first of which will be in Block 8. The Mid-Kansas and Texas companies are also very active in this field, they having checker-boarded both Reagan and Crockett counties. The geological staff of the Texas company is now in the field working on what appears to be a large structure south of here.

Chief interest continues, however, to be in the Shannon No. 1 well of the Crickett Drilling Syndicate, which is believed to be located on the apex of the Sheffield terrace. Considerable delay in the completion of this well has been caused by water trouble it being necessary to pull the eight-inch casing. A leaky joint of pipe is thought to be causing the trouble.

In the proven territory the Big Lake Oil Company has spudded in the No. 6 and is preparing to start drilling operations on the No. 7. These wells are located southwest of the discovery well. Derrick timbers for the 116-foot rotary derrick of the Wade Drilling Company are now on the lease and work will be started immediately.

Should this heavy type rotary be successful in cutting the hard formations, several more, it is expected, will be moved into this field to hasten the work. The rig will drill to 2,950 feet and the well completed with cable tools.—Fort Worth Record.

The fact that number 2 and number 3 of the Big Lake Oil Company are not pumping as much as the discovery well which is east of the last two wells drilled it seems to be more reasonable that production will come east; however, these wells seem to be on the increase, is the general opinion of oil men who have constantly visited the three wells now producing. Both Nos. 2 and 3 seem to be on the west side of the huge structure which underlies this field. If this be true, then attention will be given the wells to be drilled in this direction, which will be nearer to Big Lake.

No. 2, according to reliable information received here late Thursday evening by parties who are on the scene of operations, is making around twenty barrels on the pump and No. 3, 800 feet due north of No. 2, is pumping about forty barrels. No. 1 or the discovery well is making 175 barrels every twenty-four hours.

No. 4, which is being drilled by Rhodes, is down about 900 feet. No. 5 is drilling at 800 feet. No. 6 will spud first of the week. No. 7 will be drilled by Carl G. Cromwell and will spud by the last of the week. Nos. 8, 9, and 10 will have derricks soon as material arrives at the siding. No. 10 will be drilled with a rotary.

The depth of the Shannon No. 1 as given out last week by this paper as being down 1000 feet is incorrect by error. This well is down near the pay sand, stated A. R. Goodsale, vice president of the Crockett Drilling Syndicate, who was here Thursday. The Massie No. 1 is coming along nicely, said Mr. Goodsale.—Big Lake News.

**Locations Made Near Westbrook.**

S. A. Sloan, president of the Sloan Oil Company, largest independent operator in Mitchell County, made a location for three new tests near Westbrook. The tests, to be known as Smart Nos. 3, 4 and 5, are on the Smart lease near Westbrook and directly in line between Smart No. 1 and Miller No. 1 of the Sloan interests. The later wells are among the largest producers in the field. Rig materials are being moved to the new location from Westbrook.

Location has been made for Gist No. 1, three miles north of Colorado, and rig materials are moving in. The Lou-Tex Corporation is making locations for two additional tests on its lease near Ira, twenty-five miles northeast of Colorado.—Big Spring Herald.

**In Sterling County.**  
Drilling at the Hull well, of the Fidelity Company, about sixteen

miles south of here, was resumed last Wednesday, and everything is now running smoothly. Leasing in the vicinity of this prospect is very active.

J. S. Meriwether, of the Co-Operative Lease & Development Company came in a few days ago and expects to begin erecting a new derrick over the McCarty well with a view to completing the prospect before the end of 1924.

Paul S. Edward, of the Chicago-Texas Oil & Gas Syndicate is expected to return in a few days to complete the Durham Well, 1½ miles south of Sterling City. It will be remembered that a fine showing of oil was encountered in this well from about 1443 to 1460, and it is believed by many oil operators that a commercial well could have been brought in at this depth. Floyd Dodson, the geologist who located the Durham well, predicted that a stratum of oil would be encountered around 1500 feet. His estimate was not far from correct. If we remember correctly, he also stated that another stratum of oil bearing matter would be encountered at about 2250 feet.

The Texas Company has secured a number of leases in this vicinity this week.—Sterling City News-

**In the Pecos Field.**

We understand that the pulling of tools from the Toyah Bell well will be made this morning. Everything is in readiness, and the management is most sanguine of success. Nothing has been overlooked that would in any way add to the success of the undertaking. All machinery and equipment has been gone over, the boiler placed in excellent condition, ample fuel and water on hand, besides several sockets of different styles on the ground, so that no delay will occur in the event of any one socket not being the proper size or kind to catch the pin in the tools about to be pulled.

Mr. Gallagher and competent and loyal crew have been as busy as beavers all week and have something to show for their efforts, but we believe that before this paper is off the press the Toyah Bell well will be relieved of all junk. Much success to the men in charge who are trying so hard to get an oil well for themselves and the community in general.

Very satisfactory progress has been made at the Bell well since the arrival of the car of new casing and the resumption of operations at this well.

The new casing received is of the

heavy California type with long collars, and should eliminate all further casing trouble at this well.

It is reported that Guy a Covey is making splendid progress in financing the Wheat well. Mr. Covey is working in Los Angeles, California. The prospects are said to be very good that the Wheat well will begin operations at an early date.

**SET THE FULL CENSUS.**

arch is the month for taking the

al statistical census and there

ld be more thought given this

ortant matter than evidently

s is. It has been charged in the

that some children were not en-

d on the census rolls in this

ty. The reason for obtaining a

census enrollment this year is

rtant from two angles. In the

place, every child properly en-

d means just that much more

ay to become available for pub-

school purposes in Mitchell Coun-

the State appropriation is

. In the second place, the offic-

ounty Superintendent is auto-

ally created when the county

ies the scholastic population of

, and there is no doubt but that

ber is eligible in Mitchell Coun-

his year. Co-operate with the

of officials and the census en-

erators. It is important that we

the full census.

**SUPPORT THE FAIR.**

rganization of the Mitchell Coun-

air Association into a corpora-

with capital stock sufficient to

ce the purchase of fair grounds

make adequate improvements

on is one of the most forward

taken by the citizenship of

all County in some time. The

ination to build here one of

st county fairs in the country

by any means a Colorado pro-

it one supported just as lib-

enthusiastically by the

of Loraine, Westbrook and

l sections as it is at Colo-

soon as necessary prelimi-

out of the way, the direc-

place the capitalization

file application for in-

. That the citizenship of

will give the whole pro-

full support, both in the

ion of stock and in moral

is evidenced by the enthusi-

it of the representative

rom over the county who

be official and directorate

I should—and will—have

ch every citizen may well

Support the Mitchell Coun-

association. Its success can

but another big asset in

the success of the coun-

**LLY CHATTER.**

Week Record one of the

metropolitan dailies which

championing the fight of

service man for adjusted

n legislation, character-

ti-bonus propagandist's

silly chatter, and sup-

im of the American Le-

men who fought for

a France at a salary of

y would not disgrace

hey accepted from the

government a bonus

dollar and a quarter

hey spent in their

ity service.

nce of a bonus for

is a disgrace a large

co, country's workers

at the end of every

that we enjoy. For

olve hundred employ-

it-Johnson shoe fac-

been paid a bonus of

ars each for their

ndicott-Johnson peo-

1923. No voice has

ignoring them not to

insinuating that

n people are

y offering it

to them.

If we use any rational methods

of comparison, the service which was

rendered by the four million men who

offered to give their lives if neces-

sary to their country—the service

which carried two million of these

men into the battlefields of France—

was incomparably greater and more

hazardous than was performed by the

twelve hundred employes of the

Endicott-Johnson shoe factories, who

spent their year of service comfort-

ably at home in the bosom of their

families, immune from all exception-

al dangers. Just why it is honorable

and right for the Endicott-Johnson

people to take their bonus and why it

is dishonorable and outrageous and

unpatriotic and pauperizing for the

American soldiers to take their bonus

is beyond the sweep of the average

American's comprehension.

It cannot be contended that the

nature of the service performed by

the shoe workers was of a higher

order or even that it had a greater

pecuniary value than the service per-

formed by the four million American

soldiers.

But for the victory won by the

American soldiers it is entirely con-

ceivable that there would be no pro-

fitable jobs and no fat bonuses this

year for the twelve hundred employes

of the Endicott-Johnson or for sev-

eral million other industrial workers

in this—happily—free and independ-

ent and sovereign country.

No man who is willing to face the

facts can contend that the shoe work-

ers made anything like as much mon-

ey for their employers as the Amer-

ican soldiers made for the profiteer-

s who stayed safely at home and

grew rich out of fat war contracts.

The financial results of Endicott-

Johnson, brilliant as they are, are

not to be compared with the rise of

the four hundred war millionaires in

those crucial years, 1917 and 1918.

But some one will say Endicott-John-

son can afford their bonuses and the

country cannot afford a bonus to the

soldiers without compromising our

finances and wrecking our prosper-

ity.

The national income of the people

of the United States is sixty thousand

million dollars a year. The total cost

of the proposed bonus would be fif-

teen hundred millions, equal to two

and one-half per cent of one year's

national income. Endicott-Johnson

would be ashamed to distribute so

small a proportion of their income as

a bonus.

If this sum is too large to pay in

one year out of government revenues,

we can raise the money by a bond

issue and distribute the payment over

ten, twenty or even sixty years.

Look at it in another way. The war

cost us an average of thirty-four

million dollars a day, and it was cost-

ing more than this at the end. If it

had lasted fifty days more we should

have spent for the purposes of slaugh-

ter the one and a half bil-

lion dollars which it is now proposed

to give the soldiers for making fur-

ther slaughter unnecessary.

**Sunday School Council Meeting.**

Tuesday evening the Methodist

Sunday School held its monthly

Council meeting at the church. The

devotional was conducted by J. H.

Basden who also discussed rules of

teaching. Mr. Winn told how he got

his class to study. Mrs. Van King,

what the Sunday School could ac-

complish. Mrs. Arnett, how I pre-

pare the lesson. The pastor urged

every teacher to attend the Training

School to be held in Sweetwater

next month. The meeting closed

with a round table on Class Problems

**Born.**

To Mr. and Mrs. Walter Whipkey

Tuesday morning, at the Baptist

Sanitarium in Dallas, a fine eight-lb

girl. It seems that the little lady

has come to stay and has been called

"Betty Lou. These young parents,

like all others before them, are just

as elated as though this was the

greatest event of the age. "Betty

Lou" will be at home to friends in

Colorado in a few weeks. The grand

parents, both here and at Big Spring

are anxious to welcome the little

visitor, and Walter writes that he

will be home in time to attend the

roaring lions in their Friday conclave

**LET US RAISE A STANDARD TO WHICH THE WISE AND HONEST CAN REPAIR**

—WASHINGTON—

(Copyright, W. N. U.)

**RELIGIOUS**

The Record has set aside this col-

umn to be filled each week by a

local writer or such matter as he

may select:

**The Bible the Word of God.**

From the Western Recorder:

The Bible is the Word of God. No

professing Christian should deny or

question that fact. All of it is His

Word. If a part of it is the Word and

a part is not the Word, then it is

left to man to decide which part is

the true Word of God and that bring

the whole book in question and

leaves us with nothing definite.

Those who wrote it claimed that it

was His Word, and the Christian

churches accept it as such. If the

Bible is not the Word of God, then

we have no revealed Word of God,

for no writing or writings have as

good claim to that distinction.

The Word of God was given by

inspiration. "For no prophecy ever

came by the will of man, but men

spoke from God being moved by the

Holy Spirit." It is a lack of Christian

faith to seriously question the in-

spiration of the Bible. If the Bible is

not inspired then it is not the re-

vealed word of God. No one could

claim that his statements were the

true word of God when they were

not inspired by God. "For who hath

known the mind of the Lord or who

hath been His counselor."

If it is not inspired, then it is

not infallible. If the Bible is the

work of uninspired men, it is not

infallible. The world has all the proof

it needs on that point. If it is not

inspired and infallible, it has no just

claim to authority.

If it is the inspired word of God,

then it is a divine revelation to man

It was given to reveal to man a

knowledge of God and man that he

could not acquire save through such

a revelation.

It is said that the book of nature

reveals God to man, but the concep-

tion that man gets of God through

nature is far short of that which he

gets through His revealed Word.

David said: "The heavens declare the

glory of God and the firmament

showeth His handiwork." The re-

vealed Word not only declares the

glory of God, but defines it so that

we have of it a definite knowledge,

and of His handiwork by His Word

we know of the nature, character and

purpose.

It is better to study nature with

a Bible knowledge of God than to

try to study God through nature with

out the revealed Word of God, and

a knowledge thereof.

Quite all that we learn of God

through nature, and of His dealings

and provisions made for man, apply

to man's physical and material needs,

His spiritual condition and needs

and the provisions that God has made

for him spiritually in this life and in

the life to come, are revealed to him

alone through God's inspired Word.

The Modernists so-called deny the

inspiration of the Bible with all that

means. They deny the Virgin Birth

of Christ and His Resurrection, and

consequently His divinity, with His

divine work for the souls of men.

In so doing they leave themselves

without a revelation from God to

give them light, and a savior to save

them from sin.

There is nothing new about the

belief and teachings of the so-called

Modernist. The same things have been

believed and taught by unbelievers

ever since man was made. The first

Modernist we have any account of

was the Devil. He rebelled and fell

and taught Adam and Eve his theory

of seeking the best end through

knowledge rather than through faith

in God. As a consequence of their

acceptance of his belief and their

disobedience to God, they were

turned out of the garden of Eden, and

all Modernists for the same reason

should be turned out of the churches

of God. It is a ridiculous and un-

called for situation that people who

do not believe in the essential fun-

damentals of the Christian religion

should belong to and want to domi-

nate the Christian churches.

The only new feature of Modern-

ism is that while they were formally

classed by themselves as unbelievers

and worked against the Christian

religion on the outside of the churches,

they now claim that their theories,

contrary to the teachings of the Bible

should be accepted and that they

should be allowed to live inside Chris-

tian churches and have the "liberty"

of holding and teaching their "point

of view," which they call a "gospel

of light."

What the world needs to-day is

not what the Modernist would call

a new gospel of light, but the preach-

ing of the Light of the gospel which

we are told "is the light to our feet

and the lamp to our pathway."

Men who teach evolution "as a

hypothesis" and thereby claim to ac-

count for the origin, development

and final end of man in a way con-

trary to the teaching of God's Word,

can be classed as unbelievers.

Whether they teach evolution as a

fact or as a hypothesis the result is

all the same. If they establish to their

satisfaction and the satisfaction of

their pupils facts that are not in

harmony with God's Word, they do

all that evolution claims to do and

such teaching is calculated to destroy

faith in the Bible.

The Bible is the Word of God and

the Christian religion is based on

its teachings. Men who do not believe

the Bible are not Christians: "He

that believeth not God doth make

Him a liar because he believeth not

the record, that God gave of His

Son."

**THE POLITICAL SITUATION**

It seems today the greatest con-

cern among our political leaders is

to investigate. They spend a great

deal of their time in investigations.

When Mr. Bok would offer a prize

for the best plan by which the world

can have peace and only about 24,000

fellows tried to answer it, then a

jury, or set of judges decided one

fellow won above all the others, now

Congress is inclined to believe. Mr.

Bok had a sinister motive back of the

whole thing. It may be possible if

Mr. Bok's winner had not walked

so very close to Mr. Wilson's tracks

there would have been no need of an

investigation. But it seems the world

has a hard time in drifting away from

some of the main ideas Mr. Wilson

advocated about the way the world

is to obtain peace. It may be possible

that Mr. Wilson was far sighted

enough to see the ultimate outcome

of this seething mass of trouble. It

may be that America, after all, is to

be its brothers keeper. At any rate

Congress is going to investigate and

find out just what Mr. Bok meant

by being so liberal with his money

and so concerned about the peace of

the world.

Now comes one of the greatest

episodes in the history of our fair

nation, the Teapot Dome episode. We

like to have said "scandal" but we

are awaiting Congress' investigation.

Mr. Fall seems to have had an idea

he wanted both land and sea at his

command when Secretary. This epi-

sode has shaken the political world

in a way that no other incident has

in any nation. If any man seems at

all "oily" he is not popular timber

for President. It has shaken the cabi-

net as no other incident of recent

years has done. It is giving Mr. Cool-

idge both hands full.

The Republican party has had a

pretty hard time making the people

believe they were the folks that could

reduce expenses of the Government.

The Compensation Act for soldiers is

giving the Administration about all

they can handle. On top of that the

reduction of taxes is about as big a

problem as the bonus bill. Then the

Democrats are about to beat the Re-

publicans to the cut in the tax rate.

Mr. Garner's plan seems to be gain-

ing favor all around. So with about

all their time taken in investigations

with some very bad scandals raging

in the cabinet, with the Democrats

doing some on toward things, it is

a bad year for selecting a president.

There is another cloud rising on

the Southern horizon that gives the

political situation some concern. Tex-

as has never amounted to much in the

decision of line ups but some talk of

the endorsement of Gov. Neff by W.

J. Bryan would strengthen the South

in the realm of politics but when it

was announced that he would nomi-

nate the Florida candidate that upset

the thinking of many but now it

drops out that the Florida man will

not run, so again we are wondering

what stand William Jennings will

take in this matter. He is strong for

an all 'round dry candidate which

Gov. Neff has always been. At any

rate we are all waiting to see what

will occur in the different parties.

Should Mr. Cox come out boldly he

will be able to line up a strong wet

following. Mr. McAdoo will be able

to swing a strong labor vote. Mr.

Underwood wants all the dries and

the wets. He claims to be a strong

advocate for the 18th Amendment.

He was not very strong in putting it

over but says now he is for it, teeth

and toe-nail. There will be warm

times in the old towns later on when

it comes to settling down to one in

a hill of each party.

**FOREIGN IMMIGRATION.**

Congress is beginning to take them-

selves seriously about the fellow com-

ing over our way to vent his spleen

on our American institutions and

get our wealth and send it back to

his mother country. It seems that

some of the legislators think 3 per

cent of the present population is too

much to allow to come to our shores.

A recent survey shows that the ma-

jority of the crimes committed in

our large cities is committed by the

lower grade of foreigners. The great

per cent of boot legging done in

America is done by the lower grade

of foreigners. We have about 14,-

000,000 foreign born in America at

the present time. The following table

will give some idea of the mental

standing of these millions.

- Very superior mentally 1.1 per cent,
- or 156,128.
- Superior, mentally, 2.9 per cent,
- or 403,700.
- High average, mentally, 7.3 per

cent, or 1,016,211.

Average, mentally, 26.6 per cent,

or 3,702,904.

Low average, mentally, 16.5 per

cent, or 2,296,914.

Inferior, mentally, 30.8 per cent

or 4,287,573.

Very inferior, mentally, 14.8 per

cent, or 2,060,262.

Thus we have in America today

nearly one-half of our foreign born

population either inferior or very

inferior. The gates should be closed

tighter so that whatever population

we should get would be of a higher

order, especially mentally

**CRACKS IN THE RECORD**

By "The Colyumist"

You'll have a hard time now con-

vincing many Coloradoans that

Heaven with its golden streets is any

better than our Main drag.

'Jever think of this?

Southland is in North Texas.

Eastland is in West Texas.

West is in Central Texas.

And Center is in East Texas.

Another thing, Oswald, how could

you make a square meal off a round

steak?

**Willie and His Ma.**

Willie just as mean as heck

Cut off his little sister's neck

Ma said to Will, "You bet your life,

I'll spank you if you've dulled my

knife."

Willie went to Sunday school.

Didn't learn the golden rule,

Tore the Bible of the teacher

"A Holy Terror," Ma told the

preacher.

Willie driving our old flivver,

Backed off the bridge into the

river,

Ma cried, as he swam the current wild

"That's what you get, you back-

ward child."

Willie too bold for his age,

Stepped into a lion's cage;

Ma said to pa with scarce a frown,

"Just watch how quick the son

goes down."

By the way, did you ever hear a

stuttering man try to say Coca-

Cola?

Pete—Do you like Pung Chow?

Skeet—Never did eat any of the

stuff.

Since the correspondence matri-

monial agencies have come into

being, many a Country Gentleman has

been acquired as some Woman's

Home Companion by the use of the

Saturday Evening Post.

Mistakes will always come in life,

They're often due to haste,

As washing your teeth with shaving

cream,

Or shaving with Pepsodent paste.

Ad in paper—Try Our Velvet

Brand Shoes; you'll never get any

others.

Every cloud may have a silver

lining but we've seen many a negro

with gold teeth.

Someone has suggested that the

bricks in the old Courthouse are use-

less, but we think they would be the

Ladybug's Adams Apple when it

comes to filling those cisterns in

front of that edifice. What say?

- cent, or 1,016,211.
- Average, mentally, 26.6 per cent,
- or 3,702,904.
- Low average, mentally, 16.5 per
- cent, or 2,296,914.
- Inferior, mentally, 30.8 per cent
- or 4,287,573.
- Very inferior, mentally, 14.8 per
- cent, or 2,060,262.

Thus we have in America today

nearly one-half of our foreign born

population either inferior or very

inferior. The gates should be closed

tighter so that whatever population

we should get would be of a higher

order, especially mentally

Mc

Five Disc Wheels and Nash Self-Mounting Carrier, \$25 Additional

**A Matchless Investment!** At every 1924 Motor Show held to date this new low-priced Six Special Sedan has won highest praise. Its coachwork parallels that of costly custom-made bodies. Rich upholstery dignifies the interior. Deep seat cushions are softened by heavily-coiled steel springs. Companioning these substantial details is the Nash-perfected motor—silent, flexible, and powerfully responsive. *And*—the demand has outstripped production, so orders will be filled in rotation.

FOURS and SIXES

Models range from \$915 to \$2190, f. o. b. factory

THE DODGE GARAGE

TEXAS AND ITS POSSIBILITIES REVIEWED BY HEARST EDITOR

"Next to having the goods and being able to deliver them, Texas' most important step toward a greater future is to let the world know about it."

As A Rebuilder

and general conditioner there is nothing known superior to the revitalizing and invigorating effects of FORCE Tonic.

**Force Tonic**  
It Makes For Strength

B. C. Forbes, financial magazine editor and Hearst syndicate writer, thus carried out his promise of constructive criticism rather than bouquets of flattery in an address at Fort Worth.

"We of the North and East hear too much talk of boundaries that Texas possesses," the writer declared. "There are other things besides vastness of territories in this state—even besides its \$700,000,000 cotton crop—that would make a stronger appeal to the country at large."

"Texas is misunderstood by high finance and big business," he said. "The East still feels that yours is a state that does not welcome outside capital with open arms."

"I have found on this, my first trip to Texas, however, that the at-

titude of business men and bankers is distinctly favorable to incoming industries and capital.

"There is an infinite variety of new lines of business to be brought here if you will only advertise to the world your true attitude, and exercise the same initiative in Texas that has marked the advance here in the last half century.

"Men count for more than materials," he said. "No matter how vast an empire lies to the West, no matter the abundance of crops and the number of industries they will amount to nothing without the brain of man to develop them.

Forbes described the economic outlook of the world for 1924 as encouraging, as against the situation as he saw it a few months ago with a harboring of doubt. His present through the South has tended to convince him that 1924 is going to be a really satisfactory year.

"Money is the basis of all prosperity," he stated. "Here today in talking to a banker, I found that an order has just been received for \$100,000 worth of commercial paper. Texas already owns about one-fourth of the \$2,000,000,000 worth of commercial paper of the country making this state's possibility of prosperity distinctly bright."

Allowing that never is there a time in which all phases of industrial life are on the peak, the financial authority said the general conditions today are far from unfavorable. Labor is encouraging, agriculture is mixed, with most complaints greatly exaggerated; railroads are in their best period since pre-war times and steel, oil, building and packing are trending toward the better, Forbes told his listeners.

Louie Landau has just returned from a north stay in the markets in New York and says he bought the largest stock of goods ever brought to Colorado by an yfirm. Mr. Landau says he spent over three weeks in the market and surely bought some bargains. He was accompanied home by his uncle, H. Landau. Mr. H. Landau is a wholesale clothing merchant in San Francisco and met his nephew in New York by accident. Louie says 23 years ago his uncle brought him over from the old country and they had not met since that time. The senior Landau spent a week very pleasantly here and left Thursday night for his California home.

MODERNIST BIBLE ATTACK BY MINISTER OF COLORADO

The Associated Press dispatch, under date of March 1, emanating from New York and printed in the Sunday morning edition of the Dallas News, giving the information that the Rev. Charles Francis Potter, pastor of the West Side Unitarian church in that city proposed the publication of an "all American Bible," is characterized by Rev. J. E. Chase, pastor of the First Christian church here as information which shows the tendency of the "modernist" in his persistent attack upon the Word of God and the "faith once delivered unto the saints."

The dispatch in question follows: "An all-American Bible is proposed by the Rev. Charles Francis Potter, pastor of the West Side Unitarian church. He said Thursday that his modernist Bible class would hear the details at its first meeting next Sunday.

"Mr. Potter cites Abraham Lincoln as having fully as great a spiritual appeal as Jesus of Nazareth to the average American; Jane Adams in the new American Bible would replace Deborah as a leader against social wrongs; the writings of Washington, Adams and Jefferson, he declares, would be preserved as the American Pentateuch; Woodrow Wilson, he says, is the modern "Prince of Peace" and sacrificed his life in an attempt to induce his country to enter the League of Nations."

In giving his denouncement of the proposed plan to eliminate the Bible for a substitute work as outlined by the Unitarian minister, Rev. Mr. Chase stated:

"Eliminating whatever 'color' the press dispatches give to this latest offering from the 'Modernist camp,' one is driven to the conclusion that Christianity is being forced into the contest with a new version of infidelity. Protestant Christianity is dividing into two camps, the Fundamentalist and the Modernist, and the issue is being closely drawn between them. Notwithstanding the hesitancy on the part of many to take a determined stand one way or the other, the program of the modernist is driving all into one or the other of the two camps. The issue is narrowing itself into the same proposition announced by the 'Man of Galilee.' 'He that is not for me is against me, and whosoever gathereth not with me, scattereth abroad.'"

"So far as the writer's information reaches, no minister in Colorado is blighted with the 'Modernist' taint, and this is, and should be, a matter of profound satisfaction to the Christian forces in the city. And yet it is impossible for any one to view the contest even from afar with an attitude of neutrality. Sooner or later this evil leaven will be felt, if it is not already felt, and will be manifested and is being manifested in the attitude the men and women of Colorado assume toward the Church of our Lord Jesus Christ. A church that is alive and filled with the Holy Spirit will offer no welcome to such infamous and blasphemous utterances as are quoted above. It is only possible to announce such doctrine when the church is cold, indifferent and indolent.

"It is needless to say the All-American Bible mentioned above will never supplant the Bible of the Christian. Infidelity shall never destroy religious faith. But the battle rages and who is on the Lord's side? Can the Lord depend on you, brother sister? If so, you will be in your place at Church and Sunday school helping to win this fight. Dare you shirk? Are you a slacker? What answer shall we make to this challenge to our faith and loyalty? Let your actions and presence next Lord's day tell the story."

NEW MILLINERY

Ladies, our New Spring Millinery is arriving almost every day. We have a beautiful line of the newest creations, all the newest colors and materials. Have some of the original hats shown in the Dallas style show last week.

Mrs. B. F. Mills.

Phone J. A. Sadler for that Supreme XXX Auto Oil, none better. At all leading garages.

Lost, Strayed or Stolen.

One hundred lambs between the age of two and ten years. Two hundred sheep between the age of ten and sixty years. If found, please return to the Baptist Sunday school, every Sunday, 9:45 a. m. Ample reward to finder and good pasture for both lambs and sheep. Luke 19:10; Eccles. 4:9. Please report all found to Rev. M. C. Bishop or Jim Greene, N. B.—They are supposed to be wandering in the wilderness of No-Sunday school.

E. FRANK KING RE-ELECTED SUPERINTENDANT OF SCHOOLS

At the regular monthly meeting of the Colorado school board on Tuesday of last week the superintendent's report showed that 898 pupils had been enrolled this year.

The board re-elected superintendent E. F. King for the year 1924-25, and also voted him leave of absence for June and July in order that he might accept a place on the faculty of Sul Ross Teachers' College at Alpine for these two months. Mr. King is now serving his seventh year as superintendent of the Colorado schools.

The board ordered an election to be held on the first Saturday in April to elect three trustees to succeed Lee Jones, A. A. Dorn and Dr. C. L. Root, whose terms expire this year.

The scholastic census is to be taken this month and all persons should co-operate with the census enumerator to see that all children between the ages of seven and eighteen are enrolled.

ASTONISHES COLORADO

The QUICK action of buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, the appendicitis preventative, astonishes Colorado people. ONE teaspoonful of this remedy relieves sour stomach, gas and constipation AT ONCE. All leading druggists E-1

Coughs that hang on—

Break them now before they lead to more serious trouble. Dr. King's New Discovery stops coughing quickly by stimulating the mucous membranes to throw off clogging secretions. It has a pleasant taste. All druggists.

TEXAS

YOU HAVE AN ACHE OR PAIN OF ANY KIND?

Would you like to get relief and have the cause of your ailment removed by harmless natural means? If so, why go elsewhere for relief, when, at less cost, you can obtain in the City of Colorado, Texas, service second to none?

If your ailment is one of an old chronic character, then a reasonable period of time will be essential in perfecting the equation of things; however, if you have my attention for ten days in succession and you are not pleased, I will be glad to return every cent you shall have paid me. Be your own judge. Give nature a chance.

Though Satan may say, "Oh, not today"  
Spirit will whisper, "Do not Delay."

ly elected. Her name should have appeared in the official roster published in the Record last week.

WESTBROOK GIRL IS FIRST DUCHESS NAMED

BROWNWOOD, Feb. 28.—According to information received by the local Chamber of Commerce, Miss Irene Bledsoe of Westbrook, Mitchell County, has been elected Duchess of Westbrook to represent that town in the coronation of the King and Queen of West Texas at the West Texas Chamber of Commerce convention festivities to be held here during the convention May 13 to 15. Miss Bledsoe has the honor of being the first duchess to be selected for the event.

INFLUX OF SETTLERS TO WEST TEXAS GREATEST IN HISTORY

The influx of settlers into West Texas is the greatest movement of Americans since the colorful days of '49. Thousands of settlers are going into West Texas every month. They are trekking into that great section—the Panhandle, the Plains, the land below the Cap Rock—at the rate of 300 families or 900 persons daily. But there is plenty of room. There will be no crowding.

In this 1924 trek, which is truly an epic history in the making, there are no covered wagons nor armed, shaggy plainsmen leading them, nor Indian raiders, nor privations. Yet the romance, the adventure, the color, are all there.

One may pioneer in an automobile or a Pullman as readily as in a covered wagon. Kingsley's "Westward Ho" has been revised to "Texas Ho" from the hills of Iowa and the blaek prairies of the Dakotas; from the banks of the Wabash to old Suwanee River, they are coming with shouts of "On to Texas" and "Texas Ho." Yes, and the very same is heard in far away Manitoba and it echoes from the rocky farms of New England to the cane brakes of Louisiana. The call of West Texas lands has been heard. They are coming.

The West Texas Chamber of Commerce and the railroads, checking against each other, furnish the estimate of 300 new families a day going into West Texas, to that section between the Denver and Texas and Pacific railroads. Add another 100 families for the section south of the Texas and Pacific, which takes in the rich country of Brownwood, San Angelo, Coleman, Ballinger, Brady and trade territories.

At that rate, 400 families; averaging three to the family, you have a total of 500,000 a year. The daily average is increasing, but to be conservative, keep it at that figure. Five years hence West Texas will then have a population increase of more than 2,000,000. No wild, idle, boosting guess at the amount of traffic they handle.

The Santa Fe alone reports that it is emptying 2,000 immigrant cars monthly on the Plains, cars which contain household effects, household effects for people who come to stay, people who will stay and build up the country; a country which will respond to work and make them prosperous.

The other railroads report similar great increase in handling of immigrant cars and passenger traffic. Besides this the number going into the country by automobile and truck is estimated at one-third that handled by the railroads.

Where are they locating? Every where big ranches are being sliced up into small farms in the Panhandle South Plains, and below the Cap Rock and to these choice lands the "discov-

ers" are going.

Why do you know that only yesterday the natives in the Hinterland of New England, Wisconsin and California, too, really supposed that Texas was all Llano Estacado, whatever that is? Why do you know that Americanized Americans in some states, when they thought of Texas, pictured it with herds of longhorn steers, cowboys and Mexicans in the west and the sacred Alamo in the South? They knew that Sam Houston defeated Santa Anna and that Davy Crockett died in the Alamo. That was Texas to them. But secretaries of Chambers of Commerce, and wide awake citizens, sought to educate that belt between Vermont and Iowa and the inhabitants along the Wabash and Suwanee, that Sam Houston, Santa Anna, Davy Crockett and the long horned steers were all dead long ago, that there are fewer Mexicans in West Texas than in some northern states; that there isn't such a thing as a Llano Estacado, unless there is one in every other state. They sought to inculcate into the Vermont, Iowa, Indiana and Georgia brains that West Texas really was a fine agricultural country. Some pioneer farmers went out there and proved it. They proved that the cotton was of the finest quality, free from boll weevil; that its grains, fruits, vegetables and livestock were unexcelled.

Then it was that America discovered West Texas.

Settled up, the country will make a cotton crop worth \$400,000,000. In fact, when developed, West Texas easily will be the bread basket of America.

Much of this new settlement is due to the epidemic in the sale of large ranches throwing hundreds of thousands of acres on the market at low prices and reasonable terms.

The largest ranch recently put on the market is the Matador, consisting of nearly 300,000 acres and capable of raising 200,000 bales of cotton yearly, in addition to other crops. The farms made from it are to average 160 acres. A few months ago the Yellowhouse Land Company bought 120,000 acres of the J. P. White ranch for \$1,250,000, sold every acre of it to settlers, and followed by buying up all the remaining ranch and disposing of it in like manner. But only a few weeks ago this same concern bought 105,000 acres of the George Littlefield ranch, which will be sold in tracts of 160 acres. This ranch lies in Lamb and Hockley counties.

Soon 60,000 acres of the Capitol ranch will be put on the market by the State, this land being excellently adapted to agriculture, and the big ranch itself, now about the same size as the Matador, will be divided up this year. Once it had 3,000,000 acres

W. L. Ellwood of Lubbock expects to sell to farmers his 300,000 acre ranch, the Spade and the famous Spur ranch, owned by the Swensons is selling off piece by piece.

The Yellowhouse properties are located around Lubbock and with that city as a hub, immigrant cars are being poured in there by the Santa Fe at the rate of 50 daily.

One hesitates to predict the future of cities out here, which in the last 10 years, already have increased by leaps. Amarillo, 20,000, will experience no trouble in reaching the 30,000 goal in a few years. Lubbock and Plainview nearly the same size, now probably 6,000, probably will go to 10,000 in two years. Then there is Spur, Crosbyton, Stamford, Tulia, Lamesa, Taboka, Slaton, Seymour, Colorado, Sweetwater and all the other cities on the Denver and Texas & Pacific. All of them will give the 1930 census officials cause to sit up and take notice.

WHY NOT SNYDER ACQUIRE PERMANENT FAIR GROUNDS

Colorado is arranging for permanent fair grounds and buildings and will inaugurate a system of permanency in their annual county fairs. Why not Snyder and Scurry county follow the lead of Colorado and Mitchell county in these matters? Scurry county is one of the foremost important counties in West Texas and Snyder is very important as its capitol. County fairs are of old English origin, and have been handed down to us along with many of the Anglo-Saxon traditions. They promote a healthy community spirit and are a splendid means of advertising. Here neighbors meet in annual reunions and the country people get closer together and know each other better. Here we exploit our resources and let the world know of our many advantages.

The Times favors taking hold of the fair situation in the right way. Buy a plot of ground, erect permanent buildings and put on our fairs annually in the best possible manner. What say you, Scurry county people? —Scurry County Times.

Look over the classified ads this week. See the lost and found and other items advertised in this column.

NOTICE.

Being so much sickness in our community we will not have our singing convention which was to meet the first Sunday in March at Fairview, so will look for big time next meeting day—O. L. SIMPSON, President.

Did You Get Your Copy?

We have received notice from the Purina Mills of St. Louis, that the 1924 PURINA POULTRY BOOK has been mailed. Your copy should have reached you by now.

The Purina Poultry Book is the handy guide for well over a million poultry raisers in the United States. It is simply written, well illustrated, and brimful of practical money making hints on culling, breeding, feeding, electric lighting, housing, and care.

Free With Our Compliments

We arranged with the Purina Mills to send a complimentary copy to every poultry raiser whose name and address we had. If you have not received your copy, send us your name and address on the attached coupon—or give it to us over the phone—and we will see that you get your book at once.

# Don't Pay \$1,000 or More for a car, without knowing what the leader offers in the fine-car field

**W**E made a canvass of many who bought rivals of Studebakers. We said, "Tell us why you liked your car the better." The majority said, "We did not even look at the Studebaker." Most of them bought new models of the car they owned before.

Yet Studebaker is a leader in the fine-car field today. Studebaker builds more quality cars than any other plant in the world.

Studebaker is the sensation of modern Motordom. Its amazing growth signifies a new situation in this field.

Last year, 145,167 fine-car buyers paid \$201,000,000 for Studebaker cars. Nearly three times as many as in 1920.

Is it fair to yourself—or fair to us—not to learn the reasons for this trend?

### Facts to consider

Studebaker assets are \$90,000,000—all staked on satisfying, better than others, buyers of high-grade cars.

Over 23,000 men have their future at stake on giving you maximum values.

\$50,000,000 in modern plants and equipment, of which \$32,000,000 has been added during the past five years.

\$10,000,000 in body plants to give you superlative beauty. To give that final touch for which Studebakers have been famous for decades.

125 experts who devote their whole time to studying betterments. Who make 500,000 tests per year to maintain our supremacy.

Consider Studebaker history. For 72 years this concern has stood for high principles and policies.

For two generations, against all the world, it held first place in horse-drawn vehicles.

Now for years its name and fame have been committed to like attainments in fine motor cars.

### If you only knew

There is no room here for details and comparisons. You will find them all in Studebaker showrooms. But let us cite some significant facts.

That lack of vibration, so conspicuous in Studebakers, costs us \$600,000 yearly in extra machining of crank shafts.

That matchless strength in vital

worked out to exactness for supreme service in its place.

We employ 1,200 inspectors to make 30,000 inspections of the material and workmanship in each Studebaker car—before it leaves the factory.

Consider how Studebaker has always led in the building of high-grade cars. We were first to use cord tires as standard equipment. We were the first quantity manufacturers to build bodies of the highest grade.

If you want beauty, fine upholstery, rich finish and equipment, consider that Studebaker has had more experience in fine coach building than any other motor car maker.

### Our place no accident

The pedestal place which Studebaker holds in the fine-car field is not the result of accident. It comes from principles as old as this business—the ceaseless and determined ambition to excel.

Learn the result of these efforts. Compare detail by detail, part by part, with any car you wish. When you foot the advantages, you will find that they number scores.

These are facts you should know. They are inducing 150,000 per

year to choose Studebaker cars.

Some sell at \$1,045. Some meet with every requirement in size and power and luxury. But the chassis are all alike, save in size. The same steels, the same standards throughout. Every important Studebaker part represents the best we know.

People have learned these facts—hundreds of thousands of them. The demand for Studebakers has almost trebled in three years. It has become overwhelming, even for our facilities.

Investigate the reasons. You will find them by the scores. Then, if you choose a rival car, we shall have nothing more to say.

## See the Studebakers

Studebaker builds more fine cars than any other plant in the world.

Last year 145,167 wise motor car buyers paid \$201,000,000 for Studebakers.

The demand has almost trebled in the past three years. Studebaker now holds a leading place in the high-grade field.

Our modern plants and their equipment cost \$50,000,000. All to give you the maximum value at the minimum of cost.

It is folly to buy a car in this class without knowing what we give.

parts comes from the costliest steels. For some we add 15% to the quoted price to get exactness in them.

That Chase Mohair, used in our closed cars, is made from the soft fleece of Angora goats. Cotton or ordinary wool, or a combination of both, could reduce our price \$100 to \$150 per car, but it would sacrifice Studebaker quality.

Note the bumpers, the steel trunk, the extra cord tires, the motometer, the courtesy light on some models. Figure what they would cost as extras.

Wonder of the World!  
\*\*\*\*\*

Mesdames S. O. Wulfjen and E. H. Winn, honoring Mr. and Mrs. J. D. Wulfjen on their 50th wedding anniversary.

### CROWNED

Tenderly Crowned—  
Ah! crowned indeed.  
With your children's praise in fullest need;  
Praise born of reverence, most holy and sweet,

Of trust, pure and holy, of love, rich and deep.

This comforts, wise guide and friend.

Be your this glad service, to life's journeys end;  
And when thou art called higher, this prayer will then be.

"Let thy mantle of goodness fall gently on me."

Graciously crowned with golden deeds  
The ripened field of golden seed.  
Fed by God's sunshine, watered with tears,

Thus came to perfection this fruitage of years.  
For oft halted by them were strange feet,

On the brink of the chasm dark and steep.  
And turned by them the despairing soul.

Hurrying on to its bitter goal.  
Crowned with humidity rare and sweet,  
A bloom grown only at the Master's feet.

Distilling its perfume on the air,  
Like hidden violets lovely and fair  
As the valley lily in shy bending grace  
Divines not its fairness, low drooping its face.

So thy dream not that to each passer by  
The beauty of holiness is wafted high.  
Crowned with approval,  
The loving "well done,"  
You journey on toward the setting sun.

Bathed in the glow of the sunset bars,  
Where mingles the gleam of twilight stars.

Where there's a calm holy hush, a fragrance most sweet,  
A resting from noontide toil and heat;

A "going apart" with your Savior guide,  
Into the golden shadows of your eventide.

ALBANY.—Leases have been booming in Albany the past few days, with several big deals and many small ones. California interests paid \$8,000 for a lease on a portion of the Eli Meyer ranch three miles West of here today. J. L. English was the holder of the lease until the California men bought him out. The Meyer ranch adjoins the land on which the good producer of week before last was brought in, the R. J. Moberley ranch. A small well was brought in on the Meyer ranch by Tannehill et al. of California over a month ago, and from the trend of leases today it appears that the attention of the oil people will be focused on the first shallow well in the field west of Albany.

R. J. Moberley has closed a deal leasing 20 acres of his ranch near his producing well for \$100 per acre. The Moberley No. 1 of Tannehill is still pumping over 20 barrels of crude per day, and the same operator is about to spud in a second well. There is great interest manifested over the Brown No. 1, drilled by Geo. Callihan, now working over 600 feet and will strike the pay within the next few days. They expect to get the sand around the 1000 foot depth. Welch and Haggerty are preparing to start drilling on the P. S. Kendrick ranch, 3 1/2 miles South of Albany before the end of this week.

As soon as the list of candidates for governor can be tabulated the Record will publish the entries, if it can possibly spare the space.

### "THE YOKOHAMA MAID" IS ACCLAIMED BIG SUCCESS

The comedy drama, "The Yokohama Maid," presented Tuesday evening at the High School Auditorium under the auspices of the Parent-Teachers Association, was one of the biggest local talent successes of the season. The cast depicted a typical Japanese love story, with both humorous and pathetic side lights and each of the characters displayed unusual talent in presenting the drama.

The High School Glee Club filled an important place throughout the two acts. All of the characters were dressed in Japanese costumes and a typical decorative scheme, suggestive of the land of flowers was carried out.

Leading parts were played by Misses Marcella Price, as a Japanese heiress, her companion, Miss Mary Broadus, and Raymond Jones, mayor of a Japanese village, who thru crafty methods sought to wed the heiress and thus come into possession of her millions. After an eventful courtship and a tour of America by the heiress, the plans of the mayor were crumpled when he finds that the flower of his heart had married a young American attorney.

Others filling important places in the cast were Joe Pond, Jno. Helton, Henry Doss, Bill Dorn, Jack Helton, Mrs. Agatha Plaster Dorn, Edna May Powell and Mary Lee Crowder.

Proceeds received from ticket sales, amounting to \$122.25 were applied to the fund of the Association, and a part of it will go toward financing the High School Annual, "The Lone Wolf." The Association had previously raised the sum of \$996.00 in the campaign to raise \$1,000 for placing play ground equipment on the school ground.

Miss Jane Bounds, assisted by Mrs. J. H. Guitar, directed the program.

### NEW MILLINERY

Ladies, our New Spring Millinery is arriving almost every day. We have a beautiful line of the newest creations, all the newest colors and materials. Have some of the original hats showing in the Dallas style show last week.

Mrs. P. F. Mills.

### MEMBERS COLORADO BAND TO PLAY AT STOCK SHOW

Lister Ratliff and Raymond Jones, members of the Colorado Booster Band, left Wednesday morning for Slaton from which place they will accompany the Slaton Chamber of Commerce band to Fort Worth for the Fat Stock Show, which opens Saturday. Slaton is sending a band and delegation of boosters to the livestock exposition to advertise their city and the South Plains.

### CITATION BY PUBLICATION

THE STATE OF TEXAS.  
To the Sheriff of any Constable of Mitchell County—Greeting:  
You are hereby commanded to summon J. W. Woodard, L. E. Lasseter  
By making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in said county, if there be no newspaper published therein, but if not, then in any newspaper published in the 22nd Judicial District, to appear at the next regular term of the District Court of Mitchell County, Texas, to be held at the Court House thereof in Colorado, Texas, on the 3rd Monday in April, A. D. 1924, the same being the 21 day of April, A. D. 1924, then and there to answer a petition filed in said Court on the 3rd day of March, A. D. 1924, in a suit numbered on docket of said Court, No. 479, wherein The State of Texas is Plaintiff and J. W. Woodard, L. E. Lasseter and Wm. Morrison.

And all other persons owning or having or claiming any interest in the land or lots hereinafter described, are defendants the nature of plaintiff's demand being as follows:  
An action by Plaintiff praying for judgment against the Defendants for the sum of Twenty-nine and 16/100 Dollars on an account of the State and County Taxes, interest, penalty and costs, to-wit: For the taxes, including school taxes, with penalty and interest, assessed and due on each tract or lot of lands hereinafter described for the following years, to-wit: 1907, 1908, 1909, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922.  
That said taxes, with interest, penalty and costs, are a lien upon each tract or lot of the following described lands, situated in Mitchell County, Texas, to-wit: Being Lot No. 1, in Block No. 8 in the Amended Addition to the town of Westbrook, Texas, as shown by the map or plat of said town in Book 16, pages 642 and 643 of the Deed Records of Mitchell County, Texas.

And plaintiff further prays for the foreclosure of its said lien, for an order of sale, a writ of possession costs of suit and for general and special relief, all of which more fully appear from Plaintiff's original Petition now on file in this office.  
Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.  
Witness my hand and official seal at my office in Colorado, Texas, this 3rd day of March, A. D. 1924.  
W. S. STONEHAM,  
Clerk District Court Mitchell County, Texas.

### NEW LINOTYPE MACHINE INSTALLED BY THE RECORD

The Whipkey Printing Company, publishers of The Record, and operating one of the best equipped newspaper and commercial printing plants in West Texas, installed another new linotype machine in the mechanical department of the plant this week. The new type setting machine, a Mergenthaler No. 8, takes the place of the old No. 5 machine which has been used in the office several years.

The new machine gives The Record office a battery of two of the latest improved linotypes. The No. 14, a machine which casts type from 6 to 36 point, was installed four years ago and is as good as new.

Mr. and Mrs. J. Riordan returned Thursday of last week from a trip to New Orleans, Cuba and the Canal Zone. They report having spent a most pleasant trip.

**HOW PEPSINATED CALOMEL RELIEVES THE BACKACHE**  
Tests with Pepsinated Calomel, the new English Calomel treatment, have shown that it is one of the most powerful stimulants to the kidneys which we possess. While not intended primarily for the treatment of kidney diseases, yet it exerts a powerful influence upon these organs and promptly relieves backache due to the kidneys, by stimulating both the liver and kidneys, thus aiding them in removing the waste matter that is causing trouble. If your back aches most of the time, or if you are troubled with constipation or biliousness, try Pepsinated Calomel on the positive guarantee that you will be relieved or your money returned.  
Colorado Drug Co., and all reliable druggists recommend and guarantee Pepsinated Calomel to bring relief or your money refunded. Try it—we guarantee you'll feel better tomorrow. (Adv.)

## LOCAL NOTES

Lon Geer of Sweetwater, general manager of the West Texas Electric Company, was in Colorado Wednesday on business in connection with the company properties here. Geer reported everything progressing at Sweetwater.

When the bowels are costive the waste matter ferments, producing a gaseous condition that is disagreeable. To remove the impurities quickly, a dose of ierone is needed. It does the work thoroughly and pleasantly. Price, 60c. Sold by all druggists.

Judge A. H. Lesley, mayor of Colorado, returned Friday from a 29 day tour to Cuba and the Panama Canal Zone. His daughter, Mrs. Lindsay of Oakland, Calif., who accompanied him on the trip, stopped in Dallas for a visit there.

**NEW MILLINERY**  
Ladies, our New Spring Millinery is arriving almost every day. We have a beautiful line of the newest creations, all the newest colors and materials. Have some of the original hats shown in the Dallas style show last week.

Col. C. M. Adams, Mrs. Adams and their daughter, Miss Marion Adams, returned Sunday from Dallas where they spent several days of last week attending grand opera.

### Citation by Publication

The State of Texas; To the Sheriff or any Constable of Mitchell county, Greeting: You are hereby commanded, that you summon, by making publication of this citation in some newspaper published in the county of Mitchell, for four consecutive weeks previous to the return day hereof, Burt King, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof to be holden in the county of Mitchell, at the court house thereof, in Colorado, on the third Monday in April A. D. 1924, the same being the 21st day of April A. D. 1924, then and there to answer a petition filed in said court on the 11th day of February, A. D. 1924, in a suit numbered on the docket of said court, No. 4464, wherein Emma King is plaintiff and Burt King is defendant. The nature of the plaintiffs demands being as follows, to-wit:

Plaintiff alleges that she is and has been for a period of twelve months prior to exhibiting the petition herein an actual bona fide inhabitant of the State of Texas, and has resided in the county of Mitchell for at least six months next preceding the filing of this suit; that on or about the 25th day of February A. D. 1915 in Mitchell county Texas, plaintiff was lawfully married to defendant and that they lived together as husband and wife until on or about the 15th day of February A. D. 1916, when defendant left plaintiff with the intention of abandoning plaintiff as his wife, since which time they have not lived together as husband and wife; that defendant has been gone for more than eight years with the intention of abandoning plaintiff as his wife, during which time she has not heard from or of him; that said marriage relations still exist. Plaintiff prays for citation for judgment dissolving said marriage relations, for costs of suit and general relief.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon showing how you have executed the same.

Given under my hand and seal of said court at office in Colorado Texas, this 11th day of February, A. D. 1924.

W. S. STONEHAM  
Clerk District Court Mitchell County, Texas 3-7c

### NOTICE IN PROBATE

THE STATE OF TEXAS To the Sheriff or any Constable of Mitchell County—Greeting:

You are hereby commanded to cause to be published once each week for a period of 20 days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Mitchell County, a copy of the following notice: THE STATE OF TEXAS: To all persons interested in the estate of Y. D. McMurry, deceased, The City National Bank of Colorado, Texas, has filed an application in the County Court of Mitchell County, on the 23rd day of February, 1924, for an order of sale of real estate belonging to the estate of said deceased, to satisfy a claim of the City National Bank of Colorado, Texas, against said estate, said claim being secured by a Deed of Trust upon the real estate described in said application which said application will be heard by said Court on the fifth day of May, 1924, at the Court House of said County, in Colorado, Texas, at which time all persons who may be interested in said estate are required to appear and answer said application, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Colorado, Texas, this 25th day of February, 1924.

(Seal) W. S. STONEHAM,  
Clerk County Court, Mitchell County, Texas.

A true copy, I certify:  
I. W. TERRY,  
Sheriff of Mitchell County, Texas,  
By C. E. Franklin, Deputy. 3-7c

FOR SALE OR TRADE—Two good milk cows. See these cows at my place.—Will Warren. 1te

### CITATION BY PUBLICATION

THE STATE OF TEXAS. To the Sheriff or any Constable of Mitchell County—Greeting:

You are hereby commanded, that of this citation in some newspaper published in the county of Mitchell for four consecutive weeks previous to the return day hereof, Mary McCoy Thomas whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof to be holden in the County of Mitchell, at the Court House thereof, in Colorado on the 11th Monday in April A. D. 1924, the same being the 21st day of April, A. D. 1924, then and there to answer a petition filed in said court on the 29th day of February A. D. 1924, in a suit numbered on the Docket of said Court No. 4465, wherein Nelson Thomas is plaintiff and Mary McCoy Thomas is defendant.

The nature of the plaintiffs demand being as follows, to-wit: Plaintiff alleges that he is and has been for a period of twelve months prior to exhibiting the petition herein an actual bona fide inhabitant of the State of Texas, and has resided in the said county of Mitchell for at least six months next preceding the filing of this suit; that on or about the 15th day of June A. D. 1919 in Jefferson county, Oklahoma, plaintiff was lawfully married to defendant and that they lived together as husband and wife until on or about the 15th day of February A. D. 1920, when defendant left plaintiff with the intention of abandonment of plaintiff as her husband, since which time they have not lived together as husband and wife; that defendant has been gone for more than four years with the intention of abandoning plaintiff as her husband, during which time he has not heard from or of her; that said marriage relations still exist; that defendant's actions and conduct toward him generally are of such a nature as to render their further living together as husband and wife insupportable. Plaintiff prays for citation, for judgment dissolving said marriage relations, for costs of suit and general relief.

Herein fail not, and have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Colorado this 20th day of Feb. A. D. 1924.

W. S. STONEHAM,  
Clerk District Court Mitchell County, Texas. 3-28-c

GAINES COUNTY FARM LANDS AT REASONABLE PRICES AND AT ATTRACTIVE TERMS.—Very little ready money is required to own a good farm in the South Plains of the Texas Panhandle. Payments for your farm are on about the same basis as paying rent. At Seagraves, Gaines County, Texas, we offer you farm land at prices from \$12.00 to \$20.00 per acre, cash payment down only one dollar per acre, four yearly payments of one dollar per acre and the balance in yearly payments of two dollars per acre with interest at six per cent. This is strictly a general farming country. Abundance of pure water, no boll weevil; and cotton a sure crop. At present prices of cotton it will not take a great many bales to pay for a 160 acre farm in one season. This is your big opportunity. If interested in securing a farm and home for yourself and family on very unusual terms, now is the time to act. Address W. A. SORELLE, General Agent, 12 Santa Fe Bldg., Seagraves, Gaines County, Texas, for terms of sale and descriptive folder. 3-7c
