

HAMILTON DIRECTS APPEAL TO INDIVIDUAL CHRISTIAN

Dr. O. E. Hamilton, evangelist doing the preaching in the revival campaign which opened Sunday morning at Union Tabernacle for three weeks, is directing his appeals largely to the individual in the hope of arousing the Christian people of Colorado to their true sense of duty to their neighbors, themselves and their God during the meeting. Especially did the evangelist place emphasis upon the need of consecrated individual Christian living during the first messages delivered this week.

Sunday morning the speaker dealt with the importance of prayer and illustrated in a striking manner the need of this devotion among all Christian people. He urged that Christians acquaint themselves with whom they were praying and learn to understand fully their own lives and the hidden things written in the secret recesses of their every day life.

Monday evening the evangelist continued his appeal for individual piety and Christian living. Reading the text, "Ye are the salt of the earth," and "Ye are the light of the world," Dr. Hamilton threw down the challenge to every church member of the city, regardless of denominational affiliations, to kindle their Christian service and influence into a bright and shining light which the lost of this community could not fail to see.

"A light has initiative, is penetrating and unselfish in the distribution of its benefits," he said. The electric, gas, candle, and all other artificial lights will throw its rays abundantly in every direction. This should be the policy of the individual Christian. Illuminate everything about you with a beautiful Christian inspiration and make your influences count for something."

The speaker described the different types of lights and declared that for each of these there was to be found a church member. "There are lightning bug Christians, and Christians whose lights, like the flickering candle grow dim and finally die out."

The evangelist is a man who is fast winning his way into the hearts of the people of the city. He impressed his auditors with a sense of sincerity in each message delivered and brings his messages in the form of a direct personal appeal.

Earnest Burley, soloist and director of children's work, is from Pomona, California, and has a beautiful tenor voice of unusual mellowness and penetrating power. He is singing at each service and the inspiration brought by this man into the campaign is carrying strong.

Chester F. Harris, of Sulphur Springs, Ark., musical director and who is also in charge of personal work in the campaign, is filling an important place in the revival.

The city has been divided into seven districts for special prayer and consultation meetings each morning. These meetings are being held at 9 o'clock and continue only thirty minutes. Captains in each of these districts are directing this phase of the campaign. The business district is also included in a subdivision of the city for these special services. The first of these meetings were held Tuesday morning.

Song and preaching services at the tabernacle are begun promptly at eight o'clock each evening. At nine each morning the large junior choir, under leadership of Mr. Burley, meets at the tabernacle for practice.

ELLIOTT MAKES STRONG APPEAL FOR OUR BOYS

Addressing the Lions club Friday, Rev. W. M. Elliott, local scout master, made a strong appeal to the men of Colorado to give the Boy Scouts of America their full support. The speaker gave an interesting report of the national convention held recently at St. Louis and attended by him.

"The boy is the biggest asset we have," Elliott declared, "and it is the duty of every true citizen to cooperate in a program having for its purpose the making of good men out of the boy of today."

FOUR GIVEN PEN TERMS IN BOOTLEGGING CASES

Four defendants in bootlegging cases tried during the term of district court which closed at Colorado Saturday received convictions and assessed terms in the State penitentiary, ranging from one to two years. Two of the defendants have filed notice of appeal and the other two have accepted sentence. One of the men convicted, W. E. Barnes, who was given two years, left several days ago to begin serving his sentence.

A. W. Harris, charged with bootlegging, was convicted and given two years. He has filed notice of appeal. Joel Bradley, convicted on the same charge and given one year, has also appealed his case. Hezekiah Brooks, the other defendant to receive a penitentiary sentence on boozing charge, was given one year in the pen.

Jesus Marcias, charged with highway robbery, was convicted by a jury and drew a term of five years in the penitentiary. The Mexican was charged with having "stuck up" a local negro and relieved him of his cash at the point of a gun, while the two were together in the Texas & Pacific yards at Colorado. Rufus Pratt received a sentence of two years for forgery.

The appearance bond of E. W. McAbee, charged with bootlegging, was declared forfeited by the court when the defendant failed to appear for trial. McAbee was tried at the last term of district court here last fall and the case carried over when the jury failed to reach a verdict. McAbee formerly operated a service car at Colorado.

Court was ended for the term Saturday after five weeks and Judge Leslie and Court Reporter Milwee went to Snyder Monday to open court there.

47 BILLS OF INDICTMENT RETURNED BY GRAND JURY

After reporting the finding of two additional bills of indictment to Judge W. P. Leslie Thursday afternoon of last week, the Mitchell County grand jury was discharged for the term. This report placed the total number of bills found by the jury at 47, 23 of which were based on felony charges and 24 for misdemeanor charges. The two bills found Thursday were felonies.

The grand jury was empaneled Monday, April 21, the day the present term of Mitchell County district court was opened by District Judge W. P. Leslie. After deliberating one week the body reported the finding of 29 true bills of indictment, 12 of which were based on felony charges and 17 on misdemeanors. The jury recessed Saturday of the first week of court to Thursday of the second week and after being in session only two days reported the finding of 16 additional bills, placing the total at 45. The jury recessed to May 21, when the last two bills as noted above were voted.

Returning of 47 bills of indictment by a Mitchell County grand jury during one term of district court has established a precedent in this county, according to county and district court officials. District Clerk W. S. Stoneham stated last week that the number of bills returned was the largest ever recorded here.

The grand jury was composed of the following gentlemen:

R. F. Hargrove, foreman; H. E. Grantland, B. A. Donaldson, E. B. Gregson, I. K. Gailley, A. K. McCarty, J. A. Kuykendall, C. H. Manley, J. C. Costin, W. C. Farrar, E. H. Winn and R. M. Jones.

DISTRICT ENDEAVORS TO MEET AT SWEETWATER

Young people of the Methodist churches in the Sweetwater district are to meet at the First Methodist church in Sweetwater Sunday afternoon for a district rally, Miss Jessie Stell of Colorado, announced Wednesday. Miss Stell urges that a representative delegation from the leagues at Colorado and Lorraine attend the meeting.

The meeting will be convened at 3:30 and close at 7:00 o'clock.

ROAD IMPROVEMENT BONDS DEFEATED FOR THIRD TIME

For the third consecutive time within the past six months, voters of Mitchell county have voted down proposed bond issues for improvement of the Bankhead Highway and other public thoroughfares of the county. In the election Saturday, the proposed issue of \$325,000 lost as the culmination of one of the most enthusiastically waged campaigns recalled in the county came to a close. The vote was 1,033 for the bonds and 875 against, with no returns available from the McKenzie box. The total vote, 1,908, was the largest polled in either of the three road bond elections.

In the first election, held in December, to determine whether bonds of \$650,000 should be issued, the bonds received a majority vote of 21, losing heavily as to the required two-thirds. In the second election, held March 22, and voting on an issue of \$325,000, the bonds lost by two votes, receiving 1,034 votes in favor of the issue and 518 against. It is to be noted that there is a difference of only one vote, in the number accounted for in Saturday's election for the bonds the total polled for the bond March 22.

The Colorado precinct polled a larger ratio in favor of the bonds than any other voting district in the county, the vote here being 227 against, with 718 for. The ratio at Lorraine against the issue was about the same, more than three to one against the bonds. The vote there was 112 for the bonds and 377 against. Iatan and Westbrook were other voting precincts to register votes in favor of the bonds.

In spite of the fact the proposed bonds were defeated for the third time, it is shown in tabulation of returns that a majority of voters of the county have endorsed the same every time the issue was presented them at the polls. The majority of 21 in December was the smallest. In the second election the majority came within two votes of reaching the two-thirds ratio and in the election Saturday those favoring the bonds polled a lead of 158 votes.

Returns, as received by the Chamber of Commerce and which are expected to remain unchanged when official tally sheets from the several voting precincts are tabulated by Commissioners' Court, are as follows:

Colorado—For, 718; against, 227.
Lorraine—For, 112; against, 377.
Westbrook—For, 109; against, 48.
Baford—For, 26; against, 69.
Spade—For, 21; against, 45.
Landers—For, 2; against, 19.
Cuthbert—For, 20; against, 67.
Carr—For, 16; against, 20.
Iatan—For, 9; against, 3.

It was reported in Colorado Tuesday that no election was held at McKenzie. However, this report could not be verified, as telephone connection into that part of the county was out of commission and no official returns had been made by those designated to hold the election. It was considered that returns from this box, in case an election was held, would change the result very little, if any, either way. The box has a voting strength of about 15 votes. In the last election McKenzie polled 13 votes, ten of which were for the bonds.

OIL STOVE EXPLOSION IS CAUSE OF BLAZE IN STORE

Explosion of an oil stove in rear of the G. W. Garlington store, in the Masonic building, corner Second and Oak streets, caused an alarm to be turned in Thursday afternoon. The flames were under control, however, by the time the fire department reached the building.

BAND MEMBERSHIP GUESTS AT LIONS CLUB FRIDAY

The Colorado Booster Band personnel attended the Lions club luncheon Friday as guests of the club. Speakers told of the splendid record made by the band at Brownwood during the West Texas Chamber of Commerce convention and pledged the full moral and financial support of this city to the band in the future.

BURKETT URGES REPEAL OF STATE AUTOMOBILE TAX

Addressing about seventy-five citizens at the district court room Monday afternoon in the interest of his candidacy for governor, Senator Joe Burkett denounced the present automobile tax law as unjust and urged that it be repealed. The speaker offered as a source of revenue for public roads and schools, in lieu of the tax, a tax of from three to four cents per gallon on gasoline.

In speaking of the low ebb at which the public schools of the State are maintained, Burkett quoted from his platform in which he favored the assessing of a tuition fee of \$150 per year against each man and woman in our higher institutions of learning. This, he stated, would net a sum of \$2,000,000 annually to the public school fund. In addition to this, he urged that about one-fourth of our automobile tax be credited to the public school fund, making a total of about five millions of dollars annually for the public schools of this state. This fund, he outlined, would permit the rural schools to finance a term of six months or more, as compared with the present average of less than four months.

The speaker urged creation of a Central State Bank, with capitalization of from \$50,000,000 to \$100,000,000, as the source of furnishing long term loans at low interest rate to the agricultural and livestock interests of the State. He charged that the Federal Reserve Bank system, controlled by large financial interests were profiting at the direct expense of the producers of the nation's wealth.

The candidate attacked Lynch Davidson, one of his opponents for governor because of statements concerning the State penitentiary system credited to Davidson. "I understand that Mr. Davidson is telling the people of Texas that our penitentiary system is costing \$1,000,000 a year to operate," Burkett stated. "The fact is that the system, during the past forty-six years, has only cost the state \$960,000. I have these figures from the auditor of the penitentiary system."

Davidson was also attacked for the statements he has made relative to rehabilitating the state railroad system. Burkett charged that this railway was rebuilt by labor from the state penitentiary at a cost of \$33,000 and that the new rails laid over the thirty miles were borrowed from the United States government.

The board of pardons of Jim Ferguson fame, which was created by Governor Ferguson and eliminated by Governor Neff, will be restored by Burkett, in case he is elected governor, he declared.

CONCRETE POURING STARTED FOUNDATION NEW BUILDING

Pouring of concrete into forms for the foundation of the A. J. Herrington 40,000 building at Main and Elm streets was started Wednesday by the contractor, A. W. Balfanz. This work was delayed a few days pending arrival of re-enforcing steel, shipped several days ago and which did not reach Colorado until Monday. Excavations for the foundation were completed last week.

Several tons of cement will be used in foundation of the building alone which is to cover an entire quarter block, 130 by 170 feet. The building will be some time under construction.

GOLDMAN SLATED PRESIDENT BANDMASTERS ASSOCIATION

M. S. Goldman, director of the Colorado Booster Band, is looming up as a formidable candidate for president of the American Band Masters association, according to information received in Colorado during the past few days. Texas band men who are members of the national organization are lining up their support for the Colorado man and it is further known that Goldman has a strong following in Shrine circles throughout the country.

Goldman left Friday for Kansas City to attend the annual convention of the association, which convenes Wednesday.

JUDGE COE CANDIDATE MITCHELL CO. JUDGE

Adding another interesting angle to the line-up of candidates for county judge, Judge A. J. Coe of Colorado authorized the statement Wednesday that he had entered the campaign for election to this office. Judge Coe is entering the campaign subject to action of the Democratic primary election in July.

The candidate has been a resident citizen of Colorado for more than forty years, almost since the town was founded. He has always taken an active part in issues affecting the people of Mitchell county and political affairs of the State. He was chairman of the recent county Democratic convention held in Colorado. Judge Coe was county judge of this county a few years ago and invites investigation of his record as such.

LIONS AGAIN POSTPONE LADIES NIGHT BANQUET

Because that the proposed ladies night banquet, to have been given Tuesday evening by the Colorado Lions club would have conflicted with the Hamilton-Burley revival, members of the club voted Friday to place date of this event in the future. The club membership expressed the wish to again postpone the banquet in that no conflict be made with the revival.

INFANT DAUGHTER W. R. HICKEY DIES HERE FRIDAY

Betty Jo, five-month-old daughter of Mr. and Mrs. W. R. Hickey, died Friday at the family residence on Chestnut street after an illness of one week. Funeral services were conducted at the residence Saturday morning by Rev. J. F. Lawlis, pastor of the First Methodist church, after which the little body was buried in I. O. O. F. cemetery.

RAIN DAMAGES PROPERTY IN VICINITY OF LORRAINE

Rain which assumed the proportions of a small flood did considerable damage to crops and other property in the Lorraine vicinity Sunday night. In one or two localities near Lorraine the precipitation is reported to have totaled from three to four inches. From Lorraine west about two miles was one of the sections hardest hit by the downpour. Farms were badly washed and crops will have to be replanted. The county was damaged in washouts on the highway at places.

The rain at Colorado registered 95 hundredths of an inch and was general throughout this part of the State. The rain grew heavier toward Westbrook and west of there gradually became lighter. Traffic across Iatan flat was not handicapped because the roadway had dried up by noon Monday.

Farmers and cattlemen were jubilant over the excellent prospects for this year. The physical condition of the cattle industry was never better, local cattlemen declare and farmers from every part of the county report that an excellent season is in the ground.

The rain placed the total rainfall at Colorado for the month of May at 6.33 inches, the second largest record for that month during the past twenty years. In 1920 May rainfall totaled 7.04 inches.

Surface tanks and reservoirs over the county are full of water, assuring ample supply for months to come for the purpose for which these bodies of water are impounded. Operators in the oil field have the largest supply of surface water in the history of the field.

COLORADO LANDMARK BEING REMOVED FROM OAK STREET

The old frame building, corner Oak and Third streets, which has stood for forty years, is being razed by C. H. Lasky, who has owned the property many years. It was in this building, some thirty five years ago, that Mr. Lasky opened his business career in this city. He was a baker and possessed very limited means but from that meagre start has become one of the leading financiers of this section of West Texas.

SLOAN AND CALIFORNIA CO. HAVE 18 WELLS COMPLETE

The Sloan Oil Company and the California Company, the two larger corporations identified with development in the Mitchell County field, have a total of 18 producing wells, aggregating a daily production of approximately 2,000 barrels. Twelve of these producing wells are on leases controlled by the California Company and six on leases of the Sloan Oil Company.

Morrison No. 1-A of the California Company is drilling at 4,812 feet and will be drilled deeper as a test for deep production. Rigs are being built at Morrison Nos. 8, 9 and 11 of the California Company. Materials are being moved to location of Morrison No. 10. Ground has been cleared at location for Abrams No. 6.

Miller Nos. 3 and 4 are drilling at 800 feet. Butler No. 1 was shot with 280 quarts Wednesday and crew is cleaning out. The hole caved at 2995 feet. Abrams No. 1 is drilling at 2830 feet. At Abrams No. 2 the crew is plugging from 3178 feet back to 3020 feet and will set 6 5/8-inch casing to shut out water. At LeSurre One 6 5/8-inch casing is being set at 3090 feet.

With locations made during the past few days, the California Company now has 24 wells, either completed, drilling or to be spudded in the field.

Timbers are being moved to location for Kynard No. 1 of Rowe-Morrison in Section 15, Block 28, T. & P. Ry. Co. survey. The crew at Gist No. 1, on Gist survey north of Colorado are rigging up to spud. Smart Three of the Sloan Oil Company was placed on the pump Wednesday. Smart Four is cleaning out and Smart Five drilling in. Each of these wells are showing for production of 200 barrels.

Construction work on the refining plant of the West Texas Refining Company at Colorado is going ahead on schedule. J. Steve Anderson, vice president, stated, and will be ready to start operations about June 15th.

NEGRO SHOPLIFTERS HELD FOR GRAND JURY PROBING

Willie White, Fred Miller and Curtis Ray, three negro men, were remanded to jail Wednesday afternoon in default of bond following a preliminary hearing before Judge J. C. Hall on charges of theft. The trio is charged with having stolen articles of clothing, shoes and hats from the stores of the Colorado Bargain House, F. M. Burns Dry Goods Company and the Garber Dry Goods Company. The Colorado Bargain House was the heaviest loser to the thieves.

The negroes admitted their guilt, according to officials, claiming that they appropriated the articles from the different stores during business hours. This claim, however, is doubted by Sheriff I. W. Terry, because of the large quantity of articles taken by the men. Practically all of the stolen merchandise has been recovered by the sheriff.

MITCHELL COUNTY WOMAN WINS IN DIST. CONTEST

Mrs. Joe Johnson of Valley View community, prominent club woman of the county, has been awarded first prize in the better kitchen contest just closed by the extension department, A. & M. College and the Dallas Semi-Weekly News. This district includes a number of West Texas counties, extending as far west as El Paso. Confirmation that Mrs. Johnson had won first prize was received by Miss Irma Sealy Wednesday in a communication from Mrs. Kate Daugherty of A. & M. College, who personally supervised judging in this district.

Mrs. Johnson will now be entered as a contestant in the State better kitchen contest. Miss Sealy is elated over the winning made by this county.

DORN AND MCKENZIE TO CLOSE SCHOOLS FRIDAY

The rural schools at Dorn and McKenzie are to close for the term today. All other rural schools of the county have already closed for the year.

MEMORIAL SERVICE TO BE OBSERVED AT M. E. CHURCH

Ladies of the United Daughters of the Confederacy and American Legion Auxiliary have arranged a memorial program to be rendered Sunday afternoon at four o'clock at the First Methodist church. The program is to consist of patriotic addresses, readings and vocal numbers. At conclusion of the program at the church the assembly will be adjourned to I. O. O. F. cemetery where wreaths will be placed upon the graves of soldiers who are buried there. The general public is invited to attend these services and join in paying tribute to the memory of our soldier dead.

The following program will be observed at the church:
Song—"America"—Assembly.
Invocation—Rev. J. F. Lawlis.
Scripture Reading—Mrs. J. G. Merritt.
Song—"How Firm a Foundation"—Assembly.
"Tribute to Deceased Veterans of the Confederacy," Mrs. Samuel Gustine.
Vocal Solo, Selected—Mr. Burley.
Address, "Our World War Veterans,"—W. S. Cooper.
Reading—"Our Heroes"—Mary Hughes.
"Tribute to Jefferson Davis,"—Gladys Womack.
Song—"Just Before the Battle, Mother"—Children of the Confederacy.
Adjournment to cemetery.

PRESIDENTS

To hear some folks talk, the selection of a man for the presidency of the state university is of a great deal more importance than the selection of a man for the presidency of the United States. Politics and religion, however, are figuring prominently in both campaigns.

NOTICE IN PROBATE.

THE STATE OF TEXAS.
To the Sheriff or any Constable of Mitchell County—Greeting:
You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Mitchell County, a copy of the following notice:
THE STATE OF TEXAS
To all persons interested in Estate of Geo. E. Tate, Jr., a minor, his mother, Eleanor Patterson Millwee, has filed an application in the County Court of Mitchell County, on the 6th day of May, 1924, for Letters of Guardianship which said application will be heard by said Court on the 7th day of July, 1924, at the Court House of said County, in Colorado, at which time all persons who may be interested in said Estate are required to appear and answer said application, should they desire to do so.
Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.
Witness my hand and official seal, at Colorado, Texas, this 27th day of May, 1924.
(LS) **W. S. STONEHAM**
Clerk County Court, Mitchell County Texas. 6-6c

CITATION.

THE STATE OF TEXAS.
To the Sheriff or any Constable of Mitchell County, Texas—Greeting:
You are hereby commanded to cause to be published each week for a period of ten days before the return day hereof in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Mitchell county, Texas, a copy of the following notice:
THE STATE OF TEXAS
To all persons interested in the estate of R. M. Walker, deceased, J. N. Walker and Lula Justice have filed an application in the county court of Mitchell County, Texas, on the 28th day of May A. D. 1924, for the probate of the last will and testament of R. M. Walker, deceased, and to be appointed executors thereof; which said application will be heard by said court at the next term of said court, commencing on the first Monday in July A. D. 1924, the same being the 7th day of July A. D. 1924, at the court house thereof in Colorado at which time all persons interested in said estate may appear and contest said application, should they desire to do so.
Herein fail not, but have you before said court on the said 1st day of next term thereof this writ, with your return thereon showing how you have executed the same.
Given under my hand and the seal of said court at my office in Colorado, Texas, this the 28th day of May A. D. 1924.
(SL) **W. S. STONEHAM**
Clerk of the County Court of Mitchell County, Texas. 6-6-c

W. R. MORGAN ATTENDS FEEDING SCHOOL FT. WORTH

Mr. W. R. Morgan of the O. Lambeth Company of Colorado has just returned from Ft. Worth where he attended the summer short course on the care and feeding of farm animals conducted by the Purina Mills last week.

"One of the points brought out at the school which made a big impression on me is the value of the live stock and dairy products sold annually in Mitchell County," says Mr. Morgan.

"And yet as big as these figures are, by the introduction of proper feeding method it is possible to increase the value of the dairy and poultry products produced in Mitchell County by a fourth or a third."

"According to figures compiled by the United States Department of Agriculture \$71,451.00 worth of poultry and dairy products alone are sold every year by the farmers of Mitchell County.

"Yet, by the introduction of the most up to date feeding methods it is possible to increase this figure by \$75,000 or \$100,000, with little or no extra cost.

"Such an increase would benefit not only those who own live stock and poultry, but every business concern in Mitchell county.

At least a part of the \$75,000 of extra wealth which can be created annually would be used to buy building material, make improvements and add to conveniences, the business done by every concern would be proportionately increased.

"Mitchell County produced over \$795,627.00 worth of steers in 1920, and nearly \$68,785.00 worth of hogs. Better feeding methods would bring about similar increases in the value of these two branches of the live stock industry."

"Another point was brought out at the school which impressed me greatly," Morgan said, "that is, that it takes only a comparatively small increase in the amount of milk or eggs produced to double the feeder's net profit."

"According to a survey made by Hoard's Dairyman, one of the leading dairy publications, and increase of only 10 per cent in the amount of milk produced will frequently make the dairyman twice as much net profit."

"For example take the case of a cow producing 20 lbs. of milk per day, 18 lbs. of which is required to pay for the labor, feed cost and other miscellaneous expenses. This leaves 2 lbs. net profit. This same cow can be made to produce 22 lbs. of milk per day or 2 more lbs. (10 per cent more). In other words she gives 4 lbs. of milk that is net profit to the dairyman, instead of 2 lbs. or double the net profit. The same principle applies on the production of eggs, pork, or beef. That's why it is so vitally important to get those few extra eggs; that extra two or three pounds of milk; or the fraction of a pound extra daily gain in producing pork or beef.

"All who attended the school were thoroughly drilled in the most up-to-date methods of culling poultry and weeding out the non-producers," says Mr. Morgan.

"By use of the proper methods it is just as easy to tell a good layer from a poor layer as it is to tell the difference between a good dairy cow and a poor one. How do you size up a dairy cow? Why, you carefully study the shape and confirmation of her body, the size of her udder and a number of other points which plainly indicate whether she is a good producer.

"You follow the same system exactly in picking out a good laying hen. Only you cannot see these characteristics on her body because they are hidden by her feathers, so you feel for them.

"The results of culling by this system have been carefully checked again and again by experiment stations and practical commercial poultry farms in all the sections of the country. Birds have been culled out as non-producers have been shut up and fed generously for 25 or 30 days and never produced an egg, proving conclusively that the system is a reliable one.

"Few people realize," says Mr. Morgan, "how important proper feeding is and how vitally it relates to the feeder's profit."

"After all, a steer or a cow, or a hen, are only factories. The feed we give them is the raw material and the milk or eggs, or beef or pork they produce is the finished product. Without it they can't turn out the right kind of finished products and show substantial profits for their owners."

"Professor Eckles, the noted dairy authority from the Minnesota College of Agriculture says that on lowering the cost of production, feeding comes first.

"The necessity of feeding a dairy cow during the summer months she

Charming New Frocks for Summer In Every Color and Fabric Sanctioned by Fashion

Certainly there is nothing more dainty than these summer Frocks in their matchless color tone and their cool, airy fabrics. Lovely frocks in which to appear on every summertime occasion are in delightful assortment here. Some are tuniced some are flounced, some are draped, others are in straight line effects. They're all the newest of the new—dresses with little touches of style you haven't seen before. Linens, voiles, Swisses, cotton crepes and other pretty materials; charming trimmed with embroidery, laces and pleats. They are all very smart—and so moderately priced.

F. M. BURNS DRY GOODS CO.

The House of Kuppenheimer Good Clothes
IT PAYS TO PAY CASH.

is on pasture, is a point that is too frequently overlooked by dairymen. It is true that a cow will produce almost as much milk for the first few weeks on pasture without an concentrate as she would if a concentrate or grain feed were fed in connection with pasture. But she does so at the expense of her body it is sure to cut down the milk supply later on.

"Grass is stimulating but grass alone doesn't contain all of the nutrients needed to make milk. Accordingly the cow with her mother instinct to produce milk to nourish her offspring, keeps right on producing a good volume of milk for a few weeks, drawing on her body for the nutrients that grass lacks.

"But after a few weeks nature calls a halt. The cow is in a run down physical condition and starts building up her body again. The result is a marked decrease in the milk produced. Once a cow falls off in the milk she is producing it is almost impossible to get her back up to normal again before the next time she freshens.

"Proper feeding is equally important in the case of brood sows and growing pigs. The production of pork is rapidly coming to the front in Texas. Those interested in hogs will remember that last fall the eyes of the nation were centered on Texas when Mr. Vic Hill of Waco produced the world's champion litter.

"The science of animal nutrition is not without its benefit to the owners of horses. Experiment and numerous tests conducted by Purina Mills have proved beyond the question of a doubt that by properly screening, grinding, balancing and mixing a few well known ingredients commonly used in feeding horses that a horse can be kept in better condition, and do more work on one-third less feed than is ordinarily used. The result is not only more work and better condition but also money saved on the feed bill."

Mr. Morgan is prepared to cull your flock, explain the advantages of the milk shed and scale to dairymen, and render expert feeding service without cost to any feeders.

The Short Course at Ft. Worth is one of many such courses that the Purina Mills is conducting over the country in the interest of better knowledge of feeding methods. The school was in charge of Mr. H. E. Ritchey of Fort Worth, manager of field service in Texas; Mr. E. H.

Hamel, in charge of the Fattening Chow Department of the Purina Mills in St. Louis; Mr. E. I. McDowell, special field service man on Horse Feeding; and Mr. R. A. Blair of St. Louis, in charge of the company's feeding schools.

Mr. and Mrs. Jas. T. Johnson and Mrs. Pearl Shannon left Thursday afternoon for an extended automobile tour to California, Yellowstone Park and other places of interest.

GAINED 50 POUNDS

When the Colon becomes coated with hardened food wastes the blood begins to absorb poisons instead of the ravages of disease germs. The mucous lining of the Colon being raw and irritated, can not do its work properly. Food is not properly assimilated and the system soon becomes weak and rundown.

A physician discovered a preparation that dissolves the food wastes and at the same time heals the mucous lining where broken down. It also aids digestion and the proper assimilation of the food and is absolutely harmless. It has proven successful with hundreds of his patients and now FERRASAL can be purchased at your druggists.

Take FERRASAL regularly night and morning for a month. Your appetite will improve, your color will return and you will feel like a new person or your money refunded.

"GAINED 50 POUNDS."
"Ferrasal was recommended to me about 4 months ago and I have been taking it with excellent results and I feel like a new man. I gained 50 pounds in this short time and am in wonderful health. I can not recommend FERRASAL too highly to anemical and rundown persons."
"W. W. MARTIN."

WOLK AND SON

ARSENIC MOST EFFECTIVE WAY KILLING GRASSHOPPERS

Grasshoppers—untold millions of them—Lilliputian in size but Gargantuan in appetite, are threatening what, to outward indications, was due to prove a banner year for the West Texas farmer.

Grasshoppers are everywhere—every shape and form. In the pastures and in the fields, they are hopping from sprig to sprig and from plant to plant. Like the army of locusts that descended upon the Egyptians of the days of the Pharaohs they are sweeping over West Texas—threatening, ever threatening.

So far, little damage has resulted. But farmers are on the alert and are certain that it is only a matter of time until the pests will infest the cotton fields and will play havoc with the hopes and promises of the present year.

The state and federal governments have, for the past several years, been fully cognizant of the real damage that was being done by the seemingly harmless grasshopper. Hundreds of entomologists, experts in their line, have conducted experiments, made exhaustive studies and researches into the habits and life of these pests. Every form of poison and destructive force that was believed to possess any quality that would serve to halt the depredations of the grasshopper have been tried. Arsenic administered in the form of a "bran-

mash," has been determined upon as the most effective method and it is now being recommended by the U. S. Department of agriculture and the Texas Agricultural and Mechanical College extension division.

Heretofore, the greatest difficulty has been in getting the farmers to listen to the advice of these students. Any attempt at organized warfare on the grasshoppers has usually met with poor success, simply because the farmers and business men failed to take the step seriously.

But West Texas is becoming aroused to the situation. The farmers and business men are beginning to realize that the grasshopper situation is becoming even more serious than the ever-present threat of a drouthy year. The ever-increasing numbers of grasshoppers—growing, with each year—must be curbed and that immediately.

With that in view farmers and business, two hundred strong, met in Callahan county the other day. Upon their recommendation the county Commissioners' Court, viewing the matter in the same light in which aid is extended to storm-stricken victims and sections, voted to order a carload of arsenic and place it at the disposal of the farmers. It will be paid for, of course, by the farmers. The county merely took the responsibility of buying and handling—all for the best interests of the community as a whole.

Callahan county perhaps is in a worse plight than many West Texas counties. The 'hoppers' have made inroads already on the cotton fields, in many instances destroying as many as fifteen or twenty acres in a single field. But all West Texas counties are the same in most respects and the pests that invade Callahan and Runnels in such destructive quantities are fairly certain to be almost if not as destructive in Taylor, Jones, Nolan, Fisher, Haskell, Shackelford and all other West Texas counties. Such was the case last year and indications are that it will be repeated.

The federal government and the extension service are serious in their efforts to curb the grasshopper damage. The effort to 'fence' against him by placing strips of tin about the fields has failed almost completely and all attention has been turned to poison as the most effective means.

With the idea of educating the farmers to the knowledge that they must help themselves if they are to be helped, a formula for grasshopper control has been developed. Experts have been sent out over the state and are attempting to carry this formula into every county. The formula is as follows:

- "Wheat bran 25 pounds.
- "White arsenic or Paris Green 1 pound.
- "Lemons or oranges, six fruits.
- "Low grade cane or sorghum molasses, 2 quarts.
- "Water, 2 gallons.

"Mix the bran and poison thoroughly while dry. Dilute the molasses with the amount of water as named. Squeeze the lemon juice into this diluted molasses then grind the rind of lemons with a meat chopper and add this also to the liquid. Now mix the liquid thoroughly with the poison bran mixture. After an even mixture has been obtained, add more water and mix until a mash is obtained so that after being squeezed in the hand it readily falls apart.

"Grasshoppers feed in the morning and as the bait loses its attractiveness when dry, it should be applied so as to be as moist as possible at this time. It will therefore be best to put it out about sunrise. Provided the ground is not so hot and dry as to remove the moisture during the night it may be put out late in the evening in case the area to be treated is too extensive to be quickly covered in the early morning. The mixture should be scattered, as if sowing seed, by hand, or any type of seeder capable of distributing it. The amount given in the formula should cover about five acres.

"Where the hoppers have become distributed over the cultivated field, the entire area should be sown, and the application repeated in a few days if necessary. If the hoppers are found to be advancing from pasture lands, distribute the mash in front of their line of march for a distance of a couple of hundred yards keeping also the margin of the pasture land treated daily until the danger of damage has passed.

"The mixture should be made exactly as directed, leaving out no part. Where the infestation is general, action is recommended. The materials should be provided in large quantities and a large amount of the mixture made up at a central place late in the evening, or better, well before daylight in the morning. Each farmer will then take his portion and apply immediately."

This quantity, according to the estimates, can be spread over an area of five acres. Arsenic can be obtained at a price ranging from 12 cents to 20 cents per pound. The maximum cost of all materials used in the formula is about twenty-five cents per acre, according to those experts.

And it is because of its cheapness and the hope of relief that West Texas farmers are turning their attention to poisoning the grasshopper. They hope to eradicate them. That is their vision and they hope to reach it.

The thing that has caused farmers to hold off from the use of arsenic is the fear of its terrible strength. The experimenters, however, declare these fears are baseless—where proper care and precaution are taken. Extreme pains should be taken to wash all utensils after the mash is mixed and to leave no amount loose where it could be eaten by stock or poultry.—Western Weekly.

CONDUCTOR HURT.

Conductor Lew Griffith of Big Spring was badly burned on the hands and one leg when oil overflowing in the cab of T. & P. locomotive 807 caught fire in the Sweetwater yard late Friday. The overflow was caused by the burner getting out of commission.

The locomotive, which was damaged several hundred dollars, was towed in to the Big Spring shops Friday night.

Little Miss Louise, daughter of C. H. Gunn of Cuthbert, was awarded the beautiful doll given away Saturday afternoon by the Garber Dry Goods Company. Louise won the doll for having made, with her own hands, the most beautiful dress offered in the contest. There were a number of children, some of them mere tots, who participated in the contest and made a dress for the doll.

CHORAL CLUB ENTERTAINS VISITORS WITH LUNCHEON

A most happy occasion was that of a luncheon for the Colorado and Sweetwater Choral Clubs, given by the Music and Choral Clubs of Snyder last Saturday.

Indeed, Snyder has done nothing so genteel for many moons. The guests arrived in the forenoon, and at one o'clock they were invited into the dining room of the Baptist church which held two long tables, artistically decorated with cut flowers, beautiful china and linen. Four courses were served in the grandest style by our Home Economics girls of whom we are all so proud.

Mrs. Fritz Smith was toastmaster and gracefully introduced the speakers of the hour.

Mrs. Hamilton pronounced the invocation and Mrs. Whitmore addressed the assembly with a few words of welcome. Miss Doris Daniels of Sweetwater responded heartily.

Mrs. Pruitt charmed the audience with a piano solo. Miss Vita Wasson read beautifully the old poem "Out Where the West Begins," and Mrs. Bell talked interestingly of music in the home. Mr. Dawes expressed genuine pleasure in the unity and progress of the Choral Clubs, and enthusiastically outlined his plans for the coming year.

The luncheon over, the Choral Clubs assembled on the platform and for one hour and a half entertained the audience with a wide variety of songs, piano and vocal solos, and duets.

Elegant as the luncheon was, and high class as the music was, we enjoyed most of all the neighborly spirit and co-operation which was manifested.

Snyder is doing things on a grand scale since acquiring one of the best music clubs and a Home Economics class that is able to serve menus fit for the queen's taste.—Scurry County Times.

STATE TEACHERS COLLEGE
ALPINE, Tex., May 27.—The enrollment in Sul Ross State Teachers' College is expected to break all previous records when the summer session opens June 4. The administrative offices have received an unusually large number of inquiries concerning courses and other information concerning the summer session, and all indications point to an enrollment of at least four hundred, according to Miss Anna D. Linn, Registrar.

Five members have been added to the teaching corps for the summer. They are Supt. King of Colorado, Supt. Melton of Alpine, Supt. Smith of San Angelo, Supt. Coleman of Miles, and Miss Marie Riddle of Waco.

A Cow can give milk to her fullest capacity only when fed the right proportion or balance of milk-making materials. Milk is made up of Protein, Carbohydrates, Fat, Minerals and Water, in proportions that, practically speaking, can't be varied. Instead of making imperfect milk, a poorly fed cow gives less milk.

Feed Purina Cow Chow

and your cows will get all the Protein and Calcium needed to balance your Carbohydrate roughness.

All we ask is that you give Purina Cow Chow a trial and let your milk scales show you why you should keep on feeding it.

O. LAMBETH

MISSION WORK OF PRESBYTERIANS COST TWO MILLION

SAN ANTONIO, May 27.—Missionary work, both foreign and home, of the Presbyterian church of the United States, cost in the neighborhood of \$2,000,000 the last year, according to a report of the executive committees on the two missionary branches before the general assembly of the church here today.

Foreign missions received a total of \$1,398,413 from all sources, including legacies, income from invested funds and all other gifts. This was one of the largest missionary collections in the history of the church. It exceeded last year's receipts by \$183,030, the report said.

The cause of home missions received \$584,253 for the year, an increase of \$54,426 over the previous year.

The Rev. Egbert W. Smith of Nashville, Tenn., is secretary of the foreign missions executive committee and the Rev. S. L. Morris is secretary of the home mission executive committee, the office of which is at Atlanta, Ga.

The church maintains nine missions on the foreign field, three in Brazil, two in China and one each in Africa, Japan, Korea, and Mexico. The total number of mission stations is 54 and there are almost 1,700 out stations. There are 507 men and women employed as missionaries in these stations with 3,600 native workers assisting them.

There were 5,626 communicants added to the church on the foreign field.

The native membership is now about 50,000 and the total Christian constituency is almost 125,000. The income from all native sources the past year was \$370,000.

The schools number 1,213, with a total enrollment of about 54,000. The Sunday schools number 1,592 and their enrollment is more than 85,000. In the foreign field the Bible is translated into the native languages and dialects, and in most cases mission printing presses publish Sunday school literature.

In the department of medical work there are 32 missionary doctors, 19 nurses 23 hospitals and 23 dispensaries, with 24 native doctors and 124 native nurses assisting with the work.

This report on home missions shows that during the year 1,250 home missionaries, including 446 wives of missionaries who receive no salary, have been supported in whole or in part in home mission fields of the church, these fields being on the frontier, in the mountains, among negroes and foreigners, and among other dependent and exceptional classes. The nationalities served are Mexicans, Cubans, French, Italians, Czecho-Slovaks, Hungarians, Syrians, Chinese, Jews, Indians, Caucasian and negroes. This committee has aided also 38 negroes who are ordained ministers serving 54 churches and missions, with 2,350 members and a constituency of 5,000.

This committee maintains 47 schools for dependent classes. Other schools maintained are a theological seminary for negro ministers at Tuscaloosa, Ala., a college for Indians at Durant, Okla., a hospital and orphanage in connection with Highland School at Guerrant, Ky., and a Mexican department for theological students at Austin, Texas. The committee has aided churches and schools to the extent of \$40,132 and has aided in the support of 35 evangelists, the report said.

J. Y. Fraser returned Sunday night from Baird where he spent last week visiting relatives. Mr. Fraser stopped at Baird on the return trip from the convention at Brownwood.

McADOO AND KLAN FORCES STORM WAGO CONVENTION

The McAdoo steamroller, supported strongly by the Ku Klux Klan bloc, stormed the convention hall at Waco Tuesday afternoon when the State Democratic convention got under way and swept the Texas delegation to the National convention into solid support for McAdoo, first, last and all the time. The Texas delegation, as it did in the case of Woodrow Wilson in 1912, will go to the National caucus in New York City directed to support its choice for the presidency so long as his name may be before the convention.

Alvin Owsley, former national commander of the American Legion, also developed a strong following at the State convention, and the demonstration for this strong potential candidate for vice president caused the most enthusiastic demonstration of the entire convention, surpassing that for McAdoo. The Texas delegation was not instructed to support Owsley, however, in spite of the fact, he was given a rousing endorsement for the vice presidency by the assembled delegates.

The chief points in the resolution instructed the Texas delegation to vote for McAdoo, first, last and all the time, instructed for an abrogation of the two-thirds convention rule. Senator Mayfield was warmly indorsed and Governor Neff's administration was indorsed. The Neff resolution said the convention had "confidence in the honesty and integrity of Neff."

Governor Neff was nominated as a delegate at large, one of the 24, but went on the stage and declined, saying he was not in accord with the instructed delegation.

WITH THE CHURCHES

METHODIST CHURCH
We will have two hundred and fifty in Sunday school next Sunday. We must hold it up to this number. Conditions now look good for a good Sunday school building in addition to the church. By all means we need and should have this building. We are easily able to build it. It would be one of the very best investments we could make in our children and young people. Modern Sunday school work cannot be carried on without proper physical facilities, and the modern Sunday school work is going to type the church of the future.

Brother S. C. Vaughn will be with us and preach Sunday morning. Of course all his old friends will want to hear him. We will also have the communion at the morning service. The officials some one or two weeks back voted to have our morning ser-

CANDIDATES

Each week adds the depth of maze and uncertainty in the people's minds as to who they want or should risk for their governor. About the time one makes up their minds, a certain man will do, here comes along conclusive proof that a mistake was about to be made. Then when one

fellow comes out and tells "record facts" a howl goes up that it's politics and not sincerity.

Helen Ma yand Edwina McDaniel, Dallas are visiting their aunt, Mrs. A. L. Whipkey.

Mr. W. H. Swafford made a business trip to Colorado Tuesday.

VICES but no services at night as long as the meeting runs. So remember, Services Sunday at 11 a. m. but no service Sunday evening.

We had a fine program last Sunday morning by the Sunday school. We wanted thirty dollars and got thirty-three. Thank you. I have never asked this church to do a thing yet but what they have responded. Can this be said of many churches? Come Sunday morning. All wanted and all our new people earnestly invited.
J. F. LAWLIS, Pastor.

BAPTIST NOTES.

Last Sunday was another fine day. 258 in Sunday school with 2 fine additions to the church at the 11 o'clock hour. We are dismissing the evening services in deference to the revival at the Tabernacle held by the First Christian church. Let's pull for a bigger Sunday school next Sunday at 9:45. Come over and help us. We will do you good.
M. C. BISHOP, Pastor.

Sunday School Picnic.

Members of the Episcopal Church and students of the Sunday school will meet at the church Tuesday at ten o'clock for the picnic at Pecan Grove.

EPISCOPAL PICNIC

The annual picnic of All-Saints' (Episcopal) Church school will be held Tuesday, June 3, at Pecan Grove (Looney's Ranch). The party will leave the church at 10 a. m. going via Loraine to this favorite spot. Every member is given the privilege of bringing friends, provided he secures transportation for the guests. Swimming will be among the many sports planned for the day.

BUSINESS OUTLOOK IS GOOD

Reported by National City Bank of New York.
So sound are the basic business conditions of the country that some observers believe the present slight recession of trade may soon correct itself, through the stimulation of lower prices. That is more attractive prices may increase the demand for goods enough to bring business back to normal volume. Consumers generally are able to buy when they like, and store shelves are not overstocked.

Other observers expect the acceptance of the Dawes reparations plan to have a marked effect on Ameri-

Hubbards

SWEETWATER, TEXAS

can business, creating a stronger demand abroad for American goods and spreading a spirit of optimism.

At the worst, only confirmed pessimists expect more than a moderate degree of dullness lasting through the summer. There is usually a natural pick-up of manufacture and trade in the fall, when the weather cools and the crops move. This year there will be the added stimulus of a political campaign ending. And there may be a still greater enthusiasm in the liberation of credit.

American bank vaults are bursting with gold. The gold reserve is twice the legal requirement, and more coin and bullion is coming into the country at the rate of \$1,000,000 a day. Only fear of dangerous inflation has kept the financial powers from making loans on a far more liberal scale. It is likely that business depression can be checked at any time by opening "the floodgates of credit" for new enterprises and larger business operations. Such action is anticipated by fall, at the latest.

READ THE ADVERTISEMENTS PUBLISHED IN THE RECORD

The advertisements printed in the papers are for the information of the public; they are a part of the weekly message of the paper to the readers. You may live right in the middle of town or if you live in the country and have a telephone and think you hear all the news that is going; it matters not how well you feel that you know it all, you will find something in your home town paper that will interest you. It is worth the price anyhow. It matters not whether you desire to buy anything at the time it pays you to read the advertisements. There is an advertisement in the Record that will be of interest to some of the readers. Read them all and find that which you are interested in. It is safe to say that seventy-five per cent of the people today trade by direction of the advertisements. They look for what they want advertised and then seek the place that sells the particular article. They are sold before they reach the store. Then the advertisement in the local paper shows whether or not the merchants of your home town are live and progressive; it shows if or not they want your trade. Tell your merchants that you saw their advertise-

ment in the Record. He feels better about having your trade because he knows that you read and keep up with the times. Its time well spent to read the advertisements in your home town paper. Try it.

The Loraine citizens now say they will carry unanimously a \$100,000 road bond issue to be supplemented by \$200,000 State and Federal aid to build a first-class gravel road from Colorado west to the Howard county line. Will they do it?

THE DIVIDING LINE.

During the past several months there has been considerable comment in the editorial columns of West Texas newspapers as to policy of the management of the West Texas Chamber of Commerce in extending its bounds gradually toward the eastern boundary of the State. Some of these publications have expressed much displeasure over the apparent plans of the management to dissolve the real meaning of the name, "West Texas Chamber of Commerce," and substitute in lieu thereof, if not in name, at least in fact, an atmosphere calculated to dissolve the exclusive West Texas spirit into a combination of interests from West, Central, South and East Texas.

This week the Lamesa Reporter takes issue with the management on this score and outlines some of the Central Texas issues which, according to the Reporter, are being injected into the spirit of the organization in its entirety. The West Texas Chamber of Commerce, the Lamesa Reporter outlines, was supposedly organized solely for West Texas and to fill an important niche in the development of this section of the State, but interests of Central Texas are fast assuming control of the organization and threaten to divert much of its influence to other sections of the State than West Texas.

The Reporter suggests organization of a "West Texas Chamber of Commerce" with first convention to be held in Amarillo next May, at the same time the Seventh annual convention of the present organization is being held at Mineral Wells. Just how far reaching the suggestion of the Lamesa Reporter may be, is to be seen. It is known however that there exists in certain localities and among active members of the organization a sense of dissatisfaction over action of the staff on this spreading out policy. Rumors were thick at Brownwood that the demand for retirement of the manager and his assistant would be brought onto the convention floor, but nothing developed. Members of the nominating committee sounded out the attitude of Col. C. C. Walsh toward the present staff before voting to recommend the San Angelo man for the presidency.

WE ARE WONDERING.

Col. C. C. Walsh, president of the West Texas Chamber of Commerce, has called for an executive session of the organization to be convened in Sweetwater Friday of next week. The Record is wondering if the official board will take any action on the protest filed a year ago by Colorado over the deal given the Colorado band contest at the San Angelo convention. At a meeting of the board of directors in Sweetwater last year, the two members from Colorado, supported by other West Texas men on the board, sought to carry this matter to the convention floor, but declined at request of the president and general manager.

Colorado desires nothing but fair play in this matter, and it is hoped that some explanation will be given as to reasons for setting aside printed rules governing the band contest, thus permitting Colorado to be defeated in the contest in competition with bands, which under the rules, had no right to participate.

NOT NEW HERE

The demand for organization of a building and loan association is no new thing in Colorado. In the issue of the Record for May 31, 1907, sev-

enteen years ago, considerable comment is devoted to tentative plans for perfecting organization of such an asset to the town. Considerable interest was being manifested in the proposed organization, the article stated, and the belief was expressed that before many weeks Colorado would receive the benefit of a local loan and trust corporation.

Evidently the proposed organization went by the ways, as it has done within recent months. From fifty to seventy-five new residences would be constructed in Colorado within the next ninety days if finances were available. Colorado has the money and the need for a building loan association. Let's follow up the start made recently by the Chamber of Commerce and complete organization.

FAITH BUILDS CITIES

It has been said of Messrs. Anderson and Prichard, owners of the oil corporation by their name, that they came to Colorado as the location for their Texas refinery because of the faith they had in the Mitchell county oil field.—Colorado Record.

Yes, truly cities are built on faith, as well as life itself is built on faith. The citizenship of any individual town must have faith in what they possess in order to impress others. In other words a town must of necessity be first sold to its citizenship. During the Tech contest last year much stress was placed on selling the proposition of locating the school. Through agitation faith was built up in all contesting towns in their chances of getting the school. The reaction in many of the contesting towns after they missed the location hurt to a more or less degree. But its constant faith in our towns that counts and that brings other people to the point where they become impressed with our advantages. If faith is lost sight of in town and individual living all would become stagnated—all would be lost. Colorado is going steadily forward and enjoying a growth second to none in West Texas, and it all can be attributed to the faith the Colorado people have in their town. Of course Colorado has other resources, such as oil field adjacent, but oil fields do not build towns of themselves. The people themselves build towns. No town can become any greater than its people determine to make it. As no stream can rise higher than its source, neither can a town become any greater than its citizens determine to make it. Snyder is enjoying steady growth also, but not in proportion to Colorado, and some of the towns on the Plains. Snyder is perhaps enjoying growth sufficient in some ways and insufficient in other ways. Colorado has put over considerable amount of paving recently which has added materially to the substantial status of the town. Snyder, while now enjoying the beneficial effects of an oil boom, there are many things we could do to better our condition and invite outside confidence and investment in the town. We speak of paving as the present outstanding need of the town. Nothing will add stability to the town like a well defined program of paving. We do not believe in booms for towns and believe that steady growth is the best for any town. There is always a reaction that ultimately follows boomed towns and countries.—Scurry County Times.

NEW ORGANIZATION URGED

The time had not come though we thought we saw the shadow of an oncoming disaster for the West Texas Chamber of Commerce when Central Texas was invited to membership. Some have said to you are a pessimist. Yet like conditions produce with few exceptions like results and it does not take a pessimist to reach a given conclusion from a given premise. Take human nature with a laudable ambition as a base and you can readily reach the conclusion unavoidably that West Texas has permanently lost the Chamber of Commerce.

We do not as stated before blame the Central Texas folk for wanting this organization. Certainly not. Would they be human if they did not? We want it don't we? Then are they less human than we? Our only hope

now is another organization with boundary lines which will guarantee equal rights to all sections of that organization. Can you hope to have it as it is? Certainly not. The towns are thicker and the population greater and therefore the voting strength such that it will remain in Central Texas. Central Texas does not want to visit or encourage the upbuilding of the West for from them we are taking choice population. The better opportunities which the West offers for investment is hurting those people and the destruction of these influences is only natural. If they can show that we are powerless they will show that Central Texas is the place for these same people to remain. When you attempt to put on an advertising campaign they will overwhelm you with numbers. The treatment our band received by other bands at Brownwood is one of the evidences if you want evidence. Our band never attempted a concert on the streets that from two to five bands did not march up and down the streets by and around them and play as loud as they could and at least beat the head out of their drums nearly to drown our band. Common courtesy demanded from one band to another when merely beating their drums that they silence their drums when passing a band giving a concert and march by to the music of the concert band. Did any of them do this? No. Our boys left the streets in disgust. This was not so at San Angelo. Not so at Plainview except where bands were actually contesting with each other in a spirit of fun. This applied of course between the bands playing for Mineral Wells and Amarillo. They were contesting the place. But this was not in any sense between Lamesa and any other band. They were merely furnishing entertainment for the crowds but they did not want our band heard. Let's organize a West Texas Chamber of Commerce. Let's hold the first meeting at Amarillo May, 1925. Come on if you don't stand up for your country no one else will. This is merely business. Drown the sentiment. Let's look at it as it is. Not like we hope for it.—Lamesa Reporter.

THE GOOBER-NATORAL RACE

Editorial in Lubbock Avalanche: Old Texas seems to be in a mess over the race for Governor. The primaries are not far off, still, few of the people—voters really know who is running for the office, and we doubt if some of the fellows who tossed their hat into the ring some time ago, have not just about forgotten whether they are running or just day dreaming. However, there seems to have been a few jostles occurred during the past few weeks that will give the students of the political situation with reference to the governor's race some new ground for their prognostications.

Several new twists have been injected in the past week. From the Robertson forces has come a denial of the report that Felix's name would be placed for endorsement before the Waco meeting. Prediction has been made from Fort Worth that the Tarrant County Klan would support Adjutant General Barton, and with the delay imposed by Ferguson as to what his next step will be with reference to placing his name on the ticket; meat a plenty is furnished for argument. Lynch Davidson is sawing wood with his restoration plan

claiming that he had "left a great consecutive measure for the state in status quo, knowing that his opponents, placing political ambition before general benefits for the state, would sooner or later take the bait. He challenges them to offer a better solution to save Texas' disappearing forests. Joe Burkett's name has been placed on the ticket and he has been calling for fair play on long time rural credits, soldier compensation and the abolition of useless offices. Pope has continued his attack against the adoption of the state text books Collins has turned his Ku Klux venom into denouncing the sending of rangers to counties when not asked by county authorities and to explaining why taxes cannot be cut. T. W. Davidson's fire still is leveled at Lynch, his late declarations being to the effect that if the latter saves the state \$10,000,000 biennially, except at the expense of the educational institutions, it cannot be done, which Lynch in turn denies. The other hand in the gubernatorial race—H. L. Darwin—still remains in the stable presumably being groomed to take after all of the other eight.

TURNING WASTE INTO WEALTH

By PHEBE K. WARNER

There is a lot being said these days about conserving our natural resources. And we often wonder just what that means. What are our natural resources? The air is one, I guess, and the rain is another and the soil and the trees and the gas and oil and everything that God gives us without working for it. But none of the things reach their highest state of efficiency without the touch of the human hand to bring them together in the form of food and clothing and shelter.

But there is still another natural resource in our State and nation that to us seems worth more than all the rest. And without this last resource there would be little need for any of the others in just a few years. And we are wondering how much time and how much thought the country at large is giving to the conservation of our BOYS. Just our BOYS. When we are counting up our profits and loss to the nation in the matter of conserving our natural resources how often do we place the right value on a boy's life?

When we are building our schools and colleges how often do we study the real needs of the boys in the community and then build schools to fit the boys of today and their needs of tomorrow. And how often do we study just our tax records and our pocket books to consult our financial feeling rather than the needs of the 20th century boys and then build our schools to fit our out-of-date ideas of boys instead of giving every boy in this land a chance to be all that is in him?

what they ought to be. The schools in every county are going to be just what the people in each county want them to be bad enough to make them come up to their ideals. A few years ago the boys in our State were given so little thought that a great majority of them dropped out of school. Whole graduating classes came and went without a boy in them. And seldom ever did the boys equal in number to the girls. What was the matter? Was the trouble with the boys or the school?

We leave that for you to answer for yourself. The source of trouble must have been in the home because the school belongs to the people ought to say what they want in a school and then put it there. But the boys could earn more money in their youth than girls. Therefore they were allowed to go to work earlier. If there was a vacancy in the earning power of the family the boy was supposed to fill it. Anyway, what could girls do without a high school education to help support the family? Boys have been imposed on financially by their own folks.

Another reason and a good reason why more girls stayed in school than boys was because more things were provided in the school course that fit girls than boys. Nearly every high school has music for its girls. What does it have in the place of it for the boys? And many schools have had art for the girls. And of more recent years domestic science has been provided in our schools for girls. But just what does the average high school have even to this day of special interest to boys and their work and their life? Answer—Athletics.

Come To Think Of It

WHY is it that the most successful merchants in the world are the biggest advertisers?

I WONDER if they are all fools, and I am the only wise bird.

CAN it be that in the great business parade everybody's out of step but Kelley?

MAYBE I'd better think it over.

Reflections of a Local Storekeeper who says it does not pay to advertise.

Athletics is holding more boys in school today than any other one study in the whole course. And we are glad because by staying in school for the joy of athletics a lot of boys are subconsciously passing through their years of greatest temptation and gaining valuable knowledge that they can and will use when there is no chance for them to play football. But boys deserve more than athletics in their school courses. Besides athletics does not reach all the boys. Athletics as a rule soon eliminates all but a few stars and the great group of boys get little athletics. But they love to be in the school where other boys are doing things if they do nothing but boast and "holler" for their school mates.

But there is a work offered by our State and nation to every high school and every rural school that will help pay for it that ought to be installed in every school wherever there is a class of boys. It is the Smith-Hughes work. Agriculture, poultry, seed testing, shop work, manual training, dairying and every thing that leads a boy out to do his own thinking.

Turn a boy loose with some tools and watch his mind grow. Watch his constructive nature expand. Who knows how many great inventors have gone through your school for a few years and dropped out never to be discovered because there is nothing in your school to bring out or electrify the genius hidden in your boys? A few weeks ago we saw an exhibit of tools made from the old iron of a Ford car. Thirty-five useful tools made from waste material. And a group of the happiest and proudest boys standing around to tell you how it was done. The boys were the farm shop class of the West Texas State Teachers' College of Canyon, Texas. The tools were the products of their heads and hands. Think of the money and time such knowledge will save those boys in the years to come. And that was just one lesson in turning waste into profit. If they can pick up an old piece of iron and turn it into a useful tool they will be looking for something useful in everything they see. They will be able to take an old, worn-out farm some day and turn it into a good one. Another boy picked up an old cedar post and he saw in it a cedar chest and proceeded to saw it out and put it together. And in a few hours he had transformed a piece of wood that most of us would have burned into a beautiful and useful piece of furniture.

Is such education worth giving to the boys? Are the boys worth it? Our BOYS are our greatest natural resource. But there are more boys' brains and talents and genius and power to do good going to waste than anything else. And the most of us, even their own fathers and mothers sit quietly by and let our boys go to waste.

Preparations are being made by the A. & M. College of Texas for the opening of the summer course of 8 weeks gas engine, automobile and tractor course, on June 18 and 25. These two dates are the ones set aside for the opening of this course and boys as young as 16 may enter.

A BIG WEST TEXAS ENTERPRISE

One of the largest new enterprises in the West is the Gypsum plant at Sweetwater. This concern so far has had but little publicity and yet it means a great deal to all West Texans.

Today the final unit—a sheetrock wallboard mill of the \$1,000,000 plant of the United States Gypsum Company here, began operating. This marked the completion of an industrial establishment begun last August which will employ 150 men and will produce at a daily rate of 400 tons of plaster and 150,000 square feet of "fireproof lumber." Situated in heart of one of the most extensive gypsum deposits in America, it will develop on a great scale another of the State's natural sources of wealth.

From 150 to 250 men have been at work establishing the plant of the new industry constantly dur-

ing the last eight months. Construction has been rushed and completion reached a month ahead of schedule. The first unit, the rock crusher, was finished two months ago and on March 21st the first large shipment of gypsum rock went to the Portland Cement Company, for use in the manufacture of cement. The second unit, consisting of the crushing, calcining and mixing plants went into operation April 1.

Need for quicker and more economical service in gypsum building materials in regions where wood lumber is scarce was the primary factor determining the location of this industry here. Another factor was the opportunity presented by the Texas gypsum deposits which, at this point, are equal in quality to the best in the United States and are estimated to be of sufficient extent to supply the construction industry of the entire country, at the present rate of consumption, with gypsum plasters, wallboard, sheathing, floor, roof and partition tile for the next 100 years.

Responding to this need and this opportunity, the United States Gypsum Company began prospecting several years ago and in 1920 purchased 1,000 acres of land three miles east of Sweetwater. It also has received in fee some 800 acres and holds under lease several hundred acres more.

These lands are located 220 miles west of Fort Worth on the main line of the Texas & Pacific and the Santa Fe railroads. They also are within easy access of the Kansas City, Mexico & Orient and other transportation systems. These facilities make possible several advantages to building materials dealers, contractors, architects and owners, not only in Dallas, Fort Worth, San Antonio, El Paso, Galveston and Houston, but also in all the smaller communities throughout the State. Centrally located the new plant will be able to supply gypsum consumers by the shortest

possible freight hauls, reducing the transportation costs and assuring speedy delivery.

This mill is the only one in the State producing wallboard and other gypsum products; the Gypsum Company has obtained from the railroads the stop-over privilege, which means that dealers in even the smallest communities will be able to order mixed cars of Sheetrock wallboard, plaster, lime and other commodities to be shipped at carload rates.

Quarrying already is under way on the property adjoining the mill; mining will be resorted to later, for there is a second vein of gypsum underlying the sandstone stratum which forms the present bottom of the quarries. From these two forms of gypsum are obtainable at low costs, Gypsite, or gypsum earth, which contains a percentage of clay and from which dark plaster—haired, fibred and plain—is manufactured, and Gypsum, the pure white calcium sulphate rock, which is worked into Sheetrock wallboard, Textone wall decorator, Gyp-Lap fireproof sheathing and the finest plasters for wall finishes, for dental and orthopedic surgery and for use in the moulding of pottery, in modeling sculpture and in the manufacture of glass. The presence here of both forms of the mineral makes possible the manufacture of scores of commodities including "land plaster," or gypsum fertilizer.

In expensiveness volume and value of output and modernity, Sweetwater's new industrial establishment is one of the leaders in this part of the state. Compared with other gypsum factories, it is the most up-to-date and efficient in America. It is fireproof and permanent throughout, constructed entirely of concrete and steel. It is run by electricity generated by two immense turbine engines in its own power plant. Oil from the Texas field is used in heating and generating power as well as in calcining process. Though the mill now is considered by its builders to be complete, additional units for the manufacture of gypsum roofing materials will be constructed in the future.—Sweetwater Reporter.

Boycotting is wrong in principle and is rarely ever justified under any circumstances, but if it ever was justifiable, it would be when a man who makes his living through the graces of public patronage, and makes it a point to knock his town

BALMY DAYS BRING OUT THE VIVACIOUS SPORTS FROCK

There is something new in sports frocks this spring—it is the pretty and vivacious two-piece affair made of dependable fabrics, and in a casual style, that just suits our up-to-date women. When the wind is from the south and the sun shines, out come these frocks for out-dooring. They are interpreted in several different kinds of materials, including some alluring novelties, with French flannel, alpaca, wash silks, wool crepe and the always-good pongee or linen, offering choices that cannot be anything but good.

In many of these frocks a plain material is used alone, or two colors, in the same goods are used together, as when white is used with green, brown, blue, or other color, in French flannel. But more assertive patterns are well represented, in which plaids, stripes and cross-bars are cleverly used, very often in combination with plain goods. Designers are distinguishing them-

selves in these frocks that put their resourcefulness to the test in combining utility with chic style and durability with daintiness. The color combinations in plaids, or in the striped and barred materials, prove an incentive to the introduction of matching accessories in ties, scarfs, pipings or buttons. The shirt-bosom vest is a new style note, allowing the introduction of white or a color in the blouse that is eloquent of this particular spring. But sometimes the shirt bosom is merely hinted at, by means of braid or of tucks as in the frock pictured here. Any of the fabrics mentioned might be used for this model which has a plain skirt and a slip-over blouse that is tied toward the back. This simple-seeming dress is a masterpiece of good designing—furnishing a perfect equipment for joyous spring and summer days.

Pigs Should Be Crowded for Market by Feeding

Fall pigs should be crowded for market as fast as possible. Most economical gains will be made where plenty of protein is provided. Each pig should have one-half pound of tankage per head per day as a source of protein. Skimmed milk may be substituted for tankage, but it requires one gallon of skimmed milk to equal one-half pound of tankage as a source of protein. Free access to alfalfa hay in addition to tankage and grain will also help in reducing production costs.

Mr. J. C. Finley of Ft. Worth is here visiting his son, T. F. Finley and family of Silver.

NOTICE OF HEARING TO APPROPRIATE PUBLIC WATERS OF THE STATE OF TEXAS—NO. 830.

Notice is hereby given, to whom concerned, that M. W. Fry, the post-office address of whom is Colorado, Texas, did on the 28th day of April A. D. 1924, file his application in the office of the Board of Water Engineers for the State of Texas, in which he applies for a permit to appropriate of the unappropriated waters of the State, from the Bone Hollow, a tributary of the Colorado River, in Mitchell County, Texas, sufficient water for mining and irrigation purposes, to be impounded in a reservoir, created by the construction of a dam, and diverted by means of a pumping plant, said dam to be located at a point which bears S. 13 degrees E. 700 feet, thence N. 77 degrees E. 520 feet from the N. W. corner of Section 30, Block 26, T. & P. Survey, on the bank of Bone Hollow, in Mitchell County, Texas, and is distant in a Northwesterly direction from Colorado, Texas, 2 1/4 miles.

You are hereby further notified that the said M. W. Fry proposes to construct a dam of earth, 20 feet in height, 400 feet in length, having a top width of 10 feet, and a bottom width of 80 feet, thus creating a reservoir having an average width of 200 feet, length of impounded water 2,930 feet, an average depth of stored water ten feet, and having a storage capacity of 133 acre-feet, and to impound therein, and divert therefrom not to exceed fifty acre-feet of water per annum for mining purposes, and sufficient water for the irrigation of forty acres of land.

A hearing on the application of the said M. W. Fry will be held by the Board of Water Engineers for the State of Texas, in the office of the Board at Austin, Texas, on Monday, June 30th, A. D. 1924, beginning at ten o'clock A. M. at which time and place all parties interested may appear and be heard. Such hearings will be continued from time to time, and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

Given under and by virtue of an order of the Board of Water Engineers for the State of Texas, at the office of the said Board, in Austin, Texas, this 9th day of May A. D. 1924.

JNO. A. NORRIS,
C. S. CLARK,
A. H. DUNLAP,
Board of Water Engineers.
Attest—A. W. McDonald, Secretary. 6-20-c

Practical Nurse Tells

Mrs. N. E. Snow, of Route 1, near Paris, Tenn., tells the story of her experience as follows: "I am 62 years old and I have been a practical nurse for more than 20 years, taking mostly maternity cases. One of my daughters suffered from cramping at . . . She would just bend double and have to go to bed."

CARDUI

The Woman's Tonic

was recommended to her and she only had to take about two bottles, when she hardly knew that it was . . . she suffered so little pain. "My youngest daughter was run-down, weak and nervous, and looked like she didn't have a bit of blood left—just a walking skeleton, no appetite and tired all the time. I gave her two bottles of Cardui. It built her up and she began eating and soon gained in weight and has been so well since." Cardui, the Woman's Tonic, has helped suffering women for over forty years. Try it. At all druggists. E-100

Tick Eradication Is Big Aid to Dairying

Fast Becoming Profitable Industry in the South.

(Prepared by the United States Department of Agriculture.) The systematic drive for the eradication of cattle-fever ticks in the South is to a large degree responsible for the development of a prosperous live-stock industry, for which the South is well suited.

Recent reports to the United States Department of Agriculture from various sections of the South show that dairying is fast becoming a permanent and profitable industry there. South Carolina reports that the small farmers are finding a good source of revenue in the dairy business. One creamery alone is paying the farmers an average of \$250 daily for cream.

Mississippi likewise is becoming a dairy state. A few years ago there was an inadequate milk supply for local consumption in some Mississippi cities, and milk had to be shipped in from other states.

Through systematic dipping, cattle ticks have been largely eradicated. In regions entirely free from ticks, herds of well-bred dairy cattle are now found and are meeting the local demand for milk and dairy products. In fact, considerable quantities of milk are shipped to New Orleans and other distant markets.

Southern dairymen are also showing a keen interest in live-stock improvement. Many are breeding common herds up to high-grade stock by using pure-bred bulls. Various educational and commercial agencies are encouraging and assisting in the establishment of high-class dairies.

Turkeys, Ducks and Geese Easily Killed by Vermin

Turkeys, ducks and geese are more easily killed by the head lice than are other kinds of farm fowls. The lice are only one of the six or eight forms which bother poultry, but a single head louse has been known to kill a turkey. It is a grayish white louse, and the most serious of them all.

For treatment, dip the tip of the finger in melted lard and rub this well around the comb. Dip again and rub back of ear, repeating for the other ear, the bill and jaw. This does not give the head a greasy appearance, but is enough to destroy the lice. A few drops of kerosene, carbolic acid or stock dip may be added to the lard, to make it more effective. The bird should be kept in a warm place for a couple of hours after this treatment has been given.

Not every mouse can Scare an Elephant

There is a legend that elephants are afraid of mice. The contrary is amusing. It tickles the funny-bone, and interests folks. Hence it gains belief. Yet circus men will tell you that there are many safer places than an elephant's pen for a mouse bent on bullying.

But the fable lives as persistently as another fiction—the one that advertised goods cost more than goods not advertised. Here, too, the truth is the other way around.

As a matter of fact, manufacturers who advertise increase the demand for their goods, which naturally increases their production. This means that each article they make is made for less money than otherwise would be possible. This in turn means that they can sell for less.

Merchants who advertise, bring crowds of people into their stores. The more customers the quicker the merchant's stock is sold, and the sooner his cash is available for reinvestment. All this means that he can afford to do business on a smaller margin of profit than the man who depends on fewer sales to pay expenses and gain a profit.

If you want to buy economically, buy advertised goods, and patronize merchants who advertize.

ADVERTISEMENTS TELL YOU WHERE TO GET YOUR MONEY'S FULLEST WORTH.

**PLANS BEING DRAWN FOR
MODERN BRICK BUILDING**

Plans for a modern brick and stone building, at corner Second and Elm streets, are being drawn by architects, Max Berman of the Colorado Bargain House, stated Wednesday. Mr. Berman stated that the building would be financed by Levy Brothers of Sweetwater, and L. Landau and himself of Colorado.

Berman stated that it had not been definitely determined as to whether the building would be one story or more. Plans for a building one story in height and another for two stories are being drawn. The building, however, will have frontage of seventy-five feet on Second and one hundred and fifty feet on Elm. In case the building is constructed only one story the foundation and walls will be constructed to carry two additional stories.

The old opera house block, one of the landmarks in Colorado, stood at this corner forty years and burned to the ground a few weeks ago. Owners of the property announced soon after the fire that a modern building would go up on the site.

100 GRADUATES.

ABILENE, May 30.—Commencement exercises of Simmons College will be observed June 5th, and Dr. Harold Majors, pastor of the Gaston Avenue Baptist church of Dallas, will deliver the thirty-third annual commencement address of that institution. Exactly one hundred students are enrolled in the senior class of Simmons and will receive the A. B. degree this year. The number of graduates was announced some weeks ago as 94; but since the announcement six more have qualified in the matter of credits, and one hundred men and women will be graduated from Simmons for 1924, by far the largest graduating class the college has ever had. About three-fourths of the number will complete their work and receive their diplomas at the June commencement, and the other fourth will take their degrees at the end of the summer session.

E. KEATHLEY, Clerk.

PLEASED WITH COLORADO

The Skyhne, the Sul Ross College paper at Alpine, has the following to say:

The program at Colorado was heartily received, and gave Sul Ross a higher standing among the Teachers Colleges. The Orpheus Glee Club sang the Alma Mater, followed by "Excelsior," and when encoored gave "The Cavalier Song." The one-act play, "Maker of Dreams," given by Hub Hext, Mollie Lee Bowles, and Richard Gillespi, was a great success. While in Colorado City, the Glee Club visited the high school, where they heard the school orches-

tra play, and sang a few numbers. Mrs. Wipkey gave a delicious luncheon at which the high school and Glee Club members were the guests.

This was the last town visited. From Colorado the party returned to Alpine, and the members were so full of pep that they brought the Orient into Alpine thirty minutes ahead of scheduled time.

SUMMER SCHOOL.

I will start a summer school Monday, June 2, at 9 o'clock at my home, all children who are interested see me for terms.

MRS. J. F. QUINNEY.

**DELAYS ARE
DANGEROUS**

**GARBER DRY GOOD COMPANY
Started Something**

Two weeks ago, we gave every little girl between the ages of six and fourteen years, the opportunity to see just how nice she could make a doll dress. We are glad to know that scores of the girls accepted the opportunity, and the majority of the work was so nice, and neat, that it was, in fact, very hard for the judges to decide which was the best work. Our store was crowded with ladies and girls Saturday and all appeared to have a good time looking over the doll dresses, and getting acquainted and passing off the evening in a very pleasant way. The contestants were well represented from all parts of Mitchell County. Little Miss Louise Gunn, eleven years old, of Cuthbert, Texas, received first prize, and little Miss Mabel Ratliff Majors, seven years old, of Colorado, received second. We want to especially thank the three judges, for their work in the contest, they were so careful and thoughtful in detecting any little error that no one except the very best of seamsters could possible detect. Mrs. W. P. Edwards of Colorado, Mrs. Van Boston of Westbrook and Mrs. Harry Cranfill of Loraine, was the judges in the contest.

REMEMBER WE SHOW THE NEW THINGS FIRST,

Garber Dry Good Co.

LYNCH DAVIDSON.

Part of Lynch Davidson's speech for Governor:

"Once upon a time there was a railroad—your railroad," he told his audience. "It cost \$650,000 to build and in ten years of its operation from Rusk to Palestine it absorbed \$80,000 a year losses or \$800,000 of your money, \$110,000 from the school fund of Texas. In all the politicians had sunk \$1,450,000 of your tax money into it. I went to the legislature and as a legislator, senator and lieutenant governor I saw a bill bob up three times proposing to sell, junk or give that road away for a dollar to anybody who would operate it—anything to get it off the back of the penitentiary system so that institution could blossom like a green bay tree." The railroad is off the penitentiary's back, but the bay tree blossoms are still lacking. Anyway, the state finally made me manager of that road, permitted me to name two associates, better than whom in Texas there are none, in J. A. Glenn and E. C. Durham. And in passing I want to say those men performed their services without a dollar of pay out of pure patriotism for their state, the type of men I am going to appoint when I am your governor. And we tackled rehabilitation of that road, the state having voted us \$25,000 to do the work with."

Lynch Davidson described his feelings as he looked upon the road for the first time as a warning to himself that "Lynch, you've got a hold of your last buzz saw."

"But we tackled it," he continued. "In trying to haul a car of brick the 32 miles we wrecked it eight times. The \$25,000 wouldn't have cut the grass off the track. That's a specimen of what politics and politicians do to you. But today there's a first-class railroad there, new 80 pound steel from end to end, new cross ties and bridges with additional terminal facilities worth a million dollars of anybody's money. As comparative to the wrecking of that car of brick, we recently hauled over that road the

heaviest train equipment in the world and the most valuable cargo, the Sells-Floto circus. We picked it up at Rusk, yanked it over to Palestine, opened the doors and let the animals out in 45 minutes."

**MEN NOT IN S. S. MAY
25TH PLEASE READ**

Our class has enrolled 46 this quarter and had 22 of them present May 25th and had 5 visitors. We rejoice at the growth and increased interest in the class. Members not present last Sunday are urged to come June 1st and bring some one with them. New members and visitors are wanted also. Come on and worship with us.

Baptist Men's Class.

THINK IT OVER
El Paso Creamery Co.
El Paso, Texas

One remarkable thing about our S. S. is the regular attendance of such a large number of adults. Old people and young people alike take special pride in being at S. S. on time with a studied lesson. R. A. Edwards, teacher of the young men's class, always has a splendid attendance. Last Sunday he had 28. Our school is out growing our building. Already some of our workers are dreaming of building a new church. God speed the day. The League, the Missionary societies are all thriving, for which we thank God, and take courage. Let every one come and help us in all our services. Let us all strive to attain unto higher heights.

H. W. HANKS, Pastor.

At 11:30, Saturday night, May 17, Mr. L. J. Barratt passed from his loved ones and the weariness of life on earth to join those he loved in the realms of life beyond. Funeral services were conducted by Rev. Farris of Sweetwater and Rev. H. W. Hanks at the Champion Baptist church Sunday at 4 p. m. with burial at the Champion cemetery. Mr. Barratt was 37 years old. A resident of this county for a number of years and prominent farmer when his health failed a few years ago. He professed Christ in 1912 and joined the Baptist church. He is survived by a wife and four children. Friends and acquaintances of the deceased join with the bereaved relatives in sorrowing.

Rev. W. A. Foster of Abilene has been unanimously called as pastor of the First Baptist church here. He cannot be here the coming Sunday owing to other engagements but will preach the third Sunday. He is well known by many people of this county and comes with splendid recommendations. Everybody is cordially invited to attend the services. A children's day program will be rendered at the church at the morning hour, Sunday, June 1st.

The Baptist W. M. S. met with Mrs. Lee Kidd for their monthly missionary program Monday afternoon. The subject was the "Sisterhood of the Americas" about twenty five ladies were present. Delicious refreshments of ham sandwiches, pickles, coffee, pie, fruit with whipped cream and cake were served.

Mr. and Mrs. A. M. Jackson and Mr. and Mrs. Earl Jackson reached Los Angeles, California, Saturday afternoon, May 16th. They had a pleasant trip and are delighted to get back to that land of fruit and flowers. Their letters tell of one beautiful place after another which they have visited.

Mr. and Mrs. R. H. Bennett and Mr. Samuel C. Harris attended the closing exercises of the Daniels school Friday night.

Mr. A. Phillips left Sunday morning on the Sunshine special for Dallas to attend postmasters convention, also the State Republican convention which convenes Monday and Tuesday.

Mr. and Mrs. J. W. Roberts were in from Champion Tuesday visiting and trading.

Mr. and Mrs. J. R. Minnich of Westbrook were in the last of the week shopping.

Mr. Steele, special agent for the N. S. Insurance Co. has been here making adjustments for the recent hail damages this week.

Mr. and Mrs. S. C. Harris visited at Tahoka last of the week.

Mr. and Mrs. Alfred Richey and family and Mr. S. M. Hallmark, are leaving this week for Houston to visit.

Mr. and Mrs. G. A. Hutchins, B. Templeton and wife, spent Saturday and Sunday in Merkel visiting relatives.

Mrs. Frank Bryant of Westbrook is visiting in the W. H. Finley home this week.

Mr. Stratton Connally of Whitney was a business visitor here Monday.

Mrs. Bernard Hamilton of Roscoe and sister, Mrs. Stratton Connally of Whitney were the guests of Mrs. C. F. Glass Monday afternoon.

Mr. J. R. Pickens and wife of near Colorado were visitors in the J. S. Muns home Sunday evening.

Mr. S. T. Muns of Brownwood is visiting his brother J. S. Muns and family this week.

Mr. and Mrs. W. P. Hairston and Mrs. J. E. Hairston of China Grove were in shopping first of the week.

Mr. and Mrs. William Martin motored to Roscoe Sunday afternoon.

Rev. C. S. Williams of Abilene was a Loraine visitor Monday.

Mrs. Jno. F. Dale arrived Monday from Dallas for a few days visit.

Mr. T. F. Finley and family of Silver and Mr. and Mrs. P. S. Rozel were in on business Monday.

Miss Inez Casey of Matador is here visiting among friends and relatives.

Mr. and Mrs. T. R. Bennett, Mr. W. F. Altman, Mrs. C. M. Thompson and Mrs. I. J. Pierce composed a fishing party to Champion Thursday. Report plenty of fish and a very enjoyable day.

Rev. W. D. Green, wife and daughter of Big Spring are visiting in the Jim Green home at Baumann this week.

Mose Allen of China Grove was a business visitor Tuesday.

Mrs. Maud Soot and Mrs. Logan Spalding of Colorado, were in shopping first of the week.

Miss Bernice McDonald of Westbrook visited her sister, Miss Elon, Sunday.

Miss Mable Kirkpatrick who has been visiting here visited friends at Hermleigh last of the week.

Miss Nell Meushaw and brother, Joe of San Marcos, are to be here this week to spend the summer with their aunt, Mrs. J. L. Johnson and other relatives.

Mr. and Mrs. John Lindsey returned Sunday from Blackwell where they spent the week-end.

Mr. S. D. Vowell and sister, Mrs. George Gates of Hyman were in on business Tuesday.

Miss Lucy Norman leaves Sunday night for Denton where she enters C. I. A. for the summer.

Mrs. W. S. Brown entertained a number of her friends on Tuesday afternoon with 42 refreshments of cake and cream were served.

Miss Alma Smith has accepted work in the intermediate department of the Brownlee school for next term. Miss Smith leaves Sunday night for Canyon normal.

Miss Beatrice McGee returned home Sunday morning after a three weeks visit with friends and relatives in Ft. Worth and Cleburne.

Messrs Ellis Knight of Midland and Ralph Umberson of Stanton were here Saturday for a short while on their return from Sweetwater, where they attend the Ford people's convention.

Mr. W. R. Rhodes and family of Pecos visited a short time, with friends here Tuesday on their way to Abilene.

Rev. Albert Ruff filled his appointment at Big Spring Sunday. Mrs. Ruff and sister, Miss Sofmann accompanied him.

Services were well attended at the Christian church Sunday 11 a. m. Elder R. C. Ledbetter of Roscoe did the preaching.

Waco and Corpus Christi. Mrs. McGee and son Noble accompanied them.

Senator Joe Burkett of Eastland candidate for governor of Texas, met the people of Loraine in an address Saturday four p. m.

Elder R. C. Ledbetter left Monday for Graham where he goes to conduct a meeting.

J. W. Edmondson was home from Abilene for the week-end.

OUR BREAD Is Always Good

Of course there are a number of reasons why our bread is always good, but the one big reason is we always use the purest and best ingredients in making it.

If your family is one of those who never have eaten much bread—try a loaf of ours today.

OIL TEST FOR LORAIN.

Work was commenced Thursday on the erection of a derrick on the W. C. Brown farm about a mile northeast of town for an oil and gas test. Mr. John Kegans is building the derrick. We will give a more complete report next week.—Lorraine Leader.

The success of the Abilene Chamber of Commerce "loyalty campaign" designated to bring 1,000 members and a budget of \$21,000 to the organization, should make every citizen of Abilene feel proud of their community spirit.—Abilene Reporter.

Call me for good Coal Oil in fifty gallon lots or less.—J. A. Sadler.

"Best By Test"

When a business shows a consistent growth it's the best of quality plus price and service that is most to the customer for the dollars expended.

THAT'S WHY OUR BUSINESS IS GROWING

We want to serve you with the very best we have, and our best is the very best, and the housewife who markets with us knows that every time her Groceries are placed on scales they register full weight in quality and satisfaction.

MAY WE HAVE A CHANCE TO PROVE THIS TO YOU?

PRITCHETT GROCERY CO.

**ANSWERING
Your Grocery Needs**

Our belief is that the grocery business should be on a service basis and we conduct ours along that line. That's one of the many reasons why we keep our stock complete and fresh. Then, too, we give you quality goods with the service we render, making it doubly important that you come to our store for your grocery needs. Whatever your grocery needs let us fill your order for you. Just name the goods you want and we will take pleasure in supplying them.

H. B. Broaddus & Sons

GOOD GROCERIES—TWO STORES

Red Bottom Tanks

Warranted for 5 years—and the warranty is stamped in the side of each tank with a steel die. You can't lose it. It can't wear off. 30 years of tank making experience is built into Red Bottom Tanks. Tens of thousands are made and sold yearly at the lowest possible manufacturing cost. They cost you less. They last longer.

Two styles—the round and the oblong with round ends. Made of select galvanized steel. Reinforced at top with patent Tube Top, at bottom with Double Lock Beam. Sides made doubly strong by 2 triple corrugations. Solder is sweet into all seams. Entire bottom and lower edge coated, inside and outside, with rust-preventing paint made in our own laboratories. Applied by special heat process.

Look for the 5-year warranty stamped in the steel. Not genuine unless so stamped.

AMERICAN FARM OUTLOOK FOR THE CURRENT YEAR

The labor situation prohibits much expansion in production. The corn crop is likely to result in an over-production this year. The wheat situation is becoming more favorable with reduced acreage. Hogs are moving fast at low prices. Breeding is likely to decline heavily. The interest in chickens is still going strong with a record production.

Tobacco growers are planning for about the same acreage as last year. Cigarette tobaccos are in demand and acreage expansion is likely in those types.

The South is planning for a considerable increase in peanuts. The peanuts stocks on hand and increased imports should forewarn growers.

There are prospects for the largest sweet potato crop on record. The largest expansion of peanuts and potatoes is in the boll weevil area. Considerable increase in South's Irish potato crop is probable.—Frank Parker in The Progressive Farmer.

TEXAS INDUSTRIAL REVIEW.

The highways throughout this country will be immeasurably improved by removal of unsightly bill boards. Legislation is bringing this about in some states and in others the removal is voluntarily made by advertisers who wisely prefer to gain publicity through the local newspapers.

Celina—\$15,000 bond issue to be voted on for paving streets.

Marlin—New tourist park, just north of city, opened.

Lometa—\$200,000 sawmill, for manufacture of hardwood products, being erected.

Dallas—Remodeling of coliseum planned for near future.

Sandy Ridge—\$10,000 bond issue voted for construction of modern school building.

One hundred per cent lamb crops being reported by sheep men in Crockett and other West Texas counties.

Commerce—Cornerstone laid for \$275,000 Education auditorium building.

Houston—Independent school district to vote on \$3,000,000 bond issue Texas to plant 30,400 acres to watermelons, according to bureau of agricultural economics.

Houston—\$500,000 mill for manufacture of cotton blankets to be erected on 114-acre site; to employ 400 people working three 8-hour shifts, 225 looms will be in operation.

Wichita Falls—Interstate Refining Co. sells hal interest in Archer county holdings for \$100,000.

Austin—Contract let at \$201,000 for construction of first unit of University of Texas stadium with seating capacity of 28,000.

Olney—Street paving program to be under way soon.

More than half the cotton seed oil produced in the United States this year will come from Texas, according to report of United States Census Bureau.

Fifty-three new oil companies with total capital investment of \$9,124,000 were formed during April.

Fort Worth—McCorkle Pipe Line Co. to construct 40 to 70 oil tanks.

Prairie Lea—A. J. Baker brings in well flowing 2,600 barrels pipe line oil.

Amarillo—Six-inch pipe line to be built from oil field to this city at cost of \$50,000.

Webb county grows million dollar crop of spinach.

San Marcos—\$1,000,000 textile mill to be built here; it is estimated industry will add 2,500 to population in two years and 4,000 in ten years.

Larado—900 car loads Bermuda onions shipped from here this season.

Yoakum—Good roads campaign planned.

White Deer—Actual construction of \$20,000 cotton gin to begin soon.

Junction—Machinery arrives for new ice plant.

Austin—Construction of two huge reservoirs proposed on Pecos river in \$2,000,000 federal water power project.

Ft. Worth—Star Tank Car Co. to commence construction of plant on four-acre site on Saginaw road.

Georgetown—Library building to be erected at Southwestern University.

Big Spring—First State Bank building to be remodeled at approximate cost of \$20,000.

Richmond—Contract let at \$104,402.60 for construction of bridge across Brazos river.

E. K. Warren and Sons of Three Oaks, Michigan, \$3,000,000 livestock concern, granted permit to do business in Texas.

Texas oat acreage greatest ever known.

McKinney—Ground broken for \$200,000 garage building.

El Paso—Electric Railway Co. to spend \$1,750,000 for improvements this year.

LOCATES IN CALIFORNIA.

Word has been received from A. M. Jackson and party that they were nearing California Thursday night and expected to reach Los Angeles Saturday night last. They had stood the trip well—that far.

Mr. and Mrs. Jackson have lived in our town some seventeen years and have had an active part in every movement for the upbuilding, of same.

Since Mr. Jackson has sold his home and all other property here, it seems as if he intended to stay in California for good. We can only hope that in that land of flowers and fruit they will find greater joy than we could give them and thus their days of usefulness will be prolonged.

—Lorraine Leader.

Colorado friends of Earl Jackson received a letter that he and Andrew Cooksey had formed the California Produce Brokerage Co. and would ship refrigerated California fruits in car lots to Eastern and Texas markets.

DIED.

Mrs. Sallie Baker in the Lone Wolf community died at Sweetwater last

when you ask for "Oil" we bring out

TEXACO MOTOR OIL

every time. That's service.

Texaco motor oil is always good "body," whether light, medium, heavy or extra heavy, and always a clear, pale color.

week and was buried on Sunday in the Lone Wolf cemetery. Mrs. Baker was the daughter of Mr. and Mrs. J. H. Haggerton and a niece of D. L. Beeman. An infant preceeded her in death a week ago. She leaves a husband and six children in sorrow at her home going. Mrs. Baker was a good wife and mother and the home will be lonely without her.

Paul Nemic and John Wozniak, two of our Bohemian friends, whom we knew 20 years ago at West came in to see us this week on their way home from Stanton. These men were prospecting with a view of locating a Bohemian colony. Wozniak bought 160 acre farm at Stanton and Mr. Nemic will investigate the Harry Hyman lands.

**Sul Ross State Teachers College
Alpine, Texas**

Elevation 4,484 feet.

WHY ATTEND SUL ROSS

1. BECAUSE It is located in the Davis Mountains, "The Playground of Texas." Mountain climbing and weekly picnics to the canyons.
2. BECAUSE Of the Ideal Climate and Inviting Scenery. Teachers gain in health at the same time they are improving their professional training.
3. BECAUSE Advanced Courses leading to degrees and Permanent Certificates, also review courses for State Certificates, are offered.
4. BECAUSE Board and Room for girls may be had at the Dormitory under faculty supervision, for \$30 per month.
5. BECAUSE The faculty is composed of expert teachers holding, for the most part, at least M. A. degrees.
6. BECAUSE The college is equipped with first-class laboratories and choice library.
7. BECAUSE Credits from this institution are accepted at face value by the best colleges and universities.
8. BECAUSE Students may do a whole year's work in two subjects during the Summer Session.
9. BECAUSE Reduced railroad rates of one and one-third fare over the Southern Pacific and Orient lines are in effect for the 1924 Summer Season.

Summer School Opens June 4; Summer Normal, June 9.
Fall Term Opens September 24.

SPEND ONE SUMMER AMONG THE DAVIS MOUNTAINS, GET A NEW LEASE ON LIFE, AND RETURN TO YOUR WORK CAPABLE OF RENDERING GREATER SERVICE.

H. W. MORELOCK, President.

Wherever it is displayed the Buick Authorized Service sign assures prompt, efficient service because every Buick service station has met these definite Buick requirements:

- Specially trained mechanics
- Modern, time-saving service equipment
- A complete stock of Buick parts
- He is in full accord with the Buick service policy—courtesy and fair dealing.

When better automobiles are built Buick will build them

HIGH STATE TAX RATE.

From Wichita Falls Record-News: It is announced from Austin that the state tax rate this year again will be maximum at seventy-five cents. Of this total 35 cents on each one hundred dollars of assessed valuation is for the general fund, thirty-five cents for the school fund and five cents for pensions. Two years ago the rate was reduced to twenty-two cents for general purposes and a huge deficiency is the result.

Now the political prophets are saying that the deficiency will not exist after next winter unless the 39th legislature should be extravagant. It goes without saying that the 39th legislature will be just as extravagant as the 38th legislature was and the appropriations made by the 39th will be larger, if anything, than those turned in by the 38th.

There are candidates for governor who are promising to make huge savings for the people but how are they going about it? Appropriations are made by the law makers. Taxation bills are made by the law makers.

This time the politicians threaten the state with an income tax. Hon. Joseph Moore of Hunt county led the fight for an income tax in the lower house of the 38th. He is a candidate for the senate this year and should he win an election he promises to make it interesting for the opponents of the state income tax, and intangible tax, high tax on petroleum and perhaps a tax on vendor's lien notes.

It will be recalled that the 38th legislature appropriated \$48,000,000 to run the state for two years and that it became necessary to knock off \$8,000,000 from the total. All the signs of the times indicate that the 39th legislature in both houses will contain a large number of lawmakers willing to tax everything in sight with the exception of farms and farm products.

IN SOCIETY AND AT THE CLUBS

Honoring "Royalty."

Last Friday, Mrs. Sam Majors gave a reception at her home from 4 to 7 o'clock honoring the Queen Duchesses, and Maids who attended the West Texas Chamber of Commerce convention held in Brownwood recently. This was quite an event as so many of their friends who did not get to see the "royal attire" and pay them the homage due their station had the opportunity at this time. Three hundred invitations were issued and nearly all responded. Miss Annie Mary Lupton and Mrs. Ross Dixon greeted the guests on their arrival. Mrs. Edgar Majors introduced them to the receiving line. This was composed of Mrs. Sam Majors, who wore a black pan velvet evening dress and carried a flame ostrich fan. Mrs. L. A. Costin, dressed in Birge georgette, Mrs. P. C. Coleman in gray canton crepe, Queen Eleanor of the house of Thomas, gowned in a flesh georgette trimmed in rhinestones. Her train was king's blue pan velvet Elizabethian style. She wore silver slippers, jeweled crown and carried a staff glittering with jewels. Duchess Hazel of the house of Costin wore a green duchess satin gown, sequin overdress, her trimmings were sequins and rhinestones. She wore silver slippers and carried a staff. Elsie Lee of the house of Majors, maid of her majesty the Queen, wore white georgette trimmed in crystal beads and rhinestones. Her court train was of American beauty pan velvet with a peacock embroidered in crystals and rhinestones, her head dress was of crystal and her slippers silver. Duchess Mabel of the house of Browning of Sweetwater wore a blue draped gown of georgette trimmed in silver brocade with rhinestones and pearls on the court train. Her headress and slippers were of silver.

Florence of the house of McKissick of Sweetwater, maid to the duchess wore a gown of orchid georgette trimmed in silver and rhinestones, the train was of same material lined with silver cloth. Her slippers and head dress were of silver. Duchess Viola of the house of Brown of Loraine wore a gown of flesh and

white georgette trimmed in silver and rhinestones. The train had Medallions of pan velvet outlined with pearls and rhinestones. Her head dress was pearls and rhinestones and slippers of silver. Fay, of the house of Spikes of Loraine, maid to the duchess, was gowned in peach georgette with inserts of silver lace. Her train and head dress were trimmed in pearls and rhinestones. She wore silver slippers.

Lottie of the house of Pritchett, queen of 1923, wore an all white georgette gown with slippers and head dress of silver. Miss Coleman, aunt of the queen, wore gray and blue beaded georgette.

Mrs. R. W. Mitchell, Mrs. C. L. Root and Mrs. Oscar Majors escorted the guests to the punch room where Misses Myra Chase and Pauline Felker of Eastland served punch from a bowl made in a block of ice. Mrs. Sadler and Mrs. Sam Goldman showed the guests to the dining room, where tea, sandwiches and mints were served by Mrs. Bill Broadus and Miss Mary Lee Crowder. Mrs. A. B. Blanks and Mrs. H. B. Broadus poured the tea. Favors of miniature scepters of flesh and king's blue were presented by Misses Marcella Price and Mary Broadus.

Mrs. Dixon and Mrs. Oscar Majors favored with vocal solos and Mrs. Blanks with a reading.

Chinese Party.

Mrs. Ledger Smith entertained at her home at the oil fields last Friday with a Mah Jong party honoring Mrs. Earl Cramer, who left Saturday for her new home in New Mexico. There were three tables and the Chinese idea was carried out in the prizes and refreshments. Mrs. Frank DuBose won first prize, a china cake plate with Chinese figures on it. She presented it to the honoree. Miss Ruth Buchanan got the consolation prize, a lemon and a lemon fork. A Chinese salad, Chinese nuts and Chinese candy were served. The guests ate with chopsticks.

Circles Meet.

The Baptist Circles met Monday for mission and bible study. Circle No. 1 met with Mrs. C. H. Lasky. Circle No. 2 met with Mrs. Watkins. Circle No. 3 met with Mrs. A. L. Whipkey. There was a good attendance at all circles and good personal service reports. Next Monday there will be a business session at the

Women Enlist in National War Against Germ-carrying Flies; Provide Millions of "Swatters"

Every fly swatted at this season of the year probably would have been the founder of a dynasty if allowed to live out its allotted time. The genius of Flydom, the Napoleon who will lead his armies, laden with the deadly germs to destroy the purity of milk and pollute clean and wholesome food, is crawling about the upper wall of your kitchen today, a harmless, easily destroyed youth.

Swat him! With one stroke you will wipe out pages and pages of history and the millions of his offspring will be nothing but the might-have-beens of fiction.

Swat every fly whether he seems to show promise of a great career or not. Talent takes strange twists and the puny little fellow they gave up for dead as a baby may develop into a Gladstone. Caesar was anemic in his youth—probably, and Scipio, as a child, had to hold on tight to the railings when the wind blew.

Swat the fly irrespective of sentimentality. If you swat at him and by some seemingly providential intervention of a swinging door you miss him, you may imagine that Fate has decreed he should be spared. Like a whimsical Caliban you may choose to let this particular fellow survive because you've taken a fancy to him. High purpose should know no sentimentalities. Don't cultivate intimacies among even the most engaging flies. Swat one, swat all.

A million and a half fly swatters are being distributed just now throughout the country by the Metropolitan Life Insurance Company as a part of the health campaign of their welfare division. Definite realization of the disease danger from flies is evidenced in this annual distribution. A thorough-going fly-swatting campaign at this season of the year is fostered by private and public health agencies. It has many times the value now that it would have later.

Swat the flies! Swat them now.

church and all women are urged to attend.

Miss Kate Waddell of Graham spent the week-end with Mrs. J. S. Vaughan and other friends in Colorado.

Missionary Society.
The Methodist Missionary Society

met in regular session Monday at the church. Besides the usual business the Bell Bennett Memorial fund was discussed and pledges taken for the building which is to be erected at Nashville soon for the Scarrett Training school. Each member is expected to give \$5.00 on this fund. The program was on the Young People's Work. A committee was appointed to solicit new members. The slogan for the summer is more fun, more folks, more facts.

Saturday Market.

The Parent-Teacher Association will have Saturday markets for the next few weeks to raise money to pay some outstanding bills made by the association. The markets will be at the Alcove and you will be able to get your Sunday chickens, cakes, pies home made bread and help the association too. Mrs. J. L. Pidgeon is chairman this coming Saturday and will be glad if you phone her your orders or visit the Alcove.

Regular meeting of Little Theatre Tuesday night, June 3, Legion Hut, at 8 o'clock. Members without membership cards can secure same at meeting.

Mrs. W. B. Crockett entertained the Merry Wives at the home of Mrs. R. Richardson Wednesday afternoon. Those present were as follows: Mesdames T. C. Richardson, Sam Smart, Will Rogers and the hostess. After the social hour a delicious light luncheon was served consisting of chicken salad, potato chips, pickles wafers and tea. After refreshments the guests were shown through and admired the new home of Mrs. Richardson.

The Foreign Mission meeting of the Central Circle of the Presbyterian Auxiliary was held with Mrs. J. E. Riordan Monday afternoon with a good attendance. The lesson from the White Fields of Japan was interesting and instructive, as was also the Foreign Mission lesson on Latin America in the Survey. There will be a meeting of the Auxiliary on Monday, June 2, at 5 o'clock with Mrs. A. E. Madden.

Mrs. L. T. Litzman of Burlington, Texas, is visiting her daughter, Mrs. W. R. Hickey.

Miss Lottie Pritchett left Saturday for a visit with Mrs. Joe Irvin in Denver, Colorado.

New Doss Building, Walnut Street

J. E. HARVIN, Manager

LOCAL NOTES

Celebrating his sixtieth anniversary, children of J. P. Majors met at the home of Mr. and Mrs. Majors in Sweetwater Sunday for a home coming. Every member of the family, together with their families, were present for the happy event. The cake was baked E. H. Hurd at Colorado.

A bad sprain heals slowly if not treated with a remedy that has the power to penetrate the flesh. Ballard's Snow Liniment is especially adapted for such ailments. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by leading druggists. 5-31

F. F. Gray and Walter Largent spent Sunday in Colorado visiting Grandma Largent and other relatives in that city. Mrs. Largent who spent a month in Fort Worth returned as far on her way home as Colorado last week.—Big Spring Herald.

We are serving more people each day with pure crystal ice, and we give 100 pounds for 70c, 50 pounds for 35c, so order ice from Spalding and you will get the best and the best of service. We will please you.—R. L. Spalding.

Judge J. W. Darden and Secretary Leopold of the Breckenridge Chamber of Commerce spent a short time in Colorado Saturday afternoon. The visitors were well impressed with Colorado.

For stove pipe, flues or flue tops, phone 409.—B. W. Scott's Tin Shop.

The Miller Market invites your meat trade. Will deliver anywhere in the city after June 1st. Phone 202

Curtis Hancock of Dallas, former chairman of the State Highway Commission spent a few hours in Colorado Saturday.

The best of Post Oak wood in blocks, also hard and soft coal, delivered quick. Ice. O. Lambeth.

J. H. Greene has returned from Dallas where he attended the annual convention of the Texas embalmers association.

If your gutter needs repair, or for new phone 409.—B. W. Scott's Tin Shop.

Look at the rain table this week. 6.33 for May. The largest May rain since 1920. Total so far this year, 7.76.

There is higher priced Auto Oil, but none better than Supreme XXX handled by all leading garages

Miss Mabel Smith is visiting her brother, Hon. Royall Smith, in El Paso.

The best of Post Oak wood in blocks, also hard and soft coal, delivered quick. Ice. O. Lambeth.

Oscar Price and Robert Whipkey left Saturday night for Dallas to bring back with them several new Hudson and Essex cars.

J. Riordan Co.
THE BEST PLACE IN COLORADO TO BUY.
WHY?
Because PRICES ARE RIGHT, no long profits in this store. Because you have the same Courteous Service whether you want five cents worth or five dollars worth of goods.
Because if you telephone or send one of the children for something, we are even more particular than usual in trying to select exactly what you want.
Because we want you to feel that no need of yours is too small for our careful attention, whether it be a certain size screw or bolt you want, a particular kind of pan, or a special sort of hinge.
Because if you need some little repair for your ice cream freezer, your percolator, your lawn mower, your food chopper or your oil stove, we will be glad to order it for you.
J. RIORDAN CO.

Mr. and Mrs. Cramer who have been here more than a year with the California Company, have been transferred to New Mexico and will leave this week for their new home. Mr. Cramer held the position of field or district manager and goes to the New Mexico oil field in the same capacity. Mr. and Mrs. Cramer are splendid citizens, have made many friends here all of whom regret to see these good people leave Colorado.

Fires are coming thick and fast. Have you all the Fire Insurance you ought to carry? If not, I would like to figure with you right away. I have been writing insurance in our city since November 26, 1907. Write, phone or see E. Keathley, Agent 5 23

A. J. Smith orders The Record sent to him at Dilley, Texas.

Jim Edwards and family of Fort Davis were visitors in Colorado last week and paid the Record office a pleasant call. Mr. and Mrs. Edwards were on their way home from a visit at Waco and stopped over here to see if he could find any old friends. The Edwards' were early citizens here and left Colorado in 1898—26 years ago and this was their first visit here in all that time. Needless to say they did not know the town as all the old land marks are gone and but few citizens of 26 years ago are here now.

When your breath is bad, appetite poor, and you feel "blue" and discouraged, you need Herbine. One or two doses will set you right. It is a great system purifier. Price, 60c. Sold by all leading druggists 6-31

R. J. Carter of Colorado was a business visitor here last Saturday. Mr. Carter is a member of the firm of the Carter-Dixon Motor Co., district dealers for the Buick automobiles, and was here to deliver a new Buick. He expects to have a dealer located in Big Spring before long.—Big Spring Herald.

Best cuts and best service at the Miller Market. Phone 202.

Rev. Ernest Roper and wife of Fairy, Texas, are here this week visiting with their parents, Mr. and Mrs. J. T. Roper and brother, H. Roper and wife.—Scurry County Times. (Snyder).

Mrs. Roper was formerly Miss Ruth Pickens and visited her parents here last week.

We pay cash for all your chickens and eggs. Phone 202. Miller Market, opposite post office.

Mrs. Jim Vaughan of Douglas, Arizona, left Monday for Oklahoma after spending a visit with relatives in Colorado.

500 broilers for sale at Lambeth's Chicken Farm, West River bridge.

Mrs. J. L. Demmitt and daughter, Miss Mary Virginia of Beaumont, are visiting Mrs. J. S. Vaughan and Mr. and Mrs. J. F. Quinney.

500 broilers for sale at Lambeth's Chicken Farm, West River bridge.

J. A. Greene of Los Angeles, California, arrived Saturday to spend a visit with his brother, J. M. Green.

Call me for good coal oil in fifty gallon lots or less.—J. A. Sadler.

Mrs. H. K. Jones of Ft. Worth is visiting in the home of her father, W. R. Hickey.

Mr. G. E. Jones and W. J. Campbell of Abilene and W. B. Jones of Sweetwater were here to attend the funeral of Mr. Hickey's baby.

O. Lambeth, who left last week for Houston to attend a special cotton classing school, writes that he is finding the course unusually interesting. Mr. Lambeth is making a special study of staple classification and round bale compression.

Ice patrons of R. L. Spalding will every one be served as early as possible each morning, and pure crystal ice to the full amount of your money will be left always. Notify R. L. Spalding's office when you do not get your ice promptly.

Mr. and Mrs. A. D. Martin are here this week at home with Mother Martin. A. D. has for the past year been with a large furniture concern at Temple, but is now moving to Abilene to accept a similar position with the Barrow Furniture Co.

An attack of heartburn or indigestion call for a dose of Herbine. It relieves the distress instantly and forces the fermented food into the bowels. You feel better at once. Price 60c. Sold by all leading druggists 6-1

Mr. and Mrs. Charlie Pierce, managers of the Burns Dry Goods Co. store at Plainview, sends advance words to have chicken dinner on Sunday as they will be here on that day the guest of Mr. Burns.

Call for me at the Alamo Hotel and see my bargains in tobaccos. I have several dozen satisfied customers and want as many more. Will be glad to show you whether you buy or not.

E. KEATHLEY.
Mr. and Mrs. Allen Soper and children spent most of the week visiting relatives and friends at Ranger and came back well satisfied that Colorado is the best in the West.

R. L. Spalding has his refrigeration plant running daily and has excellent cold storage facilities. He is selling ice also at his office on Elm street. He delivers ice to all patrons. It

Miss Mary Terrell left Saturday night for a visit with friends and relatives in El Paso and Los Angeles. She will then attend Summer normal at San Diego, Cal.

For every purpose for which a liniment is usually applied the modern remedy, Liquid Borozone, will do the work more quickly, more thoroughly and more pleasantly. Price 30c, 60c and \$1.20. Sold by all leading druggists. 5-31

Mrs. Wilwee and little son, George Tate, left Thursday morning for Pomona, California to spend the summer.

NOTICE
You have eat with me for 18 months with pleasure. How about shaving with me 18 months with ease? All barber work guaranteed first class workmanship. Satisfaction is our motto. Shower Bath, hot and cold 30c. Give us a trial. Across the street from post office.—A. L. Baker Barber Shop, Leon Jenkins, Mgr.

BANKER SEES GOOD FUTURE FOR TEXAS
J. C. Pritchett, cashier of the City National Bank at Colorado, Texas, spent Thursday in Fort Worth, en route home from the Texas State Bankers' convention in Austin. He was elated with the convention, which he said was the largest he had ever attended.

Mr. Pritchett voiced the opinion that Texas was enjoying a remarkable period of prosperity, sound in tone and quality, and such as existed in no other part of the United States. While a little behind because of cool weather, are healthy and Texas should reap excellent returns during 1924, he said.—Fort Worth Record.

NOTICE, ICE CUSTOMERS.
My trucks are making the entire town regularly early each morning and are giving quick and reliable service to all. The figure on the bottom of your card represents the amount in cents—10c—20c etc—so you will get exactly that amount in ice. Remember the amount is cents—not pounds on cards from me. We give you full weight and exactly the amount of ice your money calls for.—R. L. Spalding.

Mrs. J. H. Vaughan of Douglas, Arizona, is here visiting her sister-in-law, Mrs. J. S. Vaughan.

The best of Post Oak wood in blocks, also hard and soft coal, delivered quick. Ice. O. Lambeth.

Willis Shropshire is visiting his aunt, Mrs. Herd in Post.

Miss Gertrude Foster of Thornton is the guest of Miss Trma Sealy in the Arnett home.

Yes, the road bonds were defeated and Mitchell County still retains her good roads black eye.

Citizens in the west end of the county seem to think Loraine is placing "the dog in the manger act."

Miss Elon McDonald teacher primary work in the Westbrook school next year.

DR. CAMPBELL
of Abilene
Will be in office of Dr. C. L. Root
SUNDAY, JUNE 1ST
when he may be consulted account Eye, Ear, Nose and Throat.

ARCHITECTS COMPLETING PLANS EARNEST BUILDING

Whipkey & DuBose, local architects, are completing plans and specifications for an attractive brick building to be erected by Judge C. H. Earnest on Chestnut street, adjoining the building occupied by the Cooper Chevrolet Company on the north. The building will have a frontage of 75 feet on Chestnut.

W. W. Whipkey, member of the firm of architects, stated the first of this week that they expected to be ready to advertise for construction bids within the next few days. The new building will be constructed as an automobile and garage building.

IN APPRECIATION.

As a result of the recent fire several of our friends showed their appreciation of the fire departments services by substantial cash gifts.

The donors were: J. B. Farmer & Co., James T. Johnson, Price Bros., Dr. C. L. Root, Colorado Bargain House, and C. H. Earnest.

We wish to thank these gentlemen most heartily and assure them and the public in general that we are ever ready to put forth our best efforts in their behalf.

Colorado Volunteer Fire Dept.

LOCAL DRUMMER ASSISTS TARLETON BAND TO WIN

Lee Jones of Colgado, a student in John Tarleton Agricultural College, Stephenville, a drummer in the military band of that college, has for the second time helped his band to win distinction. Last year at the meeting of the West Texas Chamber of Commerce, at San Angelo, this band won first place in its class, and was chosen as official band of that organization. This year at Brownwood, it was awarded first place in the contest of college bands, and received much praise for the way in which it did duty as official band. Jones is an enthusiastic member, who, like Napoleon's celebrated drummer boy, does not know how to "beat a retreat." This band is to leave for South Texas after the close of the school, playing as far as Galveston.

CARD OF THANKS.

We take this method of thanking our many friends for their kindness and words of sympathy shown us in our hours of sadness, also for the beautiful flowers placed upon the grave of our baby. We trust that in your hours of sadness you may be surrounded by such friends.

Mr. and Mrs. W. R. Hickey.

Singing Convention

The West Side Singing Convention meets Sunday at Cuthbert. We are expecting a large crowd. Everybody come and bring a well-filled basket. Come early, let's sing together and spread lunch together and have another big day in song service.—O. L. Simpson.

Here is a chance to get a new hat cheap. We are selling all spring hats, including the best makes in the country at ONE-THIRD off for cash. These hats are not shop worn, but are good stylish models that can be worn all summer.—Mrs. B. F. Mills.

There is nothing of more importance to the interest of West Texas just now than to control the ravages of grasshoppers. The action of the county commissioners of Taylor county in buying arsenic for distribution at cost to the farmers is in line with similar action elsewhere in West Texas. If all counties would get busy on this proposition the grasshopper pest would soon be under control.

COLORADO PEOPLE HELPED

Colorado people have discovered that One Spoonful of simple buckthorn bark, glycerine, etc., as mixed in Adler-ika, relieves sour stomach, gas and constipation at once. This remedy is well known as the appendicitis preventative. Sold by all leading druggists

Mrs. J. H. Vaughan of Douglas, Arizona, is here visiting her sister-in-law, Mrs. J. S. Vaughan.

The best of Post Oak wood in blocks, also hard and soft coal, delivered quick. Ice. O. Lambeth.

Willis Shropshire is visiting his aunt, Mrs. Herd in Post.

Miss Gertrude Foster of Thornton is the guest of Miss Trma Sealy in the Arnett home.

Yes, the road bonds were defeated and Mitchell County still retains her good roads black eye.

Citizens in the west end of the county seem to think Loraine is placing "the dog in the manger act."

Miss Elon McDonald teacher primary work in the Westbrook school next year.

FOR SALE—Good corner residence lots at Bargains.—O. B. PRICE.

GAINES COUNTY FARM LANDS at reasonable prices and at attractive terms—Very little ready money is required to own a good farm in the South Plains of the Texas Panhandle. Payments for your farm are on about the same basis as paying rent. At Seagraves, Gaines County, Texas, we offer you farm land at prices from \$12.00 to \$20.00 per acre, cash paying down only one dollar per acre, four yearly payments of one dollar per acre and the balance in yearly payments of two dollars per acre with interest at six per cent. This is strictly a general farming country. Abundance of pure water, no boll weevil, and cotton a sure crop. At present prices of cotton it will not take a great many bales to pay for a 160 acre farm in one season. This is your big opportunity. If interested in securing a farm and home for yourself and family on very unusual terms, now is the time to act. Address W. A. SORELLE, General Agent, 12 Santa Fe Bldg., Seagraves, Gaines County, Texas, for terms of sale and descriptive folder. tf

SOME CHEAP LOTS, two blocks northeast of High school building and just outside city limits. \$25 down, and \$10 per month. See C. H. EARN-EST, over Colorado Nat'l Bank ttc

There is higher priced Auto Oil, but none better than Supreme XXX handled by all leading garages.

FOR SALE—Good corner residence lots at Bargains.—O. B. PRICE.

STAR PARASITE REMOVER
Given chickens in drinking water will rid them of lice, mites, fleas, chiggers, blue bugs, and all other blood sucking parasites. Will save many young chicks that are killed by insects, also is a good tonic and blood purifier, aids to feed value and increasing egg production—or money refunded. For sale by O. Lambeth, Colorado, Texas. 6-13c

POSTED—The Elwood lands are posted according to law. Wood hauling, trapping, hunting, etc., will not be tolerated.—O. F. Jones, Mgr.

FOR SALE—Good corner residence lots at Bargains.—O. B. PRICE.
