

HUNT-M'CRELESS REVIVAL WILL CLOSE SUNDAY NIGHT

The last sermon of the Hunt-McCreless revival will be delivered by Dr. J. W. Hunt Sunday evening at Union Tabernacle, after a campaign of two weeks during which time some of the strongest preaching heard in this city for some time has been heard. During the week attendance has continued good, especially at the evening services. It is estimated that 1,500 people attended the Sunday evening services.

Thursday night has been designated as Young People's Night and personal workers organized for the revival have made a special drive throughout the city to interest a large number of young people of the city to attend. Dr. Hunt will discuss some of the high spots of society, as he sees them, using as his subject, "A Young Man's Ruin."

Friday night a special section in the tabernacle will be reserved for the cow men of this city and community for a special service for them. Hunt has announced that he will deliver his lecture, "The Trail That Leads to the Alkali Bog," at this service. This religious address, relating much of the personal experiences of the speaker while he was a cowboy on the Plains years ago, is claimed to be among the best in his repertoire.

Saturday night, Sunday morning and Sunday evening are to be featured with special services, according to announcement from the platform. Saturday night Hunt will speak from the subject, "What Must I Do to Be Saved."

The sermon, "What the Bible Teaches About Hell," previously announced for Friday night of last week, was delivered Monday evening. Cause of the rainstorm no services were held Friday evening of last week. The speaker based his argument in picturing a real, burning hell around the story of Lazarus and the rich man. "Hell is just as much a reality as this tabernacle, your home or the existence of the city of Colorado," the speaker declared.

At a special service arranged for Colorado business and professional men Tuesday evening, Dr. Hunt delivered an address from the subject "Chopping Too Near the Stream." According to declarations made by him, the modern business man has as much or more than those of any other classification of individuals in offsetting the temptations to sin.

Wednesday night was designated Family Night. At this service the speaker, speaking from the subject, "When The Chickens Come Home to Roost," delivered another of his penetrating rebukes of the habit so prevalent among parents and others in refraining to elevate the code of morals and of religion in the family life and associations.

During the week interest has grown in the young people's meetings, held each afternoon at 7:15 at the Methodist church. Two teams, designated as the Reds and the Blues have vied one with the other in a popular contest to increase attendance. At conclusion of the revival the losing team is to be host to the other side in some entertainment program yet to be worked out.

CURE AND GUTTER WORK IS BEGUN ON CHESTNUT STREET

Excavations for street paving extension on Chestnut street were begun Monday by the West Texas Construction Co. One block is to be paved on this street, between Second and Third. At the Third street intersection two feet will be excavated to bring the street down to grade.

SUCCESSFUL REVIVAL CLOSED AT SPADE BY REV. BLACK

One of the most successful revivals held at Spade for years was closed there last Sunday by Rev. J. E. Black of Abilene, according to E. Barber, Spade business man, who was in Colorado Tuesday. A number of conversions and reclamations resulted from the meetings.

JUDGE W. R. SMITH DIES AT EL PASO SATURDAY

Judge William R. Smith, United States district judge at El Paso, died Saturday night at El Paso of a stroke of apoplexy following a ten days' illness. The body was buried at El Paso Tuesday.

Dr. P. C. Coleman, former family physician and life-long friend of Judge Smith, attended the services.

Judge Smith was a citizen of Colorado 29 years and it was during his residence here that he attained national recognition as a statesman. He served in the Fifty-Eighth to Sixty-Fourth congresses, from 1903 to 1917 and moved from here to El Paso following his appointment to the federal bench in April, 1917 by President Woodrow Wilson.

William Robert Smith was born in Smith county August 18, 1863, the son of Samuel A. and Milissa Caroline (Dobbs) Smith. He graduated from the Sam Houston Normal at Huntsville in 1883 and was admitted to the bar in 1885. In 1888 he moved to Colorado and engaged in his profession as an attorney and within a short time became one of the leading attorneys in this section of the State.

November 6, 1890 he was married to Miss Francis Breedlove of Brenham. In 1897 he was appointed judge of the 32nd judicial district by Gov. Charles A. Culberson and was re-elected to this office again in 1898 and 1900. In 1902 he was elected to congress from the Sixteenth Texas district and held this position of honor in the national congress until 1917.

COUNTY FAIR CATALOGUES READY FOR DISTRIBUTION

The annual edition of catalogue and premium list, issued by the fair association, has just been received from the printer and is ready for distribution. A large number of these catalogues are to be distributed by mail. Others are to be distributed to interested parties personally by officials of the fair association at Colorado, Lorraine and Westbrook.

According to the secretary there is a sufficient number of these catalogues for every interested citizen of the county. In case a copy is not delivered any interested party by mail, he may obtain same upon application to Fred Brown at the First State Bank, Lorraine; C. E. Danner, Westbrook or at the Chamber of Commerce, Colorado.

MEXICAN FARMER KILLED BY LIGHTNING SATURDAY

Viviano Guerrero, Mexican farmer, 22, of three miles east of Spade, was instantly killed by lightning during the electrical and rain storm early Saturday night. He and three other Mexicans were in a Mexican house when a lightning bolt struck the building, killing Guerrero. The other three Mexicans received only slight shocks.

During the rain and windstorm Friday night some damage was done to property in the Hyman community. One or two buildings were blown from their foundations and other damage reported. No one was injured.

CHRISTOVAL ENCAMPMENT IS ATTENDED BY THOUSANDS

The Baptist Encampment which closed at Christoval last week after a session of ten days was the best in the history and attended by thousands of people of West Texas, according to Rev. M. C. Bishop, pastor of the Colorado Baptist church and who attended the session throughout the ten days. Rev. Mr. Bishop filled an important place on the daily programs. Colorado was well represented at the encampment.

FRIDAY AMONG HOTTEST DAYS DURING THE SUMMER

With the thermometer climbing to 108 in the shade Friday afternoon, the day is claimed to have been one of the hottest of the summer. There was very little breeze stirring and Colorado people sweltered from the intense heat several hours. The excessive heat preceded the rain storm which covered much of the county Friday night.

BUFFALO TRAIL SCOUTS TO ABANDON CAMP LIFE TODAY

Camp McEntire, official camp grounds of the Buffalo Trail Boy Scouts Council, is to be closed today (Friday) after ten days and the 107 boys and their leaders will return to their homes. The scouts were assembled at Colorado August 12 from Sweetwater, Snyder, Roby, Rotan, Hermleigh, Dunn and Colorado by W. S. Barcus, scout executive, and after being entertained by the Colorado Lions Club and club women of Colorado at luncheon left for the camp.

During the ten days of camp life there was something of interest to the boys arranged for every hour of their time between the first bugle call in the morning until taps at night. Ample accommodations for comfort of the youngsters were provided and the scouts are returning to their homes with no regrets whatsoever.

There were seven different subjects in which the scouts were given instruction in scout craft, and each of these subjects were taught by competent scout leaders. These subjects were classified by Scout Executive Barcus as follows:

Nature study, including the life and habits of birds and insects; first aid, including instruction as to the treatment of burns, cuts, bites, etc.; map making, adobe construction, in which the scouts were taught the art of brick making. Sunday more than 200 brick had been made by the scouts and the plans were to erect an adobe building at the camp this week. Instruction in the semaphore code and track and field events are the other two courses in which the boys received instruction.

Each of the courses taught at the camp were under the personal supervision of experts, selected by Barcus from over the council. Among these instructors were the following:

J. D. Corhn of Rotan, H. B. Palmer of Dunn, J. C. Beakley of Dunn, W. P. King of Snyder, W. E. Louder of Hermleigh, Boyd of Roby, C. E. Campbell of Rotan, C. M. Boren of Snyder and J. E. Ketter of Snyder.

One of the most interesting features of the camp work was that of the camp fire. At eight o'clock each evening a large fire was built at the front entrance of the tents, about which the boys circled to participate in the daily entertainment program. Some interesting programs, all of them original with the boys themselves, were given about these camp fires.

Last Sunday special religious services were conducted at the camp by Rev. C. R. Brewster, Methodist pastor at Sterling. These services began Sunday morning when each troop leader conducted the boys under his command into the wood or open space some distance from camp, there to study the handiwork of nature as fashioned by the Creator. After dinner general assembly was sounded and the boys were brought into religious services and first studied the Sunday school lesson under direction of their leaders. Religious and patriotic addresses and songs then followed and then came the religious address of Rev. Mr. Brewster.

The camp is declared a big success by Scout Executive Barcus and his assistants. The boys were given excellent meals, good instruction and were well taken care of. Scores of automobiles bringing visitors to the camp were reported. Sunday about seventy people, from the different towns represented, paid a visit to the boys.

WHO WILL BE THE "UGLY MAN" IN COUNTY IN 1924?

Considerable speculation is already afloat as to who will be named as Mitchell County's most ugly man at conclusion of the contest to be staged in connection with election of the fair queen. Judging from predictions made by some Colorado people it is probable that some of the local men, who, in their own estimation are handsome, are scheduled to become formidable contestants for the "honor."

CONTEST TO ELECT QUEEN OF FAIR OPENS SATURDAY

Rules governing contest to select queen of the Third Annual Mitchell County Fair were announced Wednesday by C. S. Thomas and Floyd Quinney, managers of the contest. With small exception this contest will be conducted along lines similar to those adopted a year ago. Nominations for this honor will open Saturday and from that date until Saturday night, September 20, at 10 p. m., when the contest will close, interest in the annual balloting battle is expected to assume large proportions.

There will be no charge for nominating young ladies in this contest, the only charge being in the balloting. Votes are to be sold at one cent each and beginning September 6th the standing of each contestant will be posted daily on bulletins at Colorado, Lorraine and Westbrook. All young ladies nominated before September 6th will receive 5,000 votes free.

In addition to the honor of being coronated queen of the Third Annual Fair, in connection with a spectacular pageant on the evening of Thursday, September 25, the young lady selected will be automatically chosen as the sponsor of all social events of the State in which the county may have a part. Then, too, the winner is to receive a handsome prize, consisting of either a diamond studded wrist watch or a diamond ring. Definite selection of the prize has not yet been made by the committee.

It is understood that several of the federated women's clubs contemplate sponsoring candidates for the honor. The Lorraine and Westbrook Chambers of Commerce also plan inaugurating an active campaign to name the queen. At the close of the contest last year, the young lady from Westbrook was defeated by only 11 votes.

The court jester will also be selected by the citizenship of the county in connection with contest to name the queen. Qualifications to enter this contest specify that candidate must be unusually homely. These candidates are also to receive 5,000 votes free if nominated before September 6th.

CHILD, 7, IN COLORADO ON TRANS-STATE JOURNEY

Little Myrtle Nash Flow, a beautiful golden haired girl, who smiled at every one who came her way, was a passenger on the eastbound Sunshine Special which passed through Colorado Saturday morning. She was traveling from El Paso to Dallas to enter school. From the conductor it was learned that Myrtle, who had been living with her mother at El Paso, had left her mother seriously ill of tuberculosis and was going to the home of a friend of the family in Dallas to enter school and be cared for.

"My mamma is sick in El Paso and I hated to leave her there alone," the child stated. "When I get an education and grow to be big I am going back to El Paso to help mamma get well."

MANAGERS QUEEN CONTEST NAMED FRIDAY AFTERNOON

Chester Thomas and Floyd Quinney were elected as managers of the contest to select a queen for the Third Annual Mitchell County Fair at a meeting of officials of the American Legion and Fair Association at the Chamber of Commerce Friday afternoon. The men selected immediately accepted the place and began the work of completing rules and details affecting the contest.

CONTRACTOR BEGINS RAZING OLD COURT HOUSE MONDAY

A large crew of workmen were started on the work of razing the old court house Monday by J. L. Bowen, contractor. Much of the top of the old structure has already been removed.

POULTRY EXPERT URGES HATCHERY IN COLORADO

That the promotion of the poultry industry in Mitchell County would be one of the most constructive programs the Colorado Chamber of Commerce could possibly inaugurate is claimed by F. W. Kazemier of Bryan, former poultry husbandman of A. and M. College and conceded to be one of the best authorities on poultry in the Southwest.

It recently developed that the Colorado Chamber of Commerce has been devoting considerable attention furthering the poultry industry in this territory, especially as to the founding of one or more large hatcheries. Recently the organization addressed Mr. Kazemier for his opinion on as to possibilities of commercial hatcheries in this section of Texas. In his reply, among other things, Mr. Kazemier said:

"Poultry raising is not affected by droughts. Hard times are the making of the poultry industry. Only two years ago the Ciseo Chamber of Commerce bought one 10,000 egg Buckeye incubator and today Ciseo is the center of most of the poultry activities in Texas. This shows what a small beginning may lead to, and the wonderful possibilities of the poultry industry."

"Poultry raising will do more to promote farm home owning, home conveniences, labor devices on the farm and in homes, saving deposits in banks, and general prosperity for the community, than any other line of agriculture."

"Three years ago in Bryan, we had one 600 egg incubator and less than 500 standard bred chickens. Today we have incubators, six of them holding 60,000 eggs at one setting, more than a quarter of a million of baby chicks are shipped out each day bred hens are in Brazos County year, more than 50,000 head of standard three years ago we established a public hatchery with a capacity of 20,000 eggs, resulting in revolutionizing the poultry industry in Brazos County in three years."

"A ten thousand egg public hatchery generally pays for itself the first year and always in two years."

NEW VOTING PRECINCT IS CREATED BY COMMISSIONERS

Hyman voting precinct No. 11, embracing the new settlement on the H. S. ranch, was recently designated by an order of Commissioners' Court. This community, only two years old, has grown to be one of the best agricultural sections of the county. An attractive school building was built there a few months ago.

ATTEND AMERICAN LEGION MEETING AT BROWNWOOD

Mr. and Mrs. J. B. Pritchett, Mr. and Mrs. Roy Dozier, Mr. and Mrs. Floyd Quinney, Mrs. Jim Dobbs and R. H. Barber left Sunday morning for Brownwood to attend the State convention of the American Legion, which convened there Monday morning for a session of three days.

CASH PRIZE IS POSTED FOR FIRST BALE 1924 COTTON

A cash prize of \$25.00 was posted Wednesday by the Colorado Chamber of Commerce for the first bale of 1924 cotton to be harvested and marketed at Colorado. The cotton must be all new crop and grown in the Colorado territory.

FOSSIL COLLECTOR ELATED OVER SPECIMENS FOUND

H. D. Boyles, fossil collector for the Colorado Museum of Natural History at Denver, left for Denver Monday night after spending two months at Colorado directing excavations of fossil deposits near the city. He stated that three complete bison skeletons were recovered. These have been shipped to Denver and are to be placed on exhibition there.

Miss Irma Sealy, home demonstration agent, returned Sunday from college station and Thornton. At College Station Miss Sealy attended the annual farmers' short course. At Thornton she visited relatives in her former home.

HEAVY VOTE EXPECTED TO BE POLLED IN 2ND PRIMARY

Because of the gripping interest which has developed in the governor's race in Mitchell County, a large vote, exceeding perhaps the total vote polled July 26th, is anticipated by some citizens who have made a study of the political horizon. Interest in the local candidates has been cast aside in this section to give place for consideration of the two opposing candidates for chief executive.

Approximately 2200 votes were polled in the July primary. Total voting strength of the county is around 3100. Various estimates as to the number to be polled Saturday run from 1800 to 2500.

Because of the universal interest manifested in the campaign for governor, the Chamber of Commerce will again receive election returns from the election over the State. These returns are to be posted on a bulletin board posted in the business district. Counting will progress much faster in the election Saturday than was the case four weeks ago and a sufficient number of votes should be received early in the night as to indicate who was elected.

The bulletin will be at Chamber of Commerce office on Walnut St. Returns from the ten voting precincts of the county, giving vote received by the candidates for county judge, treasurer and county school superintendent, will also be posted on the board. Election judges are urged to co-operate with the Chamber of Commerce in furnishing returns from their precincts as early as possible. Telephone your report immediately after completing the count.

After delivering two addresses in West Texas this week, one at San Angelo Monday and the other at Brownwood Tuesday, Judge Robertson spoke Wednesday night in Corsicana and Thursday night in Houston. He is to close the campaign at a Robertson rally in Dallas Friday night.

Jim Ferguson, speaking in behalf of the candidacy of his wife, will wind up his campaign in West Texas, with a big Ferguson rally at Abilene Thursday night. He spoke at Childress Monday night, at Plainview Tuesday, Rotan Thursday, driving from Rotan to Abilene by automobile. Supporters of Ferguson at Colorado attended the Rotan rally Thursday and others plan to attend the last meeting of the campaign at Abilene.

ELECTRIC STORM DAMAGES CROPS IN SPADE SECTION

Considerable damage was done to cotton and other growing crops in the vicinity of Spade during the severe electrical storm which covered that part of Mitchell County late Saturday. Reports from farmers are to the effect that the crops were badly burned by the electrical display. Friday night some damage was done to farm homes in the Hyman community by the windstorm accompanying the rain. Three or four buildings were moved from their foundation, but no one was injured.

Rainfall at Colorado Friday night totaled .63 of an inch. A few miles south of the city, in the Seven Wells section, from one to one and one-half inches of rain fell. The rain grew lighter toward Lorraine but a few miles south of there two inches was reported. About one-half inch fell at Westbrook, growing lighter toward Istan. In the southern end of the county from one-fourth to one-half inch fell.

Rain fell at Westbrook and vicinity again Saturday night, with light showers falling in a half dozen different communities of the county. One of the most severe electrical storms seen here for years accompanied the rain. A light sprinkle fell in Colorado Saturday night.

A. L. Whipkey, W. W. Whipkey, and Robert Whipkey of the Whipkey Printing Company, returned Wednesday from Dallas where they spent a few days on business. While there they purchased additional new equipment for the mechanical department of this office.

BACK FROM THE MARKET HOSIERY SALE

The buyers of the Jones Dry Goods Co. have just returned from the Eastern Markets and we are very proud of what we accomplished. We found that the old adage **MONEY TALKS**, never had more significance than it has this season. The big manufacturers and distributors understood our language when we used the slogan, **SAY IT WITH CASH**, as a result we secured the most wonderful stock of super merchandise we have ever had. Our policy is and always will be, **Better Goods for the Same Money or the Same Goods for Less Money**. The price concessions we received are of direct benefit to you as we propose to pass this saving right on to you. Buying for cash, selling for cash at lowest prices, keeping our overhead expense down to a minimum, makes it possible for us to quote unusual values during this Great Hosiery Sale. Read over these prices carefully and buy your fall and winter supply of Hosiery.

We have not got the space to quote you prices on our entire line of Hosiery but every pair of Hosiery in the house has been reduced so come prepared to buy Hosiery and you will not be disappointed.

WITH THE CHURCHES

FIRST CHRISTIAN CHURCH.
After an absence of two Sundays we are glad to be back home again. We shall preach at 11 a. m. next Sunday but will have no evening service account of the Methodist revival at the tabernacle.
We very much desire that all of our members be present at Bible school and the morning worship. The vacation season is about over and we want to plan for an aggressive Fall campaign.
Cordially,
J. E. CHASE, Pastor.

BAPTIST NOTES.
We will be home next Sunday for morning services. No night services on account of the Methodist revival at the Union Tabernacle. Dr. Hunt is doing some very plain, forceful preaching. He is telling folks about the sins that damn souls. Of course,

nobody will want his or her sins exposed. We are all asleep on the sin question. While some professed Christians are standing by, looking on, our people are going the downward road to hell as fast as old father time can carry them, aided by the devils power. We are glad to have a preacher that has grace enough to tell it to the people so they can not be mistaken about the wrong of the evil practices of today. Any clean minded man or woman knows it is immoral to dance in the manner it is done now. If the mothers of today will consult with the proper persons in this town and adjoining towns, they can have some very startling facts revealed to them about the immoral conditions that are going on NOW. By another issue of these notes Texas will have decided whether she will have gone back on all that the moral forces of the State have worked for for the past and put a woman in charge of our affairs or whether Texas will elect a man who has been falsely accused of many things as Governor of this

state. We are not taking any stock in politics and not advising anybody how to vote but we call the readers' attention to the fact that Jim Ferguson is making the race for governor in his wife's name. Felix Robertson may be as rotten as Jim but who wants to vote for anyone when they know the candidate is rotten? We are not for either one of these two. But whenever any person says "to hell with democracy" we are not very keen to entrust Texas to him. Come out next Sunday morning to Sunday school and Church services.
M. C. BISHOP, Pastor.

Program.
The following is the program for the all-day county meeting to be held at the Baptist church Thursday, August 27th. Beginning at ten o'clock:

Pageant—"Christ in America"—Young Women's Circle.
Song—Blest Be the Tie That Binds.
Benediction.

JIM FERGUSON FLAYED BY SPEAKER HERE WEDNESDAY
Jim Ferguson, former governor of Texas and the husband of Mrs. Miriam A. Ferguson, who is opposing Judge Felix D. Robertson for governor, was flayed in an address delivered at Union Tabernacle here Wednesday afternoon by George W. Wilburn of Fort Worth. The speaker in drawing a line between the two gubernatorial candidates outlined that Ferguson was one of the outstanding criminals of the times, while Judge Robertson was the ideal of attainment as a Christian gentleman and jurist.
Wilburn was introduced by J. B. Reese of Colorado. During his address he made frequent reference to the Ku Klux Klan and praised the principles for which the organization claims to stand. White supremacy and separation of church and state were advocated.
Wilburn recalled some of the charges preferred against Ferguson and resulting in his impeachment as governor. "Seven of the bills found against him in the house and senate of Texas were such as to warrant his conviction in the courts and receive a penitentiary sentence," he declared.
The speaker was frequently applauded when he flayed the former governor, or gave an expression of praise for which Judge Robertson or the Klan stood. Once during his address a lady in the audience shouted, "Amen, brother, go ahead."
Wilburn paid his respects to the seven defeated candidates for governor who are opposing Judge Robertson and declared that for the most part they were sore because they were defeated. He was especially bitter in his denunciation of V. A. Collins and T. W. Davidson.
Barry Miller, candidate for lieutenant governor, came up for review by the speaker and was described as a type of man not entitled to the suffrage of American citizens.

WEST TEXAS ELECTRIC CO.

DEATH OF JUDGE SMITH AS NOTED BY EL PASO TIMES

The Sunday morning edition of the El Paso Times had the following article concerning the life, illness and death of Judge William R. Smith, U. S. district judge at El Paso, former congressman and for many years a citizen of Colorado:

United States District Judge William Robert Smith died at 11 o'clock last night.

He had been ill since a week ago last Wednesday and yesterday was reported as having rested better than he had for several days.

The end came suddenly. Only the nurse was with the judge when he asked for a drink of water. As the nurse got the water Judge suffered a stroke and died.

Judge Smith held court in New York city during the month of June and upon his return to El Paso resumed his bench in the Federal building, holding court until his illness forced him to his bed.

Strain of overwork was responsible for the judge's break in health, his son, Breedlove Smith, said last night.

Judge Smith was judge of the 32nd judicial district of Texas from 1888 to 1900, first having been appointed by Governor Culberson. He was in congress 14 years, serving from 1903 to 1917. He was appointed United States district judge by President Wilson in 1917.

Judge Smith is survived by his widow, Mrs. Frances Lipscomb Breedlove Smith; three sons, Breedlove, El Paso attorney, Myron A. of Fort Worth, and William Robert, Jr., University of Texas; two daughters, Mrs. Laurence E. Stevens and Miss Dorothy Smith of El Paso; a sister, Mrs. Jessie S. Kerr, El Paso, and a niece, Margaret Kerr.

During his illness Judge Smith was attended by Dr. Will P. Rogers and Dr. W. L. Brown. His illness first was diagnosed as acute indigestion and he was quite sick for a few days, but showed some signs of improvement during the latter part of this week.

Judge Smith always has been looked upon as one of the ablest, and most conscientious district judges in the country and the fact that he was called to go to New York to sit on the bench for a month was proof of the regard in which he was held, his friends point out.

The judge was a life-long democrat and was a personal friend of William Jennings Bryan, who has visited at the Smith home on the occasions of his trips to El Paso.

Judge Smith was born in Smith county, Texas, August 18, 1863. He was the son of Samuel Augustus and Melissa Caroline (Dobbs) Smith. He was graduated from Sam Houston Normal institute at Huntsville in 1883, and was married to Frances Lipscomb Breedlove of Brenham November 6, 1890.

Judge Smith was admitted to the bar in 1885 and removed to Colorado Mitchell county, Texas, in February, 1888.

He was a member of the Baptist church and during his career in politics was affiliated with several fraternal orders.

Had he lived Judge Smith would have observed his 61st birthday anniversary tomorrow.

Mrs. Smith, Breedlove, Miss Dorothy, Mrs. Stevens and the judge's sister, Mrs. Kerr, were at the Smith residence, 1427 Hawthorne Place, when Judge Smith died.

Stanton Has Costly Fire.

Stanton was visited by a costly fire about midnight Tuesday when one-half block in the business section was wiped out by the flames.

Among the firms that had their places of business destroyed were: Parks Motor Co., Dodge Garage, Morgan Motor Co., R. H. Fall & Son variety store, A. F. Pegues grocery, and a blacksmith shop. The buildings destroyed were mainly of galvanized iron and frame construction and burned very rapidly.

The fire engine from this city made the run to Stanton in forty minutes, but the fire had done its work before its arrival; and the danger of the flames spreading to other parts of the city had passed.—Big Spring Herald.

Mrs. Newt Miller and sister, Mrs. A. W. Johnston of Dunn returned Sunday from a visit to their sisters, Mrs. J. H. Carpenter of Eagle Cove, and C. A. Curl of Tuscola.

FORMER COLORADO MAN HEADS RANGER VETERANS

MENARD, Texas, Aug. 14.—Thursday morning, the second of the ex-rangers' reunion, found the town all astir with visitors and veterans, fifty of whom had arrived by this time. A thundershower Tuesday night had laid the dust and cooled off the air. The first business of the day was the election of officers for the ensuing year. This was carried out in the best of good fellowship.

The officers elected follow: Commanding Major, W. M. Green of Meridian; captain, Dr. P. H. Chilton of Comanche; first lieutenant, W. H. Roberts of Llano; second lieutenant, W. W. Lewis of Menard; orderly secretary, Miss Ruby Green of Meridian, daughter of Major Green; adjutant, A. T. Ritchie of Sidney; chaplain, J. O. Allen, Cookville; color bearer, C. M. Grady, Brownwood; assistant color bearer, J. H. Renick, Comanche.

A chicken dinner was served the veterans and races, speaking, music and ball games supplied them with entertainment throughout the day.

Friday will be the last and great day of the reunion. A public barbecue will be the feature. The place of meeting for next year will be decided upon by the executive committee and will be announced within the next sixty days.

Go to the polls Saturday and vote four convictions.

Colorado merchants have prepared for an unusually large trade during the fall season. Most of them have purchased heavily in the lines carried and will compete with merchants anywhere in this part of the State.

The Ferguson-Robertson campaign is ending as one of the hottest ever staged in Texas. It will, perhaps, equal the famous Hogg-Clark fight, and to be sure there was no more vituperation and mud slinging ever turned loose in the political history of Texas. The Record will feel relieved when the polls close Saturday and it is all over.

Ablene, Sweetwater and other trading centers of this section of the State received the first bale of 1924 cotton this week. Colorado is expected to receive its first crop within the next few days. The crop will be somewhat shorter than production in 1923, but Colorado will maintain its well known distinction of being one of the best cotton markets in the State.

The Record received a communication this week for publication. The letter was unsigned or signed "A Mitchell County Voter" and was purely political advertisement. We do not know who "A Mitchell County Voter" is so we can not publish it, besides it is the kind of letter that would not do any good even if it went in as paid advertisement. It is the policy of the Record to not publish any letters without the real signature of the writer.

Say, folks, did you know that we have reached the conclusion that the Democratic party couldn't have gotten a better man for their nominee for President. John W. Davis is a real man, a great jurist, a famous diplomat, and a statesman as good as the next man. He should prove, in our estimation, to make a president that could and would do great good for the whole country. He has the power to help us, and we have the power to put him where we can help us. Let's do it.

Every citizen of Mitchell county should have, either directly or indirectly, manifest an interest in the fair, to be held September 25, 26 and 27. The fair association, sponsoring the annual shows, is a county organization, organized and maintained for the general good of the agricultural, livestock, poultry and other interests of the county as a whole. The fair will continue to grow just to the extent of support given it by the citizens of the county. Begin now your plans to have a part in the Third Annual Fair.

The Scurry County Times of Snyder has been sold by Ben F. Smith to J. L. Martin of Royse City, Texas, who has already assumed charge of that excellent publication. Mr. Martin formerly owned the ofrd County News, The Royse City News-Times, and the Mexia Daily Journal, and is a man of wide experience in the journalistic field. Of course, it goes beyond saying here, that he will make a success of the Scurry County Times Snyder is a good town, with live and progressive merchants and other business enterprises, and The Record believes that J. L. Martin and Snyder will hit it off fine together. We have been informed that Ben Smith will engage in the newspaper business elsewhere.

DOES IT PAY TO BELONG TO THE AMERICAN LEGION?

We are a civic organization with traditions back of us that make a foundation for the strongest civic club in our land. Every piece of legislation beneficial to ex-service men has found the Legion behind the wheel.

We caused the organization of the United States Veteran's Bureau. We helped secure 600,000 adjustments of disability claims.

We placed over 100,000 disabled men in vocational training. We caused congress to appropriate many millions of dollars for vocational training, disability claims, hospitals, soldiers' homes and war risk insurance.

We stopped the contract hospital injustices.

The American Legion has spent over ten million dollars in aiding needy ex-service men.

The national adjusted compensation became a law after a five year fight by the American Legion.

Maintains hospitals of its own. The Legion has built hospitals and convalescent homes in Michigan, Minnesota, New Jersey, New York, Texas, and other states.

Provides for a contact man in each of the fourteen district offices of the U. S. Veterans' Bureau. This man is the veteran's representative with the government.

Provided employment for hundreds of thousands of world war veterans during the past five years.

Helped secure modification of unjust sentences imposed on soldiers during the war.

Brought pressure that resulted in better immigration laws. Vifally concerned in the proper Americanization of our aliens.

Cared for the living and buried the dead. Raising an endowment fund to provide for the perpetual decoration of the graves of our comrades overseas. Going forward rapidly with our children's welfare program and caring for the little ones left by our deceased comrades.

These are a few of the things that the Legion is doing. There are at present over 5,000 orphan children of ex-service men in the nation to be cared for. Who will do it if the Legion does not?

There are 49,000 ex-service men still in hospitals who need care. Will they get it without an organization behind it?

In all wars in the past the ones who served in the ranks bore the brunt of the entire financial and physical loss of the nation. It was they who laid down their lives, gave up good positions and bore financial loss personally, while many of those who remained at home fared well. The Legion is now fighting for a constitutional amendment to conscript all of the resources of the nation in time of war, viz: Capital, labor, industry, transportation, as well as man power.

The American Legion has established and taught the highest ideals of manhood; in our meetings you will hear nothing that will not benefit you; no man is allowed to traduce his God, his flag or his country.

Almost any one can join other societies but only an ex-service man with an honorable discharge can join the Legion.

Born in the aftermath of a terrible war—the American Legion is the war-tried youth of America. The soul of The American Legion takes root on the altar of sacrifice, on which its personnel offered their all. The heart of the American Legion throbs with a flood of loving patriotism for this our native land. The mind of the American Legion reasons that if this country is worth dying for she is equally worth living for.

Our program for the future is far reaching and will be carried on to the very best of our ability. It will be a credit to our membership and to those of our comrades who have paid the supreme sacrifice.

Every ex-service man who is not a member of the American Legion is urged to join us now. We can carry on for you best by having you carry on with us. Your membership will help us to continue to serve "For God and Country."

Oran C. Hooker Post No. 127, American Legion, Colorado, Texas, in-

vites and urges every ex-service man in Mitchell County to become a member and help in our future undertakings.

IRISHMAN IN TROUBLE

Dick McCarty, editor of the Albany News and an Irishman of the true type, is evidently very much in trouble over the present status of Texas politics, especially as to the voters' choice for governor. In the current number of his paper, Richard opines:

This Terrell Election law gives us some strange bedfellows, merit does not count, but rather prejudice and dirty dollars tip the balance in the realm of politics. The recent primary have handed the voters of Texas a problem indeed, one that is hard to solve. But he said of McCarty, that he will never vote for a Ku Klux. Two years ago we voted the Ferguson ticket, rather than vote for a Ku Klux, but in this instance, as yet, we have not decided if we will vote in the run-off or not but if we vote, we will vote for the Ferguson regime. Think of all the brainy men we have in this state, broad minded men, clean men, business men—and yet, it staggers one to get up against a problem like this, and as yet, we haven't solved it. Nothing can be said against the character of Mrs. Ferguson, an excellent Christian woman, above the average in intelligence, but great God of good government, has it come to this: that we are called upon to choose between a common ordinary lawyer, second rate, and a Ku Klux to boot, and an experienced woman, though she be an angel. In the name of high heaven, has it come to pass in this great state, that we have to make governors out of this sort of material. We are pleading with the gods for light, but as yet, the veil has not been rent. Come on ye gods and show us the way.

OUR GOLDEN PROBLEM

A great New York bank, in its review of the business situation last week, called attention to the great proportion of the world's total supply of gold which is now held in the United States. The amount has been steadily piling up and is now placed by this bank at \$4,500,000,000, as compared with something less than \$3,000,000,000 three years ago. The rest of the civilized nations have together no larger sum of gold than is held in this country alone. It is not something which our bankers and merchants, our manufacturers and importers, have made special efforts to secure. Simply as the result of economic forces set in motion by the World War, gold has flowed in upon America in a veritable stream.

The significant thing is that our most skilled and sober financiers are not gloating over this unexampled heap of golden treasure. They view it rather as a source of certain anxieties. In it they see a possible danger to our own system of currency and credit. The great gold holdings in the banks are a constant temptation to inflation and speculation. This is a peril against which the authorities of the Federal Reserve Bank have to be constantly on guard. A lax and lavish use of credit, made technically possible by the huge reserve of gold, might indeed lead to an immense business expansion, but the outcome of it would surely be a disastrous

crashing to earth of the speculative balloon. Yet something must be done with the gold. It can not be left indefinitely idle in the vaults. Americans are not misers to delight merely in brooding over their amassed gold, and handling it to make sure of its existence. They know that its real value is safeguarded use, and for such employment of it they are looking about today more eagerly than ever before.

A certain amount of our surplus gold can be utilized in our own supply of currency. Bank notes are retired and gold certificates put out in their place. But this can reduce the excess only in a slight degree. For the full employment of the gold which we have beyond our own immediate needs we must as the bank referred to insists, look abroad. We must be prepared to make use of our surplus gold not only in subscribing to the forthcoming German loan, but in greatly extending our foreign investments of all kinds. Otherwise the gold will remain on our hands as both a drug and a danger.

Thus is the ancient process revised. Instead of scouring the world in search for gold, we are in the position of asking the rest of the world to help us make safe and profitable use of the gold we already possess. It is like carrying the Golden Fleece to market instead of going on a long and arduous quest for it.—Ft. Worth Star-Telegram.

FIRE PREVENTION.

Almost every day we read in the news reports of children burned to death in dwelling house fires. Not only one child but three, four and five are burned at a time in a single house. It seems almost impossible that such accidents can occur, but the sad fact remains that they do, and in most cases they would have been preventable through just ordinary carefulness.

The National Board of Fire Underwriters in conjunction with the National Board of Education has prepared a booklet entitled Safeguarding the Home Against Fire. This is a fire prevention manual for the school children of America. Eight hundred and thirty thousand copies of this textbook have thus far been printed and distributed. In picture and text it places before a growing child the dangers that surround on every side as a result of carelessness with fire. This book should be in the hands of every school child in America, and should form the basis of a regular school course from the third to the eighth grades at least in public schools.

The mere fact that the annual per capita fire loss in the United States for every man, woman and child is \$2.10 compared with 49c in France, 33c in England, 28c in Germany, 25c in Italy and Austria, 15c in Switzerland and 11c in Holland is sufficient evidence that the teaching of fire prevention should start with the child and become a recognized course of study in this nation.

PRINT PAPER.

You are reading a newspaper now and when you have done with it for the day you will probably leave it somewhere, if you don't happen to be one of those careful souls who never just leave anything anywhere. But thirty or forty years from now

you may have to do with your newspaper like you do with your milk bottle—leave yesterday's paper on the doorstep in exchange for today's. The explanation of so wild a suggestion as that is not very involved. It involves nothing harder to understand than the fact that we are chewing up more wood for paper pulp than we grow in this country. To be quite precise about it, we use twice as much pulp as we get from our own forests—and our forests do not replace from year to year even that half of our needs.

Paper is of the very texture of civilization itself. Without it—we, we don't seem able to calculate what things would be like without it. The fact is that some day Canada is going to get tired of sending us several million tons of wood pulp a year. When Canada gets tired, whether shall we go? It is time we were asking ourselves about that. Indeed, the question is overdue. Reforestation if started now will not relieve us of the pinch. But it will at least give us assurance that the pinch will not be permanent. At present we have no assurance at all except that we will ultimately denude our last forested acre, if we go blindly on as we have come thus far. Two-thirds of our trees are gone already. The remainder are going, by fire and by ax, as fast as they very well can.

For a thing not to be worth the paper it is printed on was once the nadir of worthlessness. But our folly in taking care of what a bountiful providence laid ready to our hand is about to wrest from the figure its force. Improvident has been our guide and waste has marked our way. Today we consume more paper and paper products than all the rest of the world. When we think about it we yawn and twiddle our thumbs. But our children may have to put the paper out with the milk bottle of an evening in order to be sure of anything in its place next day.—Dallas News.

"POLITICS"

The problem of the difference between a Democrat and a Republican, for the solution of which the Baltimore Evening Sun offered a prize, was solved by Mrs. Esther Hollander, who explained that a Republican "is a person who thinks a Democrat administration is bad for business", and a Democrat "is a person who thinks a Republican administration is bad for business". In Mrs. Hollander's opinion both are right. This is rather like begging the question, but perhaps it is the nearest answer to the problem that is obtainable. It is stated that 77 per cent of those replying—some thousands of replies were received—thought the difference was the same as that between Tweedle-dum and Tweedle-dee; 14 per cent delved into history to show that whatever was the case now there once had been a difference; and 9 per cent did find some distinguishing marks.—Japan Chronicle.

Mr. and Mrs. H. L. Hutchinson have as their guests, Mrs. Ava Knight Mrs. Jessie Summers and son Edwin and Hubert Crawford of Lubbock. Mrs. Summers is a cousin of Mr. Hutchinson. The party, with Master Fred Rivers Hutchinson, have made an extended auto trip in Oklahoma and Central Texas.

GLANDS AND DREAMS MAY SAVE MURDERERS

Glands and dreams of Nathan Leopold Jr. and Richard Loeb, are relied upon by the slayers and their council to save them from the gallows for the murder of 14 year old Robert Franks. Clarence Darrow, chief attorney for the defense, expects to put his last witness on the stand Monday and he probably will rest his case by night. Through one of the most eminent and highly paid staff of alienists ever assembled in any legal proceedings, Darrow has sought to convince Justice John R. Caverly that his two 19 year old clients should not hang.

States Attorney Robert E. Crowe plans to start a rebuttal before night fall Monday that he believes will shatter the fantasy-glandular defense structure.

"It is all a lot of poppycock," Crowe told some of his assistants during a conference Sunday. "Physicians inform me that all children have fantasies, that some fantasies persist throughout life, but many change from due to physical and mental changes. And so far as the glands are concerned—much of that is pre hypothesis and never could be established in fact. Gland conditions such as the ones these doctors have described are common to the human race just as much as toothache and earache.

"All the x-rays in the world, all the talk about king and vassel and all the sneers of these two youths will not satisfactorily explain away the fact that they coolly, deliberately and in full and complete possession of their senses, kidnaped and killed a young boy for money. The state will insist on the death penalty."

During the closing hours of the session Saturday, Dr. H. S. Hulbert had testified that Loeb's glands were undeveloped and did not function enough. Leopold's glands, he said, worked too hard. They overfunctioned. The gland conditions of the two slayers, the physician testified together with their abnormal mental states, drew them together in an association of crime. He showed x-ray pictures of the two youths, which he said confirmed him in his statements about their glands.

Darrow will place no more physicians on the stand, he said Sunday. He expects to have five more witnesses, among them members of the Loeb and Leopold families. These will be used merely to identify certain exhibits, such as photographs and letters which the defense has introduced.

The state expects to put at least five physicians on the stand to contradict the testimony of the defense alienists. The state alienists do not believe that either Loeb or Leopold are mentally disordered and some of them will seek to advance a plausible explanation of the gland-dream testimony designed to convince Justice Caverly that the statements of defense alienists constitute no reason why the defendants should not be hanged.

The W. M. S. met at the tabernacle Monday afternoon. They will meet next Sunday with a program from the Missionary Voice. All members are urged to be present.

JOE BURKETT WILL SPEAK HERE FRIDAY AFTERNOON

Senator Joe Burkett of Eastland will deliver an address at Union Tabernacle Friday afternoon at three o'clock in the interest of the candidacy of Mrs. Ferguson for governor. Arrangements to bring Senator Burkett to Colorado were completed Thursday morning by the Colorado Ferguson club.

"Senator Burkett is coming to Colorado to address the voters of Mitchell county in the interest of true democracy," a member of the Ferguson club stated Thursday morning, "and every citizen of this county is urged to hear his address."

Homer Hutchinson and James Joyce returned Wednesday night from a trip to Mineral Wells.

POULTRY

KEEP YOUNG MALES AND FEMALES APART

Unless the young males are of especially good breeding and show promise of exceptional merit, it is in the long run more profitable to sell them on the early market for fries than to hold them as breeders. The day of dollar and dollar-and-a-half cockerels for the farm flock is passing. There is no profit in hatching, rearing, holding for several months, possibly advertising, and selling at such prices. Let them go early, keeping only the best to make sure of one's own breeding stock and birds that are worthy a good price as breeders.

Separate these from the pullets. They do better when not running after the pullets, and the pullets make a quicker growth when separated.

Lack of shade will mar the plumage of all growing stock. The early fall fairs show up sunburned young stock which would have a better chance of winning if the owner had done his part. "A good bird in the hands of a poor breeder," an observer at a poultry show said of a sunburned cock. Little details add greatly to the chances of winning. We have heard breeders complain of prizes going to the back-yard poultry keeper, says the Indiana Farmer and Guide. These are without reason. The object of showing is to exhibit the chickens at their best—to show how perfect they may become. The handwork of the back-yard poultryman is bound to show in the grooming, but the farmer has the advantage of range, live meat in the shape of bugs and worms, and variety of seeds, which gives him the advantage if he does not scorn the details such as separating the sexes, giving shade and more than stanchion room to his flock.

Feeding Young Turkeys

During First Few Days In order to prevent the heavy losses which occur among young turkeys, greater care is necessary, especially during the first four weeks. Poults should not be fed for 48 to 60 hours, then they should be given some fine grit or finely-chopped egg shell. Care should be exercised that an ample supply of sour milk, milk curd, or cottage cheese is available.

For feeding the first few days, much the same feeds and methods as are used for baby chicks may be followed, the only difference being that in feeding little turkeys even greater care should be exercised not to overfeed. Oatmeal, hard-boiled eggs, crumbled shell and all, and Johnny cake have been found satisfactory. The poults may be gradually changed to a good-grade chick scratch, sifted finely-cracked corn, cracked wheat and pin-head oats, with a mash mixture such as is used for little chicks.

Infertile Eggs Favored for Shipping to Market

Thousands of dollars' worth of eggs are needlessly lost during hot weather. It is the farmer and poultryman who bear the cost of spoiled eggs. It is not unusual for cases of eggs to contain a few hatched chicks when they reach the produce house, and for other eggs to be well on the way toward hatching.

Incubators and broody hens are not necessary to start the process of incubation. Fertile eggs will begin to develop chicks at a temperature of 70 degrees Fahrenheit.

The way to do away with fertility in eggs is to remove all males from the flock for two or three weeks previous to shipping eggs. An infertile egg will not hatch and will keep much longer than a fertile one.

Poultry Hints

Swat the males and produce infertile eggs.

Scour milk is one of the best feeds for small chicks.

Watch for lice and mites and get rid of them as early as possible.

Inbreeding has ruined many a flock or family of turkeys. Use strong, unrelated toms every year.

Don't crowd too many poults in a coop or in a brooder—and keep them warm and dry the first few weeks. Drafts and dampness cause most losses among young turkeys.

Ground that the adult fowls and early chicks have been running over gets foul and sour. It is of special importance that young stock as well as the old birds be gotten onto new ground or on renovated ground from time to time.

Eggs contain a large proportion of water. If you want your hens to lay heavily, see that they have all the water they can drink.

It is as easy to overfeed fowls as it is to underfeed them. The happy medium can be learned only by experience and close observation.

The best way to kill off lice is to prevent them from getting a start. This is much easier than it is to give them a chance and then fight them afterward.

DENTON EDITOR MAKES POLITICAL STATEMENT

DENTON, August 22.—In a final statement before the run-off primary for next Saturday, Will C. Edwards, Denton editor, and candidate for the Democratic Nomination for Lieutenant-Governor, said:

"On next Saturday Texas Democrats will make their choice for Lieutenant-Governor between Barry Miller of Dallas and Bill Edwards of Denton.

"If they want a man who is not a factionalist but merely a Democrat, a business man who seeks the place only that he may be of service to the whole people, they ought to vote for Edwards. If they want a professional politician, the nominee of a secret, oathbound political bloc, and a party bolter, they ought to vote for Miller.

"Miller is seeking the Democratic nomination as the nominee of the Farm-Labor Union. Edwards is seeking merely as a Democrat.

"I am not the candidate of any bloc or interest or group. From the beginning of my campaign last January I have made but one pledge—to be fair and just to every citizen, every section, every legitimate interest of Texas, and to give the whole people of Texas the very best that is in me.

"I did not seek the consent or endorsement of any political faction when I announced. I have not sought the endorsement of any political bloc or group in Texas. I don't belong to the Ku Klux Klan, the Farm-Labor Union or any other faction—never have and don't expect to. I'm running straight down the middle of the road, in no alliance with any bloc or candidate.

"I'm running as 'Bill Edwards' his own man' without pledge or commitment that would embarrass or hinder me in fulfilling my one promise and I'm either going to Austin that way or I don't want to go. I'm seeking the office that I may be of some service to Texas. The only way I can render the best service of which I am capable is to go free and unfettered by any pledge or alliance with any bloc or interest and if I can't go that way, I'd rather stay at home.

"Important differences between Barry Miller and me is that I am a prohibitionist, Miller has always affiliated with the wets since he used to be the lobbyist and paid orator for the Brewers' Association. I am for woman suffrage and have always been. Barry has been both ways and I don't know how he stands today. I am opposed to repeal of the open port law. Barry favors it. I am opposed to the State going into the insurance or any other business. Barry would put the State into the insurance business as a starter. Barry's whole political career has been as a representative of some special group or interest. I have resolutely stayed out of all factional groups, seeking to be of service to the whole public instead of a part thereof.

"I am opposed to additional taxes. Barry's Farm-Labor platform, which he has accepted in its entirety, pledges him to a State income tax, franchise tax, privilege tax, intangible assets tax and other tax measures and to abolish the poll tax. I favor only a better distribution of the tax burdens that every dollar's worth of wealth in Texas may contribute its just proportion to the maintenance of government.

"My friendship for the farmer and the working man is real, not political, and all my life as a man who worked with his hands as well as his head I have earnestly sought to help all workers.

"I'm making my appeal to every loyal Democrat in Texas to vote for me on the ground of service to the State. I have no appeal to prejudice or passion, but merely seek to put the facts before the Democrats of Texas that they may act unswayed by radicalism, factionalism or prejudice. —(Political Adv.)

CROPS

Scurry county is not noted for wheat raising, but this year it has some fine wheat. Giles Garner has just finished harvesting 170 acres, three miles west of Snyder, which will yield 25 or 30 bushels per acre. Mr. Garner plans to raise a crop of feed on the same ground this year. —Snyder Signal.

Most folks don't know it, but almost anything can be raised in West Texas. And it's a fine thing to try to raise these different crops, so our farming can become more diversified. And that plan of crop rotation that Mr. Garner is following is an excellent example for many farmers to follow, too.

We are indebted to our good friend, Dan Beeman for some excellent cantaloupes brought to our office and home Thursday. These melons were raised on Mr. Beeman's place, and like other farm products grown by him, of the best variety.

COLORADO PRAISED BY VISITING BUSINESS MEN

A party of business men from El Paso and Pecos spent several hours at Colorado Friday with the view of locating an industrial enterprise here. They were shown over the city by officials of the Chamber of Commerce and after seeing the city and noting data as to cotton and other field crop production, oil development and business conditions in general expressed themselves as being highly pleased with Colorado.

"Colorado is the best town we have seen between here and El Paso" was the declaration of a member of the party. They left Colorado late Friday afternoon for the return trip.

MITCHELL COUNTY GIRL AT GREELY, COLORADO

Among the Texas students enrolled at Greely, Colorado is Miss Beatrice McGee of Loraine. Miss McGee made one of a touring party out to Colorado. Stopping at Manitou and Colorado Springs long enough to visit relatives, she visited Pikes Peak and all other points of scenic interest. Since being at Greely, she has been fortunate enough to visit Estes Park. After spending a few days in Denver the guest of friends and relatives, Miss McGee will return to Texas in the fall.

Miss McGee made an Eastern tour early in the summer, visiting in La.,

Mississippi, and Alabama but through them all she says that "natives all like Texas best."

WOLK AND SON

It Takes Real Mule Power!

IT TAKES real mule power to pull a scraper or plow in heavy soil. But mules that have been fed right can stay with hard work all day long. Just giving your mules plenty of corn, oats and hay to fill them up, won't keep them in sound condition, because these do not supply a work animal with a sufficient variety of diet to keep them in real working condition.

A good mule feed must not only produce lots of energy, but it must be appetizing as well.

Purina O-Molene is a perfectly balanced ration. Better still, the grain in O-Molene is treated by a special process that makes it more easily digested and exceedingly appetizing. Mules love it. You feed much less O-Molene than you do of corn and oats. O-Molene is much nearer completely digested.

Call us up today and learn more about why this is the best mule and horse feed.

Seed Selection Demonstrations.
Two interesting and instructive demonstrations will be given on Thursday, August 28th, by Mr. E. A. Miller of College Station.
Mr. Miller, is Agronomist of the Extension Service of the A. & M. College, and will, at the two demonstrations, explain fully the best methods to follow in the field selection of cotton and the grain sorghums.
The first demonstration will be held on the farm of Mr. J. W. Kay,

two miles east of Colorado, at 9:00 a. m., while the second demonstration will be on Mr. J. L. Kuykendal's farm, one mile east of Loraine, at 4:00 p. m.
H. L. Atkins, Jr., county farm agent, urges all farmers who are interested in seed improvement for Mitchell County, to be present at one or both demonstrations.

THE ART OF "REHASHING" STIRS EDITOR'S GENIUS
Sunday morning a reporter for one or two of the large daily papers circulating at Colorado reported by telegraph the death of a Mexican farmer by lightning near Spade Saturday night, and also mentioned the fact that some damage had been done to farm property the previous night near Hyman.
Evidently, in order to make the story assume the proportions of a "scoop" and carry a tinge of sensational color and gripping interest, one of the editors, in handling the report for his paper, sat down at his desk in the busy city newspaper office and completely rehashed the story. The change from the original to the one carried in one of these papers is of such proportions as to make that aspect of the story more interesting than the mere relation of the storm.

The correspondent wired the big city daily as follows:
"Colorado, Aug. 17.—Viviano Guerrero, farmer, who lived near Spade, twelve miles southwest of Colorado, was killed instantly by lightning during a severe electrical and rainstorm early Saturday night. He and three other men were sitting around a table in the Guerrero home when the bolt struck the house. The others were injured slightly.
Farm property and crops were damaged by high wind in parts of the county. Near Hyman, thirty miles southwest of Colorado, four or five farm homes were blown from their foundations. Rural telephone service is badly crippled."
Evidently there was not enough kick in such a mild statement. After being rewritten in the city office, the article was published, as follows:
"Colorado, August 17.—One man instantly killed by lightning, three others slightly injured by the same bolt, four or five farm houses blown from their foundations and partially wrecked, considerable damage done to crops by wind and rain, and the crippling of a rural telephone system, are the major results of a severe storm which swept over this section of the State early Saturday night.

The man who was killed by the lightning during the electrical storm was Viviano Guerrero. He was a farmer and lived near Spade, 12 miles southwest of Colorado. The names of the three men who were stunned and slightly injured by the same fatal bolt, have not been learned.
"They were sitting at the same table with Guerrero, and were knocked from their chairs to the floor by the bolt. A few minutes later they had recovered their full sense, and then notified neighbors and officials of the tragic death of Guerrero.
Belated reports from throughout the county, due largely to the crippled condition of the rural telephone system, are to the effect that the damage done to crops and farm buildings will be large. The high wind which accompanied the electrical display blew down headed crops, which were afterwards beaten into the ground by the heavy rain.
Four or five farm houses near Hyman, 30 miles southwest of here, were forced from their foundations

SHERIFF'S WIDOW SWORN IN TO COMPLETE TERM AT ROBY

On the same day funeral services were held for former Sheriff Baxter Lambert of Fisher county at Roby, his widow was appointed to fill out the unexpired term by Commissioners' Court and immediately qualified for the office. Sheriff Lambert, who had been sheriff of Fisher county for eight years, died in a hospital at Dallas Thursday and was buried at Roby Saturday. Mrs. Lambert is said to be one of the first women to ever hold this office in West Texas.

AUTOMOBILE RACES AT LORAIN AUGUST 22ND

Friday, August 22 has been set aside as automobile race day at Loraine. There will be thirty five miles of races in all. There will be four races besides the elimination speed bursts. There will be two 5 mile, one 10 mile and one 15 mile event.

The elimination trials will differ somewhat from the usual practice of running against time one at a time, in that the field will be divided into two groups in the elimination trial dropping the two or more slower cars in each group. Then in the event of a breakdown among the faster group those who have been eliminated will then be admitted.

The races are wide open to all contestants, no one barred. These races, which have the approval of the Chamber of Commerce will begin promptly at 3:00 o'clock.

An admission charge of one dollar for adults and fifty cents for children admits to all parts of the grounds.

There will be no charge for automobiles and they may be parked as desired by visitors just so that they are not in the danger zone.

The races will be under the management of Roy C. Barton.

CONCESSIONS FOR SALE AT MITCHELL COUNTY FAIR

The Mitchell County Fair Association still has several attractive concession privileges on the fair grounds for sale. Among these are ice cream, bottled cold drinks, novelties, hamburger, confectionery and other worthwhile business opportunities.

The fair this year, which will be held September 25, 26, and 27, will be the largest in the history of Mitchell county. The largest entertainment program by far ever attempted has been arranged. These concessions cannot fail to pay. If interested see S. C. Thomas, Colorado, Texas.

A GOOD MOTTO.

GRASSHOPPERS DESTROY ENTIRE FIELD OF COTTON

There is a farm on the highway between Colorado and Westbrook in which there is no crop growing today, although it was planted in cotton last spring. The farm is void of crop vegetation because of the depredations of grasshoppers.

It is said that the owner of the place, believing that the hoppers would not prove destructive, declined to employ methods for destroying them with the result that the cotton was entirely eaten by the epests.

COLORADO WOMAN ATTENDS WESTERN M. E. ASSEMBLY

The Western Methodist Assembly grounds located on Mt. Sequoyah, which is in the suburbs of Fayetteville, Ark., opened for its second season this year.

There are already built and in use a man's dormitory, a woman's dormitory, thirty cottages and auditorium and cafeteria. The League is building a beautiful brick and stone assembly hall and the women have planned a building. The grounds cover the top and sides of Mt. Sequoyah, is shaded with beautiful trees, grass covered lawns and walks outlined with white washed stones. It is well lighted and watered and kept beautifully clean. The four days given to social service were very full. Bishop Cannon presided. The child and the home being the general theme. Dr. Light conducted the morning devotionals on Religion in the Home, bringing wonderful messages of Christ's love and care for the home and family. Dr. Edson for one hour each morning lectured on Sex Education. He is a member of the National Social Hygiene Association of N. Y. and his talks on this vital question were full of help and information. There is no double standard in God's laws and its our duty to train our boys as well as our girls to keep clean their bodies, minds and souls.

Dr. E. B. Gorsline of the Dallas Psychopathic Clinic gave one talk on the work being done by them. This is a new field opening up wonderful possibilities as to the remedying of mental defects and the proper "placing" of children in their life work.

Dr. Carrie Weaver Smith of the Delinquent Girl, an awful arraignment of our present method of dealing with them and showing a more humane and Christian way.

Prof. Seneker of S. M. U. talked for one hour each morning on Religious Training and proved beyond question that if a child is trained in the way he should go he would go that way. He also showed the great responsibilities of parents regarding this training. Dr. Mangold of St. Louis who has written a number of books on Child Welfare gave two addresses on this. He told the kind of institutions needed for dependents, the great need of mothers' pension laws, child labor laws and the great law of Christ, "Love thy neighbor as thyself."

Dr. Will Alexander of Atlanta gave a talk on Race Relations. He said the assumption that goodness is enough to save the world is a fallacy. Science is not enough, everything is of God and must be used for Him. Mrs. Jessie Daniel Ames of Georgetown talked on the legislative side of Race Relations. Bishop Candler preached Sunday at eleven o'clock at the Fayetteville Methodist church and all went in and heard a great sermon.

In the afternoon the musicians of the city gave a delightful sacred concert and a pageant on the superannate written by Mrs. Robertson, the manager of the Woman's Dormitory was given by the children on the assembly grounds.

There were many Texans present and it is hoped that more will attend each year. The grounds are open from June to September. Tourist tickets may be secured. The highways are good and many near-by beauty spots can be visited by those with

The territory given Mr. Stewart extends from Temple to Amarillo and he has received an advancement and promotion by the company which his many friends at Colorado will be glad to learn.

Mr. and Mrs. Stewart plan moving from Abilene to Fort Worth about September 1. N. H. Moore of Mineral Wells has been appointed district manager to succeed Stewart.

COLORADO BEST TOWN TO ITS SIZE IN WEST TEXAS

A prominent citizen of Abilene stated here this week that Colorado was the best town between Abilene and El Paso, and, according to his way of seeing things, was the best town to its size in West Texas.

"I do not know of a small city anywhere in which there is to be noted a better building program than you have here. Your street and business property improvement is above par with other towns over the country. As to bank deposits and business conditions, in both town and country, you Mitchell county people are certainly showing up well, reflecting an unusually healthy condition."

LIONS CLUB IS BIG ASSET IN COMMUNITY PROGRESS

"The Lions and other luncheon clubs of Abilene have fostered with small exception every worthwhile program instituted in the city of Abilene," was the declaration of Dr. J. W. Hunt, president of McMurry College, in delivering an address before the Lions club here Friday at noon. The speaker appealed for the business and professional men of Colorado, who are members of the club, to devote their thought and energies toward bringing about of a more universal religious condition in this community along with their programs for civic and commercial growth.

"The one thing that Colorado needs most of all is the ideals of a pure religious life among its citizenship," Hunt stated. He gave an invitation for the Lions to attend the revival being conducted at United Tabernacle.

Others to address the club were Rev. J. F. Lawlis, pastor of the Methodist church, and Solis McCreeless, of San Angelo, evangelist, singer assisting in the revival.

Dr. Hunt and Mr. McCreeless are to attend the club again Friday of

this week. In addition to addresses by the visitors, it has been announced that McCreeless will sing one or more vocal numbers. President E. H. Winn is hoping for a good attendance.

A BUSINESS PROPOSITION. THINK IT OVER.

To the Voters of Mitchell County: You have a chance to elect a man of experience for County Judge, examine his record. Think it over!

A man that took the initiative in road building and is still in favor of good roads, and if elected will use all honorable means to improve road conditions in Mitchell County, in a business way. Think it over!

A man that is in favor of a gravel highway from east to west through the county. Think it over!

A man that is in favor of a good conservative maintenance outfit to be kept constantly at work on all lateral roads in the county. Think it over!

A man that believes in equal rights to all and especial privileges to none. Think it over!

A man that can figure the cost of all kinds of work that needs to be done for the county and will see that the tax-payers get value received for their money. Think it over!

Kindly thanking those that voted for me in the first primary election and assuring those that voted for the other four candidates that I hold no ill will toward them. I respectfully solicit your careful consideration, and if you think it best to elect me I will appreciate the courtesy and promise you my best service. Think it over.

Respectfully submitted,

Yes, we are still marching on. Although quite a number of our people are yet on their vacation we had 178 at S. S. last Sunday morning. Some of our teachers are still working on the teacher training course. Several of our workers are planning to attend the standard training school at Colorado. Each of us wish to make our S. S. as interesting and as helpful as possible. There were very good crowds at the preaching services both morning and night. We received six

members at the morning hour, three men and their wives. We are glad to have these unite with us. We know they will help us and we want to be a blessing to them.

Mr. and Mrs. A. H. Nelson and children Miss Lillie Nelson and Wilma Manley attended the singing at Pleasant Valley Sunday afternoon.

Miss Alto Umberson of Andrews who is attending school at Simmons was a week-end visitor in the home of Mr. and Mrs. G. W. Hendrick.

A teacherage is being erected this week on the Valley View school grounds. The building will be a 3-room bungalow. Mr. Howerton of Hamilton and hte Misses Wilsons of Snyder have contracted to teach the school.

Mr. F. N. Carnes and family of Crowell, have returned and are at home in East Loraine.

Dr. Hester has moved his present residence to the lots west of the lumber yard which he and family will occupy till the new 9-room stucco is complete, the foundation of which is being laid. The new house will be erected where the old house stood.

Mr. and Mrs. Virgil Walker moved to the Burrus farm this week.

Mrs. W. F. Altman and daughters of Arlington visited Mrs. I. J. Pierce and other relatives here last Wednesday and Thursday. Mrs. Altman and daughters and her niece, Miss Maurine Whorton, have recently returned from a five week's trip of 5000 miles through New Mexico, Colorado, Wyoming, Rocky Mountain Estes Park, Yellowstone Park, Montana, Idaho and Utah. The entire trip was made in a Ford touring car. The continental divide was crossed five times. The highest point reached being the summit 12,500 feet in Estes Park.

Mr. and Mrs. W. T. Thweatt are visiting in Coleman.

Misses Annie and Fannie Jarrott visited F. T. Jarratt and family at Champion Sunday.

Mrs. Bert Debaund and children of San Antonio and Mrs. Barney McDaniel of Uvalde who have been here on a two month's visit with their parents, Mr. and Mrs. M. F. Hall, left for Ft. Worth Monday night where they will visit a few days before returning to San Antonio

CONSOLIDATED INSTITUTE AT SUL ROSS STATE COLLEGE

The Trans-Pecos consolidated teachers institute will be conducted at Sul Ross State Teachers College September 1st to 7th, under the personal supervision of President H. W. Morelock.

Mr. Morelock's experience in the field of education has been wide and varied. While a member of the faculty of the West Texas State Teachers College, Mr. Morelock organized the Panhandle Plains Consolidated Institute, the last annual meeting of which was attended by more than one thousand teachers.

The Trans-Pecos Institute is in the third year of its existence. Five counties are now members. They are Brewster, Davis, Pecos, Presidio and Terrell.

Among the special features of the program lectures concerning the teaching of Mexican children by Mr. Robert C. Jackson of El Paso. Mr. Jackson has attracted favorable comment for his achievements in this field. The equipment of Sul Ross will be at the disposal of the visiting teachers. Not only will the library be available, but tennis courts and Hancock pool will provide recreation.

IN SOCIETY AND AT THE CLUBS

Missionary Program
The Baptist women met at the church Monday for the regular August monthly missionary program. The subject was the negro in our midst led by Mrs. A. L. White. The scripture was on Service, John 13. Besides the Royal Service program Mrs. Gustine read an interesting paper on "Is the Negro in our Midst a help or a Responsibility?" Mrs. F. B. Whipkey, Mrs. White and Mrs. Bowen gave a report of the Christoval meeting. Plans were completed for the all-day county meeting, Aug. 28th. Mrs. Oxford of Stephenville was a guest. Mrs. Jack Smith and Mrs. T. J. Ratliff served as hostesses and served fruit slices and punch.

Missionary Meeting.
The Foreign Mission meeting of Central Circle of the Presbyterian Auxiliary was held with Mrs. Van Tuyl Monday following the meeting of the Weekly prayer circle. Mrs. Van Tuyl had an interesting letter from Mrs. Dr. Rollison, China. The mission study in Japan dealt with the attitude of Japan toward Korea both that which had been harsh in their dealing and wherein they had been truly helpful. The foreign mission lesson dwelt mostly on the advance in our medical mission work both in Africa, Korea and China. A most welcome dish of ice cream and cake sent us home refreshed after the hot afternoon.

Priscilla Club.
Mrs. J. H. Greene entertained the Priscilla Club last Friday. Mrs. Sherwin prepared an interesting diversion by having contest by guests make proverbs from pictures pinned on the wall. The hostess and her daughter, Nell Harper, served apricot ice and angel food cake. Mrs. Smoot will be hostess this week.

Harmony Club.
Mrs. Jess Gage entertained the Harmony Club Tuesday at her home in the oil field. Her guests were Mrs. Byron-Byrne, J. A. Sadler, J. L. Pidgeon, Wesley Gage of Oklahoma and Miss Annie Mary Lupton. The hostess served salad, olives, potato chips, bread and butter sandwiches ice tea and apple pie a la mode.

Joint Meeting.

PHONE DAY OR NIGHT

How Often Do You Use Your Telephone?

Do you use your residence telephone often enough to warrant the expense of a "one-party-line?" Consider the number of hours that your line is not in use, and you will probably conclude that a "selective-ringing" telephone would handle your traffic just as well—and at a reduced expense.

By sharing your line with another subscriber you not only save money, but you enable the Telephone Company to add more telephones to the exchange—and thus make your telephone more valuable. For the value of your telephone increases in proportion to the number of other telephones you can be connected with.

In other cities where "selective-ringing" service is offered, residence subscribers find that this service satisfactorily meets their needs.

NOTICE IN PROBATE.
THE STATE OF TEXAS.
To the Sheriff or any Constable of Mitchell County—Greeting:

You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Mitchell County, a copy of the following notice:

THE STATE OF TEXAS
To all persons interested in the welfare of Kenneth Kuykendall, Porter D. Kuykendall, Loyd Kuykendall, Oma Lee Kuykendall, Oriel Thorp Kuykendall, Susie Mabel Kuykendall, and Lois Kuykendall, Minors; J. L. Kuykendall has filed an application in the County Court of Mitchell County, on the 20th day of August, 1924, for letters of guardianship of the persons and estate of said minors, which said application will be heard by said Court on the first day of September, 1924, the same being a regular term of said court, at the court house of said County, in Colorado, Texas, at which time all persons interested in said minors' welfare are required to appear and answer said application, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Colorado, Texas, this 20th day of August, 1924.

(Seal) W. S. STONEHAM,
Clerk County Court, Mitchell County, Texas.

A true copy, I certify—L. W. TERRELL, Sheriff of Mitchell County, Texas. By C. E. Franklin, Deputy 8-29c

BARCUS LEAVES TO ATTEND BIENNIAL SCOUT MEETING

W. S. Barcus, executive of the Buffalo Trail Council of the Boy Scouts of America, accompanied by Mrs. Barcus, left Thursday morning for Estes Park, Colo., for the Third Biennial National Conference of Scout executives. The conference will last ten days.

Probably 600 Scout Executives will be present, and men of national reputation in salesmanship and executive circles will address them. Mr. and Mrs. Barcus plan to visit points of interest in Colorado before returning.

Junior Missionary.

Mrs. J. G. Merritt and son John Tom, were hostess to the Juniors on last Friday afternoon in a social service hour. More than 20 of the children were present, using the time in making scrapbooks and doll dresses. These are to go into our Christmas box for one of our kindergarten schools. Time was soon spent in work and play and at the social hour two kinds of delicious sandwiches and iced tea were served. Two visitors were present from Sweetwater. —Reporter.

RECORD AMONG BEST PAPERS IN TEXAS, VICKERS STATES

The Colorado Record is one of the best weekly newspapers in Texas, according to Paul T. Vickers, secretary of the Midland Chamber of Commerce and formerly prominently identified with the newspaper fraternity of the state.

"It is a personal pleasure to see such a good paper as The Record, one of the best weeklies in Texas, in my opinion," Vickers wrote.

The Midland Chamber of Commerce has been running advertising in The Record during the past few weeks and Mr. Vickers expressed keen satisfaction at the results obtained.

ROSCOE WINS IN TENNIS TOURNAMENT AT COLORADO

Parker and Green, team representing the Roscoe Tennis Club, won the championship at a tournament played on the concrete courts of the Colorado Tennis club here Monday, defeating Nichols and Barnett, Big Spring team by taking three out of four games played. Colorado was eliminated in the preliminaries and semi-finals.

Three teams were entered by the Big Spring club, as follows:

Piner and Cunningham, Ford and Coffee, and Nichols and Barnett.

Two teams were entered by Roscoe as follows: Parker and Green and Norris and Smith.

Colorado entered four teams, Parkhurst and Swanson, Dawes and Hardison, Ragan and Greene and Smoot, Riordan and Prude.

After the preliminaries and semi-finals the contest narrowed down to Parker and Green of Roscoe and Nichols and Barnett of Big Spring, the former winning the championship. The score was as follows: 6-0; 6-2; 4-6; 6-3.

A banquet, attended by twenty-five people, was given at the Barcroft Hotel at noon. Col. C. M. Adams of Colorado acted as referee of the tournament.

TAX BURDENS INCREASE WITH TAX-EXEMPT BOND ISSUES

The latest government estimate concludes that there is a total of fifteen billion dollars of tax-exempt securities outstanding in this country says the Texas Public Service Information Bureau.

Much capital that would otherwise be invested in industries has shifted into these tax-exempt securities.

Under the tax laws of the recent past it has often been more feasible to practice tax avoidance by investing in bonds rather than in stocks. The result is that aside from either the question of safety or yield the large investor has in recent years shown a decided preference for bond issues.

Several results have flown from this tendency of capital to seek tax-exempt bonds first, and bonds generally in preference to other investments. One of the most serious results has been to lead capital out of productive industry. Another result has been to encourage the floating of debts by municipalities and municipal subdivisions, as their securities are not taxable as the securities of industries are. These conditions have caused slackening of industrial development and increase in taxes. The capital that has hidden in tax-exempt municipal bonds is not working for production and the tax payers of the municipalities that issued such bonds are burdened with the necessity of contributing to pay the interest and provide for retirement of such bonds on maturity.

H. B. Berry brought in some samples of his maize and fetterita to the Chamber of Commerce Wednesday. The grain is well matured and will harvest a large yield per acre.

Robert Whipkey spent the week end in Dallas on business for the Price Auto Co. He will drive out a new Hudson for them. It is suspected that he also ran up to McKinney, while on the trip.

Mr. and Mrs. J. A. Thurman and family of Commerce, Hunt county, Texas, and Mrs. Beasley of Petty have returned to their home after a week's visit with Mr. and Mrs. W. E. Reid.

Public Utilities Have Heavy Capital Investment

The telephone company has nothing to sell but service. It cannot make more money than enough to pay its operating expenses, keep its plant in good condition and pay the wages of the money it invests. The amount of investment in a telephone company is high compared with its revenues. Five dollars of capital must be put permanently into the average telephone property for every dollar of gross annual income.

The telephone company turns its capital once in five years. Every other business in the community turns its capital from two to ten times a year.

BACK TO SCHOOL The most significant event of the year takes place in September when

millions of children go back to school.

When the final history of this age of democracy is written the common school will be set down as its greatest glory.

Here they come—children of all classes, religions and races, trooping into the schoolrooms where they sit side by side to study and to learn.

Class consciousness, snobbishness, intolerance, superciliousness, cannot exist in the atmosphere of the public school. Here the barriers that separate classes and creeds, races and communities are broken down.

MRS. B. F. MILLS

standing is developed, the solidarity of the nation is exemplified and the one loyalty to the flag as against all other obediences and authorities and allegiances is emphasized.

Seventy years ago Theodore Parker declared: "The common school is the cradle of America's greatness."

The greatness and glory of this United States waxes and wanes with the development or decline of the public school. If by reason of the growth of some other system of schools or by a failure on the part of the citizenship to appreciate the unique civic significance of the public school, it should fall into decay a body blow would be struck at the republic.

Sometime this axiom of democracy will be universally recognized and the parents of the nation frankly and patriotically acknowledging this truth shall gladly send their children to the public schools to be instructed in secular subjects, to be trained in American citizenship, to grow up in the atmosphere of democracy, and to be imbued with the idealistic spirit of Washington and Lincoln.

The Colorado public schools are to open one week from Monday with flattering promises of founding out another successful school year. Prof. King and his faculty, however, cannot teach the kind of school they would prefer if patrons fail in doing their part.

It is easy to "cuss" the catalogue houses for the business they take from the home merchants, but there is a reason for it. The catalogue house does not offer any better merchandise, or any better prices and not as good service and satisfaction as the home merchants, but the secret of their success is the fact that they keep continually advertising.
