### UNIVERSITY HEAD REPORTS ON BIG LAKE OIL FIELD

AUSTIN, Oct. 8 .--- In order to ascertain for himself the status and prospects of oil development operations upon lands owned by the University of Texas in Reagan County, Dr. W. M. W. Splawn, president of that institution, visited the new field there this week. He returned very optimistic, as to the prospects of the University obtaining a considerable amount of revenue from the oil royalty of the wells already drilled upon. its lands.

"There is no doubt there being oil on the University lands at Texon. ing. Some of them are very small producers. Most of them are being pumped. However, there are two big gushers each of which will flow from two to three thousand barrels a day. Enough wells have been drilled to make it practically certain that the royalty which the University will receive will amount to something like \$250,000 to \$500,000. Just how extensive the field is has not yet been determined, and one man's guess is "Under the laws of Texas, the royalty from the sale of oil off the University lands goes into the perof Midland farmers were realized. jected last year by the Snyder and manent endowment, and will not be Plans had been laid some time ago Colorado Chambers of Commerce to available for any other purpose. The average good layer will slow up a little after this time and the poor ones will stop entirely.

There are four points that should be considered in culling; pigmentation, moult, capacity and quality.

All yellow skinned varieties of chickens should carry a surplus of yellow pigment or fat previous to the time they start laying. This surplus fat is slowly developed by production. The color changes are first noticable where the blood flows more freely.

The tissue around the vent expands with production and the yellow color disappears after a very few eggs have been produced. If the production continues the vent becomes white and after long heavy production it becomes bluish white.

The edge of the eye-lid or eye ring His next to fade, losing all trace of yellow coloring after a few eggs have been produced. The whole face of the hen has a yellowish cast over the red when she is in good condition and not laying but this shows only

white when laying heavily.

The ear lobes which in all of the socalled white earlobe varieties are normally shaded with yellow during nonproduction, fade out after a few weeks of laying. The beak fades out more slowly and is not entirely white until after two or three months of production The yellow color fades out at the base of the beak first and the fading travels towards the tip.

If the beak is black or dark red the amount of yellow may be determined by looking at the under side.

The shanks are last to lose their yellow color and do not as a rule fade out until after several months of heavy production. The last part of the shank to fade is the back part just below the hock joint.

If the hen has dark colored legs look at the bottom of her feet, which are yellow and fade with production. When a hen stops laying the yellow returns slowly, reappearing in those parts where it first disappeared.

Toward the end of the laying season the condition of the hen's plumage is very noticable. The heavy laying hen needs all of her energy for

to the breast bone and still be a nonproducer, carrying only a surplus of hard fat. A hen may carry a surplus of fat and still be a high producer, but the fat will be soft and well distributed. The skin of the high laying hen will be soft and pliable. The bones forming the walls of the abdominal cavity, especially the pelvic bones, the breast bones, and the two little lateral processes lying on either side of the breast bone, are soft, pliable and prominent, in the high producer.

Heavy fleshing around the head and face are indications of low production. A hen with a lean, clean cut face, prominent eye and idret expression, is usually a high producer. A heavy protruding eyebrow is an indication of excessive broodiness.

### **Public Utilities** are Community Advertising

An automobile with poor transmission or a watch with a faulty hairspring is of little value.

So a community with poor service from its public utilities is badly advertised and is likely to fall out of ' line with the good towns.

Consider the advertising value of a community when its citizens can say that its telephone service is good.

Poor public utility service is like a red light "stop" signal to an investor who is seeking a location.

one be in their place promptly on time. We want to make it three hundred next Sunday. Let all teachers work to this end.

We are tyring now for our Sunday school annex. We must have it if we do our work with credit to ourselves and profit to the pupils. Let everyone who loves a good clean, upright, virtuous, religious boy and girl work for this building. The teachers must have an opportunity to do their work if we give God a chance at the lives of these boys and girls.

Preaching 11 a. m. and 7:30 p. m. At the morning hour, the Lord's Prayer. At the evening hour, A story of a man who was caught in his own trap. Epworth League 6:30 p. m. The pastor could not be present at that hour and sent Rev. N. E. McGuire of Abilene as a substitute. He made an interesting talk to the young people. The house was well filled at an early hour Sunday evening. The pastor seemed at his best as he preached on "The Risen Life," based on the 8th chapter of Romans. The main points he brought out were the perpetuating of the life of a child of God and that such a life was an active life, a new life and a victorius life. The whole sermon was spiritfilled and was preached with an earnestness and power that gripped the hearts of those present, as was evidenced by their perfect attention. Those attending the association at Sweetwater last week report very interesting sessions. The two B. Y. P. U.s are doing good work and growing rapidly from all accounts. In telling of the days when he carried the mail on the Buffalo Gap-Ft. Chadbourne road, Judge Robinson said:

"There was one stretch of the road where for 20 miles there was not a single house, and the only post office between Buffalo Gap and Fort Chadbourne was at Moro. The people in those days seemed no more anxious to get their mail than they do now, even though they did not get it so often. I never had much mail. In fact, I could always carry the entire bundle in my pocket. Sometimes I felt uncomfortably cold-I was so cold I didn't even feel it, but when I got to the end of the route I could always warm up by some neighborly fire."

When he was seventeen the boy decided to drive cattle so he got a job with one of the big cow outfits and tite these mornings than two "strat made five trips from Texas up into Wyoming and Montana, Judge Robinson remarked that although he has been in his time a cowpuncher and has ridden in many horse racess, he

still has trouble in herding an automobile down a city street. "I can drive one out on the prairie

but I can't manage 'em very well in town," he said.

While on the cow-trail the man who has since served 17 years in office, and who is now county attorney of Dawson County, decided that the life of a cow-hand was no place for promotion.

"Old cow-punchers would work all their lives at this trade," he explained, "and then die with nothing but a saddle and blanket to call their own. I accordingly managed to get a copy of Dunlap's Abridgement of Elementary Law which I carried in my war bag (which happened to be a flour sack) and read in cow camp when I could get the time. I memorized that book and on September 19, 1901. took the bar examination at Robert Lee and passed. So I sold my saddle and began to practice law. When I would see the grass riisng," said the one-time cowman, "I could hardly stay. I stuck to it though, and now I claim to be the only man who ever read law in camp and was able to pass the bar examination."

### MIDLAND ELEVEN DEFEATS COLORADO HIGH FRIDAY

Unable to make any decisive gains through the heavy Midland line, combined with a number of unlucky breaks, the Colorado High School football squad suffered its second defeat of the season here Friday afternoon at the hands of the Midland eleven to the tune of 13-0, in a nonthe-less thrilling battle. The Colorado High team was defeated in its first game a few days ago in a battle staged with Hamlin on the enemy's ground.

Coach John Prude of the Colorado grid squad is not in the least worried over the two issues of defeat handed his grid battlers. The game here Friday, though lost by Colorado. was most encouraging in that the local boys made a big improvement in their battle tactics over those displayed on the Hamlin court and were contesting supremacy with one of the best High School teams in West Tex-

### ECONOMY

By pleasant economy, we mean that you are always assured the utmost in quality at the lowest possible prices. Buying supplies for your table because the price is low is not always economy. But buying Quality Groceries from this store where the margin of profit is always low, is a real saving, for there is no waste to what you get.

It is hoped to pass all the teachers through this class within four or five years. The Sunday school committee sug-

gests the following as the aim of our Sunday school for the year 1924-25. 1. That all our members become members of the school.

2. That all our pupils above the Junior year be led to confess Christ as their Savior and induced to unite with the church.

3. That we seek to cultivate the spirit of worship among our Sunday school pupils, by good singing, scriptural reading, prayer and praise, and a cheerful support of the work.

That we seek to improve them 4 in knowledge by faithfully and carefully teaching the word of God. That we seek in every way to keep in touch with the General Sunday School Board and carry out the plan of work as far as possible of this board.

The following shall be our program for the Sunday school year: 1. That we follow the suggestions of the General Sunday School Board and make a drive for new members and enroll all our church members in some department of the work.

That we give special attention 2. this year to the Home Department and the Cradle Roll.

3. That our teachers be faithful in attendance and punctual, and urge the members of their classes to do the

4. That our teachers in the Intermediate, Young People's and Adult Classes press their teaching for a definite decision for Christ and a stand for righteousness.

5. That the teachers and pupils give to the superintendent and his assistant the heartiest co-operation in the opening period of the school, and that from fifteen to twenty-five minutes be devoted to this important period.

, 6. That from thirty to forty-five minutes shall be given to class work. 7. That we try to organize the following departments-Primary, Junior and Adult, with a superintendent for each.

8. That we have a superintendent for the training work .-- Mrs. Tom Pritchett.

### To Our Many Friends

We wish to express our appreciation to each and every one of our many friends for their congratulations and good wishes upon the erection of our new Lincoln, Ford and Fordson building.

We appreciate these compliments and take this opportunity to thank you one and all. We feel that we alone have not accomplished this, but it is through your encouragement and assistance that it has been possible for us to attain this success.

We have tried to give you the best possible service and now we are better equipped and can serve you better and more promptly than ever.

We ask that all our former customers continue their patronage and that all of you who have not been coming to us give us a share of your valuable business.

Again thanking you one and all for your compliments and patronage.

Yet the price is no higher than that of an open car.

The appeal of its simplicity, con-venience and durability is instant and decisive-with a touch of the hand you draw down the four roller enclosures and in thirty seconds your airy open car is a snug, comfortable enclosed car. With equal ease the enclosing sides can be rolled up into the roof and you have an open car again.

The Duplex body is especially built for the roller side enclosures, the roof is framed and shaped in steelpermanently beautiful and steelstrong to support the rollers, and the upper part of the Duplex is integral with the lower part. It is a unit body which harmonizes per-fectly in beauty and function.

There is no other body like it on any other car at any price-because it is exclusively a Studebaker creation, made only by Studebaker. You can buy the Duplex from no other maker.

The new Duplex is available for each of the three new Studebaker chassis - the new STANDARD SIX, the SPECIAL SIX and the BIG SIX.

And these three new chassis are the evolution of the famous chassis of the five preceding years. Each year they have been improved and refined.

But this year the new models are climaxed with every tested and proved betterment that experience and science have thus far developed.

They are paramount exemplars of modern automobile design.

Simply stated, this means that money cannot buy more modernly perfect automobiles than the new Studebakers-we have the Duplex models ready for your inspection. Come in today!

## At Exactly Open Car Cost

HUDSON Super-Six COACH **\$1500** Freight and tax extra

This Hudson Coach is the first closed car ever to sell at EXACTLY open car cost. And Hudson alone can build it. As the largest producer of 6-cylinder closed cars in the world, Hudson exclusively holds the advantages to create this car and this price. And now genuine balloon tires are standard equipment.

It is the easiest steering, most comfortable and steadiest riding Hudson ever built. No car is smoother in action. None, regardless of price, excels it in reliability or brilliancy of performance.

The Panhandle-Plains is going after immigrants on a plan that closely most any city, and, as above stated, approximates concerted action. Why can't Central West Texas counties

Probably if such action were taken about the first thing the counties would be asked to do would be to put on a farm demonstration agent, to help the new-comers get started in the ways of the West. And a request like that would scare most county officialdom clear off the reservation.

But, all the same, we'll have to do something along that line before we get anything like our share of the tens of thousands of folks who are pouring into West Texas .-- Abilene Reporter.
