Colorado is just what you make it. If you don't like the town, you will probably find that the town doesn't like you. But if you have the right attitude, then you will find the community friendly. It is a mirror in which you will find a reflection of your own disposition.

Occasionally a subscriber calls and asks us to write a heated editorial on something that he doesn't like. We notice, however, that such people usually show what courage they have by concluding, "But don't mention my name."

-----WE DELIVER------QUICK SERVICE

You'll be surprised to know the re-sults a Record want ad will bring

October was the best month in point of attendance and interest we have had since the present pastorate began and we thank one and all for their attendance and support. Next Sunday we want a record breaker for both Bible school and church.

Sunday morning we shall speak on the Missionary Cause it being the regular State Mission Sunday, No offering will be taken however as this will be included in our yearly budget. The service will be purely educational. Remember that a hearty welcome awaits you at this church at any and all of the services.

J. E. CHASE, Pastor.

METHODIST CHURCH. Sunday school 9:45 a. m. We had 273 present last Sunday and should have more present next Sunday.

Epworth League 6:45 p. m. There will be no preaching Sunday as it is Conference Sunday. I want all my people to attend one of the other churches and hear these preachers. It will do you good to visit with your neighbors.

We are closing out the year with a membership of 480. We have received 63 members this year. We have our Sunday school better organized than it has ever been. We have received 27 certificates for work in the Standard Training course this year. Our superintendents are good and we predict this church will have as good leadership as can be found in any of our churches. We need, and hope to have soon, more and better room for our fast growing Sunday school.

Our financial budget for the year has been \$10,899.

I want to express my most hearty thanks to all the members who have made our work possible and pleasant. I have never enjoyed a year's work more than this one just closing. I desire to thank also my official board for the help and encouragement each has rendered. I know that Christianity will make men and civilization of a kind this world needs. And with this in mind I have condemned those things which will weaken and destroy manhood and womanhood. I have offered those things which I know in Christ Jesus will us to be better people and meet thank all the people who have given doing what I deem is a preacher's duty to himself and society. I am not ashamed of the gospel, its rebuke of sin, or its promise of healing. Yea, I believe in it with all my heart and is as long as I have the blessed privilege in this world. My work here is not done and I sincerely hope I will be returned and enabled to do a much better work than ever before.

### Pioneers of Progress

\*\*\*\*\*

There was a time in the early pioneer days of this state when the services of a bank were used only for occasional important transactions.

Since then, the ever-increasing demands of modern business have made the various functions of the bank a necessary part of every-day life.

Banks are truly Pioneers of Progress in their relation to the up-building and advancement of every community.

COLORADO HOLDS SNYDER

For a team with little training the Colorado High School eleven played battle with the Snyder Tigers, a team organized two years ago. The local football team was only organized a brium. few weeks ago and has played but a few games. Overcoming this handicap, however, the Colorado boys proved themselves an equal match for the Tigers, holding the score six to seven in one of the hardest fought amateur games ever witnessed by fans in this part of the State.

Colorado would have won the contest but for a bad error in the first placing their score up to seven.

The sensational run by Gist occured during the early part of the second period, and then is when the two teams presented to the spectators one of the best amateur games ever witnessed. For the most part the battle was staged in center field, with the ball passing from one side to the other. Occasionally bad fumbles were made by both the Tigers and visitors half, which gave to Snyder a touch- but the merit of their playing easily down without opposition. A long overcame these defects. On the morning of the 20th Miss Pearl Brown quietly passed into the realms beyond. She had been a sufferer for some time and after all other means had failed, death came to her relief. This writer had known the family for several years and it was his privilege to bury her with her Lord in Baptism. Her life, as a Christian and church member, was consistent and her influence was wholesome. Her mother, four brothers and three sisters are left to mourn for her but not as those that have no hope. They were all present when the end came. Her mother and brothers, Lee, Connely and Vernon and sisters, Mrs. Frank Neal and Mrs. C. Anderson all of this county. Those of other places as follows: Islah Brown of Knott, Texas and Mrs. S. D. West of Albuquerque, New Mexico. We laid her body to rest in the beautiful cemetery at Snyder to await the resurrection morning. We will meet here again some sweet day. -A. D. Leach.

MR. AND MRS. VOTER.

Old King Herod made a foolish pledge to his disreputable stepdaughter and very foolishly kept it by murdering John the Baptist, a man whom he knew to be just and holy. He was sorry he did it and probably died of remorse. You made a foolish pledge in July and August and you will be very foolish to keep it. You will likely be sorry if you do and may die of remorse.

The idea that the Bible approves of making and keeping a pledge to do wrong is preposterous and absurd. It is against the whole teaching of that Good Book. It does say, "Pay thy vows to the Mos: High." Ferguson is not God; although his followers worship him. He said at Hillsboro October 23rd, "There are conditions when a voter is justified in violating his pledge but these conditions do not exist now." Who made him judge of the universe, and of your conscience? No body did of mine. The very law that prescribed the pledge permits you to scratch the ticket.

Thomas Jefferson, the greatest emocrat that ever lived, said, have sworn upon the altar of God eternal hostility against every from of tyranny over the mind of man." Ferguson picked a small bunch of his' followers and designated them, "the State Committee." They are asserting a tyranical rule over the Democrats of this State. By the crack of the party whip and your party servitude they are to accomplish an unholy thing. Are you independent enough to resist them? Your vote will be your answer.

"In the list of large income tax payers, given out by the newspapers. under an Act of last Congress, allowing public inspection, appears the name of F. W. In Kansas City list appears the name of E. F. Swinney as a very large tax-payer. Old timers will remember him as Ed Swinney, Cashier of Colorado National Bank at time this bank was on Oak street in Colorado. In Detroit list is Ford Motor Company, who pay an income tax of fourteen and a half million dollars, and Henry Ford, who pays individually, two and a half million. Old timers here will remember a cow-boy out here by the name of Henry Ford."

Automobile World

A new type of car has stirred the automobile world as has nothing since the abandonment of the "buggy" style of body building.

It is the Studebaker Duplex, so called to indicate that it is an open car one moment, and 30 seconds later it is an enclosed car.

Like all great advances in the industrial arts, it is "so simple in operation, it is a wonder it wasn't thought of before" ---

Particularly since its need has been growing, year by year, ever since automobiles were made.

Many people all of the time, and most people part of the time, want an open car-to bring to their riding the fresh crispness of the country air, and a free and untrammeled association with the great outdoors.

Yet for these same people, the snug comfort of the closed car, shutting out the storm and the wind and the cold, has been at times a necessity.

#### Two cars in one

The Studebaker Duplex is both cars in one. Just pull down the roller enclosures concealed in the roof of the car. In 30 seconds the open car has been made an enclosed car.

No hurried efforts to put up curtains; no hunting for the right one while the storm beats in; no mixing them up in the dark; no exposure through holes torn in them while trying to obtain, for the emergency, the protection given by a closed car ---

Just pull down the roller enclosures giving instant enclosed car effect.

The body is built substantially-sides, corners and roof frame are of steel. The roof has curved steel

sides and back; hardwood front. Steel, U-shaped cross beams, six of them, support the waterproofed, duplex fabric top and its linings. Here is permanent beauty, no sagging tops.

But Studebaker, on which the whole vehicle-using world has come to depend for reliability, would not rest on only one real contribution to the value given the public.

It must give all that engineering ability could devise.

### Striking new features

So there are offered three distinct models of cars, to meet each of the three fields of demand-the Standard Six, with 113-inch wheelbase and 50 horsepower motor; the Special Six, with 120-inch wheelbase and 65 horsepower motor; the Big Six, most magnificent and luxurious of its products, with 127-inch wheelbase and 75 horsepower motor.

Duplex bodies are available on each line. In addition, closed models have workmanship and materials and beauty of line so far above the price class of the car, they must be seen to be appreciated.

Of scarcely less importance than the Duplex feature are other improvements such as, automatic ignition system, lighting control on the steering wheel, new location of emergency brake, improved one-piece windshield and many others.

The body lines, steering mechanism, and even the fenders of the new Studebaker were designed especially for genuine balloon tires. Thus the body lines harmonize with grace and beauty hitherto unattained, even by Studebaker.

Come in and see these new cars.
