WHIPKEY PRINTING CO.

## COLORADO RECORD ANNOUNCES BIG AUTO PRIZE CAMPAIGN Legion Festival Opened This Morning

### MISS BILLIE HOWELL QUEEN OF FESTIVAL IN OPENING PARADE

Elaborately Decorated Cars and Hundreds of Children in Line March

### FAIR PROMISES BE BEST Crowds Throng Streets; Fair Features Unique; Many Prizes Offered

The Legion Fall Festival opened Thursday morning with one of the prettiest parades Colorado has ever witnessed. The streets were decorated with flags and lined with crowds of people. The parade started from the tabernacle and was led by the Chamber of Commerce band in their beautiful white and yellow uniforms, with Grady Newman as drum major. Dick Gregory was marshal of the day. The fire truck adorned with flags and the city secretary came next. The mayor's car in the national colors followed which was occupied by Judge and Mrs. R. H. Looney and Mrs. Dr. Coleman. The Legion officials in uniform and helmets. Seated in this car was also the Legion Auxiliary president. Next the Queen's float, occupied by Queen Billie of the House of Howell and several attendants. The Legion Auxiliary, D. A. R., U. D. C., Hesperian club, 1921 Studv club, Civic League, P. T. A., Self Culture club, Daughters of the King, Baccroft Hotel, Murphy's Dairy, the Star Cash grocery, and many others more or less elaborately decorated cars were in the parade.

A novel feature was the old 1908 car entered in the parade by A. J. Harrington.

Route of the parade was twice over Second street through the business section of the city, crossing many side streets all which were lined with cheering and applauding throngs. It was indeed a pageant of color and beauty.

The out-of-town judges failed to arrive but Miss Viola Brown of Loraine, T. W. Stoneroad, and Joe Smoot performed that duty very satisfactorily. The points to be judged were significance, beauty and skill of decoration. They gave the D. A. R. first prize of \$10 for the significance of their decoration. This organization is young here and Mrs. J. T. Johnson is regent and it is to her the credit of the decoration is due. Miss Marjorie Way was Columbia; Dimples Way as George Washington; Miss Terrell as Martha Washington; Mrs. Hyman as Dolly Madison; Pocohontas, Nell Harper Greene.

The Hesperians won second prize on beauty. It was in the club colors, white and green, with a beautiful butterfly perched on the radiator driven by Little Nancy Price. Mrs. Wallace drove this car and the club president Mrs. Millwee rode with her.

The Auxiliary to the American Legion won third prize of \$5. This car was beautiful in purple with golden sunflowers on wheels, top and the spare tire.

The old model Ford entered by A. J. Harrington won \$5 on its age, and the handsome man, with chin whiskers and his beautiful wife who was impersonated by Commissioner Jno. Lang, have \$5 prize coming to them, not for beauty but for their comical appearance.

The crowning of the Queen, the style show, the exhibits at the tabernacle, the old fiddler's contest, the rodeo and the Cabaret dance will fill the remaining days of the Festival, and will afford entertainment for all who attend. Attendance is expected

(Continued on page 5)

### COLORADO RED CROSS SENDS FUNDS FLORIDA STORM SUFFERERS

According to T. W. Stoneroad, Jr., treasurer of the Mitchell County chapter, American Red Cross, \$252.98 was wired Monday to the organization's headquarters at St. Louis as relief funds for the Florida storm sufferers. This money was raised in Colorado immediately following reports of the hurricane which swept the Florida coast and killed hundreds of people and left thousands homeless. J. H. Greene, chairman of the Mitchell County chapter, said the local chapter could never forget the service and succor provided Mitchell County four years ago when the awful storm swept this county, and the people were anxious to donate funds to send to the storm victims of the Florida coast country.

### PROMINENT LORAINÉ MAN VICTIM FATAL ACCIDENT

#### J. F. Marshall and Hunter Looney Occupants of Wrecked Car

J. F. Marshall, 38-year-old farmer of Loraine, died in the Sweetwater sanitarium early Wednesday morning following an automobile accident which occurred soon after midnight two miles west of Sweetwater.

Approaching a detour rapidly, he turned to avoid striking the obstruction, a heavy barrier and steam roller, and his Lincoln touring car turned completely over and righted itself in the opposite direction from that in which it had been going. Marshall was pinned at the steering wheel as the car rolled into a ditch, and was extricated with difficulty by Hunter Looney of near Colorado, who was riding with him. Looney suffered only a slight injury on one hand.

Marshall was crushed in the chest besides having other bruises and a puncture in the right temple.

A few minutes after the accident, Lee Hargraves of Sweetwater came along and assisted S. M. Johnston, local undertaker who was called, in taking the injured man to the sanitarium. Marshall lived about two hours after his arrival at the sanitarium, and was conscious until the end. He suffered greatly and did not yield to medical treatment.

Marshall and Looney were returning to Loraine after attending the Abilene fair. After the accident, relatives of the injured man were summoned and most of them arrived by daylight.

Surviving relatives include the father, J. F. Marshall, Sr., of Weatherford the wife, two daughters, Maudie, 15 and Ruthell, 12; a son, Harold, 10; eight brothers and three sisters. The brothers are John and Rufus of Loraine, J. M., R. E., Dewitt and Grady of Colorado, and Ross and H. H. of Lubbock. The sisters are Mrs. Mary Smith of Colorado, Mrs. W. C. Woods of Dunn and Mrs. Jesse Lee of Loraine.

Marshall had lived at Loraine about 44 years and had many friends throughout this section. He was born in Smith county.

Funeral arrangements are being postponed until Grady Marshall, a brother can be located. This brother left a few days ago for Fort Worth and other points in search of cotton pickers and his trip was to be guided by the prospects for finding hands.

### OIL DEVELOPMENT GOING FORWARD; CHALK FIELD LOOKS LIKE REAL ONE

News of Various Fields as Seen by Reporters of The Press

(From Big Spring Herald.)  
Work on the Apperman-Reeves test on section 126 which has been temporarily suspended is to be resumed at once.

This well is about 800 feet deep. The O'Daniel well No. 1 on the O'Daniel ranch in the eastern part of Howard County continues to produce 10 barrels of oil or better per day. This well will be cleaned out when the pipe line has been completed to railroad.

The Magnolia Petroleum Company's pipe line from the Chalk field to their tank farm at New Iatan is handling the oil from the Magnolia wells.

Work on the Kay County Pipe line from the Chalk field to Coahoma is being rushed and should be completed within the next few weeks.

Owen & Sloan who brought in the discovery well in the Chalk field and sold their interests to the Magnolia Petroleum Company for \$400,000, left this week for a two months' vacation in California and Alaska.

They stated they expected to resume wildcatting in Howard County when they return from their vacation.

A number of new tests are planned by the Marland Co. in the chalk field. The Magnolia Oil Company's Chalk well No. 1 was given a shot Monday and the production was greatly increased.

Following the shot this well flowed for 20 minutes, a column of oil being thrown nearly to the top of the derrick for five minutes.

This well is rated at from 100 to 125 barrels per day.

The Magnolia No. 1 on section 114 continues to produce from 75 to 80 barrels of oil daily.

The Magnolia Company has now taken over the Owen & Sloan properties in the Chalk field and will proceed with development on said acreage.

The Owen & Sloan Chalk No. 1, the discovery well which has been sealed with paraffin is to be cleaned out and drilled deeper.

The Owen & Sloan Chalk No. 3 on section 113 has been drilled to a depth of 1,470 feet by a rotary drill, is to be completed with a Star rig. The rotary is now being moved to another location so the Star rig can be placed on this test.

The Joe Edgar et al. test on section 111, block 29, W. & N. W. survey, after drilling to a depth of 1,800 feet failed to encounter the oil sand found in the producing wells in the Chalk field, two miles east.

The owners of the test decided to abandon the test and are now plugging same.

The rig is to be moved to section 127 of the E. W. Douthit ranch where a test will be drilled for the Humble Oil Company.

The Marland Oil Company has secured a lease on a block of land west of Gregg Street at West First Street where they plan to erect a large warehouse to store supplies for use in this section, where they plan extensive development.

They have a large space just east of the T. & P. station for storing casing but find this insufficient to care for the large amount of supplies and materials needed for the program of development planned for the territory adjacent to Big Spring.

### LORAINÉ GINNING MUCH COTTON; BUSINESS SAID TO BE INCREASING DAILY

Upon invitation of J. A. Sailer, local agent for the Gulf Refining Company, the Record editor visited Loraine Tuesday morning and found this growing Mitchell County town very busy. Cotton is coming in rapidly there and the five big gins there are operating on almost full time. Loraine has been considerably ahead of Colorado this season in the matter of ginning cotton, since the cotton in that section opened earlier. Business men in Loraine report business picking up and that farmers are needing cotton pickers very badly. Arlie Martin, of the Martin Drug Company, said Tuesday that 300 additional pickers could be ready employment in the Loraine territory. The cotton is opening very fast and the growers are clamoring for help.

J. H. Neil is preparing to open a new furniture store in the Wimberly building next to the Best Theater, and a new filling station is going up on the south end of town, a number of new residences are being built and there is talk of some other new brick buildings. Loraine is growing and is making an effort to take care of the increasing business coming to that point.

### Wolves Meet Loraine Here Today; Midland Saturday

The first game of the season for the Colorado Wolves, high school football team, was played this afternoon (Thursday) at 3 o'clock at the high school athletic field with Loraine. The game was a pretty fast one and a large crowd of rooters from both Loraine and Colorado were present.

Saturday afternoon Midland will come to Colorado for the second game of the American Legion Fair and Festival. A large crowd is expected to witness the game, which will be staged at the high school field.

### Over 3,000 Bales Ginned in County Thursday Noon

More than 3,000 bales of cotton had been ginned in Mitchell County up to noon Thursday. Reports received by the Record included ginnings up to late Wednesday afternoon at Loraine and Westbrook and up to noon Thursday at Colorado. No report could be received from Buford owing to telephone service being out. To Wednesday night Loraine had ginned 1,214 bales, Westbrook 358 bales and Colorado gins as follows: Lambeth, McCleary & Grubbs, 435 Williams-Morgan, 387; Conereta gin, 70 Richardson, 200; Farmers, 295, making a total number of 2,959 not including Buford, which is estimated will reach about 100 bales.

### CITY BOYS MODERN MOTOR GRADER FOR USE ON CITY STREETS

Combination Machine to Be Placed on Streets Full Time

At a special called session of the City Council held Tuesday afternoon, the city contracted to buy a new 15-30 Austin-International Motor grader which is to be placed in service on the streets of Colorado as soon as it can be delivered. This machine is the largest model of the kind built and is a combination machine which will handle grading, scarifying, dragging, conditioning and reconstructing roads and is operated by one man. It is the most economical machinery on the market today for use in keeping and building city streets where they are not paved.

The grader will be delivered in about 15 days and at that time a full time man will be put to work with the machine with a program of street improvement for Colorado far in excess of anything ever attempted before.

The machine is equipped with rubber tires 34 inches wide and four inches thick. It carries attachments of all kinds, and is of the latest all steel construction.

In speaking of the machine City Manager L. A. Costin said:

"The chief feature of the 15-30 model, and the one that really puts it in a class by itself, is that it has weight and power enough to cut right down to the bottom of the corrugations of a badly rutted road. For this reason it can truthfully be called a reconstruction machine, because the blade cuts an entirely new and smooth surface over which the loose material is evenly distributed. Lighter and less powerful machines can at best simply knock off the tops of the high spots and conceal for the time being the holes that still remain by filling them with loose material."

"While far larger and more powerful than other graders, the 15-30 is surprisingly easy to operate due to such features as adjustable blade raising springs, which enable the operator to vary the pull of the blade to suit his own strength or preference."

"One of the most popular features of Austin-International Motor graders, the method of side-shifting the blade is typical of the care that has been taken in the design and construction of the entire machine to insure effective work and yet make things as easy as possible for the operator. The Austin side-shift is direct and positive in its action, and self-locking in any position; while as all Austin operators know, it is exceedingly easy to operate."

### COLORADO OIL MAN VICTIM OF ACCIDENT BIG SPRINGS TUES.

BIG SPRINGS, Sept. 21.—Little hope is held tonight for the recovery of Fred Robbins, oil operator and well known college football official, who was shot Monday night in a scuffle over an automatic pistol.

The shooting occurred on Main Street in front of the court house. Robbins was carried to the Mercy Hospital and though he is conscious his condition is regarded as critical.

Robbins said the shooting was accidental, according to Miss Gentry, attending nurse. He exclaimed Will Knox Edwards, 30, son of Will F. Edwards, prominent stockman and a director of the West Texas National Bank here, with whom he is said to have been scuffling when the pistol, a .45 caliber automatic, fired. No arrests have been made.

Robbins is unmarried. He formerly lived at Breckenridge, moving to Colorado, which is his home now, about two years ago. Since arriving in Colorado he has been an independent oil lease operator. His mother lives at Tupelo, Miss.

Robbins is well known in athletic circles throughout Texas. For several years he has been an officially accepted referee for the Southwestern conference and the Texas Inter-scholastic Athletic Association.

### Colorado Men Have Narrow Escape in Auto Accident

Bradford (Tody) Landers and Clyde O'Neal of Colorado narrowly escaped fatal injuries when the Chrysler touring car driven by Landers overturned on the highway between Odessa and Monohans Tuesday night, severely injuring Landers and slightly injured O'Neal. They were on their way to Pecos on business.

O'Neal said Wednesday morning that the accident occurred several miles west of Odessa when Landers started to pass a large truck which is said to have suddenly swerved back into the middle of the road crowding the passing car off into the ditch. The car was badly wrecked. Landers and O'Neal were brought to Odessa by a passing automobile where their injuries received medical attention. Landers was badly cut and bruised but not seriously injured otherwise. O'Neal was very slightly injured, suffering a slight wound on the right hand and some other minor bruises.

Relatives from Colorado met the parties at Midland Tuesday night and brought them on to Colorado. Landers was dragged about 30 feet and his back was badly lacerated. A bad face wound required several stitches.

A pedestrian, an old man who was traveling on foot, was picked up by the Colorado men shortly before the accident, and he suffered a broken arm but was not injured otherwise.

### \$2,000 IN PRIZES BE GIVEN AWAY BY THE COLORADO RECORD

New Four Door Chevrolet Sedan First Prize Be Given

### ALSO CASH COMMISSIONS Every Worker in Contest Will Be Paid and Have Equal Rights

After due deliberation and consultation the Whipkey Printing Company, publishers of the Colorado Record, have arranged to put on one of the most stupendous and liberal subscription campaigns ever put on by any paper of West Texas, according to F. B. Whipkey, general manager and have secured the services of L. S. Raef subscription organization of Fort Worth to handle the details of the campaign. The Record has long been considered one of the best papers in this section of West Texas, and has always maintained a large subscription list paid for in advance by the readers who say they must have the paper, but the increased population of Mitchell County broadens the field of the paper, and the publishers are putting on this campaign only after close check of the field and have determined to give the young ladies of this section a great chance to share in the profits of the company for only spare time work in helping the paper double its circulation and reach more readers which in later years will be worth something to the business interests of Colorado and the Record also. In discussing the plans for the campaign Wednesday, Mr. Raef, who is here in personal charge of the campaign, said:

"The campaign opens Monday morning and lasts only 30 working days. Those who desire to enter should fill out 'entry blank' and bring in at once. This is a chance of a lifetime to win a small fortune for only a few weeks' work."

"Two thousand dollars in handsome prizes and commission checks! All to be given away free Saturday, just 35 days away. That in brief is the stupendous opportunity confronting the ladies of Colorado and Mitchell County, sponsored by the Record."

"Presenting a glittering array of valuable awards, ranging from a brand new and unused automobile purchased from Mills Chevrolet Co., to a \$20 gold coin, the Record, elsewhere in today's issue announces the greatest and most liberal automobile and free prize circulation voting campaign ever inaugurated in this section of the State."

"The prizes—\$2,000 worth—in

# ZANE GREY'S "Born to the West"

with  
**JACK HOLT**  
**MARGARET MORRIS**  
**RAYMOND HATTON**  
**ARLETTE MARCHAL**  
**GEORGE SIEGMAN**

## Palace Theatre

### Friday and Saturday

### Sept. 24th and 25th

Matinee 2:30 p. m. 15 and 40¢  
Night 7 p. m. 25 and 50¢

### New Zane Grey Story At Palace Fri-Sat.

A new story by Zane Grey, the famous author of Western and outdoor stories, and probably the greatest writer of the day, is to be shown on the screen at the Palace Theater Friday and Saturday of this week. "Born of the West" is the title of this book by Zane Grey, which has been filmed by Paramount, with Jack Holt, Margaret Morris, Raymond Hatton, Arlette Marchal and George Siegmán. This is a cast that can not be excelled and the famous Zane Grey story should make this a very fine picture, one that has not been equaled in an outdoor or Western picture. This is a combination of the thrills and fascination of the great outdoors with a delightful love theme. The fights, the runaways, the chases, the captures, the retaways, the rescues, the deadly combats, tempered with a great love between Jack Holt and Margaret Morris and some real side-splitting comedy furnished by Ray Hatton.

### MISSION HAS NOTED SCREEN STAR COMING.

Fred Thomson and Silver King continue their joyous career in "The Tough Guy," coming to the Mission Theater on Wednesday and Thursday, Sept. 29 and 30. "Where else but on our screen could you find such a jubilant combination of man and horse in Thomson, one-time clergyman and famous athlete, and his glorious steed Silver King?" "The Tough Guy," by Frank M. Clifton, is a warmly human and comical hodge-podge of fast action, thrills and young romance with a fine note of sentiment adroitly woven through the strands of the narrative. Fred as the tough guy, who through necessity must be several degrees harder than any of the roughnecks on his ranch, is a triumph. It is perhaps the best piece of characterization the star has achieved in his career on the screen.

Wayman Lida of Stephenville, who was visiting his aunt, Mrs. Anthony at Valley View, was drowned late Wednesday evening in a pond near his aunt's home. He was also a nephew of Van King. His family are coming from Stephenville and funeral arrangements will be made.

**Harmony Club.**  
The Harmony Club met Tuesday afternoon with Mrs. Abe Dolman. She had four tables of players and served white and gold cake and ice. On each table was a bud vase of roses. Her guests were Mesdames C. E. Way, J. T. Johnson, H. B. Smoot, Meeks, Saddler, Hubbard; Misses Mannie and Nellie Riordan. The next meeting is with Mrs. P. C. Coleman.

**Merry Wives Club.**  
The Merry Wives were entertained by Mrs. Sam Wulfjen Wednesday at her country home. Her guests were Mrs. Byron, Miss Jess Gage, Mrs. Oscar Majors, Mrs. R. H. Looney and Mrs. Bush. At the close of the 42 game she served a lovely picnic lunch from a table in the yard. She had fried chicken, stuffed eggs, two kinds of salad, two kinds of sandwiches, fresh tomatoes, olives, tea and angel cake.

Two weeks from Wednesday the club meets with Mrs. R. J. Wallace.

Mr. and Mrs. Earl Price and little son are visiting Mr. and Mrs. O. B. Price.

**MISS MARY BROADBODS**  
wishes to announce the opening of her studio at the residence of Mrs. A. L. Whipkey.

Any one interested in Expression, Public Speaking or Physical Training Classes are invited to see her there or call 259.

### "SILVER KING" FAMOUS HORSE HERE NEXT WEEK.

The pound of big action, the flash of scenic thrills, the glow of human interest and the bond of friendship between a man and his horse are vivid highlights of "The Tough Guy" in which Fred Thomson and Silver King caper blithely across the screen for the entertainment of their thousands of admirers.

The title expresses the character of the leading role in which the buoyant and breezy Fred is reported to achieve quite the most distinctive bit of acting in his career.

Thomson is rapidly clinching his hold on the affections of hundreds of thousands of theatergoers all over the world for his clean and wholesome entertainment in Western productions. "The Tough Guy," in which he is compelled by force of circumstances to be many degrees tougher than the men who serve under him on a ranch, was written by Howard Clifton and is a refreshing departure from the trite themes on which the usual Western drama is builded. Dave Kirkland directed and in cast will be seen Lola Todd, Robert McKin, William Courtwright, Bill Butts, Leo Willis and Silver King.

Few motion picture stars are such sticklers for cleanliness on the screen as Fred Thomson, the big F. B. O. Western star.

In the brief span of two years, Fred Thomson, one-time clergyman and world champion athlete, has climbed out of the mists of obscurity and today occupies the highest run on the ladder of screen stardom.

Thomson and his famous white horse, Silver King, are an inseparable combination, winning their way into the hearts of new thousands every day in the year.

"The Tough Guy," Howard Clifton's rollicking tale of adventure and love under Western skies, brings Fred and Silver again to the screen of the Mission Theater on Wednesday and Thursday, Sept. 29 and 30, where they have often held forth for many weeks scattering sunshine and happiness throughout the community.

## NEW PALACE THEATRE

### SOCIETY

**Presentation of Thank Offering.**  
Last Thursday the Woman's Auxiliary to Board of Mission (Episcopal) presented the United Thank Offering at a corporate communion service, with Rev. Mr. Stedman, celebrant.

During September every branch of the auxiliary gathers in a service of praise and thanksgiving, showing in a material way their gratitude for mercies granted them.

#### Birthday Party.

On Monday at 6 p. m. a group of Rexie Harryman's friends accepted Mrs. Harryman's invitation to come celebrate Rexie's seventh birthday. The party was a complete surprise to the little hostess but she arose to the occasion and everyone had a splendid time. Punch followed by ice cream and the birthday cake were served.

#### P. T. A. Membership Drive.

The P. T. A. membership drive is now on and every father and mother is expected to pay their dollar and become members. The goal has been set at 500 members. If you don't come in now you will be visited again so why not now. The committee needs your dollar and you need to be a member of this organization whose aim is the good of the school.

#### Golden Luncheon.

On Tuesday Mrs. A. L. Whipkey entertained a few friends at luncheon, honoring Mrs. Gustine, who has been sick for some time. The color scheme was green and gold carried out in the decorations and the menu. The centerpiece was golden glow surrounded with ivy white bowls of black eyed Susans were used in the living and dining rooms.

The three courses consisted of orange glaze, chicken pie, okra, candied yams, India relish, hot biscuits, mint tea, jellied apples and angel food cake.

The guests were friends of long standing of Mrs. Gustine, and a pleasant hour was spent discussing the past and present. Those seated were the hostess, Mesdames Gustine, Pond, M. C. Bishop, G. W. Smith and H. B. Smoot.

#### Home Department.

The Home Department of the

Methodist Missionary Society met Monday with Mrs. Arnett. Mrs. Leslie conducted the meeting. Brother Lawlis led in prayer. It was decided to complete the papering at the parsonage and to have the French doors put in. Capsules for another year was voted down, but everyone is expected to do something real nice as a parting gift.

The Jessie Stell fund was contributed to pay every one present, and each gave something for the Junior Missionary candy sale. The following officers were elected for the incoming year:

Chairman, Mrs. T. W. Stonerod; vice chairman, Mrs. H. L. Lockhart; secretary, Mrs. R. H. Looney; treasurer, Mrs. Roy Dozier.

#### Junior Missionary Society.

The Junior Missionary Society met Monday with Mrs. R. N. Gary. There were 27 present and a fine meeting was held. The mite boxes were opened and \$6.64 on the pledge realized. The dues were \$1.75. It was decided to have a candy sale Thursday. Mrs. Bandy gave the mission study lesson. The hostess served punch and cookies.

\* The next meeting is to be with Mrs. Wallace.

#### T. E. L. Class.

The members of the T. E. L. Class were entertained Thursday in the Sunday School rooms of the Baptist Church. The hostesses were Mrs. B. F. Wilson, Mrs. T. B. Russell and Mrs. James T. Johnson.

The president, Mrs. C. E. Way, gave the Scripture lesson. A name quilt was planned as a means of raising funds for the class. Also a market during the Legion Festival. After the business was finished an interesting contest was enjoyed by the large number present. The hostesses served home-made cake and mint orange ade.

#### Colorado City Guests Entertained.

Mr. and Mrs. H. G. Towle have as week end guests Misses Nell Harper Green, Virginia Stonerod, Margaret Mann, Alice Blanks, Katherine Price, oRsalie Leslie, Mary Dixon and J. William Greene and Sherrod Smith, all of Colorado City.

They made a jolly house party. A forty-two party at the Wilsford Tea Rooms, a theater party, a sunrise breakfast at the Country Club, and

a slumber party were among the entertainments given in their honor. —Snyder Signal.

#### Bridgettes.

Mrs. Dewey Tidwell was hostess for the Bridgettes Thursday. She had only the club members, but they spent a very delightful two hours at their favorite game. Mrs. Taylor won high score, Mrs. Ed Jones, Jr., low. The meeting this week is with Mrs. Bill Broadbuss. Mrs. Tidwell served sandwiches, olives, cake and tea.

#### 1921 Club Luncheon.

The 1921 Club opened their year with a beautifully appointed luncheon at the R. N. Gray home Wednesday at 1 o'clock. The tables were tastefully decorated in yellow and white, the club colors; yellow candles in crystal holders tied with yellow tulle, and crystal vases filled with yellow and white tuberoses.

Mrs. Earnest, the retiring president, presided as toastmistress. Mrs. McCleary said grace. A delicious four course luncheon carrying out white and yellow color scheme was served. A grape fruit cocktail, creamed chicken in patty cases, sweet potatoes, asparagus on toast, hot rolls, olives, tea, orange jells salad and cheese straws, angel cake and orange cream. Dainty place cards with baskets of yellow chrysanthemums pointed on them marked the places of the guests. After a few appropriate words of greeting Mrs. Earnest introduced Mrs. Broadbuss, the Sixth District president. She told of the compliment paid the 1921 Club by Mrs. Florence Flowe at Atlantic City where she introduced Mrs. Broadbuss at the Texas dinner. The club who had thought of sending the district president on this tripe. The club who were all young and good looking.

The secretary and treasurer, Mrs. Thompson, was next introduced. Mrs. Thompson said she was not expected to talk only to write. So she did not talk. Following these came the Sixth District chairmen. Mrs. J. G. Merritt, scholarship; Mrs. John Johnson, library; Mrs. A. L. Whipkey, press; Mrs. J. E. McCleary, junior membership; Mrs. Guitar, music; Mrs. Harrell Flouris, gardens and birds; Mrs. Vaught, badge. Then the presidents of the various clubs gave greetings.

Mrs. Lee Jones for the County Federation; Mrs. C. L. Root the P. T. A.; Mrs. R. N. Gary, standard; Mrs. Blanks, Delphian; Mrs. L. B. Elliott,

self cultures; Mrs. Robert Brennan, Shakespeare; Mrs. Dewey Tidwell, Home Makers. Mrs. Merritt told of the Legion Fall Festival. Mrs. Ed Jones told again how glad the 1921 Club was to entertain their guests. The incoming president, Mrs. U. G. Hardison, was introduced and gave her address. She asked for the cooperation of every member in putting over the club program for the coming year, and of every club in doing the things which will make a bigger and better community. All felt that the destinies of the club were entrusted into the hands of one who would make good in every department of club work.

This closed the second delightful 1921 Club luncheon, the guests departed wearing the dainty bronze chrysanthemums which were plate favors and the handwork of one of the club members.

#### Self Culture Club.

The Self Culture Club met with Mrs. Gordon Wednesday at 4. It was announced that pink and white were the club colors and carnation the flower.

A car is being decorated for the parade.

The gift of a ring to the Nall baby was reported.

The entire program was carried out by those present.

The next meeting is with Mrs. Hughes. The program for the next meeting is as follows:

Paper—Do we fail in teaching love, gratitude and respect—if so why?, Beal.

General Discussion on Good Matters—Mrs. Doss.

Moral Duties of a Free Citizen—Mrs. Coffee.

The Ten Virgins—Mrs. Bennan. The Good Samaritan—Mrs. Elliot. The End of the Play—Mrs. Gordon.

The Toys—Mrs. Hughes. Mrs. Pelfry, Mrs. C. P. Gary, Arlie Taylor were taken in as associate members.

Mrs. Ray Womack who was a guest gave some enjoyable piano numbers. Mrs. Gordon and Mrs. Roy Dozier served ice cream and white cake.

Mr. and Mrs. H. L. Atkins left the first of the week for Midland. Mitchell County requests very much to give these good people up.

CHURCHES

METHODIST CHURCH.

Sunday school 9:45 a. m. This is promotion day and we want all our pupils present as well as all the teachers. Preaching at 11 a. m. and 7:30 p. m.

NICE OF COLORADO MAN ESCAPES IN FLORIDA STORM.

T. W. Stonerod received a telegram Monday from his niece, Mrs. P. V. Burns at Fort Lauderdale, Fla., saying she and her husband and three children escaped in the storm there unharmed, but they lost their home and all their belongings.

CHURCH OF CHRIST.

Last Lord's Day was a fine day at the Church of Christ. The Bible classes were well attended and the house was filled with worshippers for the morning hour of worship.

THE PRESBYTERIAN CHURCH.

Last Sunday was a fine day in every way. We are looking for every member of the church and congregation to help us in making next Sunday even a greater day of service for our Lord and Master.

MANY COLORADO BOYS AND GIRLS ARE OFF TO ATTEND COLLEGE

A total of 58 Colorado young men and young women are attending different colleges and universities over the country. There are 19 institutions represented in this number, with the Texas Tech at Lubbock getting the largest number of Colorado students with C. I. A. at Denton second and State University at Austin third.

BAPTIST NOTES.

Last Sunday was a fine day with two fine audiences. The Sunday school is growing. With the forward step in the Sunday school program the school will continue to grow. A fine training class in process.

Program.

Program for Young Woman's Missionary Society: Hostess, Mrs. Gordon. Leader, Mrs. Haines. Prayers. Scripture 1 Samuel, Chapter II 1:11, Mrs. Ratliff.

Chase Holds Successful Revival at Woodson

Rev. J. E. Chase, pastor of the First Christian Church, returned Monday from Woodson, Throckmorton County, where he closed a very successful revival meeting Sunday evening. Woodson is a new oil town which is just now being overrun with feverish activities of oil development.

Girls' Circle.

The Girls' Circle of the Presbyterian Church met Wednesday at the church. A very interesting study in foreign missions was enjoyed under the teacher, Mrs. Elliott. The girls continued hemming cup towels for the church kitchen.

**\$2,000 IN PRIZES TO BE GIVEN AWAY BY RECORD**

(CONTINUED FROM PAGE 1.)  
cluding, besides the fine automobile, \$200 diamond ring, \$115 Vivatonal, \$50 wrist watch, \$30 in gold and a \$20 gold coin. Besides a cash commission of 20 per cent to all who fail to win a prize.  
**Shortest Contest on Record.**  
The astounding liberality of the offer and the ease with which the prizes may be won—not to mention the short period over which the contest runs—is expected to create lively interest in the territory served by the Record. It costs nothing to enter and win, nor will it cost anything later. Every prize is free, a reward for effort in vote gathering. Any lady, married or single, residing within the circled territory of the Record, is eligible to enter and compete. It is not even necessary that a contestant be a subscriber to the Record—that's how liberal this contest is. The only stipulation the Record makes is that no salaried employe of the Record nor a member of his or her immediate family is eligible.  
The Record believes it has made

conditions the easiest ever known in a campaign of this kind. A feature is the fact that no men will be allowed to compete. Of course husbands may help wives in vote gathering, fiancés may help sweethearts, brothers may help sisters and so forth, but the prizes **MUST** go to the ladies. Every lady who enters, regardless of place of residence, has the same equal chance to win the prize. The main qualifications to make a winner is plenty of "pep" and ambition.  
The lady polling the highest number of votes by 9 o'clock Saturday night, Oct. 30, wins without one cent of cost to her. Second highest place wins the second prize and so on down the line. There are just two ways to get votes. One is through clipping the free coupons which appear in this issue of the Record. These must be turned in before the expiration date printed on them. The other method is through obtaining new and renewal subscriptions to the Colorado Record. A year's subscription counts 2,000 votes, whether it be a new or renewal order. Two years counts 5,000 votes, and so on up to five years. All subscriptions must be paid before votes are issued and a number of special contestants receipt books have been made up for use in the contest. One of these may be had upon application to the Contest Manager, Record building, or will be sent by mail upon receipt of an "Entry Blank" properly filled out. It is expected that there will be a number of entries from out-of-town immediately after the appearance of this issue of the Record.  
Complete rules and regulations, together with an "Entry Blank" good for 2,000 votes, will be found in a large advertisement elsewhere in this issue. To become a contestant it is only necessary to fill out one of these blanks and bring or mail it to the Contest Manager at the Record. A receipt book and full instructions will be given at once and you can start right out gathering votes. The time is so short that ambitious ones will lose no time in seeing the Contest Manager.  
**There Is No Red Tape.**  
There are no obligations attached to entering the contest and it costs nothing to try for a prize. Votes, and votes alone, will win. You can get them in your spare time. There will be no red tape anywhere, and prizes will be awarded at the Record

office on Saturday, Oct. 30, just as soon after 9 p. m. as the official judges can tabulate the vote totals and announce the names of the winners. Every contestant who enters will be given every possible assistance by the Contest Manager and the Record. Vote gathering will soon develop into a pleasurable pastime for those who instill real campaign methods into their race.  
Turn now to the big page advertisement elsewhere in this issue and see for yourself the wonderful opportunity that is confronting you for the next 35 days. Then enter your name or that of a friend TODAY. If there are any details that are not clear to you, call or write the Contest Manager, the Record, Colorado, Texas. Beginning today the Contest Manager will be at the Record office from 8:30 in the morning to 7:30 in the evening.  
**Entry Blank Is First.**  
But above all, don't forget that "Entry Blank." It is the stepping stone to a free automobile. Nominate yourself—don't wait for some one else to do it for you. Remember you have everything to win and nothing to lose, for on all subscription collections you will be paid a dollar out of every five if you do not win one of the regular prizes. **YOU CAN'T LOSE, YOU MUST WIN SOMETHING IF YOU ENTER.**  
The next five weeks will pass rapidly. It will be a thrilling race that will contain no dull moments and the rich experience one will gain in salesmanship and coming into contact with people will itself pay big dividends in future years.  
The first subscription you turn in counts 10,000 votes in addition to the regular votes. (See first subscription coupon.) You can get votes ANYWHERE. The entire county and State is your field, there are no restrictions whatever.  
Get out the old shears right now—this very minute, and take a wallop at that "Entry Blank" and bring it to the Contest Manager. Plenty of fun in store for you.  
Let's go!  
**Editor's Note.**  
The Colorado Record wants more circulation. The management has outlined a plan of expansion for this year in which circulation will play a very important part, and while the Record has enjoyed a healthy patronage, in order to attain the mark it

has set in regards to circulation, it has decided to distribute with a lavish hand prizes to the extent of \$2,000 in the next five weeks.  
A subscription campaign is the same to the newspaper that a sale is to a dry goods store—merely an intensive campaign for greater business. Almost all newspapers conduct a subscription campaign at regular intervals, either a contest or "bargain day" offers. The purpose of each is to increase their subscription list.  
The Record is Mitchell County's own home newspaper. It has made every effort to do its part in every movement that has made for the betterment and best interests of Mitchell County in the past and the management believes its efforts have not been in vain. It is the hope of the publishers to add several hundred new subscribers in the next few weeks. We hope that we have merited your support and assure our friends and readers that the Record will do everything in the power of a newspaper to merit the continued support of the readers and the public.  
The Record wants more circulation in Colorado and surrounding towns and on the rural routes, and it's going to give its readers and friends a chance of winning one of the beautiful prizes besides liberal cash commission for helping increase the already large list of readers.  
**MISS BILLIE HOWELL**  
**QUEEN OF ESTIVAL**  
Continued from page one)  
to reach a record breaking point for the other two days of this great fun making and exhibiting program.  
Results at the close of the contest for Queen of the Festival showed that Miss Billie Howell of Loraine was chosen queen. The contest was closed Monday night at 10 o'clock after development of a great deal of interest. Voting was heavy in the last hour of the contest. At 8 o'clock the Colorado band gave a concert in front of the Colorado Drug Company store which drew the crowd and from then until the close all eyes were on the bulletin board where results of the voting were displayed. Results of the voting were as follows: Miss Ruth Boynton, 11,097; Miss Ruth Booher, 7,101; Miss Mary Broadus, 10,855; Miss Billie Howell, 16,732; Miss Mary Louise Harmon, 6,102.  
Queen Billie of the House of Howells was placed on a platform and very graciously thanked those who had elected her. Queen Billie will be crowned at a big open air platform near the Tabernacle tonight (Thursday) following which the Queen's Ball will be given at the Legion Hut. The other contestants will be Dutchesa in Waiting to the Queen and will take part in the coronation program as well as the ball. Great pomp and glory will attend the

coronation of the Queen and Her Majesty will be highly honored by her subjects this evening, and will be presented with a beautiful \$125 diamond ring.  
Bill Thompson, local oil man, was elected court jester in the voting for the ugliest man in the county. He will take part in the program at coronation of the Queen. Thomson was a dark horse in this race and did not show up in the voting until a late hour, but rapidly gained the lead in this contest.  
Mrs. R. H. Rathiff, who has charge of the arrangements for the Cabaret Dance at the Legion Hut Friday evening, says the program is complete, and that attendance is going to be heavy. Reservations for tables have already been made by many.  
Cover charges for the dance will be \$1 per couple or \$2 per table. This will entitle the diners to dance during the entire evening as they wish, but will not include eats or drinks. Small menus will be on the tables and the diners may order whatever they may desire and pay for the same. Many features will be given and the guests will be expected to ante up and pitch small change in the "Kitty Box" or "Jinney Box" at end of each performance, and encores will be followed by the pitching of small change in the box.  
Mrs. Jake Collier, Mrs. Louise Collier, R. B. and Randolph McEntire have charge of arrangement and decoration of the tables.  
The kitchen will be under auspices of the Legion Auxiliary and will be the most attractive spot at the Hut, it is said.  
Mrs. Harry Landers, Sr., will be the Maitre de Hotel. Jack Helton will be head waiter, assisted by six beautiful waitresses in the person of Misses Virginia Stonerod, Virginia Thomson, Margaret Mann, Alice Blank, Katherine Hammonds, Thomas R. Smith will be cashier. The management says he is just the size for this kind of a job, both mentally and physically. Anyway he promises to rake in the shekels.  
Miss Katherine Price and Miss Martha Reba Hubbard will be the two beautiful confetti vendors. The program is scheduled to start at 8:15 p. m. with opening number by the Hewitt orchestra. Check room will be to the right of the entrance in charge of Robert Brennand.  
Miss Arledge of Sweetwater, a dancing instructor of note, will give a special cabaret number. Miss Tena Hewitt, for a number of years with the Keith Circuit, will give a beautiful scarf dance. Mr. R. E. Fletcher, member of the Colorado High School faculty, will accompany on the piano. Fletcher is known as an expert piano player and his playing will add much to this program.  
Mr. and Mrs. Fred Brown of Loraine, were in Colorado Wednesday on business.

**Genuine Brunk's Comedians In Colorado All Next Week**  
Under auspices of Oran C. Hooker Post No. 127, American Legion, the genuine Brunk's Comedians under the personal management of Fred G. Brunk will open a week's engagement in Colorado on Monday, Sept. 27, showing on the usual show lots located back of city hall on the location being used by the American Legion Fair this week.  
This season Mr. Brunk has a company of over 30 people including a concert band, some real high class big time vaudeville acts and one of the best casts of dramatic actors ever seen under canvas who play such late royalty plays as "Why Men Leave Home," "The Broken Wing," "Goldstein and Murphy," "The Unmarried Mother," and "The Red Shadow."  
Jerry Barnes and his Eight Merry Melody Makers, a feature orchestra of high class young union musicians, will furnish the music.  
The opening play will be a real feature; it is Avery Hopwood's famous New York comedy dramatic success, "Why Men Leave Home." This play had a year's run at the Broadhurst Theater in New York and it will be presented here just as it was played in New York. This play is a comedy drama of the modern American home and was one of the biggest hits played in Oklahoma City by Brunk's Comedians during their recent 15 weeks' stock engagement.  
This is the first visit of Mr. Brunk's own company to Colorado. Mr. Fred Brunk's own company is the largest of the Brunk shows and one of the largest tent dramatic companies in America, the huge tent has a seating capacity for over 2,000 people.  
There will be a free band concert each evening at 7:15 in front of the huge tent at which time the doors will be opened at 8. Jerry Barnes' Merry Melody Makers will play a concert at 8:15 the show will start.

### M. L. WATSON GETS LEG BROKEN IN ACCIDENT.

M. L. Watson had his right leg broken midway between the knee and ankle Thursday morning when he started to uncouple a trailer loaded with a bale of seed cotton in his field a short distance north of town. The tongue of the trailer balanced down and pinned his leg underneath it, breaking both the bones and protruding one through the flesh. Mr. Watson could not secure help so he dug himself out with his hands and finally crawled to his car and drove to Dr. Root's office where the wound was X-rayed and the bones set, after which he was carried to his home. At last reports he was resting well.

### Ewen Hail, Noted Record Artist to Appear Here

The noted Brunswick recording artist, Ewen Hail, and his troupe of beautiful dream girls will be in Colorado Monday and Tuesday nights of next week in person in a big first class vaudeville act, curtain for which will rise at 8 p. m. each evening. This is said to be absolutely the biggest attraction brought to Colorado this year and with the beautiful costumes and furnishings of the Hail troupe together with the beauty of the stage settings and equipment of the New Palace, this vaudeville show is scheduled to attract wide-spread attention. Mrs. Dixon, who has investigated the merits of this offering, and the success this noted record artist has had at Amarillo, Lubbock, Dallas and many other places with this show, Thursday said:

"This is our first special attraction at the New Palace and we guarantee it to be high class and the best. There will be no raise in prices. We have comfortable seats and the coolest place in town, and I don't believe the people can afford to miss this opportunity to hear and see this show. We will also have a good picture program in connection with the vaudeville. Raymond Girrin in 'Wet Paint' will be the picture program."

### Westbrook Young Man Drowns in Surface Tank

Vardeman Fraser, 21, son of Mr. and Mrs. J. H. Fraser of Westbrook, was drowned in a small surface tank near Westbrook some time Wednesday night. The young man, who was afflicted with epilepsy at times, left home Wednesday morning to fish in the pond and when he did not return that afternoon a search was instigated with the result that his cap was found floating on the water and further investigation disclosed the body in about three feet of water. He had been dead several hours when found, and efforts to revive him were futile.

Funeral services for the young man will be held Thursday afternoon at Champion where burial will be made. J. H. Fraser, father of the drowned man, is an employe of the California Company.

### TEXAS U. TO OFFER LIFE INSURANCE COURSE.

AUSTIN, Sept. 23.—For the first time this Fall special instruction in the field of life insurance and the sale of policies will be offered by the University of Texas, according to Dr. James A. Fitzgerald, dean of the School of Business Administration. The course will treat of home office and agency relations, accounting reports and methods, policy structure, reserves and policy values, origin and function of surplus, trusts and fiduciary contracts, procedure in paying claims, analysis of standard and special forms, and the like. It will be given by Adjunct Prof. C. B. Simmons, who is also statistician to the president.

### Crosthwaite Drug Has Beautiful Electric Sign

The Crosthwaite Drug Co., corner Second and Elm, has just installed a beautiful new Textite electric sign in front of their store, which is one of the most expensive and elaborate electric signs in Colorado. The Crosthwaite concern is a progressive and livewire concern and is constantly making improvements that are advantageous to the customers of this popular drug store, and their installation of this new electric sign shows a spirit of progress and pride that is to be commended.

### CARD OF THANKS.

We thank each and everyone of you all for what you did for us when our house burned.  
MR. AND MRS. MONROE, BROOKS.  
MR. AND MRS. AUTIER MOTE.

### TO THE PEOPLE OF MITCHELL COUNTY.

As I move to another county I wish to express my appreciation for the splendid co-operation I received there. What measure of success the work attained was largely due to your encouragement.

I wish to especially thank every member of the Colorado Chamber of Commerce for their efforts in my behalf, and assure you that it will never be forgotten.

It is my desire that my successor, Mr. Foster, shall receive the support which was given me. I have known him for eight years, and feel that he will be able to give universal satisfaction.

I have hundreds of friends here that neither time nor distance can destroy, and in my new location shall always strive, as I did here, for a "Greater West Texas."  
H. L. ATKINS, JR.

### WESTBROOK MAN LOSES ARM IN GIN ACCIDENT

C. W. Spencer of Westbrook, employe of one of the gins there, lost one hand and a part of his arm Monday night when the member was caught in the gin saws while he was at work. The hand was completely cut off and he was rushed to the Colorado Sanitarium where the limb was amputated just below the elbow. At last report Spencer was resting well and on the road to recovery.

It was probably only the quick work of the Jones, Russell & Finch ambulance that saved the life of Spencer. The ambulance went from Colorado and brought the man to the sanitarium in 40 minutes time. Loss of blood from the wound was thereby lessened and the wound received proper medical attention without delay.

### CONTRACTORS NOTICE

The building committee of the First Baptist Church of Lorraine will receive bids until 2 o'clock p. m., Oct. 1, 1926, at the office of Samuel C. Harris, for the erection of a basement for said church according to the plans and specifications, same to be without excavation; turn key job paid for on completion of work. Certified check for 20 per cent of cost to accompany each bid to assure consideration. Committee reserving the right to reject any and all bids. tc

Carbon paper at Record office.

### Baptist Missionary Circles.

Circle Three met with Mrs. D. M. Logan Monday and the following officers were elected to take office in January: Chairman, Mrs. A. L. White; assistant chairman, Mrs. D. M. Logan; secretary, Mrs. Richard Pearson; treasurer, Mrs. C. E. Way; teacher, Mrs. C. P. Gary; assistant teacher, Mrs. A. L. Whipkey.

This circle has completed its mission study but is going on with its Bible course.

Circle One met with Mrs. Lasky with eight present. There was no lesson as this was election of officers, but \$10 was reported sent to the minister's widow this circle supports. The officers elected were: Chairman, Mrs. George Huth; secretary and treasurer, Mrs. T. E. McKenzie; teacher, Mrs. Lasky.

Circle Four met at the church with eight present. Mrs. Pelfry was made chairman; Mrs. Whitmore secretary and treasurer; Mrs. Anna Simon teacher. This circle had two new members.

Circle Two met with Mrs. Smoot who was re-elected chairman; Mrs. Seales secretary, Mrs. Green Delaney treasurer, Mrs. Bishop, teacher, Mrs. J. T. Johnson assistant teacher. Mrs. Garrett came in as a new member.

### U. D. C. Meeting.

The U. D. C. met Tuesday with Mrs. R. N. Gary. After the ritual Mrs. George Smith led in prayer. It was voted to send \$2 to the home for Confederate women who live in the North; \$5 on the scholarship and make money to pay off our debts at home. The historian reported good work done during the year. The programs prepared, pictures bought for the school and medal given.

The registrar reported 11 members added during the year. It was decided to have a car in the parade, the veterans to ride in it. A message of love was sent Mrs. Gustine who is sick.

In the election of officers Mrs. Gary was made president; Mrs. Robert Terrell, first vice president; Mrs. Gustine, second vice president; Mrs. Huth, third vice president; Mrs. Ernest Pritchett, recording secretary; Mrs. Jeff Dobbs, corresponding secretary; Mrs. Walter Stoneham, treasurer; Mrs. S. H. Millwee, mission and teacher; Mrs. J. G. Merritt, registrar. The children of the Confederacy will be taken care of by Mrs. Jack Smith and other helpers. The hostess served punch and cake.

### Central Circle.

The Central Circle of the Presbyterian Church met Monday with the leader, Mrs. Cleman. Mrs. Sherwin conducted the lesson from James and Mrs. Riordan had the foreign mission study. There was a good attendance and an unusually interesting lesson. The hostess served a refreshment course of cake and pine apple pie. The next meeting will be in the basement of the church.

## ED WOMACK'S SERVICE STATION

Taking out the Blowout

Just over the rim above the bead where flexibility is imperative—that heretofore has been the blow out area of balloon tires

In Pennsylvania Balloons an extra flipper on the bead reinforcement strip and layers of heavy cushion rubber between the plies above the beads produce a sidewall that is blowout proof yet gives maximum flexibility and eliminates rim-rocking on curves at high speed

Six-ply construction and no reclaimed rubber add thousands of miles and the flat contour of the tread gives a slow even dependable wear

Quality—a Pennsylvania Product

We have a complete stock of Pennsylvania Tires and Tubes. You can not afford to buy until you see them and get our prices.

### NORMAN WRITES ON ATHLETICS IN THE COLORADO SCHOOLS

Superintendent Outlines His Views on Matter of Importance

Supt. R. B. Norman of the Colorado schools has given the Record an item for publication this week on a subject that effects every pupil in the schools and a subject that is important and is receiving much attention at this time. This is the subject of athletics in the schools. Superintendent Norman gives his views on this subject in a very practical and readable manner, and we reproduce them as follows.

"Now that the football season is about to be ushered in considerable comment will be made as to the status of athletics in our schools. The old can not appreciate, then writer has not made a public statement of his convictions on the subject. There must be a reason for any practice that receives as much apparent emphasis as athletics in our schools. If the citizenship and the school board of a district did not believe that athletics afforded an escape for pent-up and surplus energy in our youth which the middle aged and old can not appreciate, then surely both parties would express themselves in concrete action against such. However, the surest index to the popular approval of athletics lies in the throngs who are willing to advance the price of a vaudeville or picture show to witness a contest of physical prowess, mental poise, and an exhibition of fortitude and courage such as our country calls for in times of war and distress.

"We lay down the major premise as an hypothesis that inherently every child is a bundle of nervous energy. That unless this energy is allowed to escape through harmless and wholesome channels it will escape otherwise. President Wilson and General Pershing opposed closing up our major league baseball parks during the tense days of the World War. They insisted as profound scholars of human psychology that the games afforded an opportunity for the tired, the anxious, the gloomy and despondent business, professional or laboring man to revert again to the jubilation and rejuvenating experiences and sensations of youth. These sensations having a tendency to drive away despondency, renew the mind and body and restore a person to his normal state. Two hours daily for 60 days seems in the eyes of some to be much time "wasted" for preparation of the team for the games it plays. These hours are all spent after the school day's work is completed. It is our observation and experience that boys who are engaged in this form of strenuous physical exercise under a director who is a good moral example for boys, who permits no profanity on the field of play, no vulgarities and who severely reprimands a fellow in general terms for showing any tendency toward unsportsmanlike conduct is receiving training which will give him a decided advantage in the contest of life over the average boy who does not so use his time. The fact that the boy athletes make as high averages as other boys has been proved beyond a question by cold statistics. Non-athletes spend their time as a rule on the streets, in the theaters, joy riding, bathing and in various ways that are not conducive to high character and robust physical manhood such as the directed and systematized athletics of the high school afford. It is not the plan of the executive officers of the schools to permit students to miss any classes for athletic contests this year other than is ordered by the school board. Exception to this rule will be made only when the team, two or three times during the year, will be compelled to leave at noon in order to play a game away from home. Practically all

games have been arranged at home. There are only two exceptions and one of those dates is a national holiday observed by all schools. Thus there will be no necessity of a loss of time. When athletics are dismissed and hour or so early they are always required to submit written work in the subject the recitation of which is missed.

"The charge that students' minds are so wrought up that they can not be interested in their subjects can occur to a certain extent at crucial games of the season. But as a rule the faculty is forced to make "pep" speeches daily to arouse an interest in a contest sufficient to get the students to attend. Even then no more than 75 per cent have ever attended a game in Colorado.

"Are athletics commercialized? Yes, in some colleges and perhaps a few high schools. It costs considerable money to finance a football team. Some teams end the season with a surplus. In our schools this surplus is used to defray the expense of all activities. If it were not for this surplus the citizens would have to be solicited for donations to support our declamation and debating teams on their trips to district and state meets as well as to support our other branches of athletics which are not self supporting. This money is spent for all kinds of school equipment which the school board might not be able to buy. Charts, maps, books, playground equipment for all children, improvements on grounds and the like. The money is wisely to the advantage of the entire public school system.

"The writer attended high school where there was no football. He did not see any more evidence of application to studies at these hours of the day than exists now in our schools. The small schools are telling us daily of their troubles in getting study. There is a larger percentage of students in school now than ever before. A higher percentage of students are graduating from high school now than graduated from the elementary grades 30 years ago. The standard of scholarship is higher now than it was then. Last year a Boston citizen charged that the schools were inefficient and that seventh grade children were poorer speakers than 30 years ago.

"An elementary principal called his hand. An examination given to a seventh grade spelling class 30 years ago was unearthed. It was given to the modern school class without drill on it. The moderns were winners by several points. It is true that our high schools turn out many products that are poorly prepared for either college or life. On the other hand they turn out more who are prepared than the schools ever did in the past. Modern methods in schools are just as superior to ancient methods in producing results as modern harvesting machines are superior to the scythe. The same things are not emphasized. A student of the old school could phrase and diagram a sentence better than the modern school student, but he might not know as much about lofty ideals, heroic characters of literature, inspiring examples of bravery, etc., as the modern. The old student might bound the United States but he might be wholly ignorant of the physical, racial and political conditions that prompted the building of cities in their particular locations, or of the reasons for the traits of character, modes of life, interests and ideals of a people of a given community. The ancient might have calculated how long it would take a frog to climb out of a well jumping up two feet daily and fall back three, but he might not, like the modern student, possess such practical ideas as a knowledge of the insurance or banking business and the many of the great principles of economics that are taught in connection with arithmetic today. He might spell compatibility, transubstantiation, etc., but could he spell the words he used every day in business?

# POPULAR DRY GOODS COMPANY

Colorado, Texas

plied to the present in education any more than in other affairs is laboring under a delusion which may easily be removed if he will enter our schools and try his hand. "All work and no play makes Jack a dull boy," was never so true as today. Today it is directed and organized play, formerly it was random and not always so wholesome. If the citizens will remain behind the present board of education and the executors of that program as they have recently, there will be some tangible evidence soon in addition to what has already appeared. Watch the results of this year's work closely. Watch us get 20 affiliated units this year in spite of the fact that we need three new high school teachers. The best investment you can make is in the character and education of your children. Help all you can, in every way you can, any time you can."

### Jews of Colorado Close Stores for Yom Kippur

The Jewish stores here remained closed Saturday until 6 p. m. in celebration of Yom Kippur, Jewish religious holiday. L. Landau, manager of the Colorado Bargain House, requests the Record to express publicly the heartiest thanks to the American Legion for the use of their hut. The Jewish people held services in the hut Saturday. Landau says the Jews of Colorado appreciate this very much. Mr. Landau also thanks the I. O. O. F., Woodmen and Rebekah lodges and the Carpenters' Union for use of their hall recently, saying the Jews greatly appreciated this courtesy.

In speaking of Yom Kippur, Landau said:

"Yom Kippur is the loftiest expression of Israel's religious idealism. It is the Jew's nearest and most solemn approach to Godliness.

"Those who misconstrue Judaism charge that the Jewish religion ignores the individual. Even if it is true that Judaism stresses more the need and weal of "Klal Yisroel" (All Israel), it is questionable whether such a view is to be condemned. But to say that Judaism ignores the individual completely is nothing more than a slander. Yom Kippur is the best refutation to this charge.

"Our holiest day does not commemorate any great event in our history. It does not tell us of any national trial or victory. It is not a day for the past. It is a day for the present, and essentially a day for the individual.

"Judaism has set aside this one day for the individual to cast off for once his onerous chains of materialism. Purging himself of all earthly dross, the Jew on this day enters the Holy Hallel, the innermost sanctuary of his better self. The Jew needs no mediator between himself and his God. He, himself is the High Priest in the Temple of his Soul. Satisfying this cherished spiritual craving, appeasing his conscience, solemnly resolving to sin no more and thrilled by the hope of a perfect pardon, the Jew can once more take up his battle of life, spiritually enriched and mentally strengthened. Thus he is prepared to greet his approaching Succoth festival, so appropriately called the "Season of our Joy" with a feeling of genuine and unalloyed happiness.

"Yes, Yom Kippur is the pinnacle of our religion, that high and sublime peak upon which the Lord may be seen." If but its hallowed influence and sacred atmosphere remained in our hearts and found room in our lives the rest of the year!"

### COLORADO HICKS STORE LEADS IN SALE TIRES

According to A. C. Connell, manager of the Colorado store of the Hicks Rubber Co., the local store was fourth last week and the week before, in sale of automobile tires and tubes, as compared to the other 30 stores in Texas. The company owns stores in Waco, San Angelo, Abilene, Lubbock, Amarillo and many other large cities. Only three other stores beat the Colorado store in volume of sales. The company is conducting a sales campaign wherein the goal was set at a million dollars in 66 days, and the total sales of the company have already passed the quota to date. The Colorado store has sold better than 60 per cent of its quota since the campaign started, and the past week sold 78 per cent over the quota assigned for that week. The Hicks officials are more than pleased with the sales in Colorado since opening their store here a few months ago.

A. G. Furlow and son of Lorraine, have returned from Corpus Christi where they attended the celebration of the opening of the Corpus port. They report a good time and that they saw several battleships and merchant ships, which came into the Corpus port for the first time.

REAL ESTATE AND INSURANCE

22ND YEAR—NO. 52

COLORADO, TEXAS, FRIDAY, SEPTEMBER 24, 1926.

WHIPKEY PRINTING CO.

OIL PRODUCTION IN TEXAS REACHES HIGH MARK DURING WEEK

Prediction That the State Will Gain First Place in Production

BY JOHN W. NAYLOR. Oil Editor, Star-Telegram.

Preliminary reports from the Panhandle indicating that a new high figure had been reached in production there during the past week, and the return of Spindle Top above 100,000 barrels, revives hope that Texas crude oil production may set a new high record for all time this fall.

Last week it showed a slight loss, which, with Spindle Top apparently taking the down grade, had deferred expectations of a new high figure.

Peak Flow. Last week Texas production was 573,000 barrels daily, in round numbers. The peak for all time of Texas production was 595,000 barrels, the daily average set in the last week of October in 1923 when the Corsicana-Powell field was at its peak.

Potential production is now, probably, even greater than at that time, for the Panhandle's increases in production are in spite of efforts to hold it down, rather than efforts to put it up.

If facilities for handling and storing the full producer were at hand it would probably be greater. When the former peak was reached, and Powell was doing better than 350,000 barrels per day for a short time, everything was wide open.

Except for that one time, however, Texas production has not even approached present figures, and West Texas previous records. At its present level the production of the State is only 25,000 barrels daily below that of California in first place.

Only California and Texas, among

American States, have ever exceeded the production of this State at this time.

Texas oil men are confident that whatever happens this year, that next year California will have to yield first place in oil production, as Oklahoma has yielded second this year.

Market Resistance. Aside from watching the rise of production, the principal interest of oil men in the State during the past week has been the resistance of Panhandle crude to a price cut inaugurated the first of the week by a major company—the Magnolia.

At the end of the week the cut had not been met by a single major company competitor, though it was a heavy one—about 40 cents per barrel on the principal grades.

The resistance to the cut, despite the fact that production in the field is far greater than facilities for handling it, is attributed to the excellence of the general oil situation. Buyers have undoubtedly been considering whether they might not, in taking Panhandle crude at a low price because they can, inject needless damage into favorable markets.

Seminole City. Aside from the Panhandle situation the principal cloud on the market comes from the Seminole City pool in Oklahoma, where two deep sands producers a mile apart are making more than 300 barrels per hour each, and a big drilling campaign is on.

Estimates of production of better than 100,000 barrels daily by the middle of November have been placed on this development.

This will undoubtedly provide an additional factor affecting crude markets. Just what its effect will be, however finds the "guesses" of oil men in position to lend weight to their surmises disagreeing. More than one believes that the imminence of another year of expected record oil consumption, immediately following one which found demand greater than supply, will minimize bearish effect.

MANY FLORIDA TOWNS SUFFER HEAVY STORM LOSSES AND DEATHS

Thousands Homeless and List Dead and Injured Grows in Reports

WEST PALM BEACH, Fla., Sept. 20.—Estimates of dead, injured and homeless, compiled at 11 o'clock Central Standard Time, Sunday night, from latest reports from all sources: Miami 500 dead, 700 or 800 injured, 28,000 homeless.

Hollywood 250 dead, 1,000 injured, 10,000 homeless. Moorehaven and Clewiston 140 dead, 35 or 40 women and children drowned.

Miami Beach 150 dead. Fort Lauderdale 100 dead. Hialeah 54 dead. Dania 11 dead. Homestead 3 dead, 1,000 homeless. Coral Gables 3 dead. Hallendale 2 dead. Larkins 1 dead. Ojus 1 dead.

Where Millions Were Spent.

Real estate activity of the last five years has seen millions of dollars poured into developments, modern hotels, subdivisions, apartment houses, homes, public utilities, public schools and churches along the lower coastal sections of the peninsula which bore the brunt of the hurricane.

Miami Beach 10 years ago, a low-lying sand bar and mangrove swamp, had of late years taken on the appearance of a tropical city. Spanish villas, golf courses, polo fields, yacht basins and artificial lakes and canals constructed there have for several seasons enjoyed popularity with Winter visitors.

The last three years have seen the erection of the Fleetwood, Flamingo, Nautilus, Pancoast and Roney Plaza Hotels, all modern structures, at

costs estimated at millions of dollars. Extensive Development.

Miami's harbor, where, according to late dispatches, damage running into the millions was suffered, had for several years been the site of an extensive development program and assisted by the Federal Government thousands of dollars have been expended in deepening and widening the channel.

In the shallow waters of Biscayne Bay artificial islands have made their appearance and the "Venetian Islands," a late feature of this type of development, built on bulkhead sand, sucked from the bottom of the bay, have been show places of the Miami area. Late dispatches told of water covering the \$1,000,000 causeway, connecting Miami with Miami Beach, and running directly through the "Venetian Islands."

Bryan's School Site.

Royal Palm Park in Miami, lying one block from the Biscayne Bay water front and where reports say an large steamship has been stranded, is the scene of the famous weekly Sunday school class of the late William Jennings Bryan. The park lies directly in front of the old Royal Palm Hotel, erected in the '80s by Henry M. Flagler, shortly after the completion of his Florida East Coast Railway line south of West Palm Beach.

The Miami Tribune plant, reported destroyed, was several blocks from the water front.

At Hollywood, a city with an estimated population of 15,000 developments of the last few years have soared into millions of dollars. A \$3,000,000 hotel, the most ambitious unit of the Hollywood building program, fronts directly on the ocean beach and a three-mile concrete board walk has been said in Winter months to rival the color of Atlantic City's board walk.

Other Stricken Towns.

Dania, also mentioned in dispatches as having sustained heavy loss is situated two miles north of Hollywood and within the corporate limits of the latter city. Fort Lauderdale has an estimated population of 25,000. Pompano, Yemato, Lake Worth, Delray and other coastal cities swept by the gale are Winter resorts.

At Palm Beach are located the famous Royal Poinciana and Breakers Hotels, the latter erected only last year after fire had destroyed the old structure, known to Winter visitors for years as one of Florida's premier resort hotels.

Hialeah, where several hotels reported, is located seven miles northwest of Miami, and more than 10 miles inland, where the racing plant of the Miami Jockey Club is located.

Atkins Succeeds Snider as County Agent at Midland

H. L. Atkins of Colorado is the new Midland County farm agent.

The Mitchell County farm director will be in Midland to begin work as farm agent shortly after the middle of this month.

J. B. Snider, county farm agent here for the past two years, has resigned to become county farm agent of McLennan County. He will leave for Waco sometime before the first of October. Directors of the Midland Chamber of Commerce were unanimous in offering Mr. Snider an increase of salary to retain him, because of his extraordinary record of achievement in directing farm work, but larger opportunities were offered in the older and richer county of McLennan than Midland, still in its infancy as a farming county, could possibly meet.

Mr. Atkins is considered one of the best county farm agents in Texas. He has been in Mitchell County for three years, and has a fine record there. He knows West Texas conditions and will come to Midland with the advantage of being already somewhat familiar with farm problems in Midland County.

It is believed, too, that Mr. Atkins' coming to Midland will be an influence in causing more of the fine type of Mitchell County farmers, so many of whom have already come to Midland, to buy farms in this county. Mr. Atkins in already acquainted with several of the former Mitchell farmers now living here.

The Colorado man is a graduate of A. & M. College, and was a classmate of Joe Caldwell of Midland.—Midland Reporter.

Now that a 100-year-old woman has flown in a seaplane, we are sure it has been a century of progress.—Boston Traveler.

REPUBLICANS LAUNCH CAMPAIGN ELECT GOV.

Expect to Elect Haines Texas Governor, Says Creager

SAN ANTONIO, Sept. 18.—The 1926 Texas Republican "boom," with the first complete State, congressional and county tickets in history, and with aspirations of electing Republican Senators for Texas in 1928, was launched here Saturday.

R. B. Creager of Brownsville, Republican committeeman for Texas, was here to lay plans for the Republican revival, aid in conference with Leonard Withington, organization secretary, expressed optimism in regard to the political situation, both State and national.

"Texas will support Coolidge for renomination at the national convention in 1928," Creager said. "Also, in 1928, we expect to elect Republican Senators for Texas. The day of the single-party system has gone. The recent Democratic convention in San Antonio, which fell down lamtably, shows that Republican voters are increasing as proved by statistics of the last few years."

"For the first time in history, however, Texas has 18 Republican Congressmen running, a complete State ticket and county tickets for the majority of counties. Bexar County, however, will not have a Republican ticket."

"H. H. Haines of Houston, our candidate for Governor, if he receives as many votes as Dr. George C. Butler did—298,097—will surely triumph over Moody. We expect to elect Haines to the Texas governorship. He will stump the State and will speak every day. We will have speakers all over the State and will make this the most vigorous Republican boom up to date."

Earl Morrison, R. J. Wallace, and O. B. Price were visitors to the Phillips well near Trent this week.

OIL NEWS

(From Sterling City News-Record)

The California Company made a location for a deep test on the J. T. Davis lands this week. The new drilling site is located on the N. E. 1-4 of Section 255, Block 2, H & T C Ry Co., at a point 2476 feet west and 2312 feet south of the N E corner of section 244, and is 5 miles northeast of town. The rig from Davis No. 1, 9-0 of a mile northeast of town will be used in drilling this well. Work of moving the rig to the new drilling site will begin at once, and drilling will begin as soon as the necessary machinery can be put in place.

Brice & Hoover spudded in the Texon-Marland Sorrel well No. 1, 17 miles southeast of here and about three miles west of Water Valley, a few days ago and are now drilling.

The Exploration Company's No. 1 Broome on Section 21, Block 173, S. P. Ry. Co., 9 miles southeast of here is drilling in hard lime around 2,300 feet.

Douthitt No. 2, on Section 173, Blk. 29, W. & N. W. Ry. Co., 18 miles northwest of here is underreaming around 3,100 feet. J. S. Merriweather, head of the concern drilling this well, was here Wednesday and said that owing to the indications encountered, it is desirable that the deeper.

The work of plugging Durham No. 1 was completed this week, and we are assured that two more wells will be drilled in the locality of this well. The dry holes in most all directions from the Durham wells, from three to eight miles, are valuable assets to the Durham field, for the operators now know where to drill to strike oil.

Durham No. 2 attracts only passing attention, yet it is making several barrels of high grade oil daily, and with a group of companion wells in operation the output of oil would be a paying proposition.

Senator Lenroot made the mistake of picking out the wrong State to be elected from.—Pittsburgh Chronicle Telegraph.

Commissioners Urge Cut in Cotton Acreage

Dallas, Sept. 19.—Cotton farmers of the southwest, with some aid from banks and business men, hold their economic fate largely in their own hands.

That theory was advanced in several resolutions adopted here Saturday by the Cotton States Commissioners Association, at the closing session of its annual convention, attended by the commissioners of Texas, Louisiana, Oklahoma and South Carolina.

An insistence that farmers must quit raising so much cotton or else see the market ruined, dominated the convention from the beginning. One of the resolutions passed declared that cotton prices can be stabilized and advanced through united efforts of farmers, bankers, farm organizations and business men.

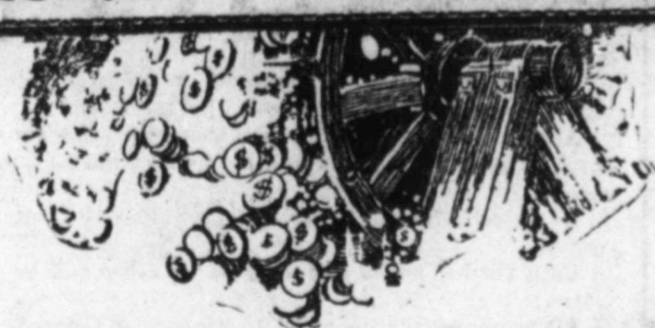

Other resolutions presented were in brief: Farmers should not produce more cotton than the world needs, but more food crops instead; the present price of cottonseed is lower than justified by the by-products, even though the latter in some instances are too low; the Government crop reporting board should be made monthly, starting September 1 of each year.

A resolution urging farmers to demand not less than 25 cents a pound for their cotton introduced by Charles H. Metcalf, San Angelo, president of the Cotton States Protective League, and W. B. Yearry, Dallas, was defeated.

P. H. Jeffers, Lamar county farmer, suggested legislation forbidding growing cotton in the South for a period of one year, thus allowing the land "to rest, and root rot and insects to be destroyed."

Another 15,000,000 bale crop would practically ruin the South for the succeeding five years in the opinion of Mike Thomas, Dallas cotton broker. He said he thought bankers would co-operate with the farmers by lending money to hold some of the present crop off the market.

MONEY turns the wheels of COMMERCE

The real harvest of the farmer, the real product of the manufacturer, the real progress of the individual, are all measured in terms of dollars.

Money and character and ability turn the wheels of industry. They are the basis of credit in all civilized countries.

Here men of character and ability deal with other men of character and ability.

We try to serve as we would be served and on this basis we invite you most cordially to do business with us.

# The Colorado Record Announces \$2,000.00 IN PRIZES TO BE GIVEN AWAY

Saturday, October 30th **FREE** Saturday, October 30th  
31 Day Contest Open To Ladies Only (Married or Single) Of The Record's Territory

### How Subscriptions Count In Votes

The following scale shows the subscription rates, and number of votes given with each subscription according to the amount paid. Note especially the tremendous voting power of long term subscriptions.

#### THE COLORADO RECORD (Inside Mitchell County)

1 year	\$1.50	2,000
2 years	\$3.00	5,000
3 years	\$4.50	15,000
4 years	\$6.00	25,000
5 years	\$7.50	50,000

#### (Outside Mitchell County)

1 year	\$2.00	2,000
2 years	\$4.00	5,000
3 years	\$6.00	15,000
4 years	\$8.00	25,000
5 years	\$10.00	50,000

Positively no subscription for longer than five years in advance will be accepted. This is for the benefit of the workers. Advantage of additional votes may be obtained by securing "second payments" on short term subscriptions taken during the early part of the campaign. On subscriptions the difference in votes will be issued. Ask the Campaign Manager about this plan.

### How Votes are Secured

Votes cannot be purchased, and they cannot be transferred. Once issued to a candidate's credit they cannot be given to another. This rule is imperative. There are just two ways to obtain votes. One is by clipping the free vote coupons, which will appear in each issue of The Record until further notice. These coupons are good for 100 votes each. The other method is through securing new and renewal pre-paid subscriptions to The Record. Votes are given in large numbers with each and every payment according to the published vote schedule on this page. Note especially the tremendous vote value of subscriptions.

### BONUS VOTE OFFER

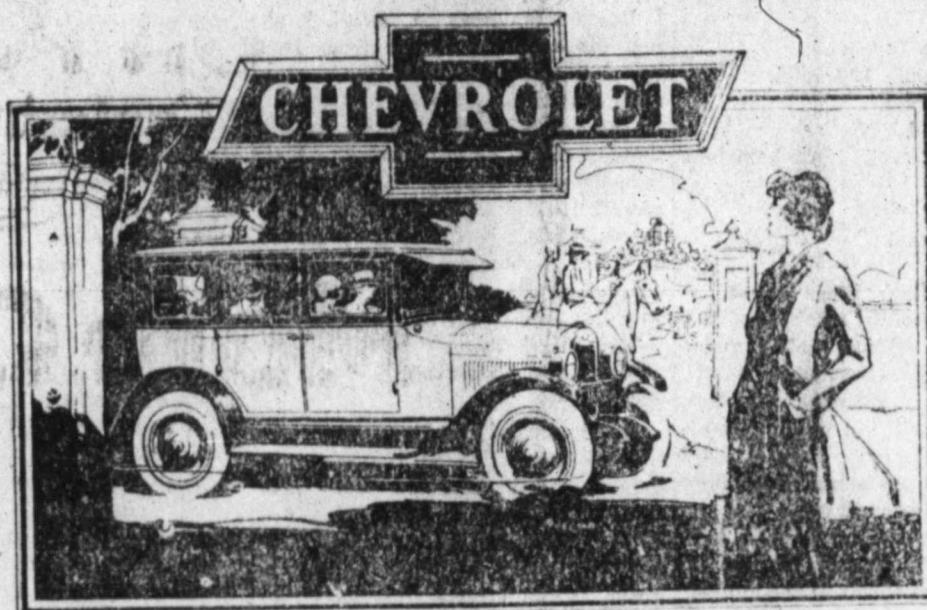

Between the dates of Monday, September 27th and Saturday, October 9, 100,000 EXTRA Bonus Votes will be given for each and every \$20 worth of subscriptions turned in. Between Saturday, October 9, and Saturday, October 16, 90,000 Extra Bonus Votes will be given for each and every \$20 worth of subscriptions turned in. Between Saturday, October 16, and Saturday, October 23, 80,000 Extra Bonus Votes will be given. The last week of the campaign votes will count ten per cent less than the last offer above.

### The Official Judges

In order that every contestant may be assured of a fair and square deal, the votes will be counted and the prizes awarded on October 30th, by a committee of five of the most prominent business and professional men of Colorado. The names of these judges will be announced soon.

Contest POSITIVELY CLOSES October 30, 9 p. m.

### FIRST GRAND PRIZE

1926 FOUR DOOR CHEVROLET SEDAN COSTING \$850.50  
Purchased from and on Display at

**Mills Chevrolet Co.**

The Colorado Record takes pleasure in announcing the Greatest and most liberal Automobile and prize campaign ever conducted in this county. An appropriation of \$2,000 has been expended in securing a magnificent prize list. A brand new, spick and span Chevrolet Sedan, fully equipped with balloon tires, and ready to drive away, together with a fortune in other prizes and cash commissions, will be showered with a lavish hand upon energetic ladies of this community without a cent of cost to them. Never before has an offer of this magnitude been made in this community—the opportunity may never come again. Over all Mitchell County, a fortune in prizes is to be given away by this newspaper in return for just a little effort. The opportunity is open to women of Colorado and the territory of which this city is the hub.

To win one of these prizes is but a matter of ambition. You have always wanted an automobile of your own—Now let the Record make you a present of one—FREE—without one cent of cost to you.

Any woman residing in Mitchell County, or outside, can share in this wonderful prize distribution by entering as a candidate in the Great Automobile and Prize Campaign. Once a candidate is entered, the merry time of vote gathering begins. It's great fun to gather votes, and votes alone will decide the winner on October 30.

It is not necessary to be a subscriber to The Record to compete for the handsome prizes. NOR DOES IT COST ONE CENT, EITHER NOW OR LATER. The prizes are FREE, and they will be given to those securing the greatest number of votes between now and October 30.

This is a short campaign—no long drawn out affair. Just a breezy, snappy race to the finish, with rich rewards awaiting the ambitious at the end. The campaign officially opens at once and positively ends October 30. NOW, TODAY make up your mind to win one of the splendid prizes. There are no conditions or obligations attached to entering. All you have to do is to fill out the Entry Blank and send it in. Full details will be given you at once.

This little blank may bring you wealth, happiness, luxury. Send it in TODAY. Jump in—get an early start. One of these prizes is for you. YOUR AMBITION WILL DETERMINE.

Read every word of this big announcement carefully. Scan the tremendous list—see how the prizes will be awarded, then send in your name, or that of a friend TODAY.

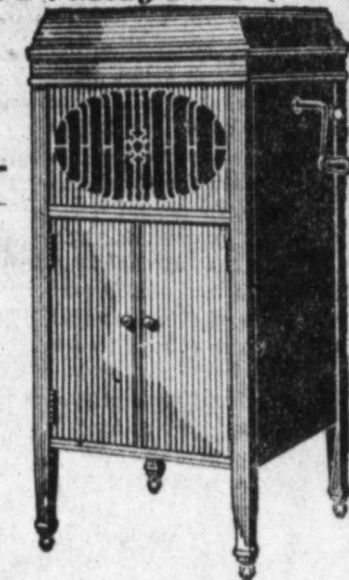

### 20 PER CENT CASH COMMISSION

Every contestant who remains active in the campaign to the finish, turning in one or more subscriptions together with the cash each week from the time she starts to work, and who fails to win one of the regular prizes, will receive 20 per cent in cash for the gross amount of her subscription sales.

SEND IN YOUR ENTRY TODAY

### 2nd Grand Prize

\$200.00 DIAMOND RING  
Purchased from and on display at  
J. P. MAJORS

### THIRD GRAND PRIZE

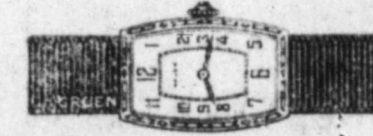

\$115.00 COLUMBIA  
VIVA TONAL

Purchased from and on  
Display at

**COLORADO  
MUSIC CO.**

### FOURTH, FIFTH AND SIXTH PRIZES

\$30.00 IN GOLD  
\$20.00 IN GOLD

\$50.00 WRIST WATCH  
GRJEN WATCHES

20 per cent Cash com-  
mission to all non-  
prize winners.

### RULES AND REGULATIONS—HOW TO ENTER

Fill out the Entry Blank below with your own name or the name of the person to be entered and bring it to the Campaign Manager. Bring or mail this blank to the Campaign Manager and you will be credited with 2,000 votes as a starter.

Any woman, either married or single, may become a candidate in this campaign and is entitled to one nomination credit of 2,000 votes.

There are no obligations attached to entering this campaign and it costs absolutely nothing.

No candidates will be permitted to transfer votes to another after receiving credit for them.

Any questions or controversies that may arise are to be settled by the Campaign Manager and his decision will be final and conclusive.

No subscription for a period longer than five years will be accepted.

Until further notice free coupons published will be good for 100 votes.

All prizes will be delivered to winners at Colorado, October 30, 1926.

In case of a tie for any of the prizes the candidates tying will receive prizes identical with one tied for.

No employee of The Record will be allowed to enter or to supply coupons to any candidate.

### WHAT TO DO FIRST

Fill out the entry blank and bring or mail it to the Campaign Manager, The Colorado Record office. Then you will be given a "Contestant's Receipt Book" and full instructions. (2) Start saving the free vote coupons. (3) Tell all your friends that you are out to WIN ONE OF THE RECORD'S PRIZES. Ask your friends to subscribe through you. Each subscription counts votes. (4) Turn in your first subscription as soon as possible, using first subscription below, and receive a start of more than 12,000 votes.

THE BLANKS BELOW ARE ALL YOU NEED TO START—TEAR THEM OUT RIGHT NOW.

USE  
THIS  
BLANK  
TO  
ENTER

**TEXAS WEEKLY INDUSTRIAL REVIEW**

Canyon.—\$325,000 building proposed for State Teachers' College.

Fort Worth.—Eighteen-story hotel and theater building under construction at West Seventh and Taylor Streets, will cost \$2,000,000.

El Paso.—Street in front of Orndorff Hotel, to be widened.

Clarkeville.—Fifty additional blocks paving to be laid.

Bonham.—Contract let, for building new bridges across Red River here.

Denton.—Forty thousand dollar contract awarded, for enlarging and improving heating plant at College of Industrial Arts, State College for Women.

Anahuac.—Preliminary survey work started by Government, on Trinity River irrigation project.

Big Spring.—Electric power installed at Gular Gin.

Dilley.—Citrus industry growing rapidly in Southwest Texas.

Big Spring.—J. M. Radford Wholesale Grocery Company erecting \$31,000 warehouse.

Huntsville.—New \$20,000 building

planned, for State Teachers' College.

Big Spring.—Several business concerns offered prizes for agricultural products, during contest held here recently.

Big Spring.—Marland Oil Co. has large force of men erecting bunkhouses in Chalk field, preparatory to starting intensive drilling campaign.

Jasan.—California Company and Magnolia Petroleum Company making additional oil tests.

Coahoma.—Two 5,000-barrel oil tanks being erected here.

White Deer.—Forty-five room hotel under construction.

Big Lake.—Main Street being paved.

Clyde.—Callahan County Sheep and Goat Raisers' Association organized. Will build warehouses here and make this city market center for their products.

Commerce.—Two hundred thousand dollar building may be constructed, at State Teachers' College.

Plainview.—Bonner-Price Co. installs 12,000-egg incubator at their hatchery.

Slaton.—Southwestern Bell Telephone Company will spend \$77,000 in new building, outside equipment

and installation of new battery system here, shortly.

Electra.—New fish hatchery to be established in Griffin Park, near here.

Clint.—Farmers Co-operative Gin Company organized, capitalization \$50,000.

Canadian.—Three hundred seventy-five pupils enrolled in Canadian public schools.

Canadian.—P. G. Liebmann of El Paso, Okla., has purchased local ice plant from J. C. Studer, and will increase its capacity.

Hubbard.—Highway to Waco being paved.

Taft.—Thirty thousand dollar addition being built to Mexican school.

Alpine.—One hundred fifty thousand dollar new building planned for State Teachers' College.

Beaumont.—Dredging completed, giving Port Beaumont 30-foot channel.

Ablene.—Tenth Annual Text Texas Fair held here, Sept. 20-25.

Haskell.—New wagon scales installed, at Sanders & Crawford gin.

Slaton.—Several streets being paved.

New Braunfels.—Texas Power Corporation to build three hydroelectric power dams on Guadalupe River, between New Braunfels and Seguin.

Presidio.—Bridge being built, spanning Rio Grande River here, at cost of \$35,000.

Port Arthur.—Bids asked, for repairing Pleasure Pier fender pilings.

Houston-Gulf Production's No. 3 Roche well, at Spindletop, now yielding up to 9,000 barrels oily daily.

Port Arthur.—Kansas City Southern Railway crossing at Seventh Street, being paved.

Port Arthur.—Stilwell Boulevard, between Thirteenth and Sixteenth Streets, being shelled.

Electra.—Over 500 in attendance at recent farmers meeting, held under auspices of Electra Chamber of Commerce.

Big Spring.—New Morse press installed at Big Spring Compress.

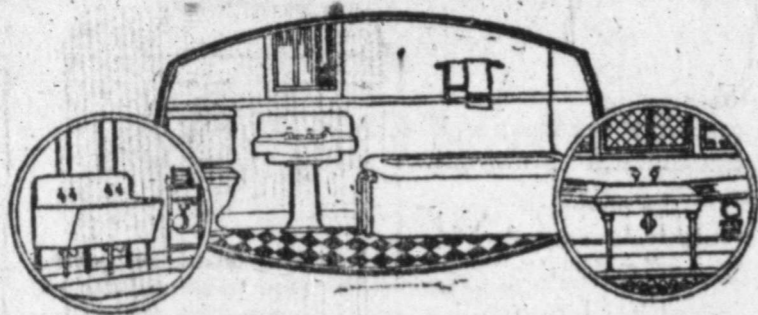

Magnolia.—Contract for \$150,000 street improvements awarded.

San Angelo.—San Angelo National Bank planning erection of eight-story bank and office building, to cost between \$250,000 and \$300,000.

San Angelo.—Central school to be rebuilt, and used as junior high school.

Big Spring.—Texas and Pacific Railroad installing separate power line, to operate turntable.

The Prairie Pipe Line Company will build a 207-mile welded eight-inch pipe line from the Texas Panhandle to Ringling pump station, in Oklahoma. The Pittsburgh-Sinclair Pipe Line Company will buy 6,300 tons of six-inch and eight-inch pipe for use in Kansas. In general, the pipe mills are running at from 90 to 100 per cent of ability, largely on oil pipe contracts.

**Good Plumbing for Added Comfort!**

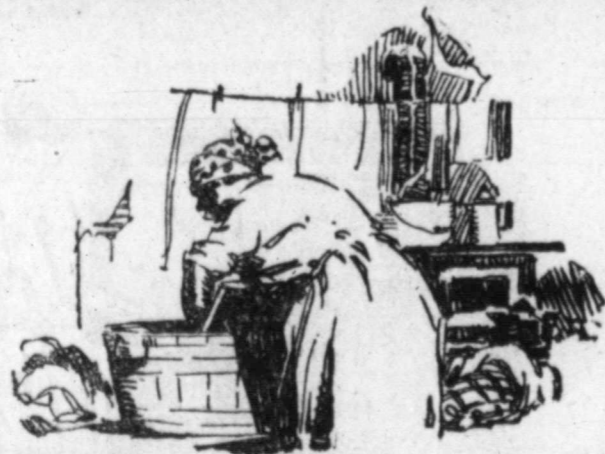

Your home will possess added comfort and the charm of an improved interior, if you allow C. P. Burgoon to install a complete bathroom outfit or a modern wash basin or new equipment in your kitchen.

**DODGE PRODUCTION REACHES ALL TIME TOTAL 1,750,000.**

Dodge Brothers Motor Car No. 1,750,000 rolled from the assembly lines Monday, Aug. 23, at 3 o'clock p. m., just 11 years, 9 months and 9 days after the first Dodge Brothers car was completed. During this period the plant at Detroit has expanded from a scant 30 acres of floor space to over 130 acres to which additions are constantly being made to care for increased demand.

Car No. 1,750,000, an all steel Special Sedan, is the crowning achievement of nearly 12 years devoted to the constant improvement and refinement of a sound basic design. The dates when Dodge Brothers output passed important production figures show clearly the continuously accelerated demand for the product. The first car was completed Nov. 14, 1914. Two years, lacking 19 days, were required to build the first 100,000.

Car No. 500,000 was completed June 30, 1920; Car No. 750,000, July 21, 1922, and Car No. 1,000,000 on Dec. 12, 1923. One million cars had been produced at the end of nine years and one month.

The last 250,000 cars were built in seven months and nine days, the first 250,000 in 41 months and 12 days.

Car No. 1,500,000 left the line on Jan. 14 this year and was shipped to the Albertson Motor Company of Los Angeles to take its place in the famous "Scout Fleet" consisting of cars Nos. 300,000, 600,000, 900,000 and 1,200,000. These cars are in constant service on the highways of California laying out and rechecking tourist routes and investigating road

conditions for newspapers and automobile clubs. The Albertson Motor Company has a standing order for each 300,000th Dodge Brothers car.

Many other dealers have filed advance orders for cars which mark the completion of large round numbers in production.

Car No. 1,750,000 was shipped to Frank Van Syckle, Dodge Brothers dealer at Perth Amboy, New Jersey.

A record of having built 1,750,000 motor cars in 11 years, 9 months and 9 days invites attention to Dodge Brothers production and sales policies. Undoubtedly the most important of the policies to which their success should be attributed is the one which always comes to mind at the mention of their name. "Constantly improved, but no yearly model."

# LORAINNE NEWS

Local and Personal News About Loraine and Vicinity

MRS. ZORA DEAN

Mrs. Dean is also authorized to receive and receipt for all subscriptions for The Colorado Record and to transmit all other business for the Waybrey Printing Company in Loraine and vicinity. See her and take your Country paper.

Loraine people were made sad Tuesday when it was learned Mr. L. D. Teaft had received a message that his son, Graden, had been killed in Old Mexico. Mr. Teaft stated the message from the boy's employer gave no particulars as to when he was killed nor how, only stating he had been killed, to meet him in San Antonio where he would accompany the body. Graden, a young man of about 20, formerly lived here where he attended school two terms. Graduating at Gorman last year, he left for Old Mexico where he was employed with an oil company. He was well liked here and was the star football player in the Gorman school. His parents, brothers and sisters reside near here and have the sympathy of Loraine friends in this, their trial of sorrow.

At this writing funeral arrangements have not been made. Mr. Teaft left for San Antonio Tuesday night.

Mrs. Hoke Smith and children, Mrs. Jeff Davis, W. B. Davis and H. T. Davis, attended the funeral of Mr. H. T. Davis' mother at Sterling City Monday, who died Sunday at the home of a son near Gall.

Mr. T. J. Coffee left Sunday for Lubbock to be with his father who was not expected to live.

Mr. and Mrs. Polie Saunders left Sunday for Frankston in response to a message they received stating Mrs. J. D. Parker had been instantly killed in an auto wreck, and Mr. Parker, the husband, wasn't expected to live. Mrs. Parker was a sister of Mrs. Saunders.

Maxine Small, daughter of Mr. and Mrs. Hall Hooker, who has been quite ill for the past two weeks, is reported much better at this writing.

Grandmother Wheeler, who has been visiting in East Texas for the past month, arrived home Tuesday.

Mr. and Mrs. L. L. Bodine of Buford, visited here Sunday.

Dr. and Mrs. W. L. Hester, C. H. Manly and wife, visited at Lubbock and Idalon Saturday. Mrs. Earp, the

doctor and grandmother accompanied them Sunday.

Mr. Thomas Hall and daughter, Annie Belle, visited Mr. Hall's grandmother at Nimrod Sunday.

Mrs. T. A. Martin and son, Kenneth, left Saturday morning for Dallas, where Kenneth will enter S. M. U.

Mr. Herman Charles, Misses Lola Coffee and Ethry Dean left Sunday to enter school at A. C. C. They will major in Bible, Spanish, science and economics respectively.

C. E. Compton who has been with the Texas Power and Light Company at Sweetwater for sometime, visited his parents here latter part of the week, leaving Tuesday morning for Abilene where he has employment with West Texas Utilities Company.

Henry Cook, Jr., made a business trip to Grand Falls latter part of the week.

Mr. Alton Roberson of Stanton, spent a few hours here Saturday en route to Blackwell to attend Epworth League convention there. His mother who accompanied him here remained over Sunday for a short

visit with her daughter, Mrs. John Marshall and family.

Judge C. C. Thompson and wife and Mr. and Mrs. R. N. Gary of Colorado, were guests of C. M. Thompson and family Sunday.

Rev. and Mrs. E. D. Dunlap of Abilene, visited relatives here Thursday of last week.

Mr. and Mrs. Virgil Walker visited Dr. and Mrs. H. W. McIntyre at Roscoe Thursday night.

Mr. and Mrs. W. O. Trigg and children of Snyder, were the guests of Mr. and Mrs. R. B. Cope Sunday.

Mr. Walton Summit of Houston, is the guest of his uncle, Mr. George Howell and daughter.

Miss Lula Parker and Mrs. E. J. Harkins of Roscoe, were in on business Tuesday.

Miss Eva Thomas of Lubbock, was a guest in the W. S. Thomas home Friday.

Mr. G. G. Evans and Miss Elinor Manning of Midland, were married at the Methodist parsonage here Saturday, 6:30 p. m., Rev. Hanks officiating.

Mr. Pascal Pope and Miss Anna Mae Porter of Sweetwater, were united in marriage at the parsonage here Saturday night at 10 o'clock. The bride who formerly lived here is the daughter of Mrs. J. N. Porter of Sweetwater, and number her friends in her large circle of acquaintances here, while the groom, who is employed at the William Martin barber shop, has won many friends since being here.

Mr. J. W. Westbrook and wife of Sherman, are visiting their daughter, Mrs. A. L. Roberson and family.

Mrs. W. F. Westbrook left Sunday for Post to be at the bedside of her father who was reported as dangerously low Tuesday of this week.

Mrs. Joe Bennett, who underwent an operation at Scott & White Sanitarium at Temple two weeks ago, arrived Monday morning at her home in West Loraine.

Mr. M. C. Walker and family and sister, Miss Mary Walker of Baird, L. J. Harris and daughter, Miss Tempa of Oplin, visited relatives here in the E. D. Smith home this week.

Mrs. Bob Martin is visiting her people at Trent this week. She left Sunday.

Mr. and Mrs. G. W. Foy and Mrs. S. E. Clement made a business trip to Abilene Friday.

Mr. Ohlan Dunlap of Abilene, was a Loraine visitor Sunday.

Miss Adeline McGee visited relatives at Westbrock Sunday.

Mr. and Mrs. F. R. Seger visited theoll well near Trent Sunday.

Mrs. Tom Cooks has returned from a visit with her parents at Midland.

J. W. Edmondson is attending the Abilene air.

Misses Swan and Cleo Farrar shopped at Colorado Saturday.

Mr. and Mrs. Bill Thompson are enjoying a new Ford roadster.

Mr. and Mrs. Roy Baird are moving into their new home this week in the Templeton Addition.

Mr. and Mrs. Homer Richards who recently moved to Colorado, visited here Sunday.

Elder A. R. Lawrence of Abilene, preached at the Church of Christ here Saturday-night, Sunday and Sunday night.

School Notes.

School opened Monday morning, Sept. 20, with the usual chapel exercise. The grades came up to chapel as scheduled. We were all surprised and delighted when we found that Mrs. Georgia Johnson had prepared a program for us.

The program was brief but very effective and did well in furnishing amusement for the numbers on the program. They were readings given by Billie Mae Rowland, Dell Johnson and Martin. The second grade will have charge of the program next Monday morning. After the program Mr. Blythe informed us of the new schedule made by the board of education at their last meeting. We are to begin classes at 8 a. m., consequently we will be dismissed about 2:15 in the afternoon. We will retain the morning recess period of 15 minutes and will only have 45 minutes for the noon hour, therefore, students who have been going home for lunch are urged to bring their lunch in order to avoid tardiness. This is being done for the benefit of those who wish to pick cotton after school hours. It will only extend through the cotton picking season—so it will be only a matter of a few days until the schedule will be running regularly again.

The junior class called a meeting Sept. 9, and after a class organization, the president of the class appointed a committee for the purpose of ordering a high school clock to be used in the sturdy hall. Ruby Richards, Mildred Coffee and Helen Wheeler were the selected committee. After a careful selection with the help of Mr. Martin a 30-day clock was ordered which appeared to be very serviceable. Mr. Martin has

# What 30 Years of Cooking taught Mrs. Rorer about Stoves

By MRS. SARAH TYSON RORER  
*Philadelphia Cooking Expert*

"I PREFER oil stoves to any other kind. I speak from the fullness of 30 years' experience with them. Oil is clean, economical, and dependable. It saves a world of work. No coal or wood to carry in, no ashes to carry out. And no dust.

"I have just completed a special experiment on the 1926 model Perfection Oil Stove, testing it under all possible cooking conditions. I cooked many meals in my own kitchen. Every dish was deliciously cooked.

### Immediate Cooking

"Steak began to broil and my molasses cake began to rise almost as soon as I lighted the burners. There was no waiting for the heat to 'come up.'

"The bottom of every utensil used in the experiment was as clean as a china dish. No scouring was necessary. Those long Perfection chimneys certainly are insurance against sooty kettles.

### All at the Same Time

"I cooked many things at once. For boiling beef I used a very low flame. I French-fried potatoes over a hot flame with yellow tips about 1 1/2 inches high above the blue area. I cooked white sauce over a medium flame.

"I used all grades of heat at the same time satisfactorily.

All flames remained steady and even. They did not creep or 'crawl.' This is a real blessing to the cook. She can forget her stove and keep her mind on her cooking.

### "Very Well Satisfied"

"Altogether I was very well satisfied with the Perfection Stove. And, my good opinion of oil stoves has increased, if that is possible."

### 4,500,000 In Use

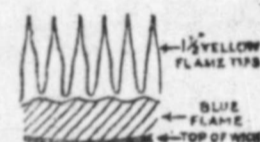

The other five famous cooks were enthusiastic about the 1926 Perfection, too. And every day 4,500,000 women get real cooking satisfaction from their Perfections. You, too, will get the most cooking satisfaction the year around when you cook on the latest model Perfection.

Send the complete line at any dealer's today. All sizes, from a one-burner model at \$7.25 to a large, five-burner range at \$130.00.

Buy the stove endorsed by Mrs. Rorer and the other five famous cooks, the 1926 Perfection.

### In the Kitchen with 6 Famous Cooks

#### BREADS AND BISCUITS AS 3 EXPERT COOKS MAKE THEM

(Ed. Note: This is one of a series of articles on cooking which 6 famous cooks are contributing to this paper.)

Bread can be much more than the uninteresting, prosaic "stuff of life." It can be made so delicious that you eat it because you want to, not because you think you ought to.

Famous cooks have unearthed many delicious bread and biscuit recipes from various parts of the country for you. Follow their recipes for pleasing variety in breads.

**Easy Bran Muffins**  
Mrs. Rorer, the Philadelphia cooking expert, recommends her bran muffins for breakfast. They are very nutritious and healthful," she says. "One might paraphrase the old saying into a bran muffin a day keeps the doctor away." It would hold just as true.  
"These muffins are easily made," she affirms. "Beat one egg, add a cup of milk, a half teaspoon salt, one tablespoonful sugar, and one tablespoonful melted butter. Sift one cupful flour with three level teaspoons baking powder, and bake in a hot oven, in a greased pan for 20 minutes."

**Nuts for Nourishment**  
Mrs. Rorer has a very appetizing and nourishing nut bread, too. Here's how to make it:  
Chop enough pecans to make a half cupful. Put two cupfuls flour in a bowl, add four level teaspoons of baking powder, half a teaspoon salt, and two tablespoonsful of sugar and sift. Mix in the nuts. Beat one egg, add one cupful of milk, mix and add the flour. Beat well, and turn at once into a greased bread pan.  
Let stand 15 minutes. Light oven 5 minutes before bread is light. Bake half an hour at medium heat. Raisins may be substituted for nuts. Nut bread makes very good sandwiches if spread with butter. Cream cheese may also be used for a simple, delicious filling.

**Southern Corn Bread**  
Corn bread, that favorite of the South, is another nutritious change from the every-day white bread. Made with this recipe of Miss Rosa Michaelis, famous New Orleans cook, it's a welcome part of any meal. Here are the ingredients:  
1/2 cup of sugar,  
4 cups cornmeal,  
1 1/2 teaspoons salt,  
3 eggs,  
2 tablespoonsful baking powder,  
1 1/2 tablespoonsful shortening,  
2 cups water (or milk, or the two mixed).  
Sift corn meal, salt, sugar, and baking powder together. Add water or milk. Add yolks of eggs and shortening which has been heated. Add stiffly beaten whites of eggs, put into a hot greased pan, and bake in hot oven. This can be served with butter or with syrup.

**Real Biscuits**  
If you have a patient right arm, you are bound to make successful butter biscuits. This is another old southern recipe of Miss Michaelis.  
1 quart flour or lard  
1/2 teaspoon salt  
1 pint milk  
1 teaspoon salt

**A. & M. Expert Warns Against Fall Army Worm**

The Record has a communication from R. E. Reppert, Entomologist of A. & M. College, in which he warns farmers against the "Grass Worm" or fall army worm. He says heavy damage to all kinds of vegetation will likely result. The communication from Reppert is as follows:

"Farmers are warned that in many sections great numbers of small fall army worms are being found. As these develop, injury to vegetation of almost all kinds may be expected to become very severe, especially to cultivated crops, including gardens, bordering grass lands. Damage may be expected to become quite noticeable by the middle of September.

"This is not the same insect as the cotton leaf worm. It is usually dark green in color with distinct stripes. At this present time, (September 9th) at College Station, they are about five-eighths inch long, but when fully developed will be an inch and a half long. The worm is variously known as the "Southern Grass Worm," "Overflow Worm," "Southern Army Worm," "Daggy's Corn Worm," "Grass Army Worm," "Alfalfa Worm," and often in Texas as the "Bud Worm." Last fall it was abundant on the green feed crops and we believe there is danger of this crop being damaged again this year. It often becomes numerous during falls of rainy weather, such as some sections have already experienced. Under proper conditions, especially if we have dry weather, various insect enemies may be expected to control it, though too much dependence must not be placed in this factor.

"Where damage calls for control measures great numbers of the worms may be killed in grass lands, by rolling or dragging brush weighted down with a harrow. The poison bran mash sown through infested crops as for grasshoppers is effective. In the case of feed crops, where the worms are feeding far above the ground, it may be necessary after sowing the mash to drive them to the ground by dragging a wire-chain or light timber over the crop. At the least agitation the worms take alarm and drop.

"Where the worms are moving on to a garden or other valuable fall crop out of grass land that they have eaten bare, a narrow ditch with steeply sloping sides should be dug in front of their line of march. The worms collecting in this ditch, unable to get out, may be killed by dragging a log along it. Or they may be collected in pot holes dug at intervals in the bottom of this furrow, and killed by crushing or otherwise.

"When practical, crops may be protected by spraying with one pound of arsenate of lead or arsenate of lime in fifty gallons of water, keeping the mixture well agitated during application. The latter poison may injure some tender plants. Slightly less Paris Green may be used in the same amount of water, but twice the amount of freshly slacked lime should be added in this case to prevent injury to foliage.

**GOVERNMENT USES CHEVROLET**

Smugglers and undesirable emigrants attempting to cross the border between the United States and Mexico will face a still more efficient barrier with the announcement that the government has purchased four Chevrolet touring cars for its immigration patrol service.

"Modern law evaders use automobiles and not horses" said D. P. Gay, Jr., border patrol chief, at Brownsville, Texas, where the United States Immigration Service purchased the four Chevrolets.

"With smugglers using cars to transport their contraband and aliens endeavoring to speed by our inspectors in fast automobiles, we decided to speed up our own organization with more cars. We must be equally as well mounted as our adversaries."

Illegal entrance to this country has naturally been sought by the smugglers at the most inaccessible points on the border, remote from well traveled roads at spots where automobiles are subjected to the most severe test in deep sand and gullies. Government inspectors found their transportation needs demanded a car of rugged construction, free from necessity of frequent repairs, and with ample cooling facilities to withstand the torrid heat.

The Chevrolets were purchased in open competitive bidding. In the official specifications it was detailed "the cars are for spouting work, will be required to run on an average of from 1200 to 1500 miles per month on both smooth and rough as well as rocky roads and through mud

and sand country of mesquite vegetation." Supervision of the border is exercised from the headquarters of the immigration service at Brownsville for hundreds of miles along the Rio Grande river.

**BIDS FOR BARSTOW GAP WILL OPEN SEPT. 29TH**

Agitation for the completion of the Bankhead Highway from the Pecos River on to Barstow, reached a climax Thursday when A. C. Love, state engineer, wired Hon. McKellar that bids for this work were now receiving full advertising, and would be opened on September 29th. So it is expected that within the next few months, active work will find the road completed early in 1927.

The four mile strip is over ground that will require considerable care, but should furnish foundation for a permanent road. The actual length will be 4,569 miles and is described as Unit One and Two.

The present construction on the Bankhead highway by the Holt Construction Company, leaves five miles to complete the surfacing. The remainder of the twelve is now practically ready for travel, and only a few more weeks work will be needed for the finished highway.

Many have wrongly blamed Ward County for this delay in finishing their section of the national road. Ward county was not to blame, having fulfilled all requirements years ago, and promised her share of the requested articles. Due to state authorities, who reached the limit of bonds they could offer Ward county was forced to wait, until this extra amount could be reached.

Following the opening of bids, and acceptance of the best, work will start in a short time for the completion of the gap. The bridge was installed last summer and the road built out from Pecos, making the highway complete to El Paso from the river. With the conclusion of this last road building the highway will be finished for the complete width of Texas.

A. C. Love, state highway engineer, has been very instrumental in pushing forward this project. His aid to Ward and Reeves County has been especially appreciated and beneficial.—Pecos Enterprise.

Chicago's curfew test shows that grandmothers, not girls, are the problem.—Buffalo Evening News.

**DEFICIENCY MEASURES ARE PASSED BY THE SENATE**

**Two Measures Calling for More Than \$2,000,000 Approved**

AUSTIN, Sept. 21.—Two deficiency appropriation measures totaling \$2,002,243 were passed by the Senate Monday and an emergency and supplemental appropriation measures totaling \$98,039 was introduced and reported favorably by the Finance Committee. Coupled with this activity was the favorable report of the same committee, over the protest of Senator Bledsoe of Lubbock, on the resolution condemning the practice of the executive branch of the state government creating debts to cover deficiencies in excess of \$200,000.

The appropriation measures and the resolution will probably hold over until Wednesday before coming up, Senator Davis of Dallas, chairman of the Finance Committee, said.

**Mostly for District Attorneys.**

The emergency and supplemental appropriation measure introduced Monday was on the submission of the Governor and calls for payment of certain accounts as requested by the Comptroller for maintenance accounts. The appropriation would include \$51,6758 and \$35,191 for District Attorneys' fees in two items, \$3,000 to pay Mexican War veterans for the current fiscal year, \$54 to pay Special Chief Justice Norman G. Kittrell of the Supreme Court for services in a Woodmen of the World case, \$1,705 for the Confederate Home, \$63 for the Girls' Training School and \$800 for the Hospital for the Scurie.

The resolution condemning deficiency accounts of the executive was opposed in committee meeting by Senator Bledsoe. Any constitutional provision that the amounts shall not exceed \$200,000 is today meaningless, Senator Bledsoe said, because the Legislature, in making the large appropriations, cuts them down so as to leave necessary large amounts to be supplied by the deficiency accounts of the Governor. The constitutional limit stated is too small to cover present-day needs, according to Senator Bledsoe. The committee voted, however, to report favorably on the resolution, there being no minority report.

**Constitution Quoted.**

The resolution, which would be a legislative interpretation of the Constitution, quotes Article 49 of Article 3 of the Constitution, stating: "No debt shall be created by or on behalf of the State, except to supply casual deficiencies of revenue, and the debt created to supply deficiencies in the revenue shall never exceed in the aggregate at any one time \$200,000."

It continues that the executive department for a number of years, "through a construction which is not in keeping with the clear intent and plain meaning of this provision," has been creating debts to supply deficiencies up to \$1,000,000 and more.

The committee made plain that the practice has been a growing one and is not a criticism of the present administration.

**FERGUSONS TO INSIST ON REVENUE BILLS TO AID SCHOOL SHORTAGE**

AUSTIN, Sept. 20.—The Ferguson administration will insist on revenue measures being passed by the special session of the Legislature as companion to any bill appropriating money to increase the per capita school apportionment, in the opinion of Representative Ruben Loftin of Henrietta, and other Ferguson leaders in the House.

Intimations of such a policy given visitors to the Governor's office by James E. Ferguson, husband of the Governor, have caused a growing belief on the part of the legislators that the Governor will disapprove any school appropriation bill if the Legislature does not at the same time provide for more revenue.

The Governor is considering the submission of a tax on cigars, cigarettes and tobacco as well as a 3c gasoline tax, according to reports from the executive office Monday. The Ferguson leaders in the House do not believe a tobacco tax will have a chance of passage, but they say the Governor is nevertheless seriously considering its submission.

"I do not believe the Governor will approve a school appropriation bill to increase the apportionment, unless the Legislature provides the necessary revenue," Mr. Loftin said Monday. "I know I wouldn't if I were Governor."

Representative F. A. Dale of Bonham, another administration spokesman, conferred with James E. Ferguson Monday, and brought back word that the Governor will submit legis-

lation for an increase in the school apportionment but that she had not decided on the policy in regard to raising the necessary revenues.

The friends of Dan Moody, Democratic nominee for Governor, do not want revenue bills presented to the special session. Sufficient revenue is available in the general fund at present to permit a \$2,000,000 appropriation, which will provide enough money to increase the per capita apportionment to \$13 for the

rest of the year, in the opinion of Moody men.

If the Legislature enters into revenue raising, a prolongation of the special session to the full 30-day limit is considered certain, with the added possibility that the Governor may call a second special session. This is exactly what the friends of Moody do not want. One reason is the fear that the investigation of the Highway Department and other governmental agencies will be interfered with. All of which makes it more likely that revenue measures will be submitted as a means of damaging the incoming Moody administration, say the Attorney General's friends.

The completion of the bond validation program is in sight. Only about 20 more special validation bills remain to be introduced, according to R. M. Hubbard of New Boston, chairman of the Texas Highway Association committee aiding the legislators in preparing the validation measures.

**WHAT'S DOING IN WEST TEXAS.**

**CANADIAN.**—The cotton industry, which was started in this section last year, is rapidly and the crop promises to be among the best in comparison with other cotton regions. The wheat crop in this section is especially good also this season, and nearly 400 cars of this grain have been shipped from Hemphill County already.

**Littlefield.**—President Arthur P. Duggan and Manager D. Wade of the West Texas Chamber of Commerce have just completed a tour of the Hill Country district of the Chamber of Commerce territory. The first speech of the tour, made by President Duggan at Eastland, opened the campaign in that section for the equalization of taxes in Texas. Duggan also spoke at the convention of the Hills Country district at Llano, and in San Antonio and other points. He and Manager Wade attended the Corpus Christi port opening which was held Sept. 14-15.

**Henrietta.**—For the second time within two months the Red River District Convention of the West Texas Chamber of Commerce has been called off on account of the heavy rains. The meeting was first called in July and, after the first failure, the date was set for Sept. 9. The band contest was held, despite the failure of the program as a whole. Decatur won in the contest.

**Littlefield.**—Large crowds attended the Littlefield Labor and Trades Day celebration held in this city on Sept. 6. A program was given which proved of much interest to the visitors. Plans are being made for a dairy and horse show which will be the feature of the next trades day program. More than \$100 will be distributed in prizes on that day.

**Stamford.**—The West Texas Chamber of Commerce is urging all towns and cities in the pecan regions of Central West Texas to take part in the campaign which is being sponsored by the organization for the realization of the value of pecan trees in Texas so that the land owners in this section will give careful attention to this industry and the profits from it and that owners of pecan orchards will plant more trees.

**Mineral Wells.**—That real business men are willing to invest heavily in Chamber of Commerce work, and as a matter of fact had rather invest larger sums for putting over big things than to invest small sums for routine work has long been realized. However, a practical illustration of this fact was given by Carr P. Collins, president of the Crazy Hotel Company, who has offered to increase the subscription of his company to the local Chamber of Commerce from \$50 a month to \$6,000 a year if the Mineral Wells Chamber of Commerce will raise a \$30,000 annual budget. Mr. Collins stated that he had rather pay \$500 monthly than to pay the \$50 subscription on the present basis.

**Claude.**—Money received at the rodeo and picnic held here several years ago which has never been designated for use was given over to the local Chamber of Commerce. Disposition to be used on an open-air excursion was held at one time for the meeting house, for the people of the county.

**MOBETTIE.**—The Mobettie News Editor, Jesse G. Thompson, is a new West Texas publication, first issue of which appeared this week.

**Paducah.**—Does advertising in the local newspaper pay? It certainly does, according to the editor of the Paducah Post. Recently a new citizen of Paducah came into the newspaper office and paid for a subscription, asserting that he bought the paper in order to find out what merchants to patronize, and stating that he had always saved quite a bit of money by following the advice of ads in the local weekly. Evidently advertising in the home town does not pay.

**Nervous hot flashes**

"SOME time ago when in a very nervous, run-down condition," says Mrs. Martha F. Marlow, of Broken Bow, Okla. "I tried numerous remedies to try at least to keep going, but I could not. I was weak and tired—just no good at all. My back ached and I had hot flashes until I was so very nervous I smothered."

"I couldn't sleep and I was never hungry, and I kept getting weaker. I couldn't stand on my feet. This was an unusual condition for me as I had been pretty strong all along. I knew that I would have to do something, and that pretty soon."

"Some friend suggested that I take Gardui, and it certainly was a good suggestion; for after taking one bottle I could tell I was stronger and better. I didn't quit. I kept it up all through the change and did fine. I felt like a different person after I began taking Gardui."

Gardui has helped thousands of suffering women.

### TEXAS' NEED OF THE HOG.

Col. C. C. French, agricultural agent of the Fort Worth Stockyards Company, rapidly is gaining for himself the fame of chief ambassador to Texas farmers of his majesty, the Hog. Colonel French for years has been preaching to farmers, especially to those of West Texas, the gospel of hog profits. During the present year, under his direction and with the co-operation of the West Texas Chamber of Commerce, the Fort Worth Stockyards Company has resumed its undertaking of several years ago to supply brood sows of the highest type and immunized against prevalent diseases on order of Texas farmers. So far in 1926 some 1,500 animals have been dispatched to farms in West Texas.

It is a splendid case for hog-raising by Texas farmers that Colonel French makes in the following resume of the situation:

"In 1925 the value of pork products imported into the State cost Texas \$85,000,000. There are now three cars of dressed pork imported into Texas from Dakota every day by one firm, each car weighing 35,000 pounds.

"Iowa has 303,000 more brood sows than all the 11 Southern States, and Iowa has less brood sows than at any time for the past 10 years; Texas has 151,000 brood sows now; five years ago, Texas had 380,000; now Texas has only one brood sow for every three farms.

"In 1919 Texas produced a 4,000,000 bale crop of cotton and promptly donated the proceeds from at least 2,500,000 bales for agricultural food which could have been grown in this State. Residents of Texas consume annually 502,000,000 pounds of pork products according to the U. S. Department of Labor and Agriculture. Figures furnished by the American Institute of Meat Packers, and various agricultural agencies place the amount of pork produced annually in Texas at not more than 275,000,000 pounds, leaving a balance of 227,000,000 pounds against the State. Figuring as carefully as possible, this amount of 227,000,000 pounds of pork products cost Texas \$71,000,000. If this is divided by the average amount received by the farmer, including seed for the 1920 crop, the result is 995,000, meaning that Texas donated that many bales of its cotton for pork products which could have been produced in this State.

"Texas is now nearer depleted of hogs than for a number of years past; when it was proven beyond doubt that the grain sorghums made equally as good pork as corn and that it could be produced much cheaper, the Plains country began to produce hogs in great numbers and were soon stocked to capacity and no provision was made for a crop failure; the dry year came and the Plains country unloaded its hogs.

"Then followed the great rainfall and great crop of grain sorghums and the cry came for brood sows; other parts of Texas could not supply them. Then the Fort Worth Stock Yards Company offered expert service in selecting choice immunized gilts from the Northern markets, at cost, and they began shipping them into the Plains country. At the same time the speculators began shipping hogs from infected districts and spread cholera; this put a commercial quarantine on all shipments to West Texas and thousands of tons of grain sorghum was forced on the market at \$8 and \$9 per ton when it was worth \$18 per ton fed to hogs.

"Practically the same condition exists today. West Texas needs hogs, and there being no law to prevent hogs from infected districts to be shipped into West Texas and hog cholera was spread again in West Texas. The Fort Worth Stock Yards Company again began in 1926 to ship immunized hogs to West Texas and so far there have been 22 loads of 70 head of immunized gilts shipped into the State. The State Sanitary Commission has made a ruling that requires hogs to be immunized, sprayed, or dipped immediately preceding shipment from one part of the State to another and the shipper must have a certificate from a recognized veterinary.

"In order to make the movement of hogs within the State just as safe as to move them from Northern States into Texas, a law must be enacted that will make the movement of sheep and cattle."

Nearly a million bales of Texas, annual cotton product goes to pay for pork products bought from other States! That is something for Texas farmers to "chew on," indeed!—Fort Worth Star-Telegram.

### SEVEN PRODUCERS IN THE OTISCHALK FIELD Magnolia and Marland Are Big Operators In This Field

In company with J. Ralph Lee and J. W. Randle the Record editor visited the Otischalk oil field last Friday and found activities going forward at a rapid gait. We found the crew at Owen-Sloan

No. 1, discovery well in the field, pulling tubing and oil was flowing out around tubing and through the tubing with such force that the crew was forced to abandon work many times. This well is to be placed on pump as soon as tubing, etc. can be set. Including this well there are seven producers in this field. Lockhart & Co. have one producer, Magnolia four producers and Marland two producers. There are about a dozen wells drilling, the majority of which are on the same section with the discovery well, which is in section 113, block 29, W. & N. W. sur-

vey, Howard County, just over the Mitchell County line. Lockhart & Co. have two wildcat wells drilling north and northeast of the proven field, one of which, their No. 1 well in section 86, block 29, recently blew in a big gasser, estimated by H. L. Lockhart at 1,000,000 to 1,500,000 cubic feet per day. Friday the crew was endeavoring to shut out water at this well so it could be drilled in. If this well is a producer, and it looks like it will be the best one in the field, the Otischalk field will be extended two miles north and be defined as a pool of considerable size.

Marland Oil Co., through their subsidiary, the Kay County Pipe Line Co., is rushing completion of an eight-inch pipe line to loading racks at Coshoma. They have a large storage tank farm near there also. The Magnolia Petroleum Company, which recently bought the discovery well and one other producer from Owen-Sloan Oil Company along with considerable acreage at a consideration announced at \$300,000 cash and \$100,000 in oil, has a pipe line laid from the field to their Foster No. 1 south of New Iatan and thence to their tank farm at New Iatan, and are taking oil from the Otischalk field now.

The Marland Oil Co. has a number of wells drilling and have recently unloaded many carloads of materials at Coshoma to go into the field. This company is also drilling several wildcat wells in the vicinity of the Chalk field and nearer Big Spring.

Marland and Magnolia are rapidly building bunk houses, tool houses, etc., and Otischalk is rapidly becoming a real oil field town. At present there is a store, restaurant, etc. and a number of residences in the field with producing wells and rotary rigs running on every side.

The Chalk No. 3, purchased from Owen-Sloan by Magnolia, and being drilled by Brown Drilling Co., is on top of the pay and is to skid the rotary off and drill in with a star machine. Production in this field is reached at about 1,000 feet. Marland Oil Co.'s Chalk No. 3 is also on top of the pay sand with cable tools and will drill in at an early date. Both these wells are in the southeast quarter of section 113, block 29, and are in the heart of the field with producers on every side.

Marland also has two other wells down considerable distance, with rotary rigs going and two star machines spudding in, with a third rotary being rigged up Friday.

The need of better roads from Colorado to this field was proved to the writer after a trip over the present roads. This county should do something to encourage this business to come to Colorado and we believe the building of a better road would be of great benefit in this respect. This is a matter, however, that the commissioners and county officials know more about than the writer and hence it is a matter that we would leave to them. We see no reason why they will not handle the matter to the best advantage with the funds at their disposal.

It is our opinion that the Otischalk field is going to make one of the best fields and one of the most profitable for operators in West Texas, as this is shallow pay and the wells are producing high gravity oil in sufficient quantities to pay handsomely.

#### T. & P. OFFERS CHEAP RATE TO DIXIE SERIES GAME DALLAS SUNDAY

The Texas & Pacific railway announces rate of \$7.10 for round trip to Dallas account of the Dixie Series baseball game there next Sunday. Tickets will be on sale here Saturday afternoon good for train leaving Colorado Saturday night at 8:40 o'clock, and arriving in Dallas Sunday morning. Limited to leave Dallas Sunday night and arriving in Colorado Monday morning. W. B. Ralph, local agent, expects a number of Coloradans to attend the Dixie series game and says the railroad will make every effort to take care of the traffic to the entire satisfaction of all the passengers.

#### Three Methods of Obtaining School Fund Provided in Bill

AUSTIN, Texas.—With a good start made on the validating of road district bonds and with an investigation ordered that meets the wishes of the incoming Governor and his friends, House members already are considering the possible date for adjournment of the special session.

The work of the Legislature should be completed in another week, as far as the House is concerned, in the opinion of Speaker Lee Satterwhite. A resolution calling for sine die adjournment the latter part of next week has been prepared by a group of members anxious to go home as soon as possible.

The House is agreed on the need of appropriating funds to provide for a per capita school apportionment of \$1 for the remainder of the year. The Governor has been petitioned by resolution and by a document signed by more than two-thirds of the House asking that the Legislature be permitted to act on raising the apportionment.

Three measures appropriating money for the school fund and raising the necessary revenue already have been prepared by Representative John F. Wallace of Teague, and will be introduced the moment the Governor submits this legislation.

One of the Wallace bills increases the gasoline tax from 1c to 3c a gallon. The increase would raise about \$2,500,000 additional for the common school fund above the amount received from the 1c tax, which provides about \$1,240,000 annually.

A second measure appropriates \$1,500,000, or as much of that amount as may be necessary to provide a \$15 apportionment. With a 3c gasoline tax, Mr. Wallace estimates that only \$2,000,000 will be needed out of the general revenue to fix the per capita apportionment at \$15.

As a companion to the gasoline tax bill, a third measure reduces the registration fee on pleasure automobiles by one-half and repeals the 17 1/2-horsepower tax on both trucks and pleasure cars. All the revenue from registration fees is left with the counties under the terms of the bill.

The amount of revenue for the Highway Department under the 3c gasoline tax and the changed registration fees will be about the same as at present, Mr. Wallace said.

## Ice Manufactured In Colorado

#### ASSOCIATION WILL MAKE DISTRIBUTION OF CERTIFIED SEED

According to W. W. Porter, manager for the Mitchell County Farm Bureau and district manager of the urday that the association would again distribute certified cottonseed to members of the bureau at actual cost as they did last year. In speaking of this, Porter said:

"The service rendered by the Texas Bureau Cotton Association, said Salsas Farm Bureau Cotton Association during the past season in distributing certified cottonseed at cost to the membership will again be fostered by the organization this year. Members availing themselves of this service have expressed their appreciation of the importance of quality cotton production and the fact that quality cotton can only come from quality seed.

"Approximately 65,000 bushels of such certified cottonseed was distributed by the association the past year, and in many cases credit arrangements were made in order to obtain the seed. The entire distribution was done without profit to the association, and made possible a substantial saving to the members purchasing such seed.

"Full details of the seed distribution announced Oct. 1, but association officials contemplate the delivery of certified seed to the members at \$2 per bushel, delivered. Arrangements have already been made for some of the seed. At this time such varieties as Kasch, Mebane, Lone Star, Acala, Rowden and Sunshine are available. Full details as to the method of order and payment will be announced at an early date through the Farm Bureau News and county field service representatives of the Cotton Association.

"Members contemplating the purchase of cottonseed should weigh carefully the importance of quality cotton production. In the purchase of certified cottonseed the members in effecting a saving to them in such purchases."

Read all the ads this week.

#### At Last, Sure Cure for Piles

You no longer have to suffer from the effects of torturous piles. PYSOL does the amazing work. It cures the oldest and most difficult cases, whether they be bleeding, blind, protruding or itching. The remedy is a very simple one and is very easily used at home. You do not have to go through the embarrassment of being treated by a specialist and the expense is very small.

Go at once to the nearest drug store and purchase a tube of PYSOL and a cake of Castile soap and begin the treatment as soon as possible, and if after you have used the entire tube according to its simple directions you find that you are not satisfied with the results obtained your money will be cheerfully refunded. What more can you ask? Sold and guaranteed by all leading druggists.

## What "dependable" really means

Ponder the basic elements underlying Dodge Brothers remarkable success and one simple fact stands boldly out:

The public not only believe in the goodness of Dodge Brothers Motor Car, they believe in the men who build it and the men who sell it.

That is why the word DEPENDABLE is associated the world over with Dodge Brothers name. It goes beyond the product and embraces every department in Dodge Brothers great organization.
