LOCAL LEGION POST TO NAME COLORADO'S MOST USEFUL CITIZEN

Vote To Be Taken After July 30 When Nominations Are All In

NEW IDEA HERE

Mayor, Pastors, Civic Clubs And Other Organizations Make Nominations

Colorado's most useful and most distinguished citizen from a standpoint of service to the community, is to be selected by Oran C. Hooker, Post, American Legion, according to announcement of J. Y. Fraser, adjutant.

Selection of Colorado's most distinguished citizen is to follow nominations to be made by the mayor, pastors of the city, civic clubs, and other organizations. These nominations are to be made on or before July 30 and members of the Legion will ballot on the names shortly afterwards.

By order of the post commander, J. Y. Fraser, the adjutant, has given out the following statement regarding the proposal of the Legion, which is a new idea here, never before attempted. The statement reads:

"The American Legion of this city believes that good citizenship should be properly rewarded. Roy E. Warren, Post Commander, John S. Williams, finance officer, and J. Y. Fraser, adjutant of Oran C. Hooker Post, have announced that by order of the executive committee of the post, a campaign will be conducted and closed by August 16th, to determine the most distinguished citizen of Colorado.

"A beautiful engraved certificate will be presented to the man or woman who is decided by the vote to be the most distinguished.

"In addition to the certificate the name of the one selected will along with other distinguished citizens, have his name inscribed on a parchment scroll and hung in the State Headquarters of the Legion in the Capitol building in Austin, Texas.

Not a Popularity Contest

"This is not a popularity contest. Various organizations have been requested to submit nominations for this honor with qualifications of their candidate whose achievements must be of a civic nature and such that have helped to make this city a better, safer, healthier and happier place in which to live during the past year.

"Matters like partisan politics and religious differences must be carefully avoided in selecting candidates."

(Continued on page 3)

NO INTERRUPTION OF SERVICE WHILE LAUNDRY MOVES

Mgr. Lee Says Steam Hook- Up With Gin Boiler Now Made

There will be no interruption of service at the Colorado Laundry while the plant is being moved into the new modern building, corner of Oak and Fourth, according to J. Ralph Lee, manager.

Mr. Lee announced today that the boiler of the laundry plant had been moved to the new building, but that a line had been connected to the boiler at the Lambeth gin, and that steady work of the usual quality was going forward at the plant, and would continue without interruption.

The new building is almost complete and the machinery is to be moved within a short time, but Mr. Lee says this will be done by individual pieces and in such an orderly manner that no halt in service will be made.

The Colorado Laundry is already equipped with the most modern machinery, and after moving into the new building where more room will be available, and some additional equipment installed, the service given will be unequalled in this section.

Drug Stores To Close At Certain Hours On Sunday

Beginning Sunday, July 21, all drug stores of Colorado will remain closed at certain specified hours of the day. The following hours are to be observed, according to an agreement made this week between the various stores:

Doors will be opened at seven o'clock in the morning and close at ten o'clock. They will be opened again at two-thirty in the afternoon and closed at 6 o'clock, remaining closed during the evening.

HOWARD COUNTY TO JOIN MITCHELL IN PAVING CELEBRATION

Opening of Iatan Flat Paving Be Attended By Several Thousand Visitors

Howard county will join Mitchell county in a big celebration at Iatan when the new concrete paved highway through the flats is opened, according to C. T. Watson, secretary of the Big Spring Chamber of Commerce, who says practically all citizens of that county will be present for the program.

J. H. Greene, secretary of the Colorado Chamber of Commerce, announces that plans for the celebration are going forward. Prominent citizens interested in good roads work throughout the country will be present, Greene says.

Plans to broadcast a program over radio telling the world that the Iatan Flats through Mitchell county are permanently paved, are being perfected.

Practically all of Mitchell county will engage in the celebration, if the present plans are carried out. Date of the celebration will be announced after date of completion of the paving is ascertained.

DEDICATION AND OPENING OF BAND SHELL AUGUST 2

City Council, Lions Club And Unions Select Program Committee

Dedication of the new band shell in Ruddick Park will probably be held August 2, according to J. H. Greene, who said that date had been tentatively selected.

The City Council, the Lions club, Carpenters Union, and the Luncheon club have been asked to appoint committees to draft program for the dedication.

Work on the structure is about complete and Seventh street is being extended to reach the park, and other plans for improvement are going forward under supervision of the band commission and the city council. The territory embracing the park was taken into the city limits last week and the council may now proceed with supervision and work on this park.

Major portion of the program is to consist of band music by the municipal band, assisted by musicians from Big Spring, Snyder and Sweetwater.

Present indications are that the band shell and other improvements will be entirely paid for by the time set for dedication. The Chamber of Commerce sponsored the movement to raise funds for this work, and the carpenters' and painters' unions contributed labor on the structure.

The structure will cost about \$1,000. J. H. Greene says no trouble is being experienced in raising the money, but several have not yet been seen. Everybody seems to be interested in the project and most every citizen is contributing something, he said. Several are volunteering to mail or hand in checks. Those who wish to have a part in this building project for use of the band and other public entertainment, should see A. L. McSpadden or leave check at the Chamber of Commerce or either of the Colorado banks.

GROUND BROKEN FOR CHURCH OF CHRIST ON ELM AND FIFTH

Members of Church Have Been Working Quietly For Some Time

Plans for this new edifice, which will be the fourth house of worship to be erected in Colorado in about the same number of years, have been underway for some time. Members of the church preferred to work quietly, and have come to the actual beginning of their new building without publicity of any kind.

The building and finance committee is composed of John Hale, J. W. Watson, and John Thompson. Bro. J. D. Harvey is the minister of the church, which has seen remarkable growth in interest and membership in the last few years.

Cost of the new structure will be about \$20,000. It will have an auditorium with a seating capacity of some 750, and will accommodate a Bible school of 500.

Members of the church will continue to worship in their present building until the new one is complete. The present site and building are for sale.

WESTBROOK SCHOOL HAS SPLENDID CORPS TEACHERS FOR YEAR

F. H. Patterson Heads Group School Opens Sept. 2

Because of the splendid group of teachers employed for the Westbrook high school the coming session promises to be one of the most successful in the history of the school, according to citizens of that community.

Prof. F. H. Patterson heads the faculty as superintendent and teacher of history and social science. Ira D. Laughderdale is principal and will teach science. Miss Cora Ott of Strawn, Miss McNeese, and Miss A. Harty are other new teachers, while Mrs. Lambeth and Miss Ethel Boles of the last year's faculty remain with the school.

Date of opening of the fall term of the school has been tentatively set as September 2, according to Prof. Patterson.

A. E. Maddin Is Improving After Ranch Accident

A. E. Maddin, who was seriously injured last week at his ranch south of town, when his horse fell with him, is improving at his home here.

Mr. Maddin was bruised about the head and face and suffered various scratches when his horse tripped and fell while going down a rocky hill on the ranch. Eleven stitches were necessary to close a wound over his right eye and his body was bruised badly, the horses having fallen on the rider.

Mr. Maddin is one of the staunch cattlemen of this section and even though he has been partly incapacitated lately, he has been in the practice of riding over the ranch.

His many friends here and elsewhere will be glad to know he is recovering from this painful accident.

GRISSOM STORE MANAGER LEAVES FOR HIS VACATION

C. S. Mudd, manager of Grissom's Department store here, left Friday for El Paso and Barstow on his vacation. He was to have been joined in Barstow by Mrs. Mudd, who accompanies him on the remainder of the trip.

MR. AND MRS. CAGLE RETURN FROM VACATION

W. W. Cagle, manager of the G. E. Stone store, and his wife and little son, returned Sunday from a vacation trip spent in Hollis, Oklahoma, and Wellington, Texas. Mr. and Mrs. Cagle had been gone since July 4.

Portion of City Audit Appears In Record This Week

A portion of the audit of the books and accounts of the City of Colorado appears in Section Two of The Record this week. This audit was made by W. G. McCulloch and Moore Lynn, accountants of Dallas.

The audit is complete with the exception of the detailed balance sheets, all of which are covered in the total. Because of the length of the report, the balance will be published next week.

SCOUT WORK AND BETTER CITIZENSHIP SUBJECT OF CLUB

Attendance Contest Ends And Losers Eat Beans Only Next Tuesday

Reports from Wm. L. Scott, scoutmaster, on the work done at Seven Wells in erection of the Boy Scout Lake, and "Citizenship" discussed by J. Y. Fraser, adjutant of the local post American Legion, were the principal topics taken up at the Tuesday meeting of the Luncheon Club.

Mr. Scott reported the Boy Scout lake formally opened last Thursday evening. The lake is full and the place is attracting many visitors. The Scout organization is in very good shape financially, but he urged business men and others to purchase season tickets. The season tickets entitle the holder and entire family to use of the swimming lake and grounds. The Colorado business men and others were cordially thanked for contributions towards the completion of the dam.

Mr. Fraser told of the plan of the American Legion to select Colorado's most useful citizen through a system of nominations and balloting by the Legion members. He explained that this was not a popularity contest, but the citizen who has contributed most to the welfare of Colorado and her citizens would be selected and a certificate identifying this man or woman as the city's most distinguished citizen would be given and the name would be inscribed on a parchment in the State offices of the Legion at the Capitol at Austin.

ATTENDANCE CONTEST ENDS

The attendance contest in progress for the past six weeks has ended and one group will eat peas with a knife next Tuesday noon. John Summers, Oscar Majors, and Floyd Quinney had charge of the losing side, while Milburn Doas, John R. Baze, and A. L. McSpadden were captains for the winning side.

The losers are to be forced to eat bean soup next meeting. Or they may be permitted to eat English peas with a knife. The winners have now threatened to limit the eats for the losing side to the above detestable foods for that day.

The contest resulted in an average attendance of better than 50 for the six weeks and the addition of 12 new members. The Luncheon club is now having an attendance of about sixty each week.

Milburn Doas presided at the meeting last Tuesday. Dr. O. G. Jones, evangelist leading the Presbyterian revival here, and M. A. Elliott of Ft. Worth, were guests of Rev. W. M. Elliott. They are brothers of Rev. Elliott's.

Dr. Jones spoke and his ready wit brought forth many laughs. Joe Y. Fraser was a guest and spoke on the new plan of the American Legion to name the most distinguished citizen of the city. H. B. Palmer, former local citizen, now of Uvalde, was a guest and spoke on the Boy Scout work and commended the club and workers for their help in building the Scout lake at Seven Wells.

Sam Wulfjen will preside at the meeting next Tuesday noon. No subject for discussion has been announced.

MOVED TO SWEETWATER

W. O. Jackson and family have moved to Sweetwater, where Mr. Jackson is connected with the A. J. Herrington Oakland-Pontiac agency. A card from Mr. Jackson requests the Record be sent to him there.

COUNTY COURT BUSY WITH PETTY THEFTS AND OTHER CHARGES

Several Boys Taken Up For Stealing; Other Trials Are Held

A campaign to clean up on petty thefts in Colorado and other matters have kept the county court busy the past week, according to W. H. Garrett, county attorney.

Several young boys accused of theft were brought up before the court during the week. Some of these were white boys and several were negroes. One was convicted of stealing a kodak from Sam Majors, and another of stealing \$70 from dresser in the home of a Mrs. Hardy. Other petty thefts were reported and tried.

Examining trial of Henry Foy of Loraine, charged with the possession of liquor for sale, was held and his bond placed at \$500. D. D. Moffett and George Williams, negroes, were found guilty of gaming and fined. S. L. Black, who lives south of Loraine, was fined when found guilty on a charge of cold-checking, and two Mexicans were fined on a charge of fighting south of the railroad tracks. A Mexican woman was jailed on a charge of practicing medicine without a license.

Dean Headstream And Miss Allen Married Monday

Announcements have been received in Colorado of the marriage last Monday at Lancaster of Dean R. Headstream of Colorado and Miss Ethel Allen, teacher in Colorado schools and resident of Lancaster.

Mrs. Headstream has taught for the past three years in Colorado schools, two years in grammar school and one year in primary school. She is to teach here again the coming year.

Mr. Headstream has been in Colorado for about three or four years. He holds the position of wire chief with the Southwestern Bell Telephone Co. here.

Mr. and Mrs. Headstream will be at home in Colorado after August 1.

Bro. Harvey To Open Meeting In Spur Next Sunday

Closing a very successful revival at Vincent Thursday, Bro. J. D. Harvey, pastor of the Church of Christ, will enter into another series of meetings in Spur Sunday morning. The Spur revival will continue for about ten days.

Paul Southers of Abilene will fill Bro. Harvey's pulpit here on Sunday morning and evening.

GAME WARDEN SAYS SEINING IS LAWFUL

Seining can be done lawfully in the Colorado river or any Mitchell county stream with any length seine that has not less than a four-inch mesh.

This statement was made by W. T. St. Johns of Abilene, district game warden, who was in Colorado Wednesday.

BIG FORD TRI-MOTORED PLANE TO LAND HERE SATURDAY AFTERNOON

L. B. Elliott, chairman of aviation of the Colorado Chamber of Commerce, announces that E. F. Billings of the Southwest Fast Air Express, will be at the Colorado airport Saturday afternoon about 4:30 or 5:00 o'clock with a 14-passenger tri-motored Ford all-steel plane.

He comes to the Colorado airport primarily to inspect the field with a view of reporting on it, and to ascertain if it is suitable for regular stops of big planes.

Upon request of local citizens, he has agreed to carry up passengers in the big ship if those who wish to go up will be at the port.

This will be the first big plane to land on the Colorado flying field.

Grading Work Underway On Sterling Road

Grading work is nearly finished on the Sterling City road south of town on the portion beginning with the Iainview church and extending for several miles, according to A. A. Dorn, county commissioner.

This road was graded last year down near the county line, and when this portion of the grading has settled, this much-traveled thoroughfare will be greatly improved.

BAPTIST HAVE THREE MISSION MEETINGS IN PROGRESS IN COUNTY

Pastors Volunteer To Help Associational Missionary In Revival Services

Three mission meetings under auspices of the Baptist, are in progress in Mitchell county this week, according to Rev. W. D. Green, missionary for the Mitchell-Scurry Baptist Association.

At Landers, Rev. A. D. Leach is conducting a revival. Rev. Alta Harding, pastor at Bethel, is conducting a meeting at Silver school house and Rev. J. E. McDermott, Westbrook pastor, is conducting a meeting at County Line, north of Cuthbert.

The pastors volunteered to hold these revival meetings for the association in order to release Rev. Green's services for work with the churches of the association. Rev. Green is beginning a revival with the Plainview church Friday night, and Sunday night closed a meeting with the Champion church, which was very successful.

All of the mission meetings in progress under leadership of pastors are doing fine and having good interest and attendance.

Rawlins Clark Made Member Of Lions Club Here

Transfer of membership of Rawlins Clark, with the Hotel Pharmacy, from Iowa Park Lions club to the Colorado Lions club was made at the luncheon Friday. At the same time Earl Bibby, manager of the J. B. Byars store, was introduced for the first time as a new member.

Chas. Haller was reprimanded for failure to attend the club since his marriage last fall. Col. C. M. Adams was the complaining witness against the lumberman, and he made it plenty strong. Haller was convicted before the Colonel got half through his speech. A box of cigars, a box of candy and ice cream for the Colonel were officially assessed against the culprit.

Miss Beatrice Logan gave two piano selections which were highly appreciated.

Harry Kay of Washington, brother of Miss Hazel Kay and son of our former townsman, J. W. Kay, was a guest.

FORMER PHYSICIAN HERE NOW CONSIDERED NATIONAL AUTHORITY

Dr. Homan, who, as a young physician began practice in Colorado several years ago with Dr. N. J. Phenix, now owns the largest privately owned sanatorium in El Paso, according to James Logan, who made the acquaintance of Dr. Homan during his recent visit to El Paso.

Logan stated that Dr. Homan requested that his regards be given all his old friends in Colorado.

Dr. Homan is a nationally recognized authority on the treatment of tuberculosis.

SISTERS TO VACATION IN RUIDOSA CABIN

Mrs. Leslie Crowder of Colorado and Mrs. Don H. Biggers of Austin left Tuesday for Ruidosa, New Mexico, where they will spend about two weeks in the mountain cabin which their sister, Mrs. J. Lee Jones, has just built and moved into.

NEW 'M' SYSTEM STORE OPENING IS PLANNED SATURDAY

F. E. Sullivan Establishing New Store By Combining Market And M Store

LOCATED ON WALNUT

Free Goods Offered On Opening Day; Public Invited To See Place

The New M System store, being installed in the Miller building on Walnut street, by F. E. Sullivan of Camden, Arkansas, will formally open on Saturday morning.

The new store is the outgrowth of a consolidation and expansion of the Elliott M System store, formerly on Elm street, and the Miller Market and Grocery. The Miller building has been enlarged and remodeled, the fixtures re-arranged and added to the stock of both stores combined and enlarged.

The new store will be one of the largest in Colorado, Mr. Sullivan said, and one of the most complete M System stores in Texas. Mr. Sullivan is an experienced grocery merchant, having been in this business at Camden.

Sugar and Bread Free

Packages of 5 pounds of cane sugar and a loaf of Best Yet Bread are to be given free to customers Saturday and to the first 25 making purchases of \$3.00 or more an assortment of groceries valued at \$1.00 are to be given free. Customers making a purchase of \$3.00 or more will receive a 5-pound package of pure cane sugar free, Mr. Sullivan said, and the first 500 customers who purchase 50 cents or more will receive a loaf of Best Yet bread free.

Those entering the store and making purchases first may secure all three of the free gifts, he said, and after the first 25, every customer will receive the bread and sugar free if \$3.00 purchases are made, up to the limited number of 500.

Preparations are being made to care for great crowds, Mr. Sullivan said. The store is large, roomy and cool and shopping in the new store on opening day will be a real pleasure and an opportunity to save lots of money, he said.

In order that our people may know just what the plans of this system are and about its wonderful growth, we print the following account of its magnitude. The store being opened in Malvern Saturday is Store No. 751 of the "M" System.

The "M" System Stores originated in Clovis, New Mexico, six years ago. (CONTINUED ON PAGE 7)

TENT CITY WILL GREET VISITORS TO MITCHELL FAIR

All Exhibits And Programs Be Housed In Large Open Air Tents

A city of tents will greet visitors to the Mitchell County Fair to be held October 10, 11, and 12, if the present plans are carried out.

Large open air tents have been secured and the exhibits will all be placed under these tents, according to announcement of J. H. Greene, general secretary. Location for erection of the tents will be selected later.

Chairmen are making appointments of committee members and preliminary work on arrangements is being done. Chairmen who have not appointed committee members to assist them, are requested to do so and file the names with the secretary at the earliest possible date.

U. D. Wulfjen is general chairman, and J. H. Greene general secretary. Other chairmen are: J. Ralph Lee, finance; L. B. Collier, grounds; D. H. Snyder, livestock; J. A. Sadler, booths; J. Lee Jones and Roy Warren, entertainment; W. S. Foster, farm; Miss Abbie Sevier, home and art; Miss Jewell Collier, publicity; J. W. Randle, advertising.

**THIRD SESSION OF
LEGISLATURE ENDS
SATURDAY AFTERNOON**

**The Appropriation Bills Are
Finally Accepted; Land
Law Passed**

AUSTIN, July 16.—The third called session of the forty-first legislature voted today to adjourn sine die at noon next Saturday. It accepted conference reports and finally passed the last of the general appropriation bills, and enacted a law withdrawing from the market all unsurveyed public school lands and river beds and channels.

Sanity Trials

The house passed the Coltrin bill making it more difficult for condemned prisoners to obtain a trial on insanity in an effort to escape execution. It would require an affidavit from a sheriff, county physician or warden of a State prison to obtain a stay of execution and trial on the insanity issue.

The house adjourned until 2 p. m. tomorrow, the speaker's desk having been cleared. The senate will meet at 9 a. m.

Most members were leaving for their homes tonight, only enough remaining over to keep the legislature technically in session until Saturday in order to comply with the constitutional provision that bills to become law must not be introduced later than three days before final adjournment.

Appropriation bills aggregated \$47,792,935, more than \$3,000,000 under the combined total of those vetoed by Governor Moody at the termination of the second called session on July 2. The total of the discarded bills was \$51,161,614.

Indicates Approval

Although he had not seen the new bills, Governor Moody indicated the unofficial totals would prove acceptable, although he intimated that he would probably veto sufficient items from them to bring the aggregate appropriations for all purposes by this legislature to \$50,000,000.

The land bill by Senator C. C. Small of Wellington was amended in the house, but the senate promptly concurred in the changes. Under Senator Small's original bill, all public lands, surveyed and unsurveyed, as well as vacancies and river beds and channels would have been taken from the market. The amended bill withdrawn from sale the surface and mineral rights to only unsurveyed lands and beds and channels of rivers.

Representative Cecil Storey of Vernon and others, who advocated the amended bill, claimed that the original Small version would have affected the relinquishment act. The amended bill finally passed 104 to 3.

"Well, the extra session was worth the money after all," Gov. Moody commented when told the aggregate total of the money bills had been reduced more than \$3,000,000.

**5,000 Expected
At Farmers Short
Course at A. & M.**

More than 5000 people are expected to attend the twentieth annual Farmers Short Course to be held at A. & M. College July 29th to August 2nd.

A full and varied program has been arranged for the five days. Experts from all over the nation will discuss new developments in agriculture. Special sections have been arranged for poultrymen, dairymen, cattle, sheep and hog raisers, home makers and club members.

In addition to the programs of instruction for club members there will be free picture shows, games, swimming and other forms of entertainment for the boys and girls. There will also be a number of contests, including dress contest, butter making, terracing and stock judging.

Special rates have been allowed by all railroads and the total cost for the week at A. & M., including room and meals amounts to only \$6.50.

All people from Mitchell county who are planning to attend the Short Course should register with the county or home demonstration agents before July 23rd.

**GUNS GIVEN AWAY
BY POND & MERRITT**

The tailoring firm of Pond & Merritt have a new slogan, "Shoot Your Cleaning and Pressing to Pond & Merritt," and in order to help customers along with this slogan, the firm is giving away free with \$1.25 worth of cleaning and pressing a 5-shot Fun Gun.

This gun is loaded with rubber-cut from auto tire tubes and hooked over the end of the barrel and onto a revolving cog. When the trigger is released the rubbers shoot rapidly. Lots of fun is being had with these so-called pistols.

46 POSITIONS
Yes, 46 calls last month to our Affiliated Employment Department for Draughton-trained graduates, many unfilled—proving that a good position is sure for you when you qualify here. Write for this Employment Report and "Proof of Positions" today, if interested in business training. Draughton's College, Abilene, Texas. 7-19-29p

BRICK BUILDING investment. Some of the best brick business property in Colorado. Can't beat this for an investment. See W. E. Reid at The Record office. 1f

NOTICE!
Bids will be received by the County School Superintendent, Colorado, Texas, until July 29, 1929, for the erection of a 4-room school building to be erected in the Conaway Common School District No. 23, Mitchell County, Texas. Plans may be secured from County Superintendent. Rights to reject or refuse any or all bids is specifically reserved.
RUBY MCGILL,
County School Supt.
7-19p

If you are bothered with the heat, just read Walter Whipkey's letter in this issue of The Record. Just think, it's only a day's drive to where you have to have a fire night and morning to keep comfortable—and the little breezes play sweet music thru the pine forests for your entertainment. It's awful to be poor and have to work.

Rev. and Mrs. J. M. Cochran visited in Anson last Sunday, where the pastor was called to fill the pulpit in the absence of Rev. Gordon, pastor of the Methodist church there.

J. R. Hill and wife of Dallas are the guests of Mr. and Mrs. Thomas Riden this week.

L. L. Trott and wife moved back from Lubbock last Saturday, where Mr. Trott had been in school this summer. We regret that Mrs. Trott's health is no better. They left Monday for the hospital at Cisco.

Mrs. W. H. Glaze of Crawford and her daughter, Mrs. Cecil Warren of Speegleville, are visiting relatives in the B. Wilkerson home.

Grandmother Stayton, who is making her home with the W. T. Hamms, is visiting in the R. A. Looney home at Shepherd this week.

A. B. Thompson, wife and infant daughter of Anson, J. Smith Cochran and wife of Coahoma, returned to their home Wednesday, following a few days' visit in Rev. Cochran's home here.

W. M. Mahoney's home and contents were consumed by fire of unknown origin about 3 o'clock Sunday morning, which was supposed to have originated from a worn condition of the electrical wiring. Mr. Mahoney was in Big Spring at the time, while Mrs. Mahoney and the children were visiting in Snyder.

Funeral services were held at Champion on Tuesday for Grandpa Bankhead, who died Monday following an illness of several weeks. Burial was made in Lorain cemetery Tuesday afternoon.

The meeting of the Church of Christ which has been going on since July 5th, closed Monday, July 15. The evangelist, J. S. Nelson of Dallas, was unexpectedly called to Hooker, Oklahoma, to conduct the funeral of a very close friend. Much interest was manifested during the services and three were baptized and one restored to fellowship. People attended from Colorado, Roscoe, Snyder and the entire surrounding country. Bro. Nelson will be in a meeting at Rule, Texas, next Sunday.

Lillian and Bessie Hendrick visited in the Rev. H. W. Hanks home at Sweetwater last week.

John Johnson and family, Mrs. L. E. Crutcher and son, Leon, visited at Roby last Sunday.

Mrs. Ella Roberts of Waco is visiting her sister, Mrs. W. F. McCollum and family.

Misses Edna and Ruby Richards, who have been visiting here from Lometa, left with a party of friends on Monday to visit Carlsbad Cavern.

Miss Edith Wilkerson returned to her school work at Simmons University Monday.

Rev. A. C. Hardin of Abilene, Baptist minister and pastor of the Bethel church, is conducting a meeting at Silver which began Sunday night.

The Dorcas class at Bethel will meet with Mrs. Dee McCollum at 2:30 Wednesday afternoon. Bethel club will meet with Mrs. Jim Lee at 4:30 p. m., Thursday.

A crowd from Bethel met at Rock Hole in the Landers pasture Monday night and enjoyed a roast and picnic.

Luther Thomas left Wednesday for Itasca and Hillsboro, where he went in company with his grandmother, Mrs. W. H. Bodine, and his aunt, Mrs. Levens and children of Colorado, who will visit there.

C. E. Jameson of Canyon, former Lorain pastor, will conduct a Methodist meeting here, beginning fourth Sunday in July.

Mr. and Mrs. Lane McCollum made a business trip to Clyde the first of the week, and also visited in Cisco while gone.

J. L. Pratt, wife and son and B. D. Smith, Jr., left Monday on a sight-seeing trip to Carlsbad Cavern.

Mr. and Mrs. W. J. Coon, daughter Faye, and Miss Mayme Howell are spending a week at Christoval.

Mrs. J. C. Hall and daughters are visiting at Dalhart.

Mr. and Mrs. Paul Terrell of Sweetwater spent Sunday visiting Mr. and Mrs. Harold Martin.

Mrs. S. M. Hallmark came home from Merkel Sunday, where she spent the week-end.

Mrs. M. E. Smith and daughter, Ettie Paul of Roscoe, attended church services here Sunday and were dinner guests in the E. M. McCollum home.

The East Side Singing convention held here Sunday was well attended. J. M. Pendergrass and family were over from Roscoe last Sunday.

was witnessed by a large crowd. The score was 18 to 19 in favor of the Fats.

Marvin Edwards came home Monday night from a trip to Arizona and Old Mexico, where he had been for the past two weeks.

Mrs. Bob Anderson and son of Dallas are with her mother, Mrs. Jim White, who is seriously ill at her home here.

Miss Richard Looby of Abilene is visiting in the J. W. Fairbairn home.

O. B. Chambers and family and Miss Caroline Chambers of Abilene, Judge Looney and wife of Colorado, Mrs. Carlton of Albuquerque, New Mexico, and Mr. and Mrs. R. H. Bennett were guests in the R. E. Bennett home Sunday.

Mrs. Carlton and Miss Ora Coan were dinner guests of Mrs. R. E. Bennett on Tuesday evening.

LOCAL LEGION POST TO NAME COLORADO'S MOST USEFUL CITIZEN
Award will be based on individual service to the community.
"The boys who served you during 1917-1918 are now to judge as to

whom among our many distinguished citizens they consider has best and most unselfishly served this co-juganinity. The following rules will obtain:

1. Nominations—1 nominee each by the following: (a) Pastors of the churches; (b) Post commander American Legion; (c) President Chamber of Commerce; (d) the Mayor; (e) Lions Club; (f) Luncheon Club; (g) Any other Civic club not above mentioned.

2. Basis of Award: The award is to be given to that man or woman, whom, in the current year has rendered the highest service as a citizen to his community. This does not mean that the service be expressed in monetary gifts alone, but literally the expression of the highest type of citizenship that our community affords in one person.

3. All nominations must be in the hands of J. Y. Fraser, Post adjutant, Colorado, Texas, not later than July 30, at 6 p. m.

4. It is hoped that in future years a similar campaign might be conducted by this Post to the end that interest in good citizenship might be stimulated.

PANHANDLE WHEAT SHIPMENTS TOTAL 22,903,150 BUSHELS

AMARILLO, July 16.—Figures as compiled by the Santa Fe and the Fort Worth & Denver railroads today showed 16,699 cars or 22,503,150 bushels of wheat had been shipped from the Panhandle territory during this year's harvest.

Grain men estimated that slightly more than 50 per cent of the crop had been marketed, and placed the 1929 crop in the Panhandle at 42,000,000 bushels. Harvesting is practically over in the South Plains and at its peak in the North Plains.

ROSWELL, N. M., entertained the fourth annual motoreade of the West Texas Chamber of Commerce on July 16 when the Pecos Valley-Intermountain district convention of the organization was held. An interesting program on which Governor Dillon and other notables had prominent parts precedes a visit to the irrigated farm section, the reception and entertainment.

Mrs. M. Carter returned Thursday from Dallas, where she spent a week.

GO RIGHT AHEAD, AUSTIN

A member of the legislature (curiously enough, a resident of Austin) wants the taxpayers to kick in with \$50,000 to erect a monument to the wild mustang...

Well, the people of Texas are proud of their Capitol. They also have due respect for the mustang, although that wily horse had very little to do with history in Texas.

Really, citizens of Austin should beautify their own city. They are the ones who have to live there and look at it 365 days a year.

The same thing applies to certain lands around the Alamo in San Antonio. That city wants a park created around the Texas shrine, yet they are not willing to donate the land.

A LETTER OF INTRODUCTION

SIR—The bearer of this, who is going to America, presses me to give him a letter of recommendation, though I know nothing of him...

PAINT ROCK'S exports during one week recently included one car of sheep, and three cars of mixed stock.

ABERNATHY'S \$15,000 Struve cheese plant is still running to capacity, milk being brought in from a wide territory.

HAMLIN has been experiencing a prosperous increase in residence building. Five new homes of permanent construction are being built in the most desirable locations.

GENERAL NEWS

TAKEN FROM EXCHANGES

The Lions Club of Merkel is working for a new passenger depot and a real clean-up week for Merkel, according to the Merkel Mail.

A new two-story picture show building is to be erected at Trent, the Merkel Mail says.

The Stanton Reporter says farmers are rejoicing over the fact that plenty of rain at the right time has failed.

W. F. Rogers is installing a small brick plant at Stanton. The Reporter says a new process is to be used, but the paper does not say whether the brick are to be kiln-cured or sun-dried.

The Stanton Reporter says ravens and crows are destroying quail eggs and robbing quail nests in that vicinity to the extent that the county is contemplating paying a bounty for destruction of the crows.

The Albany News is jubilant over announcement that the turn on Highway No. 1-A at McCall Gap, west of Palo Pinto, is to be changed and Albany and Breckenridge fork of this highway is to branch off in a more agreeable manner.

Much wildcatting for oil in Shackelford county is to be done at an early date, according to the Albany News, which says the J. H. Nail ranch, the Matthews, Lambhead and other ranches are to get big play in the oil prospecting business.

The Rotan Advance reports a fine rain last Saturday and says crop conditions in that vicinity are fine.

Sweetwater's new municipal airport is to be dedicated with a big celebration August 10 and 11, according to the Nolan County News.

The Nolan County News says: "Rain in Sweetwater Saturday night (July 6) netted 1.75 inch while a heavier fall over the southern and western part of the county materialized growing crops. The rain was general over a considerable West Texas area, and had been needed in most localities although precipitation for the past month has been generous."

The Coleman Democrat-Voice says oil production in Coleman county has now reached 6,800 barrels per day. Oil activities in that county have recently increased.

J. C. Robinson of Coahoma, Henry King of Elbow, Jeff Walling and Hubert Harvorth of Moore, Howard county, will represent that county in district judging at A. & M. College short course, according to the Big Spring Herald, which says Tom Ashley.

A survey preliminary to marking streets and numbering houses in Snyder is being made, according to the Snyder News. The Business and Professional Women's Club started the movement to secure a system of house and street markers, and the city council and others are cooperating, the News says.

Thirty blocks of paving in the residence section of Snyder will probably be the outgrowth of recent paving talk, The Snyder News reports. Petitions are being circulated and it is expected the council will ask for bids soon, the paper says.

The Snyder News says: "Pumps for the new \$22,000 sewage disposal plant are here, after several weeks of delay following completion of all other features of the civic improvement. Mayor H. G. Towle was trying, late Wednesday afternoon, to get into connection with the engineer who is to install the pumps, so that they might be put in immediately. When the pumps are installed and the entire plant put into operation, Snyder will be served by one of the most complete and modern sewage disposal units in the State for a city of its size. The state sanitary department, which has approved the system, states that it will serve Snyder even

BURTON-LINGO COMPANY

LUMBER and BUILDING MATERIALS

Lowie Bros. Paints and DuPont Duco Lacquer

WESTBROOK, TEXAS

About 8:30 p. m. last Thursday Aletha Edwards, 9-year-old daughter of Mr. and Mrs. George Edwards, was knocked down by a car as she was crossing the highway near her home in the east part of town.

See the model Chicken Houses at BURTON-LINGO CO. Westbrook. Jack Garber, formerly of Westbrook, was in the Colorado hospital last week with an abscessed throat.

Mr. and Mrs. A. Petty, Mrs. Hattie Berry and children, Harold and Wilma Jean, are visiting in Oklahoma.

Complete plans and blue prints of Farm Buildings. See them at BURTON-LINGO CO. Westbrook.

Rev. W. T. Gray, field representative for the Methodist Orphanage at Waco, will occupy the Methodist pulpit Sunday morning. Everyone is invited for he will have an interesting message.

Rev. J. E. McDermott began a meeting at County Line Wednesday night, and it is reported that great interest is being manifested.

See the model Chicken Houses at BURTON-LINGO CO. Westbrook. Little Miss Lillie Jo Brown of Sweetwater and Billie Pale of Handley are visiting their aunt and uncle, Mr. and Mrs. P. G. Crum.

Saturday evening Mrs. Van Boston opened her home to a number of young people. After an interesting evening of games and contests, refreshments were served. The young ladies of the party remained for a slumber party.

See the model Chicken Houses at BURTON-LINGO CO. Westbrook. Seventeen votes were cast in the

when the city is much larger than at present.

The Levelland Herald says the county commissioners court of Hockley county have placed a United States flag atop the new court house, which will testify daily to the patriotism of the citizens of that county.

The McCamey Record reports the Humble Oil & Refining Co. starting work on a \$2,000,000 refining and cracking plant at Ivan in the Pecos county oil field. The paper also reports sale of the McCamey water and sewer system to The People's Light & Power Co., a New York corporation, for a consideration of \$430,000.

The Graham Leader is one of the best papers in West Texas. This fine paper carries lots of news and it is all well written, but we challenge Editor Kennedy on a statement in his "Cleanings from Exchanges" column last week. In mentioning the bank deposits of Colorado banks he called attention to the dividends paid by the Colorado banks on July 1, and said: "This is the first time in several years the two banks have paid dividends at the above rate." Bro. Kennedy, you should have looked again. The Record said this was the regular dividend rate which the banks had paid for a number of years. The Colorado National pays 8 per cent and the City National 10 per cent semi-annually and have done so for years.

The Lynn County News reports good rains in Lynn county and crops in fine shape. Some hail damage was done but taken as a whole, the paper says conditions are fine in Lynn, which is one of the banner cotton counties of the South Plains.

NEW FOUR-CENT TAX ON GASOLINE WENT INTO EFFECT MONDAY

License Fee Reduction Will Not Become Effective Until 1930

AUSTIN.—Texas' new four cent gasoline tax went into effect Monday when Governor Moody signed the measure increasing the tax two cents and reducing license fees on privately-owned automobiles 50 per cent.

The measure was sanctioned by the governor without comment. More than 1,250,000 automobile owners will be affected by the increased tax, records of the State Highway department disclosed.

The registration cut will not become effective until 1930. Mrs. Frank Abramson and little daughter drove her mother, Mrs. John Miller, home from Amarillo the first of the week. Mrs. Miller had been visiting her daughter there and Mrs. Abramson brought her home, returning to Amarillo Wednesday.

NOTICE TO CONTRACTORS Bids will be received by the County School Superintendent, Colorado, Texas, until July 27, 1929, at 10 o'clock a. m., for the erection of a two-room addition to the Itan school building in Itan, Common School District No. 3, Mitchell County, Texas. Plans may be secured from the County Superintendent's office. Rights to reject or refuse any or all bids is specifically reserved. RUBY McGILL, County School Supt. 7-26c

SOCIETY PAGE

MRS. J. G. MERRITT, Editor
Phone 144
would appreciate report of all social and club meetings. Reports must be phoned in not later than Wednesday afternoon each week
PHONE 144

Daughters of the King Sunday School Class Meeting
Mrs. H. L. Hutchinson very hospitably entertained the Daughters of the King Sunday school class Thursday.

The meeting was opened with prayer by Mrs. McCall. Mrs. Merritt conducted the lesson, on "Spiritual Alchemy" from the study "Spiritual Adventuring." This was a very interesting study, showing how education, home, money, every personal and general gift should be transmitted by spiritual alchemy into service for the Master.

A letter of thanks for flowers sent on the death of one of the class members, Mrs. Anthony, was read. Active interest and increased attendance at the McCall Mission was reported by Mrs. Garrett. She especially praised her small helpers, Misses Alice Hughes, Virginia Spalding and Iris Tunnell.

Mrs. Dorn reported nearly \$400.00 in the bank for class building fund. Eighty-five visits were reported to strangers, sick and those in need. Many trays of food were also reported.

A committee composed of Mrs. Dobbs, Mrs. Van King, and Mrs. Sallie Dozier was appointed to keep up with the absentees and sick members for this quarter.

It was decided to make the August meeting a picnic at Seven Wells, with the class and their families as guests.

A special prayer of thanksgiving for Mr. Urda Wulfjen's improvement and for the blessings upon the class work was led by Mrs. Garrett.

It was voted to send cards to those of the members who were sick or away. After payment of dues the hostess, her daughters and little Miss Farmer served delicious cream and cake. Mrs. Hall dismissed the meeting with prayer.

Presbyterian Prayer Services
The Presbyterian women had no auxiliary meeting Monday but met at the church at 4 o'clock with Mrs. W.

M. Elliott leader, and had special prayer services for their revival meeting. A good meeting with a good attendance was the result.
Dr. Jones made a very inspiring talk, which the women appreciated.

It was decided to hold the prayer services each evening at the home of Mrs. J. E. Riordan at 8 o'clock, a half hour before preaching time, to save the women so much walking. Every woman in town is invited to these meetings.

Sunrise Breakfast
The members of the Methodist Junior Mission society and the Junior church enjoyed an early morning breakfast out on the rocks near Priddy's Friday morning. About 30 children, some of their mothers and the teachers enjoyed this occasion, which was given before the Mission study was completed, that the Mrs. Grubbs and her children who left this week on their vacation might be present. Bacon, eggs, cocoa and coffee was prepared and served with bread, jelly and milk. Grace was said by Mary Elizabeth Pidgeon before the meal was served, and after it was eaten, Miss Nelda Garrett told the story of the day about Japanese friends, and no meeting was held that afternoon. An enjoyed visitor on this occasion was little Irene Key in whom the Juniors are interested.

Council Meeting of LoWo Camp Fire
Wednesday afternoon the LoWo Camp Fire girls met at the home of Mrs. J. L. Hart for a council meeting.

Five girls were ready to receive the title of Wood-gathers, and with the beautiful ceremony of the order, the honor was awarded to the president, Geneva Melton; the treasurer, Alice Hughes; the secretary, Ethel Mae Murphy; to Virginia Spalding and Madge Loy. These girls have denied themselves candy and other good eats, have done a prescribed amount of cooking and housekeeping. They have shown themselves worthy of trust and ready for service, and as they lighted their torches as wood-gatherers, they pledged themselves to greater and harder tasks.

At the conclusion of the ceremony the guardians, Mrs. Hart and Mrs. Melton, served refreshments of ice cream and cake.

Baptist W. M. S. Missionary Program

The Baptist W. M. S. met Monday in the church parlors with Mrs. Lambeth and Mrs. Ashford as leaders. The theme for study was "Persistent Prayer." The meeting was opened by singing "What a Friend We Have in Jesus." Mrs. Ashford conducted the devotional, her subject being "Lord, teach us to pray." Mrs. Smith led the prayer.

A responsive reading was led by Mrs. Lambeth. This was closed with the Lord's prayer and song, "Take My Life and Let It Be." Mrs. Whippley lead in prayer. Splendid papers on different angles of prayer and prayer life were given by Mrs. Ratliff, Mrs. Oxford, Mrs. Cobb, Mrs. Delaney, Mrs. Farris, Mrs. Rose, Mrs. Cooper and Mrs. Terrell. Mr. Cobb sang very effectively, "The Garden of Prayer." The audience sang, "Have Thine Own Way, Lord," and Mrs. Smith led the closing prayer.

At the social hour Mesdames Peck, Fry, Morris, Russell and Whitaker served angel cake and punch.

The various circles will meet next week.

Social Service Study
A small group of the social service committee met Monday with Mrs. Merritt and studied the packet of literature on sex education. The meeting was conducted by Mrs. Dobbs and some very helpful knowledge gained from the leaflets.

Plans were made for a mission study meeting before the superintendent, Mrs. Bandy, leaves for her new home in Austin.

At the close of the meeting frozen custard and cake were served.

The regular monthly meeting of the Missionary Society will be held next Monday at the home of Mrs. Garrett. Every member is urged to attend.

Young Mothers Wesley Bible Class
The Young Mothers Wesley Bible class met Thursday with Mrs. Mahon with a good attendance. Mrs. Bandy conducted the devotional from "The Way of Jesus," this being very interesting. As Mrs. Bandy is leaving, Mrs. Lucian Maddin was appointed to continue the study.

No business was transacted, the class waiting for cooler weather to become industrious. At the refresh-

Equines Lose Another Colorado Stronghold With The Passing Of 'Shorty,' Express Wagon Horse

"Shorty" is up for sale. That means that the automobile has stormed and taken another stronghold of the equine race in Colorado, for "Shorty" is the sorrel horse which for the past year or so has drawn the American Railway Express wagon over the streets of Colorado.

"Shorty," like his predecessors at the job of drawing the express wagon, is a bright horse, as his driver, E. C. Lee, will testify. And he was also a privileged one, as most anyone in Colorado will testify, for he stopped in the street wherever there was a package to be delivered, regardless of traffic laws which govern common motor-driven vehicles, and most any time he was likely to right-about-face and demonstrate his peculiar ability to back the express wagon into a single parking space, leaving himself out in the street—a lone horse in a world of automobiles.

A truck took Shorty's place this week, through no fault of Shorty's. He has simply been outgrown, that is all.

The departure of Shorty leaves his fellow horses in possession of only a moment hour chocolate ice cream and cake were served.

The August meeting is with Mrs. McCloud.

Called Meeting of Hesperian Club
At the conclusion of the luncheon Wednesday at the home of Mrs. Wallace, a business meeting of the club was called by Mrs. Shropshire. Mrs. Bandy resigned as president and as a member and her resignation was accepted with regrets. Mrs. R. J. Wallace was elected president and Mrs. J. T. Johnson recording secretary.

A committee was appointed to buy the new Junior Hesperian a spoon.

Mrs. Bandy gave the club a phonograph and a number of books to give to any school that needs them. She suggested the phonograph go to the Colorado colored school. The gift was accepted with thanks.

Luncheon Honoring Mrs. Bandy
Wednesday at noon Mrs. R. J. Wallace and Mrs. J. L. Pidgeon gave a beautiful luncheon honoring Mrs. W. A. Bandy, who is leaving next week for her new home in Austin.

The guests were Hesperian club members, of which organization Mrs. Bandy had been made president and Mrs. J. E. McCleary, she being assistant teacher of the Mothers' Wesley Bible class.

The house and dining table were beautifully decorated with roses and the hour from 11 to 12 o'clock was spent in happy conversation. The club members enjoyed seeing each other again.

The ladies were invited into the dining room shortly after 12, and found their places by pretty lady place cards. The honoree was seated at one end of the table, and the outgoing president, Mrs. Shropshire, at the other. A delicious three-course luncheon, composed of a fruit cocktail, the plate of club chicken, potatoes au gratin, peas in patty cases, asparagus on toast, hot buttered rolls, iced tea with moulded salad, jelly, ripe and green olives, were followed by biscuit tortoni.

It is with regret the Hesperians give up Mrs. Bandy, who has made a very splendid member and will be greatly missed by her friends. Those of the club who enjoyed the occasion were Mesdames Bandy, Johnson, Lee, J. G. Merritt, Millwee, Pidgeon, Sadler, Shropshire, Teas, Wallace, Whippley, Winn, S. O. Wulfjen, Homsley and John Prude.

T. E. L. Class Meeting
The T. E. L. class of the Baptist Sunday school met Thursday in their class room in the church. The president, Mrs. Green DeLaney, presided. The usual business was transacted and a rummage sale planned for the early fall.

When the business was concluded, a Bible contest and a fruit contest were enjoyed. Mrs. Sorrells, Mrs. C. P. Gary and the other members of Group Four were hostesses and served delicious ice cream and cake.

Honoring Mrs. Bufa Pritchett
Mrs. C. C. Thompson very delightfully entertained Wednesday morning in honor of her friend, Mrs. Bufa Pritchett, who is spending two weeks here visiting friends and relatives.

The Gary home was gay with zinnias, verbenas and fern. The tallies for the six tables were diamonds centered with pretty ladies. Refreshing punch was served during the games and at the conclusion of a pleasant morning a delectable luncheon plate with iced tea was served.

the ice wagons in Colorado. A few gravel wagons are still drawn by horses and mules, and of course "Old Dobbin" still reigns supreme on most of the farms in Mitchell county. He also holds a commanding position in team work in the oil fields of the county. Horse sense is still found superior to cold machines in some lines, it seems.

The end of Shorty's career with the express wagon recalls to many the memory of "Kid," probably the brightest and best-known horse to ever draw a wagon. "Kid" could go places—the right places, too—without just a word from the driver, Leslie Crowder. "Kid" was a large grey horse, and was sold about three years ago.

Sale of Shorty and his replacement by a machine reminds one that folks in other parts of the State are asking: "Is Old Dobbin Disappearing in Texas?"

WITH OUR SUBSCRIBERS

John Williams, the accommodating carrier on Route 1, asks us to change the following from Snyder route to Route 1: T. Y. Hammonds, Mrs. J. W. Grimes, C. H. Garner, A. F. Feaster, C. L. Feaster, and Len Bodine and W. L. Lindsey from Route 1 to Snyder route.

Ir D. Glass wants his paper and pays hard cash to get it and we are glad to send it to him. We like to get the money, but we rather have good friends and real men on our list than anything else. Ir works a T. & P. freight depot and is a real hand there. He quit railroad work for about a year and worked for the California Company, but went back to the good old Tee Pee. Thanks, Ir.

R. T. Dockrey is a new subscriber this week. He's not a new man in this section. He's one of our best citizens who has been here long enough to be acclimated, and we are proud to put him on regular for The Record. We know he will be pleased and if he is not at the end of the year all he has to do is come back and say so and see if he gets his money back.

Mrs. Dean, our Loraine reporter, sends in renewal for Luther Anders and says he does not want to miss a copy. We are going to try and see that he does not miss it, especially so long as his kale seed rolls in. Good men like him are the kind we want on the list and we wouldn't cut his head off.

J. C. Ethridge renews for his paper and makes us happy. We say there is no better man ever lived than J. C. He is a quiet kind of a fellow, but he is the salt of the earth. That goes for lots of Colorado people, but just as strong for Cliff as any of them. Cliff has worked hard in past years but he is taking it kinder easy now. Thanks.

Harry Loving, handy man with the water department and the man who has charge of the East waterworks, pays up and makes us plenty happy. We count Harry our good friend. He is a hard worker and one of the best men the city could possibly get to handle the job. He stays with his work and makes good.

J. M. Green puts down the kale seed to save his head and we thank him. He was not in danger of getting his head chopped off, because, substantial and reliable citizens like him don't get into that trouble here. If he wants the paper he gets it. He pays cash though and don't owe anybody, and that's the reason he pays up here in advance. He owns real estate here that is valuable.

H. F. Ward of the W. L. Doss drug store pays up for The Record. Ward is a regular fellow and we are glad to claim him as our friend. He wants to sell us a radio. He pays cash and we are afraid he would expect us to do the same thing. He is a good man and is working for a good drug store, reads a good paper and spends good money—some combination.

George Callan noticed an error in his label date and he got busy may pronto. He wants this paper and raises Cain if he don't get it. George is a cousin to Austin Callan and Claud Callan, newspaper men, but we don't hold that against him. We like him just the same.

Frank Herrington of Midland, a Colorado boy, who got off from home and is making good regardless, writes back and sends the money to pay up. He wants the home paper and we are glad to send it to him. We don't make any money out of foreign subscriptions but we sure like to keep

Often an unsuspected loveliness is revealed by the attention of our experienced beauty operators. Every phase of attention is obtained.

FOWDER PUFF BEAUTY SHOPPE
Mr. and Mrs. Virgil Brooks Phone 240

in touch with the home boys.
W. A. Bandy pays up for the paper, so Mrs. Bandy can read the home news while he is off surveying and engineering around for the Shell company. Bandy is an engineer that knows his stuff and the Shell people pay him a good salary to keep him. He says he had rather be in Colorado but he has to make the long green and we wish him success, which we know he will attain.

Mrs. S. T. Shropshire sends down check for her paper for which we thank her. Mrs. Shropshire is one of our most valued readers. She is doing a great work for the Cemetery association and is one of the city's finest mothers. When good women like her read this paper we feel life is worth while and our work is not all in vain.

L. R. Shumaker is a man after our own heart. He came in Tuesday, paid up his own subscriptions two years and ordered the Record and Semi-Weekly Farm News sent to his sons, Kyle and Dean, at Stanton. When our good subscribers go to plunking down the cash in quantities like this, we get the big eye. This sure makes us happy and we get optimistic. If we brag a little, pardon us. But we just got to say this is the best and biggest weekly paper in Texas, barring none, and we don't mean maybe, nor perhaps. L. R. Shumaker does not talk much, but when he says anything you can count on it. He knows money talks with us and he said a mouthful this time. Glory be, we crave more subscribers like him. We've got lots of them and we like to see them in the office. Come, gents.

Our old friend Tom Goss rushed in Tuesday and plunked down one and a half iron men to get his paper paid up a year in advance. That is the way of Tom. He pays cash and pays promptly. Whatever he wants, he buys it and pays cash, and we are glad he craves The Record. Tom Goss is one of the best road men in West Texas. He has had lots of experience as commissioner and highway foreman. He isn't doing anything now except watching the crops on his farms grow and collecting rents off his rent houses here. Tom Goss is an old-timer here, having lived in this section for 37 years. He knows the West and when he says this is a good paper you can bet on it being just that.

Mr. and Mrs. Bert Robertson and son, Joe, of White Deer, are visiting their families, the A. L. Whipkeys, Mrs. Lottie Robertson and the Landers.

CHURCHES

METHODIST CHURCH
Sunday school at 9:45 on Sunday morning. The attendance is holding up fine. We hope this will continue throughout the summer.
Morning worship at 11 a. m.
No evening service because of the Presbyterian meeting.

AMENDMENTS CARRY IN TUESDAY ELECTION BY VOTE TWO TO ONE

Few Voters Go To Polls; Mitchell Vote Goes Against Both

Although an in-road was made today in earlier returns from yesterday's election, unofficial returns tabulated by the Associated Press from more than 100 counties, cities and towns, indicated the two constitutional amendments had been accepted by the Texas electorate.

Early returns, mostly from the larger cities, showed a ratio of nearly three to one in favor of the amendments, but as rural districts, especially those of the Panhandle, reported the majority was cut to a little better than two to one.

Unofficial Count

The last compilation approved the measure to increase the salary of the governor from \$4,000 to \$10,000 by 21,145 votes to 10,134 against. The amendment to add six more justices to State supreme court was favorably reported by a vote of 21,070 to 9,757.

Should the official count confirm the unofficial figures it would mark

the end of efforts of years standing to give Texas' chief executive a salary increase. Several previous attempts at the polls were turned down. The measure, however, would not become effective until 1931, or until after the election of a new governor. The court amendment, advocated by bar associations in order that legal procedure might be speeded up, was voted upon for the first time Tuesday.

Effective in 40 Days

It would become effective in forty days, the new members of the court to be appointed by the governor. Five members of the court would constitute a quorum, and it would require the assent of at least five members to establish a decision.

The further flow of returns continued to confirm early prediction that the amendment balloting was the most apathetic election ever held in Texas.

NORTON WILL HOLD REVIVAL AT CONAWAY

A series of gospel meetings are to be conducted at Conaway beginning Saturday night and continue over the 28th, according to Ted Norton, county evangelist of the Church of Christ who is to do the preaching.

Services are to be held in a tent, and a cordial invitation is extended to all to attend and study. Services will be held only at night during the week and day services on Sunday.

UNCLE FRED FINDS GRANDEUR IN COLORADO PEAKS, BUT SAYS THE STATE LACKS WARM HOSPITALITY

"See Rome and then die."—Lycul-lus.

The "native sons" here say substitute Colorado for Rome. I have affiliated with the church, visited the Masonic lodge, attended several city functions, made headquarters at the Chamber of Commerce, and made friends at the banks, yet there is a lack of Southern hospitality; a seeming cold distant reserve. Fact is, they do not like Texans, and yet 60 percent of the tourists are Texans. They even have apprehension that some Colorado boy might marry a Texas girl—what a calamity!

We will go to Cheyenne (100 miles) to attend the five-day rodeo and frontiersmen fete, said to be the greatest event in the Northwest. Immediately after this is the gathering of the Indians in the Blackhills, S. D. Will try to make that, too. It takes time and money to see it all. We left home May 27, just 45 days ago. Have been on the jump all the time. Among the most noted and historical places we have visited and seen are Raton Pass, Kit Carson park, Pikes Peak, Manitou Springs, Garden of the Gods, Cliff Dwellers, Cave of the Winds, Seven Falls, Grave of Helen Hunt Jackson, Lookout Mountain, grave of Buffalo Bill, State Capitol at Denver, Mile-Square City Park at Denver, and the National museum, Government fish hatcheries, million dollar theatre, and on to Boulder Canyon, Flagstaff Mountain, Nederland, and the great Tunstun mines, Boulder Falls, Chautauqua grounds, State University, Royal Arch rocks, Gold Hill, Eldorado Springs, Big Thompson Canyon, Estes National park. Over Fall River pass through 20 feet of snow, over the Great Continental Divide, where the waters divide east and west, down the Colorado river with its floating islands; the Pine Cone Inn, Grand Lake, Moffat Tunnel, Berthoud Pass, Idaho Springs, and mine. After a two-days' rest at home we again left, this time on a week's trip.

Colorado is recognized as the playground of America, the most picturesque and scenic state of our country. From Denver, the capital city, many wonderful and never to be forgotten trips can be made over many miles of wonderful roads. To Golden, where the School of Mines is located, to the top of Lookout Mountain, in William F. Cody's "Buffalo Bill's" last resting place, on Wildcat Point. From this point a wonderful view of the city of Denver may be had.

The glaciers are located close to the Arapahoe Peaks, clinging to the Continental Divide at an elevation of approximately 13,000 feet, in the Colorado and Arapahoe forests, and this is where we headed for on the western slopes of the great Rockies as we descended after crossing the Great Divide, we could but exclaim: No temple made with hands can compare with these—awful in stern immovable majesty, how softly these rocks are adorned, their feet among beautiful groves and meadows, their brow in the sky—as if into this one mountain mansion nature had gathered her choicest treasures. When you think you've seen Colorado, you have just begun. Towering, eternally snow-capped mountain peaks up beyond where vegetation ceases, of narrow thousand foot gorges, wild canyons and beautiful expanses of green mountain valleys, of mountain slopes thickly hidden by virgin forests of tall pines in which all kinds of game abound and through which mountain streams, teeming with the unsurpassed "king of fish," the trout, rush madly.

The sun was rapidly sinking and we rushed on to Chessman Park for our sunset retreat. Words cannot simply describe the grandeur of that view and I was but one of scores who were there to do homage to the dying day. Nowhere in all my rambles have I seen such wonders of God's workmanship. Peak after peak are stretched from north to south as far as the eyes could reach, and I noted each peak and found its name on the dial there. And then the scattered clouds over the peak grew pink. Swifter than one would imagine, the pink became deeper on the lower parts of the clouds and the upper part darkened into a soft velvety, purple, pink became scarlet and the purple royal in shade (remember we were up even, and in some instances above, the clouds). Dark commenced and soon the whole park filled with a purple mist, while the crimson sky blazed above and through it. There was not a sound, not a word was spoken. All stood silent at a shrine emblazoned with a picture painted by the hands of the Most High, sweet perfumes arising as incense from the myriads of flowers at our feet, and when it was over and the long twilight began, I still stood thinking. Could we at our passing over the Great Divide of life—our going over yonder—leave behind such radiant memories in the hearts of mankind; should one fear the going? Would it not rather be a time of rejoicing? And there have been; wonderful souls, rays of the eternal,

helpful to all, sometimes hidden by the clouds but whose light never failed to aid all who came in contact with them. And then at their going, leaving behind them the colors of love in the hearts of those they left behind.

On and on brought us to Gore Canyon. Deep into this cliff I wandered this day; wandered on and on until I reached its greatest depth. Looking up these perpendicular cliffs I saw here and there a pine, a spruce that had braved all the adverse growing conditions and sunk its roots deeply into some crevice in what appeared to be solid rock. Looking still further up I saw the sky like a narrow blue ribbon above me, and when I looked about me—just a tiny living thing amongst these cliffs—I felt very insignificant. I wondered that any mere man can boastfully say, "I am a power in the world; I did this or I did that." And I wonder if David of old might not have had some such experience as this when he said: "What is man that thou rememberest him?"

There is a lure for adventure, an attraction, a desire for more and more about these mountains. Kipling expressed it when he said: "There is something lost behind these hills.

There is something hid behind it; Come on, come up, enjoy the thrills, And perhaps you'll find it."

I have prayed that their grandeur and beauty might be reflected in the remainder of my life that I might have a closer walk with God.

We then headed south to Long's Peak, passing through the mountains with the Twin Sisters peak (11,436 feet) to the east and Longs Peak (14,255) to the southwest. Next to Pikes Peak this peak is the best known in Colorado. Our rambles carried us on through Ward, Nederland and Eldorado, with its scenic attractions, the Arapahoe Glaciers, and on down Boulder Canyon home.

Home again (Boulder) and this Sunday morning we attended church, with its \$12,000 pipe organ and hidden choir, where the "pasture" star dusted theoretically and oratorically but not spiritually.

We get The Record here on Saturday, and believe me, read every line, even to classified ads.

The Boulder Morning Herald has asked me to write up our next week's trip and if I do I will send you a copy.

Old J. A. Buchanan never "seen nothin'" at Colorado Springs. They actually told it on him that he was under police guard all the time.

Dr. Rattiff and Tom Russell would want to fish all the time here, and it would run Rube Morgan crazy.

Read this letter if you care, boys; if not it's all the same to me, as it helps to pass away some time.

F. B. WHIPKEY.

Office Supplies of all kinds at the Record office.

SECOND LOGAN CHICKEN HATCHERY TO BE OPENED IN BIG SPRING SOON

Local Firm Takes Another Step In Establishing Chain Of Hatcheries

Their second step in establishing a chain of hatcheries in this section was made by D. M. Logan & Sons of Colorado last week when they established a chicken hatchery in Big Spring, similar to the one established here last year.

"Steady growth in our hatchery here," stated James Logan, junior member of the firm, in talking about the new hatchery, "leads us to take this step in expansion. We hope to be able to establish several hatcheries in this section in the next few years, and we have faith enough in the future of the poultry business to lead us to believe that we can do so successfully."

The Big Spring Feed and Seed Company, according to the Big Spring Herald, has agreed to furnish necessary space for the establishment of the hatchery in Big Spring. The Herald also has the following to say concerning the hatchery:

The Logan Hatchery, as the concern is known, intends to start operation in Big Spring by December 1 and the company has promised to install the largest incubator manufactured. The plant proposed by Mr. Logan has a maximum capacity of 52,000 eggs.

H. M. Neel of the Big Spring Feed and Seed Company said his company was making a sacrifice of space to accommodate the hatchery proposition, but believed that it was for a worthy cause. Mr. Logan now has a hatchery in Colorado and is widely known through chicken propagators of West Texas.

Members of Home Products Assn. To Meet on Saturday

Letters telling members of Women's Four-H clubs in Mitchell county of an important meeting of the Mitchell County Home Products Association Saturday afternoon at 3 o'clock, have been sent out by Miss Abbie M. Sevier, county home demonstration agent.

Miss Sevier makes the following requests of the members in her letter:

Will you please bring with you a list of the products you have sold since January 1, 1929. This need not be an itemized account, but I should like for it to be something like the following sample:

January—\$203.30 (peas, canned chicken, butter).

February—\$25.30 (sausage, eggs, milk, butter, cream);

and so on up to the present time. Make it as accurate as you can, even though you may have to estimate some of it. If for any reason you

CITY EQUALIZATION BOARD IN SESSION

The board of equalization for the city, composed of Arlie Martin, Roy Decker and W. W. Porter, appointed recently by the city council, was in session Wednesday. Many citizens appeared before the board to show cause why renditions of property should not be raised.

Remember that Mitchell county has a reputation to uphold in the marketing of products and that we will be called upon at Short Course to tell of the work being done. Therefore we must have something to talk about. One member sold more than a hundred dollars worth of products last month. How much have you sold, and what?

NEW 'M' SYSTEM STORE TO OPEN SATURDAY

Interior view of the New 'M' System Store which is to open Saturday morning in the former location of Miller's Market on Walnut Street

NEW 'M' SYSTEM STORE OPENING IS PLANNED SATURDAY

(Continued from Page One) but did not extend to other parts of the country, until two years later. The demand became so great on Mr. E. H. Carlton, originator and today president and owner of the big chain now operating in 15 states, that he was forced to look for central locations and market for the manufacture of the fixtures. Fort Worth, Texas, was selected and is today the home of the "M" System Stores Corporation, which has grown from a small plant to the extent that it now covers almost a city block.

The fixtures are arranged in the form of a huge letter "M," making it more convenient for the customer to serve himself, and giving greatest display of merchandise in the floor space consumed. The fixtures are painted in white enamel trimmed in black, making it very pleasing to the eye, and giving it a sanitary appearance equalled by none. Mr. McClain tells us that the store will be in readiness for trade Saturday morning at 8 o'clock, and they will be glad to welcome their hundreds of customers, who will be accorded the privilege of being both clerk and customer, and that linked with the other features mentioned in this announcement page in this paper will give you an idea of the advantages and savings afforded by this system.

Mrs. Austin Bush Gives Recital In Paris, Tennessee

The Parisian, newspaper of Paris, Tennessee, recently carried an account of the certificate recital in expression of Mrs. Austin Bush, formerly of Colorado. Mr. and Mrs. Bush moved from Colorado to Tennessee some months ago, and Mrs. Bush resumed her studies in reading. The newspaper account of the recital follows: Mrs. Austin Bush and her aunt, Mrs. S. N. Polky, were hostesses Saturday afternoon at their home on South Dunlap street, to a limited number of friends, the occasion being the certificate recital in expression of Mrs. Bush, the former Lillie May Hill. The home was attractive in shasta daisies, sweet peas and ferns and the guests were served a refreshing fruit punch by Miss Sarah Louise Taylor. Ruby Cloya Krider, under whom Mrs. Bush studied expression and dramatic art, came down from Peabody College, Nashville, to attend

the recital. Two one-act playlets, "Joint Owners in Spain," and "The Little Shepherdess," were given and greatly enjoyed. Mrs. Bush returned to Paris with Mr. Bush from the West some months ago and completed the three remaining months of her certificate course.

Presbyterian Revival Is In Full Sway Now

With audiences and interest increasing daily, the Presbyterian revival, with Dr. O. G. Jones of Pontotoc, Mississippi, as evangelist, is in full sway at the Union Tabernacle this week, and will continue through next week. Morning services are being held at 10 o'clock and evening services at 8. There will be no morning services on Saturday. Both services will be held Sunday at the tabernacle, the Sunday school being held at the church, according to Rev. W. M. Elliott, pastor of the church.

Dress Contest Winner Tells How She Planned Her Garment

Miss Geneva Halbert of the Westbrook Four-H Club, winner of first place in Class One of the dress contest for Four-H Club girls, closed last Saturday, also won first place for the following article which she wrote telling "How and Why I Planned My Contest Dress and Accessories." The article follows:

I stand five feet two and one-half inches in height and weigh one hundred fourteen pounds. I have light blue eyes, blond, curly hair and am light complexioned.

In choosing a color for my contest dress, I considered the color of my eyes and hair and also my complexion. After careful consideration, I decided that the color that was most becoming to me, and was also very suitable for a nice school dress was pale green. The next thing to choose was a harmonizing color with which to trim the green. I finally decided that a slightly darker shade of green would trim the material beautifully and it was found to be very becoming to me also.

The problem that confronted me next was a design to use. I studied several patterns and at last selected a design of simple lines but stylish appearance. This design was fashioned with pleats, to give fullness at the hips, instead of gathers. I realized that the pleats would permit the dress to be ironed very easily and that they would yield freely to the movements of the school girl. The second charming feature about the design that I chose was the fact that there were two seams, both front and back, that gave the figure a beautiful snug fit and yet was roomy and loose enough to give the body ease at all times, which is very essential in the clothing of a healthy growing girl.

In selecting the best material for my dress from all the numerous shades, qualities and finishes that are on the market at present, I kept the following points in mind: laundering possibilities, wearing qualities, and appropriateness. After careful consideration I chose a fast color Peter Pan material, as I knew that this would neither shrink nor fade, and would launder beautifully. I realized also, that in my selection I had obtained a wearing quality that was equalled by no other material of the same cost. Someone might ask why I chose a solid color for my dress and that question would be very easily answered. I was aware of the fact that a solid color material, if drab enough to be suitable for a school dress, would not soil so easily as a figured print, which would likely have a light ground.

The accessories for my dress consist of low-heeled, broad-toed, black oxfords, service weight hose of a rose beige shade, a white batiste slip, and a pale peach shade of rayon bloomers. I chose my slippers for comfort, more than for beauty. I remembered the need of a well-fitting, comfortable shoe at play and in the school room, and I chose black because they are more easily kept polished and looking new than those that are lighter in color. I have found by experimenting that a thick, heavy service weight hose will give me fully as much wear as a cotton pair and they look much better, fit me better, and cost only slightly more. The color that I selected, rose beige, was pretty with both my shoes and my slippers. My slip is very soft and smooth and of white material which is much more sanitary than a color, to be worn against the skin. My bloomers are of a light peach shade, which match my shoes and slip nicely, and they are made of heavy rayon. The good features of this selection are: bloomers of this type fit close and are never so likely to show; they are very easily washed; and (3) they require no ironing.

"An apple a day keeps the doctor away." Be sure and attend the Fresh Fruit sale held by the Christian ladies at Piggy Wiggly's Saturday.

Community Gas Co. Distributes Newest Product

Stargas, a compressed natural gas which has just been introduced here by the Community Gas Co., brings the many conveniences of natural gas for all cooking purposes to the necessity of two cylinders of gas. The Stargas gas is delivered in two cylinders of Stargas which is piped from outside the house to the kitchen stove where it is burned exactly like natural gas. In fact, Stargas is a natural gas, produced by the Lone Star Gas Co., which has been purified and compressed in steel cylinders, thus being made portable. In the purification process only the hottest burning factors are retained so Stargas gives an exceptionally high heat producing, clean, blue, sootless flame.

Because Stargas equipment is individual, a continuous supply of gas delivered at constant pressure is assured. This is an advantage over the usual city gas service. Stargas is not to be confused with gasoline burning pressure equipment, for Stargas is real gas made available for convenient use to home makers for a cooking fuel. Gas has always been known as the ideal cooking fuel and Stargas is natural gas improved through purification.

This latest gas service is produced by the Lone Star Gas Co. and is supplied by the Community Gas Co.

Hyman Happenings

Mr. and Mrs. Harry Hyman have returned home after a visit of some duration in San Antonio. Mr. John Scott came with them for a visit with his mother, Mrs. Hyman. We are glad to have them back home, as they are needed in the community activities in which they take a deep and active interest.

The small young folks were entertained at I. Smallwood's Friday evening with a birthday party, given in honor of Riggle and Joe Smallwood. Quite a number were present and the boys received many presents. After a number of games were played, the guests were marched into the dining room where they were served with cake and ice cream.

The singing school which we have been looking forward to for some time, began Monday with a large attendance. We are hoping for a good school. The classes are the finest cure in the world for one suffering from the heat—you forget all about it being hot when you start singing. Mrs. Jim Dawson's mother, Mrs. Low, and little granddaughter, Bettie Jean, of Lubbock are visiting with her this week.

J. D. Smallwood and his two sons-in-law of Ira were visitors at the I. Smallwood home Saturday and Sunday.

Rev. L. H. Welch is holding a few night meetings at Hyman. There have been two additions to the church already. We hope the people will attend church and get much good out of the sermons.

Mr. and Mrs. Bob Scott and little daughter, Boogie, were visitors in the home of Mr. Hyman Sunday.

Mrs. Fulton Reynolds has returned to Hyman after a visit in East Texas. Mr. and Mrs. Isaac Henry have been visiting Mrs. Henry's father and mother, Mr. and Mrs. John Black.

Several families from Hyman, Colorado, Spade, and Looney gathered at Jim VanZandt's Tuesday evening. After much talking and water washing, they gathered at the house and had a sundown supper, which was much enjoyed by all. Corn boiled on the cob was the main delicacy served to a bunch of hungry folks.

BARRY MILLER IS SIXTH CANDIDATE FOR GOVERNOR NOW

Formal Announcement To Be Made Later, Lieut. Governor Says

AUSTIN, July 17.—"Many of my friends from various sections of the State have been calling upon me to make some announcement as to my future political intentions," Lieutenant Governor Barry Miller said today.

"I therefore feel it due them at this time to say that I intend to be a candidate for governor next year. I am grand master of the grand lodge of Odd Fellows and do not propose to involve that great order in the turmoil of a political conflict. My term of office as grand master will end at Abilene about the middle of March next year, when I shall turn the office over to my successor. I will then make formal announcement for governor."

Barry Miller is the sixth person to become a candidate for governor. The others are Senator Thomas E. Love of Dallas; Oscar B. Holcombe of Houston; Miss Katie Daffan of Ennis; E. G. Senter of Dallas, and T. N. Mauritz of Ganado.

Snyder Revival By Dr. Ditto To Start Sunday

A revival meeting of unusual interest in this section of the State is to start at Snyder next Sunday when Dr. S. W. Ditto and co-workers of Houston begin a series of services to continue until August 11.

Dr. Ditto is well known in this section of the State. He has held revival meetings at Snyder, Ira, Fluvanna and many other towns in this section.

He is a preacher of the Original Apostolic Faith movement. Everyone invited to the meeting at Snyder. There will be free cats and no collections, it is reported.

"FLATS" SONG CONTEST ATTRACTING ATTENTION

The poem and song contest sponsored by the Chamber of Commerce is attracting lots of attention. Many inquiries have been made at the office.

This contest seeks to secure a poem or song dedicated to the paving of Iatan Flats. When the paper has been finally accepted, it is planned to broadcast the same over WEAP and possibly other stations at the time the new paved road through Iatan Flats is opened.

A prize of \$25.00 cash in addition to the honor of being the author of the song or poem to be broadcast, will be tendered the winner of the contest.

Those interested in this contest should inquire at the Chamber of Commerce, J. H. Greene said today.

PARENTS OF MRS. BOYD DOZIER VISITORS HERE

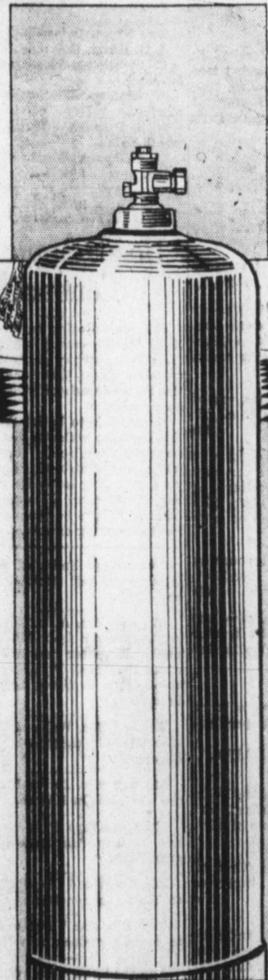

Mr. and Mrs. Boyd Dozier have as their guests this week Mrs. Dozier's parents, Rev. and Mrs. H. M. Peebles of Millport, Ohio. Rev. Mr. Peebles is pastor of the Presbyterian church there, and has been attending the International Christian Endeavor Convention in Kansas City.

Rev. and Mrs. Peebles until about ten years ago made their home in Baird, Texas. They will remain in Colorado for a two-weeks' visit with their daughter, whom they had not seen for three years.

Jack Helton of Iraan spent the week-end with home folks.

INTRODUCING STARGAS

Which brings all of the convenience of gas to the suburban and rural home

Long have thousands waited for this announcement! Long have they wanted the convenience of gas! Gas for cooking... gas for heating water for a dozen needs... and, more recently, gas for refrigeration! Lone Star Gas Company... already serving a million people through its pipe lines... has developed STARGAS as an additional service to the public... to serve those not reached economically through pipe lines. Now... with STARGAS... anyone may enjoy the convenience of gas. STARGAS is

Real Compressed Natural Gas Delivered Anywhere

STARGAS, containing the elements of highest heating value, is extracted from pure natural gas and STARGAS means more than a fuel... it means a service! Cylinders are delivered in sets of two, and when one cylinder is exhausted, it is only necessary to turn a valve and begin using from the other, while the company replaces the empty cylinder. STARGAS is convenient, sure, safe, easy to use.

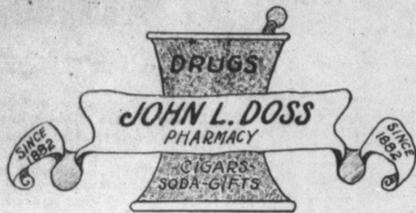

Of course, there are questions, dozens of them, that space will not permit us to take up here... but you have only to call your local gas company to have them answered immediately. Find out now what STARGAS... the new fuel, the new service... will do for YOU. Ask for free booklet "The Happiness Home." Call the local office of

COMMUNITY NATURAL GAS CO.

Friday-Saturday, July 26-27
"LAUGHING AT DEATH"

Staring Bob Steele, A Rip Roaring Western. Also a good comedy

Monday-Tuesday, July 29-30
"THE WARE CASE"

A First National Mystery Picture entertaining and exciting, also THE FIRST TALKING COMEDY. No raise in admission. 10c-30c.

RURAL PUPILS REMINDED BY MISS RUBY MCGILL TO TRANSFER BY AUG. 1

County Superintendent States That Changes Must Be Made This Month

Parents who have children who plan to transfer from rural schools to Colorado schools this year are reminded again this week by Miss Ruby McGill, county superintendent, that transfers must be made by August 1.

Miss McGill states that the county school board has been asked by State Supt. Marrs to classify all rural schools as follows: The One-teacher schools may teach through seventh grade; two-teacher schools may teach through the eighth grade; three-teacher schools may teach through the ninth grade, and four-teacher schools may teach through the tenth grade.

Pupils who are in a grade above that which the State allows to be taught in their district are entitled to transfer and have their tuition paid by the district or by the State. This tuition is only allowed where the grade is not taught in the district in which the pupils live.

All transfers must be made before August 1.

CLEARANCE SALE AT BARGAIN HOUSE TO BEGIN THIS FRIDAY

Summer Stock of Store To Go At Amazingly Low Prices

A great clearance sale of summer stock is to begin at the West Texas Dry Goods store here, formerly known as the Colorado Bargain House.

"Pressing necessity forces us to offer the greatest bargains in the history of the store," stated Max Berman, assistant manager of the store in telling about the sale. "Merchandise on our shelves valued at thousands of dollars absolutely must be moved to make room for our fall stock, which will arrive within the next few weeks. It was so necessary to move this stock that we are almost giving it away in this sale.

"The sales we have had heretofore are convincing proof of our honesty in giving dependable merchandise at prices advertised."

TWO NEW CITY WELLS PUT ON PUMP THIS WEEK

Two new wells drilled recently at the North waterworks have been put on pump, according to L. A. Costin, city manager, and it is thought that this will relieve somewhat the low water pressure which bothers some sections of the city at this time.

The low pressure will also be helped considerably by the booster pump now being installed at the east water works, which will make possible the filling of the standpipes without cutting off the water supply at either of the waterworks.

CONAWAY SCHOOL BONDS APPROVED; CONTRACT READY

A communication received by Miss Ruby McGill, county superintendent, from the attorney general Thursday morning, stated that bonds voted for the Conaway school house had been approved.

Contract is to be let Saturday for the building, which is to be a brick structure, replacing the building which was destroyed by fire last year, according to W. E. Smith, member of the board of trustees of the school. It is to be completed in time for the opening of school.

MOTOR NOTES ABOUT AUTO AND TIRE DEALERS

R. A. May of the May Motor Co., Buick dealers, reports sale of a Buick sedan to the Black Arrow Oil Co., and one sedan and one coupe to the California Company.

The Meek-Lasseter Motor Co., Hupmobile dealers, report sale of a straight-eight cabriolet to Eunice Lee of Lorraine. This firm has on hand Hupmobile sixes and eights.

The Mills Chevrolet Co. sold a new Chevrolet coach to C. W. Oliver of Westbrook this week.

R. A. May, Buick dealer, was in Dallas Sunday and Monday for two new cars.

The Colorado Motor Co., Ford dealers, reports the sale of the following new cars the past week: Lloyd Blackard, sport coupe; R. L. Murphy, roadster; California Co., coupe; Del-ford Clark, sport coupe; H. D. Mitchell, Tudor; A. G. Furlow, truck; Allen Jameson, coupe and Vernon Logan, pickup cab.

J. O. Dockrey of the Dockrey Whippet Co. attended a district meeting of Whippet dealers at Abilene last Friday. Several dealers from this section of the State were present and enthusiasm as to the outlook for business was expressed.

LETTER FROM CLOUDCROFT SEEMS ALMOST TORTUOUS

Perhaps the "junior boss" had no tortuous intentions in writing this letter, but there are certain parts of it that might sound that way to a sweltering force if we didn't know that he hasn't forgotten how hot it was down here and how hot it will be when he gets back. But, anyway, here's what Walter Whiskey says:

Cloudcroft, New Mexico.

Left Colorado 5:30 a. m. Friday; eat breakfast at Post at 7:30 a. m.; arrived at Roswell 12:40 for dinner; drove over to Ruidoso at 4 p. m. and stayed all night. Sure had a nice trip. Cold—say, it's cold! Sat by a fire that night and felt good. We drove on up to Cloudcroft Saturday morning. Got our cottage all fixed up for our stay. We have a nice place and having a wonderful time. Have a fire every morning and night and it feels awfully good. We can sit on our front porch and see 50 miles—it looks fine. It usually rains here every day, but seems like a dry spell, as it hasn't rained since we got here, which makes it warmer than usual. The golf course is wonderful. I just can't describe it, but the more you play the more you want to, so I play all day long. The first day I could not play but nine holes, but now I play 36 every day. The pine trees are thick, and they seem to attract golf balls, as you can hit 'em without any trouble.

This is a wonderful place to come and rest—nice and cool all the time, and nice to sleep. It is 1000 feet up

MITCHELL COUNTY FARM NEWS

T. J. Riden has two patches of sorghum that show the value of terraces. One is on terraced land and the other part is planted with the rows running up and down hill. At the last report the latter patch was beginning to need rain, while the terraced patch was holding up very well. Difference in the yields of the two patches will be measured when the sorghum is cut.

A persimmon tree at the McCarley home in Lorraine that has never borne fruit was grafted last week with the Tane-Nashi variety of Japanese persimmon which is better adapted to this section.

J. H. Rosborough, Extension horticulturist of A. & M., says tomato growers should plant Marglobe tomatoes if their tomato vines die from wilt. This variety is resistant to the disease.

R. R. Harryman, F. E. McKenzie, W. D. McCarley and others had pecan trees budded recently.

All but two of eleven English Walnut buds grafted on three walnut trees at the W. A. Hallman farm are living.

Mrs. W. H. Gregory of Carr community is caring for her flock of White Leghorn hens and pullets, according to directions furnished by the Poultry Specialist of A. & M. College, keeping a record of all expenses and receipts.

H. Reeves had some turkeys that were so weak in the legs that they could not stand up. After they were fed cod liver oil in their feed for several weeks they are much better.

San Jose scale is causing damage to shade trees in North Colorado. Scale is a small insect that sucks the juices from trees and plants and can be controlled by spraying just before the leaves start growth in the spring.

E. B. Hale started another bunch of pigs on a self feeder and balanced ration this week.

M. E. McGuire has some kudzu vines planted two years ago that has

AMENDMENTS DEFEATED BY SMALL MARGIN IN MITCHELL COUNTY VOTE

Colorado and Westbrook Vote For Changes In State Constitution

Although the measures carried in the State-wide election and in the election in Colorado, the amendments voted on last Tuesday to increase the membership of the supreme court of the State and to increase the governor's salary met defeat in Mitchell county, 186 voting for the amendment increasing the governor's salary and 208 against, while 194 voted for the increase of the supreme court membership and 199 voted against it.

Balloting by boxes was as follows:

Increase in Governor's Salary
Lander—1 for and 11 against.
McKenzie—0 for and 3 against.
Westbrook—13 for and 4 against.
Buford—6 for and 7 against.
Colorado—110 for and 45 against.
Cuthbert—6 for and 5 against.
Lorraine—36 for and 112 against.
Iatan—4 for and 5 against.
Spade—9 for and 11 against.
Carr—1 for and 5 against.

Increase in Supreme Court
Lander—2 for and 10 against.
McKenzie—None for, 3 against.
Westbrook—14 for and 3 against.
Buford—6 for and 7 against.
Colorado—107 for and 47 against.
Cuthbert—8 for and 4 against.
Lorraine—40 for and 108 against.
Iatan—7 for and 2 against.
Spade—9 for and 11 against.
Carr—1 for and 5 against.

J. W. TREAT WRITES FROM MEXICO CITY

J. W. Treat, former teacher in Colorado High School and member of the faculty of Abilene Christian College for the coming year, is in school in the National University at Mexico City.

In a letter he states that he would enjoy getting a letter from students and friends, and adds that it need not be written in Spanish necessarily. His address is Joaquin Garcia, Izcabaleta 81, Mexico City, Mexico.

made six or eight feet of growth this year. This vine is said to have the same feeding value as alfalfa hay.

W. E. Warren has a January beef calf that now weighs around 500 pounds. He is feeding it grain and cottonseed meal and expects to show it at the county fair in October.

Two hens culled from T. A. Duncan's flock have not laid a single egg in the ten days since they were removed from the flock.

SCOUT SWIMMING POOL AT SEVEN WELLS OPENED LAST THURSDAY EVENING

Illness of Urda Wulfjen, Who Donated Site, Only Thing Marring Event

A great day was had by Boy Scouts of Colorado last Thursday when they formally opened their recently completed swimming pool at Seven Wells with a barbecue, free swim, and program for the many Colorado citizens who attended the opening.

The only thing that marred the joy of the occasion was the fact that Mr. Urda Wulfjen, who had donated the site to the Scouts was in the hospital very sick and unable to be with them for the celebration. The Municipal band was out in force and played a number of beautiful selections.

A big crowd gathered and many went swimming in the lovely pool, made by damming South Champion creek just before it unites with the north branch of the creek to make Champion creek.

The Scouts have built foot-bridges and erected bath houses and a stand where cold drinks, ice cream and candies are sold. The pool was lighted for the evening with a Delco-Light, and this is the next objective of the organization to own a Delco, so that swimming may be enjoyed in the evening.

Two beebes had been barbecued and this delicious meat, together with bread, pickles, onions and little cakes was served by the officers of the Scout Mothers, the plates selling for 50 cents. Many ate supper. The treasurer, Weldon Skinner, reports \$151.00 taken in during the afternoon and evening.

Geo. H. Mahon, district attorney, in a short address thanked the public in behalf of the Scouts for their attendance, the band for their music, expressed gratitude to Mr. Wulfjen, and told how the site had been donated for five years, with E. H. Winn, A. J. Herrington and Dr. Root as directors. He announced that season tickets were being sold for \$5.00 and urged each family to buy one.

In closing, he stated that dedication exercises would be held when Mr. Wulfjen got able to attend.

The Scouts and their leaders, Mr. J. A. Ferguson and Mr. Wm. Scott, had worked all week to get things in readiness for this and though tired they were a happy bunch over the success of this, their first really big undertaking. Colorado should be proud of the wonderful swimming pool and should help make it popular.

Rev. W. D. Green Starts Plainview Revival Friday

A revival meeting is to begin at the Plainview Baptist church, three miles south of Colorado, next Friday night, according to Rev. E. T. Powers, pastor. Rev. W. D. Green, Baptist missionary for the Mitchell-Scurry Baptist association, will do the preaching.

Rev. Powers joins the missionary in extending a cordial invitation to the people of Colorado and surrounding territory to attend the services. The meeting will continue ten days.

MRS. BOYD OF HYMAN WINS PRIZE FOR BEST CLUB MEETING DRESS

Four-H Club Dressmaking Contest Closed Last Saturday

The distinction of being the "best dressed" woman attending a Women's Four-H Club meeting in Mitchell county will belong to Mrs. J. S. Boyd of Hyman when she attends club meetings hereafter wearing the dress which she made in the county-wide clothing contest for members of Women's Four-H Clubs which closed Saturday when the dresses were judged and Mrs. Boyd's declared the best.

To Mr. S. D. Allen went second prize when the judging was done by Mrs. Eugene Pond and Mrs. John R. Colson. Mrs. Boyd was presented a house dress by the West Texas Dry Goods Company and Mrs. Allen was given a house dress by J. A. Holt & Company.

The judging took place Saturday afternoon in the office of Miss Abbie M. Sevier, county home demonstration agent, when contestants from over the county met to have their work judged.

The dresses were judged as to their suitability in style, material and color to the wearer and as to work put in on them. Most of them were made of prints and all wash dresses.

This closed the clothing program of the Women's Four-H clubs in the county for this year, and the clubs will now launch on a new program, according to Miss Sevier.

Ted, J. C., and Charles Garrett spent the week-end fishing on Devils river.

WINNERS WERE CHOSEN SATURDAY IN CLOTHING CONTEST OF 4-H GIRLS

Lena Ohlenbusch And Geneva Halbert Win Trips To Short Course

Two attractive, well-made dresses—one for school wear and the other an afternoon dress—won for Geneva Halbert and Lena Ohlenbusch last Saturday free trips to the Short Course at A. & M. in August, at which time they will compete in the State "appropriate dress" contest. The contest, in which members of Girls Four-H Clubs over the county took part, has been going on for some time, with Miss Abbie M. Sevier, county home demonstration agent, directing.

Miss Halbert and Miss Ohlenbusch were adjudged winners in the clothing competition when contestants from over the county met at Miss Sevier's office Saturday afternoon to have their work judged by Mrs. Eugene Pond and Mrs. John R. Colson. Miss Halbert won first place in the school dress competition, known as Class One, while Miss Ohlenbusch won first place in the afternoon frock competition, known as Class Two. The former winner is a member of the Westbrook Four-H Club and the latter a member of the Lorraine club.

The dresses were judged by the following points: Suitability of color, material, style; suitability of accessories; suitability to the type of person for whom they were intended; workmanship and fit.

In Class 1, Miss Oleta Caswell of Landers won second place and was presented silk underwear by the Elaine Shoppe. In Class 2, Miss Hil-da Ohlenbusch of Lorraine won second place and received a pair of silk hose from Mrs. B. F. Mills' store.

Each girl in both classes of the contest was required to write an article explaining why she chose the color, style and material she did for her particular dress. In this, Miss Geneva Halbert won first prize, which was a purse presented by the Acorn Store, and Miss Lena Ohlenbusch won second prize, which was a hand-made handkerchief from Grissom's department store.

These prizes given by merchants of the town came as a complete and pleasing surprise to the girls, who had thought there was only one prize to be worked for and that there would be no reward for a good second best. Both the girls and Miss Sevier expressed gratitude to the merchants for these favors. Both winners plan to attend the Short Course in August, chaperoned by Miss Sevier.

HAROLD BRENNAND HERE LAST WEEK-END

Harold Brennand, who works in the offices of The California Company in Dallas and attends S. M. U. there, was in Colorado the past week-end and left the following announcement concerning registrations at that University this fall. The announcement will be of interest to those planning to attend the school:

"The registrar's office has announced a new regulation affecting late registrants for the regular session in September. Registration will be held September 21, 22, 23. Thereafter no students will be permitted to register until Friday, September 27, and those who register on the 27th will be required to pay a late registration fee of \$2.00. Late registration causes considerable confusion and the new regulation is designed to reduce it to the minimum.

BREWER PALMER, FORMER COLORADOAN, SUCCEEDS IN SCOUT WORK IN SOUTH TEX.

H. B. Palmer, former Mitchell county citizen, now Scout executive of the Southwest Texas council, embracing eleven counties around Uvalde, was here Tuesday on business and visiting friends.

He owns a residence on Thirteenth street, and formerly owned land in the vicinity of Buford, and formerly lived at Buford.

Mr. Palmer has always been interested in work with boys and has had lots of Boy Scout training. He is having wonderful success in Scout work in the Southwest Texas council. This council covers many miles of territory, running from Terrell to Medina county, a distance of over 250 miles.

Mr. Palmer commended Colorado on its recent growth and the progress shown. Especially did he commend the Boy Scout work being done, and urged in a speech at the Luncheon club that the business men continue to support the Scouts in their effort to improve their Seven Wells playground.

Abilene Gets Next Year's Press Meeting

Eddie Warren, Post Editor, Is Elected President of West Texas Editors

Election of officers, selection of Abilene as the place of next year's meeting and the adoption of resolutions Saturday noon brought to a close the fourth annual convention of the West Texas Press Association here.

For two days some 150 newspaper men and women transacted more real business, perhaps, than at any other meeting of the association and took active and interested part in the great variety of entertainment offered by Sweetwater.

The free airplane rides given Friday afternoon seemed to create the greatest amount of enthusiasm of any one attraction and during some two hours the tri-motored Ford of the S. A. F. E. Way lines and the 7-passenger Travelair of the T. A. T. took up more than 100 passengers. The golf tournament at the Country club also attracted a large number of visitors, while Saturday morning a two-hour trip was made through the U. S. Gypsum Company plant.

New Officers

Officers elected and committees named at the closing session were: President, Eddie Warren, Dispatch of Post; vice president, H. H. Jackson, Democrat-Voice, Coleman; secretary-treasurer, Jimmie Smith, Scurry County Times-Signal, Snyder.

Executive Committee—Luther M. Watson, Nolan County News, Sweetwater; T. Paul Barron, Midland; Max P. Bentley, Abilene; Walter Murray, Ranger; J. W. Roberts, O'Donnell.

Program Committee—J. C. Watson, Abilene; H. H. Jackson, Coleman; Homer Steen, Floydada; Jimmie Smith, Snyder; G. I. English of Stamford.

Membership—E. I. Hill, Tahoka; Tom Durham, Merkel; George Hill, Winters.

Constitution and By-Laws—Bowen Pope, Hamlin; W. E. Reid, Colorado; Ralph Shuffler, Odessa.

Resolutions—E. F. Butler, Clyde; Harry Adams, Lockney; George E. Caple, Merkel.

Official Orator—Col. Dick McCarty, Albany.

15 Additions To Champion Church Result Meeting

Revival Conducted by Rev. W. D. Green Closed Sunday Night

Fifteen additions to the Champion Baptist church with seven professions of faith and great community interest are some of the visible results of the revival meeting held at Champion by Rev. W. D. Green, missionary, which closed Sunday night. The interest in the meeting was good and the religious life of the community was greatly strengthened.

HOT AND COLD

A card from W. W. Whipkey, who left Friday with his family for Cloudcroft, New Mexico, and written Saturday afternoon from that place, says: "Arrived here this morning. Plenty cold and sure nice. We all froze out last night." They spent Friday night in the mountains west of Roswell.

Coming as the card did, just when we had decided that hades had been set off under or above the printing office, we could hardly stand the thought. The thermometer registered about 100 in the office, and to think, Whip was up there freezing. Too much contrast—we can't stand to think of it.

SOUTH CAROLINA PAPER

Our old friend, E. M. McCreless, pioneer of this section, a former South Carolinian, Tuesday brought in a copy of his old home paper of that State, The Edgefield (S. C.) Advertiser, which carries the slogan, "The Oldest Newspaper in South Carolina." Mr. McCreless says he has been reading that paper since he was a boy and that his father read the paper since it was established 94 years ago.

Mr. McCreless asks The Record to exchange with that paper. He said he sent several copies of the Record to the Edgefield paper and the editor complimented the paper highly, and expressed a desire to exchange.

LEAVE FOR VACATION IN COLORADO STATE

The Ed Majors and Harry Ratliff families left early this week for Colorado, where they are to spend a three weeks' vacation, visiting all points of interest in that State.

APPROPRIATION BILLS AGREED UPON; TOTAL NOW RUNS 47,000,000

Legislative Session Prolonged By Submission of Several New Subjects

AUSTIN, July 15.—The education appropriation bill, carrying \$16,451,282 for support of the colleges and schools for the next biennium, was accepted by both houses of the legislature late today. It is \$45,263 less than the \$16,496,545 bill vetoed by Governor Moody when he discarded all appropriations.

Conference reports on the departmental and claims and accounts bills remained to be accepted. The house and senate made plans to act on these tomorrow.

Department Bill The departmental bill carries \$10,532,283, a reduction of \$2,105,842 under the vetoed measure which provided for the expenditure of \$12,638,225 for support of departments.

The claims and accounts measure was cut more than \$500,000. It appropriates \$474,546 compared with the \$987,543 bill disapproved by the governor.

The aggregate of all major bills is \$47,890,832, against \$51,161,614 as represented by the measures disapproved by the governor.

Other bills approved were: Judiciary \$5,060,485; eleemosynary, \$10,372,136; rural aid, \$5,000,000. The discarded bills called for judiciary \$5,056,465; eleemosynary \$10,482,836; rural aid, \$5,500,000.

Since the adjournment before Thursday was precluded in event the house considers the Small senate bill withdrawing from the market all lands owned by the State until the legislature can provide a reserve. Under the constitution a bill introduced and passed within three days of adjournment cannot become law.

The legislation was suggested by Governor Moody as imperative in a message he sent to the legislature Saturday.

Moody's Message

He sent another message today submitting local road, school and game laws and suggesting amendments to the stock law passed at the second called session which he said was left in such state as to be confusing.

When the message was announced there were cat calls and hoots. For a period the voice of the reading clerk was drowned out by shouts of "No! No! No!"

In rewriting the educational appropriation measure members of the conference committee eliminated \$200,000 for construction of a chemistry building at A. and M. College and raised the contingent fund of the institution for additional teachers and adjustment of salaries from \$58,600 for each year of the biennium to \$83,600.

The house passed finally senate bills giving permission to the Trinity Valley and Northern Railway company to remove its track from Fullerton to Lumm, a distance of 12 miles, in Liberty county; relinquishing fee title to streets in Austin which are not owned by the State in order that abutting property owners may be assessed for street paving purposes; authorizing officials of the Brownwood water control and improvement district to execute bonds.

JULIUS A. GERMANY DIES IN DALLAS

Julius A. Germany, widely known lawyer and leader in State matters and a prominent resident in this section twenty years ago, died Thursday morning at his home in Dallas after an illness of about a month.

Mr. Germany, who was a member of the law firm of Germany & Runge, lived in Sweetwater twenty years ago and visited frequently in Colorado. He is well remembered by several of the older residents here.

Mr. Germany was born in Edom, Van Zandt county, in 1870. He was educated at Southwestern University at Georgetown and practiced law in Grand Saline for many years, where he was a leader in all State matters. He came to Dallas in 1913 and entered the firm of Burgess, Burgess, Germany & Chrestman. He later became general counsel for the Panhandle Refining Company and for the last six years had been the senior member of the firm of Germany & Runge.

He is survived by his wife, Mrs. Lula L. Germany; six children, Mrs. Luther Newman of Dallas, Mrs. Geo. W. Poole of Nevada, Texas; Meeks Germany of Albany, Texas, and Miss Martha Germany, Harlan Germany and Julia Germany of Dallas; by his father, J. W. Germany of Grand Saline, Texas, and by his brothers, E. B. Germany of Dallas; Garvin Germany of Borger, Texas, and his sister, Mrs. Hal Kennedy of Brownsville, Texas.

Mrs. Duhon and little daughter, who have been visiting their parents, and grandparents, Mr. and Mrs. A. L. Costin, have returned to their home in Magnolia, Ark.

Mr. and Mrs. Jas. T. Johnson, Mrs. Pearl Samson, Mrs. J. H. Greene, and Miss Greene and William, returned Thursday from a very delightful trip to Corpus Christi.

Cotton Picking Machine Be Sold In Texas Soon

Cotton Growers' Association Will Sponsor Sale of 400 Be Tried Out in Texas

By Victor H. Schoffelmayer Agricultural Editor of Dallas News A mechanical cotton picker about the size of weight of a motorcycle, guaranteed to pick about twice as much cotton as an average field hand, and having the backing of cotton cooperatives in fourteen States centered in the American Cotton Growers' Exchange, will be distributed in Texas this fall to pick cotton.

This machine, evolved during the last seven years from the original invention of Fred Stuckenborg of Chicago, has been given severe field tests the last two seasons in California and Arizona. It is manufactured and sold by the American Cotton-picker Corporation of New York, of which Phillip S. Cole is executive vice president. Mr. Cole's residence is San Francisco, but in the recent months he has maintained headquarters at the American Cotton Growers' Exchange in Dallas. The machine is being manufactured by the Moon Motor Car Company of St. Louis. Some 400 mechanical pickers will be placed in Texas this season. The corporation is capitalized at \$5,000,000.

The American Cotton Growers' Exchange, representing cotton growers from the Atlantic to the Pacific coast are handling 925,335 bales of cotton for the season 1928-29, valued at some \$90,000,000, was authorized by its board of trustees at the annual meeting at Houston on February 7, to acquire an interest in this cotton picker if the machine proves successful. This marks a distinct departure in the policy of cotton cooperatives and was actuated by the desire of the trustees to aid in hastening the day of mechanical cotton picking in the South. It has long been recognized by economists that a successful cotton picking machine would revolutionize the cotton producing industry.

Principles Involved

While one of the machines of the American Cotton Picker Corporation is on display at the Dallas headquarters of the American Cotton Growers' Exchange, the writer has not had opportunity to view the machine in action in a cotton field. But, thru the courtesy of Mr. Cole and C. O. Moser, president and general manager of the American Cotton Growers' Exchange, he viewed a motion picture of the machine in operation in cotton fields in California. As far as could be judged, the machine did a satisfactory job of picking under the conditions shown, which were said to be average field conditions.

This machine does not require a skilled mechanic to operate, Mr. Cole stated. Its dimensions are 36 inches in height, 24 inches in width and length over all 6 feet. It may be pulled along the cotton rows by the operators. It has two picker nozzles, at the ends of flexible tubing suspended from springs which adjust the weight to the operators. It consists of an open metal frame on which is mounted a gasoline motor

weighing forty-two pounds, which operates the mechanism of the picker heads. These consist of an aluminum cage in which two concentrically revolving spools are stationer, which remove the seed-cotton by a whipping motion. The operator holds a picker head and touches each open boll, enabling the revolving spools to remove the cotton, after which it is carried by suction through the tubes into a cleaner and then into sacks attached to the rear of the machine.

The operator grasps the picker-head, which attaches to his hand with straps. The masts to which the picker-heads are attached will extend comfortably ten feet in all directions and are designed to cover two or three rows of cotton on each side of the machine.

Can Work Nights

Two large wheels behind and one small wheel in front carry the machine. The wheels are prevented from damaging stalks or bolls by guards. Practically all the working parts are inclosed, running in oil or grease. The gasoline motor is of one horsepower and consumes about one gallon of gasoline in ten hours of operation. A gallon of lubricating oil a week is sufficient. The machine is fitted with a carbide lighting system, which enables it to be operated at night, thus making for twenty-four hour operation.

Since each pickerhead in the hands of an average field worker is said to harvest about 300 pounds of seed cotton in ten hours, the capacity of the machine is around 600-pounds a day, but if operated 24 hours its capacity is accordingly increased. In California tests, expert operators picked from one-half to three-fourths of a bale in ten hours, while hand-pickers averaged 168 pounds of seed cotton in the same period of time. Capacity picking in any cotton field will depend upon the quantity of open bolls on the plants, size of the plants, location of bolls and swiftness of the operator.

Improves the Grade

The machine is fitted with a cleaning apparatus and blower which removes much of the dirt and trash. As fast as cotton is picked by the pickerheads it is carried through the pneumatic masts into the cleaner located in the top of the machine, in which each lock is fluffed against a wide screen. Dirt, trash and moisture are blown away. Mr. Cole says that up to \$10 a bale is added to the value of cotton thus picked. The machine will sell at comparatively low cost.

Hear the Angels Calling

"What if your partner did trump your ace? That's no excuse for killing him." "It wasn't only that. Your Honor, we found out afterwards that he re-neged when he did it."

Reflected Glory

Teacher—Who were elected president and vice-president in 1928? Pupil—Herber Hoover and the brother of Mrs. Gann.

Guilty

A prominent physician who has a grand oratorical style is generally known by his Christian name, which happens to be Charles.

One day he arose before a crowded meeting and in a forceful and solemn tone began his speech as follows:

"Heaven is my witness and you, my fellow countrymen, are the jury." Here came an oratorical pause, and then the silence was suddenly broken by a high-pitched voice ringing down from the gallery:

"You're guilty, Charlie."

Takes It All

Williams—When you have an argument at your house, does your wife take part? Robert—No; she takes all of it.

648,435 BALES COTTON CONSUMED DURING JUNE

WASHINGTON, July 15.—Cotton consumed during June totaled 570,281 bales of lint and 78,154 of linters compared with 668,229 of lint and 80,145 of linters in May this year and 510,339 of lint and 65,580 of linters in June last year, the Census Bureau Saturday announced.

Cotton on hand June 30 was held as follows: In consuming establishments 1,289,294 bales of lint and 206,432 of linters compared with 1,447,308 and 231,589 on May 31 this year and 1,160,888 and 182,344 on June 30 last year.

In public storage and at compresses 1,375,728 bales of lint and 71,141 of linters compared with 1,847,688 and 78,488 on May 31 this year and 1,646,807 and 53,567 on June 30 of last year.

Imports during June totaled 26,113 bales compared with 42,486 in May this year and 14,587 in June of last year.

Exports for June totaled 299,136 bales of lint and 9,811 of linters, as compared with 313,003 and 15,069 in May this year and 444,168 and 16,313 in June of last year.

Cotton spindles active during June numbered 30,628,122, compared with 30,910,282 in May this year, and 28,627,556 in June last year.

The Professor Wins

"Sedentary work," said the professor, "tends to lessen the endurance."

"In other words," batted in a smart student, "the more one sits, the less one can stand."

"Exactly," replied the professor, "and if one lies a great deal, one's standing is lost completely."

Here are the facts that prove it America's finest medium-priced automobile

Below are typical examples of facts drawn from a comparison of the Oakland All-American Six with 20 leading cars in its field. Study these facts—then come to our showroom for additional information. We can give you dozens of other comparisons as further proof of Oakland's unrivaled value. And these are facts which prove the Oakland All-American to be America's finest medium-priced automobile.

What these features mean to you

Large piston displacement is needed to develop high power at moderate engine speed. Moderate engine speed is an important factor in the life of a car.

No name in automobile coach building means so much as Fisher. Fisher bodies are famous for style, luxury and roominess. In addition, they hold such advantages as sturdy composite hardwood and steel construction, VV windshield, side cow ventilation and adjustable drivers' seats.

Reasonably long wheelbase gives greater riding ease and road balance. Also permits use of longer, smarter, roomier bodies. At the same time, a small turning circle is essential to handling ease.

For safety, efficiency, convenience, smoothness and silence nothing has been found to compare with internal-expanding mechanical 4-wheel service brakes with non-squeak bands. An entirely separate emergency braking system is needed as an extra safety factor.

Only Oakland and one other car, costing \$200 more, use the fine type of brakes described opposite. And no car in the field equals Oakland's 290 square inches of brake band area. Oakland's separate emergency brake operates on the transmission. Seven cars in the field have no separate emergency brakes, although three of them exceed Oakland in price.

AUDIT OF THE BOOKS AND ACCOUNTS OF THE CITY OF COLORADO MITCHELL COUNTY, TEXAS

W. G. McCulloch, Lynn & McCulloch, Accountants, Dallas, Texas, June 18, 1929.

Honorable Mayor and City Council, City of Colorado, Colorado, Texas, Gentlemen: We have audited the accounts of the City of Colorado, Texas, for the year ended April 30, 1929, and now submit our report thereon.

ORGANIZATION
The City of Colorado is a municipal corporation duly incorporated under the laws of the State of Texas as of February 7, 1907. The City has no special charter and has no powers other than those provided by the statutes.

SCOPE OF AUDIT
Our audit embraced the classification of the receipts and disbursements for the year under review; the analysis and verification, as herein-after described, of the accounts relating to assets and liabilities at April 30, 1929, and a review of the operating accounts for the year then ended. In this connection, and in order to satisfy ourselves as to the general accuracy of the accounts, we made comprehensive tests of the records relating to cash receipts and disbursements, taxes, water revenue, purchases, payrolls, bonds and warrants retired, interest paid and other matters of detail.

REVENUE AND EXPENSE
After meeting the operating expenses for the various phases of the City's activities, including repairs, replacements, and maintenance of the physical properties (but not including provision for depreciation), the accounts disclose an excess of revenue over expenses for the year under review amounting to \$41,937.09.

The following is a condensed statement of the revenue and expenses for the year:

Condensed Revenue and Expense Account	
Revenue:	
From Taxation	\$60,594.48
Water Department	31,418.16
Other Revenue	3,110.94
Total Revenue	\$95,123.58
Expenses:	
Departmental Expenses (except water, & sewer)	\$29,755.51
Water and Sewer Expenses	12,153.35
Interest	11,277.63
Total Expenses	\$53,186.49
Excess of Revenue over Expenses	\$41,937.09

Further particulars of the revenue and expenses will be found on pages "9" to "11" inclusive.

The ad valorem tax rate for the year under review was \$1.45 per \$100.00. The total valuations amounted to \$4,094,775.00.

The revenue from the water department was more than \$19,000.00 in excess of the expenses of the water and sewer departments. This is not to be construed, however, as meaning that the water and sewer departments actually made a profit of this amount; since the water and sewer expenses do not include any amounts in respect of depreciation of plant and equipment, or in respect of interest on the investment. Interest at 5 per cent per annum on the average investment for the year would amount to \$9,500.00; and depreciation at the rate of 3 per cent per annum on the average investment in plant and equipment for the year would amount to \$5,000.00. In this connection it should also be understood that the water and sewer departments are not charged with any amount in respect of administrative salaries or general overhead expenses.

The City furnishes water to the public schools without charge. No revenue has therefore been received from the sewer department, but the City Council now proposes to make monthly charge for sewer rentals.

DISPOSITION OF FUNDS
The money actually received by the City during the year was as follows:

Water Department	\$90,982.24
Tax Collections	59,536.83
Interest on Daily Balances, Fines, Inspection Fees	3,074.74
Money Borrowed on Short Term Warrants	11,000.00
Total	\$104,594.81

The disbursements for the year exceeded the receipts by \$4,868.00, and were as follows:

Operating Expenses	\$11,900.95
Additions to Plant and Equipment	30,276.91
Indebtedness Retired	4,166.66
Interest on Indebtedness	6,828.34
Total Water and Sewer Department	\$53,272.86

Expenses:	
Administrative and General	\$11,545.94
Fire Department	2,232.57
Health Department	556.15
Police Department	5,727.95
Street Department	9,685.90
Half of cost of Foot Bridge across Lone Wolf Creek for Benefit of School Children	130.85
Watchman's Clock System	89.89
Short Term Warrants Retired	11,000.00
Bonds, Deferred Payment Warrants, Notes, Etc. Retired (except water and sewer indebtedness)	10,765.01
Interest on Indebtedness (except Water and Sewer Department)	4,449.29
Total	\$109,463.41

It may be noted from the two preceding statements that the cash expenditures for the water and sewer departments during the year exceeded the receipts from the water department by more than \$22,000.00.

FINANCIAL POSITION
The financial position of the City at April 30, 1929, is set forth in detail in the balance sheet. We made certain changes in the balance sheet as at April 30, 1928, as shown by the preceding auditor's report, and the corrected balance sheet as at that date. The following is a condensed comparative balance sheet as at April 30, 1928 and 1929:

Condensed Comparative Balance Sheet

	1928	April 30 1929
Assets:		
Cash in Bank	\$ 53,119.35	\$ 48,250.75
Accounts Receivable	13,842.70	15,119.07
Fixed Assets	299,681.70	330,279.35
Total	\$366,643.75	\$393,649.17
Liabilities and Surplus:		
Notes Payable	2,166.66	265.00
Paving Assessments Payable	530.01	
Bonds and Deferred Payment Warrants	186,000.00	173,500.00
Surplus (Excess of Assets over Liabilities)	177,947.08	219,884.17
Total	\$366,643.75	\$393,649.17

In connection with our analysis and verification of the accounts relating to assets and liabilities at April 30, 1929, the following comment is submitted:

Cash in Bank
The cash in bank, amounting to \$48,250.75, was verified by a certificate obtained from the depository, the Colorado National Bank. A statement of the balances in the several funds is submitted on another page. The total cash in the several interest and sinking funds amounted to \$40,804.20. The interest and sinking funds are provided for the purpose of retiring the City's outstanding bonds and warrants.

On another page will be found a statement of the interest and sinking fund requirements to December 31, 1929, in comparison with the amounts in the several funds at April 30, 1929. This statement discloses the fact that the cash on hand in the interest and sinking funds at April 30, 1929, was in excess of the requirements to December 31, 1929, by \$33,324.20.

Accounts Receivable

Delinquent Taxes (1923-1928)	\$11,789.57
Water Department	3,293.30
Inspection Fees	36.20
Total	\$15,119.07

Delinquent taxes for years prior to 1923 have not been taken into the accounts. The following is a comparative statement of the delinquent taxes for the years 1923 to 1928 as at April 30, 1928, and 1929:

Year	1928	April 30 1929
1923	\$ 539.99	\$ 504.01
1924	1,015.93	751.71
1925	1,472.09	911.29
1926	2,695.30	1,941.59
1927	5,008.61	1,682.08
1928		5,998.89
Total	\$10,731.92	\$11,789.57

We proved the addition of the 1928 tax roll and prepared a list of the delinquent taxes for the years 1923 to 1928, inclusive.

We prepared a list of the unpaid water accounts amounting to \$3,293.30. Accounts aggregating \$744.35 were past due at the date of the balance sheet. A considerable number of these accounts will probably never be collected.

Fixed Assets
A comparative statement of the fixed assets as at April 30, 1928, and 1929, is submitted.

Additions to the water and sewer systems were made at a cost of \$30,376.91. The City paid half of the cost of a foot bridge across Lone Wolf Creek; amounting to \$130.85; and a watchman's clock system was installed at a cost of \$89.89. The correctness of the balances in the fixed asset accounts as at April 30, 1928, was not confirmed by us.

No provision is being made in the accounts for the depreciation of the fixed assets. The assets were not appraised by us.

Notes and Paving Assessments Payable
The notes payable as at April 30, 1928, amounting to \$2,166.66, were paid off during the year under review. Paving assessments payable were reduced by \$265.01 during the year.

Bonds and Deferred Payment Warrants
Bonds and deferred payment warrants outstanding at April 30, 1929, amounted to \$173,500.00; bonds and warrants aggregating \$12,500.00 having been retired during the year ended April 30, 1929.

We submit a comparative statement of the bonds and warrants outstanding as at April 30, 1928, and 1929.

The bonds and warrants mature serially. The City has the option of paying off all of the refunding bonds, series "A" on March 1, 1935, or on March 1, 1940.

The respective ordinances providing for the Reservoir and Waterworks Extension Bonds and the Sewer Bonds provide that the City has the right to retire any or all of such bonds after October 1, 1931, but cancelled bonds of these issues inspected by us were found to contain no provision for advancing the maturity of the bonds. It is possible that the bonds maturing after October 1, 1931, contain the maturity option clause provided for in the respective ordinances. If such is not the case, the City may be unable to exercise maturity options in respect of these bonds.

On another page will be found a summary of the maturities of the bonds and warrants by years, together with the amount of interest to be paid thereon each year.

Surplus
The surplus as at April 30, 1929, amounted to \$219,884.17. This figure represents the excess of the City's assets over its liabilities at that date.

A statement of the surplus account for the year under review is submitted on another page.

GENERAL
Salaries and Other Forms of Compensation
The following is a statement of the salaries and other forms of compensation of officers and employees of the City in effect at April 30, 1929:

Thos. J. Coffee, Mayor, monthly	\$100.00
Members of City Council:	
Per member for each regular meeting attended	5.00
Per member for each called meeting attended	3.00
L. A. Costin:	
City Secretary, monthly	10.00
Supervisor, monthly	190.00
Tax Assessor, commission of 2 1/2 cents per \$100 of assessed valuations and 5 cents on each poll assessed	
Tax Collector, commission of 2 1/2 per cent of current property taxes collected and 5 per cent of other items collected; also certain costs in the case of delinquent taxes	
Hazel Costin, Bookkeeper and Cashier, monthly	100.00
Dr. P. C. Coleman, Health Officer, monthly	25.00
M. Carter, City Attorney, fees from fines only	100.00
H. S. Hickman, Chief of Police and Fire Marshal, fees from fines and monthly	150.00
Homer Key, Night Police, fees from fines and monthly	100.00
T. A. Hickman, Night Watchman, fees from fines and monthly	100.00
Jack Delaney, Traffic Police, fees from fines and monthly	90.00
Jim White:	
Fire Truck Driver, use of apartment and monthly	100.00

M. T. Coburn, Street Cleaner, monthly	110.00

DEPOSITORY BOND. The Colorado National Bank is the City depository and pays 4 per cent interest on daily balances. Apparently, the contract with the depository has not been renewed for several years. The latest depository bond in the hands of the City Secretary was executed in 1922.

FIDELITY BONDS. The following fidelity bonds were found to be in effect at April 30, 1929:

L. A. Costin, Assessor and Collector of Taxes	\$5,000.00
H. S. Hickman, Chief of Police	1,500.00
M. Carter, City Attorney	2,500.00

INSURANCE. We inspected the insurance policies. A statement of the fire and windstorm insurance in force at April 30, 1929, is submitted on another page. We found that the City did not carry liability and property damage insurance on its cars and trucks.

BOOKKEEPING AND ACCOUNTING. We found that the work on the books had been neatly and accurately performed. The records maintained, however, do not provide classified statements of the assets and liabilities, and revenue and expenses. It is necessary for the auditors to make these classifications in their own working papers each year. We believe that a complete set of accounts should be maintained. In our opinion the value of such a record would justify the expense of installation and maintenance.

REVENUE AND EXPENSE ACCOUNT
For the Year Ended April 30, 1929

Revenue:	
From Taxation:	
Property Taxes (1928 Roll)	\$58,948.09
Property Taxes for years prior to 1923, Interest, Penalties, Costs, and Poll Taxes	1,522.64

LYNN & McCULLOCH.

Rev. Hinds Will Attend Western Methodist Meet
Rev. W. C. Hinds, pastor of the Methodist church, leaves next week for Fayetteville, Arkansas, near which place the Western Methodist assembly will be held at Mount Sequoyah, beginning Monday, July 22.
Rev. Mr. Hinds is a member of the board of directors of the assembly and will attend the encampment in that capacity.

POISON IVY CURE THAT WILL CURE EVERY CASE
If the United States Department of Agriculture never does another thing, its recently announced cure for ivy poisoning is worth all it has cost Uncle Sam. A worker in the department's bureau of research has discovered that common old permanganate of potash, about a 5 per cent solution, will dry up the poison and cure it in a very short time. This is a very simple remedy and it seems peculiar that no doctor had accidentally stumbled upon it long ago.
To one who has gone through endless treatments of copperas water, sweet milk and other things, this announcement will be most welcome. Some people, having once been poisoned, cannot get close to poison ivy without becoming poisoned.
It is stated that the permanganate of potash leaves the skin brown, but this can be removed with a very weak solution of oxalic acid, which is poison and must be made very weak. However, the skin will soon peel off if the patient will have patience and has no heavy dates to fill.
It is stated that this remedy is 100 per cent efficient and has cured every case of ivy poisoning on which

TELLS HOW TO ADD TO FORD COMFORT
Drivers of the Model A Ford car will find it advisable to obtain the maximum of riding comfort in the summer months to make a slight adjustment of the shock absorbers with which the car is equipped, according to T. R. Holmsley of the Colorado Motor Co., Ford agency.
The Ford obtains much of its smoothness on the road from double acting shock absorbers operating entirely on the principle of hydraulic resistance, Holmsley said. The fluid used in the reservoir offers resistance to road shocks by being forced from one chamber to another. In cold weather the fluid has a tendency to thicken, while in warm weather it flows more readily. To compensate for these changes, the shock absorbers are provided with an adjusting needle.
In warm weather, it is advisable to tighten the valve of the shock absorbers so as to give the fluid less play.

NAMES GROW MORE FAMILIAR AS OLD PAPERS COME CLOSER TO PRESENT DAY COLORADO

More familiar to present-day Colorado are the names appearing in the Colorado Spokesman for March 29, 1901, than those in older papers on file at The Record office. Still, near thirty years will make a vast difference anywhere, and they have not failed to lend the enchantment of history in this case.

Don H. Biggers, now a well-known Texas figure in newspaper and political circles, was editor and proprietor of The Spokesman in those days.

Burns & Bell, J. P. Majors, The Favorite Saloon, T. R. Cheatham Drug, Shepherd & Company and Charlie Wilson all had advertisements on the front page of the Spokesman. Other advertisements were Fields Brothers, Johnson and Collins, windmills, McClure, Basden & Co. (furniture), the Star Saloon (A. C. Grant, proprietor), W. H. Meeser (cutlery and tinware), Samuel Gustine, C. A. Goodwin & Co. (successors to Shropshire & Har-

ness.) The City National Bank listed W. R. Smith as its president, J. E. Hooper as cashier, and J. D. Wulfjen as the vice president.

Joe Stokes, who died recently in Big Spring and who was known well in Colorado, had an ad in this issue reading, "Joe Stokes, livery, feed and sale stable, agent for Columbus Buggy Company and Mansur & Tibbetts Buggies."

Local notes appearing on an inside page of the paper were:

"Judge Bell was in town Saturday.

"John Beal is here from Lubbock.

"Mrs. Harness is reported much better.

"Willie Hiler is here from Water Valley.

"Mrs. Tom Van Tuyl is visiting in Abilene.

"Get a square meal at Jake's Restaurant.

"W. T. King has put a telephone in his saloon.

"Jim Mills has returned from Taylor county.

"John Miller was in from the ranch Saturday.

"Martin Beyers has been in Fort Worth this week.

"There are several bad cases of the grip in town.

"A. B. Robertson has returned from Gail.

"Jesse Carpenter was in from Cuthbert Thursday.

"Judges Earnest and Smith have returned from Gail.

"Miss Mary Ruddle, who has been quite sick, is now up.

"Art Bailey has gone to Oklahoma City on a pleasure trip.

"Mr. Read, who is quite well known here, is back on a visit.

"W. L. Beasley was here from the Lone Wolf Mountain last week.

"Mr. and Mrs. J. S. McCall have returned from an extended trip.

"Capt. Shepherd and Judge R. H. Looney have returned from Gail.

"Capt. H. L. Adams of Sango, in Coke county, was here this week.

"Cor. Harness went to Barstow today to be gone about three weeks.

"Mr. and Mrs. Gus O'Keefe have returned from a visit to Ft. Worth.

"The remains of E. T. Brooks were shipped to Kansas City Tuesday.

"A good whiskey always serves a good purpose. I handle no other kind.—Dave Mitchell.

"G. W. McFadden came in from Zolante to meet his daughter, Miss Lela, who returned from Sherman.

"Jake Mauer has closed the deal for the two-story brick building that his restaurant occupies, consideration \$3,000.

"During this term of court at Gail the land case of Crawley vs. Mills was tried. Case was decided in favor of Crawley.

"Sheriff Murray and Jeff Davis, his deputy, were here after John Raymer of Coke. Raymer is wanted for carrying a pistol.

"Sam Arnett was in town the first of the week. Sam is a citizen of Odessa now, but we still get to see him every now and then.

"A few days ago a gentleman who lives at Dunn refused a cash offer of eight dollars an acre for his school land. And some people say this isn't a farming country.

"Mrs. Gardiner, formerly Miss Gene Barron, died in New Orleans on March 14. Mrs. Gardiner has visited here several times, the guest of Miss Lenora Delaney.

"A. B. Hines had a brother from Cleburne visiting him last week. He was here prospecting and has about concluded to invest here, and permanently abide with us.

"Claude Marlowe, one of the old-time business men of Colorado, is

here this week. He is now opening up two bottling works establishments—one in Gainesville and one in Bowie.

"Jim Hill and Dick Arnett are back from a drumming trip. Jim had a very narrow escape from the State health officer, getting away just 30 minutes before that official came in and put on a 60-day quarantine.

"Ex-Lieut. Governor Geo. T. Jester of Corsicana, is wanting to buy several good sections of land in this county. If he makes the purchase he will locate a colony on it, and that is what will help the country.

"Fred Miller last week bought ten acres of land, the old brick yard, from Johnston & Byrne, at \$60. The place is on the river below the bridge. Fred expects to build on it and otherwise improve this year.

"Sheriff Dellinger has added a couple of Tampe, Florida, alligators to his courthouse yard collection. They are about the size of a big lizard, but the sheriff thinks they will keep foreign substances, such as small boys, out of the fountain.

"A telegram was received here on Tuesday by C. M. Adams from Mr. McFadden. It read: "Another gusher found. Trade good. Several of our Colorado men are interested in this particular gusher and we hope they have really struck it."

"C. R. Creighton, who was convicted of seduction in Coke county on a charge of venue from Tom Green county, is having his friends try for a pardon, the petition being circulated here and has some of the best men in town on it.

"Hade Shepherd will open up an exclusive confectionery store next door to the City National Bank on the first of next month. Hade has had several years' experience in a store and will be strictly in his element. He will be especially appreciative of the trade of the young men when they take sweets to the sweet.

"Last Friday the late train brought in several of our young ladies who have been attending the Sherman school. The following are those who returned: Misses Annie Smith, Emma Smith, Fox, Dehla and Josie Robinson, and Janet Roe. Miss Evelyn of Big Spring was so unfortunate as to take smallpox at this school and thus it was broken up.

"Second quarterly conference of the Methodist church was held Monday. The presiding elder, Rev. E. A. Smith, was present. Assessments were pretty well collected. C. W. Simpson, Urda Wulfjen, W. L. Doss, and J. H. Basden were elected delegates to the district conference to be held at Midland next June. T. J. Matthews and C. C. McBurnett were elected alternates. J. D. Wulfjen and W. E. Warren are ex-officio members of the conference.

"J. W. Smith has given Bud Coe the contract to remodel his house. Work has already commenced. Mr. Smith will have a fine roomy residence when it is completed."

WATER IN GASOLINE MAKES THE MOTOR POP

Water in the gasoline may cause the engine to stop suddenly, but usually the stopping is accompanied by a "popping" in the carburetor and a loss of power. Sometimes the water will cause the engine to sort of hesitate a moment, then speed up, and again hesitate. The only way to correct this trouble is to drain the carburetor after gently tapping it.

An Oklahoma Mother Says:

"BLACK-DRAUGHT is a fine medicine to give to children. I use it for mine whenever I need to give them a laxative. They don't mind taking it when I make it into a tea, and it quickly relieves constipation and the bad symptoms which come from it. I can recommend it to other mothers, for I have found it useful in my home.

"When I was a child my mother gave it to me whenever I complained of not feeling well. I have always taken it for upset stomach and constipation. It is about the only medicine I have to take. A few doses of Black-Draught, now and then, keep my system in order. My husband takes it, too. I hardly see how I could keep house without Black-Draught. It has become a standby with us, in keeping the children and ourselves well."—Mrs. Luther Brassfield, Claremore, Okla.

Whipkey's BLACK-DRAUGHT For Constipation, Indigestion, Biliousness

Women who need a tonic should take CARDUI. In use over 50 years.

NOTHING LIKE IT ON EARTH SAYS ABILENE FARMER

I Have Gained 20 Pounds Since Taking 3 Bottles of Orgatone Says Johnson

"I feel better than I have in years and have actually gained 20 pounds since I began taking Orgatone," said W. T. Johnson, living on rural route 1, Abilene, Texas, a local and prominent farmer, while talking with the Orgatone man about his experience with Orgatone.

"For several years," he continued, "my stomach was in a very bad condition, my appetite left me and I was gradually losing weight. I was far below par in my physical condition, and I had very severe headaches that would almost drive me distracted. I would cramp from the gas forming on my stomach and pressing around my heart. I was up and down many times during the night and got very little rest. For the past four years I have been taking very strong laxatives for constipation, but nothing ever relieved me, but temporarily. I tried everything I heard of but nothing ever got me back in shape and I kept gradually getting worse and in a very run-down and weak condition.

"I began reading in the papers where Orgatone had helped so many people and began taking it. I have taken three bottles and feel like a different person. I'm never bothered with indigestion or constipation

PORCH AND WINDOW Awnings

Auto Tops, Seat Covers Saddlery and Harness

H. H. Herrington

any more. I sleep like a log every night and haven't had one of my severe headaches since the first half bottle. I have gained in weight and am still gaining and will continue taking Orgatone as long as I can get it. I think there is nothing like it on earth. It has done me a world of good, and I sincerely think it is the best thing a man can take, when he is feeling bad and in a weak, run-down condition as I was. Anyone

will not make a mistake by taking Orgatone.

Genuine Orgatone may be obtained in Colorado at the Colorado Drug and the City Drug stores. Adv.-It

FORD DEALERS' SELLING PRICES

ON USED CARS ARE LOW

Why not get a used car for the second car your family has been needing? Most of the cars we have accepted for trade-in on new Fords have a generous number of miles left in them—miles of unused transportation at a price you can easily afford.

You'll find our used-car prices low because there is no "price padding" to make up for high trade-in allowances. The price of the Model A Ford is so low, and the value so high, that excessive trade-in concessions are impossible. That, and our reputation for fair-dealing which we value so highly, protect you when you buy a used car from us.

When we offer a Model T Ford for resale it has been thoroughly reconditioned. New parts wherever needed; everything properly tightened and adjusted—and with it goes a guarantee. We have a number of these reconditioned Fords now. Also several cars of other makes, priced according to the unused transportation they offer. Let us prove our prices.

Gubernatorial Campaign Will Be Hot Affair

Fight Between Love and Miller and Neff and Mayfield Is Expected

AUSTIN, July 16.—The Texas gubernatorial campaign is on in earnest seven or eight months ahead of time, with six candidates already in the field, with several more soon to announce and with a dog fight starting between two pairs in the contest.

The dog fight, for such it will turn out to be according to those in touch with the situation, will see Thomas B. Love and Barry Miller paired off together, while the scrap between Earle B. Mayfield and Pat M. Neff will be even more strenuous.

Love and Miller are residents of Dallas, the former a State senator, the latter lieutenant governor; the former a Hoovercrat and die-hard dry, the latter a Smith supporter and regarded as a wet. They have been political opponents for more than 20 years.

Mayfield is former United States senator. Pat Neff was formerly a member of the federal mediation board. Mayfield is credited with having obtained the office for Neff, and a few months ago managed to have him ousted. So Neff is threatening to take the stump against Mayfield and run for governor himself if it appears that the former senator stands a chance of winning. This will be a political grudge fight, with all Texas demanding ringside seats. Before he got his federal job, Neff had

served two terms as governor of Texas.

Hasn't Yet Announced Mayfield has not yet announced but many of his close personal and political friends say he will enter, and it is known that he has had many conferences on the subject lately. Last summer Congressman Tom Connally defeated him for the senate.

Mayfield and Love will draw largely from the same bloc of votes, which will cut each down, both appealing to the anti-Smith element and the dwindling strength of the Ku Klux Klan, now almost ancient history. The story goes, confirmed at many sources, that Mayfield got the \$12,000 position for Neff, fearing the latter would make a formidable opponent for the senate. But when Connally and Mayfield contested for that honor, Neff supported Connally. The senate, out of regard for senatorial courtesy, refused to confirm Neff when Mayfield objected. Now Neff wants his turn at this game of tit for tat.

Love "Anti-Tammanyite" Never a week went by during the four sessions of the legislature that Tom Love did not arise and hurl defiance at "Tammanyites" and the pro Smith crowd and claim much credit for having carried Texas for Hoover. Resolutions he sent up bearing on this situation were all promptly defeated, the senate majority not having enlisted in the Hoovercrat camp. And the Smith-Hoover struggle point when he takes to the stump, take it from Love.

This gives rise to a situation in Texas that is simply this: The State is weary of the Klan and the Hoover-Smith issues. It wants economical issues that will aid in the development of Texas. There are plenty of them. There is a hue and cry for a leader who will take off his coat on plans for developing resources of the State and solving some of its problems, revenues, developing resources, State bond issue, industrial and agricultural upbuilding.

Woodward Good Man For this reason Senator Walter C. Woodward of Coleman, who has been active in such issues, is receiving urgent appeals to make the race, and he has just about decided to throw his sombrero into the ring. He is 46 years old, has served in the senate several times, supported Smith, is a dry and has taken a leading part in the development of 120 western counties.

Those candidates who have announced include Tom Love, T. N. Mauritz of Ganado, author of the income tax bill that was defeated; Oscar Holcombe, former mayor of Houston; E. G. Senter, a Dallas lawyer; Miss Kate Daffan, a historian and writer; Barry Miller has not yet formally announced, but it is known he is a candidate, and one having a good chance. His popularity during the Smith-Hoover campaign last summer put him in the third time as lieutenant governor in spite of the fact that he is wet and pro-Smith.

Shyster Required Lawyer—All right, I'll take the case. I feel assured that I can get you justice. Litigant—Well, if that's the best you can do I'd better get another lawyer.

How She Would Tell Willie and Jack were two youngsters pugilistically inclined. "Aw," said Willie, "you are afraid to fight; that's all it is." "Naw, I'm not," protested Jack, "but if I fight, my ma'll find it out and lick me." "How'll she find it out, eh?" "She'll see the doctor going to your house."

Record-Want Ads for Results.

CITATION BY PUBLICATION

THE STATE OF TEXAS To the Sheriff of Any Constable of Mitchell County—Greeting: You are hereby commanded, that you summon, by making publication of this Citation in some newspaper published in the County of Mitchell, for four consecutive weeks previous to the return day hereof, Mrs. Macie T. Terry, Mrs. Fannie McCoy, Jim McCoy, S. M. Taylor, Lee Shugart, the children of Lelia P. Shugart, deceased, whose names are to plaintiffs unknown; J. Mort Taylor, John L. Taylor, Mary N. Taylor, Lucy Taylor, Randall Taylor, Clifton Taylor, James Hays Taylor, Mary Muir, Nat Muir, Gilbert Taylor, Mrs. John W. Hughes, Fannie Huguey, James H. Robinson, William T. Robinson, Chas. W. Robinson, Mrs. R. C. Sauffley, William Robinson, Sam Holding, Luzell Allen and Allen, husband of Luzell Allen, who are alleged to be non-residents of the State of Texas, to be and appear before the Hon. District Court of the 32nd Judicial District of the State of Texas, in Mitchell County, Texas, at the next regular term thereof, to be held in the County of Mitchell, at the courthouse thereof, in Colorado, Texas, on the 21st day of October, A. D. 1929, then and there to answer a Petition filed in said Court, on the 8th day of July, A. D. 1929, in a suit numbered on the Docket of said Court No. 5183, wherein J. Clark Taylor, Sr., Leonard Taylor, and Mrs. V. A. Hodge are plaintiffs, and The City National Bank of Colorado,

Mitchell Co., Texas, The First National Bank of Plainview, Hale County, Texas, and Mrs. Macie T. Terry, Mrs. Fannie McCoy, Jim McCoy, S. M. Taylor, Lee Shugart, the children of Lelia P. Shugart, deceased, whose names are to plaintiffs unknown; J. Mort Taylor, John L. Taylor, Mary N. Taylor, Lucy Taylor, Randall Taylor, Clifton Taylor, James Hays Taylor, Mary Muir, Nat Muir, Gilbert Taylor, Mrs. John W. Hughes, Fannie Huguey, James H. Robinson, William T. Robinson, Chas. W. Robinson, Mrs. R. C. Sauffley, William Robinson, Sam Holding, Luzell Allen and husband, Allen, non residents of the State of Texas, are defendants. The nature of plaintiff's demand being as follows, to-wit:

Suit for partition of the funds and notes in the City National Bank of Colorado, Mitchell County, Texas, and in the First National Bank of Plainview, Texas, belonging to the estate of John Taylor, deceased, alleged to amount to about the sum of \$70,000.00. Plaintiff alleges that they, together, own an undivided three-fourteenth (3-14) interest in said estate, and that the residue thereof belongs to and is owned by the defendants, respectively, except said two banks above named, which have and hold possession of the funds and notes of said John Taylor estate. Plaintiffs pray for process for all of said defendants, and for judgment partitioning the funds and notes aforesaid, and costs of suit. Plaintiffs allege that all of said defendants are non-residents of the State of Texas, except said banks, one of which resides and has its bank and office in Plainview, Hale County, Texas. Plaintiffs also pray for the appointment of a receiver and writs of injunction restraining the removal of said funds and notes from said two banks.

Herein Fail Not, And have you before said Court, on the said first day of the next term thereof, this writ, with your endorsement therein, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Colorado, Texas, this 9th day of July, A. D. 1929.

J. LEE JONES, Clerk District Court, Mitchell Co., Texas. (SEAL) 8-9c

CITATION BY PUBLICATION

THE STATE OF TEXAS To the Sheriff or Any Constable of Mitchell County—Greeting:

Oath having been made as required by law, you are hereby commanded to summon W. A. Kilo, B. J. Phillips, W. W. Evert and R. H. Phillips, doing business under the general partnership of the Lone Wolf Gin Company by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the Justices Court of Precinct No. 1, Mitchell County, to be holden at Colorado in said Mitchell County, on the 29 day of July A. D. 1929, then and there to answer a petition filed

in said Court on the 17 day of June A. D. 1929, in a suit numbered on the docket of said Court No. 3743, wherein J. B. Pritchett is Plaintiff, and W. A. Kilo, B. J. Phillips, W. W. Evert and R. H. Phillips, doing business under the general partnership name of the Lone Wolf Gin Company, are defendants, and said petition alleging that on or about the 6 day of December, 1927, the defendants of the Lone Wolf Gin Company by W. A. Kilo, executed and delivered to this plaintiff one certain promissory note dated as aforesaid and due and payable to the plaintiff Oct. 12, 1928; bearing interest from date at the rate of ten per cent per annum payable at Colorado, Texas, and provid-

law for ten per cent attorneys fees on stipulated conditions. Plaintiff prays for judgment for the amount due and for general relief.

Herein fail not, but have you before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness W. S. Stoneham, Justice of the Peace for Precinct No. 1, Mitchell County.

Given under my official signature, at office in Colorado, this the 25 day of Precinct No. 1, Mitchell Co., Texas, of June, A. D. 1929.

W. S. STONEHAM, Justice of the Peace 7-12c

DON'T let the excessive mileage quality of the Dual-Balloon keep you from enjoying its many economies. Even if you drive only eight or ten thousand miles a year there is a tremendous advantage for you in buying the great reserve of mileage built into the Dual-Balloon. It means reserve strength, extra safety, the best guarantee in the world against accident and tire worry of every kind.

Now that the market affords the best for so little, more than ever the big swing is to Generals.

Womack & Neff New Dual Balloon Tires The New GENERAL Dual-Balloon B

YOUR speedometer wants to tell a story—and it's a story with a happy ending, too. It wants to show you just how much extra mileage is really packed into Conoco Gasoline. So give it a chance.

Note your mileage the next time you fill with Conoco—then keep an accurate record of your miles per gallon. That's the way to prove to your own satisfaction that Conoco is the real low cost economy fuel for summer driving.

Look for the sign of the Continental Soldier—it's the symbol of extra miles. Back of that sign stand the resources and experience of an organization which has been serving the public with petroleum products for almost half a century.

CONTINENTAL OIL COMPANY Producers, Refiners and Marketers of high-grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming

An advertisement for Gulf Venom insecticide. It features a large illustration of a mosquito and other insects. Text includes: 'kills flies, mosquitoes, bed-bugs, moths, roaches and other insects', 'all good dealers', and 'GULF Venom GULF REFINING COMPANY'.

FOOD ECONOMY REIGNS HERE

We're here to prove that tasty, wholesome food and exorbitant prices are not necessarily inseparable. In fact these appetizing bargains will convince you that you can truly secure top-notch quality without undue expense at—

Texaco Product Corporation Has Write Up In Wall Street Journal

A write-up on the broad growth attained by the Texas Corporation, manufacturers of Texaco products for which John Brown is agent in Colorado, appeared in the Wall Street Journal, New York publication, on Wednesday, May 1.

The article is one of several discussing the oil business in general and its more important units. It designates the Texas Corporation as the "leading U. S. Oil Independent." Emphasis is laid on the fact by Mr. Brown that this corporation is not a branch of the Standard Oil Co. A part of the article follows:

"The Texas Corp. is the first and only oil unit to develop nationwide distribution of a general line of petroleum products since the U. S. Supreme Court ordered the segregation of the Standard Oil Co. of N. J. in 1911.

"This unique feature along with its 27-year record of growth to one of the leading American industrial enterprises makes the Texas Corp. of particular interest in any consideration of the oil industry.

"Here is an organization which outranks all independent American oil units in size of properties, operations and earnings. It stands as one of the five biggest oil companies in the world.

"Its present status is the result of constant reinvestment of surplus earnings and of new capital from the modest start by John W. Gates and associates in 1902. The initial capital of \$1,650,000 (of which \$400,000 was cash) has grown to a point where the present Texas Corp. represents an aggregate investment of \$585,622,278.

"For years it has grown through the oil business through this reinvestment of reserves, surplus profits and stockholders' subscriptions to new shares. But its broadest and most remarkable expansion has taken place in recent years under R. C. Holmes, the president. Total new investment in 1928 of \$62,389,880 was the largest in any year. In the past five years, aggregate new investment was \$195,000,000.

Wide Sphere of Influence and Operations

"Under the present executive head, the Texas Corp.'s expansion has been on a broader scope than that of any other oil unit. This period has witnessed the extension of its sphere of influence until today it operates all over the United States, in Canada and many foreign countries.

"Though last year's profits of \$45,073,879, equal to \$5.34 a share on 8,443,354 shares, were the largest on record, they only partly reflect the unusually large new investment made last year. This because the outlay of more than \$62,000,000 for property expansion was made during various periods of 1928 and there was not sufficient time to dovetail the entire operation. Further, the California Petroleum properties acquired in 1928 resulted in only nominal profits last year due to substantial adjustments in accounting and the time required to accomplish the economies this acquisition should permit."

SPADE REVIVAL CLOSED SUNDAY

The Methodist revival held at Spade last week closed Sunday night. Rev. F. O. Garner, circuit pastor of Colorado, conducted the meeting and was assisted by Rev. W. C. Hinds, pastor of the Methodist church in Colorado.

Interest in the meeting was good, the two pastors stated, but it was short because of urgent work on farms in the community.

NOLAN RANCHERS ARE TO FIGHT WOLVES

(Nolan County News)

By the first of September four full-time trappers will be at work in Nolan county to rid this section of wolves and put a halt to the huge losses suffered by cattle and sheep men, it was announced this week following a conference of 15 prominent ranchmen Wednesday.

At the session, \$500 was paid by those present and more will be forthcoming from others, to finance a drive against the coyote population of the county this fall.

Under the plan of the Nolan County Wolf club, the various members will pay \$26.50 per section per year toward the employment of trappers, it was stated at the meeting.

The Wolf Club will employ two full-time trappers, a third will continue to be furnished by the county and the fourth will be paid by the State and Federal governments. Appropriations by the State for this work are not now available, but will be after Sept. 1, it was announced.

ENGINEER EXPLAINS SOURCE OF POWER IN CHEVROLET SIX

"The unusual power found in the new Chevrolet six has been explained by James M. Crawford, engineer for the Chevrolet Motor Company," J. B. Mills of the Mills Chevrolet Company said yesterday.

"According to Mr. Crawford, the abundance of power found in the new Chevrolet six is made possible by its short stroke engine design, which embodies an advanced method of cooling," Mr. Mills said. "This construction brings water around both inlet and exhaust valve seats. It differs radically from the Siamese or twin system of valve ports, and make for greater durability of the valve train.

"In the Chevrolet six design there has been plenty of room allowed for water completely around all the valves, both on account of the piston

OAKLAND OUTPUT IN FIRST FIVE MONTHS SHOWS BIG GROWTH

Sales of new Oakland and Pontiac sixes for the first five months of this year totaled more than 55 per cent of the entire output during the 12 months of 1928, according to information received by A. J. Herrington, Oakland-Pontiac agent here, from W. R. Tracy, vice president in charge of sales of the Oakland Motor Car Company. As a result of the volume achieved to date Mr. Tracy reported that every indication points to a new high record for the year, substantially exceeding the previous record of 262,000 units sold during 1928.

Despite a three-day vacation shutdown of the plant during the latter part of May, shipments for the month were 28,444 New Oakland All-Americans and Pontiac Six Sixes, according to Mr. Tracy.

The high May figure brings the number of cars shipped to dealers during the first five months of 1929 to 145,868 units, a gain of 11 per cent over the 131,303 cars shipped in the same period last year.

THE RESERVES SAVE the DAY

Your dollars are like an army. They are always out fighting for you, but when the "regulars" drop by the wayside you must call upon the reserves. A well-tended savings account affords a splendid reserve force—prepared at any minute to meet an emergency. Every general, every baseball manager, knows the value of adequate reserve strength. Do you?
