Healthy As Well As Sick Should Use

I have used Crazy Crystals only a short period, but have come to the conclusion that the healthy as well as the sick should use CRAZY CRYSTALS. Not only the sick and run down system should have it; but also the healthy ones wwho are interested in saving their health. I noticed the first few days I started the treatment that it refreshed my kidneys. Second, I noticed it took effect on the bladder. Third, it works the bowels gently and free-ly. I also fidn that it clears a person's complexion.

If Good For Port Arthur---Why Not For Colorado?

The following letter appeared recently in the Port Arthur, (Tex.) News. It is given here as evidence of the awakening interest of the public, especially women, in the laundry industry as an employer

"To the News: I have been reading various letters written from time to time by our citizens regarding he unemployment situation, and I especially noted those pertaining to the laundries and cleaning and I especially hoted those pertaining to the laundries and cleaning and pressing plants. While I have been a patron of Port Arthur laundries and cleaning and pressing plants for several years; in fact since my residence here, I did not fully realize until reading a letter printed in your 'Letter Box' column several weeks ago, that they rank among our outstanding industries in the number of employed and their local purchases, and I agree that our citizens should help relieve the unemployed situaation bby sending our laundry and cleaning and pressing to institutions that employ Port Arthur help, and boost Port Arthur affairs. Besides which, I know that our laundries and cleaning and pressing shops do good work. Further, I think that every citizen living in Port Arthur owes it to himself to help make his town the best possible place to live in, and to be in accord with every beneficial movement and do as much materially as possible, and in this instance we could accomplish a great deal towards helping the unemployed by patronizing local industries .-- Mrs. R. O. Sandel."

When you patronize the Colorado Laundry you are furnishing employment for 14 citizens of Colorado.

These 14 employes are supporting 47 persons with the wages they receive from this Laundry.

We furnish you first class laundry service that can be depended upon regardless of the weather. Why not use one of our several services, any of which guarantees you a clean, sanitary bundle that can not be matched—only by Steam Laundry.
