

## 'RECORD TELLS STORY OF STEWARDSHIP,' ANDREW M. HOWSLEY SAYS OF ATTACK

### Senate Candidate Replies To Statements Circulated By His Opponent

Asserting that an investigation of his stewardship as recorded in the House Journal would vindicate him of the charge of being allied with high tax proponents, Andrew M. Howsley of Albany, candidate for the senate, came to Colorado Wednesday to let the record speak for itself in answering attack made upon him recently in circulars distributed here and at other places in the district by Oliver Cunningham of Abilene, his opponent.

"Mr. Cunningham makes no reference in his circular to the fact that he introduced a bill in the 42nd legislature providing that the legislature may levy taxes to acquire, maintain and operate the electric utility corporation holdings in Texas. This is Senate Joint Resolution No. 14. Look at the record for yourself. Such a bond would have entailed many millions of dollars expense. There was no limit as to the amount of bonds to be authorized.

"My opponent failed in his circular to state that he introduced a bill to authorize the issuance of \$50,000,000 in bonds to finance a proposed farm board in Texas. Refer to Senate Joint Resolution No. 11. This bill provided that the fifty millions was to be liquidated through levying of one dollar per bale on every bale of cotton ginned in Texas until the huge amount had been cleared."

Howsley, holding a copy of the Senate journal in his hand, invited any interested person to see for himself just how many times the present senator was absent from roll call during the 42nd legislature. "The Journal gives us the information that he was absent 237 times. This does not include his attendance record during the 41st legislature."

Howsley made several references, as recorded in the house journal where he had fought against measures that would have increased the tax burden in Texas. He read the following from the Austin American for September 13, 1931:

"Representative A. M. Howsley worked all night for two nights and through several days in revising the intricately difficult educational bill, for the reduction of more than a million dollars."

Howsley made reference to the House and Senate journals as to position of himself and Cunningham on House Bill No. 312, providing that policies of county commissioners courts in issuing fine warrants be regulated. This bill provided that after passage no commissioner court should be authorized to issue time warrants without a vote of the people approving the same. "The record shows that Howsley voted for that bill and Cunningham voted against it," Howsley declared.

"I have consistently fought to relieve the burden of taxation as now effects the property owner, especially the small home owner, and the man who tills our soil and had hoped to conduct my campaign strictly upon my merits without any prejudices being injected," Howsley stated. "And I am not now seeking one single vote upon the demerits of either of my opponents. I shall continue to stand on my record as a member of the House and feel confident that the people of this senatorial district will sustain that record when they go to the polls on July 23."

Howsley left Thursday for points in east side of the district. He stated that he probably would not be able to visit Mitchell county again before the election. His father, 81 years of age, is seriously ill in a Dallas hospital and he is spending some time there.

## CANDIDATES FOR DISTRICT JUDGE ADDRESS MITCHELL COUNTY VOTERS SATURDAY

### Mauzey and Brooks Speak To Crowds Assembled On Walnut Street

Judge A. S. Mauzey and Judge Jas. T. Brooks, candidates for the office of 32nd district judge, addressed local voters Saturday afternoon in interest of their respective candidacies. The men spoke from Walnut street, using a public address system brought to Colorado by Judge Brooks from his home in Big Spring.

There has developed no issues in this campaign. In this appeal for votes, like former occasions in which the two candidates spoke, neither has attacked the other. Both are letting it be known that their candidacies are based solely upon the individual merits of himself.

Judge Mauzey, present incumbent, was the first speaker. Briefly he made reference to his record as judge of the 32nd district court during the past few months he has held the office and invited consideration of the voters solely upon his record.

Judge Brooks entered into a resume of his record as a member of the bar at Big Spring for twenty-five years, during which time he has held the office of county attorney of Howard county, mayor of Big Spring, attorney for the 32nd judicial district and now judge of the special 32nd district court.

## Liquor Question Commanded Attention of The Public on Election Eve 21 Years Ago

Citizens of Mitchell county were not concerned as to whether or not the 18th Amendment should be repealed as The Record for July 14, 1911, went to press. There was no such amendment to the National constitution at that time. They were considerably aroused, however, over the liquor issue as eve of the State-wide prohibition election to be held on July 22, just one week in the future, was at hand.

Two county-wide rallies sponsored by "the hands that rock the cradle" were arranged for that week. The first rally was to be held on Sunday afternoon at the tabernacle with Oliver Wayne Stewart well known orator of that time, as the speaker. The second rally was to be held on Friday, July 21, on the eve of the election the next day.

The Record devoted considerable space in its news columns to discussion of the liquor traffic that week. The newspaper was giving the cause of prohibition every possible support and at the same time taking issue with interests said to be allied with the liquor traffic. Editorials from scores of leading dailies throughout the country, showing evil effects of drink upon society, were reprinted, along pertinent statements, credited to some of the country's best informed men and women.

Featuring Colorado's final thrust at the open saloon was a spectacular parade in which motor cars (every one in town) 100 horse back riders and even bicyclists were to participate. This was pictured as the big

great parade ever witnessed here. Merchants were requested to have decorated floats in this line of march. The Colorado band, even in those days among the best in the State, led the moving caravan through the streets.

The Colorado Steam Laundry, under management of J. T. Davis, had recently been rebuilt into one of the best in this section, according to The Record for that week. New equipment had been installed throughout. The plant was located on Oak street across from the electric utility offices.

Good progress was being made on the new high school building. The concrete foundation was about complete and soon brick layers would begin the work of raising outside walls.

Plans for entertaining the West Texas I. O. O. F. convention at Colorado in August were being formulated by members of the host fraternity. The annual meeting was to be convened here on August 9 and 10. More than 200 delegates were expected to attend.

Considerable excitement was occasioned at site of the new school building one day that week when George Waller, a laborer, was buried alive under several feet of soft earth. He was working in excavation trench for the building foundation when the earth avalanche covered him. Fellow workmen soon got the man out and succeeded in reviving him.

## NEW HIGH RECORD IN ROW CROP PRODUCTION TO BE SET BY MITCHELL FARMS

### Small Grain, Too, Produced Heavy Yields From This Year's Acreage

Mitchell county farmers are maturing the best feed and grain crop ever grown in the county. At any rate such is the claim being advanced from reliable sources.

Maize, kaffir, Indian corn and other row crops throughout the county are said to be better than ever known since agriculture first became an industry in these parts. Wheat, oats and other small grain acreage, already harvested, produced heavy yields.

Not only are the farmers maturing a record feed and grain crop but truck and family gardens are said to have flourished in 1932 as never before. The county agent remarked Monday morning that he would have never believed that so many peas could have been grown in any one year, had he not seen for himself.

Literally thousands of cans of corn and other vegetables are being canned this week for future consumption. Demonstration clubs in every part of the county, along with scores of other farm women not identified with these organizations, are making the task of putting up these delectable foods the order of the day.

Cotton crops, too, throughout the county are reported in excellent condition. All that will keep Mitchell county from harvesting 40,000 bales this fall is damage from insect infestation or other causes.

Cotton acreage in this county is down somewhat from that of last year. It is believed that the State average of ten per cent will obtain here.

"I do not believe that man will actually have room enough on the ground to stack that feed," was the remark of a Colorado man while being driven through one of the well developed agricultural communities near Colorado Friday. "I have never seen such fine crops in all my life, and I have been around here for several years."

## MITCHELL COUNTY VOTERS MAY EXPRESS VIEWS UPON 18TH AMENDMENT REPEAL

### Ballots Furnished By State Executive Committee to All Local Boxes

Mitchell county voters participating in primary election July 23 may give expression to their views on the 18th Amendment, it was stated Thursday afternoon by J. A. Buchanan, chairman of the county executive committee. Ballots furnished by the State executive committee were recently received here and are being supplied to every voting box in the county.

The ballots are separate from the regulation ballot from which party nominees for the various precinct, county, and State offices are to be named. Purpose of the referendum vote is to determine attitude of the people of Texas on the 18th Amendment, about which both the major political parties have been grievously concerned during the recent months.

## Iatan School Given Additional Credits On 1932 Record

The Iatan rural high school has recently been awarded four and one-half units of affiliated credits by the State department of public education, placing total number of these units at fourteen and one-half. Credits were obtained in the following subjects: Typewriting, American history, English literature, trigonometry, and commercial geography.

The Iatan school among the smallest high schools in Texas, has made excellent progress during the past few years. Mack Fisher is superintendent.

## 'WORK OR MOVE ON' IS BIG SPRING'S MANDATE

Moving to discourage transients from making their town a "bum's jungle," Big Spring authorities, including the sheriff's department, police and rail solicitors, have announced that all transients picked up there will be put to work on the rock pile, cleaning storm sewers, cleaning up the park or doing such manual labor as the county or city may suggest.

## STERLING PETITIONED TO CONVENE LEGISLATURE IN SPECIAL RELIEF SESSION

### Taxpayers Meet Here Upon Call of County Judge To Discuss Plan

Citing that an imperative emergency threatened to materially affect every taxpayer of this and other counties of Texas unless effective relief measures were authorized at Austin, County Judge A. F. King and other speakers Friday night urged the Governor to convene the legislature in special session for the purpose of converting one-cent of the gasoline tax to retire existing road bonds. The speakers were addressing some fifty or sixty citizens who were present to attend county-wide mass meeting to consider the tax problem.

Judge King, who earlier during the week had issued call for the meeting, presided. Senator Oliver Cunningham of Abilene and Representative Will H. Scott of Sweetwater were both present and addressed the meeting. Both promised to attend the special session, if called by Governor Sterling, and vote in favor of the proposed legislation.

Cunningham declared that he had always been in favor of such a measure. "I claim to be the first man west of Fort Worth to support a biennial appropriation from the gasoline tax to relieve the county's tax burden," Cunningham said. "I voted for the Coke-Silverman bill more than a year ago and supported a similar bill in the last Senate."

County Attorney W. H. Garrett advised caution in the proceedings, suggested, as he felt it would be impossible to realize the aid sought during the year. The tax levy must be made during August and the legislature hardly has time now in which to convene and place the proposed act in operation before that time, he pointed out. The county attorney praised the commissioners' court for doing everything within its power to keep the tax burden down in this county.

J. C. Hall of Lorraine, a former Mitchell county judge and later a member of the lower house at Austin, was another speaker. Hall strongly urged support of the demand that Governor Sterling be called upon to call the legislature in session now to consider the relief so urgently needed.

Petitions requesting the special session were circulated among those present. Similar petitions were taken to Lorraine and Westbrook. Governor Sterling, in an address at Mineral Wells last week, stated that he had decided to convene the legislature during the fall. He made no reference to this matter in his address at Colorado Thursday afternoon.

## BAPTIST WORKERS IN SESSION AT PLEASANT HILL CHURCH TUESDAY

Monthly session of the Mitchell-Scurry Baptist Workers' Conference was held Tuesday with the Pleasant Hill church in Scurry county. Pastors and lay leaders attending expressed confidence that program of the church for the immediate future would find adequate support among its membership.

Among Colorado Baptists attending the meeting were Mr. and Mrs. F. B. Whipkey, Mesdames Jack Smith, C. P. Gary, and Alexander. The August meeting is to be held at North Champion church, Mitchell county.

## 'FIFTY-FIFTY' PLAN OF CANNING PEAS OFFERED BY DEMONSTRATION AGT

The "fifty-fifty" exchange plan for canning vegetables has proved of such popularity that the home demonstration agent, Miss Abbie Sevier, has made arrangements through which any interested citizen may obtain quantities of peas on the basis of furnishing the cans for one-half of the amount put up.

The peas are to be harvested by Mexicans and delivered to the court house. Here Miss Sevier is to personally supervise the canning. Every container will be filled with select vegetables under the most sanitary conditions.

## Colorado Business Man's Mother Dies At Wills Point, Tex.

Mrs. R. P. Whitaker, 69, mother of G. W. Whitaker, Colorado business man, died Friday afternoon at the family residence in Wills Point following a brief illness. Funeral rites were conducted at the graveside in White Rose cemetery, Wills Point, Saturday afternoon at four o'clock with Rev. Wallace Goode, Baptist pastor, in charge. Mr. Whitaker and family returned the first of last week from Wills Point where they had gone to be with their mother. She was stricken Saturday, July 2, but rallied in a few days. Mr. Whitaker returned to Wills Point Friday afternoon after receiving information that his mother was sinking.

Deceased was a pioneer resident of Wills Point. She and husband came to that community thirty-six years ago from North Carolina. Her husband and eleven children survive.

## CROP BORROWER ALLOWED HARVEST EXPENSE UNDER PLAN ACCEPTED BY HYDE

### Area Representative Details Particulars Effecting Loan Payment

Recent announcement from Washington quoting Secretary Hyde of the department of agriculture that definite allowance for harvest expense on 1932 secured government crop loans had been authorized was explained more fully here Monday by A. M. Cooper of Sweetwater, field inspector for the government, having these loans in charge for this territory.

The harvest allowance does not in any way affect mortgage held by the government on these crops, Cooper declared. "The government continues to hold mortgage on all crops grown by any person who secured a government loan. Grain, row crops, truck and others I might mention are all included, and none of these are to be disposed of without making remittance to the government therefrom as the terms of contract provides."

Secretary Hyde's announcement, as given by Mr. Cooper, follows: "To provide for necessary items of harvesting expense, borrowers of government crop production loans will be permitted under certain conditions to use not to exceed four cents per bushel from the sales of wheat and rye, and not to exceed two cents per bushel from the sales of oats and barley."

It will be seen that the allowance will be of small benefit to planters in this immediate area. Cooper explained that the federal loan office operating under direction of Secretary Hyde holds mortgage on all grain crops produced by the borrower and "proceeds from sale of any grain must be used toward paying off the government loan before any other bills may be paid."

## CANDIDATES REDOUBLE EFFORTS WITH ONLY 1 WEEK UNTIL ELECTION

Candidates for precinct, county, district and state offices are redoubling their efforts as time for the democratic primary election approaches. Only one more week now remains in which these smiling citizens may carry their appeal for votes to the people.

As to the local horizon, politics in Mitchell county are not "so hot." Competition, to be sure, is waxing keen in a number of precinct and county races, but the candidates and their friends are not making much noise. Most of the loud talking heard from the street corner has to do with state candidates.

But little oratory has been expended by the county and precinct candidates this year. Quite an array of campaign speakers have appeared before Colorado audiences, but these have been candidates out after state offices. Governor Sterling and Tom Hunter, opposing the governor, are two gubernatorial aspirants who have spoken here.

## MURDER CHARGES BOOKED AGAINST NOLAN CO. MAN FOLLOWING WIFE'S DEATH

### L. M. Parks Drowned Spouse In Lake Trammell Says Indictment Count

L. M. Parks, Sweetwater business man charged with the murder of his wife by drowning in the waters of Lake Trammell Friday afternoon, continues to maintain his innocence, District Attorney George H. Mahon stated to The Record in a telephone conversation from Sweetwater Thursday afternoon. Mr. Mahon has been busy on the case during most of the week. He returned to Sweetwater Thursday morning after spending the night here with his family.

Date for preliminary hearing had not been definitely agreed upon Thursday afternoon, Mr. Mahon stated. He expressed the belief, however, that Parks might be arraigned either that afternoon or Friday. The defendant has been held in the Nolan county jail since his arrest at midnight Monday.

SWEETWATER, JULY 12.—L. M. Parks, 47, is in the Nolan county jail, formally charged with murder in connection with the drowning of his wife late last Friday afternoon at Lake Trammell.

The formal complaint of murder, filed last night about 12 o'clock, was announced this morning by George Mahon, district attorney.

The formal charge reads: "That on or about the eighth day of July, 1932, in Nolan county, Texas, L. M. Parks did unlawfully and voluntarily and with malice aforethought kill Mrs. L. M. Parks by drowning her in the water."

The charge was filed in Judge L. W. Brashear's justice court before County Attorney George Outlaw. The complaint was signed by Jack Yarborough, of the city police department.

Investigations started in a quiet way immediately following the drowning, the district attorney said.

On June 24 a \$3,000 insurance policy for Mrs. Parks was taken out in the Metropolitan, on July 1 a \$5,000 policy was taken out in the Texas Mutual and on July 2, a \$1,000 policy was taken out in the Sweetwater Mutual insurance company, all in the name of Mrs. Parks. He is named as beneficiary in the policies.

District Attorney Mahon arrived here shortly after 3 o'clock yesterday afternoon, when Parks was taken into custody and joined local officers in talking with Parks in connection with inquest proceedings.

He denies the charges, explaining he had gone to the parked car about 70 yards from the lake shore. As he approached the car he heard Mrs. Parks call him, as though in distress, and he started running to the bank, telling the children to stay at the car.

The two children, Rebecca 6, and Hattie Jo, 10, were in Sweetwater this morning with R. L. Havins of Abilene, father of Mrs. Parks.

Officers said at noon today that they were unable to determine when an examining trial would be held. Parks had not employed an attorney to their knowledge.

Examining trial likely will be held in a day or two, it was indicated, when bond can be set.

### Woman's Division of Sterling Club Gaining Members

The women's executive board of the Sterling club are giving out literature, getting names on their membership lists and talking for their candidate wherever they go.

Since the Governor has already written his platform by the things he has done in the way of balancing the budget and other worthwhile legislation the women have a candidate they can confidently recommend to the people.

Women are tired of hearing economy preached to them by high officials, while these same officials practice graft and the greatest extravagances. There has been no hint of craft in Sterling's administration—there has been economy of the sort that women understand, for he has placed the welfare of the State before his own personal welfare. He promised an honest administration and has given it, so the women will give him their votes.

**FIRST BAPTIST CHURCH**  
We are to close the meeting here at San Angelo with the morning service next Sunday. We expect to be at home for the evening service. We have not as yet secured a suitable supply for the morning service, but expect to have a suitable man in ample time. We were delighted with the report Bro. McGuire brought back from his visit there last Sunday. I am sure the congregations enjoyed his sermons. We are very anxious to get back to the work there.

**FIRST METHODIST CHURCH**  
Keep the attendance up at all our regular services during the summer months. That would be a fine thing to do, when it is taken into consideration the fact that several of our members are away on vacation. Sunday school begins at 9:45. Preaching services at 11 a. m. and 8:30 p. m. Our Wednesday evening services begin at 8:30 and are over at 9:15—just forty-five minutes.

LORAINI NEWS LOCAL AND PERSONAL NEWS ABOUT LORAINI AND VICINITY MRS. ZORA DEAN, Correspondent

Announcement Party: One of the loveliest affairs of the season was the party given by Mrs. Henry Cook, Jr., Monday afternoon, July 11th, announcing the approaching marriage of Miss Jo Cook of Loraine and Mr. Charles Wyatt of Colorado.

The guests were met at the door by the hostess and found places at the bridge tables by place cards. When all were assembled delicious refreshments consisting of pink iced angel cake, vanilla ice cream and pink and white mints were served in crystal glassware. A tiny white scroll tied with pink had the announcement, "Joe and Charles, July 20th." A lovely urn of Egyptian pottery was presented to the honoree by the hostess. Another gift, a perfume and powder set, was presented by Mrs. C. H. Cartwright.

In the games that followed, the color scheme of silver, pink and white, was expressed, with the score pads of pink tulle bows and a silver slipper and a wedding bell. The tallies were lovely with a silver bride and groom picture. At the conclusion of the games, Miss Ollie Manley was declared high score winner. The guests included Misses Jo Cook, Inez Mayes, Ollie Manley, Julia Tarrt, Bessie Hendrick, Frances Howell, Mayme Howell, Richard Looby, Fern Coon, Ruth Coon, Viola Brown, Irene Brown, Anna Bess Wilkerson, Ethlyn Furlow, Lois Kinnison, Willie Fae Hall, Rilla Thompson, Ora Coon; Mesdames Woodrow Pratt, Hall Hooker, Jack Coffee, Homer Duryberry, Edd Williams, Virgil Walker, Bill Martin. The out-of-town guests were Mrs. Jack Mayes and Mrs. Forest Porter of Roscoe; Mrs. C. H. Cartwright of Sweetwater; Misses Lenora Cook, Billie Wyatt, Juanita Cook and Mrs. Gilbert Quinney and Mrs. Floyd Quinney of Colorado.

The guests left at 6 o'clock, expressing their enjoyment to the hostess and giving their advice and best wishes to the future bride. School Transfers Must Be Made Before August 1st: Parents who desire to transfer their children from other districts to the Loraine Independent school district must do so before August 1st, as that is the last day possible for such transfers. For the convenience of those who wish to transfer their children a supply of blanks has been left at the First State bank and they may be secured there.

In a meeting of the Board of trustees Monday night it was decided to give the transfers nine months school and charge no tuition for the time that the State appropriation did not pay for. In other words transfers into the Independent Loraine district will have the same privilege of a nine months free school as those who live within the district. John T. Nelson was appointed to fill the unexpired term of Joe Bennett, who recently tendered his resignation as trustee.

**Always—Something Happens**

A man whose son graduated from college in June was asking what I thought about a post graduate course in the Harvard Business School.

"I don't assume any school can teach a boy how to succeed," he said. "What I want is to have my son learn something about the history of business."

He proceeded to illustrate from his own experience. Until 1904 he was a newspaper reporter, but that year he took a job with the manufacturing concern of which he is now the head.

In 1907, when he was just beginning to get under way, along came a panic.

"We cleared away the wreckage and started again," he said, "but in 1910 there was a strike which tied up our plants, destroyed part of our property and disrupted our trade."

"Then came another little period of calm, but early in 1914 business began to fall off, and it was evident we were headed for a major slump."

"Suddenly the war, and the slump was transformed into a boom! But don't imagine the boom was any picnic. To be sure, the orders rolled in from every side, but prices of raw material sky-rocketed, our capital was limited, and I wore out my shoes and got grey headed borrowing money from one bank to pay back another."

"Then the war ended, and we took an awful beating in our inventory. Then the 1920-22 depression. Then another boom."

"And now this."

"It would be advantageous to my boy, I believe, if he were familiar with this sequence of events, if he knew the ups and downs not only of modern business but of business through the ages. Maybe he would come into life without the illusion which has handicapped so many of us—that there is any such thing as 'normal' in the sense of permanently settled conditions and uninterrupted progress."

I thought these were very wise remarks.

As far back as I can remember I have been hoping and planning for a time when I should be "comfortably fixed." At first I thought if I could ever accumulate \$20,000 in good safe bonds I'd have an income of \$1,000 a year and then I could look out with philosophic calm upon the foibles of the world.

Later I raised the amount in my mind, and now I am getting over the idea altogether.

The only progress I have made during the past three years has been in health. I try to ride horseback more, swim more, play more golf, and keep generally tough and supple. I'm quite sure that as long as I live I shall have to keep hustling—that just about the time I get everything nicely fixed something will happen.

**CANDIDATES FOR CHIEF EXECUTIVE PREDICTING VICTORY ON JULY 23RD**

The three leading candidates in campaign for governor are all claiming victory in campaign addresses as they swing into final stages of one of Texas' most interesting gubernatorial contests.

Farmer Jim, speaking at Austin Wednesday, confidently gave out the information that "Ma" would win in the first primary. Such was expressed as his "honest belief."

Tom F. Hunter of Wichita Falls, speaking at Lubbock, made the declaration he would be in the run-off with Mrs. Ferguson and expected to sweep the State in the second preferential election to be held in August. Hunter informed his auditors that he now expected to head the ticket on July 23.

Governor Sterling continues with the same optimism that dominated his address here last Thursday afternoon. The chief executive sees nothing but an overwhelming victory for him in the approaching primary election. Announcement from Sterling headquarters in Dallas couched the statement that the outlook for success was good.

Thursday evening Governor Sterling was to speak at Fort Worth. His address, to be given between 8 and 9 o'clock, was to be broadcast over station WBAP.

James E. Ferguson, campaigning for his wife, was scheduled to address voters at Brenham and Tom Hunter, making another swing into Central Texas, was driving across Texas Thursday from Lubbock to Waco, where he is to attend a Hunter rally Thursday night.

J. M. New, resident manager of the Colorado office, Texas Cooperative Cotton Association, was recently elected to that position for the third consecutive year. Mr. New has been in charge of the Colorado office since inception of the organization in Mitchell county.

**'THIS IS SHOWING THE PREACHERS UP,' LIONS MEMBER SAYS OF MENU**

Charge that the four Colorado ministers who are members of the Lions Club deliberately absented themselves from the meeting Friday at noon was made by B. L. Templeton, club secretary, when it was announced that not a preacher was present. Water and crackers was the menu served all members and visitors.

"This is showing the preachers up," Templeton said, as he surveyed the several club members munching crackers and drinking water. It was recalled that seldom, if ever in history of the club, there had been a meeting without at least one member of the clergy present. And, that was the first time, also, that water and crackers was the only food allowed to be served. There have been instances when some of the Lions were forced to be content upon such a diet, in payment for some breach of rules, but Friday was the only time when the cracker eating diversion was mandatory among every one present.

Thos. R. Smith, George H. Mahon and Judge C. H. Earnest were named as a committee on by-laws and constitution.

**LAMESAN SHOTS WIFE THEN ENDS OWN LIFE; DAUGHTER IS WITNESS**

Collier Burton, 24, son of a Dawson county commissioner, shot his bride of only a few weeks and then turned the weapon, a .38-calibre pistol, upon himself, in the Burton apartment at Lamesa Monday night. Burton died from effects of the self-inflicted wounds. Mrs. Burton was reported as seriously wounded and is under care of physicians at a Lamesa hospital.

Norris Hall, 10, a daughter of Mrs. Burton by a former marriage, witnessed the tragedy. Burton came to the apartment and is said to have begun quarreling with his wife. The child, sensing trouble, slipped into an adjoining room and telephoned for officers. A deputy sheriff drove up just as the shooting ended.

**Pam's Recipes** By LEA LANE

Pam's budget is showing signs of strain. An inexpensive cut of meat is in order for the evening meal. She decides to prove she can make a round steak a dish fit for a king.

Chcaper cuts, she has heard, are improved by using sugar as a seasoning; so she mixes 1/2 cup of flour, 1 teaspoon sugar, 1 teaspoon salt, 1/2 teaspoon pepper.

She pounds this into the steak on both sides; then broils the steak to a turn in a frying pan, along with 2 slices of onion and a chopped green pepper.

She adds fried tomatoes as a garnish; and proudly places the steak before her hungry Dad. "A dish fit for a king," is just what he calls it after the first taste.

Some money was reported given and quite a good deal of farm products for Brother Kelley, which brought a smile to his face, after some weeks of short rations. It is hoped that Spade, Dorn, Bailey's Chapel and Champion will get busy

and help our pastor during these times of depression. A splendid dinner was served by the Champion community, after which a business session was held and the crowd dispersed. Mrs. Clark attended the meeting with Brother Clark and accompanied the singing on the piano. It was voted to hold the next Conference at Spade. Mrs. Hyman acted as secretary.  
W. M. Young and son of Kilken, Bell county, Texas, spent Monday night at Hyman on business, on their way to New Mexico.

**THE FAMILY DOCTOR**  
JOHN JOSEPH GAINES, M.D.

**"HEAT STROKE"**  
In all accidents, I have found the cause of prostration to be worth many moments of care, the best time to look for the cause is before the car is driven.

Heat stroke—being ascertained until we succeed—is a most unfortunate accident. Of course the results of such a thing depend on the strength and "resistance" of the victim, the condition of heart, liver, kidneys and other vital organs, as well as the age of the patient, and the extent or degree of over-heating.

The accident may occur in the hay field, at the beach in the sun, or in the cabbing-factory, in the super-heated retail store—in fact anywhere that the heat may be overpowering and the toll too exacting for the worker. It is only proper here for me to touch the subject in a general, yet practical way.

Symptoms—of course collapse of the bodily energy. The pupils of the eyes may be dilated, indicating brain weakness; the pulse rapid, the breathing deep at first, however long soon changing shallow breathing, with irregular and feeble pulse, and the pupils may become contracted, with mental aberration. Inauspicious convulsions may occur, with muscular twitchings, cold sweat, and great confusion—depending on the severity of the heat-stroke.

First Aid—Remove the patient to the coolest place available, where the air circulates freely; open the clothing; give plenty of cool—not cold—water; if the patient will accept it, lemonade, in moderate cases of collapse, the temperature falls below normal, and cold water causes the appearance of a fatal shock, it then becomes necessary to apply warmth to the body. The attendant should do everything possible to save nature's "about face." That is safe to do always. Call the Doctor.

**EARLY LEADS OPPOSITION**  
There are as many candidates for the three Democratic nominations for Congress at large that their paths are bound occasionally to cross.

During the tour of West Texas Joseph Weldon Bailey, Jr., of Dallas, a candidate for place No. 2, at Beaumont, Henry county, ran into Mrs. Phoebe E. Warner of Claude, an opponent for the same place.

Mr. Bailey had a meeting scheduled for the city. Mrs. Warner was merely passing through, but she called Mr. Bailey prevailed upon her to stay over and hear him speak. After his speech he introduced her to the audience, greeted her and listened to her address.

Billy Henderson, of Garrettsville, Ohio, returned from a two-months' visit in San Diego, California, Phoenix and Tucson, Arizona and El Paso, Texas. Also an airplane try down in Old Mexico.

Rikan Komizu, Honolulu Japanese, returned \$1,000 reward for going down into the depths of Kansas volcano to recover the bodies of two who had fallen or leaped to death.

**Palace Theatre Has Interesting Program Billed During Week**

The cards foretell a lover from the days and when he arrives she plays his love tricks, "The Broken Wing" with Love Velez, Let Carrillo, Melvyn Douglas, George Barker, will be the attraction at the Palace Thursday and Friday, July 14 and 15.

He knows how to fly. She knows how to love. But there's more to it than just that. There's a rebel general who kills on sight and his sight is very keen, a forgotten "wife," a mysterious bandit, a "father," and a "son."

Buck Jones is a man of action in his newest thriller, "One Man Law," the Columbia film that comes to the Palace Theatre for Saturday only, July 16. Here is one of those crack Westerns that will stir your blood and set your heart a-thumping—it's a show of an adventure film. Guaranteed to hit just the right spot with lovers of thrills, romances, packed outdoor dramas.

"I Jerry, Take This, Joan," starting first novel of Cleo Lucas, short story author and Hollywood syndicate writer, has been filmed by Paramount as a costarring vehicle for Sylvia Sydney and Frederic March and will be shown at the Palace theatre Sunday matinee, July 17 and Monday night, July 18.

In Miss Lucas' story, studio experts immediately recognized dramatic qualities of a high order. It has been made into a picture drama in which Sylvia Sydney and Frederic March find an admirable vehicle for their superior dramatic talents.

The picture is presented under the title, "Merrily We Go To Hell." It dramatizes the story of married life in America's modern young group of irresponsibles. The novel became one of the best sellers of the past year, and the picture closely follows the dramatic episodes of the original story.

No show on either Tuesday or Wednesday, as usual. The Palace asks that you watch for the Fox special coming July 21 and 22.

**HIGH POINT AWARD TAKEN BY LORAINIE CLUB GIRL IN CLOTHING SHOW FOR 1932**

**Eighty-Seven Boys and Girls Attend 4-H Club Meeting Held Last Week**

Miss Lola Mearse, member of the Lorainie 4-H demonstration club, won for first place in annual clothing contest held at Colorado Saturday-afternoon. She won first in tea towel division, second in the dress division and fourth in the slips division. LaVoyce Lowrey, member of the Hyman club, won for second place, and was first in the clothing division. Third place was taken by Lilla Jane Harrell and fourth by Lorence Andrews.

Other club members winning for places in the annual contest were: Hilda Ohlenbusch of Lorainie, who was awarded first place in the slips division; Opal Rogers of Buford, first in the apron division; Vernon Feaster and Nadine Hammonds of Buford, who tied for second place in that division; Jeanette Simpson, Buford, third in the apron division; and Lodea Feaster, fourth in the apron division.

The four high point winners were qualified to compete in contest for complimentary trips to the State Fair at Dallas this year. Other contests yet to be concluded include food preservation, gardens, bedrooms and year's clothing work.

There were a total of 87 boys and girls, representing every organized club in the county present. The youngsters began arriving in Colorado early Friday afternoon and at 5:30 were assembled for the first roll call. From the court house they went to Ruddick Park for a picnic supper, after which games were enjoyed.

Returning to the court house lawn at 9 o'clock the boys and girls participated in more games before "taps" were sounded. Having brought their bedding the club members were organized into camp groups, the girls taking up one side of the lawn and the boys the other. Here they slept during the night.

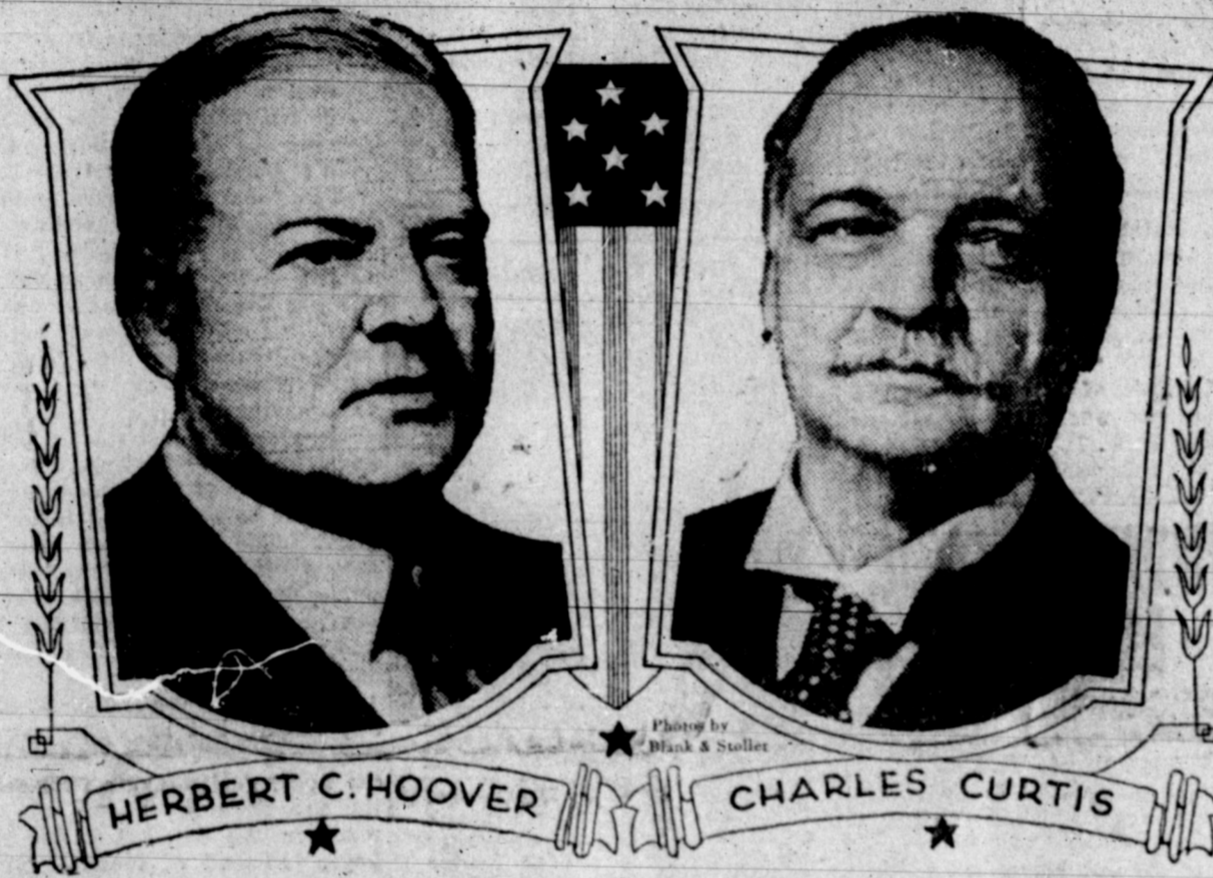

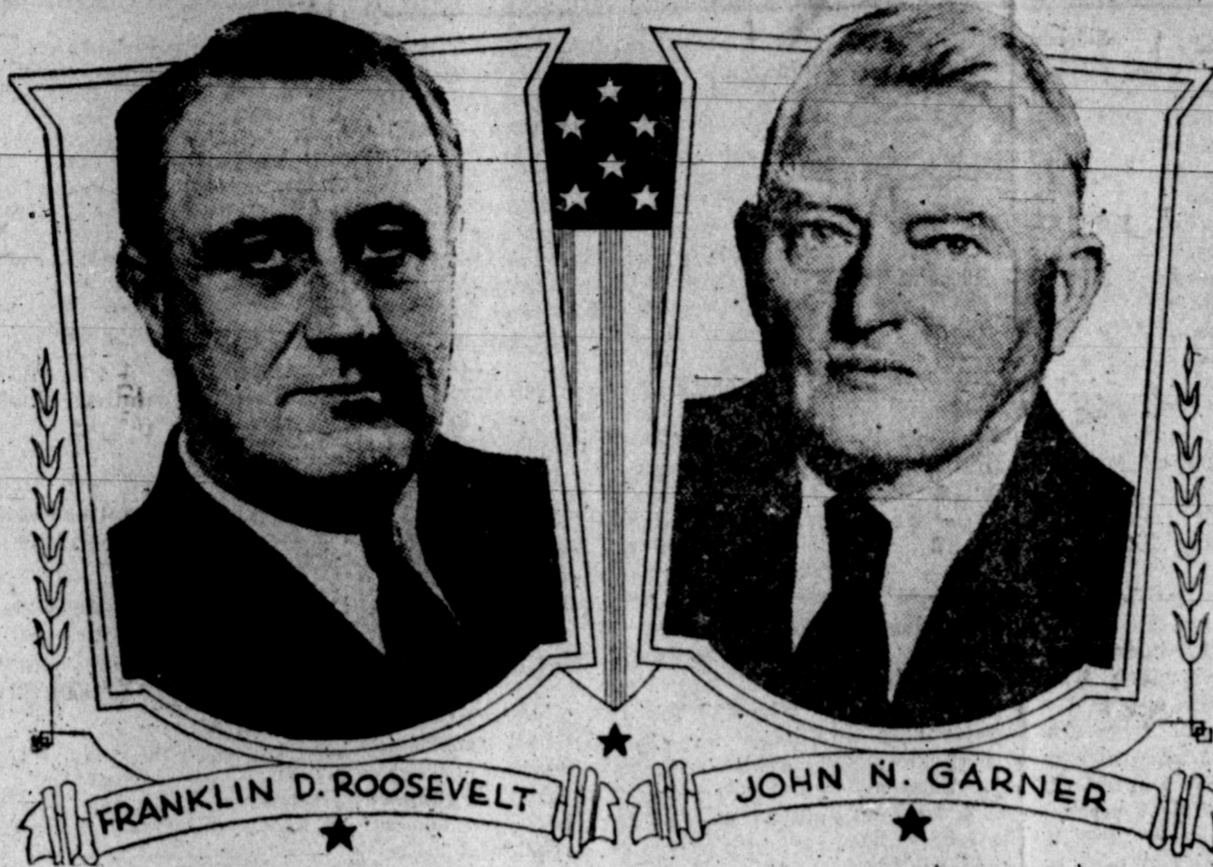

Saturday morning they awoke to interest themselves in plans for breakfast. Bacon and eggs, toast and other edible foods for this meal were prepared over camp fires and it is needless to state that every club member present enjoyed this feature of the annual meet. Bacon served at breakfast was furnished complimentary by the Wade Meat Company of Sweetwater. Other articles were supplied by the boys and girls themselves. The members were chaperoned by Miss Abbie Sevier, home demonstration agent, and W. S. Foster, county farm agent.

After breakfast the youngsters met in the district court room to hear addresses delivered by County Judge A. F. King and Jim Greene, Chamber of Commerce secretary. The oratory over the annual clothing contest for girls was held. Miss Gladys Martin, home demonstration agent of Tom Green county, acted as judge.

The Colorado Hotel, Whipkey Printing Company plant, telephone exchange, the ice plant and county jail were among places of interest visited by the boys and girls during the remainder of the forenoon. At noon another basket lunch was enjoyed on the court house lawn.

In the afternoon the visitors were guests of the Lions Club, Chamber of Commerce and management of the Palace Theatre at a matinee program at the Palace.

**'RELIGIOUS FANATICISM' BLAMED BY GRANBERRY IN FACULTY DISMISSAL**

"Religious fanaticism" is back of it all, charged Dr. J. C. Granberry, head of the history department at Texas Technological College, Lubbock, after Clifford B. Jones of Spur, chairman of the board of regents, informed him last week that contract for him to teach in the school would not be renewed. Dr. Granberry delivered the commencement address here last month in program closing the high school. Previous to that time he had taught classes in English and other subjects here, as special extension courses arranged under supervision of the college.

Allegations made by Rev. R. C. Campbell, Lubbock Baptist minister that atheism and infidelity were being taught in the school led to his dismissal, Dr. Granberry maintained.

**BUSINESS ADMINISTRATION PLEDGES WERE SUSTAINED GOVERNOR STERLING SAYS**

**Chief Executive Reviews His Record In Appeal For Second Term**

Campaign promises of Ross Sterling made two years ago, in which the people of Texas were assured of a business administration in dealing with the affairs of State, have been made good, the governor affirmed in address at Colorado Thursday afternoon. Mr. Sterling devoted most of his time to a review of his record as chief executive.

During the time that hundreds of private business enterprises in the State were going into bankruptcy, due to conditions over which many of them had no control, the governor has been making good his promise to the people of Texas two years ago that better conditions would be realized in affairs at Austin, George H. Mahon, 32nd district attorney, stated in brief address introducing Governor Sterling.

"The fact that he has reduced the public deficit from more than four millions to approximately \$300,000 during the eighteen months of his administration is sufficient to sustain the claim that he has made good," Mahon continued. Mr. Sterling was described as one of the outstanding business executives of the State.

The governor devoted considerable time to discussion of the penitentiary system, a department of the State annually involving deficits of more than a million dollars in operating expense. "The Texas penal system is in better condition today than ever before in the history of its operation," he declared. Material reduction in operating budget was said to have resulted from a new order of things calling for production of food and other items on the prison farms.

Seventy thousand cans of beans, more than 100,000 cans of corn and a 70 acre crop of tomatoes, from which \$40 return an acre was realized through direct sales to the public, were among the specific accomplishments of the system for the present year referred to. 125 pairs of shoes a day are now being made in the penitentiary plant at Huntsville, he said.

The governor reiterated his position on proposed gas tax to retire existing road bonds. This law, he said, should be written into the constitution, rather than made operative through act of legislature. The legislature might enact the law and then repeal it, he explained. But when the people of Texas place this law in their constitution, it would require an act of the people themselves to annul it.

Mr. Sterling made reference to only one of his eight opponents for governor. The administrations of Jim and Ma Ferguson were cited as among the most expensive and extravagant Texas people have ever known. The highway department alone faced a deficit of more than \$8,000,000 when he became chairman of that department, Mr. Sterling stated.

"They tell me there are some independent oil men over here at Big Spring who charge I ruined their business, when in fact I saved their investments and their business," Sterling stated after making reference to the East Texas martial law regime. That crude oil prices soared from a price of 13 cents to a dollar per barrel as direct result of the chief executive's military control there was affirmed.

"I may have lost my fortune, as they tell you, but I have not lost my smile nor my happy disposition," he stated in conclusion. "My program of giving to the people of this State a business administration shall be continued and I feel confident that the voters will, on July 23, place their stamp of approval upon my administration."

**SWEETWATER WOMAN IS DROWNED IN TRAMMELL LAKE WHILE PICNICING**

Mrs. I. M. Sparks of Sweetwater was drowned in Lake Trammell, ten miles south of Sweetwater Friday afternoon while on a picnic with her husband and two children. This was the second victim to be claimed by the lake since it was impounded several years ago.

Mr. Sparks was some distance from his wife and children when she lost her balance and fell into thirty feet of water. She was fishing near the dam and Mrs. Sparks had gone up the shore line to set out some hooks. The body was recovered after three hours.

Funeral rites were held at auditorium of Abilene Christian college, Abilene, Sunday afternoon, with burial in an Abilene cemetery.

SUNDAY SCHOOL LESSON by REV. SAMUEL D. PRICE D.D.

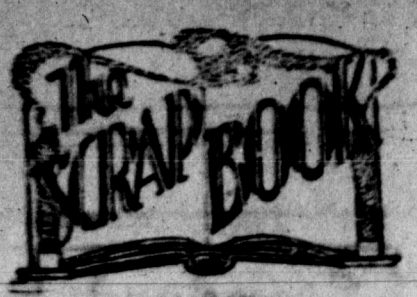

THE PASSOVER Lesson for July 17 Exodus 12:21-28 Golden Text: 1 Cor. 5:7

One of the first impressions which will come to the reverent student of the Bible is the unity of the Book. It has one theme from beginning to end: Redemption. There is no subject which is prominent in the New Testament which is not foreshadowed in the Old.

The Passover is an Old Testament version of what becomes the central truth of the New Testament—God's plan of Salvation. As one looks closely at the narrative each word is charged with spiritual meaning; the whole Gospel story is mirrored in a few verses.

**School News**—As the end of the transfer period draws to a close we wish to make the following statement to those interested in the Westbrook school.

Plans have been made to run the school nine months. Teachers have been carefully selected and the board is determined to run the school a full nine months session. With the cooperation of the patrons and friends of the school we hope to have the most successful year in the history of the school. The physical, mental and spiritual needs of our boys and girls have not been diminished by the depression. Money invested in the education of our youth is money well invested. Let every patron of the school do their dead level best to make it a success by paying your taxes, if possible, and cooperating in various ways to help out.

The exact date of the opening has not been arranged, but will no doubt be the first or second Monday of September.

**At The Baptist Church**

The attendance in Sunday school was increased the past Sunday over that of the Sunday morning previous, and the interest continues to grow in all departments.

Visitors, are invited and will be made to feel at home.

Sunday morning Rev. Allen spoke on "Courage," showing what each letter of the word should mean to the individual. Again that night he selected an old text, but brought many new thoughts for those present to think about. Everyone come to the services, for there is a place for each one.

Sunday night B. T. S. attendance was larger than it has been in many months, and it is indeed living up to its name—Baptist Training School for young people.

Those who attended Workers Conference Tuesday, were Rev. C. A. Allen, Murray Fuquay, Mrs. C. A. Allen and Mrs. Witt Hines.

Mrs. Nawl Boatler entertained Friday of last week at the Baptist parsonage, honoring Mrs. W. C. Oglesby with a miscellaneous shower.

Several games and Bible contests were enjoyed, after which punch was served to the honoree and about 40 guests.

**Death of Bill Hazlewood**

Early Friday morning, July 1st, our little town was grieved when the message came over the wire that Willie Hazlewood, better known among his friends as "Bill," had passed away. He was taken sick June 27, the following day his condition became critical and he was taken to a Colorado hospital and was operated on for appendicitis. All that physicians, nurses, loved and friends could do was done to prolong his life, but the grim reaper in his Almighty goodness reached down and plucked the beautiful flower that had just burst into full bloom and transplanted it over yonder, where flowers never wither or die.

Bill was 23 years old. He joined the Baptist church in 1927 and lived an active life in church affairs. To know him was to love him, and he was well known among both old and young.

He leaves a mother and father, two brothers, Vernon and Pearl, and three sisters, Emogene, Nelle and Edna Earl, a number of other relatives and a host of friends to mourn his going away.

Funeral services were conducted by Rev. C. A. Allen, assisted by Murray Fuquay. Mrs. Lee Brown and Miss Birdie Agnew sang "Does Jesus Care." The flower girls were: Misses Ruth Skelton, Mary, Ruth and Catherine Bell, Lona Skelton and Reba Skelton. Pall bearers were: Phil Gingerich, Robt. Miller, Clyde Miller, Jr., Norville Holder, Everett Oglesby and Jerome Fuquay.

Interment was in the W. O. W. cemetery at Westbrook.

**Miss Lasseter Entertains**—Miss Margaret Lasseter entertained the younger set Friday evening with a touring party. This is a second of a series of parties Miss Margaret has given the younger people. The next number will be the latter part of the month.

High scores were won by Miss Claudia Bell and Carey Edwards. Low scores by Miss Mary Florence, Van Horn and Phil Gingerich. Refreshments consisting of fruit cream and devil's food cake was served.

**Correction**

The reporter of the Westbrook news received the announcement from what we considered reliable sources of the marriage of Warren Coston and Miss Margaret Sweatt, which proved to be a practical joke among their friends. We desire to make this correction.

Size of Can or Jar Is Important Factor In Canning, State Nutritionists States

In the midst of the biggest home canning season in Texas history comes a warning to canners to be sure to select the right sized can or jar according to kind of food to be preserved and size of family, and to can the varieties of fruits and vegetables that will give a healthful diet. For families of two, points out Miss Lola Blair, nutritionist in the Texas A. & M. College Extension Service, half-pint jars or No. 1 cans should be used; for families of four or five, pint jars or No. 2 cans; and for families of six and more, quart jars or No. 3 cans. Exceptions to the rule come in the case of bulky vegetables like greens, and corn, which should not be put into quart jars or No. 3 cans because of the difficulty in getting the heat to penetrate the centers.

"With big gardens this year filled with many varieties of vegetables," says Miss Blair, "it is foolish to invite stomach troubles and sluggishness next winter by an unbalanced selection of canned products. Everyone should have at least three servings of leafy or green vegetables every week, and preferably every day. There should be at least one serving a day of starchy vegetables, and at least one serving daily of other vegetables. Tomatoes or citrus fruit should be eaten at least three times per week, and one serving of some kind of raw fruit daily.

"A family of five should have about 120 cans of leafy or green vegetable, such as string beans, greens or peas for the six winter months, 100 cans of starchy vegetables such as corn; and 80 cans of other vegetables such as beets, akra, squash or carrots. Of tomatoes there should be preserved 125 cans and of fruits 150 cans. If other fruits can not be afforded, people can get along with tomatoes, so far as health goes. Roselle is a garden fruit which can be substituted for more common fruits, and in sections where it will grow rhubarb can be substituted."

TEXAS RAILROADS PAY SUBSTANTIAL PART OF STATE'S TAX BURDEN

Taxes is one of the large fixed charges connected with the operation of Texas railroads. From the standpoint of the welfare of state, counties and communities, railroad taxes are of much importance. This annual obligation must be met from the earning capacity of the rail carriers.

In 1931 the railroads of Texas paid a total of \$8,303,108.47 in federal, state, county, municipal and miscellaneous taxes. The distribution of this amount to the various tax funds is shown below:

	Amount Paid	Per Cent of Total Tax Paid
U. S. Government	\$ 61,270.13	.74
State	1,954,435.47	23.54
County	1,146,669.97	13.81
Roads	1,699,764.15	20.47
Improvement Districts	175,606.87	2.12
Schools	1,437,152.74	17.31
Cities	1,792,994.61	21.59
Miscellaneous	35,214.59	.42
Total	\$8,303,108.47	100.00

It can thus be seen that railroad taxes represent an important and indispensable factor in the economic life of our state. They help in a large measure to pay the expense of our state, county and municipal government, build and maintain highways, pay the cost of drainage and other improvements, and support our schools and educational institutions.

It is the desire of Texas railroads to extend this helpfulness to Texas counties and communities in carrying this heavy burden. However, their ability to meet these obligations as they become due depends upon their ability to earn sufficient revenue with which to pay this and other heavy expenses connected with their operation.

RAILROADS HAVE ALWAYS SHOULDERED THEIR SHARE OF RESPONSIBILITIES TO THE NATION, THE STATE, AND THE CITIES AND COMMUNITIES THEY SERVE, AND WILL CONTINUE TO DO SO TO THE EXTENT OF THEIR ABILITY.

THIS AND THAT

Summer time is here as evidenced by the aqueous exudation through the pores as sweat. We modernists claiming more refinement prefer to call it perspiration. The choice however, is but a euphemism and a euphemistic terminology sacrifices something of vigor to a mistaken sense of modesty. What we are trying to say is that it is more immodest to sweat than to perspire.

Prosperity is here—old man Depression is dead—listen to Uncle Dick McCarty, in the Albany News: "It looks to us like prosperity has arrived. Yes, the panic house has been pulled down. It looked like it when seventy-two thousand people go through the gates to witness a fistic encounter. Five hundred thousand was the gate receipts. My! Who said hard times? As a result of this fistic encounter in the City of New York, Sharkey wears the fistic crown and Schmelling got knocked out. But, gosh, the Irish always win. By an agreement, so they to take ten per cent of the gate receipts, the sum total of \$50,000 to his part. Schmelling took the beating, got a good lickin', but he got the cash—forty per cent, two hundred thousand dollars. Panic, did you say? All this country needs is a lot of sports to get out and start something. Americans are natural born gamblers—natural born sports—a poker game, or a fistic encounter makes them unloosen their purse strings."

A year ago we spent eight weeks in New York. Among the 150 million dollar theatres on Broadway and at the National and American League ball parks and Madison Square garden, a close estimate, by men who know, say that a million dollars a day is spent for amusement alone.

Did you know that if you buy five gallons of gasoline at 14c and a quart of oil at 26c and pay for this with a check, that of this total amount of 96c, that 28c goes for taxes—5c on the gas, 2c on oil and 2c on the check. That's all right for we could do without the gas and oil and the fortunate man with money in the bank is plenty able to pay the 2c.

My old friend Jim Lowry of Honey Grove, bought a package of ready-made cigarettes the other day. First since the tax went into effect. That's because Jim is now a retired newspaper man.

Tom Jones, the expert steno-typist and all-round factotum down at the Record office, thoroughly understands the subject of transmogrification of the thyroid system of mat casting.

In motoring through the large cities certainly takes ambidextrous driving. In London they call it "speed drunkenness."

The symptoms are an extraordinary feeling of over-confidence, an exhilaration in taking risks, a wild passion for pursuing the car ahead. It is enlightening to learn that the British psychology is so closely akin to ours in the matter of motoring. The spirit of mad rush had been popularly regarded as typically American, but apparently it is a common human attribute in the driving of automobiles.

If you want to face bare facts, visit the bathing beaches.

John Base, down at The Record office, hasn't suffered much because of the cut in his wages. He says Mrs. Base was already complaining as much as she could anyway.

We met a friend of ours down on the street this week. He is a little rotund rube with a most unattractive countenance and had just had a round with his boss about cutting his salary, being very much wrought up, among other things he said: "There are some people who establish a reputation for mean-hearted malice and curmudgeonly, by means of making beastly and ungentlemanly remarks." Better not try this on your boss.

Man, the master of creation. We members of the human kind boast much of our superior mind. Our brains, we deem. For plans and scheme, And worldly power fit us. We brag of how we rule the earth, Of this rotund and rolling earth, But don't forget That still we let The hoppers and boll-weevils get us.

In the good old days when a man wished to forget the depression and temporarily his vexations and disappointments, he placed his foot on the brass rail and inebriated himself with dissillations, merchandised by gentlemen in white aprons and polished hair. We modernists, nowadays a gentleman of despondent mind seizes his bag of sticks and goes forth into green pastures to inhale a globe toy. He intoxicates himself, not with the extract of corn, but with excess of sweat.

It is rumored that Joe Smoot is losing his hearing in one of his ears. That accounts for why he turned this writer down the other day—he turned to us his deaf ear. We went into the bank an optimist and came out a pessimist.

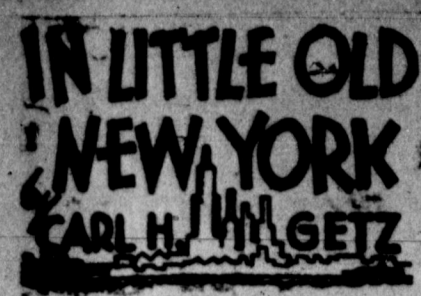

The two wet planks in the two national platforms reminds us of the two men who had very dark skins, and were very sensitive about it. They agreed to leave it to a mutual friend, which had the darkest skin. This friend wanted to be fair, so he says, "I believe Bill has the darkest skin, but Sam looks most like a nigger." Make your own application.

Corn on the Cob

Corn eaten this way supplies exercise and therefore not so fattening. But it is a lot more embarrassing. Before eating, sneak off with it to the bathroom, or any place where you won't be seen. After placing a lump of butter on the warm corn, seize it between the thumb and forefingers and turn it at the rate of 200 revolutions per minute until all the butter has run down your wrists. Some people prefer the breast-stroke eating from left to right. This writer prefers from right to left, in this way it does not lodge so much corn behind the ears. A man should have plenty of room and eating with one hand should be avoided to insure the absence of colic.

The Squash

Along with the many good things of field and garden comes the squash. The squash crop is a crop that never fails. Wet seasons work injury to many crops, dry seasons destroy many potted plants of garden and field, but the squash vine flourishes, laughing at floods and droughts. The squash belongs to the cucurbita family and is a disgrace to all its kindfolds. The squash vine grows faster than anything in the garden and raises more children. One day a blossom appears on the squash vine, the next day a puppy squash makes its appearance, the third day the squash is full grown. But what is it? It is a gelatinous something that smells like moonshine mash and tastes like a gourd. I have known people who would ac-

IN LITTLE OLD NEW YORK

Another New York church is installing devices to aid persons whose hearing is impaired. One church here reserves the front pews for persons who can't hear well.

More men are wearing flowers in their lapel buttons here. The explanation is to be found in the number of girls selling flowers on the street. You can buy a gardenia for a nickel here.

There is a company here which manufactures pipe organs for private use home installation and although it is hard to explain, this company is doing quite well.

The Commodore Grill is one of the swankiest in the great Commodore Hotel here. There is also a Commodore Grill over on Avenue A and East Thirtieth Street. It's a lunch wagon.

Taxicab drivers here are complaining that they are getting few 10-cent tips these days. The nickel tip has returned. Waitresses in low-priced restaurants have a similar complaint. Bootblacks who are accustomed to nickel tips say that now they frequent they don't get anything extra.

The better men's hat shops are displaying gray derbies. It's a question whether they'll sell many. However, there was a time when only followers of race tracks wore light gray hats with black bands. Today they far outnumber all other styles of hats.

One of the drivers of Tiffany's delivery cars wears gray spats.

They are trying to revive interest in wood-burning in one of New York's department stores. It may be all of 20 years ago since you watched your big sister ply this decorative art on cigar boxes and leather sofa cushions. It was rather a dangerous business over an alcohol lamp in those days. But now it is done with a pyroelectric pen and is very safe and rapid.

New York requires a daily supply of from 20 to 25 carloads of spinach.

A certain steamship company here is giving discounts to honeymooners.

SONG

Fain would I change that note To which fond love hath charmed me, Long, long to sing by rote, Fancying that that harmed me: Yet when this thought doth come,— Love is the perfect sum Of all delight. I have no other choice E'er for pen or voice To sing or write. O love, thy wrong thee much That say thy sweet is bitter When the rich fruit is such As nothing can be sweeter. Fair house of joy and bliss Where truest pleasure is, I do adore thee: I know thee what thou art, I serve thee with my heart, And fall before thee.

HUMORETTES

Goofy—What made Billy Bose's hair look so strange at the dance last night? Didn't he use that new hair stickum that his wife gave him? Floofus—He intended to—but in his hurry he got hold of a bottle of Denison's glue by mistake. "Did you hear that Balboa is earning \$20 a night playing his fiddle? Just think—\$5 a string." "He ought to learn to play the harp."

BOGUS BANK NOTES AT BIG SPRING SATURDAY; COLORADOANS WARNED

Circulation of bogus ten dollar bills were reported at Big Spring Saturday. A local bank there informed police that three of the spurious notes had been received from depositors during the day. One of the bills was received from a hotel and another from a tourist camp. Coloradoans were warned to be on the lookout for appearance of the bills here. Several weeks ago local business men were victimized by "customers" who left the worthless currency imitations in exchange for merchandise and change. Several of the bills were found at Big Spring and other towns in this part of the State at that time.

Usually eat squash. In truth some who are attached to me by the ties of affinity and consanguinity actually gloat over the cucurbitaceous derelict. But you know there are some people in the world who say they enjoy lemmur cheese. Don't argue with the miserably consumers of the green gluten, don't abuse them, leave them alone with their miserably peeps and let them punish their innards and olfactorys. F. B. W.
