## WEST TEXAS NEWSMEN TO CONVERGE AT BIG SPRING FOR ANNUAL CONVENTION

### Many Visitors Expected For Sessions Opening Today At Crawford Hotel

Big Spring, among the larger and progressive cities of West Texas, will be the mecca for newspaper men of the area Friday and Saturday, as sessions of the fifth annual convention of the West Texas Press Association are held. Convention headquarters are at the Crawford Hotel, with Cal Boykin, manager of this popular hotel, Wendell Bedieshek, publisher of the Big Spring Daily Herald, and C. T. These men, together with officials of the press association, are optimistic over prospects for a good attendance through the two days, according to information received from Big Spring Thursday afternoon. Beginning Thursday evening, when the Big Spring Kiwanis Club is to act as host to a stag chicken barbecue at City Park, festivities and the more serious business sessions at which problems confronting the newspaper men of West Texas are to be aired, will combine to furnish an almost never ending program.

Ralph Shuffler, Odessa publisher and vice president of the association, announced a few days ago that responses received by him from newsmen over the area indicated that the convention would be representative, with considerably more registrations than were accounted for last year in Lubbock.

In addition to the stag party arranged by the Kiwanis Club, another pre-convention affair about which considerable interest is centered is the dance Thursday evening at the Crawford Hotel. Jack Paul and his thirteen piece orchestra are to furnish the music. The annual press ball is to be given Friday evening at the Settles Hotel.

The "Good Will" celebration to be held on Friday, August 26th, and the run-off primary election to follow the next day were reasons assigned by the pastor in announcing that date for opening the meeting had been postponed to the later date.

Aside from that minor change, leaders in the church are going ahead with plans for the revival, definitely expecting to witness a great revival in the church and entire community, Rev. Mr. O'Brien stated.

Mitchell county's second annual celebration, to be held at Colorado on Friday of next week and termed a "Good Will" celebration, will attract visitors in large numbers, should predictions being advanced by officials of the celebration materialize. With the feeling that better times are soon to arrive, hundreds of former Mitchell county citizens who did not attend last year, will return home for the jubilee, it is claimed.

Every committee charged with responsibility of some important feature of the day's program is functioning and not one slip that would mar success of the celebration is anticipated, Jim Greene, general chairman, reported Wednesday afternoon. The usual Mitchell county spirit of cooperating in all things worth while dominates here, he said.

## COTTON HARVEST OPENING SET AHEAD FEW DAYS AS RESULT OF HEAVY RAINS

### Crop Expected Begin Moving By September 1; Pickers To Be In Demand

The cotton harvest, that before the rains of this and last week was expected to open about this time, or next week, has been set ahead for a few days as result of the heavy rains covering the territory during the recent past. A Colorado grower stated Monday that he did not expect to receive his first bale for several days.

Speculation as to what effect, if any, the rains are to have on encouraging insect infestation in the crop continues to be rife here. The generally accepted theory is that there is no occasion for alarm, however.

That farmers of the county are assured of an unusually good production yield and are to realize an encouraging price for the commodity, was predicted Monday by C. H. Lasky, among the larger property owners of the county. He has cotton on some of his farms along Lone Wolf Valley that promises to produce a half of a bale to the acre.

## ROUTE SURVEYS BE MADE WITHOUT DELAY DISTRICT ENGINEER FRENCH STATES

### 'Get the Right-of-Way—We Will Build Road,' Was Offer Extended

The State Highway Commission has definitely authorized construction of a first class paved highway connecting Colorado and Snyder on condition that the counties of Mitchell and Scurry furnish a 100-foot right of way for the project.

That was the proposal handed to County Judge A. F. King, County Commissioner J. R. Sheppard and other interested citizens here Monday by W. A. French of Abilene, district engineer representing the commission. Mr. French went ahead to state that surveys for the route, essential to determine whether minor changes should be made, would be started at an early date.

"The State is going to build this important road, designated as State Highway No. 101, with absolutely no cost to the two counties involved, aside from the right-of-way," Mr. French declared. "This has been made possible through the huge Federal Emergency road building project recently announced from Austin."

Whether or not any changes in the present route would be made cannot be announced until engineers have made surveys, Mr. French said. He committed himself to the promise, however, that the paved thoroughfare would connect Colorado and Snyder and would pass through the town of Dunn.

Following a brief conference with county officials and other citizens here, Mr. French, accompanied by George Kempen, assistant district engineer, and several Coloradans, drove over the route as far as Dunn. French continued to Snyder after conferences with interested citizens at Dunn.

"You may rest assured that Dunn will extend every cooperation in this important project," Claude Hooks, among leading citizens of that community, stated to the engineer. "Our community wants the paved highway, and will do whatever we can to cooperate with your department, whether or not minor changes may be made in the present route."

French stated that the highway commission realized importance of a north and south highway through Colorado. "This city is among the important county seats of the State and as such is entitled to permanently improved thoroughfares running north and south and east and west. I am confident that within the near future Highway No. 101 may be extended south to intersection with Highway No. 9." He declined to advance an opinion as to whether the more acceptable route would be through Robert Lee and into San Angelo or to an intersection with Highway No. 9 in vicinity of Sterling City.

Tom F. Hunter of Wichita Falls, defeated candidate for governor in the July primary election, made a brief stop in Colorado Sunday afternoon to greet some of his friends here. Accompanied by Mrs. Hunter and their child, Mr. Hunter was enroute to the Davis Mountains to spend several days resting.

Hunter continues to maintain silence as to his preference for governor in the run-off primary—if he has any preference as between Governor Sterling and Mrs. Ferguson. He admitted that several of his campaign leaders in the recent election were already suggesting that he offer his candidacy for governor in 1934.

He attributed his defeat to fact he failed to poll the full protest vote against both Sterling and Ferguson. Hunter surprised many political leaders by polling 220,000 votes. "Had I gotten into the run-off, I could have easily won over either of the present candidates," he declared.

County Judge H. R. Debenport said approximately \$600 had been spent in the past ten months from county charity funds on maternity cases. ## SLOW RUNNING CAR OR FAST GROWING MELON; THAT IS THE PROBLEM

Wood Walding, living on Vine street, has produced an interesting freak in the way of a melon. The vegetable grew between spokes of an old automobile wheel and as it developed either end of the melon assumed normal size, while the center was dwarfed due to pressure from the spokes.

"It demonstrates a slow running automobile or a fast growing melon," was Walding's statement as he left the specimen at the Chamber of Commerce Tuesday.

For September plantings are suggested cabbage, radish, cauliflower, carrots, beans, onion sets, beets and Swiss chard.

A fellow who has terraces and likes them said last week, "It's all right for Highway No. 1 to wash away for several hundred yards and for the T. & P. tracks to wash out, but if a terrace breaks it's just too bad."

W. J. Hogue says his terraces held up good until the last rain. They were damaged some then, but he says he has the best crop in years. During the heavy rains he says the middles held full of water for hours.

Burton Hines says he and Marvin Dorn are planning to kill a hog soon and try the cold storage method of curing.

#### FORT WORTH ATTORNEY WAS BROTHER OF B. N. CARTER OF COLORADO

J. M. Carter, prominent Fort Worth attorney and religious leader who died Saturday, was a brother of B. N. Carter of Colorado. The Fort Worth Star-Telegram for Monday carried the following article in reference to the late attorney.

"The gospel of a life like Mr. Carter's is a lesson in Christianity." Rev. J. Leslie Finnell pastor of Magnolia Avenue Christian church, said at funeral services for J. M. Carter, 62, Fort Worth lawyer, at First Christian church yesterday.

Rev. Mr. Finnell told how Mr. Carter fostered the religious conventions of the Christian church in West Texas. He was a generous contributor of his time and wealth to the church and he could always be counted on to do his share of any work, the minister said.

"His fellow attorneys were delighted to work with him on any case as they knew that to be aligned with Mr. Carter was to be on the side of right. Residents of Stonewall county still remember his many lenient verdicts 'white on the district bench there.'" Rev. Mr. Finnell said.

The pastor opened the services with the quoting of the Twenty-third Psalm: The mixed quartet of Magnolia Avenue church sang, "At Peace." The body was at the church from 3:30 until 5 o'clock yesterday afternoon.

Mr. Carter had practiced law in Fort Worth for the past 14 years. He was here from Aspermont, in Stonewall county. He entered the practice of law at Stephenville.

Interment was in Rose Hill Burial Park.

Quail, too, are more plentiful than for several years, according to Barber. The abundant grain crop assures they will be fat.

in September will profit by adhering to such restrictions as the law provides.

OUR TRIP TO THE MOUNTAINS

Most people when you speak of a vacation in the mountains, think of the mountains in the State of Colorado, while the scenery and drives in Southwest Texas are as fascinating and interesting. So this week we will tell you of our visit to Pecos and the Davis Mountains.

As we topped the last long rolling grade of the highway, from Fort Stockton and sighted the little city of Alpine, nestled peacefully in the beautiful mountain setting, we breathed a happy sigh.

But let us stop right here to say that Alpine not only has a charming setting, but our childhood belief that "three charms" is applicable to the very name itself.

Now, back to our first glimpse of the thrice-named mountain city. As we came slowly down into the town we sighted on our immediate right, perched half-way up the slope of College mountain, Sul Ross State Teachers' College, and noticed particularly the south gate, of which we had already heard.

The most interesting thing of an historical nature to be found on the Tippet ranch is the pronounced evidence of an Indian rancheria by the magnificent spring now used to irrigate the orchard.

At Kokernot Lodge the College recreation cottage, just below College Mountain, on the outskirts of Alpine, we were shown the future location of the Gonzales Art Colony, at which Xavier Ganzaes, internationally known artist of the Sophie Newcomb School of Tulane University, will reside.

BRUCE BARTON
Writes of "THE MASTER EXECUTIVE"

THE ETERNAL MIRACLE
We are quite unmindful of chronology in writing this story. We are not bound by the familiar outline which begins with the song of the angels at Bethlehem and ends with the weeping of the women at the cross.

We shall thread our way back and forth through the rich variety of Jesus' life, picking up this incident and that bit of conversation, this dramatic contact and that audacious decision, and bringing them together as best to illustrate our purpose. For that purpose is not to write a biography but to paint a portrait. We pass quickly over thirty years of Jesus' life, nothing only that somehow, somewhere there occurred in those years the eternal miracle—the awakening of the inner consciousness of power. The eternal miracle!

In New York one day a luncheon was tendered by a gathering of distinguished gentlemen to David Lloyd George. There were perhaps two hundred at the tables. The food was good and the speeches were impressive. But what stirred one's imagination was a study of the men at the speakers' table. There they were—some of the most influential citizens of the present-day world; and who were they?

When and how and where did the eternal miracle occur in the lives of those men? At what hour, in the morning, in the afternoon, in the long quiet evenings, did the audacious thought enter the mind of each of them that he was larger than the limits of a country town, that his life might be bigger than his father's?

The western hemisphere has been fertile in material progress, but the great religions have all come out of the East. The deserts are a symbol of the infinite; the vast spaces that divide men from the stars fill the human soul with wonder. Somewhere, at some unforgettable hour, the glaring filled Jesus' heart. He knew that he was bigger than Nazareth.

PUT YOUR WINDOWS IN HOLIDAY ATTIRE, JOHN SUMMERS RECOMMENDS

Merchants of Colorado are requested to join in city-wide movement to make every possible favorable impression on visitors here August 26th for Good Will celebration. Among the more impressive ways of doing this is to put show windows in holiday attire, Summers said.

"We are expecting to have a large number of visitors in Colorado for that day and attractive displays of merchandise in the show window will do much to impress them with the fact that our business concerns are keeping abreast of the times and carrying stocks that will meet every requirement of the exacting purchaser," he stated.

interesting trip into the unknown of the Big Bend, here we are at the end of the day, resting in the shadow of the Bishop's great mitre, whose coloring we never tire of watching, whose grandeur we sit awed and humble at the foot of this rugged reminder of the greatness of the Unknown.

Your rise in majesty sublime God knows the power you symbolize Your heights I scale and still I feel The smallness of a soul like mine. F. B. W.

Individual High Award Also Captured By Colson At Cisco Encampment

Doyle Williams and his Future Farmers returned to Colorado Thursday afternoon with about everything in the way of honors offered as prizes at annual F. F. A. encampment at Lake Cisco last week. Local youths placed in every event entered and scored for first place in eight out of fourteen, carrying off the handsome bronze plaque awarded the outstanding team, twelve first place ribbons, five second place ribbons and three third place ribbons.

In addition to sweeping aside all competition to win the grand championship award, in so far as team competition was concerned, Colorado won first place in the individual class, with Arval Colson accounting for a total of 41 points. James Matthews of Cisco, president of the Texas F. F. A., captured second place in the individual class, with a total of 38 points. Ley Roy Collin of Brownwood won third with 29 points.

There were a total of fourteen events staged during the two days meet. Colorado entered in twelve of the number and placed in every one. First place was won by Colorado in eight of the events. First place awards won by Colorado are listed as follows:

ONIONS WANTED, NOT TO INDUCE FLOW OF TAERS BUT FOR JUBILEE MENU

Committee directing plans for the "Good Will" celebration August 26, are in need of a goodly supply of onions—not for the purpose of producing a flow of tears from the eyes of any visitor, but for the barbecue menu to be served at Raddick Park on afternoon of the celebration. Any onion grower of the county desiring to cooperate with the committee to the extent of supplying a supply of these delicacies is invited to report at the Chamber of Commerce. The vegetables are not wanted now. The committee will get them later.

BEST CROP PROSPECTS IN STATE IN MITCHELL COUNTY, VISITOR SAYS

"Within the recent past I have traveled by automobile over much of Texas, covering approximately 2,500 miles and the best crop prospects that I have seen are to be found in Mitchell county." That was the statement Tuesday morning by F. W. Britton of Idaho, California, who is spending a visit with relatives in the county. Mr. Britton at one time lived at Colorado, but has been a citizen of California for eleven years. Seeing such splendid prospects served to renew his interest in the old home town and county, Britton stated. He caused his name to be entered as a new subscriber for The Record.

### Hyman Happenings

By MRS. HYMAN  
Dick Gregory of Colorado was in Hyman on business last Wednesday. Since the last Hyman Happenings, I'm glad to report that we have had good rains in this community. About an inch around Hyman and four or five inches on the east side. This rain filled up the new Lockhart dam, backing water up Hackberry creek for about a mile to the bridge. This is a fine piece of work and may not only water the Lockhart farm, but the farm adjoining for a mile or so. It was completed just in time to catch this fine rain over there.

Mr. and Mrs. Pattison of over near Foston were over to see Mr. Hyman on business Wednesday and again on Saturday.

Mrs. W. A. Heusinger and Miss Mary Dalton went into town Monday and on account of the rain and heavy roads did not return until Wednesday. They were the guests in town of the Robert Scotts.

Mr. and Mrs. Lewis Smallwood and Mr. and Mrs. Tommy Summerford came Wednesday to visit their sister, Mrs. I. Smallwood.

Messrs M. C. Lowry and Johnnie Smallwood went fishing Wednesday night and returned Thursday morning.

Miss Mary Dalton spent Friday with Misses Elsie VanZandt and LaVoyce Lowry, at the home of the latter.

Miss Elsie VanZandt spent the day Friday with Miss LaVoyce Lowry.

Mr. and Mrs. H. H. VanZandt and family went to Spade Friday and spent the day.

Mrs. Porter Hammond went to Colorado to spend a few days with Mrs. Trice and Mr. Hammond went to Payne to visit his mother, Mrs. John Hammond.

Mrs. Carl Lowry left Thursday to visit her brother, Frank Black of Champion. Mr. Lowry and Miss LaVoyce took her down and returned the same day.

E. B. VanWinkle and Harold Duke spent Thursday night on the creek. They caught 30 or 40 fish six inches long.

Rev. A. D. Leach will begin a protracted meeting at the Baptist church here, starting Sunday, August 14th. It is reported the meeting will last a week.

Miss Mira Smallwood spent Tuesday night and Wednesday with Miss LaVoyce Lowry. Miss Elsie VanZandt was also there. These three girls spent three hours piecing three crazy quilts.

Mr. Shaeffer of Sterling was in Hyman Monday. He distributes the Zano goods.

Mr. and Mrs. Eager of Eden was in Hyman Sunday to see Mr. Hyman.

Mr. Cochran of Cochran county came in Saturday and spent Sunday and Monday in Hyman on business with Mr. Hyman.

man Sunday, where he met his mother and sister who are visiting here. Miss Mary Dalton was complimented with a party last Saturday night at the home of her uncle and aunt, Mr. and Mrs. Hyman. The young folks all turned out and enjoyed croquet by moonlight. Other games and music until midnight was also attractions. All left stating they had enjoyed it very much.

The rains, which have fallen over this section of the country, have been a great help to late feed, cotton and truck crops, although some fear that there will be leaf worms, if the rain continues to fall. The revival meeting began Sunday. Rev. Butler will assist Rev. Marvin Leach to hold the meeting.

Henry Taylor will lead the singing. Services will continue until next Sunday. The services beginning at 11 o'clock in the morning and at 8 o'clock in the evening. ## Drouth And Pests Combined Attack Upon Mitchell County's Cotton Crop In 1911

The optimism that this week is finding universal popularity among the citizenship of Mitchell county was lacking in a pronounced way twenty-one years ago. The Record for Friday, August 18, 1911, recorded. Reports trickling into town from every part of the county confirmed the fact that drouth and pests were combining their attack to deteriorate the cotton crop.

The week before a group of local citizens had variously estimated damage to the crop from hot, dry weather at from twenty-five to fifty percent. Blasting winds had swept across farms everywhere with destructive effect. And now insects had taken up the cudgel against the farmer and following in wake of the drouth damage were evidently set to the program of taking much of what the unfavorable weather conditions had left.

"Colorado needs the aid of every citizen to carry on during these times," The Record concluding after making reference to the crop production losses. "Now is the time for boosting, not knocking; for helping, not hindering."

Jake, "the 1884 restaurant man," had closed his place of business for fifteen days and the proprietor along with all hands had left for the Concho to spend the time fishing. Such a policy had for several years been observed by this well known Colorado man, it was stated.

Annual convention of the West Texas Odd Fellows Association closed here a few days before. Two Colorado citizens were honored by the delegates when they came to name officers for the ensuing year. W. L. Doss was elected to the presidency and Mrs. Jas. T. Johnson elected Secretary. Resolutions praising leadership of Mrs. Katie Doss was passed by the convention.

It is apparent that horses were bent upon doing injury to those about them back in those days. Last week, in this old time reprint, the story of two Colorado men having been painfully injured by hoofs of a horse was told. During the week of August 18, 1911, J. J. Patterson was painfully hurt when the flying heels of a horse struck him in the side. Patterson was picked up in a state of coma and hurried into town for medical treatment.

The marriage of G. E. Copeland and Miss Mae Threlkeld was solemnized at Frederick, Oklahoma. Copeland, until a short time before, had been engaged in business at Colorado.

## Farmers, Merchants To Attend Meeting At Spur Aug. 29th

A delegation of Litchell county farmers and merchants plan attending demonstration at the State experiment station at Spur Monday, August 29th, for the purpose of inspecting tests on water conservation, cotton and maize spacing, cattle feeding and other demonstrations to be given under direction of director of the station.

The party is to leave Colorado at 7 o'clock A. M., arriving at Spur at 10:30. About three hours will be spent in going over the experiments. A picnic lunch will be served at noon at the station. Experiments at the station show that terraced land produces an average of 333 pounds seed cotton per acre, contoured land 397 and diked land arranged to hold all the water 569 pounds per acre. Any citizen interested in making the trip should communicate with the county farm agent, Doyle Williams or J. H. Greene.

## RETIRED SCHOOL HEAD PREDICTS NEW RECORD FOR CROP PRODUCTION

"Looks to me as if we are going to produce the best crop this section has ever known," remarked Claude Hooks, retired school teacher who was here Saturday from his home at Dunn. "Conditions are most promising right now and I would not be surprised if we farmers did not harvest one of the best if not the best, yields ever known since farming was introduced here."

Hooks, after several years as a school teacher, announced a few months ago that he was retiring and would devote his entire interests to farming. He was superintendent of the Dunn school and developed one of the best rural high schools in the country. He owns a farm in Buford community.

## CITY MARKET, CLOSED FOR FIVE MONTHS, TO BE REOPENED FRIDAY

The City Market, operated for several years by J. F. Morris at 131 East Second street, is to be reopened for business Friday after being closed for five months. Since closing the business Morris has been in charge of the market department at Piggly-Wiggly.

Carpenters and painters were started to work Tuesday morning remodeling and decorating interior of the store. Fixtures that remained intact during time the place was closed are to be used.

## EXPERIENCED MAN HAS CHARGE OF MARKET AT PIGGLY WIGGLY STORE

Thos. Hardin, for some time in charge of the market department of Pace Brothers at Sweetwater, Tuesday morning took charge of the market at Piggly-Wiggly, succeeding J. F. Morris, who for the past five months had been connected with the store.

Hardin stated Tuesday that he planned moving his family to Colorado at an early date. He has had several years experience in handling fresh and cured meats and other market foods.

## 'HOOVER ACRONS' GROW LARGE ALONG COLORADO

E. C. Tunnell, mail-carrier out on Route No. 3, Monday morning brought to The Record office a collection of unusually large acorns. The specimens were gathered from shinnery brush along the Colorado river by Jack Cosper, and are described by him as being the largest he has ever seen in West Texas.

"They must be Hoover acorns," suggested a visitor at the office a short time after the collection had been placed on display.

**Lorraine 4-H Club Girl Tells Of Visit  
To Annual Short Course at A-M College**

By LELLA JUNE HARRELL  
Lorraine, Texas

Miss Sevier, Elsie VanZandt and I started from home just three minutes after four on the morning of the 23rd of July. Had breakfast in Abilene and reached Fort Worth at 10:30. Here we shopped with Miss Sevier, had our lunch, went to a movie, and then went through the zoo. All kinds of animals were here but the most interesting of them all were the monkeys. A very special interest among the monkeys were a gentleman monkey, his lady wife, and their son. They were so very much like people that we were almost forced to think we might be a little kin.

We drove to Hillsboro that night reaching there at 10:30, while here we stayed in the home of Miss Sevier's parents. While at Mr. Sevier's, Miss Sevier canonized eleven chickens for her mother. I tried one myself so that next year I can do this work, too. Elsie and I went down on the creek and found some grapes. They were the most beautiful grapes we had ever seen, being large, perfectly round, and a dark velvet color. They were most delicious, but when Miss Sevier found that we were eating she thought we would have our tongues peeled as they were mustang grapes, but they didn't hurt these two West Texas girls. We enjoyed our stay here, but of course we had to go one, so after dinner on Sunday we left for College Station, stopping in Waco to see Cameron Park, which was given to Waco by a man named Cameron who died leaving five hundred acres for a park and the money for its upkeep. We continued our drive for College Station, reaching there in time for supper.

We bought our meal tickets for the week. The ticket lady told us if we lost them we would not be given a duplicate but instead would have to buy another. I did not lose mine.

Monday morning we had assembly of both boys and girls, where we had class singing of our Club songs. At

this meeting we elected a president and secretary. These offices were filled by Edwin Barnes, Marshall, Harrison county, and Miss Ruby Nordt, Brenham, Washington county, respectively. In the afternoon Miss Blair talked to us about food preservation and showed us some beautiful jars of canned products, one of which was watermelon rind preserves. In my home we are going to have lots of watermelon rinds so I am planning watermelon rind preserves for all my town friends for Christmas. Mr. Rosborough talked to us about gardening which was of special interest to us who plan gardening for our project next year.

Every night both boys and girls went to the stadium for some special program. The first night (Monday night) we lined up, boys on one side, girls on the other on either side of the walk. We came together at the walk and were paired with the one we met. We had lots of fun about this as it often happened that a very tall girl paired with an undersized twelve year old boy. After the first night the boys were allowed to select their own dates. And one night when we started to the stadium our sponsor asked a little boy if he hadn't "dated yet?" He said, "I've just asked eight." This dating was lots of fun as we always grouped boys on one side; girls on the other. The boys looked the girls over. When a boy saw one whom he thought he'd like he walked across and asked her, if she said she had a date, why it was alright, or if she said she could "have more fun with a girl" it was still alright, just asked another. I think our sponsors enjoyed this part of the program very much.

Tuesday morning after our singing and club talks, we listened to former Governor Neff. Among other things he said, "I would give all I have, and all I ever expect to have, all I have ever been, or expect to be, just to be one of you out there in that crowd with the opportunity, which are yours." We felt we were very, very, fortunate.

Another talk which I found most interesting was "Your Voice and Its Influence" by Mrs. L. C. Cooper. Her voice was so sweet and so well modulated that it made her talk impressive.

Wednesday morning at assembly Mrs. Skelly talked to us on "Roads to Daintiness." Cleanliness of body, mind, and soul was the first mile along this road, after which the rest follows easily. Wednesday afternoon we saw Dr. Francis' collection. Among all the things I saw and heard at the Short Course, this collection was the only thing I failed to enjoy. I just don't seem to care for bones or dead animals.

Thursday morning and assembly. These assemblies were certainly worth while. Both boys and girls were here and our class singing was so fine. The boys knew their song much better than we girls knew ours so their singing was more easily done. These the State songs, so we should know all of them. This morning we heard Miss Derryberry on "Yards and Plants," and Miss Heflin on "Understanding Little Sister." After the meeting was over I asked a girl if she had enjoyed it, she said, "I don't know, I was feeling too sorry for my little sister."

One night we had horse racing and I enjoyed it very much. The Queen was crowned at this meeting and was in connection with the racing.

Friday Miss Lucille Capt talked to us on "Transplanting Native Shrubs." I was specially interested in this for I know it would be much easier to get the native shrub to live. "Good Books to Read" was discussed at this meeting by Miss Goree. I like to read so found this one of the most interesting numbers.

We left for Austin Friday afternoon at 3:15 arriving there about 7 o'clock that night. While here we stayed in the home of Miss Sevier's aunt. Friday night we went to the Scout Council. The Scouts were grouped around the wood which was placed for lighting. Four Scouts who were dressed as Indians asked the chief to bring down fire from the tree, which he did. It landed in the pile of wood. One of the Scouts said this was the first time they had been so successful with the fire. Then they sang songs, and told about their coming camp. A teacher in the University told a tall story. I thought the best thing on the program was the whistling. A man imitated birds and whistled the alto and soprano of "Springtime in the Rockies." Saturday morning was spent in seeing the capital. Stephen F. Austin's statue was the most beautiful one I saw, but I enjoyed it all. We drove from there to the House of French Ambassador. We also saw the tree under which Sam Houston and the Indians made a peace treaty. It covered about a block. We left for home about 7:00 Sunday morning. Near Fredericksburg, we saw wagon loads of tomatoes piled out for the cattle to eat. We got to Colorado about 5:20 Sunday afternoon.

This trip, which I had through the courtesy of Miss Sevier, was the most enjoyable trip I have ever had.
