

'GOOD WILL' CELEBRATION BE OPENED AT COLORADO TODAY CHAMBER OF COMMERCE BUYS FIRST 1932 BALE AT \$7.50

STAPLE GROWN BY JOHN KENNEMER OF COKE AND DELIVERED HERE MONDAY

Premium Totalling \$50.40 Is Presented To Grower By Business Interests

The Colorado cotton market was opened Tuesday afternoon for another season with John Kenner, Coke county farmer, delivering the first bale and the Chamber of Commerce buying the staple at a price of \$7.50 per hundred pounds. The cotton was sold at auction with Nat Britton of the Britton Dry Goods Company, presiding on the block.

The bale was received at Farmers Gin Company plant No. 1 late Monday, but was not ginned until the following morning. It weighed 481 pounds, which at the price of 7 1/2 cents, brought its owner \$36.07. In addition a premium, totaling \$50.40, was subscribed by business interests of Colorado, boosting total returns for the bale to \$86.47. W. Dorn, manager of the Farmers Gin Company, stated that the ginning was complimentary.

"I started out in the early Spring to produce the first bale of cotton here this Fall," Kenner said Tuesday afternoon. "On March 28 and 29 I planted 20 acres to cotton and saw to it that the crop received careful attention. Monday morning I decided there was a bale open on the twenty acres. I got busy and hired every picker I could find. Within an hour or so I had 36 people in the field. The bale was out in hardly no time and we picked over only 15 acres."

That the Colorado market would maintain a creditable rating with other such markets in this part of the State during the season now ensuing was declared by Mr. Greene. Planters from over a wide territory will find it to their advantage to gin and market their cotton here and also purchase their supplies, he said.

JIM LATTY, 78, AMONG ENTRANTS FOR ROPING CONTESTS FRIDAY P. M.

Jim Latty, among the pioneer citizens of Mitchell county, came into town Wednesday from his home at Carr to register as an entrant in goat roping contests Friday afternoon. Latty is 78 years of age.

"Yes, I have been around here for quite a number of years, but that should be no reason that I am getting old," Mr. Latty stated. "I am entering that goat roping contest to win and these young fellows had just as well get ready for some real competition," he concluded.

Frank M. Smith, while not attaining the number of years that have marked Mr. Latty's lifetime, admits that he is no "Spring Chicken." Smith is another of the old time cow hands who has entered for competition in the rodeo events.

'DINE ON BARBECUE AS OUR GUEST' MESSAGE FROM GOOD WILL HEAD

Jim Greene, general chairman of the Good Will celebration opening in Colorado Friday morning states that there seems to be some confusion in minds of the people as to whom invitations to attend the barbecue that afternoon are extended.

"We sincerely trust that no one will get us wrong on this invitation," Greene stated Wednesday. "The barbecue is open to every visitor alike and certainly a welcome will await everyone. And, beyond that, we wish you to understand that everything you eat there will be free. You are our guests and we want you to feel at home."

The same invitation is extended all Mitchell county citizens, including those living in Colorado.

Crop Outlook Here Promising, Agents From A. & M. Say

The Mitchell county crop outlook is most promising and rates with the best to be found in Texas, according to statements made here by H. H. Williamson, vice director and State agent for Texas A. & M. College extension service, and T. B. Wood, farm agent for Texas district No. 3, both of whom were in Colorado Tuesday to confer with W. S. Foster, county agent.

Mitchell county farmers certainly have about everything, excepting actual cash, and there is little doubt but that they will be realizing profitable financial returns from the cotton crop before long, suggested Mr. Williamson. Field and range conditions were reported good through much of the district.

ABILENE EDUCATOR FLAYS FERGUSONISM IN ADDRESS BEFORE STERLING RALLY

Simmons President In Appeal That Texans Support Gov. Sterling Saturday

An interpretation of "Fergusonism" and what its application to the chief executive's office of Texas will mean to the destiny of this State were given in a rousing address delivered here Saturday afternoon by Dr. J. D. Sandefer, president of Simmons University, Abilene.

The prominent Texas educator, brought to Colorado by the Mitchell county Sterling for governor club, was introduced by Rev. Dick O'Brien, pastor of First Baptist church and a former student in Simmons. He spoke from an improvised platform in Walnut street opposite entrance to the Colorado Hotel. A public address system was brought into use to assure that everyone of the several hundred present hear the address.

Dr. Sandefer based his address upon a high plane of morals, depicting Ross Sterling on one side as the champion of all that is honest, clean and efficient, and Jas. E. Ferguson on the other, with a record of disgrace, ending in being forever barred from again holding office in Texas, as his reward.

"In coming to Colorado this afternoon to center my attack on Fergusonism, I am but renewing the assault upon an enemy of long standing," Dr. Sandefer said. "I have been found fighting Jim Ferguson since 1916, because he is the champion of the liquor crowd, fostering the return of the companions in sin against which the mothers and Christian fathers of this republic have so stubbornly fought down through the years."

Election of Sterling in Saturday's run-off primary election was predicted by not less than 100,000 votes. Dr. Sandefer charged as false and without foundation the charges that Ferguson has been fit to make against the State highway commission. Ferguson has recently advanced the claim that this department was more than \$100,000,000 in default. State Auditor Moore Lynn has since issued statement refuting the claims of Ferguson.

Action of Governor Ferguson in placing martial law regime in force in the East Texas oil fields were praised by Dr. Sandefer. Such determined action also saved the independent operator, small land owner and lease owner and others identified in a small way with that sector from bankruptcy and financial ruin, he said.

WELCOME HOME, CITIZENS OF YESTERYEAR

Colorado today will be the mecca for thousands of distinguished citizens—distinguished out of recognition upon the part of every loyal citizen of Mitchell county today that had it not been for the hardships and loyalty to adopted country ever displayed by them during the early days of development here, this county could never have attained the progress that has marked its history for more than a half century.

This newspaper accepts the privilege of joining with others to welcome you back home as a distinct honor. The traditions of Mitchell county and of West Texas are the traditions of the lives of such men and women as are numbered among the early settlers in this part of Texas. They are to be revered, whether living elsewhere or still electing to make their home in the county where they settled many years ago.

Many of you journeyed back to the old home county a year ago to join with us in commemorating fiftieth anniversary of organization of the county. We were made to believe you enjoyed that event. That the celebration today may be remembered as among the most pleasant events of your life is our sincere wish.

The Record would welcome every visitor to Colorado. Special reference to presence of pioneers within our gates should not be construed to impress that the others are not extended an equally friendly welcome. However, there is something about us that impels a deep reverence for the pioneer. We hope that their names shall ever be cherished by the generations that have and are yet to follow them in civilization's march of progress.

That same afternoon at 3:40 o'clock the youth was dead. He is said to have bled to death. The letter, written only a few hours before his death, was received Wednesday morning.

SECOND ELECTION 'PARTY' WILL BE GIVEN SATURDAY NIGHT ON WALNUT STREET

Mitchell county's second election "party" within the space of five weeks is to be given here Saturday night in front of The Record office on Walnut street. The program has been made possible through efforts of the Chamber of Commerce, several interested citizens and this newspaper.

Returns from the State election will be tabulated and telegraphed to Colorado by the Texas Election Bureau at Dallas. Owing to brief portions of the ballot counting is expected to proceed with rapidity and totals showing winners in several of the strongly contested State and District races should be in within a few hours after the polls are closed.

Returns from both the State, District and county contests are to be posted on bulletin board in front of the newspapers office. As was the case after primary election Saturday, July 23, these returns will continue to be received and given the public so long as tabulation is continued by the Texas Election Bureau.

This program is expected to attract a large number of Mitchell county citizens. Reunion of Terry Family

Thursday, August 18th, 1932 was a red letter day for Mrs. Narcia A. Terry (Mrs. R. F. Terry) and her family, because of the fact that all the children, except one son, J. D. Terry, were with her on that day. This large family of nine girls and six boys have gone out from the home all over the State, and last week was the first time in thirty years they have all been together. Besides the thirteen children present there were sixteen grandchildren, three great grandchildren and seven in-laws, making a group of forty.

Mrs. Terry, who has been an invalid for some time, was so happy to have these children and children's children all together around her table once more, and it was indeed a happy occasion for all. Those present were: Mr. and Mrs. H. Proctor, Ruth Corrine and Stanley Proctor of El Paso; Mr. and Mrs. T. R. Brown, Clarendon; Mrs. Annie East, Weatherford; Mrs. R. H. Kelley, Stanton;

Mrs. R. T. Hidel, Narcia, Steve and Frankie Lee Hidel, Fort Worth; Mrs. J. M. Wells, John Morris and James Terry Wells, Anson; Mrs. Ray Pickard (granddaughter) Martha Lee, Nita Bell and Myra Ray Pickard, Fort Worth.

At twelve o'clock a delicious fried chicken dinner, with all accompaniments was served at a table extending the length of both the dining room and living room. In the afternoon a picture of the group was made. And the day closed with a picnic in the park, which all except the aged mother attended.

Here each girl had made a cake and these were served with ice cream and watermelon, closing a day long to be remembered by each one. Mrs. Terry is truly a Bible type of mother and her children, with one accord, rise up and call her Blessed.

Tomatoes in Varied Forms

By Jane Rogers

TOMATOES lend themselves to preparation in so many delicious forms that it is easy to avoid any chance that the appearance on the menu of this inexpensive vegetable, or fruit if you are a stickler for exactness, will become monotonous.

Aside from a wise selection of different recipes, the most important point to remember is that the delicate flavor of the tomato calls for a careful use of seasonings to develop the flavor to the full and blend it with those of the other ingredients of the dish.

Sugar, used like the salt and pepper, and frequently in combination with them, is invaluable as a seasoning for all tomato dishes. In some subtle manner it, better than any other seasoning, points up the flavor of the tomatoes themselves and harmonizes all the other flavors present.

Stuffed Baked Tomatoes

Take large ripe tomatoes, cut off stem ends and take out centers. Fill with a stuffing made of one cupful of bread crumbs, one-third teaspoonful of salt, dash of pepper, onion and parsley to taste, two tablespoonfuls of melted butter, one tablespoonful of sugar. Place the tomatoes in a pan without

water and bake in hot oven 30 minutes.

Creole Tomatoes

Select large, firm tomatoes and cut them in halves, crosswise. Allow one green pepper, one onion and a sprig of parsley to three tomatoes. Chop these all fine, spread over the cut surface of the tomatoes, dot with bits of butter, season with salt, pepper and a sprinkling of sugar. Place in a greased pan to bake in a hot oven about 20 minutes. Remove the tomatoes to a hot dish, add a cupful of milk to the liquid in the pan, stir till heated, then thicken with a teaspoonful of butter rubbed to a paste with a teaspoonful of flour. Season with one-half teaspoonful of salt, one-quarter teaspoonful of pepper and one teaspoonful of sugar, and pour over the tomatoes.

Tomato-Melange

Scald and peel six medium-sized tomatoes. Cut in pieces and add to one finely chopped green pepper, which has been fried lightly in butter. Cook together for ten minutes and add two cupfuls of corn, either fresh or canned, three tablespoonfuls of butter, four tablespoonfuls of sugar and one teaspoonful of salt. Cook together for ten minutes.

Palace Theatre Has Interesting Program Billed During Week

"Forgotten Commandments"—the Paramount feel-life story of a modern Babel, is the Palace's feature for Thursday and Friday, August 25 and 26. The cast is headed by Sari Maritza, new blonde sensation from the European films; Gene Raymond, is the leading man.

The story opens at a big city university, where Gene Raymond and his bride, Marguerite Churchill, register for courses in medicine and social service. It is a strange mixture of love and hate, but it all turns out just about right.

"Behind the Mask," a story of mystery and horror, produced by Columbia Pictures is coming to the Palace for Saturday, August 27th—one day only. This picture features an interesting mechanical device, which plays an important part in un-

folding the plot.

It has a strong cast of characters and is an unusually thrilling picture.

A gripping romance depicting youth's struggle for real happiness in a big city is offered in "Young Bride," the RKO-Pathé picture with Helen Twelvetrees, Eric Linden and Arline Judge, which comes to the Palace Sunday matinee and Monday, August 28 and 29. There is a definite note of popular appeal in this production and it is sure to please local audiences. The story concerns a girl who might be the wholesome miss next door, and her fight to win happiness from a romance that gets off to a bad start.

A wierd menace of a giant ape hangs over "Murders in the Rue

Morgue," Universal's strange drama which comes to the Palace theatre next Tuesday and Wednesday, August 30 and 31, with Bela Lugosi and Sidney Fox in the leading roles. This shaggy monster, with the warped brain of a natural criminal and the stealthy cunning of a wild beast, brings an eerie quality to the story as it sinks in the midnight shadows of Paris or climbs up the front of an apartment building, to enter the window of a sleeping girl.

Thursday and Friday, September 1 and 2 the Palace is showing, "Wayward," a Paramount picture with Nancy Carroll and Richard Arlen. This picture is accompanied with a Paramount News and a Columbia cartoon.

Tunney Into Politics

WE SHOULD ELECT WILBOURNE B. COLLIE

Honorable Wilbourne B. Collie of Eastland, in the run-off for State Senator from this district, which is composed of 12 West Texas counties, is entitled to the undivided and solid support of every voter in Eastland county and should run well ahead of his opponent, Senator Oliver Cunningham of Abilene, in the other counties of the district, with the possible exception of Taylor county, where Collie received a splendid vote. Mr. Collie received overwhelming majorities in Eastland county in the first primary, and it is our prediction that he will receive the solid support of the people of his home county in the election August 27th.

Mr. Collie, a native of Eastland county, has a clean record, both in private and public life, and against which nothing can be said. He possesses innate ability, is absolutely honest, energetic and trustworthy. He is a tried and true Democrat, as the people well know, and against whom the charge cannot be truthfully made that he ever bolted the ticket. He has never aligned himself with any political organization or clique other than the Democratic party, he does not follow the attributes of small bore politicians by advocating measures to arouse the prejudices of men. On matters affecting public welfare he lends an undaunted influence for the right and in the Senate chamber at Austin he could be found with his visor down. This young man inspires confidence and makes friends upon acquaintance, but the district is so large his friends should help him in the other counties of the district. With some assistance he will be elected the next State Senator from this district, and be one in which the people may justly be proud.—From The Eastland Weekly Chronicle for August 19, 1932.

Wash the raisins in just enough water to cover, cook until puffed. Remove from the fire and add the other ingredients, cool and put in a tightly covered jar and use as you would any mince meat.

Many of my lady patients have had, at one time or another, an operation for disease within the abdominal cavity. Removal of tumors, diseased ovaries or appendices—these operations involve exploration within the body, and, frequently leave after the most skilled surgery—adhesions. "Have I adhesions?" The question has been asked of me many times. Well, if your bodily functions are performed naturally, you need not worry. Constipation after an operation for appendicitis does not necessarily mean that the bowel is bound down by an adhesion. Yes, and adhesion is the growing together of structures in the abdomen that should not grow together. I have seen many cases of "adhesion" from the rupture—and later recovery—of an abscess of the tube or ovary, that ran its course without operation.

Bowel-walls and peritoneal surfaces grow together very quickly under certain contacts by sutures or forced pressure. Where a very marked stricture of the intestinal canal is produced, it may be necessary to re-open the abdomen and release the band closure.

It is a very serious error to conclude that a masseur or hand manipulator can break down adhesions—whether real or imaginary; my particular field of work puts me in contact with many "drugless physicians." Rarely should a surgical abdomen be subjected to hand manipulation, and even then, the display of "elbow grease" marks the ingnoramus who is capable of doing serious injury.

A few minor adhesions cause only slight pain; it is only those that narrow the caliber of the bowel and interfere with normal evacuations that need the attention of your careful physician.

DECREASE IN COTTON ACREAGE IS SHOWN BY SOUTHLAND LIFE MAP

DALLAS, TEXAS.—A considerable decrease in the amount of cotton to be produced in Texas this year is indicated by the Southland Life crop report for July-August as compiled by the Department of Public Relations. Three important factors are responsible for this development:

- (1) There has been a very considerable decline in the cotton crop in East Texas because of deterioration caused by hot weather and dry soils.
 - (2) The crop in southeast Texas, especially in counties near the Gulf, was considerably injured by the storm of August 13th.
 - (3) And, finally, boll worms, weevils, grasshoppers and a number of other enemies to cotton have injured the crop in other sections.
- These, of course, are in addition to the decreased crop brought about by agitation for decreased cotton acreage.
- Reports indicate, finally, that there has been a little more abandonment of inferior crops than was expected.
- Business conditions appear to be the most hopeful for many months although, with very few exceptions, none are reported normal. In the main, a spirit of optimism has taken place of the pessimistic attitude prevalent earlier in the year. Almost without exception, farmers are reported as better than ever before in their history fortified for the winter except as to real cash.

IN LITTLE OLD NEW YORK
CARL H. H. GETZ

The depression has hit the business of going to New York. Nearly 6,000,000 fewer persons visited New York during the past 12 months than during the previous year.

New Yorkers are supposed to be very nervous people. The explanation given is the constant noise in the city. New York, recently, maintained what was known as a noise abatement commission. It even proposed to put rubber tires on wheelbarrows.

Well, well, New York hat shops are selling colored Panama hats. They come in all colors.

Over on Sixth Avenue there is a sign in a gypsy fortune teller's window which reads: "Have your head read by this great woman who studied for 27 years in Jerusalem."

Walking through the Grand Central station the other noon, I saw a group of men and women come out of the station exits laughing heartily. Shortly a man came walking out who was plainly mad through and through. He had no shoes. They had either been stolen during the night on the train or mission. It even proposed to put rubber tires on wheelbarrows.

There is a labor union here made up of house wreckers. And every one of them is a Russian.

There are more bootblacks on the streets of New York than ever before. These men anticipate what they will receive for a shine by the quality of the men's socks. The usual charge for a shine is a nickel, but more frequently a dime is paid.

Unemployed artists—there are hundreds of them here—have received permission to sell their paintings on the streets of the city.

The other day the New York police dumped 4,402 pistols, 638 shotguns and rifles, and 240 other weapons including blackjacks, daggers, dirks and slingshots into the sea. These weapons had been taken from criminals during the last year.

There are spots in New York where pedestrian traffic is so heavy that police are required to keep persons moving.

SAFETY OF THE ROAD

On July 29, L. G. Phares, chief of the State highway patrol, issued to his force instructions to file complaints in every instance where a cotton truck is found overloaded, overlength, overweight, improperly parked, speeding, with defective brakes, without proper lights, without rear vision mirror or without a chauffeur's license or com-

mission permit where required. With the exception of the license and permit items, no single possible violation of the truck regulatory statutes noted is without danger to the highway traveler.

The cotton truck has constituted a peculiar peril to the road ever since transport of the commodity by this means has come into wide use. It may be that cotton can not be

profitably shipped on trucks of dimensions that do not create a danger to others. But with due regard for the economies necessary in cotton farming and marketing, their requirements should not be permitted to risk life.

The simple fact is that no motor vehicle should be operated by a driver not in good physical condition. Truck schedules which require the chauffeur

to go without sleep long periods increase risk. The oversize truck "hogs" the road, refuses to risk taking the ditch by getting close to the margin on its legal side, thus impeding traffic. The clatter it makes draws the noise of the signal horn behind it. Even where the truck is equipped with a rear vision mirror, its driver frequently ignores the rights of the traffic.

The cotton truck is not the only road miscreant. Other oversize trucks constitute as great a danger, but risk is intensified from the nature of the cotton load where it does not conform to a reasonable regulated size. The cotton truck has not a friend in the traffic along side it. Unless it can be kept within uniform maximum limits, it ought to quit the highway.—Dallas News.

Which Shall Rule?

Shall the Railroad Commission represent the people or shall it be dominated by major oil companies? Shall the hundreds of thousands of dollars being spent in this campaign buy the office, or will the "Appointed Colonel" be repudiated, as he was in the first primary?

Shall we let the big oil companies control one of Texas' most important natural resources and regulate the price of crude oil and the retail price of gasoline through the appointment of their favorite, Colonel Thompson?

The common people said "NO" in the July primary and we believe the people will again take control of the Commission August 27th.

Richardson Senses Trophy Belt for Home Town Club

VICTORY FOR COLORADO'S LINKSMEN IN SAND BELT TOURNEY SEEN BY PREXY

Richardson Is Confident Of Capturing Trophy In Final Contests

Colorado linksmen are doped to win coveted Sand Belt Golf Association trophy as last contest of the series is played Sunday, September 11, at Lamesa, T. A. Richardson, president of the Colorado Country club and leader of his home town's club in the tournament, announced Wednesday.

Results of Sunday's contests boosted Colorado to second place, with Sweetwater leading 7 points. The home town club has accounted for 268 points and the Nolan county club 275 points.

"We have three more games to play in the tournament schedule and Sweetwater has only two, which means that we are sure of overcoming the latter's lead and pass to first place," Richardson stated. Reason for the uneven number of games played was explained in fact that Colorado had taken a pass with Texas and Sweetwater had not.

In matched game with Odessa Sunday, local linksmen routed their opponents 34 to 10. Big Spring, too, showed formidable strength in game with Lamesa by drubbing the Dawson county club 24 to 20.

Colorado is to meet Midland at Midland next Sunday in what local fans predict another victory for this town. Midland is trailing in fifth place in the belt with 209 points. Snyder is to play Lamesa at Lamesa and Sweetwater will invade Big Spring.

Standing of the seven member teams as officially reported through Sunday's contests, are given as follows:

Sweetwater, 275; Colorado, 268; Big Spring, 263; Lamesa, 254; Midland, 209; Snyder, 195; Odessa, 156.

Abilene Voters In Favor Of Shows On Sunday Afternoons

By a majority of 378, Abilene voters Saturday authorized return of the Sunday picture shows, for the college city. The verdict written at the ballot box is expected to end a long, hard fought fight between Sunday show fans on the one hand and college and church leaders on the other. The vote is to authorize opening of the show houses during Sunday afternoon only.

A total of 2,656 votes were polled. Those favoring the Sunday show totaled 1,567 and those opposing totaled 1,189.

Such a vote was held there a few months ago with the proponents of Sunday shows losing. Petition requesting another vote on the question was presented the city commission a few weeks ago and the election promptly ordered. Both sides to the question instituted heated campaigns. Mass meetings were held and oratory expended in favor of and against the measure.

BIG JIM VENABLE WILL DEFEND TITLE AGAINST FT. WORTH CONTENDER

Athletic show to be given at the Ritz Friday evening at 8 o'clock gives promise of being among the big attractions at annual Good Will celebration, the Chamber of Commerce, sponsors of the event, advises. Big Jim Venable, Colorado's own heavyweight, is to defend his title against Joe Rice, professional who hails from Fort Worth. The heavyweights are to do the leather pushing act for six rounds.

There are other features on the athletic card, including a four-round semi-final between Casey Jones of Big Spring and Curt Simmons of Sweetwater; also three 3-round preliminaries between Red Williams of Colorado and Shade McGinty of Snyder; Suitcase Simpson, Colorado vs. Pot Cox, Sweetwater and Gene Witt, Sweetwater vs. Jack Hargrove, Colorado.

Old timers present, who in other days witnessed fistic demonstrations in the rough, will have the opportunity of seeing all the former action, plus the polish of Queensbury rules and presence of a referee.

Tickets for this event are on sale at all drug stores in town. "All those who enjoy clean sport with plenty of action and thrills are urged to be present when the gong sounds for the first round," manager of the show stated Wednesday.

Mitchell Electors Favored Advancement Of Public Schools Here 21 Years Ago

Electors of Mitchell county were almost unanimous in the verdict that their boys and girls were entitled to the best educational facilities possible for them to provide. The Record for Friday, August 25th, 1911, recalls in reporting results of special elections held in each of the twenty-four school districts a few days before to determine whether or not special tax levies should be authorized. The election carried overwhelmingly in practically every district, the article stated. In some districts the citizens were interested in providing additional facilities to their public schools that not one dissenting vote against the bond was recorded. The vote authorized levies ranging from ten cents to fifty cents on the hundred dollars valuation.

The devastating drought that during that month had wrought destruction to the cotton and late feed crops, had been somewhat checked during that week. Good rains were reported in several localities north of the Texas & Pacific railroad. But little rainfall was reported south. Should a late fall be realized farmers would recover, to some degree at least, from the heavy losses sustained.

Rumblings of an east-west transcontinental highway were sounded that week by The Record. The Longview Chamber of Commerce was sponsoring campaign to improve highway connecting Shreveport and Dallas. Such a project, The Record argued, should be continued west through Colorado and to El Paso. "The time is not far distant when these connected roads will be running from one side of the country to another," the paper declared. "Colorado should get in line to obtain one of them."

ROSCOE FARMER PLANS TO INVESTIGATE NEXT TIME CAR STOPS NEAR

S. D. Hearn, farmer living a few miles northwest from Roscoe, states that the next time he observes a car and trailer stopping near his home at night, an investigation as to what business may be up will be made.

The other night Hearn noticed the two vehicles parked in the road not far from his home. He thought nothing of the incident, however, accepting that some traveler might be having car trouble.

The next morning a 300-pound porker that the farmer had been conditioning for butchering a little later on was gone. Some neighbors reported they witnessed two men load the hog into a trailer and drive hastily away down the lane.

SAN ANGELO IS NAMED AS NEXT CONVENTION CITY FOR NEWSMEN

San Angelo was named as the 1933 convention host of the West Texas Press Association during closing hours of the sessions in Big Spring Saturday morning, after Sweetwater and Odessa both had withdrawn in favor of the Concho city. Headquarters there are to be at the Hilton Hotel, upon personal invitation extended by "Dusty" Waller, manager.

The 1932 convention was opened Thursday evening of last week with a stag barbecue program at City Park. Members of the press were entertained there by the Big Spring Kiwanis Club. Dances at the Settles and Crawford Hotels and luncheon Friday noon with the Lions Club and annual banquet that evening were other entertainment features.

Coloradans taking an active part in the sessions were W. W. Whipkey, who served as member of an important committee and took an active part in discussions brought before the convention. W. S. Cooper delivered response to the address of welcome and John R. Baze and Bill Turner were present for the Friday afternoon and evening features.

FATHER RURAL CARRIER DIES RECENTLY AT OLD HOME IN BEN WHEELER

C. W. Tunnell, 79, died Thursday of last week at his home in Ben Wheeler, Van Zandt county. Funeral rites were conducted Friday at Tunnell Chapel, old family church, where deceased and members of his family had worshipped for a half century or more. Mr. Tunnell was the father of E. C. Tunnell, carrier on route No. 3 out of Colorado.

Mr. and Mrs. Tunnell were at Ben Wheeler for the funeral services. They returned to the Colorado Sunday. Deceased was a native Texas, having been born in Smith county not far from the place where he had made his home for fifty-five years. A school and church was located many years ago at "Tunnell's Chapel" largely through his efforts. Land owned by both he and his father was donated for the site.

In addition to his son at Colorado, Mr. Tunnell is survived by five sons and three daughters, all of whom were present at the rites. Mrs. Tunnell died in June, 1924. One brother also survives.

REV. ELLIOTT TO HOLD REVIVAL AT SEMINOLE

Texas' Most Bitter Campaign For Chief Executive Closing

The bitterest campaign for governor that Texas has experienced, perhaps, is being brought to a close with Governor Ross Sterling the standard bearer on one side and Jas. E. Ferguson, campaigning for his wife, the other. The opposing candidates are pictured above.

The run-off campaign has brought more stump speakers before the electorate of Texas than may be said of any other race for any office in this State. Colorado has not permitted itself to become embroiled over the issues at stake as have many of the communities of the State, but, nevertheless, interest is well defined and a large vote is expected to be registered Saturday.

Governor Sterling, trailing "Ma" Ferguson 102,000 votes in the July primary, has a strong handicap to overcome. Both candidates are claiming the Tom Hunter vote. Both Ferguson and Sterling are claiming victory as the campaign is brought to a close. Farmer Jim is telling Texas voters that his wife will be nominated by a majority of 250,000. Mr. Sterling is a bit more modest. He has fixed his lead at 100,000.

SNYDER PUBLISHER IS WINNER GOLF TROPHY

J. W. Roberts, Snyder newspaper man, upset the dope bucket at annual editor's golf tournament at Big Spring Saturday afternoon to win the Bill Parker trophy. Sports writers had placed Ralph Shuffler of Odessa in line to cop this pennant, some of them even eliminating the Snyder man from the list of strong contenders.

Walter Whipkey of Colorado, listed among possibilities to take away the trophy, did not enter the tournament. Mr. Whipkey returned to Colorado before opening of the match.

Now Facing Murder Indictments

A trial which seems certain to attract national attention is that of Libby Holman Reynolds and Albert (Ab) Walker at Winston-Salem, N. C., on an indictment charging murder of the former's husband, Z. Smith Reynolds, heir to a tobacco fortune. Libby Holman Reynolds, famed Broadway "Blues" singer, and Walker, companion of the late husband, Reynolds, were released following the Coroner's inquest, but rearrested following an investigation by county authorities. The death of Reynolds terminated a big party over July 4th weekend. Photos show Libby Holman, Ab Walker and Alfred Holman, Cincinnati lawyer, who will help defend his daughter.

Work Of Denver Museum Here Few Years Ago Recalled By Finding Of Huge Tusk

Finding of a huge fossil in sand pit on the Colorado river near Bronte a few days ago, that has since been identified by Dr. J. W. Beede and H. A. Hemphill, San Angelo geologists, as the tusk of a mastodon, serves to recall the extensive research work done on Lone Wolf Creek near Colorado a few years ago by operatives of the Colorado Museum at Denver.

Outcroppings of bone were found protruding from ledges along first bank of creek by "Nellie" Vaughn and another Coloradoan. They succeeded in interesting officials of the Denver Museum in the find and experts were sent to Colorado to superintend work of taking the deposits out. Several shipments were made to the institution for study and mounting.

Owing to the badly decomposed state of the tusk, decision as to whether or not an attempt would be made to salvage it now remains to be seen. W. H. Shaw of San Angelo, finder of the specimen, is protecting it from further damage by covering the tusk with a heavy canvas.

The specimen is four and one-half feet long and slightly curved, is eight inches in diameter at the larger end and seven inches across at the smaller end. In excavating and before the fossil was identified as a mastodon's tusk, approximately 3 feet of it was destroyed. Judging from the size of the part remaining, Dr. Beede believes that the tusk was probably 10 feet long. A second piece, possibly the fragment of another tusk, was found about 90 feet southeast of and two and one-half feet below the larger fossil.

The tusk was found in coarse gravel grading down to very fine gravel and sand about 12 feet below the surface. Its disintegration is attributed to water penetration of the gravel through the ages. The gravel

T. AND P. TO FEATURE LABOR DAY EXCURSION

Many families who have delayed vacations until September are taking advantage of exceptionally low Labor Day excursion rates being put into effect by the Texas and Pacific Railway, according to W. R. Daniels, general agent. Both nearby and distant cities may be visited at a fraction of the usual cost on one of the Labor Day excursion offers, Mrs. Daniels said. Return limits have been arranged to provide for trips of the desired length.

On sale September 3, the Texas and Pacific offers a low round trip rate to El Paso, Dallas or Ft. Worth, with a return limit of September 8. These drastically reduced rates are good on all trains, either in coaches or Pullman cars. Pullman car rates also have been reduced.

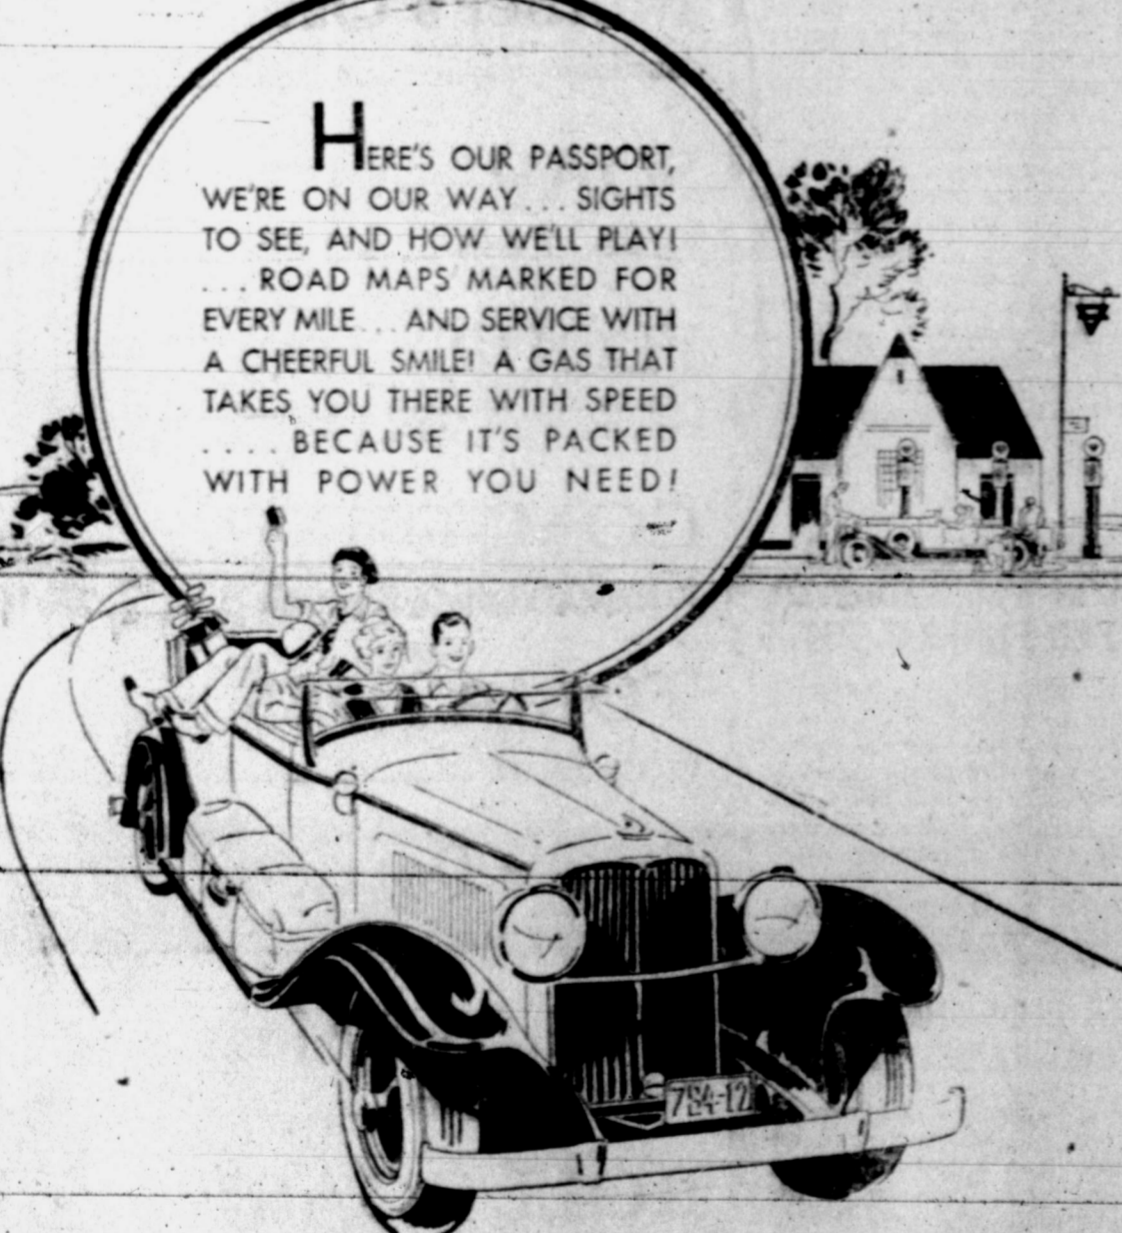

In addition to these rates the Texas and Pacific is offering greatly reduced round trip rates to Northern and Eastern points, including St. Louis, Chicago, Memphis, Little Rock, St. Paul and Minneapolis. Tickets under this offer will be on sale September 2 to 5 with a return limit of September 12. The rate is approximately one cent per mile in coaches. In sleeping cars the rate is the usual one-way fare plus 25 cents for the round trip.

On sale September 3 to 5 with a return limit of September 10 the T. and P. is also offering a round trip rate of approximately one cent per mile to all points in Texas and Louisiana on the T. and P. lines. It is good either in coaches or sleeping cars.

The mastodon, according to Webster, "is any of numerous species of extinct elephants, chiefly of the genus Mammut, syn. Mastodon, remnant of which are widely distributed in deposits ranging from the middle Miocene to the late Pleistocene. They differ from the mammoth and existing elephants chiefly in the molar teeth, which have high conical cusps or parallel ridges with little or no cement in the interspaces. Some have small tusks in the lower jaw besides those in the upper jaw."

Another Collie Falsehood Explained

Collie in a last-minute circular and publication in his home paper states as follows:

"Your Senator asserts that he is against Bond Issues but the record discloses the fact that he introduced two resolutions himself calling for gigantic bond issues. One of them was Senate resolution No. 11 in which he tried to put over a \$50,000,000 State bond issue and create a State Farm Board of commissions modeled after the one that has cost you people \$400,000,000 under Hoover's administration. In his bill Cunningham provided that this Board could tax the farmers \$1 for every bale of cotton they grow to pay the interest and loss."

The truth is Congress passed the Hagan-McNarie Farm Relief Bill providing for loaning money to farmers on their products, and for an equalization fee to pay interest and storage charges. This bill was vetoed by President Coolidge, leaving no law giving any relief. I then sought to give relief through the State and introduced a resolution to amend the constitution so as to permit the State to loan money to farmers on their cotton and to issue State bonds not to exceed \$50,000,000 to raise the money to loan to farmers. To reduce interest and storage charges to the lowest possible amount I provided for a charge not to exceed \$1 per bale.

The farmer who borrows money now on cotton pays more than \$5 per bale for storage and interest under the present Hoover bill. After my measure was introduced Congress passed the present Hoover law which permits the loan of money through corporations. The statement that my bill was patterned after the present Hoover bill is false. My bill was patterned after the one that was vetoed by President Coolidge.

Resolution No. 14 referred to by Collie sought to amend the constitution so as to authorize the State, Counties and Cities to establish and run electric light plants so as to try and break the present monopoly of the Utilities which is crushing the people.

CITY LEAGUE BILLBOARD

As Seen By The Record Sports Editor

The Schedule
Thursday, August 25—Baptists vs. Masons.
The Friday, August 26 game between the Fire Boys and Methodists has been postponed until Monday, August 29. This game will wind up the City League series of games for the year. In case of a play-off, the series will be for five games, starting sometime next week.
Friday a picked team from the City League will play Col-Tex Refinery.

Standing of the Teams

Team	Won	Lost	Pct.
Masons	8	6	572
Fire Boys	8	6	572
Baptists	6	8	428
Methodists	6	8	428

March of the Masonic fraternity toward its victory in the City League for second half pennant was slowed down considerably during the week. In fact the Masons during their nearest opponents, the Fire Boys, by 232 points last week, came down from their high pedestal and witnessed the Fire Boys advance to tie the scoring with them. Both teams now have a total of 572 points for second half of the series.

And while the Fire Boys were fighting their way through to high ground the Baptist aggregation demonstrated that they, too, are capable of taking the bigger end of a scoring melee. In a double header Wednesday afternoon the Baptists defeated the Methodists 13 to 4 and the Masons 6 to 3. The Baptists, however, dropped a couple of games earlier during the week ending today. Friday afternoon they went down in defeat before onslaughts of the Methodists, 9 to 10 and on Monday they lost to the Fire Boys 4 to 6.

It is interesting to note that the Baptists and Methodists are also tied with a standing of 428 points each. Last week the Baptists were leading by 28 points.

Each of the four league teams have now played 14 games each and each is to play one more contest before close of the second half of the series. The league schedule is to close Monday. Results through the week are as follows:
Thursday, Fire Boys 7; Masons 6; Friday, Baptists 9; Methodists 10; Monday, Baptists 4; Fire Boys 6; Tuesday, Methodists 4; Masons 2; Wednesday, Methodists 4; Baptists 13—Masons, 3; Baptists 6.

A picked team from the City League and the Col-Tex Refinery will cross bats Friday afternoon as a part of entertainment program offered visitors to the good will celebration. There will be no charge for admittance.

Charles "Chuck" Klein, Philadelphia Nationals, despite a recent batting slump, still leads the National League sluggers with 30 home-runs for the season . . . and fourth in batting in the senior circuit with an average of .349 in late July.

VACATION IN NEW YORK
Not so long ago this writer spent eight weeks in New York City sight-seeing.
Those who have never visited there should figure their vacation in this city. Seven and one-half million people, all seemingly pleasure bent!
When Hendrick Hudson, on his way to India in 1609, blundered into the Hudson River he started something.
In 1613 Adrian Block came and built the first house in New York.
In 1614 he founded the merchant marine with the good ship "Restless" of 18 tons.
In 1626 Peter Minuit bought part of Manhattan Island for \$24,000 worth of phony jewelry. The Indians knew that he could not read their writing so they deeded the entire island to him. Peter blundered. He should have hung on to his real estate until now, or, rather the dear, dead days of 1929.
By 1626, New Amsterdam, as the Dutch called it, had 200 people. In 1633 a church was built, in 1635 a fort and in 1642 a tavern. In 1653 a "waal" for protection of the 800 inhabitants was built along the Wall Street frontier.
In 1664 Charles of England, with kingly generosity, presented the brother James, Duke of York, with all the Dutch lands in America. They matched a fight with the Dutch, won it and renamed the town New York. In nine years the Dutch got their hands up to the fighting point, retook the town and again called it New Amsterdam. In 1674 they ceded the colony to England and it again became New York. Many inhabitants went mad trying to learn the name of their town.
In 1693 a printing press was set up. Thirty years later the first newspaper was printed. That's speed!
A Federal Hall was built and there, in 1789, George Washington was inaugurated.
A replica has just been built in Bryant Park, as a part of the Washington tercentenary. It cost only \$87,000 (tax-payers money) and will be scrapped for a few more thousands. The yearly budget of 632 millions must be spent in some way.
It costs a quarter to go in. Tammany has scouts out roping the public to find someone with a quarter. They haven't succeeded. Now, posters announce that history lovers may see the latest picture, hear crooners, croon and a band tout all for one admission. If that don't work a rubber-skinned man and a fat lady will be added.
In 1756 a stage line carried passengers to Philadelphia in only 3 days.
History must be corrected here. The first fuss of the revolution did not start over who split the beans in Boston but when British soldiers in 1770 destroyed a liberty pole in New York.
In 1807 the first steamer, the "Claremont," made the trip to Albany—150 miles in 32 hours. No one got a ticket for speeding.
In 1846 the first telegraph line was built—in 1858 the first cable to Europe.
In 1882 Brooklyn Bridge opened; in 1904 the first subway. In 1931 the subways carried over 600 million passengers; more than all the railroads of the U. S. combined.
In 1932; 7,221,613 asked: "How's business?" and 7,221,613 shouted, "Rotten!"
Is it true?
Out of 7 1/2 millions, 1,160,000 are jobless. Another straw: The Roxy Theatre (now in receivership) discharged its orchestra to save expense. It decided to re-instate the orchestra and advertised for 88 musicians. Three thousand applied.
Drop a tear for the hard pressed millionaire too. One poor fellow struggling along the best he could with only 100 servants discharged them all and fled.

When a merchant says "Business is rotten" he is still thinking of '29. He has forgotten 1920.
Business is bad. Worse than in your town. Most every one in New York plays the market. Most every one lost.
Distress signs are: Department stores shouting "Sale! Sale!" Hundreds of empty stores and thousands of apartments in high rent streets like Riverside Drive, Park and Madison Avenues.
Every day is moving day now—white collar tenants being dispossessed. Rents are a little cheaper; clothing and food are a great deal. The humble nickel is back from hibernating. One only will buy a soft drink, a cigar, cup of coffee. Boot-blacks, 7 to 70 are swarming, shining them up for a nickel and no tip. Discarded newspapers too are a barometer. Formerly a subway train collected a van-loan in a trip—now 5 is a good haul.
Big hotels too are hit. Guests sneak out to a drug store now for pam and beans. One swell hotel (in receivership) has slashed its price for a dinner to \$3.50.
De Luxe night clubs too, where for \$3.00 one got a seat and a menu card are becoming anemic.
Little old cheap ones where a 10c bottle of ginger-ale brings only 75c are thriving and "cordial shops" that make their own hooch of prussic acid are multiplying. A former Police Commissioner says there are 32,000, the present Commissioner indignantly denies that there is a one over 24,000. Federal booze hounds say 4,000 but they generally have defective vision.
Opening a speak seems simple. A dozen bottles of soft stuff in the window, a sign, a partition concealing the bar, and some stock is all.
After the "opening" with flowers and music the speak circularizes nearby apartment houses giving name, address, phone number, prices, brands, office hours (to 3 a. m.) and assuring first-class service.
They do not defy the dry law—they ignore it.
Grocers too solicit booze business with "good stuff right off the boat."
New York wants booze, and—gets it. Even so it is the cleanest big city in the world.
Is the city hopelessly broke? An amusement enterprise; Rockefeller Center is being built at a cost of 250 millions. That don't look so. Will it come back? Sure!
Remember Morgan's advice: "Never sell America short."

Take No. 5 bus passing Grant's Tomb on Riverside Drive. Alight at 178th street, walk west to Washington Bridge, the largest even built. Walk over to Jersey. Superb view of New York. 20c round trip.
Horace Greely was right when he said: "Go West, young man, go West." Were he to come back he would say—"Go East, young man, go East—for your vacation"—and be right again.
Why East? Because one may see, hear and do more for his money.
Thousands doubtless avoid New York fearing the expense. Would it surprise you to learn that for \$25 a young man can live for a week in New York and quite well too? Say, one's budget allows but \$25 above railroad fares: here is what he can do.
Have a room at William Sloan house, a Y. M. C. A. branch, for \$4.50 a week. He can eat, not ritzy but well, for \$8.75 the week. Hundreds of restaurants will supply clean wholesome food for that.
Daytime attractions might include a sight-seeing bus trip \$1.00; a major league ball game at Polo Grounds \$1.00; a boat trip around Manhattan Island \$1.50; a legitimate theatre matinee \$1.00; a sail to Statue of Liberty 25c; or to Staten Island 10c; Empire State tower observation \$1.00; four movie shows \$1.25.
Evening he may see and do: ice skating 1.00; a theatre \$1.50; a salt-water swim \$1.00; an open air concert at City College Stadium by a splendid orchestra 25c to \$1.00; many sport events at Madison Square Garden, wrestling, boxing, hockey, lacrosse, etc., \$1.00.
If he spends \$1.00 for carfare the total will be \$26.35, leaving him with a deficit of \$1.35 staring him in the face. But even the well-known United States has one every year and doesn't lose sleep.
Among free attractions are the aquarium at Battery Park; metropolitan newspaper plants; band concerts in parks; botanical gardens; zoos in Central and Bronx parks; the latter are of the world's best; Museum of Art in Central Park, ranking with the best. The Museum of Natural History, where an entire season could be put in profitably; the American Indian Museum; Universities, department stores; libraries; the Navy Yard; incoming and outgoing ocean liners; broadcasting stations where world-wide agonies originate, and countless others.
If it is your first visit, try this: Go up in the Empire Tower, see New York and fifty other cities laid out like a map below you with eleven million people in them swarming like ants. Next take the sail around Manhattan Island (steam yachts sailing from the battery, \$1.50) and you will have located enough landmarks to go anywhere. If you like joy-riding the Tower will please you. The trip, up and down, is just short of a half-mile.
Coney Island? Of course! Bring

MITCHELL COUNTY FARM NOTES

Since March 1st, Mitchell county farmers have killed between 35 and 40 hogs, using the A. & M. method of sticking and cutting up the meat.
In all but two or three cases the meat was cured in cold storage. Only one case has been reported where there was any spoilage and this happened before the cold storage vault was used for cutting up the meat.

The following reports were sent in by men who have used this method of killing and cutting up hogs.
J. I. Payne—"No spoiled meat. Meat not too salty when properly soaked. Have killed three hogs this way as follows: 150 pound hog, March 27th; 255 pound hog, May 25 and 260 pound hog, June 4. Killed and cured according to A. & M. formula, using cold storage. Expect to butcher another about Sept. 10."

L. J. Burrow—"No spoilage; not too salty. Killed three hogs this way—one since the demonstration. The last hog was not cured, but canned. We used the method of cutting and find that it pays as we get nearly twice as much lard from hog and still have plenty of fat on the meat."

Clyde Smith—"No spoilage. Meat slightly salty. Killed one other hog this way. Would suggest a little less time in salt for bacon and soaking about one hour in warm water when the meat has been in the cure the proper time."

Wiley Formwalt—"No spoilage. Meat not too salty. Killed two hogs this way. We sure do like the A. & M. way of cutting and curing. Our meat has molded a little in the storage vault, but since I got the vinegar formula I used it and find that it takes all the mold, ever the moldy taste and smell away."

W. S. Walker—"We haven't had any spoilage. The only trouble so far is that the meat doesn't last long enough. We've eaten up all the meat except the hams and some of the bacon. I believe that is the best way to kill hogs, have them coming at all times of the year and when you need some meat, kill one."

J. W. Sherrill—"No spoilage. Not too salty. Killed one additional hog this way."
D. D. Hays—"No spoilage. Not too salty. Expect to use this method on my winter meat."

W. M. Copeland—"I used a commercial cure and the little pieces got too salty, but the hams were fine. I like the method fine, and would not make any changes except to leave the small pieces in cure a shorter time. Expect to use this method again."
E. S. Miles—"No spoilage. A little too salty but my fault. Killed three using this method. Have no criticism to make, but would criticize anyone who would not kill and cure the A. & M. way."

STATE FAIR EMPLOYEES TO WEAR UNIFORMS IN 1932
All attaches of the State Fair Association including gatemen, ground-keepers, traffic officers and others will be uniformed at the 1932 exposition, according to present plans. The uniforms for the various branches of service will differ but will be recognizable by all visitors as a State Fair employee.
along an extra 80c for the suit (Pier 1, Hudson River, every half-hour). One can go subway for a nickel but subway scenery is not what one would call grand. Besides a fellow strap-hanger may have just had some wooden alcohol hooch and he would be new-mown hay.
If the sight of a half million people in the old swimming-hole at once interests you go to Coney Island any Sunday. Stay and see the Island lighted at night.
Should you get lost in New York any cop will try to help you, but he may get lost trying.
Example: On a recent Sunday a traffic cop at a busy Bronx corner was asked how to get on Boston Post Road. He made a bluff at it, failed and said, "To tell you the truth, Doctor, I don't know. I'm from a downtown traffic squad on lower Broadway, here on Sunday relief. I never saw this part of town before." That settled that.
Never ask a native New Yorker for directions—he knows less than anyone. He often refers to outsiders as "hicks." The truth is he is the biggest hick extant. New York falls for things Squodunk Corners would laugh at. Every con man in the profession knows this big fat city, loaded with loot to be easy picking. Which is why this is con headquarters.
Statue of Liberty: You will pass her on the sail to Coney. For a close-up take boat at Battery to Bedloes Island. She's a tall girl—165 feet. Scale ladders to the torch, which will hold ten people. 25 cents—boats every hour.

TIMELY RECIPES
By ABBIE SEVIER

Chili Sauce
1 gallon chopped ripe tomatoes, 1/2 cup chopped white onions; 1/2 cup chopped sweet green pepper; 1/2 cup chopped sweet red pepper; 1/2 cup brown sugar; 1 quart vinegar; 2 tablespoons of ginger; 1 tablespoon of cinnamon; 1 tablespoon mustard; 5 tablespoons salt; 1/2 teaspoon cayenne pepper.
Peel the tomatoes and onions. Chop the onions and peppers fine. Boil all ingredients except the vinegar together for two hours or until soft and broken. Add vinegar and simmer for one hour. Stir frequently. Seal while hot in sterilized containers.

Tomato Catsup
2 tablespoons salt; 1 tablespoon powdered mustard; 4 tablespoons sugar; 1 pint good vinegar; 1 level tablespoon each, whole allspice, cloves, cinnamon, and pepper; 2 red peppers, seeded and chopped; 1 gallon tomato pulp—to which has been added 1 cup chopped red pepper and 2 medium sized onions.
Add 1 cup chopped red pepper and two medium sized onions to 1 gallon of red ripe tomatoes. Cook thoroughly, mash through a sieve, measure the pulp. Add to it the spices, which should be tied loosely in a bag. Cook for an hour and a half, add vinegar and cook until thick. Rapid cooking keeps the bright red color in the catsup. To avoid burning, stir constantly. Pour catsup into hot, sterilized containers, partly seal, process in hot water bath for thirty minutes, then seal.

Green Tomato Pickle
1 gallon green tomatoes; 1/2 dozen large onions; 3 cups brown sugar; 1/2 lemon; 3 pods red pepper; 3 cups vinegar; 1 tablespoon whole cloves; 1 tablespoon allspice; 1 tablespoon crushed celery seed; 1 tablespoon

mustard seed; 1 tablespoon ground mustard; 1 tablespoon whole black pepper.
Slice the tomatoes and onions thin, sprinkle over them 1/2 cup salt and let stand over night in a crock or enamel vessel. Tie the pepper, cloves, allspice and celery seed in a cheese cloth bag. Slice the lemon and chop two pepper pods very fine. Drain the onions and tomatoes well. Add the seasonings, one pepper pod, to the vinegar, then add the tomatoes and onions. Cook for one-half hour, stirring gently at intervals to prevent burning. Remove spice bag to prevent darkening product. Pack by garnishing opposite sides of the jar with strips of red pepper in a vertical fashion. Process for fifteen minutes in hot water bath. (Pint jars are standard containers).

UNEQUAL REGULATION IN TRANSPORTATION CAUSES DISORDER AND CONFUSION

● The instability, confusion and disorder which unrestrained truck transportation has brought about is responsible in large measure for much of the distress in which all business finds itself today. Texas has moved to find a remedy and all concerned in the welfare of this state and its institutions should cooperate in the effort to restore stability and order to our transportation systems.

The Texas Railroads, in these advertisements, have endeavored to place before the people of this state some of the reasons why the existing laws, regulating motor transportation, should be upheld and enforced.

1. The railroads are necessary for the successful marketing of the enormous production of this state, which is used and consumed in every other state in the union.
- Uniform, published, non-discriminatory transportation service rates are essential to the orderly conduct and welfare of business.
- Unregulated truck transportation inevitably results in discriminatory charges and practices, rebating, unfair and unbusinesslike competitive methods, bringing about losses and commercial insecurity.
- The wholesaler, jobber, retailer and local merchant suffer from the unfair competition of truckers and peddlers who, for the most part, are non-residents, pay no taxes and contribute nothing to the community welfare.
- The farmer and agricultural producer must have at his command facilities adequate to transport crops and produce which move long distances in large volume, at low cost, by rail.
2. The railroads build and maintain their own roadways, pay heavy taxes for the support of state and municipal governments and institutions, and expend millions of dollars for payrolls, materials and supplies. Railroad workers are substantial citizens, home owners, and valued members of their communities.
3. Rail transportation is the most efficient and economical in existence for the movement of traffic in volume by land.
4. Texas highways belong to the people and are built and maintained at heavy cost. Their use for commercial purposes is a privilege, not a right. They should be kept safe for general use and not prematurely destroyed by heavy trucks.
5. The stability, security and orderly conduct of business require reasonable control and regulation of all transportation agencies.
