57 Per Centof Peanut Acres Now Planted

Over half of Eastland County's peanut growing land was planted in spite of extended drought through August and the race is on now to see if the late planted-nuts will mature before the first frost.

The announcement from the county Agricultural Stabilization Conservation committee comes as somewhat of a surprise because earlier estimates had set total planting far lower.

Gilbert Meredith, ASCS manager, reports that 21,109 acres of the county's alloted 38,000 are reported planted by members of his observers staff.

In fact, 416 out of 990 farms in the county got seed in the ground.

A lot of the acreage was planted in August and farmers are hoping that the crops mature before the first frosts

Also surprisingly, Meredith reported that ten per cent of the state's total cotton allotment is in Eastland County.

WOLVERINES WHIP TOLAR TO KEEP THEIR RECORD INTACT

The Carbon Wolverines kept their season's record unblemished last Thursday night by thrashing Tolar 59 to 22 in a non-conference contest here. Tim Stacy aided the Wolverine attack by scoring two touchdowns and throwing a 20-yard touchdown pass to Ronnie Pack. Pack also scored 22 TDs on 45 and 40 yard run.

Ronnie Hughes threw a 25

yard touchdown pass to Larry Duncan and Dwain Clower and Danny Hobbs each scored a T.D. Alvie Allison booted 5 extra points and ran one over.

The entire team played inspired football and dominated the game throughout the play. They play Lohn there Friday night and play Iredell here Thursday night, Oct. 15.

Absentee Voting Begins Oct. 14 For General Election

Absentee voting in the Nov. 3 general election will begin at the county clerk's office Oct. 14, it has been announced.

At mid-week, 30 applications, mostly from service men, had been received by the clerks office for balloting by mail in the election.

There were 4,747 poll taxes and 597 exemptions issued this year, the tax office reports.

Some countians who think they are not eligible to vote in the Nov. 3 election may be able to qualify themselves in time, despite the fact that the deadline for poll tax payment passed Jan. 31, it is reported.

These exceptions include:
. Young men and women
who have become 21 this

year, or who will become 21 by Nov. 3. The election code provides that they may obtain a poll tax exemption certificate from the county tax assessor-collector's office on any regular business day up to and including Oct. 2. If they are 21 by election day, they will then be eligible to yote in all elections on the ballot.

• The state allows those newly-moved to Texas to vote free their first year. So, if a person has attained eligibility to vote in Texas by being 21, and by having completed his first year of residence and has a bona-fide intention of making Texas his residence, he can go by the tax office and obtain a poll tax exemption certificate.

County Highway Is Scheduled For Three Modern Bridges in Safety, Betterment Drive

The Texas Highway Commission has approved the expenditure of \$490,000 for highway safety and betterment in the Brownwood District in 1965, according to E. M. Pritchard, District Engineer.

Pritchard said all of the funds authorized are to be used to widen or rebuild narrow bridges and approaches where numerous accidents have occurred in the past.

Good news to those who travel US 183 between Rising Star and Cisco in Eastland County is the authorization of funds to reconstruct the three narrow bridges north of Romney which have been the scenes of many accidents. These 20 - feet wide bridges were built sometime prior to 1923, and will be replaced with 44 feet wide structures on an alignment to fit future reconstruction of this section of highway.

Other district work under

this project calls for widening and moderinization of highways on US 84 in Coleman County; on Highway 6 in Comanche County east of DeLeon; on State 16 in San Saba County; and others.

This work is part of 432 projects in 180 Texas counties authorized in the 1965 State Highway Safety and Betterment Program by the Texas Highway Commission in its statewide war on traffic accidents. The 3-man commission, policy - making body for the Texas Highway Department, earmarked \$20,000,000 for the annual program.

Chairman Herbert C. Petry, said that in addition to its benefits to safety on the 66,000-mile Texas highway network, the 1965 Safety and Betterment Program "will perpetuate and protect the taxpayers' investment of well over \$4 billion in the highway system".

2 County 4-H'ers Put Record Books In Competition

Nineteen counties in District eight entered in the District 4-H Record Book Award Program held Aug. 25 in Stephenville, Delmelia Dunn, Asst. County Home Demonstration Agent, said. A total of 127 junior records and 125 senior records were entered.

Ruby Wende of the Nimrod 4-H Club received third place in the Senior Girl's Division with her record book on Achievement, Miss Dunn said. Ruby, daughter of Mr. and Mrs. Herbert Wende of the Nimrod Community, has done outstanding work in 4-H and has received awards in clothing and dairy foods.

Sandra Warlick, a 4-H'er from Rising Star, daughter of Mr. and Mrs. Foy Warlick, received third place in the Senior Division with her record book on Beef. Sandra is doing outstanding work with her livestock, Miss Dunn reported.

Browsing With Bev

Not all ground beef is the same composition. Regular ground beef usually indicates ground beef with a high proportion of beef fat, and many people prefer it for the rich flavor imparted by the fat. Lean ground beef is made from the chuck or various cuts of beef which are leaner than those that go into hamburger. It costs a bit more per pound, but is probably the most efficient purchase.

Ground round steak is the leanest of all ground beef, and usually sells for about the same price per pound as sliced round steak. It costs more, but shrinks less in cooking than other types of ground beef.

Handle ground beef as little as possible. Too much handling make the finished product tough and packed.

Keep ground beef under refrigeration and use it within three days after purchase.

Vet's Questions And Answers

Q — I am a widow with an infant child. Soon I will marry a disabled veteran who receives maximum pension. How much will his pension

increase with two dependents?,

A — Assuming the veteran is single now, the maximum pension would be \$85 per month if his income was below \$600 per year. A veteran with two dependents with income below \$1,000 per year would be entitled to \$95 per month.

Jesse Torres Buried Saturday In Eastland

Graveside services were held Saturday, Sept. 26, at 9:30 a.m. in the Eastland Cemetery for Jesse Torres, whose skeleton was found July 6th in a pasture in Yellow Mound Community.

Father Joseph Van Winkel of the Catholic Church on Halbryan Street officiated at the services.

Arrington Hamner Funeral Home was in charge of arrangements.

A dentist of Weatherford identified the skeleton by extensive bridge work on the teeth of the skeleton.

Torres was approximately 25 years old when he wandered from the Gordon Woods Ranch one night, about a year and a half ago, dressed only in shoes and khaki trousers. For days, a posse and neighbors hunted unsuccessfully for him and finally gave up.

Burial had been postponed because all survivors could not be contacted.

Safety Belts May Become Standard

Since the earliest days, even before electric taillights replaced kerosene lamps, automobile manufacturers have ben concerned with building ever-safer products.

The most recent move to safe-guard American motorists was the announcement by the major auto companies that all cars produced after Jan. I will be equipped with seat belts in front seats as standard equipment. Studies have shown seat belts, fitted snugly, help reduce fatigue and contribute to more efficient driving control.

Moreover, if used by all motorists whenever and wherever they travel, belts could save 5,000 lives yearly and reduce serious injuries by onethird.

U. S. auto companies spend millions of dollars annually on safety and engineering research to make cars safer.
