FARM CONDITIONS ARE REPORTED SERIOUS IN BIG SPRING TERRITORY

BIG SPRING.—Each compilation of additional data reveals a critical situation facing farmers of counties of this region. Latest check is against the number of farms in fourteen counties the number under contract to the government to reduce cotton acreage, and the number without growing crops. The distressing fact is that there are far more farms without growing crops than those under cotton acreage reduction contract to the government. Of 11,581 farms, only 5,798 are under contract and 6,200 report no crops whatsoever. Discrepancy in the totals is caused by the fact that several farmers signed contracts then watched the hot sun and dry weather wilt and burn their crops away. In 1932-33 the fourteen counties produced 506,289 bales of cotton. This year it will be surprising if they produce as much as half of the amount. Moreover, the report showed 4,602 families are already on relief. Howard led the list with 925 and Dawson was second with 915.

Livestock Association

(Continued From Page 1) We have a committee of leading cowmen in Washington now for conference with administration leaders and I am confident that something tangible will be agreed upon.

Snyder quoted statistics compiled by the bureau of agricultural economics of the department of agriculture showing that since 1920 beef cattle in the North-Central and Western groups of States and in Texas and Oklahoma had been reduced 3,000,000 head. The same statement showed that dairy cattle had registered an increase of 4,000,000 during that time. The plea was made that the by-product of the dairy industry be not permitted to enter into competition with the beef cattle industry.

Officials of the newly formed association announce that they are confident membership will be increased to at least one hundred within the next few weeks. Membership meetings are to be held twice a month and Sweetwater was named as the next host city, with October 28, time for annual Mid-West Hereford sale, as the date. The cattlemen are to be guests of the Sweetwater Board of City Development at a chuck wagon feed.

The following cattlemen and those closely identified with that industry were listed as charter members: Lay Powell, J. P. Maddox, H. C. Landers, George Plaster, O. F. Jones, J. F. Morris, C. L. Jones, Byron E. Byrne, Jr., Frank Smith, Colson & Son, L. P. Merrill, Bob Scott, P. K. Mackey, D. H. Snyder, Fred Jooss, C. C. Thompson, U. D. Wulfjen, S. O. Wulfjen, Les Terry, L. W. Terry, Jimmie Maddox, R. E. Gregory, R. R. Ainsworth, R. P. Ainsworth, John Conrad, Louis Conrad, Byron Byrne, and H. S. Beal of Colorado.

Walter Boathe, T. O. Cowan, John Hendrix, Tom Hughes, Roy Hendrick, Horace Wade, of Sweetwater; W. R. Lacc, Harry Winston, Wade Winston of Snyder, and John D. Lane, John Reed, Tom Brennan and Ray Lane of Sterling City. A few of the cattlemen listed were not present at the meeting.

Since organization of the association, three additional members have been announced by the secretary. They are Mrs. F. E. McKenzie and Ross D. Dixon of Colorado and Fred Snyder of Lubbock. J. H. Greene, chamber of commerce secretary, was present at the organization meeting to offer every cooperation from his organization. "Colorado is much pleased to have cattlemen of this territory come to this city to perfect organization of the association." The association announced that Greene and W. S. Cooper would be listed on roster as honorary members.

After organization of the association Boathe announced that name of the Sweetwater Hereford sale, would be changed to that of the Mid-West Livestock association Hereford sale. He strongly urged members of the association to take part in the annual Hereford show and sale at Sweetwater October 27 and 28.

ENLISTMENTS WILL BE RECEIVED FOR MARINE CORPS IN SEPTEMBER

During the month of September there will be a few openings for young men in the United States Marine Corps, provided they have the necessary qualifications, mental and moral, and can pass the rigid physical examination required of all men enlisted in this branch of the service, according to an announcement.

Any young man graduated from a high school, who is interested, should write Major P. D. Cornell, officer in charge of recruiting, District of New Orleans, 555 St. Charles Street, New Orleans, La., who will furnish full information regarding the service and the duties of a marine, ashore, afloat and in the air, in this, and in foreign countries. The rigid requirements for enlistment also will be explained in detail, for this branch of the military and naval service which is recognized here and abroad as one of the finest in the world, and is the most difficult to enter due to its high educational, moral and physical standards.

RAINFALL DURING WEEK MORE THAN ALL YEAR, BIG SPRING ANNOUNCES

Rainfall at Big Spring during last week totaled more than all the rain to fall during preceding months of the year, the Big Spring Daily Herald reports. Friday and Saturday nights a total of 2.43 inches fell there. Earlier in the week an inch had been registered, making a total of 3.43 for the week. "During all of the year up to that time total rainfall at Big Spring had registered 3.06 inches," The Herald stated Sunday.

UNIVERSITY LAND HOLDINGS

AUSTIN, Tex. (UP)—The University of Texas owns more land than there is in Rhode Island and almost enough, if transferred, to cover either Connecticut or Delaware.

Regents who recently toured the land holdings found much of it in oil territory. The land is situated in the following counties:

Andrews county, 294,400 acres; Crane, 63,680; Crockett, 356,480; Ector, 6,080; El Paso, 11,520; Hartsell, 453,120; Culberson, 46,080; Irion, 22,720; Loving, 22,400; Pecos, 184,960; Terrell, 61,440; Schleicher, 57,600; Reagan, 194,560; Upton, 77,440; Ward, 80,640; Winfelter, 53,120; and Martin, 14,080.

WRENCH LAWSUIT

SILVER CITY, (UP)—A lawsuit based on a \$4 valve wrench claimed by D. B. Robertson and L. H. Martin, plumbers, provided spectators in Peace Justice Llewellyn Zent's court with a legal burlesque. Robertson filed the suit asserting the wrench had been missing 10 years. Plumber Martin retailed with the assertion he bought it six years ago. Justice Zent decided that peaceable possession for six years was sufficient to determine the ownership.

Put Your Liver To Work--Make This Test

You can't feel well and strong unless your liver furnishes your stomach and bowels plenty of fresh bile every day. Without bile food doesn't digest properly—it just ferments and decays—constipation, gas, sour stomach, headaches and nervousness follow. Don't be misled. Calomel, salts, oils, mineral waters, laxative pills, etc., have no effect whatever on the liver. There are only two generally recognized substances which actually cause a sluggish liver to increase its production of bile. Bargon Soft Mass Pills contain both of them. Unless you have tried Bargon Soft Mass Pills you can have no idea of their effects—you feel stronger, healthier, happier—life and color return to faded eyes and cheeks—appetite and digestion improve rapidly. METHODIST CHURCH NOTES

Sunday school was better attended last Sunday.

At the eleven o'clock hour Bro. Smallwood preached for us. Scripture lesson Hebrew 12. Topic, Hebrew 12:1 from which he brought a good message.

At 4 P. M. we had an adult group

meeting with a good attendance from Colorado and Loraine. We had a good meeting but were disappointed in not having Dr. Span of Big Spring with us as Colorado had planned.

At 8 P. M. we had our regular group meetings, after which we dismissed and attended the revival meeting at the Baptist church.

We had no Missionary society Monday because of the rain.

WESTBROOK SCHOOL OPENING

The Westbrook public school opens Monday, September 4. It is hoped that every child entitled to attend school will enroll the first day. Very little cotton is open yet and every parent should see to it that their children enter the first day and keep them there every day possible even if the child will have to miss some later. It is best to let him attend all he can.

All parents and friends of the school are urged to attend the opening exercises. Let's start the school off with lots of pep and help make this a great year for the educational program in this community. The training of your boy or girl is the most important job you have. Cooperate with the school in giving him or her the very best preparation for the responsibilities of life you and the community can afford.

The Parent-Teachers Association which has done fine work in the past will be on the job this year and contemplate some things which will no doubt prove of great profit to the school and community. Everyone should be interested in this great work. Become a member and help them to help the children in their school work.

Mitchell County Lands Definitely Into Both Wet and Dry Columns Saturday

While forces against legalization of 3.2 beer and repeal were rejoicing over a decisive "dry" victory Saturday night, Mitchell county moved definitely into the "wet" column from another aspect.

Dry won in the election but the elements brought to the county one of the best rains noted in several weeks, bringing an end to drought that seriously threatened crops and grass. Reports received in Colorado Monday indicated that rains Friday and Saturday nights blanketed every part of the county.

Rainfall here Friday night totaled .49 of an inch. Saturday night the precipitation was .71 of an inch. In some localities from two to three inches fell. The rain was especially heavy in South Mitchell county. Streams were filled to almost overflow proportions and the low lands were under water for several hours. Small damage from washouts resulted.

"One of the best rains in months in the Lowe community," reported R. P. Price owner of extensive farm properties there.

"Water was running over top of lake dam on the H. L. Lockhart farm and Hackberry, Beals and other creeks in that vicinity were roaring with flood waters," a citizen of that part of the county reported.

Bronson Gregory reports that one of the heaviest rains in months covered the Carr section Friday night.

LEGAL BEER SALES TO BE STARTED IN TEXAS SOON, BUT NOT IN THIS COUNTY

Spigets May Be Opened After Midnight On Thursday, September 14th

Legal beer will start to flow in many parts of Texas on the stroke of midnight, Thursday, September 14th, under terms of an act passed by the last legislature in anticipation of adoption of a constitutional amendment authorizing manufacture and sale of the beverage.

But with opening of the legal traffic in other regions of Texas, will come no change from a dry to wet regime in Mitchell county. Rumor has it that several enterprising citizens had planned definitely to merge into the business of dispensing beer, believing that voters here would repeal the reign of prohibition after thirty one years. It is stated that one or two had gone so far as to buy from Uncle Sam the required license. But these ambitions and these plans have come to naught.

Texas' formal vote on ratification of repeal will be cast when the wet delegates gather in Austin Nov. 24. The vote will be simply a matter of routine.

County Judges may start Sept. 6 to hear applications for permits to distribute and sell beer. Filing of applications may start Sept. 1, but can be heard only after five days public notice, to be given by posting the application on the courthouse door.

No further legislation will be necessary to open the beer valves in Texas, although several corrections likely will be made in the law when the Legislature meets in special session this month.

Beer sold in Texas will be taxed at the rate of \$1.50 per barrel, the tax to be paid by the person making the first sale. Three million stamps now are in process of printing, the contract having been awarded conditioned on the outcome of the election. Treasury officials estimated the State would receive \$325,000 in revenue during the first sixty days after legal sales start.

Permits to dispense the brew must be obtained from the County Tax Collector after the application has been approved by the County Judge. Multitudinous safeguards have been thrown around the sale of beer. Violation of almost any of the provisions subject the offender to revocation of his license.

In addition to the State tax heavy license fees were levied on the industry. Cities and counties each have the privilege of levying one-half the State license tax, but may not invade the field of direct beer taxation. It was anticipated that County Judges in territories that voted to legalize beer sales would be delayed immediately with applications for licenses to sell it.

At Buford the rain Saturday night was much heavier than in Colorado. Territory southeast from Colorado in which rain was sorely needed received a generous downpour. A. E. Maddin reports that heavy rains fell between Colorado and McKenzie Saturday night.

Country Club lake was overflowed for the first time in some time, a fact being received with elation by members of the resort organization. The lake had become low, making the water somewhat undesirable for bathing.

The rain was general over much of West Texas, with points along the Texas & Pacific, east and west, reporting good seasons. Remote points to the north and south reported good rains.

Then, again Monday afternoon another rain covered a considerable portion of the county. North from Colorado the rain assumed near water-spout proportions, from two to four inches falling within a short time. Wire fences were washed out between Colorado and Dunn and damage done to farms and highways by flood waters. Rainfall at Colorado was .55 of an inch.

Ranchers are assured one of the best late grass crops in several years, according to D. H. Snyder. Snyder stated Tuesday that more than three inches had fallen on his ranch nearlatan.

Washington Blames Robot For Delay In Getting Plow-Up Vouchers In The Mails

WASHINGTON, Aug. 26.—Blame for the delay in the issuance of checks to southern farmers who have plowed under tons of their cotton was placed today by the farm administration on a robot paymaster. Early this week, farm officials said 7,000 checks were to be distributed Wednesday. But they reckoned without the device which makes the issuance of the drafts a mechanical process, even to the signing of the necessary signatures.

The robot balked flatly early Wednesday morning when it was given a workout. Under compulsion, it turned out about 200 checks but it apparently had its own ideas about what the farmers should receive for cooperating in the crop reducing plan.

The officials hurriedly put mechanics to work on the recalcitrant paymaster. It was tuned up most of Thursday and yesterday and officials say it is now functioning on a maximum basis. That is around 1,500 checks an hour.

There was no official estimate however, of the number of checks that have actually gone to the farmers. Unofficially, it is placed at "hundreds" but only three are actually known to have been delivered.

BAPTIST CHURCH NOTES

Sunday school attendance held up fine Sunday although there was no church service. 175 were present for Sunday school. Why not keep the good work going through the winter months?

The Junior B.Y.P.U. ably rendered a program on "Friendship" at the preaching hour. Mrs. A. O. Fain took the same Juniors to Colorado for a program Sunday evening.

44 of the 51 members of B.T.S. were present Sunday evening. One half of the adult and one half of the families had had family prayer each day. Every union in our Training service would be standard if they could bring their daily Bible readers up to standard. "Please come on time" and "be a tither" is our goal now. B.T.S. grade for Sunday was 81.

Study I Samuel 16 and Psalm 78 for Sunday school Sunday. Our pastor will be at home for the preaching hour Sunday.

SENIOR B.Y.P.U. TO BETHEL

Group I of the Senior B.Y.P.U. rendered a program at Bethel Baptist church Sunday afternoon on "Jesus the Light of Africa." Mrs. Doris Nurrell led the group with a devotional on the above subject. Ruth Ann Hall discussed "In the Darkness of Ignorance." Billie Marie Rowland gave "In the Darkness of Superstition." Ruby Fay Hock "In the Darkness of Idolatry" and Boyd House "In the Darkness of Sin." Ruby Fay Hock and Ruth Ann Hall then sang "Light Amid Shadows" and several prayers were offered. We appreciate these young people for their willingness and faithfulness. We also appreciate the loyalty of Bethel Baptist church in coming to hear them.

BAPTIST W. M.S.

There were no circle meetings

Monday on account of the cloud. Please be at church Sunday and hear announcement concerning next Monday's work.

Y. P. PRAYER SERVICE

Only 39 were present for prayer service in the theater Saturday. Miss Pauline Faulkenberry led the service by reading Deut. 31-6, "Be strong and of a good courage, fear not, nor be afraid of them; for the Lord thy God, He it is that doth go with thee; He will not fail thee, nor forsake thee." She brought an interesting message, denouncing modern sins in rather plain English.

Inez Brians and Pauline Harrell will lead the music next time and Eugene Roberts will lead prayer service. Please study Isaiah 40 as Mrs. Johnson requested. We hope to have a surprise for the youth of our town Saturday.

Ball fans! You who love God and have your names on church rolls, be fair! Give our boys and girls just one hour from 4:00 to 5:00 on Saturday for this spiritual exercise.

PROTRACTED MEETING

The Church of Christ will hold the annual protracted meeting beginning Monday evening, Sept. 4th, with Elder J. D. Harvey of Colorado doing the preaching.

Brother Harvey's power as a plain gospel preacher is well known throughout this section and all lovers sandwiches, olives, pickles, chip pop-an opportunity to hear it forcefully preached.

New-song books have recently been purchased and all lovers of sacred songs are invited to meet and assist in the song service.

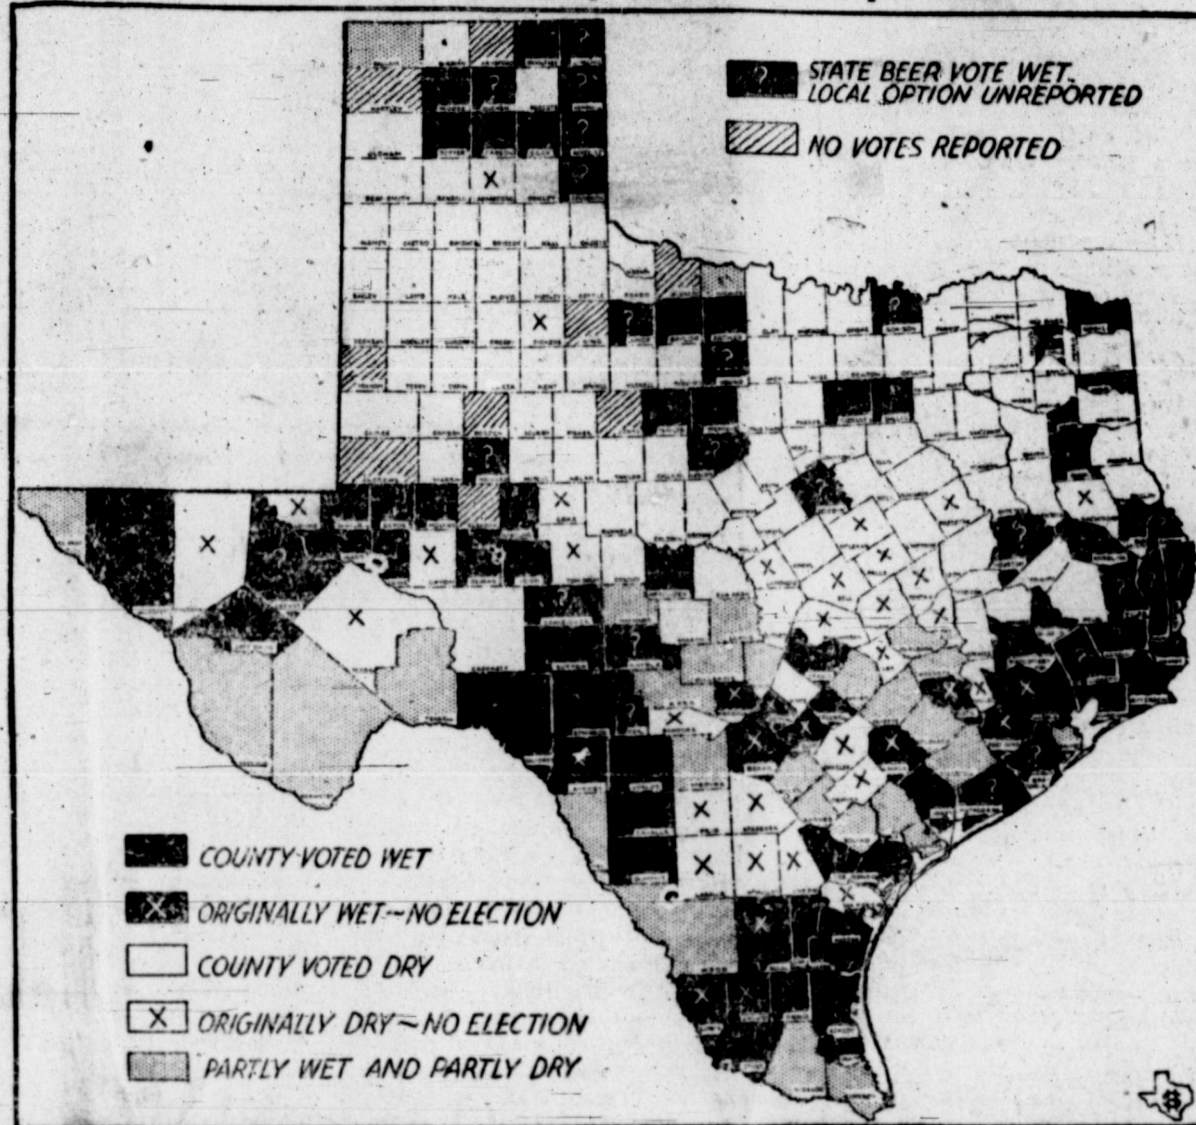

An able leader will be here to direct this part of the worship. Don't forget the date. Don't miss a single service and you will be benefitted to the fullest extent.

Here's Where You Can Buy Beer After September 15

Although Texas as a whole voted for beer by a huge majority, the map illustrating where beer can be legally made and sold after September 15, looks like a speckled hen. Some counties which voted for beer on the state beer vote refused to allow beer to be sold on the local option vote. Some were already dry and no local option vote was held. Similarly, some were already wet. Within the confines of some counties, beer is legal in some precincts and illegal in others. The above map, drawn from figures gathered by the Dallas News and the United Press, although incomplete, gives a good idea of the wet and dry spots in Texas.

DORCAS CLASS MEETING

The Dorcas class held their meeting this month in the home of Mrs. Hall Hooker. There were only 8 members present. Mrs. Hooker led devotional reading the 9th chapter of Luke. Mrs. Ray, followed with a prayer. A delicious plate lunch of New Testament teaching will have potatoes with cake and punch was enjoyed by the following:

Mrs. Clyde Bennett, Mrs. Wade Preston, Mrs. Richey, Mrs. Ray, Mrs. Wilson, Mrs. Henderson, Mrs. Smiley, Mrs. Hooker.

Next meeting will be with Mrs. Henderson on September 13th, with Mrs. Harry Hallmark reading the devotional. New officers will be elected for the new year. All members are urged to be present.

ATTENDED CONFERENCE

Mr. and Mrs. E. P. Kuck attended the Lutheran Panhandle Conference which convened at Big Spring Sunday.

Twelve ministers and their families and Field Secretary Rev. M. Bebie from Austin, Texas, were among those present. Rev. Hortenberger of Perryton, Texas, was the speaker for the 11 o'clock service. His theme was "Examine Yourself."

After the service, lunch and ice cold melons were served at the City Park by the Lutheran church membership of Big Spring.

After visiting with old friends and making new ones, Mr. and Mrs. Kuck returned home "knowing the day was well spent."

DENOMINATIONAL LEADERS ON PROGRAM FOR ANNUAL CONVENTION OF BAPTISTS

Two-Day Session To Open At Snyder Tuesday; O'Brien One Of Speakers

Snyder First Baptist Church will be host Tuesday for the annual pastors and laymen's meeting of the Mitchell-Scurry Association, a 40 Wednesday to the yearly business conference of the same group.

Headlining the Tuesday program will be T. C. Gardner, state Baptist Training Service director, and George Mason, state treasurer for Baptists. Both men reside in Dallas.

Rev. P. D. O'Brien of Colorado is association moderator.

A business session will be held Tuesday night, to continue through Wednesday. At Wednesday's sessions, annual reports from all departments of associational work will be heard.

Hundreds of Baptists from Colorado, Loraine, Roscoe, Westbrook, all parts of Scurry County, and from several other parts of this area are expected, by the host pastor, Rev. Philip C. McGahey.

In addition to the two state workers, Tuesday's session will feature other speakers from out of the association, namely: R. E. Key of Tahoka, Rev. T. D. Dunlap of Sweetwater and Rev. J. D. Brannon of Rotan.

Lunch will be served at noon both days by women of the church, and visitors will also be served Tuesday evening. Homes will be provided for those who remain Tuesday night.

Following is the complete program for Tuesday's pastors' and laymen's meeting:

10:00 a. m.—Song service—Keith Miles.

10:10 a. m.—Devotional—Rev. A. C. Hardin of Loraine.

10:30 a. m.—"What's Right with the Church"—T. C. Gardner of Dallas.

3:05 p. m.—Inspirational Address—Rev. J. D. Brannon of Rotan.

BAND LOSES FOR FIRST PLACE IN CONTESTS AT STATE LEGION MEETING

The Sweetwater Musicians Post band, official musical organization for the department of Texas, American Legion, failed by the close margin of two points in winning first award in annual State contest at Wichita Falls this week. The trophy went to Mineral county.

Six Mitchell county musicians, five of whom live in Colorado, are members of the band. M. S. Goldman of Big Spring, a former band director here, also accompanied the musicians to Wichita Falls.

SNYDER CONVENES PARLEY OF CATTLEMEN THURSDAY TO STUDY RELIEF PLANS

Texas' Committee Chairman Calls Ranchers Meeting At Midland, Texas

D. H. Snyder, chairman of the drought relief committee for the Texas & Southwestern Cattle Raisers' association, was in Midland Thursday to preside at conferences of West Texas livestock men, called to convene at 10 o'clock a. m. The Colorado cattleman issued call for the meeting Saturday.

Invitations were sent out to cattlemen, farm agents, county judges, county commissioners, chamber of commerce secretaries, railroad agents and all other interested citizens to attend the Midland meeting.

Drive to realize cheaper freight rates on feed into drought stricken areas and free return transportation of cattle shipped out to grass was among the business matters announced by Mr. Snyder as pending.

The Colorado man has been a leader in affairs of the Texas cattle industry for a number of years. For some time he has filled the place as an executive committee member on board of the Texas & Southwestern Cattle Raisers' association.

Mr. Snyder was appointed at the Southwestern Cattle Growers conference held recently in Denver, Colorado. Other members are R. H. Harris, San Angelo; J. T. Sneed, Amarillo; W. D. Reynolds, Kent; W. W. Brunson, Midland.

F. B. Spiller, Fort Worth, secretary and manager of the Texas Southwestern Cattle Raisers association, is expected to attend the meeting.

Annual "Home Coming" celebration at Dorn's Chapel Sunday was successful in all respects, citizens of the community who were hosts to the large number of visitors, report.

A program of religious worship, singing and visiting of friends and neighbors of many years ago was carried out during the day.

At noon the visitors were guests at a barbecue dinner. During Saturday night rain fell several hours, making it difficult for chefs to properly cook the meat, but this handicap was entirely overcome.

Quick relief from Hay Fever

Air conditioning stops the irritation of hay fever and other pollen afflictions

If you suffer from hay-fever . . . make this test. Go to a dealer who sells air-conditioners and sit for a while in a cool room where temperature and humidity are automatically controlled. Notice that the irritation which causes sneezing and weeping is overcome, and that even after you leave, there is a temporary freedom from the malady.

Recent investigations at a famous medical school confirm what was discovered by actual experience . . . that a short stay in a room cooled by an air-conditioner gives relief from the symptoms of hay-fever, rose-fever and kindred maladies. There is no reason why you should suffer with pollen irritation this fall, for you can escape much discomfort and physical disability by living and sleeping in conditioned atmosphere until cool weather arrives.

THE AMERICAN SYSTEM

The great virtues of the American system of government—as distinct from those prevailing in a great many other powers—are exemplified by the recent troubles in Cuba.

We have had revolutions in America—and more lately than is usually realized. We had one when Wilson defeated Taft and Roosevelt, and came to office with an almost entirely different viewpoint toward government than those of his immediate predecessors.

When the opposing factions met in Cuba there was bloodshed and chaos and sabotage, followed by martial law. The same thing happened in Russia and in Italy and Germany. It happened in Spain and Mexico. Dictatorships, whether by a king or a commoner who lifted himself by his own bootstraps, must be achieved by violence, and then must end by violence.

That is a fine testimonial to those who framed the Constitution with its fundamental principles of our system. They saw far ahead—farther ahead than we usually realize. And that is the best argument against those who would subject those principles to any short-sighted overhauling.

GET READY FOR SCHOOL

Approximately 30,000,000 children, ranging from near-graduates to kindergartners, will converge on our streets and highways this September, all approaching central points. Through the summer they have been scattered throughout the length and breadth of the land; now they are to be mobilized, crossing our city thoroughfares or country lanes in long lines going to school or coming home.

It is the solemn duty of every motorist to see to it that these youngsters have a safe passage. By following a few simple rules, he can help cut down the toll of 3,400 children killed and 152,550 injured in 1932. Every motorist should remember to approach a school zone with care; to slow down at all intersections; to watch his speed on curves in the country. Above all, he should look out for the unexpected. Children who meet after a few months' separation, become so absorbed that they forget about the danger of dashing into the roadway, darting from behind parked cars, or trying to retrieve a ball from under the fender of a moving vehicle. The motorist must do their thinking for them.

The reduction in motor accidents to children of school age in the United States is the brightest picture in the safety movement, but there still remains much to be done to further

reduce the number of tragedies—90 per cent of which are avoidable. Educators, school authorities and teachers constantly emphasize the dangers of modern traffic conditions, to the children. The one person able to bring about great improvement is the motorist. He should drive at all times as he would if a child were out in that crowd ahead.

IT WON'T WORK

Have just finished reading a book in which an Eastern woman, despite the lessons taught by the Master at the tower of Babel, believes all races and peoples can dwell together in love, peace and unity. She wants to show that this is possible, and will attempt to do so by a concrete example. She says she will adopt fifteen children, of the same age, representing all races and nationalities, and raise them under the same roof. It won't work, I am sure she is a lady of philanthropic impulses but she is courting trouble and will get more than her share. The Mexican will start an insurrection before the family is out of kilt. The Jew will soon have all the money, which may turn the other fourteen into anarchists, crying for an equal division. The American will fool away most of his time with his tin lizzy and talking politics and then insist that the negro do all the work. The frolicsome Irishman will cut off the Chinaman's queue. The German will consume more than his share of beer, and all the other nationalities will pound the Englishman because he can't see the point to their jokes. The good woman will land in the asylum and most of her adopted family will go under an NRA code.

ADVICE

If giving advice you must be very careful. If possible, first find out what the person seeking your advice wants to do, then advise. Not long since, a young man whom I had always liked, called me to one side and told me he wanted me to give him some advice. He went on to say that he had always looked upon me as one of his best friends, was sure I was deeply concerned in his welfare and happiness and would take a deep interest in a matter that was bothering him. He tickled my vanity and caused me to feel very important by saying he knew I was a man of sound judgment, and that he knew of no other whose opinion he would prize so highly. He then in trembling voice told me he was considering the very important step of getting married. He said he was deeply in love with a rare and radiant maiden, and that her love for him was just as deep and pure, and he wanted me to tell him what he should do. Approaching the matter in a very sensible, practical way, I first asked the young fellow about his savings. He confessed that he had only \$35 in the bank.

The next question was about his salary, which was just about sufficient to pay his board and laundry bills and leave a few dollars for clothing and no prospects of an immediate raise unless through the NRA. Duly considering the young man's financial condition and the high cost of living I told my friend that he should postpone the nuptial event until his savings were larger and his salary sufficient to meet reasonable family expenses. Three days later the young man and his little turtle dove were joined in matrimony's holy bonds, and since our confidential talk he hardly speaks to me and seemingly looks upon me as an enemy who has done him a great wrong.

My experience in the unfortunate affair has caused me to praise the judgment of a Colorado friend in the matter of giving advice. This friend and another man were partners in the cattle business and his partner went to Mexico to see about selling a large bunch of cattle. When the partner in Mexico found the price of cattle very low and going lower, so he wired my friend whether he should sell at the price offered. The reply was "Take one more

drink and use your best judgment."

President Roosevelt is getting us somewhere as fast as an airplane can fly. But if he should call this columnist in to act as chairman of the board in the "brain trust" I would make some suggestions which the NRA does not cover. Everyone knows that improved machinery has thrown men out of employment. The remedy is to revert to old practices. Why not require laundries to pull the buttons off your shirt by hand. Of course it is being done as efficiently with modern equipment for that purpose. But a machine can pull off five times as many buttons in a day as the best laundry hand. That brings about the discharge of at least four.

I would also prohibit the use of laced boots. When this writer was a boy and had to pull on a pair of bullhide boots in the morning and pull them off at night, that took up half his time, not working under NRA hours.

It required two boys to slop as many hogs as one boy could have slopped with a pair of lace boots, easy to get into and out of.

Another thing, ready-rolled cigarettes and cut tobacco reduces the number of employees necessary to operate a plant. When a man (or lady) had to roll their own and when he had to crumple the tobacco in his hand before loading his cob pipe, while the ready-rolled and ready-prepared tobacco smokes a fellow out of a job.

I could make many other valuable suggestions but am waiting a call from Washington.

FISHING

Ed Jones has just returned from a fishing trip and we dedicate the following verses to him.

Some say it is too much like toil To wade a running brook And stand where rushing water coil To cast a feathered hook And some with cards prefer to play With sheltering walls about Than work and wear their strength away To catch a mess of trout.

To some the woods are dark and grim And lonesome haunts and drear The song birds on the leafy limb They never seem to hear. They'd walk a stream and never see The new hatch bursting out And so for them 'twould labor to To angle long for trout.

But those who love the brook they wade And know each turn and bend Find pleasures for them newly made Until the long day's end There is so much for them to do That they can do without A chatterbox for company Who go to fish for trout.

Like men who go alone to prayer Alone they walk the stream To see God's wonders everywhere And of them think and dream Find in flower and bird and tree A cure for every doubt Which may perhaps the reason be They like to fish for trout. F. B. W.

J. E. WATSON AND REV. ALEX HANSON DENOTED GOATS OF LIONS CLUB

Col. C. M. Adams, official "benefactor" of the Lions Club, Friday read the riot act to Bill Cooper and Marion Chapman, members whom he described as wholly unworthy to longer hold distinction of being goats of the service organization and after demanding surrender of the medals held by the two instructed that they be passed on to other Lions.

"These two Lions have been carrying goat medals for months and months and during the time have made no effort to bring new members into this club," Colonel Adams charged. "I insist that the medals be placed in hands of others who have some influence in this town and further have enough energy to at least make an effort to render a service for Lionism in Colorado."

At conclusion of the address J. E. Watson and Rev. Alex B. Hanson were named official club goats.

Urda Coleman Wulffen, youngest son of Mr. and Mrs. U. D. Wulffen, continues to improve. The child was seriously ill at the Ross hospital for several days, following complications after major surgery.

Women Of Home Demonstration Clubs In Midst Of Canning Vegetables This Week

BY MISS EMMA GUNTER Home Demonstration Agent

Mrs. Carl Lowry, bedroom demonstrator of the Hyman Home Demonstration club has been busy since returning from the Short Course at A. & M. College. She and her husband have papered their bedroom and have gone over the woodwork using 4 parts of linseed oil to one part of gasoline. This rubbed into the wood thoroughly gives a very nice finish. Her floor is being finished with this mixture also. Mrs. Lowry has her clothes closet completed and other things added to improve her bedroom. She purchased new window shades and has hung them. She will hang her window curtains later. She has added new linens such as sheets, bedspreads, mattress cover and quilt. Mrs. Lowry is planning on making two rugs for her room and then she will have open house for her club and others interested in seeing her work. She has tried to keep her expenditures within \$10.00, which she has been able to do since she and Mr. Lowry have done the work themselves.

Neither has Mrs. Lowry stopped with her own bedroom, but she was inspired to improve the closet storage in the adjoining bedroom. She put in a rod and added more shelves. She also plans on painting her living room walls a light color as she needs more light than she is now getting from the north and east windows.

Ruby Fay Adrian, 4-H Club girl of Landers girls club has started a braided rummy sack rug.

Ruby Fay plans also to paper her bedroom with the help of her family. She, too, plans on refinishing her floors. This will be completed in time for the last of September when the girls are to complete this year's goals so that they may be eliminated for the Dallas Fair trips.

Mrs. J. C. Franklin has been busy this past week canning peas in No. 1 and No. 2 cans as these are the correct size for her family. Mrs. M. Lee Jones of the same community, Plainview club has been canning peas and corn. Mrs. B. H. Henson of the same club says she has shared her sub-irrigated garden with three families.

Mrs. Miller who resides on the Dollar Farm has been reported to have one of the best irrigated gardens in the county. She has canned and they have used fresh vegetables from this garden for her family of five. This is the first year this particular spot was used for a garden. Mrs. T. P. Smallwood who lives on the Lane ranch farm has taken advantage of the use of the pressure cooker and sealer that belongs to the Hyman club but since the Hy-

NO DEDUCTIONS DUE FROM CHECKS PAYABLE PLANTER ON WHEAT CUT CONTRACT

Machinery Being Set Up For Stabilizing Industry By Curtail Of Acreage

Mitchell county wheat growers will be interested to know that adjustment payment checks for those qualifying under the wheat production control program will be made payable directly to the planter, with no deductions to off-set governmental loan indebtedness. This announcement came out of College Station Tuesday by officials of the agricultural adjustment administration.

The number of wheat control checks issued Mitchell county planters will not be great, due to fact this county is not given over to cultivation of the grain on a large scale. Maximum acreage to be devoted to wheat in the county next season, under the government's control plan, is 1,400 acres.

Under the terms of the wheat contracts, growers who agree to cooperate in the governmental program of acreage reduction will receive cash payments of 20 cents a bushel this fall and between 8 and 10 cents late next spring on their individual wheat allotments, less the cost of local administration of the plan. Deduction of sums owed the Government on loans would have reduced greatly the amount of cash to be made immediately available.

The farm credit administration is asking wheat farmers to apply as much as they can of the proceeds from the adjustment payments to their debts to the government, but there is nothing compulsory about it.

There is a legal distinction regarding government indebtedness in the case of wheat adjustment payments as compared with similar payments in the cotton reduction program. The cotton payment check will be made payable jointly to the grower and to the farm credit administration, with some of the government debt claims subject to negotiation where private interests are involved. In the case of cotton, part of the loan security is destroyed when growers plow under a portion of the crop. The security is not thus destroyed under the wheat plan.

MAHON SUCCEEDED BY HAMILTON AS STATE'S ATTORNEY IN HOWARD

BIG SPRING.—George Mahon, who served three elective and one appointive terms as district attorney of the 32nd district court, was here Tuesday when he received word that R. W. Hamilton of Stanton had succeeded him as prosecuting attorney in Howard county.

His service in Howard county ended with the transfer of this county out of the 32nd into the 70th district. Before the 32nd district was changed by the legislature, it was the largest in this section of the state in population, having more than 72,000 people.

Mahon served under three judges in this county, the late Judge Fritz Smith of Snyder, Judge James T. Procks of this city and Judge A. S. Mauzey of Sweetwater.

Instead of again seeking the district attorneyship, Mahon will be an outstanding candidate for congress in the newly formed 19th district, in which Howard is included.

The district encompasses territory as far east as Haskell, north to Lubbock, south to Howard and west to the border.

A graduate of Simmons, Mahon attended the University of Minnesota, and took his law degree from Texas University in 1925.

At the time of his appointment in 1927 as prosecuting attorney, he was serving as Mitchell county attorney.

A resident of Mitchell county for twenty-five years, he was married to Miss Helen Stevenson of Loraine in 1923. There is one daughter to the union.

"I regret to say goodbye officially to Howard county," said Mahon Tuesday, adding that he counted his associates and hundreds of citizens as friends.

"My official goodbye," he said, "will not be permanent, I hope, for I am planning an intensive campaign for congress in the new 19th district."

HUNTERS TUNING UP ARMS FOR FORAY AGAINST GAME AS SEASON OPENS FRIDAY

Dove And Prairie Chickens Abound In West Texas; Game Laws Cited

The open season on dove and prairie chickens swings into effect Friday and will run through September and October in the north zone, which includes West Texas. Local hunters in large numbers are tuning up their arms in preparation for an organized foray against the game birds, known to abound in practically all parts of this area.

The bag limit for dove is 15 for any one day and 45 for any one week. The hunter is not required under law to purchase license so long as he does not move his operations outside the home county. Outside his home county, the hunter invites trouble with the game warden, and he is said to the credit of W. T. St. John of Abilene, district warden, and E. Barber, deputy for Mitchell county, that they believe in respect for law observance. Excess in the bag limit or shooting out of season just now, will be especially frowned upon. Hunters should bear in mind the fact it is also in violation of law to shoot from a moving vehicle or from a public highway.

Game Warden T. E. Sammons will be found presiding in Andrews, Midland, Martin, Howard, Ector, Crane, Upton and Reagan counties.

Jim Flynt guards Tom Green, Runnels, Coke, Sierling, Irion and Comcho.

If the hunter moves south and west from San Angelo, unlicensed, he will have Warden O. Z. Finley to deal with in Crockett, Terrell and Val Verde.

Sutton, Schleicher and Menard are patrolled by Warden C. H. Jennings.

H. R. Morrell checks on McCulloch, San Saba and Mills.

KEYSTONE EMBLEM HAS BEEN RETURNED AFTER LOST FOR FOUR YEARS

Four years ago Lon Almond, local trucking contractor, lost a keystone, Masonic emblem from his watch chain while unloading furniture at an address on May street, Fort Worth. He spent several minutes looking for the small enameled gold insignia, but to no avail.

Tuesday morning Almond received a letter from N. C. Murray of Fort Worth, enclosing the emblem. Murray wrote that Sunday while strolling along May street he picked up the bit of a jewel. Almond's name and address was engraved on one side.

The emblem is in perfect state of preservation.

Many Changes In Interscholastic League Rules Announced By Chief Roy Bedichek

Bailey in Fort Worth

A number of significant changes have been made in rules and regulations governing Interscholastic League activities, according to Roy Bedichek, chief of the Interscholastic League Bureau. A redistricting plan has been adopted by the State Executive Committee which introduces regional eliminations between the district meets and the state meet. A rule has been adopted to prevent the barring from fall competition of otherwise eligible pupils whose schools closed early on account of financial difficulties. A third change affects the league essay contest.

Under the plan as outlined and adopted by the State Executive Committee the number of districts in the Texas Interscholastic League has been increased from 27 to 31. This means that the districts are all smaller, and hence the district centers are more convenient to the school's participating and less loss of school time and less traveling expenses are required. After the district winners have been determined in the 31 districts they are grouped together in eight regions with centers in higher educational institutions, principally in the teachers' colleges for eliminations necessary to qualify contestants for the state meet.

"This will reduce the number of contestants eligible to the state meet, and at the same time will bring the meets closer to the schools," Mr. Bedichek explained. "It has become necessary to lessen the amount of school time devoted to inter-school contests and also to decrease the amount of traveling expenses to which schools are put to send contestants to various meets. The new plan as it will appear in the 1933 edition of the constitution and rules accomplishes this purpose. The meets are brought closer to the schools and a smaller number are qualified for the state meet."

At the same meeting the state committee considered the case of schools which were compelled to close for financial reasons before the end of the spring semester. Many questions have arisen in connection with the eligibility of pupils this fall who were compelled to drop out of school before the end of the semester on account of the fact that the schools were closed. The "Preceding Semester Rule" would automatically bar such pupils. The state committee, however, considers the depression an emergency and hence made a rule which will qualify all pupils for fall competition who were eligible at the time their schools closed on account of financial difficulties.

An important change was also authorized in the manner of qualifying essay contestants in Interscholastic League contests. Heretofore it has been the custom to qualify the essays produced in the county meet for the next higher meet. The rule as changed will qualify the essay contestants themselves, who will pass on to the next higher meet and produce essays in that meet, and there will be a final state championship in essay writing participated in at the state meet by the contestants themselves.

The Picture Memory Bulletin containing 60 pages which treats approximately the selections made for the 1933-34 contests has been issued from the University Press and is now ready for distribution at the Interscholastic League office. The new Spelling Bulletin, of which 200,000 copies have been printed, is also ready for distribution.

The first issue of the Interscholastic League newspaper, for the ensuing year will be made about September 15.

SCHOOL OPENS MONDAY AT VALLEY VIEW WITH PROMISING PROSPECTS

The Valley View school was opened Monday morning with every indication suggesting another year of successful work. A. C. Connell of Colorado reported Monday afternoon that he attended opening exercises and was impressed by the number of patrons present, strongly indicating that every cooperation for advancing school work would be given.

The school is located in center of one of the substantially developed farming sections of the county. This school and three others are the only rural schools in Mitchell county to be classified as being authorized to teach through the tenth grade. The other two are Carr and Spade.

CANTRILLMEN RETURN TO OLD HAUNTS IN CLASS A AS ORPHANED BY OTHERS

Lower Bracket Dictators In Attitude That Wolves Not Wanted There

Big Jim Cantrill and his Wolf pack are back in their place as members of Conference Class A, after roaming around over West Texas some two or three weeks begging to be re-admitted in good standing in the lower bracket from which they pulled away last year. Announcement that the Wolves would be continued in the upper classification was announced Friday after Cantrill had talked things over with Roy Bedichek at Austin.

A few weeks ago the Wolf mentor and other school officials announced that the pack would return to its former rating as member of the Class B. In due time Mr. Bedichek, czar in football, consented that such would be in order. Certain clubs in the upper class were too overwhelmingly strong for competition such as Cantrill realized he would be able to muster during the next season.

With spirits running high, Big Jim set out to hold conferences with the big boys dominating the district. With a smile he informed them that he and his Wolves were coming back home to be once more among their fellows.

But the Colorado coach did not receive much encouragement. In fact, he did not receive any encouragement at all. To the contrary, he was informed that the district officials had already worked out schedule for playing the 1933-34 season and in so far as they were concerned, he was out.

The local mentor sought assistance down at Austin, only to be advised that since the schedule was already made out and his former bed fellows did not care to take him in again, the State director would not interfere. It was either return to Class A or be left out of official playing during the season.

Cantrill may be able to develop a club that will interest such outfits as the Sweetwater Mustangs, Big Spring Steers, and one or two others. He has five letter men, some of whom were stars in the district last year, who will return this season. From the potential recruit camp several lads are to be mustered for action on the squad. Several of these men give promise of developing into formidable pigskin toters.

Among the letter men who will return to wear the Wolf uniform during the next season are Captain Red church, tackle; Stagner, end; Hagler, guard; Cox, end, and Red Moon Morrison, quarter back.

FARMERS HAVING PIGS TO SELL UNDER GOVERNMENT PLAN GIVEN INSTRUCTIONS
County Agent To Lend Full Cooperation In Drive For This County
 Farmers having pigs or sows to sell under the governments hog control program during the next few weeks are requested to list them with the county farm agent. If the number is large enough it may be possible to pool them for shipment through local buyers or for cooperative shipment in case buyers do not care to handle them.
 Permission must be obtained from commission firms before shipment can be made in order to avoid over supply at the markets.
 According to announcement of the Agricultural Adjustment Administration pigs weighing around 25 pounds will be purchased at 9 1/2 cents per pound (Chicago basis) on a sliding scale which figures about six cents per pound for heavy pigs. A bounty of \$4 per head will be paid for sows which are due to farrow within the next few weeks provided they weigh 275 pounds or more. This bounty is in addition to the market price. These sows will not be subject to the usual dockage.
 Only pigs that are healthy and show normal growth and no deformities at time of delivery will be accepted. Range pigs, razorbacks and southern will be bought only at heavy discount under prices mentioned above.
 The meat from these hogs will not compete with commercial supplies of meat. The pigs will be converted into tarrage and fertilizer and the heavier hogs will be delivered to the Emergency Relief Administration.
CARD OF THANKS
 We are deeply grateful to the many friends of our departed husband, brother and grandfather, Wes Allen, for the many acts of kindness extended us during our recent bereavement occasioned in his death. The floral offering and other tokens of respect from his many friends at Colorado and this part of the State shall ever be remembered by us.
