BRUCE HART CANDIDACY IS ANNOUNCED FOR ASSESSOR AND COLLECTOR OF TAXES

Valley View Man Is Familiar With Property Value In Mitchell County

Bruce Hart of Valley View community was in Colorado Tuesday morning and authorized The Record to announce his candidacy for election to the office of tax assessor and collector. This is the first time for Mr. Hart to aspire to political favor at hands of the voters.

Born and reared on a farm at Valley View the candidate feels that he has an understanding of realty and other property values about which the ever perplexing question of taxation is centered. He is a son of S. H. Hart, among the pioneers of the county.

"I am offering my candidacy for consideration of voters in the Democratic primary election with the full hope that the people of this county will make rigid investigation of my merits," he said. "I appreciate importance of the office being sought and if I did not realize my qualifications for an administration of efficiency with best interests of the people at heart, I would not offer my candidacy."

Mr. Hart announced entry into the campaign after a number of friends in his and other communities had pledged him their support. He stated that he was not entering the race on demerits of any citizen, but rather his own merits.

He plans making a thorough campaign over the county, hoping to meet every voter personally before the primary election July 28. In the meantime he would appreciate due consideration to his claims for the office.

S. A. (ARLIE) MARTIN ASKS ELECTION TO CO. CLERK'S OFFICE IN JULY PRIMARY

Popular Loraine Druggist Is Well Known By Voters; His Qualifications Cited

S. A. (Arlie) Martin, Loraine business man, is listed among citizens of the county who this week are announcing for election to political office. Mr. Martin enters his candidacy for nomination to the office of county clerk, subject to the Democratic primary election July 28.

"I consider the office a job and that the voters will hire some one to work for them," Mr. Martin stated while discussing his candidacy here Tuesday morning. "In event they see fit to hire me for this job I will do the very best that I can to merit their confidence and approval in every particular."

Martin has resided in the county 27 years and with exception of three years here during which he was assistant cashier of the City National Bank, has lived at Loraine most of the time. He is associated with his father, Dr. T. A. Martin, and brother, Bill Martin, in the drug business there.

He taught in the public schools of this and other West Texas counties for six years before accepting the appointment as assistant cashier of the First State Bank at Loraine. After filling that position with credit for three years he came to Colorado to become identified with the City National. With merger of the City National and Colorado National banks he returned to Loraine to enter the drug business.

The candidate has taken an active interest in civic and religious matters through several years. He is at present a member of the Loraine city council, having been drafted for this public service at the last municipal election. He served as member of the Loraine school board for a few years, filling the office of secretary for a time. It was during the years that Martin was on the board that Loraine schools were elevated to the rank of an affiliated school of the first rank.

He is considered one of the best qualified accountants of this section, a fact that will equip him in a special way for the duties attending the office sought. He is generally recognized as a young man of strong personal character, with honor and integrity dominating his private and public life.

Ginners Would Bring Oklahoma, Arkansas Under Terms Of Code Affecting Industry

The National Ginners' Conference, representing all the cotton-growing States, met at the Adolphus Hotel in Dallas Wednesday in an effort to bring Oklahoma and Arkansas into the cotton ginning marketing agreement which has been approved by ginners' associations of the Southern States excepting these two.

The marketing code was signed by Secretary of Agriculture Henry Wallace, Nov. 20, but before in full effect must be signed by ginners handling at least 75 per cent of the volume of ginned cotton. With Oklahoma and Arkansas on the outside, the necessary volume has not been obtained.

Harry V. Kahle of Oklahoma City, secretary of the Oklahoma Ginners' Association, said that one of the main objections to the marketing agreement is the provision giving the Secretary of Agriculture power to disapprove members of the State administrative committee as chosen by the State groups. Mr. Kahle said that the agricultural department has a representative on each committee and that for the secretary to have the disapproving power will make the State committees a one-man body.

The other cotton States also object to this and other provisions, according to John C. Thompson, secretary of the Texas Ginners' Association, but have favored seeking changes, later. Oklahoma and Arkansas want the amendments adopted before the code is finally agreed to.

Another provision of major objection makes the cotton ginning industry a part of any blanket marketing agreement covering the whole chain of the industry that may be adopted. Mr. Kahle pointed out that this would tie the gin in with the oil mills and other phases of the business, and that agreements highly objectionable might be applied. Oklahoma and

Arkansas also want the agreement to include the ginning rate of 1934 and 1935. The agreement in its present form covers only the past ginning season. Other objections of minor importance also have been found.

G. M. Lester of Jackson, Miss., president of the National Ginners' Conference and head of the Mississippi Ginners' Association, presided at the meeting. A committee to reach an agreement with Oklahoma and Arkansas and to carry the matter to Washington was named, composed of Mr. Lester, Mr. Kahle, W. C. Brandsher of Paragould, Ark., and Mr. Thomas of the Texas association. The decision of the conference meeting in Dallas will be laid before the Federal authorities.

The national conference has held meetings in Memphis and Washington. The session Wednesday was the first held in Dallas.

Mr. Kahle said that Oklahoma ginners turned down the marketing agreement by a vote of 12 to 1. The directors of the State association referred the matter to the ginners by a mail ballot. Directors of the Texas Ginners' Association approved the marketing agreement in its present form several weeks ago.

FOND TO OPEN OFFICES IN CITY BANK BUILDING

Joe Pond, for several years associated with Jake Merritt in the tailoring business, is expected to return home from San Antonio later this week, where he has been several days concluding plans for opening an insurance office here. Pond is to maintain offices in the City National bank building.

Auto Plates Of Multi-Color Schemes To Be Noted On Automobiles In 1934

Folks living on the main highways of the nation who enjoy watching the license plates of autos as they flash by will have a dizzy time of it in 1934 because of the color schemes of the new tags. The 40th anniversary of the auto will see 26 different color motifs, ranking from black on yellow used by the District of Columbia, Idaho, Michigan, West Virginia and Oklahoma, to white on apple green in the Philippines. Some 34 states will change the color combinations on their tags beginning January 1. The list of color combinations for passenger cars in all states as reported to the American Automobile Association by state officials follows:

Alabama, black on orange; Arizona, black on copper; Arkansas, red on white; California, black on orange; Colorado, yellow on black; Connecticut, white on blue; Delaware, old gold on Colonial blue; District of Columbia, black on yellow; Florida, white on black; Georgia, orange on blue; Idaho, black on yellow; Illinois, yellow on black; Indiana, white on midnight blue; Iowa, yellow on dark blue; Kansas, black on white; Louisiana, white on blue; Maine, black on orange; Maryland, orange on black; Massachusetts, white on dark red; Michigan, black on canary yellow; Minnesota, white on black; Mississippi, white on black; Missouri, white on black; Montana, orange on black; Nebraska, white on green; Nevada, green on white; New Hampshire, white on green; New Jersey, green on black; New Mexico, gold on red; New York, yellow on black; North Carolina, gold on black; North Dakota, dark blue on deep orange; Ohio, white on maroon; Oklahoma, black on yellow; Oregon, black on gray; Pennsylvania, blue on gold; Rhode Island, orange on black; South Dakota, yellow on black; Tennessee, white on Royal Blue; Texas, black on orange; Utah, black on aluminum; Vermont, blue on white; Virginia, white on black; Washington, green on white; West Virginia, black on yellow; Wisconsin, black on pale blue and Wyoming, white on wine.

News of Club Girls And Women

The schedule of home demonstration club meetings for the week of January 8-13 is as follows:

Jan. 8—Office and meeting with the Commission Court.

Jan. 9—Silver girls club meeting and visit with Bauman.

Jan. 10—Rogers girls club meeting. Spade women's girls club.

Jan. 11—Visit to Fairview school and to homes.

Jan. 12—Home visits to bedroom demonstrators in various communities.

Jan. 13—Office and council meeting.

The first meeting of the home demonstration clubs will be to appoint demonstrators in the three subjects that are to be studied, bedroom improvement, clothing and family food supply and 4-H pantry. These demonstrators are to begin work as soon as the agent visits in their homes and plan to complete their demonstration in 6 months. The same plan holds true of the girls clubs.

Also the demonstration to be given by the home demonstration agent during January is to bring out studies of designs, color combinations, and finishes in coverlets, quilts and tufted bedspreads with the plan in view to give an opportunity to the women to make something lovely and something prized as an heirloom. To do this fewer quilts are made but more beautiful ones are made. Later an exhibit will be held to show what has been done along this special study.

The 1934 plan of work with girls clubs is along the same studies as the adult club with the exceptions in demonstrations and goals. Those girls clubs that have already reorganized and new clubs organized will select their demonstrators at their first meeting and will begin work at once. The subject for January is clothing and the article to be made is a cotton slip, with the purpose of study in mind to make a practical, well fitted undershirt for school use. The Buford and Silver girls clubs have appointed their clothing demonstrators, Doris Hammond of Buford and Jewel Smith of Silver. These girls will make an inventory of the clothing they have on hand, keep an account of their expenditures for the year and make at least 4 garments to exhibit such as a slip, a cotton dress, an apron, smock or kimona. Not only will these girls be expected to accomplish their own goals but they are to help the other girls who are cooperators to fulfill their stipulated goals. Last year the girls goals were to make a pair of pajamas and a print dress and 73 pajamas and 53 dresses were made by the club girls in accomplishing these goals by the 75 girls enrolled.

The county home demonstration council will meet January 13th instead of January 6th as planned. All clubs will have had their first meeting of the year and will have all demonstrators selected. The offi-

LOUIS LATHAM CANDIDATE FOR ASSESSOR-COLLECTOR IN JULY PARTY ELECTION

Colorado Man Asks Voters Retain Him In Office Now Being Filled

E. L. (Louis) Latham, Mitchell county tax assessor, stated to The Record Wednesday afternoon that he had entered candidacy for nomination to the office of county tax assessor and collector, subject to action of the democratic primary election July 28.

Latham is serving his second term as county tax assessor and states that he is announcing candidacy for reelection to the dual office solely on his merits. A constitutional amendment ratified at the polls last August combined the offices of assessor and collector and with qualifications of candidates to be designated this year the two offices will come under supervision of the same official.

Latham has resided in Mitchell county through a number of years. For a time he was engaged in the livestock business as manager of the Latham ranch at Spade. Later he was engaged in the cotton business at Colorado and held position as an auditor.

Friends of the candidate who are lending support to his campaign point to record of Mr. Latham as a private citizen and public official during the several years he has resided in Mitchell county. His qualifications for the office are well defined and his honor as a citizen in either private or public life stands for itself, they declare.

Latham states that he hopes to meet every voter of the county before time for the Democratic primary election in July. In the meantime, he sincerely asks that his candidacy be given due consideration.

"I have only one promise to offer the voters of Mitchell county," he stated. "That promise is that if elected I shall devote my best attention to giving them an administration they will approve."

Reminiscences Of Ellwood Career Told In Letter By Pioneer Living In Oklahoma

Further incidents and phases of the careers of the late W. L. Ellwood, West Texas rancher and capitalist, and his father, the late Col. I. L. Ellwood, are recalled by J. F. Evans of Altus, Okla., in a letter to The Star-Telegram. Evans sold the Spade Ranch to Colonel Ellwood.

Barbed wire, Evans recalled, the manufacture of which brought Colonel Ellwood the bulk of his fortune, was invented about 1870 by Joseph H. Glidden, a farmer near DeKalb, Ill. Colonel Ellwood was a hardware merchant in DeKalb, Evans stated, and saw the possibilities in the new wire and acquired a half interest in the patent, in consideration of a contract to manufacture and sell the wire.

The first machine used for the manufacture of the wire was a cumbersome wooden affair which was supplanted by a steel machine which increased the output. The wire soon was in great demand, Glidden, Evans stated, sold his half interest in the patent to some Massachusetts investors for \$250,000 and a royalty of 25 cents per spool of all the wire they sold. Territories of the Massachusetts men, and Colonel Ellwood's profits grew into millions. His difficulty was in finding suitable investments.

He bought bonds, farms in Illinois and imported hundreds of Norman horses from France. It was about that time that he placed his son, W. L. Ellwood, in charge of the horse business. Colonel Ellwood kept a steam yacht in a Rhode Island harbor for an occasional cruise and bought an orange grove and winter home in Florida.

In about 1874 Colonel Ellwood sent H. B. Sanborn and J. P. Warner to Texas to introduce barbed wire in this territory. In 1889 Evans sold the Spade Ranch to Colonel Ellwood. A year later Colonel Ellwood bought the Renderbrook Ranch, 20 miles south of Colorado, from D. H. and J. H. Snyder. About 1891 he bought the Snyders' Hockey County ranch which became a part of the Spade Ranch.

Evans and J. B. Warner located the Spade Ranch on the Salt Fork of the Red River, near the present site of Colorado, Texas, in 1880.

Interesting Reminiscences Of American Traditions Depicted In Library Collection

Although few of the papers in the newspaper library at The University of Texas date prior to the American Revolution, it is possible to read in their columns of all wars, political changes, and other important events in the United States since then.

Copies of the United States Gazette published in June, 1789, in New York, tell the story of the meeting of the first Congress. Many of the files begin about 1800. Papers published in Mississippi and Kentucky when those states were frontiers give facts of pioneer life about the beginning of the nineteenth century.

Philadelphia, Boston, New York and Richmond publications cover the War of 1812. The stories of the Texas Revolution in 1836 and the War with Mexico in 1846 are told in southern newspapers of that time.

The library contains several anti-slavery and pro-slavery publications, among them the Liberator, favoring the abolition of slavery, which was published in Massachusetts in 1832 by Mr. Lundy. During the Civil War most southern newspapers were suppressed; only papers from New York, Boston, Richmond and Philadelphia give the story of that period. Ample information for study of the Spanish-American War and the World War is available.

The collection of southern newspapers is probably the largest in the country, E. R. Dabney, newspaper librarian said. The file of the Dallas Morning News is complete from the first number. The Dallas Herald, which was first published in 1849, when there were only twenty families in Dallas, was absorbed by the Dallas News in 1885. There are copies of the Galveston News from 1842 to 1873. The Austin Statesman was begun by legislators opposed to carpet-bagging in 1871 and has continued ever since. The Telegraph and Register began publication in Columbia in 1832. On one occasion when the Mexicans were approaching the town, the press, which was set to run the next issue, was thrown into the river. Later the paper continued publication in Houston until 1877.

The library, established in 1915, is used mostly by students doing research work in southern and southwestern history, but it is expected to become more useful to the general student body when it is moved from its present quarters in Sutton Hall to the new library building.

At present the collection is increasing at the rate of about one

thousand volumes a year. Newspapers are received from most large countries, four dailies from England, three from France, four from Germany, and one from Spain.

Many volumes of old newspapers are donated to the library as memorials to their editors. Others are purchased from private collections. Some volumes are valued as high as \$200 apiece, Mrs. Dabney said.

PRESIDENT GIVEN ROUSING OVATION AS EXECUTIVE IS HEARD BY U. S. CONGRESS

FD Realizes That Powerful Organization Backs His Recovery Objectives

WASHINGTON, Jan. 3.—Congress reconvened today, heard President Roosevelt's personally delivered appeal for continued cooperation and then, to all appearances, set about to give him what he wants.

In both houses, Democratic leaders marshalled their overwhelming majorities to strike swiftly for ratification of the administration program, and final adjournment by May.

Just what the program may be, few in congress actually knew tonight. Mr. Roosevelt spoke in generalities today, concealing his hand from supporter and opponent alike. He will play his cards one at a time, as he did in the special session.

The first will be laid on the table tomorrow when the annual budget message, reckoning up a deficit counted in billions, is sent to the capitol. Its provisions, and the president's proposals for tax revision, were closely guarded tonight. But whatever he asks for, in that or later messages, is assured now of powerful organization backing.

Seemingly, too, the republicans will go along a part of the way, at least. Some of them mildly protested today the president's plea for non-partisan support of his recovery program; but organized opposition was still almost non-existent.

The minority, due to Mr. Roosevelt's strategy, must watch the cards as they fall, and decide on its own program play by play.

The chief executive, however showed plainly that he intended to carry forward the program unfolded last session, whatever doubt re-

MRS. ELIZABETH G. McCLEARY ANNOUNCES AS CANDIDATE FOR COUNTY CLERK POST

Well Known Mitchell County Business Woman Bids For Support Of Voters

Mrs. Elizabeth G. McCleary, well known Colorado business woman and civic and church leader, Tuesday authorized the announcement of her candidacy for election to the office of county clerk. Mrs. McCleary expects to prosecute an active campaign between now and the July Democratic primary election.

Qualifications of the candidate for this important county office are well known here and in many other parts of the county. Fact that she has ably directed all clerical work for two of the city's larger gin plants during the past few years is pointed to by her friends as evidence of her qualifications for the office.

Mrs. McCleary, in announcing her candidacy, gave the following statement for publication:

To the citizens of Mitchell county: In announcing my candidacy for the office of County Clerk for Mitchell county, I am placing before you my application for a job for the first time. In doing so I realize fully the responsibilities that the office carries, at the same time I believe myself thoroughly qualified to accept these responsibilities.

With reference to qualification, I should like to state that I am a native Texan, as was my mother before me; a democrat, both from heritage and principle and have at all times exercised my right to vote since the Nineteenth Amendment granted that privilege to women. I am also a tax payer in Mitchell county.

Besides technical training, I call attention to my eight years of business experience in Colorado. Immediately following the death of my husband I began to carry on his work, and became a member of the firm known as Lambeth McCleary & Grubbs, cotton ginners and dealers. For years I held the position of office manager which included the accounting. In 1930 this partnership was dissolved and since that time I have been employed by the Farmers Cooperative Gin & Supply Association, serving in the same capacity, but retained no personal interest other than that of an employee desiring to meet responsibilities in the best possible way.

For recommendations I submit my ten years of living among you, and my business and social relations with you.

During the very active campaign which I expect to make for this office, it is my purpose to see every voter in the county. It has been a happy privilege to know many of you personally already, and I shall welcome the opportunity to make new friends and to know all of you better.

I earnestly ask your consideration of my candidacy, your influence and the all-important feature, your vote in the Democratic primaries of 1934. I assure you that if I am selected to be your County Clerk no time or effort shall be spared to render to you the most efficient service.

Thanking you, I am sincerely
Your friend,
ELIZABETH G. McCLEARY.

Westbrook Oil Employee Has Creditable Record; Asks Support On Merit

J. M. Herrington, associated with the California Company at Westbrook during the past eleven years, this week authorized the announcement that he had entered campaign seeking nomination to the office of county clerk. He has launched his candidacy for the important official post subject to action of the Democratic primary election in July and solely upon his own merits.

A native Texan, Mr. Herrington has spent his life as a citizen of the Lone Star State. He was born at Marlin in 1890 and grew to manhood on a farm. After attaining maturity he determined to obtain an education and matriculated at Britton's Training School at Cisco. From there he entered the teaching profession and taught schools in Eastland and Nolan counties.

With entry of the United States into the World War, Herrington volunteered for services in the army. Through merit he was given promotion from time to time and received his honorable discharge as a second lieutenant. Returning to his home at Ranger he entered the oil business. In 1922 he was employed by the California Company in Mitchell county and has since been with that corporation in different capacities.

The candidate is a 32 degree Mason, an active member of First Baptist church in Colorado and stands for the better things of life. He is launching his candidacy solely on his own record as a private citizen and his qualifications for the office.

It is his ambition to meet every voter of the county personally during progress of the campaign. He stated this week that if honored with election he would give of his very best in rendering an honest, efficient administration.

COLORADO TO BE SCHOOLBOY MECCA JANUARY 12-13

ANNUAL CAGE TOURNEY TO OPEN FRIDAY MORNINGS AT HIGH GYM FOR TWO DAYS

200 School Boys Expected Attend 2-Day Events; Homes Desired

Colorado will be the mecca for not less than 200 West Texas school boys Friday and Saturday of next week, attracted here to participate in third annual invitation basketball tournament. School officials here who are cooperating with the chamber of commerce in plans for the tourney are offering prediction the two-day event will be the best of its kind ever staged in this district.

Among schools from which quintets have been entered for the events are Abilene, Big Spring, Roby, Hamlin, Rotan, Anson, Forsan, Loraine, Westbrook, Ira, Hermleigh, Bronte, Dunn, Trent, Denton (Callahan county), Wylie, Barnhart and Colorado. Still others are expected to be registered before opening of the annual cage contests.

"Entry of such calibre teams assures that this is to be the best basketball tournament in this section of the State this year," said C. A. Wilkins, principal of high school, Tuesday afternoon. Some of the entries already made have come from schools from which in other years State championship pennant was won.

There will be two separate and distinct tournaments featured for the two days. In one will be pitted teams winning their first game and in the other will be played those teams that lost in the initial contest.

Through cooperation of Colorado business men suitable trophies have been obtained for awarding winners. They are on display in window of the J. P. Majors jewelry store.

Appeal was again made Wednesday by the chamber of commerce and school officials for rooms in which to entertain the visitors Friday night. The hope and coaches will need sleeping quarters for only one night and no home extending this courtesy will be expected to furnish meals.

TEMPLETON IS CANDIDATE FOR MITCHELL CO. JUDGE IN DEMOCRATIC ELECTION

County Clerk Asking Voters For Promotion; Friends Enumerate Merits

B. L. Templeton, Mitchell county clerk during the past three years, this week makes formal announcement of his candidacy for county judge, subject to the Democratic primary election in July. The candidate is entering his fourth year as county clerk and believes that voters will consider his claims for promotion.

While not a native of Mitchell county, the candidate has spent practically his entire life here. He was born in Sterling county and soon thereafter his parents moved to Mitchell. He grew to manhood in Loraine community, graduating from the Loraine high school in 1918. He later attended Simmons University at Abilene and State University at Austin.

Following his academic study in those institutions Templeton entered the teaching profession and for several years taught in the public schools of this county before entering the race for county clerk in 1930. He developed a strong vote in all parts of the county and was elected.

Since entering the office of county clerk Templeton has added a number of features making for greater efficiency in keeping public records. Auditors employed by county commissioners' court annually to make audit of accounts of all county officials have been profuse in praise of the few months ago Templeton was admitted to the Texas bar, following examination before the State board at Austin. He equipped himself for the practice of law through diligent study at home, spending long hours from night to night digging out the requisites of qualifications by hard work.

Friends of the candidate at Colorado and other communities of the county feel confident that strong merit of Mr. Templeton will assure favorable consideration at the hands of voters. His qualifications for the office are well known and his integrity has never been questioned.

"I appreciate most gratefully the honor already extended me by the voters of this county in having elected me to the office of county clerk for two consecutive terms and in event my candidacy for county judge meets with their approval at the polls next July, I pledge to give of my best to maintain their confidence," Templeton declared Wednesday morning. "Any consideration given my candidacy by the voter will be sincerely appreciated."

MRS. MAYNE TAYLOR HAS AMBITION TO RETAIN HER POSITION AS AN OFFICIAL

County Treasurer Has Most Commendable Record; Is Well Known In County

Mrs. Mayne Taylor, Mitchell county treasurer, feels that the commendable record she holds as a county official will merit approval at hands of the voters and consequently has consented to offer her name as a candidate for re-election, subject to mandate of electors at the polls in Democratic primary election next July.

Annual report of auditors whom from year to year have probed records of county officials here have ever carried complimentary remarks relative to the work of Mrs. Taylor. Last year the official document referred to her records as among the most near perfect and neatly kept found in the State.

"It is upon such a record that I am offering my candidacy for re-election to this important county office," Mrs. Taylor said Wednesday morning in statement given The Record relative to her campaign. "I have honestly and sincerely devoted my best attention to duties of the office and feel that the knowledge I have gained as to this work can only better equip me for the dependable service that every good citizen has a right to expect."

Mrs. Taylor expressed deep appreciation of the confidence expressed in her by voters of the county in other years, when her candidacy for the office was given endorsement at the polls.

She hopes to make a thorough campaign over the county to personally discuss her candidacy with the individual voter. Consideration of her claims for re-election and especially her qualifications, as already noted, are invited by the candidate.

SHERIFF R. E. GREGORY IS CANDIDATE FOR ELECTION TO OFFICE ANOTHER TERM

Strict Attention To Duties Involved, No Favorites, His Platform

R. E. Gregory, Mitchell county sheriff, stated Wednesday morning that he had consented to representations advanced by friends at Colorado and other parts of the county that he become a candidate to succeed himself in office, subject to the Democratic primary election in July.

"I am offering my candidacy for re-election on record your sheriff has made in the past, and wish to reiterate the promise that if retained by the voters I shall stand for respect of the law and society," Gregory declared. "I appreciate very much the splendid support given my candidacy before and solicit your vote and influence in the coming election."

Gregory has spent the most of his life in Mitchell county. Before being elected sheriff he had served as a deputy under F. W. Terry. His several years experience as a peace officer has especially fitted him for the responsibilities involved.

As sheriff Mr. Gregory has cooperated fully with members of the local police department, the constables and officers in the incorporated municipalities of Loraine and Westbrook. He feels that the spirit of cooperation existing there will be of material assistance to him in maintaining efficiency in meeting such demands as may arise.

Safety... the most important factor in the consideration of Your Life Insurance

You buy life insurance for a lifetime. Through good years and bad, your life insurance contract must be safe, a stable investment for your future, an infallible protection for your family. Sound assets... able management... steady growth... are essential in a life insurance company, and make for safety to policyholders. These characteristics are typical of Southland Life as it completes a quarter-century of service to Texas and the Southwest.

Southland Life begins 1934 with \$1,000,000 in Cash
A million dollars in ready cash to meet obligations and fulfill contracts is listed in our December 31, 1933, statement as an important asset. A strong cash position is essential to safety in a life insurance company, but cash is only a small part of the total assets which assure the safety of Southland Life policies.

Southland Life has loaned more than \$9,000,000 to Texas Citizens
Mortgages and real estate amounting to more than nine million dollars comprise an important part of Southland Life assets. Farm homes, city dwellings, and other real estate form the security back of these mortgages. Thus Southland Life has provided funds to assist in the development of the State.

Southland Life's Total Assets are more than \$20,000,000
In twenty-five years of steady, consistent growth, Southland Life has become one of the largest and strongest of the Texas insurance companies. Southland Life policyholders may well feel proud of this record, and gratified in the contemplation of more than twenty million dollars in total assets as an assurance of safety.

Estimated Surplus to Policyholders is now \$900,000
This surplus represents added safety and protection to Southland Life policyholders, and is in addition to the Legal Reserve. We will be most happy to outline in more detail any other phase of the company's affairs to any policyholder at any time. This is your company, and the policyholders' interests are paramount at all times.

- YOUR POLICY**
Your Southland Life Policy represents safety for your future, your family, and for the funds you have invested in premiums. You who have seen other values shrink and fade during the late depression can feel doubly thankful in the possession of your policy. It is worth the same, either in dollars or protection, as the day you signed your contract. We congratulate you, and the other holders of Southland Life policies.

LONE STAR SCHOOL HEAD ENTERS RACE FOR COUNTY SUPT. OF PUBLIC SCHOOLS

Chas. Brazil Would Maintain Good Standing Of These Rural Institutions

Chas. Brazil, principal of the Lone Star school and among the leading school authorities of the county, Tuesday gave The Record a statement for publication outlining his candidacy for election to the office of county school superintendent. The candidate has spent practically his lifetime in and near Lorraine and is well known to a large number of citizens of the county.

Receiving his technical and practical training for the office, Mr. Brazil goes on record as demanding that the already commendable rating of the rural schools of Mitchell county be maintained, even advanced. "I shall strive earnestly to elevate the already good standing of these institutions, and solicit the vote and influence of the electors of Mitchell county on such an objective," he said.

After completing high school Mr. Brazil attended John Tarleton college at Stephenville and later matriculated at State University. He received his degree from the latter school. For three years he taught at Landers and is now in his fourth year at Lone Star. Under his supervision as principal, Lone Star school has advanced to rank of the first class with a faculty of four teachers. "I am not placing my candidacy for this important county office before the voters upon any other plane excepting that of my merit and qualifications to render an administration of progress, with honesty and equal consideration to every school and every student commanding equal attention," he said. Brazil invites investigation of his private and public life and his record as a school man. He is placing his candidacy subject to action of the Democratic primary election July 28.

HYMAN SCHOOL HEAD OUT FOR ELECTION AS COUNTY SUPT. PUBLIC EDUCATION

Roy Davis Coles Announces Candidacy While Here Friday Afternoon

Roy Davis Coles, principal of the Hyman school during the past six years, Friday announced his candidacy for Mitchell county superintendent of schools, subject to action of the Democratic primary election in July. The well known school leader states that he expects to inaugurate active campaign for the office at an early date.

Mr. Coles is a native of Mitchell county. A son of Mr. and Mrs. H. T. Coles, he was born and reared in Valley View community. After completing his public school education in the county he entered State University at Austin. He has been engaged in the teaching profession for several years, making for himself an enviable distinction in the profession.

Since accepting the place as principal of Hyman school Coles has developed there one of the leading rural schools of the county. The institution, under his leadership, has steadily advanced until given rating by the State department as a rural school of the first class.

That the candidate is well fitted for duties of the important office is maintained by his many friends of the county. His personal relationship with the rural schools through several years has served to acquaint him with the peculiar needs of those institutions. As a private citizen his honor and integrity has never been questioned.

"I am out for election to the office through no motive other than my desire to render a service to the rural schools of my home county and I wish to pledge every citizen that if honored by their support at the polls I shall give an efficient and honorable administration," Mr. Coles said when discussing his candidacy here Friday. The candidate will appreciate voters making an investigation of his qualifications for the office and his record as a private citizen.

We are not using the International Sunday school lessons, nor literature, but are preparing a series of lessons on the deep doctrines of the Bible which we hope will prove both interesting and profitable to us all. Next Sunday the lesson subject will be, "What Baptist Believe about the Bible." Our Sunday school is so organized that every age is adequately taken care of, and if you are not now enrolled in a Sunday school we invite you to at least pay us a visit, and become a member if you feel like it.

All regular services at our church next Sunday. You are always welcome to worship with us.

MOVIES

"Bombshell"
Thursday and Friday
"Bombshell." Jean Harlow, Lee Tracy, and "Bombshell"—you can expect something from that combination—a comedy wow of the first water. "Bombshell" is one of the funniest, speediest, most nonsensical pictures ever to hit a screen, an amazing, lowdown satire of Hollywood and its people, revealing scores of Hollywood's most intimate secrets.

It's the story of a picture star and her frantic headline publicity yen. Also it's the story of a quick-witted studio publicity director and his equally frantic struggles to concoct gags and stunts. Everything is screwy and there are a thousand laughs. But at the same time you can't keep from feeling sorry for the poor dumb star and the sorely tried press agent. Nobody knows what is on the level or what's framed up.

Here's a Miss Harlow that nobody ever saw before, even in "Dinner at Eight," and the same goes for Lee Tracy. And you can write "star" after the names of about every one else in the cast—Frank Morgan, Franchot Tone, Pat O'Brien, Una Merkel, and Ted Healy.

"To The Last Man"
Saturday—January 6
"To The Last Man." A shoot 'em up western, following the formula of outdoor adventure thriller, this is a complete throwback and such a diverting novelty. Although without intent, it has the atmosphere of a "Screen Souvenir"—with the hero

to cheer, the villain and bad man to hiss and hoot, the girl torn between two loyalties; wild riding, killings by the dozen; the ranchhouse siege, and a couple of heroic, hand-to-hand combats. It's the kind of show that used to thrill people when motion pictures were much younger. Another "it's all in fun" picture and well worth anyone's time.

"When Ladies Meet"
Sunday and Monday
"When Ladies Meet." Smart but not too sophisticated. This production offers high class entertainment with universal appeal. Finely acted and mounted, moving with a pace that always maintains interest, it balances drama with timely comedy; continuously keeps its romance prominent, giving novelty, color and glamour to its basic plot of the old-eternal triangle.

The story is simple but appealing. It has smartness, sparkling wit, intriguing drama, appealing love interest, and humanness. Everything that one could desire for an evening's entertainment. The cast includes Robert Montgomery, Ann Harding, Myrna Loy, Alice Brady, and Frank Morgan.

"Gambling Ship"
Tuesday and Wednesday
"Gambling Ship." This is a gangster yarn of the type provocative of highly melodramatic atmosphere. A drama of inside gambling ship revelations. The cast includes Cary Grant, Benita Hume, Roscoe Karns, Genda Farrell, and Jack LaRue.

GREETINGS TO 1934. The United States has come to the end of one of the most momentous years in its history.

For the first time since government was founded, there has been sweeping legislation to control the wages and hours of the entire working population, and the competitive methods of virtually all industry.

Men have been put to work by the hundreds of thousands—men who had had little or no work for two or three years, and had been forced to suffer the ignominy of organized charity in order to keep their families and themselves from utter privation.

And in other fields the Administration has much on which it can proudly pride itself. It has started a program whereby the transportation difficulties of the country may be solved.

It was a good year, the best the world has ever known. More men stood for honesty, and more women stood for virtue. Brotherly love gave to the world fairer and sweeter flowers than ever blossomed before.

creatures were rungs in a ladder, they would reach from earth to Heaven's glorious summit. This is the first installment of this column for the New Year. We watched the old year out and the New Year in.

A year is a period of time allotted by Him who hung the stars and gave the planets their orbits for the sun to complete its journey around the elliptic. It makes the age of the world and men. It is like human life, in that it embraces all there is in the way of seasons, in sunshine, clouds, rains and snows.

NEW YEAR'S GREETING. Don't say New Year's Gift, it sounds too much like you want something. Greet your fellowman with a New Year's Greeting.

Nineteen hundred and thirty-three and thirty-four has made our acquaintance. With the coming of the New Year, we'll wipe off the slate and begin again, with new hopes and aspirations.

Time, the great tomb builder has created a stone over the remains of 1933 and moves on his restless way. Not one of us accomplished all he had hoped to do ere the sun went down, but it is a year that has left behind it a legacy of progress.

Barrier Outlines Proposed Legislative Reforms In Announcing House Candidacy

I hereby announce my candidacy for State Representative from the 117th district, which consists of Mitchell, Nolan and Fisher counties. I have always been a true democrat, but I have never entered a race for public office. I feel qualified and capable to fulfill the duties of the important office after having made a thorough study of Texas State government.

I submit the following proposed changes and reforms for the consideration of the people of this district: It is necessary that taxes on property be reduced to encourage home ownership, therefore, I advocate an amendment to the Texas Constitution to exempt the County Ad Valorem taxes on all homesteads up to \$3000 valuation.

The poll tax should be abolished as a qualification for voting as many people are not able to spare the money to pay that tax when as many necessities of life are needed. The poll tax requirement for suffrage is contrary to the principles of free government. More than half of the states of the union have no poll tax and it is my opinion that Texas citizenship is just as cherished and valuable as that of any other state in the nation.

I would favor a further reduction in State taxes by combination and abolition of some of the 128 State agencies. Seventy-four State agencies have been created since 1909, and has the efficiency of our State government increased accordingly? The cost of our State government has increased over 900 percent within the last forty years and the population of the State has little more than doubled during that period of time.

There is no new thing under the sun," said the ancient wise man and years are not to be excepted from that statement. There was a sudden hush, as of one dying; I leaned against the midnight wearily; No sound, save willows rustling by the river— No sound, save waters murmuring eerily. The door of Time creaked slowly— slowly open; The spent year plodded outward, bent and old; And like a foundling high on heaven's doorstep, I heard the New Year, crying in the cold.
