He tossed the burning gasoline into the yard and with his face and right arm covered with the burning fluid, rushed into his father's bedroom and wrapped himself in quilts. He was taken to the local hospital for emergency treatment where it was found his burns were not serious.

### JONES-CONNALLY CATTLE RELIEF MEASURE PASSED BY SENATE ON SATURDAY

Local Cattlemen Expressing Interest In Federal Law; \$350,000,000 Voted

Cattlemen of this area Monday were expressing keen interest in the Jones-Connally bill authorizing Federal relief to the Nation's dairy and cattle industry. The measure was passed after recommendations of the agriculture administration had been ignored. The number of basic commodities were doubled and the aid fund increased from \$200,000,000 to \$350,000,000.

By 39 to 37, the bill was passed and sent to conference with the House after adding peanuts, rye, flax, barley and grain sorghum as well as dairy and cattle products to serve basic commodities now defined in the agricultural adjustment act.

The adjustment administration had recommended only dairy and cattle products for inclusion. Senator Connally, Democrat, Texas, co-author of the legislation, accepted most of the additions so as to get the measure to conference. Supporters of the original bill said they would be surprised if any of the additions remained when it is finally enacted.

The bill's fund, boosted to \$180,000, would be used to pay growers for eradicating diseased cattle, for purchase and distribution of dairy cows to farms that could use them for supplying family needs. One-third of the additional \$180,000,000 would go for food relief.

The seven basic commodities now subject to a processing tax are wheat, cotton, tobacco, hogs, field corn, rice and dairy products.

The host of amendments tacked on the bill amused many members. Senator Long, Democrat, Louisiana, suggested putting cucumbers and sassafras in the "basic commodity" class.

**Dr. Hunt Dies**

(Continued From Page One) and later attended the funeral service.  
Dr. Hunt left a most colorful background as a cowboy on the Plains of West Texas, a circuit rider, newspaper man, minister and educator. He was born in Oklahoma Territory but early in life his parents moved to Estacada where he grew to manhood. As a boy he was well known in Colorado, often coming here for supplies with wagon trains from that pioneer Plains settlement.

Messages of deep regret poured into Abilene Monday night and Tuesday from many parts of the country. Men prominent in affairs of the church and education expressed themselves as shocked at the passing of Dr. Hunt. Simmons University, Abilene Christian College and the Abilene city schools dismissed all class room work Tuesday and officials of those schools passed resolutions strongly commending life of the late leader.

Colorado people of all religious faiths are expressing regret at his passing. Dr. Hunt had visited in Colorado frequently during the past several years. He had filled pulpit of First Methodist church upon a number of occasions.  
"He was one of the greatest men West Texas has ever produced," was comment offered Wednesday morning by Rev. Dick O'Brien, pastor of First Baptist church.

**AN OPEN LETTER TO MITCHELL CO. FARMERS**

We give you below a pretty accurate estimate of what you can do with the F-12 Farmall Tractor.  
Now to illustrate supposing you are cultivating 160 acres:  
Now you can bed the same 160 acres in 8 days;  
Then you can plant the same 160 acres in 10 days;  
Then you can plow the same 160 acres the first time in 10 days;  
Then you can plow the same 160 acres the second time in 8 days;  
Then you can plow the same 160 acres the third time in 8 days;  
Then you can plow the same 160 acres the fourth time in 8 days;  
Making a total of 52 days work with the F-12 Farmall Tractor to do the whole job. The fuel it will use during the 52 days will cost you about \$45.00. The equipment to do this job is the F-12 Farmall Tractor, a double row planter with 2-12-inch bottoms and a double row cultivator with sweeps will all cost you \$808.00.  
Think it over, figure it out, and then talk trade with us.  
The wise thing to do is not feed 6 or 8 head of horse and mules for 12 months in the year to get 52 days of work done.  
Ask for a demonstration on your farm, and we will try and trade with you.  
Yours truly,  
PRICE BROS.

**BIBLE PUZZLE**  
Answer to Last Weeks Puzzle:  
The number of sons in Jacobs family, (12), multiplied by the number of his wives, (2), add the age of Moses the first time he left Egypt, (40), add the number of spies who brought in a pessimistic report from Canaan, (10), subtract the number of spies who brought in an optimistic report, (2), divide by the number of apostles Jesus' had, (12), and you have 6, the number of books Moses wrote in the Old Testament. The books are: Genesis, Exodus, Leviticus, Numbers, Deuteronomy, and Job.

**This Weeks Puzzle**  
Take the number of chapters in the book of Isaiah, subtract the number of chapters in Galatians, divide the remainder by the minimum number of righteous people God told Abraham must be found in Sodom in order to save the city from destruction, now add the number of fish taken by the disciples in the early morning catch when Jesus appeared to them after the resurrection; subtract the number of chapters in the longest book in the Bible, divide by the number of disciples Jesus took with Him into the garden of Gethsemane the night of the betrayal; then add the number of sons of Zebadee who became apostles, and you have the number of books John the beloved wrote in the New Testament. The answer to this puzzle will be given next week and a new puzzle.

Anderson. There were 14 present. Mrs. Lavender, chairman, presided. Mrs. Lloyd Blackard brought the devotional and Mrs. A. L. Whipkey led in prayer.

The minutes were read and approved. Roll call was answered with scriptures beginning with "J". The chairman thanked her circle for the splendid support in providing lunch for the Workers conference. Following report of officers, Mrs. Whipkey led the lesson from "A Wandering Jew in Brazil".

At the social hour the hostess served sandwiches, cookies and coffee.

## JUNIOR STUDY CLUB BEING SPONSORED FOR YOUNGER MATRONS BY 1921 STUDY

### Preliminary Meeting Held At Residence Mrs. Sam L. Majors Tuesday

The first step in the organization of a junior study club for the younger matrons of the town was taken Tuesday night when a number of young women were invited to meet at the home of Mrs. Sam Majors, who is a leading member of the 1921 Study Club which is sponsoring the organization of the new club.

Selection of a name for the club was left until a later date. Mmes. Bill Dorn, Randolph McEntire, and Austin Bush were chosen as a committee to draw up a constitution and by-laws to be presented before the club at its first meeting next Friday afternoon with Mrs. Dorn.

The following officers were elected: Mrs. Jake Richardson, president; Mrs. Randolph McEntire, vice-president; Mrs. Austin Bush, recording secretary; Mrs. Frank Mackey, corresponding secretary; Mrs. Don Wallace, treasurer; Mrs. Mary Lee Tidwell, parliamentarian; Mrs. Bob May, historian.

The entire charter membership of the club is as follows: Mmes. Ed Jones, Jr., E. G. Mackey, Frank Mackey, Don Wallace, J. C. Richardson, Bob May, Bill Dorn, Randolph McEntire, Austin Bush, Mary Lee Tidwell, Jimmie Logan, and Raymond Gary. Others who have been invited to join will probably do so at the next meeting.

At the close of the meeting Mrs. Majors served cake and tea as refreshments.

### Mrs. Merritt Returns From Womens Council

Mrs. J. G. Merritt returned Wednesday night from Birmingham, Ala., where she attended the Methodist Woman's Missionary Council. She accompanied Mrs. Nat G. Rollins of Abilene and Mrs. Billie Bryant of Hamilton, making the trip in a car.

She reports a great meeting, having heard Gypsy Smith, who was holding a meeting in the First Presbyterian church. She visited many church institutions and the Bessemer steel plant and saw Birmingham's great fire.

The council goes next year to St. Louis, Mo.

### Mrs. Cramer Entertains Complimentary To Guest

Thursday at one o'clock, Mrs. E. J. Cramer, in her home at Butler Camp, delightfully entertained a number of friends with a three course luncheon honoring her house guest, Mrs. Ledger Smith of Montone.

The four tables were artistically decorated with green candles in candle sticks tied with green tulle bows. The nut cups were shamrocks and the St. Patrick motif was also carried out through the place cards. The menu consisted of grapefruit cocktail, meat loaf olives, artichoke salad, asparagus tips, potato au Gratin, marshmallow whip, cake and coffee.

After luncheon was finished the tables were cleared and bridge was enjoyed. At the conclusion of the games, Mrs. D. H. Snyder had high score and received a linen luncheon set. Mrs. Ledger Smith, guest gift, silk hose. Mrs. F. L. Hamblin of Forsan received low score prize, a compact.

### NEW SOUND EQUIPMENT IS BEING INSTALLED IN THE PALACE THEATRE BUILDING

**High Fidelity System Said Best Offered In America; Other Improvements**

Arrangements for the installation of a remarkable new "High Fidelity" sound reproducing system which promises to revolutionize all previous conceptions of realism in sound motion picture reproduction have been completed by Ross D. Dixon, manager of the Palace Theatre, with the Photophone Division of the RCA Victor Company.

The new Photophone sound equipment, which represents a radical improvement over all previous apparatus of its type, is similar to that recently installed in the two new super-theatres at Rockefeller Centre in New York—the beautiful RKO-Roxy, and the world's largest and most modern theatre, Radio City Music Hall.

With the installation of the new "High Fidelity" apparatus, the Palace Theatre will be one of the first in this vicinity to be equipped with apparatus capable of faithfully reproducing the finest sound which recent advances in recording have made possible. Theatre patrons will be assured of brilliantly natural and intelligible sound—sound that until very recently was only possible in the world's largest laboratories, according to Mr. Dixon.

"Responsible motion picture theatre exhibitors for some time have been aware that the continuous advances which have been scored in the art of recording sound motion pictures, had far outstripped the performance of current types of motion picture reproducing equipment. Consequently, the theatre patron does not reap the full benefit of these remarkable improvements if the theatre equipment does not measure up to the new, more exacting requirements. In line with our policy of making the best possible entertainment available to our patrons, we made a thorough study of the various types of equipment on the market and unhesitatingly chose the new RCA Victor "High Fidelity" Photophone sound system from all the others," said Mr. Dixon.

"With the Photophone sound system, which is the most recent major development to emerge from the great laboratories of the RCA Victor Company, at Camden, N. J., there is a perceptible "lift" to the sound reproduced. Instruments in the orchestra take on new life and delineation. Spoken words lose their metallic quality and take on an intimate, human timbre, and the whole effect is a revelation of recreated sound. Our patrons are due for a pleasant surprise when they hear this new system in operation."

Photophone reproducing equipment has been chosen by many of the leading steamship companies for installation on their palatial ocean liners. The United States Army has installed similar equipment at 81 Army posts located all over the country, and nearly three hundred installations have been made on battleships, destroyers, cruisers and shore stations of the United States Navy.

The present sound equipment of the Palace will be installed in the newly remodeled Ritz, soon to be opened. Present plans call for a new Ritz from cellar to gable, making it among the best from a sound standpoint in the West.

### TEXAS RANGER ON STAND AS COURT RECESSES FOR NOON LUNCHEON THURS.

Attorneys Exchange Wits As Evidence In Ed Snowden Case Being Heard

A. H. Nessmith, former local garage mechanic and now holding commission as member of the Texas State ranger force, was being questioned by defense attorneys in the Ed Snowden liquor trial when 32nd district court was recessed for noon luncheon Thursday. Nessmith is principal witness for the State in this case.

Assisting R. H. Ratliff, Colorado attorney, are Cornelius and Sons of Sweetwater for the defense. District Attorney George H. Mahon was being assisted by Del Barber, county attorney, in handling the prosecution.

Evidence adduced from Nessmith was to effect that offense under which Snowden was indicted was committed on night of December 20, last, when Nessmith, as a Texas ranger, is alleged to have purchased two pints of liquor from the defendant.

Attorney Cornelius obtained admission from the witness that he gave Snowden a check for \$10, taking \$8 in change, at time of the alleged transaction. Statements by the attorney and witness indicate the check was "cold" and had never been paid. Cornelius questioned the witness as to whether or not charges had been filed against him for passing the instrument. Nessmith replied "I do not know."

The check in question, so the defense contends, was given Snowden, in payment for gasoline and oil. Both agree as to the amount and amount of change given the purchaser by Snowden.

Nessmith stated from the witness stand that he conferred with the county attorney before making the alleged purchase, suggesting that as a Texas ranger he was ready to assist in curbing bootlegging. The

The well will be completed at 2,330 feet in lime. It is in the southeast corner of section 13, block 33, township 2 south, T. & P. Ry. Co. survey. Simms No. 5-A, Coffee, in the southwest quarter of section 15, block 33, township 2 south, T. & P. Ry. ### STATE FINALS PENNANT IS TAKEN BY ATHENS CAGERS IN FINAL ROUND SATURDAY

Lamesa Boys Push Ahead In First Half, Only To Be Finally Overcome

AUSTIN.—The phenomenal playing of Hayden Mallory, flashy guard, inspired the Athens Hornets Saturday night to trounce the Lamesa Tornados, 28 to 22, and retain their Texas interscholastic leagues basketball championship.

In winning, the Hornets equaled the record set by Oak Cliff (Dallas) high school in 1923-24 when it won the state title two years in succession. The Hornets also gained the distinction of carrying away the championship five times. They won their first title in 1927.

The Hornets proved their scoring power when they came from behind to take the game after the fast-breaking, sharp-shooting Lamesa cagers had at one time gained a nine-point lead. Lamesa was leading at the end of the first half 13 to 7.

Then came the final two periods of play and Athens' sensational drive to victory by the decisive margin of six points. By the end of the third period, the Hornets, hitting the basket with deadly accuracy, were ahead, 21 to 18, and still going strong.

The Hornets bewildered Lamesa with their bullet passing, their fast-breaking offense that led to easy pot shots from under the basket, and their close guarding when Lamesa had the ball. With three minutes left to play the Hornets had swept ahead with a lead of eight points. Lamesa trimmed this down by making two points in the last minute before the gun.

Through it all, the playing of Hayden Mallory stood out as the deciding factor in the Hornets' victory. His passing, guarding dribbling and finally, his shooting of five field goals were the high points of the game.

Next to Mallory in spectacular performing was Olin Cobb an all-state forward, who broke loose to score four field goals and five free shots for a 13-point total.

Jude Smith stood out for Lamesa with his excellent playing. He shot three field goals and four free shots to account for ten of his team's points and his floor game was exceptionally good, especially his guarding. He was high score man for Lamesa.

Jimmy Britt all-state forward for Lamesa, flashed about the floor but he was unable to score a field goal. The close guarding of Gaston Johns was responsible for his being held in check.

Lamesa reached the finals by an afternoon victory over Thomas Jefferson high school of San Antonio, 32 to 22. Athens advanced by virtue of a 17 to 12 win over Denton high.

In the play-off for third and fourth places in the tournament, Thomas Jefferson cinched third by defeating Denton, 35 to 15.

### Questions And Answers Having Bearing On Acres Rented To Federal Government

Every day the question is asked, "Who is going to come out and measure off the acres I am renting to the AAA?" Or "When is the committee coming around to survey the acres I am renting to the AAA?" Or "What kind of land shall I see aside for my rented acres?"

The answers to these questions are as follows: The farmer is to measure his own land. He should measure the rented acres so as to be sure that there is the true and exact number of acres set aside that he has contracted to take out of cotton production in 1934. He should also measure off the land that is to be planted in cotton to be sure that there is not more than the number of acres planted to cotton that he agrees to in his contract. As to when the committeemen will be around to survey or measure the land the answer is "Not now." We do not know when. But we do know that the land will be inspected after July 1st, 1934, to see that all the provisions of the contract are being fulfilled. Question 3 is answered by "The rented acres shall be a fair average in productivity of the cotton land. The rented acres shall not be washed, gullied or eroded areas. They must represent the average of the farm."

It is suggested by the county committee and the county agent that every farmer should place a post on each corner of the rented acres, and along each side stakes should be set at intervals of about every 100 yards. These stakes need not be very large, but should be well set so as they can not be easily destroyed or removed from the ground.

Read the Ads before they buy

Because they have discovered that it saves time, energy, and most important of all—money. In the realm of home management and individual buying in general the advertisements act as a market guide . . . a guide not only as to where to buy and what price to pay but often as a guide as to what to buy. Many things that make life more enjoyable and comfortable are first discovered in the ads and then later repurchased through the ads. Many things that save on the family budget are discovered when the home-maker has learned to find the news of what's new by watching the advertisements. THAT'S WHY THREE OUT OF FOUR READ BEFORE THEY BUY.

Misrepresentation' Charged By National Legion Chief In Address At Sweetwater

SWEETWATER.—If the people who are trying to tell about veterans' costs would drop misrepresentation and give a true estimate of what the American Legion advocates, the country would know that it would be less than what any of the other major countries spend in the care of their war-disabled, Edward A. Hayes, national commander, said in an address here.

"We cannot turn our backs on the disabled," he said, "just because of the misleading and false statements by the organized opposition, which includes the \$15,000 a year director of the National Economy League, and Gen. Frank T. Hines, administrator of veterans' affairs."

The national commander said the usual false conclusion is based upon figures that represent money and the disabled, and when the figures are wrong, the conclusion invariably is unfair. He cited a recent instance of a woman writer professing to show that the money expended by the United States on behalf of World War veterans is more than that spent by France, Germany and the United Kingdom.

"The fault here lies in the fact that this woman writer either intentionally or ignorantly included the pensions of every war in which the United States has ever fought, in the total as that being expended on World War veterans, alone. It is typical of the many errors and false conclusions," he said.

Mr. Hayes said the Legion will continue to seek restoration by legislation, not regulation, of benefits taken away for service connected disabled veterans under the Economy Act. "There can be no political consideration on the part of your national commander in this," he said.

"You gave me certain orders in the national convention at Chicago, and you gave them to yourselves as well. If anyone thinks there is any politics involved in the subject of taking care of our country's disabled veterans, I advise him to read this statement in the Congressional Record of January 21, quoting Mrs. Isabella Greenway, congresswoman from Arizona who incidentally was present at the wedding of the President of the United States:

TENANT FARMER BENEFITS UNDER NEW RULING GIVEN ON ACRE CURB CONTRACTS

Agreements Contrary To The Original Document Not Allowed, Cobb Says

There are certain conditions under which the recently endorsed acreage contracts will be voided, C. A. Cobb, chief of the cotton production section of the agricultural adjustment administration at Washington, outlines in statement received by The Record Monday.

No contracts signed by either a landlord or tenant will be accepted if it appears there exists an agreement of any kind made either before or after the signing of the contract, if such an agreement would have any of the following effects, Cobb outlines.

To cause or obligate either landlord or tenant to pay to the other his share of any benefit payments under the contract. To change the status of any tenant for 1934, whether the tenant rents for cash or a share of the crop, or for the purpose of causing the contract to be signed by the landlord as producer in order to deprive the tenant of any part of the payments of any other right or privilege. To reduce the tenant's proportionate share of the crops raised on that part of the farm not rented to the Government.

Dangers Of Flying Kites Recited Here By Utility Official

The dangers of flying kites in the vicinity of electric wires was explained today by officials of the Texas Electric Service Company, who are appealing to parents to warn youthful kite-flyers to keep away from wires.

"Several fatal accidents already have occurred this spring as a result of boys flying kites too near electric wires," according to Lon G. Geer, district manager of the electric company and we want to impress on parents and children the dangers of letting kites and kite strings come in contact with wires.

"Whenever kites become entangled in electric wires, don't climb poles or use long sticks to remove it. Call the company and a lineman will be sent to get it down, if possible. Another wise precaution is not to fly kites during a rain, as a wet string is almost as dangerous as a wire should it come in contact with an electric line. Kites with metal frames, or wood frames, braided with wire, should not be used.

Planning Ahead, Slogan Advocated By Ben Baskin, County Farm Demonstrator

Now is the time for planning ahead if a filled pantry and more stable bank account would be anticipated later, is the advice of Ben J. Baskin, county farm agent. In an open letter addressed to the farmers Baskin says:

Now is the time to be planning ahead as to how to use the acres rented by the government and being taken out of cotton production in 1934 and 1935. Plan to use the acres in such manner as will produce sufficient food for the family—plan to get a variety as well as abundance. Plan the garden so that many different vegetables will be gathered, and vary the planting dates so that all of any one vegetable will not be ready for consumption and canning at one time.

"Broadway Through A Keyhole" Thursday and Friday

At last, here is your chance to see Walter Winchell's famous story, "Broadway Through A Keyhole," now presented for the first time as a motion picture. It takes the cork out of the bottle of Broadway night life and shows you just what makes the wheels go round. No one knows the romance, drama, and heart throbs beneath the glamorous exterior of Broadway's glistening show as does Walter. It's been sort of a lifetime job with him—seeing it and telling all. Incidentally this is the story which caused all the trouble between Walter and Al Johnson, climaxed a few months ago by an exchange of lefts and rights.

"Heroes For Sale"

Tuesday and Wednesday

In this headline-inspired story is a melodramatic study of a certain phase of post-war American history. It is told through the career of an ex-soldier and his associates. Drama, romance, tragedy, pathos, human interest and grim comedy are there. Authentic fact has been combined with imaginative fiction in developing the plot. Here is a denouement of what has happened to thousands of 1917-18's heroes. It vividly bears out many of the contentions that have been advanced on the platform and pulpit as well as in the press. Men and women may find much in it to both impress and depress them. The cast includes such sterling players as Richard Barthelmess, Loretta Young and, Gordon Westcott.

"Hold The Press"

Saturday—March 17

"Hold The Press." This is a thrilling story of a lone newspaper reporter's stand against the underworld. He defies gangland to get his story—a story important enough to hold the presses, and that's saying plenty. Here you see Tim McCoy at his very best, with thrills and action galore. Shirley Grey has the feminine lead.

"Roman Scandals"

Sunday and Monday

"Roman Scandals." Samuel Goldwyn, famous producer, spread himself with a lavish hand in turning out this smash musical starring Eddie Cantor. The story begins in a small modern village called West Rome and then switches to a dramatic sequence in ancient Rome, with Eddie figuring in a series of hilarious gags. It's crowded with laughs, gorgeous girls, elaborate sets, and several hit tunes introduced logically and built up with clever, original production effects. The picture builds to a smash ending consisting of an exciting chariot race replete with spills and thrills. Romance is carried by Gloria Stuart as a captive princess and David Manners as a champion of the people. It's grand

Clint Johnson, San Angelo Pioneer, Is Given Funeral Rites

SAN ANGELO.—W. Clint Johnson, 75, who came to West Texas when San Angelo consisted of a few mud houses on the opposite bank of the river from Fort Concho, died suddenly at his home here Friday morning. He had been in ill health for two years.

Johnson was a vice-president of the Central National bank, the largest financial institution between Ft. Worth and El Paso and one of the large property owners of this part of the state.

Coming to San Angelo in 1879 from Paris, Tenn., he worked on ranches, drove a stage coach, was chain man for a surveying gang and clerked in a store. In all these capacities he managed to save money from his meager salary, most of the time from \$20 to \$30 per month.

ALL PRINCIPALS AND HIGH SCHOOL COACH REELECTED FOR ANOTHER YEAR TERM

Teaching Staff Be Considered By Board Later; Trustee Election Is Called

Principals at the four schools attended by white students were re-elected for another year at meeting of the board of trustees Tuesday night.

R. H. Cantrill, director of athletics in high school, was also retained for another year.

Election of the schools teaching staff will be considered at a later executive board meeting, probably in April, John E. Watson, superintendent, stated Wednesday morning.

Principal C. A. Wilkins of high school is concluding his ninth consecutive year in the local system and his election for another year means ten years of continuous association.

All of the other directing teachers elected Tuesday night have had from five to eight years in the schools.

Hays Holman, principal at junior high, was reelected for his sixth consecutive year. Miss Yandell Daniels, principal at Hutchinson school, too, has had five years association with the system and was retained for her sixth year, as was Miss Laura Martin, principal at the Coleman building.

"Big Jim," Wolf mentor, has had eight years identification with Colorado high school and athletic activities of the institution. He reelection is for the ninth year.

The board called for annual trustee election to be held on April 7 to fill two vacancies. Places held by J. W. Watson, president, and J. M. Doss, are to expire at that time. John Deffenbach was named judge of the election.

It is gratifying to note that a number of our teachers have been identified with the schools through sev-

'CHAMPION' GOLF GAME PLANNED BY IRISH PRO WILL BE STAGED SOON

Rev. Dick O'Brien, characteristic Irish pro in local golf circles, Friday announced that a "championship" 18-hole contest was to be staged within the near future with Joe H. Smoot, Colorado banker, and Rev. Cal. C. Wright, pastor of First Methodist church, as the contenders.

"I have advanced plans for this match after playing golf with both of the gentlemen named," Rev. Mr. O'Brien stated. "Championship pennant is to be awarded in an unusual aspect in that the contender making poorest record will receive the prize," the promoter explained.

Date for the contest remains to be announced.

eral years," Watson stated. "I have learned through observation that as a rule the longer a teacher remains with a certain school the better is he or she equipped to render effective leadership in the class room."

GREATEST MEMBERSHIP IN HISTORY IS GOAL SET BY LEGION POST COMMANDER

Eighty-Three Ex-Service Men Already Enrolled; 100 Is Mark Announced

Oran C. Hooker Post, American Legion, is out to reach a new high record in active membership, with not less than 100 ex-service men of Mitchell county enrolled, J. T. Howell, post commander, announced Monday. At that time eighty three men were listed on member roster.

A few years ago the post built its active membership to 94. Members of the post and women's auxiliary were convened in joint session Friday night of last week. Both organizations were well represented and a program of mutual interest was observed.

That local Legionaires are interested in cooperating with the Lions Club in annual district convention here next month was demonstrated when use of the building was offered for whatever purpose it might be used. "We voted unanimously to extend facilities of the building to our friends, the Lions, and were happy to do so," Commander Howell declared.

Report brought to the meeting by officials of the post indicated that annual good citizenship contest being sponsored at junior high school continues to hold strong interest among the students and faculty members. An award is to be made to the boy and girl in seventh grade making highest record on a five point Americanism contest.

The Rev. Cal C. Wright, pastor of First Methodist church, is to deliver the next chapel address to the students on this popular contest. He will speak on the morning of Tuesday, March 20. Members of both the seventh and sixth grades are being invited to hear these talks. Parents of the students are invited, Howell said.

After adjournment of the business session refreshments of coffee and cake was served by ladies of the auxiliary. The social feature was enjoyed by all present, it was pointed out.

Plans for several tables for forty two and bridge are being mapped to feature joint meeting of the two organizations on April 13. Members of the organizations will be requested to bring tables, cards and dominos. Members of Musicians Post 333 of Sweetwater have accepted invitation to attend and are to furnish a musical program. Light refreshments will be served.

In a message to members of the Post, Commander Howell said: "Boys, do not forget that we are within only 12 of realizing the greatest membership in history of the post. Let us determine to go over the top by our April meeting! Ever ex-service man in the county is cordially invited to our meetings, whether or not he carries a membership card. We believe your attendance a few times will so impress that you will call for such a card."

The eight new Lions were presented the membership in an address by Rev. Cal C. Wright. Included in the number were G. A. Cole, M. C. Hill, Ben Smith, R. J. Wallace, Roy Dozier, John Hale, Dr. H. Lindley and Albert Taylor. Those voted membership were Raymond Gary, Jeff Curry, W. T. Benton and Frank Mackey. Applications from three prospective Lions were passed after the first reading.

Featuring the entertainment program was tap dancing by Little Miss Bebe Boon, with Miss Elverie Sorrels and Rev. Dick O'Brien playing the piano accompaniment. One of the numbers given was dedicated to Coach Jim Cantrill of the Wolves. A total of seventy five active members answered to roll call. It was noted that some absentees were detained at their homes due to illness.

JIM GREENE HONORED AS FIRST MASTER KEY LION IN LOCAL SERVICE CLUB

To Jim Greene, charter member of the Colorado Lions Club and ever aggressive in programs of the organization since founded twelve years ago, has come the honor of being the club's first Master Lion. Announcement was made Friday by Joe Pond, past president, that Greene had been recently registered as a Master Key Lion by Lions International. CONVENTION PLANS TAKING DEFINITE FORM AS LOCAL COMMITTEES PUSH EFFORT

Mills And Co-Workers Well Pleased Over Outlook For April Meeting

Plans for entertaining annual District 2-T Lions International convention April 23 and 24th are assuming definite form in good order, officials and committee chairman working with President Joe B. Mills of the host club stated Monday. Cooperation coming to the Lions Club from other organizations and individuals outside the service club is most gratifying, it was stated.

Joe Pond, convention chairman, continues to hold to statement made several days ago that attendance would register one of the largest, if not the largest, figure in history of the district. The Plainview Club will come to Colorado one hundred percent, according to information received from the club in that Panhandle city.

"It is certainly pleasing to note the unity of purpose that dominates every individual member of the Lions Club as we move ahead with plans for the convention," Mills declared. "Such cooperation can mean only one thing—a meeting of service clubs from over West Texas that should inspire every delegate attending. That is the goal set by our organization and we are going to realize that lofty ambition."

LOCAL LEGIONAIRE WAS LEADER IN PLANS THAT BROUGHT COMMANDER

Hall DeGarmo, commander of Musicians Post No. 333, American Legion, having membership at Colorado, Loraine and Sweetwater, was among leaders who influenced National Commander Edward Hayes of Chicago to visit Sweetwater recently. It was the first time since organization of the Legion that a National commander had visited in this part of the State and Hayes made only five stops in Texas.

Several ex-service men, including DeGarmo and Commander John Howell of the local post, were in Sweetwater to hear address of the National leader. Roy Dozier, Joe Frasier, Ralph Lee, George Mahon, and A. C. Connell were others to attend the meeting from Colorado.

"This outstanding post is to be congratulated in inducing Commander Hayes to visit this section and Legionaires in particular should take their hats off to Hall and his gang of musicians for this good piece of Americanism."

BANKHEAD COTTON BILL IS ATTACKED BY WTCC HEAD AS UNFAIR WEST TEXANS

Cline Appeals That Changes Be Written As Affecting Planters This Area

While the Bankhead bill for compulsory cotton production was being debated Saturday night in the house at Washington, the West Texas Chamber of Commerce was calling on its affiliates, 178 town directors, to protest provisions in the bill, which it claimed, make it impossible for West Texas to secure credit on county allotments for sub-normal production years.

This matter was laid before the directors in a news letter from Walter D. Cline, W. T. C. C. president, issued from the Stamford headquarters office. Cline said:

"Basing of the cotton control for our counties upon a five-year average results in a penalty to cotton producing counties of West Texas of at least 150,000 bales per year; this, because of the fact that our 1929 and 1930 years were severely sub-normal years."

"The five-year average for West Texas in the period provided in the bill, to-wit 1929-1933 inclusive shows at least 18 per cent less production than in the previous five years, while the United States as a whole shows less than five per cent less production."

TO MR. COFFMAN
Here's to Mr. Coffman the pride of the town,
For his basketball coaching
And his fiery red crown.
He coaches his girls with such basketball knowledge
That you'd think that basketball
Was his major in college.
Because of his fine coaching
Before every meet
The Colorado lasses have never
Been beat,
So he walks down the street
With his chest expanded,

While the praise of his team Cannot be reprimanded.
As a coach, "Pinky" makes Only one mistake,
Which is coaching from the Side line for his girl's sake.
He yells, "Get under the basket And pass that ball,"
And one time such words, Nearly brought on a brawl.
But as a coach he can't be beat.
And among the best he deserves a seat.
So to Mr. Coffman we can Truthfully say,
He is the best we've had in Many a day.

FUTURE FARMER BOYS VISIT STOCK SHOW
On Friday afternoon, March 9, about twenty five Future Farmers, accompanied by Doyle Williams, left for Ft. Worth Fat Stock Show. When we left Colorado all the boys were in very high spirits, but by the time we arrived at Albany much of this high spirit had vanished.
At Albany all of the boys refreshed themselves with (not beer) but with the old bystander, soda water. All the way from Colorado to Fort Worth Joe Blackard was busily occupied giving Mr. Williams his ideas in regard to the courtship of beautiful women, which will appear as a book, "Highlights of Successful Courtship," after a few weeks.

On approaching Ft. Worth, our spirits began to rise again and we began to sing and yell like Indians. We arrived at Ft. Worth at 7 o'clock and after mooring the bus, ended our journey by registering in a hotel. After resting a few minutes we scattered in various directions to dinner, part of us going to the "Siebold" the famous eating place of Fort Worth. Jack Morrison, the rich boy of the group, ordered a dollar and a half beef steak, but after eating ferociously for an hour barely got on the outside of it, much to his great surprise. After eating, most of the boys went to various movies. Most of us finally went to bed about 11 o'clock.

We arose the next morning about seven and after eating breakfast we got on a street car (one of them that galloping box-cars) for the stockyards. After purchasing Future Farmer caps and rodeo tickets at the Stock show entrance, part of us went into the Stock Show grounds while Mr. Williams took his meat identifying team to the meat identification contest given by Armour and Company. The rest of us spent our time looking at the fat steers, dairy cattle, poultry, automobiles, and various other exhibits on the grounds. At the automobile exhibit all the boys became engaged in an argument as to which was the front and back of some of the new 1934 streamlined automobiles.

About 11 o'clock Mr. Williams settled this argument and took us through the Armour and Company packing house which we thoroughly enjoyed. After lunch all of the Future Farmers that were there had to engage in a parade, led by the Future Farmer band, through the arena. There were about 2570 F. F. A. boys present and all had on F. F. A. caps. After the parade all the boys enjoyed a rodeo in the arena. After the rodeo we made our way back to the hotel by street car, arriving at our hotel very tired and hungry. On arriving we discovered that Anthony Nowell, our heaviest comrade was missing. After waiting an hour and a half Anthony walked in puffing at the utmost. On asking him where he had been he told us that he had walked all the way back from the stock yards (about 5 miles) to see the city of Ft. Worth. We were forced to believe him about seeing the city of Ft. Worth for his tonsils were very sunburned and his neck very sore from looking at tall buildings but the real reason for his walking back was because he did not know what street car to take.
At this time we heard the final report of our meat identifying team. They had won sixth place with Breckenridge first. After dinner most of the boys went to the Worth theater where they enjoyed the best show that any of them had ever seen. As Mr. Williams had gone to Granberry that night we did not go to bed until 2 o'clock for we were busily occupied as on-lookers of a dance that was going on in the beer shop of the hotel. The next morning we arose about 10:30 and after fooling around a little we left for Colorado.
On the trip home we seemed an altogether different set of boys for everyone was tired and gloomily looking forward to a blue Monday in

a dead school cell. We arrived at Colorado about 7:30 Sunday night feeling that a very successful trip had been enjoyed.

"A LITTLE POWDER AND A LITTLE PAINT, WILL MAKE A LADY WHAT SHE AIN'T"
So some people say and others think.

Powder and paint are perfectly all right in their places, but when they are used in too large quantities and very artistically applied, they become unattractive. Every girl will admit that there is such a thing as putting on too much, but there are such few who will agree to wear none at all.
And again there are the boys and men who delight in "raising heck" over cosmetics. However, girls are not the only ones who wear such stuff and look silly. Have you ever noticed powder and rouge making the smooth white shirt collars and tan of many countenances look like a rainbow, or some such creature? How embarrassing it must be for a boy to walk in with rosy cheeks and ruby lips and find his mother waiting up for him.

How many homes have been broken up by the fact that the woman had "that painted look," or that the lady's face had just emerged from the flour barrel. Some people seem to think that lipstick has been misnamed because the red goes wrong stick. It is always coming off on the coffee cup or napkin to the disgust of hostesses.
Kiss-proof lipstick seems to be very popular, is it worthy of its name? We wonder. Powder and paint occupy their places, and others place too, as far as that goes—but BE CAREFUL HOW AND WHERE YOU APPLY YOUR POWDER AND PAINT.

EDITORIAL
One of the best statements Emerson ever made was: "Life is not so short but there is always time for courtesy." It certainly is true.
The highest degree of courtesy should be found and applied every moment of a person's life. This element should always exist between parents, teachers, older people, and above all, in the association of boys and girls. This one thing is often neglected in daily life and it is really there that it should be used more, for it does much to create peace and a comfortable atmosphere.

What is courtesy anyway? Is it some cut and dried economy? Must one be stiff and boring to be courteous?
No, courtesy is not these things. It is merely the kindest way of putting your thoughts into words. It is the "nice" way of doing or saying things for your friends.

Courtesy is the best policy to follow in obtaining and retaining friendship.

DEBATERS READY FOR COUNTY MEET
The debate teams of Colorado high school will go into the county elimination contest with quite a bit of experience behind them. The first debates of the year were held on December 8 in Lubbock, and debates have been scheduled as often as possible since that date.

Both teams started out without any experience whatever, and consequently many of their contests must be charged up to experience rather than victory. Both teams have shown considerable improvement in the last few weeks and a taste of victory has added much zest to their efforts. The girls defeated a team from Breckenridge and a team from Brownwood in a recent meet in Abilene. The Brownwood team had won an invitation tournament in that city the previous week. The girls team is made up of Opal Alexander and Lillian Shurtliff.

The boys have had sixteen debates and have been the winner in nine of them. The team is composed of Joe Alford and Harvey Baker. They have been doing a much higher type debating for the past two weeks, and show promise of making a good showing in the official interscholastic league contest, which will begin this week.
The work of both teams is to be commended in view of the fact that they started without any experience whatever and have been handicapped with not having a specific time in which all could meet together and practice.

VOCATIONAL DEPARTMENT
Mable Majors who is on the high school contest typing team made one of the highest averages this month.
We want Miss Cooper to know that her vocational pupils were certainly rooting for her at the ball game the other night. If all the pupils were not there it was because they could not walk in the sandstorm. Miss Cooper says that her only regret for her team not winning the game was, that she heard a grammar school child on the sideline remark, "I know the teachers will win, because they have been to college."

We hear that every time Mrs. Clarence Cook doesn't get to the grammar school for her little boy at a certain time, the little boy remarks, "Aw, Miss Cooper is keeping my mother in again."

Coach Clarence Spears of Wisconsin says: "Ma' Edward, assistant to Noble Kizer at Purdue and a Notre Dame graduate, is the best line coach in football."

DISTRESS AFTER MEALS
Relieved By Black-Draught

It relieved me of this trouble. I keep it all the time now. I consider it a fine medicine. I take a pinch of Black-Draught after meals when I need it. It helps to prevent sick headache and to keep the system in good order."

Sweet mother of mine
For never was Mother's love
Greater than thine
And no heart in the wide
World-was ever more true
Than the one which now
Fills with remembrance of you.

Not more of an angel in heaven above
Can you be than you were
To my childhood's great love;
And I've felt your dear
Presence through perilous years
Breathing pity and pardon
And wiping my tears."

How This Bank SAFEGUARDS Your Deposits
Since January first this bank has been a member of the Federal Deposit Insurance Corporation. This means that we have been—and are now—actively participating in the temporary plan for the guaranty of bank deposits as authorized by Congress in the Banking Act of 1933.
It means specifically that any and all deposits in this bank up to \$2500 are guaranteed in full against loss.
We support and support heartily this plan as a part of the Emergency Program for National Recovery. It has already restored public confidence in banking institutions.
But as a permanent restorative of that public confidence nothing can ever take the place of Sound Banking Management directed to the Benefit of Depositor, Customer and Stockholder alike.
Sound Management enable this bank to weather the severe four year national crisis. And it is because of Sound Management that this bank will continue to safeguard its Depositors in 1934.

A STRANGE BOOK

I have just finished reading a 534-page book, one of the new books just off the press written by Dr. Alex Munthe, physician, who had a large practice in Paris and London. Its a strange book to say the least about it. Here follows a chapter of its strangeness:

"The Little Sisters of the Poor are toiling from morning till night at their work. The most useful and the most ungrateful form of charity I know of. You need not come to Paris to find them, poverty and old age are all over the world and so are the Little Sisters of the Poor with their empty hamper and their empty moneybox. Do put your suit of old clothes in their hamper, never mind your size, all sizes will do for the Little Sisters of the Poor. Top hats are getting out of fashion, your hat as well. There will always be in their wards an old Monsieur Alphonse, hidden behind a pair of blue curtains, brushing his broken down top hat, the last vestige of bygone prosperity. Do send him on his way out for a joyride down the Corso in your smart Victoria. It is much better for your liver to go for a long walk in the campagna with your dog. Do invite him to luncheon next Thursday, there is no better stimulant for his appetite than to watch a hungry man having his fill. Give him his glass of wine to help him forget but put the decanter away when he begins to remember.

Do put some of your savings in the Little Sister's moneybox, even a penny will do, believe me you never made a safer investment. Remember the old adage: "What you keep to yourself you lose, what you give away you keep forever." Besides you have no right to keep this money to yourself, it does not belong to you. Money belongs to nobody up here. All money belongs to the Devil who sits at his counter night and day behind his sacks of gold trading with human souls. Do not hold on too long to the dirty gold he puts into your hand, get rid of it as soon as you can or the cursed metal will soon burn your fingers, penetrate into your blood, blind your eyes, infect your thoughts and harden your heart. Put it into the moneybox of the Little Sisters, or throw the damned stuff into the nearest gutter. It is the very plague for it. What is the good of hoarding your money, it will soon be taken from you in any case. Death has another key to your safe.

The gods sell all things at a fair price, said an old poet. He might have added that they sell their best goods at the cheapest rate. All that is really useful to us can be bought for little money, it is only the superfluous that is put up for sale at a high price. All that is really beautiful is not put up for sale at all but is offered us as a gift by the immortal gods. We are allowed to watch the sun rise and set, the clouds sailing along in the sky, the flocks and the fields, the glorious sea, all without spending a penny. The birds sing to us for nothing, the wild flowers we may pick as we are walking along by the roadside. There is no entrance fee to the grand ball of the night. The poor man sleeps better than the rich man. Simple food tastes in the long run better than food from Ritz. Contentment and peace of mind thrive better in a small country cottage than in the stately palace in a town. A few friends, a few books, indeed a very few, and a dog is all you need to have about you as long as you have yourself. But you should live in the country. The first town was planned by the Devil, that is why God wanted to destroy the tower of Babel.

Have you ever seen the Devil? I have. He was standing leaning his arms against the parapet of the tower of Notre Dame. His wings were folded, his head was resting in the palms of his hands. His cheeks were hollow, his tongue was protruding between his foul lips. Pensive and grave he looked down on Paris at his feet. Motionless and rigid as if he were of stone, he has been standing

there for nearly a thousand years gloating over the city of his choice as if he could not tear his eyes away from what he saw. Was this the arch fiend whose very name had filled me with awe since I was a child, the formidable champion of evil in the struggle between right and wrong?

I looked at him with surprise. I thought he looked far less wicked than I had imagined. I had seen worse faces than his. There was no glimmer of triumph in those stony eyes, he looked old and weary, weary of his easy victories, weary of his Hell.

Poor old Beelzebub. Maybe when all is said it is not altogether your fault when things go wrong up here in our world. After all it was not you who gave life to this world of ours, it was not you who let loose sorrow and death among men. You were born with wings and not with claws. It was God who turned you into a devil and hurled you to his hell to be the keeper of his damned. Surely you would not rain on the head of the tower of Notre Dame for a thousand years had you liked your job. I am sure it is not easy to be a devil for one who was born with wings. Prince of Darkness why don't you extinguish the fire in your subterranean kingdom and come up to settle amongst us in a big town, believe me the county is no place for you, as a private gentleman of means with nothing to do the whole day but eat and drink and hoard your money. Or if you must increase your capital and try your hand at some new congenial job, why don't you open another gambling hell in Monte Carlo or start a brothel or become a usurer to the poor or the proprietor of a travelling menagerie with defences wild animals starving behind their iron bars. Or if you want a change of air why don't you go to Germany and start another factory for your latest poison gas. Who but you could have directed their blind air raid over Naples and dropped their incendiary bomb on the home of the Little Sisters of the Poor among three hundred old men and women.

But will you allow me, in return for the advice I have given you, to ask you a question? Why do you put out your tongue like that? I do not know how it is looked upon in hell, but with all respect to you, amongst us it is looked upon as a sign of defiance and disrespect. Pardon me sir, at whom are you putting out your tongue the whole time?

Here Dr. Munthe pictured as having died and took his dog with him to Heaven and as he stood in the Judgement:

"A dog at the gates of Heaven roared Habakkuk, unclean beast." He is not an unclean beast. He was created by the same God who created you and me. You grim old prophets, so fierce and stalwart in holiness—have forgotten all about them, so did you Holy Apostles. Why did you omit in your Holy scriptures to record a single saying of our Lord in defence of our dumb brethren?

"The Holy Church to which I belonged on earth never took any interest in dogs, interrupted St. Anastasius, nor do we wish to hear anything about them in Heaven. Blasphemous fool, you had better think of your own soul, your own wicked soul about to return to the darkness from whence it came.

"My soul came from Heaven and not from the Hell you have let loose on earth. I do not believe in your Hell."

"The wrath of God is upon him. He is mad, he is mad.

"Lucifer! Lucifer! Lucifer, Satan is amongst us."

Moses rose from his seat, gigantic and fierce, his ten commandments in his sinewy hands. Let no more be said about this Spirit thundered Moses. The voice I have heard is a voice from the smoking lips of Satan. Man or demon, away from here! Jehovah, God of Israel, put forth Thy hand to smite him down. Burn his flesh and dry up the blood in his veins. Break all his bones. Cut him off from Heaven and earth and send him back to the Hell from whence he came. Moses sank down in his seat, letting fall his ten commandments.

"Always he the frail dreamer with his dog and his following of beggars and outcasts. So frail and yet strong enough to stay Thy avenging hand, O Lord. Art Thou then not Jehovah, the zealous God, who descended in fire and smoke on Mount Sinai and made the people of Israel tremble with awe? Was it not Thy anger that bade me stretch forth my avenging rod to smite every herb in the field and break every tree that all men and beasts should die? Was it not Thy voice that spake in my ten commandments? Who will fear the flash of Thy lightning, O Lord, if the thunder of Thy wrath can be silenced by a dog.

ELECTROLUX SALE OPENS AT COLORADO TODAY WITH GAS UTILITIES IN CHARGE

Many Desirable Features To Be Noted In 1934 Boxes, Chapman Outlines

"Gas" refrigeration, newest and most outstanding recent development in gas burning appliances, has materially altered the trend in automatic refrigeration sales in the past few months, according to M. O. Chapman, local gas company manager, who announced the beginning of the 1934 air-cooled Electrolux sales campaign today. Electrolux shipments to Texas in January were 3,000 per cent greater than for the same period last year, and February shipments were 50 per cent greater than January, he said.

Popularity of the gas refrigerator has spread rapidly since the new air-cooled type came on the market last spring and Mr. Chapman expects 1934 sales to outstrip 1933 because of the many desirable features found only in this new gas refrigeration. A tiny gas flame replaces and does the work of approximately 200 to 300 pounds of moving machinery necessary on other types of automatic refrigeration, eliminating wear and consequent repairs and replacements. It functions silently, and there is no vibration, no ice-cream oiling of parts, and no radio interference. Mr. Chapman pointed out. Operating cost, he said, is less than three cents a day. New 1934 features include interior lighting, rubber cube grids, and vegetable freshener.

The simplicity of operation which produces constant, steady cold is amazing to the layman and fascinating to technicians. Vaporized by the tiny gas flame, a refrigerating fluid absorbs and removes the heat from inside the refrigerator. This leaves the interior devoid of heat and brings the temperature below fifty degrees where it remains constantly.

**ARTHUR P. DUGGAN ENTERS CANDIDACY FOR CONGRESS FROM NEW 19TH DISTRICT**

Littlefield Man Calls For Reforms In Society And Tax Distribution

SENATOR ARTHUR P. DUGGAN

To the Citizens of the 19th Congressional District:

In announcing my candidacy for Congress in the new 19th Congressional District I am fully aware of the importance of that high office. Our country never needed serious, well balanced, real thinking, hard working Congressmen as it does now in this time of National readjustment and uncertainty. The prosperity of the people; yes, the very existence of our Nation, is in the hands of Congress. The more wisdom and experience the man you elect to this office possesses the better it will be for YOU personally and for each and every one of us.

Your Congressman certainly ought to know intimately your needs from close personal contact, be sympathetic with them, and be willing and able to actually strive to meet them. It is a fact that my life time spent in West Texas, my active and varied business, civic and Legislative experience in this district, for the past 30 years, and my association with all classes of the people have given me the best possible opportunity to learn their requirements. I state to you emphatically that no Congressman you can possibly elect will put more time on the job, study the entire situation more carefully, or work harder to SERVE YOU, the district and Country than I.

Here are a few of the things I am particularly interested in and that I would endeavor to accomplish:

**Protection of Home Ownership**  
The Homes of the Nation are its greatest asset and their preservation is of first importance. Fairer appraisals of our lands, valued according to production, will make the large majority of them eligible for Federal Land Bank Loans with low interest rates and easy terms. Similar consideration should be given in the matter of loans on urban homes through the Home Owners Loan Corporation.

**The Farm** is a manufacturing plant producing raw products such as meat, grain, cotton and wool. As such it is entitled to all special privileges, rates, concessions, tariffs, etc. granted the large manufacturing concerns of the country.

**Farm homes** are of more importance to the nation than Big Business of any kind.

**Urges Better Educational Facilities**  
Good schools are, and always have been, the bulwarks of American liberty and freedom. The making of good citizens of our boys and girls ranks next to the happy home as a National obligation. The Home Demonstration clubs of our country are not only solving the "live at home" program but are helping wonderfully in the improvement of homes and schools. The Federal Government should continue its support of all Extension work.

**The Texas Technological College** located in this Congressional District, should be made a Land Grant College. It is as much entitled to Federal support as any other College anywhere.

**Amend Federal Income Tax laws** so that Profiteers, Big Bankers and Investment Banks will have to pay their proper Income taxes. The very rich largely evade payment of taxes. The very poor pay no taxes at all and the tax burden, therefore, falls on the Middle Class—the COMMON PEOPLE—such as you and I. This ought to be changed and it can be with sufficient Representation.

**Solution of Crime Problem**  
Gangsters, Chislers, Racketeers and Profiteers certainly are a National problem today as well as a National disgrace. The cost of crime is estimated at some thirteen billion dollars annually which is more than the cost of the Federal Government with such emergency measures as RFC, AAA, CWA, PWA and all the balance thrown in. Crime should be punished adequately and quickly though it will never be stamped out until its source is sought and eliminated.

**Mother Mrs. W. N. Crosthwaite Died At Colorado Home**

Mrs. Mary Dawson, 77, mother of Mrs. W. N. Crosthwaite of Colorado, died Sunday night at 10 o'clock at her home in Colorado Springs, Colorado. Funeral services were conducted in Colorado Springs Tuesday afternoon.

Mrs. Crosthwaite left for Colorado Springs Friday afternoon after receiving message stating that her mother was seriously ill. She arrived at 7:30 Saturday night and was present when her parent died.

In addition to Mrs. Crosthwaite, two sons and another daughter survive, as follows: Mrs. Hamblin and John Dawson of Colorado Springs, and Charlie Dawson of Kentucky.

The proper instruction and education of our boys and girls in our homes and schools, WHEN VERY YOUNG, will prevent the making of criminals, solve the prohibition question, stop the divorce evil and preserve the sanctity of the Home.

"The Honest Dollar." I fully subscribe to the principle recently set forth by President Franklin D. Roosevelt when he said: "Those who have borrowed money should, on the average, be able to repay that money in the same kind of money which they borrowed." A proper parity should be ascertained between the value of the dollar and the price of commodity products, and be automatically maintained by law.

There are 334 lawyers and professional men in the present Congress, and only 24 farmers.

The framers of our Constitution thought that the safest and best laws are passed by Legislative bodies with their membership more equally distributed among all occupations.

During the very active campaign I expect to make for this office I will express myself on all National issues, and I will welcome the opportunity to become even better acquainted with you than I now am. This is your Government and you should help run it. Your suggestions and ideas will be appreciated.

Respectfully and earnestly asking for your consideration, influence and VOTE in the Democratic primaries next July, I am

Sincerely your friend,  
ARTHUR P. DUGGAN,  
State Senator 30th  
Senatorial District.

**LORAINE SCHOOL WILL BE IN BIG SPRING STRONG AS OIL BELT MEETING OPENS**

Band In New Uniforms To Be Among Feature Attractions At Teachers Gathering

The Loraine school will play a conspicuous part in meeting of the Oil Belt Education association, to open in Big Spring Friday for two days, according to Clyde Bennett, superintendent, who was a Colorado visitor Monday. Loraine's splendid band of 24 pieces will be offered as one of the major entertainment features for the sessions.

"We are going to Big Spring strong," Mr. Bennett stated. "I am confident that few, if any, teachers in the Loraine school will remain at home, a fact indicating our interest in the association and its program at Big Spring."

Loraine civic leaders have in mind to organize a service club of some kind within the near future, Mr. Bennett stated. "Our community is large enough to support such an organization and every consideration is in favor of such a club," he said.

**Announcing The Formation Of A FAMILY GROUP Whole Life Plan Of Insurance**

For several years now folks have been emeshed in a hysteria of clamor for economy. In striving to meet reduced incomes the public has lost its sense of proportion as to what is real economy. That tendency has been a trap into which many have been lured into letting their insurance protection lapse.

Under the 'New Deal' the pendulum now swing back and folks begin to realize that it is necessary to look forward to the future. With the future financial protection of your family in mind, the Colorado Mutual Aid Association has framed what is termed a 'Family Group Whole Life Plan of Insurance.' Our plan has been submitted to and received the authority of the State Department of Insurance to be effective immediately. The rates are based upon the American Table of Mortality and men, women and children are protected with the issuance of a single policy . . . . . This is one of the most sensible plans of family insurance ever devised and you are invited to see our representative today and have its provisions more thoroughly explained.

**EXAMPLE**

Here is how a group policy for a family of six would apply:

|         |         |       |     |
|---------|---------|-------|-----|
| Husband | 40 yrs. | \$500 | 80¢ |
| Wife    | 35 yrs. | \$500 | 68¢ |
| Child   | 9 yrs.  | \$250 | 23¢ |
| Child   | 7 yrs.  | \$250 | 23¢ |
| Child   | 1 yr.   | \$200 | 23¢ |

Total Monthly Payment \$2.40

It Will Pay You to Investigate This Plan of Insurance

## WHAT A.T.&T. means to your telephone service

The men and women who furnish your telephone service here could not do their job so well without the help of American Telephone and Telegraph Company, parent organization of the Bell System.

If a better way of doing a job gives better telephone service on the Pacific Coast, it may work equally well in the cities and towns of this state.

Staff experts of American Telephone and Telegraph Company, parent company of the Bell System, search constantly for these economies and improvements... test them... study them. The perfected result is offered to aid the 24 Bell operating companies... of which the Southwestern Company is one... give a nation-wide telephone service, uniformly good, at a fair price.

This is a fundamental policy of the Bell System. It is based upon the belief that what is best for the telephone user is in the end the policy that will bring us the surer, more enduring measure of success.

 Some of the essays based upon this subject follow:

**My Ambition**  
 I should like to be a poet and a writer of songs and I am now trying to develop my mind for such work by studying English and writing a few poems and songs. Some of them are: "Night," "A Happy Boy," "Memories of the Past," "Dishes to Wash," and "The Sparrow on the Roof." Also, I am studying words which are synonyms, etc.

I think a successful poet or song writer is of great help to the world; they bring joy and beauty from all parts of the earth.  
 In high school I will take typing and English, and each of these will help very much.  
 Poets usually get a good price for their poems.  
 By BLANCHIE BESS JONES.

**My Ambition**  
 I have many ambitions, but I think my greatest ambition is to be a singer. I think that a person who sings well is more or less popular in all places. A person who sings well is always being called upon to sing at church, teas, banquets, parties, and many other places. If a person sings beautifully there are always being nice things said about him. When he is seen, an onlooker might say, "Yonder goes that person that sang that beautiful solo over the radio." Or he might say, "I would like to meet that person and get acquainted with him." He probably wants to become acquainted with the person because he seems so popular and because he sings so well. In this way we make friends.  
 I am striving toward being a singer some day. One way I am doing this is by trying to train my voice now. That is, I do not reach notes in my singing that make me strain my voice to do it. I sing where it is easy for me. This will help my voice when I am older.  
 I think that singers are helping very much to make this world happier and brighter for everyone. When one hears a person singing a beautiful melody it seems to take part of his burden from him and it seems to just make him feel happier. This is especially true when the person who is singing sings it as if he means what he is saying in his song. For all of these reasons I want to be a singer and try to make the world brighter for other people as well as for myself.  
 By BIRDIE MCCRELESS.

**My Ambition**  
 I should like to be a child psychologist when I grow up. I think I should like to be this because it is very interesting. One who studies children is pleasant to be around. He can be friends of all children, because he knows what it takes to please them. He knows what games children of certain ages play and he can join in with their play without acting clumsy or grown-up. He is liked by many people. If one knows the habits of children, he can rear his own to be the right kind of men and women.  
 At the present I am not doing anything to become a psychologist. I should like to take psychology when I finish high school. I should like to go to more than one school if possible. I shall do my best to get the best of courses.  
 One who studies children is useful in many cases when children are hard to understand. I think that people could be better parents if they knew

their children better.  
 By SHIRLEY KIKER.

**My Ambition**  
 When I grow up I would like to be President of the United States of America. The reason I would like to be president is because he is a model for all boys, has many responsibilities, and has to be a great man to lead the nation. He has to be trustworthy of the office before he can make a good president. Another reason is because not everybody in the United States can be president. Only those born in this country can be president. He has to study the development of the country and figure out a way to help the people. He is the most popular man in the nation and the most powerful. If he makes a good president and the people like his work they will elect him again. If once in office, he will be remembered and loved forever. He receives a large sum of money each term. The people have given our present president wartime power. He has the power, with the consent of congress, to do almost anything he wants to do and thinks best for the people and for the country. The president has issued his NRA which means National Recovery Act. He is known in all the world and all the world looks to see what he is going to do.  
 By CLAUDE MORGAN.

**Dishes to Wash**  
 Every time my mother called me to wash the dishes I would say, "When I was small, I hated and I'd wash the dishes, but now I'd wash the dishes at night if I had kids of my own."  
 But since I am a bit older, they don't seem so bad. And at the pan I am bolder and I am never very sad. Till Mother is away  
 And I cry and wish to moan,  
 When Mother is gone for a day  
 And I am left at home alone.

### EQUIPMENT NEEDED NOW FOR CHILDRENS NURSERY

Mrs. C. P. Gary from the women's clubs, came to visit the nursery. We hope that others will be interested enough in what they have learned to visit us and see how we carry on our work. Mrs. Gary reported that the club ladies selected strong chairs and sent the order off for them the next day.

That is showing the right spirit. We need things NOW. We certainly appreciate the spirit of cooperation. When these chairs get here we hope to be able to get the men's clubs to have our equipment painted for us, for surely the men are as much interested in the children of Colorado and not only this nursery but a permanent one in connection with the school, as the women are.

Since the last writing, we have had nine new enrollments in the nursery and eight more have already promised to come Wednesday. There's always room for more however so come and enroll.

A general tightening of body bolts, spring shackles and engine bolts will do away with many bothersome noises and raise your opinion of your car.

The Bauman Play Ground ball teams didn't get very far at Colorado last Saturday. The junior boys were defeated in the first round by Valley View with a score of 12 and 11. The junior girls got to play twice. In the first game the Bauman girls won over the girls from Little Sulphur. In the next game the Hyman girls defeated Bauman with a score of 9 to 6.

16 pupils were vaccinated at Bauman last Monday afternoon by Dr. W. L. Hester. 10 of them for Diptheria and the other 6 Typhoid fever. This makes a total of 60 children in the Bauman community that have taken the lifetime serum for Diptheria. This community should not be in any danger from a Diptheria epidemic. If all the parents could just realize the importance of the Diptheria vaccination and let their children take it, the disease would soon be stamped out. The cost is so little and the benefit so great to the child.

Mr. and Mrs. Dee Finch from Longfellow and Mr. Robert Bankhead and family from Champion visited in the home of Mr. C. H. Bagwell last Sunday.

Mr. Hunter Looney is driving a new Ford V-8.

The music will start promptly at 7:30 and the curtain for the starting of the show will rise exactly at 8:00 P. M. The price is 10 and 15 cents.
