COLORADO MAN WILL LEAD FOR CONGRESS IF FRIENDS HERE WORK AGGRESSIVELY

Dawson County Safely Into Mahon Column, Result Of Visit There Monday

George Mahon, district attorney for the 32nd judicial district and candidate for congress from the 19th Texas district, comprising twenty-five counties in this section of the State, is going to win at the Democratic primary elections this Summer, on condition friends of the candidate continue to work aggressively in his behalf.

That was the declaration brought back to Colorado late Monday by a group of five Coloradans who spent that day meeting voters of Dawson who were in Lamesa to attend First Monday Trades Day celebration. Mr. Mahon, who accompanied the delegation to Lamesa, addressed several hundred voters there Monday afternoon.

"That the expedition directly brought several hundred voters into our camp is accepted as definite and from the influence of these new-made friends will be realized others," Judge C. C. Thompson, president of the Colorado George Mahon For Congress Club, declared Tuesday after conferences with those accompanying Mahon to Lamesa.

"But Dawson county is only one of the more than twenty counties in which the candidacy of Mr. Mahon must be carried directly to the people by his friends who know him best," Thompson stated. "There is much that must be done between now and the primary election date if we would assure success of this campaign. The 32nd judicial district is offering an outstanding man for this important place in the National congress and surely we should accept the opportunity for rendering a service to the people of West Texas we know they would appreciate."

Thompson stated that reports given him of the Lamesa campaign disclosed that scores of voters, largely farmers who had never seen Mr. Mahon before, crowded about him to pledge their support. "I did not know just who would get my vote in this race for congress, but since having seen and heard you, I want to say that I am for Mahon. Give me some cards to take home for distribution among my friends." That, in substance, was the statement given the candidate. At times it was

ALLRED FLAYS OPPONENTS IN ADDRESSES DELIVERED AT COLORADO AND SPADE

Position On Lobbying, Other Issues Discussed Here Thursday Morning

James V. Allred, attorney general and candidate for governor, delivered his second Mitchell county address at Spade Thursday at noon. Earlier in the day the candidate spoke for almost an hour from a truck at curb on Walnut street near the old Colorado National Bank building. He was introduced here by Judge C. C. Thompson, president of the chamber of commerce.

Allred flayed his opponents for governor, asserting they were going about over Texas talking about him. "I am not going to get down to their level, however, and make reply to some of the things they are saying about me? Such would be beneath the plane upon which a candidate for governor should come before the people," he said.

Allred attacked the public utility corporations, the sulphur interests and other corporations, charging they were unfair to the people. He charged that Texas was in grip of one of the most powerful and destructive lobby combined ever known in history.

The candidate made reference to his record as attorney general. He claimed that in one suit he had forced a Texas oil company to pay into the school fund of Texas more than \$1,300,000 in fines after conviction for an alleged violation of law.

Concluding his address here Mr. Allred drove immediately to Spade. He was introduced there by John E. Watson, superintendent of the Colorado schools. Good crowds heard him at both places.

Self support will be urged in so far as is possible to all applicants for further assistance. Green stated. His office will be following order recently received from Austin in this policy. Two Historic Families Of Colorado To Be Linked In Wedlock Here June 16th

A romance which reads like a page
from fiction will result in the union
of two families closely linked with
Colorado history for many years
when Miss Mary Dickson Smith and
Mr. Fred Rives Hutchinson are mar-
ried on the evening of Saturday
June 16, at the home of the bride's
parents, Mr. and Mrs. Jack Smith.

Reared within a block of each
other, Miss Smith and Mr. Hutchin-
son attended school together and
have been associated all their lives.
The home where the wedding will
take place is also the home where
Mr. Hutchinson was born, his par-
ents, H. L. Hutchinson and the late
Mrs. Hutchinson, having lived there
before the place was bought by Mr.
and Mrs. Smith.

The wedding will take place on
the silver wedding anniversary of
the bride's parents. Only close friends
and relatives of the families are to
be guests.

Announcement of the approach-
ing marriage was made last Satur-
day at a bridge luncheon given by
Mrs. Smith, mother of the bride, at
her home at 441 Vine Street.

Guests were twelve of Miss Smith's
most intimate friends, including two
sisters and one sister. The cousins
were Mrs. Ewell Hudson of Butler
Camp and Miss Elizabeth Looney of
Lorraine. Mrs. Charles Donaldson,
formerly of McCamey but recently
of Colorado, was the sister. Other
guests were Mrs. Harold Boney of
Merkel, Miss Beulah Ashford of Abi-
lene, Miss Ruth Byrd, Miss Kath-
erine Price, Miss A. Joe Blanks, Miss
Corinne Lupton, Miss Hettie Adel-
Hutchinson, and Mrs. Riggs Sher-
perd. Three other close friends of
the bride, Misses Nelle Harper

Greene, Virginia Stonerod, and
Mary Belle Brennam, were unable
to be present because they were out
of town, but the announcement was
revealed to them before they left.

The home was decorated with bas-
kets of larkspur in pink and blue,
which have been chosen by the bride
as her colors. Luncheon was served
immediately upon arrival of the
guests at a table centered with pink
rosebuds in blue vases. Place cards
were decorated with roses.

The first course consisted of fried
chicken, escalloped potatoes and
cheese, molded fruit salad, sliced to-
matos, olives, and hot biscuits.

With the second course of ice
cream molded in heart shapes and
decorated with candies, and white
cake with pink icing, came the an-
nouncement. Small tallies, with the
picture of a bride on them, were
passed to each guest with the best
sert plate, and on the face of the
tallies, printed in small letters, were
the words, "Married and Fred,
June 16, 1934."

Immediately on the reading of the
words the guests clamored for a
speech from the bride-to-be, and she
graciously told them that now her
secret was told, she thought it im-
portant that they should know her
life-long friends. She then invited
them that they were all invited to
the wedding and said that she had
planned a place for each of them to
fill.

The bridegroom followed. The
rosebuds were cut for table prizes,
being won by Mrs. Sheppard, Miss
Byrd, and Miss Lupton.

A number of pre-nuptial affairs
are planned for Miss Smith by her
friends.

Jones, Mrs. J. H. Carlock, Miss Mar-

of the class did this, five of them
going one Sunday and four another.

Accredited courses for churches,
such as the one just completed by
this group, are now worked out by

take the course with other churches
and have their credits transferred to

of Mrs. Mary D. Payne, formerly of
Colorado, to Mr. James Reginald
Ferguson of Florence, Alabama.

The wedding is to take place Tues-

School in Bolivar, Tennessee. . . . By
reason of her exquisite voice she has

won several scholarships through the
Tri-States Musical Journal, which
entitled her to study under the noted
instructor, Madame Tumanskaya. A
distinct honor came to her when she
was given an audition before W. Ros-
ing, director of the American Opera

Myra Moore. All during the cere-

Truly."

The bride's only attendants were

from Kansas City, who acted as flow-
er girl. Miss Williams was dressed
in white.

The bride wore a pastel blue
and a white lace picture hat,
carried pink rosebuds, as did

JACK ROBERTS ANNOUNCES CANDIDACY FOR ELECTION AS STATE REPRESENTATIVE

Sweetwater Attorney Issues Statement Outlining His Views On Issues

Upon the solicitation of friends, I herewith respectfully submit to the people of Mitchell, Nolan, and Fisher counties my candidacy for Representative of this District to the 44th Legislature.

As we stand in the shadows of a financial depression unparalleled in the memory of man I realize the necessity for immediate economic legislation, sound business administration, and sane political economies. The already overburdened land-owner cannot longer sustain himself under the ever increasing burden of taxation. It is high time that the ad valorem tax is supplanted by the more equitable levy of an income tax on the higher brackets of individual earning, and by an enhanced tax on the natural resources of this great commonwealth. This must be a government for a majority of the people rather than for a majority of the capital.

Duplication in governmental machinery and high costs of governmental operations must of necessity come to an end. I favor the consolidation of governmental agencies up to the point that further consolidation would mean a lack of efficiency.

The institutions of education that guarantee the preservation of this democracy must be perpetuated. I believe that the State owes an obligation to furnish every child, whether of urban parentage or of rural rearing, with a high school education, and I believe that emphasis should be placed upon this branch of learning rather than upon higher education.

I am convinced that the lobbying situation must receive the attention of the legislature. The history of the lobby is an unbecoming chapter in Texas politics. I would not deny the right of any man to voice his opinions to his government, but until the voice of the farmer, the voice of the small businessman, and the voice of the laborer is heard, the giant hand of monopolistic organizations must be controlled in its influence over the Texas legislature.

I further believe that public service corporations and other public utilities should be made the subject of stringent regulation in order that their past exploitation of the consuming public and the common people shall be brought to an end.

I do not stand upon any voluminous or platitudinous platform of the planks of which I realize for constitutional and other obstructive reasons would be impossible of enactment into the statutory laws. Rather, following a policy of exercising common sense and natural justice each problem arising in the tribunal of our legislative halls should be solved to the extent that a desirable result shall be obtained for all the people.

Strong cooperation between the constituent elements of democracy will, I believe, make Texas a state of the most ideal government known to the Union. I seek your support upon the pledge to cooperate with you and to devote myself untiringly to the furtherance of your interests. We are a people together with a common task, and together let us put our shoulder to the wheel.

Dedicating myself to the policy of honest endeavor and hard work and standing upon the principle that the people of my district are entitled to capable representation and to an earnest voice in their government, I respectfully and earnestly solicit your support.

JACK ROBERTS.

FRIENDS OF MAHON FOUND CANDIDACY MEETING WITH FAVOR IN CROSBY COUNTY

Continued Effort Should Be Made There, However, Is Report Given Here

The candidacy of George Mahon is well entrenched in Crosby county and with an aggressive campaign there should be no doubt as to outcome at the ballot box. July 28, friends of the congressional candidate announced late Tuesday after spending the day at Crosbyton and other community centers in that part of the district.

"I do not know whether or not we caused any voters to swing definitely into the Mahon camp but I do know that his candidacy there is meeting with strong favor and citizens in large number are active in his behalf." Bert Frazier, one of the Colorado men making the trip, stated. "The people seem to want to know Mahon better. He should make two or three addresses in that immediate part of the district."

Douglas Rutherford, another Coloradoan spending the day at Crosbyton, Slaton and other points in behalf of Mr. Mahon, was just as enthusiastic over results realized. "Mahon will not only lead in Crosby county but he will make things interesting even in Lubbock county if an aggressive campaign is carried to the voters there," he said. "The people are interested and want to hear him speak."

J. B. Holt told The Record Wednesday morning that "it looks mighty good to me," when asked for an opinion of what might have been accomplished during visit of the delegation to Crosby and Lubbock counties. Mr. Holt was a member of the party going from here. He is sold on the proposition that friends of the candidate should lend every possible cooperation until close of the campaign.

Jack Nolan, fourth member of the party, expressed keen satisfaction at results believed to have developed. Nolan would urge friends of the candidate to contact voters in other parts of the district as an effective means of assuring success of the campaign.

The method of voting used by the Greeks for some 2,500 years consisted of having an urn to represent each candidate; the voter tossed in a white pebble if he wished to vote for a candidate and a black one if he wished to vote against him.

Presbyterian Women In Business Meeting

Women of the Presbyterian church met in the church parlor Monday afternoon for a business session.

The meeting opened with a prayer, led by Mrs. W. M. Elliott. During the business session several letters were read, one from Mrs. Gray of El Paso, Presbyterian president, urging that representatives be sent to the training school at Kerrville in August, and urging Mrs. Elliott, as presbytery secretary of literature, to press a survey contest. Another letter was from Miss Jamie McGaughy, head of women's work in the Southern church, wanting the women to send their president to Montreat, North Carolina. Several news items were read.

The meeting was closed with prayer by Mrs. R. M. Hall of South Texas, a former resident of Colorado who is visiting in the Elliott home.

Mahon Gaining

(Continued from Page One)

noticed that a score or more people would congregate about Mahon to pledge their confidence and support.

"I like your countenance, the manner in which you speak and the fact that several business and professional men of your home town are here on their own expense to back you up 'looks good to me,'" was the way a prominent minister of a community outside Lamesa addressed Mr. Mahon after he had completed his address. "I am going back to my people and urge them to support you because the church cannot go wrong lending encouragement to leadership exemplified by men whose integrity and ability is questioned by none who know them."

The appeal is being made by friends of Mahon at Colorado, Lorraine and other communities that men and women who believe he should go to congress get into the campaign in an aggressive way. "Get in your motor car, take a group with you and go wherever you believe

good can be done. In addition to that write letters to your friends and relatives wherever they may be in the district," is summary of the joint appeal.

Citizens from other counties outside Dawson, in Lamesa Monday, requested Mahon to come to their home communities and deliver addresses. Citizens of the candidate in the home section were also requested to go there and personally tell the voters they believe in Mahon.

"If the people will become concerned in this matter and actually get out and go to work in an aggressive way, there is no question as to outcome of our campaign," Thompson declared in his appeal that Mr. Mahon should not be expected to make his fight alone.

Mahon literature is available at Mahon headquarters here, at Lorraine, Big Spring, Snyder and other places. Groups being sent out into the district should take a supply of this material for distribution.

COL-TEX ANTELOPES TAKE LEAD IN STUBBORN BATTLE WITH BIG SPRING'S TEAM

Game Tied In Third. Sixth, Eighth Innings; Score Was 10 To 8

After managing to deadlock the game in the third, sixth and eighth innings, the Cosden Oilers were upset 10 to 8 by Col-Tex Sunday when the Coloradoans came through in the eighth inning with a two run rally. It was a US Eighty league game.

The victory broke a three-way tie for first place in the league and sent Cosden into third place. Ackerly defeated the Coahoma Bulldogs 9-7 for the initial spot.

Col-Tex started the scoring in the first inning with two runs. Kent Howell and Henderson reached first when the Oiler infield erred. The two men on base advanced when Robertson hit a long fly, and both romped home on a bingle by R. Howell.

Cv Terrazas, elongated first sacker for the Oilers, secured the first of his three hits in the second frame, but Payne and Moxley flew out and Mileaway Baker took three futile swings to end the threat.

Lefty Baber blasted out his first hit in the third inning when he nailed a neat drive between the Col-Tex short-stop and third. Sammy Sain reached first when the Colorado infield fumbled trying to complete a double play. Baber scored on the next play when Skeet West sent a hard drive through the enemy infield. Sain tied the score when Cv Terrazas blasted out his second hit.

The first three men up for Col-Tex were safe at first, and all scored on Robertson's fly into the gardens and R. Howell's bingle into centerfield. Dutch Moxley sent a hard triple over Henderson to begin the fourth inning for Cosden, but the next three went out in order and Moxley died on third.

Moxley, whose performance in the outfield has been excellent, scored a sensational ratch on Hutchinson's fly in the fourth. On the crack of the bat Dutch turned and raced toward centerfield. Looking over his shoulder he leaped high to snag the ball with his finger tips, thereby possibly plugging a rally.

Sain opened up in the fifth with a hit. West struck out but Pen Martin and Terrazas hit in succession and Payne sent a high fly to the centerfielder which sent two runs across the plate.

The Oilers returned in the sixth to tally once and knot the score. With two out, Baber blasted out his second hit of the day over the Colorado infield. Lefty raced home on Sain's bingle. West put runners on first and second when he drove a hard one to the pitcher. However, Martin sent an easy roller to the twirler to end the short rally.

The Mitchell county lads went out in order in the sixth, but returned in the seventh to score three times for a three run lead. Kent Howell and Henderson led off with singles. Gressett sacrificed to second and third, and Robertson and R. Howell brought them home. R. Howell scored on a hard drive by Black.

The Howard county boys tied the score again in the eighth when Martin scored a lucky home run after Baber and West had reached first on Colorado errors. Pepper's hit was barely within the left field foul line, and Gressett lost the ball after it rolled under the cars in left field.

The Cosdenites could not stop Col-Tex's determined drive in the eighth, and the enemy team tied the game when K. Howell and Henderson crossed the plate on Robertson's outfield fly and R. Howell's single.

Payne started the ninth by singling, but Moxley, the next man up, was called out. Baker forced Payne at second and Burke flew out to Henderson.

Chevrolet Leads In Car Registration For Second Month

DETROIT.—Chevrolet dealers delivered 43,311 units during the first twenty days of May, according to William E. Holder, general sales manager of Chevrolet Motor Company.

Retail deliveries during the year to May 20 totaled 324,344 against 229,857 units for the same period of 1933, 145 per cent of the same time last year.

Retail deliveries of commercial cars and trucks continued to gain. Dealers delivered 7,943 commercial units during this twenty-day period against 5,470 for the same period a year ago.

"Because of the tremendous public demand for the new 1934 model knee action cars, production has not yet

requirements," said Mr. Holder. "The May 20 report shows that Chevrolet dealers have on hand 30,000 unfilled orders for knee action models. This, together with the sales activities of the dealers, assures a very satisfactory last 10-day period in May.

"Unquestionably, fully enclosed knee action, shock-proof steering, cable-controlled brakes, eighty-horsepower engine, and Fisher body have definitely met with public acceptance and have established an outlook for increased activity during the summer months."

In his 43 years of service as a court reporter, Duncan C. McCallum of Oreoville, Cal., says he has transcribed more than 432,000,000 words.

Price Reduction Is Announced Makers Olds Automobiles

The manager of Olds Motor Works announces a price reduction on all models of both the Oldsmobile six and eight effective Monday June 4th. The reductions on both lines of cars range as high as \$25.00. The base price of the Oldsmobile six is now down to \$650.00 at the factory while the list price of the straight eight is now as low as \$885.00.

Mr. McCuen states, "Neither the Oldsmobile six or eight has been changed in any manner, and both cars retain all the quality features which have brought record breaking popularity to Oldsmobile this year. In other words, the product has not been cheapened to compensate for this price reduction which is being passed on to the public as a savings."

Mr. McCuen further reports, "The Oldsmobile factories are running day and night on a two shift basis. There has been no slackening in car orders and our production for the month of June will be the highest this year. We have built more cars in the first five months of this year than in the entire year of 1933."

OUTSTANDING MERIT OF MITCHELL CITIZEN EXTOLLED

DUTY DEMANDING SUPPORT MAHON CANDIDACY VOTERS TOLD BY RALLY SPEAKERS

Enthusiasm Sways Gathering Held Last Friday Night At Ruddick Park

George Mahon is definitely on the road to Congress—on condition the people who know him best meet the duties facing them as citizens, in supporting his candidacy.

That was the challenge sounded Friday night by prominent citizens of the district in addresses delivered at George Mahon rally at Ruddick park. Several hundred citizens from Loraine, Colorado and other communities of his home county, along with prominent political leaders from adjoining counties were present and participated in the meeting.

Judge Chas. C. Thompson, president of the Colorado George Mahon For Congress Club, presided as master of ceremonies, held at the amphitheatre. Public address equipment carried voice of the speakers out over a considerable distance from the speakers platform in band shell.

R. A. Edwards, Loraine jurist dealer and speaker for delegation from home town of the candidate, was first to address the assembly. "George Mahon should win his race for congress in first primary election July 28, if outstanding merit and ability are to be taken seriously into consideration," he declared.

Hon. A. S. Mauzey of Sweetwater, judge of the 32nd judicial district, declared that Mahon ought to be elected because he is the best qualified man in the race. "His opponents are good men and filling the important offices they now hold with distinction. We should retain them there for further services in those respective capacities," he said.

"I have slept with George, I have eaten with George, I have worked with George, I have come to the definite conclusion that in this young man is one of the greatest characters West Texas has produced. His honesty, his integrity, his ability, his understanding and his fidelity cannot be questioned by any honest citizen. Men of his type are sorely needed in our halls of congress during times such as these.

"I am happy to bring report to you, his neighbors, that George is gaining in all parts of the district. Wherever he goes he makes friends and these newly made friends are using their influence to bring recruits into the Mahon camp. But, we, of his own people, would be most inconsistent if we elect to fail his cause in the field. Every consideration of the man demands that we give him

Enrollment Small As Summer School Session is Opened

Summer school opened at the high school building Monday morning with the smallest enrollment in history. C. A. Wilkins, who with Mrs. R. H. Cantrill, is in charge of classes, stated Wednesday morning. The decline in number of students to matriculate indicates that a lesser ratio of failures were checked against records of the students at closing of school recently.

Wilkins expressed the opinion there were other students who would enter for special work during the term. These are requested to confer with either Mr. Wilkins or Mrs. Cantrill.

LIONS TO BALLOT ON NEW OFFICERS AND DIRECTORS AT MEETING FRIDAY NOON

Incoming Officials Slated To Take Office On First Friday Next Month

Balloting on officers and directors for the ensuing Lion year will come up as a major feature of weekly meeting of the club today at noon. Nominations affecting every office in the club were made two weeks ago.

Competition is expected to develop in contest for only two offices. There are four candidates for the office of tail twister, held during the past two years by M. O. Chapman. Five candidates are being offered for places on the directorate, with only three to be elected.

Complete roster of the nominees was published in The Record last week.

Along with the election of officials and directors will come report on annual State convention held Monday and Tuesday at Mineral Wells. The Colorado club was well represented at the meeting. Secretary Maceo Grantland reports. Rev. Dick O'Brien was among keynote speakers addressing the session, speaking Monday afternoon in tribute to Texas Lions who during the last year had died.

TWO MITCHELL CITIZENS ON CENTENNIAL BOARD

CAMPAIGNS FOR GOVERNOR AND SENATOR BROUGHT TO MITCHELL BY CANDIDATES

Jimmy Allred Delivers Two Addresses Thursday; Joe Bailey Here Friday

Campaign for two outstanding offices within gift of the people of Texas was brought to Mitchell county Thursday morning when Attorney General James V. Allred spoke here at 9 o'clock in interest of his candidacy for governor.

At 11 o'clock Mr. Allred addressed voters attending school celebration at Spade. Congressman Joseph Weldon Bailey, Jr., of Dallas, opposing Tom Connally for the U. S. Senate, is scheduled to speak here Friday afternoon in behalf of his candidacy.

Friends of the two candidates have been busy during the past few days in getting information of their speaking before the public.

Mr. Bailey will not be able to meet his speaking engagement here Friday afternoon, according to information received here. He took an airplane earlier during the week for Washington to give his personal attention to pending oil legislation. The candidate expects to visit Colorado at a later date, after adjournment of congress.

R. L. Spalding Out For Commissioner Colorado Precinct

In announcing my candidacy for the office of commissioner of precinct one, Mitchell county, I desire to say:

Mitchell county has been my home for thirty-six years and during seventeen years of this time I served as a member of the city council at Colorado, an office whose duties are somewhat similar to those of county commissioner.

Should the voters see fit to favor me with their support it will be my aim to give them the careful and economical administration which they have a right to expect.

I regret that my present work will not permit me to make a house-to-house campaign.

R. L. SPALDING.

Mr. and Mrs. E. K. McComb of Ponoma, California, stopped over early this week for a brief visit with Mr. McComb's brother, C. O. McComb. They were returning from spending a week with Mr. McComb's mother in Marlin.

OPponents WOULD HAVE VOTER BELIEVE GEORGE MAHON NOT OLD ENOUGH

Failing absolutely to find anything in the life of George Mahon that might question his integrity, qualifications and fidelity to his people, the opposition, in effort to stay material advance being made by the Colorado man, would have voters believe he is too young. "Why he is just a mere boy," they suggest with make-believe air of astonishment.

But these political advisers do not call attention of the voter to fact that Marvin Jones, among outstanding leaders in the National Congress for several years, was three years younger than Mahon is today when first elected.

They do not mention the fact that Mahon is older than were either of the two senators now serving Texas, when they first went to the halls of congress at Washington.

They do not take the voter in on information that Vice President Garner was, like Mahon, in his early thirties when the people of Texas sent him to congress for the first time.

Keep these facts in mind when writing to or talking with voters in other parts of the district. There is nothing wrong in keeping the record straight.

STRONG TRIBUTE PAID TO LIFE OF MRS. HOLMAN AT LIONS CLUB LAST FRIDAY

Speakers Reflect Her Life As Outstanding For All That Was Desirable

Program at the Lions Club Friday was made an impressive memorial to the life of Mrs. Hayes Holman, teacher for five years in the Colorado schools and an active worker in church and community affairs. The program was directed by Rev. Wallace Jones, pastor of the late woman, who spoke feelingly as he announced that tribute in song and address would be paid to her memory.

"The Place of Mrs. Holman in the Life of the Church," was subject announced by the minister. He pictured Mrs. Holman as having possessed one of the strongest Christian characters it had ever been his privilege to know. "She was of that type of Christian leader that ever impressed and inspired those with whom she came in contact, giving unselfishly of her beautiful traits to encourage all things that were good," he said.

Dr. C. L. Root, who during the five years Mrs. Holman had lived in Colorado, was personally associated with her in church and civic work, sang "Sometime We'll Understand," as a tribute to her life. Tommy Dawes played the piano accompaniment.

"The Place of Mrs. Holman in the Life of the School," was subject of an address by J. E. Watson, superintendent of the schools. The speaker referred to the late teacher as one of the most devoted, sincere builders of character among the children he had ever known. "She has during the five years of her teaching in the schools here, wielded an influence for good in the lives of the boys and girls that shall never die," he declared. "Her students loved her because of her strong personality and she loved them, because she was interested in making material contribution to directing these people into the paths they should follow in after life."

"The Place of Mrs. Holman in Life of the Community," was subject of tribute given Mrs. Holman in address by J. H. Green, secretary of the chamber of commerce. He pictured her as a citizen ever interested in all community programs that were worthy, whether they originate in the church, the school, the club or elsewhere.

"We cannot understand why such a lovely character should be so suddenly taken from us, but I am of the opinion that He who doeth all things well wanted an unusually beautiful bouquet of loveliness to be transplanted into a better world and selected her for that place."

Reference was made by all of the speakers that Hayes Holman, husband of the late teacher, was an active and beloved member of the club. R. L. Templeton, presiding, expressed appreciation of the membership for the tribute. He read a telegram from Mr. Holman in which his appreciation of the Lions Club was expressed.

Miss LaVada Baze returned home from T. W. C. Saturday.

There is no death, the dust we tread shall change beneath the Summer showers to golden grain or mellow fruit or rainbow tinted flowers.

There is no death, an angel form walks o'er the earth with silent tread, he bears our best beloved away and then we call them dead.

The A. A. A. is furnishing free to the farmers participating in the several adjustment programs a Farm Record Book. These books are simple and easy to keep a complete record of the year's farming operations, sales, etc., tabulated in. Since it is required by the cotton contracts, corn-hog contracts, etc., that a farmer furnish the A. A. A. with a statement of his years sales, these books will be of untold value to the farmer. NOVALEE GROOM OF LONE STAR WINNER BEDROOM CONTEST

Margie Carlock, Shepherd, Is Alternate For Trip To A. & M. In July

Miss Novalee Groom, Lone Star, was declared the winner of the bedroom improvement contest for Mitchell County 4-H club girls at the close of the scoring of all rooms last week. She will be given a trip to A. & M. College on July 30-August 3.

Miss Groom was adjudged to have made the most marked improvements in her room with the least expenditure among the higher ranking girls. Miss Margie Carlock, demonstrator for the Shepherd Girls Club, ranked highest in score, having 861 to Miss Groom's 527, but she spent more and her girls caused her expense to be rather high, according to Miss Emma Gunter, county home demonstration agent.

Miss Carlock has been designated alternate, and will get to go to A. & M. in case Miss Groom cannot go.

In number of points, Miss Melba Ruth Adams of the Carr Club ranked second high, but she had only made 212 points in improvement, since her rating was high to begin with. Her expenses were also rather high, but her workmanship was rated good.

After checking and rechecking the improvements, expenses, stories and other factors to be taken into consideration, Mrs. J. W. Shepherd, judge, decided on the following as winners of the contest: Miss Groom and Miss Carlock, first and second; Miss Katha Lee Harrell of Lorainé, third; Miss Opal Leach of Conway, fourth.

Other girls in the contest ranged in scoring from 212 to 412 and all were said to have done wonderful work. The winning room will be scored on next Thursday by Miss Gertrude

Blodgett, district agent, for the district contest.

Miss Gunter, under whose direction the work in bedroom improvement was done, has this to say about the contest:

"Since January, 'To Make the Best Better' movement has been going on in the homes of the 9 bedroom improvement demonstrators in their respective 4-H clubs. Dark, dreary, uninteresting rooms have been transformed by hard consistent labor into new fairy story places to live. As one of the girls wrote in her story, 'she felt like Cinderella now, instead of having a new shoe she had a new room.' The girls spent and through gifts from kin and friends, various sums ranging from \$1.50 to 21.39. The major expenditures made by the girls were for canvas, wall paper, window curtains and drapes.

"Novalee Groom spent \$2.78 on her room and through gifts \$9.60. She lives on a rented farm and the house is poorly constructed. Her room is a 12x12 shed room which afforded Novalee nothing more than a place to sleep and to hang her clothing in a corner. The room was not even ceiled but the grandmother thought to tack an old worn out congolem rug to the rafters would keep out some dust and cold and on the walls building paper and cardboard boxes had been tacked. With nothing in her room but an iron bed, trunk and a refrigerator, Novalee began to build her plans. Such paramount problems as getting ceiling materials, wall paper, a clothes closet

bailed, a vanity dresser made, bathing facilities and storage places were ever coming before Novalee and she often got discouraged and the Mother would say she did not want Novalee to drop out for no matter what she did it would be an improvement and be worth while. Through gifts of the lumber from the landlord for the ceiling, cardboard boxes, a nail keg and orange boxes from Lorainé and Colorado merchants the room soon began to take on needed articles and they in turn were transformed and clothed into useful furniture, such as a clothes closet, a vanity dresser, a stool, washing facilities and a shelf for books.

"Novalee remarked that her dressing table with its bright yellow skirt reminded one of a young girl all dressed up for a party, just so you feel when you enter her room, fresh, clean and cheery."

THE CHALLENGE TO YOU

Citizens of the 32nd judicial district who have decision to know and appreciate George Mahon best are going to the polls July 28 and register an overwhelming vote in support of his candidacy for congress.

If you believe George Mahon is a man of unquestioned integrity, whose honor cannot be justly assailed by any person and that he possesses all that should go to make the kind of statesman so sorely needed in the National congress, do you not agree you would be rendering a service to the people of West Texas by acquainting them with that fact?

The challenge is to be met by every true Democrat of this, the home county of Mr. Mahon. We are proud of his record as a farm boy, as a student in the schools of West Texas and as a servant of the people.

If unable to make up your mind as to what you should do in order to render the most effective service in his behalf, consult with leaders in his behalf at Colorado, Lorraine, Big Spring, Snyder and other places in which the friends of Mr. Mahon are organized and directing campaign for placing a deserved Texan in congress.

CRITICS CRITICISED

Here of late this column has been severely criticised; eulogized and almost ostracized. One professor accused us of using split infinitives and otherwise murdering the English language.

Another letter comes from a gentleman friend of Abilene in which he tries to use a great deal of fulsome flattery. Among other things he says: "You are really a great man, Uncle Fred, and you don't know it, and that is one of the major elements of your greatness."

Another letter comes from a lady complaining that we use too much poetry. No its not poetry its doggerel which means a loose irregular kind of versification and is dogmatically asserted with authority and arrogance.

A young CCC lost his BVD So the PTA sent an SOS To the CWA who was CTQ To the FRA had put the CAN To the PWA with a near KO And the NRA was all FOB So the AAA sent it COB But the USA wired PDQ To the RFC for its IOU Now its all OK at the MTC For the CCC got his BVD.

Another critic writes from Waco saying, "We know what's the matter with you. You are getting old." There can be no doubt about it. We are moving along. Moving along, so gradually we don't realize the distance we have covered.

Years: they come and they go, dealing out a bit of misery here and there, also a bit of changing world and die. Eternity absorbs us, history forgets us, God forgives us if we are entitled to His leniency. Nothing can be done to change it, not even a "new deal."

Yes our, Waco critic is right. When inspiration fails and incentive ceases, a man is old, no matter what may be the number of his years, or what he himself thinks about it.

ported a foreign word with a fearful sound "Bolshiviki." We can hardly pronounce it yet, without pleasant little shivers running up and down along the spine.

Dear critics, the matter of rightly constructing, grammatically, some sentences or expressions has been discussed ever since the Chaldean shepherd boys watched their fathers' flocks on the Grampain hills yet no definite conclusions have been arrived at in all the five thousand intervening years.

I saw some little girls going by this week to school. They were proud as prouds can be, because it was doll day in the school and they were carrying with them the latest addition to their ever growing doll families.

We sure are tickled if we can find a new slogan or make up a new word or else investing it with some terrible meaning. Children get excited about a new toy as we grown-ups did a few years ago when we im-

cut what it really implies. Maybe it is like most of us, a little good and a little bad mixed up. Few of us are entirely worthless, and none of us are by no means all good.

Henry W. Grady once wrote this: When every farmer of the South shall eat bread from his own fields and meat from his own pastures and disturbed by no creditor and enslaved by no debts; shall sit amid his teeming gardens and orchards and vineyards and dairies and barnyards, pitching his crop to his own wisdom and growing them in independence, making cotton his clear surplus and selling it in his own time and in his chosen markets and not at the master's bidding, getting his pay in cash and not in receipted mortgages, then shall be breaking the fullness of our day.

Only children and folks away from home are afraid of a graveyard at midnight. Bereaving from friends is a good way to test them and it is a sure way of losing them.

The latest child of the "word builders" to come in for some excessive petting as well as excessive criticism is a several year old word called "Technocracy."

"Can you act?" asked the movie director. "Act, why on the stage last week I died so naturally that a man in the audience fainted. He was my life insurance agent."

A CHANGE OF SUBJECT

FORMER LOUISE WULFJEN RECOVERING FROM CUTS

Mrs. Bert Wulfjen has received word that her daughter, Mrs. Sam Geisenberger of Natchez, Mississippi, formerly Mrs. Louise Wulfjen, is rapidly recovering from cuts and bruises sustained in a motor accident on Mother's Day.

Her injuries were serious enough, however, to cause her to postpone for some time the visit she was to have paid her mother the tenth of this month.

The accident occurred when Mr. and Mrs. Geisenberger were returning from a week-end spent in New Orleans. Their car was sideswiped and overturned by another driven by a negro on the Kingston road near Natchez. Mr. Geisenberger sustained a broken nose and other injuries, and Mrs. Geisenberger received a bad cut on her forehead and several cuts and bruises. Their injuries necessitated their remaining in the sanitarium for several days.

Mrs. Geisenberger will be visiting her mother later on in the summer.

JUNE DECISIVE MONTH IN TEXAS POLITICS

AUSTIN—June is the decisive month of Texas politics which closes the entries of all races for the primaries, while July thins out the contestants to the survivors of the first primary.

The first important day of June's political calendar is Monday, June 4, final day for filing for state and district offices. Rulings have held that races for the legislature in districts of more than one county, are for district offices, and close on this date.

The Democratic state executive committee will meet in Austin Monday, June 11, as required by law, to prepare the ballot and certify out the names of those declared by it to have filed for state and district offices.

June 16 is the final day for filing for county and precinct offices. The county executive committee of each county will meet at the courthouse June 25 to prepare and order printing of the official ballots.

Within the period of June 22 to July 3, candidates are required to file with the secretary of state the first of three expense statements called for by the election laws. July's significant dates include:

CHINA GROVE'S THREAT TO ROUT FIRE BOYS IN LOCAL LEAGUE RACE IS CONTINUED

Market Aggregation Wins By Two To One Count During Contest Tuesday

Threat of China Grove to nose out the Fire Boys in battle for first place in City League standing continues and unless that the latter are able to stop Floyd Market's aggregation such will be true after one more game.

In contest Tuesday afternoon between the two leading league teams, China Grove downed the Firema with a sparkling brand of baseball to the tune of 10 to 5. China Grove's big inning was during the second when some solid blows sent five runs across the platter with the Fire Boys assisting a bit through some serious errors.

The win for China Grove tied the two teams in number of games won during the season, but the Marketmen have lost one more game than their antagonists, leaving the Fire Boys one-half game in the lead in the percentage column.

Batteries for China Grove were Johnson, R. Parr and Quiett; for Colorado, Henderson and K. Howell.

The Business Men completely crushed Col-Tex Antelopes Monday afternoon, scoring in every inning to run up a total of 17 runs to only 6 for the refinery defenders. Col-Tex effected all their runs during the second and never could rally to offset serious threat again.

Batteries for the Business Men were Towery and Morgan; for Col-Tex, Robertson and Reuter.

F. D.'s Big Stick To Vanish June 16th After Year's Ruling

WASHINGTON—President Roosevelt's big stick over industry arbitrary power to take control of any industry or any part of an industry, dissolves into thin air at 11:55 A. M. June 16.

This, the licensing power conferred by the National Industrial Act, is the "pistol on the hip" that General Hugh Johnson talked about so menacingly when he first became N.R.A. administrator. It turns out that it is a pistol that was never fired; not even brandished, so far as the official records show.

The licensing power expires by the act's terms at the end of one year, the rest of the law continuing for another year.

This removes the act's only jail penalty for violation of a code, but the law still has a penalty provision of six months in jail or \$500 fine, or both, for violation of rules and regulations issued by the President under the board powers given him by the act.

This clause has been surrounded with secrecy since N.R.A. went into action. Even its origin, and the reason for it, are mysterious, and equally hazy were the public statements

of recent months as to whether it should be continued. But in the Senate debates just a year ago, the administration fought a hard battle for its inclusion over protests by Republican conservatives.

The drafters of N. I. R. A. insisted upon the licensing power because they feared a tremendous crisis. In April and May, 1933, there were possibilities of barricades and bloodshed, in the minds of many. In our highly organized economy, the disruption of one basic industry might easily have tied up the whole productive system, it was argued.

So the President was given this power in cases where "destructive wage or price cutting or other activities contrary to the policy of this title (the N. I. R. A.) are being practiced in any trade or industry or any subdivision thereof."

The provision, after requiring public notice and hearing, specifies that after a licensing plan is set up, "no person shall engage in or carry on any business, in or affecting interstate or foreign commerce, (as specified in the President's licensing announcement) unless he shall have first obtained a license issued pursuant to such regulations as the President shall prescribe."

A special penalty is provided for carrying on a business without a license after the President has opted—\$500 fine or six months imprisonment, or both, and each day's violation a separate offense.

The other penalty provision in the act is a fine of \$500 for each violation of a code, either approved or prescribed by the President with each day's violation a separate offense. This continues in effect; it has been used frequently.

Johnson and other N. R. A. spokesmen have often stated that N. R. A., like the prohibition laws, could be enforced only through powerful public opinion; that prosecutions would do no good in the absence of such support.

But Johnson was one of the little group which wrote the licensing provision into the law. Apparently the only explanation of his change of attitude is that the fears of April and May, 1933, have been largely swept away now by a feeling that both labor and employers have accepted N. I. R. A. as a part of American industrial life.

ANNOUNCING Jack Hale, Now In Charge Of Conoco Sta. No 1 "Will Appreciate Your Patronage"

•• A DOLLAR AND A HALF WORTH OF OIL PROTECTED THIS MOTOR FOR OVER FOUR THOUSAND MILES!

Here is the winner—the car that covered 4,729 miles at 85 1/2 miles an hour, lubricated with New and Improved Conoco Germ Processed Motor Oil.

Low Consumption and Motor Protection proved in the most daring and convincing Motor Oil Test ever made

WHEN New and Improved Conoco Germ Processed Motor Oil was perfected, it had lubrication values so great that a mere statement of them would seem absurd. Could you believe that any strictly stock motor could run 4,729 miles on just five quarts of oil before wrecking itself? It did—and Conoco proved it in competition with five widely known, nationally advertised, quality brands of motor oil!

The competition was held at the Indianapolis Motor Speedway, under the supervision of the Contest Board, American Automobile Association. Six new, strictly stock cars, were used—a different oil of the same S. A. E. grade in each.

After the cars were broken in for 2,500 miles, they were drained, examined and a fresh fill of five quarts put in each crankcase. No more oil was added. Then the crankcases were sealed by an AAA official. The real test began. It was ordered that they be driven at an average of 500 miles a day at 50 miles an hour until their motors failed to operate. Oil No. 4 was first to fail at 4,713.2 miles. Oil No. 6 failed at 1,815.9 miles; three of them were out of the running. The next day Oil No. 1 failed to lubricate and, its motor wrecked, stopped at 2,265.8 miles.

Two cars—two oils—still left in the test. Oil No. 3, after a remarkable run of 3,318.8 miles, came to a shuddering stop, and the last competitor of New and Improved Conoco Germ Processed Oil, was out. The lone car, with this tremendously vital oil, labeled No. 2, went on and on. On the tenth day, at an almost unbelievable total of 4,729 miles, it failed—an all-time record mileage on a total of five quarts!

The "Hidden Quart" of new oil penetrativeness won—the greater film strength and higher resistance to the effects of dilution—the absence of carbon and sludge—all aided in this great achievement. It fully supported Conoco's patented principle of added oiliness—it proved every claim. Conoco alone can make oil this way. It is covered by recent United States patents.

You can have this oil in your car, for it costs no more than other quality oils. Drive into a Conoco Station or dealer, marked by the Red Triangle. Fill and know the satisfaction, the freedom from repairs, the economy of low consumption that only Conoco gives.

Five quarts of each brand of oil were carefully put in the cars by AAA officials.

Here are the Representatives of the Contest Board of the American Automobile Association who supervised every detail of the test and attested to the records made.

Warning to new car owners... Some car manufacturers are using new types of bearings which will stand greater pressures and temperatures, resulting from increased power and speed. New and Improved Conoco Germ Processed Motor Oil has been exhaustively tested on these new bearings. The results show that it gives them greater protection against damage than many straight mineral oils now on the market. Protect your new car by using the motor oil you can be sure of.

Busiest Man Puts 20,000 Chicks On Roost Every Night

Nominated for West Texas' busiest man: L. E. Lassiter of Odessa, a former Mitchell county citizen, who has to place 20,000 young chicks on the roost every night, and remove them every morning.

He's teaching the chicks how to roost! Lassiter, owner of the Imperial Poultry farm near the Ector county seat, is having the most active hatching season in the three years of the farm's operation. Beside the 20,000 chicks, he has been selling started chicks and hundreds of frying chickens, and is building up a laying flock of 9,000 pullets. Most of these are White Leghorns, but he will have a large number of Barred Rocks and Rhode Island Reds.

H. L. Atkins, Jr., Ector-Andrew county farm agent and former Mitchell county agent, explains that teaching 20,000 chicks how to roost is as necessary as it is difficult.

Hardin & Simmons Commencement Climaxes Dr. J. D. Sandefer's 25th Year as President

Names of Colorado and Coloradans Prominent In Story of Simmons U.

The names of Colorado and Coloradans figure prominently in a story of the founding and growth of the recently renamed Hardin and Simmons University of Abilene appearing in the Sunday Sweetwater Reporter.

A Coloradano, George Mahon, will be the central figure on the commencement program June 7 (Thursday), being slated to deliver the commencement address. Mahon is an alumnus of the college.

Colorado and Abilene were the only two towns in this section big enough to bid for the school when plans were being made for its establishment in 1890, according to Judge H. C. Hord of Sweetwater, who recalls that the first funds for the school were raised in Sweetwater, then too small to hope that the school would be located there.

Judge Hord recalls, according to the Reporter story, that the institution was founded in 1890 by the Sweetwater Baptist Association at its annual session in Sweetwater. He and K. K. Leggett of Abilene, now dead, were joint authors of the original resolution. At that time the association included all the territory from Eastland and Cato to El Paso.

Judge Hord is the only surviving member of the committee selected to locate the school, name its first board of trustees, adopt a charter, and raise money to erect the first buildings. From his memory, he recalled that other members of the committee included Mr. Leggett, Rev. G. W. Smith and Clabe Merchant of Abilene; A. J. Long of Sweetwater, J. M. Hanna of Abilene, and C. P. Warren of Merkel. He does not recall Colorado's representative.

Dr. R. C. Burleson, then president of Baylor University at Waco, attended the association's meeting when the charter was adopted, he said. Dr. Burleson vigorously opposed the plan, declaring such a plan was destined to failure. Judge Hord and other members of the committee sortered they were planning for the future of West Texas and laying foundation accordingly.

Three bids were received by the location committee, one from Colorado and two from Abilene. Judge Henry Saylor of Abilene offered five acres of land on the "south side" at Abilene and \$10,000 cash, which was regarded as being too small a site, and now is growing up as a residential district. The offer of Ft. Worth persons for 20 acres of land and \$5,000 cash was accepted.

The location committee named the first board of trustees, which consisted largely of members of the committee. The board organized by electing Dr. G. W. Smith as president and appointed Judge Hord and Mr. Leggett to draw up a charter.

Remembering dire predictions of Dr. Burleson, the charter was so drawn to provide that real property of the school should never be incumbered by mortgage for debt or for money borrowed, a provision, which several times may have saved the institution.

The task of raising money for the institution in Sweetwater was assigned Judge Hord. What is believed to have been the first money actually raised for the institution was a \$75 donation from "Uncle Mart" Newman, though he was not a member of the Baptist Church.

The school was first named "Abilene Baptist College," but later changed to Simmons College after Dr. Smith and Dr. O. C. Pope got Dr. J. E. Simmons of New York interested in the institution. Dr. Sim-

Your Fishing Trip Can Cost What You Want It To--50 Cents On Up

(Reprinted from San Angelo Standard) For \$35 to \$40 a West Texas can outfit himself completely for a week-end or a week of fishing—and squirrel hunting—this summer, even if he has to buy all of his fishing tackle, hunting and other supplies incident to the most common outdoor recreation of the Concho country.

Included is the artificial bait license, costing \$1.20 for the resident angler and the same for the non-resident who is making only a five-day excursion. A longer stay by the non-resident, many of whom now come to the Concho rivers for bass and crappie fishing, will require a \$5 license outlay.

Not included are the liquid refreshments common to many fishing expeditions—snake medicine, beer or wine, some of these coming under the category of "overhead." Soft drinks are popular, too, but coffee, even in summertime, is still the standby of West Texas fishermen.

Among the first necessities after the license are rod and reel with assortment of artificial baits, which cost about \$6 for a decent layout and from that "on up to as much as you want to pay."

A complete cane pole outfit, including pole, line, hooks, sinker, and cork—and a few extras for use in such emergencies as occasioned by a submerged log or a bigger fish than anticipated—can be secured for 50 cents or even less.

Then other items, which may or may not be necessary, according to what one's companions have or one has at home, would be the following: Tarpulin, \$5; cot, \$2.50 to \$4; cooking utensils, \$2 to \$3 (here's where a few articles from the family pantry might be taken); gas stove (if one wants to avoid the job of gathering up wood, and many do) from \$4 to \$9; food, \$1 to \$5 (owing to the length of the trip and one's confidence in his fishing and hunting ability); ice, 25 to 50 cents (incidentally, most fishermen dig a rectangular hole in the ground, spread a tarp over it, drop in the ice and keep the fish, beer and perishables on the ice or along the sides—a very serviceable ice box costing only the ice; most parties carry along an axe or hatchet, costing about \$1.25 on the average; a good seine can be had for 1.10 and minnow buckets, necessities when both bass and crappie are sought without artificial bait and for trotline fishing, range from 75 cents to \$1.50.

Trotlines cost according to length. A good 150 foot trotline, including staging and hooks, can be set up for about \$1. Set hooks will cost less than 5 cents each. One fisherman here has a trotline 1,500 feet long with 500 hooks on it. Such would run the length of most holes of the Conchos. Recently, with the rivers needing flushing, many big cats have been nabbed in the short holes below the dams and bigger lakes. Some set trotlines diagonally across the river, others directly across.

Few parties in West Texas take along tents on short camping trips—the risk of a rain isn't very great. But if one wants a tent and doesn't care to take the risk, a good tent can be bought for \$20. Some automobile adjuncts cost less. The old timers take along their "tarp" and in case of rain cover themselves and whatever equipment might be damaged with this canvas cover. The rain won't chase everyone to the camp and car, however. Fishing often is at its best during a rain.

Since the squirrel season is now open over the state for the next three months, a rifle or .310 gauge shotgun should be taken along. One can get a good rifle, single-shot, for \$1 to \$6 now while pumps and automatics climb as high as \$35.

As for the very man to his own choice! A favorite among old timers for catfish bait is big bullfrogs, and they seem to be favored by the catfish, also. Minnows are the most common bait used for the larger fish, however, the little ones being on the line for bass and crappie and the big ones furnishing the trap for the catfish. Perch are valuable adjuncts to the trotline means. In the program warden days the smaller catfish made excellent bait for their parents and grandparents.

WOMEN, GIRLS' CLUB NEWS

By MISS EMMA GUNTER, Home Demonstration Agent

The County Home Demonstration Council will meet in regular session Saturday, June 9th. At this meeting a program for the Rally Day will be submitted by the committee appointed. Plans for the Short Course trips will be discussed and July program of work explained.

Those people who have fresh vegetables in their gardens cannot afford to let the opportunity pass without canning the surplus, even though it be one or more jars per day.

Mrs. H. D. Moore and Mrs. H. L. Harrell reported canning English peas, spinach, berries and beets. Mrs. Harrell had the largest pantry of any one last year and is busy again conserving her surplus.

The Looney Home Demonstration Club met in regular session Friday, with 14 women present and three visitors. The work for the afternoon was on the importance in the making of the dresses for this summer of the collar and sleeves. Showing how to cut them and patterns of some already cut was given by Miss Gunter. In the business session the club voted to send a delegate to A. & M. College in July. At the quilting held at Mrs. M. A. Webb's on Wednesday 26 women came and helped quilt, as a result 5 new members were enrolled. A lemon squeeze was participated in and netted 80 cents for the treasury. The next meeting will be Friday June 8th at the church house. Mrs. C. C. Black, Reporter.

The Hyman Home Demonstration Club met in regular session at the home of Mrs. Walter Averitt with 9 women and one visitor present. The after business session consisted of the plans for Short Course. How to block slip patterns by using the foundation pattern was given by Miss Gunter. The work in clothing for 1934 plans for each woman who has a foundation pattern to block her a slip by using the foundation waist and skirt pattern, and these will be exhibited in July at the Rally Day program. Club adjourned to meet again Friday, the 15th. Mrs. J. W. Saepper of Colorado was a visitor.

All bedroom demonstrators are to be the guests of Miss Gunter assisted by Evelyn Hope, her niece, Saturday evening and Sunday morning.

The girls have done exceptional work and they in turn are asked to celebrate. Those girls invited are Novalee Groom, Lone Star; Mildred Feaster, Buford; Katha Lee Harrell, Lorraine; Errah Yarbrough, Silver; Opal Leach, Conaway; Florice Andrews, Hyman; Jauree Burford, Rogers; and Melba Ruth Adams, Carr, and Margie Carlisle, Shepherd club.

Miss Gertrude Blodgett, district home demonstration agent, will visit the winning bedroom Thursday, June 14th, instead of Miss Jennie Camp who at first was to come. While here Miss Blodgett will visit other girls' rooms; so that she might get the type of work that has been done in the county.

Call liver, rabbit meat and a dozen other types of meat are used for the big catfish.

The common earthworm is the one bait that works for all fish, however, it is the most common bait used for perch, in which the Conchos abound, but it also nabs the crappie, bass, and catfish, particularly the latter.

SALVATION ARMY TO MAKE ANNUAL APPEAL

The annual appeal for funds to carry on the work of the Salvation Army in this section and in the Texas division will be made in Colorado this week by W. D. Pedigo, campaign warden from the headquarters.

The Salvation Army is a non-sectarian Christian organization giving its services to the destitute and the neglected, regardless of denominational leaning.

Part of the work carried on in this division during the past year included feeding meals to 476,000 transients, giving clothing to 5,900 transients, and employment was found for some 2,900 men and women. Two hundred unfortunate girls were secured for in the maternity homes and hospitals.

The appeal which will be made is for the entire year and any other canvas will be without authority from the organization.

In Australia, the usual practice of the bushman is to marry the daughter of his mother's brother, or his mother's mother's brother's daughter's daughter.
