VOLUME 27

PLAINS, YOAKUM COUNTY, TEXAS, THURSDAY, JUNE 20, 1957

NUMBER 25

Substitute Clerk Position Open at Plains Post Office

Applications are now being taken for the position of substitute clerk at the Plains post office, it was announced this week.

Examination for the appointment will be held at Semmore, with applicants to be notified of exact time and place. Beginning salary is listed at \$1.82 per hour.

The application card form may be secured at the Plains post office or from the Regional Director, Eighth U. S. Civil Service Region, Room 103, 1114 Commerce Street, Dallas 2, Texas. The application must be filed with the Office of the Eighth U. S. Civil Service Region not later than July 1st.

The work consists of handling heavy sacks of lettermail, parcel post and papermail weighing in some instances 100 pounds or more; sorting and distributing mail to railway post offices and related duties assigned. The work involves continuous standing, walking, throwing packages of mail, stretching to empty sacks and reaching to all parts of the distribution case in sorting. The duties of newly appointed clerks are at times interchangeable with the duties of substitute carriers and of mail handlers, mail handlers being appointed only to perform the heavy tasks.

All competitors will be required to take a written examination designed to test aptitude for learning and performing the duties of the position. The test subjects will be of the following types: (1) following instructions; (2) address checking and (3) general abilities. About 2½ hours will be required for the written examination.

Competitors will be rated on the written examination on a scale of 100. In each of the three test subjects, competitors are required to attain a rating of at least 70. In addition, on the written test as a whole, competitors must attain a rating of at least 70.

Cities Service Station Opens

The Cities Service Station, owned by Arthur E. Kinder, opened for business Friday, June 21.

The station has just been completed and is located within the city limits on the Brownfield highway. Mr. Kinder will operate the station and will be assisted by his sons, Lowell and Bobby. He reports that he has "expert wash and grease hands" to serve the public.

Mr. Kinder has been a resident of Plains for the past six years.

Watch for announcement of the formal opening which will be held at a later date.

CAROL McRAE, second from left, is shown above just shortly after she arrived in Austin to attend Girls' State. With her are several other Girl Staters. A total of 360 girls from all over the state of Texas attended the 10-day event.

Recognition Earned By Local Girl Stater

Back from ten days at Girls' State in Austin is Carol McRae, tired but much richer from a variety of experiences which she will never forget.

Carol, 15-year-old daughter of Mr. and Mrs. W. B. Scott, received a number of recognitions during the annual convalescence, which was held at the Texas School for the Blind.

She was a candidate for judge of the court of criminal appeals of the Nationalist party, winning in the city and county primaries but being defeated by a narrow margin in the state election. She was elected to the state executive board of the Nationalist party, and was appointed to the Board of Control for Southern Regional Education.

Carol also served as a member of the House of Representatives, and won 4th place in the Citizenship Contest. A total of 360 girls from all over the state were present.

Carol left Lubbock at 1:05 a.m. Monday morning, June 10, traveling by bus to Austin. From the time of arrival, time was at a premium for a full schedule

of activities had been outlined. Many outstanding speakers were heard, among them the Secretary of State, Comptroller of Public Accounts, and the Assistant Attorney General. Governor Price Daniel was to have been a guest speaker, but was unable to work it into his busy schedule.

An open house, the first to be held at Girls' State, was conducted on Sunday, and a Texas Talent Review presented by many of the girls. One of the major addresses was made by the national president of the American Legion Auxiliary, which organization sponsors Girls' States over the nation.

Girls who were members of the House of Representatives, as Carol was, and of the Senate, as well as those filling the chairs of governor, and other offices, actually had the thrill of meeting in the legislative halls at the Capitol and transacting business.

A complete account, written by Carol, is to be carried in the Review next week, giving many personal highlights of the 10 days spent at Girls' State.

Boy Scouts To Leave Saturday For Yeso Camp

Plains Boy Scout Troop 78 and its members plan to leave at 8:00 a.m. Saturday morning for Yeso, N. M. and return early Monday morning. This is the first of such outings for the entire troop since they were reorganized on April 2 of this year, according to Scoutmaster Roland Johnson. Several fathers are making the trip with the scouts, including Tom Warren, Sherm Tingle, and J. S. Wagley. Other fathers of scouts are cordially invited to make the trip with the boys. All scouts will assemble in front of the Jr. High School between 7:30 a.m. and 8:00 a.m. Saturday morning to board a school bus for the trip. The bus will leave promptly at 8:00 a.m.

A special meeting was held by the scouts at the Legion Hall Tuesday night and the following boys were elected to various scout offices: Senior Patrol Leader, Tommy Warren; Patrol Leaders, Sam St. Romain, Harmon Meixner, and Jimmy Burke; Quartermaster, Jerry Bob Warren; Scribe, Jack Meixner; Bugler, Sam St. Romain; and Reporter, Jimmy Burke. The following scouts are in good standing in Troop 78: Jimmy Burke, Dick Cooke, Mike Culwell, Billy Hampton, James Hampton, Butch Hawkins, David Johnson, Kenneth McGinty, Steve McGinty, Harmon Meixner, Tommy Payne, Billy Stockstill, Ronny Stockstill, Sam St. Romain, Lee Tingle, Joe Wagley, Milton Watson, Jerry Bob Warren, Tommy Warren, James O'Neil, J. B. Wilson, Lee Willingham, and Olen Heath.

Troop 78 is now sponsored by the Lions Club of Plains. Several of the Lions have given their money and services toward the completion of the new Boy Scout Headquarters located in the P. G. Stanford house.

Karen Randolph Goes To Band Camp

Karen Randolph is among 258 junior high and high school students who are attending a three week Texas Tech Band School which continues through June 28.

Instructors include, Dr. A. A. Harding, director-emeritus of the University of Illinois band, and Mark H. Hindsley, present Illinois band director and president of the American Bandmaster's Association.

Karen is the daughter of Mr. and Mrs. Wallace Randolph and is a member of the Sophomore class at Plains High School.

Residents Will Vote on Bond Election Saturday

A Bond election will be held in the city hall in Plains Saturday, June 22, to determine whether the city will be authorized to issue bonds in the amount of \$35,000.00 to be used in completion of the city's electric system. Polls will be open from 8 a.m. to 7 p.m. Only qualified voters residing within the city limits of Plains who have rendered property for taxation may vote in the election.

Election officials will be T. E. Coke, presiding judge, D. N. Taylor judge, Mrs. Kenneth

Hale, clerk, and Dr. May Gainer, clerk.

Issuance of the bonds has been necessitated for completion of the electrical distribution system, according to Mayor W. R. Curry, through an error on the part of the engineer who de-

signed the system in preparing the first estimate of cost, because the town has outgrown the original plan, and because some of the poles and lines will have to be moved so as not to cause a conflict with the existing system.

The city's generating plant has been completed and is ready to be put on the lines. The plant consists of three 172-kw Ingersoll-Rand engines which were inspected by many interested citizens last Saturday during a demonstration.

The bonds will of necessity have to be tax bonds, to be paid by revenues from the systems. However it will not be necessary to levy additional taxes in order to issue the bonds, and they cannot become part of nor cause any of the revenue bonds to have to be paid with taxes.

Murphy Luna To Be Honored For Draft Board Duty

A certificate of appreciation from the President of the United States will be presented to Murphy Luna, Plains, June 25, 1957, at 2:00 p.m., at B rownfield.

The presentation will be made by Col. Morris S. Schwartz, State Director of Selective Service, in the office of the Yoakum-Terry-Hockley County Draft Board Number 116 at the Brownfield State Bank and Trust building.

The certificate is being awarded to Luna for "fifteen years of service to his county, state and nation as a member of the draft board — a service performed without pay for his time and trouble."

Signatures on the award will be those of Pres. Eisenhower, Gov. Price Daniel, Lt. Gen. Lewis B. Hershey, who is national director of Selective Service, and Col. Schwartz.

Luna served with Bruce Zorns of Brownfield and Dwil W. Wright of Sundown.

Luna is a pioneer rancher, having come here in 1905 even before Yoakum County was organized. He served as tax assessor for several years and also served as commissioner in precinct 2 for some time. He was serving on the school board when Plains received its first state aid. He is now a member of the A.S.C. County Committee.

He was co-founder of Plains in that he carried the mail free of charge for several months in order to help establish a post office at Plains.

Mr. and Mrs. Luna are the parents of three daughters, Mrs. Sherm Henard, Mrs. Bill Harris Powell and Mrs. P. W. St. Romain, all living at Plains.

MURPHY LUNA

Youth Loses Arm in Car Mishap Near Here

Jerry Warren, 16 year old youth of Andrews, suffered the loss of his left arm in a hit-and-run accident five miles north of Plains on Highway 380 last Thursday night about 9 p.m.

The youth was en route to Dora, N.M., with his mother, Mrs. L. G. Warren, when an approaching car sideswiped the Warren vehicle, continuing on down the highway without stopping. Young Warren had his arm

out the window, and the force of the collision when the two cars hit nearly severed the arm between the elbow and shoulder.

His mother was able to stop a passerby, who took them into Plains, where they met Deputy Sheriff Olan Heath, who rushed the boy to the Yoakum County Hospital.

Warrens arm was amputated at the shoulder, and he was reported in good condition, despite the loss of much blood.

See YOUTH on Page 8

MASONIC LODGE TO INSTALL HERE MONDAY EVENING

Public installation of the Masonic Lodge will be held Monday night, June 24, in the County Show barn at Plains. Installing officer will be Wallace Anderson, with Guy Harrod as installing Marshall.

New officers for the coming year are Worshipful Master, T. A. Elmore; Senior Warden, Truett Jones; Junior Warden, Homer Sudderth; Senior Deacon, Pete Bryson; Junior Deacon, T. J. Miller; Secretary, B. F. Bartlett; Treasurer, M. W. Luna; Chaplin, A. E. McGinty; Tiler, Glen Morehouse.

New Yoakum Home Demonstration Agent Is Hired

Mrs. Claudia Chapman, who is currently at Denton, was hired Monday by the county commissioners' court as the new home demonstration agent for Yoakum County.

The position has been vacant since the first of February. Mrs. Chapman is to assume her new duties on July 1. Salary was not set.

In other action, the commissioners voted to pay A. J. Allen's Estimate No. 4 for \$12,204 on the library buildings, and approved the budget of the South Plains County Health Department in the amount of \$504.30 per month.

The court authorized County Clerk J. W. O. Alldredge to advertise for the purchase of one diesel powered crawler tractor.

SHOWN ABOVE is the death vehicle in which Hubert Brown, Jr., of Lubbock, lost his life in a two-truck crash early Tuesday morning two miles west of Tokio. The Standard Milling Truck, loaded with feed, collided with an empty oil transport of Cactus Transport Co., Midland.

Truck Accident Is Fatal to One

One man was killed and another seriously injured in a two-truck collision early Tuesday morning two miles west of Tokio.

Dead is Hubert Brown, Jr., 28, of Lubbock, driver of a Standard Milling Co. feed truck, who was believed to have been killed almost instantly.

Still undergoing treatment at Yoakum County Hospital is Burton Gilbert of Dumas, driver of an oil transport truck for Cactus Transport Company of Midland. He suffered severe lacerations of the face and scalp, com-

-pound fracture of the left arm, rib fractures and a punctured left lung. Hospital officials reported his condition as "good" Wednesday afternoon.

According to county sheriff's office officials, who investigated the crash together with the Texas Highway Patrol, Brown was moving west on Highway 380 when the collision occurred. The Gilbert truck was traveling south on a farm to market road. Time of the accident was set at 6:55 a.m.

The oil transport was hit about

in the middle of the tank, the impact sideslipping the tank a distance of some 44 yards. The motor of the feed truck was knocked completely out, going through the windshield and landing to one side. Feed was strewn all over the area. A power pole was snapped, causing a cut-off of electricity in that locality for a short time.

The body of Brown was to be taken to Trenton for funeral services and burial. He is survived by his parents, Mr. and Mrs. H. E. Brown, Sr., the wife and three sons, all of Lubbock.

Plans Continue for Golden Jubilee

Details of the Golden Jubilee celebration in observance of the 50th anniversary of Yoakum County continue to take shape, with the latest feature being a beard-growing contest.

Leo White, of the Lions' Club, met with the Lions' Club at Denver City Tuesday noon, asking their cooperation in the sponsoring of such a contest, which was pledged.

The contest will be open to all men of the county, with three cash prizes of \$25 each to be awarded. Winners will be judged in three categories: (1) most unique beard, (2) heaviest beard and (3) most typical pioneer beard.

Judging will be done on Saturday, August 24, by a committee of two ladies and one man, yet to be named.

For those men who shy away from letting their beards grow, shaving permits will be available at a cost of \$10. These will go on sale July 10. However, those in charge of the contest point out that anyone who wants to compete in the contest had better get started growing that beard now. Current reports are that several have already indicated they'll be after those cash prizes, and competition is expected to be keen.

In order to qualify for being exempt from purchasing a shaving permit, see GOLDEN JUBILEE, Page 8

JEANINE ST. ROMAINE, daughter of Mr. and Mrs. P. W. St. Romain, is a candidate for Miss Golden Jubilee of Yoakum County. Jeanine, sponsored by the Tsa Mo Ga Club, is a Junior in Plains High School. She is a very talented musician and gives much of her time toward entertaining for all organizations.

VISITING WITH OUR NEIGHBORS

The Muleshoe City Council met Wednesday afternoon for a brief session, devoted largely to a discussion of summer work projects including paving and making needed changes in sewer lines.

THE MULESHOE JOURNAL

An intensive campaign to clean-up, paint-up, and fix-up Seagraves will begin Monday and continue through next Saturday. Members of the Lions and Rotary clubs have divided the town into two sections and are competing to promote the most improvement in each section.

GAINS COUNTY NEWS

Three Terry County men are attending a meeting in Alliance, Neb., today as American, Canadian and Mexican authorities attempt to iron out difficulties blocking a proposed north-south international highway to run through Brownfield.

BROWNFIELD NEWS

The Texas Company was granted a permit to drill a third oil well inside the city limits by the city council Tuesday night despite strong opposition by some 25 residents who attended the public hearing to voice their protests.

The decision was unanimous with all five aldermen feeling that they were bound to comply with the ordinance passed in 1953 unless the drilling violated some part of the document. After hearing both sides of the arguments, the council ruled that residents protests did not show where the company would not be in accordance with the ordinance.

THE ANDREWS County News

The establishment of a swimming pool was discussed at the regular meeting of the Lions Club on Monday night, and they expressed themselves as being heartily in favor of anything that would promote the building of a pool in Ropesville.

THE ROPES PLAINSMAN

Fishing is now permitted in Upper Goose Lake on the Muleshoe Wildlife Refuge south of Muleshoe, Bob Darnell, refuge warden has announced. Texas fishing license is sufficient permit to fish the lake during daylight hours only, and there is no charge for fishing the lake.

THE MULESHOE JOURNAL

The Cochran County Sheriff Posse expects to have approximately 14 to 16 riders ready this afternoon at 4:00 p.m. at Plainview for another pre-rodéo parade.

MORTON TRIBUNE

At a meeting of a representative bunch of citizens on Tuesday night, the feasibility of paving the residential streets was discussed.

Honolulu Has New Oiler in Prentice Field

Honolulu Oil Corporation No. 14-B N. C. Clananhan has been completed in the Prentice 6700 field of Northeast Yoakum County.

On daily potential test, it fained for a pumping potential of 96 barrels of oil, plus five per cent water, gravity 29.8, from open hole at 6,503-6,705 feet.

Wellsite is 660 feet from south and 1,980 feet from east lines of section 323, block D, J. H. Gibson survey.

Honolulu will drill No. 6 Paul Cobb and others in the Prentice 6700 area. Site for the 6,800-foot test is 660 feet from north and 1,980 feet from east lines of section 381, block D, J. H. Gibson survey.

John J. Eisner of Abilene No. 1 A. T. Granger is to be drilled as a 5,500-foot wildcat project nine miles west of Plains in West Yoakum County.

Drillsite is 660 feet from south and west lines of section 18, block D, John D. Gibson survey.

Second producer has been assured in the South Seagraves (Devonian) field of North Gaines County.

Operator reported a four-hour flow, through a 3/4-inch choke, of 115 barrels of new oil, and no water from pay behind perforations from 13,054 to 13,068 feet.

A previous gauge, through a one-inch choke, was 255 barrels of oil in three hours and 20 minutes.

Rotary was being moved off location on last report.

Drillsite is one location southwest of the field discovery, 660 feet from north and west lines of section m 3, block C-35, psl survey, 5 1/2 miles southwest of Seagraves.

Drilling & Exploration Company, Inc., No. 7 Marshall-Cheek is a new well in the Brahaney field of Central Yoakum County.

On 24-hour potential test, the well pumped 121 barrels of oil, plus 20 per cent water, through perforations from 5,314 to 5,324 feet, after 9,000 gallons of acid. Gas-oil ratio was 319-1.

Location is 1,980 feet from north and west lines of section 470, block D, John H. Gibson survey.

Another well in the Brahaney field is Magnolia Petroleum Company No. 2-A E. W. Jones, 660 feet from south and east lines of section 391, block D, John H. Gibson survey.

It completed for a 24-hour barrels of 33.1 gravity oil, pumping potential of 117.4 through perforations from 5,269 to 5,295 feet.

Aphids, Thrips Infest Cotton in Bailey and Yoakum

Although weather conditions during the past week have been favorable for the growth of cotton, a large portions of the acreage has been replanted due to poor stands. Where earlier stands were secured growth, prior to the past week, has been slow due to low temperatures and frequent rains. While light insects infestations have developed in occasional fields of the earlier planted cotton, most of the plantings have suffered little damage.

Aphids were reported in light infestations on cotton in a number of the earlier plantings in Bailey and Yoakum Counties. Such infestations were generally found throughout fields.

Thrips occurred in light infestations in some fields in most communities. Hard rains have tended to hold thrips in check, but these insects may appear in large numbers during clear weather. Cotton should be checked frequently so that timely control of damaging infestations may be effective.

For control measures for various insects, consult the 1957 Cotton Insect Control Guide which can be obtained from the County Agricultural Agent's Office.

A seismograph crew works thirty months to find one successful oil prospect—and a year to find a little over a million and one half barrels of oil.

With GOD

... there is no limit to His reach. But with man, ah, that is different. He reaches only as far as God permits. You may reach for the moon, or prestige, or gold but God determines the length of your reach. *You don't have to reach for heavenly bodies to impress God.* Why not let your moral law bind you to perform social duties that build better communities? Help build some churches, or schools, or help those less fortunate than you. *If you really want to extend your reach try praying with a troubled neighbor, or furnish transportation to church for those who have none.* Make no mistake, He will lengthen your reach if you'll do a little work for Him.

HOLY BIBLE
YOU IN THE CHURCH THE CHURCH IN YOU
Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you" forms a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.

AUSTIN, Tex.—It's vacation time in Texas. During the next three months millions of people will stream to every corner of the state in search of relaxation. But a lot of home folks will stay home. They make a living catering to the tourists. Vacationing is big business in Texas. And it promises to get bigger. Last year nearly 8 1/2 million out-of-staters visited Texas—only 12 per cent on business. They spent \$350,000,000 for food, lodging, gasoline and entertainment.

Next year voters will decide whether to try to hustle in even more visitors and money through nationwide advertising. A proposed constitutional amendment to remove the ban on spending state funds for advertising was passed by the last Legislature. It will come to a vote at the November, 1958, general election.

Meanwhile, several state agencies and a host of municipal and private organizations give out information on how to have fun in Texas. State Highway Department has just issued a brand new map telling how to find your way over the state's 100,000 miles of roads. It includes 20 full-color pictures and a warm welcome to the "land of hospitality." Available free from the department.

State Parks Board, house-keeper for 49 state parks, plans many new camping, swimming and picnicing facilities. It got a

"generous appropriation" from the Legislature, said the Board.

Texas Game and Fish Commission has help and advise for the one in every four Texans who hunts or fishes. Its numerous publications give guidance ranging from where the fish are biting to what to do for snake bite.

YEAR'S WATER SUPPLY—Without another drop of rain, Texas' 35 major reservoirs now have enough water stored to last a year.

Heavy spring rains poured 6 million acre feet of water into the reservoirs filling them to 92 per cent capacity, reports the State Board of Water Engineers. Storage is about twice that of a year ago.

FLOOD SURVEY SOUGHT—But the unprecedented rains brought problems. State Water Board wants money to make an emergency survey of what the floods did with a view to learning how to prevent future destruction.

Both the Board and Gov. Price Daniel requested an appropriation for this from the last Legislature. But it didn't go through, so now the Board has asked donations from the state's five water districts and river authorities.

It wants several thousand dollars from each totaling \$17,000.

NEW INSURANCE COMMISSION—A district judge, a federal Justice Department at-

torney and a former commissioner will take over reins of the reorganized Board of Insurance July 1.

As chairman for the new board Gov. Price Daniel appointed Dist. Judge Penn J. Jackson of Cleburne. Serving on the bench since 1944, Judge Jackson is former president of the State Bar of Texas judicial section.

Other new members will be David B. Irons of Fort Worth, former assistant attorney general under Daniel, now with the Justice Department in Washington. Joe P. Gibbs of Seguin, retired board member who returned last spring at the governor's request, fills out the new board.

An acting commissioner of insurance is to be named by the board to serve until Sept. 1 when legislation for a permanent commissioner takes effect. He will receive \$20,000 a year, and be charged with administration of the department.

Present board members John Osorio and Mark Wentz will continue to serve until the new appointees take office.

GOODBYE TO CHIPS—Texas gambling has got to go, says Atty. Gen. Will Wilson. An all-out effort to shut down the multi-million-dollar empire in Galveston was called just the beginning.

Wilson and Department of Public Safety Director Homer Garrison Jr. cooperated in planning a massive raid on Galveston's illegal establishments. But the gamblers got word, closed up and cleared out ahead of the raid.

Wilson's staff followed up by filing padlock suits—boxes full of them—to try to prevent the places from re-opening.

Wilson and Garrison said they would follow the same pattern in other areas. First, local officials will be called on to suppress gambling and state cooperation offered. But, said Wilson, "if local officials fail to do this job, we will do it from the state level."

Gov. Daniel gave his full backing to the crackdown, hailed it as the "beginning of a new era in law enforcement."

MORE SCIENCE FOR TEENS—More study, with emphasis on science, will be required of future high school graduates.

New standards set up by the State Board of Education direct that:

1. Graduates complete 16 units of study, rather than present 15, including two years of laboratory science.
2. Physical education cannot be counted in compiling the units.
3. Not more than one class period of the day may be used for competitive athletics.

New rules will take effect during the 1958-59 school year, but are to be applied to ninth graders next fall.

SHORT SNORTS—No one person has a right to all the water in the river, ruled the Third Court of Civil Appeals. Its decision favored the Great American Development Co. which sued a Comal County landowner, Clayton N. Smith, after his irrigation pump dried up Rebecca Creek. . . . Gov. Price Daniel has asked the Army Corps of Engineers to remove silt and sand blocking the mouth of the Brazos where it enters the Gulf. Recent floods have shown the need for an adequate discharge channel, he said. . . . State Supreme Court upheld an order of the Industrial Accident Board preventing two Waco attorneys from practicing before it. While the Board does not have authority to disbar attorneys, ruled the court, it does have a right to require ethical practice from those appearing before it. . . . At the end of the first five months of '57 Texas farm products were commanding the highest prices since February, 1955. Prices of hogs, beef, lambs, chickens, eggs and wool were up

PARTS OF THE TWO TRUCKS involved in the tragic crash Tuesday morning near Tokio were strewn over a wide area. In the foreground can be seen the power pole which was snapped off by one of the trucks as it left the road. Driver of one truck was killed instantly, with the other sustaining serious injuries.

substantially over the previous months. Overall increase was polio cases in Texas has hit a 1 1/2 per cent. . . . Number of 10-year low, reports the State Health Department. Up to mid-June the state had had 142 paralytic cases, 82 non-paralytic. Five months total for 1957 was 172 cases, compared to 375 in 1954; 548 in 1952 and 505 in 1950.

Americans own and operate 90,000 fishing vassels powered and lubricated by petroleum products.

Guests in the J. W. O. All-dredge home over the week-end were: Mr. J. H. Roberts, Mr. and Mrs. Plainview, Mr. and Mrs. Jesse Roberts and family of Hobbs, N. Mex., and Mr. and Mrs. Jack Rouse of Lubbock.

Mr. and Mrs. W. C. White of Randall Crawford and daughter of Amherst were guests in the home of Mr. and Mrs. Leo White Friday night.

Mr. and Mrs. Roger Harvey visited in the home of Mr. and Mrs. J. W. Witherspoon in Muleshoe Sunday.

Mr. and Mrs. J. F. Crow of Borger visited in the home of Mr. and Mrs. Olan Heath over the weekend.

Rita Kay and Gerald Sith of Lubbock, are guests in the home of their grandmother, Mrs. W. M. Smith, this week.

Gerald Kennedy and Richard visited in the home of Mr. and Mrs. G. D. Kennedy over the week-end. They are in Fort Worth this summer.

Mr. and Mrs. Bill Goad of Midland, visited in the Bill Harris Powell home Saturday.

Mr. and Mrs. Dub Nelms of Hobbs, New Mexico, and Miss Lucille Hinkle of Brownfield, visited in the home of Mrs. Vicie Hinkle over the week-end.

Mr. and Mrs. Joe Wilson and family attended the wedding of Inez Green and Bobby New in Denver City, Friday night.

Mr. and Mrs. Emory Longbrake and Mr. H. O. Longbrake went fishing at Easley's Lakes at Lovington, New Mexico, Monday afternoon.

Mary Alice Mumroe of Plainsview is a guest in the home of Mr. and Mrs. Wyatt Lipscomb this week.

Mr. and Mrs. James R. Cox of Panhandle were guests in the home of Mr. and Mrs. G. D. Kennedy Sunday night.

Mrs. C. L. Billingsley visited relatives in Lamesa over the week end.

Mrs. Rowland Johnson and children are visiting relatives in Fort Worth.

These Forty Years!

forty years ago, in June of 1917, the Humble Company received its charter from the State of Texas.

The Company was formed through a merger of the properties of a number of independent oil operators. Its founding brought together a remarkable group of men who occupy an important place in the annals of the oil industry:

R. S. Sterling and his brother, F. P. Sterling, the principal organizers of Humble Oil Company from which the present company acquired its name; W. S. Farish and R. L. Blaffer composing Blaffer and Farish; H. C. Wiess with assets from Paraffine and Reliance Oil Companies; Walter W. Fondren and C. B. Goddard, producers; and L. A. Carlton and E. E. Townes as lawyers.

All of these men contributed greatly in adopting the principles, in shaping the policies, and in laying out procedures that have guided the Company's progress through these forty years. Their influence will survive as long as the Company continues.

They possessed courage and business judgment. They established high standards of performance. They built a strong organization of competent men and women.

The Company, as it stands today, is a tribute to the leadership, the vision, and the work of its founders.

But it is doubtful that these men, with all their foresight, visualized the changes that have occurred in the oil industry since 1917, or the size and complexity of Humble's present operations, or the extent of the Company's contributions through the years to the progress of our society.

To all who have made those contributions possible—employees, customers, shareholders and the people of the states in which the Company operates—Humble extends its thanks.

HUMBLE OIL & REFINING COMPANY

HUMBLE

The full story of "These Forty Years" is told in the anniversary edition of *The Humble Way*. If you would like a copy, it is yours for the asking. Address Humble Oil & Refining Co., Room 1158, P. O. Box 2180, Houston 1, Texas.

CONGRATULATIONS

Birthday and anniversary congratulations this week to E. S. Bandy and Lynn Fitzgerald, June 22; Mr. and Mrs. Casey Brown, June 25; Loren Gayle, June 26; Dennis Hickerson, E. H. Goehry, Mr. and Mrs. E. H. Goehry, and Dwight M. Meixner, June 27; Elsie Nordyke, June 28.

Sheriff Comments On "Slow Down and Live" Drive

"For just a moment, try to imagine the results if you were behind the wheel of your own car, then drove it off the top of a ten story building. It leaves you with a rather awesome picture doesn't it?"

"This thought provoking question was asked today by Sheriff Robert Chambliss, as he commented on the theme for the beginning of the Texas Safety Association's annual Slow Down and Live campaign.

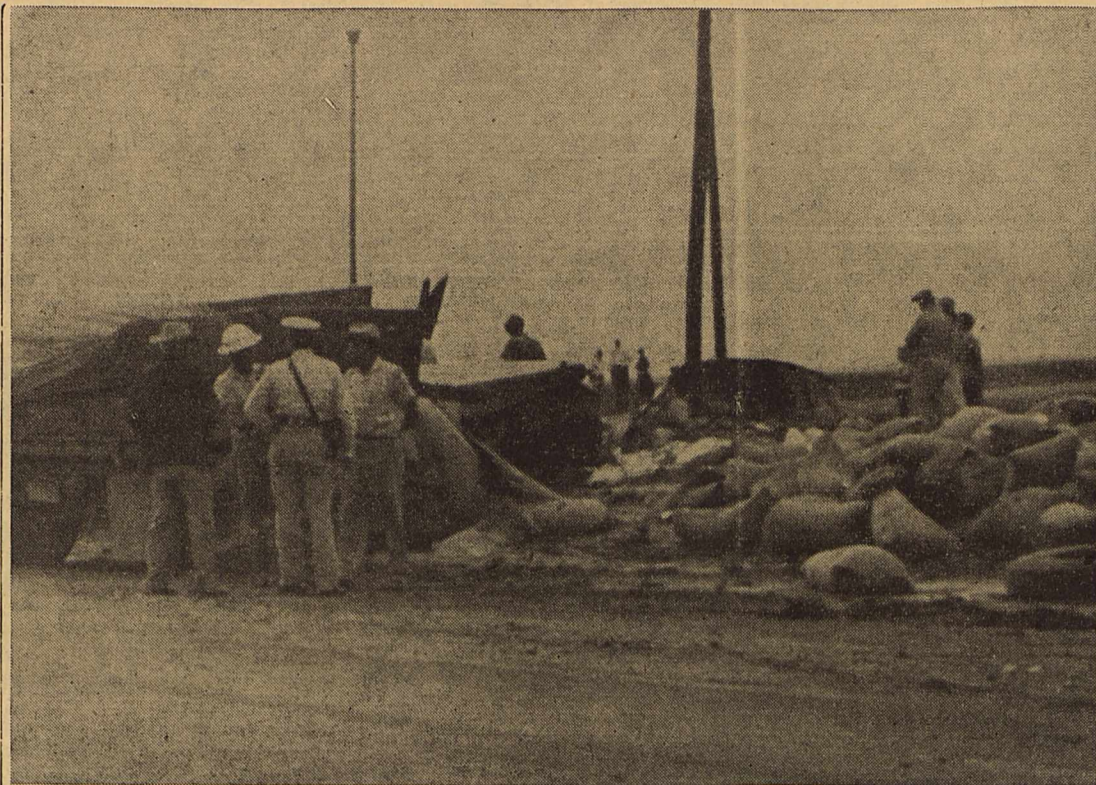

"Of course no sane driver would attempt such a foolish thing," Chambliss continued. "And yet, if the same motorist crashes into another car while traveling 60 mph, he will meet with equally disastrous results."

Chambliss said he did not believe that speed, in itself, is necessarily bad, but highly desirable for efficiency's sake. With our modern transportation system, speed is essential. Whether it is for police cars, taxicabs, ambulances, or in simply getting us from one place to another.

"No, speed is not bad," Chambliss said. "But, we must be able to determine at what speed we can travel with a maximum of efficiency and a minimum of danger."

Here in Texas, the county sheriff pointed out, all speed limits are clearly marked. And yet, these speed limits cannot be considered safe at all times. In other words, they are greatly affected by weather and traffic conditions.

To help the average motorist determine what a safe speed would be under specific conditions, Chambliss offered the

SACKS of SEED were dumped by the Standard Milling Co. feed truck, when it collided with an oil transport early Tuesday morning at the intersection of Highway 380 and a Farm to Market road near Tokio. One man was killed and another seriously injured in the crash.

following seven-point check list:

First, drive at a speed that will enable you to stop in the assumed clear distance ahead. Second, slow down before you get to curves and intersections. Third, at night, drive at the speed which will let you stop within your headlight range. Fourth, drive with traffic. You are probably going too fast if you are passing many cars and too slow if a number of cars are passing you. Fifth, where children are playing, be able to stop in a car length or less. Sixth, when you're tired or inattentive, stop and rest. Seventh, ALWAYS use common sense, this will mean never taking chances.

SHOP IN PLAINS!

NOTICE

The Plains Boy Scout Troop 78 will wash cars at the new Cities Service Station on the Brownfield highway Friday, June 21. The Scouts will be washing cars all day and will appreciate having you bring your car in. All proceeds will go to equip the new Scout hut.

NOTICE

All interested parties are invited to meet with members of the Tsa Mo Ga Club on Monday night, July 1, to organize a Cemetery Association for the Plains Cemetery.

SOIL CONSERVATION DISTRICT NEWS

Pastures all over the Yoakum Soil Conservation District are looking pretty and green and are trying to make some growth again. When pastures green up after a rain following a drouth there is always a temptation to buy some more cattle to replace the ones sold off due to dry weather. However, a lot of the green we see in the pastures turns out to be annual weeds when we examine them closely. Rangelands in this condition are going to need some special care now in order to give them a chance to recover from their struggle to survive during the past dry years.

GRASS IS DESTRUCTABLE

Grass has a remarkable ability to stand punishment. It can be grazed down time and time again and go through long periods of dry weather—but it is not indestructible. Each time it is grazed down close to the ground leaf growth is delayed until vigor is regained in the root system. If the grass is again grazed down close to the ground, a longer time may be necessary for regrowth to begin. If soil moisture is low as it often is during the summer months, the plant will be short on plant food and the root system will be reduced. As the root system becomes smaller, the plant's ability to gather moisture and plant nutrients is reduced and regrowth will be even slower. This process may continue until the grass is dead. Many grass plants will have the ability to survive following a period of heavy use but they will be in a very weakened condition. These plants need extra care.

These weakened grass plants

Tsa Mo Ga Yearbook Committee Convenes

The Tsa Mo Ga yearbook committee met at the club house Wednesday to plan the program for the coming year.

Mrs. R. B. Jones, Mrs. Ty Field, Mrs. Bert Bartlett, Mrs. M. W. Luna and Mrs. J. W. Moore, Jr., were present. Several members were unable to attend.

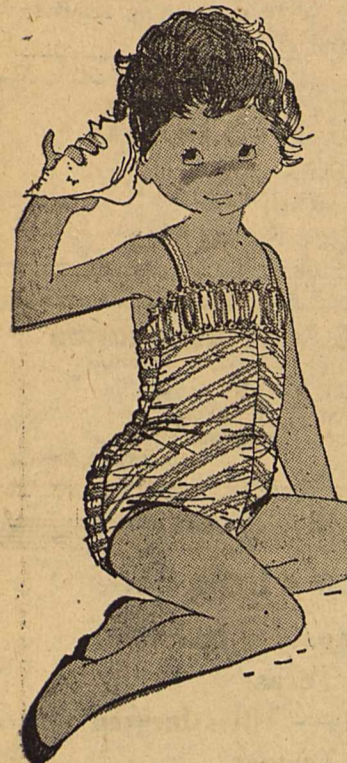

"In journalism as in other things, Monday's masterpiece wraps Tuesday's fish."

have, in a sense, had an operation. Their operation was major surgery—they had several limbs amputated and to further complicate matters they suffered from malnutrition because their ability to store and utilize food was damaged. They were also dehydrated from lack of moisture. If we had been in the hospital and had such major surgery a long period of convalescence would be prescribed. A great deal of time is necessary for the wounds to heal and for strength to return. These grass plants need this period of rest if they are to regain their strength and vigor.

BEST GRASS RECEIVES HEAVIEST USE

Since the most palatable and nutritious plants received the heaviest grazing they are weakened more than the less desirable plants that are not so palatable and were not grazed so heavily. Grazing grass too closely and too soon following the drouth will put a strain on the better grasses before they have time to recover and allow the less desirable plants to increase. Rangelands can be improved only through better range management.

IT'S THE LAW
in Texas

Suppose that you hire your neighbor's teen age son, Jimmy, to cut your grass, and he runs your new mower into another neighbor's hedge. The hedge is ruined. Are you responsible for the damage? Quite likely you are.

Or let us suppose that you find you need a loaf of bread for the evening meal. You ask a friend to take your car and run to the store for it. On the way, he runs down old Mr. Peabody, seriously injuring him. Can you be held responsible? It is possible that you can.

In both instances, an "agent" was acting for you. His acts while performing those duties are, in the eyes of the law, your acts. In legal terms, you are the "principal".

You may be liable despite the fact that you may have cautioned him to be extremely careful.

The average individual expects to answer for his own actions. He does not usually consider that he may be responsible for the action of other persons. That, however, is frequently the case.

Suppose you ask another person to do something for you, that is, to act as your agent. You may pay him, or he may be doing it without compensation.

You may ask him to buy or sell property for you. Or, his responsibility may be to negotiate an agreement for you with a third person.

If representations or warranties are made by your agent in performing the task which you assigned to him, you are responsible.

In a like manner, you are responsible for the contract made by him while he was acting for you.

You may be held responsible

for the acts of a person who customarily represents you even though he entered into a contract for you without your consent or approval.

For example, you may have a partner in a business, and you and he have agreed that certain contracts shall be made only upon the signature of both of you.

Unknown to you and without your consent, your partner signs such a contract with a third person involving partnership business. If the person with whom this contract is made has no knowledge of the terms of your partnership agreement, you are responsible for the contract which your partner has made.

You may have agreed between you that neither of you would buy, without the other's consent, any items of merchandise costing more than \$50. You did not give this information to salesmen who called on you. In your absence on a Thursday afternoon, your partner ordered merchandise for your store costing more than the \$50 limit.

When the merchandise is delivered, you can not refuse to accept it because you can be bound by the contract of your partner. This is true in many situations, and the salesman is not bound by your partnership agreement because you did not advise him of the \$50 limitation.

As the actions of your agent are considered to be your actions, you assume the responsibility of his doing them correctly.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Mr. and Mrs. Odie Lusk and Mr. and Mrs. Doyle Newsom were recent visitors in Salina, Kansas where they visit Mr. and Mrs. Harvey Lusk. Harvey, who is in the Armed Forces had received orders to report for duty in England. Mrs. Lusk and daughter, Sherri, returned to Plains and will make her home in Midland while Harvey is overseas.

James Ellis of Odessa has been in Plains the past week visiting his mother, Mrs. Thelma Ellis.

Mr. and Mrs. Bob Myers and family visited in Snyder, Sunday with relatives and friends.

Guests in the home of Mr. and Mrs. M. W. Luna this week are Mr. and Mrs. Ben Hurst of Wellington and Mrs. Era Earnest of Odessa.

Velma Wilson Is Honored Monday

Stanford Park was the scene of an ice cream supper Monday night honoring Miss Velma Wilson, who will spend the summer in San Diego, Calif., visiting her sister, Mrs. Warren Roberts.

Those attending were Nell Randall, Velma Wilson, Bettie Jackson, Odetta Ball of Nazareth, Jerry Brantley of Amarillo, Tommy Barron, Neil Billingsley, Joe Brown, Lanny Smith, Sandy Verden, Mrs. Jo Brown, and Mr. and Mrs. Neil Taylor.

New Spare Tire Sure to Save Milady's Temper

One "spare tire" guaranteed to fatten TBA sales, and slim chances for feminine temper tantrums, is a new emergency 1,000-mile tire that makes changing flats less tiring. Women won't have to spoil their manicures struggling with heavy equipment or stiff lug bolts because the specially engineered, oil-based nylon reinforced tire folds up into a hand-bag-sized kit that contains everything needed for a smooth change—a tire puller for removing flats from the wheel, and a small cylinder charged with carbon-dioxide gas for inflating the spare. This is an example of how oil men, researchers, and manufacturers pool their talents to make driving safer and more pleasant for the nation's motorists.

WASHINGTON NEWS LETTER

By Sen. Lyndon Johnson

Throughout my life, I have held firmly to a fixed belief. It was summed up by Thomas Jefferson when he said:

"I know no safe depository of the ultimate power of society but the people themselves; and if we think them not enlightened enough to exercise their control with a wholesome discretion, the remedy is not to take it from them, but to inform their discretion by education."

Because of this belief, I did not deplore the fact that the Russian communist leader Nikita Krushchev was able to come into our homes by television and state his case. I believe Americans have too much sense to be deceived by open communist propaganda.

I did regret, however, that we did not answer his broadcast with a demand that the Russian leaders grant spokesmen of our own choosing the right to appear—uncensored—on Soviet television and radio. I am willing to back the American case against the communist case any time—because I am confident the American case will win.

Since the end of World War II, this nation has taken the lead consistently in trying to rescue mankind from atomic conflict. We have offered to reduce armaments; to share our atomic secrets; to allow "open skies" inspection to enforce disarmament agreements. We have asked in return only reasonable safeguards to insure that the Soviets will not violate the agreements and use them to further the communist cause.

These agreements have come to nothing because the communist leaders have been able to conceal the facts from the

Speed Control Is Driver Protection Chambliss Declares

"Speed control is for your protection. Cooperate with your enforcement officers!"

That advice was given to motorists today by Sheriff Robert Chambliss, as he urged all Texans to support the Slow Down and Live program of the Texas Safety Association.

"To hear some motorists talk, you'd think speed regulations were made by grouchy policemen just to make life tough for drivers," Chambliss said. "The fact is there's a very good reason for every regulation made."

"Speed regulations represent the combined thinking of traffic engineers and police," he said. "Before a speed limit is established for a given area, many factors must be considered. Studies made prior to the establishment of speed limits deal with such things as the number and frequency of intersections, winding roads, residential areas, location of schools, heavy traffic, hilly areas, and wide open country."

"The driver who flouts speed signs based on such careful study has very little respect for his own safety," Chambliss said. "And don't forget that a driver might be driving below the posted speed limit and still be driving at a speed that is too fast for conditions, and therefore unlawful."

"The Safety expert pointed out that posted speed limits give the speed that is safe under ideal conditions of weather, road, traffic, driver, and vehicle. If any one of these conditions is not up to par the driver must compensate by reducing his speed," he said.

"All it takes to determine a safe speed is plain common sense," Chambliss said. "The wise driver is his own policeman. He makes the job of the traffic officer a lot easier, and he saves the taxpayer enforcement dollars."

Russian people. Future agreements will meet the same fate unless we find a way of penetrating the "iron curtain" so the Russian people will hear our side of the story.

I believe we should demand the right to make weekly telecasts and radiocasts to the Russian people. They should have the chance to hear our businessmen; our labor leaders; our professionals; our leaders of agriculture.

In return, we should be willing to grant them the same privileges in our country.

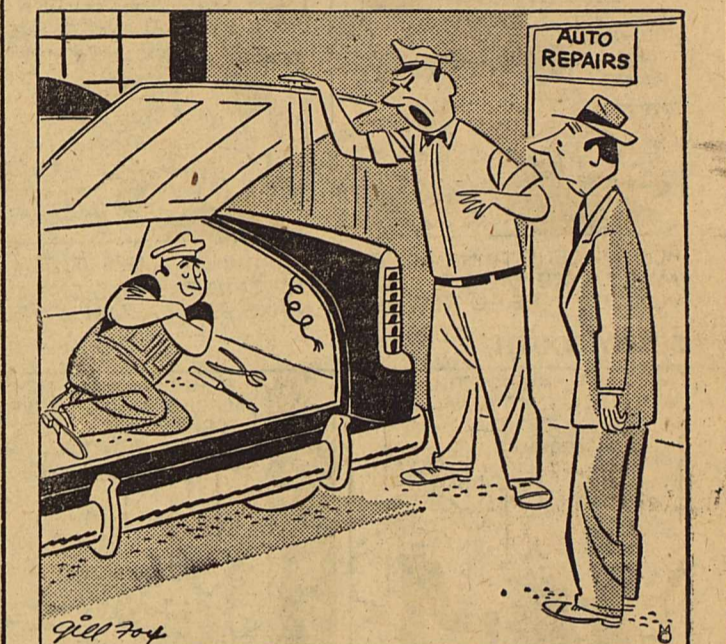

This offer should be pressed

upon Nikita Krushchev every time he is within earshot of an American representative. And if he refuses, he will have to explain to the whole world why we are willing to let him state the communist case to our people but why he is not willing to let us state the case of freedom to the Russian people.

Let the people know. Once they have the facts, they can make the honorable, just and fair decisions that will rid us of the fears of world wide atomic war and the arms race.

WMU Circles Meet For Study Tuesday

The W.M.U. of the First Baptist Church met in circles for a study on Prayer, Tuesday morning, June 18.

Mrs. C. J. Coffman was hostess to members of the Avis McCullough circle, with Mrs. S. L. Tingle presenting the lesson.

Coffee and cake was served by the hostess to Mrs. S. L. Tingle, Mrs. Nellie Wauson, and Mrs. Clyde Amonett.

The Doris Jackson Circle met in the home of Mrs. T. J. Miller. The study was taught by Mrs. L. E. Coke.

Coffee and cookies were served by the hostess to Mrs. H. W. Taunton, Mrs. L. O. Free, Mrs. Bud Brian and Mrs. L. E. Coke.

Golden Jubilee

(Continued from Page One)

ing permit, men must have at least one square inch of growth on their chin, it was announced. Side-burns alone will not do, the committee asserted.

Other features of the Jubilee are rapidly shaping up, it was announced. Mrs. P. W. St. Romain has been named as chairman of the big parade Saturday, August 24, at midday. All businesses as well as individuals and organizations are being urged to begin plans now to enter a float in the parade.

One entry, that of Jeannine St. Romain, has been made in the contest to find "Miss Golden Jubilee of Yoakum County". Anyone interested in entering the contest may contact Mrs. Sherm Henard or Mrs. James Warren. Entries must be in by July 4.

Youth

(Continued from Page One)

Sheriff office officials threw up a road block after the accident to apprehend the driver of the other car, a 1955 Oldsmobile, and he was arrested a mile west of Brownfield. He was identified as Ross Chidester of Brownfield, and now faces a felony charge of failure to stop and render aid.

ACROSS THE CATTLE GUARD

By LEO W. WHITE
County Agent

The weighing of beef calves for the gain contest got completed last week with 46 calves going over the scales. Some of the boys and girls have not yet selected their calves and they will not be in the gain contest. It is very likely that there will be 50 beef calves in the show next February.

Following is a list of beef calf feeders and the weights of their animals as of June 1st: Oscar Henard, 502 and 285; Kenneth Powell, 499; Terry Powell, 494; Sam Watson, 461; Linda Fitzgerald, 451; Dana Bryson, 441, 389 and 330; James Cogburn, 427; Mike Loe, 426 and 275; Jay Bryson, 402 and 367; Ty Earl Powell, 390; Dianne Bennett, 388 and 387; Chip Bennett, 384 and 352; D'Lois McGinty, 382 and 299; Sarah K. Field, 372 and 256.

Rex Swann, 363; Eddie Cogburn, 356; Harold Lee Swann, 351; Tommy Payne, 347; D'Lynn McGinty, 341, 280 and 258; Robert Fitzgerald, 335; Frances Henard, 318 and 197; Marsha K. White, 229; Eddie Hamby, 291; Margaret Henard, 283 and 214; Kenneth McGinty, 281 and 270; Dan Field, 246; Sylvia McGinty, 243 and 236; Jimmy Taylor, 212.

These 30 boys and girls will be pushing these animals during the next 265 days trying to win the loving cup that is offered by G. W. Cleveland to the winner of this contest. The weight on June 1st will be deducted from their weight on February 21st and the calf that puts on the most gain will be the winner.

We look at the calves and try to pick out some outward characteristics that would make one gain faster than another and usually we find that it did not work out. I have one calf picked out that I think will be up near the top. My reasons for picking him was because he was young for his weight and I figure that a calf that gains rapidly during the early part of his life is likely to continue to put on fast gains.

The calves, as a whole, are even a better group of calves than we had last year. There are

TWELVE GIRL SCOUTS, three visitors, and the Scout leader attended a cook-out in the Plains Park Tuesday afternoon. As one of their requirements, the younger girls had to follow a trail which had been laid earlier by the older Scouts. During the business meeting, camp at Las Leonitas, Buffalo Lakes, which some of the girls are planning to attend, was discussed. This camp will be held July 7 through July 14. Present for the cook-out were Jackie Nolan, Tonya Randolph, Margaret Henard, Lavern Sealy, Margaret Green, Janna Warren, Jackie Hawkins, Danna Dyer, Judy Love, Jeanine St. Romain, Kaye Spencer, and Linda Fitzgerald, and visitors Charlotte Mears, Suzahn St. Romain, and Joe St. Romain. Mrs. Pete St. Romain is scout leader.

IOTA PI CHAPTER MAKING PLANS FOR ANOTHER ACTIVE CLUB YEAR

The Iota Pi Chapter of Epsilon Sigma Alpha committees have been meeting during the summer months making plans for the coming club year.

The yearbook committee is working on the new yearbooks and the Theme for the Year will be "Home's where the heart is."

The group serving on this committee are Mary Lee Swann, chairman, Mary Jo St. Romain, Jackie Myers, Elsie Carpenter, Gwen Short and Jo Brown. The social committee have met and planned the summer social activities. Those serving on this committee are Velma Warren, chairman, Ann Green, Jackie

Myers, Wilma Elliott, and Doris Hawkins. The welfare committee met at Margaret Taylor's, with her serving as chairman along with Eunice Moore, Lois McGinty and Jo Brown. They discussed different things to help in the community for next year. Next year's budget was planned by Carolyn Rowland, chairman, Mary Jo St. Romain, Mary Dale Williams, Dorothy Lowe and Jo Brown. The group is now making some temporary plans for their float for the jubilee. Dorothy Lowe left Thursday from Midland to attend the International Convention in Memphis, Tennessee, over the weekend. There she will be met by Martha Shaw who will be serving as the other voting delegate. Dorothy carried the club scrapbook to be placed on display for judging at the International meeting.

JAMES ELLIS LEAVES TUESDAY FOR ARMY DUTY

James (Issac) Ellis, son of Mrs. Thelma Ellis left Brownfield Tuesday morning to be inducted into the Armed Services. James graduated from Plains High School in 1952 and enrolled in Texas Technological College at Lubbock where he received a Bachelor of Science degree in 1956 in Petroleum Geology. Since graduation he has been employed by the Phillips Oil Company in Odessa.

Home Ec Teacher Attends Meeting

Jo Brown, Homemaking teacher attended an Area in-service-teachers conference in Odessa June 13 and 14. Morning speaker Thursday was Dr. Kirk, superintendent of the Odessa school system. The conference was for the purpose of gaining new ideas and learn the new policies put out by the state.

Most of the entire program was given by the teachers themselves. There were short cuts in teaching sewing, foods, grooming and house planning and room arrangement. During the parade of ideas given Thursday afternoon, Mrs. Brown gave a demonstration of room arrangement by use of the flannel board, also showed the house plans explained the things taught by done in Homemaking III and this unit. She also discussed the Betty Crocker Test as a teaching device and gave a short talk on the Betty Crocker Tour. The Homemaking teachers will attend the State Teachers Conference in August in Houston.

L. D. Proctor and Grady Harton were in Socorro, N. Mex., on business last Friday.

Patricia and Helen Betts of Hobbs, N. Mex., visited in the home of Mr. and Mrs. George Biggs last week.

Oneata Biggs visited with relatives in Hobbs last week.

Mr. and Mrs. Joe Wilson and family are visiting in the home of their daughter, Mrs. Warren Roberts, in San Diego, Calif., this week.

Shower Honors Mrs. B. E. Loyd

Mrs. B. E. Loyd was complimented with a pink and blue shower Wednesday afternoon, June 19, in the home of Mrs. Wyatt Lipscomb.

The table was laid with a white Irish linen cloth. The punch bowl was surrounded with greenery and pale pink flowers. Shades of pink flowers were used throughout the entertaining rooms.

Approximately twenty guests registered from 3 to 5 in the baby book, which was placed on a table with a stork and doll in a cradle.

Assisting Mrs. Lipscomb with hostess duties were Mesdames Raymond Palmer, Robert Henard, Ormal Pippin, G. T. Blount, B. C. Stapleton, Roy Stockstill, and Frances Smith.

Refreshments of lime punch, cake frosted with pink and green frosting, nuts and mints were served to the guests. Mrs. Palmer and Mrs. Stockstill alternated at the punch bowl.

Protect Citizens From Excessive Radiation Dosages

Austin—Last month an Austin State Hospital physician called the State Health Department to report that a radium needle, being used to treat a patient with skin cancer, had been dislodged or lost.

Did the Department have radiation detection equipment with which the needle might be located? The Department did, and the needle was subsequently found in a gauze bandage.

This incident, one of many that take place every month, illustrates the manner in which the Department's Division of Occupational Health, working in cooperation with private physicians and other agencies, is quietly going about the task of protecting citizens from the dangers of excessive radiation exposures.

A great deal has been said in recent months about the imminent peril the entire nation is facing from excessive radiation. Much of that information has been true in general, but some of it has been misconstrued to the point where people have cancelled much-needed x-ray treatments or examinations because of unjustified fear of radiation exposure.

One of the state's leading radiologists, writing in the Texas Medical Association Journal, has summed up the situation by saying that curtailment of radiologic examinations would cause a failure in diagnosis that would result in many times the number of deaths than would theoretically occur from radiation accumulation in the population 20 generations from now.

There is no question but what the various sources of radiant energy now in use—isotope usage in industry and medical research and the so-called "fall-out" from atom and hydrogen bombs are potentially dangerous.

But the very fact that danger exists serves as a sort of safety valve. Persons engaged in peacetime use of radiation equipment and materials, acutely aware of the hazards, act with extreme caution.

Competent physicians and dentist keep accurate records of their patients' radiation exposure level. Wealthy foundations have been set up to train technicians in the safe use of radiation devices. And federal and state governments—along with medical, dental, and engineering schools—have made considerable investments of money to insure proper control of radiant energy equipment.

And as a sort of clincher, the Texas State Department of Health is one of five states which has complete regulations regarding the registration and proper use of all radiation-producing equipment and materials. So while it is true that ever-increasing uses of radiant energy in national defense, medicine, and industry does demand that we exercise every precaution, that caution must be tempered with common sense. Radiation in controlled amounts can be more beneficial than hazardous.

IN HOSPITAL

Mrs. Eugene Payne underwent major surgery in the West Texas Hospital in Lubbock, Monday morning, June 17. Word has been received that she is convalescing nicely.
