New Businesses Reflect Steady Growth of City

WORKERS ARE BUSY laying brick tile for the new cafe which will be operated by M. W.

Hill Building will be on the site of the former Sunshine Cafe, recently destroyed by fire.

Growth of Plains continues to be evident in the establishment of new businesses and the remodeling and improvement of existing firms to better serve the steadily increasing needs of an expanding community.

Construction was started this week on two new business places, and remodeling plans announced by two others.

Ground was broken for a restaurant, owned by Mrs. Alma Anderson and work started on the foundation of the building. The site is at the corner of Avenue B and 10th Street.

The modern masonry building, to be 38 by 42 feet, is being constructed by the Forrest Lumber Company with George Burke as local representative. The building is scheduled to be completed within 45 days.

Mrs. Anderson stated she would have a seating capacity of about 70 people in the restaurant, which will also include a small dining area.

Also under construction is a drive-in cafe, located just east of the Hill Magnolia Service Station on the same site as the Sunshine Inn which burned several months ago. The building is being built by M. W. Whitford of Denver City, and is owned by M. W. Hill. To be 30 by 60 feet in size, the structure will be of brick tile and is scheduled for completion in 40 days.

The Gray Lumber Company, under ownership of George Gray, is undergoing a remodeling job. An area 32 by 42 feet has been added to the original display room, which more than doubles the size of the space. This will be used for office space and for a larger display room, Gray said.

George Burke also announced this week that he will remodel the former Tri-County Feed store building to accommodate a new coin-operated G.E. Automatic laundry.

When the remodeling is completed, Mr. Burke plans to install 20 big capacity washers, featuring non-clogging filter for cleaner and brighter clothes, detergent dispenser, activator washer (top to bottom agitation), damp dry spin-lint free, top loading, soft water wash and rinse, and non-tangle wash. He also plans to install Hammond dryers.

Opening date for the ultra-modern General Electric laundry will be announced later.

The Plains High School Track Team walked off with the district 5-A track meet which was held in Midland Saturday, April 12. The scoring by teams was Plains 71, Sundown 44, O'Donnell 23, and Seagraves 12.

Don Cooke and Ross Stotts dominated the weights by gaining 8 points each. Ross was first in the discus with Don second and Don was first in the shot put with Ross second.

Plains is sending a strong representation to the Regional Track Meet to be held in Lubbock today and tomorrow (April 18-19). Indications are that competition will be extremely keen this year. County Receives Full Payment For Deficit In Funds

The full amount of the deficit in the county tax assessor-collector's funds, which was reported following an audit of county funds last January, was paid to the county Monday by County Sheriff Robert Chambliss, who also serves in the dual capacity of tax assessor-collector.

Chambliss gave a personal check to the county treasurer in the amount of \$1680.15 in full settlement of the deficit. Credits making up the \$1716.74 deficit as shown by the audit were allowed by the commissioner's court.

Judge Paul New pointed out that restitution of any deficit in a county office rested with the official in charge.

In his talk, Coach Kimbrough praised the Plains students for their interest and participation in athletics. He also emphasized the importance of a good athletic program in high school and later in college and the good it does toward building strong bodies and greater character.

Introducing the coaches and other guests present was Supt. G. D. Kennedy. Miss Jeanine St. Romain, Lions Club sweetheart, furnished music for the occasion at the piano. Roger Harvey was program chairman.

Subscription Campaign Nears End

The race for the grand prizes in the Press-Review "Good Will" Circulation Campaign is nearly over. The campaign will end Friday, April 25, at 10:00 p.m. Subscriptions received after that time will not give candidates credit.

Where is your favorite today? But much more important—where will that candidate be when the campaign closes? A few subscriptions given or withheld can turn the tide either way. Not one of the candidates can have TOO MANY votes, but TOO FEW may mean defeat.

LAST CHANCE TO HELP
All are working hard in the few remaining hours. Don't let your favorite down. Give your new or renewal or extension subscription before the closing hour of the campaign and help one of these workers.

All workers who do not win a prize will be paid 20% commission. Let it not be said that it was the subscription which YOU withheld which prevented your favorite from winning one of these prizes—first, \$1,000; 2nd, \$500; 3rd, \$300; 4th, \$200; 5th, \$100; 6th, \$50.

The Campaign will close Friday at 10:00 P.M., April 25. The Prizes will be awarded Saturday at 2:00 P.M.

After due consideration by the campaign department it has been decided to withhold further standings of the candidates because some of the workers are so closely bunched that a listing at this time would be unfair.

Here are the candidates listed ALPHABETICALLY and NOT according to standings:

Tax Sam Sez:

By this time we hope you have already filed your 1957 income tax return without any errors and sent along your check if you owed any tax. In case you haven't, it's almost certain that you wish you had filed on January 1 instead of April 15. Your tax problems for 1958 are not over, however, if you make over \$100 income on which tax has not been withheld. April 15 is also the deadline for filing an estimated tax on how much money you are going to make this year. Payments on this estimate are due on April 15, June, September 15 and January 15, 1959. If you have income outside of a salary on which tax has been withheld, you ought to read the instructions on preparing an estimated tax return.

FISHING WITH MICE—Ever try a mouse for fish bait? As a kid we use to use baby mice. Sometimes we'd take them while they were still young and red. When we wanted to catch a really big fish we'd wait until the mice got big enough to give plenty of action.

Set Date for Voting on Wheat Marketing Quota

Farmers in Yoakum County will vote June 20th on whether they want to use marketing quotas for their 1959 wheat crop, M. W. Luna, chairman, County Agricultural Stabilization and Conservation Committee, said today.

Quotas for the next wheat crop were proclaimed by the Secretary of Agriculture on March 21, as required by legislation whenever the available supply of wheat is more than 20 per cent above the normal supply. The supply this year—estimated at more than 2 billion bushels—is actually 57 per cent above normal.

Mr. Luna pointed out, however, that the quotas will not become effective unless they are approved by at least two-thirds of the producers voting in the referendum. If quotas are approved for the 1959 wheat crop, it will mark the sixth consecutive year they have been used for wheat. Wheat quotas and wheat allotments apply only in the 38 so-called "commercial" wheat states, of which Texas is one.

To be eligible to vote in the June 20th referendum, the chairman explained, a grower must have more than 15 acres of wheat for harvest as grain in 1959. Any wheat grower who signs an application under the feed wheat provision permitting him to produce up to 30 acres of wheat as feed on his farm will not be eligible to vote in the referendum. Wheat growers will be informed of the wheat allotment for their farms in advance of the referendum date.

As usual, Chairman Luna says, the ASC Committee will set up polling places throughout the county for the convenience of farmers in voting. Locations will be announced later by the County ASC Office.

If quotas are approved in the referendum, farmers who comply with their wheat acreage allotments will be eligible for the full available price support on their entire production. Wheat growers who exceed their farm acreage allotments will not be eligible for price support and they will also be subject to marketing quota penalties on their excess wheat if they have more than 15 acres of wheat for harvest as grain.

If quotas are not approved, there will be no restrictions on wheat marketings. Allotments will remain in effect, but farmers who comply with their farm wheat allotments will be eligible for price support at only 50 per cent of parity.

Farmers wishing to sign for the Acreage Reserve program on cotton have been on a "waiting list" basis since early February when the \$500 million appropriation originally provided for the program was exhausted. As a result of the wide interest by farmers taking part in the program, an additional \$250 million has been provided by Congress.

Generally, the Committee said, the farmers who will be able to enter the program as a result of the new appropriation are those who were put on "waiting list" registers by the February 20 closing date for cotton.

Architect for Plain Clinic To Be Named Soon By County

Selection of an architectural firm to complete plans and specifications for the Plains Hospital-Clinic is expected to be made shortly by the commissioner's court.

A number of representatives of interested firms met with the court Monday, and a decision will probably be made in the near future. As soon thereafter as funds from the recently voted bond issue are available, a contract for the work will be let.

Two locations for the clinic are currently under consideration, and a site will also be announced in the near future.

At the meeting Monday, the court voted to follow the recommendation of the Texas Extension Service to grant a raise in salary to the county Home Demonstration Agent to \$2310, with travel allowance of \$800 annually, effective as of April 1, 1958.

Returns of the April 5th election for county school trustee were canvassed and approved, and a bid of \$647.70 from the Lamesa Printing Company for one extension desk for the sheriff's department was accepted.

Bills against the county as submitted by the county auditor were approved for payment, and hospital bills were also ordered paid.

ACROSS THE Cattle Guard

by LEO W. WHITE
County Agent

Gene Bennett was the man who agreed to give a ewe lamb to the boy or girl who exhibited the grand champion lamb in the 1958 show. It turned out that ewe lambs were hard to find just before the show last February so he bought a registered Southdown ewe. Corky Coke had the winning lamb so he got the Southdown ewe and everything is working out fine for Corky. He still has his old ewe and she is the proud mother of a ewe lamb. Corky is in the sheep business now but he is no better off as far as a feeder lamb for the 1959 show is concerned. He will probably be looking for another wether lamb to enter in the show next year. Maybe next year he will raise a male lamb that will be suitable for the show.

Tommy Payne is faced with a similar situation even though Tommy has never entered a lamb in the county show. Tommy raises Hampshire sheep instead of Southdowns and he started in the business almost two years ago. He has one ram and one ewe and he has had them ever since they were weaned lambs. The first lamb was born this year and it was born just at the right time to make a good show lamb but it is also the wrong sex. Next year he will have another chance and maybe he will get a lamb that he can feed out and bring to the county show.

Oscar Henard has had a Southdown ram and four or five Southdown ewes for about three years and he has always had to buy lambs to enter in the show. This year is different since he has two male lambs born in March and should just right for a February show. Cote and Rodney Trout will not have to worry about where their lambs are coming from this year since they are raising a few Southdowns and Shropshires on their farm.

In the 1958 show there were 19 boys and three girls who entered lambs in the show. Most of them will be back next year with lambs and there will likely be others who will be entering lambs for the first time. A very small percent of them are making plans to produce their own lambs but that would be the logical answer to the lamb hunting problem. Some of the boys made enough profit from one lamb last February to buy a ewe with a good lamb to her side. A boy in the fourth or fifth grade in school would have enough time ahead of him that one ewe and her offspring could really put him in the sheep business by the time he graduated from high school. A flock of ten ewes could produce enough feeder lambs for him and about two other lamb feeders who do not have room for a breeding flock. By having a small breeding flock along with some feeder lambs a boy would have an opportunity to learn a great deal more about sheep than he could possibly learn from feeder lambs alone. He would have a job 365 days a year during the lamb feeding season. He would have a project that would grow larger each year as he became older and capable of taking on more responsibilities.

An ideal set-up for a nine year old boy who needed to go rather slowly because of financial reason would be to start with one lamb just as many of our 4-H boys started last year. They next year they should be able to handle two lambs and do all of the grooming work without much

assistance from any adult. Then if they started their breeding program when they were about 11 years old with from one to six females, they would have a very satisfactory sheep program that would last until they entered college. Several boys in other areas have followed this type of program and by the time they entered college they had a flock of sheep that would pay most of the expenses of a college education.

Of course, any other livestock program can work the same way if it is allowed to grow but the boy and girl who feeds one animal each year and never increases the size of their project will find that it is a slow way to pile up some savings and that there is very little to learn after the first two or three years.

TSA MO GA STUDY CLUB MEETS FOR EXCELLENT PROGRAM MONDAY NIGHT

"Conversation About Conservation" was the theme for the Tsa Mo Ga Study Club meeting Monday, April 14th. The club met in regular session with president Mrs. R. K. Field in charge. Club collect was given, and roll

call answered by Mesdames R. B. Jones, Marion McGinty, Eugene Payne, T. R. Nordyke, Robert Chambliss, J. B. Ricketts, Wayne Chadwick, Gus Malmsten, R. K. Field, Harvey Stotts, J. W. Moore Jr., and Miss Sue Stevens. One guest, Miss Gumilla Malmsten from Sweden, was present. She is the niece of Mr. and Mrs. Gus Malmsten.

Mrs. Donald Ray Lackey, Mrs. K. O. Hendricks, and Mrs. Chick Lee were elected new members of the Club. Mrs. Lee was a charter member of the organization.

Mrs. Eugene Payne asked club members to assist with the cancer drive at 4:00 p.m. on April 15th. Mrs. R. K. Field announced that the Girl Scouts have peanuts to sell again. The money raised will be used for the girls to go to Scout camp this summer.

Mrs. Gus Malmsten, program director, brought this thought to the attention of those in attendance: "Our historical traditions and our national resources constitute two asset values which everyone of us must work daily to preserve if we are to pass freedom and abundance to those who will come after us."

Mrs. J. W. Moore Jr., discussed "The National Parks, and what they mean to you and me."

Mrs. Moore stated that less than three-fourths of one per cent of our area is in National parks and monuments. The United States is one of the foremost among Nations of the world in preserving for its people choice examples of its land. The preservation of superlatively scenic areas and areas of great scientific and historical interest, for the use and enjoyment of the people, is one of our country's most far-sighted

policies. The National Park Service is one of the great conservation agencies of the Federal government. Under the law that established the parks service, it is required to provide for the enjoyment of the scenery, the natural wonders, the historic objects and the wild life in such a manner that will leave them unimpaired for future generations.

It was pointed out that the book, "The National Parks and What They Mean To You and Me", is in the local library. It is a wonderful visit by proxy to many of the national parks, and contains valuable information as to access and accommodations near these preserved areas.

At the social hour Mrs. Stotts and Mrs. J. B. Ricketts served open-face sandwiches, cookies, and punch. The punch was served from a huge bowl made of rose colored ice and a bed of finely crushed ice and pink roses on a large silver tray. Mrs. Stotts was the creator of this beautiful arrangement.
