## 900 chickens perish in fire at Billingsley farm Friday night

Fuse box short causes damage of about \$6,500

Fire Friday night destroyed the chicken house on the C. L. Billingsley farm and more than 900 caged layers died in the blaze. Billingsley, who lives about 10 miles southeast of Plains, estimated his total loss at approximately \$6,500.

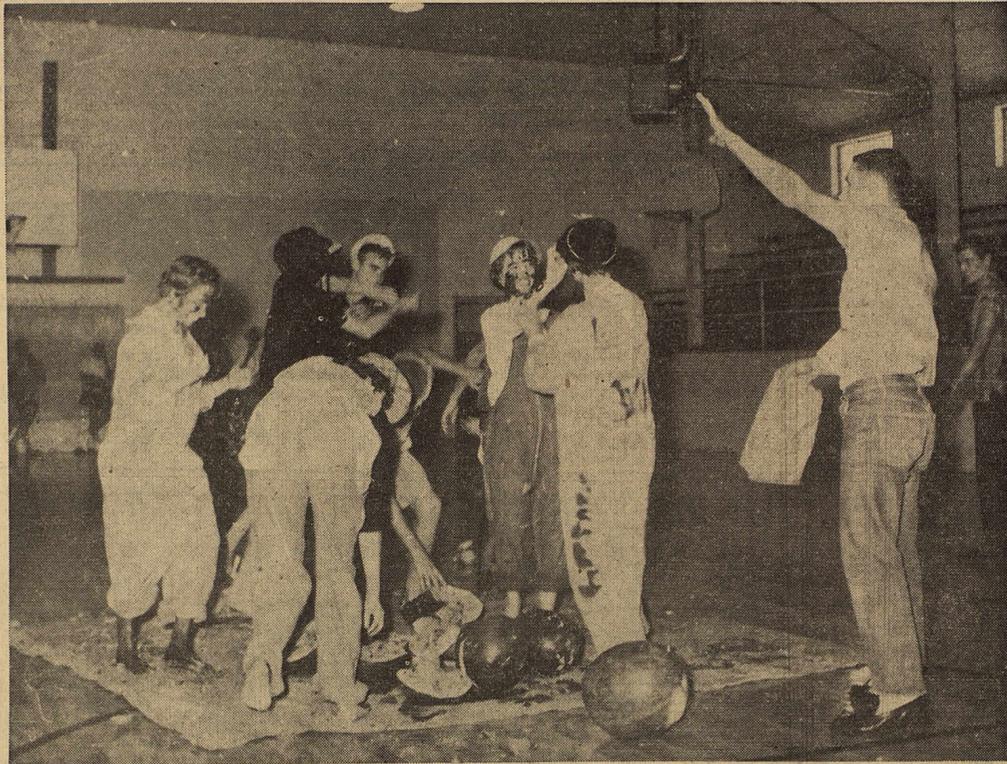

Firemen from both Plains and Denver City answered the call which reached Plains shortly after 10 p.m. Billingsley credited work of the two fire departments with saving about 220 of the hens and approximately 25 per cent of the building.

Altogether the Plains farmer had between 1,130 and 1,140 laying hens. He estimated they were worth from \$2 to \$2.50 each of the 220 which were saved, he said many were scorched and burned badly and he was sure some of them would be lost.

In addition to the hens and the building, Billingsley said he lost the cages, cooler and feed, as well as a number of other items. The fire apparently started from a short in the fuse box. Plains firemen were called back to the farm Saturday morning when smoldering rubbish threatened to start a new fire. The threat was quickly abolished.

Billingsley had been in the caged egg business for the past few years and he sold his eggs to a number of Plains business firms. He estimated his entire layout as being worth \$7,500. He carried no insurance.

## 10 face DWI charges during two-day session

Criminal cases, including 10 for DWI and 11 for swindling and worthless checks, are among 24 set for trial Monday and Tuesday in County Court of Yoakum County. Other cases include five for illegal transportation of alcoholic beverages and one each for negligent homicide and fraud.

## Judge, attorney pledge harmony following fracas

Yoakum County's Attorney and County Judge came to blows last Friday morning as the result of an alleged accusation made at a county commission meeting four days previous.

The alleged attack took place in the office of County Judge Don Hancock about 10:30 and involved Hancock, his law partner, Claude Freeman, and County Attorney Vernon Townes and his partner, Paul New.

According to information gathered from the combatants, the incident followed an alleged accusation that Townes had been using county funds for purchase of legal forms for his law partnership with New.

It was reported that during the commission meeting last Monday morning Hancock told the commissioners that Townes had ordered forms which the county had no use for when a bill was presented from a printing firm.

Reports said that Hancock was told by at least two of the commissioners to let the matter drop until Townes returned from a vacation later in the week.

When informed of the incident upon return, Townes and his partner went to the office of the County Judge and allegedly asked Hancock if the alleged accusation of "stealing" from the county was true. Hancock allegedly countered by telling Townes "we got you now."

When the incident arose in Hancock's office, it is reported, Hancock instructed his partner, Freeman, to call the police. This Freeman allegedly did after his instructions and a few minutes later Policeman A. J. Fowler arrived on the scene.

Fowler said today that when he arrived and parked his automobile at the rear of the office he could hear loud talking coming

## Over 40 steers being fattened by 4-H members

Yoakum County 4-H boys and girls have another good group of beef calves for the county show next February. There will be over 40 head of steers in the 1960 show.

Thirty of these animals came in to the September weigh day last Saturday afternoon. The same three calves are still running nip-and-tuck for the lead in the gain contest. This month Marsha White was out in front with a total gain of 351 pounds during the 126 days since May 16th. Mike Field, who has been leading for the past three months, dropped to second place by only three pounds. Mike's calf has gained 348 pounds.

Linda Fitzgerald's calf had a good gain this month and is in third place now with a gain of 345 pounds. Oscar Henard is fourth and there is a tie for fifth between Kenneth McGinty and Sylvia McGinty.

Last year at this same time the two leading calves had gained 381 and 380 pounds so the present group is about 30 pounds behind the fast gainer of last year. Last year was the first time since G. W. Cleveland started the gain contest that any calves had put on more than 700 pounds. There is still a chance that some of the calves can gain that much this year even if they are 30 pounds behind and have a two weeks' shorter feeding period.

Last year's group of calves averaged gaining 304 pounds between the September weigh day and the show day. Using the same rate of gain as last year, the animals should average 277 pounds of gain between last Saturday and next February 11. The fast gaining calves should put on about 375 pounds during the next 146 days which would put them well over the 700-pound mark.

Mike Loe has two calves this year and both of them started out last May as very good gaining animals. They slowed up for a time during the extremely hot weather but now they are getting back to normal. His big calf gained 111 pounds during the past five weeks which was more than any other calf gained during the same period.

D'Lois and D'Lynn McGinty did not bring their calves to the

## Plains Talk

By Wendell Faught

The Lakeview, Oregon, Examiner-Tribune tells a sadly amusing little story. Due to an error, a clerk was given a pay envelope containing a blank check. He moaned, "Just what I've been afraid of: My deductions have caught up with my salary."

We were in the press box at half-time with Bobby Brooks, the band director, at each of the first three football games. Although the band looked exceptionally well to us at the first game, Bobby really moaned and groaned. The second week he was not quite so disturbed, but still mumbled to himself while the band was performing. Then last week, the ole boy almost smiled on one occasion. So it would appear the band is on its way to a big year.

Twice lately we've caught Neil Taylor with an apron on. Once we saw him cooking hamburgers at the football stadium concession stand and then the other night we caught him in similar attire at the park barbecuing chicken. Mrs. Taylor apparently has quite a man.

The Interscholastic League's 1959 football season features teams from 916 high schools. This is the same number of schools that participated during the 1958 campaign, despite a number of consolidations during the past year. Texas has the greatest number of high school football teams fielded by any state in the union. This fall there are approximately 7,500 "A", "B" and junior high school football games being played with an estimated 100,000 boys participating and an estimated 10 million people will see these games. The breakdown of teams: conference AAAA, 103 schools; AAA, 87; AA, 178; A, 188; B, 218, and six- and eight-man, 242.

An interesting item carried by the wire service last weekend revealed that Americans spent more money last year for milk than they did any other drink. Beer remained a close second, although not as close as it had been during the previous year.

C. L. Billingsley, who lost 900 chickens as well as a building and a number of other things in a tragic fire at his farm Friday night, was extremely grateful to members of the Plains Fire Department, as well as those from Denver City, for their efforts in putting out the fire. When we talked with him in an

## Cowboys play at Jal on Friday

Plains takes its glittering football record to the land of enchantment Friday night, the Cowboys putting their spotless mark on the line against the big Jal Panthers in a game which will begin at 8:30 p.m., Texas time.

And despite the fact that Plains handled the New Mexicans with ease in their 1958 encounter played here, coaches have predicted a hard battle for the unbeaten Cowboys.

A new coach, a better organized club and much more team desire are factors which weigh heavily in the Panthers' favor. Besides those, Jal has a big team, one which will average approximately 170 pounds per man. "They have a real good looking bunch of boys," Coach Jack Pierce said Monday, and "I we're looking for a tough night."

Rules for the game will be considerably different from those which most fans are accustomed to since New Mexico rules are somewhat different from those

by which Texas teams play.

Most important of these are:

1. A fumble is a live ball for either team and any of 22 players on the field can pick up a loose ball and run with it, just as in professional football.
2. A punt or kickoff is dead when it hits the end zone. A player cannot run a punt or a kickoff out of the end zone, unless it is touched before entering the area.
3. Free substitutions prevail. A player may be sent into the game any time as long as there is no delay of the game.
4. On time-outs, coaches can talk to one of their players.
5. It is illegal to hit a passer after he has gotten rid of the ball.
6. Goal posts were not widened in New Mexico this year. Extra points are just as they were three years ago. An extra point attempt is made from the two-yard line and counts one point whether a kick, a pass or

a run. Pierce also said officiating in New Mexico is somewhat different. Officials, he said, call a lot of in-motion penalties.

The coach also said he understood the Jal playing field was not exactly a first-class gridiron. Lime is used to mark yard lines and he explained this is a little bit dangerous.

Jal is expected to be keyed high for the Plains game, the Panthers still remembering the 48-6 licking they took at the hands of the Cowboys last season.

Pierce said he felt the Cowboys had better team speed than the Panthers and he felt reasonably confident Plains could control Jal's running game, but he fears the passing. "They're a real tricky bunch," he explained. "They split an end far out to the right. Then the man playing right tackle often drops back a step from the line of scrimmage, thus becoming an eligible

receiver." "We're going to have to keep someone watching him all the time to see if he is on or off the line of scrimmage."

The Panthers' pro-type offense usually calls for an unbalanced line right. They run the straight split-T and the belly optional, thus making the quarterback a frequent ball carrier.

Friday's game will be the first of four consecutive games away from home for the Cowboys. They play Whiteface, Farwell and Frenship on foreign soil on consecutive Friday nights, before returning to their home field against O'Donnell on October 23.

## Sandra Smith is crowned football queen Friday night

Sandra Smith, Plains high school sophomore, was crowned Cowboy football queen at impressive half-time ceremonies Friday night during the Plains-Morton football game.

Miss Smith, daughter of Mr. and Mrs. I. L. Smith of the Tokio community, was selected queen by members of the football team in a secret ballot earlier last week, the results of which were not made known until the crowning ceremony.

The crowning took place inside a heart outline which was formed by members of the Plains high school band. Performing the pleasant duty of crowning the queen was Walter Coffman, one of the tri-captains of the Cowboy football team.

Attendants of the queen were the two runnersup in the queen balloting, Ruth Hinkle, a sophomore, and Linda Fitzgerald, a junior. Miss Hinkle was escorted by Don Todd, another Cowboy tri-captain, and Miss Fitzgerald's escort was the other member of the football captaincy, Harmon Meixner.

## GOOD MUSIC

... the common language of all people. It takes skilled musicians to blend an orchestra into the perfect ensemble... to make good music. Just as surely as it requires more discords than concords to make good music, so does it take more disappointment, sorrow and trouble to sweeten up a life... to make a good Christian. The orchestra spends a lot of time just tuning up. And so does a life if it is to count for God. One must go to Sunday School, attend church and learn of Him, if his music, his life is to be worthy to be used by God to warm the hearts of men. They learn well and play true.

# Cowboys stomp past Morton Indians, 18-0

Three second-quarter touchdowns by Plains enabled the Cowboys to knock the Morton Indians from the unbeaten ranks here Friday night amid a noisy homecoming crowd which was estimated at 1,500. Final score plays to travel the 93 yards, Fullback Joe Don Marrow getting the touchdown from 32

yards out on the second play of the second stanza. Marrow, ill all day with an upset stomach which kept him sidelined during most of the game, hit a hole off left tackle, completely ran over the Indian linebacker and spun away from a defensive halfback in a perfect display of the talent which makes him one of the most feared schoolboy backs in the area. Halfback Ray Faught was smeared behind the line of scrimmage as he attempted an end sweep for the two bonus points. Only 35 seconds had elapsed in the second quarter

attempted a pass for the extra points, but it fell incomplete. Morton failed to gain following the next kickoff and Jackie Brown punted out of bounds on the Plains 35. Three running plays and a 15-yard holding penalty left the Cowboys with a fourth and 17 situation at the 28 so Walter Coffman lifted his only punt of the night 42 yards down field. Willingham caught and then fumbled the ball and Plains again recovered, this time at the Morton 30. Williams and Joe Bob Oats took turns at cracking the line from that point and Williams finally got the touchdown from the four-yard line. Oats was stopped short of the goal in his try for the extra points so the score remained 18-0 with 1:15 left before half-time. The visiting Indians had one spurt left and might have scored had the clock not run out. Nairn returned the kickoff to the 34. He then scampered 13 yards for a first down at the 47. A 15-yard penalty against the Cowboys, a seven-yard scamper by Nairn and two completed passes by Quarterback Steve Middleton gave the Indians a first down at the Plains 9. But a first-down pass into the end zone by Nairn was no good as the half ended. The second half turned out to be strictly a defensive battle waged between the 30-yard lines, except for one more Plains threat in the third period. Eldridge Tidwell intercepted a Middleton pass at the Cowboy 42 and returned it to the 49. Faught, Williams and Marrow took alternating cracks at the line and moved to the 10-yard line where the ball went over on downs. The brilliant Cowboy defense was led by Meixner and Todd, but the entire team shined on numerous occasions. Dick Cooke, Jack Meixner, Coffman, Williams, James Alberding, Oats, Sink, Marrow, Tidwell, Vernon Ethridge, Ronny Stockstill, Darrell Barron and Faught all played well defensively.

was 18-0 as the Cowboys kept their record clean and made the visiting Indians their third consecutive shutout victim.

It was a super effort on the part of the Cowboys and their rock-ribbed defense was put to its sternest test. Morton threatened in the opening period, moving the ball from the Indians 25 to the Cowboy 7 the first time the visitors had possession of the ball. But with a fourth down and one from the 7, Harmon Meixner, a brilliant performer all night, met Indian Halfback Gary Willingham head-on at the line of scrimmage in a play which may well have been the turning point of this crucial battle.

From this point, the Cowboys began to roll. It took them 14

## Junior coach sees his record broken

Junior High Coach Sam Mosley saw a 10-game winning streak shattered last Thursday when the Plains eighth grade team dropped a 14-8 decision to O'Donnell. It was his first loss as a football coach. Mosley moved here this year from Hillsboro where he coached last year. His teams there played nine games and won them all.

He added one to that string after arriving in Plains, his ninth grade team defeating Morton.

O'Donnell scored the winning touchdown with less than a minutes to play to breaking an 8-8 tie. Plains had two touchdowns called back because of penalties.

The Plains B team crushed O'Donnell, 44-6, in a game played here Thursday.

This week's schedule calls for the eighth graders to host Seagraves while the B team plays in Seagraves.

## Tsa Mo Ga group to discuss youth

'Opportunity For Youth' will be the program theme for the Tsa Mo Ga Club at their regular meeting, Monday, September 29 at 8:00 p.m.

Mrs. M. W. Luna, Chairman of Community Affairs, will be program director. Co-hostesses are Mrs. Robert Henard and Mrs. Paul Cobb.

The outlined program: "My Opportunity of a Lifetime" by Linda Jones, the Tsa Mo Ga delegate to "Girl's State."

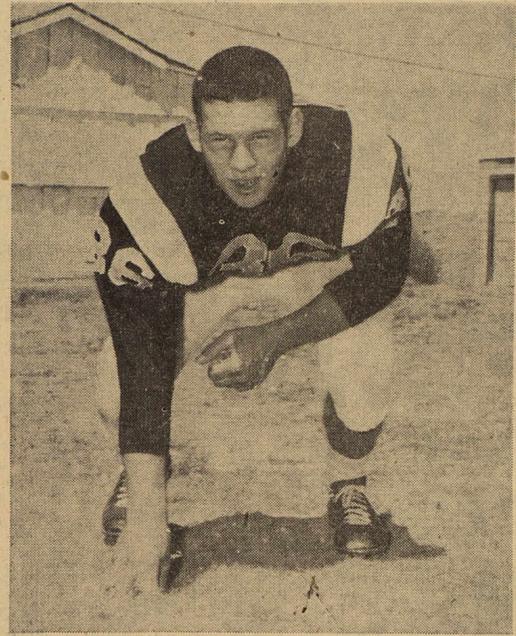

"A Like Opportunity" by Harmon Meixner, the American Legion delegate to "Boy's State."

Marsha White will report on her recent trip to Texas A&M College.

Donna Nugent, Honor Girl Scout, who attended the Summer Girl Scout Camp, will be complimented.

Mrs. Robert Chambliss will offer, "A Great Opportunity to Self and Humanity - Nurse's Training."

Piano selections by Stephen Foster will be presented by Margaret Henard.

ONE OF THE REAL defensive standouts in each of the three football games played by the Plains Cowboys this season is Harmon Meixner, 165-pound senior. Meixner has ranked either first or second in the number of tackles made in all games played so far and is one of the principal reasons why the Cowboy goal line has not yet been crossed. REVIEW Photo

## Plains holds third position

Plains retained its third-place rating this week in the poll of the Dallas Morning News. For the second consecutive week, the Cowboys were ranked behind Stinnett and White Oak in the list of Class A powers in Texas. Plains was placed a very strong third, only two points separating the Cowboys from second-place White Oak.

Ratings are released each paper. Ten members of the Tuesday by the Dallas news-sports staff select what they consider the top 10 teams in the state in the order they believe them to be. Ten points are awarded for each first-place vote, nine for each second-place vote, etc.

Stinnett and White Oak hogged all of the first-place votes,

the leading Rattlers getting six and White Oak getting the other four. Stinnett wound up with 84 points, White Oak had 76 and Plains gathered 74. Fourth-place White Deer had only 43 points. Wichita Falls continued to lead the class AAAA ratings despite a 14-14 tie with AAA leader, Breckenridge. Stamford paced the Class AA rankings. Area teams listed in the ratings included Levelland fourth in AAA, Canyon sixth, Denver City seventh and Floydada tied for 10th in AA.

Here is how the News ranks the top 10 Class A teams:

## Football opponents of Plains Cowboys continue domination over outside foes

Opponents of the Plains Cowboys continued to compile impressive records last weekend with only Seagraves and Friendship losing to outside foes. Seagraves dropped its first decision of the season, 23-6, to unbeaten Crosbyton while Friendship bowed to AA Post, 22-16.

Meadow and Wilson, the Cowboys' first two opponents, tangled with each other with Meadow winning, 26-6. Morton, of course, lost to Plains, 18-0.

Jal, the Cowboys' opponent this week, won over Fort Sumner while Sundown, expected to be Plains' chief threat for the district 5-A title, moved along unbeaten, crushing Anton, 60-12. Unbeaten Farwell kept rolling with a 31-16 win over Lazbuddie, O'Donnell upended AA Tahoka, 26-6, and Whiteface outscored Cooper, 20-14.

- Who Is Eligible for This Insurance?**  
Every member... man, woman or child... who is under age 70 and able to perform the usual duties of his livelihood (at work, home, or school) is eligible for this insurance when he deposits money in the credit union.
- How Much Insurance Do I Get?**  
You can earn insurance on \$1000.00 of your credit union savings. You get \$1 insurance for each \$1 you deposit before you reach age 55. Then for ages:  
55 through 59 ..... 75c insurance for each \$1

You are insured with a joint account, if your name appears first on the credit union records. The beneficiary is insured with a trust account.
- What Happens When I Retire?**  
You still keep your insurance as long as you leave your money in the credit union.
- Suppose I Leave the Credit Union?**  
Conversion privileges allow you to purchase a Cuna Mutual Ordinary Life insurance policy equal to (or less than) your Life Savings insurance. No medical examination is required.
- How Are Claims Paid?**

## Why we built two cars for 1960... as different as night and day

On October 2—for the first time in Chevrolet's 49-year history—you will be able to walk into your dealer's showroom and see two totally different kinds of cars. ■ One is the conventional 1960 Chevrolet, brand new in appearance and more beautifully refined and luxurious than you can imagine. ■ The other is unlike any car we or anybody else ever built—the revolutionary Corvair, with the engine in the rear where it belongs in a compact car. ■ We'd like to tell you why we built two such different cars, how we built them—and for whom we built them.

Why two kinds of cars? Because America itself has been going through some big changes in the past few years. Our cities have been straining at their seams. Traffic is jam-packed. Parking space is at a premium. And our suburbs have spread like wildfire. People are living farther from their work, driving more miles on crowded streets. There is new leisure time—but more things to do. There's a new standard of living—and more need for two cars in the family garage.

In short, America's automobile needs have become so complex that no one kind of car can satisfy them completely. That is why we at Chevrolet, keeping tab on these trends, have had a revolutionary compact car in the planning stages for more than nine years.

Thus, when we decided three years ago to prepare for production of such a car we were ready to build it the way it should be built. There was no need for a hasty "crash" program that would create only a sawed-off version of a conventional car.

That is why the two cars you will see in your dealer's showroom October 2 will be two entirely different kinds of cars. One is the conventional '60 Chevrolet—brand new in beauty, with new space inside, new spirit under the hood, a new feeling of sumptuousness and luxury never before attained by any car in its field. There is great V8 power linked with new thrift, plus Chevrolet's superb 6-cylinder engine. It is a traditional car that comes even closer to perfection—in silence, in room, in ease of control, in velvety ride—than any other car we have ever made.

The other is the Corvair, a compact car that is astonishingly different from anything ever built in this country. It has to be—because this is a six-passenger compact car, with a really remarkable performance... a car designed specifically to American standards of comfort, to American traffic needs.

The engine is in the rear. Among the basic advantages resulting from this engine location are better traction on a compact 108-inch wheelbase and a practically flat floor. But to be placed in the rear, the engine had to be ultra light and ultra short. So Corvair's engine is totally new—mostly aluminum and air cooled; it weighs about 40 per cent less than conventional engines. It is a "flat" horizontally opposed six—so it is only three cylinders long... and that leaves a lot more room for passengers.

Another weight saving: like modern airplanes, the Corvair has no frame; the body-shell supplies it great structural strength... it's a welded unit that is virtually rattle-free.

The ride is fantastic. But to get it we had to design independent suspension at every wheel; conventional springing would give a compact car a choppy ride. Right now we'll make one prediction: no other U.S. compact car will ride so comfortably, hold the road so firmly and handle so beautifully.

Now there are two kinds of cars from Chevrolet—because it takes two kinds of cars to serve America's needs today. If you love luxury—the utmost in luxury—and if you want generous interior space, breath-taking performance, automatic drives and power assists—then the conventional '60 Chevrolet may be your choice.

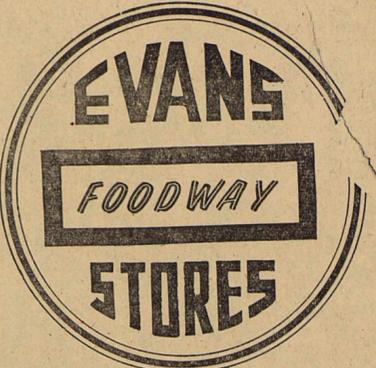

If easy parking, traffic agility and utmost economy are high on your list—then you should seriously consider the Corvair. But the best thing to do is to look these two new cars over at your Chevrolet dealer's... take them out for a drive. It may be that the only logical choice for your family between two cars like this is—both. They make a perfect pair.

## WHAT A SOYBEAN COMBINE!

**THE NEW JOHN DEERE 30 with Auger Platform and Even Flo Feed**

Every advantage to do a better job of harvesting soybeans is yours when you choose a new John Deere 30 Combine. The new 30 has a 7-foot auger-type platform that cuts as low as 1-1/2 inches. The auger and new steel saw-tooth feed conveyor move the crop in a wide, even flow to the threshing area. This means the threshing cylinder runs at proper speed for best threshing regardless of how heavy or light your beans.

Especially valuable to bean growers is the big, open-bar grate in the 30 Combine. This grate allows up to 90 per cent separation at the instant of threshing. There is less chance of overloading the straw rack and far fewer beans are cracked.

The new 30 has many other features that "tailor" it for beans. Come in and see for yourself. We have it on display right now.

from Hancock's office. Upon entering, Fowler said, he found the four attorneys involved in a heated discussion.

The policeman said that shortly after his arrival Attorney New made a statement which Attorney Freeman took exception to in profane manner and New threw a punch, "but not too hard" at Freeman.

Officer Fowler said he then separated Freeman and New, attempting to force Freeman into a side office and forcing New back away from Freeman. While he was holding New, Fowler said, Attorneys Hancock and Townes began scuffling.

Fowler said that he requested New to remain out of the scuffle and he (Fowler) would break up the fight. Shortly after, the scuffle broke up with Fowler's assistance.

After the fracas, Attorneys New and Townes were charged with affray by Officer Fowler and each paid a fine of \$16.50 before Judge B. J. Smith.

Attorney Hancock was taken to the office of a local physician where he was treated for a badly bruised lower lip and several lacerations on his head.

Early Friday evening Judge Hancock left for Galveston where he is currently attending the state county judge's and commissioner convention.

The following statement concerning the incident was received from Hancock:

### STATEMENT BY JUDGE HANCOCK

"The attack was regrettable and unfortunate for everyone. I hope the matter of the assault may be dropped completely in the mutual interest of both the legal profession and the community in which we all live.

"Don Hancock"

### STATEMENT BY ATTORNEY TOWNES

The following statement was issued by Vernon Townes following the incident with Don Hancock last Friday morning.

"On the Monday the 14th of September, 1959, at a time while I was out of the County, Don Hancock presented matters to the Commissioners court, the exact nature of which I do not know as I had never been contacted on the matter, which

caused one commissioner to say that this a matter that is too serious, we should wait until Vernon Townes gets back, there could be trouble; and another, who was quoted in the Lubbock paper, to say at the time that he wanted nothing to do with it until Vernon got back;

"Upon my return to the county on Thursday I was immediately contacted by my friends, and again on Friday morning when my partner Paul New went over the situation with me, Paul having been informed about on Monday by a Commissioner down here. Since the situation was now that of public discussion, we had no alternative but to confront Mr. Hancock which we did for the purpose of having another open hearing before the Commissioners court, and fully clarify the statements made.

"The question presented was a bill from Lamesa Printing Co. in the amount of \$10.00, for legal forms used in private practice, which was mailed by that company to the county for payment. Naturally this was not a county expense. Certainly there was no 'requisition' for this order, as it was not for county attorney forms. The salesman has since verified that he picked the order up from my secretary in Plains, which is the usual custom in law offices, that Vernon Townes didn't know of the order, and that his office in Lamesa billed it to the county by mistake. From this it was inferred that I was furnishing legal forms to New & Townes, attorneys, at the county expense, which amounted to stealing.

"On being confronted in his office, Mr. Hancock and his partner were highly indignant, and affirmed that 'We got you now.' The affray ensued, which was some time after officer Fowler, summoned by their office, arrived. Needless to say I found the account given to the Lubbock paper by Mr. Hancock, our local paper verified they didn't call it in, as irresponsible as his conduct before the Commissioners Court.

To insure the county that no further incident of this nature will re-occur I am directing that all bills for the county attorneys office be directed to and paid by New & Townes. It is my sincere hope that we can now operate your County Government with peace and dignity.

"Vernon Townes"

## Truckers' meeting set for Tuesday

Residents of the Plains area who are interested in the details of the new law which increased the gross weight allowable on trucks are invited to attend an open meeting at the Plains Co-op Oil Mill, 2901 Avenue A, Lubbock, next Tuesday evening at 7:30. Announcement of the meeting was made this week by Emery Longbrake, manager of the Plains Chamber of Commerce.

The new law recently passed by the Texas Legislature increases the maximum weight of trucks on state highways from 58,000 pounds to 72,000 pounds, Longbrake explained.

Captain Jim Miller of the Texas Department of Public Safety, license and weights division, will conduct the meeting. He and members of his staff will explain the new law and tell how to avoid violations.

The meeting is being sponsored by the Lubbock Chamber of Commerce.

# NOW... '60 CHEVROLET TRUCKS

WITH REVOLUTIONARY TORSION-SPRING SUSPENSION THAT GIVES ASTONISHING NEW SHOCKPROOF ACTION !!!!!

**Chevy's done the next best thing to paving every road in America!**  
First they threw out the front axle and put in torsion-spring independent suspension. Then they built wide-base coil rear springs into most light-duty models, variable-rate leaf springs into heavies. That made it—a ride that completely eliminates I-beam shimmy and wheel fight, lets you move faster over any ground to get more work done in a day.

**Brawnier bulldozer build!**  
They're tougher than any Chevy trucks ever made. Frames are stronger, cabs 67% more rigid. Front wheels and tires are precision-balanced. And that new suspension cushions jars and road shock that used to spell slow death for the truck's body and sheet metal.

**More comfortable cabs!**  
Easier to hop in and out of, too. Many models are a whole 7 inches lower outside. Yet there's more head room inside, plus more width for shoulders and hips. The windshield's bigger, with a wider, safer sweep of vision. Suspended pedals give you more foot room.

**Big in the power department!**  
With the industry's most advanced gas-saving 6's. With high-torque Workmaster V8 performance in heavyweights. With new 6-cylinder or V8 power available in new Low Cab Forward models.

**More models than ever!**  
New 4-wheel-drive models and tandems and high-styled Suburban Carryalls. It's the handsomest, hardest working Chevy fleet ever to report for duty. See your dealer for the whole story and, by all means, take a ride. It's something!

Anything less is an old-fashioned truck!

## Initiation of freshmen brings out odd dress

Despite what some may have thought, those were not escapees from a circus side-show which were seen about town on Wednesday. They were merely the 40-odd members of the Plains high school freshman class and the command-obeying participants in the annual initiation services.

Masculine members of the freshman class wore skirts 12 to 14 inches long (bathing trunks underneath), baby bonnets and ribbons on the toes of their bare feet. Some carried dolls, others baby bottles and still others carried similarly inappropriate objects. Legs, arms and faces were decorated with colorful markings that would have made Chief Sitting Bull grab for his tomahawk.

Girls were equally unattractive. All wore overalls or coveralls, backwards and wrong side out. All had stringy hair, the result of a Tuesday night shampoo and an order from upper classmen to leave combs alone.

Like the boys, they were barefooted and their arms and faces carried colored markings.

The freshmen were put on public display Wednesday afternoon at a high school assembly in the gymnasium. Members of the senior class, rambos of the initiation, set up a kangaroo court and each freshman was tried. Penalties were assessed and the freshmen complied with the order of the court to the delight of the jury and the sophomores and juniors who occupied the stands.

Longest and deepest undersea telephone cable stretches from California to Hawaii. Placed in October, 1957, it is 2,400 miles long.

DANA DYER, Katherine Stroud, Billy Stockstill and Ronnie Hendricks, all freshman converts, hear the sentence of the kangaroo court which convened during a high school assembly Wednesday.

The court session was the climax of a day-long initiation program during which the new high school students were required to wear all kinds of clothes.

effort to get information for the story, he kept reminding us of the service performed by the fire departments. "I've never seen anything like it," he said. "When I called them to come back Saturday morning, they were here almost before I hung up the phone."

Our apologies to Bill Dittmore, Leo White, Doris Wyatt, the women of the First Christian Church and several others for not getting their news stories in last week's edition. Because of a shortage of space, brought about by a pretty good week advertising-wise and an extra large amount of local news, we were forced to leave out a number of items, as well as some pictures we had planned to use and our editorial. We are always grateful for every story turned into us and it is embarrassing when this happens.
