## Plains Talk

By Wendell Faught

Back on July 23 I started off my first column of Plains Talk with the following statement:

"Decided to come to Plains as managing editor of the Review turned out to be one of the easiest important decisions yours truly ever had to make."

Now, some seven months and 31 columns later, I might add, "Deciding to leave Plains was the toughest decision I ever had to make."

As most people probably know by now, I have joined the staff of the Brownfield News. By the time this is read I will have already broken my ties with the Review.

At Brownfield, I will concentrate only on news, an area in which I am best trained and I feel best qualified. I feel my new position offers a unique opportunity with a fine, growing newspaper. Nothing short of this could have led me away from Plains.

I'm glad we'll live near Plains and will have an opportunity to keep up with things going on here. Pat and I have never lived in a place for such a short time, but I'm sure we have more friends here than anywhere else. We won't forget them.

To list the names of those who have been wonderful to us would take an up-to-date city directory. I've never encountered such warmth. I can recall numerous instances when I felt someone was bending over backwards to make us happier. Such action helped us sink our roots deeply in a short time.

I might also add my appreciation to all those who have expressed their appreciation of various things we have done at the Review. I've been with weekly newspapers in six different communities, but never have I seen a keener interest than that shown by the people here.

## New fashion shop to open in Plains

Plains will soon have a new business. Two local women, Mrs. Elsa Nordyke and Mrs. Othell Giles, have been busy this week putting the finishing touches to their new shop and receiving and marking new merchandise. The new shop will be called The Elsorita Shop and will feature a complete line of ladies ready to wear.

The shop is located in the Kirby Building and has been completely remodeled by the T. C. Hightower Construction Co. The interior is furnished in natural woods and the walls are painted candy pink. The floor is carpeted in brown tweed.

Both Mrs. Giles and Mrs. Nordyke have been at market in Dallas and Lubbock where they have purchased spring and summer merchandise. The shop will be opened within the next week. The formal opening is planned in the near future.

### Ken Powell injured in trailer accident

Kenneth Powell, son of Mr. and Mrs. Foye Powell, suffered a triple-fracture of his right leg just above the knee in a farm accident Monday evening shortly after returning home from school.

He was riding in a trailer being pulled by a tractor when he jumped to the ground causing the injury. He was brought to Plains Clinic where x-rays revealed the triple-fracture. Splints were placed on the limb and he was transferred to a Lubbock hospital where a cast was set Wednesday. He expects to be home by the latter part of the week.

Injuries such as his seem to befall the Powell family quite often since another son, Terry, received a broken arm in a fall at school only a few weeks ago. Mrs. Powell received a fracture on Christmas 1957. Also, Mr. Powell lay in traction in a Lubbock hospital for several weeks about a year ago.

## Cowboys and Stanton to meet in bi-district contest

The Plains Cowboy will clash with Stanton Tuesday night at 8 in the new Tahoka gym.

Coach Rip Sewell's Plains Cowboys meet Stanton in a bi-district basketball game next week, hoping to move on to the regional the following weekend. The Plains-Stanton game will be played Tuesday at Tahoka.

Plains wrapped up its third consecutive district championship at O'Donnell Saturday night when the Cowboys clipped the Eagles, 64-45. For the past two years, the Cowboys have sailed on through the bi-district and the regional meets to reach the state tournament in Austin. They were runner-up in Class A in 1959.

Stanton poses a serious threat to the Cowboys' ambitions. Winner of all district games, Stanton has lost only three or four games this season. Stanton scorer is Norman Donaldson, 6-3, who has averaged around 20 points per contest. Donaldson was an all-state end in football.

Other starters are Robertson, 6-2; Pollock, 6-0; Airhart, 5-9, and Sorley, 5-9.

As a team, Stanton averaged more than 60 points a game while winning all eight district contests.

In the title clincher at O'Donnell Saturday night, the Cowboys got off to a slow start and never did pull away until the final period. O'Donnell held a 12-9 margin at the end of the first quarter and the Cowboys were out front, 26-25 at the half. After three quarters, the score was 39-36 in favor of Plains. But the Cowboys set the nets on fire for 25 points in the final period.

Jack and Harmon Meixner each scored 15 points to pace the scoring parade. Don Todd scored 12. Walt Coffman added nine and James Alberding netted eight.

In their final home appearance here Tuesday, Plains made its season record 15-6 with a smashing 85-36 triumph over Sundown.

Four players scored in the double figures as the Cowboys ran roughshod over a team which had held them to a narrow overtime victory in an earlier meeting.

Harmon Meixner burned the nets for 24 points and Todd added 20. Joe Don Marrow hit his season's high with 14 points and Jack Meixner netted an even dozen.

The Cowboys took an 18-8 first-period lead, stretched it to a 37-18 margin by the half and stormed to a 59-28 cushion at the three-quarter mark.

One other regular game remains on the Plains slate. The Cowboys go to Lovington Saturday night to meet the strong Wildcats. The B game begins at 6:30 Mountain Standard Time, which is 7:30 here.

Sewell said Lovington would be as strong as any team his charges have played this season.

## Local youths take county spotlight at successful event

High spot of the Eighth Annual Yoakum County Junior Fat Stock Show and Sale was selection of Grand Champions in each of the three divisions last Friday and Saturday.

The county youths who walked off with the top honors in the record-breaking show were Lee Tingle, with his Southdown Poland China heavyweight barrow; and Ty Earl Powell, with his 831 pound Hereford steer.

Early Friday afternoon Tingle, son of Mr. and Mrs. S. L. Tingle, Plains, showed his 96 pound lamb to the top position in the lamb show. Runner-up in the division was another Southdown

Later in the afternoon young Oscar Henard, son of Mr. and Mrs. Pat Henard, Plains, received the coveted purple ribbon for Grand Champion in the barrow with his 210-pound Poland China barrow. Reserve champion in this division was shown by Alfred Pippin, son of Mr. and Mrs. O. A. Pippin, Tokio.

The highlight of the show, however, came on Saturday morning when the 831-pound milk-fed Hereford steer shown by Ty Earl Powell, son of Mr. and Mrs. Bill Harris Powell, Plains, was named the 1960 Grand Champion Steer.

Sharon Sprawls, daughter of Mr. and Mrs. H. G. Sprawls, exhibited the Reserve Champion in this division. The Sprawls family get their mail on Route 1, Plains, but Sharon attends Denver City schools.

All exhibitors of the top animals in the three divisions were veterans of several years experience with the exception of the Reserve Champion Steer shown by Miss Sprawls. This was her first year to enter the

First place winner in the Junior High Division was Dana Bryson, daughter of Mr. and Mrs. Earl Bryson. She lives on a farm 15 miles north east of Plains. Second place winner was Sandra Romans, Tokio. Third place winner was Mike Field of Bronco.

### Area farmers discuss co-op gin

Forty farmers and other interested men of the area attended a called meeting Thursday evening, February 11, in the Tokio schoolhouse to discuss the possibility of constructing a Farmers Cooperative Gin in East Yoakum County. O. A. Pippin, Tokio farmer, felt this was a good turnout since a number of men in that community were actively tied up with the stock show being set up at Plains. Interest is high and progress was made, however. Another meeting is being called for Thursday, February 25 at 8:00 p.m. at the Tokio school, Pippin said.

Inc., gave some very vital statistics of that organization. Principal speaker was Roy B. Davis, manager of Lubbock's Coop Oil Mill, who gave interesting and informative facts from the district level. Other outstanding men in cooperatives also spoke. At the February 25 meeting cotton acreage pledges will be considered in order to estimate the acreage this plant will handle and actually determine further developments, he added. Farmers are again urged to attend the meeting and are asked to bring their wives, he said.

### THE NEXT BEST THING TO PUSH-BUTTON FARMING...

You've no idea how much easier it is to do good work at cultivating time until you've handled a new John Deere Tractor and Cultivator in the field. For the first time, you'll come in from a long day without tired arms and shoulders, without a sore back or a stiff neck. That's because John Deere has taken all the hard work out of hooking up

the cultivator . . . all the muscle work out of operating the rigs singly or in unison . . . all the fight out of steering . . . all the strain out of watching the rows. That's why cultivating with a John Deere is the next best thing to push-button farming.

See us for complete details.

Get the quiet proof of Chevrolet's superior performance on the road—No other car in the low-priced three can match the borne-on-the-wind sensation you get from a ride in the 1960 Chevrolet. But that's not surprising when you consider to what lengths Chevy has gone to provide for your comfort at no extra cost to you. As you drive, count the ways Chevrolet has been thoughtful:

**Supple Full Coil suspension**—Coil springs at all four wheels melt bumps as no other suspension can. Taking the punch out of rough roads is their only function—they don't have to anchor the rear axle.

**Butyl rubber body mounts**—Thicker, newly designed body mounts

further insulate you from the road. **Body by Fisher**—Only Chevy in its field offers the polish and craftsmanship of Body by Fisher.

**Foam cushioned seats**—Chevy offers foam cushioned seats in both front and rear in all series but one.

**Safety-Girder frame**—X-built and not merely X-braced, the Safety-Girder frame affords greater rigidity to minimize twisting and squeaks.

**Hydraulic valve lifters**—Oil hushed hydraulic valve lifters reduce engine noise to a whisper.

**Cushioned steering shaft**—A universal joint and cushioned coupling keep those annoying road tremors from the steering wheel.

**Precision balanced wheels and tires**—Here again Chevy has shown concern for your comfort by eliminating vibration in this vital area—tire life is longer, too.

**Easy steering ratio**—Chevy's high ratio Ball Race steering takes the work out of steering for you.

**Superior weight distribution**—Chevy rides better, handles better and stops better because the car's weight is more equally divided between the front and rear wheels.

**Wide choice of power teams**—Choose from 24 different power combinations to satisfy the itchiest driving foot—more than any other car.

Now—fast delivery, favorable deals! See your local authorized Chevrolet dealer!

### CARD OF THANKS

A million "thank-yous" to all the wonderful people who sent cards, flowers and gifts, made calls and visits, and numerous ways you helped our family during our illness and fire that took everything. The nice shower was tremendous and we appreciate it so much. We shall cherish each deed and love you always.

### LOCAL GROUP TO MEET

Representatives of the Plains Chamber of Commerce will meet tonight (Thursday) with members of the county hospital board in Denver City to discuss hospital needs in Plains.

A move has been under way here for several weeks to get an accurate picture of the hospital needs in Plains.

## B team ties for district title

The B team of the Plains Cowboys finished its regular season Tuesday night with a victory over Sundown which assured Coach Sam Mosley's club of a first-place tie with Seagraves in the season with records of the district standings.

Both Plains and Seagraves finished with seven wins and one loss. Losses were to each other.

It was quite an accomplishment for the Cowboy Bees who lost three of their first four games but came on strong to win eight of their remaining nine. They lost twice to Eunice and once each to Denver City and Seagraves.

A playoff game between the two co-champions will be arranged within the next few days, Mosley said.

### Plains talk

(Continued from page one)

But Plains people, I learned, are that way about a lot of things.

From the day I arrived in Plains I never stopped being excited about this town. I feel more than ever that Plains has an extremely bright future. And that future isn't far off — it's arriving already. Faith in that future by the people here has been worth a million dollars to the city.

Having been interested in everything going on here, I naturally regret that I wasn't around long enough to see some accomplishments I'm sure are heading this way. Several more businesses in town, some more buildings around the court house square, another doctor, a hospital, a state championship in a couple of sports — time should bring about all.

It's been a wonderful seven months. I can only hope I did something good for this town which did so much for me.

Mr. and Mrs. Ted Murph and sons of Turkey were guests of his mother, Mrs. S. F. Pride, and other relatives here over the weekend.

### Mike Field wins calf gain contest

Mike Field, son of Mr. and Mrs. Ty Field, Bronco, won the silver engraved loving cup given by G. W. Cleveland, Plains, for having the highest gaining calf during the 272 day feeding which started May 16, 1959, and ended Feb. 12, 1960, at the annual Yoakum County Livestock Show at Plains.

Mike's Calf, named Pinocchio, gained 685 pounds during the period for an average gain of 2.55 pounds per day. The calf started at 424 pounds and came to the show last Friday morning weighing 1,119 pounds. He missed by only five pounds reaching the 700 pound goal set several years ago.

Goal of 700 pounds gain was reached last year, but the feeding period was cut by two weeks this year and the goal was not changed.

A total of 32 calves completed the contest and nine of them gained more than 600 pounds. The top nine in the contest are

# Conservation who is responsible

**Editor's Note:** The following essays were selected by the Yoakum County Soil Conservation as first place winners in their respective division. The second and third place essays in each division will be published in future issues.

**Who is Responsible?**  
1st PLACE SENIOR DIVISION  
by Leta Stewart

Individual responsibility: this is a big block in the foundation of human society. Every person, from the least to the very greatest, must accept certain duties and actions as his own. Only that one person is held accountable for his share of responsibility.

Most of the world's good citizens accept the responsibilities our society places on them, but there is one which is forgotten and neglected: their individual responsibility for the conservation of our soil.

It is essential that our soil be preserved. It is also essential that each person does his part to preserve it. The argument is sometimes brought forth that soil conservation belongs to the farmer since he lives off the land. But, I say that every human being who has ever existed has lived off the land. Mankind's very existence, his food, his clothing, his shelter, his necessities—all come directly or indirectly from the soil.

Society, as well as the law of survival, demands that each individual provide for himself and his posterity to a certain degree. If he fails to do his share in the preservation of our soil, he has failed to do his part in providing for his own. The land we have now will have to provide for the ever-increasing world population for millions of years to come as far as we know. How can an already crowded world afford for mankind to ignore his responsibility concerning soil conservation?

Individual responsibility is the key. Each person must separately realize and accept his part in preserving the wealth and the very life of our world—the soil.

**Who is Responsible?**  
FIRST PLACE JUNIOR DIVISION  
by Dana Bryson

Here in the great South Plains we know conservation as a preserving of the soil. When we have dust storms, the top soil is blown away. To prevent this erosion, we all must join together to help each other. In this way we are also helping future generations.

It takes years of study and work to prevent erosion. From the very beginning of time erosion has occurred in one way or another. Wind, water and dust caused erosion then just as they do now. The cavemen, the people of Europe, our forefathers, and many others did not realize what was happening to the earth.

I can remember a dust storm that occurred when I was very young. Everything was covered by sand. The bar-ditches were full of sand but the fields looked bare and were stripped of their top soil. Now, a few years later, the soil does not blow completely away as before. New methods of farming have been invented. These two, combined with knowledge, have helped to prevent the progress of soil erosion.

As I have watched my father

and his friends and neighbors do their farming, I have learned that I also have a part in conservation. I am sure as I grow older, I will have a greater part. My friends and I as part of the future generations, will take the place of our parents. Conservation will be left in our hands. On our shoulders will rest the problems of today as well as those of tomorrow.

I know now, as I face the future, that every man, woman, and child is responsible for conservation. As each of us goes forward to meet the future, we will find that the future of the world in which we live rests upon our shoulders.

As the youth of today, and the future stewards of the soil, will hold in our hands the responsibility of the conservation of the entire earth.

## Much-Needed Additional & Improved BASEBALL FACILITIES

- ★ The Summer Baseball Program in Yoakum County was launched in 1955, with seventy-five boys participating. Five teams were organized, and one baseball field was available for play.
- ★ The program has been highly successful . . . it's been growing, growing, GROWING. At the end of the 1959 season, well over 300 boys were participating and twenty-one teams were in action, with only three fields to play on. This year even more boys are expected to take part if more fields are provided . . . the program cannot continue to grow without additional and improved facilities.
