Farm Bureau To Stage Annual Member Drive

Ten dollars is a small fee to pay to protect an investment amounting in thousands of dollars, but that's all a membership in Farm Bureau costs, according to Jack Cozart of Cisco, president of the Eastland County Farm Bureau.

Mr. Cozart announced that the local county organization is staging its annual clean-up membership drive beginning October 14 and continuing through October 18.

The county farm leader declared that membership in Farm Bureau is the best assurance that a farmer's economic future is protected.

"Farm Bureau is owned and controlled by its members and is primarily designed to safeguard and promote agricultural interests on the local level, in Austin and in Washington," Cozart said. He explained that one of the benefits a membership in Farm Bureau buys is full-time representation in the Texas Legislature and national Congress.

"Three out of every four organized farmers and ranchers in this nation belong to Farm Bureau," he explained. "And our organization spares no effort to obtain maximum membership participation in the development of policies that guide the organization on all levels."

The Eastland County Farm Bureau has set a quota of 575 member families for 1963. Last year the organization had 562 enrolled.

200 MASONS ATTEND AREA MEETING AT BRECKENRIDGE

Approximately 200 Master Masons representing 38 lodges from Texas, Alabama, Illinois and Colorado attended Past Masters night Saturday at the Breckenridge Lodge 492, A.F. and A.M.

Grand Master of the Masons of Texas, M. W. Weatherby of Kerrville, addressed the meeting and charged those in attendance "to stand for something, be honest with one's self, with one's family and with God."

Past Masters of the Breckenridge lodge, district deputies and past district deputies were also recognized. Four 50-year Masons were presented. Among them were Dr. J. H. Caton of Eastland Lodge No. 467 and Mr. Looner Jackson of Carbon Lodge 786.

Those attending the meeting from Carbon Lodge 786 were Collin Campbell, Bill Carlton, Lou Horn, L. B. Horn, Looner Jackson and Don R. Nicholas.

Eddie Sims Added To SCS Office

E. E. McAllister, manager of the local Soil Conservation office, has announced the addition of Eddie Sims to the conservation staff.

Mr. Sims comes to Eastland from Matador. He is married and has four children. A graduate of Sul Ross, he has been in conservation work at Pecos and at Balmorhea.

The Sims have bought the Verna Johnson house on S. Oak St. The family had been staying at the H. B. MacMoy farm south of town.

Farm Bureau Meets Monday

Henry Fry of Cisco was elected chairman of the nominating committee at a meeting of the Eastland County Farm Bureau board of directors Monday night in Eastland, and Edwin Lepley brought the sales force up to three. The others are Pat Mosley, general agent,

Mrs. Will Lovell, known affectionately by her many friends, as "Grandma" Lovell, was honored with a birthday dinner Thursday, Oct. 3rd, at her home in Carbon with 60 or more friends and relatives calling in recognition of her 90th birthday.

Born Oct. 3, 1873, in Centerville, Tenn., Mrs. Lovell came to Texas with her family by train in December of 1882. At the age of nine, the family settled near Gatesville in Coryell County.

She lived there until her marriage to Will Lovell Nov. 14, 1889. They came to Eastland County by ox wagon and settled in the Jewell Community on Dec. 15, 1889. She has lived in and near Carbon ever since. Mr. Lovell died in 1926.

Mrs. Lovell has been a long-time member of the Baptist Church and is still active there.

Many of the old friends who helped her mark the day are past 70 years old themselves, and Myrtle Love, special agent.

It was announced that the annual county convention will be held at 7:30 p. m. Monday, Oct. 21, and all members have been urged to attend.

Transmission overhaul. The transmission transfers engine power to the wheels. If it is out of order, your car may lack pep or chatter and jerk when you shift. Cost of labor alone to disassemble the transmission and repair or adjust damaged parts may range from 10 to 20 for a standard shift. 30 to \$50 for an automatic one. New parts will be extra.

New Shock Absorbers. Hydraulic shock absorbers at each wheel control the rebound of the cars springs. When they are worn or leaking, the car may ride stiffly

or bounce a lot. Cost of new shocks—about \$10 per wheel.

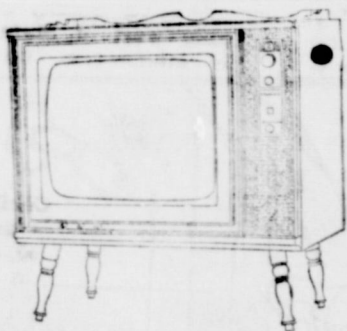

Wheel Alignment. When the front wheels don't sit at the right angle to the axle or steering bar, tires may wear irregularly and throw the steering off. Cost of alignment—\$6 to \$8.

Tire Balancing. A tire is out of balance when it is denser at one place along the bottom or sides than other places. As a result, it may wobble or bounce and the steering wheel shimmy at the higher speeds. Small weights distributed around the wheel even out the balance. Cost—\$2 a tire.

How is your automobile repair I. Q.?

As families become more concerned about the zooming cost of transportation, they begin to examine automobile repair bills with a critical eye. Here are some symptoms which can help alert you to the fact that your car needs repair, and here are some approximate costs of the repair work.

New Spark Plugs. Plugs produce the spark that ignites the mixture of gasoline and air in each cylinder. They should last from 12,000 to 20,000 miles with at least one cleaning. Worm plugs produce little sparks and the engine may miss or run sluggishly. Cost of new plugs—about \$3 for a set of 6, \$12 for a set of 8.

New Points. The distributor sends a current to the spark plugs. Inside it are sets of ignition points that make and break contact to control the flow of current. When worn or pitted, the point cant contact or break smoothly and the plugs fire erratically. Cost of new points—

Monuments

Clemmer Monument Works

"Mark Every Grave"

\$4 to \$7.

A Valve Job. One valve in each cylinder governs the intake of the gas-and-air mixture. Another valve controls the exhaust of burned gases. Carbon deposits that form on the valves can prevent them from opening and closing properly. The car may lose power or be hard to start. Cost of grinding the valves and refitting them to the cylinder openings: about \$25 to \$40 for 6 cylinders, \$40-\$50 for 8.

A Ring Job. On top of each piston are rings which hold oil to lubricate the piston as it travels up and down in the cylinder. If the rings are worn or cracked, oil eventually will be thrown out the exhaust. Cost of replacing rings—from \$60 to \$75 for a set of 6; from \$75 to \$100 for a set of 8.

A hookah is a Turkish, water-cooled pipe.

A hamlet is a village without a church.

WHICH WILL IT BE?

Hot, for sure... if you have a Gas water heater! Gas replaces hot water as fast as you use it (for one-fifth the cost of the other kind). If you're not getting all the hot water you want when you want it... bring your hot water system up-to-date with a new, super-fast recovery Gas water heater. You'll be in hot water all the time.
