

Doors open for business for two new shops here

A new garage was opened recently by the Hayes brothers, E. L. and Quanh, in the Plains Motor Company building on the Brownfield Highway.

The brothers came here from Brownfield and both are experienced mechanics and have been in the business for several years.

According to E. L. Hayes all their work and parts are guaranteed. He added that they are able to do all types of general auto, truck and tractor repairs. They also have a facility to do painting and some body work. They have planned for the near future to be able to do work on air conditioners and front end auto repairs.

They cordially invite their Plains friends to drop in on them at their place of business.

"The Antique Shop" located next door to the Review has open their doors for business. The shop carries the antique hunters and carries a selection of collectors items.

More stock is expected in the near future. At present they carry several pieces of early American primitives, cut glass, brass beds, round tables, and other items.

The merchandise was selected for the collectors who want small, inexpensive items for gifts and the home.

The shop is open weekly and appointments can be made for the weekend by calling GI 6-8888.

D'Lois McGinty queen choice of Iota Pi sorority

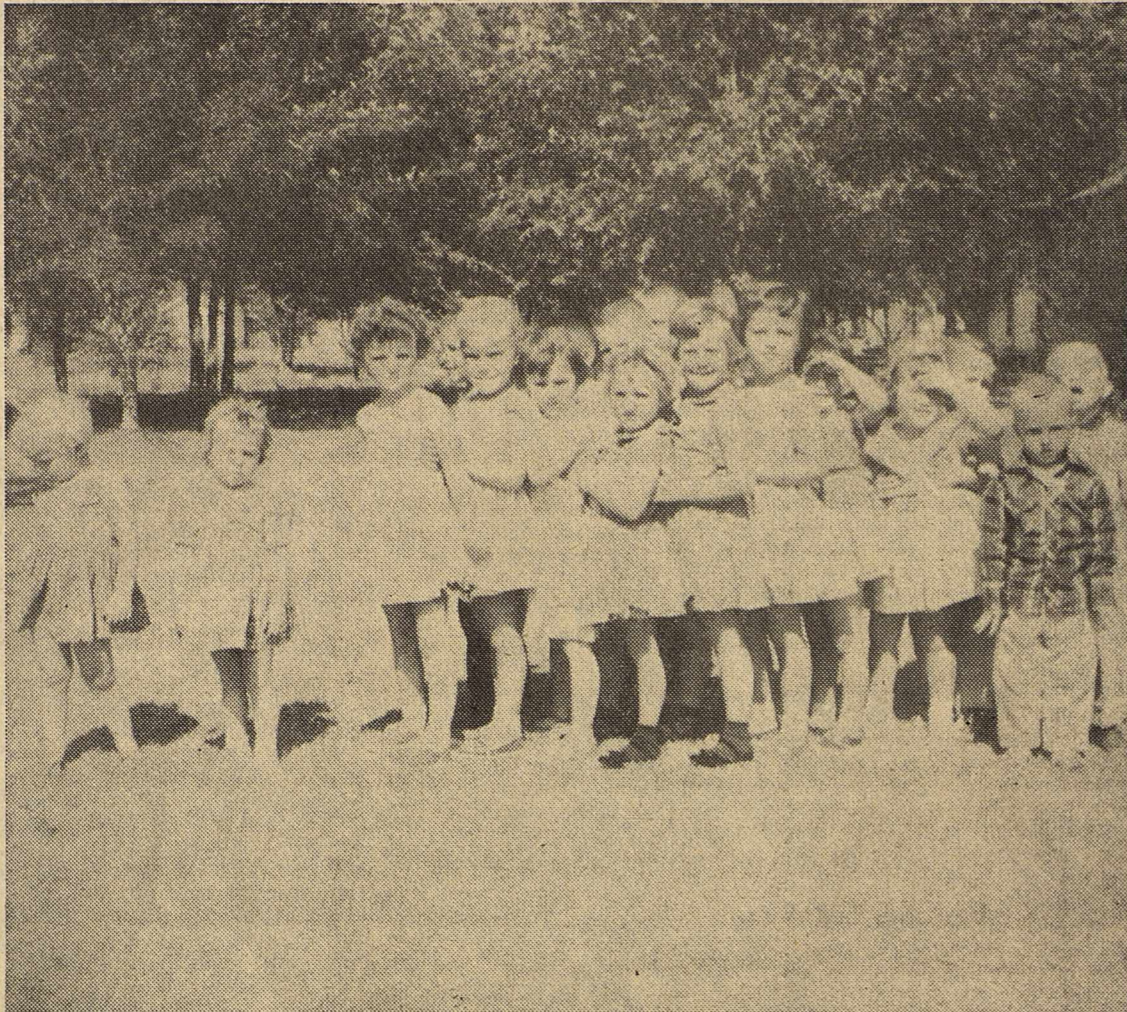

D'Lois McGinty, eldest daughter of Mr. and Mrs. Rosta McGinty, is sponsored by Iota Pi Chapter of Epsilon Sigma Alpha.

Born in Yoakum County, she is an excellent horse-woman and has ridden horseback and worked on her father's ranch all her life. She has shown calves in the Yoakum County Junior Fat Stock Show the past nine years, showing two reserve champions and one grand champion.

She is active in F. H. A. work in school and has served as officer three years. She has served as president of the Pep Squad and Student Council each one year, and was candidate for Miss Jubilee during Yoakum County's Golden Jubilee in 1957.

An accomplished cook and seamstress, her hobbies are original flower arrangements, decorating cakes and making lamps and unusual centerpieces from stumps, driftwood, etc. She plans to enroll in Benz School of Designing in Houston this fall.

(This series of pictures completes the write-ups for the Queen candidates for the Yoakum County Rodeo.)

TINY TOTS at the Vacation Bible School jointly sponsored by the First Methodist Church and the First Christian Church play "choo-choo train" as they parade out for refreshments.

Joint Bible school closes Sunday

Commencement exercises for the Vacation Bible School jointly sponsored by the First Methodist Church and the First Christian Church will be held Sunday evening at the Methodist church at regular worship time.

The school started Monday with 56 enrolled in the classes. In the Cradle Roll there are four enrolled under the care of

Mrs. Johnnie Moore. The Kindergarten Class has 20 members with Mrs. Ed Taylor, Mrs. W. O. Spencer, Mrs. Jessie Robertson, and Mrs. Dick McGinty as teachers. Mrs. Don Lackey and Mrs. Kenneth Hale are the teachers for the 14 students in the primary grade. The Junior Class is divided into two groups with one class being taught by Mrs. Leo White and the other class by Johnnie Moore.

The theme of the Kindergarten class is "Together in Our Church." The primary class is studying "Everybody Needs a Church" and the Junior class being taught by Mrs. White is studying "The Story and Work of the Methodist Church." Mr. Moore's junior class is following

Mr. Lemley injured in farm accident

L. E. (Leonard) Lemley sustained second and third burns on his arms and hands, with lesser burns on his body and badly blistered face in a butane fire at his farm home twenty miles northwest of town Thursday afternoon.

It is believed, due to the still quietness, fumes had remained close to the tractor as Mr. Lemley serviced it prior to returning to the field after lunch. When the motor started a flash of fire enveloped the tractor causing it's fuel tank to explode. The tractor and butane storage tank were destroyed and an irrigation motor nearby was badly damaged.

Mr. Lemley was rushed to Plains Clinic for emergency aid then to Yoakum County Hospital where he was confined until Monday afternoon. Though severely burned he is making satisfactory improvement and resting at home.

the theme of "On the Trail With Christ."

The group meets each morning beginning at 8:30 until 10:30. The day's activity is started with the opening exercises supervised by Mrs. Williams, the general superintendent of the school. After the exercises the groups go to their classes where they study or work on their handicraft projects.

Three to attend basketball camp

Three Plains basketball mentors will attend Wayland's College's Basketball Camp to be conducted by Ed Billings, coach of Wayland's Pioneers, June 15-24.

Mike Culwell, Walter (Butch) Hawkins, and Mike Sink will be among the approximately 40 boys participating in the 4th annual Camp held at the college for junior and senior high school basketball players.

A second camp will be held August 3-12 with 36 already registered from West Texas, New Mexico and Oklahoma, according to the Public Relations Department of the college.

During the day fundamentals of basketball will include bowling, trampolines and swimming.

Sink and Culwell will be seniors this fall while Hawkins will be a junior. Their parents are Mr. and Mrs. D. I. Sink, Mr. and Mrs. H. W. Culwell and Mr. and Mrs. Fred Hawkins.

County championship team tieing scheduled

The Yoakum County Championship team tieing contest will be held Saturday, June 11, at the Plains Rodeo Arena. The event will get under way at 8 p.m.

Entrance fee for the contest is \$12 with a two steer average. All competitors for the championship must be residents of Yoakum County.

The Open Jackpot Event will also be held with all ropers invited to participate. Entry fee is \$11 with a jackpot prize.

Buckles will be awarded to the head and heeler of the team tieing winners. The contests are being sponsored by the Yoakum County Roping Club.

Consultant tells needs on hospital facilities

"Given the facts, it is believed that only failure of will or courage to vote for what they need — and by voting for it can have — are probably the only reasons that the hospital program pictured herein cannot or will not become a quick reality."

With these words Ross Carrett, nationally known hospital consultant from Chicago, Ill., concluded his two and one-half hour report to the people of Yoakum County on his findings relative to hospital improvements in the county.

Garrett made his oral and written report on a recent survey at a meeting held in the district courtroom in Plains, last Friday night, at which more than 50 Plains and Denver City residents were in attendance.

His report followed a recommendation several weeks ago that there is a need in Denver City for a 43-bed hospital with A-1 Ancillary facilities, and that there is a need for an 8-bed progressive care unit in conjunction with the Plains clinic.

Garrett's 33-page written report outlined in detail the needs of the county at the present time, and also projected the needs into the future for 20 years at which time he estimates that there will be a minimum county population of 12,000.

In a foreword to his written report, Garrett stated "It is the intent of this presentation to shed light on the basic, technical and other essential elements involved in such situations as exist in Yoakum County."

"By adding the results of this search-lighting to the already

existing knowledge, and that being developed by others — it is hoped that all the ingredients for sound and practical as well as forward-looking decisions may be brought together."

Garrett said the basic question posed is . . . "not is there and will there be a need, but rather, what is it that now exists to meet the need and carry both the present and foreseeable future be satisfactorily met with only what now exists from a much lesser demanding past? For how long? At what service risk, if any? At what economic risk, if any? At what price, if any?"

"Considering the time it takes to properly plan and construct a plant — particularly in relation to an already existing facility and its operation — the time to plan is before the need becomes so critical and so self-evident that expediency creates the type of solution which sets off a chain reaction of other problems and the need for their solution," Garrett told the group.

Garrett said his report was presented with three contentions, as follows:

"First, that there is — whether fortunately or unfortunately — no single one way only of accomplishing anything in the area of human needs and resources. Solutions and answers in the exact sciences of mathematics, physics and chemistry are, therefore, much more easily applied, when once learned, than are solutions dependent upon human behavioral reaction

See HOSPITAL on page 2

In a light county vote E. W. (Elvis) Craig, Raymond Bookout, and Vester E. Sanders won nominations in the Second Democratic Primary held last Saturday.

Craig barreled through taking the majority of votes from Plains and maintaining his lead in Denver City. His opponent, Reese Wilkerson, after a heavy campaign in Denver City only posted 41 more votes than he received in the First Primary. Craig's total votes were 1,086 to Wilkerson's 740 votes. Boxes seven, eight, and nine were the only boxes showing a majority for Wilkerson.

Craig will be the first tax-assessor collector of Yoakum County since the office was split. He was appointed 18 months ago to carry out the duties.

In a statewide ballot the Yoakum County voters did not follow the trend in the state. Statewide W. T. McDonald, of Bryan County, received the nomination for Judge of the Court of Criminal Appeals over Incumbent Lloyd T. Davidson. Yoakum voters favored Davidson on the ballots cast in the county.

Although receiving a total of only 21 votes in four Plains boxes and shut-out completely in the Tennessee Camp box, Sanders scored a landslide victory over Olan Heath, Plains Deputy Sheriff, for elevation to

the top law enforcement post in the county.

A total of 1,017 voters cast ballots in Sanders' favor. Heath received 820 votes in the second primary, 108 less than he received in the first primary one month ago. Sanders received 103 more than the 914 he received in the May 7 balloting.

Closest race in the county was for the seat on the County Commission from Precinct Three where Ty Field, opposed Bookout for the nomination.

When final votes in Box 3 at Plains were tabulated along with 12 absentee ballots cast in the race, Bookout had a slim three-vote, 112-109, victory over Field for the commission seat. In the first primary four weeks ago Field had defeated Bookout by a two vote, 80-78, margin, although two other men were in the race at that time.

The three men who received the majorities in last Saturday's election will join with Vernon Townes and Vance Brown, nominees for County Attorney and Commissioner, Precinct 1, positions, respectively, when the county offices are filled on January 1. These five are the ones whose names will appear on the general election ballot, probably without opposition, in November.

One sidelight of the election See ELECTION on page 6

Plains represented at Salvation Boys' camp

Plains will be represented, for the first time, through sponsorship of our local Salvation Army Service Unit at the Army's Summer Boys Camp June 19-26 at Camp Hoblitzelle, near Midlothian, Texas.

The camp program is planned to help boys, 8 through 14 years of age, to live and play together and to develop and ever-growing appreciation for worship and reverence toward God.

The campers live in beautiful redwood and brick cabins with 12 boys and a counselor to each cabin. A complete bath for each 6 campers is provided with recreation hall, modern kitchen, swimming pool, and the very best of camp equipment.

Meals are properly planned and served on regular schedule with drinking water tested regularly by health authorities. A well-equipped hospital with a nurse on duty at all times is provided. Every precaution is taken for the health and safety of each camper at all times with full insurance coverage while there and enroute to and from the camp.

Each member of the camp staff takes a personal interest in each camper in order that he will not only have a good time,

but receive many practical and helpful benefits from his stay there. Activities, all supervised, include baseball, swimming, stunt night, movies, amateur programs, worship services and Bible studies, camp fires and handicraft.

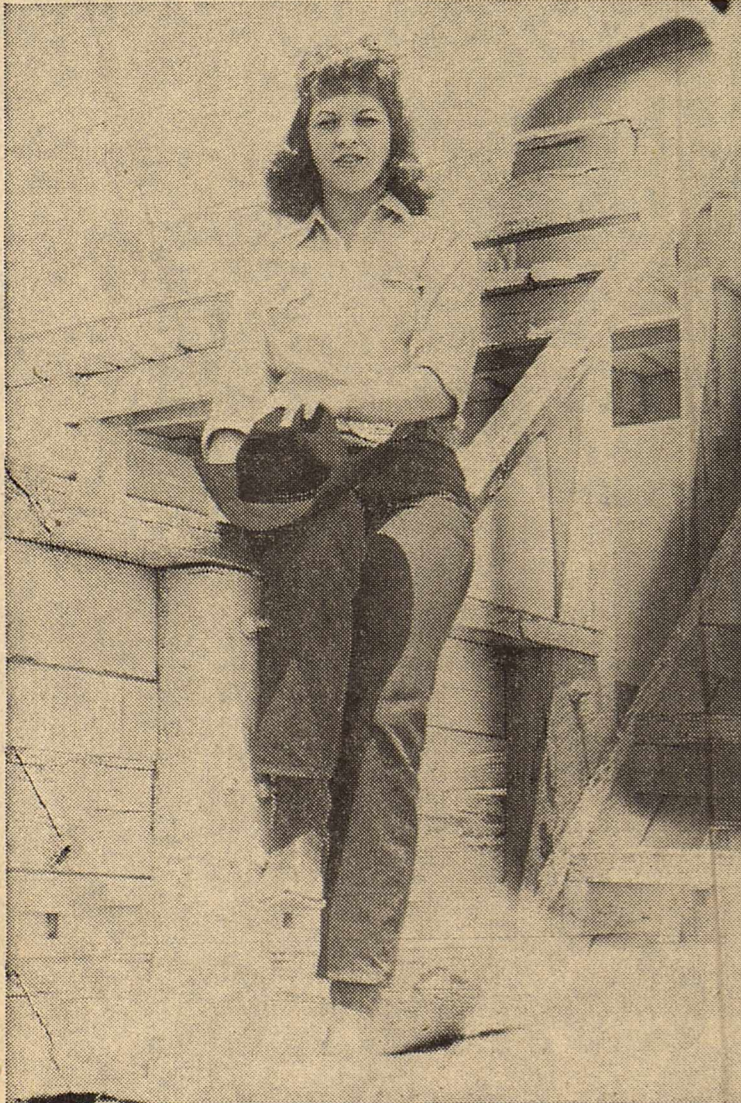

The camper's wardrobe should consist of old clothing rather than new ones since they will be "Boys" in the strictest sense throughout the week.

Swimming lessons to begin at local pool

Swimming pool Manager Foye Flood announced this week that there will be children's swimming lessons given next week, Monday through Friday.

Registration will be held at 9:00 a.m. Monday, June 13 with lessons beginning at 10:00. Classes will be held from 10:00 to 11:00 for children only during this session. However, lessons will be given again later in the summer with no definite date set yet, Mr. Flood stated.

The charge is 50c per lesson with instruction given by Mr. Flood and Olan Smith, pool life-guard.

STATE CAPITAL
Highlights
AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — In a period of deep gloom about state finances, Texans had to pinch themselves to believe the good news.

U. S. Supreme Court ruled that Texas does indeed own its tidelands, for 10 1/2 miles out — just as Texans have been claiming 15 years.

Financially, it's a long-range gain at best. But as a moral victory for Texas principles, it's the biggest thing since the Battles of San Jacinto.

Revenue from the publicly owned land will go into the permanent school fund. Problem of Texas' bankrupt general fund is unchanged.

How much money comes to the school fund depend on how much oil is under the submerged

lands and how good is the market. Money going into the permanent school fund — from mineral leases, royalties, bonuses etc. — is invested, and only the income from these investments may be used for current school spending.

Thus far, the oil yield from Texas tidelands has been far from spectacular. There have been only 24 producing oil wells and 47 gas wells in 22 years.

But if conditions are promising, oil men undoubtedly will keep trying. As an immediate effect, the state will get some \$29,000,000 in mineral payments that accumulated while the issue of state or federal ownership was being thrashed out.

POLITICKING VACATION—Gov. Price Daniel will spend his

Dangerous critters!

Care urged in rotary lawn mower use

College Station — Did you know a rotary power lawn mower blade travels at speeds up to 150 miles per hour and is capable of throwing sticks, stones, and other objects at comparable speeds? Imagine what would happen if you were hit by one of these fast-flying objects.

Power lawn mowers are now in the majority both in town and among farm people. Along with their increased use has been a closely related increase in accidents involving both operators and bystanders. Most accidents have been due to carelessness or lack of knowledge on the part of the individual.

W. L. Ulich, extension agricultural engineer, offers these suggestions on how to operate your rotary power lawn mower safely and efficiently:

Always disconnect spark plug

vacation politicking for U. S. Sen. Lyndon B. Johnson.

First stop will be the National Governors Conference in Montana June 26-29. After that, said the governor, he'll vacation and visit around with other governors where he feels he can do the Texas favorite son's cause the most good.

And after that, he will go on to the National Democratic Convention in Los Angeles July 11.

Daniel predicted Johnson would lead on the first ballot at the convention.

ANTI-INCOME TAXERS — Voters who oppose the federal income tax and the United Nations will find a haven in the Constitution Party.

Like the Republicans and Democrats, the constitution Party will hold a state convention June 14 to name delegates to a national convention.

At a preliminary meeting in Austin, delegates were selected and instructed to work for a ticket headed by J. Edgar Hoover for president and Tom J. Anderson of Nashville, Tenn., for vice president.

Constitution Party also nominated candidates for all statewide offices except governor. Gubernatorial nominee was omitted, because if he should receive 200,000 or more votes in a general election, state law would require the party to go the expensive primary nominating route next election year.

HOSPITAL NEEDS GROW — Deficit or no deficit, the State Hospital Board says the hospital system has increased money need that must be reckoned with.

Board has voted to ask the Legislature for a \$107,000,000 appropriation for the 1961-63 period. This would be \$34,000,000 more than the present allocation.

Part of the extra funds, about \$2,000,000 a year, would go to hire extra people so present staffers could change from the present 44-hour week to a 40-hour week. Board has recommended this change to put hospital employes on equal footing

wire before working on the blade.

A clean sharp blade does a better cutting job and requires less power.

Never operate mower with safety shield removed. Make sure all rocks and debris are removed from the area before close mowing.

Do not refill the gasoline tank when engine is hot or running. Run mower as slow as possible to do good work.

Keep children and pets away from mowers. Always be certain of sure footing when mowing on steep slopes.

Never leave engine running when mower is unattended. Make sure mower is steady and undercontrol before starting engine.

Always be aware of the hazards involved when you are using a power mower. Don't get caught napping.

with those of other state agencies. But the main problem, says the Board, is that the hospital system is getting more and more patients and needs more money to take care of them. In addition, it has the problem of caring for many oldsters who are not really mentally ill.

YOUTH NEEDS CITED — Another state agency with a story of urgent need for more state support is the Texas Youth Council.

Youth Council has the responsibility for trying to stem the tide of rising juvenile delinquency and also to provide homes for children who have none of their own.

For this task in 1961-63 the Council is asking for a \$13,695,636 appropriation — up by \$3,500,000 from the present.

Some of this would be used for new construction at the Gatesville Training School for Boys, Gainesville Training School for Girls, a state home for orphaned Negro children and for additions to the Waco and Corsicana State Homes for orphans.

It also would enable the Council to set up a parole supervision staff to follow up on the rehabilitation of youngsters released from training schools.

Mr. and Mrs. Joe Kennedy spent from Thursday to Monday visiting his relatives and friends near Greenville and McKinney. Joe reports one of the finest times he ever had. They attended a reunion held under a huge brush-arbor in the little community of Bethlehem where Joe attended school. Fact is, he saw his teacher who taught him when he was about 10 years old and whom he had not seen since that time.

Friends of Mrs. Pat Swann, mother of Garland Swann, will be glad to know that she is much improved and is convalescing at her home at Wilson. She was confined in a Lubbock hospital several weeks recently.

Hospital

(continued from page one)

to need, security, pride, prejudice, fear, poverty, illness and ignorance.

"In both instances, however, as Thomas Edison said, 'there is always a better way — find it.'"

"Second, it has been truly said that 'where there is a will there is a way,' even a better way. It is presumed that this axiom could also work in reverse, that where there's a won't, there's no way to do anything any better, or even at all.

"Third, the material presented does not presume, in view of the above, to include any decisions regarding use of the material, nor conclusions to be drawn from it or actions to be taken as a result of its presentation."

The distinguished hospital consultant concluded his preliminary remarks with the statement, "The element of choice and the element of decision are the inviolable right of those who have the need and are affected by the ways and means — including any proposed better ones — by which it is proposed the need be met or left unmet.

"As agreed, this study aims only at adding to the stock pile of intelligence regarding all of the elements and ways, so that the right and best possible choice can be made by the majority (a) who feel they can, without harm to anyone else, benefit by their choice and (b) feel that the price of their choice — without harm to anyone else — is just and equitable."

Garrett emphasized the element of choice in such a matter by stating, "This Survey Report endeavors to provide the evidence for prompt and sound decision making by a majority of the people of Yoakum County.

"There is always the choice between action and inaction. If inaction is the choice, there is, of course, escape from responsibility for decision. It has been said, however, that if there is to be progress, any major decision is superior to letting events take their own course without interference because once we make the decision we set certain goals."

Getting into the meat of his report, the Chicagoan said, "The Average American today spends almost one day for each year of his life in a general hospital. The rate of hospital utilization — the number of patient-days per 1,000 population — has increased about 20 per cent in the past quarter century."

Measuring Yoakum County's needs, Garrett said, "By 1975, today's babies will just become teenagers — yet — during this span of time, to fill the hospital service needs of the people of Yoakum County, there will have been more than 25,000 hospital admissions, 20,000 days of ma-

ternity care, 12,000 days of pediatric care, 75,000 days of medical care, 60,000 days of surgical care, 12,000 surgical operations, 30,000 X-rays, 180,000 diagnostic laboratory tests, and 12,000 emergency room visits."

Garrett delved into present population figures, showing that 5,680 of the county's 7,839 people live in the "Denver City Orbit of Proximity" which represents over three-fifths of the county's total population.

Using a 1/3 Plains and 2/3 Denver City ratio in projecting future population, Garrett's figures revealed that by 1980 there will be an estimated county population of 12,000 with 8,000 of that number in the "Denver City Orbit of Proximity."

Referring to people leaving the county for hospital care at the present time, Garrett said, "Studies made of admissions of Yoakum County service area people as patients in other next nearest hospitals indicate an expenditure of money by relatives for transportation, room and board alone sufficient to meet annual amortization costs of the modern effective and efficient hospital facilities recommended as a result of this study."

Garrett said that, today, there are thousands of people who carry hospital insurance of one kind or another, but "The people of the isolated or even semi-isolated community which has no hospital facility of its own are unable to get the maximum benefit of the hospital insurance which they carry.

"There is no doubt that much of the premium money can be made to stay in the economic stream of a community itself to further revitalize the area's growth and prosperity."

"From every standpoint surveyed," Garrett said, "it is evident that the hospital in Denver City is a desirable, sound, realistic and highly justified requirement for all those constituting the service area population, both the resident and the transient because they are both dependent upon each other, the soundest basis for success in any undertaking.

"The hospital in Denver City has an excellent site. Its deficiencies as a physical plant with which to meet the needs of the next 5, 10, 15 and 20 years are self-evident — not from the standpoint of number of beds, as such — but from the standpoint of what, to be successfully in operation, is required functionally so that it can operate efficiently as well as effectively and economically."

Garrett said the Denver City Hospital must "have operating rooms in which surgery can be performed as well as it could be in a modern operating in a hospital in Lubbock, Dallas or Albuquerque."

Garrett also said the hospital must have a delivery room for babies, "equipped in every way as well as the operating room."

"In short," Garrett said of

the Denver City hospital, "the hospital must be able to accommodate all except unusual or exceptional services — it must have X-ray, laboratory, emergency room, sterile supply, food services, operating and delivery rooms, nursery and utility facilities, the same as the 'base' hospital serving the larger, service areas."

In planning buildings to meet differing needs and situations, Garrett said, as in medicine, a correct diagnosis usually is the first step toward a cure. "We direct our attention to what needs to be done when and where."

"The improvements program at Denver City," Garrett said, "would not only correct existing mechanical plant deficiencies, but create a completely modern hospital operation capable of meeting all standards."

The recommendation for an eight-bed "expansion" hospital for Plains is backed "by our reputation of 29 years' standing as successful developers of hospital programs," Garrett told the group.

The Chicagoan also said that the necessity of solving the problems peculiar to the Plains type of situation has caused his firm to "invent" some new ways and means.

"The hospital plan has been designed in such a way as to place the functions of reception control, emergency control, admitting, out-patient service, business office procedure, supply control and nursing service control all in the center of the entire operation where all functions can be managed and performed by one Registered Nurse-Administrator assisted by one registrar - bookkeeper - recorder - secretary and two licensed Vocational Nurses," Garrett said.

Speaking of personnel for such a hospital, Garrett said such a plan would require 10 stand-by personnel. Part-time additional personnel would be required upon occasion. "It is the stand-by personnel overhead that controls the 'break-even' economics of hospital operation," he added.

Garrett also explained a new concept in hospital work called "Multicare" units which gives a patient "do-it-yourself" control of a majority of things which would otherwise require a registered nurse. He said these units would work in quite well with the progressive patient care type institution recommended for Plains, as well as at the larger facility in Denver City.

Discussing expansion, Garrett said the buildings are expensible for all elements patient rooms, ancillaries and all, as occasion may require. "Patient rooms can be added on in multiples of two or three at any time, independent of any other expansion. Cost would be negligible," Garrett said.

"Cost of 'general' construction," Garrett said as he heard the end of his presentation, "would be minimal compared to the 'mechanical' where every possible effort must of necessity be made to invest in elements that will reduce 'maintenance' and 'operating' costs."

In conclusion he said, "Without adequate information about the results of indecision, no one could make intelligent decisions and our future would fall apart. Denver City, Plains and all of Yoakum County, has an assured up-coming future. A forward looking community needs forward-looking planning.

"A hospital as envisioned will act as a catalytic agent for such progress and achievement. The price of it might well be paid without having it, through the loss of indirect benefits it could bring. Costs of construction are increasing constantly. There will never be a better time to get the job done than now."

"If the majority of people express their confidence in our conclusions in their behalf," Garrett said, "we will in turn manifest our faithfulness by accepting responsibility for seeing to it that the commitments and assurances contained in the findings and recommendations are lived up to and fulfilled."

Garrett also emphasized in his report that soundness of the operation in the county depends upon a coordinated system, using inter-changeably the equipment, facilities and staffing of both hospital operations and that neither is completely sound without accomplishment of the other.

Garrett also explained a new concept in hospital work called "Multicare" units which gives a patient "do-it-yourself" control of a majority of things which would otherwise require a registered nurse. He said these units would work in quite well with the progressive patient care type institution recommended for Plains, as well as at the larger facility in Denver City.

Discussing expansion, Garrett said the buildings are expensible for all elements patient rooms, ancillaries and all, as occasion may require. "Patient rooms can be added on in multiples of two or three at any time, independent of any other expansion. Cost would be negligible," Garrett said.

"Cost of 'general' construction," Garrett said as he heard the end of his presentation, "would be minimal compared to the 'mechanical' where every possible effort must of necessity be made to invest in elements that will reduce 'maintenance' and 'operating' costs."

In conclusion he said, "Without adequate information about the results of indecision, no one could make intelligent decisions and our future would fall apart. Denver City, Plains and all of Yoakum County, has an assured up-coming future. A forward looking community needs forward-looking planning.

"A hospital as envisioned will act as a catalytic agent for such progress and achievement. The price of it might well be paid without having it, through the loss of indirect benefits it could bring. Costs of construction are increasing constantly. There will never be a better time to get the job done than now."

"If the majority of people express their confidence in our conclusions in their behalf," Garrett said, "we will in turn manifest our faithfulness by accepting responsibility for seeing to it that the commitments and assurances contained in the findings and recommendations are lived up to and fulfilled."

Garrett also emphasized in his report that soundness of the operation in the county depends upon a coordinated system, using inter-changeably the equipment, facilities and staffing of both hospital operations and that neither is completely sound without accomplishment of the other.

COOKE'S VETERINARY SUGGESTIONS

Martin's SUPER STOCK-TOX

This new improved formula controls Lice, Ticks, Horn Flies, and other external parasites. Kills fast and has excellent emulsion qualities which assures even strength distribution throughout spraying. Its long-lasting residual effect protects against reinfestation for three to six weeks. Super Stock-Tox gives you more profit at less expense. **One half-gallon will make 100 gallons of finished spray**, when mixed with water or ten gallons of Back Rubbing Oil when mixed with Kerosene or Diesel Fuel. Sizes: Pints, Quarts, 1/2 Gallon, and 5 Gallon cans.

MARTIN'S BOMBANE

Kills screw worms, penetrates deeply to reach larvae and fleece worm. Promotes healing and prevents reinfestation. Controls ear ticks. One push of the finger and the job is done—NO DAUBER—NO MESS.

SMEAR 70

The ideal wound dressing for the stockman who has a complete screw worm program. SMEAR 70 contains 3 per cent lindane and will kill screw worm fly when it lights on the wound or the larvae.

Anderson, Chambliss vows said

An impressive double ring ceremony was held for the wedding of Miss Neda Anderson, daughter of Mr. and Mrs. J. T. Anderson of Tokio, and J. C. Chambliss, son of Mr. and Mrs. Lloyd Chambliss of Brownfield, at 8:00 p.m. Tuesday, June 7 in First Baptist Church, Tokio.

Rev. Billy Hatch, former pastor of the church, performed the service before an altar decorated with white gladiola and stock, with tropical foliage completing the setting and white cathedral tapers lighting the ceremony.

Mrs. Ray Cargill, pianist, played the traditional wedding music and accompanied Miss Jean Kelly as she sang "Whither Thou Goest" and "Beacuse".

Given in marriage by her father, the bride was lovely in an original gown of white nylon tulle and Chantilly lace oversatin fashioned with an elaborate portrait neckline with lace appliques, the lace extending the length of the long tapering sleeves. The full billowing skirt was also bordered with Chantilly lace. Her veil of silk tulle was attached to a dainty lace crown encrusted with seed pearls and sequins. She carried an arrangement of white carnations and snapdragons mounted on a white Bible. For something old she carried a white linen

hankiechief belonging to her grandmother, her dress was new and her pearls were borrowed from Mrs. Dickie Green. A garter was chosen for something blue and her father placed a penny in her shoe for luck.

Miss Margaret Chambliss attended the bride as maid of honor. Candelighters were Miss Joy Autry and Miss Louise Chambliss. The bride's attendants wore full waltz-length dresses of tulle and taffeta with her maid of honor carrying a long-stemmed red rose and the candelighters wearing arm corsages of red carnations. Denise Glenn, cousin of the bride, was flower girl and Dwayne Johnson, nephew of the groom was ring-bearer.

Serving the groom as best man was the bride's brother, Deroy Anderson, with Lewis Chambliss and Duane Anderson as ushers.

Complimenting the newlyweds was a reception in fellowship hall of the church with Mrs. Thomas Cargill, Brownfield, and Mrs. Deroy Anderson, Tokio, assisting with hospitalities. The bridal table was laid with a white cut-work cloth and centered by the beautiful three-tiered wedding cake topped by a miniature bridal couple.

For the wedding trip to Colorado, Mrs. Chambliss chose a

beige silk dress with frosted brown accessories.

The bride attended Plains High School and her groom attended Brownfield High School. They will make their home on Route 1, Brownfield where he is engaged in farming.

Historical guests to attend annual Cowboys' reunion

Distinguished historical visitors are expected to attend the annual Texas Cowboy Reunion, slated to open on July 1 in Stamford. The Reunion is being held on July 1, 2 and 4.

Among those expected to attend will be H. Bailey Carroll, University of Texas professor of history, and his wife. He has worked a lifetime on early Texas western trails and is director of Texas State Historical Association.

Accompanying the Carrolls will be Fritz Topperwein and his wife, Emilie, who operate the Highland Press of Boerne, Texas, which publishes young people's books.

Mrs. Topperwein was formerly an illustrator for Walt Disney in Hollywood where her husband wrote numerous books and movie scripts. She now illustrates young people's books written by her husband.

Purpose of the the Carrolls visit to the Reunion will be to secure data from old timers, while the Topperweins will make the Reunion in an effort to find further information on which to write a book on the life of a young cowboy at a big amateur rodeo.

A number of colorful western ranchers have been secured for the three day reunion's rodeo events, topped by George Humphries of the Four Six (6666) Ranch at Guthrie who has served for more than 20 years riding his registered quarter horses.

Other judges will include Ed Heller of Dundee, John Stotts, former sheriff of Motley County; Bill Dameron and his brother Carl of Dameron Ranch, Seymour; and Emory Birdwell, of Palo Pinto County, experienced western performer.

Change standards for sheep killing

Revised standards for grades of live slaughter lambs, yearlings and sheep will become effective June 19, the USDA announces.

Changes made in the standards are similar in nature to those adopted for lamb, yearling mutton and mutton carcasses on March 1.

USDA market news reports for live lambs and sheep have been on the basis of the revised standards since March 1. Closely related grades for slaughter animals and the resulting carcasses are essential to meaningful market reports.

Both conformation and quality requirements for the prime and choice grades are reduced under the new standards.

Minimum conformation requirements are lowered by about one-half grade in each of these grades. Quality requirements, as evaluated primarily by considering external fat in relation to the age of the animal, are reduced from about one-half grade to as much as a full grade, depending upon the grade and age of the animal.

Copies of the standards may be obtained from the Livestock Division, Agricultural Marketing Service, USDA, Washington 25, D. C.

Robert, Jerry and Lee Myers are home for the summer after spending several months near Abilene. All are enjoying Little League baseball again as last summer.

MRS. J. C. CHAMBLISS

Claimer, allowance dash slated on weekend card at Ruidoso Downs

A six and one-half furlong claimer on Friday, dedicated to White Sands, a thoroughbred allowance at one mile and a top triple-A quarter horse dash on Saturday will feature the opening two days of racing at Ruidoso Downs this weekend.

The Friday feature race will be for three-year-olds and upward in the claiming class. The event has attracted seven fine claiming horses who have not fared so well in previous outings during the year.

A White Sands feature, limited to horses that have not won two races during 1960, still looms as one of the best balanced races thus far at the mountain track.

Co-featured tenth race on the card has attracted some sprightly short sprinters at the 870-yard distance, one of the most popular races at the Downs. It looms as a wide open affair when both the long running quarter horses and the short sprinting thoroughbreds draw support from their backers.

Encephalitis Is transmitted by ornery 'skitos

Summer and "sleeping sickness" go hand in hand.

Sleeping sickness is actually a type of encephalitis transmitted by infective mosquitoes. The popular name is derived from the stupor it sometimes causes among its victims.

Since mosquitoes abound in warm weather, summer is the danger season for mosquito-borne encephalitis. The State Department of Health last year received reports of 57 cases, all of which occurred during the months of summer and early fall.

Altogether there are some 75 species of mosquitoes which have been identified in Texas, but encephalitis is spread principally by just two. The experts call them "culex tarsalis" and "culex quinquefasciatus." The latter is sometimes called the household mosquito because it has adapted itself to backyard environments.

The time it takes a mosquito to develop from egg to the blood-hungry adult that plagues you on a summer night depends on the species, the temperature and the food supply, says State Health Department entomologists. In Texas it can vary from four days to two weeks.

Guests of Mr. and Mrs. Gus Malmsten this week are their nieces, Misses Kathy Robinson of Arizona and Betty Conner of Lubbock, who are attending Vacation Bible School at First Methodist Church while here.

Mrs. T. E. Coke returned home Tuesday after spending several days in Roswell with her mother, Mrs. W. H. Adair, who is making slow progress in recovering from a broken hip received in a fall last fall. She also visited a brother, Henry Adair and family while there.

Tea honors bride

Miss Barbara Meil, bride-elect of Royce Dean Farquhar, was complimented at a lovely "come and go" tea and shower Wednesday afternoon from 3:30 to 5:30 in the Club Room.

Miss Meil's chosen colors of orchid and white were used throughout the entertaining rooms with arrangements of larkspur centering the serving table laid with a cut work cloth over orchid.

Misses Lela Parks, Sheron Smith and Linda Fitzgerald, dressed in white, served the delicious white cake squares, decorated with orchid and green, and orchid punch. Miss D'Lynn McGinty played the lovely background music and her sister, D'Lois McGinty registered the forty guests.

Special out of town guests were the bride-to-be's brother, Airman 3rd Class J. E. Meil, his wife and baby son, from McClellan Air Force Base, Sacramento, California.

Hostesses for the occasion were: Mesdames Neil Parks, Gene Smith, John E. Fitzgerald, Rusty McGinty, Foye Powell, Bernard Nehub, Leslie McGee, Travis Been, Pollard Wise and Hayden Box, and Misses D'Lynn and D'Lois McGinty, Linda Fitzgerald, Sheron Smith and Lela Parks.

This popular young couple will be married Sunday, June 12 at 2:00 p.m. in First Baptist Church, Plains.

Mr. and Mrs. Wilton Green of Levelland were Saturday night and Sunday guests of their mother, Mrs. Ann Green. Mr. Green is soil scientist in the Hockley County Soil Conservation office.

High Plains Research Foundation increases cotton analysis program

Dr. T. C. Longnecker, director of the High Plains Research Foundation, announced that the Foundation is increasing its cotton research 34 per cent over previous years. Dr. Longnecker stated that the Foundation has 20 more acres of plot research with cotton this year than in 1959.

This accelerated program in cotton research is a result of a cooperative research agreement that has been worked out between the High Plains Research Foundation and the Texas Agriculture Experiment Station No. 8 at Lubbock and College Station.

Cooperative arrangement in research will enable the Foundation to better serve the High Plains area. Personnel from the Agricultural Research Service of the U. S. Department of Agriculture, the Texas Agricultural Experiment Station, and the Foundation are cooperating as research teams in conducting the joint research projects.

On commenting about the scope of the increased program of cotton research, Dr. Longnecker stated that the following cooperative projects are being conducted at the Foundation this year:

(1) Regional cotton variety test; (2) date of planting experiment with cotton; (3) a climatology study involving different varieties, moisture levels, dates of planting fertilizer levels, and varieties; (4) an in the furrow fungicide experiment, (5) a cot-

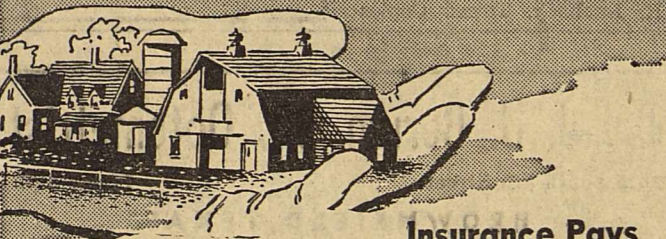

ton harvesting study involving different varieties and various methods of harvesting; (6) planting equipment test using different types of planting equipment; and (7) a cotton irrigation experiment consisting of a detailed evaluation of different varieties, fertilizer treatments, and irrigation methods on the yield and quality of cotton.

CONGRATULATIONS

Birthday and anniversary congratulations to Susan Robertson, Mr. and Mrs. Rusty McGinty, Cleve Loy Kerby, Mr. and Mrs. Deryl Hobbs, Mrs. M. C. Walter and J. D. Campbell on June 12; Mrs. Garland Swann and Paul Lee on June 13; Mrs. L. O. Free and Kreigh Blount on June 14; Kirk Graham, Mrs. Wayland Powell, Mrs. Duane McDonnell and Mr. and Mrs. Dick McGinty on June 15; Mr. and Mrs. Charles Dyer, Gary Short, Gene Johnson and Janelle Parks on June 16; Mrs. J. S. Wagle, Marilyn Goehry, W. B. Smith and Mrs. E. R. Wauson on June 17; Mrs. O. D. Smith, Truett Jones, Bobbie McGee, Jackie Hawkins, Mr. and Mrs. G. D. Kennedy, Mr. and Mrs. Morris Love, Mr. and Mrs. Dunk Brian, Stevan Lackey and Clifford Maynard on June 18.

Pasteurization of ripened natural cheese is possible by means of high frequency radio-waves, after it has been put in its wrapper.

Texaco drilling ahead with Devonian wildcat

Texaco Inc. was drilling ahead Tuesday 9,577 feet in lime and shale at its No. 17-B Miller, prospective Wichita-Albany and possible Wolfcamp discovery in the Wasson multipay pool of South Yoakum County, two miles northwest of Denver City.

Gas flowed and oil was recovered on a test of the Wichita-Albany at 8,340 to 8,420 feet. Another oil and gas-cut mud, while a third at 8,518 to 8,535 feet returned water.

Test of the Wolfcamp at 8,652 to 8,810 feet surfaced gas and returned mud-cut oil plus salt water.

The zone at 9,075 feet to 9,200 feet developed 7,340 feet of sulphur water during a two-hour drillstem test.

The Devonian wildcat, which is scheduled for a 11,300-foot bottom, is 760 feet from south and 660 feet from east lines of section 862, block D, John G. Gibson survey.

Continental Oil Company and Shell Oil Company are making hole below 8,280 feet at their No. 17-48 Wasson in the shal-

low Wasson area in North Gaines County, two miles south of Denver City.

The 12,000-foot wildcat is 2,930 feet from north and 1,800 feet from west lines of section 48, block AX, PSL survey.

Pan American Petroleum Corporation completed No. 1 Mollie S. Courtney, East Yoakum County prospector, as a flowing discovery from the upper Clear Fork.

On potential test it produced 169 barrels of formation oil, plus two barrels of load water and one per cent basic sediment in 19 hours.

That gives the strike a calculated 24-hour potential of 213.6 barrels. Gravity of the oil was not reported. Flowing tubing pressure was 80 pounds and the shutin casing pressure was 250 pound. Gas-oil ratio was 90-1.

The production is from perforated intervals between 6,572 feet and 6,602 feet, after a 5,000 gallon acid injection.

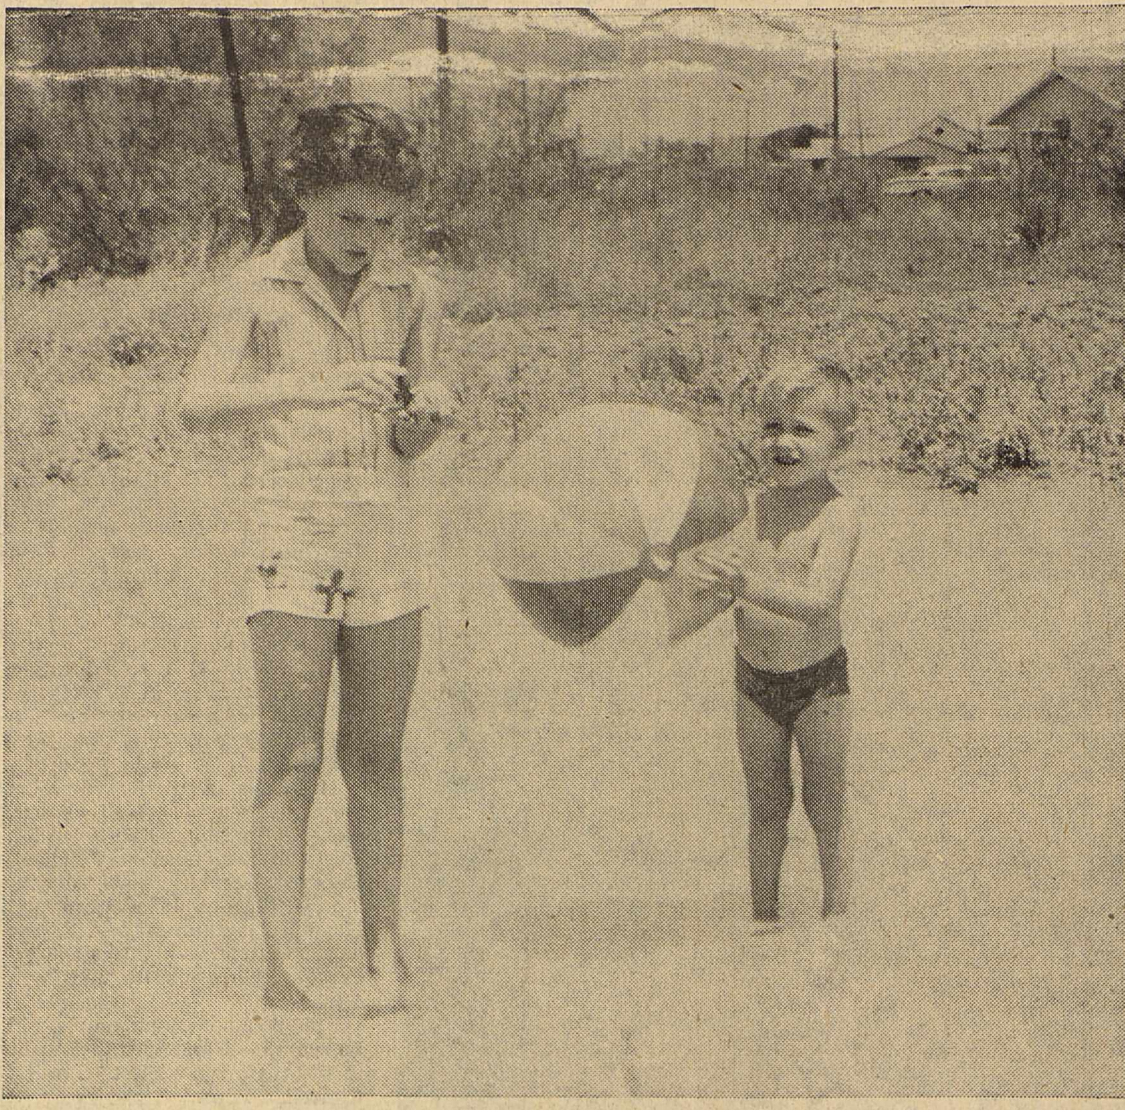

The well is 10 miles east of Plains and 1,985 feet from north and 660 feet from west lines of section 4, block D, John H. Gibson survey. It is one mile north of the Ownby field.

Shell Oil Company dually completed No. 1 R. L. More Estate, eight miles east of Plains in East Yoakum County and 5/8-mile southwest of a recently completed 3/4-mile northwest extension to upper Clear Fork production in the Ownby multipay pool.

From the upper Clear Fork, it pumped 158 barrels of 28.7-gravity oil, plus 23.3 per cent water, in 24 hours from perforations at 6,640-6,830 feet, after being acidized with 5,500 gallons.

A location south extension to San Andres production in the West Ownby pool, it pumped 96 barrels of 31.5-gravity oil daily, plus 14 per cent water, through perforations at 5,272-5,318 feet, after treatment with 3,500 gallons of acid.

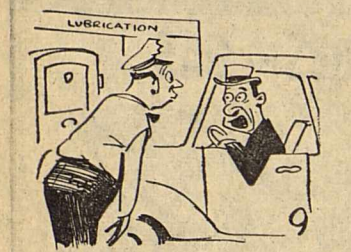

Location is 1,980 feet from

RAIN, RAIN DON'T GO AWAY might well be the cry of Joe and Suzann St. Romain as they play in a rain filled street in Plains. Farmers and stockmen were jubilant as rain fell Sunday and Monday nights over the area.

Thank You, Friends!

I wish to express my sincere appreciation to all those who worked for and supported me in my recent campaign for the office of Sheriff of Yoakum county.

I will endeavor to be worthy of the confidence you have placed in me . . . and will serve as your Sheriff to the very best of my ability.

Again, thank you very much.

V. E. Sanders

To All My Friends and Supporters

On behalf of myself and my family I would like to thank you for all the help and support in my campaign.

I will try to do the job to the best of my abilities as your Commissioner.

Again, I say thanks.

Raymond Bookout

north and 660 feet from east lines of section 486, block D, Gibson survey.

Amerda Petroleum Corporation, operating from Midland, will drill No. 1 C. Bedford as a northeast flanker to the discovery well and lone producer in the Fields, South (Devonian) pool in Northwest Yoakum County.

It is six miles northeast of Bronco and 1,980 feet from west and 2,010 feet from south lines of section 183, block D, John H. Gibson survey. Contract calls for a hole to a possible 12,750 feet.

The project is one-half mile north and three-quarters mile east of the Texaco well on the Woodward fee which opened the area for Devonian production several months ago.

H. Garrett Oil Company has completed its No. 1 Gowans-Jones in the Brahaney field in Yoakum County, six miles southwest of Plains.

The well flowed 147.54 barrels of 32-gravity oil with no water on a 24-hour potential test through a 24/64-inch choke and from perforations between 5,240-5,260 feet which had been fractured with 10,000 gallons, Gas-oil ratio measured 1,894-1. Tubing pressure measured 275 pounds with a packer being used on the casing.

Wellsite is 660 feet from south and east lines of section 473, block D, Gibson survey.

Annual reunion held by Curry families

Children, grandchildren and great-grandchildren of the late Rev. and Mrs. J. F. Curry, widely-known and beloved pioneer West Texas church workers, held their annual family reunion Sunday June 5 in the home of a daughter and family, Mr. and Mrs. Borden Davis at Tohoka.

Ten of the eleven children and their families were present including: Mr. and Mrs. Roger Curry and Mr. and Mrs. Joe Curry of Plains; Mr. and Mrs. Charlie Curry of Dallas; Mr. and Mrs. John Curry and Mrs. Virginia Williams of Seminole; Mr. and Mrs. Jess Whittington of Lakeview; Mr. and Mrs. Bob Darnell of Odessa; Mr. and Mrs. Jim Cupp of Tucumcari; and Mr. and Mrs. Ed Couch of Rule; and the host and hostess, Mr. and Mrs. A. L. Curry of Dallas were unable to attend.

5 generations of eldest daughters

THE YOAKUM COUNTY REVIEW
Plains, Texas, Thursday, June 9, 1960 Page 5

FIVE GENERATIONS OF ELDEST DAUGHTERS SHOWN

There is in the lineage of the family of Mrs. Dorothy Lowe of Plains, an occurrence that is unique. On the maternal side of the family there are five generations and each is the eldest daughter of the eldest daughter. When Amanda Kay Phillips, Mrs. Lowe's granddaughter, was born last July 17th, it was the second time in the last two generations that there were living five eldest daughters of eldest daughters of the family.

Reaching back into the middle of the last century, Lelia Miller was born in the State of Mississippi. She married a Mr. Shoemate, and each possessing adventurous, pioneer blood, they moved to the Territory of Oklahoma, to the little settlement of Hinton. Later, this couple moved to Eastland County, Texas, near the present town of Cisco, where a daughter Katie was born. Katie married a Mr. Reed and the young couple moved to McKinney, where their eldest daughter, Zora was born. In 1917, this family moved to Ralls in West Texas. Zora married Mr. Midkiff and they lived for a time in Collinsville where their eldest daughter, Dorothy, was born. A few years later, this family moved to Ralls where Mrs. Reed and Mrs. Midkiff now reside. There Dorothy married Morris Lowe, and Macene, their eldest daughter was born. Early in the 1940's, the Lowe family moved to Plains, where Marcene married Gene Phillips and in July 1959, Amanda Kay Phillips was born.

Marcene was five years old when her great grandmother Lelia Shoemate passed away, so far five years there were five generations of eldest daughters of eldest daughters, Lelia, her daughter Katie, her daughter Zora, her daughter Dorothy and the baby, Marcene.

Now, again, there are five generations of eldest daughters, Mrs. Katie Reed, Mrs. Zora Midkiff, Mrs. Dorothy Lowe, Mrs. Marcene Phillips and Amanda Kay, age eleven months. Congratulations to all members of this family on their rich and interesting heritage.

Allan Stotts of Lubbock is spending the summer with his grandparents, Mr. and Mrs. Harvey Stotts. He will be joined this week by his brother, Craig. Both boys spent several weeks last summer here and have many friends who welcome them back.

Judy Lowe, daughter of Mr. and Mrs. Jack Lowe, is home for the summer after attending Louisiana State University last term as a literary science major. Judy, a high academic student, is a 1959 graduate of Plains High School.

Eastern Star installs new officers for '60-61

In a very impressive and beautiful candlelight ceremony of officers for 1960-61 of the Plains Chapter of the Order of the Eastern Star were installed Monday evening in Masonic Hall with Louise Goehry, installing Officer; Wilma Powell, installing Marshall; Norelle Sloan, installing Chaplain; Christine Duff, installing Organist; and Irella Henard, installing ceremonies.

New officers installed were: Janet Bryson, Worthy Matron; Earl Bryson, Worthy Patron; Louise Cobb, Associate Matron; and Paul Cobb, Associate Patron; Viva Hale, Secretary; Mabel Camp, Treasurer; Mary Lou Parks, Conductress; Rita Mae Snodgrass, Associate Conductress; Lillian Luna, Chaplain; Addie McGinty, Marshall; Lois McGinty, Organist; Shirley Sudderth, A. C. H.; Blanche Spencer, Ruth; Celes Anthony, Esther; Lucretia Cheek, Martha; Romalee Elmoer, Electa; Ruth O'Neal, Warde; and Jesse Hale, Sentinel.

Mrs. Bryson's theme is "Happiness", her emblem is "The Open Bible and the Golden Rule," her colors are shades of brown and gold, and her motto is "Keep a smile on your lips and

a song in your heart." Refreshments were served by the chapter consisting of punch and cake carrying out the Worthy Matron's colors.

Meil, Farquhar rites to be read Sunday

Mr. and Mrs. Richard Meil announce the approaching wedding of their daughter, Barbara Meil, to Royce Dean Farquhar, son of Mr. and Mrs. T. B. Farquhar, all of Plains, to be read at 2:00 p.m. Sunday June 12 in First Baptist Church, Plains.

All their friends and classmates are invited to attend at the church.

CONGRATULATIONS

Congratulations to Mr. and Mrs. J. L. (Ben) Taylor on the birth of a son, Mikell Scott, weighing 7 lbs. 6 ozs., Wednesday June 1 in Yoakum County Hospital. Mr. Taylor is in the contracting business.

Sunday guests of Mr. and Mrs. Tommie McDonnell and family were her parents, Mr. and Mrs. Barney Lewallen of Lubbock, recently of Santa Anna.

Club Council meets

The Yoakum County Home Demonstration Club Council met Tuesday, June 7 at 1:30 p.m. in the Club Room with regular business being conducted.

Ribbons and awards are to be presented at the Junior 4-H Bake Contest. Final plans were made for serving the Dale Carnegie Course members at their meetings. A pink and blue shower for Mrs. Bobby White was planned for June 17 from 3 to 5 p.m. in the Club Room with all her friends to be invited to attend.

Council members present for Tuesday's session were: Mesdames Tom Box, Preston Murphey, Jim O'Neal, I. L. Smith, John E. Fitzgerald, Hayden Box and Alton Billings.

Sgt. and Mrs. Fred Napier and little son Terry left Tuesday for Camp Pendleton, California where he will be stationed with the U. S. Army. He has recently returned to the states from a 14-month tour of duty overseas and has visited his parents at Widen, West Virginia and her parents, Mr. and Mrs. Joe Wilson here during the past month.

NEW FHA OFFICERS FOR 1960-61

Installation of officers held by local FHA chapter

Plains F. H. A. Chapter held their annual spring slumber party Thursday, June 2 in the school homemaking department. The doors were closed at 10:00 p.m. and at 10:15 installation of officers for 1960-61 began with out-going president Annette Sudderth presiding.

Officers installed in the lovely and impressive ceremony were: President, Roberta Snodgrass; Vice-president, Shirley Gayle; Secretary, Sandra Smith; Treasurer, Louise Held; Historian, Lela Parks; Parliamentarian, Sheron Smith; Pianist, Sue Bookout; Song-leader, D'Lynn McGinty; Photographer, Billie Jean Coke; and Reporter, Kaye Spencer.

Following the installation, Mrs. Brown was complimented with a going away party and gift shower for her new home as a token of appreciation from the chapter. She and Miss Carolyn Nelson, new homemaking in-

structor, were presented corsages of red roses. From 11:00 p.m. to 6:30 a.m. every minute was chucked full of fun for all. The girls played volleyball, cards, other games, ate and made every effort to find a pace to snitch a few winks of sleep. The party was truly a success and enjoyed by all.

Guests for the installation ceremony were: Mrs. Homer Sudderth, Mrs. Neil Parks, Mrs. Jesse Snodgrass, Miss Janelle Parks and Rita Jo Snodgrass. June 23, 1960 was set for the annual FHA picnic.

Members present for the evening and slumberless morning were: Roberta Snodgrass, Lela Parks, Dana Dyer, D'Lynn McGinty, Marilyn Jones, Paula Tidwell, Sandra Lewis Letha Watson, Jean Burt, Alice Hinkle, Betty Stewart, Evelyn Jaquess, Donna Borland, Leta Stewart, Sheron Smith, Naomi Maynard, Linda Salyer, Kaye Spencer, Annette Sudderth, Shirley Gayle, Louise Heald, D'Lois McGinty, Barbara Meil, Carolyn Murphey, Ruth Hinkle, Dixie McClellan, Linda Fitzgerald, Kathryn Stroud, Sandra Williams and Sandra Smith.

Out of town guests were Misses Sandy Veden, Karen Clements, Wanda Boecker and Carolyn Nelson.

The Romans ruled France for 500 years after Julius Caesar conquered the Gauls.

Mrs. Jerry Taylor honoree at shower

Mrs. Jerry Taylor was complimented with a "lullaby" shower Wednesday afternoon in the home of Mrs. Carrie Huff, near Tokio.

Guests were greeted by Mrs. Huff and registered by Mrs. Carl Rains. Mrs. Harvey Romans and Mrs. Royce Kelley served from the beautiful green net over white refreshment table. The house was decorated with the same fresh and lovely colors.

Hostesses were Mesdames Lewis Waters, Charles Trout, A. L. Milstead, Joe Willis, Joe Pate, Fred Fuller, Romans, Rains, Kelley and Huff.

SHOWER SLATED

A pink and blue shower will be held for Mrs. Bobby White, former home demonstration agent, Friday, June 17 from 3 to 5 p.m. in the Club Room.

Everyone is invited by the hostesses, four Yoakum County Home Demonstration Clubs.

Doyle Rachel of Corpus Christi, formerly of Denver City where his father was with Humble Oil Co., is a guest of Mr. and Mrs. Rusty McGinty this week. A student in a Corpus Christi Junior College, he is presently employed in the lab of Sun Oil Co. Mr. and Mrs. Lynn Alford and son Tommy of Lamesa were Sunday guests of the McGintys. Tuesday callers in the McGinty home were Mr. and Mrs. Joe Christian and daughter Genie from Brownfield.

Eleven years ago on June 9 The Yoakum County Review reported the following news.
Rain and hail damaged crops over the county as thunderstorms rolled over the plains Sunday and Monday nights. Over 1.38 inches of rain fell with large hail stones reported in the south part of the county.
Paul Cobb had the first wheat harvest in the county. Yield was 35 bushels per acre.
The women of the Methodist Church had a Saturday bake sale in the courthouse.
E. L. Neuge is named pastor of the Methodist Church.
The seniors of Plains High School returned from their trip to Colorado.
The Lions Club had a successful clean-up campaign.

Results of Second Democratic Primary

E. W. Craig, newly elected tax assessor-collector, becomes the first elected man to hold this office in Yoakum County since it was split a year and a half ago.

Election

(continued from page one)

was that five write-in votes were cast for Woody Sullivan, Denver City police chief who ran a poor third in the May 7 balloting for a nominee for County Sheriff. In addition, L. D. Williams received two write-in votes for Constable, Precinct 1.
In balloting for the state office of judge of the court of criminal appeals Yoakum County voters gave 937 votes to Davidson and only 740 to McDonald. The Bryan County jurist won nomination to the post, however, with 380,687 votes in the state compared to 346,413 for the incumbent, Davidson.

The vote in Yoakum County's second primary was made official on Monday afternoon when the County Democratic Executive Committee met to canvass ballots. Canvassing committee was composed of R. B. Woodward, Bill Story, Roy Fitzgerald Carl Lowrey and Marguerite Barron, secretary.

Wheat acreage in Yoakum County is measured by ASC

Total measured wheat acreage in Yoakum County is 1,563.8 acres on 49 county farms according to W. M. Overton, manager of the Yoakum County Agricultural Stabilization and Conservation Committee.

Overton reported that 22 of the farms do not have a wheat allotment and each has 15 acres or less. He explained that under the present wheat marketing quota regulations any farm may have 15 or less acres for sale without having to pay the penalty tax.

According to Overton, farmers must have a wheat marketing card to sell wheat without paying a penalty and all farms in the county that have wheat have been measured and a card has been prepared for the producer. Cards may be picked up at the county ASC office or will be delivered on request.

Under the 1960 wheat program year, Yoakum County farmers had wheat allotments totaling 2,485.9 acres. This compares with 1961 allotment of 2,434 acres for the 1961 program year. 1961 farm wheat allotments will be mailed to the farm operators about July 1.

Overton also explained that new wheat bills are pending in Congress at this time and the wheat program may be changed for 1961.

Wheat loan price support on 1960 produced wheat to producers is \$1.79 per bushel for wheat stored in Yoakum County and other nearby counties for number one wheat. The service charge for farm stored wheat is one cent per bushel and one-half cent on wheat stored in approved warehouses.

If wheat is stored in approved warehouses, Overton said, a storage charge is deducted which is 12 cents at this time. The 22 farmers having wheat without allotments are not eligible for CCC loan.

Other information, such as maturity dates, etc., may be obtained at the county ASC office.

Guests of Mr. and Mrs. Gene Phillips and Amanda Kay Sunday were Mr. and Mrs. V. E. Phillips and Charles Phillips of Big Spring. They were joined Sunday evening by Gene's sister and family, Mr. and Mrs. Ervin Bridge of Tokio. Monday guests in the Phillips home were her aunt, Mrs. Bonnie Lowe and daughter Sue, and Mrs. Hazel Bond of Brownfield.

Civil jury trials are scheduled for Tuesday

One venue has been summoned this week for jury duty in district court, with prospective jurors ordered to report for duty Tuesday morning, June 14.

In addition, notices to grand jury have also been mailed, with members to convene on Monday. Called for grand jury are C. B. Holcombe, Mrs. W. R. Shook, Virgil Short, James C. Brown, Robert W. Thurston, Dewey Adair, G. G. Kirby, and Mrs. Joseph Sharp, all of Denver City; Tom Warren, Ford Hawkins, Mrs. Pat Henard, Jim Story, T. E. Sellers, J. L. Best, of Plains; Homer Sudderth, Tokio and Mrs. C. L. Gayle, Bronco.

Petit jurors summoned are F. W. Kidwell, Mrs. J. K. Pevehouse, Clyde Goldston, Herschel Dailey, Harold P. Burton, Mrs. Leroy Henson, Bob Van Nest, Mrs. Cecil Bickley, W. L. Olive, Mrs. M. J. Partin, Wallace Anderson, Onard Upton, C. A. Prewitz, Douglas Roberts, Kenneth Polston, Mrs. I. M. Robertson, V. R. Brown, B. J. Dupree, J. R. Weems, all of Denver City; Nathan Uselton, L. O. Heald, E. O. Owens, K. O. Hendricks, Lloyd Bowers, Mrs. Dorothy Lowe, J. M. Overton, Mrs. Lloyd

Coke, R. B. White, Tom Barron, Mrs. C. J. Coffman, Foye Cogburn, Joe M. Evans, Jr., Joe F. Kennedy, Ralph McClellan, Vance Glover, Raymond Bearden, W. B. Scott, Mrs. James Warren, Preston Murphy, Mrs. Paul Cobb, S. T. McDonnell, Mrs. E. O. Winkle, Mrs. A. E. McGinty, all of Plains; A. K. Gilliam, C. C. Perkins, G. W. Brantley, Tokio; R. N. McSwain, I. M. Conner, Seagraves.

Slated for trial before Judge M. C. Ledbetter are the following civil cases:

Sinclair Oil & Gas Co. vs. W. C. Huffaker, Jr., and others, injunction; D. C. Newsom vs. N. F. Stovall, collection of debt; Hanover Fire Insurance Co. of New York vs. Westwind Gas Company, damages; Earl R. Sisco vs. Standard Insurance Co., compensation; Frank McCurtur vs. Texas Employers Insurance Association, compensation; J. T. McClure vs. Argonaut Insurance Company, compensation.

Mrs. Sam Agnew, mother of Mrs. H. G. (Bob) McDonnell, underwent major surgery Wednesday of last week in a Lubbock hospital. Mrs. McDonnell, who has been with her mother most of the time, reports she is improving steadily.

Don't forget to join in the Paint-up, Clean-up and Fix-up for Plains next week. If you don't have the necessary tools help your neighbor and then borrow his tools. Let's make Plains a more sanitary and beautiful place to live.

Driving classes have 28 students enrolled

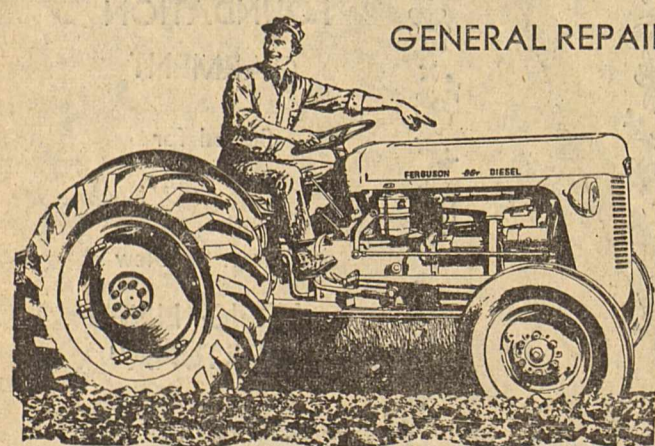

"Sportsmanlike Driving" is the text of the drivers education course being taught by Coach L. T. (Rip) Sewell this summer.

Classes began Monday with 28 teenagers and adults registering, according to Sewell. Textbook study is being conducted from 9:00 a.m. to 12:00 noon and from 1:00 p.m. to 4:00 p.m. Monday through Friday of this week with students going to Brownfield one day next week to take tests for their restricted license provided their work this week is satisfactory.

Students have been heard to say, "Boy, you have to know math and do a lot of it in the classes we are having," or "Shucks, there's a lot more to driving or at least to being a good driver than just steering the car down the road," or "Did you know it takes 30 feet to stop a car just going 15 miles an hour?"

The youngsters advise the adults to take this course, too.

The first steel containing both the alloying elements nickel and chromium was manufactured in 1893 in France.
